French and British Gains Continue

Germans Retire in Disorder Before Successful Advance of Allied Troops—Galloping Cavalry Clears Open Fields and Hundreds of Tanks Follow Everywhere—Scores of Villages Taken—Enemy Must Retreat to the Hindenburg Line.

MIGHTY WEDGE IS DRIVEN BETWEEN GERMAN ARMIES

Noyon is Now All But Enveloped and Important Town of Laon Will Shortly Be Outflanked, Forcing German Retirement From the Vesle River.

THE German battle line in France is still crumbling under the impetus of the attacks of the French and British. From the region of Soissons around the curve in the front to the vicinity of Lassigny the enemy has been visited with further heavy defeats, while farther north, between the Somme River at Bray to the south of Arras, Field Marshal Haig's men have continued their victorious thrusts. On no sectors of the front have the Germans been able to stay their feet, who have captured a large number of additional towns and strategic points which in the further prosecution of the offensive are of the utmost strategic value. Nowhere is the enemy being permitted to pause for breath. The armies of Haig, Mangin and Humbert are pressing their advantage with a strength that brooks no denial of their efforts. Thousands of prisoners, numerous guns and machine guns and large stores of war supplies have been added to the stocks already in allied hands as trophies for their valorous work since the tide of battle was turned against the enemy by the commencement of General Foch's offensive on the Marne, July 18. To the British alone in the past two days have come more than 5,000 prisoners.

In a new offensive begun by Haig from the north of the Somme to Albert, an advance of two miles eastward has been made over the six-mile front. In this fighting the Town of Albert, on the Ancre, the keystone of the German defence protecting the Germans north of the Somme, has been taken. Here the British made 1,400 German prisoners. The Ancre River, to the south of Albert, was crossed by the British in their drive, thus forming a serious menace to the enemy around Bray, where at last reports the Americans were in the battleline. Desperate resistance has been offered to the further eastward advance of the British in the sector immediately south of Arras, where the important railroad town of Bapaume seems to be the immediate objective. Particularly fierce fighting occurred at Achiet-le-Grand, but also the town changed hands many times, the advantage belonged to the British at last accounts. Further important penetrations of the enemy line had occurred, and the British were operating west to the east of the Bapaume-Arras railway.

Under the further progress of the French armies from the vicinity of Lassigny to Soissons a mighty wedge seemingly has been driven in between the armies of General von Boehn and the German crown prince. Over the entire front the Germans have been further pushed back, at some distances from two to three miles, and in the retrograde movement the enemy was forced to abandon large numbers of guns. Noyon is now all but enveloped, and the hill and wooded country in this vicinity almost cleared of the enemy. The Divette River has been crossed and both the Oise and the Ailette rivers have been crossed, and the onward thrust of the French of the eastern end of the line from Soissons northward seems likely to bring about shortly the outflanking of the important Town of Laon and the forced retirement of the Germans from the Vesle River northward across the Aisne. Viewed in all its aspects, the allied offensive seemingly shows that General Foch has the initiative entirely in his own hands and that he purposes to press his advantage for the little more than two months of good fighting weather that remain before the winter season sets in. Indeed, it is not improbable that he may elect to keep after his quarry even when the cold descends. The Germans nowhere are standing with their usual zeal, and Foch now has a greatly strengthened army.

FOUR THOUSAND GERMANS TAKEN

COUNTER CRUSHED

Battalion of Enemy Wiped Out—Advance on Bailleul.

With the British Army Headquarters in the Field, Aug. 22. Evening.—The position on the evening of Wednesday, when the battle subsided between Moyenneville and Baucourt, was that we had despatched ourselves along nearly the whole of the railroad between these places. Except along the Miraumont sector, which was strongly garrisoned, our line ran along the eastern slope of the contour between which and the Ancre the town was situated. We had again back in the vicinity of Achiet-le-Grand, to the west of the railway skirting it, and were maintaining a heavy machine gun barrage upon the enemy, who had concentrated hereabouts at Beausgard, between Miraumont and Puisseux. After much sharp fighting the place, having changed hands successively, finally came into our possession. Thence the line bent east of Achiet-le-Grand to the railway which follows northwards. During the night the enemy bombarded and bombed our positions, but their work was child's play compared to the performances of our guns and our airmen. This morning at dawn the situation was fairly quiet. Shortly after sunrise a counter-attack developed towards the two flanks of our advanced line, similar to the attack against the Guards division by a battalion of the 12th German division, which was so successfully repulsed that the enemy force was wiped out. None of these counter-attacks was pushed home with great strength or determination, nor have they anywhere been the direct cause of our giving up ground. An operation launched on high ground between Albert and Bray was eminently successful, over a thousand prisoners being taken and making a total with General Byng's captures of the 21st, about 4,000 in all. In Flanders we are steadily advancing towards Bailleul. Our casualties have been very light.

WHOLE OF THEIR OBJECTIVES TAKEN ON A SIX-MILE FRONT

In Addition to Recapturing Albert, British Troops Advance Two Miles, Take More Than 5000 Prisoners in Two Days and Beat Off Persistent Counter-Attacks.

LONDON, Aug. 22.—The Town of Albert, 18 miles northeast of Amiens, on the Ancre River, has been recaptured by the British, who also have obtained all their objectives in the fighting today between Bray-sur-Somme and Albert, according to the official communication from Field Marshal Haig tonight. Over the six-mile front the British advanced two miles. The text of the communication follows: "In our attack between Bray-sur-Somme and Albert we have been completely successful, capturing the whole of our objectives at an early hour and advancing two miles on a front of more than six miles.

"We have retaken Albert. "There was considerable resistance at certain points, especially on the slope north of Bray, the town itself not forming a part of our objective. "We have captured over five thousand prisoners in two days. "We captured in Albert 1400 prisoners and a few guns. "In counter-attacks in the Miraumont sector the enemy entered our positions, but was driven out again. The same thing happened northeast of Achiet-le-Grand. Hostile attacks east of Courcelles and east of Moyenneville were also repulsed."

NUMEROUS VILLAGES NORTH OF SOISSONS HAVE BEEN TAKEN IN THE FRENCH DRIVE

Divette River Reached From Its Mouth to Evricourt and Lines Carried to the Outskirts of Quierzy.

PARIS, Aug. 22.—Numerous villages running northwest of Soissons have been taken by the French, whose drive along the whole front continues, according to the war office announcement tonight. The most important of the places captured is Pommiers. The statement says: "Our troops continue to advance along the whole front. We have reached the Divette River from its mouth as far as Evricourt. We have carried our lines to the outskirts of Quierzy. "We have occupied St. Aubin, Selens, Bagneux, Epagny, Bleux, Vauxreux and Pommiers. The material abandoned by the enemy between the Aisne and the Oise is considerable. More than 200 cannon have been counted since Aug. 20.

GERMANS RUN BEFORE FRENCH WITH COLUMNS IN CONFUSION

Gen. Mangin's Men Approach Coucy Forest and Widen Their Hold on Oise—Gen. Humbert's Troops Capture Thiescourt and Height of Plemont.

FRENCH HEADQUARTERS IN France, Aug. 22.—General Mangin's army has advanced with great rapidity. Up to noon it had advanced ten kilometres from yesterday's line in certain places. The Germans have been harassed in their retirement. Confusion reigns among their units. The French line is uncertain, owing to the swift movements in this open warfare. The cavalry is advancing in the open field continually at a gallop, exploring woods and farms. Tanks are following everywhere, reducing machine gun nests. Batteries of artillery are coming up at full trot and taking up new positions. The retreat of the Germans before both the third and tenth French armies continues today, with increased speed, over a large part of the battlefield, and in some cases in disorder. General Mangin's men are approaching the Coucy forest and are nearly on the line held in April along the River Ailette. They have also widened their hold on the Oise to Bretigny, midway between Noyon and Chauny. The French advance towards the roads leading to Chauny adds another menace to the Hun's line of retirement, and explains the acceleration of the enemy's retreat. Bourguignon, St. Paul-aux-Bois and Quincy today, giving the hands of the French today, giving the command of the valley of the Ailette from the region of Coucy-le-Chateau to the Oise.

General Humbert's troops also are pressing the enemy vigorously, having occupied the height of Plemont, just south of Lassigny, which they surrounded yesterday. They have captured Thiescourt, which completes the conquest of the group of hills known as the Thiescourt Massif. The enemy now has only a precarious hold on the valley of the Divette River, in which French cavalry is now operating.

Several thousand prisoners have been taken since Wednesday evening, and trophies in such great quantities that this far it has been impossible to count them also have been captured. General Mangin's troops advanced seven miles during the night, and this morning were rushing the enemy's rear-guard so energetically that the retreating columns were thrown into confusion.

ENEMY GIVEN NO TIME TO WRECK OISE BRIDGES

Important River Crossed by French in Pursuit of Germans.

With the French Army in France, Aug. 22.—So hot on their heels was the French advance guard that the Germans had no time to destroy the bridges behind them over the Oise. Some of these were found intact. Others were only partially destroyed. While the German rear-guard was making a last stand to protect the crossing of the stream, long lines of wagon trains could be seen across the river encumbering the roads leading to the north.

EXHIBITION VISITORS ARRIVING

All indications point to a record-breaking attendance at the coming Exhibition. Already visitors are arriving in increased numbers, and all the old down town firms are adding to the force of clerks to accord them a welcome and show them through their stores. One of the spots invariably listed by out-of-town visitors for inspection is the fur department at Dineen's. Mr. Dineen says that even the warm weather does not seem to detract from the interest shown in the beautiful stock of furs now displayed in that department. As a matter of fact, many are already taking advantage of this extra assortment of improved styles to pick out the one desired and place their order for later delivery. The Dineen Company looks forward to this season of the year as a time for renewing old acquaintances and making new friends.

BRITISH IN FIERCE FIGHTS FROM ARRAS TO SOMME

Two Armies Threaten to Pocket Germans and Already Have Taken Thousands of Prisoners—Streams of Machine Gun Bullets Wither German Ranks—British Losses Light.

WITH the British Army in France, Aug. 22, 3:30 p.m.—There has been fierce fighting today along a large section of the British front, to the south of Arras virtually thru to the River Somme. Again the British have been victorious. The battle north of the Ancre raged all day long, while ten thousand yards to the south another British force, which crossed the Ancre during the night and opened an attack at daybreak, was driving steadily into the enemy positions on the high ground between Bray-sur-Somme and Albert, and had already captured a thousand prisoners. A counter-attack this afternoon north of Courcelles was completely broken down by the British before the Boche gained a single foot of ground, despite his evident determination to do so. The value of the positions along the embankment can readily be seen. The country is flat and the railroad runs along the top of a high made-to-order ridge, which overlooks and controls considerable shell-cleaned ground on either side of it. Fierce Fighting. To the south from Achiet-le-Grand to the Ancre, the armies in battle have been sweeping backwards and forwards, attacks and counter-attacks being repeated again and again. British patrols have been in Miraumont, but at the moment it appears that the British lines are actually a few hundred yards west of that town, in the neighborhood of Beausgard and Dovecote, on the road between Miraumont and Puisseux-au-Mont. On the northern half of the battlefield the British stormed the enemy positions and captured them inflicting terrible losses on the enemy. They

then pushed eastward at various points. They occupied Hamelincourt trench, well to the east of the embankment and were reaching out similarly at other points at the same time beating down desperate attacks launched by the enemy in an effort to regain his valuable lost positions. The British are still west of Achiet-le-Grand, but patrols have been in the town. The Boche counter-attacks here, as well as at Miraumont, were carried out by fresh troops, which have been seen rushing forward from the rear in an effort to relieve General Otto von Below's harassed seventeenth army. Enemy's Back to Ancre. At Achiet-le-Grand the attacks were in such strength that the British retired for a short distance from the outskirts of the town and contented themselves for the time being with pouring bullets into the enemy forces, who in their eagerness to win something, no matter how small rushed right into the centre of the target formed by the town. Southwest of Miraumont the British at latest reports, had the enemy with his back to the River Ancre. Tanks have been working well to the front of the British lines almost

"Resistal" is a name which requires no ex-
planation as far as goggles for flying men are
concerned. Goggles so named have the un-
splinterable lenses, which are the only reliable
protection against wind. The breakage of
ordinary glass in the event of a "crash"
threatens a loss of sight.

"Resistal" are the only goggles with non-
shatterable glass obtainable on the market at
the present time. The Optical Department is
featuring them at the exceptionally moderate
price of \$5.75 for the old style (with leather
bridge), and \$10.75 for the new featherweight
style.

TRAWLER AMUCK IN FISHING FLEET

Crew of Gloucester Schooner
Arrives at Canadian
Atlantic Port.

A Canadian Atlantic Port, Aug. 22--
Seven members of the crew of the
schooner Sylvania of Gloucester, Mass.,
which was sunk on the fishing banks
by the armed trawler Triumph yester-
day morning, arrived here today on
board a revenue cutter, which picked
them up not far from where their ship
was sunk, and they report that before
the Sylvania was sent to the bottom a
French schooner from St. Malo was de-
stroyed by the Germans. This was
probably the De Lagarde, the crew of
which, with the exception of three
men, missing in a dory, have landed
at another Canadian Atlantic port.
The crew of the Nova Scotia fish-
ing schooner Pasadena has arrived at
a port east of here, reporting their
vessel sunk by the trawler Triumph
on Tuesday night.

Saw Many Sunk Vessels.
An Atlantic Port, Aug. 22--An evi-
dence of probably additional, and so
far unidentified, naval or enemy
submarines along the Atlantic coast
were brought in today by officers of a
small coastwise sailing ship. Last
Monday, the officers said, when about
25 miles southwest of Cape Hatteras
they passed the hull of an iron
vessel, 200 feet long floating bottom
up. The following day, in the fore-

noon, when 11 miles off Winter Quar-
ter shoal the dismantled hull of a large
schooner was sighted. The same day,
at 1 p.m., seven miles east of Five
Fathom bank lightship, a four-masted
sunk schooner was passed, the top-
masts protruding from the water.
Their condition indicating the vessel
had been but recently sunk. Shortly
after two life belts, which were not
marked, were picked up.

Fishing Fleet Wiped Out.
Another coasting vessel which ar-
rived today reported to its agents that
while off Paramore Beach, Virginia,
200 barrels of engine oil and 100 cases
of automobile oil were picked up. The
report added that much additional oil
and cases were seen but could not be
taken aboard.

Montreal, Aug. 22--Practically the
entire fleet of the Maritime Fish Cor-
poration has been destroyed by the
trawler Triumph, which was captured
by a German submarine and armed,
both Canadian and American registry.
The exact number of ships in the
corporation is not known here, but
the fleet generally consists of nine or
ten vessels.

TEN MORE U. S. SHIPS.
Washington, Aug. 22--Ten ships,
with a total dead weight tonnage of
51,700, were added to the American
mercantile marine in the week end-
ing August 15, the shipping board to-
day announced. Seven of the ships
were steel and three wood. Eight
steel vessels and two wooden ships, a
total tonnage of 51,850, were launched
during the week.

RUMANIA SUFFERS TYPHUS OUTBREAK

Disease Particularly Prevalent
in the Districts Occupied
by the Germans.

Paris, August 8. -- (Correspon-
dence) Typhus has again
broken out in Rumania, particularly
in the part occupied by the Ger-
mans, and there has been a large
number of deaths. The victims are
mostly poor Rumanian peasants, and
little effort is made by the German
medical authorities to combat the dis-
ease. There is a serious shortage of
food, and those who do not die of
typhus usually succumb to starvation.
The Moldavian section of Rumania is
practically free from the epidemic.
This information was conveyed to the
Associated Press today by Herbert
Mayer, secretary to Charles J. Vo-
nicka, American minister at Jassy,
who has just returned from Rumania
via Austria and Switzerland.

man sanitary department, and who
would force him to enter the infected
houses and bring out the patients for
inspection. There had been several
deaths among the German physicians
from the disease, and as a result all
German doctors had an intense dread
of it. They refused flatly to minister
to the sick or dying.

This work was left to Dr. Bayne,
whose immunity from the malady was
a constant source of mystery to the
Hun physicians. Dr. Bayne, who
braved all forms of contagion, would
go into the little mud hovels of the
peasants and carry the patients out
for observation by the German medi-
cal officers. The Germans would look
the case over cursorily and then de-
clare, "Yes, that is typhus; take the
patient back, and put up a notice in
red, 'He who enters here dies.'"

Dr. Bayne would give the unfortu-
nate sufferers what little treatment he
could, but he knew it would be only
temporary. The Germans showed the
most callous disregard for human life,
and the stricken inhabitants of the
villages would be left either to suc-
cumb to typhus or to die from starva-
tion.
For his heroic and unrelenting work
among the people in the Rumanian
villages, Dr. Bayne received, before
he left, the highest decoration within
the gift of the King of Rumania, and
was everywhere regarded as one of
the saviors of the people. Even the
hardened Mackensen, the German
field marshal, showed him special re-
ognition and sent him cigars and
other favors while in Bucharest.

BIG HAUL OF PRISONERS.
Paris, Aug. 22--The allied armies
have taken more than 100,000 pris-
oners since July 18, says Marcel
Hutin, in The Echo de Paris.

PLUNKETT SUGGESTS A MIDDLE PARTY

Sir Horace Recommends Es-
tablishment of a Purely
Irish Executive.

Dublin, Aug. 21--Sir Horace
Plunkett, chairman of the Irish con-
vention, has published a series of ar-
ticles in the Irish newspapers with
the object of inducing the government
to pass at once a home rule act for
Ireland upon the lines of the majority
report of the convention.
Pending the putting into operation
of the act, he suggested the establish-
ment of a purely Irish executive, com-
posed of men of all parties, and re-
sponsible either to the Irish conven-
tion, which has not been formally dis-
solved, or to the imperial parliament.
He appealed for the formation of a
middle party in Ireland of moderate
men.

Sir Horace's plan was not received
with favor by any section. The Free-
man's Journal, representing the Irish
party, objected to the formation of an-
other Irish party on the ground that
Ireland has parties enough, and that
its difficulties are "caused as much by
internal dissensions as by external be-
trayals." John Sweetman, for many
years a leading member of the Sinn
Foin party, and one of the few
wealthy men in its ranks, wrote to
say: "I cannot agree that England can
now settle the future government of

GEN. HUMBERT'S ARMY MAKES GREAT ADVANCE

Paris, Aug. 22--General Humbert's
army has made a great advance be-
tween the Maas and the Oise Rivers,
and has reached the Allethe River.
The French military men say this
makes the early fall of the town of
Noyon inevitable.

General Byng's army is encounter-
ing desperate resistance in the region
of Bapaume. Achiel-le-Grand chang-
ed hands several times late yesterday
afternoon and last night. The British
are now in that position.
French troops have reached the
Allethe River at several points. It is
not expected that the Germans will
try to hold the Allethe line, but may
retreat to the Oise.

CONVICTS AT WORK.
Paris, Aug. 19. -- (Correspon-
dence) -- Hundreds of convicts who
have been confined to the prison
at Sante have been placed
upon the work of preparing the en-
trenched camp of Paris. They have
been detailed to work upon the mili-
tary cantons.

PRINCE HOLDS REVIEW OF VALCARTIER TROOPS

Quebec, Que., Aug. 22.--H.R.H.
Prince Arthur of Connaught put in a
busy forenoon today, when shortly
after alighting from the train that
brought him from Montreal to this
city, he left with his suite for Val-
cartier Camp, where a grand review
of the troops at present quartered
there was held.

General Landry, commanding officer
of Quebec district, accompanied the
prince.
The party returned to town this af-
ternoon when at five o'clock an offi-
cial reception was tendered the royal
visitor at the parliament buildings. A
welcome address was read on behalf
of the lieutenant-governor, Sir P. E.
LeBlanc, and Sir Lomer Gouin, sur-
rounded by all the members of his
cabinet, who also paid a tribute of
homage to his royal highness.

Quebec Draftees Rushing In
To Take Advantage of Amnesty
Quebec, Que., Aug. 22--Draftees re-
porting for duty before the expiration
of the delay granted, are simply pour-
ing in. An average of 160 per day
have reported since Monday last, and
as the ultimate date for reporting
with immunity is drawing nearer,
their numbers rise. Such is the in-
flux reporting that since Monday all
hotels and lodging houses in Lower
Town and the Palais (railroad depot
district) have been filled to over-
flowing and accommodation had to be
tripped up in private houses to lodge
the men coming to town to enlist.

Some Have Been Wounded Three and Four Times in Present War.

For the fourth time, Lieut. C. Skelton, son of J. M. Skelton, Deer Park, is reported as wounded. Enlisting as a private in 1916 he was overseas in time to take part in the battle of Vimy Ridge in which he was both gassed and wounded. At Passchendaele he was again wounded, mentioned in despatches and decorated with the D.C.M. Returning to France again after receiving his commission was wounded for the third time. Capt. C. Stuart Burrows of 144 Close Avenue, who went overseas with the 189th Sportsmen's Battalion, has been wounded for the second time. He went to France with a draft from the 18th, as a lieutenant, and won his captaincy on the field. He is a graduate of the University of Toronto and a member of the Parkdale Club.

DOROTHY DIX'S TALKS CLOTHES AND THE MAN

By DOROTHY DIX The World's Highest Paid Woman Writer.

A young man is deeply in love with a pretty and refined girl, who refuses to marry him because of his slovenly personal appearance.

by another cheek that needs a safety razor, nor being pressed to a braid that should have the hose turned on it.

That men take so little trouble in trying to keep themselves looking good to their wives proves either that they are indifferent to what their wives think of them or else that they have such colossal vanity that they believe they are heart smashers no one can resist, no matter whether they are clean or dirty, pressed or rumpled.

Men grow sarcastic over women who judge men by appearance, yet when a girl is said, "what other measuring stick have we got?"

One thing is at least certain, and that is 'evidences in man or woman is a never failing indication of laziness or indifference to their appearance.

It is the spick and span man who keeps himself barbered, his trousers and sleeves creased, and his neck tie properly adjusted, who hustles out and grabs opportunity by the tail.

It is the man who is clean, but he presents a ridiculous appearance because he always has on the wrong sort of clothes.

It is the man who lacks perception and who is an easy mark whom anybody can take in and who is a man who makes lovable husbands and who are dead easy to catch.

It is the man who is energetic, alert, quick to see, and not afraid to take a little trouble.

It is the man who is clean, but he presents a ridiculous appearance because he always has on the wrong sort of clothes.

There Must Be No Strike During Exhibition.

A strike of the street railway men during the Exhibition would be a serious disaster to the city. We fear the city hall authorities do not appreciate the full importance and gravity of the situation.

It is not a question of who is right or who is wrong when such a grave possibility hangs over the community, but what action can be taken at once to postpone or end the crisis.

It matters not who is responsible, whether it be the men or the company, the injury to the community would be vastly greater than it could possibly be to either of the parties; and if either party refuse to settle or arbitrate the dispute the popular feeling will not be of a character to listen to explanations.

Congestion on Broadview.

Mayor Church has been finding fault with the Street Railway Company in general and the general manager, Mr. R. J. Fleming, in particular, for the congestion of traffic. No doubt there is some blame due to the scarcity of cars on some routes, but it is well known that it is not cars but lines to run them on are the chief need, and the lack of this accommodation a leading cause of congestion.

Mayor Church complains that there were 5,000 people on the Broadview line in one hour between five and six and they were packed into cars with seats for only 1,275. He accuses the Street Railway Company of not getting cars when Montreal or Kansas City can get them, and Hon. J. D. Reid can get them for the government.

Broadview avenue is partly served from Gerrard street and partly from East Queen street. The need is for another outlet, and but for the apathy and listlessness of the city hall authorities that outlet would now be provided. It is unquestionable that a line from the head of Broadview avenue across the Bloor street viaduct would settle the question of congestion in that district. Empty cars coming up Broadview could be filled and turn west over the viaduct to distribute their loads on all the north and south lines across Bloor street.

Even if the viaduct was open to the head of Parliament street and the lines joined up with the Parliament street line the congestion would be much relieved, and many would be glad to walk across Howard street who wish to transfer west or north rather than go down town and round about by Gerrard street or Queen.

The Hun as an Angel of Light. When the military forces of the Kaiser prove ineffective he redoubles his efforts with the "diplomatic" arm. His secret agents and plotters are busy all over the world to help him to evade the consequences of his infamous policy by arranging a "peace" in terms of Christian love, pity, forbearance and self-denial. The Kaiser will use any means to further his ends, and if the garb of an angel of light will serve to delude the world he will have his agents wear it. If the horns and hoofs of deviltry promise results he will employ them.

Sugar and Drugs. Editor: One of the words most frequently heard in discussions between business men is "taxation." What is taxation? A good many people are asking that question and the answer seems to vary according to the disposition and temper of the answerer. The general run of opinion appears to be that taxation is a sort of intangible evil which exists solely for the purpose of separating us from our money.

Coal or an Open Winter? Sugar and coal are the two scarce commodities at present. Sugar is scarce on account of shipping, which has been reduced by the submarine, but is chiefly occupied in moving troops and their supplies. There will be no hardship thru the scarcity of sugar, altho there may be great inconvenience.

WASHINGTON, AUG. 22.—Despatches from Russia today were of a somewhat disturbing nature to state department officials, Vice-Consul Robert W. Imbrie at Petrograd reported in a delayed despatch that members of the Bolshevik Government at the Russian capital had issued a pronouncement declaring that a state of war existed between Russia and the United States.

Re-establishment of civil government at Vladivostok and Archangel will be the first task of the international councils it was said by officials here who pointed out that such action at Vladivostok would show the military commands to devote themselves exclusively to clearing that region between Irkutsk and the Pacific of the Bolshevik and their allies, liberated German and Austrian prisoners. This accomplished, the work of the Vladivostok commission would be to push westward and eventually co-ordinate with the commission at Archangel.

PERFECTS NEW DEVICE TO RECORD EARTHQUAKES

Honolulu, T.H.H.I., Aug. 10.—(Correspondence).—Professor T. A. Jaggar, jun., director of the Hawaiian Volcano Research Association's observatory at Kilauea volcano, on the island of Hawaii, assisted by Dr. Arnold Bomberg, a physicist of the College of Hawaii, has perfected a device for the recording of earthquakes and earth vibrations which, it is expected, will greatly change existing methods.

The new instrument will be used to record the vibrations of the earth during the eruption of Kilauea volcano, which is expected to begin in the near future.

CANADIAN FRONT RELATIVELY QUIET

Enemy Holds Many Strong Points and the Country is Exceedingly Difficult.

With the Canadian Forces in France, Aug. 22.—Except for minor actions entered into by the enemy in the past two days has been relatively quiet on the Canadian front.

The enemy holds in force a number of very strong points and the country is exceedingly difficult. It is the old battlefield of the Somme of 1916 from which the enemy retired in the spring of 1917 to the Hindenburg line.

Its defences are practically intact and these include an elaborate trench system with fortified points of support and concrete and steel pill boxes.

It is, in fact, a very different proposition from the open rolling country which the great advance of a fortnight ago was made, while the network of wire and permanent defences have been little affected.

The weather has eroded the trench system, creating a condition of ground exceedingly difficult for the enemy's operation of tanks and without the aid of any considerable infantry advance can only be made with heavy loss.

An apt illustration of the difficulties to be overcome was applied yesterday by the brilliant action of the French troops in capturing St. Marcel-lez-Tripoli, the village stronghold, which to that date had stood in the way of an attack on Roye.

From the west and north the French fought their way to the station, just north of Roye, and had also obtained a strong foothold on Caesar's Camp, the village situated on the eastern side of the river. Two previous attempts had been checked, largely owing to the concrete pill boxes concealed in the thickets.

Rush Across Bridges. The attack opened at two o'clock with a heavy concentration of heavy mortars and a bombardment of the village. The French fought their way to the station, just north of Roye, and had also obtained a strong foothold on Caesar's Camp, the village situated on the eastern side of the river.
