**British Front at Ypres Successfully Realigned**  
 New Line Extends to West of Zonnebeke --Half-hearted Attack by Enemy Was Beaten Off.

LONDON, May 4, 10 p.m.—The British war office tonight made public the following official communication:  
 "The loss of ground which resulted from the unexpected use of asphyxiating gases by the enemy last week necessitated a re-adjustment of our line in front of Ypres.  
 "This re-adjustment, which has been in progress in the last few days, was successfully completed last night.  
 "The new line runs to the west of Zonnebeke.  
 "During the last 24 hours the situation has been normal along the whole front, with the exception of one half-hearted attack by the enemy northeast of Ypres last evening. It was beaten off."

**British Submarine Sunk In Battle With Airship?**  
 Berlin Claims Naval Airship Battered With Several Submarines in North Sea and Escaped Unscathed.

BERLIN, May 4.—(Via London).—The following official communication was issued tonight:  
 "On May 3, a German naval airship had an engagement with several British submarines in the North Sea. Several bombs were dropped from the airship, one of them hitting and sinking one of the submarines.  
 "The airship was bombarded by the guns of the submarines without being hit. It returned safely."

**Turks Routed in Caucasus 3500 Left Dead on Field**  
 Russians in Hot Pursuit of Enemy After Two Days of Bloody Conflict--Turkish Hospital and Staff Taken.

PETROGRAD, May 4.—(Via London).—The following official communication was issued today:  
 "In the Khor-Dilman region of the Caucasus our troops, after two days of fighting, opened a determined offensive against Turkish corps under Khali Bey and completely defeated the enemy.  
 "The Turkish losses may be estimated by the fact that more than 3500 Turkish dead were found on the battlefield, 900 of whom were picked up in the central sector of the battle line along a front of 300 paces.  
 "At Dilman we captured a Turkish hospital, together with its entire staff.  
 "Pursuit of the defeated enemy continues."

**Attacks Made on Russians On Front of Sixty Miles**  
 Series of Disconnected Conflicts Carried On By Germans and Austrians From Donajec River and Left Bank of Vistula in West Galicia

Special Cable to The Toronto World.  
 LONDON, May 4.—As was anticipated some time ago, the enemy is now developing an attack on fifty to sixty miles of front in west Galicia from the lower reaches of the Nida, where it flows into the upper Vistula, right away to the Carpathians. Fighting now is in progress on the left wing of the enemy's advancing line, and is being pushed with exceptional vigor, while fighting elsewhere is mainly by artillery in preparation for a series of disconnected conflicts. The left wing advancing along the left bank of the Vistula delivered in the early hours of Sunday before dawn no fewer than six attacks. The enemy displayed such determination in this section that it practically is certain the attacking force consisted of Germans whose attacks already have all been repulsed. Artillery fire was strongest in the neighborhood of Tarnow and south of that point; but attacks delivered here lacked the cohesion of a general plan, presumably being entrusted to the Austrians, whose leading in the field has by no means equalled that of German officers. It is also possible the usual antagonism between Austrians and Germans when working together, which has been increasingly noticeable for months past, may account for the difference between the character of attacks along this fifty odd miles of front.  
 The object of the attack is to relieve the pressure upon the forces defending the plains of Hungary from the main line of the Russian advance across the Carpathians.  
 Investigation Concluded.  
 Investigation into the case of the explosion of melinite at the Okhea factory in the neighborhood of Petrograd has been completed. So far as concerns the loss of life incurred, official figures put the killed and those who shortly after died of the injuries they received, at 84. Sixty-three injured are in the hospital and to this number must be added 36 persons not belonging to the factory. Of the number entered as killed 39 are missing, presumably because no trace will ever be found of their bodies.

**GERMAN SUBMARINES SENT TO ADRIATIC SEA**

RIGA, Russia, via London, May 4, 9.55 p.m.—Three German officers and 39 men, with one gun and two machine guns and accompanied by two guides, were brought here today. They evidently are a part of the German force which has raided the Baltic provinces.

LONDON, May 5.—According to The Times' Petrograd correspondent, Major E. Repolo, the Italian military attaché of the Italian embassy, has gone to the Russian field headquarters as Italy's official representative.

**Use of Gas by Germans Now "Normal Procedure"**  
 Sir John French of Opinion That Protests Will Not Avail—Men Who Survive Fumes Invalids For Life.

LONDON, May 4.—"I am of the opinion that the enemy has definitely decided to use these gases as a normal procedure, and that protests will be useless."  
 This is the concluding sentence of a report by Sir John French on the use of poisonous fumes by the Germans. In it he says:  
 "The effect of this poison is not merely disabling or painlessly fatal, as has been suggested in the German press. Those victims who do not succumb on the field and who can be brought into hospitals suffer acutely and a large proportion of the cases die a painful and lingering death.  
 "Those who survive are in little better shape, as the injury to their lungs appears to be of a permanent character and reduces them to a condition which points to their being invalids for life. These effects must have been well known to the German scientists who devised the new weapon and to the military authorities who sanctioned its use."

**French Have Chemical Bombs For Use Against the Germans**  
 Weapon Consists of Hand Grenade Which When Burst Produces Gas That Has No Deadly Effects But Paralyzes the Men.

Special Cable to The Toronto World.  
 LONDON, May 4.—A few days back the Germans succeeded in scoring to a certain extent by the use of asphyxiating bombs, which they used in utter defiance of the obligations they had accepted under The Hague Convention. The French have not been long in finding a reply to these asphyxiating weapons. If the enemy means to use poisonous gases in warfare, the French are ready to retaliate with a weapon which should prove effective, the use of which contravenes the regulations accepted by all civilized nations, except Germany. This weapon consists of a hand grenade filled with certain chemicals which, when released, produce gas that has no deadly effects, but is quite powerful enough to paralyze a man. As an experiment two of these grenades were thrown into a narrow lane between the two walls that might fairly be taken to represent a trench. When the gases had been released a company of infantry was ordered to advance upon the zone of fumes they stopped suddenly and beat a hasty retreat, fighting their way thru the men behind, absolutely blinded by tears running down their cheeks. The smell of the fumes is not unpleasant. It is suggestive of pear drops combined with very strong ammonia, and produces such violent smarting of the eyes and nose that it would be hopeless to try and use the weapon while under this influence. These bombs have not yet been used, and will only be employed if the Germans make any further use of asphyxiating gases.  
 Besides the newly invented gas bomb the French have various forms of bombs and bomb-throwers for use in the trenches.

**LIQUOR TAXATION TO BE MODIFIED**  
 Lloyd George Willing to Make Concessions to the Trade.  
**WILL CONFER TODAY**  
 Areas in Which Munitions Are Produced Must Be Controlled.

LONDON, May 4, 7 p.m.—The plan adopted by David Lloyd George, chancellor of the exchequer, for regulation of the liquor traffic is not entirely satisfactory, as the chancellor himself admitted in the house of commons today. He announced that he was to have a conference with brewers and distillers in regard to his new taxes on spirits, wines and beers, and that he was very anxious to come to an agreement with the trade.  
 The chancellor said he was not wedded to his own proposals, and if any one had better ones to offer he would accept them. He did ask, however, that the public give the government at once control of the liquor trade in areas in which munitions of war are produced.  
 Strong Criticism.  
 Austen Chamberlain described the proposals of Mr. Lloyd George as "not taxation but annihilation."  
 Chancellor David Lloyd George, in the course of his budget speech in the house of commons, said that in December there was a decrease of 38 per cent in the production of beer, in January and February a decrease of 22 per cent, each and in March a decrease of 17 per cent.  
 On the other hand, the chancellor said, there was an increase in the consumption of spirits as follows: December, 3 per cent; January, 6 per cent; February, 15 per cent; and March, 25 per cent.

 Kill Four of Crew Without Warning and Fire on Survivors in Boats.

LONDON, May 4.—Two more trawlers and a British steamer have fallen prey to German submarines. The trawlers were attacked off the east coast of Scotland.  
 An Aberdeen despatch says: Seven members of the crew of the trawler Cruiser, of whom four were wounded by the shellfire of a German submarine, have been landed here by a collier. They say that the Cruiser was approaching Aberdeen harbor, laden with fish, when the submarine appeared and opened fire.  
 One shell struck the trawler's bridge and instantly killed four members of the crew. The survivors assert that the remaining seven hands took to their boats and were rowing away when the submarine fired again, wounded four of the men and causing the boat to capsize. The men thrown into the water were rescued from drowning by a collier.  
 The trawler Scottish Queen has been torpedoed and sunk by a submarine off the Selly Islands on Monday. Two firemen were killed. Others of the crew were landed at Penzance, Cornwall.  
 Steamer Attacked.  
 Another loss recorded is that of the British steamer Minterne, torpedoed off the Selly Islands on Monday. Two firemen were killed. Others of the crew were landed at Penzance, Cornwall.  
 The Minterne was 320 feet long and 1905 tons register. She was bound from Cardiff for the River Plate with 6000 tons of coal.

**PLANNED TO PROCLAIM BELGIUM'S ANNEXATION**  
 Germans Expected to Pierce Lines of Allies in Recent Attack on Ypres.

Special Cable to The Toronto World.  
 LONDON, May 4.—An Amsterdam correspondent quotes The Echo Belge for the statement that in anticipation of being able to pierce the allies' lines near Ypres the Germans decided formally to proclaim the annexation of Belgium. With this in view a number of Antwerp journalists connected with the press, which are still allowed to appear under the German censorship, were summoned to the German headquarters, where they were told that they must prepare a Belgian public opinion for the approaching announcement. Despite the almost menacing tone of the commandant's secretary, the journalists left without committing themselves any way, and next day the commandant learned that the German troops had made no appreciable progress, whereupon the idea of the campaign for annexation was abandoned.

 Turks Make Claim Big Battle-ship Was Struck by Shells.

LONDON, May 4.—Rumors concerning the operations against the Dardanelles were confirmed tonight when the British war office and admiralty issued reports stating that, after beating off Turkish attacks, the allied forces had taken the offensive on the Gallipoli Peninsula and now were advancing into the interior.  
 An official statement tonight says:  
 "During the nights of May 1 and 2 and the nights of the 2nd and 3rd the enemy launched strong and determined attacks in mass against our positions, constantly bringing up fresh troops.  
 "Not only did the allies repulse every attack, inflicting enormous losses on the enemy, but we assumed the offensive, drove the enemy out of their positions and are now advancing into the interior of the peninsula."  
 Smyrna Forts Shelled.  
 Turkish forts on the Gulf of Smyrna, as well as defences along the Bosphorus, are being vigorously shelled by the allied fleet, say advices from Mitylene via Athens.  
 The Queen Elizabeth, Warapito and other big gun ships are raking the forts from the Aegean Sea and the Gulf of Saros, while a squadron of French and British warships have concentrated their fire on Kilislihar and Chanak Kalesi. Practically every unit of the fleet is engaged. A second squadron of four British battleships is pounding away at the land forts in the Gulf of Smyrna and the response is feeble.  
 It is also stated that the allies have effected a landing near the site of (Continued on Page 5, Column 1).

**MANY CANADIANS MAY RECEIVE HIGH HONORS**  
 Clifford Field is One of Those Recommended for Medal.

Canadian Associated Press Cable.  
 LONDON, May 4.—Clifford Field, of the Scotch Battalion, second brigade, is one of the many Canadians recommended for the Distinguished Service Medal.  
 It should be borne in mind in connection with such distinctions that there are invariably many recommendations but comparatively few honours. Field's recommendation arose from the plucky manner in which he stuck to one of his wounded officers. Field, who is now in hospital at Bromley, suffering from a comparatively slight bullet wound and bronchitis consequent upon gas poisoning, says that one effect of the gas upon himself and many comrades was to render them speechless.  
 It was when they got into the gas zone that the Canadians began to drop like tinmen and lay where they fell. "The Germans squealed just like pigs," he says, "when we got into the wood after them with the bayonet."

**BRITAIN PREPARING TO USE GAS ON ENEMY?**  
 "Similar Expedients" Are Under Consideration in Statement of Tennant.

LONDON, May 4.—H. J. Tennant, parliamentary secretary of the war office, said in the commons today that Great Britain had under consideration the question of employing "similar expedients" against the use by German troops on the battlefield of asphyxiating gases.  
 The speaker admitted that as far back as April 6, the officer who is writing from the British front under the pen name of "Eye-Witness," said that the Germans were preparing for this method of attack, but notwithstanding such rumors the British authorities found it hard to believe that any signatory of The Hague convention could violate its fundamental principles and adopt methods which might have such a far-reaching effect in modern warfare.

**York County and Suburbs NEED IMPROVEMENTS AT LAMBTON PARK**

Ratepayers Discuss Ways and Means to Get the Streets Lighted.

**MAIL DELIVERY ALSO**

Committee Appointed to Canvass District and Present Petition.

At a representative meeting last night of the ratepayers of Lambton Park, the matter of submitting a petition for postal delivery was ratified, and the committee, consisting of Messrs. Ball, Ellis, Croft, Shaw, Perkins and Adams, agreed to meet at the residence of J. Ball, president, to draft the petition and to arrange for a canvass of the district. Some of the residents, stating the president, J. Ball, obtained their mail from Lambton Mills, while others had to travel to Station "D" at West Toronto. Delivery now extended west as far as Jane street on the north of Dundas street and as far as Langmuir avenue on the south.

It was announced that the vexed question of garbage collection had been settled, it having been arranged that collection should start on Friday, May 14, and be continued fortnightly.

**Street Lighting.**

Several questions entailing increases in the tax rate were discussed, the most important being the urgent need of street lighting. The meeting expressed itself as unanimously in favor of obtaining such lighting, and of asking the township council to arrange with the hydro commission or the Toronto Suburban Co. Mr. Ball was of the opinion that the private company without a vote of the people, while Mr. Adams stated the company would like to get to work and put lights in at \$14 each. Some 10 or 12 streets required lights, and perhaps 20 lights in all would be necessary. Mr. Croft thought that two mills on the dollar would cover the tax.

The meeting expressed itself as unanimously in favor also of the purchase of the three or four lots necessary to be acquired for the opening of Elson avenue on the west over the power and belt lines to Florence Crescent, and of asking the council to take the necessary steps. A thru road at this point, it was said, would improve the property, and would render long detours to get from point to point unnecessary. Indeed, said Mr. Ellis, when the proposed school was built, such a road would be urgently required. The cost would not be more, perhaps, than \$500 for each lot, thought Mr. Ball.

**Gas Main.**

It was also agreed that a plan of the Brooke estate showing the lots built upon should be submitted to the Commercial Gas Co. with a request for the extension of the service to the district.

Following a discussion on the water question, a proposal to form a volunteer fire brigade was broached by J. Moore, who offered to do all in his power towards its organization. It was resolved to ask the township council without assistance might be rendered, and S. Perkins agreed to report upon the equipment and procedure of the Mount Dennis brigade at the next meeting.

**WARD SEVEN**

All members of the West Toronto Company of Home Guards are reminded of the special meeting for reorganization purposes in the Annetta Street School tonight. A full turnout is requested, as special work will be taken up during the next few months.

During their three days' sewing for No. 4 Base Hospital, the ladies of West Toronto made over 400 garments and a number of towels, shirts and accessories. The work was carried on in the kindergarten of the Annetta Street School during the afternoon and evening, and only by strenuous working and the use of thirty sewing machines were the garments finished in the prescribed time. The ladies of all churches, however, responded readily to the call for assistance, and there was no lack of workers.

This afternoon, being the first Wednesday in May, a large number of West Toronto business firms will close their places of business, and will observe the Wednesday half-holiday during the next four months. Several of the grocers and meat merchants have adopted the early closing rule thruout the year.

**NORTH TORONTO**

Work is at last fairly under way at the Yonge street crossing of the C.P.R., and yesterday between 75 and 100 men were employed on the work of excavating, digging the foundations for the new baggage room and unloading broken stone and sand for the concrete work which will start almost immediately. The steam shovel is now digging out the street north of the tracks, and when this is done it will be taken south of the tracks, and opposite the Dominion Bank. Much of the earth cannot be removed by the steam shovel on account of the nature of the soil, which is a blue clay, and upon which it is difficult to make any impression. The work put down for pedestrians around the west side of the subway, is a great improvement, and removes much of the danger from vehicular traffic. No further opposition will, it is understood, be offered to either the five per cent. grade or the eighteen-foot subway.

**TODMORDEN**

It is probable that the opening of the new Todmorden public school will be followed by the inauguration of another branch of the Toronto Military Training Association. Several residents have signified their intention of joining the corps. It is proposed to secure the large school authorities to fit up the large basement as a shooting range. The matter was brought up at a recent meeting in the district by Dr. E. A. McDonald, the president of the training association.

Within the next ten days the different corps of the Toronto Military Training Association will compete for a challenge cup. Shooting matches will be held by each corps in the city, with 16 men to a side, and the cup will be awarded to the branch which obtains the highest score, coupled with the best shooting.

**MOUNT DENNIS**

"That death was natural and due to rupture of aortic aneurism," was the verdict at the inquest held by Coroner Dr. W. J. Charlton last night at Speers' undertaking establishment on the body of Edwin George Oide, who died suddenly on Sunday morning at his residence at Mount Dennis.

The late Mr. Oide is survived by a widow and three children.

**SWANSEA**

The home of L. W. Woods on Kennedy avenue, Swansea, was burned down and the adjoining houses of W. Clark partly destroyed by a fire which broke out early yesterday morning.

Mr. Woods was roused by the smell of smoke and with his wife and two children succeeded in escaping in their night clothing.

The fire was eventually subdued by the city fire brigade from West Toronto. The houses were partly insured.

### FORM ASSOCIATION AT SILVERTHORN

Local Conservatives Met to Inaugurate District Organization.

### OFFICERS ARE ELECTED

Large York Township Council to Insure Men Going to the Front.

Moved by A. Sim, seconded by G. W. Book: "That this meeting of the Silverthorn Conservative Association is of the opinion that the York Township Council should immediately take action to insure the residents of the township who have enlisted for service in the Canadian Overseas Contingent, as arranged by the Toronto City Council with the Metropolitan Life Insurance Company, and that a copy of this resolution be sent at once to the members of the York Township Council."

This resolution was carried unanimously at the inaugural meeting of Silverthorn Liberal-Conservative Association, held in Miles Hall, Silverthorn, last night.

Officers were elected as follows: President, William Cook; first vice-president, G. W. Book; secretary-treasurer, Arthur Sim.

Ald. H. H. Ball, after outlining the aims and objects of the association, said: "This organization is the fifteenth to be established in South York and another will be inaugurated this week at Mount Dennis, so that the whole riding will be completely organized."

they have authority to send the third, fourth and fifth contingents, and another one hundred million will be voted later on if necessary.

Mr. Maclean referred to the number of casualties in Canadian regiments in the engagements of last week and said that a fund would be provided by the government for the widows and children, and some kind of maintenance for the wounded. In addition to this there was the Patriotic Fund, another source of provision for widows and wives of soldiers fighting at the front.

"Soldiers' insurance."

The speaker trusted that influence would be brought to bear on the York Township Council to have the men whose dependents lived in the township insured.

"I believe the people of Canada are with the government and will patiently bear their portion of the cost of the fight for liberty for the cause of the kingdom and for Belgium."

"We gave the Germans no offence," said Mr. Maclean, "but their determination to humiliate Great Britain and her Dominions and to endeavor to put her in the second place, but we will fight this war to a finish and will take our share with Sir Robert Borden for the cause of the empire and the flag. The outcome will be our success."

Other speakers were: G. W. Book, Mr. Rowntree, H. Parfrey, president Earlscourt B.I.A. The executive committee will be elected at the next meeting.

### TOWNSHIP'S OPPORTUNITY TO INSURE SOLDIERS

"The York Township Council have now an opportunity to protect the wives and dependents of township residents who have enlisted in Toronto regiments," said Arthur Sim, Silverthorn, to the World yesterday. "The township council can take advantage of the offer of the Metropolitan Life Insurance Company to cover the 200 men already enlisted for a total sum of about \$800, and issue debentures to cover the amount, if they are patriotic enough and wish to do their best in the interests of the people of the township."

### TWELVE THOUSAND MEN CONSTRUCTING FORTS

Austrians Within the Walls of Czernowitz Preparing for Heavy Siege.

Special Cable to The Toronto World. BUCHAREST, May 4.--Twelve thousand men are working on the construction of two lines of fortifications around Czernowitz. There are said to be 16,000 Austrians within the walls of the Bukowina capital. Artillery duels have recommenced in the neighborhood of Bojan. Near Marmalage in Bessarabia, two Austrian aeroplanes threw incendiary bombs, setting several houses on fire.

Russian aeroplanes have flown over Czernowitz dropping leaflets setting forth the situation as regards belligerents and the war generally. Fighting continues north of Bukowina.

### FOE IS WELL EQUIPPED

All Preparations Deliberately Made Before Experiment Was Tried.

LONDON, May 4.—There has been given out in London a report on the use of asphyxiating gases by the Germans from Sir John French, commander-in-chief of the British expeditionary force on the continent, which reads as follows:

"The gases employed by the Germans have been ejected from pipes laid out in trenches. It has been produced also by the explosion of shells especially manufactured for this purpose. German troops who attacked under cover of these gases were provided with especially designed respirators which were issued in sealed packages to all points on the line. This shows medical preparation on a large scale."

Deliberate Trickery. "A week before the Germans first used this method they announced in their reports that we were making use of asphyxiating gases. At that time there appeared to be no reason for this astounding falsehood. Now it is obvious that it was part of a scheme, and it is further proof of the

### Acid Stomachs Are Dangerous

Common Sense Advice by a Distinguished Specialist. "Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper absorption of the food, and leading to indigestion, stomach trouble, and general weakness. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and this is followed by a course of treatment which ordinarily causes distress. ### BY MARTIN DONOHUE.

Special Cable to The Toronto World. ODESSA, April 28.—(Via London, May 4).—The czar has come and gone in this greatest city of southern Russia, the ruler of all Russia, was accorded a magnificent reception. Nicholas II. drove thru streets that were lined with troops and cheering multitudes. "Long live the czar. Long live Russia," were cries from everywhere that greeted the imperial cars. The czar was in an automobile and attended by a single officer. He wore the simple service dress, with the khaki colored blouse of the Russian officer. During his triumphal progress thru the streets, the czar, ringing etiquette to the winds, stood up in his automobile with uncovered head, and bowed to the cheering multitude.

### GERMANS SELDOM FIRE WHILE MEN ARE SINGING

Letter From Warrant Officer Thomson Describes Canadian Contempt for Snipers.

Canadians' coolness under the fire of German bullets is described in a letter just received by Superintendent Watson of Elm Street Methodist Church Sunday School, from Alfred Thomson, a Toronto boy who has been promoted to the rank of warrant officer, and who, writing from the trenches, says: "We now take bullets as a matter of course. A miss is as good as a mile no matter how close the bullet, and is regarded as a joke. It is surprising how rapidly the men adapted themselves to dangerous conditions. Stories of the accurate aim of the German snipers are not at all exaggerated, and they give us a very warm time when we are out repairing the wire entanglements or on patrol duty. There is a fascination in hearing the bullets go whizzing by, however, that those who have not experienced the sensation do not realize. Our men are in the very best of spirits, although there is much discomfort to be endured and very little sleep obtained. In the early evening when every man is at his post the men begin singing popular songs, and as the dusk deepens the old favorites and hymns are sung. The Germans must enjoy the singing for they seldom fire a shot at these times."

### "ALL WELL" CABLED LIEUT. W. D. SPRINKS

Popular Officer of Twelfth York Rangers Came Thru Langemark Safely.

"All well" was the joyful news received by William Sprinks of the Grand Opera Hotel, from his son, Lieut. W. D. Sprinks, yesterday. The cable was despatched from the field postoffice, Flanders, on April 30, but only reached its destination late yesterday afternoon.

Lieut. Sprinks was attached to the 12th York Rangers of the Fourth Battalion. Some time ago he was a member of the Royal Grenadiers. On reaching the firing line the young lieutenant was appointed instructor of the 1st and 2nd companies, and a letter recently received from him stated that he had some 300 officers and men under his instructions, including Lieut. Jarvis and Lieut. Greene, both of whom have appeared on the casualty list.

Altho nothing but the two words mentioned appear on the cable, it is presumed that he wished to convey the tidings that Bugle Sergt. Harry Somerville and Pte. J. Miles, both of the Fourth Battalion, have also come thru the terrible battle safely.

### STOPS FALLING HAIR

This Home Made Mixture Stops Dandruff and Falling Hair and Aids Its Growth.

To a half pint of water add: Bay Rum ..... 1 oz. Oriz Compound ..... a small box Glycerine ..... 1/4 oz. These are all simple ingredients that you can buy from any druggist at very little cost, and mix them yourself. Apply to the scalp once a day for two weeks, then once every other week until all the mixture is used. A half pint should be enough to rid the head of dandruff and kill the dandruff germs. It stops the hair from falling out, and relieves itching and scalp diseases. Altho it is not a dye, it acts upon the hair roots and will darken streaked, faded, gray hair in ten or fifteen days. It promotes the growth of the hair and makes harsh hair soft and glossy.

### RENOUNCED KAISER TO RECOVER MONEY

Application of German Was Refused by Mr. Justice Sutherland.

### AT OSGOODE HALL

Results of Law School Examinations Have Been Announced.

"I renounce forever all allegiance to any foreign prince, potentate or state, and particularly Wilhelm II, Emperor of Germany, of whom I am a subject, and it is my intention to become a citizen of the United States," is the statement made in the affidavit of Rudolph Saenger, a German, who made application to Mr. Justice Sutherland at Osgoode Hall to recover \$5000 from Maurice Tellers of Toronto.

Saenger was born in Germany, but at one time carried on business in Lyons, France.

Before the war started he decided to come to America, where he engaged in a novelty business, in which Tellers and Emanuel Myers were interested. He holds that the money which he claims is his property. Some time ago he moved before Mr. Justice Sutherland to recover the amount, but the court held that as he was an alien enemy he had no right.

In his second statement he claims that he will be unable to carry on his business unless he can purchase a certain class of goods with ready cash from a firm in Lyons. He asked that the money be paid to his solicitors in Toronto and forwarded to the Lyons manufacturer.

His lordship in the judgment, given out yesterday says that he attaches little importance to the statement of Saenger forswearing allegiance to Germany or of his intention to become a citizen of the United States, and refused the application.

Law School Examinations. In the third year law school examinations, held at Easter, the following have passed: H. E. Manning, with honors, gold medal and Chancellor Van Koughnet Scholarship; S. Zaehner, with honors, silver medal and Christopher Robinson Memorial Scholarship; R. O. Daly, with honors and bronze medal; L. C. Jarvis, with honors; Miss E. L. Patterson, with honors, and C. P. Property Commissioner Chisholm Not Agreeable to Bringing Coal Across Lake.

Mayor Church has written several enquiries regarding the coal situation to Property Commissioner Chisholm, in reply to which the commissioner states that all the civic departments with the exception of the works department, have purchased coal in the open market thru his department during 1914 and the part of this year already passed. Nothing was found in the late in deliveries, except after heavy snowfalls. The commissioner is not in favor of bringing coal across the lake in barges, believing that delivery by rail is more economical, especially in view of the fact that the civic buildings are scattered throughout the city and cars can be placed at the most convenient points. As to the city going into the coal business, the commissioner reports that he does not favor this.

NEWS OF SPECIAL INTEREST TO WOMEN

NOVELTY SEEN IN SPORTING "TOGS"

Chic Costumes for the Athletic Maid Feature Black and White. LINEN FOR GOLFING Smart White Boots and Small Panamas in Vogue.

Even in the fashions for the summer girls' sporting togs, the black and white effects are irresistible. The athletic girl not only reveals in pretty costumes suitable for her various pastimes, she demands them—for her outdoor life is a strenuous one and necessitates practical attire that is at once serviceable and attractive.

WAR IS MORE TO WOMEN THAN MEN

N. W. Rowell Praised Canadian Women for Their Work and Sacrifice. UNSELFISH DEVOTION Business Women's Club Are Told That More is Expected of Them Yet.

"Upon our women the spirit of Florence Nightingale descended." In this way did N. W. Rowell, in a speech given to the Business Women's Club, on Tuesday evening, pay tribute to what the women of Ontario and Canada have been doing since their share in the burdens of the war—responsibility.

"I wish to bear testimony to the courage, the patriotism and unselfish devotion of the wives, mothers and sisters who have remained at home," Mr. Rowell continued. "It is easier for the husband to go to the front than it is for the wife to give him up and assume the responsibility for the home and family, the months of anxious watching and waiting, and perchance, the years of responsibility for the training and support of the fatherless child. It is easier for the mother who has given her life and her love for him to give him up, perchance never to return. No wonder women love peace; war demands of them its heaviest toll.

Just Suits My Needs Building Up the System

This is the Way Thousands of Women Are Speaking of Dr. Chase's Nerve Food.

"I want to state that I have never taken anything to do me so much good as Dr. Chase's Nerve Food," writes Mrs. Edson Brock, Trenholmeville, Que., "and I never without it in the house. I was so nervous I could not sleep, but now I sleep soundly at night and wake up feeling refreshed and ready for the day's work. I used the Nerve Food for months and found that it just suits my needs and has built up the system wonderfully. I know it is Dr. Chase's Nerve Food that has brought about the great change in my condition, and am thankful for it.

The Nursery

CONDUCTED BY Elvira Murray Childish Feelings Many people who show careful consideration for the feelings of their grown-up friends, often forget that children have feelings to be considered. Children are quick to feel a slight reproach; and they are extremely sensitive to personal remarks. Some little ones with a comfortable home and children never run to father and mother with secrets or difficulties, because to do so would mean being hurried aside, or scolded, or told "not to bother."

For yachting and all water sports nothing can replace the "priddy suit" for simple charm and practicality. The smaller arm hole and long set in sleeves with high collar and features of the 1915 models and the splendid skirt is that of the new four piece type, with side sections, pleated and adjusted. A Strength, Flesh and Body Builder For Spring

Most people show a tendency to lose weight in winter. The fat making material in the foods they eat, which at other seasons keep flesh and weight at normal, is partially diverted in cold weather and instead is used to furnish heat for the body. Then most us acquire coughs, colds or the grippe which tear down the flesh, lower vitality, cause loss of weight and leave us in a rundown condition in the spring.

Don't Burn and Ruin The Hair With Hot Iron

Straight, lank hair is becoming to but few women, and there's no excuse now for anyone looking homely and unkempt on that account. Those who have foregone the curling iron because of the damage it does by drying and breaking the hair, will be glad to hear that there is nothing liquid simerine will produce a far better and more lasting effect, without any injurious result whatever. If just a small quantity is applied to the hair at night with a clean tooth brush, a lovely curling and natural wave will be in evidence the morning, and there is nothing sticky, nor greasy about it.

FACTORY SURE, IF WAR BE SHORT OR LONG--PREMIER ASQUITH
Austrians and Germans Cross Donajec River in Galicia to Attack Russians in Big Battle
"ULTIMATE RESULT OF WAR NOT IN DOUBT, ONLY DURATION"---LOYD GEORGE

ASQUITH FEELS HIS OPTIMISM IS WARRANTED
People Recognize Gravity of Situation and Don't Require Goading.
LONG WAR IS POSSIBLE
Wonderful Response to Call by Clerks and Commercial Travelers.

LONDON, May 4, 6.47 p.m.—Premier Asquith, addressing a meeting of a committee formed to encourage recruiting among employees on the wholesale and retail distributing trades of the country today, said that out of 790,000 clerks, commercial travelers and other workers in these trades 430,000 had joined the army.
The premier stated that enquiries were being made with regard to re-employing in the cotton trade, biscuit manufacturing, hotels and other branches of industry, with the view to making a further appeal.

Never in the history of any nation has that recognition been more clear and universal, or that obedience more prompt and more unselfish, he said.
"We have made a magnificent beginning. We have stemmed the tide of aggression, and the men have shown a spirit worthy of the best traditions of the race. I would say to the nation: 'Proceed in the same way and in the same temper.'
"Every breach in our front line has been made good, but there are still in reserve unused, and to the army's suspected resources, which you must mobilize and organize to the full. I must not be least ashamed to call myself an optimist, not that I underestimate the prowess of the enemy, the gravity of the struggle, the imperious need for the unflinching exercise of our national qualities of patience, constancy, resolution and fortitude. I am an optimist because I believe in the righteousness of our cause and because I am confident that by personal and corporate effort and self-sacrifice there is nothing that we shall leave undone to bring that cause—the struggle long or short—to a decisive and glorious issue."

Agamemnon Hit?
According to the Turkish war office the British battleship Agamemnon has been disabled. The British censor permitted the transmission of the Turkish report of the disabling of the Agamemnon.
The Agamemnon is a vessel of 16,500 tons and one of the most powerful in the British fleet. She carries a crew of 865 men. Her armament includes length over 485 feet. She is a sister ship to the Lord Nelson.

Constantinople's Version
CONSTANTINOPLE, May 4.—The following statement was issued today at the war office here:
"In order to increase the limited extent of ground he held near Ayvaburnu, the enemy yesterday attempted a new advance on his left wing, but as a consequence of our counter attacks he was in the first place driven back with heavy losses into very rocky valleys and afterwards repulsed to the coast.
"In the meantime our artillery transports a fire on board one of the enemy's quickly retired.
"The British warship Agamemnon, which attempted to shell Balair, was struck yesterday by four shells and obliged to retire, being no longer able to fire.
"An engagement between our sendarmes and seven of the enemy who landed with officers from a submarine on the uninhabited island of Biazir in the Aegean Sea, the latter were killed."

Britain Has Requisitioned All Australasian Meat

LONDON, May 4, 7.40 p.m.—Walter Runciman, president of the board of trade, announced in the house of commons this evening that the British Government has requisitioned the entire supplies of meat from Australia and New Zealand.
The supplies that were not needed for the army, Mr. Runciman added would be marketed for the benefit of the civil population in order to prevent such increase in price as would arise from a shortage of supplies.

will be unable to oppose the Japanese should they make an attack.
It is asserted in high quarters that 100,000 troops have been concentrated in the environs of Peking, but with sufficient ammunition for only a brief resistance.
Japs Warned to Leave.
Special police and military precautions have been taken thruout the city, especially around the winter palace, where President Yuan Shi Kai resides. The officials declare that they are suspicious that the Japanese may attempt a repetition of the Korean coup d'etat.
The Japanese legation, it is said, notified the Japanese yesterday to prepare to leave Peking, and that many women and children are getting ready to depart.
Telegrams received here from Mukden say that the Japanese bank and postoffice there have suspended business, that the Japanese reservists as well as the civilians are concentrating in the railway zone.
It is contended that the Chinese have conceded virtually all the articles contained in the 11 demands made upon them and enumerated to the powers, and a high official said yesterday that it was not believed that Japan would dare to enforce those contained in group five, which, he said, Japan had informed Great Britain, as well as the other powers, were merely regarded as desirable.
Fear Greater Demands.
Whether President Yuan Shi Kai will concede all these points, however, is an open question. Some of the officials express the fear that the Japanese military party, which they profess to believe welcomes the present crisis, will increase the Japanese demands should a successful campaign follow.
On the other hand, it is considered here that Yuan Shi Kai faces calamitous consequences in China if he yields to the Japanese. High members of the government are said already to have voiced the suspicion that he may accept an alleged offer from Japan of military support and protection for himself against foreign nations and his own people in return for conceding control of the country in fact, altho not nominally, to Japan.

Turks Defeated in Persia Heavy Fighting in Galicia

Austrians and Germans Cross Donajec River, in West Galicia, To Attack Russians, and Claim Taking of Thirty Thousand Prisoners.
LONDON, May 4, 10.30 p.m.—The Russians have badly defeated the Turks who had invaded Persia. The defeat took place in a three-day battle near the frontier, and Petrograd reports that the Russians inflicted heavy losses on the Ottomans. If the success of the Muscovites has been followed up, military observers declare, Persia now should be free of her uninvited guests.
This battle, however, was a small affair when compared with what Germany and Austria claim they have done to the Russians in Galicia. Their reports tonight state that 30,000 Russians were captured and that a large number of guns were taken. There was no mention, however, of any towns, such as Gorlice and Tarnow, which were close to the front, being captured. The German and Austrian military critics to the conclusion that, while the German allies may have won local successes, they have not driven the Russians very far back.

U.S. IS NEUTRAL BUT NOT PEOPLE

Rev. Henry Alfred Porter of Dallas Says Britain's Ideals Are Theirs.
WALMER ROAD CHURCH
Large Attendance at Graduating Class of McMaster University Last Night.
Last night in Walmer Road Baptist Church, Rev. Henry Alfred Porter, D.D., delivered the baccalaureate sermon to the graduating class of McMaster University. The students and their friends, and in addition to the religious and devotional services, sacred music program was provided by the choir of the church.
The opening service was conducted by Chancellor MacCormick, Rev. Dr. B. B. D.D., and Professor Farmer. Rev. Dr. Porter, who is a distinguished member of the first graduating class in the history of McMaster University, is engaged in pastoral work in Dallas, Texas, and came at the invitation of the university authorities for the special purpose of taking part in the commencement exercises at the college.
Symbols of Honor.
Dr. Porter took as his text the words found in the fifth verse of the 13th chapter of St. John: "Then came Jesus forth, wearing the crown of thorns." He described the crown of thorns as a symbol of honor, dignity and power. In ancient days to win a crown in battle was a glorious exploit, and to lose one, humiliation, complete and overwhelming. "In the case of Jesus," he said, "would it not be better to read the words of the text, 'then entered Jesus, wearing His thorns as a crown,' for altho it was not the crown of His thorns, but the crown of His suffering, which gave them to us, we may be thorn-speakers; we may rebel against them and fight against the circumstances which gave them to us, or we may be like St. Paul, because we have to, or follow the example of the Master and wear them into the crown of a conquering king."
Thorns of Militarism.
In speaking of the present war, Dr. Porter likened the soldiers who so brutally forced the stinging thorns into the crown of Christ to the German war lords who have forced the thorns of militarism on the suffering brow of humanity. "And it is for this reason," he said, "that we should make of them a coronet of high ideals which shall ever shine to the honor and glory of Christian civilization." He assured his hearers that from his personal experience in traveling thru the United States, altho the nation was officially neutral, the people were far from being so, and that they realized that the high ideals for which Britain has always been also the ideals of the people of the United States, and every other English-speaking country.

THE CHANCELLOR'S SPEECH.
The chancellor added, it would be the duty of the house to consider what other contribution the community could make, and in what other ways it could enable Great Britain to carry on the war.
Lloyd George said he was able to report that the revenue of the country had exceeded the estimates, and that the surtax and income-taxpayers were sending in their money with unusual cheerfulness.
Lloyd George said he was able to report that the revenue of the country had exceeded the estimates, and that the surtax and income-taxpayers were sending in their money with unusual cheerfulness.

BRITAIN TO FINANCE ALLIES

Little discussion of the budget itself was held, but the chancellor's proposals were passed before the house adjourned.
Lloyd George said he was able to report that the revenue of the country had exceeded the estimates, and that the surtax and income-taxpayers were sending in their money with unusual cheerfulness.

Referring to the question of discrimination in recruiting, the chancellor said he thought the allies ought to determine the part Great Britain should play in the combination and the best service she could render. She could, he declared, keep command of the sea, and that was a valuable thing which was essential to their ultimate success, especially if the war were prolonged.
On a continental scale, he continued, and a third service was one she had rendered in the Napoleonic days—being the main burden of financing the allies.

At the annual meeting of the Chartered Accountants' Students' Association, the following officers were elected for the year 1915-16: President, J. A. Brown; vice-president, E. L. Kerr; secretary-treasurer, H. A. Shick; librarian, Earl A. Seburn; assistant librarians, E. F. Pugh, G. W. Appleton; auditors, H. S. Merson, J. Hunt; executive committee, F. G. Short, F. C. Hurst, W. G. Berner, G. K. Archer.

ALLIES HAMMER GERMAN LINE GAINING GROUND

British and French Have Situation Well in Hand on Battle Line.
WIN AT STEENSTRAATE
French Artillery Begins Bombardment of German Forts at Altkirch.

Special Cable to The Toronto World.
PARIS, May 4.—Altho the French night communication contains only brief statements, it would appear that the allies now have the situation on the 425 miles of battlefront well in hand and that Gen. Joffre is continuing his tactics of "nibbling" with a reasonable measure of success.
On the Belgian front, the French forces, which were driven back a considerable distance by the German use of asphyxiating gas fumes, are constantly on the aggressive, and tonight the regaining of more territory in the region of Steenstraate is recorded.

Fighting in Champagne.
In Champagne, another important front where the Germans are anxious to avenge their severe defeat of some weeks ago, three successive attacks were made on the French trenches, and were repulsed with heavy losses.
French advances were recorded at Altkirch in upper Alsace Saturday, and that it continued its heavy firing in the direction of Cernay Sunday.
The Germans, in a statement intercepted by wireless, lay claim to the capture of three villages in Belgium. The French and British reports on the contrary say that the allies have been holding their own and that only one feeble German attack on British positions was made, and that it was easily repulsed.

MAY INCORPORATE MOUNT DENNIS

Ratepayers Favor Becoming Police Village by Majority of One.
The benefits to be derived from incorporation as a police or municipal village formed the subject of a lengthy discussion at a crowded meeting of the Mount Dennis Ratepayers' Association, held last night at the residence of the police village project carried by a majority of one.
It was pointed out by the president, I. A. Robinson, that some such action was a necessary step towards the obtaining of improvements, and that it was better to begin at the bottom of the ladder as a police village with the support of the township council, than to incorporate at once as a town.
The report of Mr. James, engineer, to the highways commission, on the water supply problem, dealt with the obtaining of water from the Humber, and from a police village. The report stated that an installation of three miles of water main would give adequate fire protection to the legal area of 50 acres. The frontage tax on 50 feet would amount to \$2.50, and the water bill on a modest outfit to \$4 on each house. Some compensation, however, would be received in reduced insurance rates, and it was estimated that the installation would pay for itself in 20 years.

The executive will meet on Wednesday or Thursday to draw up a petition and arrange for a canvass at one of the district.
It is the intention to submit the petitions by May 16, one month before the June meeting of the county council, and it is believed that the petition will succeed the election of three commissioners would take place in July.

Liquor Tax to Be Modified.
The general impression in the lobby after Lloyd George had delivered his speech, was that the proposal of new taxes on wines, beers and spirits either will be withdrawn or greatly modified, for above all things, the government desires unanimity.
The chancellor's speech was taken to indicate that at some future date Lloyd George would propose a huge loan to finance the war for a further period of from six to twelve months. His statement that the savings of the country must be relied upon to provide the necessary funds was presumed to foretell that there would be either a bigger income tax, and a universal application of that tax, or that special inducements would be held out for the investment of the nation's savings in a loan.

**COL. ROGERS, PETERBORO CABLES OF HIS SAFETY**  
Came Thru First Real Fight, But His Cousin Has Been Killed.  
Following is a copy of a cable received yesterday from Lieut.-Col. W. O. Rogers, formerly second in command of the 2nd Battalion, sent to his wife, mother and sister:  
Field Postoffice.  
To B. L. and M. Grafton, Ont.:  
First real fight. Came thru safely. Heber paid dearly with the loss of Lieut. Col. W. O. Rogers, 4th Battalion.  
Lieut.-Col. Rogers is a son of Mrs. R. Z. Rogers of Grafton and the late Col. R. Z. Rogers. He was in command of the 3rd Prince of Wales Dragoons of Peterboro before enlisting with the first contingent. His wife is a daughter of Lieut.-Col. W. W. Gregory of St. Catharines.  
The Heber referred to in Col. Rogers' cable is a cousin, Heber Rogers, who formerly lived in Peterboro.

**REDFERNS HOLD ANOTHER SALE**  
Entire Stock Must Be Cleared to Make Room for New Styles.  
**ASTOUNDING BARGAINS**  
Prices Are Reduced Seventy Per Cent. in Many Instances.  
Commencing this morning a sale at incredibly low prices will be inaugurated at Redfern's Limited, 283 Yonge street, where the entire stock still on the premises must be cleared to make room for the new and choice summer stock, which it is the intention to have on view just as soon as the show-rooms and cases have been cleared of their present supply.  
Important Reopening.  
Final adjustment has been made with the underwriters and arrangements are under way, which will make the reopening of Redfern's Limited, an important event in the business life of Toronto. In addition to the reopening, able to assure their clients and the public generally, of an extended connection with the New York and European markets, that will bring many novel and exclusive notes into the stock which cannot fail to please even the most fastidious in the matter of things pertaining to mid-lady's wardrobe.  
Choice Selection.  
Imported models and choice designs in suits, dainty summer frocks and elegant lingerie will be among the new offerings. Millinery, always a well-known feature of this establishment, will display many attractive developments and exclusive models, and will be one of the exceptional attractions of the re-opening.  
Hints of the sacrifices being made in disposing of the stock still in hand may be gathered from the following items: Silk petticoats of all shades, which sold at \$1.95 and \$2.95, are now selling at \$1.00 each; waists are being cleared at from 40 cents to 95 cents; suits that sold at \$25.00 are now selling at \$10.00, and others have been reduced from \$40.00 to \$17.50. A large supply of French flowers will be sold at 25 cents a spray.  
Don't forget that the final clearing sale begins today—is now on—and that this is your opportunity.  
Date of reopening will be announced later thru the columns of this paper.

In addition to the above there were several delays less than 6 minutes each due to various causes.

**DEATHS.**  
**ALEXANDER**—On Tuesday, May 4, 1915, at his residence, 276 Brunswick avenue, Louie, beloved wife of Mr. Alex. Alexander and daughter of Mrs. and the late Mr. Gilbert Gilmore.  
The Ottawa Journal, a Conservative newspaper of strongly independent views, comes out strongly for an election, declaring that "there is no reason to think this war will end before another year, and within that time an election must occur in any case. Meanwhile there are tremendous problems to be faced. There is big work ahead for all of us. Would it not be just well to have an election over with, whatever government is elected, understanding that we have the confidence and support of the nation, or is it better to go on with the present miserable campaign of calumny, abuse and uncertainty unended?"  
**PLASTERERS WANT NEW AGREEMENT AT ONCE**  
Misunderstanding Caused Nearly Four Hundred Men to Quit Work.  
Owing to some misunderstanding between the plasterers and their employers, the former, to the number of 375, have ceased work till some arrangement for the renewal of their agreement, which expired Saturday, takes place.  
There appears to be some contradictions as to the cause, the men stating that they were locked out, while the employers say that they quit. It is also said that the employers had refused to make a new agreement and that there was a further possibility of them reducing the men's wages. A committee of plasterers and laborers affected will meet the employers on Thursday, when it is hoped that the matter will be adjusted to the satisfaction of both parties concerned.

**Famous Dancer Gives Complexion Secrets**  
"I've learned the secret of Dolores' enchanting beauty and wondrous charm that has dazzled the courts of Europe and captivated vast audiences everywhere. The famous 'Dolores' is the result of her life, she retains the incomparable complexion best described as 'incandescent'—a soft, pinkish glow that the senorita regularly uses on her face what druggists know as mercurized wax. This applied at night in the manner cold cream is used, and washed off in the morning. It absorbs the dead particles of skin which daily appear, and a fair, soft, fresh, girlish complexion is always in evidence.  
Dolores' skin is not marred by a single wrinkle, not even the finest line. She wards these off by daily bathing the face in a solution made by dissolving an ounce of powdered axolotl in a half-pint of warm water. As your drug store keeps these ingredients, as well as mercurized wax (one ounce of the wax is sufficient), no doubt your readers will welcome this information.—Aileen Moore, in Beauty's Mirror.

BASEBALL Rain--Games Postponed SEAGRAM HORSES Arrive at Track

LEAFS WERE IDLE RAIN THE CAUSE

Many Games Postponed Owing to the Dampness in Four Leagues.

Rain upset the baseball schedule yesterday. Clymer's Leafs were due to get revenge at Jersey City, but the rain stepped in and stopped the fun. The act will be staged today, weather permitting.
