Ottawa counties and in the northern districts the yield of oats will be fully up to the average. Frequent rains during harvest may detract from the value of the straw for feeding purposes, and sprouting was threatened. Rust was frequently complained of in the eastern counties. Grasshoppers were troublesome in the east and north. Bruce County reports some of the largest yields ever received by the department. Except in the St. Lawrence and

the largest yields ever received by the department.

Rye yielded from 10 to 22 bushels an acre of good quality.

Frequent rains prolonged the blossoming of peas, and the great heatiled to too rapid ripening in some districts. A weevil akin to the turnin lause was injurious in peafields adjoining Lake Ontarib.

Fields beans were still growing when returns were made, but prospects were for an average yield.

The poor catch of grass seed last year and close cropping of meadows in the fall made the outlook discouraging, but the fields came thru the winter in good shape. The dry weather in June led to a setback, but taking a province over there will be stair quantity of good hay in the barns this winter both for home and outside supply.

ATLANTIC CITY, Aug. 28.—Refus hams, also of Baltimore, on Wednesday night, the police of this city tonight are still working on the theory that the Baltimoream was the victim of a vengeful man. While they will not say that they believe Mrs. Williams' husband knows something about the showing, they admit that he will not be eliminated from the case until he has proven conclusively that he was not only not in Atlantic City, but that he was entirely ignorant of the shooting and the circumstances which led up to it.

The wounded man's condition is still considered dangerous, and the physicians will not probe for the bullet in his liver until his condition improves. The Roberts and Williams families have been on intimate terms, the heads of the two households being of approximately the same age and moving in the same circles of society.

In view of these relations, it was pointed out by some of Mr. Roberts' friends that his meeting Mrs. Williams and riding with her in the rolling chair was quite in keeping with the friendly relations their two families enjoyed. To End Strike

### **Needless Suffering** From Eye-strain

Defects of vision very often cause a severe strain on the Optic nerves, in the effort to see properly. Nervous energy is wasted, and other nerves are affected in sympathy. Headaches, nausea, dizziness and stomach troubles are some of the commonest results.

In almost every case the Empire Ophthalmic Doctors, with the aid of their splendid instruments, are able to locate the defect, correct it, and promptly and permanently cure the eye-strain and its distressing symptoms.

They have done it for thousands. Unless you are certain that your headaches and stomach troubles do not come from eyestrain, it is safer to consult

The nearness of the College to Toronto affords students the opportunity of heating the best talent that comes to the city; and yet located in a quiet collegiate town, away from much distraction outside the school life; the personal capabilities of students are more generally called into action, and the broader and fuller development assured. Personal power comes from a process of evolution from within, not of accretion from without and the real factor in school life determining what a student is going to be or to do is not so much what she is eschool room, the bracing intellectual atmosphere of the various college solutions, and the high ideal of life and conduct that has been breathed into the chool and has become the ruling purpose of both teachers and students.

Partly Telling the Interesting Story of the Store's Readiness for the Biggest of BIG Fall Business

According to the calendar, September 1 is the first day of the first fall month. Accord-

the new goods within the store Fall is here and Winter is on This goes to show the store's preparedness for the season's business in advance of the season; goes to prove that our plans

are not set aside by any trade change or financial nervousness. As long as the people want merchandise they'll want the best, and they'll want to buy it from the store that throws in all the good service and appreciation of the people's business it possibly can, and as long as these conditions maintain just so long

will this store be ready for anything the people ask for, long before they say the word.

It's our business to improve shopping conditions whenever and wherever possible, and such an improvement surely includes giving the people a larger than ever selection in the best goods the world produces, and selling at lowest possible prices. We buy best because we have the run of the world; we buy largest because your business with us makes it possible, and that fact takes us back to the knowledge that it was our willingness to do with a modest profit from the first that put us where we are. Doing business our way is a pleasure to us. Money's not the whole

thing, even in a business such as this; first and foremost

comes our desire-no, our determination—to satisfy every buyer—that's our pleasure in ing business and it causes pleasure at your end.

And it's a satisfaction to us to take the covers off a disp of new Fall merchandise such as will be ready for you on M day, just as it will be a satisfaction to you to view it and to ke

that the goods you want are here any time you come after the COME MONDAY TO SEE—leave your money at home you like—but he or she who buys will get a full measure of valuand satisfaction.

### Fall Dress Goods Exposition

'All the skill of a dressmaker cannot disguise a badly chosen fabric, and if the fabric is wrong the style isn't right; in fact, upon the choice of a good weave, of correct weight, and suitable shade, depends the success of a new Fall costume.

The whole dress section will be converted into a complete exhibition of Fall fabrics,

particularly of those weaves for outdoor suits, visiting and reception gowns. These range from the rough, "nappy" Chevious to the soft, lustrous Broadcloths and Venetiana, the hard Worsteds, and the handsome Serges. The display of these suitings covers literally hundreds of favored patterns, many of them being entirely exclusive to Eaton's, in the Dominion.

Broad Wale Diagonals, Chevrons, two and three-toned, and invisible shadowed stripes and suit blending beautifully, yet in striking contrast.

The whole display is representative of the best of home and foreign fashions, with the bizarre, exaggerated, and the discredited weaves and patterns omitted.

We invite you to the Fall Opening, and specially request you to examine, test, compare and ask questions as freely as you wish.

It takes time to do any big thing and do it right.

It takes time to bring the manufacture of Men's Clothing up to the high standard of excellence called for by this store, and then it takes time to get it into the minds of men that we have done so.

It takes time to convince some men that Eaton's Ready-to-Wear Clothing is as different to Ready-made Clothing of years ago as electricity illumination is different to coal oil.

Yes, it takes time-but we're willing to take time to reach ALL the men, for meanwhile we are convincing increasing numbers that Eaton's Clothing Fits. Looks and Wears well and that our prices mean fat to their bank accounts.

To-day we're telling you of some New Fall Garments-our own make-perfect in every way and priced so appealingly low that you couldn't buy elsewhere and do justice to yourselt.

Fashionable people will soon have relegated the purely summer hat into the dress things of the past; for this occasion Monday marks the advent of all the new Fall fashions in Millinery.

Continental fashions—hats from Paris, London, Vienna—importations from New York and the equally meritorious Eaton millinery, contribute a gathering of hat fashions much more extensive and authoritative than we have hith-

The new hats range in style from the large, striking Directoire model downwards to the medium sizes. Some favored shades are brown and tan, Emerald greens, peacock blues and taupe. Trimmings of gold in narrow and broad bands, of silk soutache, and tassels are features, but leading all are the ostrich feathers. With just these hints we extend you a welcome to the Grand Millinery Occasion of the Season Monday and following

## The Fur Fashions for 1908-9

The invitation we extend to you for Monday is to a viewing of the most magnificent collection of furs ever shown at one time in this store.

Though some garments you will see are from Paris, and many more from New York, they are in the main Eaton productions, which do not run to very extreme styles in cut or trimmings, and yet are distinctively a new season's fashions. Among the favored furs are the Seal, black and natural Pony, Lynx, and the beautiful dark brown Sable. Many scores of superb specimens of these, personally chosen by our own furriers, will be on display, besides Persian Lamb, Pointed Fox, Mink, Russian Ermine, Copper Sable, Caracul, Chinchilla, etc. A typical Eaton coat is the long sealskin illustrated. Russian pony coats in long and semi-long styles are also very handsome.

But all the new Fur Fashions in Coats, Muffs, Neck Pieces, and Stoles, will be on display for your pleasure and information Monday.

The report of the Chicago & Alton Railroad, it is true, shows that while 366,000 more passengers were carried in the year ending June 30, 1908, than in the year preceding, the passenger receipts were \$208,000 less. This in itself indicates nothing s to the justice or injustice of the law. It does not carry the ne cessary comparison to operating expenses, or show the relationship to fair and adequate profits. It proves merely that the road has carried more passengers and has made less money. The fact of in-terest is that radiroad men are willing to continue under the law, altho they say that it is "economically wrong," and protest that they should be allowed to adjust rates to

raffic.
This is an old contention against rate regulation, both passenger and reight, and if it be economic soundness, then it and public policy must part company. Railroad men no onger argue seriously for this right. The one test of the two-cent law, earning for the roads. It may be admitted that the legislature which gave the state a two-cent fare took much for granted, but so far as the larger roads are involved it has not been proved that the legislative jump in the dark has had disas-

### BRYAN AND PRESS OPINION. No more remarkable occurrence has

tation of William Jennings Bryan in the eyes of the more conservative section of the Democratic party. Newspapers like The New York World, that. bitterly opposed his nomination and prophesied nothing but disastrous defeat, have swung into line because they recognize that the man they deem. ed to be a demagog pure and simple, is displaying to-day all the qualities of the higher statesmanship. That there is a large measure of truth in this presentation of the Democratic candidate cannot be denied. Mr. George P. Way, the well-known inventor of artificial eardrums for the deaf, will be in Toronto during the fair. This will make the fifth year that he has visited Toronto introducing his invention for the deaf. Mr. Way was deaf for twenty-five years, having contracted a cold after an attack of typhoid fever, when a boy in Devonshire, England, the place of his birth. His deafness grew worse, and when he came to young manhood he had to carry an ear trumpet as large as a small teapot in order to hear public speaking. But now, by the use of his artificial ear-drums, which he wears in his ears, and which cannot be seen, he can hear a whisper, and one talking to him would never know that he had been deaf. Mr. Way resides in Detroit, Mich., having one there from Lambton County, Ontario, twenty years ago. He is well known in Detroit, having been employed at the Young Men's Christian Association for thirteen years as engineer and electrician. It was while in the employ of the Y.M. C.A. that he invented his ear-drums, which brought back his hearing. Mr. Way wants all deaf people to call on him while he is in Toronto, and see the new improved ear-drum, pattured the property of the property of the deaf, and invites you to write to him if you cannot see him in Toronto, his home office address being 18 Adelaide Street, Detroit, Mich.

Mr. Way will be in Toronto at the Rossin House from Aug. 31 to Sept. 12. All who are deaf should be sure to call on him. Office hours: 9 to 12 a.m. and 2 to 6 p.m.; evenings by appointment.

### AT THE THEATRES

Another of the regular theatres will open its doors for the season this afternoon when the Imperial Opera Company begins a thirty-two week engagement at the Royal Alexandra with a revival of the comic opera success, "Robin Hood."

All signs pressage a most profitable season at this theatre for the company, which created a very favorable impression during its stay here early in the summer. Reinforced, as it is, by the summer. Reinforced, as it is, by the summer. Reinforced, as it is, by the summer. Reinforced as it is, by the summer of the best and most popular comic operas and musical comedies obtainable, the organization is bound to become a factor in local theatrical circles.

"Robin Hood" represents the best efforts of DeKoven and Smith. Altho it has held the stage for eighteen years, it still is fresh and timely. It was first produced by the famous organization known as the Bostonians in Music Hail in Boston in 1890, and since then has been produced often, but always with a surety of a hearty welcome. Music and dialog alike haye centributed to this success, and the fromantic story of the outlaw Robin Hood furnishes a logical and entertaining plot of the sort that few operatic librettists have been able to devise. The story pursues its way legically from the rise of the curtain until the last scene, where Robin Hood is restored to his rightful own and becomes the Earl of Huntington.

It will be staged with scenery that will enhance its romantic charm and bring to view the picturesque England of the time of Richard I. The rightful own and archers, the obtain of far in the progression of the case of the curtain until the last scene, where Robin Hood is restored to his rightful own and becomes the Earl of Huntington.

It will be staged with scenery that will enhance its romantic charm and bring to view the picturesque England of the time of Richard I. The rightful own and archers, the object of the contro

representation of Sherwood Forest, the quaint costumes of the villagers and milkmaids, the king's foresters and archers, the outlaws and pedlars give entire opera the charm of far-

way time.
Six of the principals have appeared in Robin Hood" either with the old Bostonians or with the Castle Square Opera Co. in Boston, and they will have their old roles, as follows: Agnes Cain-Brown, Maid Marian; Louis Le-Baron, Allan-a-Dale; Louie Collier, Annabelle; Hallen Mostyn, the sheriff; George Tallman, Robin Hood, and W.
H. Pringle, Friar Tuck. Misses CainBrown and LeBaron and Mr. Mostyn
appeared with the Bostonians, while
Messrs. Tallman and Pringle were with the Castle Squares and Miss Co'lier with the Euclid Garden forces in Cleveland. The other parts will be assigned as follows: Harry Girard, Little John; W. M. Rothacker, Will Scar'ett;
Jos. Cauto, Sir Guy, and Helen Ormonde, Dame Durden.
Popular-priced matinees will be
given every Tuesday and Saturday.

At the Princess. With the preside of presentation in France, England, Germany, Russia. Spain and Sweden and a ten months run at the Lyceum Theatre, New York, Charles Frohman's production of "The Tulet" will come to the Prinof "The Thief" will come to the Princess Theatre on Monday evening for a week's engagement. No play in the past quarter century has scored a quicker success than "The Thief." nor known such world wide popularity.

The story of "The Thief" is as follows: The Voysins, husband and wife, ere visiting M. and Mme. Lagardes at their country home. The Lagardes have a son. Fernand, who is smitten with Mrs. Voysin and writes her the most ardent love letters. Mme. Voysin, who is young and charming, and who loves her husband with an unswerving devotion, treats the young man's amatory attitude lightly, as a cort of remarking futtors that will some sort of romantic flutter that will soon pass away. She is good-natured and good-humored toward him, but his attentions have made no other impression upon her than that they are the outbreak of a silly sentimentality on

He writes her love letters which places under the pillow of the bed in her boudoir, and leaves them around in other places where he knows she will find them. This letter writing leads him into leads him into a serious difficulty upon which he has not at all reckone 1. for Mme. Lagardes has had money stolen from her bureau drawer, and

continue so until the moment set for Fernand's departure. Here disclosures are made that put an astonishing comare made that put an astonishing complexion upon all the circumstances, and the dramatist is permitted to carry his story to a happy conclusion.

The cast of "The Thicf" includes such well-known and favorite players in the principal roles as Charles Dalton, Herbert Kelcey and Fffie Shannon. Others are Eugene O'Brien. Arthur Lawrence, Cecil Owen and Edith Blair.

At the Grand.

The Grand Opera House opens the regular theatrical season on Monday evening, and the first offering is one that will no doubt be appreciated by the many patrons of the Grand. It is the second engagement in the city of the famous tenor, Fiske O'Hara, who will present his big success, "Dion

O'Dare," the pretty Irish romantic drama. This season Mr. O'Hara has several new songs, two of which were instantaneous hits, "Nora McNamara" and "Just a Sprig of Shamrock." The production is given a sumptuous sceric equipment, and the costumes are hitorically correct, being taken from plates sent from Dublin. The story tells of a rollicking young Irish lad who falls in love with a lady of quality, and after being jilted becomes

number of theatre parties have been arranged by members of the local Irish scrieties, and the visit promises to be a notable one. The usual matinees will be given on Wednesday and Saturday.

At Shen's. Miss Anna Blancke, the very popular diminutive actress who was such a favorite in the stock company days, will be a headliner at Shea's Theatre will be a headiner at shea's ineatre in a new sketch next week. Robert Hilliard presents Miss Blancke in a one-act play describing an overlobked incident in New York life, entitled "Freckles, a Child of the Curb." J. Frank Davis and Mr. Hilliard made the dramatization from a short story by Porter Emerson Brown, called "The

Proof."
Miss Blancke plays the title role and is assisted by a splendid company of twenty, including George Holland, Edward M. Twonig, Frederick M. Harris, William Davenport and Richard White. William Davenport and Richard White, The scene is laid in Madison Square Park, and the special scenery used shows a correct glimpse of the famous buildings of that neighborhood in New

York.
As the play is produced under the personal supervision, of Mr. Hilliard, who will be in Toronto for its presentation, the offering will be finished in every detail. Miss Blancke is no stranger to Toronto, and her delightful characterization in the part of Freckles ruits her admirably.

The special extra attraction will be LaVeen, Cross and Company, presenting their newest offering of "Roman Sports and Pastimes."

Applies feature set is that of Characteristics.

Anothen feature act is that of Chas.

H. Burke and Pat Touhey and Comany, who are making their first appearance here in the one-act comedy,

'The Birthday Party.' This sketch is
a laughing hit, and the two comedians

Mile. Pertina is a great toe and eccentric dancer. Her work is picturesque, and everywhere she has been received with the loudest applause.

"The Watermelon Trust" will sing "The Watermelon Trust" will sing all the plantation melodies that even the most blase of audiences love, and they have some of the new song hits, too, and sing them splendidly.

The kinetograph closes the bill with a full line of new comedy pictures.

At the Gayety.

At the Gayety next week, commencing Monday matinee, comes one of the grandest musical productions on the road in Al Reeves' famous "Big Beauty Show," an organization which has caused millions of people to laugh in every big city from Maine to California.

beautiful women, gorgeous scenery, magnificent wardrobe and an elaborate display of electrical effects, headed by the world's famous comedian, song writer and burlesque producer, Andy Lewis, who has written two new musical comedies for the show, entitled "The Merry-oGo-Round" and "Conology," both of which have more original ideas than has ever before been seen on the musical comedy stage. There are no worn-out, hackneyed songs; no time-worn jokes, but originality stamped on every word, action and gesture.

Andy Lewis, in the ollo, presents his slangy race-track conceit, "Won at the Wire," and in the burlesque caricatures Hyman Tupilin Ski with his famous saying, "Alright, ain't it?" For noveitles, the Madelewski Troupe of Russian dancers and acrobats; Burton and Burton, instrumentalists; Ward and Schappell, comedians; Miss Jeane Lansford, prima donna; Edwin Morris, comedian; The Park Trio-Mamne, Smail and Gordon; Miss Alice Jordan, the rag-time singer; Miss Edna Barrie, the magnetic soubret and Miss Maude Elliott, whose imitation of a woman who has drunk wine for the first time, and not forgetting twenty-two of the daintiest, cutest, petite, prettiest squab girls ever before seen go to make up the Al Reeves Beauty Show, the biggest and best show on the road.

"The Follies of 1907."

One of the biggest of musical productions, and an instantaneous hit in every city that it has visited, is the record of F. Ziegfeld, ir.'s, Revue "Fol-lies of 1907," which comes to the Prin-cess Sept. 7 While there is no plot to the entertainment it is as breezy as a western prairie in November, and its catchy music is being whistled and played from Maine to California; it is played from Maine to California, it is a revue of all the notable happenings for the year, in which persons of pro-minence are connected. All and all there are 13 scenes, all of them made there are 13 scenes, all of them made right before your eyes, and in every scene there is food for laughter. The company is one of the biggest and best that have ever been organized, many of its members being high salaried stars. The chorus is composed of American beauties and has been heralded all over the country as the handsom all over the country as the handsom-est aggregation ever seen on the stage.

At Scarboro Beach.

More than ordinary interest will be taken in the coup which the Scarboro Beach authorities have arranged for the first week of the fair.

The act is called the Loop of Death, and it is said to be of an unusually sensational character. The act is in strong contrast to other loop offerings, the essential difference lying in the fact that the perilous ride is made while the performer is stretched face downward on a small trucklike car. Both rider and car are drawn by men to the top of an incline nearly 50 feet in height and at a given signal are released from the country interests. to the top of an incline nearly 50 feet in height and at a given signal are released from the apex of the apparatus and sent plunging on their downward flight.

Adding to the element of extreme danger is the fact that the performer is not fastened in any manner to the car, but relies solely upon maintaining her grasp upon two handlebars at the forward end of the vehicle. With her head resting upon a small pillow and her feet braced against the other end of the car, Mile. Loubet enters the loop with a crash.

Leaving the loop, a gap ten feet in width is leaped and the car and rider rush out of the apparatus between two uprights, which open automatitwo uprights, which open automatically for the exit. It is in the latter that the greater danger to the performer lies. Four persons are engaged in presenting the offering.

During the exhibition there will be special illuminations, band concerts, swimming races and many other special features at Scarboro Beach.

### Being and Doing.

Many of us are in that primary and saddening stage of living when our chief need is to be delivered from the narrowness and emptiness of ourselves. parrowness and emptiness of ourselves. Does not all idle gossip and all idle interest in idle gossip point to this? Our little brains are so emptied of interest and occupation that we listen eagerly to the small and petty squabbles of a hotel owner and its manager or to a detailed account of a young woman's wardrobe. Now thinking, and the reading or studying which prepares the mind for thinking, do much toward delivering us from sordid interests. It presents us with more data terests. It presents us with more data to deal with, and the more material we have to work on, the wider our eutlook, the likelier we are to come to a stage where our thinking shall be productive.—Harper's Weekly.

He had an excellent hearing, his audience including some of our most prompted that an excellent hearing, his audience including some of our most prompted to the people of all denominations. His externoon discourse was on "the coport the evening topic from the cent of you suffer as a Christian let him not be ashamed, but let him giorify God on this behalt." (I. Peter iv., 15, 16). The speaker said:

It is one of the peculiarities of the Bible that it teaches so many things which are the very opposites of what we would have expected, and yet in full accord with the facts of life as we see them daily and come in contact with them. Our natural thought would be that suffering should only follow the course of sin, and that when the sinful course is abandoned and the heart given to the Lord, all the suffering should cease. Particularly does this thought have weight when we remember that the Lord calls such His sons, after that they had turned from sin and accepted Christ and His redemption and become His followers of disciples. Naturally we reason that the children of God, having His favrywould be blessed exceedingly and avoid the promitist of the correct of the content of the con

as others, but that the Lord has taken us under His special care and put us into the school of experience, and is giving us the lessons of life that we may learn the exceeding sinfulness of sin and be developed in an opposite direction—that eventually under the moulding and fashioning we might be transformed to the image of God's dear Son. A question arises: "Do not Son. A question arises: "Do not others, the world in general, need these chastenings and instructions in right-eousness also?" We answer, "Yes." Why then do these experiences come specially to the church? Should not the church have less and the world have more of each distribution? When the

The Kingdom Come,

Those who now have the hearing ear, who now accept the divine arrangement, who are now willing to follow the Lamb whithersoever He goeth, thru evil report and good report, on the mountain tops of joy or in the valley of trouble—these elect, according to the divine promise, will constitute the Bride of Christ and be made His joint heirs in the kingdom, as it is written, "Fear not, little flock, it is your Father's good pleasure to give you the kingment, who are now willing to follow "Fear not, little flock, it is your Father's good pleasure to give you the kingdom." As our Lord suffered, and then entered into His glory, so His elect church, his "little flock," must suffer and then enter into the glory of her Lord — become sharers of His kingdom. Then the glory of the Lord will be revealed, "That all flesh may see it together." (Isa xl.) The Lord's mighty power will be gradually manifested in the suppression of sin and ignorance, the binding of Satan that he might deceive the nations no more and the letting loose of the flood-gates of truth and blessing upon all mankind.

Prof. Longacre's Thrilling Experience in the Realm of Spiritualism.

While Gotham theatre-goers were having all kinds of a time last night seeing the rival presentations of "The aded last night before a Toronto audience by a Boston professor in a quite up-to-date version of "Faust." But in this city "The Devil" was not put on the hoards at a theatre but became the central object of interest at a religious camp meeting. To particularize, it was at the Seventh Day Adventist camp meeting. Something quite new in the presentation of spiritualism was promised, and by the manner in which a lady glided out of the tent the thril-

ler was quite all that could be reasonably expected. Prof. Longacre's jet black hair and moustache and flashing eye coupled well with his magnetic oratory, especially in depicting the visits of false spirits from the other world. With a forceful array of carefully compiled texts for a ground work, Prof. Longacre laid down the proposition that the dead "know nothing" cannot revisit the earth, and that immortality is a gift of God to the just on the Day of Resurrection. Spiritualism, he stated, teaches that there is no light on immortality in the Old Testament, while in the New the revelation of immortality is mis-leading, confusing and "often disgust-ing." Many preachers in the United States are spiritualists to the extent of claiming that they are aided in their discourses by the spirit of Washington, or Lincoln. Dr. Talmage used to as-

sert that his wife was a visitant who assisted him in the preparation of his discourses after her death. Prof. Longacre estimated that there are twenty million spiritualists in the world to-day. Spiritualism was subtley endeavoring to supplant the Gospel. It taught that death was not the punishment for sin, but the door to happiness without the atonoment of the punishment of of the punishmen While there was much trickery at spir- Satan." itualistic seances it was not all trick-ery, but much was supernatural. This he could attest by his own experience, and the testimony of those whose ver-acity was heved question. Satan."

A Methodist minister rose and ask-ed "if everybody there was going to swallow all that."

Prof. Longacre: By the amens, I and the testimony of those whose veracity was beyond question. It was not a very unusual thing for false spirits to visit the living. He knew a lady Adventist whose husband and daughter had recently died. In the night a misty cloud appeared in the darkness of her room and a figure emerged having every apearance of her husband. It declared that such it was. The lady declared that she knew it was a false spirit, and on quoting a text of Scribspirit, and on quoting a text of Scripture it vanished. Immediately after another cloud, from which appeared a vision of her daughter, came. This appeared to the control of the control o

parition claimed to be her daughter, Lillion, but on again quoting a passage of Scripture it disappeared.
His experiences as an investigator in the realm of spiritualism, Prof. Long-acre said; would make his hearers' blood to curdle and run cold. When a secular student at college he and his room-mate were very sceptical even as to hypnotism. They determined to study it thoroly and become proficient mesmerists until, Prof. Longacre declares, he could do things which were at solutely miraculous, and he knew SUES FOR \$50.000. at solutely miraculous, and he which they were accomplished thru some supernatural power. They went so far supernatural power. They went so far was secured surreptitionsly by The Province. that finally they secured surreptitionsly a copy of the great black art work, falsely called "The Sixth Book of Moses." This teaches the reader prayers to Satan, in answer to which miraculous power is granted. Mayor Walters is in Ireland and the reeve is at Old Orchard Beach. Deputy Reeve Brown said he was of the opinion that there was nothing to do now but to await the action of the municipal board in September. It would not be necessary to take another vote, but if that should be insisted upon the vote in favor of annexation would be much larger than it was two years ago. Neither would it be wise to ago. in the World's military competition must be in this office by 12 midnight on Monday next, the 31st inst. It is expected that the last day of the com-petition will be a busy one, as it is known positively that many voters are waiting with coupons and subscriptions with which to surprise the leaders at the eleventh hour. The Riflemen have a good lead over the High-landers, the second corps from the top in the competition, but it is very hard to it is very hard to say whether either of these units will be in at the death. A few yearly subscriptions would change the whole standing of the corps, and that these subscriptions will be forthcoming there can be no doubt. Some important changes will assur-edly take place within the next few days, and it would be wise on the part of voters to watch the daily returns, as the campaign promises be a strenuous one from now on, and if the public does not hold itself in readiness to jump into the breach when the corps for which they are voting

meets with a reverse, their favorites are apt to come off second best.

The Grenadiers jumped up over two thousand yesterday and are now so close to the Highlanders that unless the supporters of the latter rally they will not be in it at the last. There are will not be in it at the last. There are only three days left, but some hard work may be done in the interval.

# My Free Electric Belt

Never before has another person made a free offer such as this. I do not distribute cheap samples broadcast, but am daily sending out dozens of my full power Dr. Sanden Electric Belts absolutely free of charge, and they are the same in every respect as though full cash prices were paid. The proposition is simple. If you are ailing, call at my office and take a Belt home with you. Or, if at a distance—no matter where—send your name and address, and I will at once arrange to deliver to you one of my Belts, with suspensory or other attachment needed. Use same according to my advice until cured, then pay me—many cases as low as \$5. Or, if not cured, simply return the Belt, which will close the transaction. That's all there is to it.

If you prefer to buy for cash, I give full wholesale discount.

We have only to refer you to the record of shipments for this year, made by the good properties, to substantiate what we say, and they go to show that the people purchasing COBALT STOCKS will receive millions in dividends alone, to say nothing about the advances in prices which the dividends, with frequent bonuses, will cause.

We advised you to buy these stocks some months ago, and all these stocks have had good advances, but they are going very much higher. To participate in these good profits, you should buy NOW.

These are what we recommend you to purchase, and if you want our reasons, write us, and we will gladly tell you.

Buy "Temiskaming," "Crown Reserve," "La Rose," "Silver Leaf" and "Nipissing," which will sell much higher within the next six months.

We devote our attention to COBALT STOCKS entirely, and will guarantee prompt service in execution of orders. Write, phone or wire us.

"I am going to find my wife no matter where she is. I know that if I can talk with her for ten minutes she will forgive me and everything will be all right again," he said.

Fair harvests in the west, average crops in Ontario, and a general trend toward better times, would seem to mean that the public can spare some money for good investments.

Cobalt Mining Stocks during 1966 and early 1907 were entirely too high and many lost money by the inevitable shrinkage due to the depression and overvaluation. The spring of 1908 saw most of the good stocks a little below their real value; and we predicted a gradual rise in prices.

The real value of the camp as a silver producer is now established; and large dividends have been paid recently, which show a better earning for money than any industrial stock on the markot. We believe that this increase in values will go on gradually for some months yet, followed by a possible rapid rise in some cases.

Other properties will be put on a dividend basis shortly.

We say, buy "La Rose" "Trethewey," "Nipissing," "Silver Leaf," "Nova Scotia" and "McKinley and Darragh" at once, as they look sure profit-makers within 90 days.

There are many others which service in any active stock.

The insiders have been making money lately on mining stocks. New is the time for the public to come in.

### BEAGTIONS EVENTUATE AT WALL ST. MARKET

Realizing Forces Lower Prices at New York-Scalpers Busy at Toronto Exchange.

Friday Evening, Aug. 28. Trading brokers participated in the Toronto market to-day to no inconsiderable extent. These have become convinced that the supporting interests in the active shares cannot afford to drop proceedings abruptly and that frequent proceedings abruptly and that frequent up and down swings are a necessary adjunct at the present stage. Scalps of this nature are exceedingly annoying, but this is one of the drawbacks to a promotion. Winnipeg Railway was made the feature to-day with a rise of about five points. The other three actives were satisfied with much smaller advances. Business otherwise than of a speculative nature was small. of a speculative nature was small. A few small investment orders appeared in the inactive department and prices in some issues showed the result of the new demand. RELY ON SEDUCTIVE QUOTATIONS.

World Office.

Friday Evening, Aug. 28. The list of active stocks at the Toronto exchange was composed of the three Southerners and Winnipeg Railway to-day. The market without these was about as featureless as it would be possible to conceive. The market is devoid of news regarding the specialties, and the quotations and profit possibilities are now left to develop the usual outside speculative following, which in due course will be treated to an uncomfortable surprise. There was a small amount of investment buying in the market, but these orders were limited to the banks, Bell Telephone, Dominion Coal, Consumers' Gas, Lake of the Woods, and one or two others of the more sedate nature. The usual fillip was given the speculative end of the market at the week end. HERBERT H. BALL.

STRIKE BREAKERS QUIT.

Seven Left West Toronto Shops Yes-terday and Several from John St.

The official bulletin from strike headquarters in Montreal, received at West Toronto yesterday, contained the in-formation that Keir Hardle had block-

formation that Keir Hardle had blocked Mr. Cross' scheme of breaking up the strike by importing men from the Amalgamated Society of Engineers from England. He addressed a big mass meeting of the men in Montreal and has sent a cable containing notice of the trouble now on here, and this cable will be printed in almost every paper in the United Kingdom.

A charge of a serious nature, made by the pickets at West Toronto, which they say is true, because they themes cars out as they came in. An official of the union told The World last night that the pickets had watched a man take one down, and then evidently not caring to take the responsibility on his own shoulders, put it up again. A boss came along, however, and ordered him to take it off, which he did, and they say there are many of these cases.

Seven mechanics left the shops at West Toronto yesterday, machinists, bollermakers and carpenters. These said that the company attempted to a disminent.

### FALL HAT DISPLAY

We are free to admit that we pay more than the usual price for our Derby as well as our soft hats in each grade, in order to have them better, and feel that the lessened profit is the very best sort of advertising and accomplishes the best sort of permanent results.

Dineen's special Derbys at \$3.00 are better than any other \$300 hat we know, while the \$4.00 Henry Heath Derby is in every way up to the usual \$5.00 standard-as for the Dunlap \$5.00 Derby, we know of no hat so luxurious.

BALMY BEACH, Aug. 28.—On Saturday afternoon at 4 o'clock, Rev. A. Carman, D.D., general superintendent of the Methodist Church, will lay the corner stone of a new church on Beech-avenue. About a year ago Rev. Eli Middleton and Rev. Robt. Strachan, two resident retired minister, began in a small way the work which has now grown so large as to warrant the erection of the present proposed building. A Sunday school with a membership of sixty has already been got together under the leadership of C. A. Carter. A Ladies' Aid has been instituted and last week a most successful garden party was held which netted the snug sum of \$50. A cordial invitation is extended all to attend the ceremonies on Beech-avenue on Saturday afternoon.
