

NEW INDUSTRY TO BE CREATED HERE

WILL MAKE ARTICLES FOR LARGE DEMAND

San Juan Mining and Manufacturing Company Acquires Old Phoenix Brewery

About the beginning of the new year Victoria will be able to boast of a sturdy infant industry in operation, an infant which should develop into full maturity in the course of very few years.

In addition to gold and copper claims at San Juan the company has, what is looking to more at the present, extensive properties containing iron, asbestos, mica and valuable mineral substances—aluminum, tripoli, graphite and talcum—all on the west coast of Vancouver Island.

The alumina will form the base of numerous "chemically" made articles which will be a by-product, such as washing powder, caustic soda, electrical soap, liquid and paste metal polishes and the like.

The company starts out with the production of all these articles in mind as part of its industry, and other branches are understood to be in contemplation.

Mr. Baird fortuitously showed a time reported over the premises but declined that the company had not been looking for any publicity until it was in a position to prove to the people of Victoria, as it would now be in very few weeks, that it was creating here what every citizen desired to see.

Mr. Baird fortuitously showed a time reported over the premises but declined that the company had not been looking for any publicity until it was in a position to prove to the people of Victoria, as it would now be in very few weeks, that it was creating here what every citizen desired to see.

INTERVIEW MINISTER AT THE CAPITAL

Sikhs Ask Permission to Bring Wives and Children to Canada

Ottawa, Nov. 27.—Hon. Robert Rogers this morning received a deputation of Sikhs from British Columbia and heard their appeal for permission to bring their wives and children into Canada.

CITY DEFENDANT IN TWO ACTIONS

THEATRE CROWDING FINE IS APPEALED

Twenty-One Cases Listed on December County Court List for Monday Next

There are twenty-one cases listed for next month's county court, including three appeals from police court decisions. Two of these are brought by defendants against the city.

The city is being sued by Frederick King, who claims damages for injury to a team of horses and loss of harness broken when the horses became mired in one of the roads within the city limits.

Among the private cases to come before Judge Lampman next month is a dispute between the proprietors of the Westholme hotel (defendants), and J. Murray, who has been in charge of the restaurant since the hotel opened.

From November Court. Fletcher & Co. (Lawson) v. Esacraft (Alkman). Sayward (Brandon) v. Van. P. R. Meat Co. (Taylor).

CARDINALS HOLD SECRET CONSISTORY

PAPAL NOMINATIONS ARE CONFIRMED

New Members of College Will Receive Their Red Hats on Thursday

Rome, Nov. 27.—Obedient to a summons from Pope Pius X. the cardinals in Rome assembled in a secret consistory to-day and confirmed the papal nomination of 14 new members in the college of cardinals, the supreme governing body of the Roman Catholic Church.

Of those thus honored three are citizens of the United States, Mr. John M. Parley, archbishop of New York, Mons. William O'Connell, archbishop of Boston and Mons. Diomede Falconio, apostolic delegate at Washington. These, with Cardinal Gibbons, American, will have a representation of four in the consistory.

His Holiness withstood the trying ordeal bravely. In accordance with the law, a public consistory must be held three days after the meeting when the new cardinals, with the exception of those of Spain and Austria, will receive their red hats.

At the time of the filing of this message the Italians were engaging the Turks on the regular frontier. As soon as the Italians are established, reinforcements will be rushed up to positions strongly entrenched by the engineers. The Italian advance is announced, was a complete success.

To Subscribers

Have you paid your subscription? Look at your address on this paper and see if you have paid for the current year.

If you are in arrears, remit now; do not defer doing so—mail the dollar to-day. The Times Twice-a-Week, for one year for \$1, is very cheap—probably the cheapest paper in Canada.

SIR EDWARD GREY SPEAKS IN COMMONS

MINISTER REFERS TO FOREIGN POLICY

Declares Great Britain's Action Was Not Antagonistic to Germany

London, Nov. 27.—It is many years since such world-wide interest centred in the speech of a British foreign minister as upon Sir Edward Grey's utterance to-day, upon which the peace of Europe is believed to hinge. Opinions in the best informed quarters are hopeful that the debate will open an era of better understanding between Germany and Great Britain.

TURKS DRIVEN BACK BY ITALIANS

FIGHTING LASTS THROUGHOUT DAY

Advance From Tripoli Reported to Have Been Complete Success

Tripoli, Nov. 27.—An important movement is now in progress with the object of driving the Arabs out of the frontier.

At the time of the filing of this message the Italians were engaging the Turks on the regular frontier. As soon as the Italians are established, reinforcements will be rushed up to positions strongly entrenched by the engineers.

Another Fight. Derna, Tripoli, Nov. 27.—An Italian reconnaissance on the plateau beside the city yesterday resulted in an encounter with the Turkish forces. The fighting lasted all day, both sides retiring on their positions. The Italian casualties numbered 12 killed and 33 wounded.

Reported Bombardment

Paris, Nov. 27.—Notwithstanding the strict censorship in Italy, a dispatch has come through from the Scuola di Milano, stating reports are current in Rome that an action has commenced in the Aegean sea and a bombardment is actually in progress.

Officially maintain silence, but the fact that the communication was received and that telegrams are subject to long delays, seem to confirm the statement that the action has commenced.

HURRICANE SWEEPS NEWFOUNDLAND

Railway Traffic Interrupted—Unidentified Vessel Drifts—Helpless in Gale

Warships Will Aid in Attack on City—Loyal General Killed

St. John's, N. F., Nov. 27.—Railway service in nearly every section of Newfoundland is stalled and coast steamers have been compelled to seek harbors of refuge, as the result of a hurricane which has been raging since Saturday. Reports of damage is slow in coming, particularly from Maritime centres, but it is feared that the toll of previous storm which wrecked six vessels with a number of men will be equalled.

BURNED TO DEATH WHILE IN HIS BED

ROOMER AT KLONDYKE VICTIM OF FLAMES

Lifeless Body of Herbert Hall Taken From His Room—Inquest Ordered

Herbert Hall, a native of Scotland, aged 22 years, employed by the city on city street work, was burned to death about 5 o'clock yesterday morning by fire which occurred in his room at the Klondyke hotel, Douglas and Johnson streets.

The cause of the fire can be left only to conjecture. The fire chief is of the opinion that it was caused by a lamp being overturned by the deceased during movements made by him while asleep.

In deceased's room was one can filled and one can partly filled with coal-oil, says Fire Chief Davis, which is believed to have fed the flames once they spread from the bedding, which probably burned first. The body was found lying in the remains of the burned wood bed and bedding, and a hole was burned in the floor of the room and the head of the body was resting in it.

The fire was noticed simultaneously by a hackman on Yates street, who saw flames through the window, and by a lodger sleeping in the room below, who was awakened by the roar of the flames above. He ran to the street to send in an alarm and there met the hackman intent upon the same purpose.

Fire Captain Zeigler kicked in the door and two lines of hose, one from the stairway and one from the outside fire escape, drenched the flames which, however, had to be attacked from a short distance, because when the door was burst in the heat drove the men back.

NANKING SHELLS BY REBELS GUNS

IMPERIALISTS ROUTED BY HEAVY LOSS

Warships Will Aid in Attack on City—Loyal General Killed

Nanking, Nov. 27.—After more than half a century of silence, the hills overlooking the walled city of Nanking, the ancient capital of China, swarmed to-day with the rebellious forces eager for its occupation and determined to overthrow the last stronghold of the Manchus south of the Yangtze.

The Tiger Hill forts for several hours bombarded morning, noon, and evening, while up above the northeastern range, from the top of Purple Mountain, overlooking the Ming Tombs, for a 15-mile semi-circle, guns scattered shells into every section of the city.

The victors of the earlier part of the day the imperialists attempted a sortie against the attacking forces, with a view of recapturing their position around the guns, and were driven back inside the walls with considerable loss.

The Tiger Hill batteries were pounding shells into Lion Hill and eventually succeeded in silencing the Manchu batteries there, which it is suspected, were of great value.

In the evening a dozen torpedo boat destroyers and cruisers were lying near the city. Doubtless they will drive the defenders to the south.

The victory of Nanking and Tartar general in fear of General Chang, the imperialist commander, have taken refuge in the Japanese consulate in which only the consul remains. He is the sole official representative of foreigners in Nanking.

Sunday's attack can only be considered a forecast of other things to come, because the main body of the rebels is steadily bringing the city into subjection. The imperialist forces are not expected to rush the city, but to surround it steadily and await its surrender.

Lion Hill's reply to the bombardment was at first sharp, but later it became feeble. A number of rebel shells fell in the settlement, but did little damage.

There was some sharp fighting at the western and southern gates, the outposts of the revolutionists endeavoring to approach. The revolutionists advanced in three columns, one along the railway, a second behind Purple Hill and a third along the river.

The imperialists fired upon a Red Cross train coming in on the railroad. About 4,000 of General Chang's raw recruits are now outside the city with much ammunition and guns.

Fighting Continues. Shanghai, Nov. 27.—Fierce fighting continues at Nanking, where the rebels have captured the Tachengman gate and hold all the defenses in that part of the city. They are now bombarding Petche Kiao fort from both land and water. It is said that the whole city will soon be in their hands.

Will Resume Hostilities. Paris, Nov. 27.—The Pekin correspondent of the Temps says that Yuan Shi Kai has again changed his attitude and has ordered a resumption of hostilities at once at Nanking, whether reinforcements have been sent.

It is understood that he is again strongly supporting the dynasty. Improving certain conditions, the change being attributed to the rally in Shanghai and it is also probable that Yuan can more easily obtain the financial support he wants by breaking with the rebels.

Thousand Bandits Slain. Shanghai, Nov. 27.—It is reported that a desperate fight has taken place between the revolutionists and bandits in Anhwei province, and that a thousand robbers were killed.

Reports of murder of foreigners in the provinces of Shen Si and Shan Si have been received here with the greatest apprehension. It is quite evident that a strong element of Boerism remains within the sphere mentioned, where the government is supposed to be in control. Trade has been prostrated, and there is a growing feeling among the merchants that some definite action should be taken to prevent further outrages. The throne seems helpless to prevent the murders, which are in no way connected with the rebels. The commercial houses of all nationalities are losing heavily.

TWO TAKE POISON. Well Known French Socialist and His Wife Commit Suicide. Paris, Nov. 27.—The well known socialist John Le Fargue and his wife committed suicide to-day. Le Fargue left a letter saying that he felt the infirmities of old age, and threatened paralysis, and was determined to die while still in possession of his faculties. He chose prussic acid as the best means to die.

Mrs. Le Fargue was the daughter of the German socialist, Karl Marx.

STEAMER AGROUND

Calcutta, Nov. 27.—The steamship Becham from London is stranded on the island of Minicoy. She has on board a large consignment of articles for use in the durbar at Delhi. These include the harness for King George's horse, many women's gowns, and men's uniforms and four hundred cases of fireworks. It is improbable that any of these articles will reach Delhi in time for the ceremonies.

GOMPERS RE-ELECTED

Allants, Ga., Nov. 27.—President Gompers of the American Federation of Labor was unanimously re-elected at Saturday's session of the convention. Rochester, N. Y., was chosen as the next convention city. The vote was: Rochester, 3,923; Seattle, 5,554; Richmond, Va., 2,910.

IT'S ONLY CHAMP CLARK

MAY ATTEMPT TO FORCE DARDANELLES

ITALY LIKELY TO TAKE ACTION SOON

Russia Will Insist on the Neutrality of Strait Being Observed

Constantinople, Nov. 25.—Neutral commerce is seriously threatened by the proposed blockade of the Dardanelles by Italy and Turkey's consequent defensive measures. The ambassadors of foreign powers here are conferring on the subject and it is believed that Italy's action will not be delayed much longer.

It is thought Italy may even try to force the Dardanelles and dictate her terms of peace with Constantinople.

Russia's Attitude

Paris, Nov. 25.—Russia informed France and the other powers to-day that she insists on the neutrality of the Dardanelles as provided in the treaty of London in 1871. This notification follows the report that Italy is furthering the war against Turkey by intention to blockade the Dardanelles.

Turks Attack Daily

Paris, Nov. 25.—The Turkish troops have now re-occupied a greater part of the oasis of Tripoli and by daily attacks are preventing the Italians from extending their front, according to a dispatch to the Temps to-day from its correspondents with the Ottoman forces near Zouher.

Charges Against Turks

Washington, D. C., Nov. 25.—The Italian foreign office in a report received to-day by the Italian embassy, makes counter charges of Turkish mutilations of Italian soldiers. It alleges that in a reconnaissance made November 7 by the Italians beyond the entrenchments at Tripoli the bodies of five Italian soldiers were found, that one of these bodies was naked, that all the uniforms had been taken, and that three of the soldiers had been beheaded after death.

Warships Five on Liner

Algiers, Nov. 25.—The Austrian liner Martha Washington, bound for New

FIGHTING OUTSIDE WALLS OF NANKING

FORT WHICH COMMANDS CITY TAKEN BY REBELS

It is Believed Premier Will Try to Crush Rebellion by Force

Nanking, Nov. 25.—(Wireless to Shanghai).—The rebel forces to-day captured Tiger Hill fort, outside the walls of the city, which commands the city and river. Several big guns were taken. A number of Imperialists have joined the rebels.

Imperialists Repulsed

Pekin, Nov. 25.—Premier Yuan Shi Kai's position is becoming more intolerable daily. Neither the Manchus nor the Chinese trust him, and the Manchus are becoming more suspicious. The moderates do not hesitate to say that if Yuan had remained at Chang

He Fu the court would now be at Jehol and the rebellion ended. Many believe that while Yuan is reassuring them with a view of obtaining a loan and placating the merchants with pretended peace measures, he is in reality intent on crushing the rebellion by force.

The continued fighting at Hankow and near Nanking is taken as lending color to this belief.

The Imperialists after an attack on Hankow, that lasted 36 hours, were repulsed last Thursday and driven back across the Han river with great loss.

Populace Aroused

San Francisco, Cal., Nov. 25.—Efforts on the part of Premier Yuan Shi Kai to prevent numerous provinces from declaring their independence has aroused the populace of those provinces, and the people are clamoring to have the officials who have done the premier's bidding imprisoned, according to a Hongkong dispatch received to-day by the Chinese Free Press.

The premier telegraphed to the new authorities urging them to use every effort to prevent the people from declaring against the Manchu government.

McNAMARA TRIAL

Work of Selecting Jury Delayed by Death of Brother of a Juror

Los Angeles, Nov. 25.—Death which has hovered over the progress of the McNamara murder trial, struck to-day Charles Sexton, brother of Juror J. B. Sexton, died after an extended illness at 7 o'clock and Judge Bond was adjourned court until Monday morning. It was stipulated that Sexton could go home at any time he wished with permission of the court.

To Juror F. D. Freen the same privilege was granted. Green's wife is seriously ill.

Attorney Davis hastened after court to the home of his law partner, Juror Rush. He was stricken with apoplexy in the course of a trial of a case in which the first trial was halted by the critical illness of a juror.

Thus far in the progress of the trial two sworn jurors have been excused for physical illness and one has been allowed to go because of illness of his mother. J. H. Coke, now in the box, is not well and may be unable to remain.

Work Done by Parks Board in Winnipeg Affords Useful Example

The proposed public parks board which it is hoped to see established here at an early date, seen to make the report of the Winnipeg public parks board, which reaches the Times through the courtesy of Alderman R. C. McDonald, of special interest. Every one who knows the prairie capital will realize what remarkable progress has been made in the last few years in creating lungs for the rapidly growing metropolis of the middle west. The report also covers the Brookside cemetery and the park on the east side of the board, and is a good example of the application of landscape gardening under civic control to the God's acre.

During 1910 the board, which held twenty-two public hearings and composed of eight members, two also belonging to the city council, exercised authority over thirty-two parks, squares and street triangles. In addition to the parks, the board has supervised and expended for improvement and maintenance of parks amounting to \$78,733; and for street planting, boulevard maintenance and public buildings' squares \$149,075, making a total expenditure of \$127,808.

The report shows that in the large park, the Assiniboine, grounds for the children and a sand heap provided for the smaller parks tennis courts were laid out and nets provided. A new departure was made in the case of the Westpark (one of the eastern suburbs), where as a result of a deputation from the Weston Cottage Gardening Association the park was bumped over to the public parks board. The park is now in condition for the use of the children. The results were most satisfactory.

The Selkirk park is to contain the public bath house. The construction and maintenance of boulevards and street tree planting presented new and complex problems from year to year. Boulevards, having an area of 1,053,378 square feet with a property frontage of 40,776 feet, were constructed by day labor, and in each case grass seed was used in preference to sod; the seeding having passed beyond the experimental stage. The city has retained had an area of approximately 5,895,700 square feet, with a property frontage aggregating 488,869 feet (91 1/2 miles). The dry weather and the expense of the work, rendered some of the boulevards more difficult to maintain than formerly. The average cost was slightly higher than the previous year. Trees to the value of \$27,000 were planted on the boulevards and the property benefited by this improvement has a frontage of 88,161 feet, or over 16 miles. The native growth thus proved much better than the imported nursery grown stock, and was much cheaper.

"The care and protection of trees is a matter," says the report, "requiring more vigilance in the future than has been customary in the past. There are about 29,900 trees planted on the streets of the city up to the present, a matter of civic pride when compared with the lumbering prevalent in 1910.

Referring to boulevarding in a large way the report says: "Negotiations are almost completed for the construction of a driveway, one hundred and twenty feet wide, along the north and west boundaries of the city, and connecting Assiniboine park, Brookside cemetery and Kildonan park. The property has been secured at no cost to the city. The driveway is naturally the development and improvement of the driveway will take considerable time, but that it will be greatly appreciated by the present and future inhabitants of Winnipeg there can be no doubt."

In 1910 Brookside cemetery cost \$6,521 to maintain, the receipts being \$5,577, while 117 persons were buried there at a cost of \$97 in all, as against over 400 in Ross Bay cemetery here in the same period. In 1901 the receipts for the Brookside cemetery were only half those of the expenditure, or \$1,878 as against \$3,718; now they are \$5 per cent. of the annual outlay on the property.

The reorganization of the city engineering department has also advanced, with the mutual heart burnings and dissatisfaction which any re-organization involves. Mr. Sturtevant has already attempted to introduce into Mr. Smith's office by establishing hours when the chief may be seen and regulating the day's work, seeking to evolve system out of chaos. The change has involved the retirement of H. P. Orton, the accountant, but it is by no means assured that the department will lose the services of the veteran official.

The surface of the streets is one which affects every citizen, and the inevitable result of a big paving contract covering every part of the city is to be seen in the appalling condition of the public thoroughfares. Work started and then left off, and excavations for all the services which an urban community demands from its city and private sources of supply, light, telephone, street car, and drainage. Part of the progress payments of the Canadian Mineral Rubber Company have been held back owing to delay which entitle the city to a forfeit, but here the city officials are not at one, for the engineer, the official whose duty it is to pass on the work, is satisfied that due expedition has been used, while the mayor wants further information.

The beginning of what may develop into a long controversy with the B. C. E. R. over the reduction of lighting rates, now that power has been developed from the Jordan river, and is in use in the city, has been commenced this week in the determination to apply to the company for the advantages set out in the agreement, and which the company has indicated its intention to resist from various reasons. Next week attention is to be given to the plans of the Victoria Harbor Railway, which, though there may be some modification in some details, have to be considered in the light that the scheme is essential to the growth of the port. There has been too general a settlement prevailing that Victoria is a residential city, and unfitted for industrial purposes, but if the port is to be developed there must be communication between the terminals and the harbor.

Light on Tory-Nationalist Pact

Significant Speech by Member for Zamaska

Bourassa Looks to Premier Borden for Relief for French-Canadians

Will Open Republic to Foreign Trade

Dr. Sun Yat Sen Says New Government Will Remove Limitations in China

Parls, Nov. 25.—Dr. Sun Yat Sen outlined the future regime in China to the Couriers' European during his visit in Paris. According to this journal, he said the new government would be a federal republic and essentially modern, care would be taken not to touch the ancient traditions of old China, but the language, the customs and ancient language of the Mandarins, the idiomatic writings of which alone would be simplified.

"The revolutionists wish," added Dr. Sun, "to prove by abstention from violence, their sympathies with peace."

"The Chinese republic will be thrown open to foreign commerce and the first act of the new government will be to suppress all limitations on commercial relations with the outside world. In return, the republic intends to consider of fresh facilities granted for international commerce to reserve for itself the right to regulate the customs interests of its own growing industries, and no longer for outsiders."

Dr. Sun concluded by saying that the republic would respect all engagements of the Chinese empire, even those with Russia and Japan.

CRUSHED BY ELEVATOR

Vancouver, Nov. 25.—Walter J. Nichols, of 815 Richards street, who is employed at the C. P. R. stores, at the corner of Drake and Homer streets, was seriously injured by the elevator yesterday. He was engaged in unloading the elevator when it dropped some distance below the floor, and then

was caught under the floor and his neck and the side of his head were lacerated. The police ambulance was called and he was removed to the General hospital.

FLAT RACING OVER

London, Nov. 25.—Flat racing closed for the season to-day when the November handicap was won by Mr. Richard Brassey's 'Ultimus' to J. J. Lang's Fort, 10 to 1, was second, and A. C. Mandarass Donnez Moi, 100 to 7, third.

MR. JUSTICE GRANTHAM ILL.

London, Nov. 25.—Mr. Justice Granttham, who recently visited Canada, is dangerously ill.

DUNCAN IS THE SCENE OF DISASTROUS FIRE

It Destroyed Fine New Department Store and Spread to Adjoining Structure—Loss Was Heavy and Insurance Light

Fire Destroyed Fine New Department Store and Spread to Adjoining Structure—Loss Was Heavy and Insurance Light

(From Saturday's Daily.) Fire destroyed the three-story brick block of the Cowichan Merchants at Duncan this morning, and also burnt out their neighbors, the Odd Fellows block, with two stores beneath, and jumping across the street destroyed the livery stable of Keast & Blackstock.

Rain was falling at the time or else the conflagration would have been disastrous to the town, and most of the business premises in Station and Craig street would have also gone. However, the brigade under Chief Rutledge worked splendidly from the moment they received the call at two o'clock this morning, and at four had the blaze under control.

The cause of the fire, which is a mystery, had its origin in the handsome brick building of the Cowichan Merchants, general merchants, the finest building of the character on the island outside of this city. It was occupied about twelve months ago by the company, of which A. Peterson is managing director, upon leaving their old premises on the opposite side of Station street.

The premises were left safely at ten o'clock last evening, and no caretaker resides on the property, therefore it is impossible to know the incentive stages of the outbreak. The fine building was a mass of flames when the brigade arrived, and working with a 50-lb. pressure with 1000 feet of hose, and helped by a plentiful supply of water from the town mains, they spent no efforts to check the conflagration, which was of a serious character. The flames jumped an alleyway between the Cowichan Merchants' property and the Odd Fellows block, a frame structure built more than a dozen years ago, and remodelled three years since, which houses on the street level the baker's store, and contained the lodge rooms of the Duncan lodge of the I. O. O. F. above. This property was soon

guttered, and everything in the lodge furnishings lost. The bakery suffered severely, but Mr. Dwyer's premises were not so badly damaged.

Meanwhile the consuming element had leaped across Craig street, and set fire to the livery barn of Keast & Blackstock, a frame building several years old. The horses and vehicles were removed before the fire was obtained a foothold. Although fortunate in the presence of rain, and the absence of wind, and the heroic efforts of the brigade, had controlled the outbreak to the extent named above, so immense was the heat that the windows of the I. O. O. F. buildings facing the Station street front of the Cowichan Merchants' block, were broken with the fierce heat. However, the fire was brought under control effectively, and the losses were able in the dull November daybreak to ascertain the extent of the conflagration which is likely to remain memorable in the annals of Duncan.

The extent of the damage done has not been finally estimated, but the Cowichan Merchants lost a block which cost \$20,000 last year, and upon which \$5,000 has been expended on interior fittings, and stock valued at \$50,000. They carried \$10,000 insurance on the block, and \$25,000 on the stock by way of insurance. No estimate is available of the amount of insurance on the Odd Fellows' block and the livery barn, but the total loss will be well over \$100,000.

The Cowichan Merchants have lost to time in opening up business again in spite of their great loss, as they have rented their old quarters across the street from Mrs. Harry Smith, and will reopen on Monday. Mr. Peterson being in the city to-day to arrange for an emergency stock to carry them on till other arrangements can be made. As they employ a staff of 27 men, the action is very timely, and although some men will be laid off only a few will lose their employment at a time of year when other work is difficult to secure.

The Cowichan Merchants will rebuild their block at an early date as possible. Negotiations for the premises were in progress at Duncan, says the spondee at Duncan, says:

A fire was discovered this morning a little before 2 in the premises of the Cowichan Merchants, Ltd., destroying the building completely. It spread to Keast & Blackstock's livery stable which was burnt to the ground and also the Oddfellows building, which had two stores in it, one owned by W. Dwyer, gentlemen's furnishings, and the other by A. Page, baker and confectioner. Nothing was saved from the Cowichan Merchants store. The fire seems to have started in the basement and by the time the local fire

guttered, and everything in the lodge furnishings lost. The bakery suffered severely, but Mr. Dwyer's premises were not so badly damaged.

NEW PROBLEMS IN OLD CHINA

Major Fox Thinks Insurrectionary Wave Will Carry All Before It

(From Friday's Daily.) The whole of the province of Chi-Mi, although it has been under the influence of the Manchian dynasty for nearly three centuries...

The Major asked a number of questions about the progress of the insurrection about the investment of Nanjing had not been taken place. However, he said that he doubted the leaders of the revolution would be anxious to secure the country...

Beattie's confession was followed by the following statement of the attending ministers: "This statement was signed in the presence of the two attending ministers and is the only statement that can and will be made public by them."

Beattie was electrocuted at the state penitentiary at 7.23 a. m. A minute after the current was turned on he was pronounced dead. Beattie went to the chair with unshaken courage. In a downpour of rain, twelve witnesses to the execution tolled through the murky down on the hill where the penitentiary looks down upon the city.

They were quickly conducted in a single file through the twelve gates to the death chamber. The chair, a solid structure of oak, would ordinarily have appeared like a heavy library chair. In the chamber its appearance was sinister.

Three Rivers, Que., Nov. 24.—Word comes from the upper St. Maurice of the drowning of four men last Thursday. These men, who were contractors for the Wayagamack Paper & Paper Co., had gone up the St. Maurice, one of the tributaries of the St. Lawrence, had built their camp, and were on their way down the Latouque to meet their wives, who were to winter in the camps with them. The men felt the Flammid in a bark canoe. They got out of the small river all right, but had not gone far down the St. Maurice when floating ice cut through their canoe which sank, drowning the four occupants. The names of the four men were: Tremblay, Boullaine and two Gauthiers. They were all from the Saguenay.

LORD ROBERT CECIL ELECTED

London, Nov. 24.—The bye-election for the Hitchin division of Hertfordshire, rendered necessary through the death by suicide of the sitting Unionist member, Dr. Hillier, resulted in the election of Lord Robert Cecil by an increased majority over T. T. Gray, Liberal, the figures being Cecil, 5,142; Gray, 3,902.

San Francisco, Cal., Nov. 23.—Tom Gunn, the only Chinese so far known who operates an aeroplane, is in San Francisco, negotiating with revolutionary leaders to send him to China to help fight the Manchus. Gunn is an ardent rebel and says he is eager to do his duty to his country flying machine for the army. He uses an aeroplane of his own construction.

Ottawa, Nov. 24.—At a Liberal caucus this morning, Thomas McNutt was appointed permanent chairman to succeed John Toimie, who went down to defeat in North Bruce.

Richmond, Va., Nov. 24.—Henry Clay Beattie, jr., before his death in the chair, at 7.23 a. m. to-day, confessed to the murder of his wife. The statement, which was given out in the form of a down-town hotel, follows: "I, Henry Clay Beattie, jr., desiring of standing right before God and man, do on this, the 23rd day of November, 1911, confess my guilt of the crime charged against me. Much that was published concerning the details were not true but the awful fact, without the harrowing circumstances, remains. For this action, I am truly sorry and believing that I am at peace with God and will soon pass into His presence, this statement is made."

Beattie's confession was followed by the following statement of the attending ministers: "This statement was signed in the presence of the two attending ministers and is the only statement that can and will be made public by them."

Beattie was electrocuted at the state penitentiary at 7.23 a. m. A minute after the current was turned on he was pronounced dead. Beattie went to the chair with unshaken courage. In a downpour of rain, twelve witnesses to the execution tolled through the murky down on the hill where the penitentiary looks down upon the city.

They were quickly conducted in a single file through the twelve gates to the death chamber. The chair, a solid structure of oak, would ordinarily have appeared like a heavy library chair. In the chamber its appearance was sinister.

Three Rivers, Que., Nov. 24.—Word comes from the upper St. Maurice of the drowning of four men last Thursday. These men, who were contractors for the Wayagamack Paper & Paper Co., had gone up the St. Maurice, one of the tributaries of the St. Lawrence, had built their camp, and were on their way down the Latouque to meet their wives, who were to winter in the camps with them. The men felt the Flammid in a bark canoe. They got out of the small river all right, but had not gone far down the St. Maurice when floating ice cut through their canoe which sank, drowning the four occupants. The names of the four men were: Tremblay, Boullaine and two Gauthiers. They were all from the Saguenay.

MAJOR FOX THINKS INSURRECTIONARY WAVE WILL CARRY ALL BEFORE IT

(From Friday's Daily.) The whole of the province of Chi-Mi, although it has been under the influence of the Manchian dynasty for nearly three centuries...

CONFESSION TO THE MURDER OF WIFE

Richmond, Va., Nov. 24.—Henry Clay Beattie, jr., before his death in the chair, at 7.23 a. m. to-day, confessed to the murder of his wife. The statement, which was given out in the form of a down-town hotel, follows: "I, Henry Clay Beattie, jr., desiring of standing right before God and man, do on this, the 23rd day of November, 1911, confess my guilt of the crime charged against me. Much that was published concerning the details were not true but the awful fact, without the harrowing circumstances, remains. For this action, I am truly sorry and believing that I am at peace with God and will soon pass into His presence, this statement is made."

GERMANS TOO AWAIT SPEECH

London, Nov. 24.—The bye-election for the Hitchin division of Hertfordshire, rendered necessary through the death by suicide of the sitting Unionist member, Dr. Hillier, resulted in the election of Lord Robert Cecil by an increased majority over T. T. Gray, Liberal, the figures being Cecil, 5,142; Gray, 3,902.

STEAMER WRECKED; SIXTY LIVES LOST

Vienna, Nov. 24.—The Austrian steamer Romania was wrecked to-day near Rovigno. It is reported that sixty persons were drowned. A steamer had swept the coast from the Adriatic for three days and caused much damage to shipping.

REGARD SIR E. GREY'S STATEMENT AS IMPORTANT

London, Nov. 24.—Sir Edward Grey's statement in the British House of Commons next Monday in regard to the Moroccan affair is awaited by the most thoughtful Germans with intense interest not far removed from anxiety. Herr von Kiderlin-Waechter's statement before the budget committee of the Reichstag and acclamation of the narrowness of the escape from war before the German government since assuming the reins of office has been such as to give entire satisfaction not only to himself but to all. "There has never," he declared, "been any difference of opinion between us." (Laughter from the opposition benches.)

CHINESE PIRATES CAPTURE STEAMER

London, Nov. 24.—The bye-election for the Hitchin division of Hertfordshire, rendered necessary through the death by suicide of the sitting Unionist member, Dr. Hillier, resulted in the election of Lord Robert Cecil by an increased majority over T. T. Gray, Liberal, the figures being Cecil, 5,142; Gray, 3,902.

REBEL VICTORY NEAR HANKOW

San Francisco, Cal., Nov. 24.—Fighting which has raged for the last two days in the vicinity of Hankow culminated in a victory for the rebels accorded to a dispatch from Shanghai received by the Free Press. It was reported that the Imperial forces have retreated to Chi Jai Wan, an outpost a short distance north of Hankow.

REBEL VICTORY NEAR HANKOW

San Francisco, Cal., Nov. 24.—Fighting which has raged for the last two days in the vicinity of Hankow culminated in a victory for the rebels accorded to a dispatch from Shanghai received by the Free Press. It was reported that the Imperial forces have retreated to Chi Jai Wan, an outpost a short distance north of Hankow.

THRONE IGNORES NATIONAL ASSEMBLY

Refuses to Consider Other Demands Than Those Made by Yuan Shi Kai

Pekin, Nov. 27.—The Imperialists, by a combination of intriguing and delay seem to be putting themselves in a more promising position. The government declared Saturday that the province of Shantung had forsworn its independence, and that the Manchurian troops were proceeding southward in obedience to orders.

The Chinese papers say the promises of money, as well as the fact that Yuan Shi Kai would extend her control throughout the province, is responsible for the return of Shantung to the government. And as the province is bankrupt and therefore unable to conduct a government independently.

Reports from Manchuria and Chi Li say certain troops are ready to proceed southward as ordered, but others are unwilling to do so. Notwithstanding the fact that the throne had issued orders and that Premier Yuan Shi Kai had promised that fighting should stop in compliance with the demands of the Manchurian troops and of the national assembly, an attack was begun on Hainan while a prompt attack is expected upon the Shan Si rebels, who had the pass along the railway east of Yui Yuan Fu.

The throne's back has stiffened since Yuan Shi Kai has become premier, and now refuses to comply with other demands than those made by him. No notice has been taken of resolutions adopted by the national assembly with reference to the calendar and the cutting off of queues. Unable to induce the premier to appear before the chamber, and powerless to have its resolutions promulgated in an edict, the national assembly seemingly has given up its existence.

It is said that Manchu pensions will be continued. In this it is considered that the government is acting wisely, otherwise the long-headed disorders in Peking might begin. Yuan Shi Kai says he expects to conclude loans with French financiers and later with the four nations group. Members of the legations believe it will succeed if he retakes one or two provinces. Seemingly Premier Yuan has a difficult task before him to convert the north as he declares he intends to do. The sixth army division, which is now being employed against Shan Si, is typical of the apathy of the Chinese character. After the assassination of General Wu this month, he adopted the rebel side, and three days later, he retook the dragon flag and is now assisting in the attack on the Shan Si rebels.

Albert Pontius, American consul at Chungking, the most important port of western Yangtze, has notified the government that Chungking has come over to the rebels peacefully. Routed by Rebels. Shanghai, Nov. 27.—Telegrams received through reform sources from Wu Chang report the complete rout of the imperialists at Hankow. The republicans are said to have regained all the positions on the Hankow side of the Yangtze and Han rivers. A wireless report says there was heavy fighting, with great loss on both sides. There is reason to believe that the reports are much exaggerated, however, as a strict censorship is maintained at the telegraph offices controlled by both rebels and government.

Rev. John Wesley Hill, president of international peace, arrived at Shanghai Saturday from Japan, and was heartily welcomed. He saw Wu Ting Fang, former Chinese representative at Washington, who is now allied with the revolutionary movement, and received assurances of the determination of the Chinese to advance a united China to the forefront of nations and to respect the rights of foreigners, and particularly of Americans. At Dr. Hill's suggestion, Wu Ting Fang wrote to General Li Yuan Heng, commander in chief of the rebels at Wu Chang, suggesting that a proclamation be issued and circulated throughout the country urging that foreigners be respected and unharmed.

Movement Spreading. San Francisco, Cal., Nov. 27.—Jun Bun Chow, editor of the Chinese daily paper here, has received a letter from Wu Ting Fang, minister of foreign affairs for the provisional government, stating that the Chinese revolutionists are making great headway. The letter was written about ten days before Mr. Wu, who was formerly the Chinese ambassador to the United States, identified himself with the rebellion. "All the Chinese people in the Yangtze valley," he wrote, "are enthusiastic about the foreigners, too, are in sympathy with the movement. It is too early to predict the outcome, but to judge by the temper of the people, the new government must prevail." The leaders of the revolution, he said, were all men of education and modern ideas, and were carrying the war on in a civilized manner.

Aeroplanes for Rebels. Albion, Mich., Nov. 27.—Roy Wilcox, with a contract to furnish and maintain aeroplanes for the provisional government of China, is now on his way to San Francisco, where he expects to sail in a few days. His wife accompanies him. The young man, who lives near Albion, has been building and experimenting with aeroplanes for the last year or more, and some time ago made the acquaintance of several Chinese youths, one of whom is said to be prominent in the present rebellion. They inspired his interest, and one took several aviation lessons. Wilcox says he expects the aeroplanes will be used to drop explosives into cities held by the imperialists and to perform special duties.

CHINESE PIRATES INTERRUPT TRAFFIC

People Are Clamoring for Action Against Outlaws—Trouble Feared at Canton

Hongkong, Nov. 27.—The West river is swarming with pirates and traffic to Wu Chow and Kwang Si provinces is imperilled. The steamship companies are greatly alarmed and are considering the suspension of their services. Much indignation has been aroused by the attack by pirates on the British steamship Shoon On a few days ago when Chief Officer Nichols was murdered. The people are clamoring for intervention of some kind to put down the lawlessness.

In 1910, owing to piratical outrages, guards were placed on all the steamers and other precautions were taken, but later because of the over-confidence that the British flag was immune from attack, these precautions were relaxed.

The rifles have become rusty and there is no ammunition. One steamer carries a cannon, but no shells. Canton is said to be practicing in the hands of the brigands. Grave troubles are feared. General Lung is almost powerless to maintain order and contemplates flight. Some anxiety is felt by the foreigners.

OPIMUM SMUGGLER CONVICTED AT SEATTLE

Charges Are Made Against United States Customs Official

Seattle, Wash., Nov. 27.—In the trial of Sam Winngrass and Ben Goldsmith, accused of smuggling opium in trunks from Vancouver, B. C., government counsel ignored the allegations of the men's attorneys that the wife of one Mueller, also known as Callison, who put the smuggling idea into their heads, induced them to go to Vancouver, loaned them a false document and procured opium for them. A smuggler not serving a term in the county jail testified that Callison put him in the business, and a fourth man, yet to be tried, testified that Callison initiated him.

Winngrass was acquitted and Goldsmith convicted. On the witness stand Chief Inspector Lotus testified that Callison was a government employee. Counsel for Goldsmith in his address to the jury, stated that the opium seized by customs officials was not destroyed. He said that false bottom trunks containing opium passed from Vancouver to Seattle frequently, and that the greatest danger occasionally, were intended to give the appearance of great vigilance on the parts of inspectors.

Regarding the allegation of a conspiracy, government officials declared that it could be furnished if it were proved to the bottom. "I will prosecute any customs man who is guilty of such an offense," declared Assistant District Attorney Hutson. "It is true that I have heard rumors of this charge before. However, we must have definite and tangible proof brought to us first."

G. W. Channing, special agent of the treasury, and Frank P. Loftus, chief customs inspector, were equally strong in their declarations. That the conspiracy, if such exists, has been considered by the government officials before, was admitted by them. Callison is said to be in Portland, Oregon. Will Investigate. San Francisco, Cal., Nov. 27.—Local federal officials have taken cognizance of information brought here by Count G. de Galemberg, for many years commissioner of customs for the Chinese government, that opium is being shipped in large quantities on special chartered steamers from Macao, China, to Mexico, and thence smuggled into the United States. Count de Galemberg arrived in San Francisco yesterday on the steamer Korea from the Orient, and was waited on Saturday by a special agent of the treasury department, who is said to have obtained from the count valuable data concerning the alleged illicit trade.

MOVING PICTURE CENSORSHIP. Toronto, Nov. 27.—The example set by Ontario in establishing a board of censors to examine all moving picture films before they are exhibited in public has already had its good effect in Manitoba and Quebec, while British Columbia will likely come into line later on.

Chairman Armstrong of the Ontario board has received inquiries from the Montreal authorities as to the machinery and working of the Toronto board, with the intention of copying the system, if possible. Similarly, the Winnipeg municipal authorities have written asking for information. It is expected from these evidences of interest that the whole of Canada will be protected by such pleasant conditions as in Nelson.

SUNDAY TRAINS APPROVED. Vernon, Nov. 25.—The public meeting, held in the Opera house to discuss Sunday trains and kindred topics proved to be anything but a satisfactory gathering. Those opposed to Sunday trains, who were responsible for calling the meeting, could not be much pleased at the result, as the motion condemning this service of the C. P. R. was lost, an Amendment endorsing the action of the railway being carried by a large majority.

LAUNCHING OF TUG PLEASES EVERYONE

Olive M. Takes Water From Turpel's Yards Saturday Before a Large Crowd

Gliding down the well-graded slip with ease and grace and taking the water like a duck, throwing spray in every direction, the launching of the new tugboat, Pacific Lumber Company's Olive M., from Turpel's shipyards, on Saturday afternoon delighted both her builders and owners. The large crowd of spectators which gathered to witness the "crack little vessel" take her initial plunge also expressed satisfaction with the launching.

As the tug was set moving a pennant was unfurled on a temporary mast forward and revealed the name for which she was named. "That's fine," came as a surprise to nearly everyone present as it was announced that she would be christened the Beatrice. She is, however, to be known as the "Olive M." being named after one of the daughters of J. H. Moore, president of the Canadian Puget Sound Lumber Company. As the tug struck the water and floated on its bosom, the president was heard to remark, "That's fine" and he voiced the sentiment of the whole assemblage.

The Olive M., which is built under the Bureau Veritas flag, is the first tugboat to be launched in Victoria for some time. She possesses beautiful lines and her principal dimensions are as follows: length over all 86 feet, between perpendiculars 74 feet; beam 21 feet and depth 11 feet. After the launching the tug was towed to the Canadian Puget Sound Lumber Company's wharf where her machinery will be installed. She is to have the same engines and boiler which have propelled the old tug Beatrice.

It is understood that the Olive M. will be ready for service some time next month. Her upper works have yet to be built and this will take considerable time. She is to be used in towing booms of logs from the lumber camps at Jordan river to the mills here. The vessel will be better equipped than the old Beatrice for handling the booms. Built throughout by Douglas fir the Olive M. is as staunch a vessel, as there is registered at Victoria.

Shortly after the Olive M. had taken the water, working men began preparing for the launching of a large scow from another slip near by. This craft was also constructed for the lumber company and will be used for general work at the mills.

BURNED TO DEATH. Penton, Nov. 25.—A tragic death took place in the Hotel Penton here, which might have caused further tragedy, had it not been for C. S. Russell, who rooms at the hotel. Hearing a noise in the apartment next to his own, where a commercial traveller, named C. O. Douglas, lay sick, he ran to the door and on opening it found the bedroom in flames, and Douglas lying on his face over a burning lamp. He dragged the man away and extinguished the blaze with the appliances. Hearing his calls for assistance, several boarders ran upstairs.

Douglas was lifted into bed, but died in a few minutes. Douglas came in by the Kermeos auto stage, and appeared very ill. He complained of pains in his chest, caused, he explained, by over-exertion, when assisting to push the auto up one of the steep hills on route. He was seen later by Dr. White, who diagnosed the case, as one of pneumonia. It seems probable that Douglas became overheated, and afterwards caught cold, when he was in the auto. It is supposed he attempted to get out of bed and fell on the lamp, which had been lighted to keep the room warm.

Deceased leaves a wife and two children in Toronto. INJUNCTION GRANTED. Vancouver, Nov. 25.—Mr. Justice Murphy yesterday granted a perpetual injunction restraining the Dominion Wood Pipe Company of New Westminster, from manufacturing wire-bound wood pipe on a patent claimed by the Canadian Pipe Company of Vancouver. Rex Macdonald, who appeared for the Canadian Pipe Company, represented that they had applied for a patent in 1909, but did not secure it till 1910. In the meantime the Dominion Wood Pipe Co. was manufacturing wire-bound wood pipe on a patent claimed by the Canadian Pipe Company. No one appeared for the defence and the injunction was granted as asked for.

PURSE FOR FIRE CHIEF. Nelson, Nov. 25.—As a mark of appreciation and in honor of the occasion of his recent marriage, Donald Guthrie, chief of the Nelson fire department, was presented by the mayor, the aldermen and the city officials with a purse of gold.

The presentation was made by Mayor Selous who extended the congratulations of the city council, and the officials to the fire chief, who replied in suitable terms. Chief Guthrie declared that in 25 years' experience in fire departments he had never worked under such pleasant conditions as in Nelson.

THREE INJURED. Portland, Ore., Nov. 27.—Through the explosion of a quantity of stock which had been dumped into the furnaces of the municipal crematory, three persons were more or less seriously burned about the head and arms.

New Winter Coats. Reception Gowns and Dresses of Rarely Beautiful Design. Imported Models. Opera and Restaurant Cloaks. Starting at \$20.00.

BRITISH INTERESTS NOT THREATENED. Sir E. Grey Tells of Exchanges With Germany Regarding Morocco. London, Nov. 27.—In his speech in the House of Commons to-day on the Moroccan question, Sir Edward Grey told the House that Herr von Kiderlin-Waechter's disclosure of the conversations between the German ambassador and himself had taken him by surprise in diplomatic procedure. It was most unusual to make public any such conversations with the other party, and he knew nothing whatever of Herr von Kiderlin-Waechter's intention until he received the published account. He did not make any complaint, however, as he understood that the exigencies of the situation in Germany precluded any such consultation.

REV. CANON KITSON ON NE TEMERE. Publishes Reply to Archbishop Bruchesi and Sir Richard Scott. Ottawa, Nov. 27.—"Back of this decree lies the real question at issue, and in this question are involved not only the rights of Roman Catholics of the province of Quebec, but the natural and personal rights of every citizen of the Dominion of Canada. The question may be put before the reading and thinking public in this form: Has the Church of Rome ever received power or jurisdiction under the supremacy of the crown to constitute itself a judge and to summon parties and solemnly decide as to the validity of the marriage between them? Some may consider this question to be altogether a legal one, but notwithstanding its legal character, history, and especially the Canadian archives, can be quoted as trustworthy witnesses to give the necessary evidence."

BANK ROBBERY CASE. New Westminster, Nov. 25.—Another step in connection with the famous Montreal bank robbery was taken yesterday when John Bozyk appeared in the County Court before His Honor Judge Howay to answer to a charge of receiving stolen money, knowing the same to be stolen.

OPPOSE ADJOURNMENT. British Columbia Members Object to Proposed Recess Early Next Month. Ottawa, Nov. 27.—British Columbia members of Commons are opposed to a proposal to adjourn as early as Wednesday 7. They fall to see why the Dominion House should adjourn before the election in Ontario. Western members say they have closed their homes and taken permanent residence in the capital for the winter months and they favor a short recess and an early propagation of parliament as possible.

VALUABLE FURS STOLEN. Seattle, Wash., Nov. 27.—Upwards of \$10,000 worth of the finest furs in stock were stolen from the Muller fur store, 162 Second avenue, Friday night. The burglary ranks second only to the Wonder millinery store theft of \$10,000 worth of ostrich plumes two years ago.

GERMAN ACTRESS DEAD. New York, Nov. 27.—Cable advices received here announce the death in Germany of Ottillie E. Genes, one of Germany's famous actresses. She was 77 years of age. In 1869 Frau Genes undertook a tour through America, ending at San Francisco, where she founded the first German theatre. She managed this theatre for fifteen years with great success until recalled to Berlin in 1884 by the Emperor, who desired her to play in the royal theatre.

BORN. SAUNDERS—At St. Joseph's Hospital, the wife of E. P. Saunders (Goldstream), of a daughter.

DIED. SMITH—At St. Joseph's Hospital, on the 24th inst., Charles McKay Smith, a native of Windsor, Nova Scotia, aged 89 years.

NEW UMBRELLAS—Another lot of umbrellas are in with sterling silver and gold-plated handles.

JURY AWARDS \$800 FOR LOSS OF THUMB

Factories Act Case in Supreme Court Won by Workman Injured by Saw

By the decision of a special jury in the Supreme Court Thursday afternoon which returned a verdict for \$800 damages for William Hodgson, a fuller...

William Hodgson was formerly in the employ of the Westhorne Lumber company where he operated a circular saw which he had been using as a stationary saw at the time the accident occurred...

Mr. Higinis, in addressing the jury, referred to the Factories Act and the case was brought, while Mr. Maclean, for the defendants, urged that a cut-off saw could not be regarded as that matter was an accident and not due to the company.

VICTORIA WOMEN'S CLUB Will Be Ready at First Meeting

As the Times announced a few days ago, Victoria Women's Club has been finally organized and will be opened in rooms on the corner of Fort and Douglas streets...

The objects of the club are to provide a pleasant and convenient business and social centre for the women of Victoria, and to promote mutual sympathy among women of varied interests and occupations...

The club will be open every week-day from 9 a. m. to 10 p. m., and on Sundays from 2 p. m. to 10 p. m., during which time light refreshment may be obtained at a minimum cost.

TRADE IS ON INCREASE Large Amount of Freight Being Shipped from Victoria to Vancouver

None Issued Here—Referring to the discovery, about six months ago, of two plaster moulds bearing the impression of coins, near the Gorge park, Assistant Chief of Police Palmer has now received a reply to his letter written at the time to the secret service office of the United States at Washington, D. C., in connection with the find...

East End Ball—A meeting of the East End Athletic Club was held recently in a hall on the east end of the A. O. U. W. hall on Friday evening, January 5. G. W. Hill's five-piece orchestra has been engaged and the latest dance music procurable will be rendered. Everything possible is being done to make the coming affair exceed in splendor the one held a few weeks ago...

A Doll Show—A unique and highly interesting exhibition sale of dressed dolls will be held in the Alexandra Club by Miss Gertrude Beard on the afternoon and evening of November 29. The nature of the exhibits should have particular attraction at this season of the year when so many people are hunting for children's presents for Christmas...

Police Alarm Notices—Fourteen new police alarm boxes are to be installed in the city, making a total of 22 connected with the Gamewell signalling apparatus. They are to be located at the following points: Corner of Fort and Douglas streets, Humboldt and Douglas, Simco and Douglas, Simco and Menzies, Ontario and Dallas road, Yates and Cook, Fairfield road and Moss, Oak Bay junction, Fernwood road and Gladstone, Hillside and Cook, Douglas and Government, John and Bridge, Belton and Craigflower, Catherine and Esquimalt road.

Was Intercepted—Arthur Perrin, who Thursday was arrested by police on a charge of impersonating a police officer, was imprisoned for another year on Wednesday night on Menzies street, would probably have got away had it not been for the providential appearance on the scene of Mr. A. Tuxford. The latter, hearing Mrs. Torrence cry out, was just in time to intercept Perrin, who started to run along Menzies street in a southerly direction. Finding his way blocked he threw the purse in his pocket over his shoulder and doubled back across the grounds of the legislative buildings, being finally caught by the janitor there.

Dr. Eaton's Mission—The mission of Dr. Judson Eaton here has been erroneously stated in a morning contemporary to be the making of arrangements for the visit to this city of Dr. Morrison, who was unable to come here to address the National History Society on Monday last. The object of his visit, as has been stated in the Times, is to assist in the forming of a field branch of the Canadian Archaeological Society, which is affiliated with the American Archaeological Society, and to arrange for the visit here later of Prof. Knapp, of Columbia University, a leading authority on that science. The visit of Dr. Morrison was arranged entirely by F. Ker-mode, curator of the provincial museum, and will be made in the near future. With it, Dr. Eaton's present stay here has nothing to do.

Development League—A member of the Vancouver Island Development League in connection with its Sooke Branch, Mr. Sanderson, recently went to England on a visit, and as a result several inquiries have been received for literature from residents in his native county of Lancashire, who wish for information in connection with the Island. Mr. Sanderson took some literature with him, which was rapidly exhausted. A brickmaker desires detailed information about the industry of the Island, and has accordingly affords some opening with the present building development. A Saskatchewan contractor wishes to know the price of oats and hay in Victoria, as he figures on taking contracts for clearing land, and then turning it over for cultivation. He will bring his outfit and horses here at an early date.

Not to Be Sent—At the Victoria Debating Society Thursday A. T. Wright opened the discussion on the subject: "Resolved, That Napoleon's Character Was to Be Admired." He made that statement in opposition to the motion, and as a result a large number of the audience were present. Napoleon was one of the noblest and most successful figures in history, and his name is a synonym for greatness. He was not only a great general, but a great statesman, and his character was to be admired. He was a man of great courage and determination, and his actions were always guided by a sense of duty and honor. He was a man who was not afraid to stand up to his enemies, and he was a man who was not afraid to die for his country. He was a man who was a true hero, and his name will live on forever.

San Diego, Cal., Nov. 23.—The British sloops-of-war Shearwater and Ergone sailed for Esenada, Lower California, today. From there they are going by easy stages as far south as Valparaiso before returning to the Columbia port. The ships have been in San Diego bay since the middle of last week.

INDIANS PROSPER IN CHARLOTTE

SKIDEGATE-MASSETT IN FRIENDLY RIVALRY

Thomas Deasy Reports on Conditions Among Bands Under His Charge

Probably nowhere in the province is the Indian population so progressive as on the Queen Charlotte Islands. The report of Indian Agent Thomas Deasy, who was for many years chief in this city, makes interesting reading and contains much encouragement for those who desire to see the native bands prosper. The Indians under Mr. Deasy's watchful oversight are proving worthy of the care bestowed upon them. In his last report Mr. Deasy says:

Tribe of Nation.—The Indians of this band are members of the Haida nation. Reserves.—The 16 reserves of the Haida band are located on Graham Island and North Island, two of the Queen Charlotte group, and have an area of 1,872 acres. The land is level, with a portion cleared along the water front, and the remainder covered with spruce, hemlock, alder and cedar timber. On reserve No. 1, where the Indians reside during the winter, the main portion of the 729 acres is fit for cultivation.

Population.—The last census taken by the Haida band showed a population of 372. Since that time the band has steadily increased and will total 390.

Health and Sanitation.—The health of the Indians has been, generally, good. No epidemics prevailed and the principal cause of death was tuberculosis. The medical officer visits the principal reserve and public health is kept clean, and on the death of a person from consumption the building is fumigated. The medical attendant is engaged in vaccinating, and every precaution is taken to prevent contagion. Lectures on cleanliness and sanitary precautions are given, and any epidemic, or any other serious illness, with the exception of a number of cases of tuberculosis. Dr. S. A. Spencer resides on the principal reserve and has been most successful in his attention to the wants of the band.

Occupations.—The Skidegate band engage in fishing. A few engage in hunting sea and land otter and bear. During the winter months a number engage in the salmon canneries. The Indians in this work during the winter months, building houses and engaging in festivities, leaving in the summer months to work on the mainland and the other reserves, where some have small garden patches.

Buildings.—The residences of the Skidegate Indians will compare favorably with those in the white settlements. The main frame buildings, well constructed, and a large number of the houses are painted. Their town hall has been enlarged and the former Methodist church building has been converted into a school. A government wharf was constructed on the reserve during the past year.

Stock.—A number of the Indians own cattle, horses and chickens. The cattle and horses roam over the island during the whole year. The winter is not suitable for farming purposes. The land is not suitable for agricultural purposes where the Indians are located and they require few farm implements.

Statistics and Progress.—Whether a spirit of rivalry exists between the two remaining bands of the Haida nation, or it is characteristic of the tribe, the same progress can be noted among the Skidegates that mark the Massett Indians. Advancement all along the line is the watchword: town council, curfew laws, good government, and the school when the Indians are at the place where the school house is located; a splendid brass band for the teaching of which the Indians paid a white man during the summer months; good attendance at church and at the lectures delivered by the energetic pastor, Rev. Dr. J. C. Spencer; the men, women and children of the band, who are reported as cases of destitution reported. Considering that there are no police officers in the neighborhood of the Indian reserves, and the proximity of some people who are always willing to provide the Indian with intoxicants, the general conduct of the Indians must be commended. They are working out of what may be termed "an old groove" of the better class of whites—and the Skidegates are not one whit behind the Massetts in their endeavor to aid the Christian teachers in the line of progress.

Temperance and Morality.—Again the advent of the people who bring with them demoralization is having its effect on the Indian. Intoxicating liquor reaches the few, no matter how earnest the temperance advocate or how much distress follows in its wake. The reason that there is no one to prosecute. It has not been considered necessary by the authorities to introduce police officers in the neighborhood of Skidegate, despite the quantity of intoxicating liquor that is noticeable in that neighborhood. Some Indians will procure liquor by any and every means, and will pay any amount to obtain it. A few people will sell intoxicants, no matter what may be the consequences. The easier it is to dispose of liquor the cheaper it is sold, and the more is circulated. If the labor of years of missionary work is to show good results, the liquor traffic among the Indians must be suppressed. The

recently the introduction of alcoholic liquor on Queen Charlotte Islands was a matter that caused little trouble. Months would pass without the arrival of a vessel from the settlements. All is now changed. Steamers arrive regularly, and the white settler is coming in with the hotel and the license to sell intoxicants. The large majority of the Massett Indians are safe from the temptations now surrounding them; but a few make every endeavor to procure intoxicants, and the effect in the whole band is problematic. When a licensed house is allowed almost on the limits of an Indian reserve, and when men come and go on steamers, the Indian will make every effort to obtain intoxicating liquor. The Massett band has been the pride of the missionary for many years; but never before have the temptations now besetting the Massett Indians been so numerous. The missionary, doctor, school teacher, and agent, all are endeavoring to stem the tide of adversity that follows the Indian when temptation of this kind is in his way. We have many examples of the few who have already broken the law; but the question of keeping the Indian from intoxicating liquor has been one long fight. The Indians are not to be taken for granted. They are as far apart in the way of social intercourse as any other two tribes. They are intermarry seldom, and it is usual for a Massett to marry one of his own tribe and for a Skidegate to marry a Skidegate. The Indian manner of marrying has been entirely superseded by the Christian ceremony. The children are all baptised, and given Christian names. In dress and manner the Indians emulate the whites. A large number speak the English language, but in the homes the Haida language is exact. As business men, and a few of them are shrewd and competent. Taken as a whole, the Indians of this agency are increasing in numbers, and will, in our opinion, continue to march forward with the large number of settlers now about to make their homes on the Queen Charlotte group. No more law-abiding people can be found, and the Indians of this agency have it to their credit that no serious offenses have occurred among them during the whole year. They welcome the advent of the white people, and assist them in every possible way. The few who are found in the act of doing wrong are dealt with in accordance with the law of the land, and the problem of raising the Indian from a slave-owning warrior to a good Christian man is necessary to convince the world of the progress made in less than half a century. It can be found on the shores of the Queen Charlotte group of islands, where the Haida nation has two towns that stand forth as a lasting monument to those missionaries who gave their lives and their all for the once uncultured Indian.

morality of the Skidegate Indians compares favorably with the Indians of the coast. Away from their homes—in the fishing camps—there is a lack of supervision that tends to depravity; but the Christian teaching of the missionary, and the general supervision, even in the canneries, of the pastors who often accompany the Indians in their migrations, is having a good effect.

CHINAMAN'S LIFE SAVED BY PULMOTOR

Revived After Being Buried For Twenty Minutes Under Tons of Dross

Nanaimo, Nov. 22.—That Sing Wah, a top hand employed by the Western Fuel Company, No. 1 shaft, is alive to-day is due to the good work done by a Pulmotor in the hands of Thomas Graham, superintendent of the company, who revived Sing when he was buried under tons of dross after having been buried for 20 minutes under six tons of dross. Sing, who is employed about the pit head in the bottom of a car, had been buried under the trap door of the dross bin above gave away allowing the dross to drop into the car, completely burying the Chinaman. No person witnessed the accident, and it was not until Tully Boyce, a foreman, noticed the car pulled under the chute and the trap door sprung, which allowed the dross to fall to the ground. As the car was pulled along the track, leaving a trail of dross behind, it was discovered that the car was empty. The man was a corpse. There was only one chance for his life, and Mr. Boyce acted promptly. He was acquainted with the life-saving apparatus of the Western Fuel Company, and rushing to the station was lucky to find Mr. Graham about who had the Pulmotor, an attachment used to find Sing, with the results that within two minutes he was revived and in five minutes was again conscious. This is the first instance where a life has been saved by means of the Pulmotor, for Mr. Boyce firmly believes had it not been for this apparatus Sing would have died.

EARL GREY PATRON OF ORGANIZATION

Nelson Home Re-Union Association Formed—Capital in Credit of \$2,600

Nelson, Nov. 22.—With 52 signatures to its bond, and after waiting for the first of his kind, the Nelson Home Re-Union Association, as a result of a recent meeting of the guarantors, is ready for business. This organization, the first of its kind, is formed in aid of the Nelson Home Re-Union Association, which is a guarantee to the bank, provides machinery whereby the man of family in Nelson, supporting a family in the Old Country or Western Canada, may secure the loan, the want of which is perhaps indefinitely delaying the settlement of his family here. As each signature means a credit of \$50, the association starts with a capital of \$2,600. The association will be formed in aid of the Nelson Home Re-Union Association, which is a guarantee to the bank, provides machinery whereby the man of family in Nelson, supporting a family in the Old Country or Western Canada, may secure the loan, the want of which is perhaps indefinitely delaying the settlement of his family here. As each signature means a credit of \$50, the association starts with a capital of \$2,600. CONCENTRATOR RUNS DAY AND NIGHT

Four Hundred Men on Payroll at Britannia Mine on Howe Sound

Vancouver, Nov. 24.—J. W. D. Moore, M.E. of New York, has arrived here to succeed Robert W. Leach as general manager of the Britannia mine on Howe Sound. Mr. Leach is leaving here for California. During his administration the mine has been extensively developed, and now has over four hundred men on its payroll, the largest number employed in any mine between here and Alaska. The concentrator at the beach is running day and night and over nine thousand tons of concentrates are being shipped monthly to the Tacoma smelter. Hon. Edgar Dewdney of Victoria, who is financially interested in the mine, was in town yesterday on business in connection with the change of management. Mr. Leach made a splendid reputation during his connection with the property.

MEXICAN TROUBLE

Gomez and Reyes Reported to Have Joined Hands to Overthrow the Madero Government

Mexico City, Nov. 24.—That Emilio Vasquez Gomez and General Reyes have joined hands in an effort to overthrow the Madero government is indicated in information received by the president from the secret service of the government now in San Antonio. Vasquez Gomez, who is arrested at the instance of the government officials who received such advice from the government, is reported to have been in the interior department, say the official advisers, state that the engagement at the hacienda of San Nicholas has taken place. These advisers state that the insurgents under Candaco Frontal have announced they are fighting against the government and the war cry of Procala's men is "Viva Reyes."

WOMEN ARE FAR WORSE

Regular Swindlers as Jurors—Influence Won Case Against Fish Company

Bellingham, Wash., Nov. 22.—One of the women jurors of the late trial against the Carlisle Packing Company and the Pacific Fisheries accused of fishing unlawfully, is said to have been instrumental in winning over four absconder jurors and bringing in the verdict of "guilty." The case was brought at the instigation of County Game Warden John Aitken. He testified that in company with two other men he reported a boat to the traps owned and operated by the defendant fish company at a time between Friday night and Saturday morning when the state law declares "the traps must be kept closed."

STRANGE BEDFELLOWS

Sam Hughes, Orangeman, and Pelletier and Nantel Sleeping Together

The Chicago New World, of which Dr. Thomas O'Hagan, the well-known Canadian teacher and writer, is editor, says: "The Borden Government may do well for Canada and fully satisfy the French-Canadian people. Indeed, we hope it will; but truth is, it is made up of some strange bedfellows. We would not be surprised if very soon some disturbing nightmares would set in—'weird seizures,' as Tennyson would call them. Just fancy for instance, Sam Hughes, the head of the Orange lodges in Ontario, couched in political slumber with Pelletier and Nantel. We fancy we hear Sam's voice call out from the foot of the bed: 'I am, Sam, 'Do you believe in the Ne Temere Decree?' 'Of course I do.' 'Well, Orange lodges which I represent in fact, must call out the militia to suppress it. Are you still speaking French in the railway stations in Quebec, Pelletier?' 'Why, of course, of course.' 'Well, you must give up your French jargon and talk to the language of Shakespeare, to the Orange lodges of Ontario, which I represent, have passed resolutions to the effect that you are a traitor. You are a French Currier all spoke French when he discovered America. We speak French in Quebec by right of eminent domain; perhaps he has forgotten the speeches he made at London, Ontario, on the Autonomy Bill.'"

EIGHTEEN MONTHS IN JAIL FOR BOY

Youths Hold Up Chinese With Toy Pistol—Lottery Keepers Go to Higher Court

A colored boy named Roy Alexander, who said when charged to-day with holding up a Chinese with a toy gun, that he was eighteen years of age and an orphan, was given a sentence of eighteen months imprisonment for the offence. He previously, on August 23, 1908, was sent to the reformatory for two years for theft. There were then two charges against him, and on June 15 this year he was allowed his liberty on suspended sentence on a charge of stealing a bicycle.

In company with a boy named Victor Marsh, who provided the toy pistol, one such as can be bought for ten cents, Alexander on Monday night last went to the corner of Government and Herald streets and there awaited the Chinese, who was the first Chinese that came along," they said, and when the Celestial appeared the toy gun was held in his face while the accused went through his pockets. The Chinese disputed the evidence of Marsh that he had held the Chinese up with the pistol, but admitted he had gone through the victim, and the Chinese bore out the statement in his evidence. In referring to the pistol, said it was good enough to hold up a Chinese with and that he saw Alexander go through the man's pockets.

Arrested in a raid made by Detective Anderson and his men on Sunday night, and this morning charged with selling a lottery ticket, two Chinese, Sing and Kwa Jack, who are defended by W. C. Moreby, reserved their defence and declined to take a trial before a higher court.

When the raid was made a number of white men were found in the store on Stone street waiting for the drawing. Three of these named McLaughlin, Knight and Lloyd, longshoremen, gave evidence this morning of having bought tickets there and the Chinese police court interpreter, Tip Wing, translated the characters on the tickets, saying they were the first 50 characters of a Chinese school book.

His evidence also went to show that the odds against the purchaser of a ticket are innumerable and that it was possible, even in the drawing, to get 10,000 marked tickets, that not one of them might win a prize. In this connection Mr. Moreby maintained that the thing was not a lottery and, therefore, the charge had not been proved. The magistrate, however, sent them for trial. The police are holding three men against whom no charges are made in connection with an assault upon a Chinese man who is at present in the hospital. The men will be detained until the Hindu is well enough to appear to identify the men, and they may be taken to the hospital this afternoon in company with a interpreter for the purpose of identification.

FINDED FOR SPEEDING

New York, Nov. 24.—Promoters here are planning a set scale of weight limits for the different divisions of pugilists which must be observed before a fighter can get a match here. It is hoped to have the scale made uniform throughout the country, to put a stop to the unreasonable demands in the weight line made by almost every man who has fought his way to the top in any division during the past few years.

The weights, ringside, are as follows: Bantam, 118; feather, 120; light, 135; welter, 145; middle, 168; light heavy, 175; heavy, 175 and over.

CRUSHED UNDER WHEELS

Seattle, Wash., Nov. 24.—Hugh H. Jones, a Chicago, Milwaukee & Puget Sound railroad car inspector, 60 years old, at 226 Twenty-second avenue, died at the Seattle general hospital from injuries received on transfer track 9, at Massachusetts avenue, while inspecting a car. Both legs were cut off below the knees. He was taken to the hospital, where an amputation operation was performed. He never rallied from the shock of the injuries. In a motor car standing below the car engine 900 sent a car down a sidetrack next to the truck on which Mr. Jones was at work. In some manner the car took the wrong track, jamming the car Jones was standing below. He was thrown across the rail and the wheels of one truck passed over his legs.

QUESTION OF CIVIC HOSPITAL DISCUSSED

New Westminster Council Requests Conference With Board of Directors

New Westminster, Nov. 23.—The city council at its regular session again considered the plan of the city conducting its own general hospital, with the result that overtures will be made by the council to the board of directors of the Royal Columbia hospital with a view to the city taking over that institution and conducting it as a civic institution.

Ald. Dodd brought the matter to a head by moving that the city clerk be instructed to write to the representatives of the various bodies represented on the hospital board to ascertain if they would make the city interested in the hospital. The city council instead of the city making the first move, as some people might think that the city wished to grab the hospital. If the board can run it, let them do so, but if they can't, let them bring in a proposition to the council.

Ald. Dodd was not particular who made the first move, so long as it was made soon, as the Royal Canadian hospital was crowded to its capacity, and the board had not the means of taking care of all the cases.

Ald. Bryson stated that it would look better for the hospital board to ask the council for assistance than for the council to practically ask the board if they needed it.

Mayor Lee said that the question was a city affair, and that the council should see that it was settled as soon as possible. "We hold up the first Chinese that come along," they said, and when the Celestial appeared the toy gun was held in his face while the accused went through his pockets. The Chinese disputed the evidence of Marsh that he had held the Chinese up with the pistol, but admitted he had gone through the victim, and the Chinese bore out the statement in his evidence. In referring to the pistol, said it was good enough to hold up a Chinese with and that he saw Alexander go through the man's pockets.

FRISCO'S MARINE NEWS

Mathilda to Carry Coal From Nanaimo to Golden Gate—Will Not Confirm Sale.

San Francisco, Nov. 24.—The "Northwest" steamer Mathilda, under time charter to W. R. Grace & Co. has been re-chartered for one voyage from Nanaimo to this port with coal for the Western Fuel Company. After discharging her coal cargo here she will return to the Sound in ballast to load lumber of South America in the regular Grace Line.

The British steamer Crocydon, under time charter to Frank Waterhouse, arrived yesterday in ballast from Pisagua. She will reverse the regular order of the line and load part cargo here, sailing direct from the Sound for Australia.

The British steamer Queen Elizabeth, in from Newcastle, Aus., with coal for J. & A. Brown, will proceed to the Sound next week to load lumber for Australia, being under time charter to the American Trading Company.

The Oceanic S. S. Co. officials positively refuse to confirm the sale of the Mariposa to the Alaska S. S. Co. but it is practically certain that the deal will go through, although the final papers may not yet be signed.

WHITE LINER HAS FINISHES FAIR TRIP

Chinese Aboard Demonstrate in Weird Custom—Brought No News of the China

(From Friday's Daily.) With over a million dollars in silk, a cargo of general freight valued at approximately half a million and a passenger list of about 400, the R. M. S. Empress of India, Capt. Beetham, arrived at the outer docks at 8 o'clock this morning from Yokohama. The vessel, which was heavily laden with weathering a strong southeast gale. When nearing the coast of this island heavy rains were experienced and light northerly winds.

The Empress had a very small saloon passenger list, one of the lightest that any of the white liners have ever had. There were but 14 who travelled as first class, including the following: Mark Baggallay, Chinese; Miss Edna Campbell, Major A. C. Fox, E. W. Gotch, J. H. Harris, Y. Hosbi, Mrs. M. W. Keith, Mrs. Macdonald, Miss M. Macdonald, John Marshall, Lieutenant James Powell, R. N. R., Miss Ida Stevenson and Mrs. W. W. About 50 persons travelled as second class, and there were 350 Orientals in steerage.

During the trip from Yokohama much interest was displayed in the Chinese quarter of the ship over the revolution which is in progress in the Flowery Kingdom. Every man aboard the steamship was a rebel to the backbone, and many of them to show their sympathy with the movement severed their queues from their heads. Arrangements were made by the Asiatics during the trip that on their arrival at Vancouver they would give a demonstration to show that they are in favor of a new China. They intend to cut their pig tails and carry out a weird ceremony, of which the inside workings are only known by the Mongolians.

Officers and members of the crew of the white liner were anxious to know as to whether the sailors had been subjected to practically ask the board if they needed it.

Mayor Lee said that the question was a city affair, and that the council should see that it was settled as soon as possible. "We hold up the first Chinese that come along," they said, and when the Celestial appeared the toy gun was held in his face while the accused went through his pockets. The Chinese disputed the evidence of Marsh that he had held the Chinese up with the pistol, but admitted he had gone through the victim, and the Chinese bore out the statement in his evidence. In referring to the pistol, said it was good enough to hold up a Chinese with and that he saw Alexander go through the man's pockets.

Arrested in a raid made by Detective Anderson and his men on Sunday night, and this morning charged with selling a lottery ticket, two Chinese, Sing and Kwa Jack, who are defended by W. C. Moreby, reserved their defence and declined to take a trial before a higher court.

ITALIAN FORCES UNABLE TO MOVE

Town of Tripoli Reported to Be Virtually Besieged by Turks

Paris, Nov. 24.—That the town of Tripoli is virtually besieged by Turks, and that the situation is no better than that of the correspondent of the Temps, who has succeeded in joining the Ottoman forces near Zouaghar.

He telegraphed regarding the Turkish side of the war under date of November 22 and says: "It is certain that after a month and a half of work at bare expenditure and serious losses, the Italians are no further advanced than on the day following the disembarkation. If the Turkish forces are inferior in numbers to the Italians, they make up in confidence.

"I expected to find disorder and dismanagement; on the contrary, everywhere I met order, discipline and contentment. "Patient and ready for everything, the Turkish soldier is accepting all without complaint. If he suffers he knows it is for the Empire of Islam, while the Arab knows that if he dies Paradise will be his."

The correspondent is unable to divulge the number or plans of the Turks, merely saying that their military attack must await helpful observations.

KAMLOOPS HYDRO-ELECTRIC PROJECT

Council Decides to Submit By-law Providing for \$300,000

Kamloops, Nov. 24.—An important special meeting of the council was held in the council room to discuss the reports of engineers on the hydro-electric project at the Barrier river. The detailed report of Mr. Herman, Mr. Burrell and also a supplementary report from Mr. Dutcher were read, after which a lengthy discussion took place among the aldermen. No action was taken on the report.

The question arose as to whether it was advisable to perfect the city end of the scheme first by bringing the local plant to a state of efficiency by the addition of a centrifugal pump in the present power house which is to act as an auxiliary to the Barrier plant or submit a by-law to raise funds to cover the entire project.

Mr. Herman's report differs in some important features from that of Mr. Dutcher, and he estimates the cost of construction per horse power at a higher figure than Mr. Dutcher. The cost of construction as estimated by Herman is as follows: Hydraulic development \$67,550; power plant \$55,500; transmission line per mile \$1,080—45 miles—\$48,600; telephone \$500; two six-standoff towers \$15,000; right of way \$4,100; 125 miles of wire costing \$13,645. Interest and sale of bonds and contingencies brings the total cost up to \$265,325, or \$133 per horse power. The plan and long transmission will raise the cost above the average, but the work should be designed for enlarging the capacity and in his report he had kept that point in view.

Dutcher's supplementary report contained another proposal to develop 10,000 horse power, 2,000 initially, by moving the plant a mile higher up and obtaining a 400-foot head. The covered concrete ditch he considered a very sound and economical proposition but the cost would be prohibitive.

Ald. Rushton thought the city solicitor be instructed to prepare the necessary papers to record the water on the Barrier from the bridge to a point seven miles above, and also secure storage rights on the lakes. Carried.

Ald. Cornwall thought that specifications and plans should be called for to perfect the city plant, including a new reservoir, two boilers and a pump providing a complete unit with a capacity of 2,500,000 gallons per day, involving an outlay of about \$75,800. He introduced a motion to that effect, which was seconded by Ald. Crawford.

Ald. Rushton thought the time to go before the people with a by-law to raise money for the Barrier project had arrived and he suggested a sum of \$300,000. The city needed a new system and the sooner the machinery was put in motion the better.

Ald. Graham moved that a by-law be submitted to raise a sum of \$300,000 to cover the probable cost of the Barrier project, which was seconded by Ald. Rushton.

The mayor strongly opposed this motion, as did Ald. Crawford. The mayor pointed out the heavy expenditure facing the city next year, and said while he favored the project, he thought a by-law to raise funds without having tenders in and without knowing cost was premature. If the city end of the scheme was completed now the bigger project could be carried forward without undue haste. The borrowing capacity of the city was at the present time \$375,000, and calls upon the treasury next year included \$20,000 for school and \$30,000 for water mains, \$45,000 for new school, and another light circuit will have to be installed. He questioned the wisdom of sinking the city borrowing power before settling whether that sum will cover it or not.

Ald. Graham's motion carried by four votes to three.

SCOTTISH LEAGUE GAMES

Glasgow, Nov. 25.—Today's Scottish league games resulted as follows: Hearts of Midlothian, 1; Aberdeen, 2; Ardronians, 0; Greenock Morton, 1; Motherwell, 3; Celtic, 2; Clyde, 1; Hibernians, 0; Kilmarnock, 1; Dundee, 0; Glasgow Rangers, 7; Hamilton Academical, 0.

Third Lanark, 1; Falkirk, 2; Paisley St. Mirren, 2; Queen's Park, 0.

LOOKING BACKWARD ON WARD SYSTEM

Some Changes of Thirty Years in Election of Victoria's City Fathers

The determination to submit a referendum to the citizens next January on the abolition of the ward system will, if carried, bring the city into line with most of the municipalities of the province in the election of councilmen at large. Special exceptions were made in the Municipal Clauses Act in the cases of Victoria and Nanaimo when the statute was passing through the legislature in 1906, and few of the cities still retain the ward system, although it was incorporated "into the statute for rural authorities in order that the more sparsely populated districts which exist in some of the rural municipalities might secure some representation which they could not hope to get if the ward system were abolished.

Some of the cities could elect their own men over the head of such representatives. Since, however, the municipalities around Vancouver have changed from a rural to an urban character, the tendency has been to seek to elect the councilors from the whole area, and steps to legalize this end are in progress in two or three districts at the present time. Vancouver city will automatically end the ward system in twelve months' time, when the city secures commission government, and New Westminster abandoned it some years ago, now electing seven members from the whole body of the citizens.

The ward system as it is now understood in Victoria goes back to the Municipal Clauses Act of 1906, as at the expiration of that year the city was still divided into North, Central and South wards, each returning three members, and so strange are the vagaries of life that the mayor has only one alderman, W. F. Fullerton, around the council board which was chosen but a few years ago. The division into three wards was unchanged from 1882 to 1906, and it was during the second mayoralty of Hon. Robert Beaven that the alteration was made from the old three wards, known as James Bay, Johnson street and Yates street wards. At the January poll in 1892 these divisions were used for the last time, the alteration above indicated being made in the following year. At that time three members were returned for each ward, making nine in all, but this was reduced to six in the early eighties when each ward had its two members; in fact, in Johnson street ward in 1887 the second and third candidates had votes each, and the returning officer declared John Coughlan elected over J. Robertson. An election by wards may easily lead to a tie, particularly in small polls, and this was seen in the James Bay ward in 1882, when the returning officer, W. K. Bull, gave his casting vote against William Wilson, a retiring councillor, who was equal third on the poll with John Hall.

MOPE SUFFRAGETTES SENT TO PRISON

Lady Constance Lytton and Lady Sybil Smith Given Two Weeks in Jail

London, Nov. 25.—Lady Constance Lytton and Lady Sybil Smith, both leaders in the suffragette movement, were sentenced, at Bow Street police court, to a fortnight in jail for smashing windows during the demonstrations last Tuesday. Mrs. Mary Leigh, who has been, as described by the police as the most troublesome of the suffragettes, was sentenced to two months in jail and if she were again convicted, she would be sentenced to hard labor. The remaining 13 cases were put over to next Monday.

In the police court on Thursday Mrs. Kathleen Robwell, who had broken a big plate glass window on the Strand, managed to make a brief speech in spite of the protests of the magistrate.

"It is out of my great love for humanity and particularly in my devotion to women and children that I do this," she said. "Sex discrimination is the root of social evils and I am prepared to do anything the militant branch of suffragettes dictate in an effort to gain votes for women."

Mrs. Robwell was committed for

RUGBY CHAMPIONSHIP

Toronto, Nov. 25.—The University of Toronto defeated the Dominion football championship from the Argonauts today by 14 points to 7.

REBELS ORDERED TO MASSACRE MANCHUS

Missionaries Tell of Outbreak at Sian Fu—Many Killed by Brigands

Pekin, Nov. 25.—Missionaries arriving in Peking from Tungchow Fu, 80 miles north of Sian Fu, give accounts of the recent revolution in the province of Shen Si, where the anti-foreign element declared its intention to exterminate foreigners, Christians and Manchus, but only partly succeeded.

The rebel general at Sian Fu, they say, issued a proclamation to the people not to learn merchants, foreigners or non-combatant Chinese, but only to destroy Manchus. The Manchus thereupon prepared for defence within their fortified section of the city. They withstood an attack by a mob made up of students and soldiers, but in an attack the next day nearly all the Manchus were slain.

According to the missionaries, the Chinese informed them that horrible barbarities accompanied the slaughter. The Manchus women were spared and carried off by Chinese officers and soldiers.

At the massacre the revolutionaries neglected to properly police the city, and bandits plundered shops and demanded money of the inhabitants. They burned the school of the Scandinavian-Chinese Alliance mission and killed Miss Beckman and other teachers. A missionary was wounded, but succeeded in rescuing a number of the school children. When the rebels entered the city they decapitated many of the outlaws.

During the disorder the English Baptist mission was threatened, but not attacked. When the missionaries fled, Tungchow Fu the rebels continued to administer the city, especially, but brigands swarmed throughout the province. The country people near Tungchow Fu organized a militia and killed many of the robbers.

Another party arriving in Peking from Southern Shen Si, believe the Sian Fu missionaries will be unable to get away, owing to the condition of the roads. This party was attacked when on the way higher by 20 highwaymen, who badly beat Dr. Bloom, a Swedish missionary, who was in advance of the refugees, and they slashed his wife with sabres. They declare that 14 soldiers who were escorting the party did not once lift their rifles against the outlaws.

The party also gives an account of a massacre at Tung Kwan, Brigands posing as revolutionists captured and looted the town, killing 2,000 of its inhabitants. Imperial troops then recaptured the place, killed 1,000 of the brigands and carried off down the river 15 loads of Chinese girls. Later the revolutionists, took Tung Kwan.

Roger S. Green, the American consul general at Hankow, telegraphed that anti-foreign placards are being distributed in Nan Shang, Hu Peh province. The American legation has arranged for the transportation of all missionaries reaching the railway from the Yangtze river, but it remains to be seen to assist those beyond the Yangtze river.

Yuan Shi Kai continues unsuccessful in his efforts to obtain a loan. He informed the legation today that he had prepared a scheme by which he hoped to end the revolution. He said he did not intend to allow further fighting, but declined to disclose the nature of his scheme.

FIVE HUNDRED SPECIAL CONSTABLES

Aberdeen Citizens Prepare to Resist Threatened Invasion by I. W. W.

Aberdeen, Wash., Nov. 25.—Five hundred men, including the most prominent in this city in all walks of life, stood in the Elks' hall yesterday afternoon, raised their right hands, and were sworn in by Mayor J. W. Parks as special policemen to "maintain law and order" in Aberdeen, and to resist to the utmost a threatened invasion of Industrial Workers of the World, who propose to attempt to force the repeal of an ordinance which prohibits street speaking except within certain specified limits.

Guards were last night stationed on all roads leading into the city, with orders to arrest every suspicious character and turn back all those who cannot give a good account of themselves and satisfactory answers as to their business. The business men are determined to stop at the very outset the I. W. W. proposed campaign.

All saloons were closed at 6:30 o'clock last night, and the mayor issued the order was scrupulously obeyed. Notices were sent out during the day by the city superintendent of schools, Arthur Whelan, to parents to keep all children under the age of 16 out of school at night, and each child leaving his schoolroom for the day was given a printed notice to that effect. All men arrested are to be given a diet of bread and water until they are shipped out of town.

Hoguan, Montesano, Elma and other towns in Chehalis county will unite with Aberdeen, and there will be no place of refuge in this county for Industrial Workers.

On Way to Aberdeen.

Vancouver, Nov. 25.—Heeding the call of their superiors, 388 members of the Industrial Workers of the World left Vancouver yesterday to join the encampment of the order at Aberdeen, Wash.

DE CITY MARKET

Member of Organization Says Campaign Likely to Be Started in Victoria

Vancouver, Nov. 25.—That Aberdeen, Wash., will shortly be compelled to acknowledge the right of any man to address public gatherings on the streets owing to the campaign of un-armed resistance inaugurated by members of the Industrial Workers of the World, was the opinion expressed by I. W. W. headquarters here this morning.

In answer to a general call, members of the organization have been going down from Vancouver for a couple of days and to that number from this city who have signified their willingness to assist in the demonstration at Aberdeen, was given this morning by one of the secretaries as in the neighborhood of 400, although he was unable to say how many actually left on their way to Aberdeen.

"We have our eye on Victoria," said one of the officers of the organization. "There public speaking by I. W. W. members is not only a right but a duty. It is our duty to go to the street corner in the city while other organizations are permitted to address the public from any place they may please. We shall, in all probability, be ready to march there in the near future."

Ready For Trouble.

Aberdeen, Wash., Nov. 25.—Five hundred extra police, armed with axes, handles and policemen's clubs, will again patrol the streets of Aberdeen tonight to prevent riots of I. W. W. members. A special raid issued this afternoon for special policemen at 5:30 o'clock to-night at the city hall, where instructions will be given them. It may be necessary to close all the saloons again to-night, as was done last night.

The streets to-day are clear of all I. W. W. workers. No demonstrations were made this far. Threats to burn Mayor Parks' home are without foundation, but a special guard will again be placed there to prevent any accident to his home.

Twenty-four I. W. W. members arrested during the evening's disorders were escorted to the city militia this morning, given a loaf of bread and ordered out of town with a warning not to return.

London, Nov. 25.—Following are results of Rugby matches played today:

Harlequins 26, Greys Hospital 12.

Blackheath 18, Oxford University 6.

Bedford 5, London Welsh 3.

Durham 11, Lancashire 6.

Mosley 6, Richmond 4.

NOVELIST'S DEATH

New York, Nov. 25.—The death from sea-bath of the novelist, Mrs. Minnie Jackson, novelist and short story writer, was announced here today. She died at her home after having nursed her mother, who is ill with pneumonia, day and night, until the crisis of sickness safely passed.

Although Miss Jackson was a prolific writer she died penniless, and a charitable organization will have charge of her funeral and take care of the mother and sister.

NEW METAL FOUND IN NELSON DISTRICT WILL PROVE OF HIGH COMMERCIAL VALUE

The Nelson Daily News gives particulars of the discovery of an absolutely new metal in the Nelson district by Andrew G. French, the renowned metallurgist, chemist, and assayer, recently mentioned in the Times. The new metal, which Mr. French has named Canadium, in honor of the country in which its discovery has been made, exists in large quantities and is expected to prove of high commercial value owing to its unique properties and to the fact that for a period at least, the supply available for the world's market will be comparatively small.

It was found in the dyke rocks in the Nelson district, running from a few pennyweights up to three ounces to the ton, declared Mr. French, who said that he found Canadium first at the Granite-foam mine and then at the Shannon creek and other points on the south side of the west arm of Kootenay lake. Mr. French made the discovery last May, but time was necessary to ascertain fully the particular characteristics of the metal, and the new metal, but as samples of the platinum ores in which the metal occurs were being sought by agents from England, France and various parts of America, he decided to make a statement against possible forestallment, to announce the discovery.

In a provisional list of its more general and distinct properties Mr. French states that Canadium occurs pure in iron-crystalline grains, and in short rods about half a millimeter long by one-tenth of a millimeter thick. The color is a pure white, beyond that of fine silver, and when burnished it is more lustrous than silver, or any of the other white metals. It is not blackened by lengthened exposure to damp and it is not oxidized by continued heating in the blowpipe oxidizing flame. It is these qualities which class it as one of the "noble metals," Mr. French states.

It is soluble in nitric and hydrochloric acids and in aqua regia without residue and its solution in nitric acid yields no precipitate with chloride of sodium solution. This difference from silver. It is not blackened by lengthened exposure to moist sulphuretted hydrogen or to alkaline sulphides, which tests also prove that it is not silver. It is not blackened by solution of iodine and its nitrate solution is not precipitated by iodide of potassium. These negative qualities, explained Mr. French, differentiate it from palladium.

Its melting point is somewhat lower, he continues, than the gold and silver, and very much below that of platinum. It is electro-negative to silver in dilute nitric solution.

These characteristics, remarked Mr. French, "definitely show it to be a new metal of the platinum group. I found the new metal in metallic particles in the form of scales in the platinum-bearing ores of this district. The particles, which have a bluish white color, contain the metal alloyed with a volatile substance which may be osmium, as it is displaced by the blowpipe flame, leaving a brilliant bead of Canadium."

THE NATIONALISTS AND THEIR POLICY

As Well as Any Other Contribution to Imperial Defence—Their Case Stated

Hon. Richard McBride, who arrived on Wednesday from the East, did not mention the people of Victoria as to the government's naval policy. It is presumed that he discussed the matter with Premier Borden, pointed out the unprotected nature of British Columbia's coast line and urged him to do something to supply the need.

McBride has many times expressed his strong support of Canadian participation in imperial naval defence of some kind, and in view of the importance of this subject to British Columbia it is to be hoped that he strongly impressed upon the federal premier the urgency of the case. He would have the co-operation of Mr. Borden, who desires the protection of this coast by Dreadnought cruisers. Unfortunately the dominating position of Mr. Monk in the cabinet makes such a development or any other Canadian participation in imperial defence impossible. Mr. Monk still insists upon a plebiscite, knowing that such a referendum would probably kill the project. It was Mr. Monk who in a speech last session in opposition to the naval scheme eloquently predicted the destruction of Canadian autonomy under the arrangement and recited Lord Byron's verse on the Dacian gladiator butchered in the arena to make a Roman holiday, the parallel in his mind being that Canadians on Canadian ships of war would be slaughtered to feed the appetite of the British.

But the Nationalists do not want a plebiscite because they desire the vindication of the principle of plebiscites. They want the Canadian navy irrevocably smacked in the infancy, and they want the Dacian gladiator butchered in the arena to make a Roman holiday, the parallel in his mind being that Canadians on Canadian ships of war would be slaughtered to feed the appetite of the British.

PROPERTY ON YATES STREET IN DEMAND

Corner and Inside Lot Sold—Considerable Inquiry but Little Business for Week

The real estate market this week has been noticeable for a general enquiry for property on Yates street, several agents speaking of a probable movement on this thoroughfare. Alexander Mackenzie, realty agent, Douglas street, reports having transferred two pieces, one 90 by 120 feet at the corner of Yates and Cook streets, for \$30,000, and 50 feet of inside property on Yates, above Cook street, for \$15,000.

Several agents report a general demand and sales of residence property and lots in the suburbs, this department of real estate appearing to receive continued enquiry. Significant advances in values in Victoria is being transferred by J. A. Turner, who transferred a lot 70 by 120, at the corner of Woodstock and Cook streets, for more than double its price two years ago.

Fruit and farm acreage has demanded attention and while sales are pending there are two farms at Gordon Head which found new owners. Mr. Mackenzie sold one fruit farm of 100 acres for \$5,000 and one of ten acres for \$16,000.

Through the city, however, the demand has been quiet in comparison with the previous week, but at least there has been a movement. A subdivision is coming on the market near the Oak Bay hotel shortly, and a number of houses have been sold there.

MISSIONARIES REPORTED SAFE

MESSAGES ARE RECEIVED FROM CHINA

British Foreign Office Will Provide All Possible Protection

Toronto, Nov. 25.—Three cablegrams and a letter were received from China this morning, all containing good news and exploding the reports that two American missionaries had been murdered in Chang Tsu.

Rev. T. E. Egerton Shore, foreign mission secretary of the Methodist church in Canada, received the following cablegram from Shanghai: "There are only two missionaries at Chung King under the protection of the British navy in taxation without representation; because England defends her own trade when she defends Canadian trade on the high seas, only Canadian ports being Canadian; because Canada actively assists the Empire with her trans-continental railways, which put the British military system three weeks nearer the Pacific ocean than any other route; because any trouble Canada is liable to get into with the United States or Europe is due to her connection with Great Britain; because Canada is a good field for the British investor, for whom the British navy is largely supported; because Canada is already of much service to Great Britain as an outlet for her social discontent; because the Monroe doctrine is both safe and inexpensive; because as long as a colony is a colony it is entitled to the protection of the mother country; because Britain's navy is Britain's need for Britain's world-wide trade, and those who dance should pay the piper."

The safeguarding of provincial autonomy against the encroachments of the central power. The Supreme Court of Canada should have jurisdiction only in cases involving more than one province.

Maintaining the rights of minorities to separate schools and the French language.

More immigration encouragement to thrifty French and Belgian peasants, and less to Old World slum scoundrels, to dilute the native stock from the older provinces.

Nationalizing railways, telegraphs and telephones. Regulating mines and water powers for the benefit of the people getting more profit for the public out of Crown lands and forests.

Ottawa, Nov. 25.—Premier Borden announced that the government had received a message from the colonial office, saying they had no confirmation of the report that the Canadian missionaries are in danger in China. The British government is ready to provide all possible protection.

Troops Ready to Save.

Washington, D. C., Nov. 25.—Although the army is ready to embark troops at Manila on the transport Sherman at a moment's notice for China, it was said today that nothing would be done further until word came from Minister Calhoun at Peking, that American troops were needed.

Mr. Calhoun has been in daily conference with the ministers at Peking, and it is understood the Powers are acting in perfect harmony in the matter of increasing the foreign troops in China.

VESEL PROB FOUNDERS

Large Quantities of Sighted on Superior

Kansas City, Mo., Nov. 25.—A five-story building in downtown district was this time the entire bust of the fire. The floors of the burn occupied by a billiard parlor. Arrived last night passing through fires short timber.

Some think the unfortunate Jay Gould, who had a large cargo of short iron, had not been rescued.

If reports are confirmed to the long found in the burning place, known as the "graveyard" for iron, in the neighborhood of Vermilion more than any other place there.

PRICE AGAIN TO INCREASE 25 TO CENT ON JU

Vendors Allege G Animals, Feed Ivery Now

(From Thursday)

The milk trust is again in an increase in necessary articles the last few days. Receiving circulars prices which are to be increased on milk to-morrow, was increased on milk. The information comes in a small circular, giving his own and prices in some cases, handed to the customer and after to come of the irate householder to do any good. While a lion is individual that that really it is coming would seem to be per this idea, from the fact all the vendors have time to make the increase in their milk price. The time the milkmen in their hand as a comb-vertment of increase brought them within criminal law.

The prices which have acted from their vict to-day.

The price for one pint at \$2 a month, which of 12% per cent. on for two pints a day \$3 to \$3.50, or 16 2-3 cent, consumers are to pay \$3.75 or \$4, each their milkmen is, which of from 7 to 10 per cent, while it is from 30 months ago.

The price for three increased from \$4.50 to \$5.50 and \$6.00, individual or company increase in August amount on the previous present rise is from 5 to the fall price. Consumer will have to pay at least 22 per cent, more cases 27 1-2 per cent, did up to the end of 3.

Some of the milkmen \$7 a month for four pints and \$10 for most of them put the ties over three pints cents a quart instead cents, or an increase of some vessel was a five-story building in downtown district was this time the entire bust of the fire. The floors of the burn occupied by a billiard parlor. Arrived last night passing through fires short timber.

Some think the unfortunate Jay Gould, who had a large cargo of short iron, had not been rescued.
