HUMORS OF HISTORY--18.

THE JAPANESE GROW ANGRY

France Charged With Giving Russians a Base at Kamranh Bay--Why Should Not Japs be Permitted to Use Hong Kong?

Tokio, April 21.—The Japanese regard the Kamranh Bay incident with growing feelings of resentment and bitterness toward France.

The Night Nishi to-day asserts that the evidence is conclusive that Admiral Rojestvensky is using Kamranh Bay as an actual naval base for belaguered action.

The Jilt discusses France's historical attitude on the question of neutrality and insists that the use of Kamranh Bay enhances Admiral Rojestvensky's fighting capacity and offers facilities for warlike preparation.

A former cabinet minister, discussing the incident to-day said: "I am keenly anxious to avoid involving others, but we are bound to protect our rights."

St. Petersburg, April 21.—The personnel of the Goremyn committee appointed to discuss questions relating to the seizure of lands was announced to-day. It includes M. Stikhinsky, formerly chief adjutant of the Russian interior department; M. Von Plavne, son of the late interior minister, and other adherents of a reactionary tone.

Additional conscripts are being brought to St. Petersburg in view of the anticipated disorders on May day. Two squadrons of Cossacks of the Don arrived here yesterday.

By the order of the minister of education all new instructors in the middle schools must take the oath of allegiance to the emperor.

The students who were tried for engaging in red flag demonstrations in front of the Kazan Cathedral December 11, have been sentenced to from three to four months imprisonment.

France Gives Notice. Paris, April 21.—As a result of communications between the governments at Paris and St. Petersburg the Russian government has forwarded urgent orders to Admiral Rojestvensky rigorously to respect the neutrality of French waters.

A new warehouse is being built by W. H. Thorne & Co. on their wharf, Water street, for the accommodation of the freight to Nova Scotia, ports, by the bay steamer Brunswick. The new building will be very large, and will be another addition to the winter port harbor front.

HAMPTON WOMAN KILLED.

Mrs. Wetmore Dies From Injuries Received in Carriage Accident in the West--Fredericton News.

Fredericton, N. B., April 21.—(Special)—Collector Street received a telegram last night informing him of the death at Moosomin, N. W. T., of Mrs. Wetmore, wife of Judge Wetmore of this place. Her death was caused by injuries sustained by being thrown from her carriage while driving near her home on the eighth instant.

A meeting of the executive of the Maritime Council of Royal Templars is being held here this afternoon. Among those in attendance are John

of the neutrality of French waters. The officials say that the only additional measure open is the use of French warships to employ force in expelling Rojestvensky's squadron. Such a course, however, is said to be impossible owing to the small number of French ships in Indo-Chinese waters. Moreover, as an official remarked, France is not in the habit of resorting to such extreme measures as using force. This is particularly true in the case of Russia owing to the complications which might arise from France adopting forcible steps against Russia, therefore the instructions already given from Paris and St. Petersburg are relied upon to prevent Admiral Rojestvensky from encroaching upon French territorial waters.

Paris, April 21.—A telegram received from St. Petersburg and understood to be of official origin says: "The Russian Admiralty has notified Admiral Rojestvensky of the grave danger to peace, which will be entailed if the stay of his squadron on the coast of Amann is prolonged, contrary to the laws of neutrality. No doubt is entertained that the admiral will carry out the formal instructions sent to him."

British Fleet Active. Hong Kong, April 21.—There is noticeable activity among the vessels of the British China squadron. The armored cruiser, Hogue, has been ordered to be in readiness to proceed to sea at two hours' notice, with full steam.

St. Petersburg, April 21.—(Special)—The water in the river here has fallen three feet within the past week and it never was up to the usual spring mark. It fell about three inches last night and is expected to fall another inch here at one o'clock this afternoon.

Edward O'Brien has declined the position of chief of the Maritime Branch of the Co. St. John, and will remain here.

St. John, N. B., April 21.—(Special)—There was a panic at City Hall this morning. Yesterday afternoon the Magee wharf, on one side of the east side ferry floats, was declared to be airtight. A cable was attached and the thing fastened down so that Wun Lung could make port. The recorder and one or more aldermen hovered about the place all the afternoon, but nothing serious happened.

Early this morning starting rumors got abroad. One was to the effect that the Magee wharf had moved into the ferry slip, and another which was confirmed later, was that it was out in the stream preparing

to ram Wun Lung and sink her. There was a rush of aldermen to City Hall, and all the officials were sent for. A despatch was sent to Naval Architect MacLean, asking him what he would charge to come down and lead an expedition for the capture of the enemy. Threats of suits for damages were made by fishermen who objected to a wandering wharf among their nets. A party was sent down to inspect the foundations of the McLeod warehouse, and the ferry committee sent home for their diving suits. A wireless message was sent to the commander of Wun Lung not to leave port until a signal was displayed from City Hall.

St. John, N. B., April 21.—(Special)—A disastrous fire broke out at an early hour this morning and reduced to ashes the convent of the beautiful little village of St. Genevieve. One nun and twelve children lost their lives.

As soon as the fire was discovered, the villagers hastened to the aid of the doomed building. Bucket brigades were hurriedly formed and every possible effort was made to save the building but the fire had gained such headway that it was soon apparent that there was no chance to save it from destruction. The inmates hurriedly groped their way out of the building. Notwithstanding all efforts, unfortunately there was a deplorable loss of life. One of the

NEWFOUNDLAND MEANS BUSINESS.

St. John's, Nfld., April 21.—The colonial government has issued regulations under which Newfoundland and Canadian vessels will hereafter be allowed to procure bait in colonial waters, but restricting the quantity permitted them and imposing severe penalties for any violations of the rules. This action by the government is designed to prevent the native fishermen from obtaining excessive stocks of bait from which they might supply American fishing vessels excluded from these waters under the new Bond bait act. The regulations are very comprehensive. They include the treaty coast and Labrador and show that the government is determined to enforce the anti-American law.

C. Reeves and George Ross, of Amherst. Rev. A. J. Prosser of St. John, Fred J. Todd of Fredericton, O. N. Goodspeed, of Nashwaak, and W. L. McFarlane of Nashwaak. Matters in connection with propagation are to be considered. Good Friday is being quietly observed here as a public holiday. Most of the stores are closed, and there is not as much stir as usually seen here, on a Sunday. Quite a number of people are spending the day out of town.

The directors of the Fredericton Park at a meeting last evening, practically decided to hold a race meeting on July twelfth. Another meeting will be held next Wednesday to prepare a programme.

The Fate of Beotric. H.D. 827

"Beotric, the last King of Wessex, was accidentally poisoned by his wife. She intended the potion for a courier against whom she had a prejudice, but her husband, who was probably of a convivial nature, also partook of the mixture, and there was a double funeral."

AFTER MANY YEARS.

James Brennan and his brother, Patrick, met at the former's home, Union Hotel, on Sunday last after a separation of twenty-seven years. A correspondence had been kept up between the two, but in all the absent brother's voyaging about the world, he had never happened to strike this port, since he left it a young man of

eighteen. Mr. Brennan is now engineer's steward on board the new turbine the Virginian and has been making the most of his time while ashore in renewing old acquaintances.

Members of the Carleton Stranahan Band will remember Mr. Brennan as a shining light of that organization in years gone by, and he has found quite a number of people whose

recollection carried them back to 1878 and beyond. He will sail with the Virginian on Sunday for Liverpool, where he has a wife and a home ready to welcome him.

Steamship Manchester Commerce, shifted down to the Ballast wharf this morning to take on board deals &c., for Manchester via Philadelphia.

St. John's, N. B., April 21.—(Special)—The water in the river here has fallen three feet within the past week and it never was up to the usual spring mark. It fell about three inches last night and is expected to fall another inch here at one o'clock this afternoon.

GOOD FRIDAY IN THE CHURCHES.

Sermons Preached by the Rev. E. A. Wicher and Canon Brock This Morning--The Crucifixion and Its Meaning to Mankind.

This is Good Friday and business generally throughout the city is suspended. Some people who have summer cottages in the country took advantage of the holiday to go out and look over their property to see how the winter had dealt with them, and to plan for the coming season. About the city it is very quiet and the services which were held in various churches this morning were well attended. This afternoon there is a matinee in the York Theatre and the Opera House, and this evening there will be a performance in both places.

Rev. E. A. Wicher. Rev. E. A. Wicher preached a powerful sermon in St. Stephen's Presbyterian church this morning on the crucifixion. He took for his text St. John 19, 30. "Jesus said, It is finished, and he bowed his head and gave up the ghost."

"It is finished!" "Calvary, he said, is an insignificant place geographically, but it is the place to which all the affection of the christian church turns again and again. It was here that Jesus died."

"It is finished! Pilot would say. In finished! The people would say. The convicted malefactor has been punished, and that is the end of it. To the disciples also it was finished. They had been dashed and there was nothing to be looked for. Jesus said, 'It is finished!' And this marks the changing point of the world's history. What did He mean when He said those words? The pain is over now and His suffering ended. He had suffered to the last. He had loved to the last. He had come to His peace. The Man of Sorrows had ended His labors, but in the midst there is a cross, and everything led up to Him had turned against Him, his mother and his brothers did not believe in Him, and His disciples only faintly understood him. He that had no sin was made to bear the burden of the world's sin. Men did not know what Christ had done in that dark time. They thought it

was only another malefactor gone. His death was a redemption for us. There is access now to God. Jesus has become our mediator with God. The choir sang as an offertory a portion of "The Story of the Cross."

Rev. Canon Brock. Rev. Canon Brock preached an interesting and instructive sermon on the "Power of the Cross," at this morning's service in St. John's (Stones) church, taking for his text Jesus said, I if I be lifted up from the earth will draw all men unto Me. The speaker pointed out that the term, "lifting up from the earth," meant the lifting up of the Son of Man on the altar of the cross. This great sacrifice, the church has waited for over nineteen centuries. It was a universally acknowledged, voluntary self-sacrifice, a moral effort to reconcile God with fallen man. Standing beneath the shadow of the Cross of Calvary, this would be the subject of meditation today. The power of the cross arises from the fount of the atonement, the making at-one-ment of God and man.

In the mind of man is wrought a consciousness of sin, and this consciousness brings an atonement. The speaker referred to scriptural accounts of the sacrifice of the prophets of Kings, and the divine revelation of the need of an atonement from the first. The sacrifice recorded in Holy Writ were preparatory to the one great sacrifice offered on the Cross of Calvary. There are three forms of human sin, and the sacrifice of the cross relieves us of all. Sin keeps us in bondage, but the Cross of Christ sets us free. "The Son of man came not to be ministered unto but to minister." St. Paul says that God made peace by the death of Christ on the cross. St. John says, "We have an advocate with the father."

Ransom, reconciliation, redemption. "Christ is all three. Scripture says He is of one substance with the Father. The power of the cross is clearly shown in the words 'I will draw all men unto Me' and with this in view we should strive and pray to live ever nearer to God. The choir, under the direction of Dr. Arnold Fox, rendered special music for the occasion.

CHILDREN PERISH IN CONVENT FIRE.

St. Genevieve, Near Montreal, the Scene of an Awful Tragedy Early This Morning--Twelve Are Dead and Several Missing--Frenzied Women and Children Leap From High Windows to Escape Hungry Flames.

BEACONSFIELD, Que., April 21.—About 11 o'clock last night, fire was discovered at the convent of the Sisters of St. Anne's at St. Genevieve. The whole building was a mass of flames within five minutes after the discovery of the fire. It was impossible to get to the top flat to effect the rescue of all the pupils and nuns, who were sleeping. It was pitiful to hear the screams for help. It is now known that one of the nuns is in the ruins with about thirty of the girl pupils, ranging in age from seven to eighteen. Five or six old pupils were in the hospital in connection with the convent. Quite a number of pupils jumped from the windows from the third and fourth floors, injuring themselves badly. The house belonging to Mr. Desrosiers, which was situated near the convent, was also destroyed. Damages were heavy. Some of the girls in the ruins belong to Montreal and different places throughout the provinces.

QUESTION OF MORALS. Negative Treatment of Drink Question Will Not Cure The Evil.

The Rev. John Mackay, B.A., addressed the temperance mass meeting in Knox Church, Montreal, on Monday evening. Mr. Mackay said that after a study of the question as to how to cure the evil of drinking, he had come to the conclusion that the attempt that was being made to cut off the supply of liquor from users, which was a negative treatment of the evil, could not succeed.

A Lawson Blast, the Northern Securities Affair, the Insurance Tangle, the Eastern Situation, the High Market and a General Feeling of Doubt and Suspicion All Had an Influence.

New York, April 20.—The cloud of suspicion and distrust which has been gathering over the stock market, during the whole of the week, broke this morning with some violence. The decline was contested in the early stages, but it gathered force as it was extended. The quick exhaustion of the buying demand on the occasional rallies was a sufficient evidence to the professional traders that the speculative position was still vulnerable. They returned to the attack accordingly, again and again, and on each successive slump the weight of the offerings disclosed was greater.

CROP REPORTS.

Considerable importance is attached to the first crop report of the season issued by the Canadian Pacific Railway. Taken generally the report is a most favorable one. Seeding began about two weeks earlier than last year, and since then the progress of the crop has been rapid. It is estimated that the North-Western acreage under cultivation will be increased by about 1,000,000 acres, and that the total acreage under crop will be about 4,900,000 acres.

CIVIC CONTRACTS.

On Wednesday the city council considered two large contracts for the waterworks extension. On Thursday they amended one agreement, adding \$9,000 to the amount to be expended. As today is a holiday no further action will be made, but tomorrow and next week are yet to come. The council was instructed yesterday that the plan and the like were apt to figure in civic contracts, but so early a beginning was not anticipated. Six minor contracts aggregating between \$12,000 and \$15,000 were also considered yesterday. This makes eight in all, so that there is a chance for the council to make a great many amendments and changes, if it feels disposed, and wants to spend some more money.

The council may within a short time award contracts for new steamship routes. There will be another opportunity to make amendments and add extras. The practice should be as far as possible discouraged. The citizens will do well to keep a sharp eye on those matters. When the railroad warehouse was being built the council apparently doubted about some of its other officials, appointed an inspector. The inspector's report condemned the manner in which portions of the work was being done, but the council refused to be governed by it, and accepted the structure. How much of that sort of thing is to be done in connection with the new wharves and warehouses, and in connection with the waterworks contracts, by a council which has been appointing only its own members, who apparently approved of such methods, as one of its inspectors in connection with the waterworks?

The Times has no disposition to find fault with the council, but would remind the members that they have some very important matters to deal with during the next few months, and that old methods will not be approved of by the citizens.

THE NEW BERTHS.

The decision of the city council to go on with the construction of another berth at Sand Point is in line with the desire of the citizens and the requirements of the port. The transportation companies using the facilities provided are willing to pay a sufficient toll to cover the interest and sinking fund charges. In order to resume full control of the berths along the slip at Sand Point the city will pay back the \$50,000 to the C. P. R. and the toll charges are to provide for this expenditure also. Thus the city will not be called upon to pay out any of its own money to secure the additional facilities to overcome the objection of the divided control of the wharves.

A difficulty will arise in connection with the dock. It arose when the proposed agreement with the C. P. R. to construct new berths that is now proposed to build them was under consideration a couple of years ago. A bridge must be made across the proposed entrance to the dry dock—if the dry dock is built—and over it must pass all the traffic to the new berths. The railway people declare that a one track bridge will not handle the traffic and the dry dock people object to more. It is perfectly obvious that room for all the traffic that may come must be made available, and a bridge or other means of reaching the berths must be provided. There is no present need of a bridge, but the agreement with the dry dock people must be looked into. There will, however, be a general assent to Mayor White's remark that the dry dock bridge must not stand in the way of additional steamship berths.

THEY MEAN BUSINESS.

The new liquor license commissioners appointed by the Whitney government in the city of Ottawa have declared their intention to enforce the law to the limit, and to have nothing to do with political partisanship. They promise to make things interesting for violators of the law. At a meeting this week they heard deputations from the temperance people and the liquor dealers' association. To the former they said they would not reduce the number of licenses this year; to the latter they handed out these regulations, with a declaration that they meant business.

1. Tight on and after the first day of June, A. D., 1905, all windows of bar-rooms and shops where liquors are offered for sale be of clear glass and that all doors leading to such places have the upper half of clear glass, and that during prohibited hours all blinds and obstructions which would prevent a clear sight of the whole interior of said places for the sale of liquor as aforesaid be removed.

any electric or other bell, gong, tube or whistle connecting with the office or other part of said premises.

3. That on or before the first day of May, 1905, the provisions of the Alcoholic License act, regarding shades during prohibited hours will be strictly enforced.

4. That a copy of these regulations be posted up in a conspicuous place in the aforesaid bars and shops.

5. For non-compliance with regulations one, two, and four the party so offending shall on conviction be liable to a penalty of a sum not less than \$25, nor more than \$50, for each offence with costs.

6. That such bar-rooms and shops as mentioned aforesaid shall not have

may be, with the true account of a benevolent despot; in which, while our own interests are not greatly involved, strong appeals are made to our sympathies. Casting the light of his dark lantern across the Atlantic, he sees that crimes are sometimes committed on so vast a scale and of such peculiar horror that it is the plain duty of America to intervene. Were we concerned with any less exalted mortal than the president of the United States, we might point out that even he can not have his cake and eat it, too; that if he excludes us from the Western hemisphere, he must reasonably be asked to keep his flashlight out of the Eastern. But his great soul will be content with nothing less than the entire earth, and whether we like it or not, there is a policeman in Washington ready at any moment to run us in.

No doubt we ought to be very grateful to Mr. Roosevelt for his promises of universal benevolence. But we are churlish enough to think that he would be wiser to confine his activities to his own side of the world. Europe has already secured a providence of its own, and there is no room within its narrow limits both for William II, and his rival. Moreover, if it may be said without offense, there is plenty of work for the policeman in the United States. If the president looks nearer home he will find not a few crimes of which it is safely to be said that he takes no approval. It is true that he takes a lofty view of his own country. The question of being a good American, says he, has nothing whatever to do with a man's birthplace any more than it has to do with his creed. Good Americanism is a matter of heart, of experience, of lofty aspiration, sound common sense, but not of birthplace or of creed. What, then, is good Americanism? The President's glittering generalities tell us nothing, and if we look elsewhere for a definition, we shall find one which is not consoiling to the selfishness of the great republic. It is impossible to pick up an American newspaper or to open an American magazine without finding abundant evidence that the United States are animated by a spirit of lawlessness unparalleled in the history of the civilized world. We have no wish to bring a charge against a whole nation. That foolish enterprise may safely be left to Lord Chesterfield's phrase, to valets de chambre and to other foolish persons who aspire to self-havingness. Good Americans differ in no wise from good Englishmen or good Russians. But if we may venture to give the name of Americanism to the establishment of orderly government, no longer is Mexico synonymous with perpetual faction fighting, of the most truculent type. Diaz rules and order is maintained steadily, but without recourse to severity. As the people have no revolutionary ideas, their time from business, trade and commerce steadily increases. In twenty years imports have risen from \$20,000,000 to \$75,000,000, and the exports from \$7,000,000 to \$48,000,000. Of the foreign trade of Mexico the bulk is with the United States. Mexican exports to this country which were \$4,846,364 thirty years ago, were \$45,948,320 in 1904. Next to the United States come Germany, but a bad second, selling Mexico about \$9,500,000 worth of goods. The closeness of our trade relations with Mexico is due to more than physical proximity, that country having become a kind of province of American investment. Three years ago our consular general estimated the amount of American capital in Mexico at \$80,000,000. The growth of Mexico's trade and resources makes for future stability, and most of her troubles in the past came from lack of employment of her people in industries that did more than satisfy their daily needs.

NEW TUBERCULOSIS CURE.

Waterbury, N. Y., April 20.—The Standard says: Dr. Alfred Goss of Adams, as the result of long research in the realm of electrotherapeutics, has worked out a treatment for tubercular troubles that promises a possibility or cure of tuberculous. While the results of the treatment in the forty-four cases that Dr. Goss had had are most gratifying, he is not yet prepared to state that the treatment is an assured success. Dr. Goss has succeeded in introducing by means of static electricity a germicide that will not affect the albumen of the blood, and has been shown to kill tubercle bacilli in the lung tissues. The germicide decomposes under the action of the electricity, and the atoms of the resultant gas combining with the electrons, pass on into the tissues. Dr. Goss has treated forty-four cases of tuberculosis, of which thirty-two have been pronounced cured.

WILL BUILD THE WHARF AND CHARGE SMALL TOLL. This is the Decision the City Council Reaches in Reference to Additional Harbor Facilities For the Port of St. John.

The common council yesterday decided to build another wharf at Sand Point, the government agreeing to do the dredging and the steamship companies to pay a tonnage charge on through export and import freight at a rate to be calculated—this charge to be sufficient to provide interest and sinking fund for the proposed new work.

It was decided after a somewhat heated debate to have the new wharf in red wood instead of Douglas fir, thus increasing the cost of the wharf by \$2,000,000.

Mr. Schofield, speaking for the steamship lines, reviewed the present situation. He pointed out that the wharf must be at St. John or vicinity, but for a great many years the wharf had been at Moncton.

The result of the scheme, Mr. Schofield said, would be to provide additional wharf and warehouse accommodation without adding to the tax rate. Raising of the \$30,000 to pay for the wharf would be included in the C. P. R. tonnage charges.

Mr. Schofield read a list of tolls charged in Montreal such as three cents a ton on grain, 8 and 10 cents on other goods.

TELEPHONES IN GLASGOW. A Fight for Millions. Tax Resisted by Railways of New York City— State Franchise Law Comes Before the Supreme Court—A Favorite Measure of Governor Roosevelt.

Washington, April 20—Another battle royale between corporations and the law commenced in the United States Supreme Court yesterday promising to smolder rival in public interest the famous Northern Securities case, which, by a coincidence, has come to a close by the issuance of the court's mandate carrying out the concluding act in that celebrated litigation.

Before Sir Wm. Mulock's telephone committee at Ottawa this week, Councillor Willock of Glasgow, related an interesting story of the development of the municipal telephone system in that city.

At the close of the meeting a considerable number of letters were read, showing the wide public interest in the question. One was from Collingwood, telling how a local movement for a rural line had been frustrated by the Bell Company.

BASEBALL

Provincial League Project.

At three o'clock today there will be a meeting of the representatives of Fredericton, the Portlands and the St. John's baseball teams at the DuRoi Hotel.

The two St. John teams, and Fredericton will be in the league without doubt, and Moncton, while favorable, has not as yet definitely decided to enter.

Manager Joe Page of the St. John Club expressed astonishment at the article which appeared in the Fredericton Gleaner a short time ago, in which it is suggested that he was crowding other St. John teams out, and that the team here was only a feeder for the Montreal team.

My impression is, and I have watched the game here for the last two years, that base ball in St. John has been steadily on the decline, and my only object in 'putting in' as the Gleaner calls it, is to put life in the good old game here, as I am convinced that with the expenditure of a little money the game can be put on its old footing in this town, and this has always been a ball town.

At to-day's meeting Haney and Rogan will represent the Portlands; Page, St. John's; Black, Fredericton; Moncton's delegates have not been officially announced.

ON FIRST BASE PLAY.

The position of first base and its greatest requirement is one which few regular baseball attendants seriously consider. They see the man hold out his mitt and catch the thrown ball, and then yell because the runner of the opposing team is out.

National League.

Boston, April 20.—Brooklyn won easily from the home team today, batting Hershey out of the box in the fourth inning. Volz who succeeded him gave a pass, and the errors behind him contributed to the visitors' score.

American League.

Washington, April 20.—American—Washington took the third straight game from Boston today by consecutive hitting in the first and third innings. After the fourth inning the game resolved itself into a pitcher's battle and but one hit was made on each side.

BOWLING

The Next Game.

The next game in the five pin series will be played Saturday night at 8:30 o'clock on the Ritchey alleys, between the following teams: Capt. A. Nichol, C. Cowling, F. Appleby, C. Harding, J. Daley, H. O'Brien, C. Olive, H. Sutton.

In case either team fails to appear they will have to forfeit the game. The St. John players are anxious for a game with the Fredericton bowlers on the Ritchey alleys here.

CRICKET

Australians Enroute.

Toronto, April 20.—The Australian cricket team for England passed through Toronto yesterday on the way to England, via Niagara Falls and New York. They were here only long enough to change from the North Bay train to that for Buffalo, and as they are due to sail from New York on the Majestic to-day, their sight of the Falls would necessarily be a brief one.

ATHLETIC

St. Stephen Sports.

E. R. Hyatt, secretary of the Thistle A. A. C. of St. Stephen, says that the prospects are that the indoor events to be held in his town on May 5 will, from all appearances, be the most successful that have been held in the border town for some time.

HORSE NOTES

Lou Dillon's Pedigree.

The turf papers have been making a vigorous search for the ancestry of the trotting champion, Lou Dillon (\$1,584), and it would seem that the latest evidence adduced by the Horse Review bears the earmarks of final authenticity.

NOTES OF SPORT

At the executive meeting of the Nova Scotia League at which the Windsor-Amherst game was given to the Harbinger, the Turo and Windsor men of course voted against, and the New Glasgow representative would not vote at all.

Handsome Presents.

Packages of Rainbow Out Plug Smoking Tobacco contain coupons which can be redeemed for handsome presents.

Dumb.—I say, this is the third time I've called on you for you to pay that bill. Don't you know that time is money?—Slowly—"Oh, if that's all, come as often as you feel like it. I'll give you plenty of my time."

THE HORSE MARKET.

High Prices Demanded in the Country and Farmers Not Anxious Sellers.

(Special Gazette.) The condition of the market for horses at present is strong and the prospects are that high prices will rule for some time.

ADVICE TO CATCHERS.

A player behind the bat must keep his whole mind on his work and especially at first, as throwing has just begun.

NORTH SHORE NOTES.

(Chatham World.) A young man from Chatham, N.B., knows, left Portage Island on Sunday in a shooting boat, and has not since been seen.

SUGGESTS PLAN OF FEDERATION.

Speaking before the British Empire League at the Y. M. C. A. Hall in Toronto, last week, Rev. D. V. Lucas, D. D., of Grimby, Ont., and formerly of Australia, declared that the disintegration of the British Empire would be one of the biggest calamities which could befall mankind.

King Edward VII. ruled over a world five times the extent of the dominions of King Nebuchadnezzar at the time he issued his proclamation that the whole world should be taxed.

"The smallest part of the empire," said Dr. Lucas, "should be made to feel that it cannot be spared lest the whole might be injured."

"What is imperial federation?" he asked. "To my mind it is an exceedingly simple thing, despite an editorial opinion expressed years ago in a Toronto paper that it would be a glorious dream. How do you know, and who says so?" "I say so," he asserted with emphasis.

Parliamentary system, strong as they might be, had no right to interfere with the wants of citizens beyond their own municipalities, provinces or dominions. There should be an imperial assembly to adjust matters affecting the navy, the army, the coinage, the postage and commercial law. British subjects had, he said, no right to do anything but what was in the best interests of the empire.

He objected to the word "dependence" when applied to sections of the empire. All parts of the empire were on exactly the same level, in the heart or hearts of the people. Britain would still be far above the rest of the empire because, God Almighty, had made it so.

SUPERFLUOUS HAIR IS CURABLE !!!

MADAM: Are you afflicted with this Disease Are you still using a RAZOR Are you still using a TWEEZER

Then you CERTAINLY have not used M-A-J-I!

Dr. Alexander Grossman, the eminent Hair Specialist, has after 15 years of Research and Experimenting discovered an ABSOLUTE Remedy for this unsightly Disease.

GUARANTEED To Cure the Coarsest Growth or Money Refunded

And We Can PROVE IT. The above is not the result of magic, but of this Wonderful Discovery named MAJI.

MAJI is endorsed and recommended by the most reputable Physicians as the ONLY remedy for PERMANENT removal and destruction of SUPERFLUOUS HAIR.

MAJI ACTS QUICKLY AND PERMANENTLY.

The action of this wonderful Compound commences immediately on its application to the parts afflicted. It does not burn the Hair; it makes it return more coarse and brittle than ever. MAJI goes to the root of the Evil, it destroys the CAUSE of the growth, it destroys the factors favorable to its growth, MAJI cures by destroying the PRODUCTIVE conditions that cause this Disease.

FOR THE INTER-COLLEGE MEET. Sneak Thief GOT OVER \$100.

Representatives of Different Colleges Met This Morning and Considered Arrangements. Schooner Bay Queen was visited by a thief this morning and over a hundred dollars was taken. The thief is now in the hands of the police.

Among the notes was an American silver certificate for \$5 and a twenty-dollar bill. Captain Austin Lowry, of the Bay Queen, reports that it was his intention to sail this morning for Grand Manan. He came ashore during the forenoon, and had been absent from board only a short time, when he suddenly remembered having left his pocket-book containing the money, on the cabin table. He at once retraced his steps, but on reaching the vessel found that the money had disappeared. He searched carefully, but without success. He was not sure whether any of the crew were on board the vessel or not, but thought that a boy, of whom he seemed to have no suspicion, was the culprit. Captain Lowry could not remember having seen any one board the vessel, and so, is entirely at a loss as to whom the offender might be. On his way to the police station he met a patrolman, informed him of the theft and was advised to report at headquarters.

The captain says he had over three hundred dollars yesterday, but made three disbursements which took about two-thirds of the amount. Over a hundred dollars were stolen and he had only a dollar and some small change in his pocket this morning.

The vessel is lying at the South wharf, about half way down, along side the schooner Sovereign.

THE PRIZE RING. Lawyers, Brokers and College Men See a Scrap in New York.

Atlanta, Ga., April 21.—Jack Munroe, of Butte Mont., knocked out Joe Payne of Cleveland, O., in the sixth round of what was to have been a 15-round bout, at the Atlanta Athletic Club, last night. Payne was unconscious for several minutes, after the knockout.

New York, April 21.—Mont. Atsall, of San Francisco, has knocked out "Kid" Taylor, of Chicago, after seven fast rounds, fought in a ring pitched on the top floor of a quiet hotel in this city. The battle was one of the liveliest seen in New York, since the fight between lawyers, brokers, and a liberal sprinkling of young athletes, from several college clubs in town. The orderliness of the spectators can be gauged from the fact that regular patrons of the hotel knew nothing of the affair.

City Armstrong of Meclenburg street, is home from the university of Maine, where he has been taking a course in engineering.
