OLD HOME WEEK

Energetic Committees Appointed To Arrange a Good Time for July 9--12--Chatham and Newcastle to Co-operate

The public meeting, adjourned from the 20th, met in Newcastle Town Hall, May 21st. Mayor Belyea in the chair.

F. S. Henderson was appointed secretary.

The purpose of the meeting was explained by the chairman and Mr. E. A. McCurdy.

The original committee were added to, the full number now being: Lieut. Col. R. L. Maltby, J. D. Creaghan, Ex-Ald. Dickson, Mayor Belyea, Ald. McGrath, Ald. MacKay, J. R. Lawlor, E. A. McCurdy, W. J. Jardine, A. H. Cole, H. R. Moody and F. S. Henderson.

The particular days for Newcastle fete were left to committee.

J. R. Lawlor wanted to know if anything had been done towards voting money for the use of the committee.

Ald. Miller said that he would be willing to vote at least \$200.

The mayor, Alds. McGrath and MacKay, Col. Maltby, F. S. Henderson, E. A. McCurdy and others were opposed to asking the town for money.

On suggestion of Ald. Miller it was resolved to appropriate the balance of \$60 from the recent first of July celebration to the Old Home Week fund.

Messrs. Belyea, McCurdy and Creaghan were appointed to go to Chatham to attend Chatham's meeting of the 22nd.

Adjourned.

The committee then appointed Messrs. McCurdy, Jardine and MacKay a committee to solicit subscriptions.

CHATHAM MEETING

A special meeting of Chatham Board of Trade was held Wednesday evening.

A committee recommended July 9 and 10 for Chatham and 11 and 12 for Newcastle and urgent co-operation between the two towns.

The President called on Mr. McCurdy, of Newcastle, to offer suggestions, and Mr. McCurdy spoke of what Newcastle had done of a preliminary nature.

Mayor Belyea followed, saying he had come to hear suggestions and discuss proposals for co-operation between the towns.

Mayor Belyea suggested that a Military Tattoo might be one of the attractions.

J. D. Creaghan thought citizens generally should take an interest in the movement. Newcastle appreciated the friendly overture from Chatham, and would co-operate in every way possible. He thought the citizens should be consulted first. Funds would have to be secured to carry on the celebration. Sub-committees would be necessary also.

W. B. Snowball said the co-operation of Leggieville should be asked for.

Mr. Creaghan said they had taken the precaution in Newcastle to secure the two bank managers. J. A. Buckley wanted the celebration a unanimous thing over the county.

Mr. McCurdy suggested that Mr. Cole, one of the Newcastle committee, be called upon.

Mr. Cole said he couldn't say anything till the meeting got down to facts.

W. S. Loggie supposed that the committee would meet and formulate a plan.

Mr. Snowball suggested that the school children be utilized in some way.

Mr. McCurdy suggested that Chatham might have one class of amusements and Newcastle another kind, thereby producing an attractive programme for the week.

Mr. Connell would give any of the visitors fishing on the Battisbogue or Tabusintac.

K. Flanagan moved that Chatham co-operate with Newcastle in the celebration. Carried.

Mayor Belyea said committees had been appointed to canvass Newcastle for funds.

Adjourned.

TOO MANY APPLICATIONS

British Aid Veterans Are Wonderfully Numerous Now That Grant is Offered.

Ottawa, May 21—2,000 applications for the grant of \$100 each to veterans of the Fenian Raid have been approved.

There are now no less than 35,000 applications from bona fide ex-pseudo veterans on file in the department of militia and some 2,000 additional application forms which have been sent to applicants have not yet come in.

Thus, counting the 2,000 applications already approved, there are at least 25,000 men in the dominion who think themselves entitled to the \$100 voted by parliament to each man under arms in 1866 and 1870.

But the records show that only 20,000 men were actually called out for service, and it is estimated that are probably not more than 46,000 or 7,000 survivors at the most.

TOM MANN'S SENTENCE REDUCED

London, May 20—In the House of Commons to-day Home Secretary McKenna announced that the six months sentence imposed on Tom Mann, the labor leader, for advising soldiers not to shoot the strikers, had been committed to two months. At first it was 9 months, then reduced to 6; now to 2.

IN THE EX-CHEQUER COURT

Land Owners Awarded Only a Small Part of Their Claims.

As a result of the deliberations of the Exchequer Court, which held its sessions in Chatham, to try claims against the I. R. C. for land damages sustained by proprietors along the diversion of the railway into Chatham, the following judgements have been given:

Philip Loggie—\$2008.60 and \$175 costs. He was awarded \$540 by the appraisers, but the Government engineer valued the expropriated land at \$2340. Mr. Loggie asked for \$3000.

Jud. e. Wilkins—\$522.50 and \$130 costs. The appraisal was \$300. He had asked \$1000.

John O'Brien—\$130 without costs. The appraisers offered \$130. He claimed \$1000.

Geo. E. Fisher—\$1815 and \$200 costs. The valuers appraised the property at \$1400. Mr. Fisher claimed \$4000.

Thomas Farley agreed to accept the amount offered, \$300, in settlement, with \$165 for costs. Judgment was given accordingly.

The most important case, that of A. & R. Loggies claims for \$125,000 is not adjudged yet, nor M. Scaffers suit for \$20,000 damages for accident on train.

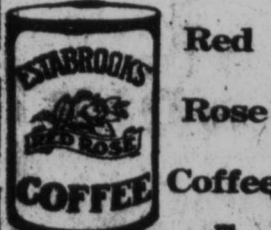

BUILDING COURT HOUSE

Work began Monday tearing down the old Record office, preparatory to building the new Court House on its site. E. P. Williston, County Clerk, has moved his office to the Quigley building, corner Regent and Pleasant streets, and J. R. Lawlor, keeper of the records, to the rear of the Post Office.

THE HOTEL MIRAMICHI CLOSED

The Hotel Miramichi has been closed since Friday morning, May 24th, on account, it is said, of the rigid enforcement of the Canada Temperance Act by the present members of the Police Committee, backed by the majority of the town Council. Good Health For Young Girls

They Need the New Blood Dr. Williams' Pink Pills Actually Make

Perhaps you have noticed that your daughter in her teens has developed a fitful temper, is restless and excitable. That she complains of weakness and depression; feels tired out after a little exertion; appetite variable, complaints of headaches and is growing pale. In that case remember that the march of time is leading her on to womanhood, and at this period a great responsibility rests upon mothers. These are symptoms of anaemia—that is bloodlessness, and iron should be lost in increasing and enriching the blood supply. Unhealthy girlhood almost always leads to unhealthy womanhood. All young girls in their teens need the help of Dr. Williams' Pink Pills, which enrich and increase the blood supply, and give sickly drooping girls the brightness and charm of perfect health. In proof of this Miss Z. A. Gordier, Morrisburg, Ont., says: "I was pale and bloodless and suffered from many of the symptoms of anaemia. I would tire easily and suffered from frequent headaches. My appetite was poor and I was very pale and easily discouraged. The medicine I was taking did not seem to help me, and then one day I read the story of a young girl who suffered similarly and was cured through the use of Dr. Williams' Pink Pills. I got three boxes of the pills and started to take them. Before they were done I began to feel better and look better. Then I got half a dozen more boxes, and before they were all used I was enjoying the best of health, and have continued to do so since. My young brother was troubled with rheumatism, and they completely cured him."

Dr. Williams' Pink Pills are sold by all medicine dealers or can be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THE ROYAL CRADLE FEARED HE HAD CONSUMPTION

The Cradle Used for Children of King George Same As Used For Late King Edward and His Heirs.

The late King Edward was always fond of children. His grandchildren were immense favourites with him. When, early in the morning, he would walk over to York Cottage, where his private and special apartments were, he would spend some hours in the garden, smoking his cigar and watching the children at play, entering into their enjoyment with obvious delight. Queen Alexandra's name is remembered that his favourite was "great as any" and his delight was unbounded when the news of the birth of the young Prince of Wales was announced to him.

The first action was to telegraph to the Queen Victoria and request that the old-fashioned cradle that had been used for Edward and his predecessors might be sent for the occasion of the new arrival. The cradle was sent to the modern nursery in the Palace. To it is now sent, silver plate with the initials of the late Queen Victoria, Prince of Wales, and the Duke of York. It was used by all her Majesty's children and was given by the Duke of York to the young Prince of Wales for the next Royal Baby.

The cradle was furnished for the young Prince of Wales. The cradle was made of silver, and was used by all her Majesty's children and was given by the Duke of York to the young Prince of Wales for the next Royal Baby.

THE LIGHT-HOUSE KEEPERS STORY

FROM the lighthouse at Lobster Cove Head, Bonne Bay, Newfoundland, Mrs. W. Young sends her experience of Zam-Buk.

She says: "I suffered with eczema for seven years and to my great delight Zam-Buk has cured me. The disease started on my breast, and spread until it extended over my back. The itching and burning—especially when the affected parts were warm—was terrible; and yet when the eruption was scratched or rubbed, it turned to bad sores and caused great pain. I went to a doctor and tried various prescriptions, but seemed to get no benefit, so tried another doctor. Again I got no relief, so tried a third doctor, and then a fourth.

"Seven years is a long time to suffer, and I had got used to the thought that I never would be cured, when I saw a report in the Family Herald, telling how beneficial Zam-Buk was in cases of skin disease.

"I bought some Zam-Buk, and from the use of the very first box I saw it was going to do me good. I persevered with it, and the improvement it worked in my condition was really wonderful.

"It eased the irritation, stopped the pain, and the sores began to dry up and disappear. In short, I found Zam-Buk all that was claimed for it and within a very short time it worked a complete cure in my case.

"Since that time I have recommended it for several other cases, and in each it has proved its wonderful merit.

AMONG THE CHURCHES

From about 10 o'clock Mr. Fiedler, the proprietor, was seen to be dropping the newspaper upon his knees and gazed at the fire, what an extraordinary case!

"What is that?" asked sweet Mrs. Fiedler, as she came back in her chair to the parlour.

"Why—a report here of a ship that was wrecked near Terra Nova, where the cannibals are, you know. The Furies killed and ate the sailors. It appears, however, that the cannibals were the survivors of the wreck."

"The devil, I should have thought they would have preferred to eat us. They are so much more tender than men, aren't they?"

"Well, I don't know. It seems, according to this account, that the two men they ate had nothing on but flannel shirts and linen trousers, which the cannibals munched up with delight. The one woman that they ate was—"

"And on her, in addition to her underclothes, flour a pair of hairpins, a wire comb, a bent steel cross-sword, a seven oxidized silver handle, a polished watch-chain, a steel bracelet, a silver watch, a button-hook, a comb, a hairbrush, a hair-clip, a hair-clip, etc., brass-tipped heels to her boots, gilt—"

"Good gracious, how they must have suffered!"

"Rather! Listen to this: For five days after, the chief of the natives never moved or spoke, but has since recovered and celebrated his convalescence by burning forty children as thank-offering. He has since sworn, and made his tribe swear, never to eat another white squaw!"

BRIGHT AS AN ORATOR

John Bright was the greatest orator England saw during the nineteenth century, an age and a country where oratory reached the heights. To hold such place he must out-top Gladstone, the great; Disraeli, the brilliant; Palmerston, the witty; Cobden, the wise; Parnell even, with whom he is closely associated. His speeches are still read, and readable today, by those who rejoice in the lovely phrasing which keeps them literature where they were speech.

Augustine Barril tells his address of the unveiling of the statue to Richard Cobden, "one of the greatest orators of English speech," and again, he after breakfast speech in response to Lloyd Garrison in 1867, "perhaps the most beautiful speech ever made in the English tongue on a public occasion."

His habit was ever to stand at the edge of the platform where the audience could "get at him" and he at them. As he criticized a friend who sheltered behind the reading desk, no man can move an audience that does not see his boots. He must have been a splendid looking figure, this John Bright, as he thundered like Amos, and lamented the Jeremiah, and loved like Saint John. His was a splendid face, redeeming mankind from a counterfeit presentment of goitroid. And it is not so stern or so a face as might have been expected from his reputation. Was it of him one wonders the Sydney Smith asked of the portrait painter, "Could you manage to make me the portrait of a little boy?"

CURIOSITY Prompted Many Women To Try PURITY FLOUR

THEY were curious to see exactly what results would be produced by flour consisting entirely of the high-grade portions of the best Western hard wheat.

They were curious to know more about a flour that contained none of the low-grade portions, which are found in every wheat berry, but which are separated and excluded from the high-grade in the process of milling PURITY FLOUR.

THEY were curious to know whether an ALL-HIGH-GRADE hard wheat flour was really superior to a mixed hard and soft wheat flour.

They were curious to see and taste the kind of bread, buns, biscuits, cakes and pies PURITY FLOUR would make.

Curiosity prompts you to seek the knowledge they discovered. It's urging you to try PURITY FLOUR.

REMINDER: On account of the extra strength and extra quality of PURITY FLOUR it is necessary, for best pastry-results, to add more shortening than you are accustomed to use with an ordinary flour. Add more water when making bread.

ENGLISHMEN AND OLYMPIC GAMES.

To win the Olympic games seemed to be the ruling passion of a large number of Englishmen just now. The wave of patriotism is sweeping in England. The cry for Olympic material has reached national proportions.

Englishmen have always been wonderful distance runners. They have been first at the sprints and in some of the field events.

The effect now being made in England of holding the old Olympic games is being met in the spirit in the hope that the distance runners

Two of the best sprinters in England are Harry Green, a marathon runner of ability and W. Scott, England's 10-mile champion.

LACROSSE ON SKATES.

A new game is being introduced in Ontario this winter, lacrosse on skates. It has been tried and accepted by the sportsmen in Eastern Ontario, and will be given a trial. It is played by seven-men teams, who line up as they would on a lacrosse team. A soft ball is used and players are not allowed to raise their sticks above the shoulders. An offender's stick is sent to the penalty box. This rule makes underhand passing and shooting imperative.

The Royal Rifles are instituting the game in Regina, and are ready to meet any team in town that would like to take a whirl at it. They organized at a meeting held in the Palmer House, when the following officers were elected:

Honorary president, A. W. Melvill; president, Geo. Harper; vice-president, C. N. Galvin; secretary, Chas. Wood; treasurer, A. A. Fisher; manager, Wm. Degan.

The following players will be in the line-up: J. Arnold, A. Urquhart, P. Harper, H. Hill, W. Degan, J. Staples, Barlow, B. Hopp and James MacLaughlin.

VARIETY OF HOLES IN GOLF.

The up-to-date golf architects generally agree nowadays that in the arrangement of courses that mean something there should be a complete variety of holes not only as to length, but in the character, the way in which they are bunkered, the kind of tee shot that is required at them, and so on. In fact, the kind of approach, in every case the putting greens should be thoroughly well guarded.

It has also been claimed that the shorter the hole the smaller should be the bunker, and the more closely it should be guarded, so that on the principle when in good play a long shot can reach the green which should be fairly large and open in order to give the player encouragement to which he is entitled. However, there must ever be difference of opinion. There are those who argue that it is wrong to say that a fairly long course is a sufficient test to select the best golfer out of a field of any fifty or one hundred competitors. In other words, no course can be a thorough test of the skill and nerve of the player which has not so closely guarded greens that on occasions there is but one, and that a most skillful shot, by which the long approach can get home.

FOOTBALL.

How sports, once only followed in the British Empire, have become popular all over the world, is again illustrated by Association football. Its growth has been rapid and its popularity is by no means confined to the white race. Some of the native teams in the ramparts of Empire are capable of showing really good football, all of which is satisfactory. How other nations have taken to "soccer" rather come home to one through Fulham having tried Husorn Hegarzi as centre forward on Saturday, against Stockport. He is an Egyptian, who showed capital form against English teams at Cairo before coming to England a few months ago. His play in England was closely watched, and he shaped very well for a first appearance in an important game.

AN UNPRECEDENTED ELECTION IN U.S.A.

Mr. Oscar Underwood, Dem. Presidential Possibility, Writes Down What He Thinks for and Against.

(Publishers Daily News Service) Washington. — Oscar W. Underwood the Dem. leader in the house is not a proponent of the house's strongly expressed wish for a party platform of important reforms. He understood the more or less progressive spirit. Underwood is not of a presidential possibility than he generally favors. In order to give him a chance to be understood by the public a list of questions were submitted to him. Hereafter follow the chief question and the answer which Mr. Underwood wrote to them:—

Q.—Do you believe in the Initiative Referendum and Recall, including the recall of judges?

Ans.—I am utterly opposed to the initiative and referendum — utterly and unalterably opposed. I believe that is it subversive of the very form of our government. It is the negation of representative government. It is wholly reactionary if not progressive. I believe, however, that the Initiative Referendum and Recall should not be placed in the national platform, but that as a local matter it should be

OSCAR UNDERWOOD

worked out in each state, and not be made a party issue. I am absolutely against the recall, even in its worst form — the recall of judges — to be so dangerous as the initiative and referendum. The recall of an officer merely affects the tenure of an office. I believe that at reasonable intervals the people should have an opportunity to re-elect their officers, and short terms of office could accomplish much more than the recall.

AMERICAN PACKERS LOSE BRITISH CONTRACTS.

Decision Will Hit Meat Barons Hard and Argentine W.I.I. Benefit.

London. — The British government has decided to exclude the American meat packers against whom prosecutions have been instituted in the United States from tendering for contracts for the supply of meat to the British army and navy, pending settlement of suits. The decision of the government is due to the opposition of labor and advanced radical members of parliament to the American trusts.

The contracts given out by the war office which had hitherto been secured by American firms are now expected to go to Argentine meat packers. It was explained by officials of the war office that the government's action was in accordance with its regular policy. In case any company with which the government dealt became in serious litigation, the government immediately refrained from giving it contracts. British firms received the same treatment under the same circumstances.

Did you ever hear any one say they could not get good coffee except in the States?

I have heard it, scores of times, and it's one of the reasons that made me decide to go into the Coffee business.

Of the Americans who visit us in summer, hundreds take home a supply of Red Rose Tea because they have never used such good tea before. I determined to put up a coffee that would make for itself just as good a reputation. It has not been easy, but I am sure I have succeeded.

Estabrooks' Red Rose Coffee, put up in sealed tins is—well, it's good coffee. You and your American friends will say so.

A good combination is Estabrooks' Coffee for breakfast and Red Rose Tea for other meals.

Biggest Ship In The World

Hamburg, Germany, May 23.—The Hamburg American line's new mammoth trans-Atlantic steamer Imperator, the biggest vessel in the world, was successfully launched here this morning.

Emperor William acted as sponsor. The launching weight of the Imperator was 29,755 tons, but when completed it is believed she will displace about 52,000 tons.

Among the innovations introduced on the new vessel, as a result of the Titanic tragedy, the company has determined to swing on board lifeboats in which room is provided for every soul carried by the steamer and have them in readiness for launching at any moment.

At the services held in two sections of the Fairmount congregations on the 19th, and also at a service held in Bass River, Rev. R. H. Letters setting forth the expression of opinion given at their meetings have been sent to Hon. F. C. Devane, Hon. R. L. Borden and A. W. Campbell.

During the meeting a resolution disapproving of the contemplated action of the I. C. R. board of having a Sunday passenger train run through the Maritime Provinces was moved by Rev. R. H. Stavert and seconded by James Godfrey. The resolution was carried unanimously.

Lunch was served by the ladies at the close of the meeting.

At Napar, May 22nd, a large number of people assembled in the Presbyterian church to hear a temperance lecture by Rev. R. H. Stavert. Rev. G. A. Grant was the chairman of the evening.

At the close of the lecture upwards of fifty took the pledge and a division was organized.

The following officers were elected:—

BRITISH NAVY REORGANIZED

New Body Will Be Constituted, Applied on Scientific and Speculative Study and Strategics.

(Publishers Press News Service) London.—The First Lord of the Admiralty, Winston Churchill, has made further important changes in the organization of the Admiralty, when Admiral Sir Francis Bridgeman, Vice-Admiral Prince Louis of Battenberg and Captain William C. Pakenham became first, second and fourth lords respectively. An admiralty memorandum issued recently completes the naval reorganization by the creation of a Naval War Staff, of which Admiral Ernest Troubridge was appointed private secretary of the first lord of the admiralty, becomes chief.

Sir Francis J. S. Hopwood, formerly under-secretary of state for the colonies, who was on the staff of King George, then Prince of Wales during his visit to Canada in 1903, is appointed an additional civil lord on the Admiralty Board. Rear-Admiral David Beatty, who in 1901 married Ethel Bond, daughter of the late Marshall Field, of Chicago, succeeds Admiral Troubridge in the secretaryship.

Captain George A. Ballard, of the battleship Britannia, and Captain Thomas Jackson, assistant director of naval intelligence, have been appointed directors of the operations division and the intelligence division respectively.

Mr. Churchill in a long explanatory statement says that the War Staff is to be the brain, applied scientifically to scientific and speculative study of naval strategy and preparation, and will be organized from the existing elements in the three divisions, intelligence, operations and mobilization. These divisions will be combined under a flag officer as chief of staff. The War Staff will have no executive authority. Its responsibilities will end with the rendering of advice to the First Sea Lord.

A complete list of the officers forming the staff, which will comprise most of the grades, will be promulgated soon.

Mr. Churchill further explains that the new civil lord will be the "buyer and business manager" of the navy, while there will be close co-operation between the naval staff and the war staff of the army. Captain Alexander L. Duff, director of naval mobilization, has been appointed head of the mobilization division of the new war staff. The rest of the staff will be provided by abolishing four official admiralty vacancies, thus saving about \$175,000 annually.

GOOD SNAP FOR JANITOR

Banker Jennings Sold to Have "Loaned" Thousands of Dollars to His Office Boy and Janitor.

New York.—If you need money, just get a job as janitor or office boy in the right kind of a bank and borrow as many thousands as you want. Banker Herbert T. Jennings loaned his office boy \$2500 last year and permitted the janitor to touch the bank for \$6750. That's what the grand jury says in an indictment against

BANKER JENNINGS

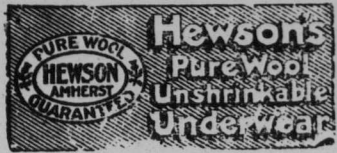

Jennings, charging the misapplication of \$250,000 belonging to the wrecked Mt. Vernon National bank. It also says that Jennings used the office boy and janitor as dummies and pocketed the money himself—so maybe it wasn't so soft for them after all. But it must feel good to borrow a big bag of coin, even if you don't really get it.

PAUL GILMORE CO. IN A GREAT WESTERN PLAY

"Billy the Kid," the successful Western drama, while sensational, is consistent and tells a story that is full of interest, having for its big climaxes, situations which are exceptionally dramatic. The comedy element is furnished by a good natured Irishman, a fine type of old school Southern Colonel and his colored orderly. The love interest, that is developed in the telling of the story, is exceedingly strong, and the types which have been introduced by the authors are taken from life and well and clearly drawn. From a production standpoint, the play is elaborate, each of the four acts having handsome and arduous settings. "Billy the Kid" will be seen here on Wednesday night, May 29 at Opera House. Watch for the Cowboy and Cowgirl's parade on Wednesday afternoon.

THE PAUL GILMORE COMPANY IN "BILLY THE KID"

Some company that played "The Third Degree" here, has been interested in that ever popular play "Billy the Kid," is reported to be exceedingly well-sustained throughout the entire run of the play. It is the real love of a young woman for a young man that the authors are said to have depicted, and not the morbid sentimentality so frequently found in plays of this sort, where both the hero and heroine do impossible things for one another. In this instance, the friendship of the boy and girl ripens into real love of the man for the woman, and later shows her womanliness in the many sacrifices she makes for him. The players engaged for these two roles are especially commendable and with the balance of the company makes up a cast of exceptional ability. Manager Russell announces "Billy the Kid" as the next attraction on Wednesday night, May 29. During the action of the play a number of pleasing specialties will be introduced.

Mr. Stuart took as the basis of his discourse the parable of the Good Samaritan, the text being from Luke X:37 "Go thou and do likewise." "Go thou and do likewise," said Jesus of Nazareth to the young man to whom He spoke that wonderful parable of the Good Samaritan. Those words are his marching orders to His followers not only for that but for all time.

percentage of the world under the present forms of society and the present economic conditions. A correct answer to this question is of vital importance to all connected with what is called Social and Moral Reform. Never were there more prostrate, bleeding, helpless victims on the road from Jericho to Jerusalem than there are now, and never has the injunction of the Master to imitate the Good Samaritan been more imperative than it is at the present day.

PROMINENT RAILROAD MAN

STRONGLY ADVISES HIS FRIENDS TO TRY GIN PILLS FOR THE KIDNEYS. "I have been a Pullman Conductor on the C. P. R. and Michigan Central during the last three years. About four years ago, I was laid up with intense pains in the groin, a very sore back, and suffered most severely when I tried to urinate. I treated with my family physician for two months for gravel in the bladder but did not receive any benefit. About that time, I met another railroad man who had been similarly affected and who had been cured by taking Gin Pills, after

having been given up by a prominent physician who treated him for Diabetes. He is now running on the road and is perfectly cured. He strongly advised me to try Gin Pills which I did, with the result that the pains left me entirely. FRANK S. DEB, DURAZO, N. Y. 50c. a box, 6 for \$2.50. Sample free. is due to our economic system. Since the introduction of labor saving machinery on a large scale employment has become less certain and the purchasing power of the wages has been steadily decreasing. This has led to many young men to enter single life in hotels and lodging houses rather than face the sacrifices of comfort and pecuniary security which would be involved in marriage. Then again, as the married man's wages come less and less proportionate to his needs, first his boys and finally his daughters and in many cases, his wife, have to go into the labor market to help supply the family's food and pay the rent. These women and children work more cheaply than men and, in the end, end up in a few wages in many lines of industry and in many other lines, displace men together. This decreases the ability to support families and render it necessary for the women to keep on working 20 or 30 hours of their homes. And, due to doubt to such conditions many men drift into immoral channels. The wretchedly poor pay thousands of women who try to earn a living respectably but find that virtue is the only reward of such a course and whose natural desire is to better their circumstances, renders them necessarily susceptible to the lure of the seducer and kidnapper.

Why do you go back to factories rather than take employment as domestic in safe and sheltered home? Because of the social inferiority they are too often made to feel. If girls were used as servants and made to feel at home the servant problem would not be such a bad one. But as long as servants are used as they generally are, so long will girls prefer the harder and more tedious but more congenial life of the crowded factory in spite of the dangers and pitfalls of unchaperoned city life.

Outside of a revival of faith, always necessary before any reform or revolution is complete, the remedy for immorality is economic. Give every man the full value of his work and his family relations will not, unless they wish to do so, have to look for work outside their own homes. Our economic system and the religious ideas we have founded upon it are wrong. Only the spirit of brotherhood and cooperation duly fostered by the earlier prophets and fully taught by Jesus and His disciples can save the world. The individualist theory of everyone for himself has failed and can never succeed. All for each and each for all is the better way. Not until the spirit of Jesus dominates society will the objects of social and moral reform be achieved—poverty abolished, crime and suffering reduced to a minimum and the Kingdom of God established upon the earth.

ONTARIO WOMAN'S FORTUNE

Freed From That Weak, Languid, Always Tired Feeling, by Lydia E. Pinkham's Compound.

Thessalon, Ont.—"I cannot speak too highly of your medicine. When my appetite is poor and I have that weak, languid, always tired feeling, I get a bottle of Lydia E. Pinkham's Vegetable Compound, and it builds me up, gives me strength, and restores me to perfect health again. It is truly a blessing to women, and I cannot speak highly enough of it. I take pleasure in recommending it to others."

Mrs. ANNIE CAMERON, Thessalon, Ont. Women who are suffering from those distressing ailments to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

There are probably hundreds of thousands, perhaps millions of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over 50 years ago by a woman to relieve woman's suffering. If you are sick and need such a medicine, why don't you try it?

If you want special advice write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Catholics and Socialists In German Parliament Unite Against Drilling

Berlin, May 15.—The Reichstag today adopted the anti-drilling resolution introduced May 9 with an amendment drawn up by the Socialist members providing that officers who refuse to accept a discharge to a duel shall not be dismissed from the army. The resolution which was initiated by the centre party asked the Imperial Chancellor, Dr. Von Bethmann-Hollweg to take steps to put an end to dueling in the army, particularly the practice making it compulsory for an offended person to challenge the offender or leave the army.

DEBS AGAIN THE CANDIDATE

Noted Socialist Will Try for the Presidency Fourth Time

Indianapolis, Ind., May 17.—The platform adopted by the National Socialist Convention at a session which continued until early today, advocates the industrial and political demands, plans for collective ownership and aid for the unemployed as drafted in the platform of four years ago. "Capitalist concentration" and "Socialist industrial despotism" are held responsible in the platform for the higher cost of living, increased burdens of a man's, poverty, slums, child labor, and most of the inhumanity and crime.

It is charged that the anti-trust laws, railroad restrictions, with the prosecutions, judgments and investigations based upon such legislation, have proved to be utterly futile and ridiculous.

Engene Victor Debs of Terre Haute, Ind., was nominated as the candidate for the presidency of the United States. Emil Seidel, formerly Mayor of Milwaukee, was named for the vice-presidential nomination.

Debs has run three elections. In 1900 he got about 87,000 votes; in 1904 his vote ran up to 402,000, and in 1908 it was over 420,000. The Socialist vote in 1910 was over 600,000. Between one and two millions are expected for next November, out of a total electorate of 15,000,000.
