Allied Advance Proceeds

The enemy has begun his retreat northward under heavy pressure from all sides, French, Americans and British all participating in the thrust which is pushing the Germans back. Where the retreat will end cannot be conjectured, as everything now depends on the will of the allied commander-in-chief.

The German position in the vicinity of Chateau Thierry was doomed from the moment their divisions recrossed the Marne. Franco-American troops carried out an encircling movement from the northwest at the same time, which made it absolutely necessary for the enemy to withdraw. In the course of the night reconnaissances were effected by the French to test the strength of the Germans still in the city, and shortly after dawn the allied reoccupation became an accomplished fact.

From heights overlooking the Marne the correspondent observed the scene of the battle thruout yesterday until after nightfall. It was evident that the Germans were contemplating a further retreat after their defeat at the hands of the French, American, British and Italian divisions,

> Even when they reach the northern side of the river the Germans had no peace. Shells fell upon and around their columns as they tried to reach the shelter of the valleys beyond. Their chances of obtaining supplies of ammunition and food were meagre, for the French and American guns poured projectiles over the crests into the ravines and along the roads eading to the river.

Meanwhile there was some indication that the Germans were removing their big guns from the northern side, for their reply to the allied bombardment was very weak, altho at some points heavy shells fell with

During all this time the allied troops operating along the western flank of the German salient continued to progress, making the positions of the Germans precarious.

Aviators reported German troops concentrating in the hollows, evident y in preparation for a fresh move to the rear in order to escape the danger of being cut off. The airmen carried out their task under extreme difficulties. The wind was blowing a hurricane; yet they flew and did wonderful work, reporting frequently to the allied commanders, who could thus train the artillery on places where the Germans were massing,

Referring to the fighting east of Chateau Thierry, along the Marne, the endeavored to stay their progress. correspondent says that eight German divisions which had reached the south bank of the river were able to cross the hills which overlook the Marne, but none who lived to recross will forget the terrible days they spent south of the stream. The ground they held was overlooked everywhere by the French and American artillery between the river and the hills, they offered a sure target for the allied ar-

They were unable to bring any ar-tillery across with the exception of mountain guns and light mine throw-ers. The casualties of some units

mounted to 60 per cent.
According to the correspondent, the British participated in the battle for the first time yesterday. They enter-ed the line in the sectors between Rheims and the Marne, in the region of the Ardre River, where Italian troops had been fighting heavily for some days. The British took their positions during the night, and at-tacked immediately, and with complete success, advancing over a mile.

Paris, July 21.-Important gains by the French, American, Italian and British troops in the territory comprising the Soissons-Rheims salient are reported in the official communication issued by the war office tonight. The heights east of La Croix and Grisolles have been taken; a considerable section north of Chateau Thierry has been cleared of the Germans, and St. Euphraise and Bouilly, southwest of Rheims, have been captured. The text of the statement reads:

"The battle continues under favorable conditions along the whole front, between the Marne and Aisne. North of the Ource, driving back the enemy, we have progressed, fighting, in the region north of Villemontoire, and on the south have advanced to the east of the general line of Tigny-Billy-sur-Ouroq.

"South of the Ourcq we made an important advance beyond Neuilly-St. Front, occupying the heights east of La Croix and Grisolles.

"Under the double pressure of the Franco-American forces between the Ource and the Marne, and the French units who crossed the river between Fossoy and Charteves, the Germans were driven back beyond the line of Bezou-St. Germain and Mont St. Pete. "Chateau Thierry is widely free to the north,

CONTINUE ADVANCE OVER 60 MILE FRONT

Allied Troops Are Progressing With Irresistible Determination and Germans Steadily Giving Ground.

Victories for the allied arms in France continue to multiply. Over the entire sixty miles of front, running from Soissons to Rheims, the allied troops are fighting with a determination that brooks no denial of their efforts. And the Germans steadily are giving ground, the stubborn resist-

ance is being offered on some sectors. Further goodly sized indentations have been made in the German line between Soissons and Chateau Thierry by the French and American troops, and almost all the gains made by the Germans in their recent drive south of the Marne and toward the vicinity of Rheims have been blotted out under the counter-attacks of the Americans, French, British and Italians,

Chateau Thierry, which represents the points in the battle line where the Germans had driven their wedge nearest to Paris, has been recaptured by the French troops, and almost simultaneously the Village of Brasles, two miles eastward, and the heights to the north of the village fell into their hands.

Acting in harmony with the movement on Chateau Thierry, American and French troops northwest of the city struck the Germans another hard blow, broke thru the German lines and drove thru at some points more than three miles. Large numbers of prisoners were taken and the machine guns of the allied troops literally mowed down the Germans who

To the north along the Ourcq Valley the French are making good progress toward the important junction town of Nanteuil-Notre Dame. while the operations south and southeast of Soissons are keeping time with those along the other parts of the front.

The entire southern bank of the Marne having been cleared of enemy forces, French, British and Italian troops are now harassing those southwest of Rheims, and they have been forced to fall back in the Courton Wood, the Ardre Valley and near St. Euphraise, notwithstanding their observers. Enclosed in a narrow space desperate resistance. The number of British operating with the allied forces in this region is not known. The first announcement that they were in the action was made Saturday night, and doubtless they represent a portion of the great reserves that everywhere are being brought up along the battle line in an endeavor to make secure the victories already won and enlarge them.

With the capture of Chateau Thierry and the fast progress of the French and Americans eastward from the northern sectors, the plight of the Germans in the southwestern portion of the Soissons-Rheims salient becomes increasingly hazardous, and it is not improbable that when stock is finally taken large numbers of prisoners and quantities of guns and war stores will be found to have been taken by the allied troops. Aviators continue to lend assistance to the troops of General Foch, scouting the back areas and harassing the retreating Germans with their machine guas. Notable work has been done by American Indians for General Pershing's men, the aborigines taking a prominent part, in characteristic western fashion, in scouting in the Marne region.

Cruiser Disappeared Fifteen Minutes After First Explosion Took Place.

New York, July 21. - Between 30 the Marne as an event of capital importance, opening up the finest military perspective. The Munich Neuste Nachrichten believed the crossing of the Marne was the surest means of capturing Rheims, while The Strassburg Post affirmed that the German success in crossing the river was a complete and definite victory.

Similar comments from other newspapers are quoted, ending with a statement by the military critic of The Frankfort Gazette, printed on Friday, in which he said: "We foresee no French counter-offensive, as the French high command has its hands tied." and 40 men lose their lives when the United States cruiser San Diego was sunk ten miles off Fire Island Friday, according to semi-official estimates made here.

Survivors Landed. Thirty-one sailors, who were landed at Point o' Woods on Long Island Friday said that a torpedo had struck the warship amidships, following which two other explosions occurred. Other survivors, among the 300 who arrived at this port on a tanker Friday night were reported to have said that either a coast defence mine or an internal explosion caused the disaster. Other steamships, with survivors aboard were expected to arrive at New York

r other nearby ports during the day. Within a few seconds after the first explosion the cruiser, according to the sailors, opened fire with several guns at objects which were taken for periscopes. The cruiser sank rapidly and disappeared fifteen minutes after the first explosion. It went down so rapidly, according to survivors, that hundreds of the crew did not have time to get to the boats and were forced to plunge over the rail into the water, where they clung to improvised rafts until picked up by lifeboats. All agreed that the discipline on board the war-ship was magnificent.

Colors Saved. A jackie climbed the mast and rescued the cruiser's colors. The carefully preserved, was brought ashore in one of the small boats at Point o' Woods. Immediately after the accident grea

TWENTY THOUSAND MEN TAKEN IN BIG DRIVE

Paris, July 21.—This is Chateau Thierry day in Paris. It is the cheery word of specting on the boulevards; one hears it shouted above the roar and rattling of the subway trains.

Paris, skeptical after many months of stubborn and bitter defensive and negative victories, received the news of the opening of the allied drive with subdued enthusiasm, fearing disappointment, which had so often followed in the wake of former offensives. The moderate terms in which the official communications are couched help to maintain the city in a state of calm expectancy.

When, however, the communique containg latest advices mentioned 20,000 prisoners and 400 guns, and, above all, the recapture of Chateau Thierry, Paris, heaving a sigh of relief, decided that the time had come to begin to celebrate.

EATON'S DAILY STORE NEWS

To Call Your Attention---

To the Fourth Series of July Sales Starting Today

Many bargains are scheduled for this week--there's to be "Something Different Every Day"--especially as this week is stocktaking week too, when many bargains in balances of lines of goods are offered at unusual prices to clear. Watch daily announcements. Watch for the Blue and White Sales Cards. Watch for the Blue "Not Advertised" cards on small lots. Come early and come often.

An interesting feature to men of this week's bargains is that the Men's Wear Department swings into the July Sale with four big feature sale offerings; while the Men's Suit and Hat Departments add further to the interest with their before stock-taking exceptional valuations. A careful perusal of this page will give you some idea of the bargains that may be had at "The Big Store" this week.

NAVY BOYS LEAVE ON FIRST CRUISE

Schooner-Rigged Yacht Departs From Toronto With Fifty-Two Lads Aboard.

Favored by the best of weather, with perhaps too light a wind, the schoon-er-rigged yacht "Wave Crest," left the York street dock Saturday after-noon with 52 boys of the Boys' Naval Brigade, on the first of a series of two-week trips around the Ontario coast. A large gathering of sight-seers waved good-bye to the boys as the boat left the wharf, and the former owner of the yacht, F. H. Wehrley, wished them godspeed. Among those who watched the departure of the navy lads to ports unknown were the rigged craft.

The object of the cruise is to give the boys training in the rudiments of naval routine, and will occupy two weeks. Among the guests is Com-modore A. D. Ellis, a veteran yachtsman, who is a member of the exe-cutive of the Navy League. The skip-per, Captain Redfern, is a veteran lake captain, and among the best known men in the lakes service. The ship will fly the only royal ensign permis-sable on the great lakes, having royal sanction to do so. On Wednesday, July 24, Sir Edmund Walker will have completed fifty years of service with the Canadian Bank of Commerce. In 1868 he began his career as a junior clerk in the Hamilton branch, and a few years later his natural aptitude gained for him promotion to the agency of the bank in New York City. In 1886 he became general manager, and in 1907 was appointed president, which posi-

only give the reader a very slight idea of its beauty. On the face of the \$5 note the main feature is a group in the centre consisting of Mercury holding the Caducous, supported on the left by a goddess representing Architecture, and on the right by another goddess representing Invention and holding in her hands the model of a flying machine. The note is surrounded by a frame of immortelles, fruits and vines. The backs of all the notes of the series consist of a central group of Microury and Cercs holding the Britist Crown over the seal of the bank, the whole included in a frame of immortelles and other symbolic objects.

In private life Sir Edmund has devoted much of his leisure time to his son, Pte. W. G. Robins, who left music and painting, and the designs gestions.

For some years the bank has been desirous of having an issue of notes that would be distinctive, and it was thought best to use symbolic designs summoned to attend a special meeting. that would be distinctive, and it was thought best to use symbolic designs rather than the portraits of the bank's officers and illustrations of buildings, which has been so customary in other issues. Much time and labor has been spent on the designs, which are indeed beautiful. In fact, over a year was spent in an effort to secure an artist who, it was felt, could properly work out the ideas. So far only the \$5 and \$10 notes have been completed, and these will be issued to the public on July 24. The \$20, \$50 and \$100 notes will appear gradually during the next two or three years.

The Toronto men will report at the Toronto offices of the police tomorrow-and the Hamilton men at Hamilton today. Included in the total of 14 are one or two men taken off the boats docking at Hamilton from To-

The search for defaulters among th arrangements were such as to do away with any blocking of the traffic, two places being provided for the cars to run into while the examinations proceeded for military papers. Due to the thoughtfulness of the police, they had on hand bonds already made out for the defaulters to sign, thus making it a "raid de luxe."

MRS. STANLEY LYTLE.

Mrs. Stanley Lytle, 125 Seaton street, formerly of Pickering, who has been in falling health for some time, died suddenly yesterday morning. She is survived by her husband, three daughters and four sons. James, the eldest is overseas. The death will be a great shock to her large circle of friends, of whom she had many. The funeral takes place on Tuesday at Highland Creek, leaving Toronto at 7 a.m. by motor.

JAMES ST. CLAIR FANNING.

James St. Clair Fanning died at his home, 290 Victoria street, Saturday. He was born at Kincardine, and came Toronto 30 years ago, opening a blacksmith shop on Lombard street. He is survived by his wife, Charlotte, and one son, and one daughter, William St. Clair Fanning, and Mrs. M. Woolford, both of Chicago. He also had five grandchildren and seven great grandchildren.

In Age

Health and comfort in old age depends largely on keeping the liver and kidneys in healthful action.

Pains and aches, stiffness of the joints, lumbago and rheumatism tell of poisons left in the blood by sluggishness of the liver and kidneys.

People in advanced years hold Dr. Chase's Kidney-Liver Pills in high esteem because of the promptness and certainty with which they awaken the action of kidneys, liver and bowels.

Papers.

Once again the motorists on the Toronto-Hamilton highway were subjects of a search for military papers, the scene of the activities of the civil branch of the military police being at the Hamilton end of the road, near Clarkson, yesterday afternoon.

From noon to night, the operations of the police were carried on, during that time a total of 200 motor cars being stopped and 400 men asked for their papers. As a result, 14 men were under suspicious circumstances and who is her relative. Many thrilling scenes are depicted and finally the papers are found with the aid of the young American with the usually happy ending. Wallace Reid is seen to excellent advantage as Devereux Bayne, the American, while Ann Lixtle is charming as the girl, and both are supported by an all-star cast. An interesting series of Burton Holmes travel pictures is also in-

This comedy, when it was presented in New York, was so well received it enjoyed a run of nearly one year. Thos. A. Wise will naturally be seen in his original part, just as he played it in New York, and will demonstrate to all married men just how easy it is to fool the men just how easy it is to fool the good wife and thereby earn a holiday lasting 30 days. The matinees will be as usual on Wednesday and Saturday.

Shea's Hippodrome.

Mary MacLaren, who has won well deserved popularity with the patrons of motion pictures, will appear this week at Shea's Hippodrome in a new production, "The Model's Confession." The story revolves about a beautiful cloak model, whose father, a prominent society man, re fuses to see or recognize the girl. The vaudeville attractions embrace Stoddart and Hynes, presenting "The Absent-Minded Professor," a musical novelty; Lea and Bennett, in a delightful comedy playlet; Fred La-Reine and his electrical wonders, a cyclone of fun; Laviva, a gymnastic novelty; O'Day and Conwell, black face funsiers, and Amanda Gray, the prima donna comedienne. The Pathe News pictures and several comedy

films will also be shown.

There was a good turnout of the villagers, and a fair sprinkling of farmers, with the products of the field and garden, but there were not many city folk.

Following the great success attending the opening last fall the executive had erected a market building close to the Grand Trunk depot on the athletic field in the southern part of the town at considerable expense, and arranged tables and booths where trading could be carried on in comparative comfort. News From The Sunday World

The War.

The Germans have been defeated on the front south of the Marne, and are retreating northward across the river. The French on Saturday occupied the heights southwest of Soissons, but the city itself was still in the possession of the Germans.

It was expected on Saturday that the Germans had begun a vetreat somewhat similar to that of the Austrians when they were forced back across the Plave by the Italians.

On the Flanders front the British had advanced their front, capturing the important Village of Meteren, and a group of buildings called Le Waten, taking over 400 prisoners. ItaMan troops recaptured Monte Stabel, and wrested Cornodi Cabento from the Austrians in the Adenello region on the mountain front.

In Siberia, General Semenoff commander of the anti-Bolshevik forces, was reported on Saturday to have inflicted a heavy blow to the Bolsheviki, capturing large quantities of ammuni-tion and stores.

Further action was taken on Saturday by the Canada Food Board to curtail the use of sugar in this

If the whole \$2,000,000 is borrowed, the sum to be teaches its children geography, beginhouse costing \$2,500 does not appear to be the type of house that is in outside its own columns? to be the type of house that is in view even in Toronto for artisan endeavoring to show that Dr. Hast-

fore the war, and where the garden village has been evolved as one of the answers. He looks forward thirty years to a time when the rural population shall have increased from 9,-000,000 to 18,000,000, and the towns, clean and large, will be garden-surrounded, and in the allotments the leisure hours of the workers will be spent. Co-operative holdings, decent cottages, good gardens, well-built And everybody will work.

At present farms are letting all over Britain, Labor being the only drawback and housing the real difficulty. The government has promised help thru the local government board. but private interests are not reconciled to what seems to them a menace to building enterprises.

The chief difficulty here is that Labor objects to being patronized, and while things may be done for it that seem all right to the benevolent capitalist and reformer, they would be more satisfactorily done if Labor were directly consulted, or enabled to co-operate in planning and carrying out proposed reforms. If the provincial government would adopt proportional representation, or eyen the alternate vote, a whole mass of difficuleral election.

Germans are of a different order of people from the Goethes and Schillers, the Kants and Hegels, the Haydns and Mozarts, the Beethovens and Wagners, is well known to students, and it is this difference that has led to the confusion over the German tongue and the use of German music. If we cut out German philosophy and German music we would leave a gap in our intellectual and artistic life not easy to fill. And we do ourselves rather than the modern Germans harm by excluding the work of past generations of Germans (none of them Prussians) from

our curricula. They are taking troader views in England, where the Beecham Opera Company has been giving magnificent performances of "The Valkyrie" and "Tannhauser" and "The Magic Flute" in London, Birmingham and Manchester. Nor is it to be forgo:ten that the Germans are at present paying ore attention to Shakspere than any section of the British public at home or abroad. Art belongs to a different order of being from that which burns libraries and destroys cathedrals. And moreover art is democratic and universal.

Labor's New Policy.

It seems a pity that The Industrial Banner, which is the only newspaper an official way in Toronto, should not than hers." strive to be absolutely fair and just in its statements. It would be easy of course for it to use the tu quoque argument, and to say that labor is not treated fairly by the capitalistic organs, but surely this is not regarded by intelligent labor men as a reason for being unfair in turn. It makes it more difficult also to plead the labor cause, when quotations can be made from the labor organ which between reconnoiting detachments.

Advancing Allied Forces Pass Great Heaps of Dead.

With the American Army on the Aisne-Marne Front, July 21. - Germany has already paid a terrible price in the fighting that is going between Soissons and Chateau Thierry. The advancing allied forces have passed great piles of dead and many wounded. These sufferers are cared for expeditiously and well and the allied forces are displaying a fine

the allied forces are displaying a fine spirit of co-operation.

Among chose captured were a German colonel and his staff. They had taken refuge in a quarry and refused to obey a summons to come out. After efforts to induce them to surrender appeared to be wasted, hand-grenades were dropped down a chimney leading into the quarry. Those unhurt, including the colonel, quickly emerged.

In the long lines of prisoners along the roads there are many expressing bewilderment. But here and there some of them smile when they happily respond to the query: "Going to Paris?"

Until late today there was little effor: to bring pressure a to bear

Until late today there was little effor: to bring pressure to bear against other parts of the enemy line. Allied officers are more than pleased with the successes already attained. Full credit is given the plan of General Foch, which already has netted magnificent results, and which promises to convert the ambi-

tious plans of the Germans into a flasco.

The number of prisoners taken is being increased and from these men it is ascertained that the demoralization of the German army is greater than was suspected. Those taken by one unit alone respresent seven divisions. One lot of 56 captives contained men belonging to five different divisions. This fact and the stories of the prisoners indicate that the Germans have lost much in organization.

RAILWAY TROOPS.

The crimes which Germany had committed against Belgium could never be blotted out or forgotten, Mr. Falfour declared. If Germany we're to repent tomorrow, the crimes she had committed against Belgium could never be wiped out. There were such things as human conscience and human memory, and when this war was over, and Belgium took her place among the free and independent nations of the world, it would be vain for the Germans to apologize for what they had done. The deeds of Germany in Belgium had been burnt into the conscience of mankind, and nothing would ever efface them. Mr. Balfour continued:

C. & M. Leaders Win Their Games By Scoring Less Than Hundred Runs.

Torkshire C.C. won in the C. & M. Lague match against St. Cyprians on Saturday at Trinity by a score of 94 to 59. Dyson and Greenwood opened the batting for the home team, the attack being entrusted to Forestall and Bloom. With the score at 19 Dyson skied a ball of Bloom's and it was secured by Forestall at mid-off. Child succeeded him and with 10 runs added Forestall found Greenwood's off stump. Child was caught at point off Bloom, and Maroney was run out by a bit of sharp fielding and quick return by Mundy. Four wickets for 34 did not look very encouraging for the home team, but the partnership of Marsden and Murray altered the complexion of affairs, the former playing his usual forcing game after making 13 in good style. Murray landed on a ball from Allshire, who went on in place of Forestall and gave to Ted Davis the opportunity of making a grand catch in the long field. Neither Pickard nor Bland helped the score, the seventh wicket being down for 73. Tucker joined Marsden, who continued to accore, and having hit three fours off Bloom in one over brought on Headley, who, failing to separate the batsman, and the score being 90, put on Forestall. The change worked, a shocter to the off stump beating the batsman, who by free hitting, had run up an innings of 39, altho an early catch at the wicket was not recognized by the umpire. E. Davis, bowling at 93, clean bowled Buckingham's stump with his third ball, and in Forestall's prext over a smart catch at slip by Banting disposed of Tucker, who had played carefully for 3, the innings closing for 94.

Forestall secured 3 wickets for 24, Bloom 4 for 43, Allshire 1 for 8, and E. Davis 1 for 1. Forestall and Mundy opened for the Saints to the bowling of Murray and Marsden had given up the bowling to Bland and Dyson. In Dyson's first over both batsmen were caught and the fatal 23 proved a veritable skidoo number to St. Cyps. Banting, Adgey and Bloom all retired without runs, being bowled in one over by Bland, 6 wickets for 23. Then Allshire, who went in 37d wicket dow

The energy, resourcefulness and ingenuity displayed by the women of Peel County in the conception and carrying out of their fete in aid of the navy league, which took place on Saturday afternoon in the beautiful grounds of Mr. and Mrs. A. M. Hobberlin's at Port Credit, is beyond mere praise. Colonel Cecil Williams, Mr. S. Charters (Brampton), and Mr. Aemilius Jarvis made spirited speeches, which were given their meed of attention, but it was the midway attractions which captivated the larger number of those present, and their money was so cleverly charmed from their pockets that the funds of the league will, no doubt, benefit to a very large extent. ERMAN INTRIGUE IN THE UNITED STATES

Why Sam McClure Was Chased Out of England--A Hundred Millions of German Bonds Sold to American Germans as a Press and Magazine Reptile Fund--How the Name of Mrs. Busch of St. Louis Comes Into the Story--Charges of Treason May Follow.

No one here in Canada can imagine the furore that the exposure of intrigue e German Government and its ambassador, Von Bernstorff (the kaiser inded) to bedevil the newspaper and magazine press of the United States, has States Government. Dr. Rumely is under the united in that country. Sam McClure, the head of the magazine with his name on it, is out that since the United States entered the war the editorials of The Mail have distely sent back to the States. He is the man who advertised himself as the discoverer of Rudyard Kipling. Mrs. Busch, wife of the wealthy brewer of St. Louis, is also involved.

Special agents of the United States Government have been at work for on the case and we are now able to print a lot of the information on ich Dr. Rumely's arrest was based. He is soon to be tried and it will be one of the great state trials of the United States. Other trials are to be put on all ever the States to show the magnitude of German intrigue in that country, and have resulted in serious comp now firm after firm, doing business there, were German agents trading under false pretences. How the money for the purchase of The Mail was transferred from bank to bank, and from one man to another in the Rumely case, is a story of itself. Canadians will be more than interested in it. Some say we may find out why the Sovereign Bank in Canada got half of its share capital from Germany; also how other things were done here.

Berlin Avoids Particulars, But Says Their Lines Are Penetrated.

Amsterdam, July 21.-A semi-official telegram received here from Berlin. while admitting that "the enemy has succeeded in penetrating into and pressing back our lines at some points," avoid's particulars of the allied success. The telegram calls the Franco-American offensive "a relief offensive, brought about by the German offensive on both sides of Rheims."

"The attack was carried out by very strong and deeply-echeloned forces, supported by low-flying airplanes and numerous tank squadrons. Before some sectors between the Aisne and northeast of Chateau Thierry, some 30 tanks were counted in the first attack."

Lieutenant-General Baron you Araban comments in March 1988. denne, commenting in The Tageblatt on the German offensive, says: "We clearly are only at the begin of probably the greatest battle in the entire history of the world. Most se-vere fighting still lies ahead. It would be presumptuous and in bad taste to talk already about the fresh destruc-tion of enemy fighting forces.

United States Steel rose the better part of a point at one time, but surrendered all its advantage at the end. Other steels were equally irregular, and coppers, motors and oils were only occasionally quoted.

Rails were again ignored, except for the moderate strength and activity of such widely divergent issues as New Haven and Atlantic Coast Line, and Pacific Mail was the only member of the shipping group to display any animation at an advance of 1½ points.

The news was of the customary week-end character, including the more conservative reviews of the mercantile agencies which stressed the dominance of "war business."

Noteworthy changes in the bank statement included a decrease of \$178,-000,000 in actual loans and discounts, which offset by almost three-fold the preceding week's increase and a further expansion of \$18,000,000 in actual reserves. Bonds were steady on a minimum of operations, total sales, par value, aggregating \$1,735,000.

U. S. bonds, old issues, were unchanged on call for the week.

FRESH ADVANCE BY LAKE SHORE

Stock Reacts After Four-Point Gain — General Tone is Firm.

Lake Shore continued to be the outstanding feature of the mining market on Saturday, recording another advance to 75, four points above the previous high level attained on Friday, but some profit-taking was encountered, and the stock reacted to 72 at the close. The "street" is confident that the directors will declare a dividend when they meet on Tuesday next. In general, the tone of the market was firm, and good buying of McIntyre at 1.31, and of Hollinger at 4.70, five points higher, showed a more confident feeling. The action of McIntyre is being closely watched, as this stock, widely distributed and with a large public forlowing, is counted upon to assume the leadership of the market when the training point is definitely reached. ting point is definitely reached.
The was not traded in, but the bid 13-16d. was at 8.00, and it is remarked that the stock is holding a larger portion of its recent rise than past action of the stock had given reason to expect. New-

SELLING IS HEAVY IN CORN MARKET

War News, Perfect Weather and Large Receipts Break Prices Further.

Chicago, July 20.-Drastic liquidation sent the corn market down again tion sent the corn market down again today, until prices were off about 15c a bushel, compared with the high point before the Franco-American counter-offensive began. The close was nervous, 1 to 21-8 under yesterday's finish, with August 1505-8 to 1507-8, and September 1 to 13-8 off at 1517-8 to 152. Oats lost 3-8 to 7-8 net. In provisions, the outcome ranged from 2c decline to 15c advance.

vance.

Bearish sentiment due to war news received further impetus from the perfect weather prevailing thruout the corn beit, and also from continued liberal arrivals at primary centres. The aggregate primary receipts for the week were the largest in years at this season. Besides, country offerings were generous in quality, and with transportation facilities at the zenith of efficiency, the trade was inclined to look for at least a temporary persistence of heavy receipts. Under such conditions, covering by shorts was the only rallying factor, and had but little lasting influence.

Oats declined with corn, but the selling was of only a scattered character. Pessimistic Canadian crop news operated as a restraint. Strength in the hog market gave some firmness to provisions. Ad-vances, however, were checked by the action of grain.

MEASURES TO PREVENT LIVE STOCK DEPLETION

Manitoba Government to Buy Young Female Breeding Cattle.

Winnipeg, July 20,—At a full meeting of the cabinet last evening it was decided that the Manitoba government would undertake to purchase the bulk of the choice young female breeding cattle coming on the Winnipeg market in order to prevent the west from being unduly depleted of foundation stock owing to shortage of feed. Roughly, the plan adopted by the government will be to purchase desirable young female stock coming desirable young female stock coming to the market and to resell to farmers in northern Manitoba who have a good source of feeding and in other a good source of feeding and in other cases to place the cattle with farmers who have feed, but are not in a position to buy, and have them fed at a price per head during the winter. It is estimated that shipments to the Winnipeg market will aggregate 300,000 head and that 33 per cent. of these will be female stock, of which from twenty to thirty thousand will be of the type which should be female stock. will be of the type which should be kept in the country.
