CALLS BEEF TRUST A BOON TO PUBLIC

Amazing Defence of Packers

Counsel for Indicted Men Claim They Make Small Profits

Didn't Combine to Restrict Competition or Raise Prices But Merely to Prevent an Over-Supply of Perishable Products—Says They Have No Monopoly.

Chicago, Dec. 21.—Denying every material allegation made by the government against the ten Chicago packers on trial before United States District Judge Cameron for violation of the criminal provisions of the Sherman law, Attorney Geo. T. Buckingham today outlined the case of the defendants in an opening statement to the jury.

Attorney Buckingham described in detail the method of buying, selling and accounting used by the packers and declared that the unusual nature of the business made some such system absolutely necessary.

In outlining the packers' defence, Attorney Buckingham made salient statements in reply to the charges of the government, among which were:

That the business operations of the packers in reply constitute any undue and unreasonable restraint of trade under the Sherman law, as recently interpreted by the United States Supreme Court in the case of the Standard Oil Company and the American Tobacco Company.

That the public had been benefited rather than injured by the operations of the packers.

That the government's proof of the alleged combination must be confined to the three-year period subsequent to 1907.

That the profits of the packers do not exceed 10 per cent on the actual money invested.

That the profit on the sales of meat do not exceed three per cent.

That no agreement on the purchase price of cattle or on the sale of meat ever existed among the defendants.

That the weekly meetings of packers, held prior to 1907, were for the sole purpose of preventing overstocking of the market with perishable fresh meat, and not to fix prices or suppress competition.

That there are nearly 300 independent concerns in local competition with the indicted packers.

That the defendants supply less than 70 per cent of the meat used in this country.

That the high cost of meat is the result of a variety of economic causes and not due to any combination among packers.

That the National Packing Company was organized in good faith to transact a legitimate business and not to perpetuate any system for the fixing of prices of the control of the product.

Woodstock, N. B., Dec. 21.—(Special)—At a meeting of the parishioners of St. Luke's church, last night, a communication was received from Rev. G. H. E. MacDonald, now in California, regretting that he cannot accept the call tendered him by the church in succession to Rev. H. G. Alder. The question will be further considered on Jan. 2.

Rev. A. C. Berrie, formerly of Albert county, who has been preaching in Millbrook, the past four years, has received a call and will enter into the pastorate of the United Baptist church here the first Sunday in January.

MANY TOWNS WANT TO BE STARTING PLACE OF HUDSON BAY ROAD

Ottawa, Dec. 21.—The announcement that the government will change the starting point of the Hudson Bay Railway from Le Pas to Prince Albert, has brought a flood of new competitors out. Regina and the Interior have put in applications for the honor and have indicated to the minister of railways that they propose to press their claims for the road in the most vigorous fashion.

RICHESON NOT OUT OF DANGER

Doctors Say He Will Recover—If Blood Poisoning Doesn't Occur

NO POSTPONEMENT Government Has Theological Student, Wanted as a Witness, Arrested So as to Ensure His Appearance for the Trial January 15.

Canadian Press.
Boston, Dec. 21.—Keeps under opiates throughout the day to deaden the pain from his self-inflicted wounds, Rev. Clarence V. T. Richeson was unable to converse with his counsel William A. Morse in his cell at the Charles street jail today, so that his silence regarding his act of yesterday morning remains unbroken.

Physicians held out encouragement as to the prisoner's early recovery, declaring that barring the danger of sepsis, which was a possibility, he would be physically able to appear in court on Jan. 15, when he is to stand trial on the charge of the murder of Avis Linnell, the Hyannis music pupil who died from cyanide of potassium poisoning.

Mr. Morse, one of Richeson's attorneys, contends that the trial should be postponed, saying that yesterday's incident must cause delay inasmuch as Richeson will not be physically fit to stand repeated interviews with counsel in preparation for the trial.

That the state intends to adhere to its determination to call the case on Jan. 15 was further shown today when one of the witnesses for the prosecution was placed under arrest and taken before Judge Chase on the superior criminal bench, and held in \$30 to appear on Jan. 15. The witness was Charles S. Pierce, of Sulphur Springs, Texas, a student at the Newton Theological Seminary which Richeson attended.

It is understood that the state feared Pierce would go home for the holidays and might not return in time to appear as a witness.

NEW SURVEY FOR GIBSON & MINTO ROAD ORDERED

Protest from George A. Perley, M. P., Has Desired Effect—York - Sunbury - Queens Teachers' Institute in Session.

Special to The Telegraph.
Fredericton, N. B., Dec. 21.—The Teachers' Institute of York, Sunbury and Queens counties, held its first session here today.

This afternoon an interesting paper on English Composition was read by Miss Ella A. Thorne, of the Fredericton High School staff. A discussion on the paper ensued, part being taken by Dr. H. V. B. Bridges, Miss Lynda, A. S. McFarlane and George A. Inch, of Provincial Normal School staff, and Dr. B. C. Foster, principal of the Fredericton High School.

Prof. F. W. Harrison, of Fredericton, followed with a demonstration of the method of teaching music, using a class of pupils from Grade V in the illustration.

Inspector Steves, of Sussex, who was to give a paper today on Nature Leaders, arrived here this evening and will give it tomorrow. The election of officers also takes place tomorrow, the institute closing in the afternoon.

On account of a protest made by George A. Perley, of Marguerville, M. P., for Sunbury, a survey will be made for an alternative route to the Gibson & Minto Railway to be situated so as to include Lakeville Corner. The alternative route will be some miles south of that now surveyed. The new survey will begin next week.

The stockholders of the Atlantic Realty & Improvement Company met yesterday and elected the old board as follows:—Hon. L. J. Tweedie, president; A. J. Greaney, vice-president; J. J. P. Winslow, secretary; E. E. Winslow, treasurer; James Robinson and J. J. McCaffrey. The company owns real estate in Prince Rupert and has had a very successful year.

J. J. McCaffrey was made the recipient of a gratuity of \$1,000 in appreciation of his services in organizing the company. The services of W. Stewart Benson were retained as agent.

Miss Frederica Hathaway, of St. John West, has been appointed to the staff of St. Mary's school in succession to Miss Edith Edgewood, resigned.

\$2,000; Edgar E. Hewson, \$1,000; Rev. Hamilton Wigle, \$500.

SAY COURT LAY BAY WORK IS NOW SURE

Government Decides to Give Norton Griffiths' Company Contract at \$7,700,000

Liberal Plans Adopted in Toto—Not Yet Signed, But Certain to Be in the Near Future, Say Ottawa Advises—Liberals Who Planned to Bring Grand Trunk Pacific Here and Arranged Whole Plan Justified by Events.

Special to The Telegraph.
Ottawa, Dec. 21.—The plans of the Liberal government for the development of Courtenay Bay at St. John are to be carried out.

After a thorough investigation the Conservatives have found that the plans, which were prepared under the direction of Hon. Dr. Dugdale, were the best that could be devised, and that the tenders which were received from eight of the leading construction firms of England, gave such an ample amount of sound construction as to warrant the government in taking action and awarding the contract to the lowest.

This is the Norton Griffiths Company, which put in a bid to do the work for \$7,700,000.

Though it is understood that the contract has not yet been finally signed, there seems to be little doubt that it will be written a few days, and that the plan of Norton Griffiths will be at work in Courtenay Bay by spring, carrying out the plans for the harbor development, which are familiar to the people of St. John.

Great Works Provided For.

The contract will provide for the construction of a great breakwater on the eastern side of the bay to protect it from the sweep of seas developed by a southerly wind, for the dredging of an entrance

ANOTHER BIG BANK MERGER

Canadian Bank of Commerce and Eastern Townships Unite

ENORMOUS ASSETS
Amalgamation Provides for Retention of Branches of Both Concerns and All the Employees—Deal Completed Yesterday.

Canadian Press.
Montreal, Dec. 20.—The biggest financial deal of the year was completed this morning in the offices of the Eastern Townships Bank, when the directors of that institution ratified an agreement whereby the Eastern Townships Bank merges its interests with those of the Canadian Bank of Commerce, forming a new financial institution which will be known as the Canadian Bank of Commerce with which incorporated the Eastern Townships Bank.

The amalgamation has been arranged on an equitable basis, two shares of commerce stock, par value \$50, being exchanged for each share of E. T. stock with a par value of \$100.

Operations toward amalgamation have extended over a long period but the news had been well concealed until the last few days when rumors began to get about which forced a speedy decision by the directors. The climax came this morning when in consequence of the ratification of the merger, which were floating around Eastern Townships stock took a jump on the local exchange, of seventeen points, going to 270.

Will Retain All the Offices.
The terms of amalgamation provide for the retention of all the Eastern Townships and Commerce offices now in existence, and since the Eastern Townships Bank has a wide connection in Eastern Canada, while the Bank of Commerce branches cover the whole of the west to the Pacific Coast, Maritime Provinces and the Yukon, it will be seen that the amalgamation gives the new financial institution a very wide range.

The staffs of both banks will be retained in full, and the Eastern Townships employees will be allowed to share the advantages offered by the Commerce operation scheme. The new bank will have a total of some 300 branches and will also have direct representation in London, New York, San Francisco and Mexico City.

One of the most important features of the amalgamation is in the arrangement of the directors. The Eastern Townships directors are retained as the majority directors, while a certain number of the directors will be placed as full directors on the new board to represent the Eastern Townships shareholders.

Enormous Assets.
The new bank will have aggregate assets over \$200,000,000, and its capital will be total \$15,000,000, and it will have a reserve of \$12,500,000.

The directors of the amalgamation corporation are as follows:—

Eastern Townships Bank—William F. C. Wells, president; Sherbrooke: S. H. C. Minor, vice-president; Grandby: Gardiner Stevens, Waterloo; C. H. Kathan, Rock Island; J. S. Mitchell, Ontario; C. G. Filmer, Victoria (B. C.); O. A. Robertson, Minneapolis (Minn.); Geo. G. Foster, K. C. Montreal; C. Howard, Sherbrooke; E. N. McGee, Sherbrooke, and Chas. W. Colby, Ph.D., Montreal.

Bank of Commerce—Sir Edmund Byron Walker, G.V.O., L.L.D., D.C.L., president; Z. A. Lash, K.C., vice-president; Hon. Geo. A. Cox, John Hoopes, K. C., L.L.D., Robert Kilgour, J. W. Flavelle, L.L.D., A. Kingman, Hon. E. Melvin Jones, Hon. W. O. Edwards, E. R. Wood, Hon. J. M. Gibson, K.C., L.L.D., Wm. McMaster, Robt. Stewart, G. F. Galit.

ONTARIO HOTEL BARS MUST CLOSE CHRISTMAS DAY

Toronto, Dec. 21.—For the first time the new law compelling the hotel bars of the city without one of her life boats and with two brass men aboard as evidence of a gigantic wave that deluged her bow last Sunday. The wave boarded the vessel during the height of a storm, smashed the life boat, flooded the cabin of William P. Kenney, an editor of the Boston Globe, hurling him against the walls, and rolled Charles Weaver, the wireless operator along the deck and down the companion way.

AMHERST MEN GIVE GENEROUSLY TO MT. ALLISON FUND

Sackville, N. B., Dec. 21.—(Special)—As a result of a visit to Amherst today, Rev. Dr. Borden, president of Mount Allison University, is able to report the following subscriptions to increase the endowment fund of Mount Allison: Harvey Brown, \$2,000; Edgar E. Hewson, \$1,000; Rev. Hamilton Wigle, \$500.

BOY, HEIR TO MILLIONS FOUND, AFTER LONG HUNT

George Lindsay Had Been Placed by His Mother in Temple of "Sun-Worshippers," Chicago.

Chicago, Dec. 21.—How George Lindsay, twelve years old and sole heir to the millions of late W. R. Lindsay of Philadelphia had been removed from the temple of a "Sun-Worshippers" cult, and placed under the charge of the justice court, at the request of relatives was revealed here today. Charles R. Lindsay, uncle of the boy is responsible for the action.

After a nation-wide search for the boy, one of the agents made by the boys' uncle is that the boy is now at the "Temple" in the employ of Lindsay who attempted to take the boy away were attacked by worshippers. It is said the boy's mother, who placed him in the "Temple" is said to be known among the cult as "Valdiah."

One of the agents made by the boys' uncle is that the boy is now at the "Temple" in the employ of Lindsay who attempted to take the boy away were attacked by worshippers. It is said the boy's mother, who placed him in the "Temple" is said to be known among the cult as "Valdiah."

WOMAN, PICKPOCKET SUSPECT, HAD MONEY GALORE

New York, Dec. 21.—In the skirt of a woman arrested this afternoon on the charge of pocket-picking was found concealed \$1,481 in bills of small denominations, three gold watches, a bracelet, four wedding rings and six diamond rings.

She was Mrs. Lena Stanton, living on the upper east side, and the magistrate held her in \$2,000 bail on a charge of larceny from the person. She was arrested after a struggle with a woman on Park avenue, who accused her of robbery.

DOMINION FRUIT GROWERS TO HOLD CONVENTION AT OTTAWA

Ottawa, Dec. 21.—Arrangements are being completed by Hon. Martin Barrill, minister of agriculture, for the holding of a fruit convention at Ottawa early in the new year. The gathering will be a large one and will be representative of the fruit growing interests of all Canada, the various associations and administrative bureaus.

BRITISH JEWS WANTS ANGLLO-RUSSIAN TREATY ABROGATED

London, Dec. 21.—The Jewish Chronicle says that the leading Jewish institutions here have decided to urge the abrogation of the Anglo-Russian treaty, which discriminates against the English Jews.

OUTLOOK IN CHINA GROWS SERIOUS

HAS UNLIMITED SUPPLY OF POTASH

United States is Freed from Dependency on Germany for Its Needs

A GREAT DISCOVERY
Seaweed and Kelp on Pacific Coast Will Afford Fertilizer in Vast Quantities—Bye-products of Its Manufacture of Great Value.

Washington, Dec. 21.—The United States will not have to depend on Germany much longer for its potash with which to make fertilizer, Secretary of Agriculture Wilson stated today. In the near future the United States should be able not only to supply its own needs but also to export a considerable amount of potash, he said.

The principal source of American potash, the experts of the agricultural department, report will be in the kelp or sea weed of the Pacific coast. The plant extracts potash salts from sea water and from 25 to 35 per cent of its weight is potassium chloride, the Pacific coast should yield annually about 1,000,000 tons, worth \$40,000,000.

In addition to the potash, kelp contains many other by-products which may "more than pay the manufacturing expenses, leaving the potassium chloride free of cost."

The investigators report cattle food, glue, shellac, paper and even candy can be made from the plant.

If properly harvested and protected the Pacific kelp grows, it is said, should yield annual harvests indefinitely, and along the southern coast, it is possible that two crops a year may be obtained.

HUNTING FOR EXPERT TO MANAGE THE I. C. R.

Report That C. P. R. Engineer Gutelius Has Been Engaged Not Confirmed—New Billet "Good Road" Campbell Likely.

Special to The Telegraph.
Ottawa, Dec. 21.—The report published in Montreal today to the effect that Chief Engineer Gutelius of the C. P. R. was to be appointed departmental chief of the railways and canal department at a salary of \$20,000 per year, cannot be confirmed here.

Hon. Frank Cochrane is looking around for an expert engineer and railway man to bring into the department to take charge of the operations of the government railways and canals, but it is understood no one has yet been selected. The present deputy minister of the department, A. W. Campbell, may be in charge of the new branch to be established in connection with the government's good roads scheme. Mr. Campbell is especially fitted by his experience in road construction under the Ontario government to organize this new department of the federal government.

NEW SCOTIA APPLE SHIPMENTS NEARLY 1,000,000 BARRELS

Nearly 800,000 Shipped by Liners at Halifax—About Half the Crop Marketed.

Special to The Telegraph.
Halifax, N. S., Dec. 21.—The shipments of apples from Nova Scotia, so far this season, aggregate 921,702 barrels, 1,881 half barrels and 9,907 boxes. This is estimated to be only half the crop. Of this quantity 700,128 barrels have been forwarded through the port of Halifax, 21,574 via the Bay of Fundy and 100,000 barrels by rail to western Canada. The Halifax shipments were:

London	432,333
Liverpool	151,223
Glasgow	134,281
Hamburg	133,673
Bristol	134,490
Newfoundland	3,730
South Africa	2,673
Manchester	3,701
West Indies	2,976
Newfoundland by Red Cross line	9,907
Total	700,128
From Annapolis by steamer to Hull, 17,174; to St. John by schooner (estimated)	14,900

STILL NO WORD OF MISSING FAIRVILLE MAN

Constable Stinson Makes Systematic Search, But in Vain --T. H. Reed Disappeared a Week Ago -- May Have Fallen Over Wharf.

Although Police Constable Stinson, of Fairville, spent yesterday afternoon in a systematic search for trace of T. Hanford Reed, of Fairville, who disappeared mysteriously while visiting the city Tuesday last, no tidings of him were secured and his aged parents, Mr. and Mrs. Thomas Reed, of Prospect street, spent another anxious night.

The missing man was last seen in Water street at 4 o'clock Tuesday afternoon by a man named White, who says that Reed had taken a drink but was not acting peculiarly, and said nothing about going away.

He had only \$2.50 with him when he left home, having given his mother \$17.50 before going out, and for this reason it is thought he had no intention of leaving the city.

When Reed disappeared he wore a dark suit with hard hat and no overcoat. He is thirty-seven years of age, five feet six inches in height, and has a sandy mustache. He was engaged in the coal business in Fairville with his father, and as a much respected young man, there seems no other explanation of his disappearance, it is feared that the missing man fell off one of the wharves below Water street.

Constable Stinson came to the city yesterday and endeavored to secure some clue to the whereabouts of young Reed, but his efforts were fruitless, and up to a late hour last evening no news was received.

BOLD ROBBERY ON NORTH SHORE

W. S. Loggie & Co.'s Office at Tracadie Broken Into, Safe Carried Out and Blown Open—Some Chatham Burglaries

Chatham, N. B., Dec. 18.—The branch of the W. S. Loggie Co., Tracadie was broken into on Saturday night. The robbers took the safe out on the ice in the river where it was smashed open and rifled of its contents. W. S. Loggie, head of the firm, said this morning that they had not lost particularly but they knew there was not a large amount of money and some jewelry at the time of the robbery. The thieves gained admittance by boring holes around the lock of the door and oddily lifting this out from its place. There are said to be no clues.

Some thieves or a thief broke into Kiersey's house in Pleasant street on Friday night and stole a watch and some jewelry. Subsequently the robe was found in a field nearby and the robbers were traced out on the ice. It was thought they might have got the robe in a fishing net under the ice and the one to which their tracks were hauled in but no fur was discovered.

McPherson or Perry, who was arrested in Fredericton on Friday morning was brought back here on Saturday night and is now in jail awaiting a hearing. He boarded the train at 10 o'clock on Saturday and got up early and went to Fredericton. Theft of furs and clothing is charged.

James Lynch, a well known Nelson citizen died on Saturday. He had gone to the woods and was working on one of his little camps on the Little River. On Friday night he was taken ill and on Saturday his companions started to bring him out to receive medical treatment. They had nearly proceeded two miles before he passed away. He was fifty-one years of age and saved his wife and family.

A young lad named the Stevens, belonging up river, said to have passed away suddenly on Saturday from pneumonia. He also had been in the woods.

NEW SYSTEM FOR LIGHTING BUOYS

A new system for lighting buoys is to be adopted here and in this connection Martin Bentzen, representing the American Gas Accumulator Company, of Philadelphia, is in the city. The system to be installed here is very extensively used in the United States, South America and elsewhere.

Speaking to a reporter for The Telegraph, Mr. Bentzen said that he was not in a position to say what advantages the new system would have over the old since he was not very familiar with the latter. Wherever used, however, the new system had given great satisfaction and he felt sure that equally good results would be received here. One excellent feature about the new system, he said, is the fact that the gas is "ready made" before installed. The work of installation he expected would be started by the latter part of the week. He is registered at the Royal.

GAME WAS SEIZED

An important seizure of game was made during the last week and the owner will suffer not only the loss of the game, which was valued at upwards of \$200, but will also face the possibility of having to pay some pretty heavy fines.

The seizure involved a large number of cartridges and ducks which had been placed in cold storage with the apparent intention of exporting them. As this is the close season and also the time of the isolation of the laws regarding the commercial handling of game, the matter, it is said, is liable to be pretty serious for the owner, who is said to be a prominent city merchant.

The information regarding the presence of the birds came in a round about manner, and it is understood that the efforts of the Fish, Forest and Game Protection Association were called to check the isolation of the laws.

FROM ALL OVER THE MARITIME PROVINCES

FREDERICTON

Fredericton, Dec. 23.—(Special)—Automobile owners of the city and vicinity are to meet on Wednesday evening to organize an association for York county.

ST. STEPHEN

St. Stephen, N. B., Dec. 23.—A telegram was received in Calais this afternoon announcing that the body of Captain Frank Britt, who was drowned near New Haven a few weeks ago, when his schooner, the "Which Hazel," went ashore, had been recovered from the sea. The body is being sent to Calais, and will be interred on Friday at the Calais cemetery.

HOPEWELL HILL

Hopewell Hill, Dec. 23.—The funeral of Mrs. J. P. Lunn, of Albert, took place from her late residence on Friday, and was largely attended. Rev. Mr. Kirby, pastor of the Methodist church, conducted the services, interment being in the new cemetery at this place.

THE RANGE

The Range, Dec. 18.—The death occurred at her home, Coal Mines, on Friday of Mrs. Alex. McAllister. Besides a son and one daughter, interment was made to-day in Red Bank cemetery, Chipman.

SALISBURY

Salisbury, N. B., Dec. 18.—George Allison, a well known commercial traveler, and his bride arrived in Salisbury from Sydney (N. S.), on Saturday, and are the guests of Mr. Triton's mother.

REXTON

Rexton, Dec. 20.—Mr. and Mrs. Ira B. Brown and little son of Ben Fair (Sask.), are the guests of Mrs. Brown's parents, Mr. and Mrs. Alex. Fraser, jr.

BATH

Bath, N. B., Dec. 18.—The St. John river here is completely open, and Rev. Kenneth McLennan attended his appointments at Winklow yesterday crossing here in a canoe.

WHITE'S COVE

White's Cove, Dec. 18.—The Grand Lake, which at this time of the year is usually frozen quite solidly, shows no signs of freezing over.

WILKESHAIRE

Wilkeshaire, Dec. 20.—(Special)—The city schools closed today for the Christmas vacation, public closing exercises were held in the morning.

MONCTON

Moncton, N. B., Dec. 20.—(Special)—The fire which destroyed the standing of the high school entrance examination, was presented to Miss Mary Chestnut by Chief Superintendent Carter.

NEWCASTLE

Newcastle, Dec. 19.—The body of the late James Lynch, who died on his way home from a lumber camp on the Little River, was interred at Nelson this morning.

MONCTON

Moncton, N. B., Dec. 20.—(Special)—The fire which destroyed the standing of the high school entrance examination, was presented to Miss Mary Chestnut by Chief Superintendent Carter.

MONCTON

Moncton, N. B., Dec. 20.—(Special)—The fire which destroyed the standing of the high school entrance examination, was presented to Miss Mary Chestnut by Chief Superintendent Carter.

UNIT OF REPRESENTATION IN PARLIAMENT 30,852

YARMOUTH HAS A HUSTLING MAYOR

LOCK THEMSELVES IN COUNCIL CHAMBER

Details of Census, Made Public, Show Canada's Population is 7,192,338

Many Maritime Province Constituencies Lost Heavily in Last Decade - Kings-Albert Has Over 2,000 Less People Than Ten Years Ago - Enormous Gains in the West and Quebec - Nearly Half a Million More Males Than Females in the Dominion.

Yarmouth Has a Hustling Mayor

He Never Loses an Opportunity of Booming the Town's Advantages

A GOOD PLACE TO LIVE

Industries are Varied and Shipping Facilities Good, But Not So Good as the People Wish - Much Freight Being Sent to Boston.

Lock Themselves in Council Chamber

Questions of Policy Left Unconsidered While Siege is On

General Belief at Ottawa That Government Will Meet Parliament Jan. 10 With No Legislative Programme Mapped Out.

tion. The artificiality of property was often mistaken for the real thing. Instead of 8,000,000 people the recent census showed that the country was shy three quarters of a million. This meant that what the financiers of the country want to London and offered the guarantee of the government as security they were not in as good a position as if the population had been what it was expected and it was an economic fact that big issues of Canadian bonds in London would not be as freely taken as formerly.

Yarmouth, N. S., Dec. 18.—An unusually large amount of freight is being handled by the Yarmouth-Boston boats this month, and some complaints are being made that the twice-a-week service is inadequate, and that freight is accumulating in the company's sheds at this port.

At Ottawa, Dec. 19.—According to present indications the government will have to meet parliament, when it reassembles, on January 10, with very little business ready to go on with.

Announcement Made in Answer to Premier Fleming's Suggestion at Banquet Last Night to Arthur Hawkes—Latter Speaks of Possibilities Here, and Says We Must Have More People.

Co-operation and optimism were the keynote of the addresses at the banquet given by the council of the board of trade to Premier Fleming, Arthur Hawkes, special immigration commissioner, members of the legislature and other guests at the Union Club last evening. Concrete suggestions for the encouragement of immigration into New Brunswick were made and one of them was instantly acted upon.

Unit of Representation, 30,852

The figures by constituencies show the necessity of a redistribution. The unit of representation according to the population is 30,852. It will be seen that as a general rule the western constituencies are considerably above this figure, while considerably over half of the population in eastern Canada are below it.

NOVEL SCHEME TO SWINDLE CLERGY

New York Couple Give Bogus Checks as Wedding Fee and Receive in Three Weeks.

New York, Dec. 19.—A man and a woman who have been married at least three times within the last three weeks, have evolved a new method of obtaining money under false pretenses, the police claim, and as a result three clergymen or more have been swindled out of \$10 each.

Mr. Hawkes—"Then your opportunity is double. If I were in the permanent service of the government I would fill the vacant lands for you. I hear nothing to prevent you buying these lands and bringing in people in whose blood there has run for generations the thrilling ambition to own lands and homes of their own. It will be a good six per cent investment for you and it will be better for the province than a four per cent investment in railways."

Provinces and Districts

Province or District	Male	Female	Total
Canada	3,805,360	3,376,977	7,192,338

WANT ANNEXATION TO MANITOBA

Kenora, Ont., Board of Board of Trade Pass Resolution That Section West of Fort William Should Join Prairie Province.

Kenora, Ont., Dec. 19.—Business men of this section have cutting off a section of the county west of Fort William and adding it to Manitoba. The culmination of long agitation resulted last night in the following resolution by the board of trade:

Several speakers spoke very plainly of discrimination against eastern Canada in the propaganda of the federal government in Europe and urged upon Mr. Hawkes, special immigration commissioner, to take charge of immigration to the west with a western man in charge of the prairie development. The gathering was a most enjoyable one in every way and the addresses were heard with real enjoyment.

GIRL DANCED TILL SHE DIED

Popular Long Island Belle Used Relay of Partners Till She Dropped in the Middle of a Waltz.

Roosevelt, Long Island, Dec. 19.—Too much popularity caused the death of Miss Caroline Carpenter, the belle of Roosevelt, at a dance here last night. To favor all the young men who clustered about her, she "relayed" her dances as she constantly went on the floor. When the dance was at its height just after midnight, she fell in the middle of a waltz and died a few minutes later without regaining consciousness.

Mr. Fleming went on to say that the provincial government is prepared to deal with the subject of immigration just as generously as it can afford and would have a concrete proposition to put up to Mr. Hawkes at a conference to be held later in the evening.

BURNS RECEIVES HIS REWARD

Los Angeles Authorities Pay Detective \$5,000 for Hunting Down McNamara

Los Angeles, Cal., Dec. 19.—A county warrant for \$5,000 was drawn today in favor of William J. Burns. This is the first of the rewards to be paid for the capture and conviction of the McNamara brothers. As far as the county is concerned, according to District Attorney Fredericks, no other rewards will be paid.

HEROINE REWARDED FOR SAVING WOMAN'S LIFE AT POINT DU CHENE

Canadian Royal Humane Society Presents Medal to Schenectady Lady.

Schenectady, Dec. 18.—Henry W. Derling, treasurer of the General Electric Company, acting in behalf of the Canadian Royal Humane Society today presented a medal to Miss Sarah Lane, a prominent Schenectady woman, in recognition of her heroism on August 8 last when she saved Miss Edna Knapp from drowning at Point du Chene, New Brunswick.

Mr. Hawkes first spoke of the importance of having the settlers on land and the necessity for an increase in population. The exports of St. John had increased in sixteen years, but not the population.

HALIFAX CHURCH CALLS WINDSOR WINNERS

Halifax, Dec. 19.—(Special)—Grace Presbyterian church, Halifax, at a meeting tonight, decided to call Rev. J. W. Crawford of Windsor, to fill the vacancy caused by Rev. J. F. Duxton's removal to Annapolis. It is a coincidence that Mrs. Crawford is a sister of Mrs. Duxton, both being sisters of Professor MacGregor, of the University of Edinburgh.

THEY ALL HAVE 'EM

(Ottawa Journal.)

Victoria (B. C.), a smaller city than Ottawa, has 700 motor cars, and Vancouver has 1,200 cars. A recent estimate of Ottawa, a city much wealthier than either, but 400 cars. What's the matter with the Capital, anyway? Is it that we are more sensible, or only less enterprising than these western cities?

and commercial telegraph operators

John, N. B.

The Semi-Weekly Telegraph is issued every Wednesday and Saturday by The Telegraph Publishing Company, of St. John, a company incorporated by Act of the Legislature of New Brunswick.

Subscription Rates Sent by mail to any address in Canada at One Dollar a year. Sent by mail to any address in United States at Two Dollars a year. All subscriptions must be paid in advance.

Advertising Rates Ordinary commercial advertisements taking the run of the paper, each insertion, \$1.00 per inch. Advertisements of Wants, For Sale, etc., one cent a word for each insertion.

Important Notice All remittances must be sent by post office order or registered letter, and addressed to The Telegraph Publishing Company, St. John.

Authorized Agents The following agents are authorized to canvass and collect for The Semi-Weekly Telegraph, viz: WM. SOMERVILLE, MRS. E. S. MCKOY, W. D. GOUGH.

THE DAILY TELEGRAPH THE SEMI-WEEKLY TELEGRAPH THE EVENING TIMES New Brunswick's Independent Newspapers. These newspapers advocate British connection, honesty in public life, measures for the material progress and moral advancement of our great Dominion.

ST. JOHN, N. B., DECEMBER 23, 1911.

WARLIKE CABLEGRAMS The cables are warlike again. Threats of war in the ordinary view, make better newspaper dispatches than appeals for the preservation of the peace.

BRITAIN'S LITTLE WAR Great Britain has another "little war" on its hands, so little that it makes little noise in the world.

THE FORWARD MOVEMENT St. John set the ball rolling—or rolling at an increased speed—in immigration matters at the dinner given last evening by the council of the Board of Trade.

CANADA AND BRITAIN'S WARS Britain can have no war of importance by which Canada is not affected; and, for the purposes of war Canada is open to attack by Britain's enemy the moment hostilities have begun.

THE PASSING OF ROCKEFELLER The richest man of the world has stepped down from the presidency of Standard Oil. Mr. Rockefeller is a philanthropist in the view of some of his fellow citizens and a

pirate in the view of others. It is curious to observe among the comments elicited by his retirement some tendency to regard his life as a failure—curious because in the United States the mere getting of much money is very commonly regarded as the greatest success.

Mr. Rockefeller has saved enough to keep a wolf from the door, and his declining days will not be harassed by want and woe.

Mr. Rockefeller thus brings the worries of a useful life to a close; a useful life, an extremely useful life.

A useful citizen was John D. Rockefeller, and his services were appreciated by no one less than himself.

The New York Globe contemplates Mr. Rockefeller as one who has gained much money but scant respect.

The richest man in the world, and yet as his career draws near its close it somehow does not seem altogether a glorious and successful one.

There will not soon be another Rockefeller. There will never again be a Standard Oil Company such as the gigantic shape and portent we have known for thirty-five years.

Years ago Mr. Rockefeller began to give his money away. He has received endless and conflicting advice as to what to do with it, and by taking the advice of some he has displeased others.

The whole world learned a few days ago that Britain had been on the verge of war with Germany. Probably that event is safely past, but no man can foretell when another still more dangerous war will arise.

The tariff question in American politics is again to the fore. This most troublesome of all questions refuses to be settled until it is settled right.

Mr. Borden's Nationalist allies refuse to accept these views. Mr. Borden cannot refuse to accept them. Therefore, the Canadian attitude toward defence must remain doubtful until Mr. Borden has conquered his allies, or they have conquered him.

The Liniment that is 101 Years Old. Quick relief for burns, scalds, and stings. Every household should keep on hand the old, reliable JOHNSON'S LINIMENT.

DID RICHESON TRY TO COMMIT SUICIDE? Accused Murderer of Avis Linnell Inflicts Serious Injuries on Himself in Boston Jail—Surgeons Complete Operation and Minister Will Recover—Defence May Apply for Insanity Commission—District Attorney Says Trial Will Begin January 15, the Day Set.

Boston, Dec. 20.—It is generally believed here tonight that Rev. C. V. T. Richeson, who injured himself seriously by attempting to perform a surgical operation on himself in the jail, will not be placed on trial on Jan. 15 for the murder of Miss Linnell. The attorney for the defence has practically decided to apply to the court for a commission to examine Richeson as to his sanity.

Richeson Will Recover. Boston, Dec. 20.—Rev. Clarence V. T. Richeson, accused of the murder of Avis Linnell, cut himself seriously with a piece of tin, early today. It is said that the wound was inflicted in the groin.

A New Brunswick now living in Illinois, who already owns some land in this province and who is planning to buy more, writes: "It is too bad that our people are not more appreciative of their country."

Bring in settlers, by all means; but more important still is the work of keeping New Brunswickers at home. To try to buy their farms from them is one good way, but it does not take it very highly.

Mr. Borden evidently intends to make the civil service wholly Tory and keep it so. The last half of that programme at least is beyond his power.

The Hudson Bay railway is not to be built this year, or next. Conservative newspapers are intimating that a great deal more information is needed about the whole project before construction will be warranted.

A Conservative Journal, forgetting the adage about glass houses, says some Liberals believe in reciprocity and some do not. But it affects to believe that Mr. Borden and Mr. Sam Hughes see eye to eye with Mr. Monk and Mr. Nantel in regard to the tariff.

Mr. Borden's Nationalist allies refuse to accept these views. Mr. Borden cannot refuse to accept them. Therefore, the Canadian attitude toward defence must remain doubtful until Mr. Borden has conquered his allies, or they have conquered him.

INTELLIGENT POULTRY FALL AND WINTER. Difficult to Get Best Results. During these two seasons, new-laid eggs contain great increase in the number of embryos.

FEAR EPIDEMIC OF CEREBRO-SPINAL MENINGITIS. Sudden Deaths of North Shore Lumbermen Lead Authorities to Believe Camp is Infected.

Chatham, N. B., Dec. 20.—Some later developments in the circumstances surrounding the death of James camp at Little River, thirty-seven miles above Newcastle, seem to point to the fact that this country is threatened with an outbreak of cerebro-spinal meningitis.

INTERESTING AGRICULTURAL FEATURES FOR OUR READERS

POULTRY FALL AND WINTER EGGS

Difficult to Get Best Results at These Seasons, But Can Be Done.

During the two seasons the demand for new-laid eggs continues to improve. One would be inclined to think, with the great increase in the number of poultry-keepers, that the demand would fall off a little bit, but this is not the case; so far as the public is concerned, the demand for fresh-laid eggs which are above suspicion will they be prepared to pay good prices. At this time of the year few hens are laid through the winter, and it is to be expected that the supply of eggs will be very scanty. It is quite surprising, however, that the price of eggs is so high, and this is due to the fact that the supply of eggs is so small. It is not a matter of whether it is the first or last week of the season, but it is a matter of whether it is the first or last week of the season. It is not a matter of whether it is the first or last week of the season, but it is a matter of whether it is the first or last week of the season.

Very soon appear in the Bankruptcy Court. Scratching-sheds, though not essential, are well worth their cost—at least, that is the opinion of those who have seen the places that in confined runs, but in the places out of ten you will notice the man with a few square yards of ground the up-to-date accommodation, so far as housing is concerned, and this is one of the reasons why poultry-keeping in confinement is often more profitable than on a free range.

Feeding next on the list, and certainly about the most important. Unless the fowls are well fed in cold, wet weather there is no chance of their being productive. I know plenty of farmers who feed their birds better in summer than in winter, and this is just because they are not profitable in the latter season. This is where the fatal mistake is made, it is in winter when everything depends on the nature of the food. In summer it is not so important, simply because Nature provides a large amount of food for those who can graze their fowls a good run. It almost sounds incredible that some people should be so stupid as to feed their fowls in winter, when they are buying inferior food to lessen the cost; but, all the same, it is so, and not just confined to a few places, but all over the country.

In winter, if eggs are to be forthcoming, there must be a first-class system of feeding on the very best foods. Cheap stuff is no good at all, and will spoil the ultimate aim. Biscuit-meal, bran, fine shavings, and a little maize-meal in cold weather are splendid foods to use. Wheat and oatmeal can be given in the evening and also at mid-day. All poultry should be fed three times daily during autumn and winter. Unless fowls are fed on excessive fattening foods, there is no fear of them suffering from over-feeding or liver disease. It should be noted in cold weather the birds will require plenty of substantial food to keep up the general temperature of the body, quite apart from any egg-laying process.

SCALY LEGHORN FOWL

A. W. Foley, poultry superintendent, Alberta, in his last bulletin says: "Poultry kept in dirty houses are often troubled with scaly legs on the legs. These are due to the presence of mites, which burrow beneath the scales. They are air-breathing insects and the treatment consists of depriving them of air. This is done by applying a mixture of equal parts of sulphur and lard two or three times. It is a simple remedy and an effective one. A free application of an ointment made by mixing a teaspoonful of coal oil with a teaspoonful of lard is recommended. Another method is to dip the legs in a solution of naphthalene flakes in coal oil. Dippings repeated daily for three or four days usually work a cure."

LITTER IN THE POULTRY HOUSE

Nothing is more conducive to health and vigor in the flock than an abundance of litter in the poultry-house. There is a fine stimulus to the system, and the daily grain ration is scattered in the litter, and the hens must scratch and work to find their food. Unthreshed grain is excellent litter, and it is better to dispose of some grain near the poultry-house than to carry it to the house. One of the best kinds of litter is common pearl millet, well-ripened. It is a good material, and it is small and is highly relished by poultry, old or young. If one does not have these feeds at hand, chaff from the straw stack will make good litter, and there should be an abundance of it. The litter should be renewed as often as it becomes damp and dirty. The hens will suffer from cold feet, either by going out on the snow or by standing on cold, damp floors. This, more than any other one thing, leads to disease of the feet and consequent loss of profit. Cold feet will reduce the hen's temperature, and thus expose her to the germs of disease. Pasteur, the French scientist, desired to incuba a hen with a very high temperature, and he succeeded in doing so by compelling her to stand in cold water. This proves conclusively that cold feet reduce the vitality of the flock.

THE CHICKEN HOUSE

How to Put it in Shape for Winter-warming the Fowls. Outside—Nail down loose battens, siding, shingles or roofing. Put in whole glass where any is broken. Use building paper, rather than banking, for the latter is often wet from the eaves and causes rot after straw is put in. Inside—If the house is of wood and single-boarded, line it with building paper of some kind. The roosting chamber should be lined with two or three thicknesses of paper overhead and on all sides. This is commonly formed by the roof and sides of the building, and the droppings-board. Unless fowls are fed on excessive fattening foods, there is no fear of them suffering from over-feeding or liver disease. It should be noted in cold weather the birds will require plenty of substantial food to keep up the general temperature of the body, quite apart from any egg-laying process.

WEATHER-PROOF ROOFS

No other one thing aids more towards success with poultry than does a dry roof. Poultry had almost better roost in trees than in leaky houses. They are an abomination in all respects, whether it is keeping the house tidy, the poultry healthy, or the temperature of the house. Let the roof be of whatever material, shingles, board, one of the many prepared roofings, or even hay, straw or fodder, but see that it is rain proof. The three latter will cost little besides the labor of placing them, yet if the roof is to stand for longer than a year they are not the cheapest, as it requires some care, quite a little work, and quantities of material to roof with one of these materials so as to have a weather-proof roof. However, they are warm, if not neat, and will answer the purpose. Even if the roof were leak-proof last spring, it will be the next year, and it is better to have sun and very dry weather will open crevices that will let in enough water to make the roof rot.

A Roup is such a smacking disease, it might be called the typhoid of poultry in some ways, and it is nearly always traced to damp or draughty sleeping quarters. It is a contagious disease, and it is caused by coming on the roosting birds, tightly closed, and be very sure of the east side, as winds from that direction are always the most likely to bring in the disease. Fresh air is needful to the good health of fowls, as much as for human beings, but one can arrange for ventilation without allowing drafts on the roosting birds. Do not crowded sleeping quarters are fine starting places for roup and other diseases, but, if you seem to be the winner, do not allow drafts on the roosting birds. Do not crowded sleeping quarters are fine starting places for roup and other diseases, but, if you seem to be the winner, do not allow drafts on the roosting birds.

DAIRY BUTTER AND CHEESE

Directions for Propagating a Starter for Use in Factories. E. S. Guthrie, of the New York Cornell Station, gives the following directions for propagating a starter "containing desirable bacteria for the ripening or souring of dairy products": 1. Take three one-quart bottles or fruit jars. (Larger receptacles may be used, but the bottles or jars are used.) In a creamery, the large dairy is necessary to carry more than a pint or a quart of starter. Along with the mother starter a second starter of 10 to 12 pounds may be carried. After the mother starter in the glass container is inoculated, the remainder of the previous day's mother starter is poured into the second starter, and the cream is inoculated with the second starter. In larger creameries third and fourth starters are carried. Care should be taken in pasteurization not to heat the milk to a temperature higher than the mother starter, this makes little difference.

STOCK WINTER-FED LAMBS

Facts Compiled from Bulletin of Cornell Experiment Station. A trouble resembling apoplexy in human beings has for several years been causing large losses among winter-fed lambs near Batavia (N. Y.), a region where feeding rations was that with a maximum ratio of 1.53, with silage for succulence. This ration produced the largest gains at the lowest cost per pound of gain. It is therefore apparent from these investigations that large losses in winter feeding may be avoided by gradually increasing the ration fed, which should contain some of the best material available, and a careful care to see that it is evenly distributed among the lambs, none getting more than its proper share. The latter is done in large measure by restricting the space to that actually necessary and evenly distributing the feed in the racks.

ADDITIONAL DEATHS OF NORTH SHORE LUMBERMEN LEAD AUTHORITIES TO BELIEVE CAMP IS INFECTED.

St. John, N. B., Dec. 20—Some later deaths in the circumstances surrounding the death of James Lynch, on his way from the lumber camp at Little River, nineteen miles northeast of this city, point to the fact that this county is stricken with an outbreak of cerebro spinal meningitis. Doctor Desmond and Malby left yesterday for the camp where their report is awaited anxiously, hoping to a break in the telephone service, caused by the installing of a new board, it is not possible to get in communication with either the camp or the other further up river, but the facts are plain. A brother of Stewart, who was in the camp of Little River, died early in the fall and then went home, Mr. Lynch went into the camp and was occupying the bunk in the young Stewart's tent. Mr. Lynch's illness and death bear the stamp of post mortem examination of the body of Mr. Lynch to be made and learned what the disease was.

LETTERS TO THE EDITOR

THE SPOILSMEN To the Editor of the Telegraph: Sir,—It is evident that the Conservative office-seekers have been kept too long on expectations for anything in the way of decency to be looked for on the part of the best-intentioned and weak leaders. The summary dismissal without cause is a disgrace not only to the party but to the country. Good business and sound political reasons dictate a change. The party that has won its way to power, despoils has come ravaging for all it may devour and it has so hungered during the last year that the administration of public affairs will be a failure. The work of having the starvelings eat at the public crib.

LAND VALUES AND IMMIGRATION

To the Editor of the Telegraph: Sir,—I was very pleased with the recent letter of Rev. F. W. Murray re farming results in New Brunswick. I know Mr. Murray and feel that he has put his observations along this line fairly and squarely. I would like to see his letter well circulated, not only in New Brunswick, but in other parts of the Dominion. If from three to six farmers, business and professional men in each county would promptly give their observations in a brief, plain letter to the daily press, what a relief it would be to the people, and how busy immigration agents might get with their seissors.

HOW TO BUILD UP NEW BRUNSWICK

To the Editor of the Telegraph: Sir,—I was much interested in your editorial of December 7, about the practical steps to be taken to build up New Brunswick. What should be done first to accomplish that object by the government and the people of the country? It is a settled fact that we have a good country, good soil, good climate, numerous undeveloped resources. Then why is it that we are not keeping our own young people in the country and attracting a share of the immigration coming to Canada? I think it might be that there are greater attractions elsewhere. The immigrants who come here are not satisfied with the progress they are making, the inducements of the West, although they are advertised to induce others to come. Those who fail are not advertised. With our disadvantages are so often exaggerated. The immigrants are often made that they outnumber the advantages. Every country has its drawbacks, and it is well to know what these drawbacks are. Many of them can be overcome by forethought and intelligent labor, and it is only those drawbacks that cannot be overcome that tell against a country, such as earthquakes, blizzards, untimely frosts, etc.

AMERICAN SEPARATOR
A brand new, well made, easy running, easily cleaned, perfect skimming separator for \$15.95. Skims one quart of milk a minute, warm or cold. Makes thick or thin cream. Thousands in use giving splendid satisfaction. Different from any picture, which illustrates our large capacity machines. The bowl is a sanitary marvel and embodies all our latest improvements. Our carefully illustrated catalog tells all about our wonderfully low prices on all sizes and generous terms of trial will astonish you. Our twenty-year guarantee protects you on every American Separator. Shipment made promptly from ST. JOHN, N. B. and TORONTO, ONT. Whether you have a large or small, get our great offer and handsome free catalog. ADDRESS: **AMERICAN SEPARATOR CO., BANBRIDGE, N. Y.**

Mr. Lynch's illness and death bear the stamp of post mortem examination of the body of Mr. Lynch to be made and learned what the disease was.

LETTERS TO THE EDITOR

THE SPOILSMEN To the Editor of the Telegraph: Sir,—It is evident that the Conservative office-seekers have been kept too long on expectations for anything in the way of decency to be looked for on the part of the best-intentioned and weak leaders. The summary dismissal without cause is a disgrace not only to the party but to the country. Good business and sound political reasons dictate a change. The party that has won its way to power, despoils has come ravaging for all it may devour and it has so hungered during the last year that the administration of public affairs will be a failure. The work of having the starvelings eat at the public crib.

LAND VALUES AND IMMIGRATION

To the Editor of the Telegraph: Sir,—I was very pleased with the recent letter of Rev. F. W. Murray re farming results in New Brunswick. I know Mr. Murray and feel that he has put his observations along this line fairly and squarely. I would like to see his letter well circulated, not only in New Brunswick, but in other parts of the Dominion. If from three to six farmers, business and professional men in each county would promptly give their observations in a brief, plain letter to the daily press, what a relief it would be to the people, and how busy immigration agents might get with their seissors.

HOW TO BUILD UP NEW BRUNSWICK

To the Editor of the Telegraph: Sir,—I was much interested in your editorial of December 7, about the practical steps to be taken to build up New Brunswick. What should be done first to accomplish that object by the government and the people of the country? It is a settled fact that we have a good country, good soil, good climate, numerous undeveloped resources. Then why is it that we are not keeping our own young people in the country and attracting a share of the immigration coming to Canada? I think it might be that there are greater attractions elsewhere. The immigrants who come here are not satisfied with the progress they are making, the inducements of the West, although they are advertised to induce others to come. Those who fail are not advertised. With our disadvantages are so often exaggerated. The immigrants are often made that they outnumber the advantages. Every country has its drawbacks, and it is well to know what these drawbacks are. Many of them can be overcome by forethought and intelligent labor, and it is only those drawbacks that cannot be overcome that tell against a country, such as earthquakes, blizzards, untimely frosts, etc.

TRY IT SUICIDE?

Inflicts Serious Injuries Surgeons Complete Operation—Defence May Apply for Attorney Says Trial Will

Richardson in great agony. He had had himself with a sharp jagged piece in which he had converted into a sort of knife. When the guards approached prisoner and inquired what the trouble was, he said excitedly: "I've cut myself. I'm bleeding to death."

Richardson stated that he had been called physician stated that Richardson had received serious complications. Attorney Pelletier, in an official statement, said that the trial of Richardson would begin on Jan. 15, the originally set.

BAR EPIDEMIC

Cerebro-spinal meningitis. Epidemic. Deaths of North Shore Lumbermen Lead Authorities to Believe Camp is Infected.

St. John, N. B., Dec. 20—Some later deaths in the circumstances surrounding the death of James Lynch, on his way from the lumber camp at Little River, nineteen miles northeast of this city, point to the fact that this county is stricken with an outbreak of cerebro spinal meningitis. Doctor Desmond and Malby left yesterday for the camp where their report is awaited anxiously, hoping to a break in the telephone service, caused by the installing of a new board, it is not possible to get in communication with either the camp or the other further up river, but the facts are plain. A brother of Stewart, who was in the camp of Little River, died early in the fall and then went home, Mr. Lynch went into the camp and was occupying the bunk in the young Stewart's tent. Mr. Lynch's illness and death bear the stamp of post mortem examination of the body of Mr. Lynch to be made and learned what the disease was.
