## MR. HAULTAIN IN THE FIGHT

Tried Friend of the Farmers is Retained to Prosecute Crookedness in the Grain Trade

Hon. F. W. G. Haultain left Monday evening for Winnipeg, to assist R. A. Bonnar as counsel for the Grain Growers in the prosecutions against certain members of the grain trade. The defence have about twenty lawyers watching their interests. These cases have arisen out of the disclosures before the grain commission respecting the conduct of the grain trade under the monopoly regulations of the Winnipeg grain exchange.

The preliminary hearing is taking place before Magistrate Daly at Winnipeg and the first case came up on Thursday last when the court adjourned to allow the prosecution to amend their information and prepared particulars demanded by the defendants. The magistrate ruled that the charges must be specific and the particulars given as in any other case and this is found to hamper the process of justice for while the monopoly is known of and while the conspiracy no doubt exists it is a difficult matter to prove it when the accused cannot be placed in the witness box.

However Mr. Bonnar has amended his information and the particulars have been finished; the cases are proceeding and he and Mr. Haultain will prosecute as far as the scope of the law will allow. Mr. Haultain is chief counsel for the defence.

It is stated from Winnipeg that the acquisition of Mr. Haultain by the complainants is regarded by those who are engaged on this side of the question as being a very great help to the prosecution. Mr. Haultain being rated as one of the best constitutional and advisory counsel in the Dominion, and one whose advice is much sought, and held in the highest respect by all who are conversant with such matters.

## COUNCIL'S FAREWELL

Last Meeting for 1906—Free Site for Army—Honorarium for Mayor

After high eulogies of the mayor from the aldermen, and after a kind farewell and much sound advice from his worship, the council of 1906 adjourned on Monday, since the most of the business of the evening consisted of sweeping up the corners and cleaning up generally.

**ARMY SITE.**  
A commendable act of the board was the granting of a free site of five blocks 35 to 39 in block 207 for an army shelter home. Prison Gate Officer Clark on behalf of the Salvation Army thanked the board for their generous consideration.

**HONORARIUM FOR MAYOR.**  
The business of the evening was disposed of when Ald. Cooper moved that the city vote the sum of \$500 to his worship as an honorarium in proposing this motion the mover referred to the sacrifices which the mayor had made for the city's interests, and expressed his appreciation of the mayor's services.

Ald. Sinton endorsed the sentiments of the mover of the motion and he testified his regard for Mayor McARA, whom he would not oppose as the first citizen of Regina.

The other two aldermen present, McAnis and Wright, were heartily in accord with the motion and expressed their appreciation of the services rendered the city by his worship.

In reply to these resolutions, the mayor thanked the board most heartily and was pleased that he was leaving the office with such good wishes and harmony. He believed that the board elect were broad minded men and such is the need of the city constitutional and advisory counsel in the Dominion, and one whose advice is much sought, and held in the highest respect by all who are conversant with such matters.

## ANOTHER HOTEL FIRE

The Alexandra Hotel called the fire department this morning about 10.30 and in a short time several streams were poured into

the basement where the fire originated, and although there was considerable smoke throughout the building the blaze did not assume large proportions and in a half an hour was under control.

The Smith & Fergusson business, which has been so closely associated with the development of Regina since the early days, has changed hands, the new management being T. W. and M. Peart, of the Western Hardware Co. The purchase price including the property is in the neighborhood of \$125,000. The Smith & Fergusson interests will retain the firm name and will carry on their coal business on Rose street, where Mr. Smith will proceed to build a large business block. Messrs. T. W. and M. Peart will take possession on Jan 15th. Mr. Smith stated to The West that the relief from business cares will enable him to devote practically all his time to the city's municipal interests during the coming year.

The Regina Relief Society being short of funds, respectfully appeals to a general public to assist them in their good work. At this joyous season of the year they would be able to bring joy to many homes if a little help were extended them by the citizens. Contributions sent to the president, Mrs. Bennett, Albert Street, or to the secretary, Mrs. Abbott would be gratefully acknowledged.

## KING'S HOTEL LARGEST EVER

Haslam Block to Accommodate Hotel and Bank—Ninety-eight Rooms

The largest hostelry in Saskatchewan is the King's hotel of this city, which will occupy a part of the ground floor and all the three upper stories of the Haslam block on Scarth street. This house will have 98 bedrooms.

A portion of the ground floor will be devoted to bank offices and the remaining space will be utilized for hotel purposes. The plans for the hostelry show a house well laid out with large bedrooms having every modern convenience and will be beautifully furnished. The dining room will be spacious and arranged entirely with a view to the prompt service and accommodation, and it will have an enormous seating capacity.

The front of the hostelry will be elaborate in every particular and will present a handsome appearance. The bar furnishings will be elegant. This hotel accommodation is badly needed as the recent fires have left the city without adequate facilities to offer the travelling public.

Work is being pushed as rapidly as possible but it will be some time before the new hotel will be ready for occupation. The cut stone front is however rapidly rising giving the building handsome features, and this block when finished will be a credit to the city and will be an accomplishment which Mr. Haslam might be justly proud of.

## APPEAL TO FARMERS

The Grain Trade and the Grain Growers are now fighting the greatest legal battle that was ever waged in Canada in defence of industrial freedom.

R. A. Bonnar and Hon. F. W. G. Haultain for the prosecution, and N. F. Hagel and twenty other lawyers for the defence.

The farmers are appealed to at this critical time, as their shipping interests will largely depend on the result of this case. Manitoba Associations are pledging assistance; what about Saskatchewan?

## NORMAL LITERARY

After a four month's course at the Normal school eighty-eight students assembled in their auditorium on Friday evening last when the literary society gave a farewell concert.

The chair was taken by Principal Perret who delivered an opening address. The first number on the program was by the Glee Club followed by a recitation by Miss Montgomery, after which Miss Kissett gave an instrumental solo. Mr. Green delivered an interesting address on an easterner's opinion of the west before and after residence. The most experience Miss Allen's reading was well received. Mr. Morrow spoke on "A Teacher's Forecast." He outlined some of the more preferable possibilities of the profession and referred to prominent Canadians in public life who had risen from their ranks.

## ADDITIONAL LOCALS

The O.P.N. have decided to reduce their rates from Dunsuir Jet. to McLeod on the Crow's Nest and from Dunsuir to Calgary on the main line, as well as the McLeod to Edmonton, Wetaskiwin branches from 4 cents per mile to three and a half cents, commencing with the first of the new year.

G. B. Reid, of the Imperial Bank staff, received word yesterday of the death of his mother at Barnet, B.C. The remains will be taken to Ottawa for interment, and are expected to pass through Regina today. Mrs. Reid was also the mother of Mrs. N. F. Devin, who with Mr. Reid will have the sympathy of their numerous friends.

Hawell Smith of C. W. Blackstock & Co. was married last week to Miss McLeod, daughter of Rev. T. C. McLeod of Sintulata. The ceremony took place at the home of the bride's parents, Mr. and Mrs. C. H. Blackstock of this city being among the guests. Mr. and Mrs. Smith have gone east for a wedding tour after which they will return and take up their residence on Lorne street in the house recently occupied by Dr. Black.

W. C. Sutherland M.L.A. of Saskatchewan was in the city Saturday last and went home on the first C. N. R. train. Mr. Sutherland has taken Harry Jordan into partnership with him in his law business, and he is also arranging for Chas. McEwan of Orangeville, Ont. to join the firm.

## ADVERTISING REGINA

In discussing Y.M.C.A. projects the Barre Evening News of Montana, says:

"W. M. Parsons, northwestern field secretary for the Y.M.C.A., writes by the association in Regina, Sask. that in 30 days \$60,000 was raised for building purposes, and it is expected that \$20,000 will be added to this amount before the campaign is completed. The city has a population of 9,000. Of the amount so far pledged three of the leading men of the community each contributed \$5,000, three men contributed \$2,000 each; one firm donated \$2,000 and 14 men donated \$1,000 each."

### THE RAILWAYS AND THE COMMISSIONERS

(From Toronto World)

Why should a farmer or manufacturer located at a local station have to pay more for the transportation of his traffic than one who is at a competitive point?

It has always been the policy of the Canadian railways to favor competitive points as against local territory; consequently the farmer or manufacturer located at a local station pays the relatively higher rates for the transportation of his traffic than his neighbor who happens to be situated at a station reached by two lines of railway. We contend that this policy is absolutely indefensible and that its continuation has done more to retard the growth and development of the country than any other influence, inasmuch as it prevents the expansion of trade and compels the farmer to sell his produce at home instead of giving him the benefit of markets farther away.

One of the prominent officials of a leading Canadian railway recently told the board of railway commissioners that they were compelled to haul through traffic on a relatively lower basis than they charged for local business, stating that if it were not for the through traffic they would be compelled to advance their rates on local shipments as there was not sufficient local trade to maintain their lines. Under existing conditions, this statement may be true, and will continue to be true just so long as the carrying companies stand in their own light. Let the Canadian railways give us the same facilities and the same rates for local business that they now impose on through traffic, and there will be such an increase in their local trade that it will tax their energies to the utmost to take care of it. Let them continue the low rates on through traffic—we have no quarrel with them for giving cheap transportation—but we should demand that our own produce and our own manufactured goods shall reach the markets of the world on as favorable terms as the commodities which they are hauling right past our doors, coming from a foreign country, and which are directly competitive with our own shipments.

We are told that our present pros-

perity is due to the carrying companies, and that if it were not for them we would still be in the back woods. "Look what we have done for Canada," is their cry, but they make no mention of what Canada has done for them. The railways are entitled to all the credit due them for what they have done. We have no fault to find with them on that score—it is what they have done to Canada of which we complain. The man who is in the habit of using that phrase, if he happens to be in an official position on the Grand Trunk Pacific Railway 20 years from this date, would not doubt say: "Look what the Grand Trunk Pacific has done for Canada," quite overlooking the fact that the Grand Trunk Pacific owes its existence to Canada and the Canadian people.

The province of Ontario has a large amount of money invested in the Grand Trunk and Canadian Pacific railways. True, we may not have any paper stock to show for our investment, but we are just as much entitled to a dividend on our money as the old country stockholder whose name appears as a shareholder on the books of the company. We are not anxious to have this dividend paid in cash, but it is surely not too much to expect some return in the shape of cheap transportation for our produce and manufactured goods.

We have no desire to hamper the great railway interest of the country, but, at the same time, we do not want the great railways interested to hamper the still greater industrial interests of the country. It should be the aim of the board of railway commissioners to protect and develop the commerce of this country, and to see that we are not discriminated against in the matter of transportation charges.

We should demand the equalization of rates from all portions of the province. There is no excuse for giving favors to one portion of the country, when such a course retards the progress of another section, which is equally deserving of protection, and the board of railway commissioners should see to it that no difference is made between local and competitive territory.

### MONARCH TOTAL WRECK

Heroic Effort of Brave Seaman on Canadian Lakes—Saves Crew of Doomed Ship

Port Arthur, Dec. 16.—The Monarch which went ashore on Isle Royale during the recent storm is a total wreck.

During the gale and snow storm the ship was driven out of the rocks, and she suddenly struck the rocks. In describing the situation the Times Journal says:

James McGillivray, a deck hand and a brother of the second mate volunteered to attempt a landing on a rope. A line was tied about his waist and he was lowered almost to the surface of the water. He was then swung pendulum fashion as far out from the boat as possible, twice he was thrown against the rock, but on each occasion his numbed fingers slipped on the icy surface and he was washed into the lake. Bleeding profusely and almost overcome from the cold, he made a third attempt, and the rope broke. It was thought, he was surely lost, but in some unaccountable manner the courageous sailor managed to grasp a ledge of rock, to which he clung until he had regained sufficient breath and strength to crawl to the top.

A ladder was then handed to him and a tow line thrown over. With the ladder he experimented comparatively little difficulty in climbing to the shore above the rock, and he soon made the rope fast to a tree.

On this line most of the sailors including Miss McCormick, and all but one of the passengers made their way, hand over hand, to the land.

Capt. Robertson stated that although he was less than a quarter of a mile off his course, he had absolutely no way of knowing that he was near the rock on which his vessel stranded. It was by sheer good fortune that the Monarch escaped being dashed to pieces on the dangerous Canon rocks in which event all hands must have surely perished.

The disaster was the third total wreck First Engineer Beatty has been in. He was chief engineer on the ill-fated Monkshaven which went down last November on the shore of Angus Island.

**LATEST TYPES OF WARSHIPS**

London, Dec. 13.—A plan is in contemplation to modify the existing boat carrying arrangements in British warships. The change, it is said, will be inaugurated in the design of the new dreadnoughts already under way at Devonport and Portsmouth. It has long been a complaint with naval men that the battleships and cruisers were lumbered with a number of boats that were never used at all.

A modern warship was virtually unsinkable from stress of weather,

owing to her numerous watertight compartments. Therefore she does not need these craft as a life saving provision or for the landing of military. The sixty-foot rocket boat will be retained as it is serviceable for torpedo attacks, having a speed of seventeen knots. The steam pinnace also will remain for the convenience of shore communication.

The keelplates of the new battleship of the Dreadnought type have been laid at Portsmouth dockyard, Dreadnought No. 2 will be an improvement in many respects upon the existing Dreadnought. It has already been reported on what seems good authority that the 12-inch guns will be increased in length, weight and power.

The new ship will have sixty five feet long and over sixty feet wide, with a greater concentration than the Dreadnought's weapons. In addition the anti-torpedo armament of small guns may be strengthened.

The size of the new ship will be between 18,000 and 19,000 tons, as against 16,800 tons of the Dreadnought. The speed will be about the same. She is one of the three battleships of this year's program, of which the second is to be laid down shortly at Devonport and the third is to be built by contract. The new ships should be in service early in 1909.

**COAL LAND GRAFT**

During the discussion on the coal questions in the House of Commons it was stated by R. S. Lake who the recipients of the recently alienated coal areas are.

A return brought down last session showed that one recipient was A. C. Rutherford, now premier of Alberta. This is one of the gentlemen who used to make capital against the Conservatives on timber limit questions.

Then there was A. L. Sifton, a brother of the late minister of the interior. Another favored party friend was D. C. Cameron, formerly Liberal member for Rainy River in the Ontario house. Still another who figured in the list was a gentleman whose stenographic notes have often reprobated through the building, viz., Hon. Robert Watson. The next was C. A. Stewart, now a judge in Alberta, and last but not least G. H. V. Bulyea. Curiously enough his grant of coal lands was dated Dec. 13, 1906, or after he had been appointed lieutenant-governor of Alberta.

### SEPARATE SCHOOLS

Archbishop Langevin Says the School Question Is Not Settled in Manitoba—Wants Same System As This Province

His Grace the Archbishop of St. Boniface assisted at high mass at the church of the Immaculate Conception, Winnipeg, on Sunday, 9, inst. At the conclusion of the mass Archbishop Langevin addressed the congregation congratulating them upon the presence of the visiting Knights of Columbus of St. Paul, upon the growth of the parish and the good work, its new pastor, Rev. Father Cherrier, and the close bond of union between the parish and their devoted priest. He had much pleasure in bringing with them on the feast of the Immaculate Conception, and in bringing to them the special blessing of their Holy Father the Pope.

When he was in Rome he mentioned to the Pope the name of each parish priest, and asked for a particular blessing on each. The archbishop spoke strongly on the troubles of the church in France and declared that it was the fault of the bishops, who were not the strong bond of union they should be between the people and the church in France was that it was asleep, but it was not for us to throw stones while our house is of glass in Canada. The Catholic church in the States and Canada had done much, but those who considered her work was done were entirely wrong. To say that "the school question was settled was to display ignorance of facts. It was not settled. The arrangement of the schools in Manitoba was one thing and that in Alberta and Saskatchewan was another, and there was no unity. Other churches were organized and were working all the time. The Catholic church could make a great display at the time of a feast or a procession, but at other times they were lacking in organization. Unity in action was impossible without organization. The archbishop was glad to find an organization such as the Knights of Columbus composed of practical Catholics, but every Catholic should be a practical Catholic. Every Catholic should be a member of the church, and every Catholic should be a worker. "Your grace, I'm your man," he would shake hands with him and welcome him. It was works, not words they wanted. He could give them plenty of work to do, and set a pace they would find it difficult to keep up with. They must organize within each parish and united, the power for good of the Catholic church in Canada would be enormous.

If "taken at the sneeze stage" Preventives a toothsome candy tablet will surely and quickly check an approaching cold or Grippe. When you first catch cold or feel it coming on—take Dr. Shoop's Preventive, and the prompt effect will certainly surprise and please you. Preventives surely supply the proverbial "ounce of prevention." Sold in 5 cent and 25 cent boxes by the Regina Pharmacy Stores.

### WOMEN CLERKS OF LONG SERVICE

In the executive departments in Washington, where the business of the government is carried on, there is no belief in the Oester theory so far as the woman clerks are concerned. Several of the most valued ones working for the secretary of state passed three score and ten long ago. Mrs. Eliza Gridley, mother of the man who commanded the Olympia at the battle of Manila, is about 80, yet she holds a responsible position in the general land office, and knows more about records and land law than any six clerks in the department.

Miss Mason, who is nearing the same age, is a pillar of strength to seek for information in the library of the war records. She is a daughter of a former minister to France. In the department of justice are women nearing eighty some of them wives and daughters of former judges, who work faithfully and intelligently, and who are prized more highly than the younger women who compose the greater working mass in the department.—Boston Globe.

A. Roy of Ottawa, Ont., has been found guilty of manslaughter. He stabbed A. Richard in a drunken row.

WEEKLY REVIEW

Alexander McLaren, the millionaire lumber man, and five special police men concerned in the Buckingham labor riots have been committed for trial by Judge Choquette.

Thos. Bailey of Winslow, Ont. was shot and probably fatally injured by Grace Davis in a resort at Nampa, Idaho. The woman then killed herself.

From authority that should be absolute John D. Rockefeller's annual income has been told for the first time authentically. It will be \$60,000,000 when the year 1906 closes.

Attorney General Young of Minnesota made a ruling that under the state law the proposed increase to \$60,000,000 of the capital stock of the Great Northern recently announced is invalid.

While walking belatedly down town from his home in Minneapolis, S. S. Small, for many years a wealthy and prominent resident of that city, dropped dead at Fifteenth street. Death is supposed to have been due to heart disease.

There was another wreck on the C. & E. railroad on Thursday, as the result of which an entire train of eleven cars of freight were derailed a short distance from Bowden. The accident was caused by a defective rail. There was no serious injury to the train crew.

At a cabinet meeting on Thursday last an order in council was passed allowing the law to take its course in the case of Woolly Bear, an Indian who killed another Indian, Brandon as the result of a quarrel. Woolly Bear will be hanged on the 21st inst.

The A. J. Cumming Grain Commission Co., of St. Paul, having branches in towns throughout the Northwest, suspended business this morning. Their finances are said to be in bad shape. It is thought a petition in bankruptcy will be filed at once.

Edward F. Pollock, of Souris, was killed in a rear end freight collision at Umatilla, Ore. His face was cut to pieces and his lower limbs torn from his body. A receipt for dues paid to the I.O.O.F. lodge at Souris Man., was the only means of identification.

Last Saturday was bitterly cold when Maryjen, an aged woman who lives six miles east came into Lindsay, Ont. to shop. Not returning, a search was made and the old woman was found in a field with a bundle under her head dead from exposure.

Miss Mary Stubbs, aged 23 years has been appointed by the state to fill the unexpired term of her father's as state stenographer and the new term to which her father was elected before his death. This is the first time an Indiana woman has held a state office. The salary is \$2,000 a year.

In connection with the Ontario book enquiry, yet unfinished, it is officially that new readers in every way modern will be issued, the subject matter to be suggested largely by the advisory council of education. With the exception of the phonetic primers 1 and 2 the present readers are 17 to 20 years old.

Owing to the difficulty experienced in securing flag poles, the Manitoba government has extended the date which the compulsory flag policy will come into effect until May, 24. The law as passed by the government stated that flags had to be flying by Jan. 1, on penalty of the grant being cancelled.

Former United States Senator A. Brown of Utah, who was shot in his apartments at the hotel Raleigh at Washington on Saturday by Mrs. Anna M. Bradley, died at midnight Friday at the emergency hospital. The senator was shot for breach of promise he having induced Mrs. Bradley to get a divorce from her husband.

A fatal burning accident occurred about twenty miles west of Yorkton recently in which the two-year old son of Ed. Walls lost his life. The child was standing in front of the heater when its clothing caught fire and before the frantic mother could extinguish the flames the little fellow was so badly burned that he died in a few minutes.

A head on collision occurred at Indian Head on Thursday last which wrecked the west bound local and put a couple of engines out of business. A freight crew was switching too close to the local's time, and the latter came in before the other could clear the siding. The freight conductor was away at dinner at the time of the accident.

About one hundred representatives of the Methodist, Presbyterian and Congregational churches of the Dominion assembled in the school room of the Metropolitan church, Toronto, for a continuous consultation about the basis of church union. Dr. Carman presided. In view of the action taken by the general assembly at the last session in London it was decided to appoint a committee to conduct negotiations with the Anglican and the Baptist churches regarding the possibility of their entering the union.

The season for navigation on the lakes is practically over, and to date has cost 137 lives and over \$2,000,000 in money. There has been two or three big storms, that of Nov. 22 proving the most disastrous, in which 41 lives were lost, including the wreck of the Iona in Georgian Bay and the Resolute of Toronto. Two or three days before the Canadian steamers Theano and Strathmore were wrecked in Lake Superior. The Canadian boats especially have suffered this year, the steamer Montague of the Northern Navigation Co., completing the remarkable run of mishaps to Canadian vessels.

"I merely wish to declare before God with this, my last breath, that I am innocent of the murder of Mary Jane Eaton, for which I am condemned to die. I die in the faith of the Church of England." With these words calmly and impressively spoken, Robert Styles Featherstone went to his death in the provincial jail yard at Victoria, B.C. without the slightest suggestion of physical tremor in the rope after the trap was sprung. The executed man left a long statement for his family elaborating his protestation of innocence.

The leader of the Opposition has given notice of a resolution calling on the railway committee to enquire, determine and report with as little delay as possible whether or not the tolls charged in standard passenger traffic should be reduced so as not to exceed two cents per mile upon all or any railways in Canada. Mr. Borden will also move for the appointment of a special committee of nine members to enquire into the law governing the election of members to the House of Commons, the prevention of corrupt practices thereat, and the procedure and practice in the election petitions reporting to the House whatever changed they may deem advisable.

A report from Fort William on the closing of navigation showed less grain was moved during 1905 and this provoked astonishment in local circles. The inability of the railway companies to adequately handle the Manitoba grain crop of 1907 is responsible for which has been sent east this winter. The local officials of the C.P.R. among various reasons given, attribute the car shortage to the coal famine and the unprecedented demand for cars to meet the recent stock shipments.

The sum of \$75,000 has been paid into the treasury of the province of Quebec by the late E. B. Eddy estate as succession duties. It will be remembered that the government claimed \$251,000 as the amount due from the estate, but there is in all likelihood to be a compromise of some sort whereby the matter in dispute will be settled without recourse to the superior court in which there was an action entered by the Eddy estate.

While endeavoring to get her six-year-old daughter, Elsie, across the back of a train at Weston, Ont., Mrs. Ernest Willis, wife of a builder, had the little one struck from her hand and instantly killed. The mother with two children was hurrying to the bank to deposit money, and one of the girls ran safely across the track in front of the train. The mother with Elsie had cleared the rails when the cylinder of the engine hit the little one in the head, fracturing the skull.

Hon. W. H. Cushing, minister of public works in the Alberta government speaking of the Alberta legislative buildings to be erected at Edmonton said: "The material used in the erection of the buildings will be stone of which there are unlimited quantities available within 12 miles of Alberta. It is the intention that about one million dollars will be expended eventually in the erection of the legislative buildings and offices for the departments."

When the grain commission resumed its sitting on Saturday afternoon at Edmonton, Rice Sheppard completed his statements of the complaints of farmers against the millers. He gave several concrete cases in which the local grain buyers had defrauded the farmers by giving them wrong weights, incorrect testing and docking too much. The commissioners asked several pertinent questions to find out a remedy for this evil and the plan of establishing official scales at the different shipping stations was discussed and considered a move in the right direction by the assembled farmers.

Minards Liniment Oases Gargle in Ouse

Mr. BARNUM'S JOKE

Not long before his death, Barnum summoned his lawyer to the side of the couch where he was lying and said, "I am very much worried about a certain matter, and I want to consult you. My neighbors keep peacocks. Suppose some of them should fly over into my yard, and they are doing all the time; and I say some eggs here. Would those eggs belong to me, or would my neighbor compel me to give them up?" The lawyer, having duly scratched his head, answered: "Well, Mr. Barnum, I must look into this matter. But the best thing for you to do is to keep the eggs and let your neighbor sue for possession. In that way you might have a very valuable test case." "Well," said Barnum, "while you are looking into the matter will you find out how it would be if the eggs were laid by peacocks?" The lawyer spoke softly to himself but never made the investigation.

GREAT PREACHERS

People hear a born preacher as gladly as ever. Truth made living and instant through a personality is still the greatest source of inspiration in the world—a church or out. When the rare genius is found who can stand up before the great congregation and catch up their vague aspirations after a better life into the soaring utterances of a Robertson or a Laddon, a Beecher or a Brooks—to name only the dead—it is a cruel pity that the church has not some division of labor by which such men could be set aside exclusively for the work of preaching. To make them grow haggard over the church finances or dissipate their energies at church bazaars or in the multiplied business of the modern "institutional church," is little short of a crime.—New York Post.

"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But such men could be set aside exclusively for the work of preaching. To make them grow haggard over the church finances or dissipate their energies at church bazaars or in the multiplied business of the modern "institutional church," is little short of a crime.—New York Post.

In the cure of scrofulous swellings, enlarged glands, open sores, ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open sores, it is well to apply to the open sores Dr. Pierce's "All-Healing Salve," which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist does not happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. B. V. Pierce, 603 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

DON'T MARRY THE GIRL

Who is lazy. Who is a flirt. Who cannot control her temper. Who dislikes children and animals. Who is not neat and tidy in her dress. Who is deceitful and not true to her friends. Who fusses, fumes and fights about everything.

Whose highest aspirations has never soared above self. Who is amiable to suitors and hostile to the family. Whose chief interests in life are dress and amusements. Who lacks thrift and has no idea of the value of money. Who thinks more of making fine appearances than fine character.—Excuse who cannot bear to hear anyone but herself praised or admired.

"Could the consumptives of any given community be seen at one time, or pass in panorama before the people, public consciousness of the magnitude of the affliction might be aroused. A physical disaster shocks the world and lets loose the sympathy of millions. A few thousand deaths are nothing as compared with the deaths from consumption." LAWRENCE F. FLICK, M.D., Medical Director of Henry Phipps Institute for the Study, Treatment and Prevention of Tuberculosis.

Many reasons surely must influence men and women to help in the great work being carried on by the MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES.

Other hospitals refuse the consumptive. This institution cares for them.

Not a single applicant has ever been refused admission to the Muskoka Free Hospital for Consumptives because of his or her poverty.

Seven hundred and thirty-eight patients have been cared for since the Free Hospital was opened in 1902. Take a week's record:

83 patients in residence; 37 absolutely free, not paying a cent toward their maintenance; 15 paying 50 cents a day or less; 5 paying \$4.00 week; 4 paying \$5.00; one paying \$7.00.

These figures tell plainly of a large deficit on maintenance account each month. To cover this the trustees are dependent upon the contributions that come to them from friends in all parts of Canada.

Not since the days of George Muller has so great a work of faith been carried on.

Contributions may be sent to SIR WM. R. HERBERT, Kt., Chief Justice, Osage Hall, Toronto, or W. J. Gage, Esq., 54 Front Street, W., Toronto.

Applications for admission and all information from J. S. ROBERTSON, Secretary National Sanitarium Association, (Saturday Night Building), 28 Adelaide Street, W., Toronto, Canada.

 Regina, Sask.

WEDNESDAY, December 19, 1906.

### XMAS GREETINGS

In wishing the West readers a Merry Christmas we have some apprehensions lest it be a cold day in many of our prairie homes, and if all hearts are cheery and there is no want of fuel, we have to thank the railway companies for securing the continent for coal, for the strike is virtually effective yet as far as this province is concerned.

It was never intended by the Creator, the coming of whose Son to earth we celebrate on Tuesday next, that the children of men should freeze to death on Christ's birthday, and that unlimited areas of coal, which antedated that human and divine event, should be held by monopoly interests, who rather than pay a fair wage, cause untold suffering among the people, whose birth right has been plundered.

There can be no peace on earth and good will to men while such a contingency as this is possible, and while in many ways we have much to be thankful for, there is a great deal more to be done than is already done with regard to the ideal relations of men.

However, for the spiritual significance of Christmas, all should rejoice.

### WE ARE EASY

The Canadian public accounts for the year ending June 30th 1906 are just to hand. This book is full of interest to the people of Saskatchewan.

One of the stock arguments of the Dominion government is that "figures can't lie" but if figures don't then government supporters do.

We have been told time and again about the annual deficit respecting the administration of the public lands, and the government went so far as to say that they were forcibly rescuing us from financial ruin by withholding the lands of this province. We, of course, thought they were playing a false game, and we take their own figures which they say "can't lie" to prove it.

The public accounts show that the total receipts from the Dominion lands for the last year were \$1,768,162.35, and the expenditure \$438,135.09, or a surplus of \$1,329,027.26. The cost of immigration for the same period was \$842,998.23.

The governments both local and federal argued that the cost of immigration must be paid out of the lands revenue and in allowing for that we find that there is a surplus of \$842,998.03.

The immigration was supposed to be kept up in the interests of these provinces, in fact it was stated by the coercionists that the bulk of it came west to Saskatchewan and Alberta, and therefore we must not demand our lands.

The published immigration returns show that these two provinces got out of over 100,000 immigrants, 34,738 while Ontario and Quebec got 59,423.

We paid for the cost of immigration which goes to the eastern provinces and we are out our lands in the bargain.

These figures coincide with the census returns for the west and if they are wrong we are beaten on the census enumeration, so that in any case we have caught the government playing a crooked game. Mr. Scott is a party to this and there is just as much onus on him as on the Ottawa people.

The smoothest gambler that ever fleeced a victim has been caught at his game sometime in his career, and if these politicians thought they were such good players that they could not be found out, their bump of conceit has been punctured by the immigration returns which together with the public accounts make the coercionists huge liars, although in the meantime we have been successfully played for suckers.

### THE COAL LANDS

The return of parliament showing who the recipients of coal lands are is very interesting to the western farmer.

It will be recalled that up to 1887 homestead rights included what ever coal found in the land, but it was deemed necessary as a matter of public policy to reserve the coal under the rights of the crown.

The government gets a royalty of ten cents per ton on all coal mined from lands alienated since 1887, but in parting with the coal lands the government has not made any stipulation as to the operation of the mines and the only interest they take in these areas after they are deeded from the people is to collect the ten cents.

That the policy of the Conservative party was bad in disposing of these coal lands to speculators who realise no obligations to the people, no one will deny, but that is no excuse for the policy of the present administration, living in a more enlightened decade respecting the operation of public franchises.

The history of this season in the west dictates a change with regard to the administration of our coal areas and we must insist on the government, whether it be of one party or the other, recognising our rights.

The return of parliament to which we have just referred shows that the government could not have been influenced but by improper motives in alienating coal lands to such men as Premier Rutherford, Lieut.-Gov. Bulyea, Judge Stewart and Chief Justice Sifton.

These are facts which shock the moral sense of the people. What object was there in giving coal lands to such people as these. Well, there is an answer which suggests itself despite all attempts to respect such public men.

### SURPLUS NO CREDIT

Considering the scandalous postal service which we have in the Canadian west, the surplus of \$1,011,000 is no credit to the post master general.

In this department the people look for proficiency of service but will not vote against any administration because it has a deficit, provided the mail service shows proportionate improvement.

In the United States they have an adequate system of rural delivery in the most remote farming communities and the annual deficit of the postal department in that country is \$19,000,000.

The American settlers who have to suffer the intolerable service here after what they were used to in their own country think very little of this department of our government.

One of the issues of the next election campaign of the west will be: "Better Postal Facilities."

### IMPERIAL PREFERENCE

That one sided tariff preference which we give to Great Britain is not imperial preference and is far short of the national objects of a preferential tariff, is very evident from the conclusive article which appeared in the last issue of the Canadian Gazette of London, England, under the heading of "Chamberlainism and Canada."

Some of Mr. Chamberlain's opponents in this country have been unkind enough to say that his tariff principles are dead issues, but the Canada Gazette is not in the undertaking business, and when we find this journal devoting so much space to this question we may rest assured that Chamberlainism is backed with principal and vigor.

The arguments of the Gazette can best be set forth by quoting their own words:

"The Chamberlain agricultural policy, as now authoritatively set out, opens up an enormously wide area for negotiation with the colonies. Foreign flour is to be taxed 1s. 6d. per cwt., foreign animals and meat including bacon 5 per cent., foreign dairy produce including poultry and eggs from 5 to 10 p.c. duties are to apply to market garden produce including apples, potatoes, hops and to hay and straw. But in all these Canada and the other colonies are to be given a substantial preference. The exact amount of the preference except wheat must depend upon the value of the return preference which Canada and the other colonies are willing to grant in negotiation, and one has only to reflect on the untold capacities of Canada for supplying the British markets with cattle, bacon, meats, pork, hams, cheese, poultry, apples, butter, and so on, to realise what an enormous advantage must accrue to Canadian producers. The Canadian northwest almost alone would have been interested in a preferential duty on wheat. There is hardly a corner of Canada from Nova Scotia to British Columbia, which would not be benefited directly by the wide range of preferential duties now imposed in respect of all food products imported into the United Kingdom from Canada."

"What, in a word, it all amounts to is this: that everything that sagacious statesmanship can do in the way of legislative reforms, the British farmer will still be unable to supply more than a fraction of the British home demand for food products, and that under a preferential scheme Canada, Australia, South Africa and India, will be given an especially privileged opportunity for supplying the enormous balance of British needs. In fact the British policy under Mr. Chamberlain would aim to give colonial producers the largest share of British import trade, just as under mutual preference it would be the aim of Canadian statesmanship to give to British rather than German and American manufacturers the largest share of Canadian import markets."

"It is often said on Free Trade platforms that the British farmer will never have preference. In truth he is demanding it as a necessary part of British agriculture reform. It is upon the British home market that he depends and must depend, and he wants that British home market strengthened and increased by the aid of colonial preferences to British manufacturers. It is in doing this province, by desire of the British farmer of an enormously large area, within which British and colonial ministers may arrange mutual trading preferences that seems to us the most significant part of this important volume."

It is almost impossible to hope for the realisation of this great imperial scheme under present circumstances, but the campaign must be kept up, and we trust that there will be an uprising of a new national party after the coming Conservative convention for the Dominion and that one of the strongest features of their policy will be an imperial tariff preference that will accomplish the design of Mr. Chamberlain.

### SHIFTING THE ONUS

The vote on Mr. Herron's motion in the House of Commons shows how sincere the government is in dealing with the fuel question. Mr. Herron moved:

"That the coal lands owned by Canada should only be alienated under such conditions and subject to control and regulations as will provide for an immediate supply of coal adequate at all times to the requirements of the people, and at a reasonable price to the consumer, and that in respect of coal lands already alienated provisions should be made for such control and regulation

in case of emergencies, as will in the future prevent loss and suffering to the people of the western provinces through lack of fuel supply."

The government, true to the premier's previous attitude towards the people of Bladworth when he offered police protection when they asked for coal, put up Mr. Knowles to propose the following amendment which carried by a vote of 71 to 88.

"The recent difficulties in relation to the supply of fuel in the western provinces did not arise from any defect in our legislation, but from the lack of transportation facilities and from conflicts between employers and employed. However, what is the use of talking for what else can the people expect from a corporation government?"

### FARMERS' TRIED FRIEND

It is gratifying to learn that the farmers of Saskatchewan have taken a hand in the prosecution of the Grain Combine case now before Magistrate Daly.

If the combine has injured the farmers of Manitoba, it has also injured the farmers of Saskatchewan and Alberta.

It is not only desirable, it is also just that the Saskatchewan farmers should also co-operate in the fight.

This they have now promised to do. By inducing Mr. Haultain to look after their interests they have secured the services of an old, well-tried and faithful friend. They have also secured the services of a very able lawyer.

True, the defence is represented by

a formidable array of legal talent, but with Mr. Haultain and Mr. Bonmar in command for the prosecution, the farmers can feel assured that their case is in safe hands and will be placed at no disadvantage before the court, despite the recognised professional strength of the defence.—Tribune.

### IMPORTANT EVENT

It was one year ago on Friday last that Alexander Ayotte left Regina for his home in Great Falls, Montana.

December 13th, 1905 was election day. That evening twelve months ago some of the ballots changed color after the close of the poll. When the anniversary arrives the West will again quote the affidavit made by A. Ayotte for Mr. Scott stating that he was never in Regina except to pass through on his way to his Montana home.

On Wednesday Dec. 20th "The Mimmie M" was launched by Mr. Calder at Prince Albert and started on her voyage to Cumberland House in charge of Capt. Lawlor, Maxine Fiddler being first mate. She had a glorious trip.

Three hundred and sixty-five days have passed away since the Rabbit Skin family made their debut.

Mr. Scott's coercion baby is now a year old but it has not cut a tooth. During the past year Mr. Motherwell, says, "My conferees have been successful in keeping anything improper from me."

### PRESS COMMENTS

(Toronto Telegram.)  
Quebec and her solid sixty-five members will be offset after the census of 1910 by the west and its more than sixty-five members. Already the provinces of Manitoba, Alberta and Saskatchewan are the home of over 800,000 Canadians. With the population of British Columbia added, Canada at least can boast of 1,000,000 people west of Lake Superior.

Canada west of Lake Superior is even now entitled to a representation of forty members at Ottawa. A continuance of the present rate of progress for four years will make western Canada the home of more people than the province of Quebec, and give western Canada more members at Ottawa than Quebec has now.

(Montreal Star.)  
Mr. Mackenzie King, the deputy minister of labor, defends his journey to Indianapolis in order to bring the Lethbridge coal strike to an end on the ground that the people of the west were freezing and that it was no time to stand on one's official dignity. With this every body will be in hearty agreement. As the circumstances stand Mr. King and Premier Scott were abundantly justified in taking the shortest road to the breaking of the fuel famine which was threatening the lives of the western settlers, and damaging the reputation of the entire prairie country. They have no need to apologise; they are to be congratulated on their courage.

But this will not make the conditions which compelled this journey any more palatable to the Canadian people. The Toronto Globe points out that this journey to an American city might have been taken to bring a group of capitalists to an appreciation of the situation; but this is an aggravation rather than an amelioration of the circumstance. What our people object to is being compelled to go in the person of our representatives on their knees to anybody in the world for the privilege of getting our own natural wealth out of the earth at a time when the lack of it may mean death to the settler and vast damage to the country. We would not be willing to find ourselves in this attitude toward any set of men in Canada, and the humble pilgrimage to Indianapolis was only a dramatic presentation to us of the humiliation and the folly of being in such a situation.

(Butte News.)  
The horrifying experiences in some of the railroad wrecks, in which the

unfortunate victims were slowly crumpled, points to the necessity of a change in the construction of passenger coaches. It is entirely possible in this era of steel construction to build railroad cars that will not burn. There are such cars in use today, although in no great number; it is an experiment whose first cost is considerable. But in the equipment of our railroads the element of cost cannot be allowed to outweigh that of safety even at the sacrifice of a single life. There is hardly a serious accident upon the railways in winter where fire does not count its victims more numerous than the crushing force of the collision. And such a death is the most horrible to be conceived.

(Toronto News.)  
Mr. Herron will move in the house of Commons a resolution setting forth that the time has arrived when coal lands owned by the government should not be alienated save under such conditions and regulations as will provide for an immediate supply of coal, adequate at all times to the requirements of the people and at a reasonable price to the consumer. In respect to lands already alienated legislative provision should be made for their control and regulation in case of emergencies.

There are two reasons for this motion. The first is undoubtedly the great coal strike of 1908, and the second the recent strike at Lethbridge. Because of a dispute over a few cents in wages or over the recognition of a union or something else, a whole continent may be plunged into suffering. These questions between capital and labor are all of a certain importance, but they are not important enough to warrant paralyzing the industries of two great countries, or freezing young children to death. Because of this unquestioned fact it is felt in many quarters that the government should be careful to give no more great tracts of coal lands to private capitalists, who very often have no ambition to serve the public save as an incident to the making of money. In the United States the same feeling has developed from the same predisposing causes. President Roosevelt has given orders that no more coal bearing lands may be alienated from the 50,000,000 acres known to exist. It is said that the president hopes to secure from congress a law providing that in future all such lands shall be granted on the freehold plan, rather than on the leasehold plan. This would give the government the whip hand over lessees who proved as recalcitrant as Mr. Boer, "the coal operator by divine right." The plan seems reasonable and feasible. Moreover it should work as well in Canada as the United States.

(Toronto News.)  
The government does not favor the public regulation of coal lands. Mr. Herron's resolution was defeated by

a majority of 88. At the same time the House affirmed the cause of the trouble to be deficiency in means of transportation and "conflict between employer and employee." Mr. Orver said that a coal monopoly could not arise in Western Canada because of the diverse interests holding coal lands. This is an optimism hardly justified in view of the history of the Pennsylvania coal deposits. It is regrettable that the house did not consider more seriously what steps can be taken to provide for compulsory settlement of such disputes as that which forced the suspension of the mining operations at Lethbridge. All that was done was to assert that there had been some labor trouble at Lethbridge. Mr. Herron desired to prevent that in future, and it seems reasonable to believe that some regulations might have been devised by the government to render future strikes less probable.

Piles get quick relief from Dr. Shoop's Magic Ointment. Remember it is made alone for piles—and it works with certainty and satisfaction. Itching, painful, protruding or blind piles disappear like magic by its use. Try it and see! The Regina Pharmacy Stores.

The coroner's jury empanelled to hold an inquest on the death of Guy D. Sharp, at Maple Creek, after hearing the evidence, returned a verdict to the effect that deceased came to his death by taking cyanide of potassium, Dec. 12, while temporarily insane. He has a mother and brother living in England. His father died lately leaving him a large sum of money.

### Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will stultify the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pang of this deplorable disease. In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made. That last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, I have found a cure for all curable cases of this heretofore incurable disease. Those and like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as truly as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—in actual cases of this heretofore incurable disease. We sell, and in confidence recommend

## TAKING OVER NORTH LINE

### C. N. R. Commenced Operation on Saturday—Enthusiastic Send-off—History of the Road

After operating the Regina-Prince Albert railway for the past sixteen years the C.P.R. have handed over the branch to the Mackenzie & Mann interests and the first Canadian Northern passenger train pulled out from here at 1.30 p.m. on Saturday 16th, Regina citizens cheering heartily as she drew out from the station. The train consisted of five coaches, including Supt. Brown's car being accompanied by Traffic Manager Shaw and Mr. Shields, the master mechanic. The advent of the Canadian Northern here marks a very important step in the advancement of this city as a railroad city and very shortly we hope to welcome the G.T.P. and possibly the Great Northern.

#### Train Delayed

It was intended that the Mackenzie and Mann interests would send their first passenger train out on time, 8 a.m., but the cars had to be brought down from Humboldt and the snow had put the road in such shape that it was impossible to reach Regina till Saturday morning about ten o'clock. The trip from Saskatoon took about eight hours. After reaching here the engines had to be reloaded up and the train made up for the return trip. The officials of the two systems were some time in consultation over the mutual arrangements of the C.P.R. and the C.N.R. and the hour of departure was fixed for one o'clock.

#### Crowd Gathers

Before the one o'clock whistle blew the station platform was black with people waiting to join in the send-off which was announced to attend the "all aboard" signal of the conductor. Among those present were the heads of large commercial interests of Regina, and several had witnessed the departure of the first train north to the valley twenty years ago.

A Canadian Northern train throughout backed into the station and the spanking new coaches were very much admired but it was only a short time till a C.P.R. engine came down and coupled on a double header to pilot the stranger over the route. Except for the change of cars and one engine the make up and dispatch of business was the same as formerly. As the train left the station the crowd began to cheer and Geo. H. Shaw waved back his acknowledgements from the rear platform.

#### C.P.R. Withdraws

By Saturday all the C.P.R. trains

were in off the north line except last Friday's passenger which dead-headed back. Two crews remained on the north line and will work for the new company until spring when they will return to the C.P.R. The yards all forenoon indicated that some of the boys are glad to get off the north line for while it was a good paying run, the state of the road bed and the hardships in operating and keeping certain parts of the route open made railroading between here and Prince Albert anything but pleasant at this season of the year. One freight crew told The West that they recently were sixty hours reaching Saskatoon.

#### Compelled to Operate

It was stated that as soon as the C.P.R. learned that the other company had purchased the north line, they became anxious to hand it over to the new owners, for the road bed was in bad shape, the doubtful ownership precluding any permanent improvement that entailed expenditure that would be unproductive to the company losing the branch. The C.P.R. knew from experience what the operation of the road bed in winter meant, notwithstanding the heavy traffic and the pot of money cleaned up monthly—for this has been a paying proposition lately.

With the demands upon them for power the C.N.R. could hardly assume the new responsibilities, but the mutual arrangements entered into to strengthen the story that the C.P.R. practically compelled them to commence operations.

#### Joint Terminals

The terminal arrangements show that the best of feeling exists between the two companies for with this the C.N.R. would be seriously embarrassed. As it is, however, they have the joint use of the C.P.R. terminals and are saved an agent here for the present. They have, as we announced before a third interest in the round-house where they will have ample accommodation.

#### Agents Stay

The most of the agents will stay at their posts on the branch in the service of the new company and for the present the C.P.R. will operate the telegraph system, this utility not being owned by the Q.L.L. & S. Railway Co. and mutual arrangements are necessary here also.

The freight traffic originating to the north of Findlater will go east

via Warman, and that south will come via Regina.

#### Express Co.

The Dominion Express Co. is running in the C.N.R. cars as they did not receive the proper notice of the change and they will thus take in tolls till March when the express will go over to the new operators. One of the greatest drawbacks in connection with the winter change is in connection with the heated car service which the company is not in a position to supply at present and the shippment of perishable goods will be attended with great risk. However they may be able to find some remedy shortly.

#### The Through Line

"The through line from Winnipeg will be here next fall," said general manager James to The West on Thursday while in the city. The company is building from Brandon and they will push construction with the opening of spring. Mr. James is every inch a railroad man and is full of energy. He is no stranger to Regina, although he is best known to the old timers with whom he associated twenty years ago when he was on the C.P.R. In fact, the whole staff of officials here in connection with the transfer of the branch at one time were employees of the C.P.R., Mr. James having been an operator, Mr. Brown a conductor, and Mr. Shaw in the traffic department. In his private car as the guests of Mr. James were Major Bell whom the city old timers know very well, and H. A. Wiley of Fort Arthur, one of the best known business men and promoters at the head of the lakes. They enjoyed their visit here.

#### History of Branch

The history of the branch dates back to Jan. 30th, 1882 when a meeting of Regina citizens assembled in the Methodist church to consider the promise of the government with respect to the building of the north line to Prince Albert.

A motion was moved to Mr. Hambley and seconded by James Brown of the education department urging that delegates be sent to Ottawa to impress upon the government the necessity of assisting Mr. Pugsley, who had a charter for a line, or to get the government to arrange with the C.P.R. to construct the branch. It was said at that meeting that the C. P. R. stood in the way of the government giving a land grant to the Pugsley interests. However, the government after proper representations took the matter up seriously and in two years the road was built as far as the Qu Appelle Valley by the Q.L.L. & S. R. Co., and there it was likely to remain. The object of the Regina citizens was to reach the northern city and the agitation was renewed and through the agency of Mr. Davin an arrangement was entered into between the government, the Pugsley interests

and the C.P.R., and on Saturday, Aug. 17, 1888, Mrs. Dowdney, wife of the lieutenant governor, turned the first sod of the Regina-Prince Albert branch. There was an enthusiastic banquet in the town hall in the evening in honor of the event.

#### Last Spike

Less than fifteen months after the first sod was turned at this end, the last spike was driven at Prince Albert by His Honor Lieut.-Gov. Roy. The citizens of the north followed up this ceremony with a monster banquet and the prophesies of that occasion although inspired after dinner thoughts were none too flowery as time has proved.

#### First Schedule

The first service on the north line called for a semi-weekly service, two and Saturdays at 7 a.m. and returning Mondays and Thursdays. It was on Oct. 1st, 1890 that the telegraph offices at Lumsden, Saskatoon, and Duck Lake were opened. For a long time even with this service one person would be the sole occupant of a car all the way from here to Prince Albert.

#### The Comparison

What a wonderful change has come over the province and this portion of it particularly since then. The congested traffic on the north line shows it in language plainer than words can express and those who witnessed the first train starting out of Regina for Prince Albert sixteen years ago, must feel gratified at the sight of the elaborate coaches with their palatial appearance which featured the advent of the C.N.R. on Saturday and which marks another mile post and a new era for this city.

#### Minard's Liniment Cures Disemper.

Canadian finance. A daughter who has passed away Mrs. Williamson, was the motive force of the women's auxiliary of the Church of England in the early days of its history. The following is a brief sketch of Mrs. Osler as she is today has been written by one near and dear to her.

"If spared until next Friday, Mrs. Osler, widow of the late Rev. Featherston Osler, rector of Dundas and Plamboro', will see her hundredth birthday. Born in the reign of George III, she has lived under five sovereigns. Her husband was the pioneer missionary of the Church of England in western Canada. Sent out in 1838 by the society for the Propagation of the Gospel, he and his wife led a long and active life together. In 1882 Mr. Osler retired from active work and came to Toronto. Since his death in 1895 Mrs. Osler has seldom left the house, but till a very few years ago she was an active member of the Women's Auxiliary, and her busy fingers were always working for somebody. She is in perfect health, and is in possession of all her faculties. One or two of the great doctors who were visiting this country last August had interviews with her, and were amazed at her gift of repartee. She has now living five sons and one daughter, twenty-six grand-children, and one great grand child. She intimately knows each one and his or her circumstances. To each and all of them she has been all their lives a centre and an influence for good. To see her and to be with her is to receive peace, calm and strength in one's own being. Never stirred or excited, she lives as she will die, waiting God's time."

What a wonderful change has come over the province and this portion of it particularly since then. The congested traffic on the north line shows it in language plainer than words can express and those who witnessed the first train starting out of Regina for Prince Albert sixteen years ago, must feel gratified at the sight of the elaborate coaches with their palatial appearance which featured the advent of the C.N.R. on Saturday and which marks another mile post and a new era for this city.

#### NO MORE RACE WAR

There is but one way in which a war of races could occur, and that is by the forcible installation of a black man's government in any state of the union. The white people all over the nation would resist such an action. No such eventuality need be feared. The black man has nowhere the means, the leadership, or the cohesive power necessary to give him control of a state government. There can be no war without means for the sustenance of a fight on both sides. Race disturbances for which such men as Tillman are largely responsible, have already cost the south untold millions in capital and enterprise. They have kept out hundreds of thousands of desirable emigrants. They have thereby lessened the expansion of the white race in the south. They have forbidden capital from other states and foreign countries to find field for action. What this country needs is to send her Tillmans and such like to the Isle of Pines. There they could have all themselves as exiled gloriators.—Louisville Herald.

## OVER THE CENTURY

### Mrs. Osler Celebrates Her Hundredth Birthday—Mother of Distinguished Family

Toronto, Dec. 13.—The greatest centennial that Canada has known is Mrs. Featherston Osler, who tomorrow will celebrate her hundredth birthday, she bears a striking likeness to her son, the late B. B. Osler Q.C., during his time the chief orator of the Canadian bar. Another distinguished son, Dr. William Osler, regius professor of medicine at the University of Oxford, has come all the way from England to be with his mother on her hundredth birthday. Other sons are Mr. Justice Featherston Osler, of the Ontario court of appeal, and Mr. E. B. Osler, M.P., who is unsurpassed in the realm of

It cannot be too clearly stated, for the statement is beyond any qualification or contradiction, that never since the Muskoka Free Hospital for Consumptives was opened in 1902, has a single applicant been refused admission, because of his or her poverty.

More, perhaps, than any other charity in Canada the **MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES** is dependent upon the contributions of the Canadian public for its maintenance.

ADMINISTRATION BUILDING—MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES

Private philanthropy has erected the buildings, providing accommodation to-day for 75 patients, and which the trustees are prepared to extend, if circumstances warrant it, to 100 beds.

These beds are for those in any part of Canada, without means, who are suffering from this terrible disease in the incipient stage.

There is no large endowment, as in some public institutions, the interest of which will go a long way to pay the running expenses.

The monthly bills, covering cost of administration, salaries of medical men, nursing, clerical and domestic staff, besides the heavy expenditure for maintenance of each patient, are dependent for payment almost entirely on the contributions that come to the treasurer from kind friends throughout the Dominion.

**Could Not Pay—Has Young Wife and Child.**  
DR. G. F. CAMPBELL, GRAND VALLEY, ONT.:—I have a patient, 26 years of age, with tuberculosis. His circumstances are not such that he could pay, as he has a young wife and child to support. Could you make room for him at the Sanatorium? I think he might improve. Let me know what you would advise.

**Destitute.**  
J. AUSTIN, KINMOUNT, ONT.:—We have a man, unmarried and destitute, afflicted with lung trouble, whom we wish to send to the Muskoka Free Hospital for Consumptives. Please let me know what we have to do to gain admission for him.

### Where Will Your Money Do More Good?

Contributions may be sent to SIR WM. R. MEREDITH, Kt., Chief Justice, Osbourne Hall, Toronto, or W. J. GAGE, Esq., 54 Front Street, W., Toronto.

Applications for admission and any other information from J. S. ROBERTSON, Secretary National Sanatorium Association, (Saturday Night Building), 28 Adelaide Street, W., Toronto, Canada.

# IT'S YOUR MOVE!

To play the game successfully make sensible moves. Buy USEFUL XMAS GIFTS, they are always appreciated.

<p><b>Warm Mitts</b></p> <p>Always make a useful present. We are prepared to supply you with the best goods. Men's mocha mitts, well lined in all sizes, per pair \$1 to \$3.</p>		<p><b>Boys' Suits</b></p> <p>It won't cost much to make the boys happy here. We have decided to clear out every boy's suit in the store, as we have no room for them. Boy's suits \$1.95 to \$4.75 are worth one half more.</p>		<p><b>Neck Ties</b></p> <p>We have in stock some 15 doz men's reversible silk four-in-hand and made up ties, the patterns are new, the colors are all that could be wished for. They are worth from 35c to 50c each. PRESENT Price 25c.</p>		<p><b>Sweaters</b></p> <p>We have several hundred boys and men's sweaters in stock, which we bought direct from the makers at a big saving. They come in all sizes and colors, 50c to \$3.</p>	
	<p><b>Sheep Lined Coats</b></p> <p>Are a necessity to men who have to work out of doors in the winter. We have all the best makes in sizes 38 to 50 inch, made with the high storm collar and best fasteners. Price \$5 to \$10.</p>		<p><b>Overalls</b></p> <p>"The Man in the Overalls" is never overlooked in our store we sell the good wearing, full fitting union made overall that is worth one hundred cents in most stores FOR 75c.</p>		<p><b>Odd Pants</b></p> <p>We have a complete stock of men's trousers in all reasonable sizes. Among others we mention the King trousers, they are made like custom tailor work, and are easily sold. Men's pants in tweed, serge and worsted. Price \$1 to \$6.</p>		<p><b>Coon Coats</b></p> <p>Our Coon coats are the talk of the province at our regular prices, think of the saving on each garment at our Xmas prices:</p> <p>\$75 Coon coats, now...\$60.00                  \$85 Coon coats, now... 55.00                  \$60 Coon coats, now... 50.00                  \$50 Coon coats, now... 37.50                  \$40 Coon coats, now... 29.50</p>
<p><b>Men's Suits</b></p> <p>That large purchase of clearing lines which we have just opened are making a lot of men sit up and take notice that they have paid more money for inferior goods elsewhere. Suits from \$4.95 to \$19.85.</p>		<p><b>Neck Ties</b></p> <p>Our Xmas novelty ties are now on sale. Among the lot we mention a line of late New York styles that are certainly rich. The prices run from 50c to \$1 each.</p>		<p><b>Cloth Overcoats</b></p> <p>We have never before sold so many good cloth overcoats. We have some twelve garments now in stock, sizes 36 to 44. We have reduced the price of each garment. From \$3 to \$6.</p>		<p><b>Lined Gloves</b></p> <p>We have never before had such good value in gloves. We have all sizes in Mocha, Kid, and buckskin. Our prices run from 75c to \$3.50 per pair.</p>	
	<p><b>Fancy Shirts</b></p> <p>We carry a full line of Cambric and percale shirts in plain and pleated bosoms, sizes 14 to 18. Made by Tooke, Van Allan and Pooley. The prices are 50c to \$2.50.</p>		<p><b>Underwear</b></p> <p>We have placed on a large table a clearing line of men's wool and fleece lined shirts and drawers, sizes 32 to 42. Worth up to 75c per garment, Present PRICE 45c.</p>		<p><b>Cashmere Sox</b></p> <p>Some 300 pairs of men's blk. cashmere sox in sizes 9 to 11. These sox are usually sold at 35c per pair, or three pairs for \$1. Present Price per pair 25c.</p>		<p><b>Shirts</b></p> <p>In this line we have a special lot of work shirts, made of outing flannel, Denim, Oxford shirting and black sateen. The sizes run from 14 to 18; the values are up to 90c; PRESENT PRICE 50c.</p>
<p><b>Collars</b></p> <p>We sell the famous J. Brand 4 fold linen, worked button hole collar. They fit better, wear longer than any other collar that we have used. All sizes, heights and styles always in stock.</p>		<p><b>Overshoes</b></p> <p>We sell the Merchant's Rubber Co.'s overshoes and rubbers. Every pair guaranteed. All sizes styles and widths are in stock now.</p>		<p><b>Pressing and Cleaning</b></p> <p>We clean, press alter and repair clothing and furs and do it right.</p>		<p><b>Night Shirts</b></p> <p>Men's night shirts in all sizes made out of cambric outing flannel and cashmere. Prices 75c to \$3.</p>	
	<p><b>Fancy Vests</b></p> <p>What would be more suitable than a warm fancy vest. We have a beautiful selection in sizes 35 to 44, price \$2 to \$5 each.</p>		<p><b>Felt Boots</b></p> <p>In this line we carry all the best makes in all sizes, lace or congress styles, prices \$2 to \$6.</p>		<p><b>Suspenders</b></p> <p>Men's Heavy Suspenders...25c.                  Men's President suspenders...50c                  Men's Gordon suspenders...50c                  Men's Fancy suspenders...75c                  Men's Fancy suspenders...\$1.00                  Men's Fancy suspenders...\$1.50</p>		<p><b>Moccasins</b></p> <p>Keep your feet warm by buying a pair of our Pinto Shell or genuine buck moccasins sizes 8 to 12. Prices \$1.50 to \$2.50.</p>
<p><b>Pea Jackets</b></p> <p>Men's pea jackets, we have every size from 36 to 46. We have cut the price on every garment and you can save some money here.</p>		<p><b>Cloth Caps</b></p> <p>We can fit you in this line, even if you have a swelled head—sizes 6 1/2 to 7 1/2. Prices from 50c to \$2.</p>		<p><b>Neck Scarfs</b></p> <p>A beautiful stock of wool cashmere and silk scarfs in light and dark colors. Prices 25c to \$5.</p>		<p><b>Way Mufflers</b></p> <p>These have proved to be the best mufflers in the trade. Every year sees more of them in demand. We have all sizes, colors and qualities, 25c to \$1.50.</p>	
	<p><b>Dress Wear</b></p> <p>White kid gloves.                  White dress shirts.                  White dress ties.                  A full assortment of the correct lines.</p>		<p><b>Fur Repairing</b></p> <p>We can alter and repair your fur coats or cap and make it look like new. Our prices are reasonable.</p>		<p><b>Slippers</b></p> <p>Can you think of anything more comfortable and useful than a pair of good slippers. All sizes here, prices 85c to \$2.50.</p>		<p><b>Fur Lined Mitts and Gloves</b></p> <p>These make the warmest and best hand covering, made of fine mocha with squirrel lining. Sizes 6 to 11. Buy a pair for dad, only \$3.00.</p>

BRANDON WINTER FAIR

A meeting composed of representatives of the Brandon city council, Brandon Winter Fair board and the different live stock associations of Manitoba was held in Brandon last week, to discuss the advisability of holding a winter stock and station show in that city this winter.

After visiting several of the buildings proposed for the holding of the show, the committee met and plans were adopted for the furtherance of this object. The dates being set for February 19th to 21st.

There will be classes for stallions of all breeds, and it is expected that the different specialty breed societies will offer prizes for animals registered in their respective books.

In addition there will be classes provided for pens of (2) bacon hogs both grades and pure breeds, and after these have been judged alive, they will be slaughtered and the carcasses judged.

The sheep and swine breeding association have donated enough money to offer prizes for two fat wethers or lambs one year and under two, and some under one year, and after having been judged alive to be killed and the carcasses judged.

Arrangements have been made to have all the carcasses auctioned off on the last day of the show, and the amount remitted to the owners.

Recognizing the great value good seed is to the province there will be offered the same classes and money as last year.

The provincial seed fair will be held under the joint auspices of the local committee and the seed branch of the Dominion department of agriculture.

The Manitoba Poultry Association has also decided to hold their show at the same time, which should prove a most interesting exhibition, and one that will prove most attractive.

No doubt the most interesting department of the fair will be the live stock judging, in which the contestants will judge beef cattle, hogs and draft horses, giving their reasons for their awards. In addition to cash prizes there will be gold, silver and bronze medals.

There will be the usual lectures, but at this early date we are unable to name those who will participate.

To have beautiful, perfect, pink, velvet-like lips apply at bedtime a light coating of Dr. Shoop's Green Salve. Then next morning, notice carefully the effect. Dry, cracked or colorless lips mean feverishness, and are as well ill-appearing. Dr. Shoop's Green Salve is a soft, creamy, healing ointment, that will quickly correct any skin blemishes or ailments. Get a free trial box at our store and be convinced. Large glass jars, 25 cents. The Regina Pharmacy Stores.

PAVEMENTS OF THE FUTURE

The existing methods of paving— asphalt, wood blocks, tar, concrete and the like—all fall short of perfection. The great fault in each case is that the material is not sufficiently hard to withstand the wear and tear to which it is subjected for a lengthy period without requiring renewal. Then too ideal pavements should be smooth, noiseless, impervious to water, and yet possess a surface upon which horses will not slip or wheels skid.

Many people are of the opinion that the pavement of the future will be of some kind of glass. As the matter stands glass is far too brittle for this purpose, but men of science recognize the possibility of malleable glass—glass so tough and hard, that is to say, that it would be no more easily shattered than wrought iron, and yet retain the distinctive characteristics which at present govern its use.

From the past stories have come down to us, of malleable glass and it is related, for instance, that a man once took the Emperor of Tigris a glass goblet, which being dashed to the floor was only bent, and was easily straightened again with a hammer. Whether such tales are founded on fact it is impossible to say. At the same time there is no room for doubt that malleable glass is not only a scientific possibility, but that one of these days it will become an accomplished fact.

When that day arrives it will revolutionize the manufacturing world.

But as much as we want malleable glass, we want still more an artificial substitute for rubber. Never was rubber more in demand than it is at the present day. By neglecting to replant the rubber forests in the past mankind has brought itself to the verge of a rubber famine. Trees are now being planted by the thousands in Ceylon, Brazil and elsewhere, but it will be a good many years before these come to maturity.

Meanwhile the demand for rubber has increased, and there is no indication that it will do other than increase from year to year. A single Atlantic cable, for instance, uses up fully 500 tons of rubber for insulation purposes, while motor and bicycle tires call for a huge annual of the only material suitable for its manufacture, which has so far been discovered. How rich a reward is waiting for the inventor of a successful rubber substitute!

In conclusion we may glance at one more problem which has puzzled inventors for generations—to wit, how to harness the lightning. Everybody knows that the atmosphere is charged with a vast and almost limitless supply of electricity. If this could be turned to practical use without the employment of chemicals and costly machinery, how great would be the advantage that mankind would instantly enjoy. Every

PECULIARITIES OF FAMOUS FOLK

Keats, liked red parrot on his coat. Dickens was fond of wearing jewelry. Baudet wore his eyeglasses when asleep. Joaquin Miller nailed all his chairs to the wall. Edgar Allan Poe slept with his cat and was inordinately proud of his feet. Thackeray used to lift his hat whenever he passed the house in which he wrote "Van's Fair."

WHITE AND NATIVE LABOR IN PHILIPPINES

With regard to the relative efficiency of white and native labor in the skilled trades in the islands experience has shown that a Filipino does about one-half as much work in a day as a white man in that country and about one-third as much as the white man does in his own country, with the advantage on the side of the white man that he thinks further ahead of his job than a native and is not so wasteful of materials. The only marked defect applying to all classes of labor is the indolence. The Filipino is not steady and may not be depended upon as a regular laborer until he makes up his mind to forego sickness less frequently and until he manages to reduce materially the hypothetical death rate recorded among his relatives. Instances have been known where single workmen have lost dozens of imaginary aunts and uncles and several such fathers and mothers in the course of a single year.

4th till 10 p.m.

Local and General

Jan. A. Wright and his little nephew have gone east for a holiday.

Con. Leary of Moose Jaw was in the city yesterday.

The Remington Typewriter Co. will open a wholesale department in this city.

This evening the annual children's Christmas tree and entertainment will be held in the Salvation Army barracks.

T. A. McInnis of the Standard has gone to Winnipeg and St. Paul on a pleasure trip.

Mails for C.N. stations on and after the 14th inst will leave at 8 a. m. going north, and 18.40 south except Sunday.

A. H. Smith, editor of the Moosehorn Spectator called on The West while in the city attending a sitting of the educational board.

George Dickin, overseer of Manor, returned home today having attended at the sitting of the Urban branch of the municipal commission.

J. Addison Reid has arranged to take office in the Black block. The Composite Brick Co. have moved there from the old Leader block.

Regina old timers will meet this evening in the offices of the Regina Lumber and Supply Co. to consider the holding of a reunion.

Mr. and Mrs. R. H. Williams and Miss Bessie are in Vancouver on a holiday jaunt. They will be absent about two months.

The Y.M.C.A. building committee have bought Dr. Graham's property on Cornwall street for \$10,000. The site is objected to by some of the directors.

The city has refused the request of the Winnipeg Oil Co. for a wholesale site as the danger of storing oil is too great to locate a warehouse on the property asked for.

The Traders' Bank are sharing the ground floor of the Black block with the C.P.R. telegraphs. The former has moved and the latter will cross over shortly.

W. L. McLeod who was one of the management of the Windsor Hotel has gone into partnership with his father in the real estate business at Prince Albert.

E. C. Jordan B.A. of the present normal class has been appointed as principal of Nutana public school at Saskatoon. He succeeds Miss Edna O'Brien who has resigned.

Miss Smithy who has retired as head of the hospital staff, left for the coast on Monday. She was succeeded by Miss Chalmers who is now matron of the institution.

The education board has suggested regulations that will require legislation to enforce, and it may be found necessary to take up school matters at the coming session.

The Normal exams are now on, and will continue till Friday. There are twenty-five writing who attended the normal last year and nothing to pass they were granted certificate on which they have been teaching.

In the case of Tucker vs. Armour the Armour block, Judge Nowlands for the possession of a portion of gave judgement to the effect that Bert Tucker paying arrears of rent, he may take possession of the premises for which he got a ten year lease in 1903, at a very low rate.

F. J. Robinson deputy commissioner of public works, was married at Qu'Appelle on Saturday to Miss Lena Scott of that town. They have gone to the coast for a few weeks. The many friends of the bride and groom will extend cordial congratulations.

Some of the aldermen elect are annoyed at the publication of comparative budget measurements, but they can afford to rest at ease for Dr. Charlton has in his laboratory a preserved brain which is one of the largest ever discovered and it was taken from the skull of an idiot.

The bazaar given for three days in the basement of St. Mary's church was a decided success. The stalls were all prettily arranged and many useful and fancy articles were there displayed. Mrs. Acastor who presided over the supper table deserves unstinted praise and over two hundred people did justice to the excellent supper prepared. The tables were all beautifully decorated with flowers sent from Government House. The children's concert given, was arranged by Mrs. Rimmer and the teachers of Gratton school and was excellent. The bazaar netted quite a handsome sum for the church.

A fashionable wedding took place in St. Paul's church on Wednesday afternoon last when Emilie Catherine, eldest daughter of Mr. Justice and Mrs. Johnson was married to Wilfred John Swaisland, manager of the Union Bank at Cupar, but formerly of Regina. There was a large attendance at the ceremony, which was performed by Rev. G. C. Hill. The bride was attended by her sisters, Queen's and Norma, and F. W. Logan supported the groom. The ushers were Mr. Bremner and Mr. Von Iffland. Supper was served at the family home, where the beautiful presents were displayed. Mr. and Mrs. Swaisland are in New York on their wedding tour.

ADVERTISEMENTS. For sale cheap, firewood and fence posts for cash or will trade for oats. Apply, Wood's Farm, Edenwald, Sask. \*35\*87

Mr. George C. Holland, official reporter of the Canadian senate, after twenty-five years' experience as a reporter, and after studying nearly all the leading systems of shorthand, referring to the system taught in the Federal College says that it is superior to all others. Prospective students should make a note of this and attend a school where they can obtain instruction in the best system of shorthand. The Federal College has bright, comfortable class rooms in the Stokes Block, Broad street, Regina. \*36

NOTICE OF DISSOLUTION OF PARTNERSHIP. NOTICE is hereby given that the partnership heretofore existing between us, the undersigned, as P. Phillips & Co., Cement Block Manufacturers in the City of Regina in the province of Saskatchewan, has this day been dissolved by mutual consent.

Some of the aldermen elect are annoyed at the publication of comparative budget measurements, but they can afford to rest at ease for Dr. Charlton has in his laboratory a preserved brain which is one of the largest ever discovered and it was taken from the skull of an idiot.

The bazaar given for three days in the basement of St. Mary's church was a decided success. The stalls were all prettily arranged and many useful and fancy articles were there displayed. Mrs. Acastor who presided over the supper table deserves unstinted praise and over two hundred people did justice to the excellent supper prepared. The tables were all beautifully decorated with flowers sent from Government House. The children's concert given, was arranged by Mrs. Rimmer and the teachers of Gratton school and was excellent. The bazaar netted quite a handsome sum for the church.

A fashionable wedding took place in St. Paul's church on Wednesday afternoon last when Emilie Catherine, eldest daughter of Mr. Justice and Mrs. Johnson was married to Wilfred John Swaisland, manager of the Union Bank at Cupar, but formerly of Regina. There was a large attendance at the ceremony, which was performed by Rev. G. C. Hill. The bride was attended by her sisters, Queen's and Norma, and F. W. Logan supported the groom. The ushers were Mr. Bremner and Mr. Von Iffland. Supper was served at the family home, where the beautiful presents were displayed. Mr. and Mrs. Swaisland are in New York on their wedding tour.

The demand for specially trained office help is so great that already a number of Federal College students have accepted positions in Regina and elsewhere. Several others will be ready for situations early in the New Year. Business men desiring well-trained book keepers and stenographers, should communicate with Mr. G. S. Houston, Stokes Block, Broad St., Regina. \*36
