HIGHER PRICE OR MILK PRODUCERS WILL STOP SUPPLY

Begins to Look as Tho Milk Will be Scarce Article This Time Next Week—Dealers and Farmers Both Talk in Obdurate Terms.

If the temper of the two opposing parties does not undergo some very radical and meliorating process before midnight of April 30, citizens will wake up in the morning to find the customary bottle of milk conspicuous by its absence.

The Toronto milk producers and the retail milk dealers of the city do not see eye to eye as regards the price of this indispensable adjunct of the household.

Local the milk Hill creamery had made all arrangements for taking the bulk of the cream from the Scarborough township.

Mr. Curry has issued a statement, in which he says: "I have carefully read and considered the proposal before me."

Mr. Potter last night disclaimed any intention of prosecuting the Producers' Association, either individually or collectively.

"I only wanted to know where we stood in the matter," he explains. "The President of the association, Mr. Amis, asked regarding the reported defection of the members, declared that what Mr. Potter considered was a contract was in many instances not a contract at all."

NEW PLANS SUBMITTED FOR RECLAIMING MARSH

Supt. Osborne of C.P.R. Interests on the Board of Control in Modern Proposal. Divisional Superintendent Osborne of the C. P. R., outlined a plan for the reclamation of Ashbridge's marsh before the board of control yesterday.

Mr. Osborne has in mind the transportation of thousands of employees to and from their work, and suggests that a trolley line be run from Cherry-street to the marsh.

While it is not likely that the big area to the east, which is also of reclamation, will be required for some time to come, it is not neglected in the plan.

TOOK THE MASKED BALL'S MELL NOW

Premier Whitney Refutes Ottawa Suggestions of Bad Faith on Part of Province in Petawawa Matter.

Premier Whitney made the following statement last evening: "With reference to the assertions made in the house of commons yesterday regarding the Petawawa Camp matter, I desire to say that the Ottawa people must not be allowed to get away from the issue."

No Doubt About It. "In answer to a question in the house of commons on the 24 of April, Sir Frederick Borden stated the position of the department in these words: "The government has not taken the interest of the lumber licensees, and they have, therefore, no claim to compensation."

Will Enough Now, But—A man in Mr. Fielding's place might be engaged in better business than making charges of bad faith, for which he must know he has no foundation.

These statements by two ministers cover our whole case. If the department of militia were not so concerned, no difficulty could have occurred; but, instead of that, the minister of militia took our property without any compensation.

Mr. Whitney was then asked, "Have you any reply to make?" "Certainly not, no answer whatsoever." Macdonald's Version.

OTTAWA, April 25.—(Special).—There were some bitter references in the commons this morning to Ontario's position in the Petawawa matter.

DR. M'CLENNAN BECOMES PROFESSOR OF PHYSICS

University Governors Make Several Changes in the Faculty Staff. The appointment of a president was not the only business done yesterday by the university board of governors.

Principal Falconer

PROF. FALCONER IS APPOINTED PRESIDENT OF THE UNIVERSITY. PRAISES SOUNDED ON ALL SIDES.

Board of Governors Unanimously Decide to Offer the Position to Halifax Principal—A Canadian Born, 40 Years of Age, Who Has Achieved a High Place in the Educational World.

IN CITY 3 WEEKS AGO NOW RESTING IN ITALY. Following upon The World's exclusive intimation on Tuesday that such a course was likely, Dr. Falconer's appointment to the Hill College, Halifax, was yesterday chosen by the board of governors as president of Toronto University.

Dr. Falconer is a Canadian born, and has achieved great scholastic distinction on both sides of the Atlantic. The following statement was made by the board of governors yesterday afternoon: "Robert A. Falconer, M.A., B.D., D. D., LL.D., Litt. D., of Halifax, has been selected by the board of governors for the presidency of the University of Toronto."

The administrative side of the presidency of the university is of very great importance. This situation is complex by reason of the different elements in confederation. Breadth of view, tact and sympathy with all departments are required.

Dr. Falconer is a Canadian. He was born in Prince Edward Island forty years ago. His father was the Rev. Alex. Falconer, D.D., of Pictou, N.S., and he was a member of the general assembly of the Presbyterian church in Canada.

His academic record is as follows: School Education—Queen's Royal College, Trinidad. Here he passed the Cambridge local examination with first-class honors.

Dr. Falconer is a man of high intellectual attainments, and his appointment to the presidency of the university is a fitting recognition of his achievements.

DANCE OF THE DREAMS.

When dreams decide to have a dance They wax the forest floor; The fiddlers of the fairy come To play the cobweb score.

A moonbeam lady leads the waltz, And then the dreams chaperone Until the golden dawn streams in To chase them all away.

It was a large and enthusiastic gathering that met in the Williams Cafe last evening to discuss the question of woman suffrage.

In the absence of the president, Dr. Augustus Stowe-Guille, who sent a telegram of regret at her inability to be present, the chair was occupied by Mrs. Flora MacDonald Denison, who gave an excellent speech referring to the national movement that was stirring the country, the size and growth of the organization, and the progress of the Woman's Christian Temperance Union, probably the largest organization of women in the world, have suffered as a plank in their platform.

Mrs. Denison read letters of regret from several prominent people, and introduced Mr. Farnham, who, in a short speech, expressed his interest in suffrage as a reform movement, speaking of prohibition as a certain issue, when it is possible to gain the unanimous voice of the people.

Mrs. Denison then read a letter from Premier Whitney, in which he said that women do not want suffrage. Mrs. James L. Hughes arose to say that the reason why most women do not want suffrage is that they are bound by centuries of tradition and circumstance, as well as by instinct and inertia; that women who held the same position in the business world as men were emancipated from such tradition.

In the old days women served; physical strength was paramount, and so sentimentality and servitude developed, and the damnable doctrine that women should win their way thru cajolery, which lowered her position in the world.

Hubbard and wife are two separate identities, and should be so represented—a state that would conduce to civility in men rather than detract from it.

Mrs. Calvert, who next spoke, held very radical views of the position of women 20 years ago, and enthused over the work of Mrs. Anthony and other wonderful women. She instanced the immense number of women organized in educational, progressive work, and said that peace and arbitration were necessary to bring about the desired result.

Dr. Willems, of the question of the political side of the question, and Miss Gibson, president of the telephone girls, advocated municipal ownership of the telephone system.

Miss Laura McCully of the fourth year, University of Toronto, made a similar speech, referring to the necessity of women emerging from the position of a chattel to man into his helpmate.

Dr. Murray spoke of motherhood as an appeal for suffrage, in that the intelligent, emancipated mother brought forth a citizen.

Short speeches were given by Dr. Harecraven, Prof. Church and Mr. Farnham, and Mrs. Brown, seconded by Dr. Willems, who, in a witty and witty of thanks to Mr. Smith of Peel and Mr. Sturges for their efforts in representation in behalf of woman's suffrage.

After singing the National Anthem, the gathering dispersed.

Women. There will always be something new to say about women as long as one is left among us. Man would always walk straight ahead if he did not meet a woman at

each step. She is a charming traveling companion, but one who does not know her way, and she prevents us from seeing ours.

Since the creation of the world fashions change constantly, but woman never changes.

To ascertain the age of a woman it is necessary to ask her, and to ask her her friend. She will say thirty, the friend will say forty, and then you take the average.

Women who excite in our minds merely exclamations of admiration are like Racine's tragedies—too perfect. One prefers those who excite interrogation points.

The heart of a woman is at once her friend and her enemy.—Translated for Transatlantic Tales from Lisésmot.

Impatience. It's sign of bad breeding. Besides, it doesn't hurry things a bit. It only makes people around you uncomfortable.

In Society. St. George's Hall, Elm-street, was last night the scene of the first annual at home of the Watsonian Club of Canada, and was well attended by a large and brilliant gathering of the members and their many friends.

The Watsonian Club consists of former pupils of George Watson's College, Edinburgh, Scotland, which is one of the largest and best-known educational institutions of the Scottish metropolis. The Canadian club is one of the many which are to be found in all parts of the world, and which are formed and upheld to keep up the old school spirit and comradeship among the members.

The ball was voted a great success, the Scotch dances, naturally being the favorites, especially, as they were danced to the music of the pipes.

Among those present were: Mr. and Mrs. G. G. Burnett, Mr. and Mrs. R. Muir, Mrs. and Miss C. MacIver, Miss Rosa Constantine, Miss Sibyl Alexander, Miss Martin Hawkes, the Misses Sanford, Messrs. Burnett, Muir, Falconer, Scott-Ken, Paterson, Gourlay, Learmonth, MacIver, Macpherson, Lawrie, Stokes, Shearer, Pomphrey.

The Society of Applied Arts are closing their beautiful exhibit on Saturday with a tea and musicale kindly given by Mrs. Fisher, at which the following well-known people have consented to assist: Mrs. TenEyck, Miss Lena Hayes, Miss Madeline Carter, Mr. Pigott and Mr. Leutz. The accompanying music will be played by Mrs. Barton and Miss Caldwell.

An entrance fee of 25 cents will be charged.

Mr. and Mrs. Melville P. White have taken Major Vaux's residence, 20 Tyn-dall-avenue, for the summer.

A quiet wedding took place at Fair-bairn last night, when Mr. George Fewler of Brantford was married to Miss Rosalie E. Sparks, eldest daughter of Mr. and Mrs. A. D. Sparks, the Rev. R. E. Baker officiating.

and Scanton Shorty to-day. He's very bitter about wasting all those years when he was young. It sets him back to my old time, when I could do something for Kansas, he's so good to me, but I'm no kind of use. I can't learn nothing. It's all on account of the queer things that goes whirling and spinning thru my head every now and then most wonderful.

The little man stopped suddenly. "But this ain't very interesting to you, ma'am," he said. "I'm a running on scandalous. A beautiful lady like you shouldn't care nothing about something like that. 'Oh, yes, yes,' she said, hurriedly. 'Yes, I want very much to hear. I'm much interested. Tell me.' She looked across at him with anxious eyes.

"How long were you living with these—these men—this gang? When was it that they found you, as you said, with your—head injured, and nursed you back to health?"

"Oh, it was near two years ago, ma'am," said the little man. "Only that wasn't out west; it was some where east. I don't know just where, but I don't know just where. Kansas was being very sick at the time. Kansas, he'd know. It was Kansas found me, with my head broke open. He told me so once, but he don't like to talk about it. I don't know why. Two years said the woman, in a whisper. 'Yes, of course, two years. And this Kansas, this friend—pal—of yours. Where is he now? Why is he not with you?'

The little man shuffled his feet and looked down at them. "Kansas, he's busy just now, ma'am," he said. "He's on a little job a few miles away. He didn't want me to help, because I ain't no manner of good. I always spoll everything. You can't train me, ma'am. Not even you couldn't. I always gives the whole game away and spoils everything. I'm a-going to meet him at a place he told me about—Kansas knows all this country here like a book—when his job done. Then if he makes a good thing, I'll be in closer to Kansas and me, with lots of money, and we can take the road without having to beg for a long time. We're very fond of the road. There isn't nothing finer. I don't know," said the little man, with sparkling eyes, "I don't know nothing inner anywheres than just shuffling along a road of a morning, before the sun is too hot, with nothing to think about or worry about except to wonder what has since the world began will turn up next. It's so various and sundry, the road is. There's such remarkable different things may be happening just round the bend, and usually it gets into your blood surprising. It was just like that this morning. I'd waked up nice and com-

1857—Ladies' Shirt Waist. With Front Yoke and Elbow Sleeves. Paris Pattern No. 1867.

A decidedly chic style of shirt-waist is here illustrated, made of lavender batiste with German val lace, and the simple geometric repetition of the pattern, which has the material cut away beneath the insertion, is novel and most becoming. In any of the light silks of the pastel tints this pattern would be appropriate for summer wear.

The pattern is in seven sizes—32 to 41 inches, bust measure. For 38 bust, the shirt-waist requires 3-4 yards of goods 39 inches wide, or 2-1/4 yards 36 inches wide, or 2 yards 42 inches wide; 12 yards of insertion to trim. Price of pattern 10 cents.

The World's Serial Story.

"Where," said Beatrice Faring "was this gang, of which you speak, living? Near here?" "No, ma'am," said he. "It was away out west—not far from Chi—that's Chicago, ma'am. They had a sort of camp, but I don't think they'd lived there long. They ain't there now, neither. They're scattered about on various jobs, the none of them ain't proper first-class jobs. They're only second-statement and mool-buzzers, and sometimes they plays gay-cats for vegg-men in the little towns. They tries hard to learn me the tale, but it ain't no good. No one couldn't make a gun out of me, I ain't even fit for mool-buzzing. I can't do nothing but tell tales. They likes the tales, the gang does, but after a bit, they gets suspicious and chucks me out."

"Suspicious!" said the woman. "How suspicious?" "Well, you see, ma'am," he said, "they says, the gang does, that I know's altogether too much about the tales I tells 'em, a gentleman lives and all that. They thinks maybe, I'm one of those newspaper reporters that goes out and lives with hobos and then writes 'em up in the prints, just like life, with the names and all. One of the gang finds a book somewhere that a man has wrote about hobos and vegg-men and all, and they begins to be leery of me and to sit about talking me over. I tries to tell them that the things is just tales that comes into my head, and that I treat 'em every gentleman like I pretend, but they never believe me. They something queer happens to make them suspicious, but it's all up with me. A dago man comes along one day with a dancing bear. No, he isn't a proper dago man neither, but a Frenchy. He wants to ask the way to the next town west from Chi, but he can't speak nothing but his own silly talk. I don't know how it happens, but all at once I finds myself schuffling away with him in his Frenchy lingo, fast as you please. I can't explain that to the gang—it just comes to me like I know it, and they turns very nasty over it all, and some of them wants to knife me because I know's too much about them to be let alone. But Kansas, he says, 'I ain't drop anybody as puts a finger on me, and so, finally, him and me comes away and starts east.' The little man's little became rather queer. 'You'd ought to know Kansas, ma'am,' he said. 'He's the finest pal a man ever has since the world began. He ain't a big gun, because he starts too late in life—him having been a gentleman once. He's only a second-statement man, but if he hadn't wasted all that time while he was young he might be speaking cribs with Shenandoah Red and Cal. Gray

able, with the little ants a-crawling over me, and the birds a-tittering cheerful over my head, and the sun in my eyes, and I started off that pleasant old dame as I tells you of, ma'am, she gives me the cold beefsteak and bread and luncheon, so that I'm proper fixed inside, and I comes a-trotting down the road so spry you'd think I was a kid.

I'd been pretending that I had heaps of money—a hundred dollars—that a foolish sum, but while you're a-pretending you might as well make it big—and I was sooking. I began to see dollars here, and a dollar there, and two dollars and a quarter somewhere, and which is a very pleasant way of passing your time—when I begins to see things that worries me. There's a white farm house with green shutters and a queer, snake-like thing on top. I says to myself: 'Here, I know that farm house. I've saw that before. And, I says, 'if I remember correct, there's a well with a long well-sweep just round the next bend. Sure enough, round the next bend there's that well with the well-sweep, and, at that, the things begins to go a-wheeling and spinning thru my head like they does sometimes—so fast that I can't catch hold of them—and I turns into this lunk here a-shaking like that. 'Herbert Herbert!' said the woman, starting sobbly.

"John, ma'am," said Herbert Buchanan. "Gentleman John"—ho, of course, I ain't a proper gentleman, me being a hobo. I can't think how it is about that farm house and the well with the well-sweep. Maybe I've saw something like them somewhere before. I don't know. It's very queer, but I has so many queer things happen to me, and a few more doesn't matter—only I wish my head wouldn't go a-buzzing and a-wheeling like it does. I don't like it. After that there fell between me and a short silence. The little grey man, whose garrulity seemed for a while to depart from him, began to talk to the animal dog's head and chirped to the animal, while Beatrice Faring, still and inert in her place, watched him under her brow.

PRESBYTERIANS TO FRONT HEAD "BIG 4" COLLEGES

Principal Gordon of Queen's Believes Dr. Falconer Will Do Much for Toronto.

KINGSTON, April 25.—(Special.)—The World correspondent interviewed Rev. Principal Gordon this evening in regard to the appointment of Dr. Falconer.

The principal knew the president very intimately. Of him he said: "He is of a charming personality, sweet in disposition and very approachable."

He has marked ability in the expression of his thoughts by the pen and by the voice. The just approachability of his prime, he is an author of very considerable note.

He has obtained a fairly wide circulation considering the subjects of which they treat. His pen has been busy, too, writing articles for magazines and journals of various kinds.

"What do you think of him in relation to his power to attract the young and commutate a higher impulse to their life?" was asked.

"I have already answered that question in part," said the principal, "but I may add if there is any one class to whose improvement Dr. Falconer has devoted his powers, that class is the young."

He has taken a very active part in Young Men's Christian Associations, the young people's societies of the Presbyterian Church, and some of his writings are intended for young people mainly.

"This is another Nova Scotian brought west to occupy an important position," suggested the correspondent.

"Yes," said Dr. Gordon with a smile. "It is Nova Scotia brain again."

"Dr. Gordon," said Dr. Falconer, "and Dr. Dawson—both of these great men from Pictou—both of these great men from Pictou."

"And yourself?" added the correspondent. "Oh, I came from there, too."

"Is Dr. Peterson of McGill a Presbyterian?" he asked.

"Oh, yes; he is an elder in St. Paul's." "It is Presbyterianism that is all along the line," said the interviewer, "Manitoba, Toronto, Queen's, McGill."

"It is remarkable," said the principal, "with evidence of such high ability, that you say that I know of no one better fitted to fulfill the responsible position of president of Toronto University than Dr. Falconer."

"You can say that I know of no one better fitted to fulfill the responsible position of president of Toronto University than Dr. Falconer."

Here the doctor paused and looked as though he wished to put something more into the picture. Then he said: "Mr. Falconer is a man of great ability, and even the worldly 'wild man' is willing to admit that he holds a big enough stick if he gets room enough to swing it."

Dr. Falconer is a man of good presence, with the freshness of complexion that reminds one of the seaside breeze of his native province. He is tall and fair and looks young for his years and study.

It is a mistake to regard Dr. Falconer as a parson. Some are born parsons and some achieve parsonage, but his qualifications in this way have been thrust upon him, his ability to do great things being a notable feature.

Under the University Act, 1906, the president occupies a position of very great authority.

His Duties.

The sections of the act, 87 and 88, following demonstrate this.

Section 87. The chief executive officer of the university shall be the president.

Not a Parson.

Dr. Falconer will be ex-officio a member of the board of governors and chairman of the senate, as well as chief executive officer of the university.

SPECIAL FARMING & LIVE STOCK EDITION

THE FRUIT GROWERS.
It is a pleasing prospect for our country in general to have such a happy outlook for Ontario's fruit this year. Everywhere the crop has promise of being a big one. Although it may be too early to tell definitely what will ensue when the winds and weather of May and June return their accounts, yet the appearances are most assuring.

Concurrent with this prospect we have the lively attention being paid to the industry by the fruitmen of Ontario. A trip thru the Grimsby district this week reveals great activity in all fruit-growing. New vigor is being infused into the means. They are pulling up, burning, planting and spraying in a manner unprecedented in Ontario. The enthusiasm displayed rivals the march of the 60,000 San Jose scale insects into the orchards, and when man gets to work in earnest he is a consuming fire to all such buffetings as these.

There is good reason to look for a good return of extra fine quality fruit this year. The packing and shipping is there, all that is necessary to build up and maintain the reputation of Canadian fruits. The Niagara men and the fruitmen generally are to be congratulated upon the work being done. Further news from the orchards will appear in The World in its farming pages.

LIVE STOCK DEPARTMENT.
The Japanese are on their way to purchase Ayreshires from Uncle Sam. We believe we have as good dairy cattle in Canada as are to be found in the States, and some move should be made by the government to get the leading world buyers to visit Canada.

What do we, as a people, keep up an expensive live stock and agricultural office for? Is it to collect fees from us and to read laws to us? Rather is the prime duty of a government to set for the people in the capacity of a general superior, the encouragement of all the stock breeders by a watchful eye on all probable avenues for sales and the good accommodation for intending buyers.

MONTEITH SCORED
Fruit Men of St. Catharines Do Not Like Withdrawal of Grant.
ST. CATHARINES, April 25.—(Special)—Last fall the Fruit, Flower and Honey Show here was a decided success and the fair was the admiration of all who attended it. The grant was obtained originally on the understanding that the fair be made a running success, and since this has been done, it is looked upon as an infraction of the withdrawal. The reason given for the withdrawal was that the Experimental Farm grant then ate up all the appropriation.

It is hoped that something can be done yet to enable the fair to go ahead and repeat the efforts of last year.

IMPORTED FILLY SALE.
James Dalgetty's sale of imported fillies came off in London on Wednesday. The 18 averaged \$355. The highest priced animal was sold for \$600 to the O.A.C. The consignment were all good animals and the manner in which they were sold was a very rough passage over the ocean.

Mr. Dalgetty is to be congratulated upon the good quality of the animals brought over and the manner in which he deals with his patrons.

J. W. Sangster, the secretary of the Clyde Association is present also and aided in registrations all those who desired to take advantage of a man on the spot. Mr. Sangster seems imbued with a desire to do the best for the Clyde Association pre-eminently.

Seeding in Manitoba.
WINNIPEG, April 25.—Seeding is very general through Manitoba and the new provinces, the about ten days behind. It is feared the acreage may be curtailed by quantity water in the valleys. This condition applies very generally.

Laurier Best Dressed.
Canadian Premier the Swell of the Conference.
LONDON, April 25.—According to The Tallor and Cutler, Laurier is the best dressed of the colonial premiers. This applies to his Canadian as well as to his British outfit.

Lady Cooper in New York.
NEW YORK, April 25.—Among the passengers who arrived to-night on the Hamburg-American line steamer Deutschland from Hamburg, Southampton and Cherbourg were Sir George Cooper and Lady Cooper. Lady Cooper is a sister of the late James Henry (Silent) Smith, and is supposed to have been left a large share of his fortune. She comes here to be present at the settlement of the estate.

Grenadier Sergeants.
The annual meeting of the Royal Grenadiers was held in their messroom. Reports of committees showed the mess to be in a very flourishing condition. The following officers were elected: President, Col. Sergeant J. McHugh; vice-president, Sgt. J. Wilson; secretary, Sgt.-Instr. J. Noble; treasurer, Staff-Sergt. J. Ewart; standing committee, Q. M. Sgt. J. Dewley, April 25. Clerk, Sgt. W. A. Smith; regimental rifle committee, Sgt. Seale, Sgt. Kelly, Col. Sgt. Cook, Staff-Sergt. Smith; Sifton Trophy committee, Q. M. Sgt. Dewley, Sgt. C. E. Phillips, Sgt. Wilson; staff-sergeant, Staff-Sergt. Hutchison; Staff-Sergt. Phillips.

Monument to McGee.
OTTAWA, April 25.—The minister of finance, in reply to-day to an enquiry by Mr. Chisholm of Huron, stated that undoubtedly the estimates in some future session would make provision for the erection of a monument to Thomas D'Arcy McGee.

96 CARS AT CITY YARDS QUALITY OF CATTLE FAIR
Trade Steady at Tuesday's Quotations All Around—Hogs Steady at \$6.40 Cwt.
Receipts of live stock at the city market since Tuesday, were 96 car loads as reported by the railways, composed of 1374 cattle, 1447 hogs, 113 sheep and lambs, with 500 calves and 1 horse.

The quality of fat cattle was fairly good. Trade was much the same as on Tuesday, the market being inclined to be slow, and had it not been that there were several buyers from outside points it would have been much worse, owing to the large supply of cattle exceeding the large run on Tuesday.

Exporters.
Only a few lots of exporters were on sale and these sold from \$4.90 to \$5.25 per cwt. Export bulls sold from \$3.75 to \$4.25.

Butchers.
George Rowntree, who bought 323 butchers' cattle for the Harris Abattoir, with a few on Wednesday and Thursday, quoted prices as follows: Loads of good to choice cattle, at \$4.70 to \$4.90; fair to good, \$4.40 to \$4.65; good cows, \$4 to \$4.35; medium cows, \$3.50 to \$3.90; common cows, \$2.75 to \$3.50 per cwt.

Feeders and Stockers.
Harry Murby reports too many light three-year-old calves as being offered, for which there is no demand. Proves are wanted not to touch this class of cattle as the farmers of Ontario have had an experience of feeding them at a loss. They will not soon forget. Mr. Murby, who bought about 100 feeders today, reports prices as follows: Steers, 1100 to 1200 lbs. each, at \$4.60 to \$4.75; steers, 1000 to 1050 lbs. each, at \$4.25 to \$4.50; steers, 800 to 900 lbs. each, at \$3.90 to \$4.10; stockers, 900 to 700 lbs. each, at \$2.90 to \$3 per cwt.

Milk Cows.
There was a fair trade in milkers and springers at prices ranging from \$50 to \$55 each, the bulk selling at \$45 to \$50 each. Not many cows sold over \$25.

Veal Calves.
Prices were easy, owing to large receipts. Prices ranged from \$3 to \$6, with a few new milk fed at \$6.50 per cwt. The bulk sold from \$4 to \$6.50 per cwt.

Sheep and Lambs.
Receipts were light, and prices firm. Export sheep, \$5 to \$6 per cwt.; yearling lambs, \$6.50 to \$8 per cwt.; spring lambs sold at \$4 to \$6.50 each.

Hogs.
About 1500 hogs were bought by Mr. Harris at unchanged quotations. Selects, \$6.40 and lights at \$6.15 per cwt.

Representative Sales.
Mayne, Wilson & Hall sold 14 exporters, 1250 lbs. each, at \$5 per cwt.; 10 choice butchers, 1000 lbs. each, at \$5; 15 good butchers, 1000 lbs. each, at \$4.75; 1000 lbs. each, at \$4.75; 1000 lbs. each, at \$4.75; 14 fair butchers, 1000 lbs. each, at \$4.50; 14 fair butchers, 1000 lbs. each, at \$4.50; 12 good butchers, 950 lbs. each, at \$4.70; 7 butchers' bellies, 1400 lbs. each, at \$2.85; 8 extra choice butchers, 1100 lbs. each, at \$3.20; 7 butchers, 1000 lbs. each, at \$4; 8 butchers, 1100 lbs. each, at \$4.50; 1000 lbs. each, at \$3.75; 8 butchers, 1000 lbs. each, at \$4.30.

Wm. Hood, farmer of Whiting, bought 1 load short-keep feeders, at about \$1.05 per cwt.

Joseph Mitchell, also of Whiting, bought one load of feeders, at an average of \$4.65 per cwt.

Fred Rowntree, Weston, bought during the week 173 head of cattle, 6000 butchers, 1100 to 1200 lbs. each, at \$4.50 to \$5 per cwt.; four butchers, 1000 to 1100 lbs. each, at \$4.25 to \$4.75; good cows, \$3.00 to \$4.00 lbs. each, at \$3.70 to \$4.00; fair cows, butchers, 1050 to 1400 lbs. each, at \$3.50 to \$4.25; 1000 lbs. each, at \$3.50; 1000 lbs. each, at \$3.50 to \$4; camers, 950 to 1050 lbs. each, at \$1.50 to \$2.75; also about 37 milk cows, from \$2 to \$60 each, and one extra good one at \$70.

THE FARMSTEAD
Fruit outlook is good.
Every farmer should have a strawberry patch.
Twelve to eighteen pounds of alfalfa per acre.
Plant every inch of ground possible. No need for waste.
As snow in harvest, so is the slug-gard in seed time.

George Terry of Muskoka, writes to The World commending our stand on the farming matters.

A letter from all our readers is always welcome. Comment, commend or inform us. All is acceptable.

A few dairy cattle are kept in the fruit districts of Niagara, but the prepared fertilizers are used largely.

James I. Davidson of Balsam, on the noted old Stittroy Grove homestead, is having a dispersion sale on May 24.

The minister of agriculture for the Dominion made a queer mix-up in his veterinary meat-inspection candidates.

The annual meeting of the Jersey Cattle Club will be held in the Fifth Avenue Hotel, New York, on May 1, opening at 11 a.m.

The American Guernsey Cattle Club meets in New York at the Fifth Avenue Hotel on May 15.

See the notice in another column of the meeting of the Clydesdale Horse Association of Ontario. If there is any kicking to be done now is the time.

Breeders of Ayshire cattle will be pleased to know that the Japanese people find this breed to be very acceptable. Representatives from Japan are en route to the United States now for more purchases.

Don't make life miserable for the family another season by trying to grow poultry and garden truck on the same piece of land. One fence works a fence in the garden and fence out the poultry.

The express rates charged to the farmers and fruit growers are altogether too high. The serious impediment to trade and commerce by these handicaps ought to be noted by the government, if the government is for the people.

The lazy farmer and the careless farmer has to go to the wall. The increased cost of production on our farms means that the one who works plain and executes is the one to succeed.

Some parties in the country are trying the split-log drag with a fair measure of success on our country roads. The contrivance is quite simple and cheap, and does quite as well as the expensive machinery so poorly handled in many parts.

The saddle horse seems to be growing in popularity in Canada. Men are investing in these animals in various parts and their values are high. At a recent sale of a consignment in York from Kentucky, the average of 25 head was \$7. L. Fowler, ex-mayor of Oshawa, purchased a handsome one near the city recently.

The question of farm waterworks in the country home is an easy one. There is no farmer who may not be blessed with all the comforts of hot and cold water thru the house, and a well-equipped bath room. A force pump and a few dollars will do the work.

The demand for rams of all breeds this season is probably at its height. Says The American Sheep Breeder: Those people in Canada who went into the sheep trade this winter have made no mistake. It is a winter which will require a large number of sheep.

The reply of Mr. Potter in the Canadian Dairyman to the milk producers of Toronto, smacks a little of paternalism and snobbery. For the City Dairy to set up such childish play of words and law, is beneath the dignity of a firm which in its own words is suffering the "brunt of the battle."

"A place for everything and everything in its place" is the only rule on the farm by which tools and small implements can be found when wanted. I have known men to spend an hour of a very busy day looking for some misplaced tool necessary to repair machinery, says an exchange.

The Dominion agricultural offices of the Potash Syndicate have issued a pamphlet entitled "Principles of Soil Analysis" as applied to worn-out garden lands. It is a well-written article, and is illustrated. Every farmer can have a copy by writing to the Potash Syndicate, Temple Building, Toronto, for it.

This important plant food may be obtained from all leading fertilizer dealers, in the highly concentrated forms of
MURIATE OF POTASH AND SULPHATE OF POTASH
On account of the increased demand for these fertilizers throughout Canada this year, farmers ought to order at once to prevent disappointment.

Testimony to this effect is becoming more frequently heard each day.
Write at once for our FREE publication, treating of the fertilization and cultivation of various crops, as well as of the results of fertilizer experiment in Canada and elsewhere.

GRAND OPERA TO-NIGHT CHANGED BILL TO-MORROW

Madame Nordica Substitutes "Traviata" for "Trovatore"—Special Prices for Admission.

The announcement will be welcomed by all musical people that Madame Nordica, in response to a number of requests, has consented to change "La Traviata" for two reasons. First, because the music of the opera is more worthy of her voice, and secondly, to allow the people of Toronto a second opportunity of hearing the notable tenor, Signor Copacino, who will appear in the opera with Madame Nordica.

While there may be some regrets among lovers of the old-time "Trovatore," the change has been made by Madame Nordica out of regard for her many friends in Toronto, as she feels sure the public will appreciate the stronger cast and the nobler music of "La Traviata."

At the request of the manager of Massey Hall, Henry Russell, director of the San Carlo Opera Company, has agreed to the selling of 400 admissions for the evening performance at 75 cents, and for Saturday matinee at 50 cents. This is giving grand opera at an unusual scale of prices, which musical students and the general public should greatly appreciate.

The San Carlo Opera Company arrives by special train from Detroit this morning. The train includes two private cars, three baggage cars, with scenery and properties and sleeping-cars for the large company.

The overture to "La Boheme" will begin at 8 o'clock, and those who wish to hear this beautiful music excellently rendered by a complete orchestra are requested to be in their seats at that hour. This evening, from a musical and popular viewpoint, is of exceptional interest.

The new program at Massey Hall presents a rich appearance in its expense of crimson and gold. All stage accessories are complete.

To-night Miss Alice Nielsen, Signor Copacino, Signor Segurina, Signor Fornari and Signor Segurina are among the principals. The cast is as follows: Mimi, Miss Alice Nielsen; Alfredo, Signor Fornari; Rodolpho, Signor Copacino; Marcello, Signor Segurina; Schaunard, Signor Fornari; Benoit, Signor Barocchi; Alcindoro, Signor Fornari; Parpignol, Signor Ghandini; conductor, Signor Arnaldo Conti.

The Dreamland Burlesques, the attraction booked at the Star for next week, has been singularly fortunate in securing artists of the highest caliber. They will be found far above the average seen with the usual run of burlesque shows.

A new melodramatic offering entitled "For a Human Life" is to be presented at the Grand next week. The play is one of thrilling interest, and abounds in sensational episodes and exciting situations. It tells the story of a woman who, in the pursuit of the adventures of a girl detective, the comedy is bright and natural, and the various incidents are handled by an exceptionally clever company.

"The Arrival of Kitty," which is to be presented at the Grand next week, is classed among the few comedy successes of the season. It possesses the attributes that go to make an important popular play with all classes of patrons. "The Arrival of Kitty" is bright, snappy and fast, and the plot, ingenuity of treatment, together with an acting, singing and dancing company of the best-known theatrical favorites count for anything in the make-up of a successful comedy production. "The Arrival of Kitty" should meet with approval here.

MURDER PREMEDITATED.

Miss Stroup Killed Man Because He Was to Wed Another.

OIL CITY, Pa., April 25.—That Miss Belle Stroup, the Bradford (Pa.) dressmaker, who shot and killed Thaddeus S. Ross in the office of a physician here yesterday, contemplated the deed, is shown by the fact that she left a will, bequeathing all her property, including all lands, to her sisters, Mrs. Fred Ehret and Mrs. J. F. Alken. She also left a statement saying that Ross had promised to marry her in June next, and the first intimation she had that he did not intend to do so was a newspaper notice of the dissolution of a marriage license to Ross and Miss Samsell of Oil City.

STEEL ROOF SAVED MILLS.

So is Thankful for It—Fire Loss \$100,000.

SAULT STE. MARIE, April 25.—The loss by yesterday's fire at the Sault pulp mills will not exceed \$100,000. The pulp grinders were intact and can be replaced when new flooring is laid. Without the steel roofing, which was built last summer, pulp mills Nos. 1 and 2 would have been gutted, and the loss would have been without electric light to-night. The steel roof allowed the firemen to get on top and replace the roof.

PLOT TO KILL PRINCE.

BRUSSELS, April 25.—An anarchist, armed with a dagger, a loaded revolver and other weapons, was arrested to-day in a church where Prince Albert of Belgium, nephew of King Leopold, and his presumptive to the throne, was about to visit.

EMPIRE DAY WORTH WHILE?

HOT WARD RAN IN STREAMS FROM BURNING BUILDING

Allegedly Firemen Spurt With Fierce Blaze in Big Packing Plant.

PITTSBURG, April 25.—One of the most remarkable and spectacular fires seen in this vicinity started last night in the William Zoeller Packing Co.'s plant, Spring Garden-avenue, Allegheny, opposite this city.

Early today, when the fire was thought to be under control, a large fireproof warehouse, in which was stored 200,000 pounds of lard, suddenly burst into flames. All efforts to extinguish the fire in this department were futile and the firemen finally fastened the iron doors of the building, shutting in the burning lard.

The interior of the building soon became a seething furnace. Spouting from crevices, doors and windows, streams of hot grease ran into a sort of trench hurriedly prepared in an endeavor to prevent the hot fluid from spreading over surrounding territory.

Shortly after the fire was discovered last night, and while thousands of spectators were gathered, a dozen large ammunition tanks exploded with terrific force. There was a panic among the spectators, who were hastily ordered to retreat. That no loss of life attended the fire is considered marvelous.

At 8 o'clock this morning the fire had practically burned itself out. It was said that the loss would reach \$300,000, partly covered by insurance.

BOSTON LAWYER SUSPECTED

Thought to Be Connected With Alleged Douglas Fraud.

NEW YORK, April 25.—That a prominent Boston man, well-known as a lawyer and in financial circles, is a figure in further proceedings in connection with the arrest of Douglas and Dennett, is reported by a Boston street-talker. This man, it was alleged, was a friend of Dennett's and was frequently consulted by both Dennett and Douglas. He is supposed to have advised Douglas to take a large amount of bonds, about \$1,000,000, and to turn them over to Dennett.

ALLIANCE IS THE WORD.

Spanish Paper So Terms Understanding, Between Powers.

MADRID, April 25.—The Correspondencia De La Espana says it has diplomatic authority for stating that the effect of the meeting of King Alfonso and King Edward at Cartagena was the perfection of a far-reaching understanding for the purposes of war and peace. It would have been considered in the last century, according to the paper, an alliance. The understanding, in diplomatic language it is an entente cordie.

Left Bride at Altar.

WINDSOR, April 25.—Mrs. Davis of Detroit, a widow, came to Windsor with Dr. George W. Burbanks, formerly of Cincinnati, and intended to be married. Burbanks left her in the waiting room of the electric railway while he went to procure a license. Mrs. Davis waited in vain for two hours and then told the police her trouble. She reported that she had given her prospective husband a letter containing over \$500 to carry for her.

A MINING SUCCESS

The 500,000 Shares of Treasury Stock in Canadian Pacific Cobalt Development Company, Limited Being Eagerly Sought For.

Experienced Investors Enthusiastic Over the Future of These Magnificent Mining Properties.

Early Dividends for Stockholders

The big "scoop" of 971 acres of promising mining lands in the very heart of the richest ore district of Cobalt, secured by the Canadian Pacific Development Company, has created a sensation in mining circles. Hundreds of letters are coming in with each mail in request for a stock. Numbers of these from some of the most prominent mining men, who express genuine optimism over the prospects. All indications point to an early close of the stock books. The proposition is without doubt the best and safest investment yet offered to the public, while the personnel of the company who have secured this vast area of mining properties, are men of known business ability and standing, who stand in the front rank of enterprising Canadians, careful, cautious and capable. As stated in a previous announcement, the company have secured absolute and complete control of:

27 Well Selected Properties, Having a Larger Acreage Than the Great Nipissing Mining Company, With Encouraging Prospects of Rivaling that Famous Mine.

Treasury Stock at 12 1/2 cents is the greatest opportunity for the investing public ever placed on the market. It is bound to make fortunes for those who are wise enough to secure stock now. Engineers' reports and opinions of expert mining men are of the most optimistic and positive character, and the immediate response for Treasury Stock has already exceeded the most sanguine hopes of the directors. Now is the time to get in. Only 500,000 shares of Treasury Stock will be offered at this price. NO PERSONAL LIABILITY. PAR VALUE \$1. Capital \$5,500,000. Fully Paid and Non-Assessable.

Buy Stock Now at 12 1/2 Cents

It is going fast, and this may be your only opportunity. Buy before the advance, which is bound to come. The point is, that the same ore body which has made others rich, has indications actually exposed on these magnificent claims.

Larder Lake Goldfields

As stated in my news letters last summer, I then began investigating the Larder Lake district, north of Cobalt. I have done so thoroughly, and from personal investigation on the ground, the employment of reliable engineers and a corps of experienced prospectors, I and my associates have now ample proof of the great value of this field.

We know so surely that there (and what immense probabilities there are as well) that we have already put nearly \$150,000 cash into the field.

Our employees on the ground number nearly one hundred, and our stamp mill will very soon be in operation.

I am a practical mining man, and I need hardly say that we would not put in such money and work unless fully justified.

The width of the veins or reefs in sight, and the values they bear when such width is considered is extraordinary. In Africa such reefs are profitably mined when bearing but a few pennyweights of gold to the ton; at Larder Lake average assays from across many reefs run ounces of gold to the ton. An ounce is equal to \$20, and the cost of mining and milling should not exceed \$2.50.

I and my associates see many millions of dollars of clean, legitimate profits before us in these gold fields.

By forming a company, putting up our hard cash, as stated above, and getting in first, we have secured thirty-seven forty-acre claims, which we believe to be the cream of the Larder Lake Gold Fields.

Our present stamp mill is a small one. We want a larger mill, from 100 to 200 stamps—and we must spend money in opening up our large acreage.

We have put in considerable money, and, indeed, would carry the whole thing ourselves, but that, like everyone else, we have other interests as well to take care of.

We are, therefore, affording others the opportunity of joining us and sharing with us the large profits we are going to make—profits from dividends, and also from the increase of market value in our stock.

Our Company is known as the LARDER LAKE PROPRIETARY GOLD FIELDS, LIMITED, and among the directors and gentlemen identified with it are the following: Col. G. Sterling Ryerson, ex-M. P. P.; Senator L. V. Ulrey, Lieut.-Col. A. N. Worthington, Member Dominion Parliament; T. Herbert Lanxon, Member Provincial Parliament; Charles H. Waterous, ex-Mayor of Brantford; E. P. Burke of "Granby" fame; Dr. D. H. Piper of London; P. Kirkessard, M. E., Member National Geographical Society; Sylvester Jencks, President Jencks Machine Company; William Farwell, President Eastern Townships Bank; C. P. Brown of Toronto; Dr. Preston, Member provincial Parliament, and others of like standing.

For the purposes mentioned above, a limited amount of stock is offered by the underwriters (Canada Mines, Limited) at their first ground-floor price of \$1 per share. This is being subscribed for rapidly, and the next allotment will be at a materially advanced price. The stock will then be listed on the exchanges and placed on the New York and Boston curbs, when, as in every proposition I have been connected with, it will, without doubt, command a legitimate market at a still higher price.

This opportunity will not last long.

Those desiring further particulars, maps, detailed reports, etc., before joining us, please write, phone or telegraph me at once.

Dr. Reddick and his associates, Messrs. Hummel, Knott and Flynn, are the men who made Larder Lake famous, being the original discoverers of gold in the Larder Lake region, and after carefully prospecting, selected, staked and recorded what are universally acknowledged seven of the very best claims in this region. All of this work was done before the first fall of snow so that in purchasing this property we know that we have the best that could be procured in the Larder Lake region.

The claims all have a number of large quartz veins, showing values in Gold, Silver and Copper. Assays ranging from \$8.40 in silver, and \$122.00 to \$1,865.00 in gold have been recorded.

It is acknowledged on all hands that our property is the heaviest mineralized in the country.

A gang of men have been at work since the 15th of February putting up the necessary buildings and taking in supplies, machinery, etc., and actual development will commence shortly.

To intending purchasers we would advise this as a good investment and would be pleased to receive a call from any who desire further information. We are offering \$200,000 of the Treasury Stock at par value, \$1 per share.

GOOD ROADS QUEST FIRST STEP TAKEN

Commission Visits Roads in Competition—A Seventy Mile Jaunt —County News.

TORONTO JUNCTION, April 25.—A great many citizens have been wondering why there has been no free mail delivery, and some of them claim that the reason was on account of the houses not being properly numbered. In fact, some of them have no numbers at all. Mayor Baird explained the cause as owing to the fiscal year being closed from April 1 to July 1. It is claimed that the postal delivery has been delayed because the council has not made any move to number the houses. Until this is done, there will be no free delivery of mail.

The committee meetings of the council will be held as follows: Works committee, Monday night; property committee, Tuesday night; executive committee, Thursday night.

A perfect 12 building a house on Annette-street. Dr. Hopkins is also building a house at the corner of Pacific-avenue and Annette-street. R. C. Cummings is building undertaking parlors and dwelling at the southeast corner of Medland and Annette-street.

The board of health met to-night. The report of M. H. O. states that the town was in an exceptionally healthy condition. Only two cases of scarlet fever and one of diphtheria during March. No action was taken regarding the public lavatory in the centre of the town. The M. H. O. deprecated the abuse of the lavatory with respect to the Willowby-avenue dump.

Improving the Roads.

Roads, good, bad and indifferent—sandy roads, clay roads, mud roads, macadam roads and about every other conceivable kind of turnpike were traversed by an automobile jaunt yesterday in York County of 70 miles by a party consisting of Hon. Dr. Resume, minister of public works; A. W. Campbell, Ontario commissioner of good roads; W. M. Pugsley of York County Council, William Doble, chairman of the good roads committee of the Ontario Motor League, and E. M. Wilcox, secretary of the Ontario Motor League.

The purpose was to examine the sections of highway that have been entered in the competition of the Ontario Motor League for the best improved roads in the province. The jaunt was made in an automobile owned by various municipalities in the county. The judges in the competition are: A. W. Campbell, W. H. Pugsley, and William Doble. Yesterday they examined the state of the roads before improvements are started.

The presence of the minister of public works was regarded as significant, as showing the keen interest which he is taking in the campaign for good roads throughout the province.

Good Roads Campbell remarked often on the need of improvement. Particularly he pointed out what might be done at a small expense by the use of a grading machine in rounding the roads up at this time of the year, or by the use of even "a split log drag."

"It is a wonder to me that out of a city the size of Toronto the leading roads should be in such a bad state," remarked Hon. Dr. Resume, as the automobile bowed thru ruts and holes more than a foot deep.

One of the entries by Toronto Junction is Dundas-street, the main street of the town. This will be put in first-class condition. Another section on the Kingston-road, near the hunt club, at present in a bad state, will be improved by Scarborough Township. Mr. Annis, township councillor, conducted the party over this section and another that the township has entered on the Kennedy-road. Other entries are: Markham, a mile strip north of the Township of Markham and a mile on the side line in the second concession; Toronto Junction, a mile on the Weston-road, starting north near Dundas-st.; East Toronto, a mile on Danforth-rd. and Main-street; York Township, two miles on the Don Mills-road, north from Danforth-road, and St. Clair-avenue, the road which crosses Upper Canada College, between Bathurst and Dufferin-streets.

Thornhill.

THORNHILL, April 25.—The funeral of the late Robert Doerr took place from his residence at Dollar this afternoon, to Thornhill Cemetery. The pall-bearers were the sons-in-law of the deceased, and the obsequies at the house were conducted by the Rev. Mr. McKinley of this place. The attendance of friends and neighbors was large.

Mrs. Hall will shortly erect coal sheds at the Canadian Northern siding near the point where the railway crosses the sideroad, at the second concession of Markham.

There is an active demand for building lots in town.

Mr. Simpson is renovating and remodeling the premises lately bought by him.

Farmers in this district are very busy with their seeding operations.

Riverdale.

RIVERDALE, April 25.—The choir of Broadview Congregational Church will give a concert in the church on Tuesday evening, at 8 o'clock.

The young people of St. Matthew's Anglican Church held a most enjoyable at home in the parlors of the church to-night. The gathering took the form of a welcome to those who have lately united with the church.

On Sunday the holy communion will be administered by Rev. J. Scott Howard. In the evening Rev. Prof. Jenks will preach.

Work on the new St. Matthew's Sunday school building has been begun, and the cornerstone will be laid on St. Clement's Young People's Association.

The Dublin season in connection with the institute will open on the Don flats on Saturday afternoon, when the Broadview juvenile play the All Stars.

The lawn bowling greens at the Woodbine will not, it is said, be ready until next week, owing to the ground in many places having subsided. This will not permit the holding of the Dominion tournament there this year.

North Toronto.

NORTH TORONTO, April 25.—Great sympathy is extended to Town Clerk and Mrs. Douglas W. Fookes on the death of their 18-year-old daughter, Jessie Esabelle, which took place this morning at 6 o'clock. The little girl took ill last Monday with diphtheria. The funeral took place this afternoon to Mount Pleasant Cemetery, at 2 o'clock. Contributions in profession, and among them were some from the town council, the Sunday school of the Eglington Methodist Church, Mrs. D. A. Macdonald, Mr. and Mrs. Sam Douglas, Mr. and Mrs. James Child, Mr. and Mrs. Sam Lawrence, Miss Pugsley and others.

A pretty wedding took place last night at the residence of the bride's mother, Mrs. Frederick, of Frederick-street, when her eldest daughter, Edith, was married to Wm. F. McCrea, Rev. P. W. Patterson, rector of Christ Church, Deer Park, conducted the ceremony. About 150 serenaders knocked at the door, and after receiving a substantial sum of money, departed, with good wishes for the happy couple. Mr. and Mrs. McCrea will reside on Davenport-avenue.

A petition is in circulation for the extension of the water main on Eglington-avenue east. This district is rapidly filling up and a large number of new houses are under construction. The Eglington Public School has been ordered to be fumigated by the medical health officer.

The Rev. Professor Morphet of Bristol, England, assisted by the Rev. Mr. Dr. Resume, of the Presbyterian Church, gave an illustrated lecture on "Great Britain," with a brief visit to France and Switzerland, in the Presbyterian Church here to-night. The lecture was under the auspices of the Y. P. Society. The lecture was greatly appreciated.

Dovercourt.

DOVERCOURT, April 25.—A mass meeting of the members of the district will be held at the schoolhouse on Monday evening for the purpose of discussing the advisability of having a police station in the village. Ex-Councillor John Wantless will be the principal speaker of the evening.

Wychwood.

WYCHWOOD, April 25.—The Rev. W. A. McTaggart is building an up-to-date parsonage at the Presbyterian Church. Mr. Redman of Thornhill is building one next to Mr. McTaggart's, on St. Clair-avenue. Mr. G. Webb a brick dwelling adjoining his store. Several other smaller buildings are in course of erection.

There is great demand for building lots, and Rowell & Co., real estate dealers, are busy transferring properties. At present they have three acres on a block of land, consisting of five acres on the corner of Dufferin-street and St. Clair-avenue, into building lots, and another block on Vaughan-road, one-quarter of a mile north of St. Clair-avenue. Rowell & Co. are also selling control of these properties.

Mr. M. J. Newton, formerly of the Empire, is now proprietor of the Imperial Hotel, corner King and York streets. European plan.

Card of Thanks.

Editor World:—I like to express my thanks to those who helped save my property from being destroyed by fire. The assistance of the fire department, the zeal and earnestness manifested, the kind words of sympathy, and the open door to myself and family will never be forgotten.

Robert A. W. Wilson,
Newtonbrook, April 25, 1907.

Agincourt.

AGINCOURT, April 25.—The cold, backward weather that we have had since April 1st has been very hard on the fall wheat and small seeds in this locality. The wheat especially is looking very brown, and needs a nice warm rain very shortly to revive it, or it will require to be plowed up and reseeded with other grain.

Seeding has become general this week, although few were engaged in plowing last week.

On Monday while W. H. Paterson and Dr. Curtis were out driving their horse became frightened and began kicking, with the result that the buggy was badly wrecked. Mr. Paterson was thrown out, and his left elbow dislocated, and he was otherwise shaken up. The doctor thought discretion the better part of valor, and vacated the rig when the frays began. He escaped unharmed, and acted the part of the good Samaritan by binding up the injured man's wound, and taking him to his house, from which he was afterwards removed to his own home.

Executive Confirms Date.

The executive of the West York Conservative Association met last night at the residence of Mr. J. H. H. held to hold the nominating convention on Saturday, May 11, at Weston. The meeting was a representative one, and thoroughly unanimous.

East Toronto.

EAST TORONTO, April 25.—The body of George Hare, the young son of Harry Hare, who met with his death in front of the Massey-Harris works last night, was to-night brought to his parents' home on Steeles-avenue, by George Hare, the father. The scene at the home was heart-rending and no event of recent years has aroused more sympathy. Mrs. Hare is the daughter of George Hare, the founder of Little York. The funeral will take place on Saturday afternoon at 2.30, to St. Jude's Cemetery, Westford.

BUILDING IRON WORKERS ARE LOOKING FOR MORE

Employers Not Prepared to Grant Increase of Wages to Forty Cents an Hour.

A labor strike is threatened for May 1 or thereabouts that will assume a greater magnitude than any disturbance yet recorded this spring, namely, that of the structural iron workers.

A meeting between a committee from the union and representatives of the builders has been arranged for in the Employers' Association rooms, on Monday afternoon, when the tract agreement prepared by the men will be considered. It calls for a minimum wage of 40 cents per hour, but from a statement made last evening by one of the leading construction companies, it would appear that this will be opposed to the bitter end. This means that the new grand stand and transportation buildings at the exhibition grounds.

The union is obstinate and confident. It demands that the vast number of jobs already under way and the vast number in contemplation, there are few upon which non-union men are engaged, and besides, the trade, tho' not skilled, is distinctive in its line and consequently not over-run.

The following shows the contracts at present held by various companies, with in some cases, the number of men employed:

Hamilton Bridge Co.—At the exhibition grounds, horticultural and grand stand buildings, 45 men.

Dominion Bridge Co.—Ogilvie Building, Bay and Wellington-streets, 18 men; Riverview School; Consumers' Gas Co., McGehe and Front-streets, 15 men; Mosop's Hotel, Yonge-street, 12 men; Toronto Electric Co.—Queen's Park, 10 men; Dominion Transport Co., West Wellington-street; Rosedale School; Dewson-street School; alterations on University Life Building, and Victoria Chambers, 8 men; Avenue-road Presbyterian Church.

Thorold & Peller Co.—Additions to Star Theatre, 10 men.

Canada Foundry Co.—Dominion Radiator Building on Lansdowne-avenue, near Junction, 10 men; Hobbies, 10 men; East Richmond-street, 6 men; W. R. Brock building, Wellington and Bay-streets, 8 men.

McIntyre Co.—Taylor Safe Works new building and also job work on York and Wellington-streets, and addition to Phoenix school, 10 men.

Bank of Toronto branch, Elm-street, and stairway near Alexandra Theatre, 10 men.

Only two of the above establishments employ non-union men. Theoretical cost of the proposed scale, that he will pay the proposed scale.

BICYCLE INDUSTRY

Has Benefited Greatly From Automobile Manufacturing.

Experience obtained in manufacturing automobiles is said to be responsible for some six to eight improvements in the modern bicycle, a machine which was supposed to have reached mechanical perfection several years ago. It is said, however, that the improvements found in the 1907 model all count for the improvement of the two-wheeled roadster, and are in no way fresh inventions. Anything that will be encouraged. It deserves long life, if for no other reason than that it is the father of good roads and strong legs.

FRENCH VERSION NOT NEEDED

Insurance Commission Evidence to Be Printed in English Only.

OTTAWA, April 25.—(Special.)—A resolution of the printing committee of two houses of parliament was taken up in the senate to-day. The matter was up the day previous when Senator Ellis, chairman of the senate section of the printing committee, offered an amendment providing that the four volumes of evidence taken before the insurance commission be printed in French. He said the house of commons had resolved the evidence should be printed in French, and he offered the amendment as a matter of respect to the committee. The amendment to print the evidence in French was defeated as it was found that there was no demand for a french version of it.

BOXES FOR HORSE SHOW REALIZE GOOD PRICES

George Beardmore Gets First Choice for \$125—Others Range Down to \$42.50.

A bargain day for the ladies was what Secretary Stewart Houston designated the sale of boxes for the horse show, which took place in the yellow room in the King Edward yesterday afternoon. In former years Mr. Houston said everyone had been desirous of paying the highest price possible for the boxes, but this year the management had decided that that sort of thing should be cut out and that real bargains should be given.

This, he went on to say, was the thirteenth year of the horse show, but with their change of location from the armories to St. Lawrence Market they had also changed their name and the present show would be presented to the Canadian National Horse Show.

Sale Was Satisfactory.

There were about a hundred present at the sale, the most of them prominent society people. Bidding was fairly brisk and while no comparison with former sales can be made, the officers of the association appeared to be well satisfied with the results. There are 44 boxes in all, but a number of these had previously been presented to the lieutenant-governor and other prominent persons. About 30 were sold, and the few that are left will be disposed of privately seat by seat.

Charles M. Henderson, who conducted the auction, started the first lot at \$100, and this was quickly run up to \$125, at which price, the highest bid at the sale, George Beardmore had No. 31 knocked down to him.

The other sales were as follows: Mrs. Bristol, No. 31, \$105; Stanley Barracks, No. 34, \$100; H. C. Tomlin, No. 35, \$100; C. W. Johnson, No. 37, \$50; C. C. James, No. 14, \$80; Jos. Kligour, No. 10, \$50; J. J. Dixon, No. 30, \$80; H. C. Cox, No. 23, \$80; Senator Kerr, No. 9, \$75; Col. Maclean, No. 18, \$75; Dr. Andrew Smith, No. 28, \$75; Dr. Young, No. 27, \$75; W. C. Bailey, No. 8, \$70; R. A. Smith, No. 7, \$65; Langton Wilkes, No. 6, \$60; Dr. McCoy, No. 38, \$60; Col. Stevenson, No. 2, \$55; W. A. Laycock, No. 39, \$50; F. H. Walker, No. 4, \$50; George Popper, No. 15, and \$42.50 each; Miss Wilks (Galt), No. 3, \$42.50; Cawthra Mulock, No. 6, \$45; Walter Beardmore, No. 1, \$42.50; Stewart Houston, No. 25, \$42.50; T. A. Graham, No. 20, \$42.50.

In addition to His Honor Lieut-Gov. Clark, complimentary boxes were sent to Premier Whitney, Hon. Nelson Montebello, Eric-Gen. Otter, Mayor Cotsworth and the judges and one was reserved for such distinguished visitors as may put in an appearance. Show Opens Wednesday.

The show will open on Wednesday afternoon at 3 o'clock, when two of the largest hunting classes will come on. The formal opening, however, will not take place until 8.15 in the evening, when the lieutenant-governor will give it his official recognition.

THE CHARGES AGAINST DUNN

Conduct of Vigilant's Captain to Be Investigated.

THOROLD, April 25.—The charges against Captain Dunn, commander of the government cruiser Vigilant, will soon be investigated. Mr. H. H. Collier, K. C., of St. Catharines, has been appointed a commissioner to conduct an enquiry.

The captain is under suspension, pending the investigation. J. Leckie, formerly first officer of the Vigilant, accuses Captain Dunn of being an habitual drunkard. The present trouble started from the commission of a report from the senior officer, Captain Dunn, that he had become intoxicated while on watch, dismissed instant.

No further steps would be taken pending the selection of the Conservative candidate.

Feed Children for Brain and Muscle

The Food May Determine the Success of After Life.

Many a child grown to maturity can look back and see where tender-hearted parents permanently injured or weakened it by harmful indulgence in food.

Irregular feeding, meat-eating and unsuitable, heavy food in childhood have undoubtedly laid the foundation for invalidism and blighted the career of many who might otherwise have achieved success.

Children like the sweet, satisfying nourishment of wheat, which contains every element needed for perfect nutrition from infancy to old age. The best of all eatables for growing children is Malta-Vita, the one perfect wheat food, which they eat with genuine relish and never get tired of.

Malta-Vita combines the delicious taste of crisp, nut-brown, whole-wheat flakes with the natural sweet of grain. Without meat, eggs, tea, coffee or chocolate, puny and thin-blooded children can be made vigorous and strong in a few months by a simple, satisfying diet of Malta-Vita, with milk, cream or fruit. Try it. They will thank you for it afterwards. In large, sealed, airtight packages, at the grocers, only 10 cents.
