A Paramount Picture

Around the World in the Speejacks

A REMARKABLE FILM RECORD OF THE STRANGEST HONEYMOON EVER TAKEN
One of the most daring voyages around the world ever undertaken, in the course of which the travelers visited many unknown corners of the globe, is graphically illustrated in the Paramount motion picture, "Around the World in the Speejacks." The trip was made by Mr. and Mrs. A. Y. Cowen of Cleveland, O., in a 98-foot motor boat built especially for the purpose and 39,000 miles were covered within sixteen months filled with peril, excitement and stirring adventure. The views of the Panama Canal, Samoa, Fiji Islands, New Caledonia, New Guinea, Australia and scores of out-of-the-way islands in the South Pacific with their savage peoples, customs strange ceremonies, and modes of living, are the most novel and comprehensive ever shown on the screen. It is a picture that will not only entertain and thrill, but it is instructive as well. Its great novelty will delight every movie fan. Also Single Reels, Cameo Comedy "Heads Up," Hodge Podge reel "Speedville."

NEW ARRIVALS IN THIS DISTRICT

Families of English Settlers Arriving Weekly to Take up Farms Under the Soldier Settlement Board—Five Families Arrived Already—More to Come.

On Monday T. C. Brantford, an English War Veteran arrived in Hartland having been assigned to a farm near Waterville. This arrival makes the fifth so far this season and there are 15 altogether expected for this district. These "new settlers" are all British War Veterans and are coming out to this country under the Soldier's Settlement Board.

Mr. Brantford has quite a war record, having won his commission on the field and was a prisoner of war for two years. After the war he was attached to a regiment in India and after the strength of the army was reduced he returned to England, since his discharge from the army he has been a teacher in one of the schools in England and is altogether a most capable man.

It is hoped that with the exodus to Detroit making such terrible inroads into the ranks of the farmers of this vicinity that the people who are left and the ones that come to us from foreign countries will enjoy a great measure of prosperity during the coming season. The ones that are leaving daily for Detroit may find that things are not as they are pictured by the ones already there.

Many are the glowing reports that come from the United States and it certainly is strange how the men that go from Canada are always able to find work when there are so many in the States already that are of native birth that cannot find work and are classed as unemployed. There is bound to be a snap-back and when it comes there are a great number of the Canadians already in the States that are going to be without employment. The Observer wishes all the strangers that come to our district to work the farms the very best of luck and we trust that they will be welcomed with open hands by their neighbors. It is up to the people that are here to see that the ones coming across the water receive the best we can give them. They mean to work and it is up to the farmers who are here to give them every assistance that they can. We need them and they need us, so there can be no better motto than that of "Co-operation." New Brunswick needs settlers and we are getting a good class of people. Then it is up to us as citizens of this Province by the Sea to see that these settlers that come to us are treated in the right manner.

CHARLESTON

Charleston N. B., April 6—Arthur Fever was in Deerville on Saturday to see his father, Walter Fever, who is quite ill.

Donald Holmes and Wm. White have been helping Robert McLean saw wood.

Wm. Shaw has sold his farm and has moved to Peel. There is a rumor that one of our old neighbors is to return and reside on the farm previously occupied by Mr. Shaw.

A great many people are suffering from a severe attack of la grippe. It is said to be equal to that of the influenza of previous years.

Miss Dora Prior spent the week-end with her parents, Mr. and Mrs. Frank Prior, Williamsburg.

Miss Teresa Crouse who has been in the Aroostook Hospital, Houlton, for the past week, has returned home in a much better condition. We hope that she shall continue to gain.

John Rice spent Sunday evening at James Bradley's, Williamsburg.

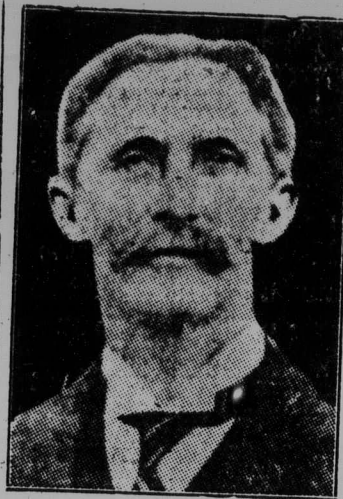

D. T. Rice and W. C. Gilland loaded a car of No. 1 hay last week at McEgan Rd.

A farewell party was held near here on Saturday night for Mrs. E. Crab, who is leaving in the near future for Detroit. Those present reported a splendid time.

Charles Gaffney spent a few days last week with his grand-parents, Mr. and Mrs. Chas. Gardiner.

FIRE SUNDAY MORNING

The house occupied by Mr. Edward Moore was the scene of a slight fire Sunday morning. The fire caught in the roof, presumably from the chimney. The fire was soon extinguished by the fire department. The damage was slight.

PRESENTED WITH PURSE OF MONEY

Rev. J. M. Mallory was Presented With Purse by Friends, Before Leaving For Detroit.

Last Saturday evening about thirty-five friends of Rev. and Mrs. J. M. Mallory met at the latter's home to bid him farewell. Mr. Mallory left for Detroit with a party on Monday.

The evening was enjoyably spent singing old-fashioned hymns, and Mr. Charles Ebbett after making a very fitting speech, presented Mr. Mallory with a purse of money.

Rev. Mr. Woodworth read a passage of scripture, which was followed by prayer by Rev. Mr. Mallory.

While away Mr. Mallory expects to visit his brother, Thomas, who is now living in St. Thomas, Ontario also his sister, Mrs. G. Schofield in New York.

Mr. Mallory has not seen his brother for thirty years.

HIGHGATE

Highgate, N. B., April 4—We are all very sorry to hear that our teacher, Miss Ruby Ship, has the mumps.

Mrs. Thomas Clark spent a few days of last week with her sister, Miss Hilda Hartin of Cloverdale East.

Miss Lulu Stewart is night nurse for Eddie Weston for the present.

Mrs. Thomas Stockford was calling on her daughter, Mrs. Edwin Weston Wednesday night.

Miss Hilda Hartin has returned to her home in Cloverdale East after spending the winter with her sister, Mrs. Thomas Clark.

Beecher Stewart and Thomas Clark were pleasant callers in town one day last week.

Mrs. James Chandler underwent a serious operation at the Fisher Memorial Hospital in Woodstock recently.

Harold Weston was a guest of his grandparents, Mr. and Mrs. T. Stockford last Friday afternoon.

Dr. W. O. Chestnut and Rev. W. P. Haigh were callers at the home of Edwin Weston recently.

Rha Stockford who has been on the sick list for the past few days is recovering slowly.

Rev. O. W. Shaw and Mrs. Shaw took tea with Mr. and Mrs. Thos. W. Stockford Friday last.

HARTLAND TOWN COUNCIL MEETS

Meeting Held Monday Night to Settle Unfinished Business of Previous Meetings—Discussion on Tenders for Town Positions—Laid Over Till Next Week.

The regular monthly meeting of Hartland Town Council was held on Monday evening in the town hall. Mayor Boyer in the chair. Councilors H. R. Nixon, H. H. Hatfield, C. W. McQuarrie, Warren White, A. Y. Dickinson, W. B. Nixon were present. The clerk read the minutes of last regular meeting and the several special meetings that intervened and all were approved with one addition.

The reports of the various Town Officials were then heard and the Treasurer, Town Marshall and Chairmen of standing committees made their reports. Reports accepted. The various departmental reports were read and ordered paid by the Clerk subject to O. K. of Chairmen of various committees concerned.

The Clerk then read letters from Mr. Tompkins and Frank Clark re assessment. Moved and seconded that Mr. Tompkins be refunded amount asked and that the request of Mr. Clark be held until it had gone through the regular procedure.

The next item on the programme was consideration of tenders for various town positions. After considerable discussion it was moved by H. H. Hatfield that the Council hold a special meeting on Monday the 13th, to discuss the various tenders. Carried.

Alderman Warren White of the Finance Committee made a report in which he spoke of borrowing \$15,000 from a gentleman in town who had money to lend the town at the rate of 5 1/2 p. c. interest until the new bonds were ready. The gentleman who made the loan to have the first choice of the new bonds. Moved by Alderman White that the Mayor and Town Treasurer negotiate a loan of \$15,000 with this party at the rate of 5 1/2 p. c. to mature on June 31st. The money thus borrowed to be placed in the bank to reduce overdraft, and later to be replaced by a new bond of the town, the choice of bonds to rest with the person lending the money. Carried.

Committee appointed to call for tenders for roofing the reservoir. Council then adjourned.

WOODSTOCK AUTHOR HAS BOOK PUBLISHED BY BRITISH FIRM

Dr. G. Fred Clarke of Woodstock, who had already made quite a name for himself in the literary world, has just received word from London that his latest book, "The Magic Road" will be bought by Mills and Boone, one of the biggest book publishing houses in Great Britain, during the present year. This well known firm buys the book as the best book of the year by a new author.

Dr. Clarke is no Detroit devotee, the scene of the book is laid along the St. John River, the sentiment is thoroughly and even aggressively Canadian, and, for the sake of our reputation, it is to be hoped that the book will be bought by New Brunswick readers, at least as willingly as they purchase the works of American authors with the scenes laid in the United States and the eagle screaming on the fourth of July on every third page.

Dr. Clarke has served a long and arduous literary apprenticeship and he richly deserves the remarkable success which he has attained.

Paints and Varnishes for Perfect Protection

Economy and Beauty are in them

"How attractive will it look—how far will it go—how long will it wear?" are the questions to ask yourself when selecting a paint. Beauty, and with it, covering capacity, durability and economy! These are the things to seek. B-H English Paint gives them all.

B-H English Paint is typically a Canadian paint. It is proof against our climate. Extreme heat, driving rain, howling wind, scorching sun and

the dry atmosphere of artificially heated interiors leave the beauty of B-H English Paint untouched.

Use B-H English Paint. It is the best that money can buy, therefore cheapest in the long run.

B-H products supply every surface-saving need—painting, staining, enamelling, varnishing or tinting. Use them for the beauty and protection that is in them. Use them and save money.

Greer's Motor Mumbles

THE "VAC" IN THE VACUUM SYSTEM

One of the modern and least understood parts of the car is the vacuum system. The average owner knows nothing about its interior or how it works.

The pipe running down the left of the tank goes direct to the intake manifold (when the vacuum tank is attached to the dash) the pipe to the right directly to the main tank. The main tank usually situated at the rear of the car, to the vacuum tank. The pipe at the bottom of the tank feeds the gasoline to the carburetor.

Internal repairs to the various parts of the vacuum tank are not often necessary. When the tank is suspected of causing any trouble, the fuel must be drawn from it. If more than one-sixth of a quart comes out the tank is performing its functions properly.

If the engine is run at low speed with the throttle open for a long time, the vacuum may be reduced so fast that the tank will empty itself. This condition may be produced by foreign matter choking the feed tube from the main to the vacuum tank. Running the engine with closed throttle for a few minutes will give suction enough to fill the tank.

In case the float valve sticks, causing an overflow of gasoline from the tank, the inner shell can be removed by taking out eight screws in the top. The tank may be filled with fuel and used as an ordinary gravity system so that the driver can get to the nearest garage.

If the vacuum tank ever becomes empty, it may be filled by closing the throttle and turning the engine over a few times. If the tank has been empty for some time and refuses to fill easily there is probably some dirt or grit under the flapper valve. In this case squirt a little gasoline into the tank through the plug in its top which is easily removed.

To save yourself possible trouble with the vacuum tank through neglect it is a good plan to remove the plug at the top and flush it out about once every three months, at the same time drawing off any sediment or water that may have collected at the bottom of the tank by opening the petcock at the bottom.

Even then the vacuum tank will sometimes fail to work properly and if the tank should happen to refuse to function there is still a way to get home, even though cannot find the trouble. Remove the entire top of the vacuum tank, buy a can of gasoline and use it to fill the vacuum tank. Then run the car on this supply. When it is exhausted refill it again.

OBITUARY

JOHN F. EVERETT

This community was saddened and shocked on Wednesday afternoon, March 25, when word went out that John F. Everett of Waterville had passed away.

Mr. Everett had been suffering from the flu, but was not considered serious and had not kept his bed but on Sunday afternoon about one o'clock while conversing with his family and some friends who had come to spend the day, he was suddenly stricken with paralytic stroke from which he never recovered, and about four o'clock in the afternoon, Wednesday, he passed away.

Mr. Everett was at one time a well known business man but on account of failing health he has for a number of years carried on farming with his son.

He was 57 years, 8 months old and is survived by a sorrowing wife and one son Louis at home, and one daughter, Erma, wife of Carl Culbertson of Waterville, also an aged mother who resided with him and two brothers, Wilmot and Walter and two grandchildren.

Funeral was at the U. B. Burying Ground here and services were conducted by Rev. A. Lyons, pastor of that church.

The large number who came over the bad roads to be present at the funeral services, testify to the esteem in which he was held by those who knew him.

He will be much missed both in the home and the community in which he lived.

MRS. WM. S. PRYOR

On Saturday morning, March 28, at an early hour, Mrs. Wm. S. Pryor passed away at Good Corner after a few weeks' illness of paralysis, aged 73 years, 5 months. She leaves to mourn three daughters, Mrs. Joe F. Anderson, who cared for her, Mrs. F. A. Ritter of Bridgewater, Me., and Mrs. A. B. Ritter of Good Corner, one sister, Mrs. G. F. Merrieth, of Centerville, and a host of friends. Mrs. Pryor was a woman of quiet, kindly disposition held in high esteem by all who knew her. Nearly fifty years ago she came as a bride to the place that has ever since been her home. She accepted her Saviour in her younger days and remained a consistent follower until the end. The floral offerings were as follows: spray of carnations, the Family; flat bouquet, white carnations, Mrs. Merrieth; lilies, Mr. and Mrs. Howard, Mr. and Mrs. C. O. McKinney, Mr. and Mrs. Li, A. London; bouquet, Mrs. Besse Campbell and Miss West; lilies, Mrs. Rose Clark. The funeral service was conducted by her pastor, Rev. H. R. Bell, who spoke from the words "and we all do fade as a leaf," Isa. 64:6, after which her body was laid to rest in the Baptist Cemetery Centerville.

LOWER WAKEFIELD

Lower Wakefield, N. B., April 3—Wood-cutting seems to be the order of the day.

A COMBINED BANJO AND MANDOLIN PATENTED

(From Canadian Bureau for the Advancement of Music, Ryrie Building Toronto.)

A patent, it is learned from "Music" of London England has been taken out in France under which two instruments a banjo and a mandolin are combined in a single instrument the characteristic tone of each being preserved without alteration being made. It suffices to simply turn the instrument in a half-circle to change from one to the other. The amateur or professional who has one of these instruments, says the patentee, can charm his audience with the sweetest airs on the mandolin side of the instrument, and then make them dance to the sound of the banjo.

WHAT WM. PEACOCK, ASST. SECY. TREAS. POTATO ASSOCIATION OF AMERICA SAYS

THE ECONOMY OF PLANTING CERTIFIED SEED POTATOES

Good seed potatoes produce larger yields, tubers usually more uniform in size and shape, and the demand for such stock is better and consequently brings higher prices than that raised from common seed. It never pays to plant poor seed for such is always dear at any price.

Why plant from 12 to 15 acres of potatoes with ordinary seed if the same number of bushels of a better quality can be grown on 10 acres with certified seed? The writer can refer to authentic reports to justify the above statement.

It has been learned through crop surveys and farm cost accounting methods that approximately 100 hours of man labor and the same number of hours of horse labor are required to produce an acre of potatoes. Furthermore, horse labor means the use of equipment and planting, spraying and harvesting machinery are expensive; also, it takes more seed and fertilizer to grow from 12 to 15 acres than 10 acres of potatoes. With these facts in mind it should not be difficult to figure whether it is more economical to plant certified or common seed potatoes.

Seed potatoes as well as commercial stock of the 1924 crop have been selling at low prices. Potato growers who have been planting ordinary seed, or who have had good seed which has become diseased, or who wish to grow a larger yield of potatoes per acre and of a better quality, should take advantage of the opportunity to buy seed at the present prices. Growers who live in a region favorable for good seed production and who can not financially buy enough seed for their 1925 commercial stock, should purchase enough certified seed for foundation stock even though they do not wish to produce certified seed for sale, and not wait till the last moment because the supply may be exhausted at that time.

Modern Advertising Methods

The Observer today invites a careful scrutiny of its advertising pages, believing that in them will be found something of more than passing interest to every reader.

Today The Observer inaugurates a new advertising service—one which the publisher believes will not only help him in the way of building up a more profitable business but one which will prove also of great value to every business man in this county and to the general public as well.

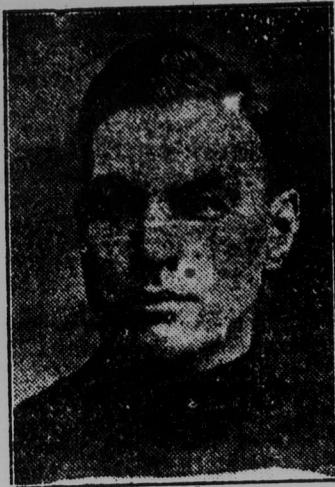

In the business life of every community the interests of each individual are more or less interwoven with the interests of the community as a whole. The man without capital has a better chance to succeed in a live, prosperous town than he can possibly have in a dead, unprogressive town and by the same token the modern, up-to-date business man can achieve greater success in a community where the people who patronize him have money to spend and where they know that they can get what they want when they want it at prices and on terms equally satisfactory with those they can secure in any other town or city in the country. In order that the people shall know these things, however, some means must be provided for the business men to get the information to them and that newspapers are the best medium for the purpose has been demonstrated by the most successful business institutions in the country as to permit of no argument.

In common with other lines of commercial activity the advertising business has been developed within the last few years into a system that closely approaches a science. Experts, men who by years of experience and study, have demonstrated that they are qualified to produce advertising ideas that will get results for the business men who employ them, are, in a way, directing the advertising business of the entire country and their knowledge and the results of their experience are now available to every progressive newspaper in the country and through them to every advertiser.

The policy of The Observer has been and will continue to be, that of SERVICE to the community that supports it and in keeping with this policy the paper has secured an advertising "sales service" from Bonnet-Brown of Chicago, one of the very foremost concerns in that line in the United States. Through the use of this service, The Observer is able to place at the disposal of its advertising patrons the very latest developments in advertising cuts, borders, ideas and suggestions. The service does not mean any "hand-me-down" "ready to run" advertisements such as some ad writers sell to business men at big prices but it offers up-to-the-minute cuts, suitable for practically every line of business, borders and designs which feature almost any article the merchant may wish to offer at that particular time, and advertising ideas and suggestions of value to every man who wants an attractive, business-getting ad.

The service comes to us every month, that for April is now on file at The Observer office and advertisers are invited to call at their earliest convenience, look them over, and make selections. Don't wait for our advertising man to call. We are pretty busy and he may be delayed.

If the old-fashioned, sloppy, change-once-every-few-months method of advertising without cuts or other attractive features paid, certainly a modern, attractive, up-to-the-minute system such as we are now able to offer you AT THE SAME PRICE will pay you better.

AWARDED LADY BYNG TROPHY
For showing the best combination of effectiveness with good sportsmanship, Frank Nighbor, of the Ottawa Hockey Association, will be awarded the Lady Byng Trophy this year. Nighbor was the player in the National Hockey League, who was adjudged to combine these two qualities in the most striking manner during the hockey season just ended.

AROOSTOOK JCT.

Aroostook Jct., N. B., April 7—On Wednesday, April 1st, an interesting address was given by Miss E. Nutter, demonstrator, and her assistant, before the ladies of the Aroostook Women's Institute. Miss Nutter not only interested her audience but also demonstrated the proper methods which should be adopted in order that women could make their own dresses. The meeting was a decided success and of the greatest interest to the ladies of Aroostook.

On the same evening "All Fools Day," the members of the Aroostook Lodge No. 112 I. O. O. F., were honored by a visit from the Grand Master of the Maritime Provinces, the Rev. C. W. Whitman of Windsor, N. S. About 30 members assembled and listened with great attention to the interesting address given by the Grand Master, who spoke on the objects and principles of Oddfellowship, and dwelt at some length on the Home for Aged and Orphan children of Oddfellows which has been established at Pictou, N. S. Several of the members present also addressed the meeting after which the Lodge adjourned in order to partake of an oyster stew, with tea and coffee, which had been provided by Mrs. Estey aided by a committee, and a splendid supper was enjoyed by those present. The Grand Master left the next day for Fredericton and Nashua.

Mrs. N. C. Turner has left for her home in Fredericton to spend Easter. Mrs. W. Giberson left for her home in St. Stephen on the 4th after paying a short visit to Mr. and Mrs. S. Burt.

Mrs. Ludwig of Houlton, Me., arrived on April 3rd, on a visit to Capt. and Mrs. Hopkins, after visiting her parents, Mr. and Mrs. Tom Hoyt at Edmundston.

The Union Guild met at the home of Mrs. Herrigan on April 3.

Engineer and Mrs. Dubay have returned from Edmundston where they were called on account of the death of Mr. Dubay's niece.

Mrs. Kerrigan has returned home after spending a week with her sister, Mrs. A. E. Niles.

Mrs. J. H. London made a trip to Fredericton recently.

On Tuesday evening, March 28, a food and fancy sale was held in the Union Hall in aid of the Baptist building fund, over \$60.00 being realized.

The Empress Rebecca Lodge of Aroostook held a social evening last week in honor of Miss Anita Estey, who is leaving shortly to reside in Lawrence, Mass.

The engagement is announced of Miss Vivian Hatheway, daughter of Mr. and Mrs. G. D. Hatheway of Aroostook, to Mr. Arthur E. Boone, son of Mr. and Mrs. Dow S. Boone, of Aroostook, the wedding to take place on April 15.

Mr. Dow S. Boone, car foreman of the C. P. R., who broke two or three bones in his foot on March 14, is doing well and expects to resume work next week.

Engineer Harry Camp of the C. P. R., Woodstock, was superannuated on April 1st. Engineer Camp entered the service in 1887, and his many friends hope that he will live many years to enjoy his pension after so many years of faithful service.

The men of Aroostook are getting uneasy as the ladies are getting restive and are showing every indication of an attack of the house cleaning business. The poor men are losing treasures accumulated during the past year, old hiding places are rooted out, and the suffering caused by makeshift meals, all caused by that insidious germ, "spring fever."

Heal It With Zam-Buk
To dress any Cut, Bruise, Burn, Scald, or Scratch with Zam-Buk means that pain is soothed away—that injured skin is instantly protected against poisonous germs—that natural healing is hastened. Even wounds that have taken "bad ways," and obstinate cases of Eczema, Psoriasis, Ulcers, Ringworm, and Piles, are all successfully treated by this wonderful herbal balm.

The concert given on Friday evening in the Neighborhood Theatre by Mrs. Minnie Bell Adney and Pipe-Major McDonald was very well-attended. The program given was made up of both vocal and instrumental music and several humorous sketches. Major McDonald's singing of Scotch songs was much enjoyed; he was dressed for the part in kilts and his playing of the bagpipes pleased the youngsters, as did also a number of humorous songs by both of the performers. Mrs. Adney gave a number of classical piano solos in a finished manner which a large portion of the audience would have been glad for the privilege of enjoying had not the order of the younger portion of the audience been so disgraceful. It really seems a pity that people who pay their good money to hear an entertainment that that privilege is hindered by unfairness. This same thing happens frequently and it seems that it might be helped if the young people were taught the good manners of keeping quiet during the parts of a program that does not appeal to them so that those that wish to listen might do so. This also might be helped if the proprietors of the different auditoriums would exercise their influence a little more.

FACTS ABOUT TEA SERIES—No. 2

Tea Production Today

If the Chinese, who first discovered tea, had realized the possibilities of the trade and had studied the nature and requirements of the plant, China might still be the largest tea producing country. Centuries of neglect, however, stunted the growth and caused the quality to deteriorate. In the mountains of Ceylon and India, tea was found to flourish. Scientific methods of cultivation and manufacture were introduced with remarkable results. Now the finest tea grown in the world and by far the largest quantity comes from these countries. "SALADA" is mainly blended from flavory India and Ceylon teas.

GOVERNMENT REPORT
ON INTENDED ACREAGE
OF POTATOES IN 1925

Decrease of 4 Per Cent From Last Year in Irish Potato Plantings is Indicated by Statement Issued by Department of Agriculture.

Washington, D. C., April 4.—Potato growers are planning to reduce the acreage of potatoes for the country as a whole to 4 per cent less than in 1924, according to the Department of Agriculture in a report issued late last week. Such an acreage would be the lowest since 1908, but only slightly less than the low acreages of 1916 and 1919.

Should present intentions be carried out and a yield equal to the average of the past ten years (100.6 bushels) be secured, a production of 354,000,000 bushels would result. Should a yield be secured equal to the present trend of yields, as apparently influenced by the great improvement in the average quality of seed potatoes (approximately 109 bushels), a production of 383,000,000 bushels would be the result. A crop of 354,000,000 bushels would be the smallest since 1919; of 383,000,000 bushels the smallest since 1921. Last year's bumper crop was 455,000,000 bushels.

The major portion of the intended decrease in acreage is reported in the 19 surplus, late producing states, where a decrease of 7 per cent is intended. The late deficit producing states report an intended increase of 1 per cent. Early and intermediate states show as a whole a 1 per cent decrease, but the Atlantic group shows a decrease of 8 per cent, while the Mississippi Valley group shows an increase of 8 per cent.

If growers' present plans are followed out, the outlook for marketing the 1925 crop in the Atlantic States is therefore more favorable than in the Mississippi Valley states. In the west contemplated decreases in the two principal states of Colorado and Idaho are more than offset by intended increases in the balance of the territory.

PRELIMINARY REPORT ON THE EARTHQUAKE OF FEB. 28, 1925.

The data given in this preliminary report were gathered during a trip of investigation covering the north shore of the St. Lawrence between Quebec and Murray Bay, the south shore from Levis to Trois Pistoles, and the Lake St. John region as far east as Ha Ha Bay. The two chief objects were the listing of evidence indicating the epicentre, or origin and an examination into the truth of the reports of damage sustained. The first object has been attained in a tentative way, and the second fairly definitely for the area concerned.

Without going into details it may be said that at present it is thought that the epicentre is in the mountainous region near the eastern boundary of the Laurentides Park. However that section of the country is practically inaccessible at this season and data can be better gathered there later, if promised reports from lumbering companies, together with other information already accumulated or still to come should not serve to settle the question definitely.

The fact must be recognized that considerable serious damage was done at several points; on the other hand, many of the reports were exaggerated and some were pure inventions. The damage was not so much a function of the distance from the epicentre as of the nature of the ground and the character of the buildings. The major damages described in more detail below were at Quebec, Shawinigan Falls, Malbie, St. Urbain, and the district near the Riviere Ouelle. They were in no case widespread or general, and applied in most cases to massive stone structures, without steel reinforcements, such as churches. Minor damages, such as falling of chimneys and breaking of windows, were somewhat more common. As the character of the ground was more rocky or the distance from the epicentre was greater the minor damages were limited to those caused by falling pictures, statues, bottles, etc. When the damage was relatively serious the ground was found in every case to be sand or clay, usually on the side of a hill.

As in the case of all earthquakes of any considerable intensity, the main shock has been followed by a series of minor ones which are still felt at intervals. Earthquakes have occurred before in this region, the last severe one about half a century ago. Now that the accumulated stresses have, in all probability, been relieved, there is no occasion to anticipate further serious disturbances during the present generation. As an insurance for posterity, however, it would be well to pay some attention to location and methods of construction of new buildings. Where these are massive, and of stone or concrete construction without reinforcement by steel girders, it is preferable to have the foundation on rock or other solid substratum. Wooden or steel reinforced buildings are safe.

The major damages noted are as follows: At Malbie the Charlevoix Palais of Justice was severely shaken and the walls cracked. About two miles farther east an old manor-house was badly damaged. Both these buildings are of massive stone construction and both stand on sand and on or near a slope. Other buildings in the same region much less solidly built, but standing on rock, were not damaged. The church at St. Urbain is very old. He was so badly broken that it is now being torn down. It stood on sand but on a plain. The church at Riviere Ouelle is also wrecked. The stones in the adjoining graveyard are nearly all levelled.

There are two old stone houses within about a mile of this church which which have been abandoned since the earthquake. The west wall of the C. N. R. station at Riviere Ouelle was wrecked. Some damage has been done to the walls of the station houses at St. Pamel, Ste. Anne de la Pocietiere, and Ste. Louise, but these might be listed as minor damages.

At Quebec the grain elevator and Shed 29 at the harbour were badly damaged. As these structures are very heavy and were necessarily built on soft soil of considerable depth close to the river, it is not to be wondered at that ground settled slightly, that the concrete work was cracked and the steel columns of the displaced. At the Palais Station, Quebec, some slight damage was caused by the quake, the top rows of bricks in the layers of the north wall of the waiting room being dislodged and some of the glass in the sky-lights broken. At Shawinigan Falls, St. Mark's Cathedral transept wall was broken, the solid brick wall falling to the south-east. The walls of several houses on Hemlock street were also broken. One fell completely and others partially. These houses are on a sandy soil and are built on the slope of a hill. Some damage was

Toronto Mother Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I have found Lydia E. Pinkham's Vegetable Compound a splendid medicine to take before and after confinement. A small book was put in my door one day advertising Lydia E. Pinkham's medicine, and as I did not feel at all well at the time I went and got a bottle of Vegetable Compound right away. I soon began to notice a difference in my general health. I was full of aches and pains at the time and thought I had every complaint going, but I can truthfully say your medicine certainly did me good. I can and will speak highly of it, and I know it will do other women good who are sick and ailing if they will only give it a fair trial. Lydia E. Pinkham's Liver Pills are splendid for constipation. You are welcome to use my letter if you think it will help any one."—Mrs. HARRY WESTWOOD, 543 Quebec Street, Toronto, Ontario.

The expectant mother is wise if she considers carefully this statement of Mrs. Westwood. It is but one of a great many, all telling the same story—beneficial results.

Lydia E. Pinkham's Vegetable Compound is especially adapted for use during this period. The experience of other women who have found this medicine a blessing is proof of its great merit. Why not try it now yourself? C

also reported at the Aluminum plant but these were not time to investigate this. No major damage was done in the Chicoutimi region.

If we class as minor damage such things as falling chimneys, broken panes of glass, the throwing down of bottles, packages pictures, etc., we find this sort of thing most common at Riviere Ouelle with close seconds at the adjoining parishes on the south shore as far down as Riviere du Loup and at Baie St. Paul to beyond Tamoussas on the north shore. At Chicoutimi it was difficult to find anyone who had observed anything falling. Only a few cases were reported there and at Port Alfred.

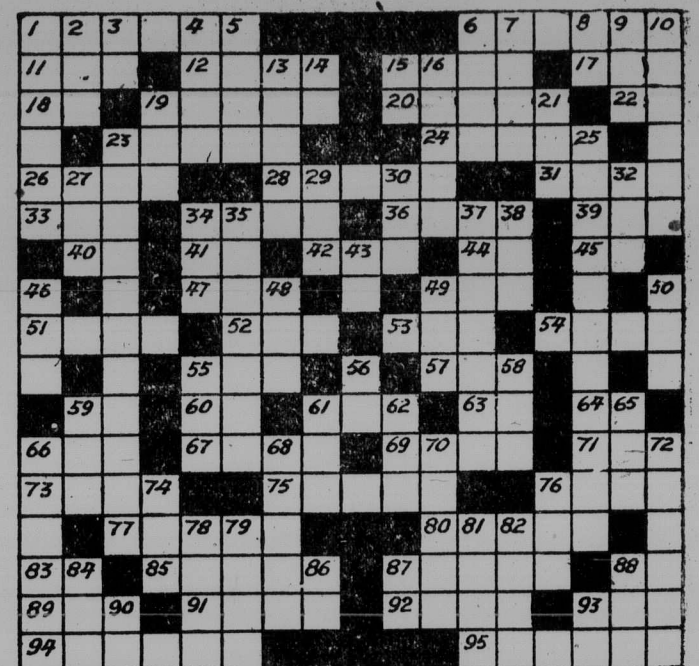

The following reports were found to be untrue: The church at St. Hilariion did not fall nor was it damaged. The fires at St. Felician and Hebertville Stn., were both burning before the earthquake. The \$10,000 fire reported to have occurred at Ste. Anne de la Pocietiere never happened at all. The reports of extensive damage at the Church at Baie St. Paul are grossly exaggerated. There was no damage to the churches at Pointe au Pic or Baiba although a statue in the churchyard at Pointe au Pic fell at the time of the quake. The reports that one death occurred at each of these points, Ste. Anne de la Parade, Quebec, Chicoutimi, and Tadoussac, were probably true but they are no indication of the intensity. Death in each case was reported due to shock. So far as can be learned not the slightest harm was done to any person physically by the quake other than in one case where a child was cut by a falling picture at Quebec. If any other casualties occurred they were not heard of during the trip. The report was that river level

It may be remarked that information is still being accumulated from all over Eastern Canada and reoperation has been arranged for from scientific institutions in the United States. This will take considerable time to correlate. Seismograph records and reports from at least all Europe and America will have a bearing on the final deductions. It is proposed in due course to issue a complete report as a publication of the Dominion Observatory.

Greenfield, N. B., April 4—Wedell Greene, who has been visiting his sister, Mrs. Ernest Smalley of River Bank, has returned home.

Mrs. Jack McLean of Washburn and Mrs. Robert Wakem of Presque Isle, spent part of last week with Mrs. John Wakem of this place.

Miss Eva Hiseock of Digby, N. S., is spending a few days with relatives here.

Mr. and Mrs. Reuben Kilpatrick are receiving congratulations on the arrival of a ten-pound boy.

The people of this community were shocked on Thursday last when news came of the sudden death of Jerry Wakem, youngest son of the late Mr. and Mrs. Robert Wakem, which occurred at his home in Boston, Mass. Mr. Wakem was born in Greenfield and was 43 years of age.

He went to Boston about twenty years ago where he has lived ever since. The remains were brought here on Monday and interment was made in the family lot at Greenfield on Tuesday. Funeral services were conducted at the St. Barnabas church by the Rev. E. Bridgewater. He leaves to mourn his wife, three children, three brothers, and four sisters.

Mrs. George Lamoreaux spent Monday and Tuesday last week with friends in Contreville.

Mr. and Mrs. Eldon Estey and family have moved to Florenceville for the summer.

Mrs. Wiley Grant and daughter Shirley of Kilburn are visiting Mrs. Grant's mother, Mrs. Martha Kilpatrick.

Robert McKay left on Thursday last for Detroit, Mich.

ANDOVER

Andover, N. B., April 5—Mr. Burton Moore, left last week for Philadelphia Pa., where he will show his moving picture of "Animal Life and Scenery on the Tobique," to several sporting men's clubs.

Miss Adelaide Stearns of Fort Fairfield was the week-end guest of Mr. and Mrs. Carl Delano.

Miss Eva Hiseock spent the week-end with Mr. and Mrs. Henry Baird. Miss Hiseock who has been spending the winter with relatives here and in Bairdsville will return to Digby, N. S. on Friday of this week where she has been employed for the past two years.

Mr. Harry MacAlary who has been in poor health for some time went for a few days of last week to Grand Falls Hospital. Friends will be sorry to learn that although allowed to come home he must remain in bed for some time.

Mrs. Carl Delano went to St. John this week to spend a few days with her brother, Mr. Howard Porter. On her return she will be accompanied by her mother who has been there for a month.

Sheriff and Mrs. James Tibbits leave on Friday to spend the Easter Holidays in St. Stephen and St. John.

Mr. and Mrs. Percy Bull have sold their store and property in town and expect to leave for the far west.

Miss Lawrence Oldtown was the week-end guest of Mrs. Annie Sloat.

Mrs. James Smith and little daughter Heater spent the week-end with Mrs. Smith's daughter, Mrs. Earle Barker in Carlingford.

Lockhart and wife of the first part, and the said executors of the last will and testament of said Benjamin Kilburn, deceased, of the second part and registered in the said Carleton County Re-

WORK ON PAPER MILL TO BEGIN IN NEAR FUTURE

Dickie Construction Co. of Toronto Given Contract and will Start Work with Disappearance of Remaining Snow.

The contract for the building of the paper mill at Madawaska, Maine, has been given to the Dickie Construction Co. Ltd., of Toronto. A representative of The Observer was told yesterday by one of the officials of the construction company that work would start on the construction immediately the snow was gone. He said there was practically no frost in the ground and that an early start would be made.

HAVE YOU TASTED THE NEW IMPROVED "G.B." COATING?

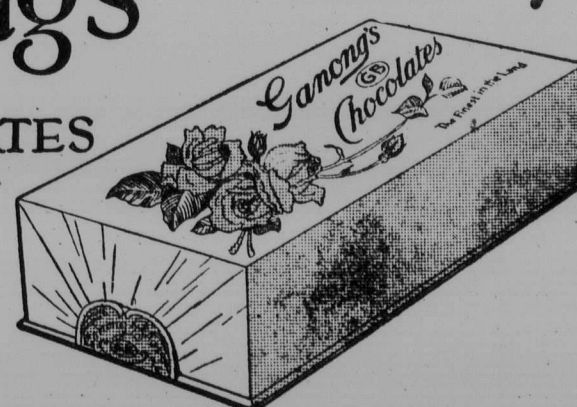

PEOPLE look for improvement in everything they buy to-day. Every year, for the past 50 years of candy-making, Ganong Bros. have aimed to make a good product better. But never before have they achieved such a triumph as in the NEW IMPROVED "G.B." coating. To over 130 different centres, it brings the touch of perfection. How exquisitely their flavours blend with that of the thick, mellow, full-bodied coating! Look carefully for the "G.B." mark on every piece, and on the box itself.

"Child's Eyelids Inflamed Stuck Together and Bled"

Mr. E. P. Kimball, Entwistle, Alta., writes:

"Our little girl from birth was troubled with inflamed eyelids and in spite of several remedies, grew worse until at the age of sixteen months her eyes could not be opened after sleep without bleeding, a waxy discharge sticking the lids together and adhering with great tenacity. The child's grandmothers were consulted by mail, and both responded with a little sample box of Dr. Chase's Ointment. These were used as directed, and lasted until we could obtain a further supply from Edmonton. Improvement was very marked from the first application. The waxy discharge was easier removed and did not reappear. Inflammation subsided and has not returned."

OBITUARY

OLIVER N. MILLER

Seldom has a home been plunged
in such deep and unexpected sorrow
as a community and the surround-
ing country to the West and grieved
as on Tuesday evening, March 31,
when the news was flashed over the
telephone that Oliver N. Miller, a
highly esteemed resident of Cornhill,
had passed away without a minute's
warning. Although he had suffered
more or less from heart trouble for
several years, his condition was not
considered serious and only a few
days before his death, he remarked
to his family that he had not felt so
well for a long time.

The deceased who was 59 years of
age, was born in Royalton, Carleton
County, and was a son of the late
Jervis Miller and Mary Foster Mil-
ler, both of Loyalist descent. He was
a man of sterling qualities, a good
neighbor and a devoted husband
and father. He was deacon of the U.
B. Church at Cornhill, and was in-
terested in everything pertaining to
Christianity. In educational matters
he was also deeply interested, being
one of the promoters of the Flo-
renceville Consolidated School and a
member of its Board of Trustees for
several years, which office he held at
the time of his death. In politics he
was a Conservative.

Those left to mourn are his grief-
stricken wife (who is a daughter
of the late Deacon G. C. Turner) and
three children: Mrs. Frank Paquin
of Haverhill, Mass., Carleton, living
near his late father's home, and Nor-
man at home; also one little grand-
child. Other near surviving relatives
are his brothers, Whitefield and
Earle in California, Anson of Houlton
and Sanford of Island Falls, besides
many nieces and nephews.

The deepest sympathy of the whole
community goes out to the bereaved
family.

The funeral, which was largely at-
tended by relatives and friends was
held from the home on Friday after-
noon the service, being conducted by
Rev. K. M. Vallis assisted by Rev. D.
R. Chown. The flowers were nume-
rous and beautiful, many of them
being contributed by relatives from
St. John, Victoria, Hartland, Houlton
and Haverhill, Mass. They in them-
selves bore silent but eloquent trib-
ute to the memory of the deceased.

The pall-bearers were Norman P. Mc-
Leod of St. John, Fred C. Squires of
Woodstock and Frank and Millard
Shaw of Middle Simonds. Interment
was made in Garrison Hill Cemetery.
