WILD TALK BY COMMUNIST Throws Down the Gauntlet in British House of Commons

An Open Threat—"If We Can't Get it Inside of This Chamber We Shall Get it Outside—Russia Praised."

London, Nov. 24.—An argument unique in the history of British Commons was presented yesterday by the newly elected Communist member, J. T. D. Newbold, who addressed the House in connection with unemployment.

Mr. Newbold, referring to the "workers' said—"If you wish to challenge us we shall be compelled to take up the challenge. I say with all the gravity I can that we do not desire to take it up if we can help it."

He said the jobless demand thirty shillings a week with a wife and an amount for rent up to fifteen shillings if necessary, and he said "If we don't get it inside of this Chamber, we shall get it outside of this Chamber."

SENTENCE PASSED BY MILITARY COURT CARRIED OUT IN DUBLIN TODAY

Was Convicted of Having Had Arms in His Possession—Served With R.N.V.R. in War and Won D.S.C.—Annie McSwiney Taken to Hospital.

Dublin, Nov. 24.—Erskine Childers, chief lieutenant for Eamon De Valera, was executed at 7 a. m. for having had an automatic pistol in his possession, it is announced in an official bulletin given out by the National Army.

While the method of execution was not officially described, it is believed to have been by shooting.

London Surprised.—London, Nov. 24.—Announcement of the execution in Dublin of Erskine Childers, leading lieutenant of Eamon De Valera, was received here shortly after noon today. It came as a surprise here as it had been believed the Free State authorities would hesitate to impose this penalty.

The execution of Childers removes the most important figure in the Republican movement in Ireland next to Mr. De Valera, with whom Childers, a man of strong personality, is generally credited here with having had strong influence.

Childers is ascribed perhaps the leading part in engineering the present armed revolt against the Free State Government, and he was known as the military strategist who planned the operations. It was to Childers that Winston Churchill, former Colonial Secretary, recently referred in a speech as "that mischievous, murderous renegade, that Englishman who is inspired by an equal measure of hatred both for his island and for the one in which he now has taken up his abode."

The opinion has been frequently expressed in responsible circles that the Free State authorities could lay their hands on Childers, at any time they desired, but that they did not wish to do so in view of the possible aftermath.

The question which immediately interested the minds of Londoners interested in Irish affairs, when they heard the news of Childers' execution, was whether the Irish Republic would attempt reprisals, and it seemed to be thought not unlikely that these would have to be reckoned with.

Erskine Childers, a lieutenant commander in the Irish Republican Army, and one of the right hand men of Eamon De Valera, was placed on trial before a military tribunal in Dublin yesterday on the charge that he had a pistol in his possession when arrested at Wicklow by Free State forces on Nov. 11. The trial lasted two days.

Childers, who was fifty-two years of age, appealed through counsel for a reprieve, but his appeal was refused. He was sentenced to death by hanging.

Childers was an ardent proponent of an Irish Republic and strongly opposed ratification of the treaty setting up the Irish Free State on the ground that it meant "absorption of Ireland in the British Empire." He was decorated last June in the election for the South Irish Parliament, receiving fewer votes than any other candidate in the whole election.

Childers was educated at Trinity College, Cambridge. He served in the European war as a lieutenant commander of the Royal Navy Volunteer Reserve between January and May, 1916, and won the D. S. C. for his service with the anti-submarine force.

The Hunger Strikers.—Dublin, Nov. 24.—Miss Annie MacSwiney, who had fasted outside the gates of Mount Joy prison since last Friday, as a protest against the imprisonment of her sister, Mary, was removed by friends last evening to a hospital. She was in a very weak condition, but refused to take food and only swallowed some water.

In a letter to the newspapers Annie MacSwiney, who has been on a hunger strike for twenty days, says that her sister received the sacrament on Wednesday and was given Extreme Unction.

Mr. Now refuses visits from the prison doctors and nurses. She is attended day and night by her fellow prisoners.

ARREST IN CASE OF ONTARIO MURDER.—Wells, Ont., Nov. 24.—Charles Beckett, a farmer of Pelham Centre was arrested by E. O. Guernett of the provincial police last night following an all day search through a twenty-five acre swamp.

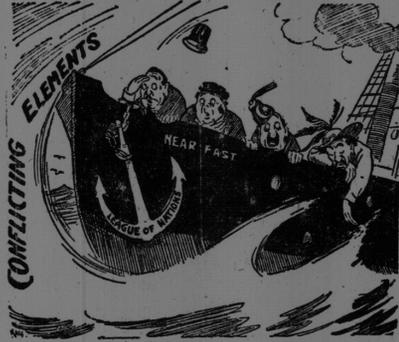

Beckett now held in connection with the killing of Dwight Ditta, the Pelham Centre farmer who was found yesterday morning with his head battered in and the blood smeared whiffletree evidently used by the murderer standing against the door.

CLEMENCEAU PLEADS WITH U. S. NOT DESERT ALLIES.—Boston, Nov. 24.—The "Tiger" of France yesterday stood in Massachusetts Historic Hall and cried out to the U. S. that she could not desert her war associates.

"You are prisoners of your own nobleness," he declared. "You must remain what you are."

Clemenceau, aged war premier of France, arrived here in the afternoon and delivered two impassioned half-hour addresses. Both addresses were pleas for American to align herself with France again.

A SUGGESTION TO THE POWERS

"Why not let go the anchor of the League of Nations?"—Sunday Chronicle, Manchester.

JEALOUS SUITOR KILLS BRIDE OF FOUR MONTHS.—New York, Nov. 24.—Enraged at her continued refusal to marry him and her admission that she had been married four months, James J. Corbett, 27, of 408 East 120th street, shot and killed Mrs. Edie Starce, in the hallway of a tenement at 112 East 107th street. He had said for her at St. Cecilia's church, in East 106th street, before he killed her, the police later learned.

HON. MANNING DOHERTY.—(Canadian Press.) Montreal, Nov. 24.—The Turks are stronger today in power and prestige than they have been for the last 300 years, according to Right Rev. R. MacInnes, Anglican Bishop of Jerusalem, who addressed the Montreal Diocesan Women's Auxiliary here last night. It was wrong to refer to the Turk as "the sick man of Europe," he said. He was anything but sick; he was not European, but yet he was a menace, and asserted that his primal instinct was to kill Christians, and like the wild beast brought up in captivity, the instinct came to the fore sooner or later.

Speaking of the Zionists in Palestine, he said—"Although their entire lack of sympathy, tolerance or love for the Jews, has never been impeded and bitter feeling throughout Palestine. Moreover, their statements are entirely unimpeachable, and I am ready to prove that to any Zionist."

BANK ROBBERS GET \$24,000 LOOT.—Gallatin, Mo., Nov. 24.—Six bandits, after blowing open and robbing the vaults of the First National Bank here, escaped with \$24,000 in gold and securities, the police here said today. James Robb, 1869, shot his way out of town early yesterday, and escaped. High powered rifles, in the hands of the lookouts, kept the citizens at a distance.

The loot was \$4,000 in gold and currency and \$20,000 in bonds and securities. The robbers overlooked \$10,000 and a quantity of Liberty bonds.

FELLS CASHIER; ROBS THEATRE.—Winnipeg, Nov. 24.—Slipping his arm through the wicket and felling the cashier, Miss Ray Olander, with a blunt instrument, an unimpeachable bandit last night robbed the box office of the Gayety Theatre of the night's receipts, amounting to between \$70 and \$80. The assailant made his escape.

MUCH GRAIN HERE.—The C. N. R. elevator at the present time contains 300,000 bushels of grain. The average arrival daily is twenty cars, but this is expected to increase in the near future.

BRITISH TEAM DEFEATED.—Bulawayo, Rhodesia, Nov. 24.—(Canadian Press via Reuters.)—The touring British bowling team was defeated yesterday by a team representing Bulawayo, by a score of 91 to 50.

DRIVE KU KLUX KLAN OUT OF NEW YORK, SAYS MAYOR HYLAN.—New York, Nov. 24.—Police Commissioner Enright has received orders by telegraph from Mayor Hylan, who is in French Lick Springs, Ind., directing him to "drive the members of the Ku Klux Klan out of New York before the organization gets a foothold."

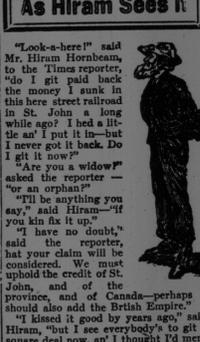

"Treat this group of racial and religious haters as you would the Reds and the bomb throwers," said one part of the mayor's instructions.

CANADA IN THE LORD MAYOR'S SHOW.—The Lord Mayor's Show in London this year included floats representing the Dominion. The picture shows the Canadian float, which was an appeal for British settlers for Canadian farms.

TEBO'S SENTENCE IS COMMUTED.—Ottawa, Nov. 24.—(Canadian Press.)—The death sentence passed upon Garfield Tebo, of Digby, N. S., has been commuted by the governor in council to life imprisonment.

AT THE ASPHALT PLANT.—Commissioner Prink said this morning that his department was putting in a new water pipe to the asphalt plant. The plant formerly was served by a three-quarter inch iron pipe which had outlived its usefulness and was being replaced by a good service pipe which would provide all the water necessary for use at the plant as well as for more adequate fire protection there.

As Hiram Sees It

"I look-a-here!" said Mr. Hiram Hornbeam, to the Times reporter, "do I get paid back the money I sunk in this here street railroad in St. John a long while ago? I had a little ad I put in—but I never got it back. Do I get it now?"

"Are you a widow?" asked the reporter—"or an orphan?"

"Yes, sir. An' I s'pose she's a lot more—Hey, what?"

"I kissed it good by years ago," said Hiram, "but I see everybody's to get square deal now, an' I thought I'd mention it. I see Commissioner Bullock had the same experience. Him an' me, the sellers fer sticks" up for us. We orto hev a reel spy Christmas this year—Yes, sir. An' I s'pose she's a lot more—Hey, what?"

LACHINE REDUCES CIVIC FORCES.—Lachine, Que., Nov. 24.—The upheaval in civic employment circles in this town which began when all the employees of the town were given notice of dismissal at the beginning of the month, reached its apex when, after a complex meeting of the City Council last night, Mayor Ranger announced that from December 1 the police and fire brigade would be reduced twenty-five per cent. in personnel. With salary cuts, this he said, meant a saving of \$15,000 annually to the city.

Among the dismissed are Chief Robert, of the fire brigade, who has been in the service of the city for thirty-five years, and Sub-Chief Cherrier, of the police force, who has been in the city employment for nine years.

C. P. R. CLOSES ITS RIVER SERVICE.—Montreal Sails from Quebec—Presentation to the Commander.—Montreal, Nov. 24.—Carrying about 200 passengers, the C. P. R. liner Montclair sailed from this port this morning for Liverpool, and with its departure the Canadian Pacific steamship service is closed for the year. At a luncheon on board the Montclair yesterday, Captain Peck, her commander, was presented a framed picture by committee of the Montreal Public Association. The Montclair made her maiden trip to Montreal early in August.

PROXY MINISTER.—Moncton, Nov. 24.—At a meeting of the Moncton First Baptist church tonight a framed picture was presented to the Rev. A. H. D. D., pastor of the Fifth Avenue Baptist church, Phibs, N. Y.

WEATHER REPORT.—Issued by authority of the Department of Marine and Fisheries. R. F. Stupart, director of meteorological service.

Synopsis.—The disturbance which was over northern Ontario yesterday is being absorbed by one of greater intensity over the New England coast while the barometer stays high over the western provinces. The weather is quite cold in all the provinces except Alberta and British Columbia. A cold northwesterly gale is blowing on the Great Lakes.

Passage of Irish Bill Principal Business For British House

PREMIER BONAR LAW MAKES THIS PLAIN IN ADDRESS AT FIRST SESSION

No Opposition Expected—Noisy Session Marked by Much Railery, Threats of Revolution and Frequent Cries for Order—Prime Minister Refers to Unemployment.

(Canadian Press Cable.) London, Nov. 24.—A storm of criticism, railery and threats of revolution disturbed the tranquility of the new Government at the first working session in the House of Commons yesterday. The new members quickly asserted themselves with firmness and a tone which shocked the veterans, with the result that there was laughter, also gibes and jeers with frequent cries for order. Interruptions, retorts and clamors from the benches produced an aspect in the ancient House that was anything but peaceful, and the Government repeatedly was warned that there would be no tranquility.

"If we do not get satisfaction we shall have to deal with you as Cromwell dealt with his predecessors—there is plenty of precedent for revolution in this country," dramatically declared J. T. W. Newbold, the Communist member. He came to his feet and presented his astonishing case with the fearlessness of an old parliamentarian.

Premier Bonar Law, in his address, made it plain that the business of the present short session should be the passage of the Irish Bill and the factional opposition developed, making it plain that the bill would be quickly successful. Labor, supported by Asquith, strongly endorsed it.

The text in part of Mr. Bonar Law's speech follows: "The session has been called for the express purpose, of giving attention to the bill enforcing the Irish treaty. Whatever may be the views of any of us, whatever may be the responsibility of any of us with regard to that treaty, there is one thing that is not in doubt. That is—it was shown most conclusively in the election—that the British people are determined to give the treaty a fair trial in spirit and letter. Of that there is no doubt whatever.

"I think that as far as Great Britain is concerned, we shall have nothing to give as an excuse for going back on that treaty and I will not only say that we wish it to succeed but in the interest of both Ireland and this country from our hearts, we wish it to do so for this reason above all others. Ireland has been an enemy of this country in spirit for I don't know how long, but Irishmen and Englishmen, when they meet have never been enemies.

"As regards business, it is our intention, with the approval of the House, which I feel sure it will give that, to devote the address to the subject of the Bill, and to discuss it today and tomorrow and that Monday we will begin with the first of the two Irish bills and will go on with them until they are concluded.

"We have at present little business and I hope will get the good will of the House, we may be able to rise not long after the sixth of December.

"As to what has been done about the Rent Restriction Act, I have appointed a committee to examine it, but have not got recommendations from it as yet. I think that as far as the Rent Restriction Act is concerned, I have not done anything but I cannot say, but in all events will give the honorable gentlemen opposite plenty of warning.

Unemployment.—"The next question to which I wish to address myself is unemployment. It is obvious that there must be an amendment to the address on this subject. The honorable member (J. R. Macdonald) talked about the illness between the two governments, and the differences also. But what has been done by the last government in the relief of unemployment in the amount spent and the efforts made to find work is something that has never been approached in any other country in the world. (L. M. Kenworthy says, "Neither was unemployment a problem than ours. The honorable member rather scooped at the idea of the necessary improvement was to come from better trade. That is the root of the difference between him and us. The demand is that they think there is a substance kept by capitalists as a sure I have never seen any of them. I am satisfied they are greatly mistaken and in a month will know these arguments to be worthless.

"In reference to my refusing to meet the deputation on unemployment the honorable member was a little illogical. I have said from the beginning that it is absolutely impossible for me to try to deal with every difficulty whenever it becomes prominent and I think the honorable member would strengthen his own constitutional position, if he would point out that in cases of that kind there are constitutional ministers who are not servants of the Prime Minister.

Foreign Relations.—"On foreign affairs, I am sorry I can give practically no information. It will be in my secret diplomacy or anything else, but it is best to let the people who are in negotiation negotiate in freedom without interference from the press and parliament. Our one aim is peace. Up to the moment, I am thankful to say that there is every prospect of getting it by the only means that it is possible to get it, and that is agreement with our Allies."

MOVEMENT AFOOT FOR REUNION OF BRITISH LIBERALS

London, Nov. 24.—(Canadian Press.)—A movement is afoot in both camps for a reunion of the Asquithian and Lloyd George Liberals, according to the parliamentary correspondent of the Times, who asserts that Mr. Lloyd George introduced the subject at a meeting of his supporters, giving them to understand that he was willing to take the first step towards such a reunion. He assured that his approach would not be rebuffed. The subject was also mentioned in a meeting of the Asquithian Liberals, where, however, the opinion seemed to be that a reunion was not yet a practicable policy.

RODNEY WHARF TRESTLE.—An agreement between the city and the New Brunswick Power Company relative to the Rodney wharf trestle has been arrived at and Comptroller Bullock said this morning that he would bring in a recommendation concerning it on Monday. Hereafter the trackway has been used considerably as a public highway, being flush with the roadway up the wharf, but under the proposed arrangement a capping will be placed near the rail and a fence erected thus eliminating the possibility of accident through vehicles and pedestrians trespassing on the tracks. It is expected that the work will occupy from ten days to two weeks.

HON. DR. BELAND.—The next question to which I wish to address myself is unemployment. It is obvious that there must be an amendment to the address on this subject. The honorable member (J. R. Macdonald) talked about the illness between the two governments, and the differences also. But what has been done by the last government in the relief of unemployment in the amount spent and the efforts made to find work is something that has never been approached in any other country in the world. REFUSE TO ACCEPT PADDOCK'S RECORD

A. A. U. Delegates Order a Further Investigation of Seven Sprint Marks—The Coast Threatens Fight.

New York, Nov. 24.—The sensational spring records of Charles Paddock, Los Angeles A. C. star, must stand further scrutiny before they have any further being accepted by the Amateur Athletic Union. At the thirty-fourth annual A. A. U. convention in the Hotel McAlpin the records applied for on behalf of Paddock were referred back to the incoming Record Committee.

The resolution to refer back to the Record Committee the application of Paddock came on a motion of Colonel Washington Bowie Jr., Southern A. A. U., and ended an acrimonious debate which occupied the greater part of the afternoon session.

With the action of the convention the situation with regard to Paddock's seven record applications is this: The records have not been approved or rejected. They will next be reviewed by the Record Committee for 1923, a body which will be appointed probably late in December or early in January, and which will not hold another meeting until prior to the convention of 1923.

This means a lapse of a year in which no action will be taken, unless the Record Committee, under the power granted it, decides on action by a mail vote in disposing of the perplexing problem. Because of the importance of the case, with its international and national significance, delegates and officers yesterday declared it extremely doubtful that the Record Committee will resort to a mail vote.

The sentiment of many of the delegates was unmistakably against adoption of Paddock's marks. This was indicated clearly in the discussion on the question. This antagonistic sentiment was such as to justify the prediction that the marks never will be accepted on the evidence submitted with the application for the seven records which Paddock is said to have made at Santa Barbara, Cal., last July 4.

It was regularly moved, seconded and carried that the records of Charles W. Paddock be rejected on the ground that the time made between the intermediate distances are regarded as physically impossible for a human to do as in the case of the time for the 75 and 80 yard races, and that the times recorded by the timers are not consistent. For instance, in the 75-yard race, which is the same race in which a record is claimed for the 80 yards distance, three timers caught Paddock in 24.3 seconds, while for the 80 yards two of the three timers caught him at 7.45 seconds, while the third timer at this particular distance caught him at 7.85 seconds—this timer being named Poole, getting the same time at 80 yards as that which the other timers had for 75 yards.

Wilfred Alward, charged in the Queen's County Court at Georgetown with theft from Judson B. Keith of Canaan Forks, and also with killing a calf belonging to Keith, was found guilty on both counts yesterday and was released from custody.

From 1914 to 1918 the Pasteur Institute in France produced 6,000,000 doses of serum for that country.

REBEKAH TEA AND SALE. A highly successful supper and sale was held in the Oddfellows' hall in West St. John yesterday by the members of Jewel Rebekah Lodge, I. O. O. F., and a substantial sum was realized for the lodge funds. The affair was admirably arranged and the hall was prettily decorated in pink and green. Pink chrysanthemums graced the tables and evergreens were tastefully arranged about the room. Mrs. E. A. Paris was the general convener and she had able committees assisting her. The decoration committee consisted of Miss Ida Belyea, Mrs. Charles Nelson and Miss Jessie Brittain. Those in charge of the supper tables were Mrs. C. E. Belyea, Mrs. Frances Brittain, Mrs. George Carleton, Mrs. McAndrew, Miss Henrietta Lambert and Miss Newcomb.

Ask the Doctor. He will tell you that you must have extra health protection during the winter. Doctors recommend Hall's Wine—and use it themselves. Neglect is sure to end in trouble. Take Hall's Wine now—it will very quickly build you up. It will give you new, rich blood, feeding your nerves and strengthening your whole system. Instead of being open to Disease you will enjoy—really enjoy—sturdy health. Nothing is so good as Hall's Wine, either as a safeguard or a restorative. Hall's Wine THE SUPREME TONIC RESTORATIVE. A doctor writes: "I find nothing so good as Hall's Wine for overcoming any tendency to Exhaustion." Another says: "It is impossible to take Hall's Wine without being benefited." Buy a Bottle To-day! TO PREVENT CHAPPING—a cream made to shield the skin The cold winds of winter whip the moisture out of an unprotected skin and leave it rough and dry. This is the cause of chapping. To prevent it you must shield your skin. The best possible shield is a cream that holds the natural moisture in and keeps the skin soft in spite of wind and cold. The cream made especially to give this protection is Pond's Vanishing Cream. It is absorbed completely and does not come out again. So effective is this protection that wind and cold cannot harm the skin. In countries and states that have severely cold climates and long winters—where women simply must protect their skin before venturing out they rely on Pond's Vanishing Cream. The enormous use of this cream in cold climates proves how effective it is as protection against wind and cold. No matter where you live, do not go out in winter until you have protected your skin with this cream. This cream is too delicate in texture to clog the pores. It contains nothing that can encourage the growth of hair. You can buy it in jars or tubes at 50 cents each at any drug or departmental store. The Pond's Extract Company, 146 Brock Avenue, Toronto, Ontario. For cleansing, your skin needs an entirely different cream—Pond's Cold Cream made with just enough oil to penetrate the pores and remove every particle of dirt.

The Evening Times and Star

ST. JOHN, N. B., NOVEMBER 24, 1922.

The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Companies Act.

THE CONTRACT ACCEPTED.

When the City Council yesterday afternoon adopted the hydro contract and authorized the Mayor to have it executed the first great step was taken to protect the interests of the people and to secure the boon of cheap light and power.

Having taken that step the Council promptly proceeded to take the second, and authorized the Mayor to effect the New Brunswick Power Company for its property the price named in the Supreme Court award, the limit for reply being ten days.

Mayor Fisher then announced that within a very few days he would be prepared to submit to the Council for its approval or otherwise the names of citizens to act on the electric commission, which he said should consist of three, with himself as a member ex-officio.

The Mayor and Council are to be congratulated. The Fisher platform is being carried out with a promptness that is highly satisfactory to the people. It is of course recognized that there will be objections to remove as the Council proceeds. The New Brunswick Power Company will not give up its fight as long as there may seem to be the slightest chance of defeating the three expressed wishes of the people. It is nevertheless most gratifying that good progress is being made, and that the Council is moving steadily in the right direction. Mayor Fisher has justified the confidence of his friends. He knows where he is going and is not susceptible either to threats or blandishments, and it is evident that the other members of the Council appreciate the fact that the presiding officer is as courageous as he is firm. He provokes no personal hostility, but simply makes it clear that he means to do his utmost to have them members his pledges to the people and means to do his utmost to have them carried out. His colleagues cannot but appreciate this attitude on the part of a public man.

MASTERS IN OUR OWN HOUSE. It is possible the people of St. John are not as grateful as they should be to the Canadian Bond Dealers' Association for its profound interest in the city's welfare. The Association is anxious about the city's credit. There may be in our midst sleepers who will suggest that the Association consider its own reputation and issue a warning to those who would sell watered stocks. As a matter of fact the credit of the city of St. John has not been put in jeopardy by an offer to pay the New Brunswick Power Company a liberal price for what it has to sell. Nor is the city in any way responsible for the conduct of investors who put money in the New Brunswick Power Company. That company never had a monopoly of the sale of electric energy and in the conduct of events might be at any time subjected to competition, just as any merchant might wake up some morning and find a competitor next door. The time has come when such competition is not only possible but very decidedly in the public interest. The investors in the power company have had no monopoly in regard to the sale of electric energy except that which circumstances have hitherto given them. The conditions having changed, the company must take its medicine. The City Council is not taking dictation from Montreal, nor will it concede the right of outsiders to meddle in our affairs. If the Association referred to can prevent the sale of watered stock it will perform a service the value of which will be readily acknowledged. For the rest, it will be well advised to mind its own business.

Doctrines quite new to the ancient halls of the British Parliament were heard in the Commons Chamber yesterday when the first and only Communist member made his maiden speech. He exalted Russia and Soviet rule, and gravely informed the House that its members would under that regime be compelled to do some useful work. This truculent gentleman also did not get what it wanted in the House it would get it outside. Of course the Labor party does not sympathize with this extremist. Their deputy leader, Mr. John R. Clynes, has been very emphatic in denouncing the methods of Soviet Russia.

TRADE WITH BARBADOS. Trade Commissioner E. H. S. Flood, Barbados, reporting in the Commercial Intelligence Journal, states that the imports from Canada into Barbados increased in percentage in 1921 (as against the figures for 1920) from 18.5 to 25.5, and the exports from 35.5 to 67.5. The figures for total trade with Canada were higher than with any other country. The exports from Canada, though less in value than in 1920, did not show a decline as great relatively as those from either the United Kingdom or the United States. In the list of principal articles imported from Canada, there was shown a falling off in dried salt fish, four, sulphate of ammonia, port, white pine, spruce and shingles. Increases, however, appear in butter, cheese, oilmeal, bran and pollard, oats, vegetables and composite manures.

A case in which John Ellis of Hardingle is charged with neglect of his family was resumed yesterday before Magistrate Adams at Brookville, and five witnesses were examined. Adjournment was made to next Wednesday morning to have further witnesses present. J. King Kelley, K. C., appeared for the prosecution, and B. L. Grew for the defence.

SLEEP.

(By Thomas B. Aldrich)

When to soft Sleep we give ourselves
And in a dream as in a fairy bark
Drift on and on through the enchanted
Sea.

To purple daybreak—little thought we
pay
To that sweet bitter world we know by
day.

We are clean quit of it, as is a lark
So high in heaven no human eye may
see.

The thin swift plinon cleaving through
the gray
Till we awake ill fate can do no ill
The resting heart shall not take up
again.

Final Terms
Of Contract

The Agreement Between
City and N. B. Electrical
Commission Now
Ready For Signatures.

The full text of the contract for the
Musquash hydro current, between the
city of St. John and the New Brun-
swick Electric Power Commission is
given herewith. The contract, which
will be signed immediately by Mayor
Fisher and the Common Clerk for the
city, and the chairman and secretary
for the Commission, will take effect on
May 1, 1923. It reads as follows:

THIS CONTRACT MADE THIS
DAY OF A. D. 1922

BETWEEN THE NEW BRUNSWICK
ELECTRIC POWER COM-
MISSION, a body corporate, organized
and existing under the Laws of the
Province of New Brunswick, and
the City of St. John, hereinafter called
the "CITY OF ST. JOHN."

WITNESSETH:
THE COMMISSIONERS OF THE
COMMISSION TO reserve and deliver to the
CITY:

(a) Ten million kilowatt hours of elec-
trical power and energy per year,
which at the option of the City may
be increased to fifteen million
kilowatt hours of electrical
power and energy per year, the
City's peak requirements in any
case not to exceed an integrated
twenty million kilowatt hours per
year, the City's peak requirements
not to exceed five hundred and
forty-seven kilowatt amperes.

(b) To reserve, deliver and supply to
the City at cost additional elec-
trical power and energy as re-
quested by the City from time
to time, over and above the
amount specified in section 1,
clause (a) hereof, provided that
eighteen months' notice shall be
given by the City to the Com-
mission from time to time, spec-
ifying the additional amount of
power and energy requested un-
der this clause.

(c) To exercise all due skill and dili-
gence so as to secure the most
economical operation of the plant,
equipment, lines and apparatus
of the Commission for the benefit
of the City.

(d) Such power and energy is to be
delivered and supplied at the
high tension terminals of the City's
sub-station at a nominal
voltage of 66,000 volts on a 24-
hour basis throughout the year
and for the purposes of this con-
tract to be measured at the low
tension side of the City's switch-
board.

What City Undertakes.

2. THE CITY UNDERTAKES:
(a) To purchase from the Commission
all the electrical power and energy
which the Commission contracts to
deliver and supply under clause (a)
hereof.

(b) To pay to the Commission on a kilowatt
hour basis for the cost of the
electrical power and energy con-
tracted to be supplied under this
contract, such cost to be
adjusted, apportioned and fixed
annually by the Commission,
provided that the amount which
the City shall be required to pay
shall not in any case (except as
hereinafter provided in this sec-
tion) exceed an amount equivalent
to one and two-tenths (1.2) cents
per kilowatt hour for the electrical
power and energy which the City
has herein agreed to take and pay
for. The minimum quantity to be
taken and paid for by the City shall
be ten million kilowatt hours
annually. When the power factor of
the power taken by the City falls
below 85 per cent the City shall
pay for 88 per cent of the true
kilowatt hours divided by the
power factor.

(c) To ensure that suitable space is
made available for the installation
of such switching equipment, meters
and measuring devices as may be
considered necessary by the
Commission for controlling and
measuring the power and energy
contracted to be supplied under
this Contract and for the operation
and maintenance of said apparatus
by the Commission, its servants, agents
and employees. The site of the pro-
posed sub-station shall be within the

Council Decides To
Sign Hydro Contract

Only Commissioner Thornton Dissents on Pass-
ing of Final Draft—To Make Immediate Offer
to Power Company—Appointment of Civic
Hydro Commission Discussed.

The members of the Common Council yesterday afternoon, with the exception of Commissioner Thornton, voted to sign the contract with the New Brunswick Electric Power Commission and the actual signing will be done at once. Commissioner Thornton objected to the inclusion of Clause 13, regarding resale, in the contract. A telegram, received from the Bond Dealers' Association warning the city that it was in danger of pursuing the wrong course, came in for some time.

The telegram reads as follows: "Montreal, P. Q., Nov. 22, 1922. 'This section of the Bond Dealers' Association of Canada has been following the poor situation in St. John and wishes to urge upon you the necessity of your section on the part of the city that will in any way injure its credit. We understand that as part of the city's business plan form be contemplating offering the New Brunswick Power Company a certain figure subject to an arbitration and in the event of the company refusing within ten days the city will proceed to build a distributing system and purchase the power through the city. We wish to go on record in protest against this course, as being highly confidantary in destroying the values of those securities of the city of Canada and the United States and purchase the power through the city in both countries. Aside from consideration of the wisdom of the city's plan to offer an arbitration, we believe any acts by the city that do not provide for arbitration and fair treatment of those securities of the city of Canada and the United States will seriously impair the position of St. John, the Province of New Brunswick, and the Dominion of Canada in the minds of the investing public. Exclusive of common stock and current advances by the city of Canada and the United States, the city has agreed to develop the utility in your community upwards of \$3,000,000, and unless they are protected dollar for dollar in the event of a default by the city, the investors and the United States will seriously impair the position of St. John, the Province of New Brunswick, and the Dominion of Canada in the minds of the investing public. ONE REASON WHY CITY NEEDS HYDRO

Citizens and visitors, who had occasion to be in King street last evening at 11 o'clock, were appalled by the gloom which cast itself about that section of the highway between German and Charlotte streets. In this section only three street lamps were in operation and these failed sadly in their supposed mission, excepting in their immediate vicinity. On the northern sidewalk it was very dark and not at all like an important city street should be at that hour. With hydro power from Musquash this section of King street could have at least three more lamps without increasing the present expense for electric current.

LATEST RADIUM REPORTS SHOW DECREASE IN PRICE

Nov. 2.—(By Mail)—The price of radium is falling in England, according to "The Westminster Gazette."

The rate lately come down from about £15 to £12 a milligramme. At Middlesex Hospital there is about 200,000 worth, which in all amounts only to about 21-2 grammes.

This is as jealously guarded as the Crown Jewels. Protection for its "users" has also to be afforded. In a tiny packet it is lifted from place to place at the end of a long arm, placed in a lead trolley and kept in a lead safe weighing a ton and a half.

Professor Larousse-Barlow, the radiologist of Middlesex Hospital, in an interview with a reporter was very guarded on the subject of radium as a cure for cancer.

"Yet," he asserted, "the prospects for a cancer patient are infinitely brighter today than say twenty years ago, before the medicinal properties of radium were realized."

"The amount of radium we have at the hospital is insufficient for the number of cases needing it. The radium research department has about ten workers, but, generally speaking, we suffer from a dearth of trained nurses and doctors."

REMEMBER THE "HOUSE OF BARGAINS"

THE DOVER-CALAIS TUNNEL.

(Toronto Globe.)

The long-debated project of a tunnel beneath the Straits of Dover, approved by France, awaits only the sanction of the British Government. Sir Arthur Peck, chairman of the Channel Tunnel Committee in the late House of Commons, is conversant with the technical details, which he described in a recent issue of the Landmark. The Channel engineers, French and British, are confident that the bed of grey chalk which appears on the cliffs on both sides of the Straits of Dover is continuous under the sea. It would afford an ideal ground for tunnelling.

Trial tunnels have been driven, from shafts sunk at Dover and Calais, for more than a mile, and the chalk stands perfectly and is impermeable to water. There will be two ocular tubes or tunnels of about 20 feet diameter, each large enough to take the biggest Continental sleeping or restaurant cars. These tubes will run parallel 45 feet from each other, and will be connected by cross-tunnels at every 100 yards. There will be a steady current of air. The motive power for the trains will be electricity. The length under the sea is about 30 miles, and the entrance would be about five miles inland on each side of the Straits. The longest tunnel hitherto built is the Simplon, about 12 miles.

DROP PLANK AS WHISTLE BLOWS, INJURING A FELLOW WORKMAN

Middletown, N. Y., Nov. 24.—Benjamin Brown is in a sanitarium here with a fractured spine as the result of a falling board striking him on the back at the noon hour while employed at Monticello.

When the whistle sounded at noon as the signal to stop work, two workmen who were carrying a board on a scaffold stopped and dropped the board, striking Brown, who was walking underneath. His condition is critical.

SAYS A MURDERED MAN GAVE HIM LIQUOR

Hamilton, Nov. 24.—Marvin Hood of Freerton was asked in the Police Court to name the person from whom he had obtained whiskey. He hesitated. The court stated that he could be sent down for three months for not telling. He then told the court that he got it from Joe Veroni of Gaspe, Veroni, it was learned, was murdered at Niagara Falls about a year ago. The court was skeptical, but let it go at that.

Routine business was transacted at the regular meeting of the City Public Service Employees' Union last evening with A. Davidson in the chair. Four new members were admitted and two were reinstated.

THIEVES RETURN MONEY IN PECULIAR MANNER

Leave Stolen Roll of Bills Lying in Front of Garage.

Sarnia, Nov. 24.—Pangs of conscience or fear of police investigation caused thieves who stole \$200 from the safe of Fergus McNally, garage proprietor at Inwood, to return the money in a peculiar way, according to Provincial Constable W. G. Oliver of this city. Knowing that the habit of the garage owner was to sweep the front of the building every morning early, the thieves tied the roll of bills with a cord to a stone and left them lying in the road in front of the garage. A little girl, aged three, was first on the scene.

The following recipes are put in with the hope that they will prove of service and make this page one to be looked forward to each Friday.

RAISIN SAUCE FOR ROAST OR BOILED BEEF. 2 cups water, 1 cup Seedless Sun-Maid Raisins, 1 tablespoon butter, 2 level tablespoons flour, 1 tablespoonful brown sugar, 1-8 teaspoon cinnamon and salt. Let raisins and one cup of water simmer for fifteen minutes. Add salt, cinnamon, vinegar and sugar. Take another pan. Melt butter, add flour, and stir until light brown, then add remaining cup cold water, then raisin mixture, and let come to boil.

NEW GRAPEFRUIT SALAD. Remove three equal parts from a half grapefruit and freeing remainder from skin and cross ligament, fill the three hollowed parts, one each with sliced canned peaches, broken walnuts, and seedless Sun-Maid Raisins. For dressing mix one part of grapefruit juice with two parts of olive oil, and season with salt and paprika.

CURRIED LAMB WITH RAISINS. 1 pound lamb, 8 cups boiling water, 1 slice onion, 1 stalk celery, 2 cups hot rice, 1/2 cup flour, 1/2 cup cold water, 1/2 teaspoon curry, 1 cup Seedless Sun-Maid Raisins. Cut lamb in cubes. Add water, onion and celery and boil five minutes. Reduce heat and cook until meat is tender. Add raisins. Mix flour and curry in cold water and add slowly to hot mixture, stirring constantly. Cook fifteen minutes, stirring frequently. Arrange border of hot rice on warm platter and put meat in centre. Serve at once.

BAKED BEAN SOUP. 8 cups cold baked beans, 2 slices lemon, 1/2 cups steamed and strained tomatoes.

2 tablespoons fat, 2 tablespoons flour, 1 tablespoon Chili sauce, Salt, Pepper. Put first four ingredients in saucepan, bring to boiling point and simmer thirty minutes. Rub through a sieve, add seasonings, thicken with the flour, add fat, and serve with crisp crackers. Celery stalks, celery salt, or the dried leaves of celery may be added.

BAKED RABBIT. 1 rabbit, Strips of salt fat pork, 4 tablespoons flour, 1 cup milk, Salt and pepper. Skin rabbit. Remove head and lower part of legs. Remove insides, etc. Wash thoroughly and soak one hour in acidulated water. Wipe dry. Lard with salt pork strips, dredge with flour. Sprinkle with salt and pepper. Arrange on strips of salt fat pork and bake in oven about two hours, basting generously with milk occasionally. Currant jelly may be added to the gravy.

RAISED BUCKWHEAT GRIDDLE CAKES. 2 cups scalded milk, 1/2 yeast cake, mixed with 1/4 cup lukewarm water, 1/2 teaspoon salt, 2 cups buckwheat, 1 tablespoon molasses, 1/4 teaspoon soda dissolved with two tablespoons lukewarm water. Scald milk. Cool. When lukewarm, add the yeast cake mixture and buckwheat flour and salt. Beat mixture thoroughly. Cover and let rise overnight. In the morning add remaining ingredients. Beat; drop by spoonfuls onto well-greased griddle; cook on one side, and when puffed full of bubbles and cooked on edges, turn and cook on the other side. Serve with butter and syrup.

BLOOD TESTS FOR IMMIGRANTS

Los Angeles, Nov. 24—The passport system governing selection of immigrants to the United States under the "8 per cent law" is "a most clumsy piece of machinery and ill-adapted to our needs," Secretary of Labor James J. Davis declared in an address here. The secretary said he had ready for introduction at the next session of Congress a bill providing that prospective immigrants be examined by blood, physical, mental and character tests. The secretary declared "we are not looking after the immigrant as we should," and advocated legislation for the registration and education of aliens.

THE LAUSANNE CONFERENCE.

(Montreal Gazette) The conference opening today at Lausanne may have the peace of Europe in its keeping. Upon the outcome of its deliberations may depend whether the Turks are to renew war, or quietly accept the concessions the Allies are prepared to make. The situation may not be so grave as those professional precavators, the foreign correspondents, point it, for, while the Turkish delegates will doubtless do a deal of bluff and bluster, they are likely to ultimately accept what the Allies offer for the time being. And, indeed, they will get much beyond their deserts, thanks to the rash enterprise of the Greeks in Asia Minor in rousing the sleeping dog. To receive back Constantinople and much of Thrace within four years of their defeat in the great war may well be regarded by them as a great piece of good luck. Nor are they likely to be given in return an unreasonable undertaking. Protection of religious minorities and freedom of the Dardanelles to commerce, in war as in peace, are conditions for which the Allies are prepared, if not enlarged, and with compensation that will make him dominant in Southeastern Europe. The penalty of his participation in the war on the side of Germany has yet to be paid in part at least, and he is likely to be made to understand this fact before the conference has proceeded far. The best guarantee of a satisfactory issue from the conference lies in the unity of the Allies, Britain, France and Italy. None of these nations desires war, and all of them will go to every reasonable length to secure a peace pro-

missing permanence. The suspicious, distrust and jealousies said to have been harbored appear to have disappeared, and the firm front these nations promise to present is calculated more than anything else to bring the Turks to their senses. Mr. Bonar Law and Marquis Curzon will go far to avert a conflict, probably giving way on minor points of Turkish administrative control of the freedom of the Dardanelles and protection of minorities are secured. Some danger, indeed, may lurk in the reluctance of the Turks upon Russia to stand behind them in extreme demands, for there is a suspicion strengthened by many incidents that Russia and Turkey have a secret understanding if not a formal alliance to oppose the Western Powers. The next few days will be fatal. They may re-establish the Turk in authority in Europe with the concurrence of the Allied Powers, or they may bring on the horrors of a war whose limitations cannot be foretold but weighing all the chances the prospect promises a settlement perhaps not wholly satisfactory, but infinitely to be prepared to the alternative.

PLUNGES INTO HOLD OF SHIP AND LIVES

Montreal, Nov. 24.—A French-Canadian longshoreman, whose name could not be ascertained, fell fifty feet from a gangplank into the hold of the Robert Reford Line vessel Vitellia Fellow workmen who saw him disappear rushed to the edge of the hold, expecting to see his lifeless body in a heap on the floor below them. Telephone buzzed, and an ambulance was summoned, but all to no purpose, for the man was seen to pick himself up brush the dust from his clothes and walk away, puffing at his pipe, which still remained lit between his teeth.

able after such adjustment, ap-
portionment and fixing of such
cost shall submit an account to
be known as the "adjustment
account" showing a comparative
statement between the cost of
such electrical power and energy
for the preceding year and the
amounts of the tentative monthly
accounts which have been ren-
dered and paid in respect of
same. In case of the apportion-
ing and fixing of the cost of
electrical power and energy as
between the City and other cus-
tomers of the Commission, con-
sideration shall be given by the
Commission to the factor of kilowatt
ampere demand as well as
kilowatt hour consumption. If
upon such adjustment account
any additional amount is shown
to be due by the City (the total
amount in any event not to ex-
ceed one and two-tenths (1.2)
cents per k. w. h. as adjusted
for power factor pursuant to sec-
tion 2 (b) the same shall be paid
within sixty (60) days after the
rendering of such adjustment ac-
count or if it is shown by such
adjustment account that the
Commission has been in arrears
the cost, a refund shall be made
by the Commission to the City
within sixty (60) days.
(4) All payments in arrears shall bear
interest at the rate of six per
centum per annum.

The Current.
4. The electrical power and energy
the subject hereof shall be alternating,
having a normal frequency of 60 cycles
per second which shall not vary more
than three cycles above or below nor-
mal, and shall be delivered as afore-
said at a nominal voltage of 66,000
volts which shall not vary more than
three per cent. above or below nor-
mal or such other voltage as may from
time to time be mutually agreed upon
by the Commission and the City. The
electrical power and energy supplied
at the sub-station shall be three-
phase.
5. The maintenance by the Commis-
sion of the approximately agreed volt-
age at the point of delivery speci-
fied herein shall constitute delivery
hereunder.
6. The Commission shall have the
right to temporarily discontinue the
supply of electrical power and energy
in whole or in part to the City when
essential for the purpose of safeguard-
ing life or property, or for the pur-
pose of making repairs, renewals, or
replacements to the plant, equipment,
lines or apparatus of the Commission.
In all such cases where it is practicable
to do so, notice shall first be given
to the City and the Commission will
do everything reasonably necessary to
ensure that such interruptions will be
of the shortest duration practicable,
and where practicable such interrup-

Inspections.
7. The Commission and its Engi-
neers or any other suitable person or
persons appointed for that purpose by
the Commission, shall have the right
from time to time during the contin-
uance of this contract, to inspect at
reasonable hours the plant, lines, equip-
ment and apparatus of the City instal-
led or used in connection with the
receipt, distribution and use of the
electrical power and energy from the
subject of this contract, and to take re-
cords respecting the same and the opera-
tion thereof, and the City shall have
reciprocal rights of inspection and
take records as aforesaid in respect
of the plant, lines, equipment and ap-
paratus of the Commission installed or
used in connection with the reservation,
supply and delivery of such electrical
power and energy.
Contingencies.
8. In case the Commission should
for any period or periods be prevented
from supplying or the City from re-
ceiving said electrical power and
energy, or any part thereof, by strike,
lock-out, fire, invasion, explosion, act
of God or the King's enemies, or any
other cause reasonably beyond the
control of the Commission or the
City respectively then as the case may
be, the Commission shall not be bound
to deliver, or the City shall not be
bound to receive, distribute or pay for
such electrical energy during such
periods and the total quantity agreed
to be paid for by the City, whether
used or not shall be reduced, if not
actually taken by the City, by the
amounts which would have been taken
by the City during such discontinuance,
said amounts to be calculated upon
the basis of the amounts received
during the month preceding and the
month succeeding such interruption.
Notwithstanding anything in this sec-
tion contained the Commission shall
not be relieved of performance by
reason of shortage of water at the
plant of the Commission or destruc-
tion or impairment of a dam or dams
or other structures of the Commission
by floods, scoring, imperfect construc-
tion or negligent operation or
maintenance of the hydro electric
equipment, and the Commission shall
not be relieved of performance by
reason of any such things.
9. When either party desires and
it is physically possible and in accord-
ance with good engineering practice,
poles, conduits, towers, cross arms and
other similar equipment, may be used
jointly by the Commission and the City
for the purposes of either of them
on such terms and conditions as may
be mutually agreed upon, and if no
agreement can be reached then the
question as to the practicability of such
use and the nature and provision of
such terms and conditions shall be de-
termined by the Board of Commission-
ers of Public Utilities, or in case of
their refusal to act by arbitration
under the Arbitration Act.
10. The books, accounts and vouchers
of the Commission evidencing the
cost of such electrical power and energy
are to be open for inspection and ex-
amination at reasonable hours by a
representative of the City duly qual-
ified and authorized in that behalf,
and the books, accounts and vouchers
of the City with reference to the subject
matter of this contract are to be open
for inspection and examination at rea-
sonable hours by a representative of the
Commission duly qualified and author-
ized in that behalf.
11. All notices provided for herein
shall be in writing and shall be con-
sidered as duly served and given if
mailed duly prepaid and registered at
the post office of the City of St. John
addressed to the Common Clerk at St.
John, N. B., or if mailed duly prepaid
and registered at the post office in the
City of St. John addressed to the Sec-
retary of the New Brunswick Electric
Power Commission, St. John, N. B.,
as the case may be, and same shall be
considered as having been served and
given on the day following the date
when such notice was so posted.
No Resale for Profit.
12. The sale or other distribution of
the electrical power and energy by the
City shall be restricted to bona fide
consumers and users of the said elec-
trical power, and the City covenants,
promises and agrees with the Commis-
sion that it will not either directly or
indirectly sell, dispose of or deliver the
said electrical power or energy or any

part or quantity thereof to any person,
firm or corporation for the purpose of
resale or distribution by such person,
firm or corporation at a profit, unless
with the assent of the New Brunswick
Electric Power Commission.
Suburbs Included.
13. In the event of the Commission
selling power and energy to any vil-
lage, town or incorporated hydro elec-
tric district within a radius of fifteen
miles from the City and the said vil-
lage, town or incorporated hydro elec-
tric district or any of them desire to
receive electrical power and energy from
the sub-station of the City and it is in
accordance with good engineering prac-
tice to do so, the Commission shall
with the consent of the City deduct
the amount of electrical energy so sold
from the quantity which the City
agrees to take under this contract.
14. This contract shall continue for
fifteen years from the first day of May
A. D. 1923 and shall ensure to the bene-
fit of and be binding upon the respec-
tive parties hereto and their respective
successors.

15. The City shall have the option to
renew this Contract for a further term
of fifteen years and on the same terms
and conditions as are herein contained,

**CURLY HAIRD ELF
TO BE LADY DASHWOOD**
A Kingston, Ont., despatch says:
The announcement in England of the
engagement of Helen Moira, elder
daughter of the late Colonel Vernon
Eaton, to Sir John Dashwood, has
created much interest here. Her father
came to Kingston from Fredericton, N.
B., transferring from the R. C. R. to
the Royal Canadian Horse Artillery,
and was later in command of "B" bat-
tery. Miss Eaton is remembered in
Kingston as a bright and charming
little girl with long black curls, who
was often seen riding with her father.
She was devoted to the battery com-
mand by Major Eaton, and exceeding-
ly proud of "Daddy's horses." She was
a clever little actress in the children's
plays arranged for charity, and was
delightfully light and airy dancer. At
the outbreak of the war Colonel Eaton
went to England in command of "B"
battery, R. C. H. A., and was killed in
action in France. Mrs. Vernon Eaton
and her daughters followed him to

England, Miss Helen Eaton being then
about 14 years of age.

South Dakota Jurors Admit Cutting to

Sioux Falls, S. D., Nov. 24.—A verdict
of guilty, returned against George W.
Egan, three times candidate for Gov-
ernor of South Dakota, on a charge of
making false returns to insurance com-
panies and resulting in a sentence of
two years in the penitentiary, was ob-
tained through a deck of playing cards,
according to affidavits filed in the Cir-
cuit Court today by two jurors, in sup-
port of a motion for a new trial.
According to the affidavits, the jury
had been deduced with ten members
for conviction and two for acquittal.
After several hours the two objecting
jurors decided to cut for high card to
see whether they should retain their
"not guilty" stand or agree with the
others. The cut said guilty, it was al-
leged.

**MICHIGAN GROWER
PAYS \$50,000 FOR SINGLE
STRAWBERRY PLANT**
Three Rivers, Mich., Nov. 24.—Fifty
thousand dollars for a single straw-
berry plant was paid today by Frank
E. Beatty, president of the R. M. Kel-
logg Company, a fruit growing con-
cern.
The plant is to be known as "Rock-
hill," in honor of its grower, Harlow
Rockhill of Conrad, Iowa. The price
is believed here to be the highest ever
paid for a single strawberry plant. The
plant bears in early summer and begins
again in the late summer, bearing con-
tinuously until frost comes.
"We are paying the price, not with
the idea of making a profit, but as an
incentive to growers and breeders of
plants to develop new varieties," said
Mr. Beatty, who is a nationally known
expert on strawberry culture.
The purchaser said today that he be-
lieved the plant he had purchased would
revolutionize the strawberry industry.

TRAFFIC CASE.

James McAllister pleaded not guilty in the police court this morning to a charge of exceeding the speed limit at the intersection of Thorne avenue and the Marsh bridge. The charge was laid by Charles Bishara. Bishara said that a motor truck passed yesterday and killed his dog which was with him at the time. The car was going at a rate of between twenty and twenty-five miles an hour. He had taken Policeman Dykeman to the place where the dog had been killed. The accused said he had not been going more than twenty miles an hour at the time. A fine of \$10 was imposed and allowed to stand.

MRS. ROBERT FOX

The death of Mrs. Robert Fox occurred last evening at her residence, 84 Rodney street, West End. Mrs. Fox had been in failing health for about a year, but her sudden death will be a great shock to her many friends. She was a loving wife and mother and respected by all who knew her. She leaves to mourn three daughters, Mrs. Wm. S. Magee of Fairville, Mrs. Harold K. Haskell of Ipswich, Mass., and Miss Helen and one son, Lewis, at home; also two sisters, Mrs. Thomas Horsman of Ipswich and Miss Clara Dunham of West St. John, and three brothers, Albert Dunham of Fairville, Harry Dunham of West St. John and John Dunham of Ipswich. The funeral services will be held on Sunday afternoon at 3.30 o'clock.

Parsons president, and the following officers were elected for the year after a lively meeting. Secretary—Harry McHarg; Deputy Secretary—William W. Waring; Scripturist—Edwin Wilson; Assessor—William Edwards; Comptroller—Allan Jennings; Past Pretor—Rupert Macdonald; Athletic Committee—W. W. Waring, Harry Toole and George Waring; Basket ball team captains, number two: Harry Toole, number three, Perry Ring; number four, the captain will be appointed at next meeting as will the programme and social committee. The new officers will be formally installed at the next meeting and new members voted into the mysteries of the Square. The meeting closed with prayer by the pastor, Rev. W. Alvin Robbins.

CONTRACT WILL BE SIGNED WHEN DR. SMITH ARRIVES

Mayor Fisher said this morning that word had been sent yesterday to Hon. Dr. E. A. Smith of Shediac, chairman of the New Brunswick Electric Power Commission, that arrangements preliminary to the signing of the contract had been completed and that all that now remained was the affixing of the signatures. Hon. Dr. Smith is expected to arrive in the city some time today and the contract will be signed upon his arrival. The Mayor and common clerk will sign for the city and the corporate seal of the city will be subscribed. The offer of the city to the New Brunswick Power Company for the purchase of the company's establishment at the supreme court valuation was expected to go forward today. The company will have ten days in which to accept or reject the offer. It is expected that Mayor Fisher will make a recommendation to the common council on Monday with reference to the appointment of a civic commission to handle the hydro power matter. He said this morning that the commission would be composed of at least three members and that the mayor would be a member ex-officio. The idea of a commission, he said, was to place the matter beyond the reach of politics or other outside influences. This system had been found to work excellently in Ontario and there was no reason why the same should not be true of St. John.

PROBATE COURT

In the Probate Court, in the matter of the estate of James McFarland, personally \$800, Mrs. Matilda McFarland was sworn as administratrix. D. Mullin, K. C., was proctor. M. D. Sweeney was sworn as executor of the estate of Arthur J. Connor, personally \$4,825, left to members of his family, with the exception of \$100 to the Reimbursement Funders for spiritual offerings. E. P. Raymond was proctor. The last will of Katherine Demoloch was proved, appointing the Eastern Trust Co. executor, personally \$8,880.96. The bulk of the estate was left to relatives in the United States, as follows: \$800 each to Daniel Ryan, Boston; Nellie Ryan, Mary Lee of Boston; George H. Harris, Kathleen Keen, Margaret Harris and Elizabeth Slade, all of Winthrop, Mass., and there was a bequest of \$500 to the St. Vincent de Paul Society here. The estate of Robert E. Scott was probated at \$2,707.23 personally; and Alexander Crawford and K. J. Macrae appointed executors. B. S. Smith was proctor.

EAST ST. JOHN WATER AND SEWERAGE

Editor of the Times-Star: Sir—Will you please allow me space in your paper to warn the ratepayers of East St. John in regard to false rumors by a group of people who wish to confuse the minds of the voters and mislead them on December 5, election day by saying that they will only have sewerage alone and no water supply. This is false and for no good purpose. These people are out for their own selfish interests or fear a little taxes or they are tools for others. Remember the petition you signed is for water and sewerage. It was signed by the majority of the people by four to one and it must be heard. Come to the polls early and vote yes, for you know that the reading public is watching us on the 5th. If you vote "No" it means a dirty East St. John and the public will shun us. If you vote "Yes" the world will know that we are clean and will come and help us. Yours truly, JAMES A. SHEEHAN.

TAKES EXCEPTION TO SALARY QUOTED

C. P. R. Inspector Explains Matter of Reported Offer to Detective Biddiscombe—An Evident Misunderstanding.

Inspector W. Stevens, of the investigation department of the C. P. R., asked The Times this morning to correct some misleading statements, which were made at a meeting of the common council yesterday and published in the paper with reference to the C. P. R. and Detective Biddiscombe. He said that no such offer as mentioned had been made to any member of the local police force. He acknowledged that it was true an application for a position in his department had been made by a member of the local police force, whose qualifications were well known to him and he recommended him for the position. He said there was no doubt that higher rates would have been extended to the applicant as a result of his experience, yet he with all other applications would be received into the service as a constable whose maximum pay was \$146 a month. He explained that higher rates mentioned were paid to investigators after they had served specified periods and had proven themselves sufficiently experienced and competent to fill all requirements necessary in both the railway and steamship departments of the service. He said that there are only a limited number of investigators appointed and other members of the service must wait until opportunity gives them a chance for promotion. The figures, he said, quoted at the meeting, while in part true were misleading and all wrong as regards time. Before investigators can receive the salary mentioned they must serve two years in that capacity. Inspector Stevens explained that he has no personal feeling in the matter and has no desire to conflict with any of the city's business, but his only wish was to give the facts to the commissioners and public at large concerning his department.

CASE TO THE JURY THIS AFTERNOON

W. M. Ryan Completes Address for the Crown, and Judge Starts Charge in Richibucto Murder Trial.

(Special to The Times.) Richibucto, Nov. 24.—The case against Ernest McEachern, charged with the murder of Gordon Mesheau on May 1 will go to the jury this afternoon. H. A. Powell, K. C., finished his address to the jury at 1 o'clock today, after which Wm. M. Ryan presented the Crown's case. Mr. Powell's address to the jury was a masterpiece of the dying declaration of his deceased brother killed itself by the story and weight of evidence. He said the jury from the evidence could fairly infer the case was one of self-defence. Mr. Ryan began his address at 11.05. He said that to set up a case of self-defence there must be proof that all avenues of escape had been tried. He said that even should they disbelieve all the Crown's witnesses and alone believe the accused, Ernest McEachern was the aggressor and not the deceased. Mr. Ryan spoke for one hour and a half. Mr. Powell spoke altogether for two hours and forty minutes. Judge Crockett commenced his charge this afternoon.

COMMISSIONER'S 30TH WEDDING ANNIVERSARY

Mr. and Mrs. R. W. Wigmore Pleasantly Surprised by Friends Last Evening—Presentations.

Commissioner and Mrs. R. W. Wigmore were pleasantly surprised last evening when about eighty friends invaded their home to extend hearty congratulations on the thirtieth anniversary of the marriage, and also to present a memento of the occasion. On behalf of the assemblage Dr. L. M. Curran presented to Commissioner and Mrs. Wigmore a silver basket filled with beautiful carnations and a very fine set of silver. Both Mr. and Mrs. Wigmore were feelingly responded. A musical programme was enjoyed. Mrs. Curran sang with good feeling an appropriate song "Friend of Mine." Mrs. Blake Perry, Mrs. L. Louise Curran and Mrs. Thomas Dean also sang some choice numbers, while Mrs. H. B. Peck regaled all with humorous singing. Mrs. Harold McKay and Miss Marjorie Carter officiated as accompanists. The programme was thoroughly enjoyed by all present after which refreshments were served.

ARRANGE HOCKEY SCHEDULE SOON

St. John Will Have Senior City League and Team in Provincial Contests.

A meeting will be held in a few days in St. John for the purpose of arranging a schedule for the games to be played in the Southern Section of the N. B. Amateur Hockey League. The arrangements call for home and home games between Fredericton, Sussex, St. Stephen and St. John. The schedule is to be completed by Feb. 10th, after which play offs will be arranged between the winners in the different sections. St. John will have a Senior City League from which a team will be chosen to play in the Provincial League. The St. George's, Trojans and Gyro's have announced their intention of participating in the City League and another prominent club has the matter under consideration, and it is fully expected will enter. The arena management has announced the intention of devoting two evenings a week to senior hockey and opportunity will be afforded the teams for practice. There appears to be ample material in St. John for several strong teams, although a canvass of the situation reveals an apparent shortage of goal tenders.

RIVER FROZEN AT FREDERICTON

(Special to Times.) Fredericton, Nov. 24.—The St. John river, at this point, was skimmed over with ice last night. A light snow followed the cold snap and the river today presents an appearance of being sealed for the winter. It is not likely that the ice will remain as the weather forecast is for rain and sleet. In 1921 the closing was in similar fashion but a few days earlier. The ice formed on the seventeenth and on the twentieth ran out as the result of rain and rising water. On the twenty-third it formed again and remained for the winter.

GIRL GUIDE NOTES

A special officers' meeting was held on Tuesday night at which Misses Marjorie Knight, Althea Hazen and Katharine Skelton were enrolled by the District Commissioner. The 6th St. John company reports six recruits and the formation of a Brownie Pack. The 7th St. John were very glad to welcome Guide Marion Primmer back to the company, after being in the county hospital for sometime. Four members passed for their tenderfoot badge. Captains will kindly let Miss McAvity or Miss Purdy have their company news by Wednesday night.

BRITAIN STANDS BY THE TREATY

This Statement Made Today in Official Quarters in London

No Matter What Attitude France Assumes in Regard to Washington Agreement on Naval Strength.

London, Nov. 24.—(Canadian Press)—Great Britain stands by the Washington treaty whatever France does. That is the statement of official quarters here today reflecting both the admiralty and cabinet opinion.

The statement of official quarters here today reflecting both the admiralty and cabinet opinion. The some officials believe that the statement ascribed to George Leygues, chairman of the foreign affairs commission of the Chamber of Deputies, Minister of Marine in the Clemenceau cabinet, and himself an ex-Premier of France, that France will not ratify the treaty is a serious mistake in policy.

Well informed persons in diplomatic quarters here profess to believe that Leygues' statement files in with Clemenceau's campaign to bring the United States to the point of believing that she has deserted France, and that France must manage her own protection at whatever cost.

The correspondent's informant, a diplomat who has had experience on both sides of the Atlantic and both sides of the channel, believes that the French tactics are erroneous.

"France," he says, "wants above everything else to get something like Woodrow Wilson's tri-partite agreement. I believe that the whole tactics are the result of a desire to show the United States that other countries can refuse to ratify the United States has refused to ratify Wilson's signature."

"A better navy would be of little use to France, in case of attack from across the Rhine, but a refusal to ratify the Washington treaty they believe would be a striking demonstration directed at American pride, just as the repudiation of the Versailles treaty struck French pride."

As far as the internal political situation is concerned, it is practically certain that the Bonaparte government will do its part to carry out the naval policy adopted at the Washington conference. Though the Tory party, the traditional big navy party, and the government may be asked some bitter questions about letting France's navy coming in close to Britain's, the government will stand by the agreement.

It has been said that altogether there has been taken from American stores only about 21-2 ounces of radium.

SENT TO PRISON AND FINED \$10,000 FOR BOOTLEGGING. Wealthy Tobacco Merchant Goes to Penitentiary for Two Years—Called "King of Bootleggers."

New York, Nov. 24.—Antonio Casese, wealthy tobacco merchant of Ozone Park, L. I., known as the "King of the Bootleggers," was declared guilty of bootlegging by a jury in the United States District Court in Brooklyn yesterday afternoon. Judge John C. Knox, who presided at the trial, sentenced Casese to serve two years in the penitentiary at Atlanta, Ga., and to pay a fine of \$10,000. Casese retained the attitude of calm that has marked him during the trial.

The prisoner's wife, his father and three children were in court. So was Mrs. Edith Stevens Hirsch, who accompanied Casese on several of his expeditions to the Bahama Islands and who was tried and acquitted on a charge similar to that against Casese. She attempted to see the prisoner before he was taken to the Raymond Street Jail, but failed.

Casese was arrested after the seizure of the yacht Edith, which was named after Mrs. Hirsch. He was released on \$5,000 bail, and later indicted. Liquor valued at \$60,000 was found on the yacht.

A few days after Casese's disappearance a steam trawler named the Ripple was seized at Erie Basin, with a large quantity of liquor on board. The crew was placed under arrest after the police and the Federal men exchanged shots with the crew. The Ripple was declared by the authorities to be the property of Casese, and was taken to the Federal penitentiary at Atlanta, Ga. A bribe of \$5,000 if he would release him. Broadfield testified that he repelled, "I would not let you go for \$5,000."

CONFESSES HE CAUSED THE WALL STREET EXPLOSION. Writer Says He Will Now Blow Up Brooklyn City Hall and Kill Everyone in It.

New York, Nov. 24.—A man who wrote he caused the Wall Street explosion to be blown up by Brooklyn City Hall and kill everyone in it. The man, who is known as "Brooklyn City Hall," is now in the Federal penitentiary at Atlanta, Ga. He is charged with causing the explosion of the Wall Street building on September 22, 1922.

"When I did blow up Wall Street and killed twenty-eight people two years ago, I got a rotten job. I got a new kind of explosive—a better work, with which I did blow up a few railroads the last few months, working for the unions, Patterson. I intend to kill everybody in the building. May be after I will cut Brooklyn Bridge in two places. I love to kill."

INTERNATIONAL SKATING MEET

Further Effort to Clear Up Situation—Joe Page's Advice.

At a meeting of the citizens' committee held yesterday afternoon R. Downing Peterson, president; Lieut.-Col. Norman McLeod, W. Kenneth Haley and C. J. Mesereau, were appointed to get with the Maritime Skating Association representatives and meet the directors of the Y. M. C. I. in a final endeavor to come to a working agreement with respect to the handling of the international speed skating championships.

W. W. Corey, representing the Playgrounds Association, and Lloyd Ryan, representing the Gyro Club dissented on the grounds that they did not have authority from their clubs to form such a committee.

HOPES SKATING MATTER MAY BE STRAIGHTENED OUT. Letter from W. H. Golding, Who Assisted in Last Year's Meet—Tribute to Y. M. C. I.

St. John, N. B., Nov. 24, 1922. To The Editor of The Times: Sir—As one who participated in a very exciting and profitable skating season at the International Skating Meet on Lily Lake last winter I most sincerely hope the committee appointed by the citizens' body will have the foresight and good-fellowship to make quick repairs to the breach which I am afraid has been made by the controversy now waging between the Catholic Athletic Organization and the composite group proposing to hold the skating championships this winter.

WIDOW SUES FOR ROYALTIES. Action Started in Brooklyn to Collect \$50,000 on "Silver Threads Among the Gold."

New York, Nov. 24.—"Silver Threads Among the Gold," written forty-eight years ago by Hart P. Danks, is still selling up royalties, according to state court records, for \$50,000. The action was started in Brooklyn by Mrs. Harriett R. Danks, widow of the writer.

What causes hangnails? You need never again have a raw, ragged cuticle. AUTHORITIES agree that hangnails are caused either by neglect or by wrong methods of care. If neglected, the cuticle will grow just to the nail. As the nail pushes forward, the cuticle stretches until it can stretch no more. Then it splits—and you have a hangnail. Or, if you cut the cuticle with knives or scissors, you are likely to pierce through to the nail root and then you get the same result.

Cutex Cream Remover will soften the cuticle, gently loosen it from the nail and take off all hard, dry edges. If you will begin to use Cutex regularly, you will never again have hangnails. Your very first trial will leave your nails firm smooth and even. You will also find Cutex an excellent nail bleach.

SUES FOR \$100,000 BECAUSE RUN OUT OF A BALL PARK

(Canadian Press Despatch.)
New York, Nov. 23.—An attempt to reduce to dollars and cents the mental anguish resulting from being ejected from a baseball park was made by a jury in Justice Wasservogel's court of the Supreme Court today. According to Louis S. Hirsch, he was ejected from the park of the New York American League Club last May by special officers. He has asked \$100,000 bail.

ANTELOPE PRESERVATION SUCCESSFUL IN CANADA

Lethbridge, Alta., Nov. 10. — (By mail.)—Government plans to prevent the extinction of antelope in Western Canada are proving successful and the preserve created at Foremost, Alta., in 1918 with fifty animals in captivity now holds 100 head.

Known as the Nemiskam Park, the preserve comprises nine square miles, and the steady growth of the herd and the absence of disease is good evidence that the experiment is likely to result in saving this most interesting species from the extermination which otherwise inevitably awaits it.

flight, exceedingly graceful and beautiful, the antelope has for many years been a prize for the big-game hunter, and its numbers have been diminishing of late years with a rapidity that has aroused the concern of all lovers of wild life.

Ten years ago Dr. W. T. Hornady, the American naturalist, estimated that there were 2,000 antelope in Western Canada. Today there are reported to be only about 1,000 in a wild state in Alberta and 250 in Saskatchewan, while they entirely disappeared from the Province of Manitoba some years ago.

ATHENIAN PARTENON WILL BE RESTORED DESPITE OBJECTIONS

Work Interrupted by Abdication of Constantine Not Abandoned, Says Prof. Dinsmoor of Columbia.

Restoration of the Parthenon on the Athenian Acropolis, which was interrupted by the second abdication of King Constantine has not been abandoned, according to Professor William Dinsmoor, of Columbia University, who said yesterday that the work would be resumed within a short time. "Soon after the return of ex-King Constantine to Greece in 1920," said Professor Dinsmoor, "the long considered project of the restoration of the Parthenon on the Athenian Acropolis was earnestly taken up, on the basis of plans already carefully prepared by the archaeological service of the Greek government. When the scaffolding (brought from the United States twenty-five years before), was erected and the first fallen column drums were hoisted into their original positions, the reaction at the outbreak was a storm of protests against the so-called desecration.

"The work has been temporarily interrupted by Constantine's second abdication, but it will be undoubtedly resumed in the immediate future, for there can be no question of abandoning the work because of protests from abroad. Such protests are based purely upon a misapprehension of the meaning of the word 'restoration' and upon ignorance of the fact that such work has been proceeding upon the Acropolis for ninety years at least, and during the last twenty-five years at least, with great benefit to the monuments so treated."

Professor Dinsmoor will give a public lecture at Columbia University on Friday evening, when he will describe fully progress that has already been made in the rebuilding of the Acropolis. The lecture will be under the auspices of the Archaeological Institute of America and the university.

A BOTTLE-SCARED COAST

Since, Ont., Nov. 24.—Reminiscent of pre-prohibition days was the scene at the Cove, five miles west of Port Rowan, where the steamer City of Dresden, laden with 600 cases of whiskey, foundered about 8 o'clock on Saturday afternoon. The heavily laden ship, with Capt. J. S. McQueen, of Amherstburg, in command, bound for Port Huron, was caught in the sweeping gale which lashed Lake Erie into fury on Friday and Saturday.

Hundreds of quart bottles were being eagerly captured by residents of the neighborhood. Whole cases were being loaded into waiting automobiles and conveyed to unknown destinations.

The City of Dresden was condemned some 20 years ago, when Captain McQueen purchased it and installed a completely new set of high-powered engines. The scene of the wreck is the most treacherous point along the coast of Lake Erie.

The body of young McQueen, who was 21 years old, has not yet been found.

JEWELER HELD UP IN HOTEL ROOM

Lured There by Woman's
Call to Make Sale and
Trapped, He Tells Police
—Reports Loss of \$8,000.

New York, Nov. 24.—For fifteen years Louis Maratsky told the police he had been selling jewelry to actors and actresses along Broadway. He had a store in Hudson, N. Y., and was accustomed to visit his customers in this city on Monday, Tuesday and Wednesday of each week. Maratsky was to be found in these days in the neighborhood of Seventh Avenue and Forty-seventh Street.

He would meet prospective purchasers on the corner, in a drug store, a restaurant or a hotel lobby and there would show his wares and make his sales. One rule, Maratsky said he had always lived by, that is until yesterday, he absolutely refused to take several thousand dollars worth of rings, pins and watches to a hotel room to show anyone. Without reflection on everyone, he said, he considered the risk too great.

Yesterday, so Maratsky told Detectives Tom Brady and Bert Maskell of the West Forty-seventh Street Station, he arrived in town as usual and went to the Hotel St. Margaret, on West Forty-seventh Street, first getting from a jewelry store downtown fourteen rings and a couple of watches on consignment. The rings were valued at something over \$3,000.

When he entered the room, however, he found no "Mrs. Gill." Instead, two men grabbed him and tied him hand and foot with a sheet. One of the men Maratsky said, hit him with the butt end of a pistol, just because he attempted to change his position. To prove this, he exhibited a bump on his head. The robbers took the fourteen rings and also the two watches, but evidently the watches didn't suit their fancy for they returned them to the prison.

The Jewelry Sale That's The Sensation of the City

Bought below the market to sell below the market, the last of the many cases of Gift Jewelry, direct to L. L. Sharpe & Son has been unpacked—and since we must have immediate money—out goes everything at reductions ranging from below ONE-THIRD OFF. But only for eight more days. To settle reports to the contrary we regret that we must state that L. L. Sharpe & Son have always been in possession of this business and will be hereafter as heretofore. If our selling is below the market it is because our buying was "on the inside" and money had to be raised by profit cutting.

**Father Magrath Gets \$4,000
in Wages from Sailors to
Assure Wives and Kiddies
of a Merry Christmas.**

(New York Times.)
Thirty firemen and coal passers of
Shipping Board craft, paid off in New
York, were lined up by a lone habitué
of the West street waterfront and re-
lieved of nearly \$4,000. The men were

herded in a body, called forward one
after another and made to disgorge.
They submitted in grim silence. The
man who took their money was Father
Philip J. Magrath, pastor of St. Brid-
gid's Church. He is known among sea-
faring folk as "the Fighting Priest."
"Ain't we to have any money at all,
Father?" plaintively inquired Tim Mc-
Quade, a muscular coal passer, who had
given up \$140.
"You're to get maybe \$25 each shore
money," said the priest, smilingly, as
he entered sums opposite the men's
names in a big ledger. "And that," he
went on, "is more than any one of you
needs for operating expenses. What
do I run a mission for if it isn't to
keep you fellows from a lot worse
places?"
Christmas for Women Folk.
"But \$25 is only cigarette money,"
remarked fireman Mike Mulcahy.
"Sure you've overlooked the high cost
of linen," Father Phil.
"What I haven't overlooked," said the
priest, slamming a solid-looking fist on
his mahogany change counter, "what
I have not overlooked, Mulcahy, is

the high cost and suicidal quality of know me. The money I have here is
waterfront hooch. Now men, you all going to your wives, sisters and sweet-

hearts—your mothers, maybe. It all
depends who's who and why. Christ-
mas is right on us, lads. The women
folks will be needing cash.
Father Magrath's mission is St. Pet-
er's Union for Seamen, Sailors and
"coal hole" men from half the world's
ports know it as "Father Phil's place."
To this mission the priest's guests of
last night were piloted after they had
supplied him names and addresses of
their nearest and dearest. Detectives
Harvey and Sheldrick, of Charles
street police station, acted as escort.
Some of the sailors were new to this
port, the police said.
When waterfront saloons went out
of business cheap lodging houses re-
mained virtually the only refuge for
Jack ashore until social workers recog-
nized the emergency. Father Magrath
has been more than fifteen years an ef-
fective worker in this field. His mis-
sion is clean, comfortable and well
lighted. It houses 600 men comfort-
ably, and is always well patronized.
Friendly Conspiracy.
"You may consider my methods
high-handed," said the priest, "but
you'll agree the end justifies the means.
Waterfront police have joined me in a
friendly conspiracy, so to speak. They
help me to round up the men just paid
off, and I order them over here. Every
man has to come clean. Very few
hold out on me, I'll say that for them.
When I've got their money I appor-
tion it in what seems to me a decent
ratio between them and their families.
Generally the family gets 75 per cent
and the men 25."
"Sometimes I miss a few of these
fellows. Then dockrats clean them
out. That leaves nothing for the sailor
or his family. We have to care for
such men as best we may until they go
to sea again. Also we do what we can
for their families until another pay-
day comes."
Father Magrath is a familiar figure
on the waterfront. His willingness to
tackle so-called dock rats or waterfront
thieves at any sort of an argument
from tongue lashing to fatigues, causes
such gentry to give him a wide berth.

ART CLUB MEETS.
The annual meeting of the St. John
Art Club was held last evening in the
Natural History Society rooms with
Ven. Archdeacon A. H. Crowfoot pre-
siding. T. H. Estabrooks was re-elected
president. W. Shivers Elmer gave
an illustrated lecture on his recent trip
to the West Indies as a member of the
Canadian Manufacturers delegation. He
also spoke of the need for a larger
building for the Natural History
Society and the Art Club. Several ex-
pressions of thanks were made to Mr.
Fisher for his talk.

When the election of officers took
place the results were as follows:
President, T. H. Estabrooks; vice-
presidents, R. T. Hayes, W. F. Hathe-
way and William Brodie; treasurer, J.
E. Secord; recording secretary, Wallace
Brander; financial and corresponding
secretary, to be appointed by the in-
coming executive; curator, C. H. Flew-
elling; additional members of the ex-
ecutive Rev. Archdeacon A. H. Crow-
foot, F. W. Daniel, George Stead, A.
Chip, Ritchie, Mrs. L. DeV. Chipman,
Mrs. H. A. Powell, Mrs. W. H. Logsdin
Mrs. S. Alward and Miss C. O. Mc-
Giver.

KENT MURDER CASE.
It is expected that the case of Er-
nest McEachern, charged with the
murder of Mrs. Moberg, will go
to the jury this afternoon late. H. A.
Powell, K. C., for the defence, com-
menced his address to the jury yester-
day. He will conclude today and will
be followed by W. M. Ryan, also of
St. John, for the crown, and the ad-
dress by Judge Crockett. Five wit-
nesses were heard for the defence. They
were the accused, Miss Mary J. Cor-
ner, James Renault, G. E. Boudreau
and Alphonse Johnston. Mr. Powell,
in his address claimed that there had
been an absolute lack of guilty intent
on the part of the accused. He claimed
that there were three varying versions
of what had occurred between the two
men.

LATE GEORGE WILLIAMS.
(Montreal Gazette.)
"A rare specimen of a Christian
citizen" was the appreciation of the
Rev. George Adam in a eulogy pro-
nounced at the funeral service of
George E. Williams, held yesterday
morning in Emmanuel Church. In his
address the Rev. Mr. Adam reviewed
the numerous activities of Mr. Wil-
liams in church and Y. M. C. A. work,
pointing out that his interests had not
been confined to the church in which
they were met, but reached out to the
church at large, especially in the mat-
ter of foreign missionary enterprise. It
was characteristic of the man that he
had not put business claims first, but
had tended to sacrifice personal ad-
vancement to his work for the com-
munity. His religious faith was seen
when he was smitten by a malady
which precluded recovery, for through-
out many months of suffering the ut-
most tranquility and deep confidence
had fortified him. As a Christian
worker and business figure in the com-
munity he had left an impression that
would not be easily lost.

A TRAFFIC EXPERT.
(Halifax Chronicle).

Among the matters of vital importance to the business interests of the Maritime Provinces is the question of railway freight rates. For a long time this section of Canada, and particularly Nova Scotia, has suffered because of railway freight rates. It has been said again and again that it costs four cents a pound more to bring freight to this Dominion ports than to divert it to American ports. This statement has never been properly or intelligently challenged, because no expert advice or investigation has been asked for. The time has come when such a demand must be made.

The interests of Nova Scotia and Nova Brunswick are too important to be sacrificed unprofitably. If the Governments of New Brunswick and Nova Scotia could get together the secure a railway expert—one without interest in the outcome of an investigation other than to establish facts—to investigate thoroughly and make a full report, there would be some basis to go upon in reaching a decision. Then, and not until then, will it be possible to decide what should be done to remedy the present situation.

One other phase of the railway freight problem should be made plain to the public. Canada grows grain that cannot be excelled in quality, and she grows it in enormous quantities. Europe and the rest of the world needs that product, and Canada's prosperity depends largely upon the distribution of it. In shipping it via Portland last year the Canadian ports of Halifax and St. John were discriminated against. That everybody knows, but what has

not transpired is whether there was a deficit on the transportation of this grain to Portland last year? That is knowledge to which the people of Canada are entitled, for if one part of the road must bear the deficit of another, there would be ample justification for demanding that the route be wholly Canadian. At any rate every thing points to the necessity for investigation and study by railway experts, that there may be no guess work and no ground for the feeling which undoubtedly prevails today that the Maritime ports are being discriminated against most unjustly.

The Governments of Nova Scotia and New Brunswick should get to view on this important question with a view to joint and united action.

CUTTING EXPENSES IN DEPARTMENT OF RE-ESTABLISHMENT

Hospitals Closed and Staffs Reduced—Workshop For Seriously Handicapped Soldiers to be Opened in Toronto.

Ottawa, Nov. 23.—Retrenchment and concentration are being effectively applied to the administration of the department of soldiers' civil re-establishment under its minister, Hon. Dr. H. S. Beland. This year's estimates called for a reduction of \$6,000,000 in expenditure and Dr. Beland said the other day that his department would be well within the estimates. Further curtailment of outlay would be effected next year by the same means of closing hospitals and reducing staffs.

At present there are 200 vacant beds in the Christie Street Hospital in Toronto. This space would be utilized by closing up other institutions in that city, he said.

A workshop for the seriously handicapped soldiers would be opened in Toronto at an early date, the minister announced. Retrenchment has also been practiced in Winnipeg where the Tuxedo Hospital has been closed and similar steps would be taken later in Calgary.

Dr. Beland expressed himself as highly pleased with the manner in which the soldiers are being cared for in the Westminster Hospital in London where he made an inspection recently.

Rheumatism! try Sloan's

It kills pain! by breaking up congestion.

Most aches of rheumatism arise from congestion. Apply Sloan's. Don't rub. It penetrates to the sore spot, starting the blood circulating. This reduces painful congestion—the inflammation vanishes.

Try Sloan's on sprained, bruised muscles, on aching backs and neuritis. Try it on that "cold in the chest."

REFUSED BRIDE A PASSPORT

Former British Subject, Wedded in New York, Must Become Citizen to Join Husband Abroad.

Washington, Nov. 24.—One phase of the many perplexities caused by the new law, relative to the marriage of Americans and foreigners, and the matters of citizenship, is set forth in the following incident told by Representative Siegel:

"When on Sept. 30, 1922, Clarence P. Heck, an artist, married Miss Frieda E. Smith at the studio, 106 West Fifty-fifth street, New York City, the Rev. Robert Watson, minister of the Second Presbyterian Church officiating, they both had no idea of the troubles that were to follow.

"Clarence P. Heck is a native born American citizen. Miss Smith was born in Belfast, Ire., and came here as an infant. During the war she served as yeoman, third class, in the Third Naval District.

"Congress recently passed a new naturalization law by which women were to have separate citizenship. That law went into effect upon the 22nd day of September, so that on the 30th of September when Miss Smith married Mr. Heck she found herself in a position that her husband was an American citizen and she a British subject.

"Her husband left in October, 1922, for Spain on a business trip. She expected him to return within a few weeks. He notified her, however, that his trip abroad would be extended and asked her to join him.

"Then her troubles commenced. She went to the passport division of the State Department at the custom's house in New York and made application for a passport. She was told that she was not an American citizen although married to one, and, therefore, could not receive an American passport. She was advised to go to the British consul and obtain a British passport. Here she was told that having married an American she was no more a British subject.

"She then went to see Chief of the Naturalization Bureau, Mertno A. Sturgess, in New York, and he told her he did not see what he could do for her. She then saw County Clerk Donegan of New York, and he sent her over to Representative Siegel. After weighing the matter Mr. Siegel concluded that the only remedy left for her was to obtain an honorable discharge from the navy, so that she could immediately apply for citizenship.

"An honorable discharge was granted by the Secretary of the Navy today and her application for citizenship will be heard in the Supreme Court of New York County on Friday,

where it will have to be granted, because provision was made by Congress in 1918 that a person who saw naval or military service and had an honorable discharge must receive citizenship on application to the court.

"As soon as she receives her certificate of citizenship an American passport will be granted to her, and she will then be able to leave the United States to join her husband."

TERRORS OF WAR TURNED INTO KETTLES AND PANS

Young Englishman and Thousands of Helpers Break up Millions of Shells.

London, Nov. 2.—(By Mail)—A romance of shell surplus is noted by "The Westminster Gazette."

In the middle of the war wonder entered the mind of a young Englishman in France as to what would happen to all the unused ammunition—should there be any—when peace came.

Later on this thought led to control of about 850,000 tons of German, French and British projectiles and war implements, and, three years ago, to

the establishment of F. N. Pickett & Co. at Wimereux. With, at one time, 10,000 helpers, this enormous mass of explosives has now been broken up and transformed to peace purposes.

"Of shells alone," a member of the firm told a "Westminster Gazette" reporter yesterday, "we have broken up 20,000,000."

Mr. Pickett began his operations without any financial backing. He thinks the romance of the scheme appealed to him," said the official, "even as much as the business side. Brass shell cases and nose-caps are now, perhaps, kettles or pots and pans.

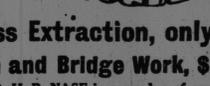

"It was tricky business handling the gas shells. Some had to go into the sea, but only 2 per cent of the whole quantity we have handled has been lost."

A French scientist claims that vegetable is deprived of water and hydrogen and passed over nickel furnished a fuel similar to gasoline.

REFUTES FIGURES OF U. S. OFFICIAL ON CANADA ARMY

Department Says Expenditure Per Capita in Canada on Militia Activities Will be \$1.50 as Against \$14 in U. S. For 1922.

(Canadian Press Despatch.)

Ottawa, Nov. 23.—Canada's expenditure per capita on militia activities during 1922 will be \$1.50 compared with an expenditure of \$14 per head for similar purposes in the United States, Canada trained 27,294 men this year to Nov. 1. These figures were given in an official statement obtained this morning from the department of militia and defence.

The statement goes on to say: "Quite recently the United States

Secretary of War made a public statement that Canada trained 100,000 men during the last summer. According to the figures available, the exact number trained appeared to be 27,294, all ranks, as at Nov. 1, 1922.

"In this connection, it should be remembered that the United States maintains a standing army of more than 180,000 all ranks. Canada, on the other hand, has no standing army, but only a small permanent force of instructors numbering less than 4,000.

"The best method of gauging the military activities of the two countries in matters of defence is by comparing their annual expenditure. That of Canada during the present year will be approximately \$1.50 per capita, that of the United States, so far as can be ascertained at present, will be in the neighborhood of \$14 per capita."

HOW WRONG SHAVING BRINGS THE LINES OF AGE TO MEN'S FACES

"Strops its own blades" Shave, clean, strops without removing the blade.

Only 38—yet looks every day of 50

When you feel a sensation in shaving—beware. It's a danger signal. It means the roots of your beard are being irritated by pulling, and that a rough skin is on the way.

The deep lines of age, furrows, and wrinkles closely follow. Any skin specialist will tell you so.

Not vanity—but good business This is not an appeal to vanity, but to good business.

In this day, no man past 30 can afford to look older than he is. For commercially, youth, not age, is being sought.

Yet leading dermatologists tell us that three men in four, between 30 and 40, look years older than they are, because of wrong shaving methods.

Note the men you meet—anywhere. Some look old before their time. Others seem to hold the secret of youth.

Ninety per cent of it is in how they shave. Scores of wealthy men have private barbers for that reason.

2 years of wrong shaving will add 10 years to your looks. One month of correct shaving will take years away. These are scientific facts, vouched for by foremost authorities on the skin.

For youth—a keen blade You should be able to shave clean—if your beard is average—by going over your face one time. Note this fact and mark it.

And you can't accomplish that with anything short of a super-keen blade. Ordinary sharpness won't do it.

For that reason many of the most noted skin specialists are advising men to turn to the Valet Auto-Strop Razor. A barber's edge—the keenest cutting edge known—on a safety razor blade.

We talk about it in terms of time, "78 Seconds from Lather to Towel," because you can't shave quick with a dull blade.

Sharpens itself We recommend your using our famous strop for the same reason a barber strops his razor. It keeps up the keenness. It works as a part of each razor—there if you care to use it, or, if you choose, you can just insert new blades as you feel the need. Self-stropping is a patented Valet Auto-Strop feature. It helps to give you the world's fastest shave every day. Try one. It will prove a revelation.

To shave right, you must shave quick. Once over the face, no ofteners. So we've processed a barber's edge blade—the keenest known—to help men do it.

The world's fastest shave! 78 seconds from lather to towel

In a match game between the Postal Service and the Dominion Tax quintettes the teams split even, each taking two points. The former totaled 1,212 and the latter 1,201.

The office staff of the Canadian Fairbanks Morse Company took three points from the shipping staff. The winners totaled 1,096 and the losers 1,060.

ATHLETIC. Fairville Gym. The Fairville Baptist church gymnasium was opened for the season last evening, when officers to conduct the activities were elected as follows: Honorary president, Rev. C. T. Clarke; president, J. Fox; vice-president, Miss Lillian Finley; secretary-treasurer, Byron Linton; member of executive, Miss Edith Carvell.

Healey Defeats Lyman. Halifax, Nov. 23.—Nedder Healey, welterweight, who recently entered the pro ranks, knocked out Harry Lyman of Moncton here tonight in the eighth round of a scheduled ten round bout.

Healey had the bout well in hand all through and dropped Lyman in the second, sixth, seventh and eighth rounds for counts of nine each time. Lyman, however, gave a great exhibition while on his feet and won many supporters and a good hand at the finish by his gameness. He handed out some stiff punishment to Healey and at times shook him with right hooks to the jaw.

at the end of their ten round bout here last night. The men are middleweights. Offer to Willard. Los Angeles, Nov. 23.—Jess Willard, former heavyweight champion, has received an offer of \$20,000 from Charles Murray, boxing promoter, of Buffalo, N. Y., to meet Floyd Johnson in that city the latter part of January, according to Gene Doyle, Willard's local representative. Willard has taken the matter under advisement, Doyle said.

WRESTLING. Zbyszko Defeats Cyclops. Stanislaus Zbyszko defeated Cyclops, European champion, in Springfield, Mass., last evening, taking two out of three falls. Cyclops won the first fall in twenty-nine minutes with a flying mare. Zbyszko won the second in eleven minutes when Cyclops hurt his head. As he was still dazed he was an easy victim in the third.

BASEBALL. Chance and The Red Sox. New York, Nov. 24.—Frank Chance has bought no interest in the Boston Red Sox. H. H. Frase said last night in denying a report from the Pacific Coast that the former manager of the Chicago Cubs and the New York Yankees had obtained an interest in the club and would manage the team next year. The Red Sox owner said there was none for sale.

Fraser added he had been negotiating age his club but no decision had been reached.

REMARKABLE LETTER. Canadian Woman Recommends Lydia E. Pinkham's Vegetable Compound. Winnipeg, Manitoba.—"I can not speak too highly of what Lydia E. Pinkham's Vegetable Compound has done for me. I was a nervous wreck and I just had to force myself to do my work. Life was a misery. Even the sound of my own children playing made me feel as if I must scream if they did not get away from me. I could not even speak right to my husband. The doctor said that he could do nothing for me owing to my condition, but told me to expect another miscarriage. My husband's grandmother advised me to take Lydia E. Pinkham's Vegetable Compound. I started it right away and everyone noticed what a different woman I was in a short time. I went and engaged a nurse and he did not know me, I was so well. I was able to do my work once more and it was a pleasure, not a burden. Now I have a fine bouncing baby to use the doctor's own words. I am able to nurse her and enjoy doing my work. I can not help recommending such a medicine, and anyone seeing me before I took it and seeing me now, can see what it does or me. What it has done for me I can do for anyone in the same condition. Angling For Duncan. New York, Nov. 24.—That efforts are being made to induce George Duncan, British open golf champion in 1921, to come to America, became known this week. The Ontario Club, Chicago, of which Robert A. Gardner, former national amateur champion, and U. S. G. A. official, is a member, and of which Willie Hunter, cousin of the 1921 British amateur champion, is professional, is said to be angling for the famous Scottish star who toured America during the last two seasons, accompanied by Abe Mitchell. When Hunter's contract expired recently he was informed that the club was seeking the services of a player of international reputation, the player in question being Duncan. It is not known whether the British ace will accept, as he has been with the Hangar Hill Club of London for the last fifteen years, and is well enough endowed with worldly goods to make even the most flattering terms unattractive.

FIRE KILLS WOMAN IN OXYGEN ROOM

Patient Burned to Death at Rockefeller Institute—A Spark from Electric Motor Starts Blaze.

New York, Nov. 23.—Flames spreading from a spark in an electric motor used in a special oxygen room in the hospital of the Rockefeller Institute of Medical Research at Sixty-sixth street and Avenue A caused the death of an unconscious woman patient undergoing treatment in the room for the last stages of pneumonia.

At the Rockefeller Institute at 6:35 o'clock on November 17 are as follows: "There was constructed three years ago a chamber in which a higher percentage of oxygen, about 40 per cent, than is contained in the atmosphere air can be kept constantly. This chamber has been used successfully in saving the lives of patients suffering from pneumonia in the advanced stages of the disease. In this instance, a patient was in the chamber, but dying; with her was Miss Dorothy Pine, a trained nurse, and Miss Anna Dalen, night supervisor, stationed outside the chamber.

comfortable silence in the court. Eventually a policeman was sent for. The officer requested Close to leave, but he did not obey. Then the policeman walked out, and waited outside the court. Close at length went out of his own volition, saying he was coming again. The chairman of the commission made the remark, "For the information of the press, Mr. Close has had a full hearing before Mr. Justice Sargent, and this is not the first time he has made applications to be heard."

What Mr. Close Claims. Early in the war, it appears, Close wrote to an official of the Admiralty making a suggestion that the position of submarines might be ascertained by running a string of nets around the fleet. Through the nets should run an electric wire, the idea being that when a submarine hit the wire its position could be detected with the help of a dynamometer.

Crowds Flock to British Church to Obtain Blessing and Health.

London, Nov. 1.—(By Mail)—The Norwich correspondent of "The Westminister Gazette" reports some remarkable scenes in St. Martin-at-Palace Church, Norwich, when the Rev. John Willard, warden of the Spiritual Healing Fellowship, opened a mission of healing. A constant stream of crippled and sick people passed up to the communion rails, where he and the vicar,

the Rev. R. C. Griffith, placed hands on the sufferers' heads and recited a blessing.

Among the seekers of relief were people of many social grades and the congregation included several medical men. Mr. Maillard said he was not preaching a new religion but a new faith in the old religion.

Close claimed that the Admiralty had worked upon his suggestion. His claim was heard in December, 1919, before Mr. Justice Sargent, Lord Raleigh, Sir James Dobbie, and Mr. Robert Young, M.P., who were satisfied that his suggestion had not been acted upon, and therefore he was not entitled to an award.

Ten Commandments to Be Filmed.

The Ten Commandments will be the basis of a dramatic motion picture to be made next year by Cecil B. De Mille, according to an announcement from the Famous Players-Lasky Corporation, of which Mr. De Mille is director general in association with The Los Angeles Times. Mr. De Mille recently conducted a picture-idea contest, a first prize of \$1,000 being offered to the person submitting the best idea. One of the contestants received \$1,000, it is reported, for suggesting the commandments. Seven others were also awarded \$1,000 each for ideas which Mr. De Mille found acceptable.
