Hiring Horses.

It has been decided, says the Turf, Field, and Farm, that when a horse or carriage is let out for hire, for the purpose of performing a particular journey, the party letting GROCERIES warrants the horse and carriage fit and competent for such journey. If the hirer treats the horse or carriage as any prudent man would do, he is not answerable for any damage either may receive. But he must use the horse for the purpose for which he bired him. For instance, a horse hired for saddle must not be used in harness. If the hirer violates this express condition of the contract, he is liable for any damage that may occur. If the horse is stolen through the hirer's negligence, such as leaving the stable door open all night, he must answer for it. But if he is rob- SALTER BRICK STORE! bed of it by high waymen, when travelling the usual hours, he cannot be held for damages. How to cure a Bone Felon :-Of all the painful things can there be any so excrutiatingly painful as a bone so excrutiatingly painful as a bone felon? We know none that flesh is heir to and, as this malady is quite heir to and, as this malady is quite heir to, and, as this malady is quite frequent and the subject of much earnest consideration, we give the latest recipe for its cure, London Lancet: 'As soon as the pulsation which indicates the disease is felt. put directly over the spot a fly blister. about the size of your thumb nail, and let it remain for six hours, at the expiration of which time, directly under the surface of the blister, may be seen the felon, which can be instantly taken out with the point of Parish of Alnwick, presently in occupation of William Edmunds. a nee lle or a lancet.

HEAVY ROBBERY FROM THE MAILS. -On the 22nd of September two money packages were posted at the Halifax office, one containing \$1268, and sent by the Montreal Bank here to the Bank of Yarmouth; and the other containing \$1000, and sent by the People's Bank to the Exchange Bank of Yarmouth. These packages never came to hand, and were probably abstracted from the mails. They were both together in one bag Mr. Dewe. the vigilant Inspector, who is at persent in the city, has had the matter in hand, and every effort is being made to trace the money, and it is hoped with success. There is always greater difficulty in tracing such malfeasances in the Post Office Department than in any other; and for that reason, when the culprits are discovered, most ex emplary punishment should be meted out.—Halifax Recorder.

A despatch to the St. John "Telegraph" says: Hon. Mr. Laird has been appointed Governor of the North-West, and bas accepted.

Thus another pure and disinterested "Reformer" gets himself appointed to a public position of considerable importance. Under the late Govern ment this would have been vile corruption, and a sample of "Tory ways and manners." Mr. Laird has had this appointment in his eye for some time past, but has denied that he was after it-just like good Mr. Dorion, a short time before he became Chief Justice of Quebec, doclared that the rumor that he was going to do so was false. One by one these gentlemen will get out of the Reform gal lev, for it is sinking fast.-Halifax Herald.

James Lick, the California million aire, is dead. He leaves it is said a large sum, amounting to several million dollars, in the hands of trustees for charitable purposes. His fortunes were identified with the rise of CUSTOM TAILORING California, to which he emigrated a Conducted under the direction of a Cutter made by judicious purchase of real estate about San Francisco, property all on our customers in the North at regular periods. rapidity. man, but he took a deep interest in educational matters, and a consider able part of his money was given to educational objects.

The United States Treasury Department at Washington received espatch a few days ago saying that the collector of customs at Savannah was sick with yellow fever. One of the clerks in the office was authorized to act as collector, and the next day a despatch came advising the Department that he had been stricken down with the fever. A second clerk was then instructed to perform the duties of the collector. Then the Department received information by telegraph that this clerk had not escaped the ravages of the fever, but was pros trated like his two predecessors.
