## CONSOLIDATION OF 1876.

---

In 1870 the By-laws of the City of Toronto were first published in a consolidated form, to which they had been reduced, in great part from their manuscript originals, by a Select Committee, appointed in May, 1866, upon the motion of Mr. Alderman HARMAN (afterwards Mayor, and now City Treasurer), who himself devoted gratuitously no small amount of care and attention to the execution of the work. The labours of the Committee were completed in 1870, and their result was the publication of two volumes: the larger (of 826 pages) containing the text of 105 By-laws reported by the Committee as in force at the end of 1869, and the titles of 401 others, reported as *effete* or repealed; the smaller volume (of 215 pages) containing a selection of the By-laws—32 in number—which were considered by the Committee as of more practical utility and general application than the others. These volumes were referred to by the Committee in its final report as “second to no works hitherto issued from the Canadian Press;” and not only in point of mechanical execution, but in the method of their arrangement, the accuracy of their text, and the completeness of their references, they certainly reflected the very highest credit upon all those who had to do with their preparation.

The total number of the By-laws, to the end of the year 1869, which were examined by the Committee having charge of the Consolidation of 1866-70, was 506, or an average of less than 15 for each year of the City's history. Since then the progress of Toronto has necessitated a much larger amount of civic legislation, and the total number of By-laws passed from the end of 1869 to the 30th September, 1876, was no less than 246, or an average of more than 47 per annum.

The number of By-laws actually passed in each year since the last Consolidation, and up to the present date, is as follows :—

1870.....	12	1874.....	33
1871.....	22	1875.....	47
1872.....	32	1876(to 30th Sept.)	52
1873.....	43		
		Total.....	246

From these figures it will appear that during the last few years the amount of our municipal legislation has steadily increased in almost geometrical progression ; and when it is considered that, like a great deal of our Statute law, this has largely consisted in the amendment, re-amendment, repeal and re-enactment of the 105 By-laws reported as in force by the Consolidation Committee of 1866-70, the necessity for a second Consolidation, foreshadowed by that Committee in their preface, will be seen to have arisen, and to have become almost imperative.

A Select Committee was accordingly appointed in March last, on motion of Mr. Alderman WRIGHT, to consist of " His Worship the Mayor (ANGUS MORRISON, Esq., Q.C.), Aldermen TURNER, BOUSTEAD, WITHROW, and the mover, with the City Treasurer (SAMUEL B. HARMAN, Esq.), and City Solicitor (C. R. W. BIGGAR, Esq.)," for the purpose of consolidating the By-laws to the end of 1875.

On the 8th of April the Committee presented its first report, recommending in general terms a plan similar to that adopted in the Consolidation of 1866-70, and asking an appropriation of \$2,000 (less than one-half the expense of the former Consolidation).

On the 24th of the same month, the Committee again reported that a draft Consolidation had been completed, ready for the press ; but they stated at the same time that, from a memorandum submitted to them by the City Solicitor, it appeared that "it would be unwise to print the By-laws in their present shape, as many of them seem to be wholly or in part illegal, while in other cases much verbal amendment

is necessary, in order to render the different By-laws consistent with each other, and with the present circumstances of the City."

The report contained a tabular statement of By-laws and sections requiring to be amended or repealed, and recommended the consideration, for this purpose, by the respective Committees having charge of the subject, of the following By-laws:—

By-laws Nos. 478, 504, 589, 641, 673, 675, and 690, by the Finance Committee.

By-laws Nos. 467, 470, 481, 666, and 693, by the Board of Works.

By-laws Nos. 472, 473, and 627, by the Standing Committee on Fire Water and Gas.

By-laws Nos. 474, 476, and 483, by the Market Committee.

By-law No. 477, by the License Committee.

By-laws Nos. 502, 633, and 660, by the Board of Health, &c.

The By-laws above referred to, with many others, were reconsidered as above suggested, and the work of reconstruction and amendment energetically proceeded with during the summer, every section reprinted in the present volume being examined and considered. All the illegalities and inconsistencies cannot be said to have been removed; but a very great improvement was effected, and the Consolidation of 1876, though by no means submitted as a perfect work, will, it is hoped, be found to be free from any glaring instances of legislation in excess of the powers of the Council. The work of remodelling the entire series of the By-laws occupied of course a very considerable time, and it was not until September 25th, 1876, nearly six months after the appointment of the Committee, that the By-law (No. 752), embodying the necessary amendments, was finally adopted by the Council. This By-law, which would cover nearly eighty pages, is not reprinted in the present volume; but all the amendments

contained in it have been made in their proper places, and the text of the By-laws printed as they are now in force. References have been added at the end of each section, showing the number of the original By-law and section, together with the number and section of every By-law by which it has been amended.

By the seventh section of By-law 752 power was given to the Committee "to simplify and improve the language of the old By-laws, titles and preambles, by leaving out unnecessary words and altering the references to repealed or superseded Statutes, so as to apply to those now in force, provided the legal effect of the By-laws is not altered." This power has been sparingly and, it is hoped, judiciously exercised, and, as it was felt to be inexpedient to alter further than might be absolutely necessary the text of the By-laws themselves, the references from *effete*, superseded or repealed Statutes have usually been made by side-notes indicating the corresponding enactments now in force. Similar notes have also been inserted wherever it was practicable, pointing to the statutory authority for the By-law, and to other cognate By-laws.

Near the end of the volume will be found a tabular statement extending from page 470 to page 536, which gives the number and title of every By-law passed from the incorporation of the City of Toronto, in 1834, to the 30th September, 1876, with the date of its passing, the page on which it will be found if still in force, and how it has been reported by the Committee, *e. g.*, as *effete*, repealed, superseded by subsequent legislation, &c.

This tabular statement is followed by an index prepared upon the basis of that which was appended to the Consolidation of 1866-70, but nearly twice as long, owing to the great number of new subjects to be dealt with.

The prefatory lists of officers and members of Council and other civic officials, follow the idea suggested in the former Consolidation, the lists in question, and the alphabetical index at pp. 601 to 615, being made complete to the end of the present year.

Plans of various City properties—the Market Block, St. Lawrence Arcade, St. Lawrence Market, Exhibition Grounds, Water Lots, etc., were given in the former volume, but new ones have been prepared for the present edition, bringing down the information therein contained to the date of this Consolidation.

A feature of the present Consolidation to which reference may here be made is the insertion at pp. lxvii to lxii of a list of the special Statutes affecting the City of Toronto, omitting, of course, those Statutes which affect our City in common with the rest of the Province. This list includes those Acts of the Parliament of the late Province of Upper and Lower Canada, and Canada after the Union, and of the Province of Ontario, which relate especially to the Town of York and the City of Toronto. It was felt that such a list would be an appropriate and valuable introduction to the body of the By-laws in force, as exhibiting in a compendious form the statutory authority for much of our municipal legislation, and also as a means of ready reference to enactments which should be read in connection with the By-laws, in order properly to understand the circumstances under which many of the latter were passed, and to obtain a general idea of the successive phases of our civic history and progress.

In one other important particular the present Consolidation differs from that of 1866-70, viz., in the omission from the body of the work of the titles of all repealed By-laws, and the text of what are known as "Local Improvement By-laws," viz., those passed under sections 464-7 of 36 Vict. cap. 48, or the corresponding sections of 29-30 Vict. chap. 51.

These By-laws, 105 in number, are in nearly every case for the construction of sewers, the cost of which is to be repaid to the City Treasury by an annual special rate in the dollar upon the property "to be immediately benefited" by the proposed work. They are all drawn according to one set form, and by a somewhat arbitrary rule the "property to be immediately benefited," has been assumed to be in nearly every

case a strip sixty feet wide along each side of the street under which the sewer is constructed. For this reason, and also because they are already printed *in extenso* at the end of the Minutes for the year in which they were respectively passed, it has been decided (with the approval of the Council) not to reprint them in the present Consolidation; but they are very fully referred to in the tabular statement already mentioned, and in the index to this volume.

A table has also been prepared which will be found at page lxxii, showing, in the case of each of these By-laws: (1) The nature of the improvement;—(2) The street or portion of street on which it was constructed;—(3) The total amount of the debt thereby created;—(4) The proportion of such cost to be repaid by special local rate;—(5) The proportion to be borne by the City;—(6) The annual special rate in the dollar, or per foot of the frontage of the property to be immediately benefited;—(7) The amount which may at any time be paid in commutation of such annual rate;—(8) The date of the passage of the By-law;—(9) The term of the By-law; and (10) the date of maturity of the debentures issued thereunder.

With the assistance of these data, and the general form of a Local Improvement By-law given at page lxxvii any of these omitted By-laws can be easily re-constructed.

It will be observed that the term "Local Improvement By-laws" does not include all By-laws for local improvements, but only those in which the cost of the improvement is to be repaid by a local rate. Whenever the improvement is of general interest, and the cost is to be repaid by a general rate, the By-law has been reprinted; e.g.: By-laws 242, 261, 262, 372, 399, 522, 533, 566, 615, 619, 653, 670, 697 and 698, a perusal of which will show what portion of the Debenture Debt of the City is represented by permanent improvements.

A reference to By-laws 177, 190, 309, 486, 487, 516, 576 and 634 will show what portion of our Debenture Debt has arisen from the popular desire to aid in the construction of Railways;

while in By-laws 255, 288, 318, 392 and 395, will be found a history of the construction of the Toronto Esplanade, and in By-laws 544, 569, 626 and 705 some information as to the Water Works now under construction.

In connection with the Debenture Debt, By-laws 282, 317, 345, 363, 405, 428, 444, 459, 493, 509, 521, 565, 584, 632, 665, and 710 may also be looked at, as they furnish an "annual register" of its increase, and refer to the legislation from time to time obtained for its consolidation. (See 16 Vict. cap. 5; 22 Vict. cap. 71; 24 Vict. cap. 54; 35 Vict. cap. 76, Ont.)

In view of the consideration that a re-consolidation of the By-laws at short intervals will be desirable, and will probably be made, it may be well to call attention to the fact that a number of them have no longer the force of active law, but serve rather as records of the authority under which streets were opened, lands sold, leases made and renewed, and other contracts executed or duties performed, with the authority of the Council.

Examples of such By-laws are Nos. 28, 39, 41, 42, 43, 45, 49, 51, 54, 71, 79, 100, 128, 138, 144, 158, 161, 266, 299, 324, 368, 392, 430, 523, 559, 657, 663, 664, 681, 712. They are valuable now, not as authorities for anything to be done in the future, but as evidence of the validity of what has been done in the past; and being incapable of amendment, it is suggested that instead of reprinting them in each successive Consolidation, they might hereafter be printed in a separate volume, leaving to be consolidated only those By-laws which are, to use the language of the Committee of 1866-70, "of more general utility and practical application," and which will probably be amended from time to time as may be required by the progress of the City.

It remains only to acknowledge the valuable services of Mr. HENRY J. HILL, the Secretary of the Committee which has had charge of the present Consolidation, and to whom, with the approval of the Council, has been entrusted, under the superintendence of Mr. C. R. W. BIGGAR, the clerical work,

proof-reading, and indexing, incidental to the preparation and publication of the present volume. Of the manner in which these duties have been performed, the work now submitted to the Council and the public will be itself the best criterion.

All of which is respectfully submitted,

JOSEPH WRIGHT,

*Chairman of the Consolidation Committee of 1876.*

TORONTO, 30th September, 1876.

NOTE.—As the final sheets of this volume are passing through the press, a By-law (No. 793) has been adopted by the City Council which materially affects the provisions of By-law 504, post p. 281. Instead of the ten Standing Committees mentioned in section 60 of that By-law, there are to be hereafter only five Standing Committees, viz.:

1. The Finance or Executive Committee :—which, in addition to the powers heretofore exercised by the Standing Committee on Finance and Assessment, is to "supervise all contracts, engagements, reports, recommendations, nominations, and proceedings involving the expenditure of money," of all the other Committees, and no account or claim for money is to be paid until first reported on by this Committee.
2. The Committee on Works :—which corresponds to the present Board of Works.
3. The Committee on Fire, Water and Gas :—corresponding to the present Committee of the same name.
4. The Committee on Property :—with the powers and duties of the present Committee on Wharves and Harbours, Walks and Gardens, and Public Buildings.
5. The Committee on Markets and Health :—with the powers and duties of the present Committees on Public Markets, on Licenses, the Board of Gas Inspectors, and the Board of Health.

The first three Committees are to consist of not more than one member from each Ward, the Committees on Property and on Markets and Health of not more than five members each. A majority of the Committee is to form a quorum, except in the Executive Committee, when any three members, of whom the Mayor or Chairman must be one, are to be a quorum.

In cases of urgency, an expenditure of \$200 may be made by any Committee upon the written report of the head of the Department, endorsed by the Chairman of the Committee, but in all other cases no expenditure is authorized, and no contract, etc., is to have any legal effect until reported on by the Executive Committee and adopted by the Council, a two-thirds majority of which is necessary to reverse the decision of the Executive Committee. A monthly report is to be furnished by the latter Committee to the Council, giving full details of all contracts, etc., approved, with the amounts paid and still due in respect thereof, etc., etc.

## PREFACE

TO THE

### CONSOLIDATION OF 1866-'70.

To any one accustomed to consult the Statute Law of the land, it is almost needless to allude to the difficulty experienced in arriving at a decision as to the real state of the law on any point which has been the subject of frequent legislation, and that, when the research has to be made through well printed volumes, furnished with well classified indices. When, therefore, it is considered that from the date of the incorporation of the City in 1834, to the issue of the present volume, upwards of five hundred By-laws have been from time to time passed, which could only be, for the most part, referred to in manuscript volumes in which they were transcribed, but without anything like an analytical index or digest of their contents, or to call attention to repeal or amendment, it will be admitted that the wording of the resolution of Council, under which this publication was undertaken, expressed, without exaggeration, its necessity.

Reference to the minutes of the Council shows that such a work was often contemplated; and resolutions in its furtherance frequently adopted only to be abandoned, and it was not until the year 1860 that Mr. Justice WILSON, who then filled the office of Mayor, after expending much time and labour in going through these manuscript volumes, and comparing and noting changes in the way of repeal or amendment, arranged a By-law (No. 334) which repealed a number of By-laws that were at that time obsolete, and partially amended others: to the value of this By-law, and the labour of the learned Judge as preliminary to the present compilation, the Commissioners bear willing testimony.

The lapse of time, and the additional legislation since 1860, rendered it necessary that the Commissioners should again carefully review the entire series of civic enactments, which having been done, they had next to consider the best plan to be adopted to carry out the intention of the Council as embodied in their Resolution or Commission. To this end three courses presented themselves:—*First*, to print the By-laws as they then existed, with notes pointing out amendment or repeal; *secondly*, to codify, or, in other words, to classify and re-arrange the whole body of legislation according to subjects; or, *thirdly* (being a modification of the first), to print the entire series, having first consolidated all the By-laws relating to the same subjects, and amended, where necessary, those relating to a single purpose.

The first course was soon discovered to be impracticable, for it was found that there were so many By-laws on the same subjects, to which there had been continuous addition and amendment, that many of their sections were clearly contradictory, while in others the intention of the Council was lost in the obscurity of frequent change, it was therefore considered that publication in such shape would still leave the By-laws in a condition difficult to interpret, if not calculated to mislead those who had to refer to them, and thus defeat the main object of easy and intelligible reference.

As to the second course, a Codification of the By-laws, the Commissioners, while fully impressed with the convenient and complete result of their labours that such a work would have exhibited, found that the difficulty of its preparation out of a mass of material, for the most part in manuscript, was well nigh insurmountable as a first effort, although it may readily follow at a future day from the shape in which they now leave the By-laws.

The Commissioners therefore, after much hesitation, decided to adopt the third expedient, and print the volume in its present shape.

Another reason which influenced the Commissioners in a

great measure in deciding on this course, instead of codification, was the difficulty of getting over the numbering of the By-laws, particularly those relating to, and referred to by their numbers in the various issues of City Debentures, and the further consideration, that as this was to be the first publication of the laws of the City, whatever shape subsequent publications might assume, it was desirable that the first should exhibit and record the unbroken course of civic legislation by giving the series of both numbers and titles from the beginning, with the sole distinction of only printing at length the By-laws still in force.

The foregoing remarks being, as it were, preliminary, some further explanations respecting the contents of the present volume are deemed in place in presenting the same to the Council.

In the first place, the Commissioners considered it an appropriate introduction to furnish a schedule of the names of the Members of the Council and leading Civic Officials during the long series of years the legislation of which has been under consideration, thus rendering it a matter of easy reference to ascertain, on the one hand, the names of the Members of Council at the time any By-law was passed, and to preserve, on the other, a record of useful and for the most part gratuitous service, rendered to the City by its civic representatives and officials, many of whom have long since passed away.

In the next place, the Commissioners finding themselves frequently surrounded by ambiguity in the matter of both repeal or amendment from the subsequent repeal, it might be, of the amending or repealing enactment, or otherwise, to set the same finally at rest, followed the precedent of Mayor Wilson's Act, already referred to, and can now confidently refer to By-laws numbers 484 and 505, in which a final and complete summary of every provision of the Council on those heads is embodied and set forth,—which "Amending and Repealing" By-laws being printed in full in the series, as the

key or authority, the amendments are inserted in their places in the different By-laws where they occur, without further reference or comment.

The consolidation of the numerous By-laws referring to similar subjects, and the revision of others relating to a single purpose has been proceeded with with a careful endeavor to preserve, as far as possible, both the wording and the intention of the original framers of the enactments, and to amend only in those particulars that were necessary to bring them into accord with the existing Municipal Law, and the present and prospective requirements of the City. These "Consolidated" By-laws having been of necessity submitted to the Council for re-adoption were passed, the majority on the 26th of October, 1868, and the remainder on the 26th of November, 1869, by reference to which dates they may be readily referred to in the present volume. As bearing on these "Consolidated" By-laws, in the preparation of which was involved the heaviest labour of the Commissioners, it may not be out of place to refer to their first report to the Council, inserted in the minutes of the 26th July, 1868.

It was considered inadvisable to amend or in any way to interfere with those By-laws relating to the subjects over which the Commissioners of Police now exercise jurisdiction, their titles have therefore been merely printed.

Reference, it is felt, may be briefly made to two other series of By-laws now for the first time printed at large, namely, By-laws authorizing the leasing of lands belonging to the City, and By-laws authorizing the issue of Debentures.

With regard to the former no particular comment is necessary, and as perspicuity has been the main aim of the Commissioners, they have had prepared on a reduced scale and inserted at the commencement of the volume sundry maps of the properties referred to, which will be found of use in reading these "Lease" By-laws.

With regard to the latter it was only deemed necessary to

print those By-laws under which, from enquiries at the Chamberlain's office, it was ascertained that Debentures were still outstanding. These "Debenture" By-laws afford an opportunity of noting, in the steady growth and development of the City, the unavoidable creation of what is known as the "City Debenture Debt."

A few other Maps having reference to other By-laws, and prepared with a like object to that named above, will be also found at the commencement of the volume.

In addition to marginal notes inserted throughout the volume, the Index or Digest at the conclusion has, in compliance with the desire of the Council, been made as full and complete as possible. It is hoped that these united means of reference will accomplish in utility what they cost in labour.

Foreseeing the bulk the present extended publication would attain, it was considered advisable, while the type was standing, to publish simultaneously a smaller volume entitled "By-laws of Practical Utility and General Application," containing those By-laws (about 32 in number) which have to be more frequently referred to, and for the infraction of the provisions of which, penalties may be incurred.

The Commissioners having availed themselves of the sanction of the Council to employ clerical assistance, record the valuable services rendered in that behalf by FRANK J. JOSEPH, Esq., Barrister-at-Law, whose knowledge of Municipal Law, and ability in its application to the work of the Commission, afforded no small assistance in the preparation of these volumes and their passage through the press.

It is not considered necessary to extend the length of these prefatory remarks by any lengthy apologies or excuses for the time occupied; the Commissioners on this head, merely quoting from their report of July, 1868, already referred to, wherein it was stated: "That from the very nature of the work entrusted to them, involving a careful and patient examination of between four and five hundred By-laws, the result of civic

legislation extending over more than a third of a century, and the difficulties they necessarily experienced, amid their other public and private avocations, in devoting continuous application thereto,—the accomplishment of a work, the necessity and importance of which is universally admitted, has occupied more time than was at first anticipated."

In conclusion it is not presumed that the By-laws as now revised may not from time to time, as circumstances or experience may demand, require in many respects to be modified or amended; but it is hoped, that apart from the convenience the citizens will derive from having the laws of the City printed in a complete and convenient form, the By-laws as they now exist will aid more effectually to carry out the practical working of the various departments of the Corporation, and materially conduce to the welfare and good government of the City.

SAMUEL B. HARMAN, *Mayor,*  
*Chairman of Commissioners.*

(1) Mr. Fraser resigned 19th February, and Mr. Beard took his seat 5th March.

(2) By the Municipal Acts of 1866 (29 &amp; 30 Vic., chaps. 51 and 52), the election of the Mayor, in Cities, was again vested in the Corporation, the office of Councillors was abolished, and the number of Aldermen was increased to three for each Ward, to hold office for three years—one retiring annually by rotation. To bring the provisions of the Act into operation, the Act provided that after the first election, it should be determined by ballot, under the direction of the Clerk, which of the members should retire in the first, second, and third years respectively, which ballot being taken, entitled the members to hold office, the first named for three years, the second for two, and the last for one year.

(3) Mr. Smith elected Mayor by vote of the Members of the Council.

No. .

A By-law to provide for the construction of a *Sewer on Sherbourne Street, between Carleton and Wellesley Streets, in St. Thomas' Ward.*

[Passed January 6th, 1875.]

WHEREAS *R. S. Williams* and others have petitioned for a *Sewer on Sherbourne Street, between Carleton and Wellesley Streets, in St. Thomas' Ward.*

And whereas it has been ascertained and determined that the real property comprised within the following limits, that is to say :

1st. Commencing at a point, the intersection of the north side of Carleton Street with the west side of Sherbourne Street; thence northerly along the west side of Sherbourne Street,       feet, more or less, to the south side of Wellesley Crescent; thence westerly, following the curve of Wellesley Crescent, to a point where a line drawn parallel to the west side of Sherbourne Street at a distance of 60 feet would intersect said curve; thence southerly, parallel to Sherbourne Street, to the north side of Carleton Street; thence easterly along the north side of Carleton Street 60 feet to the place of beginning, producing, after deducting a flank of 60 feet on Carleton Street,       feet more or less, of frontage assessable on the west side of the street.

2nd. Commencing at a point, the intersection of the north side of Carleton Street with the east side of Sherbourne Street; thence northerly, along the east side of Sherbourne Street to the south side of Wellesley Street       feet, more or less; thence easterly, along the south side of Wellesley Street, 60 feet; thence southerly, parallel with Sherbourne Street,       feet more or less, to the north side of Carleton Street; thence westerly 60 feet to the place of beginning, being a frontage of       feet, more or less, assessable on the east side,

Or a total of       feet, more or less, of property on both sides of the street assessable for the construction of proposed *Sewer*, will be immediately benefited by the construction of the said *Sewer*.

And whereas it has been ascertained that the said petitioners are two-thirds in number and represent one-half in value of the owners of the real property to be directly benefited thereby, and that the value of the whole of the real property ratable under this By-law is \$

And whereas the length of the said *Sewer* will be       yards; the cost thereof, including six culverts and two ventilators, and superintendence, with one-tenth added for contingencies, will be \$ , of which amount the City is to provide \$ for the construction of culverts and ventilators; the remaining sum \$ , is to be repaid by the property owners, and is the amount of the debt to be created by this By-law.

And whereas there are        feet of frontage of the said real property on *Sherbourne Street*, according to the said description, directly benefited by the said *Sewer*, upon which it will be required to charge an annual special rate of *one cent three mills* on the dollar to pay the interest and create an annual sinking fund in paying the said principal debt of \$        within ten years, according to law, which said debt is created on the security of the special rate settled by this By-law, and on that security only.

## II.

The owners or occupiers of the real property hereinbefore described are required, so soon as such *common Sewer* shall be constructed, and declared by the City Engineer for the time being to be fit to receive such drainage, forthwith, on notice thereof, to cause all the ground and premises embraced in such description to be drained into the said *Sewer*, under the direction and to the satisfaction of the City Engineer.

## III.

## IV.

The sum of \$        shall be raised by loan by this Corporation on the security of the special rate hereby imposed, and on that security only; and debentures amounting to the sum of \$        shall be issued by the said Corporation therefor.

## V.

The said debentures shall be made payable on the first day of *January*, A.D. 1885, and bear interest at the rate of *six per cent.* in each year.

## VI.

The said debentures may, both as to principal and interest, be payable in any place in Great Britain or this Province, and may be expressed in sterling money or any other currency, and the said sum of \$        to be raised thereon shall be laid out and expended in the construction of the said *Sewer*, and in no other way and for no other purpose whatsoever.

IMPROVEMENT BY-LAW.

VII.

If at any time the owners of the said real property hereinbefore described, or of any part thereof, shall desire to commute the assessment imposed by this By-law by the payment of his or their proportionate share or shares of the cost thereof as a principal sum in lieu thereof, he or they may so commute by the payment of *eight and one-tenth cents* on the dollar at any time during the first year after the passing of this By-law, or in any subsequent year by the payment of a similar sum, reduced by *one-tenth* thereof for each year during which the said annual special rate shall have been actually paid.

VIII.

All moneys arising out of the said annual special rate, and all moneys received in commutation thereof under the preceding section of this By-law, shall be invested by the City Treasurer, under resolution of this Council, from time to time, as the law directs.

IX.

### No. 283.

By-law to authorize the issue of Debentures for Esplanade purposes.

[PASSED JULY 4, 1859.]

**W**HEREAS by the Act of Parliament of this Province, sixteenth Victoria, chapter two hundred and nineteen, entitled "An Act conveying to the City of Toronto certain Water Lots, with power to the said City for the construction of an Esplanade," it was among other things enacted that it should and might be lawful for the Mayor, Aldermen and Commonalty of the said City of Toronto to pass a By-law to raise a loan and to issue debentures therefor payable in twenty years from the dates thereof; and for the purpose of redeeming the same and paying the interest thereon, it should and might be lawful for the Common Council of the City of Toronto, to impose a special rate per annum, to be called "The Esplanade Rate," over and above and in addition to all other rates to be levied in each year, which should be sufficient to form a sinking fund of two per centum per annum for that purpose, over and above the interest payable on such debentures, which sinking fund should be vested in each year

either in the debentures provided for by the said Act or in Government debentures, or other Provincial securities:

No. 283.  
Construction of  
Esplanade.

And whereas by the further Act of Parliament of the Province, twentieth Victoria, chapter eighty, entitled "An Act to amend the Act conveying to the City of Toronto certain Water Lots, with power to the said City for the construction of an Esplanade, and to enable the said City to locate the Grand Trunk Railroad and other Railroads along the front of the said City," it was among other things enacted that it should and might be lawful for the said Mayor, Aldermen and Commonalty of the said City of Toronto to contract with the said Grand Trunk Railway Company of Canada, or any person or persons, company or companies, forthwith and during the construction or the said Esplanade, under the contract to fill up and grade as laid down in the plan in the said Statute mentioned, to the level of the said Esplanade, the whole space lying between the northern limit of the said Esplanade, as laid down on the said plan and then in the course of construction, and the then shore of the Bay of Toronto eastward to Cherry Street and westward to the Queen's Wharf:

And whereas by the said Act last recited it was further enacted, that for and notwithstanding any Act of Parliament of this Province, or any clause, matter or thing therein contained to the contrary, it should and might be lawful for the Mayor, Aldermen and Commonalty of the City of Toronto, forthwith and without further notice, or other proceeding, to pass a By-law to raise a loan for such amount, not exceeding seventy-five thousand pounds as might be necessary for the purpose of filling in, grading and levelling the said space between the north line of the Esplanade and the shore of the Bay, and the extension thereof as aforesaid, and to issue any number of debentures, payable in this Province or elsewhere, in sums of not less than one hundred pounds, which might be requi-

And whereas the Mayor, Aldermen and Commonalty of the City of Toronto have entered into contracts for filling, grading and levelling the said space hereinbefore lastly mentioned, and the work is now in progress :

And whereas it has been estimated that the additional cost thereof will amount to the sum of fifty thousand dollars at the least, and it is necessary that the said Mayor, Aldermen and Commonalty of the City of Toronto should raise by way of loan the said sum of fifty thousand dollars for the purpose of paying for the same :

And whereas the amount required to be annually raised, according to the said recited Acts, as a special rate, to be called "The Esplanade Rate" as aforesaid, which shall be sufficient to form a sinking fund of two per centum per annum, for the purpose of paying the said loan of fifty thousand dollars, and redeeming the debentures to be issued therefor when the same become due as herein mentioned, and which shall also be sufficient to pay the interest on the said loan of six per centum per annum, until the satisfaction and discharge of the said loan as aforesaid, is five thousand five hundred dollars :

And whereas the annual value of the whole rateable property of the City of Toronto, according to the assessment returns for the same for the year eighteen hundred and fifty eight, was two million twelve thousand nine hundred and eighty-six dollars :

And whereas the annual rate in the dollar upon such ratable property, required as a special rate for the payment

of the interest and the forming of a sinking fund of two per centum per annum as aforesaid, for the payment of the principal of the said loan of fifty thousand dollars, according to the provisions of the above recited Act, is one-third of a cent in the dollar :

85 V. c. 76 (Ont.)

**W**HEREAS, by an Act of the last Session of the Legislature of the Province of Ontario, entitled

"An Act to Consolidate the Debenture Debt of the City of Toronto," it is amongst other things enacted, that the Corporation of the City of Toronto may pass a By-law or By-laws, for authorizing the issue of debentures of the said City, for a sum not exceeding in the whole the sum of two million five hundred and fifty-two thousand one hundred and sixty-six dollars and eleven cents, to redeem certain debentures numbered and falling due, and amounting to the said sum of two million five hundred and fifty-two thousand one hundred and sixty six dollars and eleven cents ;

A By-law to provide for the issue of Debentures to the extent of four thousand three hundred and fifty-two dollars, to assist in constructing a sewer on Seaton Street, between Queen and Gerrard Streets.

[PASSED JUNE 16, 1873.]

**W**HEREAS the construction of a sewer on Seaton Street, between Queen and Gerrard Streets, was authorized by By-law number five hundred and sixty-seven ;

And whereas the conditions upon which such improvements can be made have been complied with by the owners of real estate in the said recited street ;

And whereas the sectional area of the sewer to be constructed on the said street will exceed four feet ; and it is enacted in the four hundred and sixty-fifth section of the thirty-sixth Victoria, chapter forty-eight, that in such case one-third of the cost thereof shall first be provided for by the Council of this City, by By-law for borrowing money ;

36 V. c. 48 (Ont.),  
s. 465.

No. 585.  
Issue of \$4,352  
City Debentures.

And whereas the one-third cost of said sewer, including culverts, &c., is estimated at four thousand one hundred and forty-five dollars ;

And whereas it is desirable to raise by loan, on the credit of the Municipality, the said sum of four thousand one hundred and forty-five dollars, with interest at the rate of six per centum per annum, to be applied to the payment of one-third of the cost of said sewer ;

And whereas, to provide for the discount in the sale of debentures to be issued for such purpose, it will require the sum of two hundred and seven dollars, in addition to the said sum of four thousand one hundred and forty-five dollars, which it is also expedient to raise by way of loan ;

And whereas, the amount of the whole rateable property of the City of Toronto, according to the assessment returns for the same for the year one thousand eight hundred and seventy-two, was thirty-two million six thousand dollars ;

And whereas, the annual rate on the dollar upon such rateable property, required as a special rate for the payment of the interest, and the forming of a sinking fund of five per centum per annum for the payment of the said loan of four thousand three hundred and fifty-two dollars, in twenty years, according to the provisions of the above recited Act, is the one sixty-eighth part of a mill on the dollar ;

Therefore, the Corporation of the City of Toronto, by the Council thereof, enacts as follows :

under Act 28  
Vic., cap. 47.

A By-law for the Appropriation of the moneys due to the City of Toronto under the Act thirty-sixth Victoria, chapter forty-seven.

[PASSED APRIL 27, 1874.]

**W**HEREAS by an Act of the Legislature of the Province of Ontario, passed in the thirty-sixth year of Her Majesty's reign, and chaptered forty-seven, together with the Schedule C thereto, the sum of one hundred and sixty-seven thousand seven hundred and sixty-four dollars, with interest from the first day of February, one thousand eight hundred and seventy-four, has become payable to the City of Toronto;

28 V. c. 47.  
Sch. C.

And whereas, it is provided by the said Act that the said moneys shall be appropriated, by By-law of the said City, in aid of certain permanent improvements affecting the said municipality, among which are particularly specified in the said Act the building or improving of gravel roads, and the drainage of the municipality;

And whereas, it is expedient that the said money so due to the City of Toronto as aforesaid should be appropriated wholly to the said purposes of drainage and the building and improvement of gravel roads, as more fully set forth in the seventh Report of the Board of Works of the said Corporation of the City of Toronto, for the year one thousand eight hundred and seventy-four;

Therefore the Council of the Corporation of the City of Toronto enacts as follows:

1. The moneys received by the Corporation of the City of Toronto under and by virtue of the Act of thirty-sixth Victoria, chapter forty-seven, of Ontario, shall

Moneys received under Act 28, Vic., cap. 47, to be applied in the construction of sewers and gravel roads.

be appropriated and applied towards the construction of sewers and the making and improvement of gravel roads within the said City, as more particularly set forth in the seventh Report of the Board of Works of the said City for the year one thousand eight hundred and seventy-four. By-law 630, s. 1.

### No. 632.

[PASSED MAY 11, 1874.]

35 V. c. 79.

WHEREAS by an Act of the Legislature of the Province of Ontario, passed in the thirty-fifth year of Her Majesty's reign, and chaptered seventy-six, entitled "An Act to consolidate the Debenture Debt of the City of Toronto," it is amongst other things enacted, that the Corporation of the City of Toronto may pass a By-law or By-laws, for authorizing the issue of debentures of the said City, for a sum not exceeding in the whole the sum of two million five hundred and fifty-two thousand one hundred and sixty-six dollars and eleven cents, to redeem certain debentures therein specified, and amounting to the said sum of two million five hundred and fifty-two thousand one hundred and sixty-six dollars and eleven cents;

And whereas, it is necessary to provide for the redemption of certain debentures, described in the said Act, as falling due, during the year of our Lord one thousand eight hundred and seventy-four, and amounting to the sum of twenty thousand two hundred dollars;

And whereas, it will require the sum of one thousand two hundred and twelve dollars to be raised annually by special rate for the payment of the interest on the said debentures ;

No. 632.  
To redeem cer-  
tain Debentures.

And whereas, the amount of the whole rateable property of the said Municipality of Toronto, irrespective of any future increase of the same, and also irrespective of any increase to be derived from the temporary investment of the sinking fund hereinafter mentioned, according to the last revised assessment rolls of the Municipality, being for the year one thousand eight hundred and seventy-three, is forty-four millions seven hundred and sixty-four thousand eight hundred and eighty-two dollars ;

And whereas, the annual rate in the dollar, upon such rateable property required as a special rate, for the payment of the interest, and the forming of a sinking fund of one per centum per annum for the payment of the principal of the said loan of twenty thousand two hundred dollars in twenty years, according to the provisions of the above recited Act is the one-thirtieth part of a mill on the dollar ;

Therefore, the Corporation of the City of Toronto, by the Council thereof, enacts as follows :

1. It shall and may be lawful for the Mayor of the City of Toronto, to raise by way of loan, at a rate of interest not exceeding six per centum per annum, from any person or persons, body corporate or politic, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned, and a special rate hereinafter imposed, the sum of twenty thousand two hundred dollars, and to cause the same to be paid into the hands of the Treasurer of the said City, to be by him applied from time to time, under the direction of the Council of the Corporation of the said City, in the redemption of the debentures issued by the said City, and respectively

Authority to the  
Mayor to borrow  
\$20,000 at six  
per cent. on

falling due, in the year of our Lord one thousand eight hundred and seventy-four, as enumerated in the recital of the said above recited Act. By-law 632, s. 1.

The manner in  
which the  
debentures are  
to be made out.

2. It shall and may be lawful for the Mayor of the said City of Toronto, to cause any number of debentures to be made out, for not less than one hundred dollars, Canadian currency, or twenty pounds sterling each, and amounting in the whole to the said sum of twenty thousand two hundred dollars, which debentures shall be under the seal of the said Corporation, and the hands of the Mayor and Treasurer thereof, and may be in the Form A in the Schedule to the said above recited Act. By-law 632, s. 2.
