THE GOVERNMENT MAY RESIGN IF BEATEN ON THIS

Coal Question Scheduled For British Commons Today

Made matter of confidence. Lloyd George rallies his supporters for test of strength on Motion Gowing out of Order Cutting Cost of Household Coal

London, Nov. 28.—(Associated Press)—Debate on the coal situation is scheduled in the House of Commons today following a motion by William Bruce, a labor member, calling for the appointment of a committee to inquire into the cost of production, the output and prices of coal.

It is not believed the government is in any real danger of defeat, but the importance attached to the matter is shown by the decision of Premier Lloyd George to intervene in the debate.

Incidental to this motion and indication of labor's condemnation of the government's action, all members of the miners' federation who held places on the advisory committee of the coal controller resigned yesterday.

In presenting his motion today, Mr. Bruce declared the labor party had been trying to co-operate with the government in a grave and difficult financial problem, but that the government had declined to permit the party's co-operation.

ERECT GROUP OF CIVIC BUILDINGS WORTHY OF FUTURE

Ottawa Architect Would Tear Down Old Court House

"The Site is an Ideal One"—Make Provision For The Whole Group as Part of a Comprehensive Scheme

That it would be difficult, if not impossible, to obtain a suitable building by repairing the old court house, and that a wonderful opportunity would be lost if the city did not take steps to create a municipal and court building on and about the site of the old court house, were included in statements made in a report received this morning from Ross & McDonald, architects, of Ottawa, whose representative was here a short time ago and went into the situation with Commissioner Thornton.

Interesting Matters Discussed at Last Night's Meeting

At a meeting of the St. John Council of Women last night at the home of Mrs. W. B. Tennant, Orange street, the president, Mrs. Atherton Smith, was in the chair. Dr. Mabel Hinington gave a pleasing address on Child Welfare work.

Committee conveners for "Rosebud Day" were then appointed as follows: Refreshments, Mrs. J. Willard Smith;

of Chance Harbor and was the last survivor of that family.

BLOOD THAT IS BLOOD

Any Physician Will Tell You it is Indispensable to Health.

It is required by every organ of the body for the proper performance of its functions. It prevents biliousness, dyspepsia, constipation, kidney complaint, weakness, faintness, pimples, blotches and other eruptions.

IF THIN AND NERVOUS, TRY PHOSPHATE

Nothing Like Plain Bitter-Phosphate to Purify the Blood, Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness and weakness are often due to starved nerves.

ASSAILING MR. VENIOT

In the face of the tribute paid to Hon. Mr. Veniot by the New Brunswick Automobile Association, the emphatic approval and endorsement of his work by the Dominion Highway Commission, and the testimony of the roads themselves, the Standard attempts to belittle what he has done and to break the force of the evidence that this province has at last a real minister of roads with a real policy of improvement. The Standard realizes that when the next appeal is made to the people the contrast between Mr. Veniot's record in road construction and that of any minister under the old government will be one of the most powerful arguments against the return to power of a government led by Hon. James A. Murray. Hence it distorts and denies and misrepresents, in the hope that some reader will be persuaded that Mr. Veniot wastes money instead of improving the roads. The partisanship which withholds all credit from a government for what it has done is not the sort of partisanship that will benefit the people. Mr. Veniot frankly admits that he sometimes makes mistakes, but his record is one of intelligent and zealous labor along approved lines for the betterment of the roads. Perfection is not attainable, but his record as an administrator calls for neither apology nor expense, and that is really what worries the Standard.

MORE ABOUT THE ROADS

"There are no ifs or buts about it—give them the roads and the tourists will come."

These are the words of Mr. A. G. Batchelder, executive chairman of the American Automobile Association, Washington, spoken at the banquet in honor of Hon. P. J. Veniot on Wednesday evening. He added that the last message given him by three prominent Maine men in Bangor the night before was as follows:

"Tell our friends in New Brunswick to put that road from St. John to St. Stephen in first-class condition and we will meet them with a like road from Bangor to the border."

Mr. Batchelder said that the American Association was constantly receiving enquiries as to whether tourists could go from Maine through New Brunswick to Quebec, and the number so coming would depend upon the state of the roads. If assurance could be given that the trunk roads in this province were good roads the tourist motor cars would come in thousands, and they left a golden stream in their wake. His remarks were emphasized by Mr. Percy W. Thomson's statement that it is estimated these tourists left millions of dollars in Maine last year; and that on a certain Sunday five thousand cars passed a given point on the main highway a few miles east of Portland, the number including two hundred cars from Quebec and great numbers from many states of the union. There would be a similar stream of cars from Maine to St. John and on through the province if the roads were in first-class condition. Mr. Batchelder pointed out that despite the great efforts to build roads and attract tourists to other parts of the United States the New England states still get the cream of the traffic, and these provinces can get a large portion of it if they can be advertised as having good roads. Indeed Hon. Mr. Veniot was able to show that a considerable number of American cars came into the province last year, and they are but a small vanguard of an army, that will come when we have smooth roads.

Because Mr. Batchelder was the last speaker, the press reports of his exceptionally bright and instructive address, one of the most interesting heard here for many a day, were confined to a too brief summary. His official duties take him all over the United States and into Canada, and he is familiar with every phase of the good roads movement on this continent. When he stated that a billion and a half of dollars will be spent on roads in the United States next year we can appreciate the significance of his remark that the wave of enthusiasm for expenditure on roads, the states bonding themselves for huge amounts, has reached a velocity that cannot be stopped. To confirm what he said about road construction in Maine and elsewhere we may quote the following from the Augusta correspondent of the Bangor Commercial:

"Four million dollars for the construction of roads will be available in Maine for the year 1920, half of which will come from the state and the other half from the federal government, so it is expected that 150 miles of state highway for which surveys have been in progress for the past two months, will be constructed during next year. These new pieces of road will be so located, that they will largely make connection between sections of state highways already completed. Information recently received at the department from the Bureau of Public Roads at Washington indicates that the expenditure throughout the country this year for hard surfaced highways, exclusive of gravel, sand, clay and similar types, will total approximately \$138,000,000. The largest total amount for like purposes was \$163,000,000 in 1916. Available funds for the year 1920 from state and federal governments now in sight amount to \$638,000,000, which indicates by far the largest

activity ever prevailing in highway construction work in the United States."

Mr. Batchelder gave a very interesting account of the development of road policy in the United States from municipal and state-aided work to the days of federal aid, and the movement now before congress to create a National Highway Commission for the purpose of ensuring great national linkings throughout the republic, linking up on the north with those of Canada and on the south with those of Mexico. He dwelt upon the influence of international intercourse over these roads in bringing about a more general understanding between the people of Canada and the United States; and his eloquent assertion that whatever arguments there might be on varied questions, at bottom the American people fully realize that the Anglo-American peoples must stand together, and the latter take their share of responsibility in regard to world affairs, was greeted with hearty applause.

One of the most interesting portions of the speech of the visitor from Washington was his discussion of the changed attitude of the farmers of the United States toward expenditure on roads. The National Grange is now in favor of a National Highway Commission, and of a national system of roads. The old prejudice against owners of automobiles as seekers after their own pleasure has broken down, for the farmers themselves are users of cars and trucks, and realize the value of a progressive good-road policy. He was sure the same change in sentiment would occur in New Brunswick. In his view property should be taxed to aid in the construction of roads, releasing the funds from automobiles for their upkeep. His whole address, based on a wide knowledge of his subject, was very timely and instructive, and the New Brunswick Automobile Association did the province a good service when it invited him to come to St. John and deliver so stimulating an address on a subject of such great importance.

Major D. King Hazen held the sustained interest of the Canadian Club last evening by a very instructive as well as entertaining address on the subject of The Allies Venture Into Northern Russia. His hearers now understand that situation more fully, and doubtless share his view that the Allies did wrong in withdrawing and leaving their Russian friends there open to attack by the murderous Bolsheviks. It is of course possible that the latter will be kept busy elsewhere, but that will not be due to any action by the Allies. They went to Murmansk to prevent its being seized and used by the Germans. They ought now to protect the people who helped them.

It had been hoped St. John would be well represented at the meeting next week of the maritime branch of the Amateur Athletic Union of Canada, to be held in Halifax, but apparently the delegation will be small. Amateur sport needs a revival in St. John. The Commercial Club must take a hand. All that is needed is sustained leadership by a group of men who are in earnest and have some leisure time to devote to the promotion of clean sport, linking up the various organizations for real team work.

Those who remember when medical inspection of schools was regarded as a fad must derive a great deal of satisfaction from the reports Dr. Mabel Hamilton submits regarding the work now being accomplished. So many children are helped to be more efficient that the economic value of medical inspection is itself enough to justify the expenditure made.

Twelve hundred miles of road in this province were patrolled last year. By degrees all the trunk roads will be thus cared for, and when once put in good condition will be kept smooth by constant attention. That is the only way it can be done, and the patrol system is really a money saver.

Hon. Mr. Veniot will deliver addresses in different parts of the province on the subject of road construction and repair. This is a wise course and will tend to arouse keener interest in the whole question.

St. Stephen is talking about a town manager and a building society as possible developments in that enterprising town. St. Stephen long since put itself on the map by establishing industries whose products went—and still go—to all parts of Canada.

The St. John Council of Women is naturally and deeply interested in child-welfare, and when it makes an appeal there is a wide-spread and generous response.

Canada in 1910 produced 32,469,264 ounces of silver, valued at \$17,280,455, or 63.59 cents per ounce. In 1918 the production was 20,780,000 ounces, valued at \$20,000,000, or 97.10 cents per ounce.

The new premier of Ontario declares that women should be represented on school boards. Experience in St. John upholds this view of the case.

IN THE DEPTHS

The future looks gloomy; my eyes have grown rheumy, from viewing with pain and alarm; I size up the morrow as loaded with sorrow, it hasn't a grace or a charm. Oh, double damnation is more a condition than theory in all I behold; our bulwarks are shaking, palladiums breaking—what wonder my tribulations are cold? For I'm feeling rummy with cramps in my tummy, from eating too largely of pie; the pains of the colic inside of me frolic, and gladly I'd curl up and die. So sadly I'm viewing the future and chewing a rag in a desolate way; and no one who hears me who pauses and hears me, should care seven cents what I say. My message prophetic would be less pathetic if I had no spasm or ache; but gloom is the master of any forecaster who mixed up his pie and his cake. The prophets of evil who spied about weevil when they should be talking of wheat, would doubtless be cheery if they were not weary of pain in their stomachs or feet. The way we are feeling thus governs our spicing, our outlook, and all that we do; a seer can't be sunny, for marbles or money, when he is tied up with the flu.

CANADA—EAST AND WEST

Dominion Happenings of Other Days

THE GREAT FRONTENAC

Among the great names of the pioneer days of Canada there are few more outstanding worth than those of Count de Frontenac, a bold and valiant French warrior and a wise ruler of the new land. He was born in France in 1622 and died on Nov. 28, 1688. At an early age he entered the French army, where he distinguished himself for his heroism and gallantry. One writer says quaintly that he "covered himself with scars and glory." At the age of seventeen he was a cavalry colonel and after only twelve years with the troops he was a lieutenant-general. In 1673 he came to Canada as the successor to Count de Courcelles but after a somewhat stormy career here he was recalled ten years later. In the early years of his administration he built Fort Frontenac—where Kingston, Ont., now stands. Later it was rebuilt in stone by the valiant La Salle. In 1678 he was reappointed governor of the colonies and at once started a vigorous campaign against the English settlement in New York and the Iroquois. The English retaliated and the Indians made several invasions of Canada.

In 1690 he defeated Admiral Sir William Philipps and the English fleet before Quebec. So great was the prestige of his victory that Louis XIV. caused a medal to be struck in commemoration of the brilliant work of his colonial governor. He died in Quebec in 1688 and was buried in the old Recollet church there. He was the delight of the French, the terror of the Iroquois and his activity was recalled only by his courage. When he died the entire French colony mourned long for its great leader and defender.

AT DUSK

The flame-winged Summer doffed her silk and lace,
To play the truant where the sweet bird sings.
The rain beats down with swift and flashing wings
Upon the fields of toil and market place.
Wings of the night beat 'gainst the dark'ning sky
The town is still—the bird no longer sings—
Yet—all my life is full of whisperings
From the soul of life, that calleth up the day.

The house is full of memories today
Of sumptuous Summer, tossed by wind
and rain—
She wandered far when all her flowers were slain—
Deserting Autumn fields of brown and gray.

His—are the fields that creeping dusk enwinds
Ours—the broken dreams by many winding streams
His—the living breath that ever stirs
gleams
Through rose-flushed morning and the evening wind

ST. DAVID'S TEA AND SALE GREAT SUCCESS

The tea and sale in St. David's church yesterday afternoon, under the auspices of the Women's League, was a huge success. This was the first affair in the new building and large numbers of people took advantage of the opportunity of helping along the work. The proceeds which reached a substantial sum are for the organ fund as the league have pledged themselves to raise \$8,000 for this purpose. The various booths in the school room were prettily decorated and were in charge of the following:

MSS AGNES LAWLOR HOME AFTER WAR WORK

After nearly two years of service with the nursing services of the American army, Miss Agnes Lawlor of this city, returned home on Wednesday. About eighteen months of her time was spent in France, at first with the replacement unit and later with Base Hospital No. 94, which was located at Romorantin, in the central part of France. Miss Lawlor arrived in New York on last Friday on the steamer Antigonie. She is now on a twenty-seven day furlough, after which she will receive her discharge and will then join the services of the American Red Cross in the middle western states. Many friends in the city are extending a hearty welcome to Miss Lawlor.

Wife not very ill— but never real well

A Message to Husbands

GIVING advice to husbands is generally conceded to be not a very healthy occupation. Also comment as to the causes of marital unhappiness is an unpopular subject.

But, nevertheless, it is an obvious fact that there are in Canada to-day thousands of wives who, while not being sufficiently ill to go to hospital or require a trained nurse—yet are weak, anemic, nervous and run down, and in this condition they are not happy—their husbands are not happy, and the home life is not what it ought to be.

Good health in a wife makes not only for the ease with which she manages household affairs, but reflects a contentment and calm over the rest of the members.

Husbands! Remember that good health is a valuable possession, and

The Usual Course.
"Roberts," said the financier to his private secretary, "who was that persistent fellow who wanted to see me?"
"One of those book agents, sir."

"Ah! I'm glad you didn't let him in. What method did you use to get rid of him?"
"The usual method, sir. I brought a set of books."—Edinburgh Scotsman.

Tout Suite

This is a season in which the quick buyer—wholesale or retail—is the successful man.

To see a bargain and to secure the goods is often three-quarters of a very profitable transaction.

Precisely the same thing applies to the customer for whom the goods are finally intended. He should, of course, buy wisely, but he should also buy quickly.

Although Birks have exceptional facilities, certain lines are almost certain to be sold out during the last weeks before Christmas, and to avoid giving disappointment to our Customers we are this year asking you to make November your Christmas shopping month.

Write at once and secure your copy of our Year Book and place your order immediately, and thus help us to continue that good service which has been such a feature of our business in the past.

PATTI'S FORTUNE.
London, Nov. 27—Adelina Patti, the famous prima donna, who died September 27 at her castle in Wales, left a gross fortune of £11,600. She bequeathed her entire property to Baron Rolf Cederstrom, her husband, with the exception of special bequests of jewelry to Alfred de Rothschild, Marianne Fossler, Clara Fessler, and Mabel Woodford, and a Pope Leo XIII stole to Herbert Gaughan, a nephew of Father Bernard Vaughan.

of an order issued by Judge A. B. Anderson of the Federal District Court in Indianapolis. When the strike order, conditioned upon the non-compliance of the operators with the demands of the miners, went into effect on November 1, the union officials had already been enjoined from taking any further steps to promote the strike, this temporary restraining order, sent out by the United States Attorney General going to the length of making it impossible for the miners to draw upon their strike fund. Upon the conclusion of argument as to making this injunction permanent, Judge Anderson ordered the withdrawal of the strike order. This peremptory order of the court was complied with, but the majority of the miners are now refusing to heed the cancellation of the strike order, and while the episode has definitely established the right of the government to assert the superiority of the law and the public need to the resolutions of labor unions and the advantages of a particular class of citizens, the fact remains that coal production is greatly curtailed.

Relief in Sight.

There is a prospect that this situation will be righted quickly. Both the mine operators and the officials of the union have accepted the invitation of Secretary of Labor Wilson to a conference, and the discussions have already begun, both sides declaring their readiness to make concessions in order that

the public may not suffer from a coal shortage. Mr. Wilson has informed the miners that their demands for a 60 per cent increase in wages and for a thirty-hour week cannot possibly be granted and the miners are said to be ready to modify them. It is impossible to refrain from the comment that the present attitude of operators and miners could have been attained before November 1 just as well as after the miners had quit work, but that feature of the situation is overshadowed by the fact that the power of public opinion has been vividly demonstrated. The strike of the Boston police, of the steel-workers, and now of the coal miners, each in turn

aroused the opposition of every citizen who stands for the nation as against a class, and for the sovereignty of the law, no matter what may be his sympathies or his judgment as to the rightness of employer and employee. The cry of tyranny on the part of government or capital or labor will never be raised in this country when public opinion is as emphatic as it has been in these instances.

Fighting Bolshevism. From many parts of the country come reports indicating that the thought of the people on the subject of Bolshevism has been made, and new and more drastic laws covering sedition and anarchy are being considered.

when war will open in earnest upon those who propose the overthrow of government and industry as now constituted in this country. Americans are naturally tolerant of new ideas, particularly of those which deal with the extension of democracy, whether in government, or industry, or society, but now that they are beginning to recognize that Bolshevism is the antithesis of democracy, those who advocate it will get scant sympathy. Democracy in America means freedom of individual enterprise, limited only by the personal property rights of others. Bolshevism means the overthrow of that kind of democracy by violent means and the substitution for it of a system under which all property shall be owned and used for the benefit of a single class. The great difficulty confronting our people is to afford just treatment under the law to men and women who advocate the overthrow of that law, but who avail themselves of it when arrested for violation of it. Many arrests of agitators have been made, and new and more drastic laws covering sedition and anarchy are being considered.

We are doing our part to keep up the reputation that St. John men are among the best dressed men in the world. Are you doing yours? Your mirror is an unbiased critic. This week new arrivals in suits of individual style. \$45 secures a prize.

GEMS OF MAUNA LOA FASHION'S LATEST FAD

Chicago, Nov. 27.—Chicagoans who have recently returned from the Hawaiian Islands, where they saw the eruption of Mauna Loa, tell of an unprecedented demand for olivines, the diamond-like crystals found in the lava of the great volcano. These are known as Hawaiian diamonds and are of various colors, brown, yellow and scarlet, as well as clear crystal, and Hawaiian legend has it that they bring good luck to the wearer. With the after-war demand for jewels, continually on the increase, this, together with the fact that this recent tremendous eruption caused little damage, has put a superstitious premium on the stones.

According to a report from the Meteorological Observatory this morning the lowest temperature recorded during the last twenty-four hours was nineteen degrees above zero at nine o'clock this morning.

YESTERDAY'S RUMMAGE SALE.
In giving a list of those taking part in the rummage sale in Temple Hall yesterday the names of Mrs. Hartley Vanwart, Mrs. Leslie McLellan Mrs. P. E. Flewelling and Miss L. Macmillan were omitted. Mrs. Fred Miller was convener of the home-cooking committee.

JUDGMENT RESERVED.
Arguments were completed before Chief Justice Hazen in the chancery division this morning in the case of Harry D. Baird vs. J. B. Jones, Jr., an action on an alleged breach of agreement. Daniel Mullin, K. C., is for the plaintiff and B. L. Gerow for the defendant. Judgment was reserved.

WATER EXTENSION.
The water extension to the new houses in Lancaster street, west, was completed this morning when the new service was joined with the main in Clarence street, west. A start was made this morning on the water extension from Mount Pleasant avenue into Mount Pleasant court.

GLAD TO SEE HIM.
At the Imperial last evening and the night before a picture of Hon. Manning W. Doherty, new minister of agriculture of Ontario, was among Canadian motion pictures shown. It was a close-up with a smile and bow of the head. That Mr. Doherty is kindly remembered here was evident from the applause which greeted his appearance on the screen.

NEW MONCTON INDUSTRY.
Transcript: Moncton's new pork packing factory is about ready for business. Davis & Jones have erected a commodious building next to the Havelock Mineral Springs, in Botsford street extension; they have installed the latest machinery, and on Wednesday received their first shipment of hogs.

POPULATION OF MONCTON.
Truant Officer Burden of Moncton has taken his annual census of the school children of Moncton and the population of the city. The latter he places at 17,410. The total number of children of school age not including the high school is 2730. Moncton school teachers are asking for 25 per cent increase in salary.

BIRTHDAY PARTY.
The Chancel Guild of St. James' church gave a birthday party on Wednesday evening, each guest bringing in an envelope an amount equal to their years. The total sum realized was more than \$100 for the work of the guild. Rev. H. A. Cady was chairman and an excellent programme was carried out. The following were among those taking part: Rev. H. A. Cady, Miss Julia Dunham, Miss Tyner, Miss Edith Nichols, little Miss Gregory, Ewing Sandall and Mr. Collins. Refreshments were served.

THE CAMERA CLUB.
E. L. Jack delivered an interesting and instructive lecture on the lens before the members of the Camera Club at the St. John Art Studio, Peel street, last evening. The lecture, which was illustrated by lantern slides, showed that the speaker had an intimate knowledge of his subject. Amongst the matters dealt with was the possibilities of the telephoto lens, with which excellent pictures can be taken from a distance and comparative results with and without this attachment were exhibited. Rev. D. H. Loweth, president of the club, was in the chair.

RETURNED MEN ENTERTAINED.
Returned members were the guest of honor at a delightful dinner and entertainment given last evening by the Young Ladies' Club of the First Presbyterian church, West St. John. There were about fifty present and the tables, at which about fifty places were set, were tastefully decorated with flowers, cut glass and silver. After the good things had been disposed of the pastor, Rev. J. H. Morrison, delivered a happy address of welcome to the boys and an enjoyable programme was carried out, including solos by Miss Edna Smith, David Allan and Percy Cruikshank, readings by Miss Moss and Leonard Wilson, and piano selections by Miss Annie Smith and Leonard Wilson.

FORMERLY OF BELLESLÉ

Twenty-fifth Anniversary of the Ordination of Rev. W. E. White

(From Hamilton, Ont., Paper.)
Special services which were largely attended were held at St. Matthew's church on Sunday the occasion being the 25th anniversary of Rev. W. E. White's ordination and the tenth of his appointment as rector. Although the twenty-fifth year of his ordination, Mr. White is yet a comparatively young man, being still in the forties. He is an alumnus of the universities of New Brunswick and Toronto, and previous to entering upon the study of divinity was student of law, in which profession he has two members of his family, viz. Hon. Justice White of New Brunswick and Hon. Justice Mellich of Nova Scotia. In the profession of medicine, perhaps more closely associated with divinity, Mr. White has family relations, notably Dr. W. W. White of St. John, N. B., ex-president and member of the Dominion Council of Physicians and surgeons. A brother, who was a student in medicine, left the pursuit of that study to enter upon the study of divinity at the same time, and both brothers were ordained by the late Archbishop of Toronto. That the preacher at the anniversary services should be Rev. G. F. Scovil of St. George's, Guylph, was a somewhat unique feature. Mr. Scovil is one of seven, of whom Mr. White and his brother are two of the same parish, to study divinity about the same time.

AT THE HOSPITAL.
The condition of Conductor John S. Nickerson still remains unchanged, so the General Public Hospital reports this afternoon. Thomas Baird is reported to be resting comfortably.

MORE EVIDENCE IN WEBBER CASE

Other Matters Also in Busy Morning at Police Court

The case against William Webber, charged with having liquor in his possession in the Union station on Nov. 17, was resumed in the police court this morning. Maurice Koussanazy of 291 Princess street said he saw the defendant on Nov. 17 in the Union station taking to two young ladies. The witness said he was asked where he was going and he said to Halifax and Webber asked him to share his drawing room to Halifax and he accepted. As they were going to the train Webber said he would have to ask the porter to make up another berth in the drawing room. They entered the Halifax train and on going into the drawing room he heard the remark, "Come Mr. Webber, come in" which they did, and found Inspector Merryfield and Policeman Pierce there. He detailed what followed. The witness said he explained to Merryfield how he had met Webber that evening. Webber told the inspector that the witness did not have anything to do with the parcels.

W. M. Ryan, counsel for prosecution, asked for a postponement until Monday morning. It was made for Tuesday morning at 11 o'clock. E. S. Ritchie appeared for the defence.

The case against Samuel McBeth, on suspicion of collecting and obtaining money under false pretences, was resumed. W. Ludlow Belyea of Brown's Flat gave evidence. This is the case in which it alleged there was a petition for funds for a returned soldier whose house had been burned. McBeth was committed for trial. D. Mullin, K. C., was for the defence and C. F. Inches for the prosecution. The magistrate complimented Mr. Inches on the way he had handled the case.

George Albert was charged with being drunk, using obscene language and resisting the police. Sergeant O'Neill gave evidence. The accused pleaded guilty to being drunk but said he did not remember the other matters. He was fined \$8 or two months for being drunk, \$8 or two months for using obscene language and \$80 for resisting the police.

John J. Mercer was charged with acting in a disorderly manner at the Union station. C. N. R. Policeman George H. Pierce said that the accused was upsetting cuspidors. The accused told the court that he was only fooling. His chums corroborated this statement and a fine of \$20 was imposed but allowed to stand.

A case against Sam Lewis, charged with assaulting his wife, was resumed. David Brothers gave evidence. The magistrate allowed the accused to go on condition that he would keep the peace. Sureties of \$200 were put up.

ISAIAH W. HOLDER DEAD

For Years He Had Been Prominent in The Life of The City

Many friends in the city and elsewhere will regret to hear of the death of Isaiah W. Holder, which took place this morning at his residence, 154 Main street, after an illness which had extended over nearly ten years. Mr. Holder, who was in his eighty-fifth year, was born in Westfield, Kings county, and had been for more than sixty years a resident of the North End. For many years he was the representative of Lorne ward in the council of the old city of Portland and was one of the first aldermen in the common council after the amalgamation of the cities of St. John and Portland. For many years he was an active member of the Temple of Honor and he had a host of friends who will feel deep sorrow at his passing away.

Besides his wife he is survived by two sons, William H., with W. H. Thorne & Co. Ltd., and George W., an officer on one of the steamers running between New York and French ports; and one daughter, Mrs. A. J. Brown, of this city. Walter W. Holder of Yarmouth is a brother. The funeral will take place on Sunday.

Just Let The Kiddies See What Santa Has For Them Here!

Never has that grand old, lovable man, Santa, been more active than he has during the last year, and you will see here the result of his work.

Little folks couldn't ask for a thing but will be found here, provided of course, it's of a practical nature.

Briefly, there are the Kindergarten Sets, consisting of two cosy chairs and a cute table for the little lady to use when serving as hostess. Then for brother of a militant turn of mind, there's horses galore—rocking, galloping and pony horses.

Back again to sister, we have a grand array of doll carriages, cradles and go-carts. Then coaster cars, rocking chairs, desks, high chairs.

Merely! We've scarcely scratched the surface of what we have in store for the little ones and space is at an end here to tell it.

But we are showing a window full of it, and all's you have to do is to come in and look around.

For a small deposit we will be glad to set aside anything you choose and deliver when wanted.

REVIVING IRISH CARPET WEAVING

Old-established Industry Died Out in the 19th Century—Factory in Donegal

London, Nov. 27.—The demand for handmade carpets is great, and before the war the supply kept pace with it. Persia, India, Syria, Turkey, Serbia and Austria produced great numbers, but nearly all these countries were involved in the great catastrophe, and even districts not involved in actual hostilities suffered the drawbacks of disorganized markets and transit facilities.

When the medieval woollen manufacturer of Ireland was suppressed, and finally dwindled to a mere domestic process, many traditional products were

lost, and the Irish "rugs" which, according to description, must have been something like a modern hand-tufted carpet, ceased to be made. It is known that carpets and tapestry were made in Kilkenny in 1826, just a century before Colbert laid the foundation of modern France's supremacy in industrial arts, and more than 200 years before the work was seriously established in England. Irish rugs were much in request on the continent in the sixteenth and seventeenth centuries. The art did not completely die out until early in the nineteenth century.

Alexander Morton built better than he knew when, with the co-operation of the congested district board, he established a factory for hand-tufted carpets in County Donegal, among a people remarkable for industry and intelligence, but up to then deprived, by the circumstances of their lives, of scope for either. Mr. Morton was a Scottish manufacturer with a wide knowledge of business and much technical experience.

Donegal Carpets.

The Donegal carpets are now known all over the world; their solidity of fabric, deep pile, and even surface make them admirably suited for large public rooms, halls and staircases. There is something dignified in their massing of fine color in which the mere pattern is lost, the whole effect being restful to the eye, forming a background very rich and satisfactory.

At Naas, in 1908, the Gaelic League started a carpet-weaving industry, but, though helped by local capital and assisted materially by Lady Mayo, who herself made designs and procured orders, the want of experienced management made it impossible to continue. Messrs. Brinton then took over the factory, which was splendidly equipped, and turned out some fine carpets, known as "Kildare" carpets. But the outbreak of the war and the cessation of colonial orders, obliged the factory to close. Mr. Morton, of Donegal, has now re-opened it.

leix a factory for carpets, where they were made by a process invented by Lord Ashbrook, who also invented Flower's patent automatic loom. The Abbeylex carpets were very thick and close, and looked well in copies of Turkish designs. This industry was afterward amalgamated with the one at Naas. In Glenbeigh, County Kerry, the congested district board began carpet weaving, and some fine rugs were made under the superintendence of Miss Kerley, who was trained at Dun Emer. For want of capital this industry came to an end.

To Improve Designs.

The Dun Emer Industries, begun in 1902, had for its object the "making of beautiful things," among which were carpets and rugs. These carpets have been steadily growing in favor, the designers' efforts being directed especially to the production of designs. Irish work has been too often praised for its

high technical achievement, and its soulless iteration of outworn convention, due to neglect of the native sources of inspiration. It is time that a high tradition should no longer be ignored or merely travestied by untrained copyists; those who speak with scorn of Celtic "tangled interlacings and meaningless whirls," do not know what they deride. All the world over one finds the closest touch with the past preserved in the decorative art of each race. It is a moot point whether this art is instant in its appeal. The language of beauty needs no interpreter. It is natural, therefore, that the Irish should snatch from the abyss of the past something of that glory of which he world knows nothing.

A 10-Day Tube of Pepsodent

Make This Free Test
For the Sake of Whiter, Safer Teeth

All Statements Approved by High Dental Authorities

It Is Film
that causes men's teeth to discolor, and that holds tobacco stains.

The dealer named below have been supplied with 10-Day Tubes of Pepsodent. This week a tube will be handed free to anyone who asks. Simply present the coupon. The purpose is to urge a test of this film-removing tooth paste, which leading dentists nowadays advise. Prove the results for your own sake and your children's sake. Learn what they mean to your teeth.

See How Your Teeth Look When the Film is Gone

There is on your teeth a slimy film. You can feel it with your tongue. It clings to the teeth, gets between the teeth and stays.

The results are seen everywhere in cleaner, whiter teeth. Some of your own friends have them.

The tooth brush doesn't end it. The ordinary dentifrice does not dissolve it. So it clings and, night and day, it may do ceaseless damage.

For home use, this method is embodied in a dentifrice called Pepsodent. And this week you can test it at our cost.

It Is Film
that clouds women's teeth, spoils their glistening beauty and is the basis of tartar.

The Tooth Wrecker

That film is the great tooth wrecker. Most tooth troubles are now traced to it.

The film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of many other troubles, local and internal.

Based on Pepsin

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

Pepsin long seemed impossible. It must be activated, and the usual method is an acid harmful to the teeth. But dental science has discovered a harmless activating method. And that method, used in Pepsodent, enables all to daily use this efficient film combatant.

That is why well-brushed teeth so often discolor and decay, why tartar forms and pyorrhea starts. You leave much of that film.

Tooth troubles are constantly increasing, as statistics show, despite the wide use of the tooth brush. And the reason lies in that film.

Watch the Results

We urge you to present the coupon. Get the 10-Day Tube and use like any tooth paste. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten—how they glisten—as the fixed film disappears.

Compare the results with your old methods. Then let your own teeth decide the method best for you and yours.

This is of lifetime importance. Don't neglect it. Cut out this coupon so you won't forget.

Now We Combat It

Dental science, after years of searching, has now found a way to combat film. Able authorities have proved it by convincing clinical and laboratory tests. Thousands of dentists have proved it, and at least a million people.

It Is Film
which is responsible for decay in children's teeth. It is the source of most tooth troubles.

The New-Day Dentifrice

An efficient film combatant, proved by years of clinical and laboratory tests. Now advised for daily home use by leading dentists everywhere.

ern Hospital without regaining consciousness. She was admitted in an unconscious condition, suffering from convulsions, but despite all medical aid, died without saying a word. She was brought from the Brunswick Social and Dancing Club, 7 Brunswick avenue.

Inspector Guthrie, chief of detectives, detailed Detective Peter Strohm to investigate. Miss Cassidy roomed on Grace street, near College street, and worked at the Fashions Waist Company, College street. She left the house shortly after noon on Sunday in response to a telephone call from a man. The message was first received by the landlady, and then given to Miss Cassidy, who was in bed at the time. Miss Cassidy went out and did not return. The first intimation the landlady received that the girl was dead was at seven this morning when the Western Hospital notified her. The police learned that Miss Cassidy went to see a man at the Brunswick Social Club and had an invitation to go out for dinner. She took ill at the club. Dr. J. F. Dawson, 556 Bathurst street, was called, and ordered her to the hospital. The man will appear at the inquest, which will be held at the Morgue.

Drury Says Liquor Is Gone Out For Good

Ontario Premier Speaks of Emptying Jails by Prohibition And Child Care

Barrie, Nov. 27.—Hon. E. C. Drury, premier of Ontario, spoke here at the opening of a children's shelter. His father, Hon. Chas. Drury, was the first president of the Children's Aid Society of Simcoe, and his mother was much interested in its work.

"It is not long since the people thought that repression and punishment were the only methods for those who offended or erred against the laws," said Mr. Drury. "Today there is a change to a broader way of looking at things—a development of public spiritedness, which is really unselfishness."

Are Brother's Keeper.
 "People are realizing that to a large extent we are our brother's keeper. The opening of this fine new shelter is an indication of the realization that these unfortunate children should not be the objects of scorn or the outcasts of society."

"The government is in accord with this method of treating these little ones, and will support it most generously, but the government should not do it all, nor should the county council. Once this work loses voluntary aid it becomes institutional, and we want to keep away from that."

Keep Liquor Out.
 "Prevention rather than repression should be adopted to eliminate the unfortunate who menace society. A good step in this direction was taken by the people in the vote on the liquor question. We intend to see that this great means of making criminals is kept out of business, and kept out permanently."

"The other best means of keeping the jails empty is child rescue work. If, backed by proper administration of justice, we take up all opportunities to lift the unfortunate, many jails will be available for other purposes. It may not be long before there will be a grouping of counties for detention purposes, with but one jail."

J. J. Kelso and Warden Todd also spoke. The shelter was formerly the residence of Capt. D. Jory, and was bought by the county council for about \$6,000. It is well adapted for its new purposes.

Says Britain Must Remain in Egypt

Land of The Pharaohs Usable to Guarantee Stable Government, Curzon Tells Lords

London, Nov. 27.—Earl Curzon, the foreign secretary, speaking in the House of Lords, said that Egypt neither was able to protect her own frontiers from aggression nor to guarantee a stable internal government. He declared that Great Britain could not wash her hands of a country standing at the door of Africa and the highway to India. The idea that the aspirations of the Egyptian Nationalists were to be crushed, however, he said, was an extravagant misconception.

The Egyptians, Earl Curzon continued, could not be shown too clearly that, whatever peace was imposed on Turkey, recognition of the British protectorate would be one of those terms. Therefore, Turkey would alter the task with which the mission headed by Lord Milner, secretary for the colonies, to investigate the unrest in Egypt was entrusted. Lord Milner, he said, had no constitution in his pocket, but was going to consult with the Egyptians with regard to how they could best co-operate in the management of their country under British guidance.

Settlers Invited To Write Letters

Government Wants Facts About People Who Have Succeeded

Ottawa, Nov. 28.—In order that the department of immigration and colonization may have at its command authentic accounts of the experiences of successful settlers in various parts of Canada, it has been decided to offer cash prizes for letters or articles not exceeding 2,000 words, written by settlers in each of the nine Canadian provinces. The articles will be judged by a committee to be appointed by Hon. J. A. Calder, minister of immigration and colonization, and should be mailed not later than Feb. 14, 1920, to the director of publicity for the department. Three cash prizes will be given, one of \$75, one of \$50 and one of \$25, in each of the nine provinces. It is explained that the competition is not a literary contest, the official announcement stating that "literary style, correct spelling, etc., will not be considered essential. Tell your story in your words." It is believed that the truthful stories of how success has been won from the soil in all parts of the dominion will do much to contribute to a future movement to Canada of the right class of settlers.

FATHER HAD 8,000 WIVES

New York, Nov. 27.—America must yield the palm to Siam for having the world's richest man, according to information received by the Interchurch World Movement of North America, which through missionaries abroad is making a survey of religious, social and economic conditions.

King Rama VI attended Oxford University and has introduced many government reforms in his country. His sway is absolute, the great teak forests of Siam belonging to him. The Siamese law requires that the bones and ivory of a dead elephant shall go to the king. Rama VI is credited with being very generous and with frequently replenishing the funds of the state from his private purse.

TEAMWORK AS A FACTOR IN SOLVING HOUSING PROBLEM

Excellent Results Obtained in Ohio City When Co-operative Methods Are Applied

Interest is being manifested by architects and builders in methods being worked out in financing the building of homes, especially in sections where there has been considerable difficulty in obtaining sufficient funds to enable construction to proceed. Many plans to stimulate building have been tried out by communities, some of which have been successful, while others only partially so, in securing needed loans.

An admirable example of what can be accomplished by a municipality when there is 100 per cent co-operation by all interests concerned is shown by the record just made by Middletown, Ohio, states the weekly review of The American Architect. That city, forced by an acute housing shortage, set out immediately with a thorough determination to solve its problems. There was no "hurryhurry" or wasted energy in going about the matter, just a sane business-like handling by the interests concerned. But most important of all there was real co-operation between each element, a vital factor in the solution of a problem of this character.

In some of the larger cities in the United States it has been possible to secure state aid in building financing, and many efforts have been made to work out a federal system of loans. Middletown, Ohio, however, had confidence in its ability to secure sufficient funds without going outside of its own boundaries for help. Fortunately, the city prided itself on an exceptionally live Chamber of Commerce, which with the progressive Middletown Real Estate Board, shouldered the many responsibilities.

When the Mayor of Middletown issued the statement:—"We must interest local capital in solving our housing problem," all city organizations came forward with vigorous efforts. The manufacturers of the city, anxious to have their employees properly housed, responded quickly to the appeal for loans. With this start the plan went rapidly ahead.

It was at the close of the building season of 1918 that home builders in Middletown were first confronted with the difficulty of securing money on mortgage loans to complete the financing of their operations.

The Middletown Real Estate Board, with the co-operation of manufacturers, who were also vitally interested in having their employees satisfactorily housed, devised the plan to meet the situation. It was this: Through the Industrial Department of the Chamber of Commerce, consent of all the manufacturers was secured to a plan of financing which provided for temporary deposits by the manufacturers in the Building Association, such funds to be loaned to the constructing developers or to the purchasers of new homes on first mortgage. The plan was unanimously approved, the deposits by the different industries

made for refund within eighteen months. The situation was thereby relieved. The manufacturers were paid back their deposits with interest within six months. The operation will be repeated in the closing months of 1919, having proved a satisfactory solution of the local problem and one which is of direct benefit to all concerned.

A housing survey is now under way in Middletown under the direction of the Chamber of Commerce. This will undoubtedly disclose not only the actual shortage of homes, but through information supplied by the industrial plants concerned their plans for expansion for next year will provide a dependable objective in planning a 1920 construction programme.

The corporate limits of the city are about to be extended, following lines suggested to the authorities by the Real Estate Board, and includes such land as will be improved in the near future to provide these additional homes. All trade, industrial and public organizations of Middletown are co-operating with pardonable pride in the city and its healthy and comprehensive growth and the spirit of good fellowship and optimism is contagious.

It will, therefore, be seen that a plan conceived in the best spirit of co-operation, and which has achieved a 100 per cent of efficiency, has resulted not only in supplying an acute demand for additional housing but also has created a normal and healthy expansion of the city's limits.

CONTEND OTTAWA NOT A PROHIBITED AREA

Line of Defence in Case of Seizure of Champagne Going to Country Club

Ottawa, Nov. 28.—That the city of Ottawa is not a "prohibited area" under the dominion order-in-council passed last February touching the transportation of bringing into prohibited areas of intoxicating liquor, is the defence which will be conducted by Norman Guthrie and R. Code, counsel for the defence in the case Inspector McLaughlin vs. the Canadian Express Company.

The company was charged with having, on Nov. 15, intoxicating liquor taken or transported into the city of Ottawa, being prohibited area under the Ontario Temperance Act, contrary to Canadian order-in-council. The charge arises out of the seizure of thirty-five cases of champagne consigned from Bovin, Wilson & Co., Montreal, to the Country Club. The liquor was labeled "Country Club, Hull," but on request of the liquor in the express company's office, and, according to Inspector McLaughlin's interpretation of the law, was not in transit.

GREAT POSSIBILITIES FOR CANADA'S TRADE

Lloyd Harris Addresses Manufacturers—Is Most Optimistic as to Future

Toronto, Nov. 27.—I have various schemes in my mind whereby Canadian trade can be developed to any limit the mind can conceive," said Lloyd Harris, head of the trade mission to London, who addressed the Canadian Manufacturers' Association here today. Mr. Harris was most optimistic concerning Canada's future. He said it was necessary to maintain Canada's exports and to cut down her imports.

Teachers' Salaries

Toronto Globe: Two despatches appeared in the news items of Monday's issue. One stated that the women public school teachers of St. Thomas asked that their maximum salaries be raised from \$1,000 to \$1,200 (maximum to be present ten years' experience). The present board recommended that the incoming board deal favorably with the request. The other said that the president of the Detroit Board of Education would recommend that the minimum salary in Detroit be \$1,200. Both despatches are encouraging, but why the great difference in schedule? Are American teachers worth more than Canadian teachers, or is it simply a difference in the financial ability of the two cities?

GREAT FIGHT AT POLLS TODAY IN WINNIPEG

Most Momentous Civic Election in History of City

DATES BACK TO STRIKE TROUBLE

Issue is Whether or Not Radical Labor Shall Obtain Control of City Government—A Tremendous Vote is Expected

Winnipeg, Nov. 28.—Today is being said the most interesting civic election in the history of Winnipeg, its roots going back to the general strike of last May and June, and the issue being whether or not radical labor shall obtain control of the city government. Campaign managers declare that this fight is the most bitterly contested they have seen in a decade and that this feeling has roused the voters to such an extent that there will be a 30,000 vote. Last year the ballots numbered 13,149 out of a total electorate of 55,063. This year about 2,000. There are 118 sub-polling divisions as against ninety-eight last year and nearly thirty additional officers have been assigned to count the ballots. This year, too, an increase in pay for deputy returning officers and poll clerks has been given, the rate for the former now being \$12 a day and the latter \$8.

The Radicals' Hope

With three seats assured at the last election, the radicals are confident they can secure another five and thus obtain a straight majority in council, which is now composed of the mayor and four town aldermen. Prior to last year there were four boards of control members, all elected annually. Only one of these was usually a labor man, and he was very often criticized by the radicals for failure to support direct action methods regard-

ing the grievances of civic employees. For some years labor members of council have said that their aim was ultimately to obtain a majority in council and last year, when the council decided that civic employees must not allow their organization to affiliate with outside bodies, meaning the Trades and Labor Council, the labor men on the civic board declared it must come to a straight fight between them and the rest of the council for the right of the civic employees to organize and to affiliate with any organization they saw fit.

It was this attitude which created interest in today's election long before nomination day and long before any mention of prospective candidates had been made. In their final meetings this week the labor men have made it clear that if they are elected the first thing they intend to do is to reinstate 100 or more employees who lost their jobs in the strike.

Prior to nomination day, on Nov. 18, there were chances of several three-cornered contests in at least four of the seven wards. Two members of the present council who were due to seek re-election and who were opposed by radicals withdrew from the fight when they were urged to do so by friends who believed they had a stronger opponent for radicalism. A third member of council did this after much persuasion and a plethora of ward meetings, which meetings were at times very boisterous.

In all three cases the retiring candidates declared it to be solely with the object of limiting the chances of a "Red Labor" victory that they had consented to withdraw. Two withdrawals were made at the last minute but one man declined to avoid a triangular fight. Meanwhile the labor candidates have stood together from the first round and are now confident of victory. They were chosen at a local labor convention several weeks before nomination day and from that time on declared they were out to secure by constitutional methods what they failed to gain by striking in last May and June.

The Mayor

From Mayor C. F. Gray to the last aldermanic candidate, the burden of argument at election meetings has been around the strike. The first meeting that Mayor Gray held was at Weston, where the C. P. R. shops are located. He went right into the men's dining hall and told them, when they booed him, that he would fight them "like hell." From that time on he has been questioned and cross-questioned on his strike attitude. The mayor for personal reasons would probably not have run this year save that he wants his strike attitude vindicated.

Who makes your Gloves? Whether kid, cape, silk or wool, the name "Dent's" on the button is a guarantee of satisfaction. It's good taste and good sense to INSIST ON DENT'S.

His opponent, too, is freely quoted on this issue and declares he will reinstate every man that left the civic employ, also that the agreement which new employes must sign, to discontinue sympathetic strikes, will be immediately repealed.

One of the labor candidates is an ex-policeman who failed to get his job back after the strike. He charges discrimination in the campaign because of alleged discrimination. On the other hand the citizens' committee which combated the strike is out behind the opponents of the radicals, their argument being that if the labor men are elected it will mean another strike and the absence of fire and police protection as a lever for trades unions to enforce demands in avenues other than civic.

There are no candidates in the campaign on the returned soldier ticket, neither have the veterans held any meetings to discuss civic affairs. They are more concerned just now, they say, with re-establishment plans and gratuities, and have held several meetings with their champion from the city to Ottawa, Major G. W. Andrews, M. P. Two of the radical-labor men, however, are overseas men.

For the first time in many years there are contests in all wards for school trustees. Labor has never been represented on the board and the radicals declare they will secure at least four seats.

Voters are also asked to endorse a municipal milk plan, but supporters of the municipal idea are not satisfied with the detail of the present plan and its passage is doubtful.

Next year adult suffrage will likely be in vogue here, which, it is expected, will increase the electorate from 50,000 to 85,000. The new council is to have the spending of \$8,000,000 in the next year. Mayor Gray's supporters made bets that he would be elected by 4,000 majority. Winnipeg labor leaders predict that S. J. Farmer will be elected first-sight by a large majority.

The polls will be kept open until 8 o'clock and the first returns will probably be available about thirty minutes later.

BURKE HELD FOR GRAND JURY

At Jackman, Me., this week, John A. Burke, former deputy sheriff of Somerset county, was held without bail for the grand jury, which will convene in Skowhegan on the fourth Tuesday in January, on the charge that he murdered Nelson W. Bartley, proprietor of the Moose River House in Jackman on the night of Wednesday, Oct. 15. Judge H. H. Bransell found probable cause for holding Burke.

G. CARPENTIER SAYS HIS SPEED WILL BEAT BECKETT

London, Nov. 28—If there is one thing Carpentier is sure of, it is that he will beat Beckett in their great contest next month. Not that the famous Frenchman indulges recklessly in the "tall talk" so beloved of some of our fighting men, as a form of self-hypnotism. On the contrary, he has not the least desire to belittle his opponent or minimize the task that lies before him.

it from me that Carpentier is hitting very, very hard, and very, very fast. He is wonderful! If Beckett can beat him then Joe is twice as good a man as he has yet shown himself. But Georges will win because he knows just how good Beckett is. "Beckett, 13st. 6lb., Carpentier, 12st. 3lb., broke in M. Deschamps in halting English to check a torrent of words from the enthusiastic Belgian. "A strong, heavy, big-hitting man against a lighter, quicker, more fragile and more scientific boxer. "Brains Will Win. "Strength with a punch against brains and speed with a punch. There you have it, and brains will win every time! "Your Beckett, he is a great fighter, but he is not so great as Georges here," and he tapped his forehead, "and because he is not so good there we shall win." A moment's pause and then a rapid flow of French, as Deschamps talked of the welcome London gave to the French champion. "Wonderful," he said. "What great sportsmen you English are. We come here to beat your champion, and you wish us luck and give us a cheer. Already we are at home here, with the knowledge that whatever happens we shall have what you call a square deal."

to the ring. Fulton looked anything but a champion when he stepped off the Mauretania, showing the effects of continued seasickness on the trip home. He also carried ten pounds of fat, and was nursing a painful swelling on his right arm, which needs an operation. Despite his unsatisfactory physical condition and his inability to meet Beckett, Fulton and his manager, Tom O'Rourke, issued a deft to Jack Dempsey even before they left the ship. "There's a promoter out in San Francisco," O'Rourke said, "who will stage a battle between the two heavyweights any time the champion is ready. We'll box Dempsey whenever he says, and under whatever conditions he makes, winner take all, or any other terms. But I suppose now that Fred is back in America, Dempsey will decide to visit England." Beckett's refusal to box Fulton was a keen disappointment to the Minoctan who arrived carrying a big black thorn cane, presented to him by Eugene Corri, the British referee. Fulton will go to a specialist in this city within the next few days to see if he can have his arm cured without an operation. Fulton now weighs 230 pounds, instead of 216, his boxing weight. Rickey Has Faith. New York, Nov. 25.—It is evident that at least one person is satisfied that Fer-

dinand Schupp has come back. He who does not doubt the return of the Louisville Kid to his old-time form is Branch Rickey, manager of the Cardinals, under whom Schupp served part of the past season. Someone asked Rickey recently if there was any truth in a report to the effect that he was about to re-sell Schupp to the Giants, whereupon Branch replied with all the vigor at his command that neither the Giants nor any other club could buy the kid for any amount. Rickey expects Schupp to hurl in 1920 in the style that made him famous in 1916 and 1917, and Ferd is quite likely to go even better than Rickey thinks he will. He was moving along at a fast clip when the last campaign closed.

A. W. Covey, L. T. McGovern and possibly a representative from the Y. M. C. L. will attend the annual meeting in Halifax, when election of officers for the coming year will take place, and arrangements made for getting amateur sport started throughout the province. The St. John delegation will try to get some of the big championship meets for St. John, which would help wonderfully in reviving sport in this city. The baseball situation will be thoroughly threshed out at the meeting, and players eligible will be reinstated. At the meeting last night it was announced that the East and Improvement League would have a rink this winter, and an opportunity will be given those who wish to indulge in skating.

SPORT NEWS OF A DAY, HOME AND ABROAD

BOWLING.

Y. M. C. I. League.
The Robins got a big start on the Eagles when they won the first point by thirty-one pins last night. For the Robins Stevens rolled a nice 108 and Stock and McCann joined the ninety class. The Eagles' sole attendant at the ninety class was Coughlan.
A rally of the Eagles brought them out on top in the second string by sixteen pins. Maher, Murray and Coughlan were all in the ninety class and the Robins had Cusack with 108 and Ramsay with ninety. The third string went to the Robins by five pins and the Eagles won the point for that pinfall, making two points each. For the Robins Stevens and Stock got ninety-eight each. Coughlan was the Eagles' lonely pupil at the ninety class.

The Hawks and Sparrows are to meet tonight.

Shots at the King Pin.
The Robins were without the services of the chief rooting member and last night's game was so quiet that you could hear any one but the king pin drop. After the leadership of a league has been settled, interest slackens off in the final games of the other teams. This is a mistake, as it tends to cut down the dividend averages of some of the best players in the league.
Tonight's game will be the last of the series, when the Sparrows will roll up Hawks. Each team needs a win to sit in the first division.

Micmas Took Four.
Excitement ran high at the game in the Junior Y. M. C. I. Bowling League, last night, when the Micmas took four points from the Rosas and replaced them in the lead of the league.

Sidelights On Sport

Halifax is certainly becoming a boxing centre in the maritime provinces. Some good bouts are being held weekly and arrangements are being made to line-up some of the best talent in the country.
In Philadelphia last evening Lew Tendler knocked out Johnny Noye of St. Paul in the second round. Benny Leonard, lightweight champion, and Soldier Bartfield fought a draw. In Jersey City Pete Hermann, of New Orleans, world's bantamweight champion, fought Mickey Russell in an eight round bout.
Waldo Zbyszko turned the tables on "Strangler" Lewis in Boston last evening when he defeated him after a half hour's wrestling. It looks as if the former is due for a come back, while the latter shows signs of slipping.
Now that the football season is practically over, hockey will step into the gap and reign supreme until ousted by baseball next spring. The magnates in upper Canada and on the Pacific Coast are having trouble lining up their stars this season.
Fred Fulton has arrived back in America and it out with a deft for Dempsey. Fans cannot see Fulton when they talk of the heavy-weight title. He had his chance and was found wanting. The winger of the Carpenter-Beckett fight will undoubtedly be Dempsey's next big opponent.
Acadia, and U. N. B. have not as yet settled the question of supremacy for the season of 1919 and there is little hope now of deciding which is the better team. While the weather would be favorable it would be a bit cold for spectators, and in addition the ground would not be fit to play on.

A Moncton Boots Case.
A case of the St. John contractor charged with being the possessor of a large quantity of liquor found by the police in the Sunny Bree rink last week, came up again Tuesday in the Moncton court. Jas. Sherren appeared for the accused and A. A. Allen for the prosecution. A verdict was taken and the case again stood over until Friday.

Between Partners—
It was morning when the office door Richard Bruce opened and chuckled. His partner looked up and said, "Dick, you've wiped his eyes and then sneezed, he glared at the cheerful face opposite him. He said, 'I don't see why in the name of Caesar I have one heavy coat after another, and you have none. This confounded weather and that damn cat is enough to give any normal person a cold.' 'You needn't get excited about it,' Dick said. 'Just be sensible. The trouble is you never think about it until you are sick and then you're as pleasant as a bear with a sore head.' 'Yesterday afternoon I had the beginnings of a cold,' Dick went on. 'Well, I started taking Weeks' Cold Tablets. I always keep a box at home and in my desk stationery. I don't want to use these Weeks' Tablets,' Dick asked. 'You see they increase a person's resistance, and you fight off a cold naturally. They won't make you feel dull or they won't make you feel nervous. And there is no calomel in them. You get a box of Weeks' Cold Tablets. They are absolutely safe. You get a box of Weeks' Cold Tablets. They are absolutely safe. You get a box of Weeks' Cold Tablets. They are absolutely safe.' 'The best.'

Catarrhal Deafness and Head Noises
TELLS SAFE AND SIMPLE WAY TO TREAT AND RELIEVE AT HOME.

If you have catarrh, catarrhal deafness or head noises caused by catarrh or if phlegm drops in your throat and hoarseness, you will be glad to know that these distressing symptoms may be entirely overcome in many instances by the following treatment which you can easily prepare in your own home at little cost. Secure from your druggist 1 ounce of Farnin (Double strength). Take this home and add to it 1/2 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. An improvement is sometimes noted after the first day's treatment. Breathing should become easy, while the distressing head noises, headaches, dullness, anxiety thinking, etc. should gradually disappear under the tonic action of the treatment. Loss of smell, taste, defective hearing and mucus dropping in the throat which suggest the presence of catarrh and which may often be overcome by this efficacious treatment. It is said that nearly ninety per cent of ear troubles are caused by catarrh and there must, therefore, be many people whose hearing may be restored by this simple, harmless, home treatment.

MOVE TO PREVENT IMPROPER PERFORMANCES IN LONDON
London, Nov. 28—The Bishop of London, who says he enjoys a good play as much as anybody, presided at a conference the other day of representatives of theatrical managers, authors, actors and critics.

It was held at the instigation of the London Council for the Promotion of Public Morality to consider the best means for preventing improper public performances.
The bishop said the council was not in the slightest degree opposed to the theatres or music halls. The people needed entertainment and a good laugh was good for everybody. "But what we will not tolerate," he added, "is filth." We are not going to have people going to the theatres to hear things which will degrade them.
"The Christian people of London intend to put a stop to that sort of thing. We fully believe the great majority of managers, authors and actor-managers are also anxious to stop it, and it is not the wish of the great acting profession that filthy performances should be given in London."
Sidney Valentine, president of the Actors' Association, said the tendency of the theatres lately had been downward.

CANADIANS' WORK IN NORTHERN RUSSIA
Major D. King Hazen spoke before the Canadian Club in Bond's last evening on the Allies' venture in Northern Russia. More than seventy-five members of the club were present and greatly enjoyed the story of the part played by the Canadians in the far north during the last days of the war. A. M. Belding

presided and introduced the speaker. The thanks of the club members was tendered the speaker by the chairman, and the gathering broke up with the singing of the national anthem.

MEN'S WINTER OVERCOATS

\$25.00

Regular Prices \$30.00 to \$35.00

Because of greatly unsettled manufacturing conditions, we were unable to get deliveries of our Winter Coats in time for the regular season's business.

Our buyer made a special trip to the leading makers from whom we buy, and by simply camping right on the trail of the factory managers, he finally procured about 400 Coats.

These recently arrived, and the season being well advanced, we decided to cut our profits to a minimum and make one tremendous four day sale, which started Thursday, of the entire lot at the **One Price, \$25.00.**

Remember—there is an actual scarcity of Men's Clothing. Factories are not producing more than 60 per cent. of their orders. Conditions are not improving. We ordered these Coats eight months ago to sell at \$30 to \$35. Prices have advanced at least \$5 on each coat.

In Zion church, school room last night Rev. Dr. King gave an interesting address on the forward movement among the churches. Rev. Mr. Eisnor conducted prayer and a solo was given by Thomas Guy.

At the women's mass meeting in the City Hall, West St. John, last evening, Rev. Dr. Rees, the evangelist, took for his subject "Black Crosses," taking for his text "Abstain from all appearance of evil."

At the meeting of the board of directors of the St. John Society of Music last night in the board of trade rooms with the president, A. N. McLean, in the chair, W. Frank Heston was appointed honorary president. J. Fraser Gregory, Herbert Mayes and Mrs. D. P. Chisholm were delegated to ask the school board for permission to use the assembly hall. It was decided to engage St. Vincent's hall, Cliff street, to hold the first concert of the season. Mortimer Robertson and L. LeLachur were appointed to rent a room for the society to hold their meetings. The choral com-

mittee, J. S. Ford and D. Arnold Fox reported excellent arrangements for their work. Mrs. A. C. D. Wilson said that the programme committee had a tentative programme drawn up.

At a meeting of the City Public Service Employees' Union held last evening, the following officers were elected: Fred Nice, president; John Patterson, vice-president; J. C. Whitaker, recording secretary; Edward Marshall, treasurer; Robert F. Goodrich, financial secretary; and George Eagles, sergeant-at-arms. Other business transacted was of a routine nature.

Sweeping cuts in the use of natural gas in Moncton will follow the hearing into its use by the Public Utilities Com-

The Moose

All Canada is the natural home of the "King" of Canada's big game, but New Brunswick, Quebec, Ontario and Manitoba afford the best moose hunting.

There are two methods followed in moose hunting—"calling" and "still hunting." During the rutting season the first method is the one usually followed, but there is more satisfaction in tracking. Absolute silence is the one great essential in still hunting and stalking must be done "up wind."

The tracks of a bull moose can be readily distinguished from those of the cow. The former are rounded and blunt—the cow's long and pointed.

During the winter, moose gather on the hardwood ridges between cedar and spruce swamps, through which they make beaten lanes. A "yard" sometimes contains twenty to forty animals.

Opinions differ as to the most suitable cartridge for moose hunting. Choose one with abnormally high velocity and be sure the big "D" trade-mark is on the box.
