

## BRITISH WARSHIPS SHELLING TRENCHES WITH TERRIBLE EFFECT; COMPLIMENTS BELGIANS

### Presence of British Monitors with Big Guns Proven Big Disadvantage to Germans — Allies Hold Ypres and Menace Enemy's Rear — French Troops Able to Withstand Fury of German Attacks — Russians in Poland Repulse Force Marching on Warsaw, and Inflict Heavy Losses, While Austrians Near Przemysl Have Also Been Driven Back — German Cruiser Sinks British Steamers.

London, Oct. 21, 9.30 p. m.—Although the Allies and the Germans have been delivering attacks and counter-attacks, and fighting of a fierce character has been almost continuous for a week or more, no decision has yet been reached in either of the West Flanders, Northern France or in East Prussia, Poland and Galicia.

This is clearly evident from the reports issued officially at the various headquarters, which today content themselves with recounting the fact that violent attacks have been made. The French, however, claim that the Allies have repulsed German offensive movements at various points in the west.

According to the French communication, the Germans made attacks against the Allied line at Nieuport, Dixmude and La Bassée, while the German general staff says fighting continued on the Yser Canal and that the Germans, taking the offensive west of Lille, have repulsed the French at several points.

These reports seem to dispose of the very optimistic accounts appearing in the English newspapers from correspondents who claimed they were in West Flanders, and who stated that the Germans have been driven back.

#### GOOD WORK OF BRITISH WARSHIPS.

The Germans, however, are believed here to be fighting against disadvantages, especially along the coast, as the British ships which have been assisting the Allies' land forces have long range guns that would be capable of making things uncomfortable for the ammunition trains and supply convoys, which must remain in the immediate rear of the troops, and also for the men in the trenches and the German gunners.

While no official information is available as to the ships which are being used for this purpose it is probable that they are the three monitors which were being completed in England for the Brazilian government when the war broke out and which were bought by the Admiralty.

These monitors, which have been renamed Mersey, Humber and Severn, draw less than nine feet of water and could take up positions not far from shore from which their six inch guns and 4.7 inch howitzers, of which each vessel carries two, would be able to throw shells nearly four miles across country, the range being given them by air-men.

The vessels assisting the Allies have not been allowed to carry out their practice in peace, for the crews of German submarines have followed them down the coast and while they have been shelling German positions made attacks on them. These attacks, however, were made futile by the presence of British destroyers. One account says the submarines suffered losses, but this statement has not been confirmed.

It has been remarked that the submarines and aeroplanes, which in times of peace have proved themselves most dangerous arms of the two services, have suffered little loss since the war commenced and have been doing splendid work, travelling thousands of miles. The battles on land are being contested with a ferocious and stubbornness which would indicate that strategic importance is placed on the positions held by the opposing armies. When a town is reached street fighting generally develops, such as that which took place at Ypres last week. First one side gains an advantage, only to lose it when the other side brings up reinforcements.

#### ALLIES HOLD YPRES

Thus far the Allies have been able to hold Ypres, which is considered an important point as it supports the Allied force thrown out toward Roulers and seemingly endangers the rear of the German army advancing toward Dixmude and the coast.

The Germans, on their side, are striking hard at the French line in the vicinity of La Bassée and have made counter attacks against the force which for many days has been endeavoring to relieve Lille.

Along the rest of the line from west to east, the French communication says there is no notable change, while the German staff ignores that part of the battle front in its statement. These reports doubtless mean that neither side has made any considerable advance. It is not believed here that there has been a cessation in the fighting either on the Meuse, where the French are trying to drive the Germans away from Saint Mihiel and Camp Des Romains, or at Belfort, which the Germans are attacking.

#### RUSSIANS GAINING IN EAST

Of the fighting in Russia the German official report today says no decision has yet been arrived at, but the Russians make a claim of victory which if not a decisive one comes very near being decisive.

An official report received from Petrograd says the German troops which were advancing toward Warsaw in the region north of the Piltz River have been repulsed and are now in full retreat. They left their wounded on the field. The Russians according to this report, have assumed the offensive, but the Germans are retreating on the left bank of the Vistula, south of the Piltz region as far as Sandomir.

The report seems to show that the Germans have concentrated a strong force of artillery in front of Kozenitz, which is just across the river from the important fortress of Ivanograd. It adds that the Russians are holding this district under most unfavorable conditions as far as locality is concerned, but in the next sentence declares that the Russians' positions on the left bank of the Vistula is now secure.

Of the progress of the battles in East Prussia the Russian reports are again contradictory. The Russians say the Austrians have failed to cross the San river, and that the Russians are taking the offensive, while near Przemysl the Russians repulsed numerous bodies of Austrians. The Austrians on the other hand, claim that their attacks are progressing, and that the Russians have been driven back out of several places. It is thought possible here that the American report refers to a battle that is taking place further to the south.

## OFFICIAL STATEMENTS FORESHADOW A VICTORY

### Announcements from Headquarters of Allied Armies Tell of Satisfying Progress — Pay Tribute to Gallant Belgian Soldiers — French in Violent Battle.

London, Oct. 22, 12.04 a. m.—The official press bureau issued the following statement at midnight: "Throughout yesterday the enemy made a vigorous attack against the Allies' front, but were beaten back, suffering considerable losses. The Belgian army in particular distinguished itself by its spirited and brave defence of its position."

"In regard to the last part of the above announcement by the war office, the press bureau has received from an authentic source the following description of the Belgian army's work, which will be read with pride both by the many Belgians who have had to flee from their native land, and by those Allies amongst whom they are now finding temporary rest and shelter.

"For the last four days the Belgian army have been in the trenches, holding a line of some thirty kilometers (19 1/2 miles) with the greatest determination against heavy odds. On several occasions they have made brave and successful counter-attacks against the German forces attacking the position they hold, and have shown the soldier-like qualities that have distinguished the Belgian army during the long period in which they have been fighting against superior forces of the enemy in their country."

#### RUSSIAN.

Petrograd, Oct. 21.—The Russian official statement issued tonight says: "The German troops, which had occupied the roads leading to Warsaw, in the region near the River Piltz, have been repulsed and are now in full retreat, leaving their wounded on the battlefield."

"The Germans have abandoned the positions they had fortified in advance. "The Russian troops are energetically advancing along the whole front."

"The enemy is still occupying the left bank of the Vistula, south of the Piltz and as far as Sandomir."

"The Russians who had been gallantly holding for eight days the region of Kozenitz, under most unfavorable conditions and heavy artillery fire, achieved considerable success on October 20 and their position on the left bank of the Vistula is now secured."

"The attempts by the Austrians to cross the River San below Przemysl have been checked and the Russians are assuming the offensive there."

"In the region south of Przemysl are found the remains of all the Austrian corps defeated in Galicia. Here the Russian troops are energetically checking the advance of numerous bodies of the enemy."

"There is no essential change in East Prussia. We are at present in touch with the slopes of the Carpathians."

#### SERVIAN.

Nish, via London, Oct. 21, 10.20 p. m.—The following official announcement has been issued in Nish: "On the night of October 17-18, attacks by the enemy were repulsed near the Loinitz customs house and the principal positions on the Drina river, to the south of the town. On the same night the enemy bombarded Banovla from the Beljina Heights, and also Topchidelsko, the Bardo bridges across the Save river and the two Singanilla islands. None of these operations met with success."

"On October 18 fighting took place along the whole front occupied by our troops in Bosnia, and all the attacks made upon them were repulsed with heavy losses to the enemy."

"On the same day the enemy directed an attack against our right wing in the direction of Montchevo and against Erminova. Both these attempts were repulsed, as well as one against the Servians near Belgrade on the left bank of the Save. On the remainder of the front there is nothing of importance to report."

#### FRENCH.

Paris, Oct. 21, 11 p. m.—The official statement issued by the French war office tonight reports a violent battle on the left wing, with the Allied forces holding their ground everywhere.

"On our left wing from the North Sea as far as La Bassée, on the several fronts from Nieuport to Dixmude, from Ypres to Menin and from Warneton to La Bassée, violent battles have been fought during the whole day."

"According to the latest advices the Allied forces were holding their ground everywhere."

"There is nothing to report regarding the centre of the right wing. "Russia. The German army which had advanced on Warsaw was forced yesterday to beat a precipitate retreat, the enemy abandoning the positions which he had established for defence. The Russians are in pursuit and have captured a number of prisoners."

#### GERMAN.

Berlin, Oct. 21, via London, 6.10 p. m.—An official announcement given out by the German military headquarters today, says: "Severe fighting continued on the Yser canal. The enemy's artillery was supported from the sea northwest of Nieuport."

"The fighting west of Lille continues. Our troops, taking the offensive, repulsed the enemy at several points."

"In the eastern theatre of the war no decision yet has been reached."

## OVER SIX HUNDRED PRISONERS OF WAR HELD IN DOMINION

### About Four Hundred Austrian—Many German Reservists Called Home Before Formal Declaration of Hostilities — Held at Detention Places Throughout Country.

Ottawa, Oct. 21.—There are 603 German and Austrian prisoners of war in Canada, according to the latest reports which have been received by the government from the various places of detention throughout the country. About 400 of these are Austrians and the rest Germans. All of them are reservists who were arrested while endeavoring to make their way to Europe to fight against the Allies. More than double this number have been arrested since the war began but many of them have become naturalized British subjects and have been allowed their freedom.

The fact that there are more Austrian prisoners of war than German is due to the fact that many German reservists had been notified weeks before the outbreak of war that they were wanted and had left Canada long before the formal declaration of hostilities.

The places of detention are Halifax, St. John, Montreal, Kingston, Toronto, Saint Ste. Marie, Winnipeg, Regina, Lethbridge, Nanaimo and Victoria. There are 206 prisoners at Fort Henry, Kingston, which is more than at any other point, 106 at Halifax, fifty-eight at Toronto, three or four at the immigration quarters in

## CANADIANS TO HAVE BRITISH ARMY CANTEEN

### General Alderson's Announcement Greeted by Cheers by Soldiers on Salisbury Plain — Preparing for Review.

London, Oct. 21.—The fact that the Canadian expeditionary force is now under English command, and will be accorded all traditional rights and liberties of the Old Country Tommy, was made clear by Colonel Alderson's promise to the troops this afternoon to abolish the dry canteen regulation which was fact cannot be ignored. Addressing the troops after the review at Buxard and West Down camps, General Alderson stated that certain difficulties had been overcome, with the result that within a few days the usual British canteens would be opened in the various camps. The prolonged cheers which greeted the announcement indicated it was one tending to make the new commander popular with the Canadians.

While the efforts of the Canadian Minister of Militia to avert troubles by adopting a drastic temperance policy have been appreciated on many sides, the fact cannot be ignored that the long period of enforced abstinence in camp at Valcartier, followed by a tedious sea voyage, tended to a good deal of reaction, when the troops arrived in England, examples of which were painfully evident soon after landing. At present the village standard on the outskirts of the camp are being guarded by pickets.

The chief event among today's activities in the camps at Salisbury Plain was an informal review by General Alderson of the Second and Highland Brigades. In full marching order the men marched in the afternoon from West Down camp to Buxard camp, three miles away. Although maintaining habitual reserve, it was gathered from British officers that General Alderson was fairly well pleased with the first in-march-out of the Canadians.

The troops are anxious for Canadian papers. Today a number of the men obtained three days leave of absence. Most of the fortunate ones made for London, and saw the Strand and Trafalgar Square densely crowded, owing to the decorations on the Nelson monument to the decoration of Trafalgar Day. It is unofficially stated that on Sunday all leave of absence will be cancelled for a fortnight for certain reasons, probably in order to tune up the troops for the review by His Majesty and Lord Kitchener.

The members of the Canadian force today received more evidence of English hospitality, when sixty-one residents, in private houses at Salisbury offered the daily use of their baths for the troops.

#### GERMAN STEAMER SUNK.

Rio Janeiro, Oct. 21.—The German steamer Santa Catharina, from New York for Rio Janeiro, etc., before reported seized as a war prize, is now reported sunk off Parcel Dos Abrolhos, a reef about 475 miles northeast of this port, having fire in her bunkers.

Montreal, and five in England. There is one lone German in a box car at Saint Ste. Marie, as there is no other accommodation for him at present at that point. At Toronto the Slabsby Barracks is being got ready to accommodate a number. All the Toronto prisoners are Austrians.

The prisoners were collected by the Dominion police, the mounted police, the militia guards, the customs officers and the immigration officers. They will remain in duration until the war office decides to exchange them or until the end of the war.

Except in the case of the attempt at Sarnia to secure the escape of some prisoners there has not been the slightest trouble according to the reports which have reached headquarters.

Both French and British pay tribute to the valor of the Belgians, who, with the allies, are holding back the German advance along the North sea coast. Incessant fighting has been in progress from the coast line as far south as La Bessee, a distance of about fifty miles, but this line is divided into several fronts, on which separate engagements are being fought. It is this line that the Germans are endeavoring to break in their attempt to reach Dunkirk and other French seaports.

Three British monitors, the Severn, Humber and Mersey, with six-inch and other heavy guns, are shelling the Germans in the vicinity of Ostend, where, it is said, terrible execution has been done, and machine gun detachments have been landed from these vessels and are assisting in the defence of Nieuport.

The British Admiralty which for a day or two withheld the news that the British fleet was participating in the coast operations, now takes occasion to compliment the monitors and bluejackets for their meritorious service.

There has been hard fighting in the Lille region, where the British are in action. The important French town of Lille, is still in the hands of the Germans, and the encounters in this neighborhood have been of a hand-to-hand character, evidently with little advantage to either side.

#### RELIEF FOR BELGIANS.

At last real action has been taken for the relief of the Belgians, upon whom has fallen the great burden of the suffering from the war.

An American commission headed by Herbert C. Hoover, of California, and composed of Americans resident in London and Brussels, will, by reason of an agreement reached between Belgium, Great Britain and Germany, take under its charge the care of hundreds of thousands of Belgians who are threatened with starvation in their own country. Already a large consignment of food has been purchased and will be shipped to Belgium within a few days. This will be followed by further large consignments to various points where the need is greatest on specially chartered steamers.

#### OPTIMISTIC RUSSIAN REPORTS.

Optimistic reports from the Russian viewpoint came from Petrograd, where it is officially announced that the German troops have been driven from the roads leading to Warsaw and are in full retreat, having left their wounded on the field of battle.

Similarly the Russians report that the advances of the Austrians in Galicia have been stayed.

Sasebo, the naval port of Japan, reports that the Japanese have destroyed the military equipment and seized large quantities of gold and munitions of war on the German islands recently captured in the South Seas. The Japanese embassy in Rome announces that the Japanese have captured an auxiliary cruiser of the German squadron and that another cruiser sank.

By order of the Russian Emperor the students of the universities and high schools, have been called to the colors. These youths are ordinarily exempt from war service.

#### FIERCE FIGHTING.

From the Battlefront, via Paris, Oct. 21, 11.36 p. m.—The Belgian army, with the English Channel on its extreme wing, is showing a marvelous fighting spirit, despite its long and hard campaigning, and the bitterness of the loss of Antwerp, and other large cities.

In the terrific open struggle which has been in progress along the frontier for several days, the Belgians, with the Allied French and British have repulsed with the greatest energy incessant German attacks.

Today, like yesterday, the German heavy artillery poured a heavy bombardment on the Allied positions, but the Belgians, undeterred delivered a counter-attack and forced the invaders to retire nearly five miles.

Further down the line on the Lys, the French were closely engaged, with general success. Three French sharpshooters performed a brilliant feat in defending a bridge, the possession of which was of the greatest strategic importance to both armies. The Germans made a cavewy dash in an effort to seize the passage, but the Frenchmen, behind a mill 75 yards away, poured their magazine fire into the Germans until the latter retired, leaving the bridge in the hands of the Allies.

Around Lille, where the British are in action, there has been fierce fighting, particularly in the neighborhood of La Bassée, which threatens the German possession of Lille. Street fighting has been very severe between the long lines of houses connecting the towns of Roubaix and Tourcoing. In a baker shop, one of the German troops was found in an oven, almost suffocated.

Along the centre, the artillery action continued today without great change, but several German trenches were captured.

### When the Liver Gets Torpid

There is Nothing Like Dr. Chase's Kidney-Liver Pills to Set It Right. Mrs. C. L. Cook, 248 Tenth street, Brandon, Man., writes: "I have used Dr. Chase's Kidney-Liver Pills for the last four years for liver trouble, and can say that I have had great satisfaction and help from them. I find that I do not need any doctor if I use them when the liver gets torpid, and believe that they are exactly suited for my case. My husband has used them for kidney trouble with good results, and my daughter in Winnipeg has been helped a great deal by the use of these pills. We say we can't keep house without them, and have cheered the doctors here out of a good many visits. I think Dr. Chase's medicine are just the thing and have recommended them to many people who have used them with good results."

### OBITUARY.

**Andrew Malcolm.**—Andrew Malcolm died yesterday afternoon at two o'clock after an illness of about eleven weeks' duration. Mr. Malcolm was a prominent business man, and took an active interest in many public affairs. He was a native of Balfour, Stirlingshire, Scotland, and was in his seventy-second year. While he enjoyed the best of health until August, Mr. Malcolm had been confined to the house with stomach trouble since that time. He is survived by his wife, six sons, Messrs. Andrew Douglas Malcolm, John Smith Malcolm and Dr. Donald Campbell Malcolm, of St. John; Rev. William Wallace Malcolm, of East St. John; Dr. Robert Bruce Malcolm, of Montreal; and Gordon Malcolm, a student at McGill University and one daughter, Mrs. F. J. McGowan, of Hampton, N. B. He is also survived by two brothers, John Malcolm, of Scotland, and James Malcolm, of this city, and two sisters, Mrs. William Campbell, of Lakefield, N. B., and Mrs. James McInnes, of Balfour, N. B. Mr. Malcolm was a member of the Kirk session of St. David's Church, and took an active part in the affairs of the St. Andrew's Society, Clan McKenzie and the New Brunswick and Prince Edward Island Sunday School Association. His death will be mourned by a large circle of friends in the community. Only a few months ago his co-workers in the Sunday School Association tendered Mr. Malcolm a complimentary banquet in honor of fifty years of faithful work. Mr. Malcolm was a good economist and recited with fine effect many poetic tributes to Scottish valor and Scottish character. He was also a keen curler. A man of sterling character, respected by all who knew him, there is deep regret at his death in the mercantile community, where he enjoyed such an honorable record, and throughout the city.

### MAY TRAIN ONE REGIMENT IN ST. JOHN

Halifax, Oct. 21.—While so far the list of recruiting stations for the two infantry battalions to be raised from the Maritime Provinces for the second Canadian contingent have not been given out, there seems to be a possibility that one battalion will be raised and trained in St. John. Private notices from that city today were to the effect that an effort would be made to have the New Brunswick regiment trained there, although possibly it might come to Halifax later on for a little final polishing up.

**MEXICAN CONSUL-GENERAL DEAD.**—Montreal, Oct. 21.—Mr. A. D. Ansell, Mexican Consul-General, who was taken from his room in the Queen's Hotel, to the general hospital, unconscious, yesterday died this afternoon. Mr. Ansell who was over 80 years old, had lived for twenty years in this city.

The Exford was captured and the operations of the Exford does not say how the Exford, which flies the British ensign and was bound from Yokohama for New York, was disposed of. In the Adriatic, where the Allies' fleets are attacking Cattaro, there has been fighting between the French cruiser Waldeck Rousseau and Austrian submarines and torpedo boat destroyers. According to the Austrian account of the fight the warships' Austrian submarines also have raided Antivari, Montenegro, and destroyed some mazzettes.

### WOUNDED SOLDIERS TELL OF DESPERATE FIGHTING

Remember Louvain and Termonde Battle Cry of Fierce Charge Until German Line Crumbled. London, Oct. 22 (3.16 a.m.)—A despatch to the Daily Chronicle under date of Northern France, Tuesday, says: "Two train loads of wounded soldiers arrived here tonight from the scene of the desperate fighting at Neuport and Dixmude. The Germans in great strength flung themselves on these two points in an effort to force their way to Neuport, in the hope of gaining Furnes and the French border. "Despite heavy losses the Germans returned to the attack three times. The engagement lasted the greater part of the day, but ultimately the Germans were driven back along the entire line. "In the beginning, however, the Germans carried everything before them. They succeeded in gaining possession of the town of Dixmude, but the Allies' reinforcements, in a bayonet charge, swept down on the enemy with the battle cry: 'Remember Louvain and Termonde.' "Desperate hand-to-hand fighting ensued, and gradually the German resistance crumbled. Slowly yielding at first, it finally became a rout. The allies' artillery came into action and completed the work of demoralization which the bayonets had begun. "The enemy in their retreat abandoned thousands of dead and wounded, our troops also lost heavily. Fifty soldiers who were only slightly wounded died on the battlefield from exposure, because the ambulance corps were unable to give them attention. Large numbers of the wounded, many of whom lay in the rain for fifteen hours, were without the slightest surgical aid."

### Harvard Will Retain Prof. Hugo Munsterberg

Has Withdrawn Resignation at Request of Authorities and College Will Not Receive \$10,000,000 Legacy of Major Clarence Wiener. Cambridge, Mass., Oct. 21.—Professor Hugo Munsterberg has withdrawn his resignation from the chair of psychology at Harvard University, "at the request of the authorities," according to an announcement made tonight. The resignation was submitted recently after Prof. Munsterberg had learned that the university had received a communication from Major Clarence Wiener, of London, threatening to withhold a legacy of ten million dollars to Harvard unless the professor were dismissed. According to information given out regarding Major Wiener's communication it said that he had already provided in his will for such a legacy, and had added a cancelling clause to take effect if his wishes regarding Prof. Munsterberg were disregarded. His objection to the head of the university's psychological department was based on the latter's pro-German utterances since the opening of the European war. The announcement of the withdrawal of the resignation appeared in the columns of the Harvard Alumni Bulletin, and it was understood that the Bulletin's announcement would be the only thing approaching an official statement. "The Bulletin says editorially that the university cannot afford to admit any suggestion that it would be willing to accept money to abridge free speech, to remove a professor, or to accept his resignation."

### "CASCARETS" RELIEVE SICK, SOUR STOMACH

Move acids, gases and clogged waste from liver and bowels. Get a 10-cent box now. That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, dizziness and sick headache, means a disordered stomach, which can not be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any. Try Cascarets; they immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. Then your stomach trouble is ended. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

### DANISH SUBMARINE ALMOST TORPEDDED

London, Oct. 21, 10.42 p. m.—"A foreign submarine boat of unknown nationality," says a Central News despatch from Copenhagen, "discharged two torpedoes yesterday afternoon at a Danish submarine which was lying in international waters at the northern end of the sound. Both torpedoes missed their mark, but one of them drifted ashore this morning and exploded. "The Danish government has asked the belligerent powers to exercise greater care in the future."

### BYE-ELECTION IN ANCIENT COLONY

St. John's, Nfld., Oct. 21.—The government has ordered a second by-election for the Bonavista district, vacated by the resignation on Wednesday of William Coaker, president of the Fishermen's Union in order to contest Sir Robert Bond's vacant seat in Twillingate district. The election in Bonavista takes place on November 16 and Alfred Morlan, who returned to the colony from Canada two years ago announces his candidature for the seat. He stands as an independent candidate, but opposes the government and will be endorsed by the Fishermen's Union, or Coaker's party, of which he is the solicitor. It is understood that owing to the war, the government will not contest this vacancy as the standing of the parties will not thereby be altered, the opposition having held both seats previously.

### GERMANS USING A CANAL FOR SHELTER

Excavation of Canal du Nord serves to screen German soldiers from hail of bullets.

London, Oct. 21, 4.20 p. m.—The Star has published a despatch explaining the desperate resistance of the Germans in the vicinity of Roye and Arras. The enemy succeeded in taking possession, this despatch declares, of the huge excavations of the Grand Canal Des Nord, now in course of construction. It is sixty miles long, and so deep that the Germans are able to shove through it large bodies of troops sheltered from the enemy's fire.

### Cut This Out

Famous Recipe for Catarrhal Deafness and Head Noises.

If you know of someone who is troubled with head noises, or catarrhal deafness, cut out this formula and hand to them, and you will perhaps have been the means of saving some poor sufferer from total deafness. Investigation has proven conclusively that catarrhal deafness, head noises, etc., were usually directly caused by constitutional disease, and that salives, sprays, inhalers, etc., merely temporarily relieve the symptoms. If ever, effect a permanent cure. This being so, much time and money has been spent of late in perfecting a pure, gentle, yet effective tonic that would quickly dispel all traces of catarrhal poison from the system. The effective prescription which was eventually formulated and which has aroused the belief that catarrhal deafness will soon standable form, is that anyone can treat themselves in their own home at little expense.

# GERMANS GAIN A GREAT FIGHTING SPIRIT

## GERMANS USING A CANAL FOR SHELTER

### Excavation of Canal du Nord serves to screen German soldiers from hail of bullets.

London, Oct. 21, 4.30 p. m.—The Star has published a despatch explaining the desperate resistance of the Germans in the vicinity of Roye and Arras. The enemy has succeeded in taking possession, this despatch declares, of the huge excavations of the Grand Canal Due Nord, now in course of construction, in a sixty mile long, and so deep that the Germans are able to move through it large bodies of troops sheltered from fire.

## Cut This Out

### Famous Recipe for Catarrhal Deafness and Head Noises.

If you know of someone who is troubled with head noises, or catarrhal deafness, cut out this formula and hand to them, and you will perhaps have been the means of saving some poor sufferers from total deafness. Investigation has proven conclusively that catarrhal deafness, head noises, etc., were usually directly caused by constitutional disease, and that salves, sprays, inhalers, etc., merely temporarily effect a permanent cure. This being so, much time and money has been spent of late in perfecting a pure, gentle, yet effective tonic, which quickly dispels all traces of catarrhal poison from the system. The effective prescription which was eventually formulated and which has aroused the belief that catarrhal deafness will soon be extinct, is given below in understandable form, so that anyone can treat themselves in their own home at little expense.

Secure from any good druggist St. John 1 oz. Parmitol (Double Strength), about 7c. worth. Take this home, add 4 oz. of purified hot water and 4 oz. of granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

## RUSSIANS SURPRISE AUSTRIANS

### Enemy Attempted Trick But Were Neatly Caught in Their Own Trap — German Assaults Repulsed.

Petrograd, Oct. 21, via London. (2.12 a.m.)—Correspondence from Warsaw giving the details of the recent capture of an Austrian battalion in the region of Stry, Galicia, relates how the Austrians hearing branches of trees heavy with foliage to screen their movements advanced at nightfall. The Russians feigning ignorance of their approach loosened the misty fire, allowing the Austrians to draw near, but meanwhile bringing their machine guns and light artillery into position.

## TELLS OF CRUELTY.

Special to The Standard. Fredericton, N. B., Oct. 21.—Miss Lillian Poole of Hford, Essex County, England, who is a guest of Mrs. S. B. Waas, has received a letter from her sister in England telling of the conditions of the Belgian refugees who are daily arriving there by the thousands.

## CONGRATULATIONS.

Fredericton, Oct. 21.—J. B. Hachey and A. J. H. Stewart, M. L. A., for Gloucester and Geo. Barber of Bathurst are at the Barker House. Mr. Hachey is being congratulated by his friends here on securing the nomination for the Dominion Parliament for Gloucester having been nominated at the recent convention of the Conservative party in Gloucester.

## Ordering English Army Clothing in Canada

Montreal, Oct. 21.—Fred Stobart, purchasing agent for the British government, is at the Windsor Hotel, for orders of a million sweater-coats, a similar number of pairs of grey worsted socks, a million pairs of heavy underwear, and a million English army shirts, besides field glasses, which will run into about a million dollars.

## RUSSIA CALLS ITALY WILL CHECK MOVE OF THE TURKS

Petrograd, Oct. 21, via London. (4.35 p.m.)—Refugees who have reached Petrograd from Russian Poland have brought information concerning a secret system of communication by telephone, of which the Germans have made extensive use.

## Waves of Enthusiasm in Petrograd When University Men Were Summoned to the Colors.

Petrograd, via London, Oct. 22. (2.12 a.m.)—Under instructions from Emperor Nicholas orders were issued today from the war office calling out the students of universities and high schools, who ordinarily are exempt from military service.

## GOOD WORK ON THE ISLAND

Charlottetown, P.E.I., Oct. 21.—Hon. Charles Dalton, acting premier, in the absence of Premier Matheson, has received from the government representative at the armories in Charlottetown an official report of what has been done in the matter of relief for the Belgians. The people of Prince Edward Island have enthusiastically contributed towards this fund. Tons of clothing have been collected, all of which have been sorted into classes and packed in large cases with the number of articles and contents marked on each case and shipped to Halifax.

## GERMANS USE OWN 'PHONES IN RUSSIA

### Evidently Spy System is Widespread Along Border—Taking Steps to Break it Up.

Petrograd, Oct. 21, via London. (4.35 p.m.)—Refugees who have reached Petrograd from Russian Poland have brought information concerning a secret system of communication by telephone, of which the Germans have made extensive use.

## FIVE BRITISH STEAMERS SUNK BY GERMAN CRUISER

London, Oct. 21, 4.55 p. m.—The German cruiser Emden has again been sinking British steamers, this time at a point 150 miles southwest of Cochin, British India, according to a report received by the Admiralty from Colombo, Ceylon. She has sent to the bottom the British steamers Chikana, Troilus, Bestmohr and Clangraat, and the dredger Pourable, bound for Tasmania.

## Pepp's What are they?

Pepp's is the name bestowed upon a new scientific preparation put up into tablet or capsule form, which provides an entirely new and effective treatment for coughs, colds and lung and throat troubles.

Look at it the other way round. Suppose you suffered from some stomach complaint—indigestion or ulceration. How strange you would think it if you were asked to take a medicine which had to be breathed in, and which went—not to your stomach, but to your lungs and breathing passages?

## Can you name these two Varieties?

They are among the best of Canada's world-famed Apples. Each has distinctive qualities. Can you name them? Do you know a McIntosh Red from a Fameuse? A Gravenstein from a Ben Davis?

Should you not know more about Canada's National Fruit? The great, luscious, juicy apples that we harvest in the sun-wet valleys from Okanagan to Annapolis are the world's best. Even Burbank, creator of famous American varieties, praises them.

## APPLE LORE

Romance in an Apple Orchard. Ben Davis was an awful flirt. He was a native of Spitzbergen and quite famous as a Wagoner. He became quite smitten on Miss Gravenstein, a Wealthy young lady of Baldwin, and his attentions made her turn thousands of bushels of oats and turned Jonathan, still another suitor, Greening with jealousy.

"BREWSTERS' MILLIONS" GREAT BIG HIT

Imperial will repeat Metropolitan production today—Excellent Vaudeville.

"Brewster's Millions" attracted great crowds to the Imperial Theatre last night. The production is particularly large. For a good breezy metropolitan comedy this feature has all the fine points that appeal to the audience.

The story, which is by George Barr McCutcheon, is a familiar one. Young Brewster is to be the instrument of codger who with one wealthy old codger strives to belittle another.

**GERMANY SEEM TO BE HOLDING OWN IN EAST**

Peking, China, Oct. 21, 4:05 a. m.—Believers who have come out of Tsing Tau, the fortified position in the German possession in Shantung province, are authority for the statement that up to the time they left the Japanese had lost several thousand men before Tsing Tau, while the casualties of the Germans did not amount to more than several hundred.

Reliable information obtained in Peking is to the effect that a British detachment sustained a number of casualties while crossing land that had been mined by the Germans in Kiao-Chow.

Arrivals at the Chinese capital from Siberia say that Russian troop trains are travelling westward, over the trans-Siberian Railway, hourly.

An uncorroborated letter received in Peking from a reliable correspondent within the Japanese lines, dated October 9 says that the Japanese attacked Tsing Tau on several nights, but invariably were repulsed. Once, the correspondent says, the Germans followed the Japanese successfully for a short distance.

**THE FOX CENSUS OF P. E. ISLAND**

Provincial Government takes up the work of counting the Foxes.

The Provincial Government has about completed a census of the fox industry in Prince Edward Island. This enumeration is taken for the purpose of ascertaining the number and value of all the young foxes born and reared to maturity this year on which a tax of one per cent, is payable to the Government. The result shows that there are 312 ranches in operation against 377 last year. The number of young foxes set this year in captivity is 2,052 of which 1,339 are silver foxes, 565 are cross foxes, 276 red foxes and two blue foxes. The sworn value of young silver foxes of this year is \$6,056,140 and of all the less valuable kinds \$231,398, making a total value for the fox crop of this year of \$6,287,538. It is to be noted that the sworn valuation for purposes of taxation is considerably under the actual selling price. The total number of foxes of all kinds, old and young, in the ranches of Prince Edward Island is now 4,850 of which 2,644 are silver and 1,906 of less valuable varieties. The present value of the foxes, ranches and ranch properties is estimated at \$20,000,000 as compared with \$15,000,000 last year. The annual meetings of fox companies at which dividends are declared and paid are mostly held in October and November. Very few of these meetings have yet been held but a dozen or more companies have declared interim dividends of ten per cent. to fifty per cent, with intimation of further dividend later.

**THE INDUSTRY IS PERMANENT**

How the Charlottetown Guardian sizes up the situation.

As proof of the stability of the fox industry and an indication of how unimportant has been the effect on it of the depression caused by the war, is the fact that the formation of new fox companies continues at average pace. In Saturday's Royal Gazette appear applications for letters patent for the incorporation of two more new companies, "The Lamson Silver Cross Fox Co. Ltd." and the "Colonial Silver Black Foxes Ltd." the former with a proposed capital of \$42,000, divided into 420 shares, and the latter with a capital of \$300,000 divided into 3000 shares of \$100 each. The Lamson Company will have its head office located in Charlottetown, and the promoters include some of Charlottetown's most prominent foxmen. The applicants for incorporation are Messrs. Myron Henderson, trader, and David C. McKay, manufacturer's agent, of Halifax, N. S.

**THE SILVER BLACK FOX**

Another fine number of this journal has appeared

The October number of "The Silver Black Fox" has made its appearance. This publication has many features of interest to all residents of this part of the country.

The progress and development of the fox industry has been featured in some timely articles by men who know what place in this industry.

The mechanical part of the paper is a credit to the publishers, and the articles within its pages are well written and handled.

Among the contributors this month are A. P. Rogers, of Boston; M. B. Innis, H. M. Bolger and others prominently connected with the fox industry.

**SECURING SKUNKS FOR BREEDING**

How these interesting little animals are captured for ranchers.

As skunks inhabit most parts of the United States, they may usually be obtained in the neighborhood in which it is desired to breed them. The best method is to dig the young out of dens in summer. In states providing a close season for skunks this could not be done without a permit from the authorities. In some places express companies are authorized to accept live skunks for shipment. However, there is no danger that the animals will use their scent if the box is damped with sawdust and not subjected to rough handling.

Skunks for breeding may be bought from trappers, dealers in wild animals or other breeders. In some places express companies are authorized to accept live skunks for shipment. However, there is no danger that the animals will use their scent if the box is damped with sawdust and not subjected to rough handling.

**LOOKING INTO FOXES**

The fox business in the Maritime Provinces is beginning to attract American capital and Ernest Fuller, brother of New York, has been in the province for the past few days inquiring into conditions. He has gone in company with R. C. Chappell to Newfoundland to look over Sydney and other interests in the old colony. He intends to interest American investors in the industry.

**INTERCHANGE OF CURRENCY PLANNED**

For British soldiers in France and the many difficulties confront proposal

London, Eng., Oct. 21.—English bankers presented in the House today a bill for the purpose of facilitating the interchange of currency between France and England during the duration of the war. Inquiries were made in London on the subject with a view to seeing how far the idea would commend itself to London bankers. There are at the moment a large number of British soldiers in France,

Reckonable in Gold.

It is a perfectly simple matter to make English notes and gold legal tender in France, since by our currency system all our notes are redeemable in gold. The collection of these, therefore, in France, and their remittance to London would merely tend to increase the stock of gold of our neighbors. But the collection of French notes in England would not bring about a similar result, since their remittance to France would still leave them a paper currency. Where as temporary difficulties might well be overcome by temporary measures, a general interchange such as has been suggested is hardly feasible where currency conditions vary to so appreciable an extent.

Difficulties Have Disappeared.

Doubtless many of the difficulties which arose on the outbreak of hostilities have now disappeared, or will do so shortly. Already there is a demand for French notes in this country, they being a ready mode of trans-

**CONGRESS REJECTS COTTON RELIEF PLAN**

Washington, Oct. 21.—The compromise cotton relief plan was defeated in the house today by a vote of 122 to 81.

It proposed the deposit of \$250,000,000 of government funds in southern banks to be loaned to cotton and tobacco growers.

Germany Prepare for Retreat.

London, Oct. 21, 2:57 a. m.—The Daily Mail's Rotterdam correspondent says that three Zeppelin airship sheds are being built at Brussels and four at Antwerp.

**FURTHER DECLINES IN CHEMICAL PRICES**

Let-up in purchasing operations on part of many large consumers has intensified competition among importers and other handlers of Crude Drugs.

New York, Oct. 21.—A still further recession of prices has occurred in many departments of the drug market within the week, in consequence of the more general realization of the results of the shutting off of European consumption, due to the war abroad, and the consequent accumulation of supplies here, which would otherwise have been distributed on both sides of the Atlantic. The let-up in purchasing operations on the part of many large American consumers has also intensified competition among importers and other handlers of crude drugs, and in the resultant price slashing, quotations for some commodities have been dropped to levels below those prevailing prior to the war.

Of foremost importance among the week's developments of interest to the trade has been the elimination of patent and proprietary medicines from the taxable list of commodities in the war revenue.

As now amended, the measure applies only to perfumery, cosmetics and toilet articles.

Another development of some interest to the narcotic trade has been the introduction into the Senate of a bill to regulate the sale of narcotics in the United States Consular Districts in China.

Because of the fact that this measure has provisions similar to the Boylan or New York State Narcotic Sales Regulation Bill, in addition to proposing amendment of the features of the latter, it is hoped by the drug interests of this country that this measure will not be enacted until after the passage of the Harrison Bill by the Senate and until after some progress has been made toward modeling future legislation on this subject along the lines of the national bill and toward unifying such state laws as have already exist.

Evidence that supplies of many much needed narcotics and other drugs are well nigh depleted in London, has been furnished by the late temporary English house to buy a large number of these commodities in the local market.

As has been noted for several previous weeks, the list of declines far

**MINING SUNKEN HULL**

The revenue cutter Acushnet recently exploded on the coast of Nova Scotia, containing high explosives over the wreck of the five-masted schooner George P. Hudson, succeeding in blowing the hull of the schooner in the air. The schooner is sunk in Follock Rip Sine and is a serious menace to navigation in the coastwise trade. The cross currents in that locality make it very hard to place mines properly over a sunken hull.

**QUICK LOADING**

The six-masted schooner Ruth E. Merrill, which sailed from Delaware Bridge on Sunday for Boston, made a remarkably quick loading. She arrived at pier 18, Fort Richmond, on Thursday, was placed under the chutes at eight a.m. and eight hours afterwards she was not only loaded but trimmed and ready for sea. The total cargo taken on board was 5,000 tons.

**A LONG VOYAGE**

An former Portland barkentine Onyx, which has been loading at Boston for Rio Janeiro, will probably depart on her voyage of 6,000 miles tomorrow. She will take out 2,000 barrels of apples, a quantity of pears and lumber, the fruit being kept fresh by tea. For over twenty years the late Capt. J. W. Balzano made yearly trips to Rio Janeiro with similar cargoes, always arriving in time to market them before Christmas.

Turk's Island, Bahamas, Oct. 21.—The American schooner Lady of Avon, from Annapolis, N. S., Oct. 1, for O'Leary, with a load of lumber, went ashore this morning on Northwest Reef, off this island, and probably will be a total loss. Her cargo is being saved.

Chicago, Oct. 20.—For the first time in sixteen years the meat packers at Chicago stockyards are working day and night in the excited mood and hide departments in order to fill orders. The usual activity has been caused by the large orders received as a result of the European war. In the canning departments of the big packers alone, three thousand extra men have been engaged.

## NO CHANGE IN THE COTTON SITUATION

Spot markets in the South quoting middling cotton at 5 1-2 to 6 7-8 cents at principal interior and seaboard receiving points — Banking syndicate plans — Exchange rules.

New York, Oct. 20.—There were no new developments of importance in the general cotton situation. The quoted prices for spot cotton on the Southern spot markets were unchanged at nearly all points from Saturday's quotations. Middling cotton is now being quoted at 5 1/2 cents at all the largest interior and seaboard spot markets.

The next spinning report of the Census Bureau will be announced at Washington early on October 23. This will cover the total amount of the cotton crop raised up to October 17, with the comparative figures for previous years.

The plans of the Bankers' Syndicate for raising a total fund of \$150,000,000 to be subscribed by banks and bankers and merchants throughout the country to lend on cotton warehouse receipts stored throughout the South, on the basis of about six cents per pound for middling cotton, have about been completed.

The members of the New York Cotton Exchange have approved the new rules formulated for future trading in cotton contracts under the new Cotton Trading Law in the "Lever bill" passed by Congress early in August. These new rules will fill about a column of space in this market report and are largely of a technical character, chiefly with reference to deliveries of actual cotton on contracts and the new grading laws, which reduce the number of grades to but four above and four below the standard grade of middling.

## HOPEFUL FEELING IN FINANCIAL WORLD

Stock Exchange Committee to Reduce Limitations

New York, Oct. 21.—It now seems likely that another forward step toward taking down the bars for stock exchange reopening will be brought about by permitting officially sales of securities at concessions from those of July 30.

It has been suggested for some time that the Wall Street Journal, "what one method of reopening the stock exchanges would be clearing house under which sellers of foreign securities should accept clearance house funds in payment, and agree not to withdraw their balance from this country until so many months after the war."

Some people of millions have expressed their desire to join in a 500-million dollar pool to purchase American stocks and securities at a price of 100 cents on the dollar.

Staring exchange rates show ease with a fair number of bills offering. This market is far from stable and rates fluctuate with the supply and demand. Selling is quoted at 44-45 for 100 to 496-58, and cable transfers at \$4.96 3/4 to 4.96 7/8 until recently. These have been quoted a full cent apart, but the margin has narrowed to the nominal basis, a one-half cent spread. Banks and trust companies which subscribed to the New York city note issue underwriting have been

is expected that most of this installment to the syndicate managers by the close of business Thursday. It amounts to about \$5,000,000. Because of the rapid restoration of reserves to the clearing house institutions, re-forecasted by the almost complete extinction of the deficit in last Saturday's New York bank statement, it is expected that most of this installment will be paid in gold or gold certificates rather than in exchange, which is deliverable at only \$4.90, though selling nearly several cents in the pound sterling higher than that price.

It is fully realized by members of both exchanges that the buying power at the July 30 level has been exhausted and that the closing price level of that date is obsolete. According to reports these committees are conducting a quiet investigation to ascertain if there are any objections on the part of the brokers. The New York committee has gone so far as to request a representative from every house of the brokers. ### MINING SUNKEN HULL

The revenue cutter Acushnet recently exploded twenty-two big mines containing high explosives over the wreck of the five-masted schooner George P. Hudson, succeeding, however, only in blowing the spars out of the vessel. The schooner is sunk in Pollock Rip Sluice and is a serious menace to navigation in the coastwise trade.

### QUICK LOADING

The six-masted schooner Ruth E. Merrill, which sailed from Delaware Breakwater on Sunday for Boston, made a remarkably quick loading. She arrived at pier 18, Port Richmond, on Thursday, was placed under the crane chutes at eight a.m. and eight hours afterwards she was not only loaded but trimmed and ready for sea. The total cargo taken on board was 8,050 tons.

### A LONG VOYAGE

The former Portland barkentine Ony, which has been loading at Boston for Rio Janeiro, will probably start on her voyage of 6,000 miles tomorrow. She will take out 3,000 barrels of apples, a quantity of pears and lumber, the fruit being kept fresh by ice. For over twenty years the late Capt. J. W. Balano made yearly voyages to Rio Janeiro with similar cargoes, always arriving in time to market them before Christmas.

### ANNAPOLIS SCHOONER

Turk's Island, Bahamas, Oct. 21.—The American schooner Lady of Avoon from Annapolis, N. S., Oct. 1, for Ch. enfuegos, with a load of lumber, went ashore this morning on Notwest Reef, off this island. She probably will be a total loss. Her cargo is being saved.

## SENSATIONAL MURDER CASE IN VANCOUVER

Immigration Official Shot Down in Street by Hindu.

ASSASSIN QUICKLY CAPTURED BY POLICE

Inspector Hopkinson's aggressiveness in Kamagata Maru case proved to be his death warrant.

Vancouver, Oct. 21.—William C. Hopkinson, chief assistant to the immigration inspector here, was shot and instantly killed at the Court House on Georgia street this forenoon by a Hindu. The alleged assassin was immediately arrested by the police. Hopkinson was standing in the main corridor of the court house when a party of Hindus passed by. A man named Mewa Singh is charged with having done the shooting.

Hopkinson was threatened at the time of the Kamagata Maru's visit to Vancouver, but the reason of his assassination this morning probably arose out of a trial now pending at the assize. He was to have been a witness today in the case of Bela Singh, which was to have been taken up the grand jury this morning. Ram Singh, another Hindu, was acquitted on a charge of murder yesterday. Hopkinson gave testimony favorable to Ram Singh, who was an enemy of Mewa Singh.

The police intend to proceed immediately with the charge against Mewa Singh, so that the matter may be disposed of at the present assize.

It is stated that after the departure of the steamship Kamagata Maru a vendetta was declared against all those, white or Hindus, who were active in preventing the landing of the ship's passengers and in having them dispatched back to Hong Kong. Mewa Singh, who was shot in a rooming house some weeks ago, and Herman Singh, found with his throat cut, are supposed to have been two of the marked men. Inspector Hopkinson was a third.

Fell Out Again. "I thought you said Jack fell in love with Alice at first sight."

"And so he did; but he see he took a second look."

## QUASHED LIFE TO GERMAN'S CLARE OF LIGHTS

PROVED AID TO BRITISH GUNS

Interesting but unconfirmed story relating to alleged Operations of British Warships on Sunday last.

London, Oct. 21, 4.45 p. m.—A newspaper correspondent at Dover has sent to London some details of the recent operations of British warships off the coast of Belgium. He says that last Saturday night the ships watched a force of German digging trenches along the coast, under a flare of lights. This enabled the English boats to get the exact range, and at daylight they shelled the enemy's positions heavily. A Taube aeroplane was brought down, and later a Zeppelin, and it is declared that the guns of the British vessels were trained for 1,500 Germans in killed and wounded. In addition to putting six batteries of artillery out of action. In the meantime German submarines tried in vain to sink the British ships.

This despatch is not confirmed by the official press bureau. It says that the Russian press is enthusiastic over the declaration by the Russian Emperor that the sale of alcohol by the government is forever hidden in Russia.

The Novaya Zemlya sites as a happy effect of the suppression of the sale of liquor, an increase in saving bank deposits during September of \$11,500,000 over the same month last year. In spite of the war.

## POLICE COURT YESTERDAY

Eleven prisoners faced the Magistrate on different charges.

Eleven prisoners appeared in the police court yesterday morning as a result of having too close an acquaintance with the god of pleasure. Three drunks were sentenced to a fine of \$2 or two months each in jail. One of them paid his fine. John Judge, another drunk, said he did not think he was drunk and complained that the officer treated him roughly. The officer said he was not drunk, but he was drunk on his own. He should have put on his gloves before he touched you," remarked His Honor. He was given two months to meditate. Thomas Waterhouse, Thomas Kane and Patrick Buckley were charged with drunkenness and disorderly conduct. All three pleaded guilty to drunkenness, but did not remember being disorderly. Officer O'Neill testified that he and Officer Journey were walking down King street when a man told them that there was a riot on Prince William street. They went to the crowd of about two hundred people. On arriving at the scene of the disturbance they found Buckley shouting and elbowing people right and left, so they arrested him. Hugh Guthrie corroborated the officer's testimony. They returned later and managed to catch Waterhouse and Kane as they were going down the ferry dock. Guthrie created a disturbance on Charlotte street. The trio were remanded.

## NAPOLEON LAJOIE GREAT SECOND BASEMAN

LAJOIE

Napoleon Lajoie, king at one time of the second basemen of the American League, won his way back to the top of his position in that organization in 1913. For more than a year it had been reported that Lajoie never

would play ball again, but he again proved his wonderful skill as a ball player and at the close of the 1913 season once more found his picture in the Spalding Baseball Hall of Fame as the leading second sacker in the American League.

## CONNIE MACK'S MUCH VAUNTED STRATEGY MISSING IN SERIES

Not only was the world's championship wrested from the Athletics by those astounding Boston Braves the other day, but Connie Mack's title as the game's greatest manager also was taken away.

Just as long as the Philadelphia club was able to beat everybody on earth, critics generally admitted that as a strategist, a developer of young players and a handler of men, Cornelius McGillicuddy was without a peer. It is yet to be proved that he has slipped in the matter of building up a club and disciplining it, but as a strategist he certainly has lost caste. Mistake after mistake was made by the team tactician in the world's series that so recently has slipped into history. From the first game until the last Mack was always doing something wrong and instead of handling his club like a master he got much less out of it than might have been possible even in its demoralized condition.

**Fails to "Pull" Anything.**  
With the "breaks" going against him and his players far off their stride Connie had to pass up the Napoleonic stuff. Any play that works is hailed as a masterpiece, but the test of a manager is in rallying an outfit that is on the run and supplying brains and fighting spirit where mechanical ability and luck are lacking.

Connie had a chance to prove himself great in this series, but he failed to rise in the emergency. Instead of making some of those "master moves" for which he has been given credit in the past, he seemed entirely helpless in the face of what was happening to his club.

Right at the start Mack showed lack of judgment in letting Bender continue as long as he did. The Indian looked like himself in the first inning, but after that it was evident to all who watched him closely that he was through. Yet his manager let him stay and he battered until Boston had scored six runs and the game was all over as far as the Athletics' chances were concerned. In this same game Wyckoff, after hitting a double, was permitted to run for himself. It made no difference then what sort of pitching the Athletics had unless they got some runs, and here was a chance to start a rally or at least make it look as though the Macks hadn't quit. But Wyckoff, who doesn't get on the bases ten times a year, was allowed to stay in the game.

There was no specific mistake in the second game, but the general one of all the Athletic batters at the first ball was conspicuous.

**SENT TO PIRATES.**  
Pittsburgh, Pa., Oct. 21.—Marty Ryan, pitcher, who was purchased by the New York National League club on August 21, has been returned to the Pittsburgh Nationals, from whom he was bought. It was announced New York declined to pay the balance of the purchase price. O'Toole has signed a 1915 contract with the Pirates.

**KENNEL NOTES.**  
At the Central New York Kennel Association Dog Show held last week, the St. John Irish Setter "Champion Carry Law" won first limit, first open, first winner and special trophy.

The wire haired Fox Terrier Northey Janet, owned by LeB. Wilson, whelped three dog pups and two bitch pups on Sunday, by Walnut Regalia, a Toronto dog.

## A RECORD MADE ON VIC. ALLEYS

**A RECORD MADE**  
In the Five Men League match on the Victoria alleys last night the No. 3 team not only defeated the No. 5 team, but established a record pin fall for a five men team, their total score being 1447. Simpson, with an average of 100.14, was the highest for the winning team, while the highest average for the losing team was ninety-eight, made by Brown. The following is the individual score:

## SMITH AND JOHNSON TO FIGHT

New York, Oct. 21.—Jim Buckley, manager of Gunboat Smith, announced yesterday that he had received a telegram from Promoter Coffroth, of San Francisco, asking if Smith would be willing to meet Jack Johnson New Year's Day at Tijuana, Mexico. Buckley immediately sent an affirmative reply.

The gunner's manager declared that as Coffroth claims to have obtained Johnson's consent to the match, he believes Smith has beaten the other "white hopes" to it in endeavoring to get a fight with Johnson.

Tijuana is in northern Mexico, less than hour's ride from San Diego, Cal.

**FRENCH TAKE MINE.**  
Paris, October, 20.—A despatch to the Havas Agency from Bordeaux says that Marcel Seners, bat, the French minister of public works, has informed the cabinet that he is proceeding with the construction of the Dielette mine, near Cherbourg, which is owned by Herr Thyrson, a Westphalian coal operator and head of the Rheinisch-Westphalian syndicate, who is a friend of Emperor William.

## A HOCKEY SALARY TUMBLE

Art Ross is back from his hunting trip through the Pontiac Country and reports fair success, although on account of the distance they had to go

ART ROSS

to the railroad, he and his friends were not able to bring back much of their spoil. He absolutely refuses to discuss the hockey situation as far as he is concerned for the present, but admits that with the unofficial fat laid down by the local promoters to the effect that they will not pay more than six hundred dollars this season or thirty dollars per game to the regular players the chances are that he will throw in his lot with a different crowd from the one he has been associated with.

The tumble down in prices is particularly remarkable. Once he received a thousand dollars for two games, and during the season when he headed the ill-fated All-Montreal team which was left in the lurch by some of its backers, he finished it up with a Haliburton contract which secured him \$2,700 for ten games of \$270 per game.

## JOHNNY EVERS

Johnny Evers the captain of the Boston Braves, who captured the world's championship, was let go by the Chicago Cubs, signed on with Boston Nationals and has turned out a wonder. He was presented with an automobile for being the most valuable player on any team in the National League during the past season.

Husband—Oh, don't be so particular about your dress; where we are going people won't notice what you have on. Wife—Then I shant go; I refuse to associate with such people.

## ST. JOHN HORSE DEFEATED

Moncton, Oct. 21.—Hal. L., owned by Ald. P. A. Belliveau, Moncton, defeated Prince Baron, owned by William McDonald, St. John, in three straight heats in a match race for \$400 a side on Moncton speedway this afternoon. Considerable interest was taken in the race and quite a lot of money changed hands. Dr. D. H. McAllister of Sussex was starter.

The track was heavy. The race was three out of five half mile heats. The time was 1:06, 1:07, 1:05½. Best quarter 31½.

## THE PLAYERS WILL HAVE SPECIAL TRAIN

Special to The Standard. Fredericton, Oct. 21.—The U. N. B. Football team, accompanied by the College brass band, the college girls, and a hundred supporters, will travel by a special train to Sackville for the Mount A.-U.-N.-B. football game on Oct. 29th. They will go over the I.C.R. to McElvay, and then by the G. R. to Moncton, where they will then take the I.C.R. to Sackville. The train will leave here at 7 o'clock on the day of the game, arriving at Sackville at noon.

## STALLINGS TO SUPPLY THE TURKEYS

The Winter League banquet to be given to George T. Stallings upon his return to Boston early in December promises to have a big array of baseball men present. The dinner will be similar to the one given last winter and will consist of a turkey menu, the turkeys to be sent from Mr. Stallings' plantation at Haddock, Ga.

It is the intention of the Winter League to have present Gov. Walsh, Mayor Curley, Pres. John K. Tener of the National League, Pres. Ben Johnson of the American League, Pres. Lammie of the Red Sox and Pres. Gaffney of the Braves.

Those connected with the Braves who have given their word they will be present are Capt. John J. Evers, Walter Maranville, Leslie Mann, Fred Mitchell, Tom McCarthy, George Tyled and Joe Connolly. All the managers and players of the New England League clubs have signified their intention to be present.

Committees are now being formed to insure an event that will eclipse, if possible, anything of the kind ever given in Boston.

**TED MEREDITH CHALLENGES BAKER.**  
Ted Meredith, the great runner of the University of Pennsylvania, is still in training. He is anxious to demonstrate that he is a better middle distance runner than Homer Baker of the New York A. C., who recently defeated him in record time. Meredith asked the Irish-American A. C. to stage a special event at its games next month so that he can race Baker.

**DIRECTUM I, THE WINNER.**  
Grand Rapids, Mich., Oct. 21.—Directum I, in two straight heats, defeated William in their third and deciding match race for championship pacing honors here this afternoon. The best time was 2:01 1-4.

**Around the City**

**Market Gardening.**  
The Board of Trade has received an enquiry from Hamilton, Ont., with respect to the opportunities for market gardening here.

**The Breakwater.**  
The Globe last evening said: "The Maritime Dredging Company's tender for the breakwater extension to Partridge Island, is reported the lowest, therefore the successful one. Work will not likely be started until next year."

**Fire Yesterday**  
Responding to an alarm from box No. 48 yesterday morning at 11:30 the fire department extinguished a fire in the city asphalt plant, Sheffield street. The fire started from a tower in which hot sand was stored. The damage was slight.

**Will Come I. C. R.**  
In future all shipments of horses to the remount depot here will be made over I. C. R. The reason for the change is that the C. P. R. lines pass through the State of Maine, and the United States government objects to the shipment of horses for war purposes through their territory.

**Exciting Runaway**  
An exciting runaway took place on Main street Wednesday morning, when a horse owned by Mr. James Belyea took fright and bolted. As it was rounding the corner of Main and Eight streets Edwin McCluskey ran out and risking personal injury caught the frightened animal's bridle and brought it to a stop. No one was injured and no damage done.

**Trafalgar Day**  
Trafalgar Day passed quietly in St. John. Flags were displayed at the head of nearly every flagstaff in the city, but the demonstrations usual on the anniversary of the day on which England became mistress of the seas, were lacking on account of the war now in progress. Mention of the day and the battle of Trafalgar was made in the city schools but there were no special exercises.

**Looking for Adopted Son**  
A man named McDonald who resides in the county was in the city last evening looking for a youth who was adopted by him and has resided at his home for a number of years. He states that the young fellow left the home early yesterday morning and up till last night had not been heard from. Shortly after the young fellow left home it was found that \$58 had been stolen.

**Returning to Canada**  
It was reported last night that another lot of soldiers will arrive in the city this week from Bermuda. It is said that these men who are returning are well fit for duty but have left the service owing to some misunderstanding after they reached Halifax. They are men who were taken from Camp Valcartier some weeks ago and stationed at Prospect Barracks at Hamilton to do garrison duty in place of the Imperial regiment, which was sent to the front. It was further said last night that the men who went to the West Indies were not sworn in for garrison duty and on account of this they cannot be held, and not being satisfied with the arrangements they are returning to Canada.

**Dividends**  
Shareholders in the St. John Railway Company yesterday received checks for the quarterly dividend declared by the company. The amount represented six per cent. per annum. Shareholders in St. John of La Rose Consolidated Mines received checks for their quarterly dividends also yesterday. This company paid 2 1/2 per cent. this time. The report sent out with the checks showed the gross earnings for the first eight months of 1914 to be \$154,909, while the quarterly dividend amounted to \$130,500.

Much new work will be undertaken by this company during the coming year. A new shaft will be sunk on La Rose extension and search will be made on the surface vein. After the present one underground works have been exhausted prospecting will be carried on.

**POTATOES FOR MOTHERLAND  
BEST PROVINCE COULD GIVE**

All packed and ready and will be shipped Saturday or Monday—Carefully selected and represent the best New Brunswick can produce.

New Brunswick's contribution to the Empire, one hundred thousand bags of potatoes, is now practically ready for shipment. The vessel carrying this gift to the old country will sail on Saturday or Monday loaded with the entire consignment. In addition to this the provincial government, through the Department of Agriculture, has already forwarded to Halifax fifteen thousand bags of potatoes as a gift to the suffering Belgians, these potatoes to be loaded on the steamer which sails from Halifax with the goods from Nova Scotia. A representative from the department went along with this shipment to see that it is properly handled.

New Brunswick's gift to the motherland is unquestionably the finest shipment of potatoes ever sent out of this province, from St. John or any other port. The potatoes were purchased through the efforts of the department from different parts of the province, although naturally, quite a large proportion came from St. John river points. The Department of Agriculture outlined to all potato growers and dealers the kind of goods required and the result has been a collection of potatoes which any agricultural province might be proud. Certain shipments were received here from various parts of the country which on inspection did not come up to the requirements of the department, and have been returned to the senders.

Hon. J. A. Murray, Secretary for Agriculture, spent all day Tuesday at the potato warehouse in St. John inspecting the potatoes and the methods of handling them. From what he observed that day Mr. Murray unhesitatingly declares that no finer shipment of potatoes ever went out of St. John, and he doubts very much whether a better lot could be got together anywhere. "The people who sold these potatoes to us," said Mr. Murray, "know very well what was required, that our department would accept nothing which was not absolutely first class. The result was that by far the greater portion of the stock received was well up to the standard, although in a few cases certain inferior stock was submitted to us and refused. The potatoes have been received in St. John in bulk. They have been handled in our warehouse by the employees of our department, have been graded, all the small ones taken out, and through a series of inspections every faulty potato has been removed. They have been packed in barrels or bags and stored in the warehouse. At intervals selections have been taken from these bags and barrels, unpacked and if any of the potatoes appeared to be faulty they have been gone over a second time and such potatoes removed. On Tuesday I spoke with a number of expert potato men on the West Side, and without exception, they expressed the opinion that the work done by the staff of the Department of Agriculture in bringing this shipment together is deserving of praise and that the shipment itself is beyond criticism. New Brunswick should be proud of the fact that it is able to produce and to send to the old country such a shipment of potatoes as is now going forward."

**YOUNG MEN QUICKLY  
RESPOND TO WAR CALL**

Officers of Artillery and 62nd receiving many applications for foreign service although instructions as to recruiting have not yet been received.

Since announcement was made at Ottawa that the Canadian government offers to raise a second expeditionary force had been accepted by the Imperial authorities, a large number of men have presented themselves at the armory and volunteered for foreign service. The officers of the 62nd Regiment have not yet received definite instructions as to the recruiting of men for foreign service, but they are taking the names and addresses of all who wish to volunteer, and will notify them as soon as they receive orders as to when they can be signed on and placed on the pay list.

The officers of the Artillery Regiment are receiving applications from men who wish to enlist for foreign service and are taking on all the men who present themselves.

Considering the short time that has elapsed since definite word was sent out from Ottawa that a second Canadian contingent would be sent to the front, the local militia officers are very much gratified at the way the young men of the city have come forward and volunteered for service on the Empire's battle line.

**DR. HERRIDGE  
SPOKE ON WAR ADDRESS**

Members of Canadian Club heard gifted speaker yesterday.

"Canada and the War" was the subject of an address by Rev. Dr. Herridge before members of the Canadian Club in Bond's Cafe at noon yesterday.

Seldom has the club listened to so inspiring a speech, and the members frequently testified their appreciation by hearty applause. In opening Dr. Herridge pointed out that England was not responsible for the war in Europe; that, indeed, she had tried to prevent it. Then he referred to the part which Canada is so well taking, and he showed that she is only doing her duty, for what did she not owe to the Empire at this moment? In glowing language he urged Canadians to maintain high ideals. He dwelt on the necessity of unity in this country, and as an illustration he pointed to the speech made by John E. Redmond in the British House of Commons, and the answer given by the Irish people. The greatest industry in Canada is the manufacture of men, he said, and he called upon Canadians to be upright and pure of heart. Dr. Herridge's peroration was very eloquent and evoked a burst of applause.

On motion of His Worship the Mayor, seconded by R. B. Emerson, a vote of thanks was tendered Dr. Herridge and after God Save the King had been sung the gathering broke up.

The attendance was unusually large. In the absence of the president, Mr. R. O'Brien occupied the chair.

**FISH INDUSTRY IS  
FLOURISHING**

Action of Government tended to greatly increase markets in interior—Charlotte and St. John Counties.

The sardine fishermen of Charlotte and St. John counties have had a very profitable season, and as for the fishermen of Nova Scotia, they have made about a normal catch, according to informants. "Wm. Found, of Ottawa, superintendent of fisheries for the Dominion who was at the Royal yesterday, said that Mr. Found said that there had in the last few years been a great increase in the amount of fresh fish marketed in Canada, and while the department over which the Hon. J. D. Hazen presides did not claim that they alone were responsible for this development, they felt that the policy of the department in paying one-third of the express charges had contributed largely to the growth of this business, and had showed the fish merchants the possibilities of finding a market for fish in the interior cities of Canada. The Dominion Fisheries Department made arrangements a few years ago, with the idea of encouraging the fishing interests to increase their market in Canada, whereby it pays one-third of the express charges on fish shipped from Maritime ports to any point this side of the Manitoba boundary, and also makes the same payment on fish shipped from the Pacific coast as far east as the western boundary of Ontario. As a result of this policy the fish business has been on a scale more than justify the policy of the department. Some companies have already established connections enabling them to ship fish to interior points by car load lots, and to that extent are independent of the assistance granted by the Fisheries Department.

Speaking of the recent action of the Canadian government in making an announcement that it would not continue its offer of entering into an agreement with the United States in regard to the international regulation of certain phases of the fisheries, Mr. Found said it would make no change in the policy which Canada has pursued in the past. Some years ago a conference drew up a set of regulations mainly designed to promote the conservation of the fisheries, and it was the intention that the different governments should adopt legislation providing for the enforcement of these regulations among the fishermen of the different nations. The Canadian government adopted legislation which would have assured the enforcement of these regulations, but it was provided that these regulations should only be enforced when the United States government adopted similar legislation. Some years have passed without the United States government adopting legislation giving effect to the policies agreed to by its own representatives, and the Canadian government has reluctantly withdrawn its legislation ratifying that agreement.

Mr. Found has been on a trip through parts of the Maritime Provinces interviewing the fisheries inspectors who are under his general jurisdiction.

While declining to express an opinion as to the commercial outlook for the fisheries, Mr. Found said he did not think the recent slump of prices of fish in the West Indies was due mostly to local conditions. He thought the market would find the Canadian market this winter well worthy of any attention they could give it.

**ANOTHER TRADE OPPORTUNITY**

This week's report of the Department of Trade and Commerce, Ottawa, has the following to say with reference to Australia's trade in cement and plaster of Paris:

In 1912, Australia imported 2,602,792 cwt. (of 112 lbs.) of cement (Portland) to the value of £261,680. Of the quantity stated, Germany was the country of origin of 1,293,456 cwt., valued at \$144,564, while Belgium contributed 269,700 cwt., valued at \$25,879. Favorable freight rates and the quality of brands established on the market for many years were contributing factors to this trade. Australian manufacturers of cement have notified an increased output but when present stocks of imported cement are exhausted there should be a market available for Canadian manufacturers, established near shipping port, to exploit.

In 1912, the imports of plaster of Paris, approximately, were 251,051 cwt., valued at £33,204, of which Germany contributed 116,655, valued at \$17,184. This item is of particular interest to the manufacturers of plaster of Paris in Nova Scotia and New Brunswick, one brand of which is being exported favorably recognized in Australia. The buyer must be dealt with to meet the requirements of the trade and any pink shade in the material will condemn it.

**Rev. J. A. Francis, of Boston, in Germain street Baptist church yesterday—Here till Friday.**

Among those arriving on the Boston train yesterday was Rev. J. A. Francis, pastor of Clarendon street Baptist church, Boston. He has been conducting a mission in connection with the Maritime Baptist Convention and addressed large congregations yesterday afternoon and evening in Germain street Baptist church. The subject of the evening address was "The Light of the World," a great interest being shown by those present.

Rev. Mr. Francis said that as the Light of the World, Jesus purposed to throw light upon the five great issues, namely: As to what is the real character of God and man, of man's relation to God and his relation to his fellow men, and respecting the future world.

Mr. Francis will return to Boston on Friday evening, after conducting further services in Germain street church this afternoon and evening.

**Trying Times.**

With these trying times there is at least one firm in St. John that is endeavoring to enlighten the spirits of the people in the great sale of high class furs and high class tailored suits which are being disposed of at half price this week at F. A. Dykeman & Co.'s store. People who thought they would have to go without these necessities this fall are having their wishes satisfied at a very small outlay, and are really profiting by the extreme trade conditions which are prevailing in the manufacturing centers of Canada. \$85.00 muskrat coat of very fine quality for \$52.50, \$25.00 suits for \$12.50, and all others in the same proportion.

**Pic Social and Dance.**

A very successful pic social was held in the Orange Hall at Whitehead, on Thursday, October 15th. The sum of thirty dollars and thirty cents was realized, which sum is for the Belgian Relief Fund. After the pic were sold and eaten dancing indulged in. Inside this money there was also a quantity of clothing and potatoes sent from the same place to the Belgians.

**Red Cross Work.**

The women of the Main Street Baptist Church, who have been engaged in work for the soldiers along the lines of Red Cross assistance, were visited yesterday afternoon in the church by Lady Tilley, who complimented them on the good work they have been doing. The women of the church have collected large quantities of materials and made them up into articles for the use of wounded soldiers.
