THE TRAGEDY AT TUPPERVILLE

No New Developments Brought Out at the Preliminary Examination

The preliminary examination of John Everson in connection with the Tuperville tragedy opened at three o'clock Wednesday afternoon before Magistrate Fay. The witnesses were excluded from the Court room, being admitted individually for examination. Chief of police Gill brought the prisoner from the station, he having been conveyed on the D. A. R. express by Sheriff Edwards from Annapolis. He was neatly dressed, calm but appeared greatly interested in all the evidence.

The following witnesses were examined by Crown Prosecutor Irvin: K. C., and cross examined by C. Morse, Counsel for the prisoner: Mrs. Lloyd G. Woodbury, Sparrow Messenger, Robert Baker, brother-in-law of the prisoner, Watson Kent who first saw the fire, Stanley Kent, son of Watson Kent, Dr. M. E. Armstrong, the coroner, and Leslie Dargie.

No new developments were brought out. It is a strange incident that neither Moses Everson, owner of the house or his son-in-law, Robt. Baker, with whom he was staying, went to the fire when called. They were both called some time before daylight, but did not take the trouble to go. They both started, however, at six o'clock in the morning but Baker returned to his own house as he did not want to leave his wife alone. Court adjourned at five thirty to meet Monday afternoon April 13th, at two o'clock. The interest in the case and the court room Monday was packed. Standing room only being available when the prisoner was conveyed to the room.

THE EXAMINATION CONTINUED

The adjourned preliminary examination of John Everson in connection with the burning of the Everson house and the death of his twin brother, Fred, aged 20 years was continued Monday afternoon. The first witness examined was Moses Everson, father of the prisoner and the boy who lost his life in the fire. He claimed that he did not know the meaning of the word "wrangling" that he used in the evidence in the corner's inquest.

When he left the boys were simply talking to each other. The boy who is dead was at times boisterous and appeared to have a grievance with one of the neighbors. The other boy (the prisoner) was a regular peace maker. They were always affectionate and thought a lot of each other. Fred had started to go to Annapolis on the Owl train but soon came back saying that he had missed the train. When the witness left at 10.15 the boys were still talking. His usual bed hour was from nine to nine-thirty and he could not sleep with people talking. His health was not good, he was 67 years of age. He was subject to ill turns and for that reason did not go to the fire when called. When he went up the next morning he met the accused who told him Fred was burned and if he had known Fred was in there the accused would have gone in to save him if he had lost his own life. At this stage of the proceedings the witness burst out in tears. The prisoner also appeared to feel very badly.

Mr. Howard Bent was next called. He went to the fire at 12.30 saw the accused standing near the house. He told the witness that his father had gone to Baker's and his brother to come to Baker's on the Owl train.

Mr. Louis Chipman was called. He had also gone to the fire about 12.30. He saw the accused at the west side of the house. Accused told him that he could not get his clothes out of the burning building. He said that his brother had gone to Annapolis and his father to Baker's. Later the witness smelled what seemed to be meat cooking and discovered what appeared to be a body lying on the kitchen floor with the head in the pantry door. He called other people's attention to it and endeavored to throw water on it. The accused said it was no use to throw water on it as it could not be anybody, as his brother had gone away on the Owl. Witness said that the accused threw an old flour barrel on the fire, which went in the porch. Witness

BOY SHOOTS GIRL PLAYMATE

Seven-year-old Elsie Dunn Killed on Street in Todmorden—Two Homes Plunged into Grief

A Toronto despatch says: In the little front room at 149 Gamble ave. Todmorden, lies a still small form. The neighborhood mourns. Seven-year-old Elsie only daughter of Walter Dunn (a 24th Battalion veteran, who lost an arm at Arras) was yesterday the picture of health, the pride of her parents, the "life of the street."

She came home from school as well as usual. Her parents came home later to find Elsie dead from a bullet wound.

GRIEF-STRICKEN

Two doors from the Dunn home lives little Johnny Jones, aged 11. His were the hands that held the dilapidated rifle from which sped the fatal bullet. Tear-stained are the faces of the whole family to-day. The mother, herself ill, rocks to and fro, half moaning nearly crazed with sorrow over the tragedy, and in dread, too, of bad news from a city hospital, where her daughter is undergoing a critical operation. Johnny sat in the kitchen sobbing.

"COME AND CURE HER"

The shooting was between 6 o'clock and 6.20. "I had sent him to the store and it only seemed like a few minutes when he came in and told us," sobbed his mother. "I have shot Elsie, come and see if you can cure her," he said. They had carried her into Roberts' store when they got there.

"Oh, if I had only had that gun destroyed. His older brother bought it from a boy for 75 cents. It was broken and we had thrown it out on a scrap heap, and he was told not to touch it."

This morning Johnny brokenly started to tell the reporter what had happened, but the terror of recalling what had happened was too much for him.

"A boy gave me some shells, and I was trying to hit a post in front of the store, but the gun wouldn't go off," he said. "Little Elsie came by and I told her to watch out, as there was a bullet in the gun. I pointed the gun past her at the post and this time it went off."

Walter Dunn finished the story. "The bullet went through her little fur coat and entered her chest. Her lungs were pierced. Dr. Fleming was sent for, but our baby was dead before he arrived. The funeral will be held on Monday afternoon."

County Constables McCann and Brinnacome were notified and an inquest was opened at the Todmorden Hotel.

(Little Elsie above referred to, was the daughter of Walter and the late Marguerite (Bishop) Dunn, being a grand daughter of Mr. A. R. Bishop of this town. The greatest sympathy is extended to the bereaved ones.)

Bridgetown for the current year as approved and corrected by the Finance Committee of the council was laid before the Council by the Clerk whereupon it was moved by Coun. A. L. Anderson and seconded by Councillor J. S. Moses and passed the 1st day of June next and the same is hereby fixed by the Council as the day on or before which the rates as set down in said rate book in respect to property and income shall be payable.

It is further resolved that any person, firm, company, association or corporation paying to the Treasurer the amount of his her, or its taxes on or before the said date shall be entitled to a reduction of 5% therefrom. It was further resolved that interest at rate of 6% per annum shall be paid on all rates and taxes or balances thereof that are unpaid after the 30th day of June next and the interest shall be added to the unpaid taxes and rates or balances thereof, due from any person, firm, company, association or corporation and shall be collectable and chargeable under the provision and chargeable under the provision of the Town Incorporation Act and amendments thereto and as though the interest was a part of said taxes. Minutes read and approved. Council Adjourned

NEW SEASON

TO THE TRADE:

Last season was not all clear sailing for the Retailer or Manufacturer.

The Manufacturer was greatly troubled by the labor unrest, so much so that it was almost impossible for him to procure adequate skilled help; to say nothing of the high wages.

The uncertainty of the market caused the retailer to be over-cautious in buying, and ordered in smaller quantities and at a later date than usual, thus causing the Manufacturer to be delayed in the commencement of operations.

The hide condition does not materially affect the situation at present, and there is every reason to believe that the market will remain strong throughout the current year, and we look for prices to advance rather than recede.

We have a full stock of GOOD, FANCY AND EXTRA FANCY SHOES, Oxfords and Pumps and we are at your service.

COULDN'T WORK FOR WHOLE YEAR

Veteran Was all Run Down, But Gains Fifteen Pounds And Is In Best of Health Now

"For one year before I began taking Tanlac I was so weak I could not do a lick of work, but now I have gained fifteen pounds in weight and am in the very best of health," said Arthur F. Ingram, of 4 George St., Halifax, N. S., a few days ago. Mr. Ingram saw four years of service in France with the Canadian Expeditionary Forces, being attached to the Fifth Artillery. He was engaged in some of the heaviest fighting of the whole war, including the battles of the Somme and Cambrai.

"I have been in miserable health ever since I got out of the Army late last Spring. In fact, my troubles started when I was gassed in France, just before the Armistice was signed. Continued Mr. Ingram. In six months I lost forty pounds and some days I was so weak that I came near collapsing. My appetite was so poor that I had to force myself to eat enough to keep alive and sometimes just the smell of food would nauseate me so that I would have to get out of the house. You can imagine how weak I was when I tell you I went for days at a time without eating a bite. I could hardly retain a thing on my stomach. Why, sometimes I would become so nauseated while seated at the table that I would have to get up and leave. The cramps and pains in my stomach would nearly draw me double and at times the agony was almost more than I could bear. I was so nervous and restless that I got but little sleep and some nights I lay awake the whole night through. "My brother in law had been taking Tanlac and it had done him so much good that he advised me to try it, too. I had taken so many medicines that I had about lost faith in them, but I made up my mind to give it a trial. Well, sir, I was so surprised when I began to improve I could hardly believe it. That gave me encouragement and I kept right on taking it without missing a dose until now I have finished my fourth bottle. And to-day it seems almost too good to be true, but it is a fact just the same that I am in perfect health and am feeling as fine as a man could want. I have a splendid appetite and can eat anything I please, my stomach was never in better condition and I digest anything I eat without the least trouble of any kind. The cramping pains have all disappeared and it is no trouble for me to retain what I eat. I sleep like a log every night and when I get up of mornings I am ready for as big a day's work as any man. My strength and energy have come back and already I have gained fifteen pounds and am just gaining right along. In my opinion Tanlac has no equal as a medicine and I recommend it in the very highest terms."

Tanlac is sold in Bridgetown by S. N. Weare and in Middleton by O'Hford A. Munford and in Bear River by L. V. Harris.

RECORDED HEAT AT GAGETOWN

People Crossing the Ice on the St. River With The Temperature at 80 Degrees

A Gagetown, N. B., despatch of March 26th says: Wednesday was a record day for spring warmth, the thermometer being eighty degrees in the sun, on the front street at one time in the afternoon and from sixty-five to seventy-two in the shade during the day. The snow which caused so much trouble this winter is melting away at a lively rate and the ice also is feeling the effect of the sun's rays. On Monday morning ice was cut in the channel at Scott's wharf, eighteen to twenty-two inches thick, but yesterday and today have transformed much of this into slush and crossing from the meadowsland and Jungs will probably not last much longer. April 8 is the latest date at which a horse and sleigh have been able to cross the river at this point, and it is not expected that this record will be broken this spring.

MERELY ORNAMENTAL

(From the Liverpool Post)

Recently, Mrs. Edith Wharton, the American novelist, was engaging a maid for her apartment. "Of course, madam," said one girl she interviewed, "you won't expect me to sweep?" "Oh, no, indeed." "Nor answer the door bell?" "Certainly not." "Nor—?" "No, no," Mrs. Wharton interrupted graciously. "I expect none of these things from my parlormaid. I only want her to look at, and for that you are too plain."

THIRTY YEARS AGO

In the Annapolis Recorder's "30 years ago today" column, for March 26 appeared the following: "Thomas F. Anderson, a Halifax boy, whose success in American newspapersdom has been brilliant, was elected a director of the Boston Press Club."

ROD AND GUN

"Ye Olde Time Brooke Trout in Nova Scotia" is the title of Bonny-castle Dale's feature article in March issue of Rod and Gun in Canada. This number of Canada's premier sporting monthly besides containing the usual high grade stories and departments begins a series of illustrated articles on Mushrooms, both poisonous and edible. F. V. Williams the popular Nature Illustrator, tells in his own inimitable manner the adventures of a mink that was caught three times before it was finally killed; his story is entitled "In Black and White." For the fisherman who is interested in trout we may say that this issue contains two splendid articles by Robert Page Lincoln. The Guns and Ammunition, Trap Line and Kennel departments are up to their usual high standard. Rod and Gun in Canada, W. J. Taylor Limited Publishers, Woodstock, Ont. A. J. Burns local agent, Bridgetown, N. S.

NOT WHAT HE MEANT

A small choir was practicing the well known anthem, "As the Heart Pants After the Water Brooks." The rendering of the open stages was apparently not quite to the satisfaction of the gentleman who yielded the baton.

He considered it necessary, therefore, to tender some advice to the tenors, and caused great consternation and not a little embarrassment among his little flock by the following announcement: "Your expression is simply splendid, but the time is very poor—really, your pants are far too long."

WASTING "HORSE POWER" ON BAD ROADS

Here are a few figures which show how poor roads cost the driver of a horse drawn vehicle time and money. It isn't only the man who owns an automobile who suffers from lack of improved highways. When the man who farms goes to market with his produce on a horse drawn vehicle over roads which have not been improved he has to increase the size of his team of horses in proportion to the degree of unimprovement which he will have to face during the trip.

Fewer horses in the traces mean more horses released for work on the farm; a big team means less done on the farm and cuts the profits from the produce hauled to town. Several tests have been made to determine "horse power" necessary to draw a given load over various kinds of road surfaces. It was found that a load weighing 6270 pounds could easily be drawn by one horse over a permanent road. Five horses were needed, however, to draw the same load over a loose dirt highway.

A GOOD MEDICINE FOR SPRING USE

Harsh Purgatives Should be Avoided—A Tonic Will Restore Your Energy.

Not exactly sick but not feeling quite well. That is the way thousands of people feel in the spring. It is a sign that the trying indoor life of winter has left its mark upon you. Easily tired, appetite fickle, sometimes headaches and a feeling of depression. Pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuralgia. Any of these indicate that the blood is out of order, and these symptoms may easily develop into more serious trouble.

NOT WHAT HE MEANT

A small choir was practicing the well known anthem, "As the Heart Pants After the Water Brooks." The rendering of the open stages was apparently not quite to the satisfaction of the gentleman who yielded the baton.

He considered it necessary, therefore, to tender some advice to the tenors, and caused great consternation and not a little embarrassment among his little flock by the following announcement: "Your expression is simply splendid, but the time is very poor—really, your pants are far too long."

THE TORTURES OF RHEUMATISM

Happily Stopped When He Began To Take "Fruit-a-ives"

3 OTTAWA ST., HULL, P. Q.
"For a year, I suffered with Rheumatism, being forced to stay in bed for five months. I tried all kinds of medicine without relief and thought I would never be able to walk again. One day while lying in bed, I read about "Fruit-a-ives" the great fruit medicine, and it seemed just what I needed, so I decided to try it. The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me."

A GOOD MEDICINE FOR SPRING USE

Harsh Purgatives Should be Avoided—A Tonic Will Restore Your Energy.

Not exactly sick but not feeling quite well. That is the way thousands of people feel in the spring. It is a sign that the trying indoor life of winter has left its mark upon you. Easily tired, appetite fickle, sometimes headaches and a feeling of depression. Pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuralgia. Any of these indicate that the blood is out of order, and these symptoms may easily develop into more serious trouble.

RECORDED HEAT AT GAGETOWN

People Crossing the Ice on the St. River With The Temperature at 80 Degrees

A Gagetown, N. B., despatch of March 26th says: Wednesday was a record day for spring warmth, the thermometer being eighty degrees in the sun, on the front street at one time in the afternoon and from sixty-five to seventy-two in the shade during the day. The snow which caused so much trouble this winter is melting away at a lively rate and the ice also is feeling the effect of the sun's rays. On Monday morning ice was cut in the channel at Scott's wharf, eighteen to twenty-two inches thick, but yesterday and today have transformed much of this into slush and crossing from the meadowsland and Jungs will probably not last much longer. April 8 is the latest date at which a horse and sleigh have been able to cross the river at this point, and it is not expected that this record will be broken this spring.

MERELY ORNAMENTAL

(From the Liverpool Post)

Recently, Mrs. Edith Wharton, the American novelist, was engaging a maid for her apartment. "Of course, madam," said one girl she interviewed, "you won't expect me to sweep?" "Oh, no, indeed." "Nor answer the door bell?" "Certainly not." "Nor—?" "No, no," Mrs. Wharton interrupted graciously. "I expect none of these things from my parlormaid. I only want her to look at, and for that you are too plain."

ROD AND GUN

"Ye Olde Time Brooke Trout in Nova Scotia" is the title of Bonny-castle Dale's feature article in March issue of Rod and Gun in Canada. This number of Canada's premier sporting monthly besides containing the usual high grade stories and departments begins a series of illustrated articles on Mushrooms, both poisonous and edible. F. V. Williams the popular Nature Illustrator, tells in his own inimitable manner the adventures of a mink that was caught three times before it was finally killed; his story is entitled "In Black and White." For the fisherman who is interested in trout we may say that this issue contains two splendid articles by Robert Page Lincoln. The Guns and Ammunition, Trap Line and Kennel departments are up to their usual high standard. Rod and Gun in Canada, W. J. Taylor Limited Publishers, Woodstock, Ont. A. J. NOTICE

Citizens of Bridgetown, please take notice that cleaning up week will commence shortly and owners of property are requested to clean their premises, keeping the garbage and coal ashes separate, garbage to be put in barrels or boxes and placed on sidewalk in front of house or store. The superintendent of streets will have them moved, commencing April 19th, and continuing for one week.

Anyone having coal ashes please notify the superintendent and he will have them moved. Let everybody take pride in their premises by clearing weeds from sidewalks in front of their own homes. Be hoisters and stop knocking. If you see your next door neighbor cutting his lawn and taking an interest in the appearance of the Town, try and beat him by making yours look better and I am sure you will be helping to give Bridgetown prominence among the many tourists that pass through.

The merchants would do well to have the signs next that is being at Carletons Corner placed in position before the Automobiles commence running, so as to guide strangers to town.

Let us all stop throwing peanut shells and paper on the streets, 1 21 GEO GILL, Chief Police

Pure Air is as Necessary as Pure Food

THE ENTERPRISE BLAZER FURNACE heats your home in Nature's way. It draws in the sweet pure air from the big outdoors, moistens it thoroughly, turns it into heat and comfort and passes it on to every corner of your home.

The best that base burners and radiators can do is to heat the air that is already in the house—that has been breathed again and again. Stoves choke the air with dust and in real cold weather they fall short of their job. Another reason for the

ENTERPRISE BLAZER FURNACE

is economy. For thirty-five years we have been learning how to take all the heat out of a piece of coal; and then how to make most use of it. The Enterprise Blazer is the result. And it costs a great deal less to install than a hot water boiler, pipes and radiators.

An Enterprise Blazer will wear for years and years. Every part is made a little better than it need be, and it carries the famous Enterprise guarantee of satisfaction. Get your dealer's advice and write us today for our free booklet "Warmth and Comfort".

\$200,000,000 INCREASE WAGE COST IN AWARD TO U. S. MINERS

Joint Conference of Operators and Mine Workers Sets April 1 as Date When New Scale Becomes Effective

NEW YORK, March 23—The scale committees of the bituminous operators and the mine workers, in a joint conference here this afternoon agreed to make the monetary provisions contained in the award of the bituminous coal commission, as affirmed by the president, become effective on April 1, and the mines continue in operation pending the working out of a new agreement. The award provided for a wage increase of 27 per cent.

The wage increase to the miners under today's agreement amounts to approximately 27 per cent, including the 14 per cent average increase granted by Fuel Administrator Garfield. As the miners are now receiving the 14 per cent, the net increase under the new contract will be 13 per cent. Figured in dollars, the increase is approximately \$96,000,000 more than the advance allowed by Administrator Garfield, according to the report of the coal commission. The total increase in wage cost is given at \$200,000,000.

CHARGED WITH MANY THEFTS Harry Unlah and Charles Doyle Arrested by Detective Reyno

(Halifax Chronicle) Detective Reyno Wednesday afternoon arrested two ex-service men, Harry Unlah and Charles Doyle, on charges of theft. It is alleged that they are connected with a series of thefts which have been going on for some time at the D. S. C. R. establishment on the North Common. Among the stolen articles which are valued at some hundreds of dollars, were 150 candle power electric light globes and numbers of tools. A quantity of the stolen goods has been recovered.

Beside Unlah and Doyle a number of other men were arrested in connection with the thefts. But were later released at the instance of the D. S. C. R. Unlah and Doyle will face several charges when they are arraigned before the Stipendiary this morning. Unlah will be charged with the theft of a buffalo robe from Thomas Fraser's automobile.

HUMOR OF THE COUNTRY

(From Farm and Home) Ghosts and weird apparitions were said to appear in the empty farmhouse and they were not an inducement to possible tenants, so the agent had it elaborately done up and decorated, and by the way of a tempting bait he had some expensive gas-fittings put in all the rooms. The next week he heard that some bold man had been in the house. His heart leapt with hope and expectation, and he rushed off in frantic excitement to the house keeper of the haunted house. "This is splendid," he gasped; "some one has taken the house, hasn't he?" "I don't know, sir, I'm sure. Perhaps he'll come back for the house. He's taken all the gas fittings."

First to Give Peace-Time Value \$1365 GRAY-DORT

Immediately the armistice was signed, Gray-Dort executives began working towards a readjustment of motor car values.

Last fall we were able to put in production the present Gray-Dort—the first car to offer you heaping, peace-time value.

Overshadowing Other Light Cars

Ordinary light car standards did not satisfy us in building the Gray-Dort.

So we built a bigger and better motor—with 3 1/2-inch bore and 5-inch stroke; with a heavy crankshaft—weighs 40 pounds, as against about 25 pounds in other light cars. Specially-designed, quiet valves; extra-large wrist-pins; extra-light, three-ringed pistons.

As in the motor, so it is throughout the chassis. A cellular-type radiator and extra big water jackets for cooling. A heavy, safe steering gear which is unusually easy on the driver. Frame heavier and sturdier than the light car standard. Rear axle especially strong and fine—and built right under our supervision here in Chatham. The long springs are built here, too. The gas tank is big and is placed in the rear for convenience and appearance. The emergency brake is on a lever, as in big cars—and the brake lining is Thermoid.

Convenience has not been sacrificed to sturdiness in the Gray-Dort. The side-curtains open with the doors as in cars costing \$2000 and up, and they fit smoothly. The tonneau has very much more leg-room. A shorter, smarter cowl does the

same for the driving compartment. The gears can be shifted with the pressure of two fingers. The brakes are positive in action. To drive a Gray-Dort is real pleasure.

Clothed in Beauty

Completing this high-grade chassis is a body wonderfully good-looking. The smooth lines do not force themselves upon your attention. They are not extreme. But always you are aware of their supreme good-looks. And Gray-Dort design is the type which remains in favor for many years.

And then the wonderful Gray-Dort finish! We have spent 60 years developing this finish for vehicles. It is applied as only master craftsmen can finish a job. It is lasting and lustrous. It is one of the outstanding features of the Gray-Dort.

*You will notice, too, the rather high hood with its many long, narrow, louvres. The smart top, hand-tailored in our own shops. The French pleated upholstery. The full sweep of the heavy gauge fenders.

At \$1365 the Gray-Dort will be the fastest selling car of the year. The output has been doubled. Yet there is every sign of a shortage. We advise you to see the Gray-Dort dealer now.

*Features marked with this asterisk are some of the improvements new to this Gray-Dort.

THE WORLD'S HOLIDAYS

New Republics Fall to Commemorate Birthdays of Former Rulers

A general tendency among the nations of the world to suppress all minor holidays and give official recognition only to those of national importance is noted in the third annual issue of the Guaranty Trust Company of New York, says the Financial Post. The list of holidays contained in the booklet has been carefully compiled and the nature of the government in each case is indicated. It is interesting to note that with very few exceptions the birthdays of royal personages have ceased to be public holidays—none of the new republics thus commemorating any of their former rulers. It is pointed out that during the year 1919, bills were introduced into the legislative bodies of several countries providing for a permanent holiday on Nov. 11. In Uruguay, congress passed a law effective March 1, 1919, which expressly abolished all religious holidays. In many other countries the official observance of religious festivals is being greatly curtailed.

"Do you mean to say that Jack didn't take you in his arms and kiss you when you accepted him?" "No; you see he proposed over the telephone."

SMUTS OF CEREALS AND THEIR CONTROL

(Experimental Farms Note)

The grain smuts cause serious losses in Canada. There is little doubt that the total loss each year exceeds twenty millions of dollars. The greater part of this loss can be easily prevented.

The smuts of grain that cause serious losses in Canada are the following: the loose smut of wheat; the stinking smut of wheat or hunt; the loose and covered smuts of oats, and the loose and covered smuts of barley. The loose smut of wheat can be easily recognized by the dusty black heads that appear about the time of blossoming. The black masses of spores are soon scattered by the wind. The hunt or stinking smut is not so easily recognized in the field as the loose smut. The smutted kernels in the stinking smut of wheat are dark, but they do not break up readily and in the growing grain are more or less concealed by the chaff. These dark kernels can be crushed easily, when they will be seen to consist of a mass of ill-smelling black powder, the spores of the smut. At threshing time these smutted kernels or spore balls as they are often called, are broken up and the spores lodge on the sound wheat grains and give the wheat the well known smutty odor.

then piled in a convenient place and covered as in the sprinkling method. In the case of wheat affected with grain smut it is best to pour the grain into a box or cask of the solution and stir until all the smutted kernels have risen to the surface. The smut balls should then be skimmed off. The solution cannot penetrate into the spore balls.

Care must be taken that the treated grain does not become reinfected from containers that have held smutted grain. The spores on sacks can be killed by soaking them in the solution used for treating the seed and boxes can be sprinkled with the solution.

Another method of seed treatment has recently been introduced for the treatment of oats. In this method a strong solution of formaldehyde is used. One pint of formaldehyde is mixed with a pint of water and the grain is sprayed with this solution while it is being shoveled over and then covered for a few hours as in the sprinkling method. Only a quart of the solution is used for each 50 bushels of grain. Experiments have shown that this method is safe and effective for oats if properly used and has the advantage of not wetting the grain. It must be used with care as too much of the solution will seriously injure the germination of the seed. The solution must be sprayed on the grain not sprinkled. It is unsafe to use this strong solution for treating other grains, especially wheat as it often seriously injures the germination and does not always prevent smut.

There are some good smut machines for treating seed on the market. The best of these heat the seed in a satisfactory manner. They can be used profitably on the larger farms. The loose smut of wheat and the loose smut of barley cannot be controlled by the formaldehyde treatment of the seed. If these smuts are troublesome, seed should be obtained from fields in which they are not present or from which the smutted heads have been removed before the spores are dispersed. These smuts can be controlled by treatment with hot water but it is not recommended for general use on the farm.

Summary and recommendations. Good seed should be used that has been thoroughly fanned to remove a light and shriveled grains and smut balls. Light kernels are liable to contain the spores of other grain diseases. Treat the seed with a solution of formalin by the dipping or sprinkling method. This treatment will also kill the spores of many other diseases that injure grain. Care should be taken that the moist grain is not allowed to freeze. If the grain is sown when it is still damp and swollen the seeder or drill should be set to make allowances for the swelling. Usually one half bushel more of barley or wheat and three quarters of a bushel of oats will be required than of dry grain.

HE KNEW WHO TO ASK

It was the week before little Willie's birthday and he was on his knees at his bedside petitioning Divine Providence for presents in a very loud voice.

"Please send me," he shouted, "a bicycle, a toy chest, a—" "What are you praying so loud for?" his younger brother interrupted. "God ain't deaf."

"I know he ain't," said little Willie winking towards the next room, "but grandma is."

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind, Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. Save the surface and you save all Count & Varnish

Add years to the life of your house

TIME was when the "appearance" of a freshly painted house was the only thing that counted, but now we must also realize the importance of the protection good paint affords against wear and tear. Any paint will give some protection, but if you want paint protection for years—not merely months—use

B-H PAINT 70% Pure White Lead
30% Pure White Zinc
100% Pure Paint

A 100% formula (70% of which is Brandram's Genuine B. B. White Lead) providing a coat of such body, brilliance and "toughness" as to defy rain, sun or snow, where cheaper paints will chip, peel and crack.

If your house is painted this Spring with B-H it actually has a surface-protection which renders it impervious to the decay of passing years.

You have the choice of 36 attractive colours as shown on color card which is supplied on application.

A ROAD THAT'S A FRIEND TO MAN

Let me live in a house by the side of a road
Where the race of men go by
But not such a road as I have now,
With its dust when the season's dry.
Roads are good, they are bad, they are weak, they are strong,
Built on many a diverse plan;
But I'd like to live by the side of a road
That is always a friend to man.

Let me live in a house by the side of a road
Where flows, like the rich, red blood
A current of life, cars, fivers and trucks,
Not a highway composed of mud.
Who could dwell in content by a rut-slashed track,
Rock strewn from Beersheba to Dan?
Let me live in a house by the side of a road
That is always a friend to man.

I can live only once, so why should I stay
Where daily offends my eye.
A crooked streak of mud or clay,
Scooped out by the passers-by?
I don't like to sit in the scorners' pew:
Nor "hurl the cynic's ban,"
But ye gods!—for a road that the season through
Can be counted a friend to man.

LAKE PLEASANT

In Loving Memory of Lake Pleasant Boys Who Died in France and England

In France softly sleeping,
Where the flowers gentle wave
Lie the Boys we loved so dearly
In their lonely silent grave,
They will never be forgotten,
Never shall their memory fade
Sweetest thoughts will always linger
Around the graves where they are laid.

Day by day we sadly miss them
Friends may think the wounds have healed,
But they little know the sorrow
That's within our hearts concealed.
Gallant brave ones may the Lilies
Grow upon your hallowed mould
And some day we hope to meet you
When we pass the gates of gold.

A FATHER'S FIRST DUTY

(From the Chicago Tribune)
The father who lets business, politics or any other influence so absorb his time that he cannot be a chum to his own boy and enter into the boy's life and let the natural confidence and trust of the boy in his father serve to develop the son's character, is making the greatest mistake a parent can make. He has no right to leave such things to strangers, no matter how devoted they may be nor how splendid may be the organizations through which they work.

SILENT TRAGEDY

Sweeping his long hair back with an impressive gesture the visitor faced the proprietor of the film studio "I would like to secure a place in your moving picture company," he said. "You are an actor?" asked the film man. "Yes." "Had any experience acting without audience?" "A flicker of sadness shone in the visitor's eyes as he replied: "Acting without audience is what brought me here!"

LOCAL DEATH ROLL

ISAIAH CHUTE
(Salem News, Salem March 17th)
Isaiah Chute, the oldest resident of this city, died in the evening of pneumonia at the house of Frank Graves, Aborn street, where he boarded. Had he lived until next Monday he would have been 97 years of age. The funeral will take place at the First Baptist church in Salem at 12 M. on Friday, followed by burial in Harmony Grove cemetery. He leaves four children, Albert P. Chute, of Philadelphia and Rupert J. Chute of the Boston Transcript are two sons, and the daughters are Mrs. C. A. Warner, of Peabody and Mrs. Lizzie Hutchinson of Rochester. Mr. Chute's place of nativity was Nova Scotia. His father and mother were representatives of an ancestry which according to the Chute genealogies published in Salem some years ago, were of a high order. In 1851 he took up his residence in Salem, erected a commodious house in Harrod street, North Fields, and installed therein his young bride, Priscilla Purdy who early adapted herself to her new environment and evinced the sound judgment, strong sense and just discrimination in the home that were so characteristic of her happy and useful life. With the exception of a year passed in Gloucester, Mr. Chute and his family lived in Salem until 1862, when he removed to Peabody. During the civil war he served in Co. B, Seventh regt. M. V. M. Salem Mechanics Light Infantry, his most important duty being that of orderly to the late Col Dimock, commandant at Fort Warren. In his early business life Mr. Chute held a responsible position in the Aaron F. Clark lumber mill and later was the builder of the large structure on Main street known as the Thomas Trask building; also of the elegant home of the late Eben S. Poor in Tremont street, at the time considered one of the finest estates in South Danvers. Soon after taking up his residence in Peabody, Mr. Chute became actively engaged in the manufacturing of refrigerators and continued in that line until some time in a few years. He had probably installed more refrigerators in Essex county both for family and market purposes than any other person in the trade.
Mr. Chute was born in what is now called Bear River East in the house occupied many years by Mr. John Ayr, next the Albert Jefferson farm. His wife was Priscilla Purdy, of Upper Clements, N. S.
MRS. STANLEY SPURR
Mrs. Leona, wife of Mr. Stanley Spurr, passed away at her home at Carleton's Corner, on Monday, after a lingering illness, aged 38 years. Besides her husband she leaves one daughter and two sons. She is also survived by her mother, Mrs. Fannie Gibson, of Round Hill, and three brothers, Ernest, of Round Hill, Gordon, at Kentville and Myers, in Dalhousie. She was a member of the Episcopal church and had a large circle of friends who regret her early death. The funeral takes place from her late home this morning with interment at Round Hill.
IVO RUSSELL THOMAS
The death of Ivo Russell Thomas, son of Mr. and Mrs. E. R. Thomas, of Smith's Cove, Digby County, occurred suddenly at the St. John Infirmary on April 10 at the age of twenty after an illness of three weeks. Sincere sympathy will be extended to his bereaved relatives. Besides his parents, he leaves to mourn three sisters, Harriet, Pearl, and Cecelia, and one brother, Ernest, all at home in Smith's Cove. Burial will take place at Smith's Cove.
