MONDAY EV'G, JUNE 21, 1869.

Town and County Items.

Gold at noon to-day 137.

LONDON SOCIETY.—A superb number or June has been received at Day's bookstore, opposite the Market. Cali arly, to secure a copy.

SOUTH WELLINGTON AGRICULTURAL SOCIETY.—The Annual Fall Show of this Society will be held in Guelph on Wednesday and Thursday, the 6th and 7th October. The last fair at Mount Forest was more successful than any of its predecesors. There was a large attendance of Guelph buyers. Oxen ranged from \$75 to \$00, steers \$40 to \$60, and cows from \$18 to \$25.

WEST WARD SCHOOL.—The midsummer examination of the Senior Girls' School (Miss Walker's) will take place on Friday first. The parents and all interested in the progress and welfare of our schools are cordially invited to attend.

The Court of Revision for the village of Elora has finished its sittings, and after all, the Observer says, that the assessment is such that many of the rate-payers, and those the most wealthy, will escape one-half their just proportion of taxation, and the men of small means will have to make it up among them, in addition to paying their own.

DR. McTaggart.—We learn that Dr. McTaggart, of the Hamilton Irfirmary, will again visit Guelph on Friday the 25th of June, and will remain until the evening of Saturday the 26th, at Coulson's Hotel, where he can be consulted by the afflicted. None should lose the opportunity of seeing him. He is highly recommended by the Press and medical men.

EXCURSION ON DOMINION DAY.—With accustomed liberality the General Manager of the Great Western Railway has directed the running of a grand excursion train from Guelph and intermediate places, on Dominion Day, to Hamilton and Suspension Bridge, the fare being plac d at the low figure of \$1 for the round trip; children under 12, half-price. This looks something like old times, and it is pretty certain that there will be a larger profit realized at a dollar a head than there was last summer when the fare was \$2.

On Saturday the Chief Constable arrested two lads for vagrancy. One of them is a son of Henry Mellor, who some time ago so heartlessly deserted his family, and the other is a little waif named Stewart, who, having neither father, mother nor friend to look after him, has for the last two years been obtaining a precarious subsistence by such means as his ingennity could devise. Thier case was left over till an effort had been made to dispose of them in a manner more beneficial to themselves than sending them to gaol.

ST. ANDREW'S CHURCH FESTIVAL.—
By reference to advertisement, it will be seen that the Strawberry Festival, which the ladies of the committee, immediately after their late Bazaar, announced they had made arrangements for, will come off in the Drill Shed on Wednesday, the 30th inst. During the day, the things left over from the Bazaar will be disposed of at reduced prices, and in the evening, there will be a Strawberry Festival, when abundance of the most luscious fruit will be served to all comers. Tickets of admission, 25 cents. Lawrence's Cornet Band will also be present.

At the close of the examinations a large number of prizes will be given by the Board of School Trustees to the most deserving pupils.

on, June 19.—In the House ons last evening a motion

Several other motions were brought up the Chergy and the committee appointed on Thursday to frome the draft of a new Constitution. Several of the clauses were adopted, until the 16th one was reached, when Mr. W. H. Bolton rose to move an amendment, and in doing so made a long speech condemning the mode in which the affairs of the Church Society had been managed. His amendment was to the effect that there shall be a Clergy Commutation Trust Committee of the Synod for the management of the Clergy Commutation Trust Committee of the Synod for the management of the Diocere, which shall consist of sixteen members, to be elected annually by the Synod at its annual meeting, helf of whom shall consist of non-commuting Clergy of the Diocere to be elected by the Clergy, and the other half fron the Lay Representatives, to be chosen by the Laity. That said Committee shall manage and administer all the propetty, real and personal, held by the Clergy, commutation Trust Committee, of the late Church Society of the Diocese, and shall invest and take up and re-invest in Government securities, County or Township Municipal Debentures, all moneys coming into their hands for re-investment, and all surplus interests and dividends. It was sput and lost, after Mr, J. H. Cameron had replied to the charges made by Mr. Boulton.

The rest of the day was consumed in passing the remaining clauses of the constitution.

After some discussion concerning certain alterations in the Constitution, Rev. Canon Reid moved, seconded by Rev. Rev. Mr. Darling apologized to the Synod for the hasty language indulged in by him on the previous day.

BLACKWOOD'S MAGAZINE.—The June number of the above named periodical has been received from the Leonard Scott Publishing House, New York. The contents are as follows; Late for the Train, Historical Sketches of the Reign of George II, The Sceptic, A Year and a Day—Part II, Sir John Lawrence—Part III, American Reasons for Peace, Cornelius O'Dowd's Papers. The magazine is for sale at the bookstores.

THE DOCTRINE AND PRACTICE OF INDULGENCES—A pamphlet bearing this title has reached us. It comprises a series of letters between Dean Hellmuth, and the Vicar General Bruyere, which appeared in the London Free Press. The controversy was evoked by a lecture delivered by Dr. Hellmuth, and was rather suddenly terminated by him, on the ground that the Vicar General was too personal. The pamphlet may be obtained through the booksellers. FROM SPAIN.

The Hamilton Spectator to-day has bas a telegraph from Walkerton to the effect that the statement made by the Hamilton deputation as to the position of the Wellington, Grey and Bruce lipe, made before the County Council, produced a good effect. All are now convinced of the vitality of the project. The Toronto deputation addressed the Council last night. It their letter to the Warden they propose delay of action until they come to the boundary of Bruce, suggest a new route, and rebuke Bruce and other municipalities for "dislocating" their scheme.

The Railway Committee brought in a report in favour of a by-law for a bonus of \$20,000 to the first company that will be in a position to accept, within two months, a proposal to build a line to Lake Huron. Messrs Rastall and Scholes moved an amendment, which was lost, and the report was adopted by a good majority.

SOUTH RENFIEW.—The nomination for South Renfrew takes place on the 20th inst. There are two candidates in the field, Hon. Malcolin Cameron, and Mr. J. L. McDougall, M.P.P. The canvass is being pursued with vigour, and it is believed that the latter gentlemen's chances of success are the best. He is a resident of the riding, is well known, and influential.—The address which Mr. Cameron has issued to the electors in not remarkable for its clearnees. He is very reticent with regard to his intentions or his future actions should he be elected, contenting himself, and he probably presumes, the people of South Renfrew with referring to his past record, which is scarcely so reas suring that he should put unbounded faith in it. He was a Reformer at one time, and in the lineks administration held the office of Postmaster General, which he resigned in order to accept the Queen's Printership. BREAKERS AHEAD.—On Thursday night a motion was made in the House of Commons for concurrence in an item in the supply for the Kingston Penitentiary. An amendment, that the salaries should be the same as last year was put and carried by a vote of 56 to 44. In reference to this the correspondent of the Globe says: The defeat of the Government last night, by the desertion of their own supporters, is the general subject of conversation. It was directly caused by Sir George E. Cartier's friends refusing to follow him, and Sir John has taken a personal view of the matter. Last night in the lobbies after the House rose, he threatened if the vote was not reversed, he would resign. The matter is a serious personal one between Sir George E. Cartier and Sir John and may lead to an open rupture. The supporters of the Government are becoming greatly demoralized.

The Americans insist that England shall not only pay for the damage done to their shipping by the confederate cruiser, Alabama, but also demand an abject apology for her being allowed to leave the Mersey. We wonder what they intend doing themselves in the case of the Quacker City, which secretly sailed from New York on Tuesday night en route to Hayti, with arms, men and munitions of war. She has had her name changed to The Columbia, of London, and floated the British ensign at her topmast. This is the second or third vessel that has departed on a similar mission with the connivance of the United States authorities. A nice way of observing neutrality indeed. The Americans insist that England

THE MCGEE FUND,—A meeting of the general committee of the McGee Testimonial Fund, consisting of the members of the two Houses, was held in Ottawa on Saturday, when the trustees submitted an account, showing the total receipts to have been \$6.500; debts paid off, and expenses, \$6,500: debts paid off, and expenses, \$4,876; remaining due, \$1,932. But this claim is secured by Mechanics' Bank stock to the amount of \$2,000. It was proposed to remit £125 sterling to Mr. McGee's sister in Wexford, who is in distressed circumstances, and to hand over the balance to Mrs. McGee, towards payment of the debt of \$1,932.

Mr. McDougall stated in the House on Friday night that it was the inten-tion of the Government to send out a surveyor into the North-west for the purpose of ascertaining whether it would be practicable to construct a railway through the territory.

W. G. & B. Rahlway. — The movements of the deputation from the Wellington, Grey and Bruce Railway have been narrowly and jealously watched by the Narrow Gauge men. As soon as it was known that the former were in Bruce, a deputation consisting of Messrs. Gordon, Laidlaw, McMaster and Hague started from Toronto, and the Bruce County Council having been apprised of their intention of being present deferred action on the railway question until their arrival. The statements of the gentlemen from Hamilton were well received, and much pleasure was manifested at the fact of the first section of the rand being in course of construction. The Bruce County Council is a most noncommittal body, if we may judge from the report brought in by the Railway Committee when the question of a bonus was discussed on a previous occasion, yet, if we remember aright it was then promised that the road which first started should be thought entitled to the most favorable consideration.

THE LILY OF THE STRATH CHAPTER XXXIII.

At his approach, Bree, who stood by Williams' side, growled, and would have sprung en him if William had not restrained him. 'So it seems we have met again,' slowly remarked the Captain.
'It seems so,' answered William, in a firm tone, and with a look as calm and hold as that of the other was fierce and threatening.
'And doubtless,' added the Captain, 'you are ready to account for the treachery by which you turned the tables on us, and defrauded us of the spoil which had fallen into our hands.'
'I acknowledge no treachery,' replied thy youth. 'The spoil to which you refer was our property. You had forcibly taken it from us, and in using the assistance which came to us to regain it we did only what we had a right to do.'
'Ha! you are carrying it boldly. Methicks you forcet where you are and in

indians to come to your help. I well know you have the money with you, so give it up to once.

It soom to tell a lie napy circumstances, aid William, indignantly. What I have aid is the truth, and you may believe or disselleve it as you choose.

I will settle that when you have been searched. Seize them, men, he added, and anstantly each found himself in the hands of several of the crew, who proceeded without seremony to strip off their upper garments. Resistance was useless, and no one was mad enough to attempt it. The first fellow, however, to lay hands on William Denman was at once throttled by Bres, who would speedily have made short work with him had ato his master authoritatively ordered him to release him.

This the dog did, though rather reluctanty, and the moment the man was released, he brew his pistol, and would have shot his canine assailant on the instant, had not the captain interposed and prevented the act:

Don't be a fool, Walsh, he said. 'The dog is only showing his value, and I mean to keep him. Throw a sail over bim, some of you, and that will secure him.'

This was donce, and poor Bree, rolled and huddled up in the heavy covering, was rendered belpless either for his own defence or the protection of his friends.

On the person of the shipwrecked voyagors the preasts found not the money they expected, but discovered instead, in an inside pocket in the vest of Robert Douglas, a proof of the truth of what William Denman had stately this was a draft on the bank at Shawhead for the sum of three thousand two hundred and fifty pounds. This being handed to the captain, he no sooner mastered its contents than, seeing that he was baffled, he stamped furiously with his foot, swore a fierce oath, flung the paper from him, and ordered the prisoners to be carried below and confined in chains.

This order was at once carried into effect,

in chains.

This order was at once carried into effect, and while it was being executed, Jim Murlochson, unseen by the rest, picked up the paper which the captain had flung away, and, after examining it, a flush of triumphant excitement o'erspread his dissipated countenance, and he carefully deposited it in a greasy pocket-book, which he thrust into its bosom.

Parry Sound is one of her stopping places, which is situated in the heart of the best land in the Government Free Grant Territory, and connects with all the leading roads through it. Every part of the body is liable to erysipelas inflammation, but it most frequently appears on the face, legs and feet. Females are more subject to it than males. Stimulants only afford temporary relief, and have the same effect as giving a tired horse the spitp instead of oats. The true remedy is to supply the blood with the necessary quantity of iron. MASON & HAMLIN CABINET AND

METROPOLITAN ORGANS!

HAS JUST BEEN RECEIVED:

THEY are acknowledged the best Instruments of their class in the world. Mere than three hundred prominent American Artists, and a great many European Musicians have given written testimony to their great superiority. They have been awarded SEVENTY-FIVE GOLD OF SILVER MEDALS at the principal Industrial Pairs in the United States. But their crowning glory was in winning the First Frize Medal at the Paris Exposition of 1867. These organs are provided with all the Latest Improvements, including the

Mason & Hamlin Improved Vox Humana, or Fan Tremolo which produces a variety of very brilliant orchestral effect, including a remarkable imitation of stringed instruments; also the nearest approach to the peculiarly sympathetic, rich and attractive quality of a cultivated human voice yet attained in any instrument. The facilities and resources of the Mason & Hamlin Company are now so great that they can afford and undertake to furnish not only the best, but also the Louvest Priced Organs made. Every Instrument is fully warranted for flac years, and furnished at prices ranging from \$50 to \$1000 and upwards.
