GRAND FALLS HONORS DEAD HERO

Richard E. Estey Gave His Life for
His Country

A memorial service for Pte. Richard E. Estey was held in the First Presbyterian church here Sunday morning, at 11 o'clock. Service was conducted by Rev. W. K. Read, pastor of the church. The choir sang Rock of Ages and A few more Years shall Roll. A male quartette sang the beautiful hymn We shall meet on that Beautiful Shore. The church was filled with friends who came to do honor to the noble dead. We are all proud of our hero boy, the third one of our town boys to give his life for King and country.

Word was received here last week that Pte. G. A. Hallett is in a hospital in Wunereaux, France, suffering from a scalp wound received in the fierce battle on April 9 at Vimy Ridge. His friends here hope for a speedy recovery. Pte. Hallett enlisted with the 162nd Batt. in Ontario but was transferred to the 75th Canadian Batt.

Gordon White, son of R. J. White, was accidentally shot Sunday afternoon by his chum, Joe Carroll. The shot went through his leg below the knee coming out at his heel. The family are having rather hard luck as the father has undergone two operations for intestinal trouble inside of four weeks.

Miss Mary Moran died at her home on Sunday evening after quite a long illness. She was about 18 years of age and leaves a father and mother besides a number of brothers and sisters.

The old Curless residence on Front street is being fitted up for a hospital. Mrs. John Leck of St. John is in town and will be matron of the hospital.

Michael Curran is home from St. Basil where he has been in the hospital with fever. He is not feeling very well yet.

Mrs. E. G. Leslie and daughter Miss Pearl Leslie returned Wednesday from a visit with friends in Fort Fairfield.

James Mockler, who has been in Caribou the past three months is visiting his daughter, Mrs. H. H. Price.

George H. Read, who has been in town on business the past week, left for Moncton Monday.

Wallie Evans of Brownville Junction spent Sunday at his home here.

Miss Adeline Clark of Lime-stone was a week-end guest at the Minto.

Dick Smith is moving his family into one of the Martin houses. Thomas Bradley is quite ill with typhoid fever.

Miss Ernestine Bradley went to Fort Fairfield Saturday.

George Lockhart of St. John was in town over Sunday.

W. C. Hubley of Halifax spent Sunday at the Curless House.

G. L. WHITE, M.L.A. DIED LAST WEEK

The county was grieved to hear of the death of G. L. White, M.L.A., on Wednesday of last week. Although it was known that he was seriously ill the news came as a shock nevertheless.

The late Mr. White was 59 years of age, and a son of the late Hon. G. W. White, who for sometime represented Carleton county in the Provincial Legislature, and was later a member of the Legislative Council. Since the death of his father, the late Mr. White directed the business interests in Centreville. In 1912, at the general elections, he was elected to the Legislature, and at the recent elections was re-elected. He is survived by four sons and two daughters. The sons are Lee, who enlisted with the 58th Howitzer Battery, and is at present in training camp in England; Harold, who is connected with the Bank of Nova Scotia in Centreville; J. R. D. White, general merchant at Aroostook Junction, and son-in-law of Hon. B. Frank Smith of Fredericton, and Leverett, jr., who resides at home. The two daughters are Miss Marion White, who is a nurse in the St. John General Hospital, and Miss Mildred White, who is at home.

JURY DISAGREE IN SHANNON CASE

The case of the King vs. Robert Shannon and Jonathan Shannon was concluded after a trial occupying two days, the jury being unable to agree upon a verdict. After being out for two hours the jury reported that they were divided six to six and they were discharged by Judge Barry, the prisoners being bound over to appear to the next circuit court.

The prisoners were charged with the theft of two hind quarters of beef from Joseph Steinberg of Florenceville. They are large property owners living at Greenfield and have two or three farms comprising 600 or 700 acres. They own a large quantity of stock and personal property. Steinberg had killed a cow and dressed it on March 21. In the morning of March 22 he went to the slaughter house and found the two hind quarters gone. He got some assistance and trailed a horse and pung by tracks and spots of blood, he said, to Shannon's yard. The Shannon's were not home but a pung was standing in the yard and in it Steinberg claimed to have found a piece of beef suet. He thereupon got into communication with ex-Deputy Sheriff Armstrong, who advised him to get out a search warrant.

FATHER AND DAUGHTER DIE AT HOME

While News Comes of Brothers' Death on the Battlefield

After five years of sickness George Nicholson of Connell died at noon on Sunday, April 22, aged 39 years. There lives to mourn, a wife and three children, four brothers, two sisters, and aged parents residing in California.

Only a few months ago his daughter Nellie, aged five years, passed away, and but a few days ago the message came to the home that his brother, Lee, who was fighting for the liberty of the nations some where in France fell in death.

Funeral services were conducted by the pastor of the Florenceville Baptist church, Rev. E. C. Jenkins. It was a double funeral service for George and Lee. Rev. Jenkins, in well chosen words of sympathy and comfort, met the mourners' needs and wishes of the community.

The body was laid to rest in the family lot at Connell, April 24.

Kilburn Loses an Honored Son

On Saturday morning, April 28, John W. Grant of Kilburn, received the following telegram announcing the death of his son:

"Deeply regret to inform you Lance-Corp. Robert Henry Leigh Grant, Infantry, officially reported killed in action April 10, 1917."

Lance-Corp. Grant, who is the only son of Mr. and Mrs. John W. Grant of Kilburn, went west in August 1915 and enlisted at North Battleford, Sask., on Feb. 7, 1916, in the 188th Batt. For some months he was in training at North Battleford and Camp Hughes and went over to England in the fall of 1916. From the 188th Batt. he was drafted to the 46th Batt. in France. He had been on active service about six months, cheerfully enduring the hardships, bravely doing his bit, and was one of the many loyal Canadian lads who gave their lives in the battle of Vimy Ridge.

For his father, mother and sisters, who are highly esteemed in their community, the greatest sympathy is expressed.

This was done and with Armstrong, Steinberg went out and searched the Shannon premises, finding two quarters of beef.

The prisoners throughout disclaimed any knowledge of the affair. Both prisoners took the stand. There was considerable contradictory testimony, Steinberg claiming that the Shannon's had expressed a desire to settle and Shannons claiming that Steinberg was anxious for them to pay him something to prevent prosecution. Counsel for the crown argued strongly that the presence of the beef in the possession of the defendants was conclusive of guilt unless it was explained, and the defendants, counsel, set up the absurdity of the prisoners stealing \$20 worth of beef and argued that it had been left there either as a plant to force a payment of money from the Shannons or by some person who left it there prior to removing it to his own house. R. L. Simms acted for the crown, J. C. Hartley, K. C., for the informant, and Hon. W. P. Jones for the prisoners.

THE VALLEY RAILWAY

The Fredericton Gleaner hands out the following shocking admission:

"It was a mystery to us that the late government did not look up practical railway men of reputation for the directorate of the St. John & Quebec, men who would know what they should do and how it should be done to produce the best results. There was not a practical man on the old Board, nor was there, in so far as the provincial interests are concerned, either a railway man or an engineer of first-class standing employed on the work to advise or counsel the members of the Board who did not know. It was a weakness of the late government that important public interests such as those of the St. John & Quebec were in the hands of men who were without practical and useful knowledge, although apparently interested in some features of the operations. If the Foster government name practical men for the new Board, and one or two of the number outstanding men of reputation in the railway profession, it will have materially strengthened a position in which the late government was very weak."

Bath News

The Baptist church has given Rev. G. W. Brooker of Sherbrooke, P. Q., a call which he is considering.

C. M. Sherwood of Centreville is removing to this place.

The schools are making preparation to observe Arbor Day on the 11th.

A very large congregation assembled at the Methodist church recently at the memorial service for Herbert Drost, killed in action at the front. His parents have the sympathy of the entire community.

Got Rid of Bronchitis

Mr. W. H. Walker, Calmar, Alta., writes:—"I am pleased to say that Dr. Chase's Syrup of Linseed and Turpentine has done much good to myself, wife and children. My eldest girl, 7 years, had bronchitis and the doctor who attended her did not seem to do much good. We got Chase's Syrup of Linseed and Turpentine for her and she soon got well. We always keep this medicine in the house now ready for use and find that it soon cures coughs and colds."

Nerves Were So Upset Could Not Endure Noise

Neuralgic Headaches and Extreme Nervousness Caused Keenest Suffering—Lasting Cure by Use of Dr. Chase's Nerve Food.

Once the nervous system gets run down everything seems to tend to make it worse. You worry over your condition, are unable to get the required rest and sleep, nerves excite and irritate you and the future is most discouraging.

The nervous system does not get the proper nourishment from the food you eat, so you must have something also to lift you out of the run-down condition. You may find that your experience coincides with the writer of this letter and be encouraged to get Dr. Chase's Nerve Food to the test.

You will make no mistake in employing this food cure, for, acting as it does hand in hand with Nature, it is bound to do you good.

Mrs. Jas. Jensen, Gwynne, Alta., writes: "About ten years ago I was troubled with severe attacks of neuralgia and nervousness, and was for several months so bad that I could not get a night's rest. I used several medicines recommended by the druggist. My doctor also prescribed, but nothing he gave me brought any relief. Instead I got worse and worse until I could scarcely do anything or bear the least bit of noise. My nerves were all upset."

"My husband read about Dr. Chase's Nerve Food and got me some. Although I had no faith in it, I began its use, and after a few doses began to sleep well and the neuralgia left me entirely. I used six more boxes and have never had any troubles from neuralgia or the nerves since."

"This is to certify that I know Mrs. Jensen and believe this statement to be true and correct. Fred Freeman, J.P."

Dr. Chase's Nerve Food, 50 cents a box, 6 for \$3.50, all dealers, or Dr. Chase, Boston & Co., Lowell, Mass., U.S.A.

Ford SALES

115,000 Ford Cars have been manufactured in Canada by The Ford Motor Company of Canada, Limited. This corporation—the largest motor factory in the British Empire—is capitalized and managed by Canadians.

Its purpose—to produce the utmost in motor car values at the lowest possible price—brought an enormous demand for Ford Cars. This demand made possible an enormous output and this in turn affected great savings in material costs, factory machine methods and labor operations, which in turn further reduced Ford prices.

This is the simple reason why there are so many Ford Cars in Canada today and why the Ford Car is known elsewhere as

The Universal Car

Ford SALES are based on Ford SERVICE and Ford SATISFACTION. The Service includes not only the all-year-round reliability of the car, but the convenience of having seven hundred well-equipped Ford Service Stations scattered throughout Canada, ready with repairs, supplies, accessories and A-1 mechanical service. Ford SATISFACTION is something every Ford owner gets, in addition to Ford SERVICE. Just ask any man who owns one.

Lowell, Mass.—“For the last three years I have been troubled with the Change of Life and the bad feelings common at that time. I was in a very nervous condition, with headaches and pain a good deal of the time, so that I was unfit to do my work. A friend asked me to try Lydia E. Pinkham's Vegetable Compound, which I did, and it has helped me in every way. I am not nearly so nervous, no headaches or pain. I must say that Lydia E. DR. R. J. KENDALL
Eugene, Ore.

Travelling the prairies in the early centuries, particularly a trip from Winnipeg to Edmonton, is vividly described by E. L. S., who says in part: After spending a night at the Hudson's Bay fort at Carleton Place, we started on our journey to the north, and having dined at the home of Mr. Rae, the Indian agent, we started along the north side of the Saskatchewan River towards Battleford. The trail lay back from the wooded belt, and being so early in the morning we did not make the camping ground we turned for shelter into what was known as the Green Bluff. Space was limited so we did not pitch the tents, but as the prairie was so level, the Indians spread their mats and made our beds on top of them with our feet towards the huge swamp fire of green wood. That was a severe winter and it would be hard for one who had never seen a prairie before to understand how cosy was the place. As we lay there listening to the crackle of the fire and gazing at the starry heavens I fell asleep with the lines of the child's classic "The Campfire Song" running through my mind: "Twinkle little star, how I wonder what you are." Nothing else seemed to fit the occasion so well. I remember hearing my father say that one of the greatest residents he had ever known was a man who was at the memorable Davin trial having completed his term as lieutenant-governor of the Northwest Territories, as they travelled across the Salt Plains one day he was struck by the thought that the bright drawn by the moon above the stars twinkled down on them; then the governor broke forth with the words of the good old hymn: "The spacious firmament on high; With all the blue ethereal sky, And spangled heavens, a shining firmament of stars."

Their great Original proclamaⁿ

Not a member of the party spent until its close. Travelling over boundless prairies, blue sky above a spotless snow beneath, seemed to oppress one with the purity of the press in its creation. The beauty of the landscape and the relationship with things ethereal welled almost unconsciously.

Useful as Basis for Paper Industry, Expert Finds

The Canadian Pacific Railway Company have not waited for the Government's Commissioner Arthur D. Little, a paper mill chemist of Boston, to investigate the problem of making straw into paper. They have demonstrated the feasibility of this special industry in a preliminary report to the company. He shows that straw board can be made cheaply, and that straw can be used for paper for walls and partitions in houses might be produced at a price as low as \$5 or \$6 a ton. He is not enthusiastic as to the manufacture of linen, for the reasons already mentioned. But he says that for those who have had the longest experience in this industry, but as a paper-making material flax fibre has without doubt a great future.

Samples of flax paper were sent to the makers of paper mills—which produce fine linen papers, including paper specially made for printing bank notes—have been very favorably reported on, and these manufacturers are expected to make large quantities of flax paper. The strength, quality and color of these samples are very satisfactory, and it may be added that prices for such fine papers range from \$150 to \$200 a ton, which is about the same as the way the prices were from \$100 to \$140 or more per ton.

Saskatchewan Member Would Make Change in Qualifications

F. C. Tate, Lumsden, Sask., raised the question in the Saskatchewan Legislature that all persons before they were qualified to hold office in the rural municipality should have a reading and writing knowledge of the English language. He pointed out that he did not wish to ask anyone to be bilingual, but in order that they should be of the most value to the people whom they would represent he considered that such knowledge was necessary. Hon. A. J. Calder replied explaining that should such action be taken a very large section of the non-speaking people in the province would be disfranchised. In some places a very large proportion of the adult population were not able to speak the English language. They were British subjects he pointed out and he did not think that they should be kept against holding office. His own experience was that the conditions had been found all right, and to instance this he told of one rural council with which he was personally acquainted, where the reeve was a Ruthenian, and the rest of the councillors of foreign birth. The secretary of the council was, however, perfectly competent to carry on his duties and instruct the council in the matters in connection with the municipal act or other questions. No change was made.

Grow your own salads in the back garden, says Sidney Johnston of the Ontario Department of Agriculture. The salad crop group includes leaf, head and cross lettuce, spinach, onions, radishes, endive, Swiss chard, parsley and cultivated dandelions.

Western farmers are urged to form social centres in rural districts.

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freezone, says a Cincinnati authority.

It is estimated that at small cost one can get a quarter of an ounce of freezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

Freezone is not a chemical compound, and while it stings it dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the practical high-heeled footwear is putting corns on practically every woman's foot.

"Fruit-a-tives" Made Him Feel As If Walking On Air

ORILLIA, ONT., Nov. 28th, 1914.
 "For over two years, I was troubled with Constipation, Drowsiness, Lack of Appetite and Headaches. One day I saw your sign which read "Fruit-I-lives make you feel like walking on air." This appealed to me, so I decided to try a box. In a very short time, I began to feel better, and *now I feel fine*. I have a good appetite, relish everything I eat, and the Headaches are gone entirely. I recommend this *pleasant fruit medicine* to all my friends".

Little Things Not Omitted From Care of Vast Organization

It has been demonstrated that the value of good railway material rescued from scrap amounts to about two dollars per ton, while proper sorting and classifying increases the net selling value of the scrap by another two dollars per ton, the saving thus amounting to four dollars of money. The Grand Trunk Railway System pays careful attention to the work of salvaging the many tons of discarded material produced on a railway operating many thousands of miles of line. The Central railway have been established, under the sort-out, this material is carried out. Forty thousand tons of scrap are examined each year and this work is done under expert supervision, so that full value is obtained for the metal and other commodities sold, while the age of the material is reduced and returned for use.

Fifty-four Deserted Homes in One Ontario Country Point

Rev. J. J. Bell of Laurel, Ont., provoked a keen controversy by his address on farm and village conditions in Ontario at a conference on Rural Life and Work, at the Ontario Agricultural College. He asserted that within the boundaries of his own parish there were 54 vacant homes which five years previously were occupied by large families. He declared that the villages were being deserted. Village craft was decaying, blacksmiths and other village tradesmen

were passing away, and the deserted blacksmith shop is a too common feature in village life. The popula-

Every one who has suffered from Kidney and Bladder trouble should read this letter from a gentleman in Fort Midway:

"I was once a terrible sufferer with Kidney (and Bladder troubles and at times got so bad that I would lose the use of my legs. I could not go away from home without someone with me. My son advised me to take Gin Pills and after taking the first two or three doses I got relief. I then decided to try them. I got completely well. I owe my life to Gin Pills.

POSSIBILITIES OF OUR CARIBBEAN EMPIRE

Amazing Areas and Trade Opportunities of West Indies and Adjacent British Territories

In Britain's West Indian Empire British Guiana is incomparably the largest unit and covers 90,277 square miles. Next in size comes British Honduras, with 7,562, after which rank Jamaica, 44,500, the Bahamas, 4,424. The area of the other colonies is: Trinidad and Tobago, 1,974 square miles; Dominica, 294; St. Lucia, 233; Antigua, Barbuda, Redonda, 170; Turks and Caicos, 169; Barbados, 166; St. Kitts, Nevis and Anguilla, 152; St. Vincent, 150; Grenada, 133; Virgin Islands, 50; Montserrat, 32. The total area of all the above is 114,249 square miles. If we remove British Guiana and British Honduras, the islands, which are, strictly speaking, the British West Indies, are only 12,410 square miles.

The total population of all the area, continental and insular, was returned at the 1911 census as slightly over 2,000,000. Here Jamaica stands easily first, with 831,233; Trinidad coming next with 233,582. British Guiana has a population of 800,000; British Honduras, 48,272. Barbados, with 171,939 to its 168 square miles, is one of the most densely populated places in the world, having 1,032 to the square mile. The other islands range from 5,000 odd to 60,000 odd.

Rich Resources Unused
The main reason for the present comparative paucity of population is, of course, that such large portions of the West Indian area remain unused and undeveloped. In Jamaica, for instance, out of an acreage of 2,126,411 (part from Crown lands), only about half, namely 1,013,025 acres, are returned as being at all under care and cultivation, and of these only about 274,000 acres have been subjected to tillage, the other 739,017 acres remaining "grazing lands," but slightly different very often from the 1,114,283 acres that are left in undisturbed woodland and "ruiate."

Great Potentialities
Trinidad, measured by its trade and products, ranks very much higher than does Jamaica, for, while less than half the size of that island, it has a trade which in 1913 (the last normal year) amounted to \$48,838,358, against Jamaica's \$25,284,735; but when we pass to British Guiana we find that a colony that is 45 times the size of Trinidad has a total trade of only \$13,854,918 and, as we have seen, a population of only 296,041, against Trinidad's 383,582.

Yet British Guiana contains 57,770,000 acres, of which only 2,000,000 are privately owned, leaving 55,700,000 unalienated Crown lands. In the lowland easily accessible by railway or by navigable rivers out of some 10,000,000 acres there are some 7,000,000 suitable for agricultural purposes, of which only 1,000,000 acres have been disposed of, leaving 6,000,000 yet to be taken up and used.

GROCERS MAY COMBINE

Want Federal Government Start An Inland Trade Department

The creation of an inland trade department of the Federal Government, which will have control of all mercantile trade in the Dominion, was the request of a delegation of wholesalers and retailers which waited on Premier Borden. Mr. Hugh Blain addressed the Government during the conference with wholesalers, arguing the unfairness of legislation prohibiting a producer or manufacturer from stipulating the price at which his products shall be placed on sale by the wholesale trade, when compared with the treatment meted out to other trades and professions. Mr. Blain denied the existence of combinations in the grocery trade, and declared that there is nothing to conceal or suppress. Financially, it is claimed, the wholesalers carry a large percentage of the retail merchants, who, in turn, carry their reliable customers through sickness or unemployment. The proposal to prohibit the setting of prices was characterized as illogical and insane, as to disturb conditions which are essential to the welfare of the country would be a blunder.

DEMOCRATIC GOVERNOR

Saskatchewan Province Had a Real Father in Office

The Hon. George W. Brown, Governor of Saskatchewan, was the nearest thing to a father of his people that any Governor has been in any Province within living memory. The Lieutenant-Governorship of Ontario, for example, has become almost as foreign an institution to the great mass of the people as the Liama of Thibet—that is, from the point of view of the great mass of the people seeing it at close range. The difference between it and the Saskatchewan office, as the wealthy Mr. Brown operated it, is that Government House at Regina was open every Saturday afternoon to the schoolma'ams of the city and Province—and especially the conservatories. The Governor used to travel the Province talking to farmers' meetings in a fashion which showed them that he was the greatest farmer of them all.

Gets Potatoes Earlier

Speaking on potato seed, the method adopted by Mr. Tizzard, a potato grower in old Ontario, is worth mentioning. He puts the potatoes intended for seed under the bench in his greenhouse on a dry board along about Christmas. The stock has light and air, but no moisture. So kept, the seed develops short, hard sprouts that do not break off in handling, and these sprouts root as soon as set in the ground. Mr. Tizzard secures a crop ten days earlier than he otherwise would by this method of preparing and preserving seed.

How can the provincial agricultural colleges be made useful in the highest degree to all the farmers without the aid of the rural school?

FIFTEEN CENTS

Everywhere Why? Finest Quality

The Paint That Costs The Least

is the Paint that covers the greatest surface—that takes the shortest time to apply—that wears the longest. Martin-Senour "100% Pure" Paint does all three. Here's the proof. "100% Pure" Paint covers 900 square feet of surface per gallon.

Hand-mixed-lead-and-oil, and cheap prepared paints, cover only about 500 square feet.

The greatest cost of painting is for labor. It takes less time to apply Martin-Senour "100% Pure" Paint because its fine, even texture spreads much easier.

MARTIN-SENOUR "100% PURE" PAINT

(Made in Canada)

is guaranteed to be exactly as represented. The purity of the White Lead and Zinc Oxide—the high quality of the Linseed Oil—the minute fineness of the grinding by powerful machinery—insure a paint that gives years of protection and beauty to your home.

Why use cheap paint—that is expensive to put on—when Martin-Senour "100% Pure" Paint wears nearly twice as long?

Five Good Reasons for Buying this Good White Lead

1. It is absolutely pure, ensuring the brilliancy of any paint in which it is used.
2. It has great covering capacity and long life.
3. It is of unequalled, uniform "fineness"—is never crystalline.
4. It works easily under the brush.
5. It need not be scraped or burned off when, after several years, the building requires another paint.

Its high reputation has been gained by nearly 200 years continuous manufacture. Used and recommended by experienced architects, builders, painters, owners.

For Baby's Tender Skin

A child's skin is tender as well as beautiful and eczema may be caused by chafing of clothing, the use of poor soap, exposure to the cold or sudden change of temperature. Probably not treated so successfully as Dr. Chase's Ointment, and this applies particularly to baby eczema. This ointment is delightfully soothing, stops the itching and consequently prevents scratching. Gradually the sores are healed up and the skin is left soft and velvety.

Buildings all in fair condition. Insurance \$1400. Property well fenced, good well near dwelling. To school, 3-4 mile, church 1 mile, C. P. R. station 4 miles; daily RFD mail. Situated at Middle Simonds in Carleton county. Splendid view of river for 6 miles. Price \$4,500. Terms \$1000 down, balance to suit purchaser.

FARM NO. 2

A 182 acre farm fronting on main Becaguimac river. A good large farm for a little money; 80 acres in cultivation, 30 brook pasture, 30 acres wood land, balance scrubby second growth. Soil is part rich loam and part clay subsoil, well adapted to raising grain, hay, roots or fruit. Buildings consist of two large barns, that could not be built for \$500, and a small shack, small amount of lumber and pulp, small orchard. Last year cut 30 tons of hay besides grain and apples. Post office and school half mile, station 7 miles, neighbours near, village of Rockland 2 miles. Price \$1200, \$200 down balance to suit purchaser.

Here are SIX unusual Bargains:

FARM NO. 3

Thirty acre farm, about 20 acres cleared, balance mixed growth. Soil good quality; buildings consist of small house and barn which are in need of repair but could not be built for twice the price of place; excellent spring 2 rods from dwelling.

To Coldstaem village, post office, Consolidated school and church 3-4 mile. To Hartland and C. P. R. station less than 6 miles.

A wonderful bargain for any one looking for this kind of a farm. Price \$175. Terms to suit purchaser.

FARM NO. 4

This splendid property considered one of the best and most profitable farms in the County of Carleton, has been placed on the market by the heirs of the late owner at a remarkable low figure. It is ideally situated in a well-to-do and prosperous community and is a great bargain for anyone wishing to go into potato raising. Plenty of good neighbours near, in fact three other residences are within 500 feet of dwelling. Farm contains 100 acres, 80 acres in good state of cultivation, soil an excellent quality, 20 acres of woodland mixed growth with small amount of lumber and plenty of hardwood. Buildings consist of a comfortable 9-room house on stone foundation with frost proof cellar, 2 large barns 40x60, besides shed, wagon house, hog house and granary, buildings could not be duplicated for \$2500, good orchard, water in yard and could be very easily run in dwelling. Taxes about \$20 annually, situated 3 miles from Florenceville 1 1/2 mile to school and church, daily mail R. F. D. Crop last year consisted of 60 tons of hay, 500 bushels potatoes, 500 bushels oats, 100 bushels wheat, besides other grains and roots. Price \$3500, terms agreeable.

Farm No. 5

A 300 acre farm at \$9 per acre; not a dead run-out, worked-to-death farm, but a live-going profit-paying proposition and an excellent chance for stock raising; 150 acres in good state of cultivation; 30 acres in pasture; 70 acres woodland, mixed growth; property well fenced; nearest railroad at Hartland a distance of 10 miles; nearest store 3 miles, post office and church 1 1/2 miles, school 1 mile. Taxes about \$23 annually; good water at dwelling, two orchards. Buildings consist of a 6-roomed house with shed, frost proof cellar, 3 barns 30x45, 28x38 and 24x30 with sheds attached. Crop last year 80 tons of hay, 300 bushels of potatoes, 1100 bushels of grain, besides fruit. Price \$2700.

Terms \$1000 down balance on mortgage. This price includes considerable personal property.

Farm No. 6

This farm well equipped with buildings, all of which are in good repair, and now carry \$1000 fire insurance. The dwelling alone could not be built for considerable more than the entire price of property. This farm, situated in a well-to-do community, is on the market because the owner has a large amount of other property and is offering to sacrifice this. Farm contains 50 acres, 25 of which is cleared and in an excellent state of cultivation and well adapted for potato raising, situated 5 miles from Hartland and railway, 1 1/2 miles to nearest village and church, 1 mile to school, mail three times per week, R. F. D. Good well near dwelling. Buildings consist of 10 room house and good sized barn and hog house all in good repair, good frost proof cellar. This property is well fenced and includes a good orchard. Woods is a mixed growth and contains some pulp wood. Crop last year 500 bushels potatoes, 250 bushels oats, 8 tons hay, besides fruit and roots. Price \$1100. Terms: \$500 down, balance on mortgage. Should the purchaser want more land I have two other properties within 1 1/2 miles distance, on which there is no dwelling, both of which I consider a good bargain.

Our village had two fire scares last week. Tuesday night the chimney in the rectory burned out and a general fire alarm was given. However no damage of any extent occurred. Friday afternoon while almost everyone was attending the funeral, David Burtt in some way set fire to some matches and sulphur in a bureau drawer in his bed room. The old gentlemen were very much alarmed and frantically tried to put out the fire but without success as the fumes from the burning sulphur would soon have overpowered him. The smoke was seen from the street and Whit Bishop rushed in and carried out the burning bureau, depositing it in the middle of the street. A large crowd soon collected and some little damage was done before people could believe that there really was no fire when there was such intense smoke.

Mrs. Henry Bradley of Hartland was visiting friends here last week.

Miss Robin Wilson is back at her old job after an absence of about a month.

Russell Perkins is home for the summer vacation from Ontario Veterinary College.

A large number attended the funeral services of the late Zeph Mills of Royalton, at the Tracey Mills church. The Rev. W. J. Hurlock preached an eloquent and instructive sermon. The late Mr. Mills was well known all over this section of the country as he was a sub-agent for J. Clark & Son. He was a splendid tenor singer with a strong voice that at times would fairly seem to fill the Mills church. A widow, two sons and a daughter survive.
