CITY ENGINEER WILL RECOMMEND SHAKE-UP

Favorable Appointment of Purchasing Agent—13th Regt. at Church—Two Days' Events.

HAMILTON, Oct. 17.—(Special.)—At the beginning of the year City Engineer Macalun will recommend to the board of control a general shake-up in his department. He will ask for the abolition of some of the numerous titles and he thinks he can re-arrange the staff so that it may not make such an imposing show; it will do better work. One suggestion is that a purchasing agent be appointed. At present there is no check on stores. A deputation will wait upon Hon. W. J. Hanna, the provincial secretary, on Tuesday morning in Toronto, with reference to a west-end sewer and disposal works. The government will be asked to pay part of the expense on account of the asylum. Thomas Reche, formerly manager of the Grand Opera House, is seriously ill. The Otis Elevator Co., which thought of moving to Toronto last spring, has taken out a permit for an addition to its factory.

Painful Dyspepsia

A Form of Indigestion Caused by Gastric Irritation from Undigested Food in the Stomach.

No kind of dyspepsia is better marked than that known as "painful indigestion," and it is also a very common affection. Pain generally of a dull character, is felt after meals, and along with the pain, soreness at the pit of the stomach often exists, and in some cases the soreness is pronounced. Tenderness is commonly restricted to a spot in the middle line of the body, immediately below the breast-bone. It often extends upward under the ribs, which consequently feels sore on pressure, or the tenderness is felt toward either side. This tenderness is commonly associated with an unpleasant feeling of heat—a burning sensation—as it is termed by some persons. There is also a "rawing" and "dragging" as well as various other anomalous sensations complained of after taking food, and generally within an hour after eating. As might be supposed the intensity of the symptoms is proportionate to the quantity and quality of the meal. When the stomach is empty, sensation of heat or emptiness gives most trouble. This often causes a false appetite, which, by inducing the person to eat heartily, aggravates the condition. Thirst generally ceases much earlier than usual; heartburn, water-brash, acid eructation, and headache are not infrequent attendants. The tongue is usually coated and from a mere inspection of this organ the condition of the stomach can often be correctly told. It is a common error with persons who suffer from stomach pain caused by indigestion and gastric irritation, to use such drugs as chlorodyne, Hoffman's Anodyne, and other "pain killers" for its relief. Such treatment is a great mistake. While these drugs afford temporary relief to the dyspeptic pain, they have no effect whatever in removing the cause. STUART'S DYSPEPSIA TABLETS remove the cause. By completely digesting all the food in the stomach, there is no further possibility of the occurrence of this disagreeable form of dyspepsia with its painful manifestations and other concurrent symptoms. All of the irritation of the stomach-lining and stomach-nerves as the result of the undigested food lying in that organ, and undergoing fermentation and decomposition, is quickly done away with. But not only is the form of dyspepsia which is accompanied by pain cured through the use of these digestive tablets, but also every other form of indigestion, as there are many kinds in which stomach pain does not occur, but where there are many symptoms usually disagreeable, discomforting, disconcerting and disgusting. Stuart's Dyspepsia Tablets contain a highly concentrated form, powerful anti-dyspeptic ingredients, which act most rapidly and thoroughly on every kind, including proteids, nitates, carbohydrates, etc. A single tablet will disintegrate and digest 3000 grains of food. Purchase a box from your druggist if once (price 50 cents), and get rid of the pain, discomfort and other disagreeable symptoms of dyspepsia. Also send us your name and address for our sample package. Address F. A. Stuart Co., 140 Stuart Bldg., Marshall, Mass.

spoke, and at the Church of the Ascension Rev. T. H. Peary. Samuel Enford, 228 North McNab-street, an Italian, had his left leg crushed in an elevator at Baves and Jameson's factory Saturday afternoon. Got Dunk on Sunday. The police had a quiet Sunday, the arrest of six unfortunate drunks making the sum total of their labors. Frank Sullivan, the 11-year-old boy who was found guilty in police court Saturday morning of setting fire to a pile of hay at the Gartshore-Thompson pipe foundry, was sentenced to an indefinite term in Mimico. His mother collapsed and was carried shrieking from the court-room. Clifford Sinclair, Sullivan's chum, was allowed to go with a warning. Hon. Adam Beck has notified Mayor McLaren that the hydro-electric power commission will meet Tuesday to again consider Hamilton's application. It is understood that the commission will make a change that will make the terms even more acceptable to the city. Found Dead. Robert McKechnie, collector of customs, was found dead in bed Saturday morning. He was one of the founders of the firm of John Bertram & Sons, and contested the riding twice as the Conservative candidate for the commons. The marts committee and the police commissioners will have a joint meeting this week to consider plans for a new police station on King William-street. The ratemakers will probably be asked to vote \$30,000 for the station, being the intention to move the new station police headquarters and to move the chief and detective staff from the city hall. New Gas Supply. The industrial committee is considering the advisability of building a line to the natural gas fields in order to set a supply of gas for manufacturing and domestic use. It is possible that the city will also try to get a cheaper supply for the householders as well. Trade and Labor Council is making plans to build a new temple.

CANADIAN LAKE MARINE

Navigation Will Officially Close on Dec. 10.

OTTAWA, Oct. 17.—Notice is given by the Canadian department of marine and fisheries that all Canadian lights and fog alarms in Lake Superior will be kept in operation this autumn until 10th December, with the exception of Caribou Island, which may not be kept in operation until 8th December. Subject to weather conditions, or early closing of navigation. Mariners must not rely on finding any of these lights in operation later than the dates above specified for closing.

PARIS DRAWS THREE KINGS

But Will Not Hold Them at the One Time.

PARIS, Oct. 17.—Paris society is looking forward to a highly interesting season. No less than three kings will visit the French capital during the winter. King Edward of England probably will be the first of the crowned heads to arrive. As on former occasions, he will be the simple as the Duke of Lancaster. King Edward always patronizes the latest plays. Towards the end of next month the King of Portugal is expected. A monarch who is to make his first official visit to Paris, is Peter I. of Russia, who is expected to pay a visit to the Cesar of the Tsar in January. He is expected to pay a visit to the Cesar of the Tsar in January. He is expected to pay a visit to the Cesar of the Tsar in January.

Warning to Hunters

Intending hunters should remember that the season is now open in the best hunting districts, that is, Northern Ontario and Quebec and New Brunswick points, and the "early bird" adage is applicable for the men first on the runways. Special facilities and special train service this year have been arranged by the Canadian Pacific Railway for the convenience of the sportsmen. It will pay to drop in at the City Ticket Office, southeast corner of King and Yonge-streets, for the latest literature and dates of the open seasons; or enquire regarding the special train arrangements, etc. 671

NORTH TORONTO PEOPLE TALK SCHOOL MATTERS

Opinions Differ as to Free Books—Serious Illness of Mr. Parke—York Township.

NORTH TORONTO, Oct. 17.—(Special.)—The regular meeting of the North Toronto Ratepayers' Association held in the town hall on Saturday night for the discussion of educational matters, was well attended, and brought out a general discussion which cannot be fully reported. The meeting was presided over by D. D. Reid who was in the chair, and the principal of free school books, of which notice of motion had been earlier given by H. B. Brown and Charles Acamson, was advocated by the mover and seconded by Mr. Ball. He argued that the town having provided free schools and equipment might well go further and provide the books. T. A. Gibson and W. C. Ellis took the ground that it might not be advisable to take too advanced a step. The motion was carried by a large majority. The condition of Councillor William Parke, during the past week, excited the greatest anxiety among his friends, and to-night fears are entertained that he may not survive until morning. The 25th anniversary of the building of the Bedford Park Baptist Mission church was celebrated here to-day in one of the largest audiences ever gathered in the town hall. Rev. George Smith of Toronto spoke to the children, and in the evening preached the anniversary services. In the afternoon the reverend gentleman spoke in the York Mills Baptist church, where Harvest Home services were held. The pastor, Rev. Mr. McEwen, assisted at all the meetings.

WEST TORONTO

Teamster Probably Fatally Injured—Customs Receipts Soar.

WEST TORONTO, Oct. 17.—While driving into the doorway of the main shed at the Ontario Brick Works on Monday about 10 o'clock Saturday afternoon, a teamster named Benjamin Wiggins was jammed between the doorway and the wagon, and crushed so badly that he is expected to die. The injury was inflicted on the left side and two on the right were torn from the vertebrae, and the spine was dislocated. The injured man is in a semi-conscious condition. He was removed to his home at the corner of York and Keele-streets, where Dr. Kayler attended him. Wiggins is about 35 years old, and married, with two or three small children. The cause of the accident was the fact that the horse, which was named Emma, had been driven into the shed by the driver, who was named Wiggins. The Song-Bird of the Antipodes

"The Song-Bird of the Antipodes" is a new song by the Quebec Chronicle. "Have ever heard here who have made such a deep and pleasant sensation as Miss Mylotte's delightful song-bird from the Antipodes." Italian, German, French or English selections, we are told, seem to be all one with her, for perfect intonation and expressive rendition, giving to all her offerings a distinction that marked her out as a notable artist. Miss Mylotte will appear at Massey Hall on the evening of Oct. 27, and there, as in Ottawa, Montreal and elsewhere in Canada, she will use only a Heintzman & Co. piano.

AURORA

AURORA, Oct. 17.—(Special.)—Aurora's tax rate for this year will be 23 mills on the dollar, and taking everything into consideration, this is not regarded as excessive. Andrew Yule has been absent in Pittsburgh, all week attending the convention of the Disciples of Christ assembled there. In consequence of the annual meeting of the North York Teachers' Association in the Normal School on Thursday and Friday of this week, the Aurora and all other public schools in the township will be closed. President Falconer will deliver the opening address and Prof. Coleman will on Thursday afternoon speak on the "Ice Age."

LAUREATE AGAINST HIS WILL

Letter From Tennyson Shows He Took Honor Unwilling. LONDON, Oct. 17.—Some interesting anecdotes on the character of the poet Tennyson were thrown by a letter written by the poet on his appointment to the laureateship, read at the recent centenary celebration by William Franklin Rawnsley, to whose grandfather it was written. "I thank you for your congratulations touching the laureateship. I was advised by my friends not to decline it, but I was even told that being already in receipt of a pension, I could not gracefully refuse it. But I wish more and more that some one else had it. I have no passion for courts, but a great love of privacy, nor do I count having the office as any particular feat in my cap, and my friends, R. M. Milnes, tells me that the price of the patent and court dress will swallow up all of the first year's income." After the court dress, Mr. Rawnsley tells us, did not cost him much, however, as he went in the dress which had served Wordsworth, who, in turn, had obtained it from the old poet Rogers.

The following letter from his son and executor, Mr. Robert J. Collier, shows the wisdom of his choice:

Office of Collier's Weekly, New York, May 4, 1909.

Hon. John F. Dryden, President, The Prudential Ins. Co. of America, Newark, N. J.,

My Dear Sir:

Permit me to thank you, and through you The Prudential Insurance Company of America, for the very prompt receipt of checks for \$50,000, in full cash settlement of claim on the life of my father, Peter Fenelon Collier, who demonstrated his belief in Life Insurance in the Prudential by carrying policies in your Company for several years.

Proofs were completed and checks delivered the same day, and your Company did everything possible to effect a quick payment of claim. Assuring you of my appreciation, I remain, Yours very truly, ROBERT J. COLLIER

University Sermon

"I should have received mine own with usury." (Matt xxv. 27). "Life is not only a test, it is also a quest," declared Rev. Prof. J. W. Falconer, B.D., of Pine Hill College, Halifax, N.S., speaking on the subject of "Self-realization," in the second of the series of university sermons in Convocation Hall yesterday morning.

The primary thought of the text, he said, was of God as a great investor and of us as His investment. Our life was to be a great test.

"The lesson that burns itself upon the consciousness of the world is this: that of evolution; there is also a law of degeneration. Nature itself tells us that 'whosoever a man soweth, that shall he also reap.' Therefore, when we turn to scripture we are not changing our principal. We merely turn from the impersonal to a personal terminology.

"We may regard Jesus as the investment of His own capital as the investment of His own capital, to associate with the Holy Spirit. But He was not ashamed to say strange or startling things. He was great enough to say what might be misunderstood.

"We must think of ourselves as individual investors, having unlimited capital. We ought to be speculators. Life is not only a test; it is also a quest.

"It has been said that man is his own star and that he most needs is self-reliance. We need not mutilate life and starve our noble ambitions. Do not hear too much of human nature. These are my jewels," said the old Roman matron of her sons, and a nation needs to learn that her sons are her jewels.

IN SOCIETY.

Saturday evening the officers and shareholders at Alkenhead Hardware, Limited, waited upon their president, Thomas Edward Alkenhead, and his wife, at their home in Markham-street, the occasion being their silver wedding, and presented them with a handsome silver tea service. The address and presentation was made by S. T. Sheppard, the secretary of the company. Mr. and Mrs. Alkenhead were taken completely by surprise. Mr. Alkenhead expressed his terms his appreciation of the gift and a very pleasant evening was enjoyed by all present.

"I appeal to the love of God. We would lose the profound sense of relief which comes from the love of God. We would lose that restraint and power toward holiness which is found only in the fellowship of the Holy Spirit.

"This doctrine of self-realization is not unworthy of true theology. I do not like to think of God merely as one who is testing me; and perhaps rejecting me. I like to think of God as possessing some human qualities.

"Take the problem of sin. 'The curse of sin' there is a worse thing and that is the waste of sin. I hear it coming thru the lyrics of the Old Testament, thru the prophecies of Isaiah, the infinite craving and the pity of God. I hear it in Christ. I see it most on Calvary. That very cross was bathed in tears.

"Prof. Falconer is a brother of the president of the University of Toronto. The preacher next Sunday will be Rev. Patterson Smyth, rector of St. George's Church, Montreal.

GRIMSBY COLD TO MAYOR

Auto Party Couldn't Find Hotel and Had to Move on to Beamsville.

GRIMSBY, Oct. 17.—(Special.)—A revised version of Old Mother Hubbard would fit the experiences of Mayor Oliver of Toronto and a party who arrived here late last night in two automobiles.

They found the town bare of hotel accommodation, and, although it was nearly midnight, had to re-embark and steer a course for Beamsville.

When Grimsby went "dry" several years ago the hotels went out of business, and the "Widow Inn," a finely appointed hotel run on temperance lines, threw up the sponge after the vote to repeal local option was defeated last January by a slender majority.

Consequently there is no provision for the travelling public, as Mayor Oliver found to his cost.

ABANDON REVENGE IN UPHOLDING THE LAW

To Hang Mrs. Robinson Would Tend to Bring Our Social Order Into Disrespect.

At the Unitarian Church Sunday morning, Rev. H. J. Robinson waded right into some of the problems that are perplexing the province in the matter of punishing wrong-doers, whether in the home or the school or the state.

"In laying down some general principles that I believe should guide the lawmakers in the administration of justice," Mr. Hutcheon said.

"In a democratic state, the men of letters, at least, cannot escape responsibility for the character of the laws and institutions under which they live. Just at the present moment our own province is confronted with several murder cases which compel us to look more carefully into the whole question of punishment."

"The first aim of punishment, he said, was to vindicate authority, and yet the word 'authority' had become obnoxious to an ever-increasing number of freedom-loving men and women. Let us substitute 'order' for authority. As there was an order in natural law, there must be order in human relationship, and to enforce this principle was the duty of the home, the church, and the state. The word 'obey' was the great word of the past. Obey the Pope, the priest, the king, obey your parents and the officers of the law, obey the old, the specialist, this doctrine of obedience was preached so insistently for centuries that it crushed the masses of men and robbed them of their individuality, an initiative.

But in our democratic reaction from this misuse of obedience, we must be careful not to go to the other extreme. There was a growing tendency now in the school and the home to reduce authority to a minimum. "Let our youngsters grow up naturally," said many teachers, and parents who had been subject all their lives to the word "obey." But to abandon the idea of order altogether, to blot out the sense of authority from the mind of the parent, the sense of obedience from the mind of the child, to give currency to the feeling that the magistrate and the judge were the enemies of true individual liberty—in a word, to make the undisciplined, unreasoned, individual, a law unto himself, would be to destroy both the individual and the society to which he belonged. What we must do is not to destroy the sense

GIPSY SMITH CONVERTED RICH N.Y. SOCIETY DAME

Will Forsake Accustomed Life of Gaiety for the Work of the Church.

CHICAGO, Oct. 17.—How a wealthy New York society woman turned from her jewels and fine clothes, her theatre parties and balls and deserted all her former associates to work for Christ, was told to-day by "Gypsy" Smith, the evangelist.

"When I was preaching in New York, some time ago," he said, "a woman whose guests my wife and I were, said to me at the breakfast table one day, 'Mr. Smith, I wish I could get some of the rich women of this city to hear you. Some of them have been at the meetings, but many are afraid to come. They are afraid of the crowd.'"

"A little committee arranged that there should be a drawing-room in which I should speak to these women. I went to the first meeting with trembling, and I found 115 women waiting to receive me. I preached to those women from the text 'Repent ye, for I know no difference between millionaires and paupers.' When I got thru one young mother came to me and said, 'Mr. Smith, may I speak to you?'"

"If what you preach is true, I am a heathen. I am in the swim. I go to the theatre, the race course, the dance, and you know what our lives are like. Be faithful with me. What must I do?" I said, 'Sister, Jesus has spoken. Listen to Him, obey Him.'"

"I gave the men the evening of my rest day, and they came to that big house in Fifth-avenue, the women wearing jewels, and every appointment elegant. "And the men were bowed before my little story as the field before the sun. Mrs. Bruce Price, resident of Tuxedo Park, and widow of a New York architect, was killed in an automobile accident this afternoon on the road from Tuxedo to Arden. The car was going north on the main road of the Harlem estate, near Arden station, when the chauffeur pulled out to one side to pass a car ahead. The machine skidded into the ditch, was killed by the side of the road, throwing Mrs. Price against a tree, killing her almost instantly. Toronto Symphony Orchestra. Concert, Thanksgiving night, Mme. AGAIN AUTHOR AND ACTRESS

This Time Elderly French "Immortal" Has Lost His Heart.

PARIS, Oct. 17.—Anatole France, the celebrated author, one of the "Forty Immortals" of the French Academy, has a romance of his very own, about which the Paris newspapers maintain a strange silence. M. France is sixty-five, but the mental vigor, the insight into character, and the brilliancy of style which have made his reputation seem to grow with his years.

His romance began while on a long voyage to South America some months ago. Scarcely had the ship left her pier when M. France was presented to a fellow voyager, Mlle. Jeanne Brindeau, an actress, who, tho' not widely known in Paris, has had a successful career in the provinces. She is a woman of charm and talent. Arrived in South America, the friendship so pleasantly formed was not allowed to languish. Mlle. Brindeau and M. France returned on the same steamer, and the author again enjoyed a companionship which was growing dear to him.

M. France is notoriously absent-minded—wrapped in his thoughts and literary dreams. He had a valet who cared for him as a father does for his only son. The valet strongly disapproved of his master's fondness for the charming actress, and three obstacles in his way. For instance, he refrained from delivering to Mlle. Brindeau notes which his master gave him, and so improper engagements were not kept, for there were disappointments and heartburnings. Finally the valet grew bold enough to protest to his master that he would better devote himself to his first love—literature. Thereupon the valet lost his place.

Soon afterwards a paragraph appeared in a Paris newspaper announcing that Mlle. Brindeau and Anatole France were engaged. The author's friends refused to believe it, remarking, "Why, he's old enough to be her father," which was true. But since then the newspapers have published not a word about the engagement.

THE ENFRANCHISEMENT OF WOMEN.

Now that Mrs. Pankhurst is on her way to Toronto, society must consider with itself where it stands on the matter of woman's suffrage.

The laws of Mahomet regarding women are of the most enlightened order, although Moslem women are regarded as the least advanced in Europe.

Perhaps here lies the explanation of the antipathy of some men to female suffrage. They dread being brought into competition with their superiors.

Just as white men fear the virtues of the Chinese and Japanese and refuse to meet the prolonged industry, the thrift, the sobriety and reliability of the Mongolian on equal terms, so the male politician may fear the swift intuition, the persistence, the directness and determination, the incredulity in presence of precepts and flimsy excuses deemed sufficient by men, which distinguish most women.

Politicians naturally fear to introduce an element into their parliamentary affairs which could not be mollified with a guarantee of "serious consideration."

It is also paying large increases in the business assessment and improvement, is it any wonder that this man, who is neither a duke nor a dukelet, ever squalls.

Female suffrage is in force now in Australia, New Zealand, and several of the United States. It has not brought about any revolution, nor will it when it comes in Britain or Canada.

EATON'S DAILY STORE NEWS

A Man's Needs in Leather Goods

A Pocket-Book of some kind is daily required by every man of affairs; a purse and card case have a business-like appearance that is a decided asset to a man, while a Pass-Book can be put to many uses that make its slight cost more than worth while.

We list here some particularly good buying in each of these articles:

THE PASS BOOK is of real seal leather, lined with calfskin, edges all stitched; it is the American business-man's favorite today; a veritable "carry-all"; separate pocket for pass or identification cards, with flap covering same, thus preventing undue publicity; also separate pocket for business cards, and one for car tickets; secret pocket large enough to hold paper money; folds up so as to fit snugly in any man's pocket. Price \$2.50; others \$1.25 and \$1.00.

LETTER BOOKS — Perhaps the most useful and necessary of leather requisites for men; seven compartments for letters, paper money, cards, car tickets, etc.; the one illustrated is of genuine morocco, inside and out will fit hip or inside coat pocket. Price \$2.00; others \$2.50 to \$5.00. —MAIN FLOOR—QUEEN STREET.

These advertisements appear regularly and continuously throughout the year, and to this fact such firms attribute much of the strength and effectiveness of their plans. The members of one firm have often said that in their belief three times as much space used only half of the year would be less effective.

Such a plan as this can be begun in one paper, if desired, at a very nominal cost. By starting in two papers and alternating the days of publication the advertiser may have an announcement before the public every week day.

Could a better plan be suggested for the beginner? Is there any better way of starting the advertising appropriation within the means or limitations of a new or small business, and then increasing the expenditure as the business warrants? Every observant reader can point to

The only obstacle
to check operations
that London may call
of the big loans which

Considering the dis-
turbances which
recently occurred in

the Toronto listed

tained a responsible
situation. The break
in the London market

of which are largely
held in Ontario, served
to create a panic
early in the present
week and to check
operations in other
of the listed shares.
Liquidation of the

caused pressure
on the market. The
renewed buoyancy
of Wall Street, there-
fore, was timely in
that it changed local
sentiment and turned
attention to securities
which are not directly

of the two above
mentioned incidents.

Market Turned Against Shorts And Buoyancy is Resumed

American Stocks Rally Late in the Week—Domestic Stocks Affected by Two Important Incidents.

World Office Saturday Evening, Oct. 16. After a period of weakness lasting over three days, New York stocks assumed a more buoyant attitude and maintained it until the close of the week. The rally can be traced undoubtedly to an accumulation of another short interest sufficient at least to cause this spasmodic upward swing and to maintain it until most of the week short accounts have been covered. Sentiment among commission houses has been undoubtedly bullish and it must, therefore, be inferred that a few of their short clients have any long commitments near the bottom price touched, which in some cases reached nearly a ten point decline.

What may seem peculiar to those who regard this market as unresponsive to genuine conditions is the fact that the rally commenced on Thursday immediately following the announcement of a rather sharp increase in the Bank of England rate. Although the rise in the English bank rate had been expected, the prevailing opinion was that this would not extend beyond 3 1/2 per cent. The fact that the advance is known to be for the purpose of keeping the gold reserve in London intact and to prevent any possible further drain to Russia, Egypt and Argentina and, what is thought probable, any gold exports to the United States in the immediate future. Call money rates at all leading financial centres have naturally firmed during the present more active money period, but the crop season being past and the harvest being in progress, the height of money demand should shortly be reached. It is not considered by financial authorities that the advance in the rate of interest will be necessary to advance rates beyond these now quoted.

The increase in the dividend on Northern and Western this week adds another to the list of dividends increases which have been made and which always occur at a time when the market is fully appreciative each benefits interests to and buyers for the various market securities at or near the high prices now ruling. This may be found difficult and it may require many months of such increases to get together a real good list of long accounts. The only obstacle which comes to the mind of the speculator is that London may call some of the big loans which are outstanding at this point. Although there has been a large speculative interest in American stocks, the situation will be improved materially, but, failing this, the position is an extremely delicate one and such as might lead up to a bad break in prices with very little warning.

For the near future the market is more than likely to run into a traders' affair in which speculators will be constricted to a few points on either side. Considering the disturbances which recently occurred in the local market, the Toronto listed securities have maintained a responsible situation. Large grain cargoes continue to be exported to Europe. Joseph says: Western take on some Union Pacific and carry it well above 210. Bull Pennsylvania. Better get some Chesapeake. Spectator: M. K. Lee no reason to change our advice to sell long stocks on all sharp bulges.

On Wall Street. Erikson Perkins & Co. (Beatty & Glasco wires). With evidence of distribution in certain active stocks, the market was held fairly steady by advances elsewhere, the metal group being bid up in the last half hour.

Opening of the market was somewhat lower, being affected by London quotations. It is said that London bought about 7000 shares yesterday, presumably covering of shorts, and it may be possible the disposition to await the publication of the bank statement and office traders were generally doing little. London sold 20,000 shares on balance.

Finlay Barrell & Co. wired J. P. Bickell: Profit-taking made its appearance in market-to-day as there was general fear of a bad bank statement. Bankers expect a lower call money next week in New York. We are already committed to the belief of a much higher market in the future, and we can only say today presages a high range of figures on Monday.

New York Bank Statement. NEW YORK, Oct. 16.—The statement of clearing house banks for the week shows that the banks hold \$10,251,125 more than the requirements of the 25 per cent. reserve rule. This is an increase of \$5,748,975 in the proportionate

conditions, experienced at the settlement, in which the carry-over rates were distinctly heavier, led to some liquidation, but more cheerful tone set in at the end of the week. Consols, although a quarter down on the week, finished 3/4 at about the lowest, while Kafira and foreigners show small fractional gains.

London Stock Market. LONDON, Oct. 16.—Another rise in the Bank of England rate of discount from 3 to 4 per cent. has been the feature of the week on the stock exchange and has given the speculative element abroad a hint that the operations of the week are easily financed. A foresta of harder

ST. LAWRENCE MARKET.

Receipts of farm produce were 200 bushels of grain, 30 loads of hay, with many loads of mixed produce in the north building, and a fairly large delivery of butter, eggs and poultry on the market.

Trade was brisk all round, as there was a large number of buyers from nearly in the morning until everything was cleaned up.

Barley—Two hundred bushels sold at 60c to 61c.

Hay—Twenty loads sold at \$12 to \$20 for timothy, and \$8 to \$10 for clover.

Dressed Hogs—Prices steady at \$10.75 to \$11.25, the bulk selling at \$10 per cwt.

Poultry—Dressed poultry was plentiful at following prices: Turkeys, 13c to 15c per lb.; geese, 10c to 11c; ducks, 13c to 15c; chickens, 12c to 15c, with a very few choice still fed chickens at \$2 to \$2.50.

Butter—Prices steady, at 25c to 30c, the bulk selling at about 25c.

Eggs—Strictly new laid eggs sold at 30c to 35c per dozen, the latter price being for special customers; eggs that have been held for two or three weeks sold at 25c to 30c per dozen.

Butter—Farmers who have special customers for a special class of butter, had no difficulty in getting 30c per lb. W. D. Craig of Shelburne had 300 lbs. that he sold readily at 30c per lb.

Apples—Fall cooking apples sold at \$1.00 to \$1.25, choice samples of snows are worth \$2.50 to \$3 per barrel for table purposes.

Chicago Cattle Market.

J. P. Bickell & Co say at the close: Wheat—The enhancement of values the past week was influenced entirely by the inherent strength of commercial conditions and not in any way governed by speculative sentiment.

The recent advance in values is a demonstration of what the cash article is really worth as a commodity and while the present year's production of wheat appears large, the consumption of wheat and flour the world over is slowly but surely gaining on the world's production.

The most significant of all regarding the recent advance is that commercially conditions have not changed, in other words, cash values have advanced with the futures and still continue remarkable premiums.

The advance has been rapid, the trade suddenly realizing the strength of the situation and have covered a great many short contracts. This naturally leaves the market at the moment susceptible to profit-taking and short selling which will give us occasionally a weak market. In our opinion these are the moments to take advantage of, because, should the market decline, it is probable and that higher levels eventually will be witnessed.

FIRST-CLASS DRAUGHTERS CHIEF HORSE DEMAND

Lumber Interests Chief Buyers in Rather Light Week's Trading—What Prices Were Paid.

The demand for horses at the Union Horse Exchange was not large, the only class wanted was a few first-class quality draughters weighing from 1600 to 1700 lbs. for the lumber interests. All other classes were dull sale with prices nominal. Quotations were as follows: choice heavy draughters, \$1.75 to \$2.25; servicable sound general purpose horses, \$75 to \$125; expressers, practically no demand, but worth \$100 to \$125; drivers \$100 to \$125.

Attention is called to the special auction sale of 30 imported registered Clydesdale fillies, on Wednesday, Oct. 27th, 1909. This is an importation of S. J. Prouse of Ingersoll, the well-known breeder and importer of heavy-draught horses. Mr. Prouse is personally selling these fillies with a view to meeting the requirements of farmers, breeders, and others wishing to secure quality heavy Clydesdale fillies. These fillies are descendants of that famous horse, "Baron's Pride," and other noted sires.

WHICH ARE YOU?

A PESSIMIST—(Knocker)—A man who regards everything in nature or mankind in the most unfavorable light, and who is a universal groucher and complainer; who cannot and is not capable of accomplishing anything himself, and who belittles in a nasty, venomous way all things, enterprises, or individuals, and who always complains of bad luck.

OR

AN OPTIMIST—(Booster)—A man with a glad smile for each and all, who goes through life believing that everything is ordered for the best, who always looks on the bright side of everything, has a good word for everyone, and whom the Knocker calls lucky.

WHICH DO YOU think makes the better citizen, which will do the most to build and develop this splendid realm of Canada, that has lain for years overshadowed by her rival across the line, but which has at last awakened and is now destined to become not only one of the greatest countries of the western hemisphere, but in the wide world. No more will this grand and glorious Dominion, this Queen of the North American Continent, wait

Dreaming of men who will bless me, of women esteeming me good, Of children born in my borders, of radiant motherhood; Of cities leaping to stature, of fame like a flag unfurled, As I pour the tide of my riches in the eager lap of the World.

—R. W. Service.

From now on her magnificent undeveloped mineral wealth will be rapidly opened up, but NOT BY THE KNOCKER. HE WILL DO NOTHING, ACCOMPLISH NOTHING and GAIN NOTHING.

I am offering for sale at 15c Per Share a limited number of Fully Paid, Non-assessable Shares in the California-Alberta Oil Co., and submit the following information in regard to the Company who are developing what may prove to be the source of Canada's greatest wealth—her petroleum deposits.

The California-Alberta Oil Co.

Shares 15c Each. Four Monthly Payments of Quarter Each

PRESIDENT.
FRED L. KING, of Seattle and San Francisco, late of Rochester, New York.

Mr. Fred L. King has had life-long experience in the oil industry—35 years in all. Sixteen with the Standard Oil Company, later as Manager of the Union Oil Company of California, for three years, then as President of the King-Keystone Oil Company of San Francisco, and is at the present time President of the Keystone Oil Company of Seattle, Wash., and Managing Director of the British Columbia Oil Refining Company, Limited, of Vancouver, B.C., and largest shareholder.

VICE-PRESIDENT.
DOCTOR A. H. BAKER of Vancouver, B.C.

Doctor A. H. Baker is one of the most prominent business men of Vancouver, and Director of the British Columbia Taxicab Company.

GENERAL MANAGER.
HENSHAW MADDOCK of Vancouver, B.C., and Toronto.

Mr. H. Maddock has been associated with Mr. F. L. King in the oil business for a considerable time. For the last three years he was Manager for the Keystone Oil Company in British Columbia. He recently promoted the British Columbia Oil Refining Company, Limited, of Vancouver, B.C., which has been such an unqualified success, and of which he was Secretary and Assistant Manager until he resigned, and who is now a prominent broker of Vancouver.

Capitalization 2,500,000 Shares, Par Value \$1, Fully Paid; Non-assessable

The Company's Property

The property of the Company is located in Northern Alberta, Canada, about twenty miles from Edmonton, and consists of 1980 acres, and the fact that vast underlying beds of crude petroleum exist in this territory has been amply proved by the survey made by Director D. M. Dawson of the Geological Survey of Canada for the Canadian Government in this district in 1897 and 1898.

The Canadian Government Helps the Canadian Oil Producer

The Government of Canada helps and encourages the Canadian Oil Producer in a way which no other Government in the world does. By the "PETROLEUM BOUNTY ACT," the Canadian Government agrees to pay a bounty of 1 1/2 cents per gallon upon all crude oil produced in Canada. Think what this would mean to California producers, if they could get 1 1/2 cents per gallon for their oil in addition to 60 cents per barrel, at which they are now selling it at the wells. We in Canada could sell our crude oil at the wells in Alberta for 25 cents per barrel, and with the 1 1/2 cents per gallon bounty, still be getting a far better price than any California producer.

Can Real Estate Offer You Such An Opportunity?

There is NO INVESTMENT in the world that brings the huge returns that an oil-drilling company does to its shareholders, as the following will show:

	Offered at Per Share	Advanced to	\$100 Invested Produced
The Home	\$10.00	\$5,000.00	\$50,000.00
The Union	1.00	1,500.00	150,000.00
The New York	.50	200.00	40,000.00
The Alcazar	.50	150.00	30,000.00
The Pacific	10.00	150.00	15,000.00
San Joaquin	.50	13.00	2,600.00

A Speculation, Yes, But

I sincerely believe that this company is destined to pay dividends as surely as the great American companies have done. Do not delay, but buy now while I am offering a limited number of shares at 15 cents per share (par value, \$1.00), payable one-quarter cash and one-quarter monthly.

Fur Coats of Fashionable Importance

THESE Coats are not ordinary. They represent the best of everything. This store caters to ladies of taste, and while we keep our prices free from foolish extravagance or any hint of it, we do try to run the entire scale of quality and fashion. We would be glad to show you our collection of Alaska Seal Coats—every skin certified by the Alaska authorities. Persian Lamb is one of our specialties.

Persian Lamb Jackets, 24 and 26 inches long; made from select whole skins, even, bright curl, in new military and other styles; some have shawl collars, others collars and revers, lined with plain or brocade satin. Priced from \$125.00 to \$150.00.

Handsome Persian Lamb Coats, made from the very best whole skins, 36 inches long; slightly fitted at back, with deep vents, neat roll collar, lined with fine French brocade satin, and trimmed with buttons. \$137.50.

Black French Fony Coats, made from selected skins, beautifully marked, and very glossy, Chapell's French dye, in lengths from 36 to 50 inches; various new designs, fancy or plain satin lining. Priced from \$35.00 to \$100.00.

Handsome Auto Coats, 48 or 50 inches long, very full sweep, some are full sacque back, others slightly fitted; suitable for carriage or street wear; in natural racoon, Orenberg, marmot, natural muskrat, Hudson seal, hare, seal, and other furs. Now in stock.

If we have not the style or size coat wanted, we will make to order from measurement at regular stock prices.

A Remarkable Sale of Gentlewomen's Suits \$50 Reduced to \$16.95

THESE figures are incredible, but paradoxical as it may seem, they are absolutely true. \$22.50 up to \$50.00 were the regular prices of these suits. They have been on sale at those figures right in this store since Exhibition time. Naturally you wonder how we can expect anyone to grow excited about a chance to buy \$50.00 suits for \$16.95. It seems so unusual as to be absurd.

Well, it IS unusual. Decidedly so. But we are not going to tell you one thing about that part of it. We simply ask you to see the suits themselves. You have a most remarkable opportunity.

The collection numbers 250 suits all told. In that number there are fully forty-five different styles, all beautifully cut.

The materials are mostly West of England worsteds, but English Serges, French Venetians, Imported Panamas, Cheviot Serges and French Broadcloths—all of quality.

In this collection are the following colors: Wisteria, taupe, amethyst, grey, green, brown, navy, tan, fawn, electric blue and black. Coats are 32 to 40 inches in length, lined with either silk or satin. Skirts are full flare, gored or pleated styles. These suits sold regularly at \$22.50, \$25.00, \$35.00, \$37.50, \$45.00 and \$50.00. Tuesday, \$16.95. Cannot accept phone or mail orders for these garments.

On Tuesday We Make a Feature of Black Net Waists

THE Department has never been in such a good position in regard to Black Nets as at present. Our Black Waists are stylish, fashionable and new in the best sense of the term, and the call of the season is for black.

At \$5.00—We present a very elaborate Waist of black net, the whole of the front is braided with a fine Valenciennes lace, tucked sleeve, with deep cuff, lace inserted and braided.

At \$7.50—Is a beautiful Blouse Waist of coarse black fish net, bandings of fine chignon silk, fine tucked yoke of Ninon de Soie, silk cord and jet frogs, heavy gimpure-inset running to bottom of waist, the new Jambon sleeve; altogether a perfect lady's waist.

At \$9.50—An elegant model of black coarse fish net; the whole yoke and collar of crossed soutache, heavy silk motifs on front, shoulders and sleeves, rich silk insertion running down each side of front, cuff of crossed soutache, with silk motifs; one word to express this waist—"original."

These three models are all lined silk. We can show you other models in black as low as \$2.95 and as high as \$25.00.

\$15 is Our Strongest Line

MANY A MAN would pay a little more than he usually does for a Fall Suit if he took the time to investigate our fifteen dollar suits.

MANY A MAN would likewise pay a little less than his customary price did he but take the time to look into the excellence of our fifteen dollar suits.

We have cheaper suits which are not so good, and higher-priced suits which are better.

BUT—the best compromise between what you would like if money were no object, and what you could get if ambition cut no figure rests at \$15.00. That's the point.

Let us prove it up with actual goods as evidence.

Men's Blue and Black Fine Twill Worsted Suits, materials are rich in shade and color, woven from the finest Botany yarns, cut and tailored newest single and double-breasted design. \$15.00.

Men's Suits, in fancy English worsteds, the newest fall shades, single-breasted, dip front, sack models, finished with flaps on pockets and fancy cuffs, in sleeves. Extra special value. \$15.00.
