LLOYD GEORGE AND BRIAND SAID TO BE IN DEADLOCK

Disagree on Course to Follow With Germany

Italy's Minister Seeks to Bring About Compromise But Without Success—Allied Council Takes up Critical Austrian Situation.

Paris, Jan. 25.—Conditions in Austria, which are described as "critical" were considered by the Supreme Allied Council, in session today. The possibility of an utter collapse of the Austrian government, with the attendant danger of anarchy and bolshevism, has been before heads of the Allied cabinets for several weeks, and the necessity of stabilizing affairs and giving Austria a chance to work out of her destiny was approved when the morning's sitting began.

While the representatives of Great Britain, France, Italy, Belgium and Japan examined reports on the situation concerning Austria, allied military experts were formulating a report on the disarmament of Germany and the recommendations for the execution of German commitments in this particular.

It was expected yesterday that a settlement of the disarmament question would be quickly realized, but French newspapers assert that wide divergence of opinion developed between Lloyd George, Premier and the Allied experts. Decision has been reached by the experts that May 1 must be the limit of time given Germany in which to disarm her military organizations and surrender to the Allies the arms which the Versailles treaty provided should be given up.

Lloyd George, it is asserted, however, declared yesterday that Germany had already done so much that there was no longer any danger to the Allies. He is said to have asserted that the Allies should also consider the danger, internal and external, to Germany from bolshevism, and that May 1, was a particular time when the Russian Soviet armies were most to be feared. He advised, therefore, that it would be better to allow the plan adopted at Spa, and have the Germans before deciding this question.

Mr. Briand is said to have flatly refused to entertain this suggestion whereupon Count Sforza, Italian foreign minister tried to bring about a compromise between the views of the British and French leaders. He proposed that the conferences on a programme and then ask Germany to make any observations she desired.

Neither Lloyd George nor Mr. Briand would agree to this plan, and as a way out of the deadlock, the military experts were asked to make another report on the subject.

Lloyd George and Mr. Briand apparently are seeking to compose their differences in views relative to German reparations before this important topic is discussed by a full session of the council. They appear to be apart on the subject of at once fixing the amount of indemnity Germany must pay, or of leaving the exact amount for future determination and it is indicated that the problem of reparations may not come before the council for several days.

Paris, Jan. 25.—An unsuccessful attempt was made today's session of the Allied supreme council to turn the Austrian financial problem over to the League of Nations.

The Allied conference this afternoon took up at once the Austrian situation. They gave a hearing to the Allied financial experts who had attended the Brussels financial conference, but no Austrian experts were called in. It was found the opinions of the various delegates in the conference were so divergent that a proposal was made to place the matter in the hands of the league of nations. This, however, was rejected.

It was understood this morning that the French and British military experts had reached a complete agreement on the report to be made by them on the disarmament of Germany. They were asked to prepare such a report after yesterday's discussion in which wide divergencies of opinion developed among the Allied conference.

At this afternoon's session the question of Greece, in her relation to the Near Eastern settlement was on the programme for the supreme council's consideration.

GEDESSES IN PARIS.
Sir Auckland Geddes, British ambassador to the U. S., called home from Washington recently for conferences, arrived in Paris this morning to confer with Lloyd George.

WANTS THE NAME.
The mayor received another anonymous letter this morning, and it is reported in his waste basket. The communication was from a lady who complained regarding the increase of rents this year. The mayor said that he would be glad to take any action he could on letters received by him signed by the writer. Otherwise the city would receive no attention.

HYDRO-ELECTRIC MATTERS.
K. H. Smith, chief engineer of the Nova Scotia hydro-electric commission and resident engineer of the Dominion water powers branch, with headquarters in Halifax, passed through the city today on his way to Ottawa on business connected with the water power development in the lower provinces. While here he was in consultation with C. O. Pegg, chief engineer of the New Brunswick electric power commission.

FALL TO BOTTOM OF DEEP DIGESTOR AT THE PULP MILL

Andrew Fox and Michael Cullinan of Fairville Were Hurt This Morning.

A fall of more than thirty feet into one of the digestors at Nashua Pulp Mill, Union Point, this morning, caused painful injuries to two Fairville men, which necessitated the removal of one of them to the hospital. That they escaped instant death is considered wonderful.

The digestors are large tanks about forty feet in depth in which the pulp wood is boiled. Andrew Fox and Michael Cullinan both of Main street, Fairville, were engaged in placing a new lining in one of the digestors. They were working on a swinging stage and were about eight feet from the top when the staging gave way and the two men, the stage and a quantity of bricks and other material crashed to the bottom of the tank.

Mr. Fox was the more seriously hurt. He received a broken nose, a broken ankle, cuts in the forehead and face as well as several bruises about the body and limbs and was generally shaken up. His condition, however, is not considered critical.

One of Mr. Cullinan's hands was painfully lacerated, and his wrist and forearm cut and he also suffered bruising about the body. As soon as the accident occurred, Dr. McCarthy, from the D. S. C. R. hospital in Lancaster was called in and rendered first aid. Mr. Fox was removed to the hospital and Mr. Cullinan was taken to his home.

SECOND PAIR-AWAY FROM HALIFAX ON A HIKE ACROSS CONTINENT
Halifax, N. S., Jan. 25.—John and Clifford Behan, father and son, the second pair of hikers to leave Halifax for Vancouver within the last week, started off from the Halifax Herald building this morning. The elder Behan is a former postman. They express confidence in their ability to undertake Charles Burkmann and Sid Carr, the first team to go away, who spent last night at Dorchester, N. B.

MONTREAL STOCK EXCHANGE.
Montreal, Jan. 25.—Very little trading took place on the local stock exchange during the first half hour this morning. ABIBI and Atlantic Sugar were unchanged at 86 and 82 1/2 respectively. Brazilian too, was unchanged at 83 1/2, as was also Laurentide at 84. The only issue to change at all was Nardion, which opened at 137 1/2, after closing at 139 last night.

BOWMAN-JOHNSTON.
This afternoon at 5 o'clock at the home of Mr. and Mrs. A. S. Bowman, 72 Coburg street, when Mrs. Josephine Johnston, 36 Sydney street, was united in marriage to William E. Bowman, also of this city. The ceremony was performed by Rev. Canon R. A. Armstrong in the presence of immediate relatives and the principals were unattended. The bride was attired in a navy blue traveling suit with hat to match. Mr. and Mrs. Bowman will go to Halifax on a short honeymoon trip and on their return will reside in this city.

PURCHASING BOARD.
Mayor Schofield has been advised from Ottawa that the Purchasing Commission of Canada has taken over the duties of the War Purchasing Commission and in future will have control of the purchase of supplies for all the Dominion departments.

Thomas Wright, who is at the General Public Hospital suffering from injuries as a result of a coasting accident at Beaver Harbor, was reported this afternoon to be slightly improved.

CUT IN GASOLINE AND ALSO KEROSENE PRICE IN CHICAGO

Chicago, Jan. 25.—A reduction of two cents a gallon in the price of gasoline was announced here today by the Standard Oil Co. of Indiana, as a result of decreases in the price of crude oil.

At service stations the price dropped from 29 to 27 cents, and from tank wagons from 27 cents to 25 cents. Kerosene was cut from 16 1/2 to 15 1/2 cents a gallon.

MARITIME RAIL CO. STAYS IN
So Says Advance Word About British Empire Steel Corporation.
Montreal, Jan. 25.—Roy M. Wolvin, president of the Dominion Steel Corporation, returned to Montreal this morning, after his trip to London with J. A. MacDougal, president of the N. S. Coal and Iron Co., in connection with the revision of the British Empire Steel Corporation scheme.

Mr. Wolvin is expected to make a statement in a few days announcing that the new corporation will simply consist of Dominion Steel, N. S. Steel and Iron, Halifax Shipyards, and the Maritime Rail Co. of St. John, and that all the other companies whose shareholders voted to join it will not be taken in.

They are the Canada S. S., the Collingwood Shipbuilding Co., and the Davis Shipyards at Lewis.

HIGHER FERRY TOLLS UNDER CONSIDERATION

Matter Being Looked Into at City Hall—Will Likely Affect Transients Only—Possibility of Change of Boats.

There is a possibility of the question of an increase in ferry rates being taken up again by city hall, so Mayor Schofield said this afternoon. He said the matter was now under consideration and although no definite plan had been outlined so far, the matter of leaving the regular passenger fares as at present and increasing the rate for transients was being looked into.

The mayor was of the opinion that regular patrons might be allowed to purchase season tickets covering a certain period at rates about the same as at present, and occasional passengers charged at the advanced rates in cash tolls.

He said that he was also looking into the possibility of changing the boats around to economize in fuel. One of the boats burns but six tons a day, while the other about twice that quantity. He thought that some more economical arrangement could be made, even if it meant the selling of one of the boats and the acquiring of a smaller craft to replace it.

A FISHERIES COLLEGE TALKED OF FOR BOSTON
Boston, Jan. 25.—Whether the old site of the New England seaboard can be taught new tricks by the application of scientific research to the fisheries that have brought fame to Gloucester, Cape Cod and this port, is one of the things to be considered by the administrative committee of Massachusetts Institute of Technology in connection with a proposal to establish a fisheries college here.

The committee will have before it for consideration a report by Prof. S. C. Prescott of its staff, who has just returned from the Pacific coast where he made a study of a fisheries college operated in conjunction with the University of Washington.

He had been sent there by local fish interests. The college if instituted probably would be operated in conjunction with the fisheries of this port and Gloucester.

ONTARIO MILLS OF CANADIAN COTTONS
Cornwall, Ont., Jan. 25.—The three local mills of the Canadian Cottons, Ltd., the Stormont, Canada and Dundas branches—in common with all the mills operated in Canada by the company, went on a reduction of 12 1/2 per cent in all wages, yesterday.

Canada and Canada mills have been operating only four days a week for several weeks. So far the Dundas mill has not been affected by the reduction in working hours, but all three come under the reduced wages.

About 1,500 operatives are affected.

As Hiram Sees It

"Hoot, mon!" said the Times reporter to Mr. Hiram Hornbeam. "I'll no deny it," said Hiram. "Aren't these Scotchmen lucky beggars?" said the reporter of the hospital lanes. "Ay," said Hiram, "the deil tak them—they frosted my ears the day." "Now if any of the rest of us wanted a cold snap," said the reporter, "we couldn't get it—we'd get a wetting." "I wudna say," quoth Hiram, "that the deil has too dry a spell—ye ken." "Hoot, mon," said the reporter. "Soopt'er up!" said Hiram. "I'm thinkin'," said the reporter, "there'll be muckle din at the risks the day." "Nae doot," said Hiram. "Ah'll be there mesel' part of the time." "Will be meson an' stane?" queried the reporter. "Na, na," quoth Hiram—"but for the glory of Bonnie Scotland. Come away, Hiram, that doctor's diagnose as sleeping sickness. He was taken to the hospital on Saturday afternoon. He has been ill for some time, although he had kept at work. This is the third case of sleeping sickness reported in the border cities."

O., chief of the general staff of the Canadian militia, left this afternoon on the early train for Montreal to make an official visit to military district No. 4. During the morning he was at local military headquarters. His visit to this district was very satisfactory and he was pleased with the showing made by the various units and particularly impressed with the interest by the officers for men joining the forces. He heartily endorsed the action of the officers in encouraging bowling and various kinds of sport during the winter months.

ATHENS, GA., HAS A GREAT FIRE

Four Million Dollar Loss When Three Business Blocks Are Burned.

Athens, Ga., Jan. 25.—A large part of Athens' downtown business district was a mass of smouldering ruins today as the result of a fire which, early this morning, swept clean three entire city blocks and damaged adjoining buildings. It is estimated the damage to property amounts to at least \$4,000,000. No loss of life was reported.

The fire, of undetermined origin, broke out a little before midnight and it was five hours later before the combined efforts of firemen from this and nearby cities succeeded in getting it under control.

Rapid spread of the blaze was said to have been due to the explosion of gasoline drums in a downtown building. This scattered the flames beyond control.

Hundreds of persons struggled to save property; wagons, trucks and even wheelbarrows were loaded with merchandise and furniture taken from stores and offices.

Adding to the confusion and difficulties was a weakened water pressure at the fire plugs but this soon was overcome when extra facilities at the reservoir were brought into use. It was daylight before the conflagration was safely under control.

IN NEW HAVEN.
New Haven, Conn., Jan. 26.—Fire which destroyed the building of Mendel and Freedman, a department store in Chapel street, and spread to several adjoining structures early today did damage estimated at \$1,000,000. The fire was under control at four o'clock after three hours of hard fighting by the firemen in zero temperature.

JAPAN READY TO CONSIDER IT
Restriction of Armament, However, Not Thought Matter of Early Action.

Tokyo, Jan. 25.—Restriction of armaments will be considered by the Japanese government, should it be proposed by another nation but little hope is held out by Viscount Uchida, foreign minister, that there will be any immediate movement toward disarmament.

The foreign minister was interpellated in the lower house of parliament by members of the opposition, and admitted that the limiting of armaments was being discussed by the powers.

"Some practical men abroad, however," he said, "do not approve of immediate disarmament, although they agree in principle. The existing German situation is one factor which prevents a complete agreement on the subject. Japan's naval policy is not one of expansion but is one that cannot be avoided in the interests of self-protection."

"Japan, however, is ready to consider the subject of curtailment in order to assure world peace in case any power should make such a proposal."

MISS G. A. BOYCE SEVERELY BURNED

Clothing Caught Fire in Her Home in Sydney Street Last Evening.

Miss G. Annie Boyce, of 123 Sydney street, lies in a critical condition in the General Public hospital as a result of burns received in her home last evening. Her face and body were so badly burned that it was necessary to cut the clothing away from her.

As she was alone in the house at the time the accident happened, very little is known as to how it occurred, but it is thought that she was lighting a fire in a small stove in the living room when her clothing caught fire. Her predicament was discovered by some of her neighbors, who called in Dr. Mary E. McLeod, of Leinster Hall, who rendered first aid and had the unfortunate woman removed to the hospital. It was reported at the hospital this afternoon that little hopes are held out for her recovery.

SAYS METHODIST MINISTERS PREACH LESS; LIVE LONGER
Boston, Jan. 25.—Methodist ministers live longer nowadays because they preach less, said Bishop Edward Hughes, at a meeting of the inter-denominational institute of evangelists yesterday. He said the increase in their years became marked about the time that intensive church evangelistic campaigns began to decrease. The bishop argued the need for the aid evangelistic campaigns with a sermon every night as the only solution for present day problems.

KINGS COUNTY COUNCIL MEETS

Suggestion That Three Days be Given to Session to Prevent Hurrying Business.

(Special to The Times.) Hampton, N. B., Jan. 25.—Remuneration for grand jurors and matters in connection with the municipal home were the principal matters under discussion at the semi-annual meeting of the Kings county council which opened in the court house this morning.

A letter from John G. Belyea of St. John was read asking the council to put in operation the Housing Act. He asked that a committee be appointed so that the county could get the benefit of the act.

The warden announced that the committee for this year would stand the same as last year, with the exception that Sheriff McLeod would be added to the building committee.

The secretary read the report of Councillor Sharp and E. A. Schofield with reference to the balance of the patriotic fund. They reported that they had called on the premier and he recommended that the balance, amounting to more than \$7,000, be paid to the finance minister at Ottawa by the county secretary.

Councillor McAuley of Studholm said it looked as though the county had paid more than its share.

The secretary said the committee did not think the government's demand was right. It had insisted that the amount be paid.

Councillor Gilbert of Rothery moved that the report of the committee be adopted. This was seconded by Councillor Pearson of Sussex and carried.

Councillor McKenna of Sussex brought up the matter of fees for grand jurors. At present they get no remuneration, not even travel expenses and moral.

A motion by Councillor Seider, seconded by Councillor MacVey, that fees for petit jurors be \$3 and ten cents mileage was lost.

The secretary of the Kings county home read the annual report of the home. During the year there were 28 inmates and of this number five had died.

The report of the almshouse committee was read and the meeting adjourned to this afternoon.

GOOD THINGS COMING TO THEATRES OF ST. JOHN.

GELLI TROUPE FROM PARIS AT OPERA HOUSE

Will Present Big Comedy Acrobatic and Risley Offering—Good Music, Comedy Skit, Etc.

The new programme in the Opera House tonight has as a feature attraction the Gelli Troupe, an artistic class of artists, who are coming here direct from the Alhambra Theatre, Paris, with a big comedy acrobatic and risley novelty; Alice Remsen, an artist character singing comedienne, will also entertain; Pierce and Goff will present a high class musical offering of real merit; Mackie and Walker will appear in a riotous comedy singing and dancing act; while Fielding and Boomer will present a novelty comedy skit entitled "In Everybody's Home." There will also be another episode of "The Veiled Mystery," a motion picture serial featuring Antonio Moreno.

INTRODUCTION OF BROWN TROUT

Meeting Passes Resolution Asking Government to Stock Loch Lomond.

At a meeting last evening of the Commercial Club and local anglers, held in the G. W. V. A. hall, a resolution was passed recommending that the Dominion government be requested to take steps to stock Loch Lomond with European brown trout.

The meeting was presided over by C. H. Peters, other on the platform being H. R. McLellan and G. Sinibaldi. Mr. Peters said that while there were not enough members of the Commercial Club present to take action at a meeting of the club, the executive had promised to back up any resolutions proposed at the meeting with a warning and Mr. Sinibaldi then took the floor and said that he appeared before the club at the suggestion of Hon. R. W. Wignmore, minister of fisheries and inland revenue, who advised him to get the backing of the club in his efforts to have Lee Lomond restocked.

He told of the popularity of fishing in the lake, but said that it had been fished out. In reading a report of the State Commission of Wisconsin, Mr. McLellan said that in that state 100,000 to 200,000 a year had been put in the streams. These fish grow to be a large size and are good table fish. Mr. Sinibaldi said it was hard to get the fry of the brown trout, but the suggestion was to stock the lake for three years and he thought the result would be beneficial to all anglers, as the brook trout were dying out in all parts.

It was moved by K. J. MacLennan and seconded by LeBaron Wilson that the Dominion Government be requested, through the St. John representatives, to take up this matter and press for the experiment to be made and have fry and eggs procured to stock Loch Lomond, and also that a copy of the resolution be sent to Hon. R. W. Wignmore. The resolution was unanimously carried. A resolution moving that a vote of thanks be tendered to Mr. Sinibaldi also was adopted unanimously.

A BOY WITNESS AT MURDER TRIAL

St. Scholastique, Que., Jan. 25.—(Canadian Press)—Paul Hecko, a sixteen year old boy, arrested in Hamilton in connection with the accidental shooting and death of a boy, Camille Godin, early last year, was the principal witness yesterday in the trial of Armand Beauregard, who is charged with the murder of James Brooks, at Montfort, in December, 1919.

CIRCUIT COURT

A case in which Miss Frances Tibbitt is suing George A. Cameron for \$10,000 for injuries to her ankle sustained in an automobile collision will be heard on the opening of the circuit court on Feb. 2. Another case arising out of the same incident was taken up yesterday. This is a case in which Sir Douglas Hazen is suing the same defendant for \$1,000 damages in compensation. Dr. J. B. M. Baxter, K. C., appeared for the plaintiff together with C. F. Inches. The defendant was represented by H. A. Powell, K. C., and C. J. Melliday. After some argument between counsel it was decided that the cases should be taken up together.

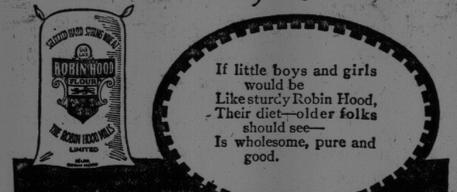

In the case of Spencer against Tennant which is an action for \$500 by F. G. Spencer against W. B. Tennant the matter was settled out of court. H. A. Porter acted for the plaintiff and Dr. F. R. Taylor, K. C., for the defendant.

A DELIGHTFUL CONCERT BY CITY CORNET BAND

The City Cornet band scored a decided hit in St. Vincent's Auditorium last evening when they rendered compositions from famous masters in a manner which won commendation from all present. It was their third concert of the season and is reputed to have eclipsed their previous efforts. Their band numbers were a real treat and it was evident that all had spared neither time nor effort in an endeavor to make it a success. Their good work reflects credit not only on the individual players, but also on Bandmaster Frank Waddington, whose untiring efforts were undoubtedly

ly to a great extent responsible for the success achieved. Mrs. Blake Ferris sang several solos and her beautiful, melodious voice was never heard to better advantage. She never failed to make a beautiful harmony and in addition was literally "showered with plaudits." Paul B. Cross also made a decided hit. The Moore brothers sang several numbers and their harmony was exceptionally good. On the whole the programme was a most enjoyable one.

Be Suspicious of Tender Gums

Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhoea—an insidious disease of the gums that destroys the teeth and undermines bodily health. Gradually the gums become spongy. They inflame, then shrink, thus exposing the unenameled tooth-base to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system. Medical science has traced many ills to these infecting germs in the gums weakened by Pyorrhoea. They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions. So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Pyorrhoea (Riggs' Disease) if used in time and used consistently. And in preventing Pyorrhoea—it guards against other ills. Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps them white and clean. If gum shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 35c and 60c tubes in Canada and U. S. A RADICAL PROPOSAL

The Independent Labor Party of Ontario has adopted a very radical programme. It would revolutionise the system under which modern industry is carried on. Its plan calls for the submission of the fullest information regarding the business of any industry, including investment, profits and everything else, to the employees, on the ground that the product of the industry is jointly created and the workers should be in a position to know every detail concerning it as fully as the owners of the plant. Under the proposed system the individual or corporation hiring employees to the number of ten or more would be compelled to take all of them into a full partnership so far as information regarding the enterprise and to the fact that all books and documents in industrial organizations are now regarded as "private records of the capital investing class," proceed as follows:

"Therefore, We, the accredited representatives of the working class democracy of Ontario in provincial convention assembled, declare ourselves in favor of the enactment of such legislation as may be needed to make effective the following principles: "1. That in all, and any, industrial organizations for production, transportation, exchange, and distribution of commodities where ten or more citizens of eighteen years and over are associated as employees; the books of records, and of accounts, in which are kept the details regarding investments, purchases, sales, production, wages, salaries and bonuses, profits, dividends, commissions, etc., and other particulars, showing the results of associated labor of both brain and muscle, shall not be legally recognized as the private property exclusively of the class of investors, owners or directors of such industry, but shall be legally recognized as the common property of the whole working democracy engaged permanently in such industry, without regard to class distinction as between employers, and employees, who jointly create the product.

"2. That true copies of all reports of production, sales, and distribution of products or losses, as made by the accounting department to the directors or management executive, be placed on file available for the information and guidance of the whole working democracy and it shall be legally recognized to be the right of every permanent worker in an industry to receive and examine such records of information without regard to class distinction as between employers and employees.

"3. That all the executive powers of the state, civil and military, shall be expected to enforce the equitable rights of the working class democracy against any minority which obstructs its demands for light and records containing information in regard to its own productivity, as set forth in principles 1 and 2. Further, it is declared that no legal right to use the executive powers, either civil or military, shall be recognized in law granted to representatives of the employers' class against the natural rights herein set forth of the working class industrial democracy to see and learn the truth about its own earnings."

The Times asked a manufacturer how he would regard such a system as is here proposed. His answer was brief and emphatic. "I would not," he said, "attempt to run a coffee mill in that way—I would go out and work for somebody else." He pointed out further that there are times in every man's business when publicity would be most injurious, and declared that the proposed system was quite impracticable. Possibly he had in mind the experience of an American company which took its employees into partnership with the result that when the condition of the industry compelled a reduction in wages to keep it afloat the men walked out. They were willing to be partners only when all was smooth sailing. They desired to share the profits but not the losses. And they were free to go elsewhere, while the plant had to remain where it was. No doubt there will be a growing participation by employees in the conduct of industries, but the time is not ripe for such a revolution as the Ontario Independent Labor Party demands.

All the steamship berths in the harbor are now occupied, and there are more steamers than berths. If when the grain conveyors were being extended to No. 15 they had been carried to No. 14, there would at least have been one more grain berth. Why was it not done?

THE BUSINESS OUTLOOK

The National Bank of Commerce of New York gives this hopeful view of the business situation in the United States:—"There is a more confident feeling throughout the country and developments since the first of the year support improved sentiment. The gradual liquidation in many directions has materially lessened the strain on bank resources and the general credit position is improving. However, the importance of export demand in the marketing of many American products makes it inevitable that present unstable financial conditions throughout a large part of the world will be reflected in the United States for some time to come. In addition, the readjustment from wartime price levels to those of a more normal character has been progressive and has affected different commodities in turn. While it has been practically completed in some lines, a further series of readjustments must necessarily occur in others before business can be properly realigned to new conditions and each has its bearing on the entire situation. The effect of these successive readjustments should neither be an occasion of general pessimism nor should undue optimism be engendered by unrelated improvement in special localities or lines of business."

Conditions in Canada should also show improvement soon, or, at all events, there is no occasion for pessimism. The Ottawa Journal gives some reasons for the confidence that should prevail. They are as follows:—"There is less unemployment in Canada today than in any other country in the world. We have less industrial unrest than most countries in the world. The margin of income over output is as great in Canada as in any country in the world. Canadian international trade in proportion to population is the greatest in the world. Canadians, per capita of population, have more money in the savings banks than any other people in the world."

It is well to bear these facts in mind. They are, as the Journal says, cause for thankfulness rather than complaint.

HOSPITAL NEEDS

Ottawa has a hospital problem. The Journal protests against a motion in the city council, calling for suspension of work on a new care hospital and says: "Economy in the civic administration this year is very desirable. There should be no unnecessary or reckless expenditure in current or capital account. But there cannot be a total cessation of expenditure. Certain things have to be provided for. Among the first surely is adequate accommodation for the care and treatment of the sick."

After pointing out that suspension of work would mean loss and trouble with contractors the Journal goes on:—"But of greater importance is the fact that the hospital is needed. The present hospital accommodation of the city is not equal to requirements under normal conditions, and abnormal conditions due to epidemics are liable to occur at any time, as witness the present smallpox epidemic. The question of whether or not Ottawa should have a needed hospital should not rest on the idea of property owners regarding their tax bills. The property owners will not pay for the hospital any more than tenants will pay for it. And they are more liable to oppose the project because, being wealthier in the average than non-property owners, they can afford to go out of Ottawa for hospital accommodation for themselves and their families if it is not available here. The question as to the necessity for and location of a hospital was argued and disposed of long ago."

In St. John the public hospital is continually over-crowded. The conditions here are similar to those in Ottawa. The argument of the Ottawa Journal is as forcible when applied here as it is at the capital. When the Manitoba legislature meets on Feb. 10 there will be four groups in the house. The government party has twenty-one members, led by Hon. T. C. Norris. The Independent Farmers' party is the second largest, with W. M. Robson, M. P. P. for Glenwood, as leader. F. J. Dixon, M. P. P. for Winnipeg, heads the Labor group of ten members, and J. T. Haig, M. P. P. for Winnipeg, is leader of the Conservative party. Two Labor members, John Queen and William Ivens, serving a term in the provincial jail for seditious conspiracy, will be unable to take their seats this session unless granted parole, and their party is demanding. The government is in a minority of the whole house.

It is announced that work on the breakwater extension is to be begun. The citizens would be glad to know when it is to be finished. There are many beginnings in St. John. Then there is the spur from Partridge Island to protect the harbor from southeast gales. When will it be constructed? The Toronto Globe bears that Hon. E. L. Patenaude, ex-secretary of state, may join the Meighen cabinet in an effort to placate Quebec. He has held conference with the premier, who also visited Montreal last week, in the hope, as the Globe correspondent observes, that "something will lead to something."

Rippling Rhymes by Walt Mason. (Copyright by George Matthew Adams.) IN A HURRY. The blithe new year is gaily hopping to join the old years of the past; the days slide by, there is no stopping, our days are much too good to last; soon we must do our Christmas shopping, time goes so fast, time goes so fast! The new year came, with ringlets curly, and on his lips a cheer-up song, that heartened e'en the sore and surly, and showed them that their grub was wrong; but soon we'll do our shopping early—time whoops along, time whoops along! The new year did some whimsies—some bragging about his pep and punch and vim, but soon we'll see his step is lagging, and he'll have spavins on each limb; and then we'll see him sadly dragging his carcass to the boneyard grim. So to the slaughter-house we're sending a little older every day; each flying hour some gray hairs lending to our old domes, already gray, and bringing nearer us the ending of hope and dread, and work and play. Each flying minute makes us older, and plants new ailments in our frames; some new ones makes us older, and plants new ailments in our frames, or gout in feet that now are colder than when they danced in youthful games. Ah, well, goodsooks, we've had our inning, we old, old gents and gaffers gaff, and, like the year, in our beginning, we put up many kinds of hay; and now that our white locks are thinning, we must give youth the right of way.

LOVE'S WIRELESS

Whenever I feel sad and lorn, And naught can wake my mirth; When I can see at eye or ear, No glory on the earth; When everything I do looks wrong, And I am full of doubt; When evil luck seems going strong, I send a wireless out. No apparatus do I own, No battery have I, Yet speedily the call hath flown, And it goes far and high; For battery I use my heart—What care I if you float? With faithful love my only art I send my wireless out. I send it to the friends I love, Who, near and far, love me; And I am full of doubt; It flies o'er land and sea; I feel it go, my courage grow, My faint heart waxes stout; And love once far, the boat I know I've sent my wireless out.

Smile on, smile on, and shake your head; I'm sorry for your lack; I'll well I know the message sped, They send me something back. Though all the world term me insane, Its ridicule should about, Let it shout on, for not in vain I send my wireless out.

Dear God hath made Him wondrous things Above the mind of man, As, billows with fleet and silent wings That men can never see, Love's sweetest blessings none can see, How'er we peer about; And once this faith hath come to me I send Love's wireless out. —Samuel Milnam Peck, in Boston Transcript.

"Do you know, Miss Biggal," said young Sephead, "I've got a great mind to fight you by working the boat?" "A young man like you tried that," replied Miss Biggal, an athletic young woman. "Did it, really? What did you do?" "I swam ashore and notified the doctor."

One day a caller asked for a horse to attend a funeral. "Certainly," said Spencer Spurrus Spurr, and then, forgetting the solemn purpose for which the customer wanted the horse, he added, as was his wont: "Don't ride fast."

"Look here," was the reply from his customer, "I would like you to understand that I shall keep up with the procession even if it kills the horse!" There was a young rounder named Lou, He made up a batch of home brew, He took a wee nip, Just a moderate sip, Funeral, Tuesday, at two. —Boston Globe.

Ms, with a stern look on her face and a cane in her hand, was waiting for Willie. "Ten o'clock struck, then 10:30, even eleven, but no Willie came. Ma dozed in jerks and starts. At last Willie came up the garden path, took off his shoes and softly opened the door. Taking an umbrella from the hall stand, he fled up the stairs. But Ms heard and came up after him. As she arrived Willie scrambled quickly between the sheets and opened the umbrella. "Willie," said Ms, "what are you doing? Why have you brought that umbrella up to bed with you?" "Ma," said he, "I thought there was going to be a storm."

Little Jennie gazed long and thoughtfully at the young man who was calling on her grown-up sister, Maude. "May I climb up on your knee, Mr. Greene?" she inquired at last. "Yes, of course," said Maude, smiling the young man, who wanted to make a bit with the family. "Want to pull my hair—ah?" "No; I want to see if I can find that word," replied the little girl. "What word?" asked the visitor, in bewilderment. "I heard Maude say this morning that if a man ever had the word 'idiot' written all over his face that man was you!"

SOCIAL LEGISLATION

(Guelph Herald) The year 1920 was a prolific one for this country in the matter of social legislation, and the Social Service Council of Canada contemplates publishing a review of legislation of this class. Here is a brief summary.

Ontario—Allowances for women with children, minimum wages for women and girls, the payment of allowances of deserted wives, establishment of technical schools, grants for community halls in rural districts, etc.

Manitoba—Legislation dealing with such matters as mother's allowances, workmen's compensation, a joint council of industry, proportional representation in Winnipeg, legitimization by subsequent marriage, etc.

Saskatchewan—Mother's pension legislation, unemployment allowances, wage act, curtailment of the hours of work in factories, and provision for the special protection of children in industry.

Alberta—A minimum wage board for women and legislation in the interests of children. Columbia—Mother's pensions and special provision for the treatment of sub-normal children.

New Brunswick—Legislation providing for legitimization by subsequent marriage, with extra safeguards regarding the employment of women and children.

British Columbia—Minimum wage law for women in factories and a fair wage law. The above makes a splendid record of achievement for the year, and there is no doubt that, now that the pace has been set, still greater things will be accomplished during 1921.

IS FOUND MURDERED AFTER CHRISTENING PARTY

Springfield, Mass., Jan. 25.—The body of Fictio Bachelors, aged twenty-four, with bullet wounds through the head and stomach, was found in the rear of a house in the Italian quarter of West Springfield yesterday, and the police are seeking Giovanni Scarfo, who, with Barberi, was a guest at a christening party on Sunday night.

DEATH LIST IS TEN IN GASOLINE EXPLOSION

Memphis, Tenn., Jan. 25.—In the explosion of a gasoline tank car which yesterday partially wrecked the oil plant of S. Colyer Reise Co., leveled a block of frame buildings and shook the entire north of the city, ten negroes were killed, a score were injured, some probably fatally. The property damage is estimated at \$200,000.

FOR NATIONALIZATION

London, Jan. 25.—A motion calling upon the mine workers to redouble their agitation for nationalization of the mines was unanimously adopted at the International Miners' Conference yesterday. Representatives of the French and Belgian organizations proposed the motion, which was supported by the German organization.

AUSTRALIAN APPLIES

Ottawa, Jan. 25.—(Canadian Press)—Canadian Trade Commissioner Ross, writing to the weekly bulletin of the department of trade and commerce, states that the exportable surplus of apples from Australia this season is estimated at 2,250,000 cases. He adds that facilities are doubtful. The apple season in Australia commences in September and continues to the end of April.

LANTERN-CAT-FIRE

(Conservation.) A farmer near Swift Current recently lost his automobile and garage by fire. A cat upset a lantern in the garage while the owner was carrying some parcels into the house. In this case experience was a dear teacher. The farmer had probably heard and read many times that it is dangerous to place lanterns where they may be upset, but no doubt dismissed the suggestion as intended only for "the other fellow."

RECENT WEDDINGS

Belding-Semple.
The marriage took place in Boston on Jan. 15 of Elmer A. Belding, son of A. M. Belding, of St. John, and Miss Eva R., eldest daughter of Geo. W. Semple, of the contracting firm of Burns, Semple & Clark, of Boston. The bride is a very talented musician, having studied seven years with Alfred De Volo, and graduated from the New England Conservatory in 1916 with highest honors. Since her graduation she has had a class of seventy pupils, and her recitals have received the commendation of the critics. Her father is a native of Nova Scotia. Mr. Belding went overseas with the 6th C. M. R., was wounded in the third battle of Ypres, which nearly wiped out the old 6th, and later he was one of the original Dumbells, remaining with them until the end of the war. On his return he was for some time accountant for the Soldier Settlement Board here, but resigned to accept a position with the Schofield Paper Company. He removed to Boston last September, where he is with the firm of Charles F. Winter, Inc., a well known brokerage house. Mr. and Mrs. Belding will reside at 65 Wendell street, Cambridge. The bride was in St. John last summer and made many friends, and the friends of both will wish them every happiness.

GIRL FOUND ON GRAVE LOSES HER MEMORY

Florence Barber of Jersey City wandered to Trenton and is in Hospital in Conn.

Trenton, N. J., Jan. 25.—The young woman who has been in St. Francis' Hospital since Wednesday suffering loss of memory became rational long enough to tell the nurse that she was Florence Barber, twenty-six years old, of 69 1/2 Wayne avenue, Jersey city, and that she had been away from home for two weeks. After giving this information, the girl lapsed into a coma again. The police notified the Jersey City authorities of the girl's presence here.

Charles Snyder, caretaker of Mercer cemetery, found the young woman lying unconscious on a grave there Wednesday, and she was removed to the hospital, where she later regained consciousness for a brief time. When hospital authorities and Captain Calliton attempted to interview her the only answer they received was, "I don't remember." Her case is puzzling hospital physicians.

Mrs. Abbie M. Barber, of 69 1/2 Wayne street, Jersey City, whose daughter has been missing for two weeks and answers the description of the girl now in the Trenton Hospital, said she had never heard her daughter had suffered from a nervous breakdown after the death one year ago of a favorite sister. Since that time, Mrs. Barber said, her daughter has been under a physician's care and has suffered several relapses. The girl's grandparents are buried in the Trenton cemetery, Mrs. Barber said.

FRUIT GROWERS ARE FOR PROHIBITION

Says 18th Amendment Increases Demand for Their Products and Vegetables.

Chicago, Jan. 25.—Prohibition finds among its staunchest supporters growers of fruit and vegetables, for they say the 18th amendment has increased the demand for their products enormously.

Five kings of these producing domains and their loyal suites have been in conference in Chicago. They are E. F. Miller, potato king; Wilmer Seig, grape king; J. S. Crutchfield, apple king; A. U. Chaney, cranberry king, and Wm. Newsome, banana king.
Wilmer Seig, grape king, condescended to discuss the effect of the 18th amendment upon his business. "We grape-growers," he said, "go down on our knees every night to bless the Anti-Saloon League and Carrie Nation. Give us another two years of prohibition and we'll be sitting on the world. Amateur wine-makers are buying grapes faster than we can grow them. As things are going now, a grape next year will be worth its weight in gold. A man with a vineyard is better off than the United States mint. Prohibition is a grand thing, and we are for it."

BOOKISH BOYS

The spectacled lad with his burden of books excites parental pride—but a large brain in a weak body is a liability, not an asset. Fewer books, better food, more outdoor play, will make sturdy youngsters out of weaklings. Shredded Wheat Biscuit is the food for growing boys because it supplies all the body-building elements in a digestible form. Most youngsters like its nutty flavor and its crisp goodness.

Two Biscuits with hot milk and a little salt make a warm, nourishing meal for a few cents.

MRS. H. O. PETERS, of Kansas City (Mo.), whose experience with Tanlac has been nothing less than wonderful, declares her husband. After her improvement he takes it himself and his health is also restored.

"One day a friend persuaded my wife to take Tanlac and the results have been nothing less than wonderful. Her troubles have not only entirely disappeared, but she has actually gained twenty pounds in weight and now seems to be in perfect health. She has suffered for eight years with headaches, nervousness and loss of appetite and was in a badly run-down condition. She could not eat much, had pains all through her body and limbs and was so weak at times she could hardly stand on her feet. She was losing weight and gradually getting worse all the time in spite of all we could do.

"After seeing the splendid results my wife was getting I began taking Tanlac myself and before I had finished my second bottle I was eating things I had not dared touch before in a long time. I am now eating just anything set before me and my appetite is fine. I suffered for five years with the worst kind of stomach trouble and nervous indigestion, but it has all been relieved by both one Tanlac a great deal of gratitude."

The above enthusiastic statement was made recently by Herbert O. Peters, well-known citizen of Kansas City, Missouri, residing at 534 Walnut street.

Tanlac is sold by F. W. Munro, and the Ross Drug Co., L. C. Allingham, Campbell, N. B.—(Advt.)

BETTER WORK BY BRITISH MINERS

New York, Jan. 24.—British coal output for the year 1934 approximated 231,000,000 tons compared to 229,000,000 tons in 1933. During the five weeks ending November 19 to December 18, which constituted a test period of output to determine the effect of the miners' higher wages, the weekly production averaged 4,275,160 tons. This is at the rate of 260,758,000 tons annually, allowing for two weeks of holidays in the year.

On this basis of output, according to figures received by the Bankers' Trust Company of New York, from its English Information Service, British miners are entitled to receive during this month an increase of one shilling six pence per day in addition to the two shillings per day granted in adjustment of the recent strike. The January wage rate, therefore, will be three shillings six pence per day above the pre-strike wage which averaged eighteen shillings three pence per day.

Whether the new rate will prevail after January depends upon output during the month. The recent adjustment with the miners provides for a review of production at the end of the four weeks according to excess of output above a rate of 246,000,000 tons annually. This plan of reviewing output and adjusting wages each four weeks will continue until a permanent scheme for regulation of wages is substituted. Such a scheme is to be submitted by the Mining Association and the Miners' Federation not later than March 31.

Increased production has gained the present increase for the miners, because it furnishes Great Britain with a larger quantity of coal for export trade. Mine owners also have a larger share of the excess profits.

DOCTOR ADMITS A DEADLY DRUG GIVEN IN ERROR

Tells of Mistake at Inquest Into Women's Deaths

How He Got Poison—Says He Knew of His Act Immediately After the Deaths Occurred.

(Toronto Globe)

While the inquest into the deaths of Mrs. Emily Bond and Miss Monica Kenney was not completed last night at the morgue, enough was revealed to show that the fatality was caused by a doctor's error.

In evidence last night it came out that Dr. Percival E. Faed had prepared for Dr. John H. McConnell to administer an injection of diarsenol in the same manner in which an injection of neo-diarsenol is prepared. The latter drug is an improved form of the former and does not require preparation other than the addition of distilled water. Diarsenol requires preparation to make it alkaline to conform with the alkalinity of the blood.

"The effect would be very serious," said Dr. George W. Ross, an expert in the two drugs, when asked what the effect would be of injecting diarsenol with merely distilled water added.

"I would say with that dose you would get death every time," said Dr. Brodey, who has charge of the clinic in which such drugs are used at Grace Hospital.

From Dr. Faed's evidence he had gone to Grace Hospital to get the drug and had asked for neo-diarsenol. He had been handed the ampules done up in their boxes. Dr. Faed was certain that he had asked for neo-diarsenol, because he had been using this preparation for the last two years. He was not sure what drug he had secured, because the two boxes were somewhat alike.

Opposed to this statement was the evidence of Dr. Brodey, who had applied him with the drug. Dr. Brodey said that Dr. Faed had asked for diarsenol and he had given him three ampules. He had only diarsenol in his possession. Afterward he said that Dr. Faed had come to him and had secured some neo-diarsenol ampules, and he had returned to the clinic that these were to be used to represent the expended ampules purporting to be the ones given to the unfortunate women in the injections.

Dr. Brodey knew Cause. Dr. Brodey further said he had known of the cause of the two deaths some time ago, because Dr. Faed had practically told him about it. Because of the heavy responsibility hanging over him, he had gone to Dr. W. H. Harris, dean of Grace Hospital, and told him about the circumstances of the case. He said that Dr. Faed had asked him to tell and that he had agreed he would not unless the matter came to a question of sworn testimony.

"This man came in and begged me almost on his bended knees that I wouldn't tell, and I felt that I did not have to tell unless he was giving evidence under oath," said Dr. Brodey. He said further that Dr. Faed had secured some neo-diarsenol ampules from him, but that he had secured these from his own office. The first litigation the crown had of the facts of the case came when Dr. Faed reported the circumstances to Governor George W. Graham at the time of what had happened.

When Dr. Faed gave evidence he was plainly under severe mental strain. Once during the course of his evidence he had to stop, to have a glass of water brought to him. He told of securing the ampules at the hospital because the doctors secured a 20 per cent. discount there and because he had secured the drug there previously. He said he had used neo-diarsenol for about two years in hundreds of cases, but that previously he had used the other drug and was quite familiar with its preparation. He had prepared the diarsenol as he would the neo-diarsenol, thinking that he was using the latter. Dr. McConnell would not know because the drugs looked alike and he merely received the syringe prepared for injection.

When He Discovered Error. "When did you first know that you had made the mistake?" asked one of the jurors.

"After Mrs. Bond had passed away," said Dr. Faed.

"How did you discover that?" the juror inquired.

"I looked at the tubes," was the reply. "I had previously been told that the bottle in which was enclosed in a box longer by about an inch and that the

I had tried every salve and skin soap that money could buy but I was unsuccessful. ZAM-BUK proved the very treatment I needed. I used Zam-Buk Medicinal Soap for bathing, and afterwards applied the Zam-Buk cream in liberal quantities. Soothing and comforting, this treatment soon brought amazing improvement. Persistence with Zam-Buk resulted in my skin being completely cured."

label on one ampule was green while on the other it was black, and I saw that the tubes?" asked Major Eric Armour, crown attorney. "I threw them out," replied the witness. "Do you understand you elected to say that you threw the ampules away after you knew there was something wrong?" asked a juror.

"Yes, I was rather mixed up, confused and upset. I didn't know just what to do," replied Dr. Faed.

A Deadly Preparation. In response to questions by Major Armour, witness said there was no doubt that it was the deadly preparation which he had thrown away. He admitted that it was overcome, and that he threw them away to get rid of them.

One of the best known guides in Nova Scotia gives this testimonial of MINARD'S LINIMENT: "I have used MINARD'S LINIMENT in my home, hunting and lumber camps for years and consider it the best white liniment on the market. I find that it cures all kinds of ailments, such as Sprains, Bruises and all kinds of wounds. Also it is a great remedy for coughs, colds, etc., which one is liable to catch when log driving and cruising during the winter and spring months. I would not be without MINARD'S LINIMENT and cannot recommend it too highly."

OUCH! LAME BACK. RIB LUMBAGO OR BACKACHE AWAY

Rub pain right out with small trial bottle of old "St. Jacobs Oil"

Kilneys cause Backache? No! They have no nerves, therefore cannot cause pain. Listen! Your backache is caused by lumbago, sciatica or a strain, and the quickest relief is soothing, penetrating "St. Jacobs Oil." Rub it right on your painful back, and instantly the soreness, stiffness and lameness disappears. Don't stay crippled! Get a small trial bottle of "St. Jacobs Oil" from your druggist and liberally use it. A moment after it is applied you'll wonder what became of the backache or lumbago pain.

Rub old, honest "St. Jacobs Oil" whenever you have sciatica, neuritis, rheumatism or sprains, as it is absolutely harmless and doesn't burn the skin.

COMMON DISEASES OFTEN DANGEROUS

Chiefly Does the Ordinary Cold Require Prompt Treatment.

A cold in the head will sow the seeds of acute disease unless it is treated promptly. Even when the cold does work itself out it leaves the patient weakened and liable to an attack of disease. When a cold in the head appears, check the fever, allay the soreness of muscles and tone up the system to fight the after-weakness. Grip-Fix, a preparation which has been used for colds in the head for years, will do this work, and with wonderful results. It is promptly relieving a cold in a night and a case of grippe in forty-eight hours. In its capsule form the ingredients of Grip-Fix are noted on every box and would be approved by any physician. Sold by all druggists at 35c. a box.—(Advt.)

Piles Cured Permanently Without Drugs

Internal Bathing Relieves the Cause

Mr. A. N. Steele Cuper, Sask., writes: "I had been troubled with my hemorrhoids and Constipation for years until I had become very thin and looked 20 years older. A leading doctor in Regina told me that the main cause was badly ulcered. I gradually became worse, until one day, when purchasing a thrashing outfit from Mr. Russell of Regina, Mr. Russell noticed my condition and said: 'I can cure you. Get a J. B. L. Cascade.' Well, I did so, and the first night I used it I slept all night for the first time in weeks, and in a short time felt quite myself again. It also cured my piles, which had troubled me for years."

If you are troubled with constipation, don't drug yourself. Internal bathing with the J. B. L. Cascade is the only permanent way. This wonderful appliance is the invention of Dr. Chas. A. Tyrrell, New York. It is pleasant and easy to use, and will serve the whole family. It should be in every home. See the J. B. L. Cascade at C. E. Brown's and F. W. Munro's, Druggists, St. John, New Brunswick, where you will be shown and explained to you. Ask for 32-page booklet all about internal bathing. It is free or write Tyrrell's Hygienic Institute, 188 College Street, Toronto, Ont.

HEAVY BANK LOSSES

London, Jan. 24.—The losses of Farrow's Bank, which suspended payment Dec. 20 last, were estimated today to aggregate \$2,800,000 by an expert accountant and who testified in the proceedings against Thomas Barry, which are before the court. The bank, Vice-President Crotch and Director Harthead.

BE PRETTY! TURN GRAY HAIR DARK

Look young! Nobody can tell if you use Grandmother's simple recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Weyth's Sage and Sulphur Compound" you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! You can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Weyth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Striking Argument for Mothers' Allowances

WHY THE STATE SHOULD COME TO THE AID OF THE WIDOWED MOTHER—IT IS REAL ECONOMY.

The following is a portion of an address by William H. Matthews of New York, under the heading: "Shall Widows Be Pensioned?" Those who have been engaged in relief work have learned that, where the income of a family is below a certain point, the family must of necessity deteriorate by reason of insufficiency of food, lack of clothing, improper and unfit housing; that the lack of these elementary yet necessary things will of itself mean dwarfed, stunted, inefficient lives. Food, clothing and shelter are for the poor, as they are for the more prosperous, essential preliminaries to a humanized life, necessary for the maintenance of the functions of the body as a normal state. Any adequate programme of treatment of widows and their children must give assurance that at least his "indispensable minimum" shall be made possible to each and all alike. We cannot reasonably hope for any upward trend in families we would help; we cannot hope for results by way of stronger, more resolute bodies and minds which shall in the children of later years mean a larger initiative, efficiency and productiveness, unless we remove from their lives today that constant crushing anxiety that not only deadens hope and aspiration in the mother's life, but also gradually lays its withering, paralyzing hand on the lives of their children, creating a downward pressure on life instead of an upward energy, sapping and undermining the vigor and hope of every member of the family. Qualities of courage, faith, hope and spirit are not, nurtured in families where continued poverty of life makes it impossible for them to look upon life as the threshold of a better tomorrow. It is to deny that a considerable number of people have become convinced that private relief has failed in its efforts to deal adequately with all families that find themselves threatened with already suffering from such conditions of life, particularly in those homes where stress has crowded and crushed their way

Embarrassing Hairs Can Be Quickly Removed

(Beauty Culture.)

Hairs can be easily banished from the under-arms, neck and face by this quick, painless method. Mix into a stiff paste some powdered delatone and water, spread on hairy surface and in two or three minutes rub off, wash the skin and it will be free from hair or blemish. Excepting in very stubborn growths, one application is sufficient. To avoid disappointment buy the delatone in an original package and mix fresh.

SERIOUS BLAZE

North Bay, Ont., Jan. 24.—A destructive fire started this afternoon in the village of Callendar, about seven miles from this town in some unknown manner and destroyed Wilson's grocery store, Dr. Shaw's drug store and the hydro-electric commission's power line from Nipissing, besides seriously disturbing the service on the telephone party-line. The Pacific Hotel at Callendar caught fire several times, but the villagers managed to save the building.

LURE WOMAN AWAY TO LOOT HER HOME

Broker's Wife in Mount Vernon Gets False Message That Husband is Ill.

(New York Times.) Mrs. William F. Borsdorff, wife of a New York broker, received a telephone call at her home, 692 Lafayette Avenue, Mount Vernon, yesterday morning from a man who said he was a physician and that Mr. Borsdorff had become suddenly ill on the street and had been taken to the "physician's" office at 176 West Seventy-sixth Street. "Don't excite yourself, madam," advised the man in a well modulated voice. "While Mr. Borsdorff is in no immediate danger, I suggest that you hurry to my office to see him." Mr. Borsdorff had started for his office about an hour before the telephone message was received, and the news of his illness made Mrs. Borsdorff so nervous that she failed to ask the "physician's" name. Turning to her maid, Anna Knoch, Mrs. Borsdorff said: "Anna, Mr. Borsdorff is ill in New York. I'll hurry down to see him, and you take care of William (the couple's five-year-old son) until I return." Mrs. Borsdorff reached the West Seventy-sixth street address about an hour later, found that it was a church, and that nobody there knew anything about her husband's illness. She attempted to telephone to her home to make certain of the address, but could get no response. Finds Son and Maid Missing. Convinced that something was wrong, Mrs. Borsdorff returned to her home to find that the maid and her son were missing. She found the house in disorder and that \$1,500 worth of her jewelry including three diamond rings, several scarf pins and a necklace, besides several checks, had been stolen. Search of the maid's room showed that her clothing had not been removed from the closet, and Mrs. Borsdorff concluded that robbers had done away with the maid and her child when they entered the house. She ran to a nearby house to ask for aid when the surprised neighbor said: "Why, Anna brought William to my house soon after you left, and asked me to take care of him until she returned from an errand." The overjoyed mother then clasped her son in her arms. Detectives made an investigation, but could not trace the thieves. Evelyn Northrup, one of the victims of a recent attack, returned home from the hospital on Saturday, after spending

LATCH 23 WOMEN IN FLOATING POOLROOM

Seven Men Also Arrested in Raid on Apartment House.

(New York Times.) Twenty-three women and seven men were arrested at 4 o'clock yesterday afternoon in a raid by Inspector Cahalane in an apartment on the fourth floor of a house in West 129th street, alleged to be the temporary quarters of a "floating poolroom." The women were all well dressed and most of them of middle age. Two or three were past sixty. The raid followed complaints that the apartment had for several days been frequented by crowds of women, who came in and out of the place talking about race horses. One of the complainants was said to be the husband of a woman who had carried a passion for betting on unlucky horses to the point of wiping out a large bank account. After watching the place for some time, the detectives came to the conclusion that the apartment house had been invaded by a "floating poolroom." The "floating" poolroom or gambling resort is a device much in vogue among gamblers now for foisting detectives.

BYRON MANUSCRIPT IS SOLD FOR \$3,300

Books and autographs from the estate of George D. Smith brought \$27,547 at the Anderson Galleries, New York, last week. The highest price was \$3,300, paid by Gabriel Wells for Lord Byron's manuscript of "Sardanapalus," written at Ravenna in 1821, and considered the most important Byron manuscript in existence. Mr. Wells also paid \$610 for Anacreon, one of two copies printed in vellum in 1604; \$2,275 for the rare first Kilmarnock edition, 1789, of "Poems" by Robert Burns; \$475 for Jean Griller's copy of Capella's "Anthropologist" and \$1,500 for Marcella Caxton's "Virginius" 1460. Mr. W. W. Cohen paid \$2,625 for Caxton's "Mirrours of the World" by Vincent de Beauvais, 1400. Dr. A. S. W. Rosenbach obtained Grimm's "German Popular Stories," illustrated by George Cruikshank, for \$800; a letter from Paul Jones to Thomas Jefferson, dated Paris, Feb. 28, 1782, for \$1,075, and Ben Jonson's "King James's Entertainment," London, 1604, for \$470. William B. Hoar paid \$700 for a presentation copy of "American Notes" by Charles Dickens to Professor C. G. Felton. The Brick Row Book Shop gave \$800 for Captain Nathan Hale's manuscript of a poem. J. S. Phelps obtained for \$500 the first edition of "Hesperides" by Robert Herrick. G. A. Baker & Co. gave \$850 for Ben Jonson's copy of Horace. James F. Drake paid \$45 for the first edition of Charles Lamb's "Mr. Ho or Beware a Bad Name," Philadelphia, 1815.

VAGUE RUMOR OF RAILWAY DEAL

Fredericton, Jan. 24.—A vague and fantastic rumor regarding the possible purchase of the Valley railway by the C. P. R. is in circulation here. It is said that the big company is after the Valley road and will not be unwilling to also take over the eastern section of the National Transcontinental, or at least that portion of it east of the Quebec Bridge. Officials connected with the two railways are not doing very much talking on the subject, but it is said the C. P. R. is out for part of the government road and is willing to give in exchange, in whole or in part payment, the recently acquired Dominion Atlantic Railway extending from Halifax to Yarmouth.

Premier Foster, when asked regarding the foregoing despatch last night, said he had never heard of any such move. A. P. Barnhill, K.C., a director of the C. N. R., also said he had not heard of such a thing.

DUSTIN FARNUM IN GREATEST SUCCESS

"Big Happiness," the Robertson-Cole super-special, with Dustin Farnum in the titular role, which topped the bill at the Unique Theatre last night, displays this very capable star at the very height of his career as a dramatic actor. After viewing Mr. Farnum in this picture, his first under the Robertson-Cole banner, spectators will agree that this actor fills a very important niche in the dramatic hall of fame. "Big Happiness" is a big, dramatic story with a wholesome moral. It was adapted to the screen by Jack Cunningham from the famous novel of the same name by the brilliant British writer who signs himself "Pan." The plot treats of twin brothers who love the same woman.

TO DORCHESTER FOR THREE YEARS

In the circuit court yesterday Clarence B. Whipple was sentenced by His Honor Judge Chandler to three years on one charge and two years on the other, the sentences to run concurrently in Dorchester penitentiary, in connection with the verdict found against him recently. He was found guilty of stealing from the C. P. R. Dr. W. B. Wallace, K. C., acted for the crown and J. A. Barry for the defendant. His honor remarked upon the evidence given in the case and said that he was imposing the five year sentence because of the apparent perjury committed. Lottie Golding was sentenced to nine months in jail on a charge of theft, to which she had previously pleaded guilty.

CALL FOR TENDERS FOR BREAKWATER

Hon. R. W. Wignmore, minister of customs and inland revenue, who arrived here in his private car last night, speaking to a representative of the Telegraph, said that the government intends to call for tenders at once in connection with the extension of the Negro Point breakwater. The tenders are for the dumping of 100,000 yards of stone—nothing less than five tons to be accepted—to make the foundation for the core of the breakwater. Mr. Wignmore said that the work would be started on this immediately, the tenders to close in about two weeks' time. The minister's car was attached to the McAdam train, which was two hours and ten minutes late arriving here. He was accompanied by Mrs. Wignmore, R. E. Farnum, the deputy minister, and William Ives, secretary to Mr. Wignmore. The party left Ottawa on Sunday and arrived at Fredericton yesterday, where Mr. Wignmore inspected the local office of the customs and inland revenue department. He said that this inspection was preparatory to the amalgamation of the two departments and he will inspect the other offices throughout the Maritime provinces, leaving for Moncton today, then on to Truro, Pictou, Halifax and Sydney, asking in Montreal and Quebec on the return trip.

CHICAGO'S BILLION DOLLAR TRIANGLE FIGHTER IS DEAD

(Canadian Press Despatch.) Chicago, Jan. 24.—Captain George Wellington Streeter, chief figure in one of the most picturesque legal struggles ever staged in Chicago, concerning the ownership of a parcel of land on the lake front known as the billion dollar triangle, died Saturday night on a houseboat moored at a dock in the East Indian harbor canal, it became known today. It was reported that his widow would continue the fight for possession of Streeterville, or the "district of Lake Michigan," as it was termed by Captain Streeter.

SUPPORTS LABOR

Peterboro, Ont., Jan. 24.—A meeting was held here tonight in the interests of Thomas McMurray, the Labor candidate in the West Peterboro by-election. A feature of the meeting was the presence on the platform of W. F. O'Connor, K. C., who announced his intention of supporting the Labor candidate and opposing the other four candidates now in the field.

Montreal, Jan. 24.—Hon. W. L. Mackenzie King, leader of the Liberal party, met political friends at luncheon at the Reform Club here today. The gathering was quite informal and no addresses were made.

INTERNATIONAL CREDITS.
New Draft of Scheme Suggested at Brussels Conference.
The provisional economic and financial committee of the Council of the League of Nations has recommended to the League a new draft of the international credits scheme suggested at the recent Brussels conference.
The revised plan is given in detail in a copy of the committee's official report obtained by the foreign information department of the Bankers' Trust Company, of New York.
The final text proposes the formation of an international organization through which impoverished nations may, under adequate guarantees to the lenders, secure funds for financing approved essential imports. The essential character of these imports would be determined by their value in leading to restoration of the export trade of the nearby countries.
Assigned assets of these countries appeared at their gold value by an international commission of bankers and business men appointed by the league would constitute the security upon which imports would be financed.
Bonds would be issued against the gold value of these assets to an amount of credits approved by the commission. These bonds would be obligations of the government issuing them and their service would be secured by the revenue of the assigned assets. Administration of the assets for purposes of revenue production would be safeguarded against the possibility of default and loss to bond holders. The safeguards are outlined at length.
It is proposed to have a competent business man appointed, without delay, to work out details of the revised scheme, determine how far it can be applied in conjunction with existing services, and discover the extent to which borrowing countries are likely to avail themselves of the plan. Under certain conditions he would be employed to put some details of the scheme into immediate operation.
The economic and financial committee has decided that there is no special necessity for calling an international conference during 1921 to deal solely with the financial organization to be established by the league, but has not yet decided whether a conference on economic affairs is necessary. It has approved a budget of £20,000 for its own expenses during 1921.

Who Was Responsible.
"Daddy," piped the little darling, "is the sea a mile deep?" Daddy, who was also an editor, glanced up irritably from a huge pile of manuscript. "I don't know," he snapped. "The little one is disappointed. A little later she inquired: "Is the moon really made of cheese, daddy?" Again came the response: "I don't know." Another look of disappointment, another silence, and another question: "Do cannibals use postage stamps?" No less savage than the cannibals themselves was the distracted manuscript reader as he roared for the third time: "I don't know." "Well, I saw, daddy," exclaimed the youthful inquirer, very seriously, who made an editor.

Ever Present.
An English clergyman stopped on the road to speak to a stone-breaker, and remarked that there were a lot of stones yet to be broken. "Ugh!" grunted the man, "they stones be as bad as the Ten Commandments; you can keep on breaking 'em, but you can't get rid of 'em."—Boston Transcript.

GROCERY REPORT FROM THREE CITIES OF THE DOMINION

The markets generally are steady. Some reductions in prices have been made and are more in the nature of adjustment to the lower price basis upon goods that are arriving having been purchased when the markets had declined. The primary markets for some lines show a firm tone. Business in wholesale and retail circles continues to show improvement.

Montreal—There have been through the week much better offerings of live hogs on the market with a smaller demand from the packers. This has resulted in a weaker market with slightly lower prices being quoted. The prices quoted on smoked and cured meats are unchanged. The land market is quiet with only a small demand for supplies, which, in view of the hog market has resulted in easier prices being quoted and a weaker market for shortening. The egg market is steadier with varying prices being quoted.

The butter market is much stronger with an improved export demand and some higher prices quoted on the best grades of butter and cheese. The sugar market shows still more strength this week in view of the strength of the raw market. The refiners are standing together in their quotations. There is no change in the quotations on molasses, but corn syrups are all reduced one half per pound. The market for rolled oats is firmer but there is considerable price cutting among the trade which has resulted in lower prices being quoted in some cases.

Laundry and culinary starches are all reduced one half cent per pound. The reports from the London tea market show new strength in the better grades of tea, and this is reflected in the local market. Laundry soaps are all advanced twenty-five cents per case this week, but soap chips are reduced one half cent per pound. In view of the shortage of supplies of dried fruits and nuts on the market in consequence of the big Christmas demand, these markets are very strong with an active demand. New supplies that are expected are nearly all booked for distribution before they arrive.

Canadian apples have been in such demand for export trade that higher prices are quoted this week, particularly in the quotations on molasses.

CITY OF SAINT JOHN. SEALED TENDERS will be received by H. E. Wardroper, Esq., Common clerk, on forms furnished by the City, endorsed "Tender for hauling 30 inch Cast Iron Pipe from Lake Fitzgerald" until Monday, the 31st day of JANUARY, INST., at 11 of the clock, a.m. for loading, hauling and unloading 30 inch Cast Iron Pipe from Lake Fitzgerald to the "vault" at Little River Reservoir.

The City does not bind itself to accept the lowest or any tender. No offer will be considered unless on the form to be supplied by the City Engineer and to be had in his office. Cash or a certified check for \$100 must accompany each bid, this will be returned to all rejected bidders, but the City will hold the deposit accompanying the successful bid until the satisfactory completion of the work.

Dated at St. John, N. B., January 24th, 1921. JOHN B. JONES, Commissioner W. & S. ADAM P. MACINTYRE, Comptroller.

STOPPED HER HEADACHES

Years Of Suffering Ended By "Fruit-a-tives"

112 Hazen street, St. John, N. B. "It is with pleasure that I write to tell you of the great benefit I received from the wonderful medicine "Fruit-a-tives," made from fruit juices. I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors; but nothing seemed to help me until I tried "Fruit-a-tives."

After taking several boxes, I was completely relieved of these troubles and have been unusually well ever since." MISS ANNIE WARD.

50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

McIntosh Reds, and there is a likelihood that they will be very scarce on this market. Oranges are firm in price with a good supply. Potatoes are a little cheaper this week and the supply is better than was expected some time ago.

Toronto—The improved condition of business in wholesale circles that has been manifest since the opening of the new year is still in evidence. The markets continue to show signs of stabilizing, in fact some lines as tea, coffee, shelled nuts and canned vegetables show considerable strength, and there are indications that these lines of commodities will be advanced in price before the first quarter of the year is over.

Refined sugar is steady and quotations generally are on an equal basis. Raw sugars are holding firm under a fairly active buying movement. It is estimated that the new Cuban crop of sugar will be 8,903,142 tons, although the figure in harvesting the crop caused by unfavorable weather conditions make it impossible at present to give an accurate estimate of what the final output will be.

A slight reduction is announced on corn meal and starches, also some brands soap chips, candles, pork and beans, quick puddings, and prepared icings. Cereals generally are steady, but some quarters rolled oats are offered at a lower price. This reduction on rolled oats, however, is more in the nature of competition among wholesalers than of the actual market value, as mill quotations are holding fairly steady.

Split peas and cracked wheat are shaded about one quarter cent per pound. Rice in primary markets is steady but quotations on spot are being reduced as new shipments arrive that have been purchased on the lower price basis. New prices on prunes are expected to be named by the association about the end of the month; these prices will likely be lower than present. Raisins continue strong with supplies practically all out of first hands. Currants are weak but quotations on spot are unchanged. Beans, holding firm, are in demand at the present low prices. Potatoes, onions and other Canadian vegetables are dull under a small demand.

California vegetables are moving freely at slightly higher prices. The feature of the produce markets is the decidedly firm tone on butter and cheese. Stocks held in Montreal and Ontario are rapidly becoming exhausted, with the result that prices have moved higher. Holding firm, and storage supplies are practically cleaned up. New laids are not yet arriving in sufficient quantities to greatly affect the market.

Winnipeg—Business has been reported steady during the week. Granulated sugar is unchanged but there are indications that higher prices will prevail in the near future. Corn syrups declined 25 cents per case on 2s, and 30 cents per case on the other sizes. Laundry starches declined 1/2 to 3/4 of a cent. Cereals remain unchanged. Shelled walnuts and almonds are fairly steady. Canned goods show no change. Reports from the primary market state that coffee is much firmer. Spice market has also shown a slightly firmer tone. The rice market is reported above in a slight and steady movement. The California rice crop has been badly damaged.

Hardware prices (Hardware and Metal, Jan. 25) Signs of a lack of the hardware business is acquiring a better tone. Orders are coming forward from the trade in large quantities, and the market is indicating careful buying for sorting stock. Steel prices are firm and there is thought to be little chance of any price cutting. The buying movement on broad scale might cause a stiffening of prices. Pig iron has declined but buying has not been stimulated above immediate requirements. The non-ferrous metals are dull, with tin and spelter showing weakness.

Lower prices are quoted this week on rope, wrought butts and staples, strap and tee hinges, shelf brackets, axle grease, cup grease, conductor pipe, castron, ridge roll, conductor chains, cut-trough, wire, cotton twine, sulphite sheathing, wrapping paper, grab hooks, mechanics' vises, pipe fittings, metallic shingles, sidings, ceilings, garages, culverts, roofing, etc. Galvanized sheets are easier in tone. The glass market is unsettled, with lower prices offered.

The paint trade will soon become active and manufacturers, from present indications, are satisfied that the prospects are for good business early in the year. Paint prices remain firm.

MUST KEEP JAP TROOPS IN SIBERIA, SAYS THE PREMIER. Tokio, Jan. 25.—Viscount Kato, opposition leader, yesterday in the Diet attacked the government for keeping troops in Siberia. He declared there was no justification for maintaining Japanese forces there, and that their presence would never result in a settlement of the Russian problem.

Premier Hara in reply said he would withdraw these troops, but that he believed their maintenance in Siberia was necessary in the interests of Japan's national defence.

MAY DIE OF CUT IN SHAVING. Last Rites Administered to Victim of His Own Razor. Bernardo Mannetti, fifty years old, of 22 Mott street, New York, was taken to St. Vincent's Hospital, New York, in a critical condition, suffering from a cut on the throat when he was shaving.

A priest from St. Patrick's church administered last rites to Mannetti, who is not expected to recover.

QUARREL OVER MONEY MATTERS; THEN MURDER. Prosecution's Construction of Case at the Trial of University Student.

Philadelphia, Jan. 25—A quarrel over money matters was assigned as the motive for the killing of Elmer C. Drewes, a Dartmouth College senior on October 17, according to the view of Assistant District Attorney James G. Gordon, Jr., in his opening address to the jury yesterday, when the trial of Wm. F. Brines, a University of Pennsylvania sophomore, who is charged with the murder, was begun.

Drewes and Brines had been friends since their high school days in West Philadelphia.

Mr. Gordon told the court that the prosecution would show that Brines had told various persons of his animosity towards Drewes, and of his intention to do him bodily harm. A jury was selected yesterday and three witnesses heard.

The prosecutor said that Brines had sent a letter to Drewes for the purpose of luring him to Philadelphia to his death, and the remains of the letter had been found in the furnace of Brines' apartments.

SHOW DOMINIONS' GOODS AT FAIR IN SWITZERLAND. Ottawa, Jan. 25.—(Canadian Press)—An exhibition of the British dominions will be held in Lucerne, Switzerland, from July 10 to September 30. The weekly instructor of the department of trade and commerce states that Switzerland is dependent for her supplies on overseas countries. She imports great quantities of cereals, fruits, preserves,

eggs, butter, tinned meats and fish, cotton, wool and other commodities.

Gay Vienna Becomes "Panorama of Misery"

AMERICAN VISITOR RECEIVES SHOCK OF HIS LIFE—SMILES GIVE WAY TO DULLNESS—ENDURE HARDSHIPS TO GET FOOD

(Associated Press Correspondence.) "the panorama of misery," he witnessed Vienna, Jan. 5.—One American business man who has just revisited this city was so surprised at the changes visited Vienna ten years ago when, as that had taken place in the once gay he said, there was "great fun," here, Austrian capital that he declared that Now he has returned and spent about

two weeks, long enough, he says to know what he is talking about. "I never dreamed," said Mr. Barna to an American Red Cross representative here, "that Vienna would show such tragic effects of the war. I have been in nearly every capital of Europe since the armistice, but nowhere have I seen such wholesale misery. Everything is out of joint. Everything is uncertain. Food is scarce, and fuel still more difficult to obtain. I don't suppose anyone can be happy in a sea of misery like this. "Why," he went on, "there isn't a smile, much less a laugh in that crowd," referring to the people passing the hotel in the Ringstrasse. "They seem so sad and dull-eyed, these Viennese, who were so gay when I was here before. "Everybody seems to be carrying something. Those little bundles are scraps of food which they have been given by some more fortunate neighbor or relief agencies. There's a man in a fur coat carrying a handkerchief full of food. He wouldn't be seen doing that when I was here last. He would be too proud." Mr. Barna told of a visit he had made a few days before to the Winerwald, a great forest, an hour's street car ride from the centre of Vienna where he saw a sight which he likened to a nightmare. The people were allowed to go there for food were emerging from the forest, their backs heavily laden with the packs of fuel. Pitiful Procession. "There were hundreds of men, women and children," he said, "their clothing soaked with the cold rain and they were filing along the roadside in an almost

MORNING NEWS OVER THE WIRES

There will be interesting contests for the mayoralty in both St. Stephen and Moncton, the election in the former place taking place Wednesday Jan. 26 and in the latter place Monday, Jan. 31. In St. Stephen the nominees are David Johnson, the present mayor and Thomas Poal. In Moncton the aspirants for the mayor's chair are A. Cavour Chapman, the present mayor and J. Fred Edgett. As a result of the drastic cutting of prices and the consequent heavy buying in the New York, Boston and Chicago markets, some improvement is noted in some industries, particularly the shoe industry. Some of the New England cotton mills have resumed operations. At Ottawa a board of conciliation has been named in the matter of the adjustment of the wage schedule between the Canadian Express Company and its employees. U. E. Gillen of Toronto is chairman, F. H. McLaughlin represents the company, and J. T. Gunn the employees. In an address before the Canadian Club in Montreal on Monday on vice, Rev. Dr. William J. Kerby of the Catholic University of America, Washington, said that imprisonment should be substituted for fines in cases of prostitution. He said ordinary murderers are hanged and why not hang those persons who poison bodies and morals. At the funeral of Hon. A. L. Sifton, secretary of state, at Toronto yesterday,

Lewis Defeats Caddock.
Ed "Strangler" Lewis successfully defended his title as heavyweight wrestling champion of the world by defeating Ed Caddock, former champion, in New York last evening. He secured a fall in one hour and thirty-four minutes with a headlock. Caddock received a terrible punishment with a toe hold, but his champion succeeded in breaking it up with a series of his deadly headlocks left Caddock unconscious on the mat. The crowd were frantic and nearly mobbed Lewis. They were finally quieted by Caddock's manager.

Houlton, Presque Isle, Caribou, Fort Fairfield and Danforth are represented. Fredericton's representatives are T. V. Monahan and J. D. Black. Continuous racing from July 1 until October is planned, and considerably more than \$50,000 in purses will be offered this year. It is said a route can be mapped out with the maximum journey not more than seventy miles.

Winter Races.
Mount Clements, Mich., Jan. 25.—Yesterday was opening day at the winter race meeting at Clinton View Park. In the 2:30 race the early favorite, Allie Clay, was beaten by Nat Ray's good pacer, Wrack. The 2:24 trot went to the Bay City trotter, Allie Pilg. In the 2:15 race a field of nine faced the starter, with Peter Oliver and Altwood alternating as favorites. In the second heat a smash-up occurred, and four horses fell, and Dan M. paced the entire mile without a driver. All the horses were placed, and again an upset occurred at the same place, and the judges again placed the horses. In the final heat only three heat winners appeared, and in a hair-raising finish Gray Eagle managed to beat out Altwood and Peter Oliver.

Will Attempt Ascent Of World's Highest Peak
TOP OF MT. EVEREST HAS NEVER BEEN SEEN BY MAN. SIR FRANCIS YOUNG HUSBAND PLANS CLIMB THIS SUMMER.

New York, Jan. 25.—(Associated Press Correspondence)—Mt. Everest, the Himalayan peak called "the roof of the world" which Sir Younghusband, the British explorer, will attempt to climb next summer, has never yet been scaled by man.
Towering above the frontiers of the hitherto forbidden land of Tibet and the remote province of Nepal, India, another land of mystery, the difficulties in even approaching Mt. Everest have been sufficient to baffie explorers.
The world's highest peak lies in Tibet north of the British Indian border, yet so far as is known, no European has ever approached nearer than 60 miles from its base and few travelers have ever seen its upper slopes.
The attempts which have been made to ascend some of Mt. Everest's sister peaks of the Himalayas have usually been made through Nepal because access to them through Tibet was not open. The approach to Mt. Everest through Tibet is said to be more accessible and present greater prospects of success than from the Nepal side.
Sir Francis Younghusband announced that the Tibetan government had granted him permission to attempt the ascent of the mountain by the Tibetan route. It was Sir Francis, who as Colonel commanding a British mission to the Portholen city of Lhasa in 1908-02, opened Tibet to civilization.
Some More High Ones.
Mt. Everest named for Sir George Everest, famous British Surveyor General of India, is the highest known mountain in the world. Its trigonometrical altitude is 29,002 feet; its probable height is 29,141 feet. The next known highest of the Himalayan peaks are Kinchinjunga, 28,256 feet and K-2, or Bride peak, whose altitude is 28,191 feet.
The intertidal Duke of the Abruzzi, who reached the top of Mt. St. Elias in Alaska (18,024 feet) and who at one time held the record of "farthest north" in Arctic exploration, tried to climb K-2 or Bride Peak, in 1909 but failed because from whatever point of the compass he advanced he could find no way up to attain the summit. At 24,600 feet he and

his companions were in good physical condition although progress was slow and laborious; a thick mist warned them that to go on "would have been madness." This achievement of the Italian explorer, however, is the world's record for mountain climbing. Bride Peak is in the Karakoram Himalayas. Besides it and its two higher sister peaks, there are in the Himalayas no less than 75 peaks above 24,000 feet, 48 above 25,000 feet, 16 above 26,000 feet and five above 27,000 feet.
Mountain climbing is one of the most ancient as well as fascinating forms of adventure. Its chief dangers are avalanches, landslides, falling rocks, blizzards, falling ice, falls from precipices or into crevasses, falls from ice slopes or down snow slopes.

Peaks of Two Women.
Sir Francis' announcement of his intention to attempt this mountain climbing feat recalls the exploits of two American women—Mrs. Fannie B. Workman and Miss Annie S. Peck—and their conquest of some of the highest peaks in Asia and South America.
Mrs. Workman in 1899, 1903, 1906 and 1908 made ascents in the Himalayas, including one of the Nun Kun peaks whose summit is 28,300 feet high, or more than half a mile above the apex of that formidable sentinel of the Alaskan sierras, Mt. McKinley. Miss Peck in 1908 negotiated the top of Mt. Huascarani in the Peruvian Andes, a height of 21,812 feet and three years later she climbed the two peaks of the volcano Coropuna.
Some of the notable mountain climbing peaks of history and the year in which the peaks of the various mountains were attained follow:
1774—the Titus, the first true snow-mountain; 1786—Mt. Blanc's summit reached for first time; 1811—the Jungfrau; 1812—the Finsteraarhorn; 1818—the Zermatt Breithorn; 1820—Fike's Peak; 1824—the Wetterhorn; 1825—the Monte Rosa; 1826—the Matterhorn; 1879—Chimborazo; 1883—the Cordillera; 1888—the Selkirk; 1897—Aconcagua; 1898—the Bolivian Andes; 1899—Sikkim in the Himalayas; 1909—Mt. Ruwenzori. There have been no prominent achievements by explorers since the last named date.

The Rotary Club on Monday appointed seven committees of five each to study and report on the following subjects in relation to this city:—Juvenile Court—A. M. Belding, H. G. S. Adams, Canon Armstrong, E. C. Weyman and K. J. MacRae. Vocational training—Dr. Peat, Dr. Chipman, B. W. Ledingham, H. C. Pags, J. A. Grant. School Attendance—D. W. Puddington, Cecil Mitchell, E. Clinton Brown, Fred Eskin, C. H. Smyth. Boys Clubs—L. M. Farquhar, Chas. Baillie, Everett Hunt, A. F. Blake, Percy McAvity. Summer camps—Hugh Reynolds, Ronald McAvity, Dr. Barton, T. C. Ledingham, H. J. Marr. Boy Scouts—Stanley Webb, R. G. Schofield, Thos. Guy, R. Ingleton, Otty Fraser. Playgrounds—C. A. Conlon, Geo. Hamer, James McMurray, G. N. Hatfield, Reginald Wright.
These various committees will have a meeting, outline their work, and then proceed to gather information on which to report. All these subjects have a relation to welfare work for boys, to which Rotary Clubs are giving much attention. These various committees were named by the boys' work committee, of which Frank Lewis is chairman, and each of the members except Mr. Lewis heads a sub-committee. It is felt that with thirty-five men giving definite attention to different phases of the general subject good results will be obtained.

VERDICT IN GREEK VESSEL CASE
In the matter of Elias and Olga Loupidis vs. the five-masted schooner Calmaris, with auxiliary gasoline power, her boats, tackle and appurtenances, judgment was handed down this morning in the Exchequer Court, New Brunswick Admiralty District, by Chief Justice Sir J. Douglas Hazen. This was an action in rem brought by the plaintiffs' man and wife against the schooner, a Greek vessel, registered under the Greek flag. The male plaintiff claimed a balance for wages due him as cook, and a further amount for damages for alleged wrongful dismissal before the termination of the voyage; the female plaintiff claimed for wages due and a further sum for wrongful dismissal, and also against the captain for alleged assault and battery, and both claimed by way of vicarious a sum of money to enable them to return to Cardiff, Wales.
His Honor found that there was some slight evidence of an assault of a rather technical character and awarded her \$10 in the event of its being found that an action in rem would lie against the ship. The court held that the captain was right in his contention that the female plaintiff had not been actually hired and signed as an assistant cook. Five shillings a month had been mentioned as the sum to which she was entitled, and the evidence showed there was no objection to payment of this sum. His Honor came to the conclusion that the plaintiffs were not wrongfully dismissed, but left the ship of their own free will, and for the same reason that their claim to money by way of vicarious must also fail. He allowed Mrs. Loupidis five shillings a month from her joining the vessel at Swansea until she left her to go into hospital here, and allowed her husband three pounds, which it was said had been deducted from his wages while he was sick at sea. No costs were allowed.
D. Mullin, K. C., appeared for the plaintiffs, and Dr. F. R. Taylor, K. C., for the defendant ship.

MOTHER OF REV. H. A. CODY DEAD
Loretta Augusta, widow of George Redmond Cody, passed to rest today at the home of her daughter, Mrs. Fred Leonard, 5 Clarendon St. She is survived by three children, Mrs. Howard Leonard of this city, Mrs. Howard Leonard of St. George and Rev. H. A. Cody, rector of St. James Church, St. John, also fourteen grandchildren and two great grandchildren. Mrs. Cody was born in St. John seventy-nine years ago, daughter of the late Chas. Doney.
