POPE HOLDS CONSISTORY

New Cardinal Created and Many Bishops Confirmed

TITULAR ARCHBISHOPS

Bishop McDonald of Harbor Grace Becomes Archbishop of Goortyna --- Election of Archbishop McCarthy of Halifax Confirmed.

ROME, Dec. 6.—At the secret consistory held today in place of the public consistory, previously planned, Cardinal Samassa, Archbishop of St. Rigona, Hungary, who was present although still suffering from illness received the Red Hat. The pontiff pronounced 84 bishops, including the Most Rev. James H. Blenk, as Archbishop of New Orleans; Right Rev. L. S. Walsh, as Bishop of Portland, Maine; Mgr. John B. Morris, as Coadjutor of Little Rock, Ark.; Mgr. Giuseppe Averara, as Bishop of Palermo, Sicily; Most Rev. R. McDonald, former Bishop of Harbor Grace, N. F., as Archbishop of Goortyna; Right Rev. J. Marchese, as Bishop of Harbor Grace; Most Rev. E. J. McCarthy, as Archbishop of Halifax; and Right Rev. Wm. McDonald, Bishop of Alexandria, Canada. The most significant appointments were those of the new French bishops, which were made without any opposition on the part of the French government.

In his allocution, the pope said that every day the increasing and storm of vicissitudes is begetting down on the church, involving great misery. The pontiff added: "More than ever now, the Church is compared with a ship buffeted by the waves in the midst of the ocean, but our faith does not vacillate in the least. In our belief in the efficacious assistance of Christ, who when the time to succeed comes, will rise and command the winds and sea to go down so that the perfect tranquility so much desired will be on us. The great comfort which is confounding the enemy, the pope added, "is the singular concord which prevails throughout the episcopacy so fully united to us."

WAGING WAR ON THE BAR ROOMS

Rev. Alfred H. C. Morse Formerly of St. John, is Warming Things up in Brooklyn.

Rev. Alfred H. C. Morse, who it will be remembered, supplied the pulpit of the Brussels street Baptist church for five or six years, in the summer months, in the interval between the pastorate of Rev. Dr. Carey and Rev. Mr. Waring, is evidently conducting a vigorous campaign against the liquor dealers in the vicinity of his church in Brooklyn, N. Y. The New York Times of Monday, December 3, says: "The Rev. Alfred H. C. Morse, pastor of the Strong Place Baptist Church, Brooklyn, has just returned from a tour of inspection in the Forty-seventh Precinct on Sunday, told his congregation last night that all the drinking places, with one exception, in the five blocks nearest the church had been closed tight all day. "There are 200 saloons in the Forty-seventh Precinct, and Mr. Morse says he will close every one on Sundays before he is through. On Saturday night he handed out a list of eighteen saloons, and told him that every one must be closed yesterday. "Early in the morning Mr. Morse went out to see if the police were doing their duty. At only one of the saloons on the list was there any sign of life. "In his sermon, which was on the evils of city government, Mr. Morse attacked Senator McCarran, who he said was 'a shameless boss.' "The Bishop of Quebec said where ever the Anglican church was sent there was an agency which strengthened and cemented the bonds of empire. In telling the story of the origin of the name of his diocese he asked his audience to apply it in relation to the needs of Western Canada."

FOR AN ELASTIC CURRENCY CHICAGO, Dec. 6.—An elastic currency issued by the banks at a low rate of interest that will satisfy the demands of commerce was advocated by Judge Foran in an address before the Bankers' Association last night. The basis for this double issue will be the unused balance of the National Bank's bonded reserve. Mr. Foran said the commission investigating this matter found the 6,000 banks had outstanding but 22 1/2 per cent of the amount they are used to issue. They have a standing reserve of 67 1/2 per cent.

FUNERALS The funeral of the late Mrs. Donovan took place this morning from the residence of her daughter, Mrs. Breen, Hanover street, to the depot. The body was taken to Peterborough, where interment will take place. The funeral services will be conducted by Rev. C. P. Carleton.

The funeral of the late Mrs. E. McLeod was held this afternoon at three o'clock from her late residence, 328 Haymarket square. Rev. P. J. Stackhouse read the service at the house and interment was made in the Church of England burial ground.

The ladies of Cullom, L. O. B. A. No. 11 will meet in their hall, Simonds at 8 o'clock.

ADVANCE IN DRIED FRUITS

Plum Puddings, Mince Pies, etc., Will Come High This Year

FRUITS ARE AWAY UP

Raisin Crop Was Light and Demand is Heavy, Consequently Prices are Up—The Same is True of Dried Fruits and Peels.

Plum puddings, mince pies, fruit cake and other Christmas specialties will cost the householders dearly this year. All kinds of dried fruits have advanced during the past few months, and prices are reported higher than for years back. During the spring and summer of the present year all fruits were cleaned up and when the new crop came it found everybody bare and the big orders in consequence forced the price up very rapidly. The crop of raisins is said to be very much below the average, and they have advanced from a quotation of 9 cents in August to 12 cents at the present day. Currants have also advanced about 3 cents per pound, while figs and dates have also taken an upward leap. Evaporated apples are quoted at from 1 to 1 1/2 cents per pound higher than two months ago, and prunes are 1 1/2 cents higher. Evaporated apricots and peaches are reported to be high, and many of the local wholesalers have decided not to handle them at all.

Candied citron, lemon and orange peels have also advanced, citron being from 6 to 7 cents a pound higher than last year. In nuts, Brazil nuts are very high, and in Virginia, where the packers have formed an association, claiming that they have been selling below cost during the past season, the new tariff also adds an additional duty of one cent. Almonds also are much higher than last year.

In canned goods tomatoes and peaches are much firmer, there being no stock left in the packers' hands, and they are only able to fill about 80 per cent of the orders for tomatoes. Canned strawberries and raspberries are both higher than last year.

Surplus crop advanced 30 cents per box last month, and some of the other lines are also expected to have the price raised.

Both wholesalers and retailers report that business during the present year has been exceptionally good. The general prosperity of the country, it is claimed, is responsible in a large measure for this fact. "The best year yet," seems to be the general opinion.

CHURCH NEEDS OF GREAT WEST

Interesting Discussion of Western Canadian Missions at Anglican Society Meeting in London.

MONTREAL, Dec. 5 (Special).—A special London cable says:—"His late Majesty King George V. has graciously granted £20,000 on behalf of Church of England work in the Northwest of Canada was the special subject of the annual meeting of the Manchester Archdiocesan Association of the Society for the Propagation of the Gospel in Foreign Parts. The Bishop of Manchester said, as to the work of the church in Western Canada, that there were 70,000 English settlers going to Canada every year, who needed to be followed by the means of grace. Let them not say to themselves: 'Let Eastern Canada look after the affairs of Western Canada.' Eastern Canada had her own church work to do. It was doing nobly what it could on behalf of the west, but could not possibly undertake so great a demand. Archbishop Webb, of Calgary, said, their schools in Canada he looked upon as the greatest failure. They had absolutely secular schools."

FOURTEEN BUILDINGS IN LYNN DESTROYED BY FIRE FROM BOILER EXPLOSION

Boiler in Big Factory Exploded and Hurlled Itself Into the Street—Sheets of Flame Followed and Big Conflagration Resulted—Eleven Persons Injured But No Lives Lost.

Fire Under Control

At the building of the H. G. Worthy factory, the firemen also had gathered its force and after hard fighting, with reinforcements from surrounding places, had the blaze well in hand and the building escaped with a bad scorching and damage of water.

Some Thrilling Rescues

Plunging into the midst of the stricken territory the firemen and police made some thrilling rescues, the police being especially conspicuous for their heroism, while the fire fighters devoted their efforts to keeping the blaze confined to as small a space as possible.

A patrolman sounded the alarm. As he was in the vicinity of Harney's he heard a dull roar and saw the heavy boiler in the wing of the Harney shoe factory burst through the engine house, 191-193 across a corner section of the main building and landed in the street. He was stunned for an instant by the concussion and he was thrown to the floor and stunned. Recovering quickly, he ran out and saw the flames shooting up the elevator shaft. He made a quick survey of the surrounding room. Only twenty hands were assembled, he said, the rest not being due until a quarter past seven.

Mad Dash for Safety

These all made a dash for the exits, and Capt. Winchell was positive that all escaped with burns about the face and hands, and he is sure there were no fatalities. The engineer of the factory, W. J. Jennings, was picked up by the police on Alley street, in an unconscious condition. He was badly cut and bruised about the head, but upon being given treatment he came to his senses. He could not give any account of what caused the explosion.

The Dwelling Destroyed

The dwellings destroyed were: Peter Pheasant's, Charles street; Isaac Senter's, Charles street; Robert Johnson's, Charles street; Richard Johnson's, Charles street; Daniel Johnson's, Charles street; Morris Becker's dwelling and grocery store, rear of Charles street.

DIED IN HOULTON

HOULTON, Me., Dec. 6.—Herman H. Whitehead, who as manager of a local company, has been prominent for years in the hardware trade of Maine and Massachusetts, died today at the age of 42 years, of Bright's disease. He was a native of Houlton, and unmarried.

KILTIES LEAD BY TEN VOTES

A Double Surprise In Times Contest Today

COURT LA TOUR THIRD

Scotch Boys and St. Mary's Band have Deposed the Foresters --- Now There Will be Great Struggle for the Coveted First Place.

The Evening Times contest is full of surprises. Today the standard of the lads of the kilt and tartan floats over first position and Court La Tour and St. Mary's Band fall back before their victorious onslaught. The success of the Kilties today was entirely unexpected, Court La Tour's grip on the leadership being considered secure. Before noon today, however, the bandmen succeeded in wresting first honors from the Foresters by a large increase in their vote. Their success was short lived, however, for at the eleventh hour the Kilties came forward with enough votes to secure the coveted position. Their lead over the bandmen is very slight, but close enough to be interesting.

An interesting struggle between the three contestants may now be looked for; if St. Rose's L. A. D. Society does not come forward and further complicate matters, a possibility which is extremely likely.

The lads of the Scots Brigade now that they have again been successful in carrying off first honors, will doubtless follow up the advantage they have gained, by securing their position against the assaults of their rival organizations.

The bandmen and the Foresters will, without question, make a combined attack upon first position before the day is over.

The organization which succeeds in winning the purse of gold will have reason to congratulate itself, while those who fall will have something pleasant to remember in the days to come.

Although the rivalry in the contest has been intense, the struggle has been conducted in a manner which proclaims the membership of the different organizations of St. John through gentleness and sportsman.

No feeling of bitterness has been manifested by any of the contestants, and the award of the gold pieces may rest assured that it will receive the hearty congratulations of its less successful rivals.

The contest of the great struggle continues to attract a great deal of outside interest. Yesterday Col. Buchanan received from a gentleman in Hartland, named Cameron, a letter containing 50 votes and a message of good will.

JEROME AFTER THE GAMBLERS

NEW YORK, Dec. 5.—Significant action was taken today by District Attorney Jerome and Police Commissioner Bingham to further the investigation by Mr. Jerome of gambling in this city.

Jerome and Bingham held a conference today, after which the police commissioner issued an order immediately withdrawing about 100 policemen who had been stationed in front of houses suspected of being gambling or pool rooms.

Besides this, the police commissioner turned over to Mr. Jerome a list of suspected places compiled by the police department.

The withdrawal of the policemen is taken to mean that Mr. Jerome's detectives and assistants can now endeavor to obtain admission to places which are under suspicion without risk of having their detective work compromised.

ANOTHER MURDER CASE

HAZELHURST, Miss., Dec. 6.—Mrs. Angie Birdsong, 22 years old, a member of one of the prominent families in the state, is on trial here on the charge of murdering Dr. Butler, a nephew of former Governor Louisa, at Monticello, Miss. The case has attracted wide interest in this section.

Mrs. Birdsong, on Nov. 23, 1905, entered Dr. Butler's private office at Monticello and fired five shots at him, killing him instantly. Going on the street, she remarked to a gathering crowd that they would find the result of her work upstairs.

A few days before the shooting Mrs. Birdsong attempted suicide. At her preliminary hearing her brother-in-law testified that the prisoner had experienced extreme mental troubles over rumors concerning her character.

MONTEZUMA IS LABELLED

Customs Officer Discovers Smuggling Carried On

THE SMUGGLER CAUGHT

He is Frank Moran, Boatswain of the C. P. R. Liner Montezuma—Collector of Customs Fined Him Heavily and Labelled the Steamer.

Lewis E. Tapley, who is acting customs tide waiter, is a terror to smugglers. Last night, on his rounds, about 8:30 o'clock, he spotted Frank Moran, boatswain of the C. P. R. steamship Montezuma, coming ashore from that vessel at No. 1 berth with a lot of cigars which were not on the inward manifest of the steamer and which he was trying to smuggle ashore, but the customs officer put his hand on him and made him disgorge. This morning the smuggler was brought before the collector of the port and acknowledged his guilt. The collector has imposed a heavy fine on Moran, and has also labelled the steamship Montezuma in a heavy fine; the amount is not made public.

The collector of customs says he is determined to prevent smuggling at this port and has instructed his staff of officers to keep a sharp lookout for parties who are trying to evade the customs laws. In future all guilty parties will be punished to the limit of the law with fines or imprisonment.

SYDNEY TAKES PRECAUTIONS

Alarmed by Possibility of Smallpox Sydney Health Board Orders General Vaccination.

SYDNEY, Dec. 6.—(Special).—There is a grave danger of smallpox, now epidemic in eastern Nova Scotia, finding its way to Sydney, and this danger was discussed at a meeting of the board of health yesterday.

Dr. McIntyre, city medical officer, is in receipt of a letter from Dr. Reid, provincial health inspector, stating that a large number of people are now leaving the infected district about Springhill, and that doubtless many of them will come to Cape Breton mine.

The Sydney board realizes the necessity for quick action, and has recommended a general vaccination of those who have not been vaccinated within past few years. It was also decided to recommend to the warden of the county that a man be placed on all incoming trains, who would see to it that all passengers were vaccinated before being permitted to enter the city.

CANADIAN FRUIT SHOWN IN ENGLAND

British Columbia Apples Win Gold Medal and Nova Scotia Apples Silver Medal.

MONTREAL, Dec. 6.—(Special).—A special London cable says: The exhibition of British and colonial fruit at the Royal Horticultural Society's fall opened Tuesday and attracts considerable attention.

A huge display of apples from British Columbia was awarded the silver medal, while the Nova Scotia apples, which gets the Knightian silver medal. Silver medals are also bestowed on the individual growers. The Post's criticism of these exhibits indicates that a lack of uniformity in texture, color and taste. "They are, however, excellent apples of culinary fruit," says the paper.

WILL BUILD NEW SUNDAY SCHOOL

The annual meeting of the German street Baptist church Sunday school was held last evening, when very encouraging reports were received. It was decided to begin the erection in the spring of a large addition to the church, to be used for Sunday school purposes. The new building will be built on the lot adjoining the church on German street.

The officers elected for the ensuing year were: Honorary superintendents, I. S. Simms; superintendents, W. C. Hunt and St. Hunt; treasurer, S. H. Davis; general secretary, T. H. Delys; school secretary, A. J. Dearnes; chorister, W. F. Nobles; pianist, S. E. Fisher; librarians, Fred G. Fisher and Charles Metz; marshals, F. D. THOUSANDS HAVE KIDNEY TROUBLE AND DON'T KNOW IT

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue, many fatal results are sure to follow.

Your other organs may need attention—but your kidneys most, because they do most and should have attention first.

If you are sick or "feel badly," begin taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because as soon as your kidneys begin to get better they will help all the other organs to health. A trial will convince anyone.

The mild and immediate effect of Swamp-Root the great kidney and bladder remedy is soon realized. It cures the kidneys because its remarkable curative power has been proven in thousands of the most distressing cases. If you need a medicine, you should have the best.

Wilson, Conn., Feb. 18th, 1906. Dear Sir: A man could not be in any worse condition than I was with kidney and bladder troubles. I doctored with several good doctors and one physician told me I had Bright's Disease and that I would not live over six months. Another told me it was all stones. I had severe pains in my kidneys all the while, could not sleep over, would be dizzy, could not lie down without some one lifting me up; my back was weak and painful; urine was as thick as cream and it would smell something dreadful. I had to get up many times in the night to urinate. I took Swamp-Root and today I am a well man and never felt better. All of my troubles have gone and show no signs of returning. I take my cash that Swamp-Root put me where I am today and I can prove it by acquaintances.

EDITORIAL NOTE.—In order to prove the wonderful merits of Swamp-Root you may have a sample bottle and a book of valuable information, both sent absolutely free by mail. The book contains many of the thousands upon thousands of testimonial letters received from men and women who found Swamp-Root to be just the remedy they needed. The value and success of Swamp-Root are so well known that our readers are advised to send for a sample bottle. In sending your address to Dr. Kilmer & Co., Binghamton, N. Y., be sure to say you read this generous offer in the St. John Evening Times. The genuineness of this offer is guaranteed.

SUIT FOR SMALL BOY. The suit portrayed in the illustration is an excellent model for a boy of from three to six years of age, the design being a modification of the popular Russian blouse. Dary blue chevrot serge is a very useful material for such a suit, which consists of bloomers, trousers and a blouse made in one piece, long enough to reach from the neck to just above the knee. This blouse was made with a stitched panel in the middle of the front and back, with yoke sections on either side, to which the plaits were attached.

NO WOMAN CAN BE STRONG AND HEALTHY UNLESS THE KIDNEYS ARE WELL. When the kidneys are ill, the whole body is ill, for the poisons which the kidneys ought to filter out of the blood are left in the system. These poisons are the cause of all the ailments which afflict the human race. Doan's Kidney Pills are a specific for all kidney troubles. They begin by healing the delicate membranes of the kidneys and thus make their action regular and natural.

SAYS WATER IS NOT PURE A Resident Suggests That St. John's Drinking Water Should be Analyzed Periodically and Results Published.

There is one prominent citizen who is very pronounced in his opinion of the present condition of the city water supply. The gentleman in question has travelled extensively, and among the places he has visited in the west is the city of Winnipeg, whose people are today, and have been for some time, confronted with the great problem of the water supply. Speaking to the Times of the water supply in that city, he explained thoroughly the location of Winnipeg, which, he said, is perfectly level, and which, on account of its imperfect water supply, is today noted for the number of cases of typhoid fever that exist there. Being perfectly level, it is impossible to get water forced up to the upper stories of high buildings, and, as a result, the sanitary conditions are not by any means conducive to good health. The water runs into the Red River, and comparatively high water levels in the conditions it cannot be expected that Winnipeg's plague of typhoid fever could be stamped out easily. The western city's condition was the channel that led to the discussion of the water supply in St. John, which, he said, is in question, and that a medical man had expressed the opinion to him that he was very doubtful as to the purity of the water that is present here, and is used by citizens. He referred to the case brought by the city against Mrs. Sterling Barker, and said that although an injunction was granted by Mr. Justice Barker to restrain the proprietress of the Lock Lomond Hotel from allowing the water into the water works, it is used by the city, yet the common council is apparently at a standstill in the matter, and city residents are drinking water which is contaminated. An important argument was made by the Times informant, and it was that an expert should be appointed and paid a substantial salary by the provincial government to analyse the water weekly or fortnightly that is consumed by people throughout the province, and that such report should be published for the benefit of the citizens. In view of the fact that people who know the kind of water they are drinking, and would be better safeguarded in the line of public health than they are at present.

A BOARD OF CONTROL

The Montreal city council's committee on legislation, by a vote of seven to four, at a meeting last week, adopted a resolution which approved the principle of the establishment of a board of control for the city, and authorized the city attorneys to prepare a clause empowering the city to establish such a board.

There was considerable discussion and difference of opinion on the question whether the members of the board should be elected by the city council from its members, or by the people. It was agreed that each member of the board should give his whole time to the city's affairs.

AMERICAN SHIPPING

The Washington correspondent of the New York Journal of Commerce believes that congress will adopt a modified ship subsidy bill, to encourage the development of United States shipping. He says: "Chance now favors the early enactment of a ship subsidy bill by congress."

TORONTO SEES TURN OF TIDE

Cobalts Are Now Firmer in That Market—English Paper Advises British Investors to Give Cobalt a Wide Berth.

TORONTO, Dec. 5 (Special)—It looks as if the tide had begun to turn. The sensational drops in Nipissing resulted in a corresponding fall in other properties, but today's quotations show a firmer tone all round.

A BARGE BURNED IN LAKE ONTARIO

BELLEVILLE, Dec. 5.—(Special).—At noon today a telephone message was received from Captain Smith of Picton, where he and the crew of the mining steam barge Hixox arrived this morning. The Hixox took fire on Sunday night at 10 o'clock in Lake Ontario and after much difficulty was beached on Main Dunes, near the end of the Prince Edward shore.

As was to be expected, President Roosevelt's message relative to the Japanese, has evoked a storm of angry protest in California, with threats of a violent disregard for federal authority.

that he might have expressed his purpose in more conciliatory terms. The president evidently felt that this was not a time for half measures, and he is not the man to hesitate when he feels that something should be said or done.

The discussion in the senate yesterday, following Senator Ferguson's statement of the heedless conduct of marine and railway officials on P. E. Island when the crew of a wrecked Norwegian bark were being one by one swept into the sea, should lead to greater vigilance and effort on the part of such officials, and also to the establishment of a better system of life-saving stations along the Canadian coast.

The cosmopolitan character of the population of Winnipeg is indicated by the following paragraph from the Free Press:—"At the sitting of the appeal court yesterday, A. Haggart, K. C., the president of the Law Society, presented to the bar E. R. Levinson, from Western Australia, and B. D. McDonald, from Nova Scotia, who were sworn in and signed the roll of barristers."

The British school teachers will not find technical education as well provided for in Canada as it should be, or as it will be within the next few years. The people and the governments are but now waking up to a moving sense of the importance of technical training as a part of the general educational system.

The awful experience of the crew of the schooner Emma A. Harvey, ending so tragically in the death of the captain and one seaman, on the Digby shore in Tuesday's storm, brings home to readers of the newspapers a pathetic sense of the hardships and danger of winter seafaring along these coasts.

The general manager of the Bank of Nova Scotia has followed up his recent plea for independent inspection of Canadian banks by engaging two expert chartered accountants to verify the statements of his own bank. The example is a good one.

Returns brought down in parliament yesterday show that Sir Wilfrid Laurier's dream of the time when every pound of Canadian freight shall pass through Canadian channels has not yet been realized; but we are making steady progress in that direction.

Four Moncton liquor sellers have been taken to jail, and several others are on the anxious seat. Continued enforcement of the law would make Moncton a dry town.

An Ottawa despatch says:—"It is understood that ex-Premier Ross of Ontario has been offered and will accept a seat in the senate."

RICHMOND, Va., Dec. 5.—With dedication ceremonies participated in by distinguished Catholic prelates, the Cathedral of the Sacred Heart, gift of Mr. and Mrs. Thomas F. Ryan, took its place recently as one of the greatest institutions of its kind in the United States and a monument of the church in the south.  
The ceremonies, beginning with the consecration at six o'clock in the morning and followed at eleven o'clock by pontifical high mass, attracted a large crowd to Richmond. Mr. and Mrs. Ryan came from New York. Cardinal Gibbons, Apostolic Delegate Falconio and many Archbishops and Bishops from all parts of the United States were conspicuous figures in the services, while state and city officials, including Governor Swan-

**SIX HUNDRED PEOPLE WAIT IN SNOW BEFORE STATE LABOR AGENCY**

New Experiment in Massachusetts Shows That Boston Has Many "Out of Work" --- The State to Find Jobs for the Unemployed.

(Boston Journal, Tuesday.)  
In a heavy snow storm, and with the wind whistling about their ears, 600 men, women and children waited for several hours yesterday morning for a Kneeland street to open its doors. When at 9:15 after a heavy call had been sent to the police for two officers, the doors were finally opened, a grand rush was made; the two officers, together with the patrolman on the beat, having a hard struggle to preserve the lines, which extended to Washington street on one side, and to Harrison avenue on the other.

Among this crowd of applicants for positions were many skilled artisans, well dressed, and apparently prosperous. Others were from the poorer classes, dressed in heavy coats, and many of them were women and children, some of whom were waiting for the doors of the State to throw open the doors of the latest paternal experiment.

**KEEP CROWD IN ORDER.**  
Emanuel Joseph, janitor of the bureau, assisted by the police officers, kept the crowd in good order, directing them to sit at a time, and directing them to the proper rooms for registration. The first person to register was Miss Alice A. Foley, of George street, who sought a position as a stenographer. After she had registered she was sent out, and later returned to say that she had accepted the position.

The first man to register and be accepted was Roland P. Smith of 3 Halbert street, Rockbury. He was a skilled workman on glass, and as the bureau had just such a position as he sought, he was sent out immediately, returning after having negotiated the job. So fast did the applicants come into the rooms designed for unskilled labor, that almost the whole office force, consisting of four young women and four men, were compelled to turn their attention to this branch, leaving the skilled workers for a time. The majority of those applying for unskilled labor among the women were house girls and maids, while among the men drivers of single or double teams seemed to stand well to the front.

**LESS THAN 500 POSITIONS.**  
Since there were less than 500 positions to offer, many were turned away without finding what they sought. All were registered, however, their names being taken, together with their age, their previous employment, and other information that would lead to the securing of the best applicants for the best positions.

**YET AN EXPERIMENT.**  
When seen at the State House yesterday, Chief Pidgin of the bureau of statistics of labor and the census bureau, said of the new employment bureau: "I cannot say much about the new bureau as yet. It is an experiment, but if we may judge by what has happened up to the present time, it is a grand success."  
He said that he felt the bureau to be a grand thing for the working people, and the applicant nearer together. He said that he had written to a great many business firms and had received answers to many of his inquiries as to whether they had positions open. He said that he believed by this method he could get into close personal touch with the employers, and that by advertising he could get plenty of applications.

**HELD UP THE LIFE BOAT WHEN MEN WERE DROWNING**

Senators Gave Dominion Government Officials in P. E. Island Severe Censure for Red Tapeism --- Inhuman Conduct to be Investigated.

OTTAWA, Dec. 5.—In the senate Senator Ferguson asked about the plans of the government for establishing life saving stations on Prince Edward Island. He was led to the inquiry by the wreck of a Norwegian bark on P. E. Island, near East Point. In the latter case red tapeism of the worst sort had cost men's lives. The vessel was ashore with the men in peril on her decks and in view of persons on the shore. It was found impossible to move the government officials to send aid, so tied were they by rules.

When a private life boat was obtained the officials of the government railway refused to forward it by a special train until 8:00 was put up. The men were drowning in the meantime. The private train was supplied by a private citizen. While the officials of the government were doing nothing toward the rescue of the men, two young men, Austin Grady and William Campbell, put out in a dory, at the peril of their lives, and took three men off the wreck. The dead was a pallid one.

Hon. Mr. Scott said the failure of the government officials to act had been most reprehensible. It would have to be looked into. He said that it was planned to establish life saving stations on P. E. Island. Senator Egan said there had been a shocking wreck on the North Shore of New Brunswick. For three or four days men were exposed on a stranded vessel near the shore but beyond aid owing to the absence of life saving appliances. All perished. Soon after this there had been a Norwegian bark cast ashore in the Gulf of St. Lawrence near a lighthouse and every man perished. Senator Ellis thought the time had arrived when there should be life saving stations all along Canada's coasts where there was water-born commerce. Economy may have been a good reason why these stations were not established in the past. Now, however, the revenue of the country was so abundant the government knew how to spend it.

Senator Robertson insisted that there should be an investigation into the conduct of the marine department agent at

FIRE INQUIRY DEVELOPS INTO WORDY WAR BETWEEN CHIEF KERR AND GEO. BLAKE

The investigation under oath into the condition of the engine houses and public stations was commenced last evening at city hall with an examination of witnesses with regard to the charges made by Ald. Christie about No. 3 house. District Engineer Geo. Blake, William McLellan, E. P. Leonard, superintendent of the fire alarm, and J. Day gave evidence.

Mr. Blake—The men do them? Mr. Christie—Is it correct that the engine house is in charge of the two drivers, who had instructions to report to the chief if Mr. Leonard did anything? Mr. Blake—That is correct.

Mr. Blake—Next morning, and you ordered every engine house to be cleaned? Mr. Christie—Yes, sir. Mr. Blake—You and Mr. Gerow made the next morning and informed me as to the condition of the engine houses? Mr. Blake—Yes.

The Millidgeville ferry steamer, Maggie Miller, is caught in the ice off the mill wharf, near Millidgeville. The ferry started for Indiantown for the purpose of laying up when the cold snap set in, but was caught in the ice and will probably remain in her present position until the spring.

Detective Henrhan, of Halifax, passed through the city today on the Boston train, on his way home to Halifax. He was accompanied by a man named Henry Hasbrook, who is wanted in Halifax on a charge of theft. Hanrhan went through St. John a few days ago on his way to Boston, where he had received word his man was to be found, and having secured him he brought him back.

Signal Station Master Morton says that the article in a morning paper, dealing with signals, is misleading. The hoisting of private flags comes under private agreement, and that he did not make the price, but that a leading shipping house has continued the hoisting of their flag, at the exact figures given the late signal master, and that he thinks it only fair to have the one price.

The bay steamer Bear River, Captain Woodworth, arrived in port from Digby, N. S., this morning. This is the steamer that towed the American schooner Rebecca W. Hildes off the shore at Joggins, N. S., near Digby. Captain Woodworth said he had little trouble in towing the vessel off, and that when she floated he towed her to the Digby wharf, where she is now. The vessel is not much damaged. The tug Lord Wolsey went across the bay this morning to tow the vessel to this port.

BONNY DOON IN BAD SHAPE WASHINGTON, Dec. 6.—Captain Carpenter of the revenue cutter Greban, which assisted the Mohawk in an attempt to save the barkentine Bonny Doon, ashore near Chatham, Mass., has notified the treasury department that the vessel, although floated, is in a very bad condition, but that he expected to land the crew at Vineyard Haven today. He says no lives were lost.

SENATE OF THE U. N. B.

FREDERICTON, N. B., Dec. 6.—(Special).—The annual meeting of the University Senate was held here this morning, those present being Dr. Inch, Premier Tweedie, J. H. Barry, K. G. J. D. Hazen, Chancellor Jones, Principal Bridges and Registrar Coy. A deputation from St. Andrew's Society of Fredericton was heard in regard to exempting from tuition fees the beneficiary of St. Andrew's scholarship at the University. They claimed that there was an understanding of this kind at the time the scholarship was created.

Several communications were read, including one from Prof. Bailey, who intimated that he intended resigning from the faculty at the close of the present year, and he asked the senate to make him a retiring allowance sufficient, with his pension from the Carnegie fund, to equal his present salary of \$1,000. No action was taken. Dr. Bailey, who has been on the university staff forty-six years, is to receive a pension equal to two-thirds of his salary from the Carnegie funds.
