

DECORATES CAKE WITH TRADE MARK

Chinese Cook Makes Novel Pastry for London Missionaries in China.

(Taken From London Advertiser. Mrs. S. Percy Westaway (daughter of Mr. Wm. Moore of West London), who, with her husband, is now located at Chentu, Sz Chuan, West China, supported by the Dundas Centre Methodist Church, writes a descriptive letter of the event of the trade mark in her present home, and among the incidents related in her most interesting letter received this week is one that brings out the Chinese cook's idea of advertising in certain Canadian papers. This Chinaman evidently knew that the advertisement was a most characteristic and attractive one, and from the manner in which it is displayed, thought it was an advertisement of some consequence in this country. The advertisement of Dodd's Kidney Pills has been printed for years as a trade mark in almost every newspaper published, and has become well-known. The following is taken from the letter, and fully explains the circumstances: "Once in a while we find something to have a good laugh at. Let me tell you this incident. The West China Educational Union was holding meetings in the city; one session met in this house. We in Chentu follow the English custom and serve tea and cakes at 4 o'clock. Mrs. Carson was going to serve tea to the members and we wished to help. I was still in bed, so I told the cook to make a cake. Our cook is a pretty old fellow, about 30 or 35 years of age, and has worked 'for the foreigner' for a long time. He can make a good cake, and he is a doctor, and this day he made a layer cake, being it with white, with red trimmings. He delights to get a new recipe or find some new way of decoration. The London Advertiser, after we have finished with it, frequently finds its way to the kitchen, and as proof that the being steady at work, and the fact that about three o'clock Percy went into the kitchen to see how things were getting along. The cook, who had been decorated with red, and decorated with red, forming three rows across the cake, and this is what Percy saw and read.

DODD'S KIDNEY PILLS. "On the table beside the cake was that well-known advertisement—the circular box, with this inscription, 'He got fellow, had taken it for a well-made cake, and decorated it like it. They are splendid imitations, and clever in their way, every one of them. The cook knows considerable English, but when he tries it on us we pretend not to understand him.'"

ONTARIO CLUB OFFICERS

M. J. Haney is Elected President of New Liberal Organization. At the meeting of the executive of the Ontario Liberal Club, held last night, the following were elected officers: President, M. J. Haney; Vice-President, G. T. Somers; Secretary, G. T. Somers; Treasurer, J. H. Denton; C. Moser, J. F. Stewart, Leighton McGarthy, Lloyd Harris, M.P.; John Balnes, J. Walter Curry, T. S. Hobbs, Dr. McConnell and J. F. Eby were appointed permanent directors. The bylaws were passed and it was decided to apply for a license, but a no-treating clause was embodied in the bylaw. It is expected that the club will be ready for opening by the beginning of May. Between 400 and 500 members for membership have been received.

Was a Suicide Plot. VINCENT, Feb. 26.—Jessie Lee Overton Culbertson's life ended as it had been lived for years, in mystery. The police now believe that Mrs. Culbertson, a bride three months, killed herself, after so "staging" things as to make it appear she had been murdered by having acid forced down her throat.

Stops a Cough In One Night

The Story of Sufferers From Bronchitis, Asthma and Catarrh Proves the Value of Catarrh-ozone.

A cough may be Catarrh with a dry tickling in the throat, it may be accompanied by partial stoppage of the nostrils and shortage of breath. Often there is a gagging, hiccup, sneezing, and every cough ends in a gasp. Coughs have a hundred different causes; years may be due to any of the following: Asthma, Inflamed Throat, Enlarged Tonsils, Catarrh of the Stomach, Stomach Disorders, Pleurisy. The one remedy upon which physicians are relying to-day is Catarrh-ozone. It removes the cause of the cough, doesn't smother it, Catarrh-ozone is a soothing, healing, "direct cure" and cures the conditions that cause the cough. Catarrh-ozone is infinitely superior to cough medicines, tablets, sprays and emulsions, which for the most part are of no practical value except to ease the cough for the time being. Often liquid cough remedies contain opium, morphine and cocaine. With Catarrh-ozone you take no drugs, you employ Nature's way—just inhale Catarrh-ozone's soothing, healing vapor and relief and cure follow promptly. It's simply as easy as thinking how quickly a bad throat or catarrh can be cured with Catarrh-ozone. Its rich balsamic vapor is carried along with the breath to the innermost recesses of the lungs, bronchial tubes and chest, making it impossible for the germ of any disease to live. Thus soreness in the chest is at once alleviated—phlegm is loosened and ejected from the throat, old standing coughs are removed.

REMEMBER THIS, you breathe Catarrh-ozone and it will suppress Winter Ill. Large size, guaranteed, costs \$1.00, and lasts two months; smaller sizes, 50c and 25c. Beware of cheap imitations. Insist on "CATARRH-OZONE" only. Buy from the CATARRH-OZONE Co., Kingston, Ont.

NEW FEVER HOSPITAL DEMANDS OF COMMITTEE

Will Oppose Enlarging Present Building—Enquiry Into the Sale of Milk. HAMILTON, March 26.—(Special.)—The board of health decided this evening to do everything in its power to secure the erection of a fever hospital on a separate site, and to oppose to the last recommendation of the finance committee that \$1000 be spent in increasing the accommodation at the present fever building of the city hospital. William Farrar charged that children sent to the city hospital with scarlet fever contracted diphtheria, and he thought the doctors who wanted the fever hospital retained in connection with the city hospital were considering only their own convenience. He thought the board should take over the management of the fever hospital. If the council Monday evening adopts the recommendation of the finance committee, the board of health will hold a special session, and will take action to prevent the money being spent on the city hospital. Dr. Roberts, the medical health officer, said the infant mortality during the summer months was alarming, proof that the being steady at work, and the fact that about three o'clock Percy went into the kitchen to see how things were getting along. The cook, who had been decorated with red, and decorated with red, forming three rows across the cake, and this is what Percy saw and read.

COMING OF THE TAXICAB

Will Have Its Place at Big Musical Functions. It is at such a concert as that given in Massey Hall by the Toronto Symphony Orchestra that one commences to realize the number of elite and fashionable people which the City of Toronto contains. Few cities can boast of such a gathering of ultra-fashionable cultured, music loving people as the great auditorium housed on Thursday night in Massey Hall.

A WOMAN'S BACK WAS NOT MADE TO AGUE.

Thousands of Women Suffer Untold Misery Every Day With Aching Backs That Really Have No Business To Ache. Under ordinary conditions it ought to be strong and ready to bear the burdens of life. It is hard to do housework with an aching back. Backaches come from sick kidneys, and what a lot of trouble sick kidneys cause. But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Backache is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney troubles. Doan's Kidney Pills will cure you in the same way as they have cured thousands of others.

Music Lessons Free

IN YOUR OWN HOME. A wonderful offer to every lover of music, whether a beginner or an advanced player. Ninety-six lessons (or a less number, if you desire) for either Piano, Organ, Violin, Guitar, Banjo, Cornet, Sight Singing or Mandolin will be given free to make our home study courses for these instruments known in your locality. You will get one lesson weekly, and your only expense during the time you take the lessons will be the cost of postage and the music you use, which is small. Write at once. It will place you under no obligation whatever to us if you never purchase any of our lessons. We will know of this work. Hundreds of our pupils write, "With I had known of your course I would have learned long ago. One term in my home with your weekly lessons than in three terms with private teachers." "Everything is so thorough and complete." "The lessons are marvelous in simplicity, and my 11-year-old boy has had the least trouble to learn."

NEXT WEEK AT THE THEATRES

The always buoyant Miss Lulu Glaser will bring a new Viennese opera to the Princess Theatre on Monday next for a week's engagement. This new musical play, which has been voted the greatest success that Miss Glaser has enjoyed since the days of "Dolly Varden," is called "Mile Mischief," and the fun and comedy contained therein is said to live up to its engaging title. Its music, which is by Carl M. Scherer, one of the most popular of Austrian composers, is said to possess the triple rhythm that associates with the gay gardens where Strauss, Lehár and Zieheer built their first fame.

has captivated playgoers in all of the American cities she has visited this season, is to be seen in Toronto for the first and only time all the week beginning April 5, at the Princess Theatre, in F. Ziegfeld, jr.'s massive musical production, "The Soul Kiss," which is coming here with the New York stamp of approval, the piece having enjoyed a run in the New York Theatre of one whole season. It is in two acts and ten scenes, and is said to be the best of Mr. Ziegfeld's numerous successful efforts. During her stay here, Miss Genee will present four of her most popular divertissements, which are "The Soul Kiss" dance, Sir Roger de Coverly, the famous Hunt dance and the Money Ballet. She will be assisted by nine corymbes—or line dancers—whom she brought from England. In addition to Genee, the talent employed in presenting "The Soul Kiss" includes such distinguished entertainers as Ralph C. Herz, Barney Bernard, Vera Michelena, John B. Park, Stella Tracey, Lee Harrison, Mortimer Weldon, Freda Linyard, May Emery, Marie Sydney, Olive Marshall and a chorus of exquisite beauties.

At the Grand. Of Gus Edwards' new musical comedy "School Days" which will come to the Grand Opera House for one week, commencing next Monday afternoon, it is said that its charm lies in its bright lines, catchy songs, clever dances and the complete absence of anything approaching the vulgar.

For these reasons it has commended itself to theatre-goers of all ages wherever it has been presented. It is during its previous engagement the Company will have as its principal

At the Royal Alexandra. No actress who has come to Toronto in the last few years has aroused the interest and admiration of local playgoers as Bertha Kalich, and no interpretations of emotional character which have been seen here have equalled the vivid, appealing and convincing types enacted by this most unusual of dramatic artists.

Under Harrison Grey Fiske's direction, Madame Kalich will appear at the Royal Alexandra Theatre this coming week in her new play of American life and scene, "The Unbroken Road," a play that, in addition to presenting an idea new to the theatre, marks Madame Kalich's initial appearance in a medium depicting American life, and also her first opportunity of impersonating an American character.

No previous role of Madame Kalich's has made such exhaustive demands on her wonderful art of portraiture or owes so much of her prestige as that of Eva.

The play is vital in human interest, optimistic, dramatic in climax, uplifting in object and happy in ending. In the complications of contemporary politics and their influence on the characters and lives of both the politicians and persons drawn by circumstances within the play's arena, a struggle of a western state is generated, that of the good and the bad, and thru this clash of motives, interests and passions the drama develops. The central city of a western state is the scene of the play, and the governor of the state, two opposing political bosses, and Eva are the dominant characters. Because the governor befriends the erring Eva, he incurs the enmity of his party boss, but thru a sacrifice by Eva he regains his supremacy and Eva wins a future for herself and the love of a strong man.

Madame Kalich was never more ably supported, as in the names of Frederick Truesdell, Eugene Ormonde, Thomas L. Coleman, Riley Chamberlain, Florence Arnold and Blanche Weaver, who indicate. The week's matinee will be on Saturday.

The Famous Genee Coming. Adeline Genee, the celebrated dancer from the Empire Theatre, London, who

Sue and "Omaha." The "Eight Dancing Devils," a midsize pony ballet continues one of the features of "School Days."

At the Majestic. Already the interest manifested over the strong melodramatic appeal, "For Her Children's Sake," by Theodore Kreamer, to be seen at the Majestic next week has been sufficient to predict one of the biggest ovations ever seen at this theatre. The author has followed up his successful "The Fatal Wedding" with this new hit, and fairly bids to out-do its predecessor from every standpoint. This has been a

HERMAN TIMBERG as "Izzy Levit" in "School Days" at the Grand. pal members Herman Timberg, Janet Priest, Joe Keno, Agnes Lynn, Lilly Dean Hart, Ed. Gallie, Murray Benedict, Milford Berwick, Florence Benedict, Ethel Kelly, Laura Green and fifty others.

An added attraction for this engagement will be the "Eight Dancing Devils," the smallest pony ballet ever seen. The music of "School Days" it is said, has proven to be of that delightful order that has made the compositions of Gus Edwards the most successful of the day. To his play he has supplied an even score of airs, every one of the whistleable sort.

A few of those that have struck the popular fancy are "Mark Mack," "You're Just the Boy for Me," "You have me," "Little Tittle Tattle" and "Calendar of Love," Sunbonnet

berg's singing acts and has been styled an old idea unduly vocalized and twentieth centuryized. It is, as the name suggests, a review of the old and new footlight successes, arranged and presented in an original manner. Seven persons are seen and heard in the act, including Bob Allen, Emory Alton, Harry Irwin, Arlen Fredericks and others.

Clifford and Burke, in their burnt-cork make-up, are often taken for the real article, and their coon songs and wonderful dancing are always enjoyed. Kelly and Rose are favorites, both men have good voices and they have a repertoire of both old and new songs.

Mattie Lockette, a dainty little girl and lately appeared in the Buxton Brown Company in the character of Mary Jane. The Karrella Brothers have just closed a long engagement in New York with their marvelous bicycle act, and the kinetograph finishes the bill.

At the Star. Monday afternoon's performance will mark the first appearance here this season of the "Champagne Girls" Co., a jolly aggregation of comedy dispensers and musical purveyors who claim to have an entirely new line of up-to-date entertainment to offer. They will hold forth at the Star Theatre for week of March 29th. The management has been very careful in selecting its present season's company and in securing the very best that can be obtained in the way of topical interesting amusement.

"The Champagne Girls" is one of the sater day burlesque and extravaganza organizations and is not wedded to the ancient idea that an audience can only be provoked to laughter by the aid of horse play and mechanical props. The united efforts of Chas. Nichols, Chas. McAvoy, Armstrong Bros., Hon. A. E. Kearney, and others of an equal merit keep the comedy going at a fast and furious rate from start to finish. The opening and closing burlesques are, described as a merry musical mélange full of pretty girls and catchy

part on the program are new, bright, snappy and picturesque and the musical numbers and songs were written especially for the company. In the singing line the company approaches in effectiveness a light opera company for there are twelve men whose singing aids in making the musical numbers a highly attractive feature. Novel ensembles and massed stage pictures are introduced. "Whirl-I-Fun" is the name of a one-act review and travesty in which Maud Elliott, a sprightly and dainty comedienne; May Bryant, who possesses a splendid dramatic soprano voice; Virginia Roydon and George Cummings have leading parts. "The Pooloolah in Ireland" is the title of a second satire. Picturesque views of the Lakes of Killarney will be displayed. In the olio will be seen the Alrona-Zoeller trio—two men and a woman—in a comedy acrobatic act; Groves and Doyle have a clever comedy

"FLYER" IN COLLISION WITH FREIGHT ENGINE

Engineer Sticks to His Post and Passengers Subscribe \$100 as a Testimonial.

BOWMANVILLE, March 26.—(Special).—While running at a fair rate of speed the Montreal flyer of the Grand Trunk collided with an engine and a caboose on the front of a freight train at 6.30 this morning.

The only one injured was Fireman Arnold Johnston, who had his face badly cut by jumping from the engine of the flyer.

Had it not been for the nerve and pluck of the engineer, McKibbin, of the fast train, who stuck to his post and applied the brakes, many of the passengers might have been seriously injured.

Homeseekers Excursions to Western Canada.

Commencing April 6 and continuing every second Tuesday until Sept. 21, 1909, the Grand Trunk Railway System will issue second-class return tickets, good for sixty days, from all stations in Ontario to principal points in Manitoba, Saskatchewan and Alberta, via Chicago. Rates: Winnipeg and return, \$32.00; Edmonton and return, \$44.00. Proportionate rates to other points. Full information and tickets at City Office, northwest corner King and Yonge-streets. Says He Bought Stolen Goods.

Thomas Jenkins, the Yonge-street dealer in antiques, appeared in police court yesterday morning, charged with receiving stolen property. Goods stolen from the store of William Janor, West King-street, were located in the Jenkins store after he had denied receiving them. Norman McParlane is serving 30 days for the theft. He swore he had sold them to Jenkins for \$5. Jenkins was committed for trial.

difficult task, but Manager Travis, who admits of no obstacle as they present must have the public satisfied, and neither expense or pains have been spared. Carefully mounted by skilled experts and staged under the personal direction of the author, the outcome is assured to be the most complete melodramatic organization touring this season. The source from which the play takes its title is held in reserve, and something of interest is left to the imagination.

The story is too intricate and involved with the plot and counterplot to admit of description, and any attempt would be doing the author an injustice. The play must be seen to be appreciated.

At Shea's. There are no greater favorites with Sheagoers than Will M. Cressy and Blanche Dayne and for many seasons their audiences have cried a bit and laughed a lot with them over "The Village Lawyer," "Bill Biffin's Baby," "Town Hall To-night" and other of their one-act comedies. They have all been written by Will Cressy and he and Miss Dayne are justly famous for the creation of the Cressy characters. Next week at Shea's the clever pair will be seen in a new offering, "The Wyoming Whoop."

The title gives the name of the country newspaper. Cressy is the editor, and there is plenty of original fun in every line of the story. Special scenery will be used.

Billie Montgomery and Florence E. Moore call themselves real vaudevillians, which must stand for all that is clever and original, as they present an act that is unique and up-to-date and always a sure success. Miss Moore has a way decidedly her own and puts her songs over the footlights to her audiences in a charmingly refreshing manner. Mr. Montgomery, beside helping out at the piano, does a few stunts that are also original and make him a real partner in the act.

Those who saw Lovenberg's Tuscan Troubadours at Shea's Theatre last week will remember it as one of the best singing organizations of the season, a fact that promises much of La Petite Revue, which will be seen next week. This is another of Mr. Loven-

Boxing Ketchel Winner

Note and Comment

The curling incident at the Queen City Club last night winds up the game for the season in Toronto. While the weather was backward in the early part, the winter lingered sufficiently long for the clubs to settle up all their affairs, and taking it as a whole, the jolly brethren of the beam have just closed one of their best seasons on record.

Stanley Ketchel's victory over Jack O'Brien last night in New York makes the big western middleweight some opposition for Jack Johnson, and a man who must be reckoned with in the early part of the Philadelphia veteran put up a great bout, and apart from his wear and tear, the club made a clever showing, as his skill would warrant those who bet on him. The Philadelphia fight was seen in the newspapers, except, of course, the one which scores a knockout is always the winner.

Lutteur III, the French representative that won the Grand National yesterday at Liverpool, was the favorite on account of his brilliant performance in the champion steeplechase at Hurst Park. In this event he had such cracks against him as Lester, Mount Prospect's Fortune and Rustic Queen, all carrying 161 pounds. The course was 3 1/4 miles and as was to be expected, the French horse came right away and won by six lengths. He was ridden by the French jockey Parmentier.

In the Grand National yesterday Lutteur III carried 129 pounds, having several pounds the best of the weight of the horses he left behind him at Hurst Park. In connection with his jumping it was noticed that he "flow" his fences, and Lutteur III proved one of the horses who did not come to grief in the National.

A. Mitchell, secretary of the Toronto Draught Club, is authorized by Joseph Dixon, one of its members, to issue a challenge to play for the championship of Toronto and a stake of from \$10 to \$50 a side. The challenge is open to any one in the city who has won the recent match, is preferred. A deposit has been placed in the hands of the secretary as a guarantee of good faith. Printed rules to govern match.

And now comes the "Salome twist." The latest wrinkle in the bender line is said to be the creation of Billy Campbell, the southern twirler of the Cincinnati Reds. Campbell performs the curve last fall. He said nothing about it until the team went to Cuba. Then he surprised his team mates by springing it. The "Salome" is an underhand "spitter," delivered with the left hand.

Bunny Pearce, who caught Campbell when the latter introduced the "twist," says that it is the hardest ball to hit he ever saw.

"Talk about your Campbell's, they have all beaten a block," says Bunny. "It comes up to the plate in a business-like manner, so easy that the batter goes ready to knock it a dozen miles off. He swats away like a good fellow, but he generally hits where the ball isn't, for the Salome is a sort of Salome dance just before reaching the plate, and twists out of the reach of the bat so easily that the batter gasps."

Amateur Baseball.
The Central Amateur Baseball League held a very successful meeting on Thursday night at the Bay Tree Hotel for the purpose of organizing for the coming season. The following officers were elected: President, George Earl; vice-president, W. J. Morrison; secretary, F. C. Roberts; treasurer, Fred Roberts. Four teams were represented and the meeting did not close until a late hour. Any teams wishing to join this league are requested to make application to the secretary, F. C. Roberts, 25 Dundas-street, at once; also the league would like to receive applications from good umpires who are capable of filling such a position.

O'Brien Saved From Knock Out By the Bell in the Tenth Round

Heavyweights Put Up Great Battle Before National Club Members in New York.

14 or 15 Ends For Single Rinks 1909-10 Prizes

NEW YORK, National Athletic Club, March 26.—Not since the repeal of the Horton Law, which stopped the big fight bouts in this city, has such a fast and furious contest been seen in the squared circle as that tonight, in which Stanley Ketchel, the middle-weight champion, defeated Jack O'Brien of Philadelphia at the National Athletic Club. Many thought that O'Brien would do some stalling in this fight, but everyone who saw the fight was agreeably surprised, as it was a hot one from start to finish. In the final round O'Brien was knocked down three times and his last fall was practically a clean knockout, as the timely clang of the gong found the Philadelphia in a hopeless state. It was Ketchel's fight for the greater part of the way, and O'Brien has no excuse to make on the outcome.

O'Brien was first to enter the ring. He wore barrettes on both hands. One of his handlers was Anthony Drexel Biddle of Philadelphia. Willie Britt and other attendants were with Ketchel when he entered the ring. Tim Hurst lost no time in introducing the stage and explaining the rules governing the bout.

ROUND 1.—Ketchel landed a low left hook but O'Brien's objections were not considered by the referee. They clinched several times, Ketchel forcing O'Brien around the ring. Left hook raised a lump over Ketchel's eye.

ROUND 2.—O'Brien forced the milling, but Ketchel blocked cleverly. Then Ketchel started forcing the fight, but he was short on right and left swings. O'Brien sent left and right hooks to the jaw and was faster in hand and foot work. Ketchel landed a hard right swing on the eye and O'Brien hugged on for safety and was stony at the bell.

ROUND 3.—Ketchel rushed and forced O'Brien to the ropes. The Philadelphia was holding. O'Brien uppercut with right and left to the face, but there was no steam behind the blows.

ROUND 4.—Ketchel rushed O'Brien to the ropes with body blows and sent a left swing over O'Brien's right eye. O'Brien sent three surprisingly fast left hooks to the jaw, which Ketchel parried. He repeated this dose a moment later and Ketchel, who weakened from the effects, fought back like a demon. O'Brien's round, Ketchel is groggy.

ROUND 5.—They rushed to a clinch, coming with a rush. Ketchel landed a telling left hook to the jaw. O'Brien knocked his left eye to the face and Ketchel spurted blood from the nose. O'Brien out-generated his man in fast work and hooked a left to the jaw, which Ketchel parried. He then sent two lefts to the face, making Ketchel stony. O'Brien's round.

ROUND 6.—Up to this time Ketchel's famous left hand was not in evidence. They rushed again to a clinch and hammered each other at close quarters. Also Ketchel was the slower in his work in the ring. He certainly did his day after four years without a glove on is marvelous.

ROUND 7.—The fight promoter has seen him many times in the ring. He certainly has a good deal of speed. He is certainly fast as a schoolboy and he has not forgotten how to fight. He certainly handled the match when he signs with Johnson.

Capital Lacrosse Club Organize.
The Capital Lacrosse Club held their annual meeting last night. There was a large turnout of members and also a lot of new blood that are some slacks in the national game signified their intention of turning out with the Caps. Every body was present, which are very bright.

It is expected that the old camping-ground, Jesse Ketchum Park, will be utilized by the Capitals for the playing of Canada's national game.

Frank Taylor of the Taylor Cigar Co. generously offered trophies to the three players having the best record for practices thruout the season.

How Jeff Would Fight.
"If I ever fight Johnson I will make him work his head off from the opening bell," Jeffries is reported to have said after boxing three rounds with Sam Berger on Sunday. "If I do fight it will be right here in San Francisco, who Australia or other remote part of the world for me. I think I can get in shape in four months or so, but if I find it's out of the question I would rather coast a minute. Johnson I want to be in my old-time condition, and if I am well—Jeffries concluded with a significant snarl, carried truth or meaning.

"Jeff is a wonderful man," said Berger, after the bout. "I don't believe there was a better fighter in the world like him. For a man as big as he I never saw such speed. He needs to work off some of the fat, but that is all. He is a question being settled for good Friday morning, when a 2 1/2-mile team race will be held. When the five men to a team, the winning team to receive silver, while in addition to this two silver and one bronze medal will be given to the men finishing one, two, three. A record list of entries is expected for the election of officers was a warm contest, the following being elected: Hon. 1st vice-president—W. H. Scott; president—W. Anthony; vice-president, Fred Woodley; secretary, Clarence Smith; treasurer, Charles Smith; captain, Alf Sellers; assistant captain, Vic Pitroch; treasurer, Dick Baker.

Argonauts' Officers

ARGONAUTS' ANNUAL BOYD IS CAPTAIN

A. P. Burritt Elected President, While Robt. McKay is Hon. President—Officers.

The 36th annual meeting of the Argonauts' Rowing Club was held last night nearly 200 members, both old and new, being present, and, judging by the enthusiasm shown, the Argonauts will again be to the fore in aquatic sports.

The club had a prosperous season last year, although there was a deficit on the football season. The trip to Hanley was referred to, also the grand work of the second eight at the Canadian Henley, and although the club have lost several of their good men, including Longboat and Taylor, they have confidence enough in their juniors to ensure them that the cry of "Argonauts" at the different races will be loud and long.

A resolution was passed at the meeting, to be forwarded to the Canadian Government, to the effect that Canada should assist the mother country by the building of a Dreadnought.

The officers elected were as follows:
Hon. president—Robt. McKay.
President—A. P. Burritt.
First vice-president—Captain R. K. Barker.
Second vice-president—Joe Wright.
Hon. secretary—A. T. Snively.
Captain—Phil Boyd.
Vice-captain—N. B. Jackes.
Executive committee—H. M. Shapley, J. G. Bigley, S. F. Smith, C. K. Dodds, Hugh Hoyie, W. D. Grier, J. S. Dixon, W. Harris.

WRESTLING BOUT BY DEFAULT.
Rogers and Abdallah Each Had a Fall, Yankee Being Hurt After Last.

Hassan Abdallah won the wrestling bout at the Star Theatre last night by default from Yankee Rogers, after each had earned a fall. Rogers could not continue, according to announcement, as he was seized so badly that two ribs were diagnosed as torn from the cartilage.

Rogers was the aggressor all the way and took the first fall with a half Nelson and crotch hold in 32.40.

Abdallah went about 17 minutes in the second bout when the Turk got the body hold on Rogers that caused him to quit with pain. The doctor examined the injured man and advised him not to continue.

ST. MATTHEW'S LAWN TENNIS

Officers Elected at Annual Meeting.—To improve the club, the annual meeting of the St. Matthew's Lawn Tennis Club was held on Thursday night in the Broadview Institute, the president, W. F. Summerhayes, in the chair. A large number of members were present. The meeting was most enthusiastic over the coming season. The reports of the secretary and treasurer were read and adopted. The secretary's report showed that the previous season had been a very successful one from every standpoint, both in the numbers playing and in the quality of tennis played. The social season was also very successful. The city championship tournament, held by the club last year, was one of the tennis events of the season, and the number of interested spectators larger than at any time in the history of the club. The treasurer's report showed a surplus in the current account, but as a capital outlay, it was decided to issue additional stock to the extent of \$200, part of which was subscribed at once. The captain of the senior team reported that the year in the senior series of the City League, losing only one game to the Toronto Club, with what was probably the strongest team that has been put on local courts in recent years. The captain of the intermediate team was able to report an uninterrupted string of victories, the championship having been brought to the club for the first time. He suggested that the team play this year in the senior series. This will probably be done. The election of officers and committees resulted as follows: President, W. F. Summerhayes; secretary, Mr. J. C. Forman; vice-presidents, Mr. W. H. Harris, Mr. George A. Morrow, Mr. J. C. Forman, president, Mr. F. Summerhayes; second vice-president, R. A. Patterson; secretary, F. L. Summerhayes, 61 Broadview avenue, phone 488, or Main 27; treasurer, H. B. Fleisher, treasurer, A. Mackey, Bank of Ottawa, 100 Broadview avenue; committee, Messrs. J. P. Milnes, W. H. Harris, S. Sumner, J. P. Milnes, J. P. Pollock, G. Spanner, and the club secretary, Messrs. J. C. Forman, W. H. Harris, R. B. Fleisher, Clifford Dixon and committees, Messrs. C. W. Chandler, E. R. Furkles, B. Gould, and the Misses Doble, Halpern, and others wishing to join.

YORK RANGERS' SERGEANTS

Annual Banquet Well Attended and a Glad Affair. The popularity of the sergeants' mess of the York Rangers was amply demonstrated last night by the crowded tables at their annual banquet, at which not only every corps in the city was officially represented, but several officers from rural corps were in attendance. Sergeant-Major Knight, who officiated for the first time since his promotion to that rank, was presented with a handsomely mounted sword by his comrades, and the commanding officer, Lieutenant Colonel J. K. Leslie and Major A. I. Allen were each made recipients of a group photograph of the sergeants of the regiment. Amongst those who made addresses were: Sergeant-Major Knight, Col. Leslie, Major Allen, Major Curran, Capt. Hamilton, Major Gillies, Capt. Dunham, Capt. B. H. Brown, Lieut. Glover, Lieut. Nichols, Lieut. Brown, Lieut. Darling, Lieut. W. H. Taylor. The guests were: Lieut.-Col. Henderson, Surgeon-Capt. Clark, Sergeant-Major Alloway of the 4th Oshawa Regiment, Major R. C. Sergeant-Major Beattie, A.M.C., Sergeant-Major Fawcett, R.C.E., Sergeant-Major Purdy, R.C.D., Col-Sergeant White, Lieut. Col-Sergeant Carter, R.C.R., and representatives of the various city corps. Mention was made in the addresses of the fact that vice challenge cup, donated by the late Senator Gowan of Barrie, which was won last year by three companies in route march firing competition.

NEGOTIATIONS RUPTURED?

Outlook Not so Bright For Steel-Coal Settlement. MONTREAL, March 26.—(Special).—It may be the extreme obscurity which immediately precedes the dawn, but midnight thoughts looked very discouraging to those who have been hoping for a near solution of the coal-vicel problem. At 8 P.M. Col-Sergeant Beattie, A.M.C., Sergeant-Major Fawcett, R.C.E., Sergeant-Major Purdy, R.C.D., Col-Sergeant White, Lieut. Col-Sergeant Carter, R.C.R., and representatives of the various city corps. Mention was made in the addresses of the fact that vice challenge cup, donated by the late Senator Gowan of Barrie, which was won last year by three companies in route march firing competition.

STRATHCONA: FEELS TOUCHED

But it is sentimentally because of Canada's Acceptance. OTTAWA, March 26.—(Special).—Sir Frederick Borden has received from Lord Strathcona a cablegram in reply to the cable offering the offer of a quarter of a million dollars for the promotion of physical and military training in the schools. "The big" commissioner is "touched" by the action of parliament, and regards it as a "special privilege to be permitted to assist a movement which I cannot but think will have an important influence in strengthening the self-reliance and usefulness of the rising generation as citizens of the Dominion and the Empire."

INCREASE FOR LETTER CARRIERS.

OTTAWA, March 26.—(Special).—In reply to the supplementary estimates tonight Mr. Carter advocated an increase of pay for the letter carriers of St. Thomas. Mr. Lemieux could not say anything on the subject at present, but would probably have something to announce in regard to the letter carriers next week. This is taken to mean that he will grant the increase long deferred.

THE MOST ACTIVE CENTRE IN CANADA.

The World is informed by a competent engineer, one of wide experience, that thirty thousand dollars a day will not cover the money paid in wagon freight between Charlton Station on the Temiskaming and Northern Ontario Railway and Elk City, Smith and Gowanda. This has been going on for over thirty days, and will continue for thirty more if the snow holds out. These wagon freights for two months would have almost paid for the total cost of the extension of the railway line between these points.

Equally pressing was and is the need of a first-class telegraph service between these points.

The government or the railway commission has not yet made up its mind what to do in the matter. As a consequence the inhabitants of the mining districts of the north are dumfounded at the lack of interest and inactivity shown in relation to the matter transportation and telegraphy. Even on roads for the coming summer not in sight, tho there certainly will be a wonderful rush of travelers and freights. What are the members of the legislature from this district doing to press a forward policy on the government?

The members for the New Ontario constituencies are lined up below:

Hon. Frank Cochrane of Sudbury, minister of lands and mines.

Wm. J. Carr, Sault Ste. Marie.

Adolphe A. Aubin, Sturgeon Falls.

Wm. A. Weston, Rainy River.

John J. Mack, Port Arthur.

Albert E. Snelgrove, Algoma.

Thos. S. G. Melville, Fort William.

Ed. A. C. H. Kenora.

Henry Mc... Nipigon.

Robert R. Gamay, Manitoulin.

Mr. Gamay can stand aside. He has raised his voice for the north country on every occasion that seemed to warrant it, but unfortunately he has not had much influential company, judged by results.

The mining interests of the north and mercantile interests of the province will suffer if something is not done to open up this country in the way of transportation facilities.

Labor will suffer most of all, for work can be found for thousands of men at good wages by encouraging the development of the new fields. This is limited only by the extent to which the natural handicap of isolation is removed by the building of wagon roads and railways. A wagon road from Sault Ste. Marie to Wapogo, Shining Tree and South Gowanda is needed badly. A wagon road from the T. & N. O. Railway to Elk City, Miller, Leroy, Everett and Gowanda is even more urgently required.

Why the delay that is curtailing development, disheartening capital and discouraging the men of the north?

LEMONS FOR CANADIANS; MELONS FOR AMERICANS.

The World is not carried away with enthusiasm at the announcement that the Grand Trunk Railway has decided to meet the cut of the American railroads by reducing its rate to four cents a bushel for grain from Georgian Bay ports to Montreal and thus maintain the supremacy that Montreal has attained as an ocean port for western products. There is no doubt that western farmers will benefit by this reduction, but what The World would like to see more than anything else is some kind of concession in freight and passenger rates to this good Province of Ontario, where the people pay the bulk of the revenues of the railroads in Canada, and where inferior treatment is accorded to the people who are the best support our Canadian railroads have. The two main Canadian lines have done little or nothing

for Eastern Canada for many years now but give unsatisfactory service at high rates. Eastern Canada, however, has done a great deal for these railroads and they are constantly asking for additional favors. Toronto could not even get a suburban railway service, tho it is the most active city of the size on the continent, and corresponding cities all over the States have suburban services as a matter of fact.

As far as we know, the Ontario members at Ottawa show very little interest in the matter of securing fair treatment for the people of this province and they seem to be always led away by the hot air stories regarding the things that the Canadian roads are doing for American western farmers in the way of quick freights and cheap freights. In fact, the freight rates so given are not half what are charged the people of Ontario.

BRAMPTON AND SUBURBAN FARES.

The railway commission has refused Brampton's application for a rehearing of the commutation ticket case on the ground that nothing can be gained by opening it. A test case was brought against the Grand Trunk Railway on behalf of the town claiming that its suburban residents, of whom there were said to be about a dozen, were entitled equally with the residents of Oakville and Streetsville to the benefit of suburban rates because Brampton was within the same distance of Toronto.

At the hearing the railway company alleged that some twelve years ago the lower rates which had been given to Brampton were withdrawn owing to threats of business men of the town to divert their freight.

Mr. Wegman, the applicant, strongly protested against this evidence being received, as the railway company had fled no defence to his application, in consequence of which he was unprepared to meet this feature of the case.

The chairman of the board intimated that in his estimation the evidence had no bearing on the case, but that in any case the application would be protected from being prejudiced by the failure of the company to file their defence.

Ultimately, however, the judgment of the chairman proceeded upon the ground that the discrimination of the company was justified by the alleged protests of the business men. Mr. Wegman now claims that if such protests or threats were made it was not to the rates, but to particular form of ticket, which was, in fact, discarded by the railway on all its lines shortly afterwards.

In view of the very strong dissenting judgment of Dr. Mills, the board

should at least allow an opportunity to set this question of fact right.

The City of Toronto is bringing an application to have the commission fix a radius within which suburban rates shall be extended in all cases.

There is no reason why the whole matter cannot be threshed out on the hearing of that application.

It is very much up to Richard Blain, M.P., to bring the matter up in the house of commons and demand that the railway commission give justice to Brampton and Mr. Wegman.

EATON'S DAILY STORE NEWS

Men Are Invited to a Grand Display of Spring Clothing Styles, Monday

Demonstrating Our Position to Best Supply Your Easter Clothing Needs

ON MONDAY we'll present a fashion show for men—for the man of affairs, for the young business man, for the college man—a display that will prove a very interesting exposition of all that is proper for Easter and Spring.

Hundreds of Suits and Overcoats will offer an array unexampled in completeness of correct styles, and will present a remarkable showing of handsome patterns and fashionable colorings.

The department will be, in a large measure, refitted, in better-than-ever position to show the goods that are worthy of our best efforts in that direction. A stretch of wardrobes will make choosing easy, speedy and very much more satisfactory.

We want on this occasion to prove to the men that here is a good place to buy CLOTHING READY-TO-WEAR—ready to wear anywhere.

We want to demonstrate to you that our methods of buying and selling make for VALUES which any man can appreciate.

And we want, above all, to emphasize the sterling character of all the goods and show why they offer the best buying it is possible for you to do.

In all, this style display will surely interest you Monday. It's a sight to see and worth any man's while.

- A New Spring Suit at \$12.50—Imported worsteds, dark brown and olive ground, with colored stripes, single-breasted sacque coats. 12.50

TWO YEARS TO FINISH

Toronto Suburban Railway Gets New Lease of Charter.

Two years in which to complete its line was the new lease of life given to the Toronto Suburban Railway by the private bills committee yesterday.

The company proposes to extend from Weston to Brampton and from Lambton Mills to Port Colborne and points in the Niagara Peninsula.

The Canada Central was given another opportunity to utilize its charter to build from Sudbury to Little Current and on Manitoulin Island. A clause will be inserted guaranteeing that certain work will be commenced.

The Southwestern Traction Co., which will run to Port Stanley, was given power to issue new bonds to the extent of \$6000 per mile to liquidate a floating debt of \$150,000.

EARLIEST DATE EVER FOR STRIKING TAX RATE

Only Change Made Was to Add \$50,000 to Estimates—Will Not Affect Tax Rate.

In passing the civic estimates and striking the tax rate the city council yesterday set a record. Never before in the city's history had the ceremony been carried thru so early a date.

The annual attack on the department of industries and public works place, Ald. Foster contended that the requested appropriation of \$745,000 could be greatly reduced by dividing the work between the assessment and city clerk's departments.

Controller Geary held that Commissioner Thompson's salary, \$2500, was money spent to good advantage, as had been shown in Mr. Thompson's campaign for the power bylaw.

Ald. Bredin declared the general verdict of the public was that the department was being run on its own.

The mayor contended that the department was just beginning to bear fruit. Mr. Thompson had worked for a year to secure the large bath man-

Gow Ganda's Shore

A Tale of Silver and New Ontario's Northland

By Amee Landon—Illustrated by C. W. Jeffreys.

CHAPTER VIII.

Thursday morning a quiet little party consisting of Mr. Watson, Mr. Marston's brother and two engineers, started for Gow Ganda.

If any one was nervous in the crowd it was Mr. Watson, for he was very anxious that the claims he had been making about the silver veins should be substantiated.

The men found the journey tedious and wearisome. It was growing late in the season and up the north the cold weather sets in much earlier than it does here.

By the time they arrived in Elk City all the crowd were very glad to put on their furs and to get out of the cold.

Even these precautions did not protect them from the intensity of the cold, so that after tramping about six hours from Elk Lake towards Gow Ganda (it was too late for them to go by canoe now as the lakes were frozen over)

they had to strike camp. The distance away they saw what seemed to be a little cabin, and concluded it would be much better to make for that than to camp out in the snow.

Upon their arrival they were astounded to find no person inhabiting it, and apparently it had not been occupied for some time.

The men decided to put up there for the night. They cooked a hot meal from the cans and pulled down the sleeping shelves and then Watson said: "Which bed will you have, boys?"

"Why, we'll take the lower one," answered one of the men.

"All right then, and we will take the upper, and we have the extra blanket. You know that is the rule in the first-class hotels, even in second-class in the blankets."

"Lord, I hope I won't freeze on account of that rule."

"Oh, well, but a good fire all right, and the fire was made up some."

"Why, I believe to my soul I am freezing," said Doran.

"Oh, yes, you are laughing the boys, aren't you? Are you talking about freezing?"

"No, you would not want one of these experiences more than once. But I have come in contact with some queer things in my tramps thru the North Land. One of the things that happened one night, when it was damn cold, and I had had a hard day of it, worn out I turned in to sleep and just got my eyes closed when I heard hullo—hullo—"

ZETLAND'S UNIQUE NIGHT

Entered Craftsmen From Niagara Falls and Montreal.

One hundred members of Frontier Lodge, Niagara Falls, N.Y., and a large representation from Coys. Unis. Lodge of Montreal paid a fraternal visit to Zetland Masonic Lodge last night.

The occasion was rendered more interesting by reason of it being the thirty-second anniversary of the institution of Very W. Bro. E. T. Malone, grand secretary, as a member of Zetland. The French-Canadian brethren exemplified the first degree in French, which was unique in Masonic circles in Toronto.

At the banquet afterwards, W. Bro. R. A. Taylor, Master of Frontier Lodge, responded on behalf of the American brethren to the triple toast of the grand lodges of Ontario, Quebec and New York.

LENTEN SERMON

Rev. Canon Welch continued his discussion of the verbal inspiration of the Bible in his Lenten midday sermon at St. James' Cathedral yesterday.

The preacher contended at some length of the bitterness of the subsequent controversies would have been avoided among English-speaking Christians if the text of the Bible were so insignificant that they were unworthy the important place which they hold in the Christian religion.

It was important to remember that both the Old and New Testament writers laid down a clear line of demarcation between what they claimed they had written by direct inspiration and what they inscribed from their own judgment.

It was significant that what they claimed to have written by direct inspiration was in the moral and spiritual sphere, and not in that of history or science, and that which mankind by searching could find out the facts.

Old Testament writers in dealing with history, constantly referred to the historical matter, with which they dealt, so that in that relation they did not claim direct inspiration.

The Scriptures were inspired with a divine message, and it was not ma-

SAVES LIFE AND LIMB

Dr. Chase's Ointment works a remarkable cure in a stubborn leg sore that would not heal---Not a miracle but an almost incredible healing

Bedridden with a running sore on her leg, this Lunenburg, N. S., lady suffers untold agony—friends predict the loss of her limb—and maybe her life—but the recollection of the efficacy of Dr. Chase's Ointment years before came to her as an almost forgotten memory, and when, to use her own words, the sore seemed "almost beyond control"—past healing, she applied this great remedy with the faith of a child in its mother's care. Persistence and the marvellous healing power of Dr. Chase's Ointment gained the day and her testimony, unsolicited, from her own hand, affords just the evidence and will give just the confidence in its merits as an unfailing cure for all forms of skin and flesh ailments that half the suffering world is looking for—Read the testimony and take courage.

"LOSE YOUR LEG AND MAYBE YOUR LIFE"---SO SAID HER FRIENDS

MRS. MARY N. LEVY
Little Tancook, N.S.

What Flesh Sore or Skin Torture Have You?

"Some years ago I was afflicted with what the doctors named at the time Black Erysipelas. I was affected from thighs to my very toes—a very bad case and my life was at one time despaired of. I recovered from this dread disease and had no return of it, but some years later, I noticed the veins on my leg under my knee were affected and very irritated. I did not pay much attention to it, as I thought it was caused by my being on my feet so much—but one evening on removing my stockings I found a little opening in my leg at a spot that had bothered me somewhat when I was recovering from the Erysipelas, and still I thought little of it, and said to myself it will not amount to much—but from that on I found every night my stockings was stuck fast to the sore spot and it kept growing until it was quite a size and became very bad. I had remembered once before using Dr. Chase's Ointment for some skin trouble, and, Oh! how I wished I had it then, for I believed that it would cure it. I used to tie a piece of cloth over the sore place, but that became very painful to remove, as it was always very fast to the leg when I got up in the mornings. The leg kept getting worse, till the opening was as large as the palm of my hand. It seemed to get almost past control and I felt it a very serious thing, for by this time I was unable to walk. I had to lay myself up. I went to Halifax to see my daughters, and while there my son-in-law advised me to see a doctor or I would likely have to have my leg amputated. In the meantime they procured some kind of a white salve from a drug store and a powder to bathe the leg with. I applied these, but the pain and the burning and the agony I suffered from their use—I thought I would die that night, and felt sure I was poisoned and in my agony I tore the skin off with the bandage. I could not bear the suffering. I remembered I had a little box of Dr. Chase's Ointment in the house and I crept on my hands and knees to where it was. I got back to bed and without the rest of the people knowing anything of it I applied the Chase's Ointment, and

in quicker time than it is taking to write you this, the pain and that fiery burning sensation left me and I lay down and had the most peaceful sleep I had had in weeks. In the morning I sent to the druggist's for another box of Dr. Chase's Ointment and he saluted my daughter with these words: "Tell your mother not to be monkeying with that thing, but to see a doctor," but I kept on treating the sore spot with the ointment and before I had used the second box of it there was a marked change for the better and when I began using the third box the leg was healing rapidly, the sore closed up under the skin and a new outer skin formed over the sore and to-day I feel it is perfectly healed and I am walking about as if nothing had ever been the matter with my leg—but I have been so nervous for fear it might return that I keep rubbing on the ointment at regular intervals. I cannot express in words how thankful I am for this great remedy, and while I can utter a word I will always have one of praise for Dr. Chase's Ointment, for I firmly believe that had it not been for it I would certainly have lost my leg and maybe my life.

"While I was suffering so with my leg and in the course of my treatment for it I grew very low-spirited. I was not in condition of body to overcome the nervous strain and I came nearly breaking down completely, but amongst other good things that Dr. Chase has given to suffering woman—kind I had heard of Dr. Chase's Nerve Food. I secured it and found it just the medicine I needed to help me and make me strong and well again and I am to-day, at 42 years, one of the happiest of women—healed, well and strong by these great remedies, which Dr. Chase bequeathed to all who suffer. I want you to use this in any way you think best in the interest of like sufferers. I am sincerely and thankfully yours."

Divisional Court.
Before Meredith, C. J., Magee, J.; Beattie v. Toronto Railway Co.—D. L. McCarthy, K.C., for the defendants, on appeal from the judgment of Clute, J., of Jan. 22, 1909. A. MacGregor, for

plaintiff, contra. Judgment (oral). We are of opinion that the motion must be dismissed. The action was brought to recover damages for injuries sustained by the plaintiff owing to a collision between a vehicle in which he was driving and a car of the defendant company. The jury found against the plaintiff, and the damages assessed at \$659. It was argued that the accident was caused by the negligence of Garland, with whom plaintiff was riding, but as he was not under the direction or control of plaintiff, that leaves the plaintiff to act for himself, and the jury have found defendant's negligence to be the cause of the accident.
The appellants also ask for a new trial upon the ground of discovery since the trial of further evidence in corroboration of the evidence, which they gave at the trial as to the circumstances under which the accident happened. A new trial upon such a ground as that is not according to the practice to be permitted, at all events except under very exceptional circumstances, and there is nothing in this case which justifies a departure from the ordinary rule that a new trial will not be granted for the purpose of enabling a party to adduce further corroborative evidence. The result is that the motion and petition must be dismissed with costs.

I GUARANTEE CURE FOR LIVER ILLS
Is your liver sulky?
Is it sluggish and torpid?
If so, my Pills of Mandrake and Butter will cure you.
I am sure of this because in the worst cases they have been eminently successful.
You see, my pills are composed of the juices and extracts of dandelion, hyoscyamus, mandrake and other vegetable elements that I know by experience will assist nature in establishing liver activity.
In recommending Dr. Hamilton's Pills I am speaking for a remedy that is always efficient in ills of the liver, kidneys and bowels.
Take one or two pills before you retire.
In the morning you'll feel like new.
No coating on your tongue, no headache, no pain in the back or limbs— you'll feel brisk and ready for a hearty breakfast.
You'll digest your breakfast, too, because Dr. Hamilton's Pills are unusually good for the stomach; give it tone and strength.
Think it over.
My guarantee says every trace of liver and kidney sickness is cured by Dr. Hamilton's Pills.
As a health-giving tonic laxative, nothing can give better results.
For safety, thorough cure and happy, robust health, use Dr. Hamilton's Pills. Sold in yellow boxes, 25c. each, or five for \$1. Beware of substitutes.

BISHOP'S APPOINTMENTS
His Lordship will conduct a number of Confirmation Services.
The following are the appointments of the Bishop of Toronto:
He will preach in Midhurst and Mimico, and in Trinity Church, Barrie, on Sunday, visiting the neighboring parishes on Monday and Tuesday.
Return to Toronto for the opening of the Laymen's Missionary Movement Congress on Wednesday, at which he will take the devotional exercises. On Thursday he will be in the city in connection with the Anglican Convention of the Congress, in St. James' school house at 10 o'clock, and hold confirmation the same evening at St. Paul's, Toronto.
On Friday he will preside at the luncheon of the Brotherhood of St. Andrew, in connection with the Congress at 12 noon, and hold confirmation in the Bishop Strachan School at 8 p.m.
On Saturday, April 4, he will preach in St. George's, Toronto, in the morning, and confirm in St. Peter's in the evening.
Monday before Easter there will be confirmation at St. Mark's, Toronto, at 8 p.m. Tuesday, confirmation at St. Thomas' at 8 p.m. Wednesday, confirmation at St. Cyril's at 8 p.m. Good Friday his lordship will attend evening service at St. Clement's, Leaside, at 8 p.m., and on Easter Day will preach at St. Alban's Cathedral in the morning and at St. Philip's in the evening.

A NEW APPOINTMENT
J. B. McKechnie becomes actuary of the Manufacturers' Life.
The Manufacturers' Life Insurance Company announces the appointment of J. B. McKechnie, M.A., A.I.A., F.A.S., as actuary of the company.
Mr. McKechnie joined the actuarial department of the Manufacturers' Life in 1902. He was at that time an honor graduate in mathematics of Queen's University, and has since become an associate of the Institute of Actuaries, and a fellow of the Actuarial Society of America, taking a very high standing in the examinations which entitled him to the degree in both cases.
Mr. McKechnie is well-known in the insurance world, having been, in the year 1905, secretary of the Insurance Institute of Toronto. He has for the past two years held the position of assistant actuary of the company, of which he is now appointed actuary.

THE CANADIAN SPORTSMAN WILL HAVE NEW EDITOR.
E. King Dodds has disposed of the Canadian Sportsman to a company, at Mission to Allan Case is president. H. J. P. Good has been engaged as editor and managing director, and will therefore preside over the destinies of the oldest turf paper in America.
Considerable improvements are contemplated and no pains will be spared to make the Canadian Sportsman the very best class journal in the country.

LABRADOR MEDICAL MISTAKE.
Dr. Greenfield, superintendent of the Labrador branch of the Royal National Mission to Deep Sea Fishermen, is now visiting the United States and Canada in the interests of the mission. He will be in Toronto for a day or two about the middle of April, and will, it is hoped, preach the university sermon in Convocation Hall on the evening of Easter Sunday, and speak at St. Andrew's Church, King-street, at the evening service on that day.
He will also give at Massey Hall on the evening of Friday, the 16th of April, an illustrated lecture, the proceeds of which will be devoted entirely to the growing work of this deserving charity.

WILL OF DONALD MACKAY

His Lordship will conduct a number of Confirmation Services.
The following are the appointments of the Bishop of Toronto:
He will preach in Midhurst and Mimico, and in Trinity Church, Barrie, on Sunday, visiting the neighboring parishes on Monday and Tuesday.
Return to Toronto for the opening of the Laymen's Missionary Movement Congress on Wednesday, at which he will take the devotional exercises. On Thursday he will be in the city in connection with the Anglican Convention of the Congress, in St. James' school house at 10 o'clock, and hold confirmation the same evening at St. Paul's, Toronto.

On Saturday, April 4, he will preach in St. George's, Toronto, in the morning, and confirm in St. Peter's in the evening.
Monday before Easter there will be confirmation at St. Mark's, Toronto, at 8 p.m. Tuesday, confirmation at St. Thomas' at 8 p.m. Wednesday, confirmation at St. Cyril's at 8 p.m. Good Friday his lordship will attend evening service at St. Clement's, Leaside, at 8 p.m., and on Easter Day will preach at St. Alban's Cathedral in the morning and at St. Philip's in the evening.

CEMENT CO. REORGANIZE

Meetings of creditors, bondholders, debenture holders and shareholders of the Colonial Portland Cement Company, Limited, of Warraton, were held at the offices of E. R. C. Clarkson & Sons, when a scheme of arrangement of the company was presented.
The financial statement presented showed assets to be over \$500,000, while liabilities, outside of a bond issue, were comparatively small. Great confidence was expressed in the future of the company, and the scheme of arrangement unanimously approved of by all classes, and instructions given to make it effective as soon as possible, so as to permit the resumption of operations at an early date.
A new company will be formed to take over the assets and assume the liabilities of the old company, except bondholders, who are prepared to accept bonds in the new company in the place of those now held by them. The new company will also be provided with ample working capital.

A MEDICINE FOR THE SPRING

Do Not Dose With Purgatives—A Tonic is All You Need.
Not exactly sick—but not feeling quite well. That's the way most people feel in the spring. Easily tired, appetite fickle, sometimes headaches and a feeling of depression. Perhaps pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuralgia. Any of these indicate that the blood is out of order. Its mark upon you and may easily develop into more serious trouble. Don't dose yourself with purgatives, as many people foolishly do, in the hope that you can put your blood right. Purgatives can put your blood right, but they weaken the system and weaken your vitality. Instead of giving strength, what you need in spring is a tonic that will make new blood and build up the nerves. Dr. Williams' Pink Pills is the one medicine that can do this speedily, safely and surely. Every drop of this medicine helps to make new blood, which clears the skin, strengthens the appetite, and makes tired, depressed men and women bright, active and strong. Miss Mary C. Ayer, of Ward Brook, N. S., says: "I cannot speak too highly in favor of Dr. Williams' Pink Pills. I was weak and run-down and quite unable to work. I often had headaches, and my appetite was poor. I began taking Dr. Williams' Pink Pills, and in a short time there was a marked improvement, and to-day I am in better health than I have been for years." Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

PROOF THAT NO ONE CAN DOUBT

That Dodd's Kidney Pills Always Cure Rheumatism.
Conclusive Evidence Given by Durham Brown of Bradford, Ont.—How and Why the Cure is Effected.
BRADFORD, Ont., March 25.—(Special).—That Rheumatism is caused by diseased kidneys and that Dodd's Kidney Pills cure both the sick kidneys and the Rheumatism is again proved in the case of Mr. Durham Brown, of No. 2 Spring Street, this city.
"I was troubled with Backache and other well-known symptoms of Kidney Disease," Mr. Brown states. "I also suffered from Rheumatism in my right side and hip to the extent that I was always while at my work in agonizing pain."
"After taking one box of Dodd's Kidney Pills I found an improvement and after taking six boxes I found both my Kidney Disease and Rheumatism entirely cured."
Mr. Brown is only one of many cases in which it has been proved beyond a doubt that the natural way to cure Rheumatism is to remove the cause. The cause of Rheumatism is uric acid in the blood which crystallizes at the muscles and joints. Well Kidneys strain the uric acid out of the blood. Dodd's Kidney Pills make well Kidneys. That's why Dodd's Kidney Pills always cure Rheumatism.

Doesn't Like Brass Bands

In the non-jury assize court Justice Riddell granted Mrs. Mary Miller of Grimsby an injunction restraining the Grimsby Park Company from advertising without her knowledge attractions to be provided for the park. Mrs. Miller has a 99 year lease of three lots in the park, and objects to brass bands and similar stunts when not prepared for them.
Sold Liquor to Italians.
ST. CATHARINES, March 26.—(Special).—Saverio Scalone of St. David's and William Hendershot, a driver for J. J. Bamfield of Niagara Falls, appeared before Magistrate Campbell, charged with illegally selling liquor to Italians at St. David's. Hendershot pleaded guilty and was fined \$450. Scalone was remanded.

BOND MARKETS FIRM

BRANTFORDS SELL WELL

Money Continues Easy—Railroad and Industrial Bonds in Good Demand.

Local bond houses report that the supply of higher yield municipals is still not equal to the demand, and that the market in these securities is firm. Railroad and industrial bonds are frequently required for and prices in many instances have shown material advances of late.

There is not an over abundant supply of good mortgages in the market at the present time, and this is causing some institutions, which would otherwise put their money in real estate, to turn their attention to bonds.

Money continues plentiful at 4 per cent. and no hardening of rates seems imminent. The City of Brantford sold \$55,477 part 4 per cent. and 4 1-2 per cent. bonds maturing in an average of 20 years to C. A. Kennedy & Co. of Montreal.

It is understood that the purchasing price was approximately at 4 1/2 per cent. rate. This price, taken in comparison with recent sales of other issues, shows an increase if anything, and from the municipalities' point of view is a good stroke of business. Local bond houses report the following purchases this week:

The Municipality of Kildonan has awarded to the Dominion Securities Corporation \$600,000 of 5 per cent. debentures due 1st March, 1920. Kildonan is a suburb of the City of Winnipeg and presents an excellent financial statement. The assessment for the year 1908 was \$125,400, whereas the entire debenture debt is only \$25,400.

The same firm also reports the purchase of \$15,000 5 per cent. debentures of the Town of Thorold, the corporation's tender having been the highest of nine which were received for the issue. This issue is made for the purpose of extensions to the waterworks system. The Town of Thorold has an assessment of close to \$600,000 and the net debt is only \$25,310, being less than 4 per cent. of the assessed value, the municipality's present population 2,141.

G. A. Stinson & Co. have made the following purchases of municipal bonds: \$200,000 Kamloops, B.C., 5 per cent. waterworks debentures, issued for 25 years, maturing in 1931. \$120,000 Manitowish Lake, S.D., 6 per cent. debentures payable in twelve instalments, maturing on the new G.T.P. line.

Also, \$552,833. Town of Thorold, 4 1-2 per cent. debentures due: \$131,645 1st September, 1909; \$137,838, 1st September, 1910; \$283,550, 1st September, 1920.

Real Estate. The people of England as well as in other countries have heard so much of our country being the Land of the Snows and being held in the grip of Jack Frost for at least six months of the year that the following facts, set forth in a wide publication as an offset to the many mis-statements that have been made in regard to our climate.

On Dec. 20, of 1908, Mr. Henry Cartier, a builder of the city, commenced building two brick stores and dwelling buildings were not only completed in every detail, but put on the market for sale and sold. This all in less than three months from the time of starting the excavations. As to whether or not there are any doubts as to whether work can be done in some parts of Canada at least in the winter.

Narrow Escape. ESSSEX, March 26.—About 1 o'clock this morning fire was discovered in the residence of S. F. Wigle at the south end of the town. A son quickly aroused the family, and not a moment too soon, as the escape of the father and mother was then out of and both were slightly burned in getting out.

New York Stocks Less Active But Firmness is Retained

Some Minor Issues Are Advanced on Wall Street—Traders Take Profits on a Few Locals.

World Office, Friday Evening, March 26. Trading slackened somewhat at the Toronto Exchange to-day and some profit taking was indulged in by traders in Dominion Coal and Steel, which issues have recently undergone advances.

Both of the stocks under this liquidation showed declines and closed the day at about the bottom prices. Few other issues in the market were active and changes were not of any consequence.

The general undertone to prices, despite the dulness in the market, was distinctly firm. The South American stocks were more confidently bought than they have been heretofore, but room traders scalped these issues, and there-by prevented any rally in prices.

In the investment securities there was little more business with prices generally steady and with firmer indications.

Wall Street Pointers. Austrian communication with Serbia amounts to an ultimatum and has the support of the powers, including Russia.

Dealers expected to announce another coal cut to-day. Arrangements for Erie financing now considered completed.

Traction organization committee will bid for Metropolitan at foreclosure sale June 1.

Some speculative buying of Copper, but not in large quantities. Steel and iron prices still tending downward.

American Can reports orders about same as year ago, and expects to be working full capacity in July.

London market firm on improving foreign situation and further advance of 5-15 in francs.

Joseph says: Keep long of Union Pacific in the stock market to-day, the cheapest speculation. Specialties: N. Y. Central sells ex-dividend 1 1-4. Keep long of P. O. for big money.

Bullish special operations, particularly in low-priced railroads, seem likely in the stock market to-day, during which the general list may mark time. It is still suggested that good railroad stocks be bought on softness and profits partly realized on bulges.

Low-priced rails, as stated yesterday, are more in favor. Mexican Central should do better. Seventy-seven is now the selling price for Alton, following our exclusive note yesterday of higher dividends. The trend of Rock Island preferred is still up.

While bullish manipulation continues it is safest to buy on dips and those who buy manipulated stocks at high levels will suffer severely in case any disaster overtakes the market.

White manipulation continues it is safest to buy on dips and those who buy manipulated stocks at high levels will suffer severely in case any disaster overtakes the market.

OFFERINGS TOO LIGHT TO BE A PRESSURE.

World Office Friday Evening, March 26. The undertone to the Toronto market continues firm, and in instances this might even be said to be strong. Speculation did not increase to-day, and only in the case of Coal and Steel was there any showing of easiness in quotations.

Profit-taking in these stocks occurred to a small extent, and Coal declined two points with this operation. The announcement that Rio had finally cleaned up all competitors was acceptable market news, but the stock was inactive. The market closed dull, but the offerings of stocks were too insignificant to have any depressing influence.

On Wall Street. C. I. Hudson & Co. wired Beaty & Glasco, 14 West King-street, the following: Except for a few specialties, which scored advances of 1 to 3 points, the market closed about where it did yesterday, with a falling off of 25 per cent. in volume.

It looks like a waiting game until next week, when it is proposed to try to get a rule thru the house of representatives to limit debate on the tariff bill. This is likely to be the most important news. The belief prevails that the Republican leaders will not risk such a vote until they feel reasonably sure of the outcome.

Just why various specialties should go up and down is not necessary to enquire. Rapid movements in specialties are popular with a good many persons. We will get more of this sort of market next week.

We would buy stocks only on weak spots and be satisfied with small turns until the market broadens. Outside of steel and copper, news developments were fairly encouraging. Crop conditions in the west were said to be reassuring.

Chas. Head & Co. to R. R. Bongard: To-day has been another period of dull inert strength, with transactionally further reduced in volume. Traders were said to have taken the bear position again, being influenced by the posted to-day week, when it is proposed to try to get a rule thru the house of representatives to limit debate on the tariff bill.

It is not necessary to enquire. Rapid movements in specialties are popular with a good many persons. We will get more of this sort of market next week.

COBALT --- Market Getting Bare of Real Mining Stocks --- COBALT GOV

Mining Markets Are Firm With Less Irregularity

Traders Who Have Been Dealing for Quick Turns Have Practically Cleaned Up Obligations.

World Office.
Friday Evening, March 26.
Trading slowed down somewhat in the mining issues to-day and the market was less irregular in its movements than there has been during the whole of the week.
Traders who have been dealing in the market for quick turns in either direction seemed to have pretty well cleaned up their obligations and are awaiting for a new idea in regard to the trend of prices. Considerable outside buying occurred again to-day and at the close of the market there was found to be very little real stock offering. The New York Curb was firm throughout the day, both Nipissing and La. Rose selling close to the high figures of the week.
The annual meeting of the Beaver Company to-morrow is awaited with considerable interest, and less of the stock was dealt in to-day, traders awaiting some definite action on the part of the shareholders at this meeting. There was nothing special to influence prices in the market, except the technical condition of holdings, which seems to have undergone improvement during the last few days' business.

HAILEYBURY SILVER MINING CO

Annual Meeting Held at Haileybury on Wednesday Last.
The annual meeting of the Haileybury Silver Mining Company, Limited, was held at the head office of the company, Haileybury, on Wednesday last. The president, the managing directors and the auditors' reports passed with approval, and the directors were all re-elected. The company's property is adjacent to the Kelley and Wetlauffer Mines, South Lorrain. Offers for control, and less of the stock was dealt in to-day, traders awaiting some definite action on the part of the shareholders at this meeting. There was nothing special to influence prices in the market, except the technical condition of holdings, which seems to have undergone improvement during the last few days' business.

TRADING IS REDUCED

But Shrewd Investors Are Picking Stocks Up.
Heron & Co. in their weekly letter say: Trading in mining shares has been on the decline during the week with price movements erratic but showing as a net result some advance. Temiskaming was gaily the feature, breaking at \$1.16 on a report of a new discovery of importance having been made as a result of a check made by one of 25 points. After this the market should do much better. While the operations of floor traders who seem to take more pleasure in extracting a profit of 1-8 on the wrong side than of 5 points on the right side of the market, and for most of the business, the undertone has plainly improved. Realizing that prices in many cases have declined below real merit, shrewd investors are picking up stocks, knowing that by the exercise of reasonable patience large profits await them.

WRITES ON TEMISKAMING

And Assures a Fellow That the Mine Never Looked Better.
One who has been connected with the Temiskaming Mine since its inception, and knows the property perhaps better than anyone else with the exception of the president of the company, writing to a friend who is a large holder of the company's stock, made the following statements:
"A few days ago I had a talk with Mr. Fisher, the managing director, and went over the whole situation with him. He is a most conservative engineer and I have no hesitation in saying that anything he says can be implicitly relied upon as being absolutely true as far as his knowledge goes, and certainly in the matter of reporting on a mine I would not take the judgment of any engineer in preference to his. He assures me that the mine has never looked as well as it looks at the present time. Mr. Fisher said: 'At the 200 foot level we ran into a foot of ore which for some distance ran four feet in width, all very high grade, and this same chute of ore has now been reached at the 250 foot level.' Mr. Fisher's estimate of the value of this chute between the 200 and 250 foot levels is at least \$60,000. With the new plant, which is now in full operation, a very large part of this ore will be got out within the next few months. This course is only one part of the mine working."
"In the annual statement it was estimated that the ore on the dumps was worth \$200,000, but from assays made since Mr. Fisher says that this ore dump will run up to at least \$300,000." Concluding his letter, the gentleman says: "I think it is a great pity that certain brokers should impede the holdings of a great number of shareholders by putting out misleading statements in regard to the Temiskaming Mine."

HARGRAVE

Our information in the Hargrave Mine impels us to advise our clients to buy these shares both for speculation and for investment.
The Company owns two very valuable lots. They are situated in the heart of the richest district in the Cobalt camp. The famous Lawson (still in litigation), which has a vein on the surface a foot wide of practically pure silver, and for which the owner of one-quarter interest was offered \$1,400,000, adjoins one of the lots on the west. The Kerr Lake Mine (Jacob), adjoining the lots to the north and west, is one of the largest silver mines in the camp.
The Hargrave property is in a particularly favorable location as regards transportation, as they lie within 1 1/2 miles of the Kerr Lake spur line of the Temiskaming & Northern Ontario Railway.
The property is no prospect. It was a shipping mine when the Government enjoined the lessees. They had sunk a shaft on the continuation of the Kerr Lake vein 75 feet. They had built excellent camps, the equal of any in the country. They had erected a shaft house, blacksmith shop and ore houses. There is considerable ore in the ore body at the present time.
We also advise the purchase of Peterston Lake.
Send orders to HARGRAVE to insure their being filled. Any other listed or unlisted mining stocks are dealt in by us.

TWO CITY CEMENTORIES.

As arrangements with the railways for transportation of garbage to Ashbridge's Bay appear to be off, Dr. Shirdar recommends two cementories, one near Huron-street, north of the C.P.R. tracks, and the other near Dufferin-street, also north of the C.P.R. tracks at a cost of about \$100,000.

Was an Ontario Man.

PORT ARTHUR, March 26.—The body of a man found dead on the railway east of here last November 22, was exhumed to-day and positively identified by his brother as that of Charles Wilson, marine engineer, of Everett, Ont., aged 38.

Boils and Pimples

Are caused entirely by the blood being in an impure condition, and the quickest and simplest way to get rid of them is to take a few bottles of Burdock Blood Bitters.

This purely vegetable remedy has cured thousands of cases of these painful and unsightly troubles during the past thirty years.

Mr. S. J. Weir, River-view, Ont., writes: "Last summer I had nineteen boils on my neck and back. I was off work for over two weeks. I took everything I could think of but to no effect. I got a bottle of Burdock Blood Bitters and before I had used half the bottle the boils were gone. I took the rest of it, however, and I have not had a boil since."

Mrs. W. J. Cran-don, St. Mary's, Ont., writes: "I was troubled with pimples on my face for a couple of years and tried a good deal of patent medicine, but they were not much use. Finally I used four bottles of Burdock Blood Bitters and am now entirely cured."

STOP EXPORT OF NATURAL GAS.

OTTAWA, March 26.—The minister of inland revenue has recommended to the cabinet, and his recommendation has been accepted, that beginning on April 1 next the export of natural gas from Canada shall be prohibited.

A feature of the case was the commitment tendered by his lordship to Joseph Heiginger, counsel for the defence, on his clever exposition of the law in regard to the right of way.

GOWGANDA--Ingress and Egress Wanted for New Mining Camps--ELK LAKE

GOWGANDA Direct From Owner to Buyer SILVER LAKE

MINING PROPERTIES FOR SALE

WE deal exclusively in mining properties and have our own representatives in the field. This enables us to secure some of the best properties offered, as prospectors realize it is to their interest to deal with a company that specializes in this respect. The properties we offer are situated in Gowganda, Silver Lake District, James, Smyth, Tudhope, South Lorrain, Bucke and Coleman Townships. These range in value from \$500 to \$500,000, and are offered subject to inspection and on reasonable terms. Out-of-town customers should state, when writing, amount they desire to invest and locality preferred. We have some splendid syndicate propositions that live men could handle to advantage. Also properties upon which development work must be done, and responsible parties may obtain half interest in consideration of such performance.

KEEP UP THE ROADS

Advice of Commercial Traveler From the North.

Editor World: I have just come out here over the government snow road from Elk Lake and write to make a suggestion:

It is vital in the interests of the thousands now in the new silver camps of Elk Lake and Gowganda that the roads thereto should be maintained to the very last day possible of the present season.

If a practical man--such a man as almost any lumberman or lumber company could name--one that has had experience in maintaining logging roads in the bush, was put in charge with a staff of men used to such work, to skid up "cut-offs"; to fill in "pitch holes," the road into Elk Lake and Gowganda could be made to last two weeks longer than it will if allowed to collapse at the first thaw.

Why not do this now--without hesitation and delay? Do it as any business man would do it, promptly. The reason why it should be done at once, while it still freezes at night, is this: That a pitch-hole filled with poles and brush and snow-packed and frozen becomes part of the beaten track before the general break up. Left unpatched these places render the road impassable weeks before there is any real necessity for it.

Why should not the government stand by these people--the prospectors and miners, who want supplies, and the enterprising traders who are on the spot to handle them? Every day that the road can be maintained beyond the first of April will be worth thousands to this country. Merchants at Elk Lake are afraid to order goods, certainly because no one is caring for these roads.

Thomas H. Churchill, Commercial Traveler, Englehart, March 22.

BIG FREIGHT MOVEMENT

Gowganda Transport Co. Busy on Sellwood Road.

W. J. Cowan of the Gowganda Transport Co., operating on the sleigh road from Sellwood to Gowganda, was in the city yesterday.

"On Tuesday," he said, "we sent ahead 47 teams of freight, Wednesday 28 and Thursday 42. When we notified the C.N.R. that we would accept no more freight some days ago we had 320 tons thereto, to clear up since then 500 tons, accepted under previous contract, have arrived and we are having a busy time of it. A wagon load of freight badly, for the weather has prevailed and the road is still in good shape."

SOUTH LORRAINE

Syndicate of Cobalt Men Buy Block of Claims in This District.

SOUTH LORRAINE, March 25.--(Staff Special).--That Cobalt men think well of the South Lorraine district is proved by the fact that a syndicate of Cobalt men, headed by Mayor Long, have purchased two groups of claims in this silver field for \$75,000 cash and a stock consideration.

The claims were bought from M. F. Hasset for \$35,000 cash. The syndicate is called the Long-Hasset Syndicate. The other group was purchased from George Caswell, and consists of eleven 40-acre claims. On a vein on one of these properties a shaft has been sunk 60 feet, and a car of ore has been bagged.

The claims are round Trout Lake, and the syndicate expect that enough capital will be raised locally to work the properties till they become regular shippers, when a company will be formed.

ARE ON THE QUIVIVE

Harrgrave Shareholders Await the Tapping of Jacobs Vein.

There was an active demand for Harrgrave yesterday. It opened at 58 and advanced to 59. In New York it sold at 58 1/2 to 59, and closed at 59 1/2 to 60. Deliveries, 20 and 60 day, were also in demand. Of course the motive of the buying is news that in the near future the first level of the Harrgrave is to be run in to tap the "Jacob's" vein. The Kerr Lake has six levels tapping this vein, and it is now running in its seventh level. The ore is even richer from the fifth level down than it was in the upper levels. Naturally holders of Harrgrave are now on the quivive, as the tapping of this vein by the first Harrgrave level is so near at hand.

During the March sittings of the sessions fifty juniors were empaneled, and to pay them off yesterday it cost the County of York \$3990 for their services.

McIlwain & Armstrong, Limited, make call loans on Cobalt Stocks. McIlwain & Armstrong, Limited, do not hesitate in saying Cobalt is the most wonderful mining camp on the continent.

Cobalt Mines have paid more dividends during the past 12 months than other silver camps, although they ship almost as much ore in a day as Cobalt has shipped in a year.

Cobalt is producing Silver at about 10c per ounce, as against 40c to 50c per ounce for every other mining camp in the world.

Temiskaming mine produces Silver at 7c per ounce. Its manager, Mr. Fisher, told us yesterday that the mine never looked more promising than at present.

No such values have ever in the world's history been taken out of Silver mines as the following:

Kerr Lake . . .	224	tons netted	\$341,290
Silver Leaf . . .	32 1/2	" "	106,000
O'Brien	32	" "	140,000
Crown Reserve	6	" "	40,000
Nipissing	125	" "	145,510
La Rose	33	" "	90,750
Temiskaming . . .	24	" "	79,000

What will Cobalt do when its development is complete? What will the North Country produce when other Cobalts have been developed? There are other Cobalts to be discovered in the great Argentinian region between Georgian and Hudson Bays. Cobalt is producing about 1.7 of the Silver of the world.

HELP FOR WEAK MEN

THE WEAK AND PUNY CAN BE CURED

Show me the men who would not be better than they are. It matters not how the rocks and shoals of life have worn the edge off the spirit of joyousness, have dulled the enthusiasm of youth, and left the nerves less vigorous, the eye less bright, the step less springy, the mind less forceful and the general vitality less powerful than they ought to be at your age, you want to be strong. Hard work wears, and worry, disappointment and the other cares of life drain away the vim and snap of perfect health. Electricity applied my way restores it. It makes you feel strong; it renews your strength.

Dr. McLaughlin's Electric Belt

Does this naturally. I know that the foundation of all strength is Electricity, and that Electricity alone will renew it. I have applied it for years, and have cured thousands of weak people in that time. Every town knows of its cures. My book tells of many grateful men and women who were cured by this Belt after every kind of medical treatment had failed.

It is the one sure remedy for the cure of Rheumatism, Weak Kidneys, Weak Stomach, Nervous Debility in young or old, and similar ailments, as well as Dyspepsia, Constipation, etc. How can anyone remain in doubt as to the value of this grand remedy when you see so many cures?

Dear Sir: I am glad to say that I feel in good health and am stronger than I ever was before. I have gained over fourteen pounds since I started to use your Belt, and I believe it has done great things for me. I can say to anyone else needing the use of your Belt that it will bring them to their natural health and strength again. I remain, yours for health,
A. S. PARTRIDGE, Moncton, Ont.

To those who still doubt there is any cure because they have been misled by false representations, and want evidence of cure in their own cases before paying, I say, disregard my testimonials if you will, but be convinced by what I can do in your case before you pay. I am willing to take all the chances of curing any case of Rheumatism, Lumbago, Lame Back, Sciatica, Varicocle, Nervous Debility, Constipation, Lost Energy, resulting from exposure and excesses, in middle-aged men. Give me reasonable security, and you can

PAY WHEN YOU ARE CURED

Send for My Book To-day.

Do you want to feel big, husky and powerful, with your veins full of youthful fire, your eye clear, and your muscles strong and active? If you do, fill out this coupon and send it to me, and I will send you a book which will inspire you with the courage to help yourself. It is full of the things that make people feel like being strong and healthy, and tells of others like yourself who were just as weak once, but are now among nature's best specimens of strong and healthy human beings. Cut out the coupon and send it to-day and get this book free, sealed, by return mail. Call for free consultation. Office hours, 9 a.m. to 6 p.m. Wednesday and Saturday till 8.30 p.m.

Dear Sir: I am pleased to tell you that I have never needed the use of the Belt for over a year now, so I think it seems as there must be a cure after all. I am so glad to tell you how I feel after suffering so many years. I feel as good as I ever did, and can stand a day's work as well. I have done all my hard work myself this summer, so I have much to thank you for. Yours truly,
S. NICKERSON, Niagara Falls, Ont.

Dear Sir: I am well pleased with the results I received from using your Belt. I believe I can say I am now cured, as I have not found my old complaint returning. Your Belt has done its work, and done it well. At the present time I am feeling well, and if anything ever happens again I will ask your advice. Sincerely yours,
EDWARD A. WOLFE, Chesley, Ont.

FARMING AND LIVE STOCK PAGE

DO WE NEED A COMMISSION?

Every week sees hundreds of our Ontario farmers leaving for the western provinces or for New Ontario. What's the matter with us?

We have heard a great deal about the prosperity of the farmer. He has been pointed out as the one member of the community who was making money. But is he? Is he as well off now as he was thirty years ago?

True, he has more creature comforts. He has finer surroundings. The telephone, the rural post, and electric roads, are good, but what good are they if the farmers are getting poorer and the youth getting out?

Why is land that sells for \$100 per acre looked upon as a wonderful thing by the farmer and the bait to tempt to refuse a sale?

Why will our farmers sell out a fifty acre farm with all their modern conveniences and purchase a town lot that takes nearly all the farm proceeds?

There is something wrong in the agricultural life, the agricultural returns or in our education. Which is it?

Farm products have been uniformly high for some time. Have they been too high?

Can anyone name a more ideal life than the life on the farm, by the man who loves the farm with its live stock, crop rotation, plant growth and orchards?

It is high time the agricultural department of the government of this great province was doing something more radical to infuse life and activity to the dormant, listless acres of our fertile soil in Ontario.

THE CLOVER SITUATION.

Last year was a peculiar year for clover seed in Ontario. It was a dry year, yet there was an abundance of weed seeds in the returns. The weevil infestation was common also, and as yet we have heard nothing from the farmers as to the life possessed by these red bodies in the grain box.

A prominent seed merchant of Toronto tells The World that he could go out to-morrow and purchase thousands of bushels of red clover seed, but he would not and could not handle it, because of the weed seeds present and the low quality of the seed. He moreover stated that all their seeds were being imported this year for this reason.

And here lies a danger. Farmers trade and deal among themselves for their clover seeds this spring more than ever before. The result will likely be that many hundreds of weed seeds will be sold as clover, and these in their turn will produce a big harvest of trouble. It is therefore necessary that the farmers examine, very carefully, all the seeds they contemplate sowing.

A releasing several times these spare days will do no harm, for it is better to throw away the small undeveloped and debatable portion than to risk a seeding with them. It is poor policy to fight weeds all summer and sow them in the spring.

Alfalfa is a coming crop for Ontario. This seed is scarce and its high price may deter many from trying it on their farms this year. This again will be poor economy. For there is no better thrift shown by the Ontario farmer than in the sowing of clovers, and especially alfalfa, which is feed for everything and a builder up of the soil. By all means try a small piece of alfalfa this season and give it a fair chance to live.

HOLSTEINS AT AUCTION.

About the last chance for farmers this spring to secure a high-class Holstein cow, is offered in the advertisement in this issue of Messrs. R. S. Stevenson and Son of Ancaster, Ont. Brookholme Stock Farm occupies lots 41 and 42, con. 2, of Ancaster Tp., and has produced Holsteins of the highest-class for a number of years. They have been supplying milk and cream to the City of Hamilton for the past fifteen years, and the city inspector's reports show 3.49 per cent to 4.20 per cent butter fat in the milk.

In all 43 head will be sold, and 14 head of these females are of the celebrated Aagie family being descended from Aagie's 3rd Prince. The grandly bred young stock bull "Gano's Favorit Butter Boy," whose dam, "Sherwood Gano," No. 1980 C.H.B., produced in twelve months, under Dominion Government supervision, 17,619 lbs. of milk, containing 667 lbs. of fat equal to 82 1/4 lbs. of butter, and whose sire's dam "Favorit 8th" produced under advanced registry supervision 550 lbs. of milk, making 28 lbs. of butter in seven days, will be sold. Six cows and seven heifers have been bred to "Gano's Favorit Butter Boy," all other females have been bred to "Panarieta's Pauline Dekol King," No. 2104, C.H.B. These are some of the milk records found in their neat folder catalog, which you should send for at once. Patsy Fifth—9150 lbs. in 9 mos; Patsy Sixth—7150 lbs. in 7 mos; Brada Tenson—1901 lbs. in 30 days; Patsy Fifth Five Spot—12050 lbs. in 12 mos; and others equally as good.

The sale will be held under cover at farm buildings located on lot 41, Con. 2, Ancaster Township, one-half mile west of Village of Ancaster, on Mineral Springs Road, and one-half mile north of Stop 11, on Brantford and Hamilton Electric Railway. Electric cars leave both Hamilton and Brantford to Stop 9 or Stop 11 (1-2 mile from barns) at the following hours: 8.30, 7.45, 3.00, 10.30, 12.00 a.m., 1.30 and 3.00 p.m.

U.S. SALMON AND TROUT SUPPLIES FROM HATCHERY

The Spawn Are Protected and Sent 500 Miles to Lake Michigan to Stock Fresh Water.

The management of fish hatcheries and the way the spawn are transferred to the lakes and rivers is interesting to those who do not know the inner workings of a fish hatchery. A visit to the state hatchery at Havana, Ill., says an American exchange, is interesting.

For several weeks no hatching has been in progress, the attention of the attendants being directed to some 3000 young white fish which are being held in the reservoir to note the effects of the water in which they are kept upon their life and development, the temperature of the water in which they are now living being several degrees warmer than that in which the variety thrives. It is the custom to "plant" the product of the white fish eggs as soon as the hatching is finished, the tiny babies being less than half an inch long at the time of hatching. They are sent to Waukegan, Ill., where they are dumped into Lake Michigan and left to care for themselves, and the entire output of white fish during the winter of 1908, numbering 2,000,000, was sent there for distribution.

Like perch, more familiarly known as "wall-eyed perch, or salmon," were hatched out in great numbers last season and constituted the principal product of the hatchery. It is the expectation of Superintendent Hutchinson that by the first of April he will have received 30,000,000 plike perch eggs from the government fish bureau at Washington, D.C. The eggs will be secured originally from Lake Erie, which is conceded to be the best breeding place of the variety.

At the present time there are 50,000 rainbow trout eggs being hatched, and the eggs of this variety are much larger than those of most others. The process is a very interesting study on account of the ability of the uninitiated to see the different points of development. For instance, the 50,000 eggs just received are called "eyed" rainbow trout eggs, because they have been so far developed at the government hatchery that it is already possible to see the eyes of the tiny fish thru the thin shell of the eggs.

The method of shipping fish eggs is ingenious. Many people suppose they are shipped in cans of water, which is far wrong. The 50,000 received last week came in 12 trays, each one foot square and one inch in height, the bottom of the trays being cotton batting and the sides of wood. In every other tray is placed sphagnum moss, which is first dipped into ice-cold water and then wrung out, with the hands. The eggs are placed in two layers in the trays apportioned to them and then protected from the wooden sides of the tray by a soft cushion, a mosquito bar only separating them from contact with the bottom of the tray. The top of the tray is left empty, and over it is placed a three-inch perforated wooden box filled with ice, which keeps the eggs from becoming over-heated.

The stack of trays is then placed in a box about two feet square and packed with shavings. On the top of this outer box a notice is placed as to the shipping station, which gives explicit directions to express messengers concerning the proper way in which these consignments should be handled, and instructing them to keep the boxes right side up, away from heat, and to keep a watch over the shipment, to jump and see that all the ice does not melt out of the top of the box.

The rainbow trout eggs traveled 500 miles and arrived in splendid condition. Upon their arrival at their destination the temperature of the box was taken and the eggs transferred to water of that temperature. Gradually the temperature was altered until the thermometer registered 50 degrees, the difference having been six degrees. Sudden change in the temperature is very dangerous to the hatching process and is always avoided.

The eggs of all salmon and trout are a beautiful pink in color. The rainbow trout eggs are one-sixth of an inch in diameter, the size increasing slightly near the time of hatching. The young fish has a food sac attached to his belly which supplies him with nourishment for eight weeks, after which he must look out for himself. It requires only about 35 or 40 days to hatch the eggs, and it is estimated that the ones just received are about 20 days old.

J. C. BRETHOUR'S YORKSHIRE SALE.

Just now, when the price of hogs is soaring, farmers will be glad of a chance to purchase some good ones at auction. Brethour's success in the Oak Lodge herd in the show ring was phenomenal from the beginning.

At the Toronto Industrial in 1891, this herd first exhibited and in every section where Oak Lodge Yorkshires were shown they won first with but one exception. During eleven consecutive years the herd prize was won nine times and added to this every challenge cup, silver plate and medal.

NEW HOLSTEIN BREEDER.

Charles Watson & Sons of Agincourt have purchased a pure bred Holstein bull to improve their already choice herd of Holstein matrons. The Holsteins are rapidly coming to the front in Scarborough Township.

IMPORTANT SALE OF LARGE YORKSHIRE HOGS

At "Oak Lodge" Farm, one-half mile south of G. T. R. station, Burford, the property of that pioneer breeder,

Mr J. E. Brethour

who offers for sale on

THURSDAY, APRIL 8

One hundred and seventy-five of his choicest animals, from the best strains of Oak Lodge herd, including Brood Sows, Young Sows and Boars, both imported and Canadian-bred. The Oak Lodge Herd is the Pioneer Herd of Yorkshires in America, as well as the largest and most complete collection of this breed on the Continent.

In founding the Oak Lodge Herd, the object in view was the production of Profitable, Hardy, Easy Feeding Pigs, whose carcasses would take highest rank when judged by the consumer in the British or American markets. That this object has been accomplished is attested by the large shipments made annually to all parts of Canada and the United States, as well as by the success of this herd in the show ring.

LYONS' JERSEYS FOR SALE.

Our readers will find two particularly good opportunities in this issue to buy high class dairy cows. Mr. Lyons of Norval sells Jerseys and Messrs. Stevenson and Son of Ancaster sell Holsteins.

On March 31st, Mr. S. J. Lyons of Norval, Halton County, will dispense by auction his extra valuable herd of 35 Jersey purebreds and 15 high grade Jerseys. This herd has been selected and bred for business purposes, and comprises many choice dairy cows, carrying well-balanced and business-like milk vessels of large size, with good-sized and well-placed teats. The grand cow, Dnah of Lawridge, and her three charming daughters in the sale, will prove attractive features, as

will others of similar type and character in the herd, while the young bulls, heifers and calves, bred from deep and rich milking dams, give promise of keeping up the reputation of the breed for high-class dairy production. Norval is a station on the G.T.R. main line, some three miles from the farm, while Georgetown Junction, G.T.R., is about the same distance, but rigs will meet the Norval trains on the morning of sale and every attention will be paid to the visitors' comfort. World readers will find here the cream that makes their home life valuable and these cows should be eagerly sought for. Get one anyway.

Wheat—There were some pretty fair sized orders to buy July from the southwest. The local shorts were also moderate buyers, selling scattered. The market looks as if it was in good shape for a further upturn.
Corn—There was liberal realizing from the start and prices eased off a trifle. Would take profits on long corn and wait for a fair reaction before making purchases.
Oats—Oats have followed corn, prices shade lower. This market looks high enough, but it is rather dangerous to short. Ennis & Stoppard wired to D. Urethart, manager Toronto office, McKinnon Building.
Wheat—Market has made a fairly good response to the firm cables and crop damage reports this morning. Trade has been fair with commission houses on both sides. The pattern house is the leading buyer. Their purchases estimated at about a million bushels, July shorts to rush to cover and forcing prices to highest point of the day.
Corn—Ruled easy on favorable weather, poor shipping demand and reports of liberal acreage to be put in.
