### GOV. GENERAL LEAVES FOR THE WEST

Political Circles at Ottawa Inclined to Believe Rumor that H. R. H. Will Go to Ireland.

Special to The Standard.  
Ottawa, June 26.—The latest rumor regarding the Duke of Connaught is that he is to become the first viceroy of Ireland, under the new home rule scheme of Lloyd George. No official confirmation or denial of the story naturally could be obtained and government house refused to discuss matters. As a matter of fact the plan of settlement of the Irish problem is not far enough advanced as yet, so that no announcement can be made. While the story is only one of those rumors that are constantly cropping up in the capital there is a disposition in political circles to believe that it is correct. The Duke left this afternoon for the west. He will inspect the camp at Petawawa tomorrow and will also inspect the camps at Hughes and Vernon. He will stay two weeks at Bangor and one at Victoria. The Duchess and Princess Patricia accompanied

### WORKING ON REPORT OF THE FUSE INQUIRY

Sir Wm. Meredith and Mr. Justice Duff will Likely Complete Their Report this Week.

Special to The Standard.  
Ottawa, June 26.—Sir William Meredith and Mr. Justice Duff are hard at work this week on their report dealing with the evidence at the fuse enquiry. It is likely that their report will be in the hands of the government at the end of the week or at the latest early next week. As the findings of the commissioners are likely to come up in cabinet council before being given out it will probably be well towards the end of next week before the report is made public.

### NOT SURE YET VILLA IS DEAD

Was Shot by One of His Gang in Fight with Carranza Troops, But Fate After that Uncertain.

Field Headquarters, Tuesday, June 26.—(By Courier to Columbus, N. M., June 26.)—Francisco Villa was shot from the rear by a Mexican he had impressed into his gang during the battle with Carranza troops at Guerrero, but his fate still is unknown. This information was contributed by a semi-official account obtained by Major Robert L. Howes who was close to Villa's trail last April and given out here today. Whether Villa died was not stated, however, Major Howes learned the details of the wounding of the bandit chieftain from one of the Mexicans Villa drafted and who afterwards deserted.

### RUSSIAN ARMY THREATENS LEMBERG'S EASTERN GATEWAY

Have Pushed Wedge in Direction of Vladimir-Volynski Despite Stubborn Tueton Resistance — Archduke Ferdinand's Broken Army Has Lost Over 70,000 Men Since Russian Drive Began.

Petrograd, June 26, via London—Russian cavalry, after a battle with Austro-Hungarian troops has occupied a position near Pozoritt, about 5½ miles west of Kimpolung, in Bukovina. The foregoing was announced in the official statement issued today by the Russian war office.

Petrograd, June 26, via London—With the elimination of Gen. Pflanzer's army in Bukovina the attention of Gen. Brussloff's forces in this section is now directed upon Kolomea, the key to the defense of Lemberg on the south. The occupation of Kimpolung and Kuy has opened the way to Kolomea and already a result of this last recorded victory of the Russians is becoming evident in the forward movement of Gen. Letchitsky on the road from Sniatyn to Kolomea, to a point ten miles from the latter town.

It is evident from the report of prisoners and booty taken that the Austrians defended Kimpolung with considerable forces. They were attacked by Russian troops, which had covered the thirty miles from Gurahumora in two days, and were rushed into the fight with scarcely an hour's rest. According to Russian military authorities their assault added the last touch needed to complete the demoralization of Gen. Pflanzer's forces, which now are entirely cut off from communication with Gen. Count Von Bothmer's army group on the Stripa river to the north. Gen. Von Bothmer's position is regarded as precarious as a result of this operation. His right flank has been completely uncovered, and military critics believe he will without doubt be forced to fall back along his whole line before Tarnopol.

The Tuetonic forces appear to have been able to stop, to some extent the breaching of their front in the Kovel region, where a large element of German troops has stiffened the Austrian lines and it is evident that preparations are being made for a desperate stand at Brody, on the southern wing of that position. Nevertheless, in the face of stiff counter-attack the Russians have been able to push a wedge in the direction of Vladimir-Volynski to a point which threatens that town and endangers Brody, the gateway to Lemberg from the east. According to the military expert of the Bouras Gazette the Germans have taken full charge in this region and have filled up the ranks of Archduke Ferdinand's broken army which has lost 70,000 men since the beginning of the Russian advance.

### SHACKLETON FAILS IN HIS RESCUE WORK

Ice Conditions so Severe Unable to Get Within 20 Miles of Party Marooned on Elephant Island.

London, June 27.—Lieut. Sir Ernest Shackleton has been unable to rescue the men, numbering twenty-two and comprising the main body of his Antarctic expedition, who were left on Elephant Island. This information was received in a despatch from Shackleton from Port Stanley, Falkland Islands. The explorer has evidently returned on the steamer which had been placed at his disposal by the Uruguayan government for the purpose of effecting the rescue of his men, according to his despatch the ice conditions had so increased in severity that he was unable to get nearer than twenty miles of the island. He thinks that there is still hope for the men, however, as there is an excellent chance that they will be able to survive on short rations, supplemented by penquin until an other rescue party, provided with an ice-breaker, can push through to them. The steamer Instituto, provided by the Uruguayan government, left Montevideo on June 8 with Lieut. Shackleton aboard to succor the men on Elephant Island.

Some abandoned wagons at Mollit and Frumos stations, on the Gurahumora-Rasoka railway. "We are also making progress southward, approaching passes leading to Transylvania."

When the minister left the state department he said the time "seemed inopportune" and that for the present diplomatic representatives of six southern and central American countries who had approached the Mexican embassy on the subject of mediation and received assurances that the Carranza government was favorable to the principle, would not tender their good offices to the United States. He indicated that the attempt to arrange mediation might be renewed if Carranza's reply to Secretary Lansing's last note furnished any basis on which the proposal could be founded.

### NOT TIME FOR MEDIATION IS U.S. GOV'T REPLY

Efforts of Latin-American Ministers to Intervene Fall Through.

### WILL WAIT UNTIL CARRANZA REPLIES.

Meantime Washington Rushes Preparations for War and Congress Wrestles with Estimates for War.

Washington, June 26.—Efforts toward Latin-American mediation in the Mexico crisis, favored by Carranza, officials, collapsed today without having reached the stage of a formal proposal to the United States. It was made plain by Secretary Lansing to Ignacio Calderon, minister of Bolivia, who called with the intention of asking whether the United States would entertain an offer of the services of its southern neighbors to aid in avoiding the war, that the Washington government sees nothing in the situation that would warrant arbitration proceedings. Mr. Lansing talked with the minister for half an hour, and is understood to have told him that the blame for the grave outlook rested squarely upon Gen. Carranza. The attitude of the United States was so fully outlined that Mr. Calderon did not mention directly the original purpose of his visit.

When the minister left the state department he said the time "seemed inopportune" and that for the present diplomatic representatives of six southern and central American countries who had approached the Mexican embassy on the subject of mediation and received assurances that the Carranza government was favorable to the principle, would not tender their good offices to the United States. He indicated that the attempt to arrange mediation might be renewed if Carranza's reply to Secretary Lansing's last note furnished any basis on which the proposal could be founded.

### WAITING FOR CARRANZA'S REPLY.

The United States now is waiting for Carranza's final word in reply to the note sent yesterday, demanding release of the prisoners taken at Carrizal and a formal diplomatic announcement of intentions.

The note reached Mexico City late last night, and Washington officials look for an answer within a day or two.

Meanwhile congress and the war department put new urgency into their preparations for war. There were indications that should a formal break occur toward the end of the week, every possible precautionary step will have been taken, and Gen. Punton will be in a position to defend the border adequately and repulse Pershing's expedition, although aggressive action may be delayed somewhat. War department activities during the day cover a wide field. Supplemental orders to departmental commanders called for greater haste in getting the national guard to the border. Estimates to cover the pay and maintenance expense of the state troops, totalling \$88,000,000 up to January 1 were laid before congress. With them went figures of \$13,000,000 for purchase of horses and mules for army use. The total estimates of the quartermaster-general also pass the \$100,000,000 mark. The house passed an appropriation bill of \$25,000,000 for emergency purposes during the brief debate that preceded the vote. An urgent deficiency bill carrying \$25,000,000 for national guard pay, equipment and transportation was framed in commission for presentation to the house tomorrow. Railroad representatives were call-

### COL. FOWLER HONORED ON EVE OF DEPARTURE OF BATTALION OVERSEAS

Complimentary Dinner and Presentation at Sussex Last Night Tendered by Friends—A Notable Tribute to Gallant Officer—Gathering Representative of all Creeds and Political Parties.

Sussex, June 26.—The complimentary dinner tonight tendered Lieut. Col. Fowler, O. C., 104th Battalion, by the citizens of Sussex at the Depot House, was without doubt the most successful function ever held in Sussex. His Worship Mayor Wallace presided. Covers were laid for 55 and every seat was occupied. The dining room was very prettily decorated with flags of the Allies and spotted plants, and with the handsomely appointed tables presented a most attractive appearance.

The menu provided by Mr. McDonald, proprietor of the Depot House was excellent in every detail, and could not fail to please even the most epicurean, and was as follows:

- SOUP
- Cream of Tomato.
- Radishes
- Fish.
- Boiled St. John Harbor Salmon.
- Egg Sauce.
- Cucumbers
- Mayonnaise
- Roasts
- Roast Young Kings County Turkey
- Potato Dressing and Cranberry Sauce
- Ribs Western Beef.
- Cold
- Cold Boiled Tongue
- Vegetables.
- French Peas
- New String Beans
- Desert
- Native Strawberries with Cream
- Apple Pie
- Assorted Cakes
- Canadian Cheese
- Coffee
- Ginger Ale
- Bananas
- Raisins
- The menu cards were very neat, being of khaki linen; the cover containing the crest of the 104th Battalion and a photo of Col. Fowler, and underneath read:

### ITALIANS BREAK BACKBONE OF ENEMY DEFENCE IN TRENITINO

Advance in Whole Sector, Winning Back Positions Austrians Had Taken and Gathering in Enormous Quantities of Booty.

Rome, June 26, via Paris—Reports from the front state that the Italians are advancing all along the Trentino sector, reconquering positions which the Austrians had occupied, and capturing men, arms, ammunitions, provisions and all kinds of supplies, which the Austrians were obliged to abandon in precipitate retreat. All Italy is rejoicing over the withdrawal of the Austrians six weeks after their offensive movement on the Trentino front began. The enemy withdraw rapidly before our advance. He blew up the bridge at Fozz and set fire to a special place in another part. Along the whole front we found trenches of the enemy filled with corpses, large quantities of arms, ammunition, food and other material were left by the enemy. In Carria and on the Isanzo the artillery is active, and especially in the Upper But Valley, where the enemy's trenches were damaged extensively by explosions, and fires were caused. "Hostile aircraft dropped bombs near Ala, and on Padua, Fonzaso, Primolano and Grigno. There were no casualties and no damage was inflicted. Our aeroplanes bombarded positions of the enemy on Monte Bover, southeast of Caldanzano, the railway station of Oberdrauburg and depots at Delach, in the ravine. At each of these places large fires were observed."

### AN OPENING FOR CANADIAN FIRMS.

Ottawa, June 26.—J. L. Ray, Canadian Trade Commissioner at Birmingham, reports to the Department of Trade and Commerce that for some time to come there is going to be a brisk demand in the United Kingdom for all kinds of cattle feeds. Canadian exporters, he says, have not taken full advantage of this market in the past.

Munster Fusiliers and Anzocs Distinguish Themselves in the Fighting.

### BIG GUNS PLAYED HAVOC WITH ENEMY

Violent Shelling by Both Sides Principal Feature of Operations Yesterday on the Verdun Front.

London, June 26.—The British official statement issued at midnight reads:

"We carried out a number of successful enterprises last night at different points. Hostile lines were penetrated at ten different places. Our parties inflicted considerable casualties on the enemy and took several prisoners. Our casualties everywhere were very slight. "The Munster Fusiliers and Anzacs were particularly successful. "In connection with these raids there was a good deal of artillery work on both sides yesterday evening and during the night. Our artillery fired with great effect, the hostile trenches being considerably damaged in many places. Four large explosions were caused by our heavy artillery in the enemy's rear guard lines between Pozzeres and Montauban. "Today our artillery was again active at numerous points, and considerable damage was caused to hostile defensive works, notably near Longueval, Gommecourt, Givency-Et-Gohelle, north of the Loos salient, opposite Wytchate and east of Wielt. "One hostile kite balloon, in addition to those already reported was destroyed by our aircraft yesterday, making a total of six out of fifteen balloons attacked. The six were seen to fall in flames."

### FROM THE VERDUN FRONT.

Paris, June 26.—The official communication issued by the war office tonight:

"In Champagne our artillery shatter enemy organization north of Ville-Sur-Tourne. "On the front north of Verdun there was no infantry action during the course of the day. The bombardment diminished in intensity on both banks of the Meuse. Nevertheless in the region of Hill 304 a very spirited artillery action was maintained. "In the Voges the fire of our batteries on the German positions east of Chappelle caused the explosion of two ammunition depots. Belgian communication: "A somewhat intense artillery action occurred in the sector southeast of Nieuport, and also in the direction of Dismude and Steenstraete. There was bomb fighting in the region of Steenstraete."

### AUSTRALIA BUYS MERCHANT FLEET

Fifteen Ships to be Purchased and Renamed to Move Crop of the Commonwealth.

London, June 27.—William Morris Hughes, premier of Australia, who has been in London for some time past, has solved the difficulty of a dearth of ships for moving the Australian harvest, by going into the market and purchasing fifteen large steamers which will be renamed and operated by the Australian government as the Commonwealth Government Line. The vessels purchased are the Strathendrick, 4,379 tons; Strathavon, 4,403 tons; Strathbarly, 4,328 tons; Strathleven, 4,396 tons; Strathdee, 4,409 tons; Strathopey, 4,432 tons; Strathgarry, 4,398 tons; Strathdeg, 4,338 tons; Strathesk, 4,336 tons; Strathearn, 4,419 tons; Ardangorra, 3,579 tons; Ardammohr, 4,454 tons; Vermont, 4,271 tons; Daltonhall, 3,534 tons and Kirkoswald, 4,021 tons.

## CASEMENT'S TRIAL OPENS

Chief Conspirator in Sinn Fein Revolt Pleads Not Guilty of Treason.

ONLY FEW TALES MEN WERE UNCHALLENGED

One Witness Declares Prisoner Said Now Chance to Strike Blow as England Was Beaten.

London, June 26.—Sir Roger Casement, chief conspirator in the Sinn Fein revolt in Ireland, was placed on trial for his life on a charge of high treason in the High Court of Justice today.

Viscount Reading, the Lord Chief Justice, and Justices Avory and Hordge, in bright scarlet robes and powdered wigs, presided.

The indictment, framed in legal points that returned against Col. Arthur Lynch, who fought against the British in the Boer war.

When asked if he was guilty or not guilty, Sir Roger bowed and murmured something which was inaudible.

His chief counsel, Alexander Sullivan, of Dublin, argued that the indictment set forth was "no offense known to the law," and that none of the acts specified was alleged to have taken place in any territory over which the King has jurisdiction.

After eleven jurors had been seated in the box there was great difficulty in finding the twelfth. The defence challenged "for cause" more than a dozen in succession. At 11:30 o'clock the jury was completed.

The jury is composed of middle-aged men, apparently of the small merchant and clerk class.

John Robinson, Michael O'Connor, Michael Moore, the last in uniform, with an empty right sleeve, and John Nell, in hospital garb—gave testimony during the afternoon. It was mainly a repetition of the police court evidence of Sir Roger's speeches and promises to Irish prisoners in Germany.

The line taken in cross-examination indicated that the defense will contend that the prisoner was pursuing the activities of a German agent before the war of organizing Nationalist volunteers. The witnesses agreed that Sir Roger proposed to take them to Ireland, if Germany won a naval battle, to "free Ireland" and "strike a blow against England."

The solicitor-general attempted to question Nell regarding the speech a German general made at the Hanover camp. Serat, Sullivan objected, on the ground that Sir Roger was not charged with conspiracy, and that this was an attempt to introduce the evidence of the doings of a person whom it was not proved Casement ever knew, at a place it was not alleged he had ever been. The chief justice said that the court would have no hesitation in deciding the point, but suggested to the prosecution that the evidence proposed be not pursued.

Nell testified that Sir Roger said: "Ireland now has the strongest power in the world at her back. England is beaten. Now is the chance to strike a blow for Ireland."

He also said, according to the witness, that the Irish brigade was first to fight with the Turks against the Russians, then with the German against the British, and then shed their blood for their own people.

Serat, Sullivan got the witness considerably mixed on his dates, and the dividing line between his personal knowledge and hearsay.

In the custom in British courts is to accept virtually all those called and challenges as a rule, are employed only for definite cause. It was noticeable that the government challenged all witnesses with distinctly Irish names. The defense, however, challenged the greater number.

Fiftieth Anniversary Celebrated. Mr. and Mrs. Henry L. Everett celebrated the 50th anniversary of their wedding yesterday, and received congratulations from many friends. They were the recipients of a number of tokens on this occasion. The family gathering was held in their home on Mecklenburg street.

Howe, Joseph Howe, Wm. Devine, Arthur Maggs, Leon Keith, St. John.

Telegram from Hon. Mr. Pugsley, MacAdam, June 25.

J. D. McKenna, Sussex:

I regret that business of urgent importance requires me to be in Ottawa tomorrow, and will prevent my being present at banquet to Lieut-Col. W. Fowler tomorrow evening. Please convey to the distinguished guest my admiration of the wonderful energy and ability shown in organizing and training the splendid regiment under his command. On the eve of the departure overseas of Lieut-Col. Fowler and his noble band of heroes to take part in the struggle for the highest ideals of liberty and civilization, let

me join you and his other friends who will be assembled tomorrow night in the prayer that God will preserve him in the midst of the dangers which confront him, and from which I know he will not shrink.

WILLIAM PUGSLEY.

The toast honoree after the conclusion of the menu were as follows: The King, proposed by Mayor Wallace.

The Guest of the evening, proposed by Dr. D. H. McAllister and responded to by Col. Fowler.

Bench and Bar, proposed by Dr. Pearson and responded to by Judge Jonah.

Our Legislative bodies, proposed by E. A. Schofield and responded to by Dr. D. H. McAllister, Hon. J. A. Murray and H. V. Dickson.

The Clergy, proposed by J. D. McKenna, responded to by Rev. Fr. McDermott, Rev. Mansel Shewen and Rev. G. B. MacDonald.

Previous to the beginning of the toast list Col. Fowler was presented on behalf of the citizens of Sussex with a handsome case of pipes suitably engraved, accompanied by an address. The address was read and presentation made by Mayor Wallace. The Sussex Orchestra was present and furnished music for the occasion.

Col. Fowler Replies.

In replying to the toast, "Our Guest," proposed by Dr. McAllister, Lieut-Col. Fowler expressed the pleasure it gave him to see such a strong and influential body of representative citizens, in respect of political opinions, present. He said that during his political and legal career he had always fought his opponent square, without having recourse to any mean arts and that evidence of his integrity was greatly supplemented by the gentlemen present.

Lieut-Col. Fowler said that at the present time he felt it his duty, both to his constituents and country, to enlist in order to uphold the constitution of the British Empire. He said that he was up in years he felt that it was his duty to give the best in him for his King and Country.

Lieut-Col. Fowler stated that he had asked the military authorities that the battalion be designated as the 104th, to assure the efficient officers and splendid body of Canadian manhood he felt sure that it would uphold the honorable traditions of the old 104th Battalion.

He looked upon each member of the 104th Battalion as a citizen," said Lieut-Col. Fowler, "and not as a professional soldier." The speaker had no hesitation in saying that for that reason the officers and men got along well together. The speaker referred to the fact that although between six and seven hundred men had been stationed at Sussex for the past number of months not one serious charge had been made against any member of the battalion, only with a few petty charges. He referred to the fact that during the visit of Major General Sir Sam Hughes to Sussex he had been advised by the Minister of Militia that the 104th would retain its identity and proceed to the front as a unit.

## CITIZENS WILL GIVE SIGNS POINT TO GREAT CALLED OFFENSIVE SOON

Commissioner Wigmore's Recommendation to this Effect Adopted by Council—Other Business at Yesterday's Meeting.

All the commissioners were present at the noon meeting of the common council in committee yesterday with the Mayor in the chair. Commissioner Wigmore recommended the putting in of larger water mains in Prince William and Water streets, and a larger hydrant at the corner of Jardine's alley and Water street.

Considerable discussion ensued over the charges in dispute between the city and federal government, and the matter was finally referred to the commissioner of harbors for more information.

The Chamberlain asked for instructions about a bill for \$2,313.50 which had been sent to the Marine and Fisheries Department for wharfage and other dues at Dock 14 for vessels on Imperial service there. It should, he said, be settled or wiped off.

In the course of the discussion it appeared that the Commissioner of Harbors and Ferries had agreed with the Hon. J. D. Haza that the usual fees for wharfage, etc., be remitted and a lower charge made.

Commissioner McLellan said he would agree to support the motion if he were assured that the benefits did not inure to the 104th B. I. E. J. Cowan, government wharfinger, had sent in a cheque for \$187.17, which he claimed was the pro-rata amount, but this had not been accepted.

The whole matter was left over for further information on Tuesday.

Commissioner Wigmore reported that he had presented the cheque for \$100 from the city (through the Mayor) to the band of the 104th Battalion, and reported that a vote of \$500 for the 104th Battalion be made as to the other battalion, as the majority of the men were from St. John. This was carried unanimously.

Commissioner Wigmore recommended the renewal of mains in Prince William street and Water street, with larger pipes. That down Jardine's alley, and reported that a vote of \$100 to be ten inches, with a larger hydrant; the six-inch at the corner of Water street be made ten-inch and that it be carried down South wharf to Ward street.

Commissioner Fisher recommended the opening of the supply of oil for the Public Works department from H. C. Harrison, 57 cents per bushel, and C. H. Peters, 55 3/4 cents per bushel. These were referred to a committee.

Commissioner Fisher submitted copies of letters he had written the Street Railway Company and their answers thereto. He had written two letters, one in connection with the re-scheduling of the present agreement covering only the removal of snow, the company to keep the streets in repair themselves, and another in reference to certain portions of unused tracks on the public streets, namely in St. James street and Ludlow street, West Side.

In reply to the first letter H. M. Hopper, manager of the Street Railway Company, intimated that he did not understand just what the commissioner wanted in regard to the portions of track spoken of they had to have the track on St. James street to provide access to the basement of the car barns, and the Ludlow street track would be used as soon as they received some special connections which were needed. No action was taken and the committee adjourned.

Clifford Dann, Clarence McCready, Lillian Stevenson and Mary Demille. The High School graduates were: Fred Chipman, Alberta Crandall, Grace V. Darling, Flora O. DeLong, Grace D. Fraser, Pearl Fraser, Grace G. Gallagher, Gertrude D. Hill, John G. Kenney, Phyllis McGowan, Fred A. Patterson, Frances O. Sealey, Mary Smith, Treva M. Smith, Arvilla L. Stafford, Lillian Wiggins and Walter Lawrence; the latter, who enlisted some time ago in the 104th Battalion, was present in khaki to receive his certificate.

Following are the names of the leaders in the different grades: Grade I—1st, Evelyn Sallows and Edith Snodgrass, tied; 2nd, Ida Lyons and Gertrude Coleman, tied; 3rd, Edith Snodgrass, tied; 4th, Mabel Banner and Gordon Cooper.

## RAPID MOVEMENT OF CANADIANS OVERSEAS — BELIEVED AT OTTAWA FOUR DIVISIONS ARE NOW IN FRANCE AND HEAVY RESERVE CORPS CREATED READY TO FILL THE GAPS.

Special to The Standard.

Ottawa, June 26.—It has been evident for some time around militia headquarters that a big British offensive was expected. The rapidly with which troops have been sent across the Atlantic has only been equalled by a similar movement of Canadian troops from England to France.

Just previous to the German offensive at the Ypres salient the fourth Canadian division was practically mobilized in England under Major General David Watson, who commanded an Ontario Battalion in the first division and won his promotion on the field to a brigade and then a division.

It is believed here that not only are the four divisions all now in France, but that there has been created a large reserve of corps troops ready to be drawn upon and to keep the big push.

Some Ottawa military men do not expect the Canadians to be in the first attack on the German lines. They expect the reserve of officers in England have been heavily drawn upon and are the four divisions all now in France, but that there has been created a large reserve of corps troops ready to be drawn upon and to keep the big push.

## AMBULANCE UNIT TO TAKE OVER ARMORY

Formerly Used by the 115th—General Military News.

The ambulance train which will be serviced in St. John for overseas service will be quartered in the armory recently vacated by the 115th Battalion, according to an official announcement given out yesterday at headquarters.

Captain (Dr.) T. E. Bishop will be in command temporarily until the unit is recruited.

Lieut-Col. Guthrie will take over command of the new New Brunswick military affairs today. He will not commence recruiting for the new recruits until the unit is recruited.

The Siege Battery, stationed at Partridge Island is rapidly attaining strength. This branch of service is certainly meeting with approval from the eligibles in New Brunswick.

Yesterday seven recruits signed on at the recruiting office on Prince William street for this unit and one man for the 115th Battalion.

The following are the names of the recruits for the 9th Siege Battery: A. T. Lavigne, St. John; W. W. Nasou, Welsford, N. B.; W. L. Hope, Albert, N. B.; Albert Hughes, P. E. I.; Joseph Kenney, Bathurst; John Flynn, St. John, and W. D. Sealey, Grand Bay.

Thomas K. Foley, St. John, enlisted with the 115th Battalion. The 27th Battalion enlisted one recruit yesterday in St. John and had to reject five, who were physically unfit.

STRIPS OF KHAKI.

Captain Goodspeed returned last night to Halifax.

Lieut-Col. Powell will have command of the 6th Brigade at Valcartier. With the exception of the military police the rear guard of the 115th left a number of absentees in charge.

Brigadier General McLean will have command of the 5th brigade at Valcartier.

Colonel Grant, attached to the headquarters staff at Halifax, passed through the city last night on his way to the garrison city.

A large number of soldiers, members of the 104th Battalion, passed through the city last night en route from their homes to join the regiment.

Lieut-Col. Herbert, O. C. of the 56th Battalion, writes that the report that the 56th Battalion has ceased to be in existence is erroneous. The 56th is still a live unit, and has retained all its instruction staff, and is busily engaged in training large numbers of men.

Eben Roseborough, of Harvey Street, Fredericton for the 115th Battalion.

Friends of Private Peckham, 140th Battalion, and Miss Bessie C. McPherson, of Nashua, will be surprised to learn that the young couple were married by the Rev. Dr. W. H. Smith, on May 31st, at Fredericton. Dr. Smith was asked by the young couple not to mention the wedding until the 26th of June, 1916.

## WHY?

Frank B. Carvell, Member of Parliament for the County of Carleton, N. B., and George W. Kyte, Member of Parliament for the County of Richmond, N. S., have made serious allegations against a responsible minister of the Canadian Government and responsible Canadian officials.

These allegations and comments upon them by the men named and the Liberal press have had the effect of defaming Canada and of arousing throughout the world a contempt and prejudice against this country.

Free and full investigation of the allegations made by Carvell and Kyte has shown there was no corruption or dishonesty on the part of the Minister of the Canadian Government or the Canadian officials referred to.

Why should Frank B. Carvell, Member of Parliament for the County of Carleton, N. B., and George W. Kyte, Member of Parliament for the County of Richmond, N. S., be permitted to remain in Canadian public life?

## AGRICULTURAL EDUCATION IN NEW BRUNSWICK.

An interesting publication, just issued by the Dominion Agricultural Department, is the report of Dr. C. C. James, dealing with the work accomplished for the year 1914-15 under the Agricultural Instruction Act. A melancholy interest is added to the report by the fact that Professor James, who had been the commissioner in charge of the fund since its inception, died suddenly a few days ago.

The Agricultural Instruction Act was passed to authorize the expenditure by the Federal Government of ten million dollars to be spread over a period of ten years and used as a subsidy for the furtherance of agricultural education in the different provinces. It was a wise policy and the report shows it has brought good fruit. The report under review is for the year ending March 31, 1915, and gives much interesting detail as to the manner in which the funds have been applied.

Under the act the provinces were left free to use the grants as they saw fit for the general purpose intended and while the methods adopted were not always identical the result has been that the added subsidy enabled the provinces to do a great deal more in the way of agricultural education than would have been the case had they been limited to the sums they could have appropriated from their own revenues. The total grant in 1914 was \$700,000 and for this year \$900,000. Subsequent years of the term will see it at \$1,000,000.

While the report deals with the method of expenditure followed in all provinces the remarks relating to New Brunswick are of particular interest to our young men as they show that the Provincial Department of Agriculture has made good use of the funds provided.

Previous to the passage of the act New Brunswick had no facilities of its own for imparting agricultural instruction. There was no agricultural college in the province, and it was the practice of the Government to pay students' fares to institutions elsewhere but, as imagined, the number benefiting from such an arrangement was small.

The first effort to meet this deficiency was made by the equipment of the Fisher Vocational School at Woodstock which was fitted up as an agricultural school and has been most successfully operated. Last summer the school at Sussex was opened, it having been built and equipped by means of the Dominion grant, at an approximate cost of \$25,000, and it is the intention of the Government to add a third school later. Two dairy schools, one at Sussex and the other at St. Hilare, were equipped from the grant which also contributes to their maintenance. Short courses were also held and other work of an educative character accomplished.

The total amount of the grant received by New Brunswick for the year ending March 31, 1915, was \$49,407.20 and, under the supervision of Hon. J. A. Murray, it was expended as follows:

Director elementary agricultural education.....	2,500.00
Transportation students.....	1,500.00
Teachers' training courses.....	1,748.31
Travelling instructors.....	13,000.00
Women's Institutes.....	3,000.00
Drainage and soil cultivation.....	2,000.00
Demonstration trains.....	1,000.00
School gardens.....	3,500.00
Bulletins.....	500.00
Contingencies, etc.....	1,207.20
<b>Total.....</b>	<b>\$49,407.20</b>

But it must not be supposed that the activity of the Provincial Department of Agriculture is confined to the branches of effort for which the Federal grant has paved the way. The money from the grant is supplemental to the usual agricultural appropriations from the provincial funds. These have been made as large as the revenues of the province will allow and are being wisely administered by men who realize that the agricultural industry is the most important of any in the province and deserving of every consideration.

Evidence that the agriculturists appreciate the work of the department is found in the added interest in the agricultural societies, the number of which has greatly grown since the department was taken out of the hands of the gentleman whose sole office equipment was "two postage stamps and a picture of a horse."

Under Hon. J. A. Murray's energetic direction the department's efforts are directed to the fostering and development of all branches of agricultural science and the Ottawa report mentions the following as features of its regular work:

Stimulation of the live stock industry, including the introduction of pure bred live stock and the encouragement of the culture of alfalfa and early varieties of fodder corn. The dairy industry, including dairy instruction in the agricultural schools and the establishment of special dairy schools and of testing and recording centres. The supply of cheap fertilizers, including the provision of a limestone crusher, the product of which is supplied at actual cost. Standing crop competitions and other methods designed to improve the quality of seeds. The conduct of demonstration and illustration orchards, the improvement of existing orchards and general development of the fruit growing industry. The entomological branch, embracing school instruction in insect life whereby children are taught to discriminate between beneficial insects and birds and those that are destructive to plant life, and, finally, a vigorous campaign against the Brown-tail moth and other dreaded insect pests.

Altogether, the Provincial Department of Agriculture, aided by the co-operation and support of the Federal Department, is accomplishing a wonderful work for New Brunswick farmers, a work that finds expression in improved crops and general prosperity. It is a branch of the administration which is deserving of the highest commendation and support, and affords abundant evidence that the Clarke Government is working with might and main in the interest of New Brunswick's greatest industry. In its encouragement of agriculture the record of the Government of New Brunswick cannot be equalled by that of any other province of approximately equal revenue or resource.

## A CHANCE FOR SCIENTISTS.

The St. John Board of Trade has received particulars of the conditions governing the competition for the McCharles prize to be awarded to Canadians of scientific turn of mind. The competition, which is something after the fashion of that for the Nobel Peace prizes, only of course, on a smaller scale, was made possible through the generosity of Annes McCharles, a wealthy Ontario, who bequeathed \$10,000 in Government bonds on the condition that the interest thereon should, from time to time, be given as prizes (1) to any Canadian from one end of the country to the other, and whether student or not, who invents or discovers any new and improved process for the treatment of Canadian ores or minerals of any kind, after such process has been proved to be of special merit on a practical scale; (2) or for any important discovery, invention or device by any Canadian that will lessen the dangers

and loss of life in connection with the use of electricity in supplying power and light; (3) or for any marked public distinction achieved by any Canadian in scientific research in any useful practical line.

The conditions governing the gift provide that when the accrued interest from the investment reaches the sum of \$1,000 it shall be withdrawn and applied as a prize as outlined above. The competition is one that should be of interest to all Canadians and it is possible that the encouragement thus given may result in the discovery or development of processes that may prove of inestimable value to the discoverer and to the nation. The donor of the prize may have done a far greater thing for his country than was imagined when he decided upon the gift.

## KAISER RULE IN MEXICO.

Commenting upon the Mexican situation the New York Herald says: "With the full knowledge which the South American republics must have of the activities of the German reservists in Mexico, it is inconceivable that they should entertain any strong feeling in favor of General Carranza or against the United States for steps which it may be about to take. Not one of these countries regards Germany as anything but a menace to its own tranquility, and one of them but would be compelled to bow the knee to Germany should she emerge from the war a victor, and not one but would be required to go under staggering additional debt arrangements to preserve a semblance of independence, with Germany the winner.

"The German military mind has operated true to its instincts in Mexico. The same methods were pursued in this country until very recently. The reservists were encouraged to perfect their organization; a propaganda was conducted against the President, not only throughout the country but in the very halls of Congress; while war was conducted openly against Canada and later against the United States itself. Money was spent in water to corrupt the press and public.

"German intrigues in this war have been worldwide. But for bribery and force Turkey would not have entered upon the war, German gunners from German ships under a misused Turkish flag fired the shots at Odessa which resulted in the Entente Allies declaring war. German intrigue sent Villa across the border on his raid to Columbus, and German intrigue is stirring up Carranza and his generals. German intrigue is making the Mexicans believe that if they go to war with the United States, Japan will land an army in California. This was what Villa had been led to believe, and such moonshine no doubt is being employed as far as it will go.

"Why, then, should Latin America look with suspicion on the United States? The Kaiser is the one to be suspicious of."

## HAMPTON LODGE F. & A. M. PRESENT SIGNET RING TO J. S. SUTHERLAND

Hampton, June 25.—At the regular June meeting of Corinthian Lodge F. & A. M., held on the second Friday of the month, a very handsome signet ring with masonic emblem was presented to Mr. J. S. Sutherland who has been manager of the Bank of Nova Scotia here for several years, and has been a member of the lodge since its organization. The management of the Gazette, Mr. Sutherland has been a valued member of this lodge, having filled important offices, and also been engaged in responsible committee work, and his brethren took this means of expressing their appreciation. The best wishes of the people of Hampton go with Mr. and Mrs. Sutherland to their new home.

The steam saw mill of H. A. Myers of Norton is now engaged at a cut of about 200,000 feet of lumber by the highway near the Highlands Farm, Hampton Station, L. J. Boyd of Shells, Queens Co., and which was cut last winter on nearby property. Mr. Myers expects to finish this cut in about a week or ten days, but there is some talk of other logs being hauled in for sawing before the mill is moved elsewhere. The deals are being loaded on cars at Hampton Station.

The necessary closing down of the St. Martins railway for a time during the early spring caused a great deal of inconvenience to residents of St. Martins, as well as all along the line. The time was well used however, in repairing and fitting up the rolling

And we want to know if we can hold it up in our setting room, I sed. O, thats a Ford of another color, sed pop. Can we, I sed. Wat kind of a show is it going to be sed pop. Jest a regular vawdevil show, sed, me and Puds and Sam is going to give a minstrel show with jest 2 end men and a middle man, ony we no middle man, and Puds is going to do sum sille of hand magician tricks, and Sam is going to do a ventiloquism act, and im going to do ackerablick feets.

Well, it sounds mild enuff, all but the ackerablick feets, sed pop. Yes sir, can we have it in our setting room, I sed, its for the benefit of the Vacation Fund, I sed. Well, I dont want to discurrige your charitable tendensies, but I dont quite like the ider of a mob of kids in full pizzenation of our perfectly good setting room, maybe theyll take home the chairs for scooveneers, or sumthing, sed pop, wat is this partickler charity that is to be the benefasary.

Do you mean wat are we giving the show for, I sed. Yes, that expresses it, sed pop, wat is this Vacation Fund. Its a fund for me and Puds and Sam to have money for vacation, I sed.

Im afraid not, sed pop. Sir? I sed. Its true that charity begins at home, but not necessarily in our setting room, sed pop.

So we are going to give the vawdevil show for the benefit of the Vacation Fund in Puds Simkins back yard.

stock, especially locomotive No. 2, which had a thorough overhauling in the shed here, and was turned out in good shape for the summer's work. Traffic on this road is now unusually heavy, and taxes both the men and the equipment, and in order to provide for the still heavier work which is anticipated during the summer a locomotive has recently been purchased from the C. P. R. This locomotive which is of the Kingston type, and considerably heavier and stronger than those previously in use on this line, had a complete overhauling in the C. P. R. shops at McAdam Junction and is painted "St. Martins, No. 3."

Since arrival here some fittings have been put on, and adjustments made by Geo. W. Wilson, and the locomotive is now all ready and will not be put in commission until some more work is done on the road bed to make it safe for heavy work.

### INTERESTING CONTESTS

Every Kiddie Between Six and Fifteen May Enter

PRIZES: BRACELET, MECCANO SET, FLASH LAMP AND BOOKS.

#### Standard Half Dollars Contest

Who would like to win a splendid Flash Lamp? You? All right, then read on. I want every kiddie not more than fifteen years of age to make a circle, the size of a half dollar piece, by drawing around the coin, and then to write the word STANDARD inside the circle as many times as you can. The writing must be clear, and in the event of a tie neatness will be taken into consideration.

State on your entry the number of times you have managed to write the word, and don't forget to enclose the coupon which is given below, filled in, with your attempt.

All entries must reach this office by Wednesday, July 5th, and to the sender of the most number written, will be awarded a splendid Flash Lamp, and the next in order of merit will receive a beautiful book.

Uncle Dick's decision is final. All letters to be addressed to:

UNCLE DICK,  
THE STANDARD,  
ST. JOHN, N. B.

#### Riddles Contest

You all enjoy asking each other riddles. Here are some you might try:

To the girl or boy who succeeds in finding the best solutions to the greatest number of the riddles, I shall award either a beautiful Bracelet or a Meccano Set, as the case may be. The sender of the next best will receive a splendid Story Book.

Write out your solutions clearly, and send in all entries so that they reach this office not later than June 28th, accompanied by the usual coupon correctly filled in and addressed to:

UNCLE DICK,  
THE STANDARD,  
ST. JOHN, N. B.

In the event of a tie, neatness of writing will be taken into consideration, and Uncle Dick's decision is final.

Here are the riddles:

- 1. What key is the hardest to turn?
- 2. Why is a rich cake like the sea?
- 3. Why doesn't a joke last as long as a church bell?
- 4. Why do haversacks resemble handkerchiefs?
- 5. Why are you better looking than a carpenter?
- 6. What makes an elephant's head different from every other head?
- 7. What is the difference between a frightened child and a shipwrecked sailor?
- 8. Why are blacksmiths more discontented than other workmen?
- 9. What timber should be used for castles in the air?
- 10. What is the difference between a photographer and the measles?

### LOCAL MEN IN ON RECORD IN FAVOR OF THE UNION PLAN CASUALTIES

Word Comes of Death of Corporal George Anderson and Private Cornelius Garnet—Others Wounded.

Two more St. John men were added yesterday to the long roll of those who have made the supreme sacrifice in the cause of Empire. A number were also reported as among the wounded. The sympathy of the people of St. John will be extended to those who have been bereaved.

Corporal George Anderson. A despatch from Ottawa to Mrs. George Anderson, 29 Barker street, stated that her husband, Corporal Anderson, was killed in action on June 3rd. Corporal Anderson was a "long shoreman and joined the 55th Battalion. On reaching the other side he was drafted into the 6th Battalion. Before he came to St. John, Corporal Anderson served in the Royal Berkshire. There were five brothers and all enlisted. The father, too, was connected with the army. Besides Corporal Anderson, one other of the brothers was killed in action. The corporal was 33 years old, and leaves two boys, one of one year and four months and the other five years. The family came to St. John from Surrey, England, three years ago.

Pte. Cornelius Garnet. Advice that Pte. "Con" Garnet died at Boulogne Hospital, France, after having suffered multiple shrapnel wounds at the front, was received by his sister, Mrs. Fred Melanson, 26 Long wharf.

Pte. Garnet was at first reported dangerously ill, but a second telegram told of his death.

The deceased, who had been engaged in longshore work, went to the front with the 29th Battalion. He was 25 years of age and supported his sister, Mrs. Melanson and her child, since the death of her husband.

Mrs. Walter Whipple, wife of Driver Walter Whipple of the A.S.C., is a sister, as are Mrs. Thomas Burley, Mrs. J. E. Tighe and Miss Jennie Garnet. Pte. Fred Garnet, of the 115th Battalion, is a brother.

Pte. Randolph Murray. Pte. Randolph Murray of the 16th Battalion (Scottish) was severely wounded in the foot suffered on June 19th. Mrs. C. Murray, 39 Magazine street, is the mother of the young soldier who enlisted at Vernon, British Columbia.

Corporal Thomas Murray, who is at the front with an Ontario unit, is a brother.

Pte. Wm. J. Hawkins. Pte. Wm. J. Hawkins, reported wounded, 35 years-old, was formerly an engineer with Haley Bros. & Co., Broad street. He enlisted at Sussex with the 55th Battalion, Aug. 13, 1915. His wife, Mrs. Mary Hawkins, and one six-year child, reside at 257 Carleton street. He falls from Burlington, Quebec.

Pte. Leonard McQueen. Mrs. James McQueen, 9 Ann street, received word from Ottawa that her brother-in-law, Pte. Leonard McQueen, infantryman, had been officially reported admitted to St. Luke's Hospital, Halifax, June 21st, suffering from wounds in the right arm.

Pte. McQueen is 23 years of age and before enlisting was an employee of the Maritime Mail Works.

He was previously wounded in the head Dec. 20th, 1915.

Pte. Wm. J. Grant. Mrs. J. Oscar Grant, 17 St. Andrew's street, received word that her son, Wm. J., had been admitted to a military hospital in France, suffering from a wound in the back. The young man's father died quite recently.

Pte. Wilnot Campbell. Mrs. P. J. Campbell of 90 Kennedy street, received a letter from her son, Private Wilnot, who was wounded in the right arm and was admitted to No. 22 Field Hospital, Camiers, France, on June 5, saying that he was only slightly wounded and expected to return to the trenches in a few days.

Gunner Jack Allen. Gunner Jack Allen, who left Fredericton with the 24th Battery, has been admitted to one of the Canadian hospitals at Boulogne with shell wounds. Gunner Allen was a well known baseball player before he enlisted.

Pte. Randolph Currie. Raymond Currie, of Currie Bros., Fredericton, has received word that his brother, Private Randolph Currie, had been wounded in France, June 14th, with gunshot wound in knee. The wounded soldier enlisted in Vancouver over a year ago with the 30th Battalion, and later joined one of the Highlander Battalions at the front in a reinforcement draft.

From the Ranks. Five men who enlisted as privates from the village of Dunchurch, Rugby, which has a population of about 1,000, now hold commissioned rank.

### GLOUCESTER GETS RECORD FOR THE WEEK

That County Secured More Recruits Than Any Other in Province—Week's Total is 117.

The figures this week show a little falling off in recruiting in the province, only 117 having enrolled as against 122 last week. Gloucester heads the list with 28. Westmorland comes second with 22 and St. John has to be content with third place with 12. The 165th did very well, 66 of the 117 being for that unit. Following are the returns by counties:

### OBITUARY.

Mrs. Robt. Dean. Many will learn with regret of the death of Mrs. Mary A. Dean, wife of Robert Dean of West Side, formerly of Lorneville, which occurred at the residence of her son-in-law, Samuel Maxwell, 38 Ludlow street, West St. John, yesterday morning. She is survived by her husband, one daughter, Mrs. Samuel Maxwell, four grandchildren and two great-grandchildren. Mrs. Dean was in her seventy-second year. The body will be taken on Wednesday to Lorneville, where interment will be made in the family lot.

Mrs. James R. McLean. Sussex, N. B., June 26.—Mrs. Emma McLean, wife of Ex-Mayor James R. McLean, died at one o'clock this afternoon. The deceased had been ill for some time and her sudden death came as a great shock to relatives and friends. Mrs. McLean was a very estimable lady, active in church work and charities and was a general favorite with all. She is survived by her husband and son, Harry, two daughters, Mrs. A. C. McCready, Vancouver, B. C., Mrs. Frank Deboo, Sussex, also two brothers, John F. Robson, Beverly, Mass., and four sisters, Mrs. James Compton, Portland, Me.; Mrs. John Fisher, West Somerville, Mass.; Mrs. Edward Jones, Woodford, Me.; Mrs. Fred Compton, Woodford, Me. The deceased was a daughter of the late John Robson of Summerside, P. E. I. The funeral will be held from her late residence on Wednesday afternoon.

Thomas C. Burns. Rexton, June 25.—Thomas C. Burns, well known millman and an esteemed citizen, passed away at his home here last week, after a long illness of stomach trouble.

Mrs. Burns was born at South Branch, Kent county, sixty-eight years ago. He was a son of the late Mr. and Mrs. James Burns. He is survived by a widow, who was formerly Miss Ellen Hickey, of Upper Rexton, one son, James M., and one daughter, Miss Loretta, at home. James F. Burns, of South Branch, is a brother, and Mrs. William Shortall and Mrs. Agnes Hayes, of South Branch, are sisters of the deceased.

### FUNERALS.

The funeral of John Baxter took place at 2.30 yesterday afternoon from his late residence, 48 Winter street, to Fernhill cemetery.

The funeral of Mrs. Samuel Lecker, Thorne avenue, took place yesterday afternoon. Rev. F. H. Wentworth conducted the services. Interment in Fernhill cemetery.

The funeral of Mrs. John W. Hargrove, King street, West side, took place yesterday afternoon to Cedar Hill cemetery. Services were conducted by Rev. J. H. Jenner.

The funeral of Mrs. John C. Lloyd took place yesterday morning. After requiem high mass in St. Peter's church, celebrated by Rev. Jos. Borgman, C.S.S.R., assisted by Rev. J. Costello, dean, Rev. Martin Maloney, sub-deacon. Interment in the new Catholic cemetery.

### THE LATE P. S. NISBET.

It is with much regret that The Standard has received confirmation of the death of Pollok S. Nisbet, C. A., who was killed in action on the 2nd inst., at Ypres, while serving as an officer with the 26th Battalion, Canadian Expeditionary Force. Mr. Nisbet, who was a member of the Society of Accountants in Edinburgh, as well as the Institute of Chartered Accountants of Nova Scotia, was the Canadian partner of Messrs. Barton, Mayhew & Co., chartered accountants, London, England. Mr. Nisbet was well known in St. John and was possessed of sterling qualities and we feel that the profession of which he was a worthy member is the poorer today.

### By Purifying The Blood You Get Rid of Pain

Here is the Sworn Statement of a Lady Who was Cured By Dr. Chase's Kidney-Liver Pills.

Poison causes pains and aches, tired, languid feelings and derangements of the vital organs of the body. By ridding the human system of poisonous impurities Dr. Chase's Kidney-Liver Pills cure rheumatism, headache, backache and pains through the body and limbs.

As an illustration, we would refer you to the sworn statement of Mrs. Bergland. It is just such experiences as this that has made so many thousands of people enthusiastic about Dr. Chase's Kidney-Liver Pills. This is why they are to be found in the great majority of homes.

Mrs. O. Bergland, Dumfries, Sask., writes:—"I can highly recommend Dr. Chase's Kidney-Liver Pills to all who are suffering from weak kidneys. I suffered from headache and backache, had heart flutterings and my sleep was so broken and unrefreshing

that it was with difficulty that I could get any rest. I had rheumatism and always had a heavy feeling in the region of my kidneys. I was nervous and often dizzy. Reading about Dr. Chase's Kidney-Liver Pills led me to use them, and with the most highly satisfactory results, and I can recommend them to everyone who wants to be cured of kidney troubles."

Won Double Event and Flatbush Stakes at Sheepshead Bay in 1902.

Lexington, Ky., June 26.—Nasturtium, the noted thoroughbred race horse and sire, winner of the double event and the Flatbush stakes at Sheepshead Bay race track in 1902, died of heart disease at the stud of his owner, George J. Skoll, here today. Nasturtium, a two-year-old was purchased by W. C. Whitney for \$50,000. He was the sire of many prominent winners of the last several years.

### TOMMY BURNS THIRTY FIVE

When Noah Brusso, alias Tommy Burns, former heavyweight champion of the world, and subsequently Calgary haberdasher and New Orleans boxing promoter and referee, announced not long ago his intention to pull a come-back, the fight fans chortled at the idea. Tommy is pictured as a patriarch with flowing beard and bent shoulders, but as a matter of fact the only Canadian-born heavyweight champion was thirty-five last Saturday, having been born at Hanover, Ont., June 17, 1881. Tommy quit the ring after his defeat by Johnson in 1908, and settled in Calgary, where he engaged in the business of supplying the smart dressers of the Alberta metropolis with the latest in sartorial embellishments. In 1910 he pulled a Patti in Australia, whipping Bill Lang in twenty rounds at Sydney. For a couple of years he remained in retirement, but emerged in 1912 to whip Bill Rickard at Saskatoon. A few months later he fought a short go with Arthur Peiky in Calgary, and then promoted the tragic Peiky-McCarthy bout in that city. In 1914 Tommy had another whirl with the game at Taft, Cal., picking for his purpose a two-legged quince known as Battling Brandt. Tommy has been quite successful as a promoter in the Crescent City, but his decisions as a referee have not always been in accordance with the popular opinion.

poorly behind Pich and Schacht and Buffalo won a shut-out, 2 to 0. The score: Buffalo..... 000000101—2 7 1 Newark..... 000000000—0 5 4 Batteries—Baumgartner, Tincup and Blackburn.

Providence 6, Rochester 5. Providence, June 26—Coming up from behind in the third inning Providence scored runs by a batting rally, winning 6 to 5. The score: Rochester..... 201000020—5 11 1 Providence..... 00310002x—6 13 1 Batteries—Leverenz and Casey; Hale; Baumgartner, Tincup and Blackburn.

Baltimore and Toronto Break Even. Baltimore, June 26—Baltimore and Toronto broke even in today's double header, the visitors taking the opening game, 3 to 2, while Baltimore won the second, 8 to 5. The score: (First game) Toronto..... 300000000—3 9 1 Baltimore..... 00001010—2 8 1 Batteries—Manning, Shockey and McKee; Tipple, Crowell and McAvoy.

(Second game) Toronto..... 001001003—5 8 0 Baltimore..... 60010010x—8 11 1 Batteries—Herbert, Thompson and Kelly; Morrisette and McAvoy.

Montreal Takes Double-Header. Richmond, June 26—Montreal twice beat Richmond today, 5 to 0 and 9 to 3. The score: (First game) Montreal..... 022100000—5 11 2 Richmond..... 000000000—0 5 1 Batteries—Fullerton and Wells; Rhoades and Reynolds.

## GLORIES OF THE SOUTHLAND

Produced Cobb and Jackson, Two of Greatest Baseball Players the Game Ever Had.

It is one of the glories of the Southland that it has produced two of the greatest baseball players the game has ever had. One of them, of course, is Tyrus Cobb. The other, equally of course, is Joseph Jackson. The great slugger of the White Sox was born in a backwoods community in northwest South Carolina, not so very far from the birthplace of Cobb, and it will be just twenty-eight years tomorrow since he made his mundane debut. Jackson pere was a tenant farmer, and, like so many of his kind, he was rich in nothing but children. The stock works overtime in such communities, and Joe was the first-born of a large brood. Tough luck! The eldest in such a family doesn't find existence any soft snap, and Joseph was no exception.

When Joe was a kid a lot of the farmers of that section of the south, despairing of ever digging more than the barest subsistence from the soil, began to pull up stakes and move to mill centers, where the whole family could contribute to the task of making a living by toiling in the mills. Brandon Mills, in the vicinity of Greenville, attracted the Jackson clan, and there, at the age of twelve, young Joe Jackson began his career as a little soldier in the afternoon he toiled at his hard task. He might be there yet, bent and worn and hopeless, except for the circumstance that the owners of the Brandon Mills started a baseball club made up of employees.

The mill ball nine was the salvation of Joe Jackson. Without educational advantages, his naturally good brain would in all probability have remained undeveloped, except that baseball gave

him the opportunity to break the shackles that bound him to the industrial wheel. Joe was only thirteen when he commenced playing ball, and he was originally a batsman, and from the first a hard slugger. Occasionally Joe tried his hand at pitching, but one day he broke a batter's arm with a pitched ball, and that discouraged him.

Joe was a dollar-a-day hand in the mill when he got his first chance to play baseball for money. In 1907 Tom Stouch, manager of the Greenville club then a semi-pro outfit, but later in the Carolina association, offered the lank six-foot mill hand a job at \$75 per month. Stouch had seen Joe in action with the mill nine on several occasions, and the veteran liked his looks and especially his work with the bat.

Seventy-five bones looked like a young fortune to Joe, for it was more than twice as much as his mill work brought him, and he was the most elated youngster in South Carolina. Joe remained with Greenville in 1908, and led the Carolina association in batting, with an average of .346. Manager Stouch, a former big leaguer and a pal of Connie Mack tipped off the Athletic leader to his find, and at Connie's invitation set out for Philadelphia with Joe in tow. Jackson was from the first very dubious about associating with "nothe'ers," and as the train carried him away from his home his feet grew colder and colder. Some where en route he slipped off the train and took another back to Greenville. After considerable persuasion Joe was induced to try again, and he actually reached Philadelphia and played one game in the Athletic uniform, making an excellent showing in center field and with the bat. Mack was jubilant, but his joy was short-lived, for the next day Joe flew the coop and returned to his home. He played with Sarannah in 1909, and returned to the Athletics the following spring, but was sent to New Orleans for further seasoning. In August he was recalled, and Mack swapped him to Cleveland, where he was a star until the memorable deal of last year which sent him to the White Sox.

## OUTLOOK IS FOR 200 MILLION BUSHEL WHEAT CROP

Special to The Standard. Toronto, June 26—Returning from the west E. M. Saunders, treasurer of the Canada Life Assurance Company, expresses the belief that the acreage under crop in the prairie provinces is from ten to fifteen per cent less than last year, and that the wheat plant is quite as advanced now as it was twelve months ago. The outlook is such as to warrant the hope of a 200,000,000 bushel crop of wheat, which, if obtained, will insure sound conditions in the west for some time.

### NO CHANGE LIKELY WHILE THE MEXICAN ISSUE UNSETTLED

Market Must Remain Without Trend While Matter is in the Balance.

### DISAPPOINTMENT OVER COPPERS

Market Conditions on Wall Street as Seen by J. S. Bache & Company.

Great disappointment is evident as to the action of copper stocks. The copper companies are evidently earning very large sums, with production sold far ahead at good prices. While over-production is talked of, it is a question whether, on the declining price in copper, as a result of lessened demand, because consumers are well ahead of production, it is not, after all, beginning to be curtailed already. This is the situation in the metal. In copper stocks, out of large earnings, increased and extra dividends are being paid, and at the level of prices and yield, copper stocks seem to be worth more than they are selling for. But it is a potent factor in the rise and fall of stock prices, that very often the real value-position of stock is upset by an over-supply in the market of the stock itself. This over-supply may have come about, as explained by one of the large dealers in the metal, from the fact that copper stocks are not a favorite form of speculation in the United States, and that outside of Boston and the copper regions, until recently, there has not been a great deal of buying of them for speculation. In the meantime, before the war, vast amounts of copper stocks were absorbed in France, England and Germany, being bought outright for investment and put away. This buying ceased when the war began, and thus a very large part of the support was withdrawn. In addition to this, since the war and more freely in the second year of it, the stocks, which have been purchased abroad have been coming back and sold on the American market. These two operations have over-supplied copper stocks in our market, and as we said before, no matter how valuable a stock may be, if there is more of it in the market than can be absorbed, it is bound to decline.

We are witnessing now in the metal market the rebound from a runaway price market. This is true of steel, spelter and all the others, and it is true of copper. The play of prices is at the top, but underneath there is a strong inherent strength in the metal market. Copper may be quoted several cents a pound under nominal figures, but the established producers, like Anaconda and Utah and others can still make large profits at those figures. The building trade is reviving under lower steel and iron prices, and this constant added demand for copper. Continuation of the war will keep prices from sinking, and the preparedness programme of our own government, which events in the last few days has stimulated, will require large amounts of copper. The outlook is for consumption to still keep good pace with production.

The Outlook. While intervention in Mexico now seems probable, it is not inevitable. For such time as the matter is in the balance, the market must remain without trend. Actual commencement of hostilities always produces some security for cover in the securities markets. This having been effected, the new conditions, after a longer or shorter period, depending upon the magnitude of the issue involved, develop into speculative activity, due to expenditures by Government, and transportation and commodity activity resulting from this.

It does not appear that the earning power of the country will be diminished by war with Mexico. The requirements of men for the army will draw from the industrial forces, but the number needed is proportionately not large.

It is to be hoped that war will be avoided, for no matter how comparatively small a fire on the premises may be, it is an element of danger as long as it burns. The market's technical position is generally what it has been for months. Large amounts of stock in the aggregate are being carried on good margin by the public, most of the stock having been bought at higher prices, but held persistently in hopes of avoiding losses. The holders are well able to furnish more margin, but these holdings have swelled Wall Street loans to the limit, and under such conditions it is difficult to engineer a substantial advance, however much values are entitled to be pegged up. A prolonged rise, it would seem, can come only after much liquidation of these holdings, and from the technical viewpoint, it appears that stocks are a sale, anticipating such liquidation as inevitable.

## STIMULANT TO PUBLIC BUYING

Over Sunday Developments of Character to Encourage Public Buying and Professional Element Took Advantage in Depressing General List.

Special to The Standard. New York, June 26.—The New York "Evening Sun" financial review today said: "Over Sunday developments pointing more strongly than ever to the likelihood of war between this country and Mexico, were of a character to stimulate public buying, a feature of which the professional element took advantage today in depressing the general security list. In the opinion of shrewd Wall street observers the market suffered fully as much if not more from the meagreness of outside participation and lack of support as it did from the activities of bearish traders who sought and found many weak spots both among standard railway shares and industrial specialties. First prices were irregularly changed, but averaged lower. The feature at the outset was a violent break in Corn Products common and preferred, which declined 4 to 10 points respectively. Prices weakened materially as the forenoon advanced, specialties like Mexican Petroleum, Mercantile Marine preferred and Industrial Alcohol leading the way. Losses ranging from one to three points or more reflected freely in the list in the early afternoon.

## LIQUIDATION ON A BROADER SCALE WAS RESUMED

Steady Declines With Some Slight Recoveries at the Close.

## MEXICAN TROUBLE THE CHIEF FACTOR

U. S. Steel for First Time in Weeks Showed Heaviness—Dull in Exchange Market.

New York, June 26.—Last week's liquidation was resumed on a broader scale today, the movement being one of almost steady declines, with some slight recoveries at the close. The Mexican situation was again the paramount factor, although other developments, such as the federal court order directing the dissolution of the Corn Products Refining Company, and less optimism regarding crop prospects helped to bring about the general shrinkage of values. Corn products common, on an extraordinary large overture, made an extra decline of 5 1/2 to 13 1/2, with 11 for the preferred at 85. Mexicans averaged losses of two to four points, with five for Petroleum and Motors and the war group were two and three points down, with 9 1/2 for Bethlehem Steel before it rebounded. United States Steel manifested actual heaviness for the first time in weeks, declining 1 1/2 to 2 1/2 with little recovery. Coppers and the Zinc shares were heavy to weak, shipping issues were again adversely influenced by rumors of further reductions in ocean-going rates, and specialties of less definite description yielded sympathetically. U. S. Industrial Alcohol added three to its 18 points depreciation of the preceding week, and other stocks that owe their impulse to the operations of pools and cliques suffered in variable degree. The weakness of standard rails, particularly Reading, which was also the most active feature, was perhaps the most disconcerting feature of the session. Offerings of these stocks were most insistent. Reading at its worst having a loss of five and one-half points. Other coalers, Canadian Pacific, New Haven and Southern Railway preferred, receded one to two points. Total sales amounted to 670,000 shares. The Atchafalaya system reported a net increase of \$1,564,000 for May giving especial point to the continued high pressure of the western freight movement, which showed general gains of 10 to 15 per cent. over last year. In the exchange market, the only noticeable change was the greater firmness of rates on Paris, foreshadowing the completion of the new French loan by our bankers. Bonds were heavy, with general selling of the more speculative issues. Total sales, par value, \$2,720,000.

## NEWS LETTER FROM MONTREAL EXCHANGE

(McDOUGALL & COWANS.) Montreal, June 26.—The markets were weak practically all day today and showed very little rallying power; the Mexican situation is the principal cause. New York interests were buyers in the local market, 97 the first time in the last few weeks. We will undoubtedly be governed by the American market and that market has discounted a good deal by the decline that it has had. P. P. Co.

## MONTREAL MARKET DULL AND HEAVY

Steel of Canada Dropped 3 7/8 but Recovered 1-1/4 in Later Rally—Tone of Market Unsettled.

Special to The Standard. Montreal, June 26.—Apart from a break in Steel of Canada of 3 7/8 points from Saturday's close and a subsequent rally of 1 1/4 the tone of the market remained dull and heavy in line with last week's tone, nothing having happened in the meantime to effect a change. There was no trading in Steel of Canada until midday, but it was evident that there was an undertone of weakness throughout the early part of the session which culminated in the uncovering of some short orders at 55 after the preliminary trading at 55. The tone of the market continued decidedly unsettled in the afternoon in view of the further decline in the New York market. Iron was active at 53 1/2 to 52 1/2, compared with 53 1/2 to 53 1/2 in the forenoon. Steel of Canada, after its rally from the midday break to 55 and 56, was active at 55 1/2 to 55, Scotia, after early strength at 123 to 123 1/2, broke to 120.

## CLOSING LETTER OF N. Y. MARKET BY E. & C. RANDOLPH

(McDOUGALL & COWANS.) New York, June 26.—Weakness continued in the market throughout the afternoon with only a slight recovery recorded before the closing due to short covering, Reading which was by far the most active issue showed 5 1/2 points loss at one time and its recovery was only about a point. In many of the other issues, including the war stocks, Marine Pfd. and Mexican Petroleum which had lost from three to five points, the recoveries were less than a point. Steel sold down 1 1/2 points and Roosevelt's letter strongly endorsing Hughes, failed to have any effect on this issue, where it might have been most expected. The recovery was only half a point. Atchafalaya produced another remarkable railroad showing for May with 2 1/2 p. c. increase in gross and nearly 5 1/2 p. c. gain in net as compared with last year. There is nothing in the Mexican market today nor in the course of the war in Europe. The state of the market was such that operations of the shorts could be conducted successfully, no buying power having lately been in evidence. The liquidation continues, however, without any demoralization and that is what the market needs to correct its fundamental technical position. Sales, 684,700. Bonds, \$2,720,000. E. & C. RANDOLPH.

## MONEY IN BETTER DEMAND ON THE LONDON EXCHANGE

Stock Market Fairly Quiet—American Securities Open Strong, but Relapsed Into Dullness.

Special to The Standard. London, June 26.—Money was in better demand and discount rates were steady today. Although maintaining a good tone on Ruseslans and Italians war news, stock market was quiet, awaiting developments on other fronts. Dilt-edged securities, colonial bonds and foreign rails were benefited by an accumulation of week-end orders and Marconi, Hudson Bay and City Service shares were firm features, but there was little doing elsewhere. Mexican issues were steady, American securities opened steady but soon relapsed into dullness.

She received many gifts of cut glass, silver, etc., among them being a silver service from the groom. Mr. and Mrs. Johnson left for a honeymoon in the Middle States.

Thomas Copp, two of whose sons are at the front, Hiram of the 45th Highlanders wounded on the 5th, received a telegram from Ottawa yesterday, telling him of the admission to hospital in which she is lying, of his son, suffering from gunshot wound in lower extremities. Mr. Copp has a son home who tried to enlist but was refused, because of being too young.

A SUFFERER FROM KIDNEY TROUBLE FOR TWO YEARS.

When the kidneys get stiff the back gives out. But the back is not to blame. The ache comes from the kidneys, which lie under the small of the back.

Therefore, dull pain in the back, or sharp, quick twinges, are warnings of kidney trouble—warnings of kidney trouble.

Phosphates and liniments will not cure the back, for they cannot reach the kidneys which cause the trouble.

Doan's Kidney Pills reach the kidneys themselves. They are a special kidney and bladder medicine. They heal the diseased surface of the kidneys and drive out the poisons that collect there naturally.

Miss Mary A. Northrop, Cole's Island, N. B., writes: "I have been a sufferer from kidney trouble for two years. I tried quite a number of remedies, but they did me no good. My mother got me a box of Doan's Kidney Pills and she did me so much good that I got the second one, and when I had taken it I was completely cured."

Doan's Kidney Pills are the original kidney pills. See that our trade mark, "The Maple Leaf," is on every box. Price, 50¢ per box, 3 boxes for \$1.25. All druggists, or mail direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

NOTICE TO MARINERS.

Notice is hereby given that the light on Northern Wolf gas and wharfing buoy is not burning. Will be relighted as soon as possible.

# PART OF ONCE SAM'S FLEET ASSEMBLED AT EASTPORT, ME.

## Over Score of Destroyers Gathered for Review and Attract Many Visitors.

Eastport, Me., June 26.—Since the early part of the past week Eastport, Me., has been the centre of attraction, especially the naval review. During a heavy fog on Sunday night the large supply steamer "Cyclops" steamed in and on Monday morning her large hull lay broadside about a quarter of a mile off Eastport shore. On Thursday and Friday about twenty-five so-called naval destroyers accompanied by the Melville, had also assembled, ranging in a line two abreast from Kendall's Head to Shaford's Head. The scene is rare and the ships can easily be seen from the Canadian side of the line, a distance of more than two miles.

Hundreds of small power boats, dories, excursion steamers and all such are continually circling around the ships from early dawn until late at night. Very many of the tourists visit and inspect the ships and are treated with marked courtesy.

At the close of the programme, homemade candy was sold and the sum of \$47.00 realized, which will be devoted to Red Cross work.

IRRITABLE NERVES RESTORED AND HEALTH REGAINED IN A SIMPLE WAY

The man or woman who is run-down not feeling up to the mark, perhaps irritable, nervous or sleepless can well afford to learn about the wonderful results the newly discovered blood-food is giving to folks that use it.

There is a wonderful power in this new blood-food, and every weak, pallid person can be quickly nourished back to health that uses it directed.

After each meal, with a sip or two of water, you simply take two little chocolate-coated tablets, sold in all drug stores under the name of "FERROZON."

The effect is noticeable at once. You feel happier, brighter, more contented. That old-time feeling of weariness departs—you forget your "nerves" and no longer get irritable or cross over trifling annoyances.

There is a reason for this change and that reason consists of the fact that Ferrozon contains blood-making materials you can get in no other way.

Ferrozon makes the blood limpid and pure with new vitality. This ensures lots of nourishment and strength being supplied to every part of the body.

No wonder the eyes brighten and the cheeks radiate color and happiness. With abundance of strength, a keen appetite, good digestion and plenty of sound sleep—all the result of Ferrozon—you quickly feel as if life held new charms and pleasures.

The Soldiers' Comfort Association of St. John, have received some letters of appreciation from the officers of the different units to whom tobacco has been sent.

1 May, 1916.

Miss Anna Lelaichur,  
Sec., Soldiers' Comforts Assn.,  
Saint John, N. B., Canada.

Dear Miss Lelaichur:—

I have your favor dated the 29th March, intimating that two cases have been forwarded to us, containing tobacco for the men of my Divisional train—the unit under my command. I will advise you directly the packages come to hand.

I may state that the ladies of St. John have been most considerate and helpful, in so far as forwarding comforts of various kinds to the New Brunswick boys, and same have been appreciated to the full.

Thanking you most heartily, on behalf of the officers and men associated with me, believe me,

Yours very sincerely,  
A. E. Massie.

May 7th, 1916.

Soldiers' Comfort Association,  
St. John, N. B.

Dear Sir,

Thanks very much for five packages of cigarettes which came to hand today, Nos. 8010, 80, 60, 61 and one other number which was obliterated. The people at home are glad to us, and we deeply appreciate it.

Yours faithfully,  
W. D. Ford, Lt. Col.

Soldiers' Comfort Association,  
Saint John, N. B., Canada.

I beg to acknowledge receipt of 440 packages of Player's cigarettes forwarded by the Imperial Tobacco Company of Canada. These are being distributed among the men, and on their behalf I wish to thank the Soldiers' Comforts Association for remembering our boys in this most acceptable manner. Player's are the favorite cigarette with all ranks as far as I can see, and nothing is more appreciated.

Yours very truly,  
W. H. Harrison.

Woman's sphere has become a thing of the past. In fact it seems already long ago since we argued holly as to what we might and might not do.

Today I have seen a girl driving a "motor," another delivering letters, with a bunch of lilies of the valley in her coat, and such a sweet smile that when she people she met, her words were restrained from thinking it was the fault of the postman; another collecting fares and punching tickets on the top of a bus, looking very workmanlike in her short blue skirt, her blue coat, hat and her long leggings and boots; another acting as steward at a large meeting—though there is nothing startling in that to be sure—another driving a van and her maid climbing down from time to time to deliver parcels and take orders, and last, but not more startling in a way, there were two pretty and very business-like girls wearing fawn-colored or drill blouses over standing on ladders to polish the plate glass windows of a famous shop.

One thing that strikes the observer is that the girls are quiet and business-like. There is very little chattering and practically no "gossiping" with the men encountered in the day's work.

## THE BEST THING FOR DYSPEPSIA

WHY PEPIN, PANCREATIN, ETC., SO FREQUENTLY FAIL.

An international specialist whose articles on stomach trouble have been printed in nearly every language, recently stated that to treat the average case of stomach trouble, indigestion, dyspepsia, etc., by doctoring the stomach, killing the pain with opiates, or by the use of artificial acids to digestion such as pepin and pancreatin, was just as foolish and useless as to attempt to put out a fire by throwing water on the smoke, instead of the fire. He claims, and facts seem to justify his claim, that nearly nine-tenths of all stomach trouble is due to acidity and food fermentation; and that the only way in which to secure permanent relief is to get rid of the cause, i. e., to neutralize the acid and stop the fermentation. For this purpose he strongly recommends the plan now generally adopted throughout Europe of taking a teaspoonful of ordinary bicarbonate of soda in a little water immediately after eating or whenever pain is felt. This immediately neutralizes the acid, stops the fermentation and permits the stomach to do its work in a normal manner and thus by removing the cause, enables nature to quickly restore the inflamed stomach lining to its perfectly healthy condition. For the convenience of travellers it may be noted that most druggists are now able to supply bicarbonate in 5 grain tablets, 2 or 3 of which will almost instantly relieve the most violent attacks of indigestion.

work. Perhaps, as the only men left over military age and those engaged in war work who are too busy and tired to show a tendency to sit up and take notice of girls doing unusual work, there is not the same temptation to be distracted from work as at ordinary times.

A collection of bottles has produced enough money in Halifax to purchase a motor ambulance. Over 1,000,000 bottles and jars were collected. They were washed by voluntary workers, and sold to doctors, chemists, and firms at a price less than wholesale cost when new.

A woman's sacrifice to aid an hospital, although herself in reduced circumstances is cited in the instance of Mrs. Golden who kept intact the sum of \$5,000 being the savings of her husband, formerly a clerk in a Windsor banking house. Mr. P. J. de Paravicini, chairman of the King Edward VII. Hospital at Windsor, stated that the money is now invested in War Loan as part of the permanent fund of the hospital. Mr. Paravicini said that Mrs. Golden lived in small apartments, deprived herself of coal in the winter, and had barely the necessities of life. He thought it was a glorious instance of self-sacrifice.

Within my earthly temple there's a crowd,  
There's one of us that's humble, one that's proud,  
There's one that's broken hearted for his sin,  
And one, that unrepentant, sits and gins,  
There's one that loves his neighbor as himself,  
And one that cares for naught but fame and self,  
From much corroding care I should be free  
If I should once determine which is me.

## MARRIAGES.

Thompson-Ellison.  
Apoahqui, June 23rd—A wedding of much interest took place at the home of Mr. and Mrs. E. J. Ellison, Berkeley, on Wednesday, 21st at 5 o'clock in the evening—when their daughter, Ida May Ellison was united in marriage with Lewis Murdoch of North Sydney, N. S. W. The bride was the officiating clergyman. The bride was very charming in a gown of white Georgette crepe over satin, wearing the conventional bridal veil crowned with orange blossoms, and carrying a shower bouquet of roses and lily of the valley. She entered the drawing room with her father, to the strains of the wedding march, played by Miss Jean Folkins. The rooms were suitably decorated with quantities of flowers, the drawing room being very prettily trimmed with pink and white carnations. After congratulations the bridal party and guests which numbered about forty, proceeded to the dining room, where luncheon was served. Later in the evening the bride appeared prettily sown in a tailored suit of blue with hat to correspond, and amid showers of rice and good wishes entered the waiting automobile in which they were driven to Sussex, to take the west-bound train for a trip to New York and Boston. On their return they will reside in North Sydney. Many beautiful gifts were received by the popular bride, including substantial cheques, cut glass and silverware.

McLaughlin-Bateman.  
Newcastle, June 24th—St. James' Presbyterian church, Nelson, was the scene of a very pretty wedding Wednesday evening, when Frances Muriel, daughter of A. Bateman, Nelson, was united in marriage to Frank Halverson, son of James McLaughlin of Douglasfield. The bride looked charming in a wedding gown of white satin messaline with silver ninon overskirt and oriental lace trimmings. She wore a bridal veil caught up with lilies of the valley, and carried a huge bouquet of white roses, carnations and madderbalm fern. At eight o'clock the bride entered the church on the arm of her father, to the strains of Lohengrin's bridal chorus, followed by two flower girls, Greis McLaughlin and Barbara McLeod, daintily dressed in white silk and carrying baskets of sweet peas. The groom wore black broad-cloth and was supported by his brother, Harvey McLaughlin. The church was tastefully decorated for the occasion, under the supervision of Mrs. H. W. Patterson. The bridal couple stood under an arch of evergreens, decorated with

## Was Troubled With BOILS

ALL OVER HIS BODY.

When the blood becomes impure the first symptoms manifesting themselves are a breaking out of boils of various sorts of bad blood troubles, such as boils, pimples, abscesses, ulcers, etc.

How many times have you met a friend with a handkerchief tied around his neck, and have asked him: "What is the matter with you?" "Oh! I have a boil on the back of my neck; I guess I will have to take something for my blood."

The best blood cleansing remedy on the market today is Burdock Blood Bitters, and the speediest and most thorough method of expelling all the useless and corrupt matter from the blood is to use this old and well tried remedy that has been on the market for the past forty years.

Mr. W. E. Cockerill, Golden, B. C., writes: "I was troubled with boils all over my body, and my blood was very bad. I tried all kinds of medicines and salves, but got no relief. I had to quit work, and could not stoop to do anything. My boss told me to use Burdock Blood Bitters, after I had told him I had tried nearly everything else. I got one bottle of B.B.B., and before I had finished it the boils were all gone. It is the best blood cleanser I have ever taken. I have had several others, but was suffering with boils, and they all ever took me. I am forty-seven years of age, but I feel like sixteen since I got rid of the boils."

primal meaning of the word "gentleman."

The external signs of the gentleman are good sense, a sense of bearing and charm of voice. The chief internal qualities from which the good manners should rise are unselfishness, tolerance, and consideration for others which is only another name for unselfishness. Chance has decreed that some girls are so circumstanced that it is easy for them to be gentlemen; for others great difficulties stand in the way. But no girl need fear reaching such an ideal if she cares to exercise the patience and self-repression necessary to attain the inner and outer graces which belong to the true gentleman.

So far as the inner graces are concerned, no one is born with the quality of unselfishness, although some fortunate people have such a bent for it, that it can be easily disciplined into them. The baby is born an egoist, and everyone around him must, perforce, minister to his egoism. His little horizon is filled with just himself, and when he begins to talk the most of his speeches begin "baby wants" or "baby doesn't want." It is only careful training that will give the child the proper conception of the rights of others. Human nature is, at the best, so defective that only constant self-discipline will keep one from putting one's own rights always first.

The true gentleman knows that the Christian theories which look upon unselfishness as a duty are something more than pleasant principles set up on some high shelf of the soul where they are kept for show only. The golden rule, "Do unto others as you would that they should do to you," ought to be kept burnished by constant use.

The compliment of unselfishness and consideration for others is tolerance. When other people are grasping or unfair, the gentleman tries to excuse them on the grounds that they are doubtless doing the best they can. She is not smug about it, does not think God that she is not as other people; she simply believes that people probably think they are justified in whatever line of conduct they take. This breadth of view, this generosity, is a grace quite as admirable as unselfishness. In its way it is a kind of unselfishness.

It does not follow that the outward qualities of personality correspond with the inner qualities, but they should. A charming person will not stoop for utter unselfishness, nor will an abrupt nervous manner, however unattractive, conceal a beautiful spirit. Yet, ideally, there should be a correspondence between inner and outer qualities.—Made Hadford, Warren in Woman's World for July.

## STRIKEN IN THE STREET

Completely Restored to Health By "Fruit-a-lives"

383 St. Valler St., Montreal.

"In 1912, I was taken suddenly ill with Acute Stomach Trouble and dropped in the street. I was treated by several physicians for nearly two years, and my weight dropped from 225 pounds to 160 pounds. Then several of my friends advised me to try "Fruit-a-lives." I began to improve almost with the first dose, and by using them, I recovered from the distressing Stomach Trouble—and all pain and Constipation were cured. Now I weigh 208 pounds. I cannot praise "Fruit-a-lives" enough.

Getting Four Others.  
Moss Glen, N. B.

Dear Uncle Dick:—  
Am sorry I did not take more pains with my writing. I didn't know until I read your nice long letter on Saturday that it made any difference whether I wrote with pen or pencil, and I did the contest in a hurry too. Am doing the contest this week my very best, and hope I may have better success this time. Will try and send you four new members to the Corner. As I would like your picture very much with best wishes to the Corner.

Your nephew,  
Burpee N. Puddington.

Papa Takes Standard.  
Upper Kent, N. B.

Dear Uncle Dick:—  
I am enclosing the puzzle which I solved. My papa takes The Standard and I enjoy reading the Corner. I would like to join your Corner.

Your niece,  
Inez Lockhart.

Enjoys the Corner.  
Sussex, N. B.

Dear Uncle Dick:—  
I have been reading the Uncle Dick Corner in the Weekly Standard and would like to join it too. I have been trying to make out the contest. Hoping I will get a prize. I am going to school and am in the highest book. I was 13 years old the 3rd of April. I will close with best wishes for the Corner.

From your nephew,  
Humbert Sherwood.

Every Kiddie Has Chance For Prize.  
St. Alma, N. B.

Dear Uncle Dick:—  
I have not as yet joined your club, but I think I will some day. I have solved the proverb, but I do not know as I am not a member, whether I will win or not. Would you please be kind enough to let me know as soon as possible if my entry was correct and if I won the prize.

Yours truly,  
Hazel Reid.

Enjoys the Corner.  
Chipman

Dear Uncle Dick:—  
I do not belong to the Corner, but as I see your contest in The Standard, I thought I would try for it. Hope I shall win a prize. I go to school and I am in grade five. I take great interest in reading Uncle Wigley stories. We take The Standard and I read them every week. Well I must close.

Yours truly,  
Gretta Williams.

The First Letter.  
Perry's Point.

Dear Uncle Dick:—  
I am writing to you at a late date as I wish to join in your contest. I would have written before, but did not get The Standard till today. I have never written before in any of your contests. But I am going to try this time.

Yours truly,  
Perry's Point.

#### Who's Who and What's What in the Picture Game and on the Stage—Film Favorites and What They Say and Do.

Lyric—The Isle of Love.  
"And side by side with you for my guide  
We'll leave for the Isle of Love."  
Helen Arthur was left on the Isle of Love by accident, left the late of Love of her own free will and returned to the Isle of Love repentant. This is a play in which Gertrude McCoy makes her first appearance in the role of a tantalizing flirt, and it is a part which plays very well. She is fascinating and pretty, and completely turns the head of Captain Rex (Earl O. Schenck), taking his love away from Nettie (Iva Shuman), the simple fisher maiden. Later in the city with Miss McCoy as a stage favorite there are opportunities for some splendid scenes. Rex comes to a medley from Nettie as (Iva Shuman), the simple fisher maiden. BIRTHDAY GREETINGS.

Uncle Dick wishes many happy birthdays to the following kiddies whose birthdays take place today:  
Miriam Anderson, 10 Sussex;  
Robert Black, Middle Sackville.  
Sydney Williams, 74 Spar Cove Rd.

Getting Four Others.  
Moss Glen, N. B.

Dear Uncle Dick:—  
Am sorry I did not take more pains with my writing. I didn't know until I read your nice long letter on Saturday that it made any difference whether I wrote with pen or pencil, and I did the contest in a hurry too. Am doing the contest this week my very best, and hope I may have better success this time. Will try and send you four new members to the Corner. As I would like your picture very much with best wishes to the Corner.

Your nephew,  
Burpee N. Puddington.

Papa Takes Standard.  
Upper Kent, N. B.

Dear Uncle Dick:—  
I am enclosing the puzzle which I solved. My papa takes The Standard and I enjoy reading the Corner. I would like to join your Corner.

Your niece,  
Inez Lockhart.

Enjoys the Corner.  
Sussex, N. B.

Dear Uncle Dick:—  
I have been reading the Uncle Dick Corner in the Weekly Standard and would like to join it too. I have been trying to make out the contest. Hoping I will get a prize. I am going to school and am in the highest book. I was 13 years old the 3rd of April. I will close with best wishes for the Corner.

From your nephew,  
Humbert Sherwood.

Every Kiddie Has Chance For Prize.  
St. Alma, N. B.

Dear Uncle Dick:—  
I have not as yet joined your club, but I think I will some day. I have solved the proverb, but I do not know as I am not a member, whether I will win or not. Would you please be kind enough to let me know as soon as possible if my entry was correct and if I won the prize.

Yours truly,  
Hazel Reid.

Enjoys the Corner.  
Chipman

Dear Uncle Dick:—  
I do not belong to the Corner, but as I see your contest in The Standard, I thought I would try for it. Hope I shall win a prize. I go to school and I am in grade five. I take great interest in reading Uncle Wigley stories. We take The Standard and I read them every week. Well I must close.

Yours truly,  
Gretta Williams.

The First Letter.  
Perry's Point.

Dear Uncle Dick:—  
I am writing to you at a late date as I wish to join in your contest. I would have written before, but did not get The Standard till today. I have never written before in any of your contests. But I am going to try this time.

Yours truly,  
Perry's Point.

Not All Suited For Movies.  
"I would like to throttle the men who advertise that they can make movie stars out of grocery clerks and that it is only a matter of a few days of study on the mere details of coiffuring before the screen—and then the student is ready to cause Mary Pickford, Marjorie Clark, Pauline Frederick and a host of other stars to tremble in their respective shoes. The worst of it is that thousands of weak-minded people believe that sort of thing. The vast majority of those who apply to us have nothing but colossal egotism behind their claims to consideration."  
ALICE FAIRWEATHER.

white lilies and flags, Rev. A. Pirthing the nuptial knot. Mrs. Harry Brown rendered suitable music during the ceremony. The ushers were Messrs. Everett Bateman and Harry Brown. After the ceremony the bride party motored to the home of the bride, where a sumptuous supper was served to the relatives and immediate friends of the contracting parties. A large number of presents consisting of cut glass, silver and linens, showed the esteem in which the bride was held. The groom's present was a silver tea service to the bride. To the flower girls, gold rings and the ornamental sunburst of pearls. The happy couple left on the maritime express for a trip to Montreal and other points of interest. The bride's going-away gown was sand colored gabardine cloth with coral, facings and black chiffon hat trimmed with coral flowers. On their return they will reside in Nelson. Among the out of town guests to the wedding were Mrs. K. Bateman, Montreal; Mrs. M. Maurer, Boston; Mr. and Mrs. Henry Yve, Moncton; and Mr. and Mrs. Lyman McKenzie, Campbellton.

When the blood becomes impure the first symptoms manifesting themselves are a breaking out of boils of various sorts of bad blood troubles, such as boils, pimples, abscesses, ulcers, etc.

How many times have you met a friend with a handkerchief tied around his neck, and have asked him: "What is the matter with you?" "Oh! I have a boil on the back of my neck; I guess I will have to take something for my blood."

The best blood cleansing remedy on the market today is Burdock Blood Bitters, and the speediest and most thorough method of expelling all the useless and corrupt matter from the blood is to use this old and well tried remedy that has been on the market for the past forty years.

Mr. W. E. Cockerill, Golden, B. C., writes: "I was troubled with boils all over my body, and my blood was very bad. I tried all kinds of medicines and salves, but got no relief. I had to quit work, and could not stoop to do anything. My boss told me to use Burdock Blood Bitters, after I had told him I had tried nearly everything else. I got one bottle of B.B.B., and before I had finished it the boils were all gone. It is the best blood cleanser I have ever taken. I have had several others, but was suffering with boils, and they all ever took me. I am forty-seven years of age, but I feel like sixteen since I got rid of the boils."

HOW KING RECEIVED NEWS OF KITCHENER'S DEATH

Arthur E. Partridge ("Dean") Was Standing Near His Majesty When Tidings of Tragedy Came—Interesting Letter from Well-Known Newspaper Man Now in British Aviation Service.

A most interesting letter was received yesterday by a member of the Standard staff from Arthur Partridge, a former St. John newspaper man, but now an officer connected with the Royal Naval Air Station at Portsmouth, England.

Mr. Partridge also graphically tells that he was close to His Majesty King George when the latter received the first news of Earl Kitchener's death.

"We are quite a Canadian colony here at present; seven of us. For some reason the Dominion men take very kindly to flying and there is not one of them I have met who is not a good pilot or on the high road to becoming a good one.

"Between these they sandwich instruction in five arms, sights of various description and the ordinary varieties of high explosives and aerial bombs, how to arm them and fit them on their machines. There are also semaphore and Morse signalling to become familiar with, the elements of wireless telegraphy and various codes to be committed to memory.

"My own personal experience with about fifty pilots under instruction is that the Canadians are just a little keener than others, even the Australians. They are perhaps a little slower than native born English boys in taking command of men, but once they feel they have solid foundation under them they make as good officers as could be wished for.

"On Tuesday when the King visited us our chaps were the first ones sent to the front.

SENSATIONAL ACCIDENT AT ROTHESAY YESTERDAY

An accident happened at Rothesay yesterday morning which might easily have terminated fatally. Miss Greta Gray, a teacher in the Alexandra School and a fellow teacher had spent Saturday and Sunday at Rothesay, and being anxious to get to their school, decided to come to the city by the Halifax express.

While standing there after the train had started to move he saw two young ladies rush round the corner of the station on to the platform, and one of them, Miss Gray, had a suitcase in her right hand. By that time the train was moving quite rapidly, and as she caught hold of the rail with her left hand the momentum of the train threw her off her balance and she fell between the train and the platform.

Immediately the last car had passed Mr. Ellis made his way to the track expecting to see a mangled corpse, but, fortunately, Miss Gray, while badly cut and bruised, was alive and conscious, and Mr. Ellis said he never saw a more plucky person. Her arm was bent back behind her and broken, and when she was picked up, she asked where her arm was and was glad to learn that it was still attached to her body, as when she did not see it she thought it was taken off.

Dr. Peters, of Rothesay, was called and administered first aid, and she was brought to the city on the next train, and Dr. W. F. Roberts called, who recommended her removal to the hospital, where an X-ray examination was made to determine the extent of the injuries to the arm and limb. It is understood that the X-ray showed that one bone in the leg was broken as well as the arm.

FIRST WORK GOING ON ON VALLEY LINE

A. R. C. Clark & Son Have Made Start on Trestle Over the Nerepis—A Difficult Piece of Work.

Messrs. Kennedy & McDonald, who have the contract for the construction of this end of the Valley Railway, have sublet the contract for the trestle over the Nerepis Valley to A. R. C. Clark & Son, who made a start on the work yesterday. This trestle, which is to be 2,700 feet long, is rather a difficult piece of work, but Messrs. Clark & Son are confident that they can carry the work through to a successful finish.

LETTERS FROM THE PKE BOYS; ALL IN KHAKI

Mrs. J. Wesley Pike, of West St. John, Has Three Sons Fighting for Empire.

Mrs. J. Wesley Pike of Queen St. West St. John, yesterday received letters from her three sons who are overseas fighting for their King and country. Harry, who is with the heavy artillery in France, and Joseph, who was drafted from the 55th Battalion to the Royal Canadian Regiment, are on the firing line. The two brothers saw service in the South African war, and when there was a call for recruits under Major Magee, and with the exception of a few months in hospital has been through all the hard fighting. Joseph went overseas with the 55th and shortly after arriving in England was drafted to the R. C. R.

"I am glad to say that I am busy and fairly contented, get a fair amount of flying and am on friendly terms with all. Yours respectfully, 'ARTHUR.'"

CAPT. G. E. LOGAN WILL BE ADJUTANT OF 237TH

Well Known Staff Officer Leaves Tonight for Halifax to Report to Overseas Battalion.

Captain G. Earle Logan will leave this evening for Halifax to take up his duties as adjutant of the 237th Ammunition Battalion. He is being congratulated on all sides on receiving the appointment.

Captain Logan has been for some time deputy-general staff officer of the New Brunswick command, and is in every way well fitted to take over the new duties assigned to him. He has a wide circle of friends who are pleased at his promotion.

Captain Logan's only brother is a sergeant at the front with the Divisional Ammunition Column, and his only brother-in-law is with the 140th Canadian Expeditionary Force. Since war broke out he has been trying to get overseas to "do his bit" in the firing lines, and is now delighted that his desire is to be gratified.

White Wash Skirts. Poplin, Bedford Cord and Pique are popular materials for white wash skirts this season. F. A. Dykeman & Co. are showing a very large range at prices ranging from \$1.00 to \$3.50 each. One line in particular is a very great bargain. It is made from fine poplin and buttoned from top to bottom in front with nice pearl buttons. The pique skirts which they are selling at \$1.35 have a distinguished drape and are made from an extra fine quality of pique. They come in all sizes.
