ONE BOY DYING; THREE PERSONS SEVERELY INJURED

Fatal Accident on G.P.R. Tracks, Mill Street, Today. Murray Heans' Life Ebbing Away at Hospital—Were Watching Workmen Clearing G.P.R. Wreck.

One young man dying of his injuries, two others severely wounded, and one man with a maimed hand, is the list of casualties caused by the work of replacing a derailed engine on the tracks at Mill Street. Murray Heans, aged fifteen, is suffering from a fractured skull and will not live. Laurence Oram was struck in the lower part of the body and badly hurt, but will recover. A stranger had his lower jaw wrecked, but the injury will not be fatal. James Koslitor, a section man, had his hand badly crushed. The locomotive and the first two cars of the G. P. R. freight train from Montreal, consisting of twenty-seven cars, were derailed opposite the depot this morning at 8.40. The accident is fine, it is supposed, to a frog not acting right. An auxiliary crew under foreman Cyrus McParlane was put to work on the job, and by 10.40 the two box cars were put on the tracks in an undamaged condition and taken away. The engine and tender were in a very bad position, with the rails under them twisted and broken, and the front of the tender buried about a foot in the ground on a line with the Mill Street sidewalk. Preparations were made to get it out by pulling it with a three-inch hawser attached to a couple of other locomotives on the adjacent tracks. The first accident occurred while the damaged rails were being straightened out. James W. Reutter, of 24 King street, one of the G. P. R. employes, was unfastening the bolts in one of the bent rails. As the last bolt was released, the engine lurched forward, and one of his fingers was completely severed, and three others badly crushed. He was removed to his own home where his injuries were attended to. The big accident occurred when a coupling pin while the heavy engine was attached to the derailed locomotive broke and the pieces of the iron bar flew through the air with a velocity of 150 feet from a cannon. The surrounding space was filled with spectators who had gathered to watch the work. They had been warned to stand back, but curiosity proved stronger than prudence, and there were many in the way of the flying missile. Murray Heans, a fifteen-year-old lad was standing about three hundred feet from the engine when he was struck with a piece of the flying pin weighing about a pound. The iron hit him over the right eye and the boy dropped as if dead. He was picked up and carried into John McGillivray's office. Lawrence Oram, twelve years old, was struck in the abdomen and also se-

G.P.R. BRINGING HUNDREDS OF SCOTCH AND ENGLISH SKILLED MACHINISTS

Prepared to Fight to a Finish—Men Claim They Will Never Give In—Reports of Intended Rowdiness—Few Changes. MONTREAL, Aug. 11.—The G. P. R. has sized up the situation to mean a long fight and so has made arrangements to bring several hundred English and Scotch machinists to take the places of the strike breakers. The cables were hot for a couple of days last week and the result is that the company expects to have two or three hundred skilled men to distribute over the system in the course of ten days. They have not given out what boat the men will come on but it is one sailing this week. Otherwise the strike situation is much about the same. The men are holding meetings daily in the open air and are sure that they are strong enough to win out. TORONTO, Aug. 11.—The strikers at West Toronto have arranged for a daily report of the situation all over the country. The first of these reads in part: "The trains in the west are late coming in and going out and the company in their bulletins explain that this was due to an unfortunate wreck. The company have also sent out agents to canvass the boarding-house district in an effort to persuade the unemployed that they can provide them with permanent posts. Not a single man has been offered a job."

FERNIE WILL NOT REMAIN INACTIVE

Building Likely to Begin at Once. Only About Thirty Houses are Standing Now—A New Hospital Planned.

FERNIE, Aug. 11.—The atmosphere was very smoky all day yesterday and there was evidence that the ravages of the fires in the forest district will continue but there is no possibility of damaging Fernie. The remnant now serves to indicate the city which once existed here. The ravages of the fire in the neighborhood has been thoroughly burned over and that the medium of communication for the flames has been removed. In Coal Creek on the south and Homer and Michel on the north, however, there is still grave danger. These villages suffered comparatively little damage from the recent fire and they would furnish plenty of material for another conflagration. Messages from Michel yesterday said that there was great alarm there. Fires were fanned by a strong wind and came down close to the dwellings in addition to the fire engine were at work and they managed to hold the flames in check until sun down. By that time the wind had already greatly diminished and the peril was removed for the time. A rising wind during the afternoon caused some concern among the residents of the houses still standing at Fernie. At the end of the first week after the disaster there are some 30 wooden buildings ranging in size from a shack large enough for one bed and cook to a two-story building. In many instances the houses are being served by 60 feet one and half stories high, in some stages of construction. All banks are closed and doing business as usual. Several of the merchants while several hotels are under way with new buildings. The "pile-line," by which name the array of hungry men is known, is diminishing steadily. One week ago an average of 100 meals were being served daily while now the total is about 600. The amounts served out is not decreasing. The method of distributing the meals has been changed. Building operations are very active and every available man is being pressed into the work of construction. Practically all the business men are putting up new stands (temporarily or permanently) and many dwellings are going forward to completion. Plans have been prepared for a new hospital and work will begin in a day or two. It will be a permanent building and cost about \$10,000.

WOULD BE GREAT DRAWING CARD

Suggestion to Have Yacht Race During the Exhibition Week is a Good One. The following letter explains itself: To the Sporting Editor of the Star: The R. K. Y. C. having barred the exhibition week from its calendar and being desirous of demonstrating what our boat club do would like to suggest that an open race be held over the harbor course. Accepting the R. K. Y. C. classification "H" for "Hobby" we would be willing to throw away time allowance up to Class C and only ask half of time allowance Class A and B. As there will be thousands of strangers in St. John during Exhibition week, many of whom have never seen a yacht race, that would be a good time to hold it; and to add further interest to the event I would suggest each boat entering subscribe ten dollars (\$10.00) and no doubt the Exhibition Association would be willing to assist financially, the whole sum to be invested for a cup to be handed to the winner. Thanking you in anticipation for inserting the above and soliciting your interest in the matter. Yours truly, W. B. GANONG, Sailing Master "Glencairn IV." Manager Arnold of the Exhibition week has received the above letter this morning and asked what he thought of the suggestion that the association should grant some financial assistance. Mr. Arnold said there would be a meeting of the Exhibition Association tomorrow when such matters could be discussed. Mr. Arnold went on to say that he believed there should be some outside features during exhibition week, such as yacht races, rowing races, etc., and the citizens should interest themselves in undertakings of this kind. He hoped such features would not be lacking this year. Occupying a special car attached to the Point du Chene train this morning, on their way to Charlottetown, P. E. I., we about 30 representatives of the I. O. O. F. There were members from Plover, Fables, Salmon and Golden Rule Lodges, and also from Canton Wabasso, of Portland, Me. Col. N. W. Drinnan, was in command of the local men. PORT OF SPAIN, Trinidad, Aug. 10.—The Danish steamer Christiansted arrived here from Curacao Sunday with M. FIVE PERSONS KILLED AND NEARLY HUNDRED INJURED

RAILWAY ACCIDENT KILLS ST. JOHN BOY Death of Fred Harvey En Route to Petawawa Member of St. John Artillery Company Struck by Passing Train and Instantly Killed.

The death of Fred Harvey, of this city, occurred this morning at Cedar Hill, Quebec, under very sad circumstances. Harvey left here last night with No. 1 Company, 3rd Regt. C. A., to go to Petawawa for the annual training. This morning the train on which the local men were travelling was held at Cedar Hill, which is about seventy miles west of Campbellton, to wait for passengers from the Ocean Limited Express. While they were waiting the men got out of the cars and were strolling around the platform. Harvey was walking across the track when the accident occurred. He did not notice the approach of a train which struck and killed him. Word of the accident was received here by Lt. Col. E. M. Baxter, commanding officer of the regiment, with the information that the remains would be sent home on the next train. The dead lad was only about sixteen years old and joined the militia this year for the first time. He was employed in the printing department of R. G. Dunn & Co.'s establishment. He is a son of Mrs. Agnes, widow of Fred Harvey, of 43 British street. He is survived by two brothers, Arthur, also employed in Dunn's and William, with Jas. Pender & Co., Ltd., William Harvey left this morning on the "Aurora" for Grand Manan and has not yet learned of the death of his brother. Coming so soon after the death of Sergeant Urquhart, who was also on a military trip, the case makes a rather unusual coincidence. Much sympathy is being felt for his mother and brothers in their loss. The body will be interred in St. John with full military honors. DEATH OF FREDERICKTON LADY LAST EVENING FREDERICKTON, Aug. 11.—The death occurred last night at Chicago, of Agnes, wife of Patrick Phelan, after an illness extending over some months. The deceased was the daughter of John Owens of this city and was a most estimable lady, a native of this city, she resided here up to within a few years ago when with her husband she removed to Chicago. Mrs. Phelan is survived by a husband and three small children. Her father and mother, a brother, Dr. J. G. Owens, of Millville and a sister, the wife of J. H. Barry, K. C., of this city. The deceased was about forty-five years of age. The congregation of St. Peter's and Holy Trinity churches are holding their annual picnic on the Bishop's grounds at Torriburn today. Special trains went out this morning and afternoon.

STAGING GAVE WAY WHILE TERROR STRICKEN MEN CLUNG TO WINDOWS

Thrilling Experience of Two Painters on Union Street Today—Escape Was Miraculous, Bystanders Say—Pedestrians Narrowly Escaped Injury Also. Fred T. Kennedy, a painter in the employ of Joseph Craig, and a companion, had a thrilling experience on Union street about 11.15 o'clock this morning, and only cool and quick action of the men saved them from almost a certain death. The painters were at work on the front of the McLean building, over the boot and shoe store of Waterbury and Rising. They were staggling on a swinging stage, and were painting the tops of the window casing on the third story. Without a moment's notice the heavy staging dropped from under them. Kennedy happened to be standing near the ropes that had been holding the staging, and he was just in time to grasp the ropes. His companion happened to be near enough to a third story window to grasp the sill. The two men swung on the side of the building and held on for dear life, the staging with paint cans crashed on the sidewalk, and a few persons walking along narrowly escaped being injured. The accident was witnessed by a number of persons who stood on Union street and stricken, and unable to aid the two men who were hanging high above the street. Fortunately Kennedy and his companion were able to pull themselves up, and crawl in through the window. ST. LOUIS, Aug. 11.—Using an old-fashioned silver mounted revolver with which he fought against the French in the battle of Sedan, during the Franco-Prussian war, Ferdinand Conrad, 71 years old, a resident of St. Louis for a quarter of a century, ended his life by shooting last night. Conrad was despondent because of his inability to get work. DEATHS. McMANUS.—In this city, on the 10th inst., William McManus, aged 79 years. Funeral from his late residence, 61 St. David street, Wednesday, the 12th inst., at 4 o'clock. Friends invited to attend. LATEST WEATHER REPORT Fine and Warm.

Fatal Results of Two Railway Accidents Last Night.

More Deaths Likely to Take Place—Electric Cars Came Together at Sharp Curve While Making Up Lost Time.

PIQUA, Ohio, Aug. 11.—Three persons were killed and nearly forty others injured, two fatally, when two limited suburban electric cars of the Western Ohio Traction Company, collided at a sharp curve a few miles north of here last night. The dead: James Khor, passenger, Dayton, O.; Wm. McClain, passenger, Lockington, O.; Wm. Ball, O. motorman, Piqua, O. Fatally injured—George Robertson, banker, Sydney, Ohio, and C. M. Humelhauser, Detroit, Mich. Both trolley cars were late in addition to their usual high speed and so to have been making up lost time. It is said that the southbound car from Sydney had orders to reach and lay over at a sidelong used siding just south of Sydney, there to wait until the northbound car from here passed. As the southbound car rounded a curve just before reaching the switch, the northbound car dove in sight, in an instant there was a crash. The southbound train was telescoped and almost completely reduced to splinters. It was on this car that the greatest number were injured. Motorman Baller jumped from his car and was killed. The passengers in neither car had the slightest warning. The cars were crowded. The passengers were hurled forward by the impact and thrown in heaps among the broken seats and splintered glass and timbers. Shelby County Infirmary, near the scene of the wreck and with their help, the injured were removed to the infirmary which was made a temporary hospital. Few escaped without some minor hurt. CLEVELAND, Mont., Aug. 11.—North Pacific train No. 2, the North Coast Limited, met with a disaster 13 miles west of Glendive, last night. Fireman A. B. Matthews and an unknown tramp were killed and thirty persons injured. Few of those injured were seriously hurt and all but one Wilson, an express messenger, will recover. The train was travelling probably at a speed of fifty miles an hour when within two miles of Alford it rounded a curve and ran into a burned bridge, 150 feet long. Engineer Litch could not see that the structure was out until the train was virtually over the chasm. A relief train bearing physicians left this city at once and a wrecking train was made and is now at work clearing the track. The dead and all the injured were brought to Glendive and are now being cared for. The dead: A. B. Matthews, fireman, Dickinson, N. D., unknown tramp. The most serious injured are: Engineer Litch, and Express Messenger Wilson, badly scalded with steam.

ROAD PRIZES SOON TO BE DISTRIBUTED
Best Kept Road To Be Decided
TIME UP SATURDAY
Meeting of Auto Owners Next Week and Winners Named

The prizes offered by a number of loyal automobile owners to the commissioners for the best kept roads in their districts will shortly be distributed. The time for making the arrangements and the winners will be announced. The first prize is \$100; second, \$50; third, \$25. The prizes were open for competition by all commissioners on the principal roads leading into the city. It was decided to make the awards about two months ago, and since that time much improvement has been put on. Keen rivalry exists between the commissioners, the large amounts put up tending to create interest. Before the action was taken by the voters the roads were in rather poor condition and many improvements were badly needed. It is hoped now that, as the result of the prize offering, excellent roads will result.

Thirteen members of Canton Wabasso, No. 24, M. I. O. F., of Fort Fairfield, Maine, arrived in the city late yesterday afternoon on the Fredericton boat. They leave today at 11 a. m. for Point du Chene, whence they will proceed to Charlottetown to attend a meeting of the Grand Lodge I. O. O. F. While in the city the American Oddfellows are the guests of Canton La Tour, No. 1, of St. John. The party from the Fort Fairfield canton is composed of the following: E. E. Gustafson, C. H. Dinmore, S. D. Beckwith, T. M. Marshall, M. C. Smith, C. H. Richardson, Hiram Rose, J. H. H. Knowlton, J. H. Fraser and S. Nightingale. The last named is accompanied by his wife. E. E. Gustafson is acting captain of the party. The Maine Oddfellows are each distinguished by a badge of purple silk which bears prominently a pine tree surrounded by the legend "I am in the Pine Tree State." Printed in gold letters on the badge is the following: Canton Wabasso, No. 24, Fort Fairfield, Maine. The party through the Maritime Provinces is the following: Canton La Tour, No. 1, St. John. The visitors are also adorned with crimson badges bearing the following: "Canton La Tour, No. 1, St. John, N. B., I. O. O. F. greeting to our American brethren, 1908."

The Fort Fairfield delegation left home on the afternoon of Saturday last and spent Sunday in Fredericton, where in company with local Oddfellows they proceeded to church. They proceeded to St. John by boat yesterday. After their arrival here they visited at the various points of interest about the city and went to Rockwood Park in the evening. The visitors speak highly of the treatment with which they have met. They were particularly delighted with the fall down the St. John river.

LEMIEUX ACT'S GREAT VICTORY
Results in Agreement at Chignecto
EVERYTHING ADJUSTED
If Act Hadn't Been Used, Serious Strike Would Have Followed

AMHERST, N. S., Aug. 10.—Some weeks ago the miners and other operators at the Chignecto mines, operated by the Maritime Coal, Railway & Power Company, asked for the appointment of a conciliation board under the Lemieux act to settle several questions at variance between the men and management at that colliery. As a result, Rev. C. W. Wilson, B. B. Barnhill and R. B. Murray were appointed as a board. Mr. Wilson representing the company, Mr. Barnhill the company, Mr. Murray the men. The arbitrators met two weeks ago and, after sitting for nearly a week, drafted a report which was decidedly in favor of the men. This evening a committee of the men, consisting of R. Burton, H. Barry and James McDonald, met with Manager Lemieux at six this morning. The latter is regarded as a great victory for the men. It is stated that a number of the questions upon which conciliation was amicably settled by mutual consent on both sides and which these arbitrators did not deal with. It is now thought that a two years' agreement, based upon the schedule established by the board, will be at once entered upon. The men are highly elated at the decision reached and the company is to be congratulated upon the conciliatory attitude it adopted and the grace with which it accepted an adverse verdict. If a settlement had not been arrived at a strike, involving the closing of the mine, would have followed.

RAILWAY TO HUDSONSBAY WILL SOON BE A REALITY

Survey of Hundred Men Leaves Winnipeg This Week
Harbor Facilities at Bay Ports Will Be Examined
Survey for Double Tracking I. C. R. Starts in Few Days

OTTAWA, Aug. 10.—The first step towards the actual realization of the long mooted scheme of a railway to Hudson Bay will be taken this week with the departure of a survey party of one hundred men from Winnipeg to locate the route of the proposed railway. The survey is to be pushed rapidly all possible speed and is expected that parliament will receive the report of the surveyors early in January next, thus allowing legislation to go through at once so that the work of construction may begin next year.

CONTRACT WITH CORBETT.
On behalf of this committee Trustee Coll reported that it was recommended by the committee to enter into a contract for the winter street annex with R. A. Corbett at \$13,583. The sub-contract was as follows: Carpentry work, E. W. Green, \$8,775; painting, J. H. Pullen, \$1,173; galvanized iron work, James McDonald, \$350; steel work, W. Lewis, \$2,245. The sub-contract total is the total contract price \$13,583. Trustee Bullock was doubtful of the sub-contract being made, but he felt sure that the expenditure would not exceed four or five thousand dollars. Trustee Coll said the board had never erected a building for the estimated cost. The cost had always run over the estimate.

MAJOR DE FERMIE MAKES AN APPEAL TO PEOPLE OF CANADA
(Special to The Sun.)
FERMIE, B. C., Aug. 10.—To the citizens of Canada. On behalf of the citizens of Fernie, which was almost totally destroyed by fire one week ago, I venture to make a further appeal for financial assistance. The generous response to our first call for aid has enabled the council and committee to make satisfactory provision for the most urgent needs. The extent of the disaster which has been caused is only now being revealed, however, and the great work of relief lies ahead of us. The sacrifices of the railway companies and the heroic saving of hundreds of lives and the fact that 5,000 people have since been kept from starvation can be attributed to the bounty of friends not only in the city but in Spokane and other portions of the United States. Further supplies will be required before long and in the meantime money is needed to furnish protection to the population in various ways. Sanitary conditions must be restored, medical supplies must be purchased and every precaution must be taken to prevent an outbreak of disease, which is at this time our greatest menace, out of 800 dwellers only 25 remain, which means that about 775 people out of a population of about 800 have shelter over their heads. The balance are homeless, without furniture, without clothing, without household utensils, without food, without supplies or resources of any kind. A consideration of the situation is imperative, alone necessary to give the outside world an idea of the pressing need for financial aid.

DELIVERS HIS FINAL ELECTRICAL ADDRESS
Thomas H. Day Gives His Audience Several Valuable Pointers
LARGE AUDIENCE

Thomas H. Day of Hartford continued his series of lectures on electrical subjects last evening, when he addressed a good sized audience in the Board of Trade rooms in electricity as used in motion picture machines. Mr. Day after outlining the first set of rules drawn up by the New York Board of Fire Underwriters in 1881 to govern electric wiring, mentioned some of his own experiences in connection with moving picture shows. He showed the dangers that arose from inexperienced operators of machines and the inflammability of the films. The lecturer next spoke on wiring as installed in buildings under construction and mentioned the great chances which a skillful and careful worker had to run in his profession. One hundred and fifteen dissolving views were shown by Mr. Day, who illustrated the work of the electrical contractor. Fifteen views of the Boston life-saving corps were also shown. These illustrated the use of scaling ladders, life-nets and life-lines. At the close of the lecture Mr. Day thanked the press and also Messrs. Vaughan and Fairweather for their assistance.

TRUSTEES AWARD CONTRACT FOR BUILDING THE ANNEX

The Board of School Trustees last evening awarded a contract for the building of the winter street school to R. A. Corbett at \$13,583. The sub-contract amount to \$13,583, the masonry contract taken by Mr. Corbett, to \$10,050. The new building will be of fire-proof construction, the first of the kind to be erected by the school board. It is to be completed by July 15th, 1909. The board also appointed a committee to look into the matter of having a lay's demonstration in the teaching of domestic science given at the exhibition by Miss Bartlett, the board's teacher of the subject. Trustee Officer McMann was heard on the subject of compulsory education in Halifax as he had observed it during a recent visit to that city. Those present at last evening's meeting of the school board were Chairman Emerson, Trustees Allen, Nash, Bullock and Col. Mrs. Skinner, Superintendent Bridges and Trustee Officer McMann. On Trustee Bullock's motion the order of business was suspended and the report of the buildings committee was heard.

WALTER PRICHARD DIES AT HIS RESIDENCE HERE
He Had Been in Ill Health for About Three Months

Walter Ashton Prichard, one of St. John's best known and most highly esteemed young business men, died at his residence here about 4.30 yesterday afternoon. Mr. Prichard had been ill for about two months with pleurisy and confined to his bed for the past three weeks, from which time he gradually weakened. Deceased was in the grocery business here for some years, but latterly he was the representative of New Brunswick and Nova Scotia of the Lake of Woods Milling Company. Mr. Prichard leaves a wife, who was Miss Ada B. Troop, daughter of the late Oakes V. Troop and one child, He leaves also a mother, Mrs. Gilbert R. Prichard, and two brothers, J. H. Prichard and Gilbert R., who resides in the States. The funeral will take place on Wednesday at 2.30 p. m., from the late residence of deceased, 17 Princess street.

TRUSTEES AWARD CONTRACT FOR BUILDING THE ANNEX

The order of business was then resumed. Jennie J. Collet, Emily S. Crisp, Regina Mitchell, Lyle V. Kennedy and Mary G. Shea applied for positions on the teaching staff. The applications were ordered to be placed in the application book. DOMESTIC SCIENCE. The St. John Council of Women in a communication requested the board to permit the teacher of domestic science to give a demonstration of the work for one day during the exhibition. A special committee of two, consisting of Mrs. Skinner and Dr. Bridges, was appointed to deal with the matter. The committee has power to act. Enoch Thompson, principal of Le Tigre school, made application for an increase in salary. It was decided that the application be considered when the estimates are taken up at the beginning of the year. One of the boilers in the High School building was reported by the Canadian Boiler Inspection Company to be in good condition. A communication from W. H. Thorne & Co. concerning supplies for the Domestic Science school was referred to the proper committee. At the request of the chairman, Trustee Officer McMann reported on what he had observed in connection with the working of compulsory education in Halifax. During his report he stated that he had been shown every consideration by Trustee Officer Anderson of Halifax and by Secretary Wilson of the Board of School Trustees. Conditions in the two cities were rather similar. Halifax had a larger enrollment but St. John a larger average daily attendance. WERE VERY REGULAR. In reply to Trustee Bullock the Trust Officer said the children of the foreign element in St. John were very regular in attendance at school. This was particularly true of the Jewish and Aseerian children. Superintendent Bridges asked that the district boundary for the La Tour school be removed from Rodney street to Winlow street to include both sides of the last named street. The suggestion was acted upon. An amount of \$1,000 was offered by the school board, paid off by the secretary.—Carried.

Trustee Bullock moved that the board then adjourned. During the month of June the percentage of school attendance was 31.4.

MAJOR DE FERMIE MAKES AN APPEAL TO PEOPLE OF CANADA
(Special to The Sun.)
FERMIE, B. C., Aug. 10.—To the citizens of Canada. On behalf of the citizens of Fernie, which was almost totally destroyed by fire one week ago, I venture to make a further appeal for financial assistance. The generous response to our first call for aid has enabled the council and committee to make satisfactory provision for the most urgent needs. The extent of the disaster which has been caused is only now being revealed, however, and the great work of relief lies ahead of us. The sacrifices of the railway companies and the heroic saving of hundreds of lives and the fact that 5,000 people have since been kept from starvation can be attributed to the bounty of friends not only in the city but in Spokane and other portions of the United States. Further supplies will be required before long and in the meantime money is needed to furnish protection to the population in various ways. Sanitary conditions must be restored, medical supplies must be purchased and every precaution must be taken to prevent an outbreak of disease, which is at this time our greatest menace, out of 800 dwellers only 25 remain, which means that about 775 people out of a population of about 800 have shelter over their heads. The balance are homeless, without furniture, without clothing, without household utensils, without food, without supplies or resources of any kind. A consideration of the situation is imperative, alone necessary to give the outside world an idea of the pressing need for financial aid.

HAD A DELIGHTFUL TIME ON EXCURSION
Moonlight Sail Last Evening Proved a Splendid Success

The moonlight excursion held last evening under the auspices of the Young Men's Society of St. John was a most successful success in every way. Fully 600 young people were in attendance. The weather was ideal and the water calm and smooth. The party enjoyed a fine sail on the "Rhine" of America, going about five miles beyond Water's Landing. The big river boat Victoria was packed with merry throngs and as the City Corbett band poured forth its music dancing was indulged in. Songs, etc. also added greatly to the enjoyment of the excursion. Many who made the trip state that it was the most enjoyable moonlight sail they had ever taken. The excursion was served throughout the evening. The boat left Indiantown about 8 o'clock and reached the wharf on route shortly after midnight. Special cars conveyed the excursionists to the city. Last evening's affair was such a success that already another trip is being talked of.

DE-WAY FIVE WEEKS' AUTOMOBILE TOUR OF THE HEAD OF THE SALVATION ARMY

LONDON, Aug. 8. "The Pilgrimage of the King of Hearts" is what they call the remarkable five weeks' automobile tour which General Booth, of the Salvation Army, has made from end to end and side to side of this island.

On the back seats were Commissioner Nicol, who formed the famous Anti-Suicide League, and at his side the General himself, wearing a vivid green motor coat and his Salvation Army cap. Very hale and well the old man looked, with the flush of the sun on his cheeks and his long white beard floating in the wind.

SHERWELL CAPTURES TENNIS CHAMPIONSHIP

(Special to The Sun.)

MONTREAL, Aug. 10.—Sherwell of Montreal won the all-Canadian lawn tennis championship on the Mount Royal courts this afternoon, defeating in easy style last year's champion, Cape Pouliot of Ottawa, in the challenge round for the title. The result of the match was not as great a surprise as the easy manner in which Sherwell won his victory. After the fifth game of the first set the local player showed superiority at almost every point of the play, and won out in straight sets, 6-4, 6-1 and 6-2.

FOUR LIVES LOST IN AWFUL TROLLEY MISHAP IN ONTARIO

Two Loaded Cars Come Together at Fair Grounds

Breaks of One Refused Work and It Dashes Into Another

Appalling Scene Follows Collision—Few Escape Unhurt

CHATEAU, Ont., Aug. 10.—A fearful street car accident happened here at 10:30 this morning, resulting in the death of four persons, and the frightful injury of eight. Today is a civic holiday here, and the Salvation Army planned a monster excursion via the Chatham, Wallaceburg and Lake Erie Electric line to Erie Beach Park, on Lake Erie, directly south of the city. Two loaded cars left the city at ten o'clock, the passengers taking up every inch of room. The cars ran close together. When Queen street south was reached, the first car forged ahead, but when opposite the fair grounds it stopped, presumably to let off or take on a passenger.

Coming at Full Speed

The car in the rear was bowling along at full speed, and at a critical moment the brakes refused to work. Terrific excitement reigned on the cars as the impact seemed inevitable, but scarcely anyone could jump because of the crowded condition of the platforms. When the crash came the rear platform of the forward car was smashed to splinters, as well as a portion of the body of the car. The fate of the rear end passengers is beyond description, arms and legs being severed in a fearful carnage.

COMPANY DECIDES TO PURCHASE BOAT

River Steamer to Replace Aberdeen Will Be Secured in Ontario

The Washademoak Steamship Co. have decided to purchase a boat to replace the Aberdeen. Steps will be taken at once to locate a suitable steamer. Several offers have been made and it has been decided to commence this week to select. Engineer Hutchinson will leave on Wednesday for Ontario, where he will inspect a boat which is believed to be satisfactory. The steamer in view is built somewhat similar to the Sincennes and is believed to be a fast river craft. If the steamer is suitable it is altogether probable that she will be placed on the route this fall.

Miss Audrey Bullock is visiting friends in Picton.

AMUSEMENTS.

TRICENTENARY PICTURES AT THE UNIQUE.

Those who did not have an opportunity of visiting the Unique Theatre should not allow anything to keep them away today. The pictures of the great celebration at Quebec should be seen by every citizen of St. John. These pictures are entirely different from the ones shown at the Nickel, and those who see one should not miss seeing the other, as neither of them give the complete programme and both should be seen in order to comprehend the magnitude of this historic event. The management of this popular theatre request parents to send their children this afternoon as they will then have a better opportunity to enjoy the pictures, and avoid the crush in the evening. Some of the scenes are: Sir Wilfrid Laurier welcoming the visitors, Prince of Wales reviewing the troops, a view of the warships of three nations in the harbor and many others. Do not miss this great picture, as today will positively be the last time it will be shown in St. John. Two other new pictures and two new scenes complete the programme. Miss Outous is singing "Won't You Come Over to Philly, Willie," and Will Harrison, "She Was a Grand Old Lady."

WHAT WAS YESTERDAY WILL BE TODAY AT THE BIJOU.

Take in the show at the Bijou yesterday? There were hundreds who did and if there were many others who are glad that they had witnessed the pleased faces and little complimentary remarks that were passed on the way out. The Bijou's going to run the same pictures again today, so, if you're a lover of good pictures strain a point to see the one now showing. Really amazing were the dreams of the man who after spending the evening with his friends over the "What Comes From a Night Off," so amazing that some of the audience took it for the real thing until they saw the picture as our friend's face when he was awakened by his wife, "Mashing the Masher" brought down the house with its amusing incidents and there was many a woman who only wished she could have gotten her hands on the show yesterday and yesterday's show. Mr. Dykeman, is fast making friends and "In dear old Colorado" he gained quite a number.

AT THE PRINCESS.

The big special programme at the Princess Theatre was enjoyed by large crowds yesterday and every number on the programme was well received. Morris Smith, the black faced comedian, proved to be all that was desired. With a very funny make-up, Mr. Smith kept the audience in roars of laughter all his witty sayings, his jokes, and all brand new and his singing the best in his line ever heard in the city. Besides being an excellent monologist, Mr. Smith is a wooden soled dancing artist that is hard to beat. The black faced performance certainly made a hit.

Madame Demby, a silver-tongued mezzo-soprano, was heard to good advantage in some difficult grand opera selections, and made a decided impression. "When the World Moves On" is a very pretty song with handsome hand painted slides and it is rendered by Harry Newcombe in his usual good manner.

The moving picture programme, in addition to the above programme, is a good one. "The Girl Nihilist" is a Russian drama which is exceptionally good in Russia. The picture shows Russian cruelty in its well known forms and the film is one of the strongest yet presented.

"A Wolf in Sheep's Clothing" is a comedy drama, and like a picture entitled "Follow the Leader," has many amusing features. This excellent entertainment will be repeated today.

ORATORIO AND OPERA NUMBERS A HIT AT HAPPY HALF HOUR.

Large crowds were present at the Happy Half Hour last evening, and the S. R. O. sign was in evidence. It seemed as if all the choir singers and musicians in the city were present for many of the best musicians had made special requests for the selections that Miss Holmes and Mr. Buchanan were advertised to sing. Miss Holmes sang "Scenes That Are Brightest," from Martini, and the encores demanded showed the appreciation of the audience and is the best criticism that can be given. Mr. Buchanan sang the recitative, "Ye People Remember Your Hearts," and the aria, "If With All Your Hearts," from the oratorio Elijah, and the tumultuous applause that followed was deafening. Owing to the fact that Mr. Buchanan had left a sick bed to sing requests were made by the management that the audience not insist on encores, and had not this been done there is no telling how many encores would have been demanded. As it was many announced their intention of coming again this evening. This afternoon Mr. Buchanan will sing "Tears Were Pearls," and the sacred selection in the evening. The pictures were exceptionally good. Over The Hills To The Poorhouse is a very pathetic drama and many in the audience were seen to cry their tears. The Transformation Artist is a picture of M. Richard, the famous French vaudeville artist in his act. The Story of King Frogg is a trick picture, and richly hand colored.

Prof. Titus was heard to splendid advantage in "Voices of the Past," and Harry LeRoy sang "When The Bluebirds Nest Again," and six other songs today. New one tomorrow. Shows of sacred music should attend this evening.

ENJOY XCURSION TO HOPEWELL CAPE

Eighty Residents of Joggins Mines on Jaunt Across the Bay

LUMBER TRADE DULL

HOPEWELL HILL, N. B., Aug. 8.—About eighty of the residents of the Joggins Mines enjoyed an excursion across the bay on Friday to Hopewell Cape, in the steamer Wilfrid C., spending the day very pleasantly at Albert county's pretty shoreline. The party visited the Rocks and other points of interest, including the county jail and some of the recent excavations. Colossal graves on the hillside attracting considerable attention. The excursion was made under the auspices of the Odd Fellows and Rebecca Lodge of the Joggins.

The lumber business is particularly dull this summer. The steamer Gogvale has been at Hopewell Cape for nearly four weeks and has only about a third of her cargo aboard.

Miss C. L. Paine, of Boston, who spent several weeks at the Cape last summer, arrived yesterday, accompanied by two friends, and will again spend a few weeks at the Albert house. Miss Paine made many friends last year, who are very pleased to have her back again.

Mrs. Geo. C. Hamilton, who has been visiting her mother, Mrs. Cook, at the Cape, has returned to Boston.

The Albert baseball team got badly trimmed at the Joggins on Thursday, the score being 14 to 1 in favor of the Joggins boys.

Mrs. Frank Doull and Miss Annie McGregor of Halifax, are visiting Mrs. W. S. Hall at Riverside.

LAST TIME FOR QUEBEC PICTURES.

Be good and early in attending the Nickel tonight for the Quebec Tercentenary pictures are to be shown for the last time. This is a series of motion photographs no truly loyal Canadian should miss seeing, and to the children it is especially instructive and edifying. Yesterday everybody was charmed with the show. The wildest enthusiasm was aroused over the Prince of Wales, Lord Roberts, Lord Strathcona, Earl Grey, Sir Wilfrid Laurier, R. L. Borden and others, and the military and naval views were alike enlightening. All the while the orchestra was filling in with national airs, English, French, Canadian and American, and the militiamen marched to a stirring tempo. Throughout the tercentenary pictures were excellently presented. The Humanov Co. excelled itself in "The Gentleman Burglar," a funny story, and Mr. Joe E. Bernard's familiar voice in the leading role was music to St. John theatre goers. Mr. Bernard was with W. S. Harkins here last year, playing leads.

THE DROWNING OF A NOTED SEAFARING MAN

SYDNEY, Aug. 10.—When Alex McEachern went down in the Maggie and May on the Lahave banks, Saturday night, one of the best known Nova Scotians who ever sailed out of Gloucester, met his death and met it in a way that was a fitting climax to his notable career. A native of Judique, C. B. McEachern was only a young man when he shipped on a Gloucester schooner and for the past twenty years he made his home in the Massachusetts town as an expert seaman and daring fisherman. McEachern had few equals in the Gloucester fleet. On many occasions he had looked death in the face. To be lost in a dory was no uncommon experience for him and on two or three occasions he was in vessels that were run down and sunk. He had many relatives in Inverness county and only a few months ago paid a visit to his old home.

SHOT IN THE HEAD, BUT NOW RECOVERING

MAGNOLIA, Mass., Aug. 10.—Mrs. W. T. Cornell, of New York, a summer resident of this town, was shot in the head and robbed of a small sum of money and her watch while walking through some woods in this town this evening. The robber made his escape. Mrs. Cornell's condition is not considered serious. She was removed to her hotel, where the bullet, which had lodged just below the brain, was removed. At a late hour she was said to be resting comfortably.

STILL SUFFERING FROM DRY WEATHER

Manitoba Needs More Rain—Grain is Not Filling Well.

CUTTING STARTING

WINNIPEG, Aug. 10.—Copious rains in various parts of Manitoba during the past two days have relieved the drought, but many sections of the province are still suffering from dry weather. Grain is not filling well, while the tops of the heads are drying up, cutting down the yield and spoiling the sample. Within three or four days cutting will be general in all the country south of the C. P. R. main lines. The thrashing of winter wheat began at Leithbridge this morning and the sample is an excellent one.

The Last House

By JESSIE M. WHITTAKER

(Continued.) Even such a night as this—a blizzard late in March—could not exhaust or daunt those resourceful faculties. Hour after hour he waded cold with the implacable foe that threatened his train. The heating pipes ran cold a few yards from the furnace and the wind found unoccupied crevices faster than three men could have kept them closed. By instinctual device, slowly but surely, the thermometer began to drop. Then he began carrying the deer and more valuable plants into his little dwelling that adjoined the greenhouse. It was an endless task. One pair of hands, and by eleven o'clock he had become a sort of automaton, oscillating between the plant-house and the living rooms. Then suddenly that magnificent man-machine ran down. There was a faint knock in the mechanism; the speaker-power was dead. He was not pained or broken in the mechanism; the speaker-power was dead. He was not pained or broken in the mechanism; the speaker-power was dead. He was not pained or broken in the mechanism; the speaker-power was dead.

"She hid her face and shrank from him." "This is no time to think of who I am—of other things," he said. His voice was steady again, calm to sternness. "You are half-frozen, hurt, suffering—no, no, no, now, there is no need to explain. Come!" He lifted her weakly resisting and carried her to the cushioned chair by the fire. There was no one else. You will have to let me help you," he answered to her look of inquiry. She lay back in the deep chair, white and motionless, submitting meekly as a despoiled child, while he removed her wet cloak and shoes, wiped the snow from her hair and chafed her hands. But no words passed between them, and her eyes were closed. Between these two all must be said or nothing; so they threw out a wall of silence to the deep sea of speech. He knew that the slightest trickle of words might widen in a breath's time to an irreparable breach; and though he felt relief in the end nothing could come of it but destruction and desolation.

PROFIT OF GLOOM BEGINS CAMPAIGN

Foster Heard at Springhill MR. RHODES' DEBUT

Prospective Candidate For Cumberland There to Listen SPRINGHILL, MINNESOTA, N. S., Aug. 10.—The Hon. Geo. E. Foster began his Nova Scotia political tour by addressing the delegates to the Conservative Convention at Springhill last night in McNeill's Opera House. About five hundred were in attendance and while the speaker received a respectful greeting, yet there was little or no enthusiasm.

FIRST SHOW OF VIOLENCE IN G.P.R. STRIKE IS SEEN

Windows of Car at Winnipeg Arc Stoned

Indications Point to Prolonged Strike on Road MONTREAL, Aug. 10.—The strike of the C. P. R. mechanics is proceeding without incident. According to the men, the ranks of the strikers were swelled by 140 men of the car building department today. The company, it is said, is quietly swearing men in to act as special constables, and that today there are 200 of these in and about the shops. While the company's officials maintain absolute silence, it is surmised that the dispute will be followed by bringing in mechanics from outside points to take the place of the strikers in the course of the next few days. As far as is known no overtures looking to peace have been made by either side to the dispute. James O'Connell, president of the metal trades board of the American Federation of Labor, is expected here in the morning to act with President Bell Harty in directing the strike. This is taken to indicate the men's intention to make a long fight of it.

NEW ZEALAND IS VERY HOSPITABLE

Entertains Visiting American Fleet With a Lavish Hand

BIG STATE BALL AUCKLAND, N. Z., Aug. 11.—New Zealand again today with a lavish hand showed its hospitality upon the officers and men of the United States Atlantic fleet. The chief event of the day was the reception to Rear Admiral Sperry and his officers, which took place at the Grand Hotel. To meet the naval officers had gathered all the officials, civil and military, and hundreds of citizens. Numerous women, gowned in the latest winter fashion, also attracted the attention, which was a brilliant one in every respect. The admiral was highly complimented by every one on his successful cruise from San Francisco.

THE OLD AND THE YOUNG THE STRONG AND THE WEAK

Dr. Fowler's Extract of Wild Strawberry

It is a perfect specific for all bowel complaints. It has been used in thousands of families for the past thirty-three years and we have yet to hear a complaint of its not giving perfect satisfaction. Do not let an unscrupulous druggist sell you a cheap substitute. Insist on getting Dr. Fowler's. Price 25 cents. Manufactured by The T. Milburn Co., Limited, Toronto, Ont. Mrs. O. W. Brown, Grand Harbour, N. B., writes: "I consider Dr. Fowler's Extract of Wild Strawberry to be the best remedy for Summer Complaint, and the Children get Cholera Infantum and Cholera Morsus."

TELLING A FAMILY SECRET. Little Clarence—Obama, how did papa make his first thousand? His mother—He made it, dear, by marrying your grandfather's daughter. Now run out and play—Chicago Tribune.

CHAMBERLAIN'S Colic, Cholera and Diarrhoea Remedy. There is no need of anyone suffering long with this disease, for to effect a quick cure it is only necessary to take a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. In fact, in most cases one dose is sufficient. It never fails and can be relied upon in the most severe and dangerous cases. It is equally valuable for children and is the means of saving the lives of many children each year. In the world's history no medicine has ever met with greater success. PRICE THIRTY-FIVE CENTS.

MEETING OF MONARCH'S FAVORABLY SPOKEN OF. BERLIN, Aug. 10.—All the Journals with government connections comment today on the significance of Emperor William's meeting with King Edward at Cronberg tomorrow. The semi-official Norddeutsche Allgemeine Zeitung says: "This coming together will give both monarchs the opportunity they mutually desired for a friendly speech. Harmonious relations between the rulers of two so mighty empires as Germany and Great Britain is also the wish of their people, who, notwithstanding the attempts made to cause hatred, work together to accept their tasks for world culture in peace and unity."

POTATO BREAD. Potato bread is used by the natives of the West Indies to feed their horses, especially when they are worked hard in very cold weather. The animals thrive on it, and their health and strength are excellent.

CATHOLICS HAVING SPLENDID WEATHER

Feature of Yesterday's Convention Was Report of President NEED OF A Y.M.C.A. BOSTON, Aug. 10.—Favored with delightful weather and a temperate sea, the seventh national convention of the American Federation of Catholic Societies began its business sessions today in Symphony Hall, where the meetings will be held through Thursday of this week. The day opened with a solemn high mass of Queen at the Church of the Immaculate Conception, the vicar-general of the archdiocese, officiated and was assisted by Rev. Father James J. Murphy as deacon and Rev. Father Redmond Walsh as sub-deacon. The feature of the day's business sessions were the reports of President Edward W. Brophy of Brooklyn, N. Y., and National Secretary Anthony Marr of St. Louis, Mo. A cabinet of resolutions in which the apostolic blessing was asked was sent to Cardinal Merry del Val at the Vatican. President W. Brophy urged renewed activity on the part of the society. He called attention to the work of the federation of the past year in getting congress to pass a bill for compensation for damages sustained by church property in the Philippines and in pushing charges against Judge Whaley of the United States in Shanghai. The work of the federation in fighting socialism and immorality was also commended.

THREE KILLED AND EIGHTEEN INJURED

Head-on Collision Between Two Trolleys in Ohio CAUSE UNKNOWN DAYTON, Ohio, Aug. 10.—Three persons were killed and eighteen injured in a head-on collision between two trolleys on the Western Ohio Traction Company's line between Sidney and Piquette at 6:30 o'clock tonight. The dead are George Robinson, banker, Sidney, Ohio; Mortimer, name unknown; passenger, car unknown. The north-bound car out of Piquette was running on the main track and was struck by a south-bound car, out of Sidney, was late and running at great speed. The cars met almost directly in front of the Piquette station, to which the dead and injured were conveyed. Physicians and surgeons were hurried to the scene in autos blowing off the steam pressure. The first semblance of violence in connection with the strike occurred last night, when the windows of a passenger train which was being sent to the cleaning siding were smashed by a few missiles of stones. The persons responsible for this are not known, but it is believed that they were strikers or sympathizers. All indications this morning point to a strike of employees of C. P. R. stores department, a sympathy with the mechanics. The clerks have a union and object to serving strikers.

CITY AND STATE WELCOME TYPOS

Opening of 7th Convention of Typographical Union CUP FOR LYNCH BOSTON, Aug. 10.—State and city united today in a cordial welcome to the delegates attending the fifty-fourth annual convention of the International Typographical Union, the seventh annual convention of the International Stereotypers and Electrotypers' Union, and the annual convention of the subordinate organization, and the Woman's Auxiliary of the I. T. U. Addresses of welcome were made by Secretary of State William M. Olin and Speaker John N. Cole of the Massachusetts House of Representatives for the city and James H. Fawcett for the Boston Newspaper Publishers' Association. James A. Lynch of Syracuse, N. Y., president of the International Typographical Union, made the response on behalf of the international body. President Lynch was presented with a gold loving cup by the members of his organization.

AMAZING SCENES AT WOMAN'S EXECUTION

BEELIN, Aug. 10.—The execution of the murderer, Gracie Beier, for the murder of her fiancé was carried out in a most extraordinary manner. The execution was degraded into a gruesome theatrical performance. The issue of tickets was limited to men, although hundreds of women begged and implored and almost fought for admittance. The result was that 236 tickets were issued to members of the general public and to all inmates in the prison. The execution was degraded into a gruesome theatrical performance. The issue of tickets was limited to men, although hundreds of women begged and implored and almost fought for admittance.

CONSPIRACY CASE IS CONTINUED IN ALBERT

Mr. Downing on the Stand Last Evening—No Intention to Defraud ALBERT, Aug. 10.—The alleged conspiracy case against Daniel W. Stuart, former road superintendent, adjourned from last Tuesday, was resumed this evening before Stipendiary Peck and will be continued tomorrow. Stuart is charged with conspiracy with Mariner Downing to defraud the public by inducing Downing to sign a receipt whereby Stuart would wrongfully obtain public money. The case referred to the building of an abdicant on the Salsbury and Harvey railroad, of which Mr. Stuart, it is alleged, used some \$1 of public money. The abdicant, it is claimed, was also a protection to the highway. The defense claimed that all the amounts of public money expended in this way had been properly accounted for and were authorized by the then members for the county—Messrs. Osama and Ryan—who were consulted before the money was spent. The Mr. Downing referred to, who was the boss of the job, was the principal witness tonight and stated that there was no fraud so far as he was concerned when he signed the receipt for the payment of a work. He did not know or think that any wrong was intended by Mr. Stuart. Mr. Downing's evidence goes over until tomorrow. W. B. Jomah appears for the prosecution, and W. E. Chandler, Moncton, for Mr. Stuart.

COMMITTS SUICIDE AFTER A DEBAUCH

TRURO, N. S., Aug. 10.—Hannah Wright, residing on Waddell street, was found this afternoon in her apartment, suffering from carbolic acid poison, supposed to have been taken with suicidal intent. She died later. Deceased had been living an indifferent life for some time past and was addicted to drink. Her death followed a period of unusual indulgence. An inquest will be held tomorrow morning.

Aug 11-Offering became even heavier in the last half hour yesterday and the decline on October extended to sub-proportions as to be hardly explainable upon any ground but an abandonment of the bull campaign by some, if not all, of the large long interests. The action on their part would seem logical, particularly as the liquidation has taken place at a price which shows them a very small if any loss on their holdings. The crop scare which they probably felt justified in expecting dur-

ing August had not developed and up to the close last night showed no signs of developing. Consequently each day was hurrying the trade toward the early marketing season, while at the same time strengthening the promise of an enormous yield without any such improvement in trade conditions as would suggest a scramble for spot cotton of sufficient proportion to relieve the south of the pressure. Under such conditions the October position seems likely to become much less attractive in the near future and after yesterday's severe break remaining bull will probably find it very difficult to rekindle confidence in their proposition, so far at least as months later than September are concerned.

CIRCUIT COURT IN SESSION THIS MORNING

Adjourned Sittings Resumed-Harris vs. Jamieson to be Heard Over Again.

The adjourned meeting of the circuit court and the adjourned sitting of the August circuit, were resumed this morning, Mr. Justice Landry presiding. In the adjourned sitting of the March circuit the case of Harris vs. Jamieson was set down for trial today. This morning Mr. D. Mullin, who appeared for the plaintiff, made application for a postponement until this afternoon, at 1:30 o'clock, when Mr. G. Teed, who represents the defendant will be present. The application was granted. It will be remembered that Mr. Harris was killed by falling from the I. C. R. elevator, when it was being built and negligence was alleged by the plaintiff, Mrs. Harris, on the part of the defendant. The plaintiff got a verdict in the Supreme Court here and before the full bench at Fredericton, but the Supreme Court of Canada reversed the decision of the court below but granted a new trial. The case will therefore be heard again.

Mrs. Kawler: "Well, I must be going. Now mind, you come and see my wash-day. Anty Drudge Monday. That's my wash-day, and the house will be full of steamy soap-suds, and me too tired to make you a cup of tea." Anty Drudge: "That's just the day I'll come. And I'll be there bright and early with a cake of Fels-Naptha soap. The wash will be on the line before noon—and the ironing done before night." If you found it easier to do your washing on Tuesday than on Monday, you would change at once. Sensible women would! Yet there are some women who still wash clothes in the old-fashioned, hard-rubbing way, just because their mothers taught them so. Are you wearing out yourself and your clothes boiling and rubbing? Why not try Fels-Naptha soap? It's the new, modern way of washing. Use it in cold or lukewarm water—no boiling or hard-rubbing—and your clothes will be cleaner, whiter, and wear longer. Follow directions on the red and green wrapper.

MARITIME BOARD OF TRADE TO MEET IN HALIFAX

Some Important Subjects Will Be up for Discussion—Large Attendance Expected—The Short Route of I. C. R. From Moncton to Halifax.

The fourteenth annual meeting of the Maritime Board of Trade meets at Halifax August 12th. It is expected that the attendance this year will be unusually large, as some of the subjects slated for discussion are of the greatest interest to business men and the public generally. The different boards proposing questions will be supposed to be ready to debate them when called, and to submit such resolutions on them as they desire to have approved. One of the Nova Scotia boards will bring up the question of the survey with a view of shortening the line of the Intercolonial Railway between Moncton and Halifax.

NOVA SCOTIA BOARDS.

ANNAPOLIS ROYAL. Resolved—The subject of advertising this Province by issuing a Sporting Guide to Nova Scotia so as to induce a larger number of tourists and sportsmen to visit the Province be endorsed by the Maritime Board of Trade, and it is recommended that all Boards of Trade furnish necessary information from their respective counties. And further resolved—That a special committee be appointed to devise ways and means to print a guide so as to furnish at the lowest cost for distribution and sale.

BERWICK.

Resolved—That the laws of our Province should be so altered that the valuation of property in the various sections for the purpose of assessment or taxation for the support of schools therein, should be made by assessors appointed by the rate payers of the school section at the annual school meeting.

DARTMOUTH.

Whereas—An effort is about to be made to shorten the line of the Intercolonial Railway between Moncton and the Port of Halifax. And Whereas—It is understood that the Dominion Government is about to make a survey for the purpose of finding out if it is possible to shorten said line. And Whereas—It is reported that a line from Grand Lake to Dartmouth can be obtained, which would shorten the distance between these points about nine miles. Therefore Resolved, the Secretary write the Minister of Railways, calling his attention to this fact and asking him to have such route surveyed.

HALIFAX.

(1) Running rights to the Canadian Pacific Railway over the Intercolonial Railway. (2) Improved cable communication between Canada, the British West Indies and Demerara.

WOLFVILLE.

(1) That the Local Government be asked to offer a prize for the best scheme to make possible the continuous use of tidal rivers of the Basin of Minas and Bay of Fundy, for the de-

MURDERER DIES.

NEW YORK, Aug. 10.—Ernst Seitz, who last night shot and killed Mrs. Bertha Hood at her home in Brooklyn and fatally injured Mrs. Hood's year and a half old daughter, died in the Brooklyn Hospital shortly before midnight tonight from the effects of the wound he inflicted upon himself after the double shooting. Alice Hood, the little girl victim of a bullet from Seitz's revolver, died today. Seitz made no statement, falling to regain consciousness.

CHLOROFORM TRICK IN RAILWAY THEFTS

MILAN, Aug. 8.—The Italian police are on the alert for a gang of thieves who have begun operations on international trains and in the great cities by means of the chloroform trick. A young man was found unconscious this morning in a sleeping car in the Basle Milan express. Through unexplained negligence some person or persons had been able to enter the compartment, place some cotton wool saturated with chloroform beneath the sleeper's nose and get clear away with all his valuable belongings. Another remarkable case is reported from Genoa, where a band of burglars invaded the residence of a wealthy provision merchant, sprinkled the walls and bedding with chloroform and ransacked the house in quest of a sum of several thousand pounds which had been paid to the merchant on the previous day, but which had luckily been forwarded to the bank. The thieves, however, were able to secure \$700 in notes and a quantity of valuable gold and silver ornaments. They then adjourned to the adjoining provision store and partook of a hearty supper of tinned Tomatoes and champagne.

PARIS, Aug. 11.—A young, pretty and trimly attired female rushed panting into the office of a police commissary. "Come as fast as you can, monsieur. My husband has just killed himself," she cried. Then she exhibited a missive in which, after numerous protestations of affection, her husband had written: "When this letter reaches you, I shall be a corpse. Tell the commissary and excuse me for the trouble I shall give him." The official accompanied by his secretary set out without a moment's delay for the dwelling of the couple. The door of the bedchamber was locked and a man had to be sent for to open it. He is now in custody for outrage on a magistrate.

APPROACHING THE BED, HE FOUND THE HUSBAND NOT DEAD, BUT SLEEPING SOUNDLY.

Closer inspection revealed the fact that no attempt had been made to light the charcoal pan nor had the official any particular difficulty in detecting the cause of the deep sleep, as on a table at the bedside was a rum bottle quite empty. He shook the man, and at last succeeded in arousing him, but perhaps it might have been wiser to have left him to sleep in peace, as furious at having been thus roughly awakened he sprang up, seized a stick and beat the commissary until he was tired. He is now in custody for outrage on a magistrate.

AS TO HIS WIFE, HER FEELINGS ARE OF A MIXED CHARACTER. SHE IS OVERJOYED AT THE DISCOVERY THAT HER HUSBAND IS STILL IN THE LAND OF THE LIVING, BUT HER DELIGHT IS ABANDONED BY GRIEVING AS TO THE FATE THAT AWAITS HIM, SINCE ASSAULT AND BATTERY OF A MAGISTRATE IS A VERY SERIOUS OFFENSE.

A telephone message reached The Sun from Amherst, last evening stating that George Barry, aged forty years and unmarried, was killed by No. 76 freight about 150 yards east of Pagan station. Barry was walking along the track about 10.10 p. m. when the fast train came along and ran him down. Examination revealed that the man's skull was fractured. Dr. Dyas, coroner, was summoned from Amherst, and after viewing the body empaneled a jury. The verdict given is as follows: "Accidental death by being struck by No. 76 freight, bound east, at 10.10 p. m."

Desperate Outlook in India as Result of Famine.

Failure of the Rains Causes Great Disasters—Mercury 112 in the Shade—Praying for Rain—Word from Missionaries.

That the reports which have been received from India concerning the awful results of the famine there have not been exaggerated is shown by the following received by the Star this morning:

Woolville, August 10th, 1908.

To the Editor St. John Star:

Dear Sir,—In enclose herewith some information concerning the famine in India. Word has recently come to me from Tokballi where I used to be stationed that there had been 70 deaths from cholera in a week in that town.

Rev. S. Sanford writes from Vidiana, gram last month which should have come about the middle of June, had come, but had brought very little rain. The heat was still intense and the mercury registering about 112 in the shade at the hottest part of the day. Owing to the failure of the rains last year both in June and October there has been great distress, and in May last severe famine and cholera epidemic set in. The outlook seems almost desperate unless very abundant rain should soon come. Rev. H. Y. Corax writes that as he travelled from Vancouver to Bobbit he found the people looking very bad indeed. He said that if plenty of rain did not come undoubtedly hundreds of thousands of the people would perish. We hope to hear this week that the gracious rain has come in great abundance.

Yours truly,

W. V. HIGGINS.

INTEREST IN BOAT OF LITTLEJOHN VS. FOLEY

Champions of New Brunswick and Nova Scotia Will Meet in Victoria Rink on Aug. 26th.

The proposed bout between Littlejohn and Foley will be pulled off in the Victoria Rink on August 26th. Arrangements were made this morning for a license for the exhibition and the terms of the mainly art case now read assured of seeing a good go. As Foley is the lightweight champion of Nova Scotia and Littlejohn claims the same title for New Brunswick, the match will prove an interesting one. They will go ten rounds.

A good preliminary of six rounds will also be arranged between some of the local lightweight.

The affair is under the management of John T. Power and this is a guarantee of the satisfactory way in which the affair will be conducted. The management will make every effort to make the bout so satisfactory that there can be no objection to such exhibitions here.

CITY WILL REMOVE THE SNOW FROM THE STREET

At a meeting of the Board of Works this morning the Recorder was authorized to insert in the contract with the Street Railway, a clause to the effect that the railway would not be obliged to pay for the removal of snow which their sweepers brush off the tracks.

This has been done in the past by the city although the bye-laws call for the removal of the snow from the street by the railway company and does not specify that they can merely remove it to another part of the same street.

FEMALE PRISONER TAKEN ILL

Mary Rumley, a young white woman, who was a few weeks ago sentenced to six months jail for being the inmate of a Sheffield street bawdy house, has taken very ill while in jail, and was last evening removed to the hospital in the ambulance. The Rumley woman who was able to leave the hospital will be a witness against Sheffield street proprietors, who is charged with illegal liquor selling.

THE ROYAL ARCANUM

The sixth annual session of the Grand Council of the Royal Arcanum at the Oddfellows' hall, Bridge street, in the town of Sackville, N. B., on Wednesday, the 10th instant, at 10 o'clock a. m. The supreme vice regent of the order, Clovis H. Bowen, of Pawtucket, R. I., will be present and install the officers. On Wednesday evening a class of about forty new members will be initiated by a picked delegation team, under the direction of S. J. Heston, of Moncton. It is expected that an hospital fund association, similar to those in vogue in all the large cities of the United States and Canada will be formed.

MUST APPEAR IN COURT.

Margaret Francis and Thomas Johnston have been requested to appear in court on the charge of having liquor for sale in their houses on Sheffield street, they having no license.

Amelia Francis was found guilty some time ago for keeping a bawdy house on Sheffield street, also with selling liquor without a license. Amelia has paid a heavy fine for the bawdy house charge and will now be sent for to pay the liquor fine. The police are certainly keeping a sharp lookout on the Sheffield street houses.
