on the level of the ground, and of equal height, so that it is literally one large pavement of death-an appalling, almost an overwhelming sight .- Fraser's Magazine. Man's Indebtedness.

Man owes much to the atmosphere ; for it gives him pure air to bresthe; it carries away his bad gases ; it feeds the plants he requires as food ; and it wafts his ships from shore to shore. Man owes much to the ocean ; for it hands him sandstones, limestones, coal, ironstones, and precious metals ; it gives him sait and other saline matter for food : and affords him anchorage ground in his sojourn through space. Man owes much to plants ; for they suck in the nozious gases of the air, and make him food therefrom ; they give him wood and coal, cotton and linen, spices, perfumes, and medicines. Man owes much to animals ; for they aid him in his daily toil ; they afford him nourishment in its most condensed and suitable form ; they clothe him with material to resist the inclemenev of the winter; and they watch over his welfare during the dark hours of midnight.

And man owes everything to God, who governs all things, and has so ordained that the at mosphere, the ocean, the land, the plants, and the animals, should minister to his wants ; who lights up and guides each star in its course through space ; who watches over each drop (f water as it sejourns from ocean to sky, from cloud to earth, and from river to ocean again ; who directs each atom of gas and salt as they perform their endless circuit, from atmosphere and soil to plant, from plant to animal, and from animal to atmosphere and soil again ; who so alots each atom of matter, that, whilst all is in end-In 1853, Lieutenant Brooke obtained mud less motion, and forms part of a mighty circle,

July 21. and for a time mob law was supreme. Much

The fami'y.

To-day and To-morrow To-day I sit in my own loved home. With my head on my mother's knee: While she tells me tales of by-gone days, When she was a girl like me,

To-morrow I'll gaze at a vacant chair, And weeping call her dear name ; But my voice will resound through empty air, 'Ab, she'll never come again.'

To-day the child sits light on my knee, While I play with his golden hair, And watch the sunny smile of his lip, And his face the most wondrous fair.

To-morrow a rose so pale and white I shall clasp in an icy hand ; Another angel of shining light Will be walking that better land.

There's sunshine lighting my path to-day, And roses bloom under my feet ; To-morrow clouds will darken my way, And thorns will my footsteps greet.

Sunshine and shadows, smiles and tears, Fly swiftly over my life ; To-day I see nothing but beauty, To-morrow carnage and strife.

But God, who gives me the sunbeam, Is also behind the cloud -Though he smiles with me at the bridal, He will surely send me & shroud.

He gives me afflictions to teach me To conquer my sin and pride; To humble me low before Jesus, Who for me was afflicted, and died.

So while I am having the sunshine. May I be ready for showers; For clouds often hover about us; When brightness alone seems ours.

Cocoa and Cocoa-Nuts.

"Ben,' said little Etty Walker to her brothe The culture of it had been a source of great enat the breakfast-table one morning, ' I don't se joyment, and had given Susy much wholesome how they can get this nice cocos out of those hard cocca-nuts like the one we bought vesterhad led her into various similar enterprises, and day. Say, Ben, how do they ?" she continued by her tenth year she had a fine plat of Lawton impatiently, as Ben sipped his cocoa without an awering.

'I don't believe they do,' he said at length Ben always thought twice before he spoke, which is very good rule for fittle folks in general. "Why, yes,' said E ty, ' they must. Coco

cosco-nuts, it must come from the same tree.'

about cocos-nuts, Etty ? Etty explained the question.

Ben is right,' said Mr. Walker. 'The o is not one of its products."

Well,' said Etty, 'I don't, think those nut would only let me eat a little piece for fear it would make me sick.'

'Not so fast, my fittle girl,' said her father the nuts which you condemn so strongly are are very wholsome food in the countries where God has placed them, though I think myself they are to the family. not good for much as we obtain them."

· Father,' said Ben, will you please tell us what

it, and to substitute for it the more profitable act of repairing his fence.- Examiner & Chron, On Susy's sixth birth-day she had a press from Uncle Joe,s she did not prize very highly. Misspent Evenings.

PILLS ARE COMPOSED OF VEGETABLE EXTRACTS PREPARED IN VACUO; Superior to all Purgative, Cathartic, or Allera-tive Medicines in general use,

Which reders them very consensiont, and sell adapt-ed for children, and persons who have a dislike to take medicine, and especially pills Another great super-ority of Radway's Pills over all other pills in general use, is the fact of their wouderful medicinal strength, being highly concentrated. One to air of these pills will set more thoroughly, and cleanse the alimentary canal, without producing cramps, spasm, pilles, tence-mus, etc., than any other Pills or Purger - Medicine in use.

cocos-nut is used for P'

' There are few trees so variously useful,' reislands. The natives use the leaves for thatching their houses ; the thatch roof lasts a long time although you would not think it. Then from the fine fibres is made a nice and strong matting, which is quite an article of commerce in the East Indies."

'Why, yes,' said Ban, ' we have it on the floor of our school-room."

'Very true,' said his father. ' The coarser brooms, and potash is obtained from the asher. Then the trunk of the tree abounds in sap, which is obtained by climbing, and is a harmless cooling drink. It soon ferments however, and is then known as palm wine, and by distilling this a strong ardent spirit is obtained called arrack.'

'Why,' said, Etty 'we could almost keep house with one such tree !'

"But I have not told you all it's useful pro perties,' said Mr. Walker smiling. 'You could obtain your cups and bowls for house-keeping by dividing the nut-shells neatly, as the natives do. The outer husk of the nut is made into a very durable cordage, and from the put itself is all the damage they will do at present. They extracted a valuable oi!. Then, too, a poor quality of sugar is prepared from the sap, which I thought, perhape, you would like to send for pulpits are profaned by men " who look upor would be better than none ; and this boiled with quicklime makes an excellent cement. When the puts have attained their size they contain a soft, cream-like substance which in the West Indies is eaten with a spoon, with sugar and is thought a great delicacy.'

"O, I should think it would be nice !' exclaimed Etty. 'What nice things they do have in those hot countries !'

'No better than our Father has provided for us,' said her father gravely. ' It you were placad there for awhile perhaps you would be very glad to return to your own home.'

"But where is the cocoa obtained that make into drink ?' asked Ben

seeds. The pulp which incloses these seeds is good for food ; I believe it tastes something like various forms of chocola's and cocoa are prepar, ed. They are separated from the pulp and dried for sale.'

"We have shalls sometimes for breaktast, father, what are they ?' asked Ben.

. They are shells of these seeds, which are se parated by roasting them gently,' said his father. 'They have the taste of cocos, as you know, though much weaker. The seeds when winnowed from the shells and pressed, are called crackal cocoa nibs, and this is the purest form of the article. Other ingredients are added in making it into chocolate and cocoa- paste.'

'I wonder,' said Etty, ' who first found out all these things ?"

'I can tell you said her father, ' who found out the uses of cocos. The ancient Aztecs used

to prepare chocolate with great skill. The Spanish conquerors of Mexico were delighted with the beverage ; indeed, it was found so nourishing that a single cup of it, they said, would support a man through a day's march. They introduced the article into Spain, where its preparation was kept secret long afterward."

Etty, ' for I like a plenty of it.'

get over it." Well. I am glad it is not a secret now,' said "How came you to change your mind ?" " Well, I wanted to be able to ask a blessing 'You would agree with Linz mus in the name at dianer." he gave the tree, said her father, laughing. He called it Theobroma, which signified food for

I have precaution, the writer says that " water may be now done what I should have done last spring, druth in its coldest degree of temperature."-I have taken a couple of loads of rails, and One remark we quote: "Science condemns have made his fence so strong that no cattle can the use, particularly in hot weather, of all the

spirituous drinks, as brandy, gin and whisky .-Liebig and his followers give this as the reason Alcohol. the chief constituent of all spirituon

liquors; is mainly composed of carbon, which is He had asked a blessing at breakfast, that is, the fuel required by the body to keep up the he had gone through the form. He felt at the animal heat, In summer, of course, but little gods. Well,' he continued, 'I believe we have time, that his frame of mind was not a suitable of this fuel is required. If, however, a large done breakfast, and I think my little girl will one to approach God in. This led him to change quantity is supplied, there will be an excess, muta or of punishing Mr. Jessup, as some might call body without use, does harm in various ways.

Professor Reid .-- College of Pharmacy. THE GREAT PURGATIVE The celebrated Prof. Reid, of New York, Lectures and the output it the College of Pharmasy, styles Radway's Pills as "the Great Purgative," and the only Purgative Medicine safe to administer in cases of exbility, and in Erysipelas, Small-Pox, Typhoid Fever, Bilious Fever, their action being soothing, healing, cleansing, purifying, instead of griping, irritating, debilitating, and naussating. "After ex-amining these Pills," writes the Professor, "I fand them compounded of ingredients of GREAT PURITY, and are free from Mercury and other dangerous substances, and prepared with skill and ears. Having long known Dr. Eadway as a scientific gentleman of high attainments, I place every confidence in his remedies and statements.
