TWELVE PAGES—ONE CENT

Opportunity Is Seen For New Way To Boost City's Welfare

GERMANS AGREE TO THE FRENCH PLAN

ST. JOHN IN FINE POSITION AS A CONVENTION CITY

Suggestion Made That 1925 Be Boomed as Convention Year Here.

LOTS TO OFFER

Present Attractions Will Be Greatly Augmented By New Hotel.

Word that the Independent Order of Oddfellows plan to hold their Maritime convention in St. John next summer again suggests the idea of concentrating local effort on 1925 as Convention Year in this cool and hospitable city.

The opening of the new hotel and the undoubted enlivening of other hotel enterprises might justifiably be accepted as a sufficient incentive to make a bold bid for this convention business.

Many Attractions.

St. John has always been a popular centre for convention purposes without any particular energy being displayed by the citizens in general to make it so.

Now the city is to have a modern chain hotel, river transportation conditions are improving, golf and tennis clubs are keeping pace with the bigger places and in general sight-seeing and recreational equipment of the old loyalist landing-place is just as much entitled to the benefits and attention of large gatherings of Canadians and U. S. bodies as Victoria or mid-western locations.

Next week the Pythians, male and female, of the Maritime Provinces, will foregather here for three days. The Medical Society of the province will meet here also. In September the Canadian Clubs of the Dominion will hold their big annual gathering within the city.

As an indication of how other cities cater to the visitor within its gates on convention occasions the Toronto City Council has erected a large permanent welcoming day-and-night sign in a central place.

The great trek east this summer has been to Halifax. It's Old Home Week has been a great success. Thousands of automobiles from all over the continent have taken vast armies of people to the sister city.

Urchins With Lemons Spoil Sweet Music

New York, Aug. 16.—The sight of children sucking lemons and picking out sour thoughts in their minds, caused their lips to suck and rendered them entirely unable to play sweet music.

DeVALERA SAYS HE HAS NO NEW POLICY

Declares Irish Treaty Not Accepted by The Irish People.

Dublin, Aug. 16.—Eamon de Valera, speaking at Ennis yesterday, declared he had no new policy to announce. He declared:—"We need no new policy. Our policy of 1917 and 1921 stands. Kings may be forced upon us. We may be temporarily forced to submit to certain things but our assent they can never gain."

Continuing, the speaker accused the British Government of propagandizing throughout the world with the view of persuading the world that the Irish national demands have been conceded.

To illustrate the effectiveness of this propaganda, I need only cite the case of John W. Davis, Democratic candidate for the U. S. Presidency, as briefly summarized in the press a few days ago.

"That Ireland's friends abroad, particularly in the U. S., may not be deceived and tempted to relax their efforts in Ireland on behalf of real freedom, I want you to send forth this message from hence: The so-called sovereignty and partitions their country is not accepted by the Irish people and is not regarded, and never will be regarded, by them as binding either on their honor or conscience."

TENNIS MATCHES TO FINISH TODAY

Semi-Finals on This Morning—To Play Finals This Afternoon.

(Special to The Times-Star) Sackville, Aug. 16.—Semi-finals in all events will be completed in the N. B. tennis championships here this morning, beginning at two o'clock this afternoon in all events will be played, finishing the tournament this afternoon. Glorious weather conditions prevail.

Wire Briefs

Boston, Aug. 16.—Paul Herenbach of New York knocked out "Hambone" Kelly of Boston in the fourth round of a scheduled 10 round bout at Braves field last night.

Buenos Aires, Aug. 16.—A despatch received from Major Zanni, Argentine aviator, says he was forced to land yesterday at Tavoy Burman, because his gasoline supply became exhausted. Zanni left at 7.35 o'clock this morning for Bangkok, Siam.

Fort Moller, Alaska, Aug. 16.—William Sullivan, fireman at a fish hatchery, reported yesterday to the Pacific-American Fisheries Company station here that he had found an airplane wrecked April 30 by Major Frederick L. Martin, the commander of a flight around the world.

POSSIBILITIES OF TUCKER PARK ARE DETAILED

Town Planning Committee Chairman Writes of New Recreation Place.

IS BEAUTY SPOT

Street Railway Extension, Golf Course and Other Features Discussed.

In Tucker Park the city of St. John possesses a recreation area of over 200 acres, which in the years to come will be a great playground for the people. A survey is now being made for a better road into this park, and when the road is constructed the first step toward development will have been taken.

Tucker Park is an oblong block of land a little more than three-quarters of a mile long and three-eighths of a mile wide, containing about 200 acres, its longer boundaries lying in a direction from southeast to northwest.

The farm buildings are on this highest ground near the northeast boundary, from which point the land slopes more or less gradually in undulating steps toward the west and northwest until it reaches the 100 foot contour, from which it falls quite rapidly, making a steep descent to the lowland beyond the northwest boundary, touching an inlet of the Kennebec river at the northwest corner of the property.

LABORERS START RIOT IN KHARTUM

Unrest in Sudan Grows—Leave For British Troops is Cancelled.

London, Aug. 16.—An Evening News despatch from Khartum today that a party of laborers, armed with hammers and sticks, started a demonstration yesterday, but it was dispersed upon the arrival of British troops. It was added that the British cruiser Weymouth is standing by at Port Sudan to assure the public of security.

The despatch stated that a fight occurred at Port Sudan upon the arrival of British troops. It was said that the leave of officials and British officers has been cancelled and certain responsible officials recalled. New and disquieting features in the Sudan, Khartum advises, include the posting of anonymous proclamations and the exchange of telegrams among the natives containing verses from the Koran, referring to the overthrow of unbelievers, and an organized system of speeches.

Girl Bandit Used Wig For Disguise

Camden, N. J., Aug. 16.—Margaret Treadway, who is not yet 18 years old and lives in Atlantic City, was identified by a witness as the girl who was used by a bandit as a disguise. The witness said she saw her in a rooming house in Camden, N. J., on Tuesday night, when she was being held by a bandit.

McCoy JURY HANDS IN OPEN VERDICT

Nobody Named in Inquest Verdict—Pugilist's Statement is Repeated.

Los Angeles, Calif., Aug. 16.—Without expressing an opinion as to whether it was a case of suicide or homicide, a coroner's jury investigating the death of Mrs. Theresa Mors, in connection with which Kid McCoy, former idol of the prize ring, is being held on a charge of suspicion of murder, decided late yesterday that the woman died as a result of a gunshot wound inflicted by a person or persons unknown.

The first evidence of any one having heard the shot that ended Mrs. Mors' life came when Mrs. Mors, who was in the apartment where the killing took place, went on the witness stand. She said she had retired about 10.20 o'clock on Tuesday night, had fallen asleep and awakened to hear two screams, apparently a woman's, a shot and then silence.

The Duke of Connaught opened the Boy Scouts' Imperial Jamboree in the Stadium at Wembley on August 15. Nearly 300,000 scouts from all parts of the Empire were present at the festival, which lasted for a week.

LABORERS START RIOT IN KHARTUM

Unrest in Sudan Grows—Leave For British Troops is Cancelled.

London, Aug. 16.—An Evening News despatch from Khartum today that a party of laborers, armed with hammers and sticks, started a demonstration yesterday, but it was dispersed upon the arrival of British troops. It was added that the British cruiser Weymouth is standing by at Port Sudan to assure the public of security.

No Failures In New Brunswick

Toronto, Aug. 16.—Twenty-seven failures in the Dominion were reported for the last week by R. G. Dun & Company, as compared with 30 for the same period last year. Ontario had the largest number of failures with 9; Quebec has 6, Manitoba, 4; Alberta, 1; Saskatchewan, 3; British Columbia, 1; Nova Scotia, 1; and Prince Edward Island, 0. Newfoundland reports one failure.

TORONTO TYPOS TO CALL OFF STRIKE, ON SINCE MAY OF 1921

Final Decision is Reached at Convention Held Last Evening.

TO END AUGUST 31

1,000 Men, Still Out, Will Continue to Receive Strike Pay.

(By Canadian Press) Toronto, Aug. 16.—Decision by the International Typographical Union to call off as from August 31 the strike for a 44-hour week which has been in progress since May, 1921, was reached at a session of the convention in Massey Hall which lasted until midnight last night.

In connection with the motion the question of the men who are still on strike, numbering about 1,000 was to the fore and there was considerable controversy whether strike pay should be continued or not. James Simpson of Toronto and Lewis H. Herman of Atlantic City, led the fight for a continuance of strike pay and in the end it was recommended to the executive council that the men still out should receive financial assistance.

300,000 SCOUTS AT LONDON JAMBOREE

Duke of Connaught Opens Big Demonstration—Prince of Wales There.

London, Aug. 16.—The Duke of Connaught opened the Boy Scouts' Imperial Jamboree in the Stadium at Wembley on August 15. Nearly 300,000 scouts from all parts of the Empire were present at the festival, which lasted for a week.

LABORERS START RIOT IN KHARTUM

Unrest in Sudan Grows—Leave For British Troops is Cancelled.

London, Aug. 16.—An Evening News despatch from Khartum today that a party of laborers, armed with hammers and sticks, started a demonstration yesterday, but it was dispersed upon the arrival of British troops. It was added that the British cruiser Weymouth is standing by at Port Sudan to assure the public of security.

No Failures In New Brunswick

Toronto, Aug. 16.—Twenty-seven failures in the Dominion were reported for the last week by R. G. Dun & Company, as compared with 30 for the same period last year. Ontario had the largest number of failures with 9; Quebec has 6, Manitoba, 4; Alberta, 1; Saskatchewan, 3; British Columbia, 1; Nova Scotia, 1; and Prince Edward Island, 0. Newfoundland reports one failure.

Second Attempt to Enter Canada Proves Successful

John Cassidy of Glasgow and his family, who have arrived in Canada with the third Hebridean party of settlers, destined for Alberta, Cassidy's second attempt to get into Canada was more successful than his first. He came as a stowaway in September last year on the Cassandria, and was handed off the ship to the tender mercies of Judge Chequerette. The kind-hearted judge was so impressed with Cassidy's sincerity that, although he deported him under the law, he promised to facilitate his speedy return to Canada.

700 Pounds of Policemen Needed to Subdue Sun Worshipper on N. Y. Roof

New York, Aug. 16.—Etienne Chevenet, 42 years old, recently arrived from Paris, was captured by three of the largest patrolmen on the force as he knelt undisturbed on the roof of a four-story apartment house praying to the sun.

His prayer, in French, was unintelligible to Patrolmen Eberle, Singer and Leddy, whose combined weight is about 700 pounds, and who needed all their heft to subdue Chevenet. Calm when left alone and permitted to worship the sun, the Frenchman acquired superhuman strength on being disturbed.

300,000 SCOUTS AT LONDON JAMBOREE

Duke of Connaught Opens Big Demonstration—Prince of Wales There.

London, Aug. 16.—The Duke of Connaught opened the Boy Scouts' Imperial Jamboree in the Stadium at Wembley on August 15. Nearly 300,000 scouts from all parts of the Empire were present at the festival, which lasted for a week.

Newfoundland reports one failure.

AGREEMENT AS TO RUHR EVACUATION IN YEAR REACHED

Settlement Comes After All Night Parley of French and Germans.

ARE DISAPPOINTED

Teutons Hope For Earlier Evacuation When Loan Question is Raised.

By LLOYD ALLEN (United States Staff Cor.) London, Aug. 16.—Once more the Germans are ready to "sign and go back to face the folk."

After all night conferences between representatives of France and the Reich, the Germans notified the secretary of the conference on application of the Dawes report that they had decided to accede to the French proposal to conclude Franco-Belgian evacuation of the Ruhr within a year.

This was the most serious of all the problems involved in putting into effect the provisions of the Dawes reparations programme. Satisfactory solution means that the conference, held by many authorities to be equal in importance to the Peace Conference of 1918-1919, has reached its final stage a success, after many previous futile attempts.

RE-SEEDING OF N. B. LANDS IS SUCCESS

Tests Made on Trial Plots Show Very Favorable Results. Fredericton, N. B., Aug. 16.—G. A. Malloy and C. Yarnes of the Federal Forest Service, Ottawa, were in the Department of Lands and Mines in connection with the experimental re-seeding operations which were instituted in this province last year.

C. N. R. LOSES MONEY

Sir Henry Thornton Says Possibly \$13,000 to \$15,000 in 1924.

Calgary, Alta., Aug. 16.—The people of Canada must face the unpleasant possibility that the loss on operation of the Canadian National Lines will be from \$13,000,000 to \$15,000,000 in 1924, much of which is due to bad business in the United States, where the Canadian National has a large and productive mileage.

Smallest Airplane Flies 1,300 Miles

Dayton, Ohio, Aug. 16.—The world's smallest airplane, the Alouette, landed at McCook Field after a flight of 1,300 miles from Kelly Field, Texas. Lieutenant Donald Phillips, Kelly Field pilot, was stationed at McCook Field, where he also was the engineer who had charge of its construction.

BRITISH SENSE OF FAIR PLAY  
SHOWN IN MAHON MURDER CASE

United States Lawyers Were  
Astonished at Conduct  
of Case.

London, Aug. 16.—(United Press)—British sense of fair play and absolute justice has just been demonstrated here by the astonishing tactics used in one of the most sensational murder trials ever recorded in England—the "Mahon case."

That sense of fair play and justice caused the court to withhold from the jury, and caused every newspaper in England to refrain from printing, the fact that the man accused of one of the most revolting crimes ever recorded here, had a long criminal record previous to the crime for which he was being tried.

He was convicted, and sentenced to death—but he was convicted solely on the evidence of the one crime. So far as the jury knew, when returning its verdict, he was innocent of any other wrong-doing.

After the verdict had been returned and sentence passed, the judge informed the jury of the man's previous crimes—and the next day the newspapers, which for weeks had been filled with the trial and stories of the crime printed the facts they had known all along, of the defendant's previous life of crime.

American Astonished.  
U. S. lawyers, here for the international bar association meeting, have been utterly astounded at this situation, by comparison with what would have happened in the United States under similar circumstances.

They admit the splendid ideal of justice involved—the theory that a defendant should be tried only for the single crime of which he is then accused. But they point out that a hardened and habitual criminal might escape justice under the operation of that theory.

To appreciate the astonishing contrast in British and American methods in this case, imagine the thing happening about like this:  
A beautiful girl is murdered in a Long Island cottage not far from New York. Her body has been hacked to pieces and parts of it burned and other parts hidden here and there. The head was found in one place, bits of limbs

in other places. Every newspaper in the land printed long display stories day after day. It was one of the most gruesome murders, one of the darkest murder mysteries in criminal history. Everybody talked about the sensation. Finally a man named Mahon was arrested, under dramatic circumstances. All circumstantial evidence pointed to his guilt. Again, for weeks, it was the biggest news story going. Then came the trial. Again it was the biggest story going. Then came the day when the case went to the jury. For many weeks, remember, everybody in the country had been reading and talking about this terrible crime. Presumably every fact has been given to the jury the slightest hint that Mahon served five years for robbing a bank and hitting a woman in the head nine times with a hammer; that he had been guilty for forgery and burglary and had been accused of other crimes.

For weeks every newspaper had suppressed the hottest sort of stuff about the jury the slightest hint that Mahon had ever been in trouble before; even parts of his statement to the police after arrest, referring to his past crimes, were stated over and concealed when that document was submitted to the jury—all for fear that any juror, hearing or even suspecting the man had committed previous crimes, might be influenced thereby in returning a verdict in this case!

In America, of course, the prosecution would have laid bare Mahon's previous life. "He does this sort of thing right along," would have been the meat of the argument. And the American newspaperman would have thought the person insane who would propose suppressing such a story!

But British justice is built that way! Any newspaper pre-judging or influencing the jury would have been fined and an editor put in jail. Such punishment, in fact, was given several newspapers that printed what the court considered too many early details of the murder. And if the prosecuting attorney had referred to Mahon's previous crimes he would have been considered a disgrace to his profession—because of not giving the accused a fair chance.

And that brings up an ironic little touch. After sentence was passed, Mahon complained that the judge's "summing up" of the case to the jury had been "unfair!"

ONE AT WOODSTOCK;  
ONE AT JOHNVILLE  
Location of New Houses of  
Sisters of Charity  
Announced.

As lately announced, says the New Freeman, the Sisters of Charity, St. John, are opening four new houses in Canada, two in the west and two in New Brunswick. The New Brunswick institutions will be at Woodstock and Johnville.

Sisters Agnes, Sister Michael, Sister Eleanor and Sister Helen Agnes have gone to Woodstock, where the new houses are already established. Sister Agnes will be the superior. A school will be opened on the Indian reserve, nearby, which is a Catholic district, and will be in charge of Sister Michael. A health centre is also to be established there, in accordance with the policy of the Provincial Government, which will be under the care of Sister Michael, registered nurse from the St. John Infirmary. In Woodstock the Sisters will teach music, etc.

It is understood that, in a few days, Sister Miriam, Sister Gerald and Sister Dolores will leave to open the houses at Johnville of which Sister Miriam will be the superior. This will be a school and a building is already available for that purpose. The coming of the Sisters to Johnville, says the New Freeman, will fill a long-felt need in the community.

Minard's Linctament for Rheumatism.  
CADETS LEAVE FOR  
CAMP AT SUSSEX  
Fifteen St. John cadets left this morning for Sussex in charge of Captain D. V. Palin, cadet instructor, to spend two weeks under canvas there. Captain Palin said last evening that he expected to have 25 cadets at the camp at the first of next week. The charge for the week is \$5, the fee being made moderate so as to allow as many boys as possible to leave for the camp.

TRINITY COLLEGE SCHOOL  
Term opens September 10th, 1924  
Exclusively a residential school—no day pupils admitted.  
Offers your boy a "Life" more than just a "School."  
New Memorial Building for Junior School now completed.  
Over 100 acres of grounds.  
Rev. F. Graham Orchard, M.A. (Cam.) D.D., Headmaster, Port Hope, Ont.

DRIVES INTO END  
Annapolis, N. S., Aug. 15.—Dr. D. W. Byers of this town was badly injured tonight when he lost control of his car and ran into the end of a bridge, the rail of which penetrated the radiator of the car, pinning him to the seat and rendering him unconscious.

TO PREVENT PREMATURE BURIAL  
London, Aug. 16.—(Associated Press)—A bill designed to prevent burial alive has been presented in parliament. It provides for medical inspection of a body before certification of death, and for adequate inquiry before certification of cause. The cost would be chargeable to the estate of the deceased.

SOUND VALUE  
Sound products evolve from sound principles.  
Dodge Brothers Motor Car is the product of an institution whose principles have always been conceded to be pre-eminently sound.  
Sound manufacturing methods that place infinitely more importance on quality than quantity.  
Sound financial standing, which permits uninterrupted development and adherence to the policy of constant improvement—  
A sound method of selecting dealers, from which an organization has grown that enjoys the complete confidence of the public—  
A sound sales and service policy, through which buyers are assured full value for their investment—  
These basic principles being sound, it follows as an obvious consequence that Dodge Brothers Motor Car represents sound value.

LORD BEAVERBROOK  
TALKS ELECTION  
Montreal, Aug. 15.—"I am convinced that an election on the Irish issue would be bad tactics for the Conservative party," said Lord Beaverbrook in discussing the prospects for an early change of Government in England here this morning.  
Referring to the bill presented to the British House just before prorogation which would make effective the decision of the Ulster Boundary Commission whether or not there was an Ulster representative on it, Lord Beaverbrook pointed out that unless a settlement was effected between now and the opening of the House, the bill must be presented. If the Liberals gave the measure their support, and the Labor party voted for it, the bill would be passed. If it would then come up before the House of Lords, and if the Conservative members in the lower House had opposed the measure, as they were likely to do, the Lords were certain to reject it.  
"The Government will appeal to the country," he continued. "If they ap-

The Audit Bureau of Circulations audits the circulation of The Evening Times-Star.

ST. JOHN, N. B., AUGUST 16, 1924

**TUCKER PARK.**

Those who do not know how valuable an asset St. John has in Tucker Park, and why it should be made available for the pleasure and health of the citizens, should read the description of the Park in today's Times-Star, from the pen of Mr. W. F. Harditt.

Mr. Burditt is chairman of the local town-planning commission. He has devoted more attention to that subject than any other citizen. He has written articles, delivered addresses, had maps prepared (including one of Tucker Park), and pressed forward until a complete town-plan for St. John has been prepared and only awaits municipal action to be put into effect.

Mr. Burditt has walked all over Tucker Park, studying the topography of the region with the eye of one who can appreciate the artistic as well as the purely practical aspect of his surroundings. In a letter to Times-Star, accompanying the descriptive article, he makes some very timely observations which are worthy of publication in full. He says—

"Without vision people are slow to appreciate the inestimable value to a community of such a bequest as that of the late Colonel Tucker, consisting of some 200 acres of land within the city limits, for the creation of a public park. It is probable that a hundred and odd years ago, when this city was planned, and most of the rocky peninsula upon which it stands was covered only with a scrubby growth of cedar, spruce or fir, but few of the inhabitants of that day could see much advantage in reserving King and Queen Squares as open spaces; to say the value, as such, of these two breathing spots would, no doubt, by common consent be placed far above and beyond any possible value for building purposes, yet for some time before our present-day subdivisions have been planned, without a single open space, areas larger in extent than that covered by the original city plan. In the view of many people it seems that the only value of land is that which it possesses for building purposes, and that the prosperity of a community consists in getting every square acre covered with buildings as quickly as possible. Colonel Tucker, however, realized that people cannot live by bread alone; that besides work they need recreation; besides dwelling places they need fresh air and exercise. Consequently, with vision and philanthropy not common, he saw what a splendid playground for the people of St. John his broad acres of elevated land would make, and left it to them. It remains for us to show our appreciation of such a gift."

**NEWFOUNDLAND'S LIQUOR LAW.**

There is a lively controversy in Newfoundland over the new liquor law introduced by the Government. The bill was drawn by Hon. A. B. Morine, who has explained that he was not responsible for it, but drafted it to carry out the views of Premier Monroe and the Government. It repeals the prohibition law which was adopted after a plebiscite had been taken a few years ago. A second plebiscite was not taken to authorize the present change, but Mr. Morine, when he came into power he would repeal the prohibitory law and introduce another measure; and this is regarded as a warrant for going ahead with the bill now before the Legislature.

The new law will be administered by a Commission of three, which will have very wide powers. The chairman of this Commission can only be removed for cause, but the two hold office during the pleasure of the Government. A summary of the bill says—

"For the purposes of meeting the demands of the country for alcoholic liquors for beverage purposes, the board is allowed to open three establishments in St. John's, that at present in existence to be the head office, and one each in the Eastern and Western Districts. Apart from this, other branches may be established in other parts of the Island, but only upon application by a majority of duly qualified electors. The bill provides that in areas containing 5,000 people or more, the board may establish such branches but no electoral district can have more than one branch. Thus, Carboneau can have only one, Ferryland only two, and Bonavista not more than three. Branches may be established either for the selling of spirits, which are defined as brandy, whiskey, rum, gin, etc., or wines and beer, or both, as requested and may be changed from one to the other as requested."

It will be observed that the bill provides local option so far as the opening of places for the sale of liquor outside of St. John's are concerned. There must first be a majority vote in favor of such places. Hard liquor can only be sold in Government salerooms, but the buyer there may get one bottle every day. The liquor cannot be consumed where purchased, but taken away. The bill does not apply to beer weaker than three per cent, and it may be sold without reference to the new law. Wines and beers may be sold on trains and steamers and in hotels, but only for use at table. Clubs may also get wine and beer licenses, but not for hard liquors. Restaurants are not included. All places must get their supplies of liquor, wines or strong beer from the Government salerooms. Warships in port are exempt from the act. Provisions are made whereby the board may permit spirits or wine to be kept in ships going to sea, in sailing vessels or in logging camps, or by specially appointed persons in places where these branch stores do not exist. This makes it possible for the board to license magistrates, justices of the peace, constables, clergymen or others, to carry adequate stock for medicinal purposes only, but not for sale as beverages. The act provides that liquor must not be sold to any person under twenty-one years of age. "Black lists" are provided for.

The Government defends the new measure by asserting that the prohibitory law cannot be enforced. Hon. Mr. Morine said that four Attorneys-General had publicly declared the act as it stood was impossible to enforce. The Minister of Justice expressed the same conviction, and said he considered the restrictions provided in the bill would make impossible the abuse that some people seemed to see in this new policy. He was convinced that the most surprised people after the bill was put into effect would be those who thought it was turning the city into a public house. He believed the whole effect of it would be to make for the maintenance of law and order.

The prohibitionists contend that another plebiscite should be held before the law is changed, and they also assert that the existing law can be enforced if the Government goes about it in earnest and perhaps puts some teeth in it. A delegation representing all the different churches and women's organizations appeared before the legislative committee and voiced their protest. Among them was Rev. Hammond Johnson, formerly of this city. They were unable, however, to make an impression, and as the Government has a strong majority the bill will no doubt become law.

**A LABORATORY ON WHEELS.**

Illinois Students Do Practical Field Work on Traction Lines.

A completely equipped electrical laboratory on wheels is in use by electrical engineering students of the University of Illinois doing practical field work. Their work this summer has consisted of tests on electric traction lines in the State. The car has operated with Springfield, Ill., as a base.

Use of the traveling laboratory combines theoretical with practical work for the students, and the reports of their investigations are valuable material for the traction companies. The principal activity this summer has been the testing of bonds in rail connections and the detection of defective connections. The laboratory car is fitted with special recording apparatus which moves a roll of paper an inch for every 100 feet traveled over the rails. The car is operated at a speed of from eight to 20 miles an hour, and copper brushes on both sides of the car form a contact with the rails. When the brush passes over a defective connection in the rail it records a flare on the paper which forms a permanent record. This record is correlated with the section of the road by means of telephonic communication between an observer on the front of the car and the operator of the recorder. Pole stations, switches, etc., are recorded in sequence.

**MOST BRITISH CITY.**

Some recent figures relating to the long delayed returns of the census of Canada taken in 1921 indicate that of the total population 6,800,000 were born in Canada; 1,000,000 in Great Britain, 375,000 in the United States, the balance being foreign-born. The Calgary Herald, noting what the figures show, notes:

"Comparison of the figures reveals some striking facts about Calgary's population. This city is known to have the largest percentage of population born in the British Empire of any city in Alberta, 85.44 per cent. of our population having been born in the British Empire, as against 82.94 for Edmonton, 79.82 for Lethbridge, and 81.10 for Medicine Hat. This city has the largest percentage of residents that were born in the British Isles, and the smallest percentage, with the exception of Moose Jaw, of all the cities of the three prairie provinces, of people born in foreign countries. Putting it in more direct form, Calgary is the most British city in Western Canada in the composition of her population."

**MANY AT LAWN FESTIVAL.**

Rev. F. F. Walker's big festival in East St. John on the Foley grounds attracted another big throng last night and all of the attractions were in full swing. P. J. Fitzpatrick won the prize for the bowling alley. The festival will be conducted this afternoon and evening and a bean supper will be served tonight, the closing night of the fair.

**ONCE MORE THE NAVY.**

Another British naval commander appears to have aroused the ire of some people by some remarks made in blunt sailor fashion, about the importance of a navy for the Empire. Captain Parker of the Republic, a member of the British Special Service Squadron, has found it necessary to say that some observations he made in Halifax were made in the broadest Empire sense; and that he did not intend to criticize Canada or the Canadian Minister of Defence.

Captain Parker need not lose any sleep over this matter. Those Canadians who believe in the Empire, and desire that it may endure, do not fail to recognize the fact that it must be in a position to protect its trade routes and guard the rights of its people. Until disarmament becomes general, and there is more assurance than at present of the existence and permanence of international goodwill, the British Empire must be in a position to guard its own rights; and that means an adequate navy. Even in well-ordered communities people do not leave their doors unlocked at night. They may be quite conscious of their own respect for other people's property, but are not justified in assuming that such respect is universal. Canada, as one of the sister states of the Empire, depending for prosperity on her overseas trade, cannot be oblivious to the fact that she must support the Imperial navy or have one of her own, until the League of Nations or some other agency undertakes to maintain order and protect the rights of the nations.

"Greece appears to have a peculiar faculty of getting into trouble. An investigating committee is said to have confirmed the Bulgarian report that in Macedonia recently nineteen Bulgarians were bound and then shot by Greek troops. There are still in that part of the world embers of hate which are liable to burst into flame. Most of the troubles are racial, and caused by the formation of new states after the war. It was apparently impossible to follow racial lines in the delimitation of boundaries, and even in some of the states themselves it will take time and great wisdom to develop a real national unity."

**MONTREAL TRAMS.**

Montreal, Aug. 15.—Gross receipts amounting to \$12,463,798 are reported in the sixth annual statement of the Montreal Tramways Company for the fiscal year of the Montreal Tramways Company ending June 30 last. Expenditure shows \$9,237,443 allowed for operation on the basis of 22.47 cents per car mile.

**LIGHTER VEIN.**

Can't Have Everything

"Here, Cabby, you haven't given me enough change!"

"Well, mister, you can't expect to hire a horse an' kerriage an' an expert accountant for sixpence a mile."

**Well, Not Exactly.**

"His death was entirely unexpected, was it not?"

"O, no! He had a habit of racing in his motor car to see whether it or the locomotive could reach the crossing first."

**Ground Already Covered.**

He—"So your friends are not taking a wedding tour?"

She—"No, you see the places he chose she had been to on her first wedding trip, and the places she wanted to visit he had seen on his. So they're not going anywhere."

**Single Attraction.**

He (during quarrel)—"I believe that your sole reason for marrying me was my money."

She (sweetly)—"Well, dear, what else had you?"

**Reward of Patience.**

Demonstrator (who had been trying for three hours to sell the car)—"Now I will throw in the clutch."

Miss Eben—"I'll take her then. I know if I hold off long enough you'd give me something to boot, b'gosh!"

MUTT AND JEFF—TODAY THEY OVERHAUL THEIR CAR AND DO A BIT OF CORRESPONDENCE

LEAVES PUNCH IN STEAM BATH, IS EASY FOR KAYO

Cleveland, Aug. 16.—The records will show that Carl Tremaine scored a one-round knockout over Jack Wolfe, rival banlam, in their recent bout here.

But it wasn't Tremaine who scored the knockout; it was a steam bath in a local gymnasium, where Wolfe went to rid himself of four pounds of weight on the day of the fight.

The ordeal of reducing robbed the veteran of all his strength and, when he stepped into the ring, he was but a flimsy hull of his real self. The first punch Tremaine landed dropped him like a log.

Wolfe's stambled, Cal Delaney, went the same way several years ago. Delaney took off six pounds in a steam bath on the day he was to meet Knockout Chaney, and the Baltimore boy practically stopped him with a punch.

Used cars from reliable dealers are a feature of the classified pages of The Times-Star.

### WHERE WOMAN RULES AND OLD AGE HAS NO TERRORS FOR HER

#### Strange Land of the To-Runs Where Head of House Is Wife.

By MILTON MACKAYE  
(United Press Staff Correspondent)

Washington, Aug. 16.—American explorers have found a race of modern Amazons—a people where the woman is the head of the family and the ruler of the house.

They are the To-Runs, a tribe of Mongol descent which inhabits that little-known part of western China, where are found the headwaters of the Yellow River, "the stream of gold."

Reports of two explorers sent to the region testify to the truth of the stories brought out of Asia. The explorers are Frederick R. Wulsen, leader of an expedition sent out by the National Geographic Society, and that late William Woodville Rockhill, who left a record of the tribe to the Smithsonian Institution.

The To-Runs live in a strip of wooded, hilly country and are an agricultural and nomadic people. Their houses are made of timber and mud and their industries are simple and few. They make their own clothes and the embroidered shoes they wear. Both women and men smoke a herb resembling tobacco. The tribe has its own language, but it is not written, and must be further studied before its sources can be determined.

#### Mixture of Many Races.

Scientists here believe the To-Runs and associated tribes have been lost in the heart of Asia for centuries and are a curious mingling of many races. By the characteristics of the peoples they are convinced that the Yellow River region was one of the racial battle-grounds of the early Asiatic migrations.

Wulsen found the To-Runs after establishing a headquarters more than 600 miles from a railroad and a trip up the Yellow River on rafts of yak skins. They live north of the small Singing River.

Just how the women of the tribe gained their ascendancy, Wulsen had not yet determined, but he and his associates believe that a further study of the tribal legends may solve the riddle.

He reports one astonishing female trait, however. The women pay no attention to increasing years, welcome, in fact, the coming of old age.

#### Old Years No Terrors.

Because they are not dependent upon personal and physical charms to maintain their hold upon the men of the tribe, they refuse to capitulate to time, he says, and, rather, turn the years to their own advantage.

The diaries of Rockhill furnish even more light upon the strange Amazonian customs which prevail in the Yellow River country. Divorce and free love are common, he says, and some women refuse to marry at all.

The industrial domination of women,

### Welfare Worker on Vacation

Jane Adams, famous social worker of Hull House, Chicago, is spending her vacation at Hall's Cove, Me. Here she is enjoying brief respite from her work.

however, usually does not begin until after marriage. She is sold by her parents, but immediately upon entering the home of her husband she no longer is the slave, but the master.

No buying or selling is done except by her, or with her consent. She takes and all the affairs of the household.

Some of the customs of the To-Runs, the Rockhill diaries point out, are barbaric in the extreme. In many localities the remains of the dead are exposed on the hillsides in places selected by the priests. If the body is quickly eaten by beasts or birds of prey, it proves the righteousness of the deceased.

Crime is prevalent, and even the gravest offense is pardoned upon payment of a fixed sum.

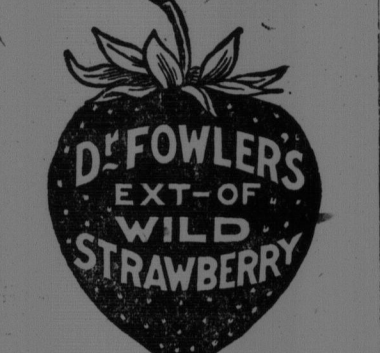

Compressed bricks of tea, one of the articles of daily consumption, are used as a medium of exchange.

The highest price in tea is placed upon the lift of a priest—sometimes as much as 200 bricks. The lowest value is placed on the life of a foreigner, which sometimes is set at two or three bricks.

#### Recall Myths.

The ascendancy of the female, however, remains the custom which interests scientists the most, recalling as they do the Greek myths of the followers of the Asia Minor country.

### WHEN THE BABIES ARE CUTTING TEETH THE MOTHER SHOULD USE

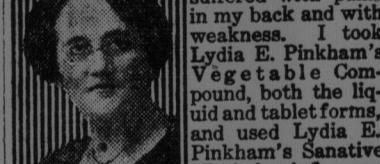

During baby's teething time, especially in the hot summer months, the bowels become loose and diarrhoea, dysentery, colic, cramps, etc. manifest themselves; the gums become swollen, and cankers form in the mouth.

This is the time when the mother should use "Dr. Fowler's," and, perhaps, save the baby's life.

Put up only by The T. Millbrae Co., Limited, Toronto, Ont.

### TODAY I AM REAL WELL

#### So Writes Woman After Taking Lydia E. Pinkham's Vegetable Compound

Jamestown, N. Y.—"I was nervous, easily excited and discouraged and had no ambition. Part of the time I was not able to sit up as I suffered with pains in my back and with weakness. I took Lydia E. Pinkham's Vegetable Compound, both the liquid and tablet forms, and used Lydia E. Pinkham's Sanative Wash for inflammation. Today I am real well and run a rooming house and do the work. I recommend your medicine to every woman who complains, and you may use my letter to help any one else. I am passing through the Change of Life now and I keep the Vegetable Compound in the house, ready to take when I feel the need of it."—Mrs. Alice D. Davis, 208 W. Second St., Jamestown, N. Y.

Often some slight derangement may cause a general upset condition of the whole system, indicated by such symptoms as nervousness, headache, lack of ambition and general weakness.

Lydia E. Pinkham's Vegetable Compound will be found a splendid medicine for such troubles. In many cases it has removed the cause of the trouble.

It is marketed. The sales for 1923 showed an increase of approximately 21,000 tons, or 12 per cent, in quantity and \$5,000,000, or 10 per cent, in value over those for the previous year. Of the total sales of 21,000 tons, the balance of 4,400 tons, was shipped from the Malacca mine in Siam, Siam.

### CRUDE PETROLEUM.

The production of crude petroleum in Canada in 1923 was 170,169 barrels, valued at \$22,915, as compared with 172,088 barrels, valued at \$11,176 in the previous year, a decline of approximately 9,900 barrels. The average values per barrel received by operators in producing provinces in 1923 were as follows: New Brunswick, \$4.04; Ontario, \$3 and Alberta, \$4.25.

### CANADA'S SALT PRODUCTION

The Canadian output of salt in 1923 amounted to 296,985 tons, of which quantity 202,207 tons, valued at \$1,112,

### CABLE REPLY BACK IN 2 MINUTES

#### Messages of Interest Exchanged at Opening of Direct Line.

Montreal, Aug. 16.—Only two minutes elapsed between the time that Mayor Charles Duquet of Montreal cabled the Prince of Wales yesterday and received his answer by means of the direct cable just inaugurated by the Canadian National Telegraphs and the Anglo-American Telegraph Company.

The inauguration of this new service, which will reduce the delay in the transmission of cablegrams over land lines to the cable companies' offices on the Atlantic Coast in Canada or at New York. Where formerly it was a matter of several hours to transmit a cablegram from Montreal to England, it is now a question of but a few seconds.

The first message transmitted was from Lord Byng to His Majesty King George V, the message reading as follows:—"It is my great pleasure and honor to address Your Majesty this message which inaugurates a direct cable service between the City of Montreal and London, England. It is only fitting that the first message should be addressed to Your Majesty, assuring you of the unwavering loyalty and devotion of the people of Canada to the Crown and the British Empire."

Following this was a message from Premier McKenna King to the Rt. Hon. Ramsey MacDonald, Premier of Great Britain, the text of which follows:—"Any link which will draw Canada closer to the mother country will always be appreciated by the citizens of this Dominion. On this occasion, the opening of the first direct cable service between Montreal and London I send you greetings on behalf of all the people of Canada."

Mayor Duquet then cabled the Prince of Wales a message in French, the following reply was received:—"The Prince of Wales thanks the Mayor of Montreal for his kind message sent over the new direct cable route. His Royal Highness much appreciates the invitation to visit Montreal in the near future. He plans his private visit to Canada as at present indefinite, but certainly be borne in mind."

Mayor Duquet also sent a congratulatory message to St. Louis A. Newton, Lord Mayor of London. Another official message followed from Sir Henry W. Thornton to William Phillips, European manager of the C. N. R. Sir Henry's message reads in part:—"With congratulations on the splendid results being achieved by our exhibits at the British Empire exhibition. Keep up the good work. The Canadian National Railways are on the map to stay."

The transmission of the first cables was under the supervision of F. H. White, Montreal manager for the Anglo-American Telegraph Company; James Lister, U. S. cable manager for the Western Union and F. C. Wells, district manager of the Canadian National Telegraphs.

Not only is the direct line available, but the Canadian National Telegraph is able to work three other routes in case there is any hold up on the direct cable through storms or other causes. It is possible on the new cable to send 50 words a minute.

### U. S. COAST GUARD PLANS WAR ON RUM ROW TO START IN SEPTEMBER

#### 322 Vessels, 2,000 Men To Assail Smuggling of Aliens, Rum.

Philadelphia, Aug. 16.—Unusual activity and rigid censorship of all news has spread over a section of the League Island Navy Yard as the U. S. Coast Guard settled down to preparation for its campaign to sweep the rum fleet from the Atlantic sometime in September.

More than 1,000 men, secretly mobilized, busied themselves all day in grooming the destroyers, mine-sweepers and speedy coastal motor boats for the hour when they will put out to sea to establish an armed barrier along the coast against the illegal traffic in liquor, narcotics and aliens. Another 1,000 men are expected to join the force later.

Throughout the day mechanics put on finishing touches that will enable them to endure the rigors of sea patrol in all kinds of weather. Gun crews drilled at the quick-firers aboard the destroyers as the air-hammered drive in rivets. Below decks engine redds were getting acquainted with their engines and boilers.

Twenty destroyers of world war type, some with the star on their smokestacks that marks them as having sunk a German submarine, comprise the battle-line of the Coast Guard fleet. The secondary squadron is composed of two mine sweepers, while scout work and starboard patrol duties will fall to the motorcraft, of which 300 are expected to be utilized. Twenty-four bases for the fleet are said to be planned along the coast, with three recruiting stations later.

All of the destroyers are capable of making an hour and mount main batteries of three or four inch quick-firing guns, with one-pounders and machine guns as auxiliaries. To lighten the load ships for increased speed, the torpedo

tubes and Y guns for hurling depth charges have been removed.

The censorship has been established to prevent the plans of the fleet becoming known to spies of the smuggling interests. No civilians are permitted near the section of the yard where the fleet is arming, and Commander H. G. Hamlet, in charge, today announced that all news concerning the fleet's activities would be withheld until "something is accomplished."

#### "Enemy" Also Is Alert.

The "enemy" forces operating over the sea lanes to points off the coast are said to be backed by powerful financial groups abroad. The "prohibition navy" is confident its own ships can easily deal with them, but before the Coast Guard officers are recent reports indicating that new elements may be found to combat.

Reports have been received of the supposed landing of a liquor cargo from a submarine, another concerning undersea craft running submerged, in photographs of the Hudson River taken recently by aviators, and of the use of seaplanes to bring ashore liquor and narcotics from smuggling vessels off-shore.

### LEG IS TORN OFF BY AUTOMOBILE

Mrs. William Smith of Oak Bay was seriously injured yesterday afternoon when she was struck by an automobile driven by Jerry Holt of Calais. The accident occurred at Benson's Corner on the Oak Bay road. Mrs. Smith was walking along the road and Mr. Holt did not see her until too late to avoid an accident. She was rushed to the Chipman Memorial Hospital, where it was found she was hurt about the head and had one leg broken and wrenched off just below the knee.

STERLING SAVES GAME FOR VETS

Clout by Crack Fielder Ties Score in Final Inning.

Just as "Joe" Ford and the Newports had the fatal knife poised slicing up the bacon in last night's game with the Vets, one "Scotty" Kling cried out "Hold!" As the score was 3 to 2 in favor of the Vets with two men out in the final inning, Mr. Sterling was within his rights in calling a halt and the baffled Ford and his athletes were com- pelled to give Mr. Sterling a chance to then waited and gnashed their teeth when they beheld what Scotty did. Mr. Sterling bounced a try one off his bat for what the final score said was a double. It was effective, however, as though he hit the ball from here to Kalamazoo, for he scored the tying run amid frantic applause of the cash cus- tomers present. Mr. Sterling's dramatic touch sent the fans home happy with their throats a trifle strained as a result of the applause they gave the Sterling athlete.

It was a dead game up to the eighth inning when the locals went to bat with the score 2 to 1 against them. Opening this session, Towle was inserted to bat for Ray Hansen and promptly popped out. "Johnny" MacGowan revived the drooping hopes by slamming one to right. It hit the foul flag while MacGowan took second. Had it gone to the fence, it would have been a triple. Sawyer, who burlied them over for the visitors, got weak around the knees over this and pro- ceeded to give Dever a free trip to first. Weygand muffed the ball and MacGowan tried for third. He was called out on a close play by Umpire Riley. Mr. Sawyer proceeded to get still weaker and Ramsay also got a gratis pass to first. With two out, Gene Tippetts strode up with fire in his eye and patted one to centre. Most fortunately McCarthy dropped it and Dever sped home with the tying run. That fogged matters into the ninth session, both teams scoring once. Ray Hansen pitched good ball for the locals until he made way for a pinch hitter in the eighth. He got into several bad holes but pulled himself out well. In the sixth, the first two visitors singled and with two out and none out, matters looked bad. Ray turned on the steam and fanned the next two men. Then, Mr. Sterling, the same gent who caused great mental pain and anguish to Mr. Ford in the final inning, pulled off a sensational running catch of a high foul fly from Phillips' bat. Mr. Phillips, by the way, started to get fresh with Umpire Mahoney. The fans who know Mr. Mahoney know what happened to Mr. Phillips.

CONSIDER MATTER OF TIED GAMES

The executive of the South End League meets this evening to consider the matter of two tied games, one between the Royals and St. John the Baptist and the other between the Royals and Gunners. If it is decided that these tied games are not to be re-played, then the Trojans have won the league already even though they lose on Monday night to the Saints. If they are ordered re-played then the Saints still have a chance for the title.

## WRITES CHEERILY FROM COLORADO

St. John Man Tells of  
Printer's Union Home  
There.

Cheering news of much improvement in his health comes from Henry W. McEachern, formerly of The Times-Star composing room staff, who has been for some time in the Union Printers' Home at Colorado Springs, U. S. He was for 15 years a printer with this newspaper, and was very popular with all. It was much to the regret of his confidants that illness came upon him and he was obliged to go to the East St. John Hospital, where he spent six months. There he received great benefit and gained 35 pounds in weight. In a letter received by a friend he writes in high appreciation of Dr. H. A. Farris, superintendent at the East St. John institution.

Mr. McEachern sent with his letter some pictures of the institution which the types of Canada and the U. S. have established for the benefit of the aged and sick members of the union. It shows very fine and large buildings in attractive surroundings in one of the most lavishly endowed sections of the U. S. from a scenic point of view. The famous Pike's Peak is clearly visible.

The Union Printers' Home is the only one of its kind in the world. The main building is a splendid one and, in addition, there are the hospital, open air pavilion, solarium, tents, superintendent's home, greenhouses and barns. Pictures of it show the institution placed in lovely surroundings.

Between July, 1892, when it was opened, and May 31 of last year there have been 2,860 admitted to the home. There is accommodation for 250, and the average number of residents during the fiscal year 1923 was 211.

Any member of the International Typographical Union who has been such for 10 years, three of which are continuous, is eligible for admission. Members suffering from tuberculosis are eligible at any time after 18 months membership. The home is maintained by a monthly assessment on all the members of the union.

Mr. McEachern writes in high praise of the institution, and says that it is a pleasing thought that when a union member becomes ill, aged or infirm there is waiting for him a haven of rest and comfort. He was sent out there by the St. John union some months ago. Many tourists, he writes, visit the home. Many conventions do not fail to call at the printers' institution. In April there were 5,000 Rotarians, 8,000 Elks and the musicians' union there, and all had pictures taken on the grounds.

Mr. McEachern's cheery message will be read with interest by his friends at home. In addition to his other activities here he was a member of the McEachern Brothers' Quartet, whose singing has been an enjoyable feature of many entertainments in St. John and vicinity. The picture of Mr. McEachern, here produced, shows him looking well in his new surroundings.

Another in the same picture was Harry Finch, who was of the staff of the Post, Sydney, Cape Breton.

## SHRINER CHIEF HERE NEXT WEEK

Luxor Plans Real St. John  
Welcome for Imperial  
Potentate.

The committee of Luxor Temple, Mystic Shrine, in charge of the arrangements to welcome the Imperial potentate, James E. Chandler of Kansas City, Mo., met yesterday afternoon and completed their plans to give a real St. John welcome to the distinguished visitor, who is coming this way for the first time. Owing to train schedules the date of his visit here has had to be changed, and he will arrive on the Boston train on Saturday, Aug. 23, and spend the rest of that day and Sunday here.

Mr. Chandler will be accompanied by several officers of the Imperial Council, among whom is C. M. Dunbar, the commissioner of Providence, R. I. The party will be met at the train by representatives of Luxor Temple and escorted to the Victoria Hotel. During the afternoon they will be taken for an automobile trip to the suburbs and at 6:30 that evening will sit down to a banquet at the Shrine headquarters, Masonic Temple. An orchestra will be in attendance to supply music during the dinner and a short musical programme will be carried out.

## SAYS NEW HOTEL OF GREAT BENEFIT

Fred Yorston of the Montreal Standard was in the city a few days ago on his way to his old home in Pictou. He expressed the opinion that the Admiral Beatty Hotel, coupled with liberal and judicious advertising, would be of great benefit to St. John. Mayor Potts met Mr. Yorston at the Royal and they had a general conversation concerning the needs of this port.

## LONDON CONCERT EIGHT.

Earl R. Sharpe, formerly of the Trans-Canada Theatres, Ltd., is in the city in advance of the London Concert Eight. Mr. Sharpe reports that the British concert party has been having an uninterrupted chain of successful engagements ever since leaving their point of embarkation in the Meritines in the cold weather. The London Eight is at present in Ontario.

## DEATHS NUMBER 15.

Fifteen deaths were recorded in the city this week, as follows: Whooping cough, two; pyemia, senility, paralysis, myocarditis, endocarditis, gastro-enteritis, sarcoma of ovary, congenital syphilis, injury from a fall, pernicious anaemia, pulmonary tuberculosis, pressure on larynx with strangulation, and collapse following child birth, one each.

## Here's Something For Fishermen

If the superintending ground-keeper of the Riverside Golf Country Club would sell his recipe for catching worms at so much a copy he would doubtless confer a great boon on the angling fraternity.

This spreading an irksome half-hour task of the worm or the doo-yard mining for elusive bait is not only a waste of time, it would now appear, but dulls one's enthusiasm for the watery sport to follow.

On last Thursday the Riverside superintendent demonstrated how he rigs the earth of worms, which are getting greens and rather unwell come dinnertime, whatever their usual domicile. The worms, of course, fisherman.

Some of the best compound was sprinkled over the surface of the area chosen. As if by magic the worms came alive with a scurrying motion. The worms seemed to be coming up for air, and in a few minutes several had begun and in no time several were crawling about on the surface.

So here's a new wrinkle for fishermen. If the chief ground-keeper can be induced to impart his secret formula.

## LOCAL NEWS

### ENGAGEMENT.

Mr. and Mrs. A. W. Ralston wish to announce the engagement of their daughter, Annie Emerson, to Roland Pugsley Coes, son of Mr. and Mrs. J. D. Coes, both of West St. John, the marriage to take place early in September.

### EXCEEDING THE AGE LIMIT.

Two well-dressed maidens of the 'teen age enlivened the shadowy landscape of Rockland Road, last night, with the glow of their cigarettes. They sauntered along oblivious to all passersby. Does the minor law apply only to the pranks of boys?—somebody asked.

### WESTERN GOLF PRO. HERE.

Frank Ogg of the professional staff of the leading golf club in Oklahoma is visiting relatives near Robthesay this week and is now en route west again. He is a well-known western golf-course architect and grounds-keeping expert, as well as being a classy player of the game for which he works.

### WILL MAKE IMPROVEMENT.

The frontal spaces on the Trinity Church grounds, in Charlottetown and Germain streets, are to undergo extensive improvements in the nature of lawns and decorations this autumn and next spring. Great heaps of earth have been dumped from the Admiral Beatty Hotel site and work will soon commence laying the soil for cultivation. It is proposed to make the property inside the iron fencing resplendent in flower beds next spring and the scheme in hand calls for considerable basic work in order to make the job permanent.

### IN THE MARKET.

Vegetables were very plentiful this morning in the market and the demand was good for green stuffs. Beans and potatoes were selling at 40c; peas at 60c; peck; green tomatoes, at 50c; peck; tomatoes, 10 to 15c; cauliflower, 15 to 25c; a head; beets and carrots, three bunches for 20c; lettuce at 8 to 10c; a head; celery at 10 to 12c; a head; blueberries at 10c; a box; native apples at 30c; a peck. Meats were also in abundance this morning with beef selling at 14 to 40c; a pound; lamb at 20 to 35c; veal at 12 to 30c; pork at 25 to 30c; chickens at 45 to 50c; and fowl at 35 to 40c. There was an exceptionally large assortment of flowers on display and these added an attractive appearance to the market.

### THE PLAYGROUNDS.

Many citizens, and especially the ladies, will be interested in the closing of the supervised playgrounds on Monday afternoon. There will be exercises on each of the six grounds, and a display of the handwork of children, which grows more and more interesting every year, and shows in a remarkable way the aptitude of the little ones in useful and artistic work. The attendance at the grounds has been good this summer, and Miss Heffer and her staff have devoted themselves earnestly to their work.

## VISITS OLD HOME AFTER 36 YEARS

George M. Stack Has  
Pleasant Week Among  
Friends of Yore.

That St. John has shown wonderful advancement and is a greatly improved city since he left here 36 years ago was a statement made to a Times-Star reporter today by George M. Stack of Worcester, Mass. He was born and brought up in what was then Brussels street and was educated at the Christian Brothers' School. When a young man he decided to go to the States and seek employment, and located in Boston, where he secured a position with the old Colony railway, now known as the New York, New Haven and Hartford.

After nine years of service he became a switchman with the Boston Elevated Railway. For 25 years he remained in their employ and two years ago was superannuated. At the time he was pensioned he was employed as a watchman at the corner of Arlington and Boylston streets. Last Monday he arrived in his native city and since that time has been renewing old acquaintances.

Looking back over the years Mr. Stack sees many improvements made in this city, marked changes for betterment. He said when he first came here St. John was not considered a winter port. Large wharves had since appeared, elevators erected and other changes made which, he says, have greatly changed the general aspect of sections of the city.

Prior to leaving here Mr. Stack was noted for his ability as a drummer and after serving for some time with the Christian Brothers' Band he joined the City Concert Band and played for them for a considerable period. He also won recognition as a skater and in one of the large carnivals held in the Victoria rink he and his sister were awarded a prize of \$20 in gold for their ability on the blades and for their unique costumes. They represented a Laplander and his wife.

Mr. Stack is a son of the late James Stack, who was conceded to be one of the greatest handball players in a section of the country. He was a native of County Kerry, Ireland, and learned the intricacies of this sport as a youngster in the Emerald Isle. On migrating to Canada he continued to follow up this sport and as years went by he greatly improved. Two of his most famous matches were against Messrs. McKenzie and Shea, who were members of a regiment here. He won both these matches, which created widespread interest. During his many years' competition he was never defeated and was considered one of the cleverest exponents of the game that ever represented this city.

## WRATHY MOTORIST MADE BAD GUESS

The One Light Drivers  
Got Him Going  
and Then—

Automobile drivers who use the roads at night know what pests are those who will persist in driving with only one headlight burning. Therefore they will appreciate the plight of a Robthesay resident who started home from the city the other evening through a thick fog.

He passed the first "one-lunger" in fear and trembling. When the next car approached with only one light shining, his wrath rose. He declared that the very next fellow of that stamp that approached him would be taught a lesson. He decided to give him a bump.

A few minutes later a single light loomed up in front of him—and to make matters worse—it was approaching off the wrong side of the road. The Robthesay man held his ground and there was a crash. He hopped out to ascertain the net amount of the damage done and found that he had bumped into the front end of a street car.

## As Hiram Sees It

"Hiram," said The Times reporter to Mr. Hiram Hornbeam, "I have not heard you emitting wild yells lately about the awful condition of the farmers."

"Hain't you?" said Hiram. "Want to hear me now?"

"You couldn't honestly do it," said the reporter. "Why, you old rascal, you'll be fattening your bank account while poor fellows like myself are killing notes to pay for what they eat."

"You don't say," observed Hiram. "Too bad—ain't it? Come out an' watch me fight perter bugs an' haul water an' fight weeds. I calculate you wouldn't hev my job fer twice what you're getting here. Whenever I hear anybody callin' the farmers robbers I just wish I could make 'em foller me around fer about a week. They'd change their tune mighty quick. You'd all hev to shet up shop if it wasn't fer the old hayseeds—an' what they raise an' what they buy. We're the backbone o' the country an' the rest o' you is nothin' but punk—By Hen!"

KING STREET

Advance showing of Wicker Furniture

The popularity of reed furniture depends quite as much upon its artistic and comfort-giving qualities, as upon its inexpensiveness.

There's hardly a home these days without a reed chair or two, at least.

Another point in their favor is the fact that they "fit in" with almost any other pieces of furniture that are used. From our wonderful stock you can select just the size and covering which will suit your room, and the reasonable prices will be a pleasant surprise.
