Deadlock Still Over
Ross Amendment

Expected Settlement at Ottawa Over
Nova Scotia Lists Was Not Reached
Last Night

Ottawa, Sept. 18.—A belief, which prevailed in parliamentary circles last night, that an agreement had been reached which would settle the deadlock which rose in the senate over Senator Ross' amendment to the war-time-elections act, affecting the Nova Scotia lists, was dispelled this morning. It was found that the proposals made by those who had been in conference were not satisfactory to everybody concerned and a fresh conference was summoned further to consider the matter.

SAYS NEW GERMAN
GAS IS VERY BAD

O. Lewis Got it at Lens But is
New Recovering in England

In a letter recently received by his father, Oliver Lewis of this city, Pte. O. Lewis says that the German new gas is very bad and that he was badly gassed at Lens and for some time could not speak, but can do so fairly well now. A later letter contains the information that he was better and expecting to be home in a few days. He has been ever since in France. Last Christmas the Canadians had a fine time. They crossed over into No-Man's-Land and walked around all day. "We made up for it next day, though," he writes, "I could not tell you about it when I was in France." Private Lewis went over with the 140th Battalion and was transferred to another. He is in Ward U, No. 4, White Cross Military Hospital, Varrington, Lancaster, England.

TRADES AND LABOR
CONGRESS MEMBERSHIP
ROLL NOW 81,687

Ottawa, Sept. 18.—When the morning session of the Trades and Labor Congress opened here today, Secretary Draper read a telegram from Samuel Tompkins, president of the American Federation of Labor, expressing his regret that urgent matters would prevent his attendance at the Canadian congress. Secretary-Treasurer P. M. Draper at his report for the year ended September, 1917. The financial statement showed that the congress had a balance of \$871.45 of receipts over expenditure. The membership was now 81,687, an increase of 17,114 over last year. Draper compared the financial aspect. He also said that city employees taken a greater interest in labor movements than ever before. He detailed the rate of increase in the various wages and said that the congress had as to its credit \$14,871.45. Chairman F. Bancroft, of the committee on officers' reports, said that his committee was ready to proceed, and as a question of greatest importance was a attitude of organized labor upon the military service bill, all the resolutions dealing with this matter would be taken at once. These resolutions deal with the conscription of wealth and nationalization of power, urge a general strike unless the government sees fit to carry out the dictates of these resolutions, urge wider representation of labor on the military tribunals and legislatures, and generally oppose conscription unless the people are consulted.

LONDON STOCK MARKET

London, Sept. 18.—The stock market was inactive with a generally good undertone today. Prussian, Japanese and Chinese bonds were the firmest in the illiquid section, while Java rubber and iron and tin mine shares were strong. Argentine rails recovered slightly. Money and discount rates are quiet, pending developments in the New York market and the effect on exchange of America's shipments to neutrals.

CORN AND WHEAT

Chicago, Sept. 18.—Misgivings that the rust danger was still imminent seemed to have too strong a hold today on the corn market to be readily dispensed. The bulk of the corn crop in Kansas and Missouri will not be safe until September 20. Advances, however, were not well maintained. Opening prices ranged from 1/4 cents to 3/4 cents over, were followed by a sharp uptick to well above yesterday's finish and then a fresh sag. Wheat receipts in Chicago showed no material enlargement. Incoming supplies at Minneapolis and Duluth, though nearly equalled in volume the totals at the corresponding time last year.

Montreal Cattle Market

Montreal, Sept. 18.—(East End Market)—Receipts: Cattle, 850; sheep, 600; goats, 800; calves, 200.

WILL FAKE UP
ALLEGED UNION
GOVERNMENT

Borden Writes to Vancouver Liberal—No Sign of National Government, Says Premier Sifton

Vancouver, B.C., Sept. 18.—That it is both his purpose and expectation to form a union government before the general election now imminent, but that should prove impossible, he will certainly do so after the election, if returned to power, is the statement of Premier Borden in a letter addressed to E. P. Davis, K.C., a prominent Vancouver Liberal. The letter, which is dated Sept. 10, is a reply to a communication from Mr. Davis in which he asked the premier if it is his intention to go to the country in the coming election on the principle of forming a union government if returned to power. Premier Sifton thought that if the Borden government goes to the country as a party government, and makes a partisan appeal that there will be an election on strict party lines. If a national government is formed, the Alberta premier thought that it would be a national government. He knew of no negotiations in progress at present. He intimated that much of the newspaper talk about national government negotiations was without foundation. MONTREAL DAILY
MAIL WAS NOT
ISSUED TODAY

No Statement as to Whether or
Not Publication Will be Resumed

Montreal, Sept. 18.—The Daily Mail has ceased publication after an uphill fight against financial obstacles. There was no issue of the Daily Mail this morning, and M. E. Nichols, president, and manager of the company, refused to say whether or not publication would be resumed or not. He would not make any statement.

ODOFFELLOWS IN PARADE

Some 25,000 in Line at Demonstration in Louisville

Louisville, Ky., Sept. 18.—Odofellows from all parts of Canada and the United States, who are here attending the ninety-third session of the sovereign parliament of the Odofellows, are participating today to take part in a patriotic parade with approximately 25,000 members in line.

PHILADELPHIA SHOT
IN ELECTION RIOT

Philadelphia, Sept. 18.—A riot today in the Fifth ward of this city where two factions of the Republican party are bitterly fighting for control resulted in the killing of a policeman and the wounding of several political workers. George Ripley, a policeman, was shot dead and James Carey, a city official and a leader of one of the factions was injured and sent to a hospital.

WAR NOTES

A London Times correspondent says the Germans are endeavoring to revive in Belgium the practice of forced labor in another form. In a collision of two airplanes at Camp Borden, Ontario, yesterday, Second Lieutenant Williams of Toronto, and Cadet Ludford, of New York, were killed. France is moving to restrict the consumption of print paper or raw materials used in its manufacture during the war. Former King Constantine of Greece and his wife and five of their children, have left for the Egean mountains, Switzerland, to reside. The Spanish ambassador in Washington denies that the Mediterranean coast of Spain is serving as a base for German submarines.

MARK TIME IN FRISCO
STRIKE

San Francisco, Sept. 18.—Both sides involved in the strike of 25,000 members of unions affiliated with the San Francisco Iron Trades Council for a fifty per cent. increase in wages, marked time today awaiting the arrival of mediators. A prolonged conference between joint committees of workers and employers endeavoring to find a settlement basis, adjourned early today without productive results.

British Get Two U-Boats
In North Sea

Copenhagen, Sept. 18.—Two German submarines have been sunk by British naval forces, reports the Bergen correspondent of the Tidens Tegn. Six men from the U-boats were taken prisoners. An armed British steamer in the North Sea sank a German submarine which was shelling a neutral sailing vessel. The second submarine was sunk by a British torpedo boat destroyer while attacking an armed steamer.

FACTORY IN
TRENTON, N. S.
PREY OF FLAMES

Part of Eastern Steel Company
Plant Ablaze, With Heavy
Loss

New Glasgow, N. S., Sept. 18.—A little after seven o'clock this morning, when the large plant was filled with a host of busy workers, fire suddenly broke out in the machine shop of the Eastern Steel Company in Trenton, N. S. Red, gasoline, oil and waste instantly burst forth into flame. The workers had to make a hasty retreat by the nearest exits and in a short time the shop, filled with the finest machines for finishing shells was a mass of ruins. The building, a steel and concrete structure, is a mass of ruins. The heat of the fire was intense and the steel and iron were twisted almost beyond recognition. The fire departments of New Glasgow and Trenton both responded to the call for help and rendered several hundred cuts from broken glass. The plant is nearly covered by insurance and the complete restoration of Belgium is a costly proposition.

WOMAN AND MAN
FOUND IN STREET,
EACH OF THEM
WITH THROAT CUT

New Britain, Conn., Sept. 18.—Mrs. Anna Tobin, aged twenty-five, was found dead in the street here early today with her throat cut, while a short distance away lay William J. Wink, said to be connected with the quartermaster's department at Fort Slocum. His throat had also been cut, and he was unconscious. He was taken to a hospital, where, it was said, his recovery is expected.

FREE ENTERTAINMENTS
FOR THE AMERICAN
SOLDIERS; A BIG
PROJECT UNDER WAY

Washington, Sept. 18.—The biggest recreational programme ever staged in America, a continuous performance to last for the duration of the war, with an annual supporting fund of at least \$14,000,000, started today at the sixteen national army cantonments.

VORWAERTS DECLARES
THAT BELGIUM HAS
RIGHT TO INDEPENDENCE

Amsterdam, Sept. 18.—Vorwaerts, Socialist organ of Berlin, holding that the complete restoration of Belgium is a corollary to the Reichstag resolution, declares: "Whether the German government remains deaf thereto. It is not only a question of power or policy but justice and conscience. No person is truly wise that disregards the moral and legal factors in the life of nations. Despite the howling of the 'muffed fat' by politicians, we affirm that right is right, and that Belgium has the right to its independence."

MONETTE SAYS
"NOT GUILTY"

Three Charges Made Against Alleged Dynamiter in Montreal

Montreal, Sept. 18.—Henri Monette, alleged dynamiter who was arrested yesterday afternoon in the Roussin school, Pointe Aux Trembles, after having been hunted for more than two weeks by provincial and city police, was arraigned before Judge Lanctot this morning, pleaded not guilty from all parts of Canada and the United States, who are here attending the ninety-third session of the sovereign parliament of the Odofellows, are participating today to take part in a patriotic parade with approximately 25,000 members in line.

BRITISH CASUALTIES
FOR WEEK, 27,164

London, Sept. 18.—Casualties in the British raid for the week ended yesterday follow: Killed or died of wounds—138 officers and 4,755 men. Officers wounded or missing, 481 men, 21,848.

PRIMARIES TODAY
IN N. Y. ELECTION

New York Sept. 18.—An unusually heavy vote was predicted by campaign managers at today's primary election in this city. Mayor J. P. Mitchell, fusion candidate for re-nomination, is opposed in the Republican primaries by former State Senator W. M. Bennett.

MORE EVIDENCE
IN JEWEL CASE

Detective Brigs, acting for the crown, again brought up in the police court today the case of the sixteen-year-old servant of Dr. F. H. Neve's household, charged with stealing a \$150 platinum pendant. Mrs. James Harrington testified that on Friday night the girl returned home with a girl friend and both were in the house when she left. She had been keeping house until the girl's arrival and let her in the door.

FOUR LIVES LOST AS HUNS
SINK TWO MORE VESSELS

Christiana, Norway, Sept. 18.—German submarines have sunk the Norwegian steamers Facta, of 2,372 tons gross, and Thomas Krag, of 3,559 tons gross. This was announced today at the Norwegian foreign office. Two men from each vessel lost their lives.

Former War Minister
In His Own Defence

Soukhomlinoff, Charged With High Treason, Says He Was Faithful to Fatherland

Petrograd, Sept. 18.—Witnesses in the trial of General Soukhomlinoff, former Russian minister of war, who is facing a charge of high treason, having concluded their evidence, the general today was invited to give any explanations he might wish to make. The former minister appeared exhausted by the long judicial proceedings. Speaking in a weak, tired voice, he endeavored to prove the necessity of dismantling Russian fortresses, for which he had given orders. He declared that, owing to the conditions of modern warfare, the fortresses long had lost all their strategic importance, and would have been but traps for the retreating troops. "At the time of the Russo-Turkish campaign," he said, "I gained the conviction that provisional defensive works, constructed while hostilities were in progress, were of far greater practical utility."

THE GLORIES OF THE
SKY LAST EVENING

People who were in the open about 10 o'clock last evening were reminded of the strange "yellow Sunday" of last year when all nature that lay within their scope of vision was bathed in that color—and, incidentally, much to the alarm of the timid. As viewed from a place like say the Bay Shore or Red Bank, the northern sky was heavy with thick white clouds, while the south was walled off by a heavy dark barrier of deepest purple. Flecks of white cloud here and there afforded relief from the general sombre appearance, while the flats bared by the out-going tide asunder the purple hue and the little waves breaking as they realized their destiny were of a white that rivalled the driven snow. Then out of the southern sky sprang a glorious rainbow which, reaching into the high heavens, dipped into the northern depths, completing a wonderful arch of color. Soon appeared a second one while in the west the declining sun covered that part of the sky with a deep golden tint.

BRITISH RAID
BRINGS RESULTS

York and Lancaster Regiments Participated—Further Complications in Petrograd

London, Sept. 18.—The official statement issued today by the British war office concerning military operations in France and Belgium says: "A successful raid against the German positions in Inverness Coppe, reported in last night's communiqué, was made by troops of the York and Lancaster regiments. There was nothing of special interest to report."

END FAR OFF, SAYS
SIR ERIC GEDDES

First Lord of Admiralty Also Believes America Not Yet Fully Awakened

Parkersburg, W. Va., Sept. 18.—Belief that the end of the war is yet far off and that America has not fully awakened to its seriousness is expressed in a letter written by Sir Eric Geddes, first lord of the British admiralty, to George E. Ecker of this city. Ecker was West Virginia manager for a Pittsburgh lumber company at the time the present head of the British navy was a boy of nineteen or twenty, was talking logs and inspecting lumber near here.

ALMOST COMPLETED

Big Task of Laying 24 Inch Water Main in Lancaster

The big task of laying the twenty-four inch water main to replace a long section of the old cement pipe in Lancaster is now almost completed. The entire work of excavating has been accomplished, including much heavy work through a solid rock section, and only three lengths of pipe remain to be laid. It is expected that the work will be finished tomorrow and that the connections will be made at the end of the week. In order to make the interruption to the service of as little inconvenience as possible, this work will be begun on a Saturday night and rushed through on Sunday. If nothing unforeseen occurs to prevent, this change should be made on the coming Sunday. The final plans for this, however, will await the return of the commissioner, who is expected to reach the city tomorrow afternoon.

SIX HUNDRED
DIE IN TYPHOON

Nearly All Craft in Harbors of Amoy Are Wrecked

Amoy, China, Sept. 17 (delayed)—More than 600 natives were killed by a typhoon which struck Amoy without warning at the end of last week. Eighty-five per cent. of the water craft in the harbors nearby was destroyed. No foreigners have been reported lost. Outlying districts cannot be communicated with, and it is feared great damage has been done there. One village on the Island of Amoy reports that only sixteen out of 200 fishing boats were saved.

Japan With Allies To Win

Earnest Declaration Made in Boston by Head of Japanese Mission

Boston, Sept. 18.—Japan is in this war on the side of America and the allies to win, Viscount Ishii declared last night at a banquet given at the Copley Plaza in honor of the Japanese mission of which he is the leader. "We do not enter into treaties to tear them up and scatter them to the winds," he continued, earnestly. "Our treaties are not scraps of paper. We have tried to play our part and carry our share of the burden. We have helped to free the Pacific from the ships and the influence of the nation which has thrown off its thin covering of decency and now stands revealed in all the horrid nakedness of the savage. We are in this war to win with you. We are here to co-operate, to coordinate and to contribute."

Good Things Coming to Theatres of St. John

YOU'LL ENJOY EVERY BIT OF OPERA HOUSE BILL

Popular verdict on this week's vaudeville programme at the Opera House says "best show yet"—and crowded houses have ruled ever since Saturday afternoon. There is a little bit of everything in the make up of the programme, and a huge measure of laughter. Every set is a first class one, clean, refined, with lots of novelty and the sort of entertainment that appeals directly to the regular theatre goer and those who go to the theatre only once in a while. Two complete shows every evening at 7.30 and 9—every afternoon at 2.30.

CHARLIE CHAPLIN AT UNIQUE TONIGHT

Charlie Chaplin in special return engagement of "The Cure" tonight at Unique. Last time for second chapter of "The Fatal Ring." Other features and Arlington Orchestra.

BACK TO REGULAR PRICES AT THE GEM

Tonight, Thursday and Friday the picture feature at the Gem will be Molly McIntyre in "Her Great Hour," a vivid story of New York life. There also are two promising vaudeville acts. Prices now back to regular ticket values.

Y. M. C. A. FOREIGN WORK

"Y. M. C. A. War Work Among the Indian Troops" was the interesting subject of B. H. McClain at a noon luncheon at Bond's restaurant today. Mr. McClain has been connected with the army since the outbreak of the war, and he presents a vivid and real picture of the great Indian empire around for the struggle. In his address today he told first of the growth of the foreign work of the Y. M. C. A., especially in India, and then he told of the special war work done with the British army in Mesopotamia, in which he himself took part being attached to the army under command of Sir Percy Lake. It was a story of absorbing interest to the audience, and the speaker was given a free reception.

A PROTEST

To the Editor of the Times: Sir—Please allow me a short space in your valuable paper to draw the attention of the public to the shameful way the gardeners along the Manawagash road are treated by the owners of automobiles and other carriages, who use this road for pleasure, while the gardeners are hard at work trying to raise a few vegetables to aid them in this time of soaring prices.

Now those same parties, no doubt, if they heard of a lad entering a store or house and taking things therefrom, would raise their voices and launch into their horror, and cry out to have them punished in some way. But they hesitate not to climb a fence and steal from the gardens the best of the vegetables growing there.

Now, Mr. Editor, I would like to ask which is the greater thief, the one who steals from a store or the one from the gardens? This thieving has been going on for some time during this season, and it is a great pity that the guilty parties could not be caught and some kind of punishment meted out to them; for what encouragement is there for people to try another year to garden, if they are to be at the mercy of those who will not work but expect to get their supply of vegetables from the gardens by theft.

DEPENDING ON MACHINE GUNS

Germans Using Them More Than Ever

New Method Developed

Scattered Positions, Many Strongly Fortified, Attempt to Defy Allies' Artillery—How They Are Dealt With

According to the special correspondent of the London Times at the front the value of the machine gun in defence has been recognized since the earliest days of the war. In despatches describing the fighting on the Somme, nearly fourteen months ago, it was suggested that the essential feature of the future fighting on this front would be, like the present, the increasing effort, on the one hand, to hide machine guns in more and more impregnable positions, and on the other, a growing intensity of heavy gunfire to endeavor to knock them out. In large measure this has proved true. Many new factors have come into the war since then, such as tanks and boiling oil, and new gas shells of various sorts, as well as an immense development of aerial fighting. But the essence of the German defence is the machine gun, continually disposed and sheltered in new ways, and its supreme weapon against it is primarily our artillery.

NO FALL EXCURSIONS

Owing to the exceptionally heavy rush of passenger traffic, in addition to the policy of the railways in avoiding special excursions for the autumn of 1917, the fall excursions to Montreal and Boston, which have in other years proved so popular with St. John citizens, have not been announced for this season, and it is understood that there will be none this year.

BRIDGE SPAN TWO THIRDS OF WAY UP

Quebec, Sept. 19.—The luck enjoyed by the engineers of the Quebec bridge in its construction has been marvellous. A threat of changed conditions did not materialize. The workmen tackled the task of wiping out the eighty-five feet that separated the span from the floor of the bridge with enthusiasm. At noon when the men handling hoisting operations adjourned for lunch, the distance which had been traversed was 90 feet, leaving sixty more feet to be covered.

Limited Objectives.

What, of course, the German would like would be for us to advance in dense masses across country protected in this way without artillery preparation. We have shown no desire to oblige him; though, as has been remarked before, he sometimes sees visions of such masses in his communications. Instead, we strike always at limited objectives behind the protecting barrage of our guns, with not the remotest intention of being taunted into an effort at that wonderful manoeuvre which the enemy calls "breaking through." We cut up the German defences a mile or half a mile or three miles at a time. Such of the machine gun positions or redoubts as survive our barrage or our tanks "rip in."

SELECTIONS ALL MADE

M. G. Teed, K. C., of this city, and J. J. McCaffrey of Fredericton, the members of the New Brunswick Board of Selection, have completed their work of selecting one member for each of the sixty tribunals to be appointed under the military service act for New Brunswick. Mr. McCaffrey returned to Fredericton last evening. They will leave on Saturday evening for Ottawa to present their report.

Progressing Rapidly.

WOMEN'S WORK HELPED RED CROSS \$36,400,000

Value of Dressings, Garments and Knitted Articles for a Year Says H. P. Davison.

Chicago, Sept. 19.—The plans of the Red Cross to mobilize the generosity, enthusiasm and patriotism of the American people during the war are described by Henry P. Davison, chairman of the war council of the American National Red Cross, and George Creel, chairman of the United States Bureau of Information. The Red Cross is hurrying, Mr. Davison said, with food, clothes, doctors' hospital garments, and knitted articles for a year says H. P. Davison. The actual work contributed by American women to the Red Cross in twelve months in making surgical dressings, hospital garments, and knitted articles, such as comfort kits and the like, has been a commercial value of \$36,400,000, Mr. Davison said. The figures were determined, he continued, by a scientific analysis. This did not include the clothing in Europe of this country, nor the value of the time spent in other ways, Mr. Davison explained. "The effectiveness already developed by the Red Cross in the greatest work of mercy ever undertaken by a single organization," said Mr. Davison, "is one of the finest expressions I know of the greatness and big-heartedness of the American people."

RECENT WEDDINGS

Brown-Brown The wedding of Reuben Carey Brown of this city to Miss L. A. Gertrude Brown was solemnized in St. Luke's church at eight o'clock last evening, the pastor, Rev. R. P. McKim, performing the ceremony. The bride, a native of Halifax, who has resided for several years in Boston, was unattended. Mr. and Mrs. Brown will make their home in Lancaster Heights.

O'Brien-Moss On last Saturday evening, in Trinity church rectory, Halifax, Rev. L. J. Donaldson united in marriage Arthur Charles O'Brien, of Moncton, to Miss Elsie, daughter of the late Frederick Moss, of Halifax. The bride was attended by her sister, Mrs. McKay, and the groom by William Myers, a returned soldier.

Bacon-Mackeen A pretty wedding was solemnized this morning in Holy Trinity church, when Very Rev. J. J. Walsh, V.G., united in marriage Miss Helen Veronica Ferris, daughter of Mr. and Mrs. J. J. Ferris, of St. John, and Dr. A. J. Boyle, V.S., of this city. The bride, who looked charming in a traveling suit of burgundy broadcloth, with white hat, was attended by her sister, Miss Vera, who wore a brown costume with white hat. The groom was supported by Joseph Ward. After the ceremony a dainty wedding breakfast was served at the home of the bride's parents, after which Doctor and Mrs. Boyle left on a wedding trip to New York. On their return they will reside at 309 Rockland road. They were the recipients of many beautiful gifts, included in which was a piano from the bride's father, accompanied by a substantial check, and a suite of mahogany furniture from the parents of the bride.

Bacon-Mackeen Halifax, Sept. 19.—At noon today Part Massey church, South Beach, told the police that a party of thirty persons had been in his place for several hours before the shooting, but had left to go to a dance hall nearby. He said he heard shots and then one of the men ran in to tell him that Schaeffer had been shot. Crane said he saw an automobile leave and he telephoned to the police, who caught the party by lowering the gates at the railroad crossing at Clifton, S.I. All those who were in the hall maintained for several hours that they knew nothing of the shooting, but finally admitted that Schaeffer had been shot in a quarrel over Hannah Thurston, also known as Maloney. She was held for further examination, with Evelyn Sullivan, Mr. and Mrs. John Lenehan and Mary Schaeffer.

C. P. R. RECOVERED DURING THE MORNING

New York, Sept. 19.—(Wall street, noon)—The dominant influence in the market was the indication of easier conditions in money, which encouraged more general buying by speculators. Much was heard as to the probability of an early announcement at Washington regarding steel and copper prices. Weakness in General Motors and Canadian Pacific was followed by a strong rally in these shares. By mid-day the important stocks were up one to four points from yesterday's close. Bonds were irregular.

THE CASE OF FRENCH DEPUTY SERIOUS ONE

May Be Charge of Trading With Enemy

Swiss Notes of 25,000 Francs Found in His Locker Room—His Statement as to Source Denied by Bankers

Paris, Sept. 19.—The procurator general of the appeal court has addressed a communication to parliament asking for the suspension of immunity in the case of Deputy Louis Turluel. He says that Magistrate Gilbert, charged with investigation of the case, twice served a subpoena on Turluel on Monday, but the latter ignored the summons "under circumstances from which it is permissible to presume that Turluel's dealings in Switzerland, given by him as the source from which he drew the money that was found, were of a fraudulent nature, coming under the law prohibiting French citizens carrying on economic relations with enemy subjects."

A committee elected to report on the demand for the authorization of legal proceedings against Turluel, met yesterday and voted unanimously in favor of authorizing legal proceedings.

It was stated last night that the judicial authorities contemplate charging him with treasonable dealings with the enemy which is punishable by death.

Berne, Sept. 19.—The Swiss telegraphic agency has received a telegram from the French Deputy Turluel that he received a sum of money from the Swiss Federal Bank for advice. The directors of the Swiss Federal Bank, according to the telegram, declared formally that they never made any such mysterious payments and have never had any dealings with Turluel.

An official statement issued from the French chamber of deputies on September 2 stated that an envelope containing 25,000 francs in Swiss bank bills had been found in the part of the locker room assigned Turluel. In a letter to Deschanel, president of the chamber of deputies, Deputy Turluel stated "payment was made by the Swiss Federal Bank, for advice."

NEWS NOTES ABOUT PROMINENT BAPTISTS

(Martine Baptist) Rev. A. Horwood is greatly encouraged in the work on the Hampstead field. He finds a warm spirit of co-operation on the part of the people, and the congregations are growing.

The church at Dorchester has granted a license to preach to W. A. Steeves, of Bathurst, had been wounded, but was making satisfactory progress toward recovery. Unfortunately the wound proved more serious than expected and we regret to report the death of the wounded man.

J. N. Ford, of Louisville, Ky., has been occupying the Methodist parsonage during the summer with much acceptance.

The Home Mission Board of the congregation has been very fortunate in securing Rev. L. F. Wallace, now pastor at Annapolis, to take up again the work of an evangelist in Nova Scotia, and Prince Edward Island. He will be accompanied in his work by Mrs. Wallace, whose musical talent and deep consecration make her an invaluable assistant.

Dr. W. C. Keirstead has been asked to assist the work of the food controller during the coming year. In order that his valuable services may be given to the nation the U.N.B. has granted him leave of absence for the coming year.

We are pleased to announce that Rev. A. H. Whitham has accepted the call to Dorchester, and will take up his work there early in October. Of course, Amherst must lose him as assistant pastor, but with Pastor Rose in charge, Amherst is quite able to stand the loss.

A large number of the members of the Restigouche Baptist church and other friends met at the home of Jos. McDevitt, Flatlands, to tender to their pastor and wife a reception. After a very pleasant evening spent in a social way, refreshments were served. During the evening, the church clerk, Wm. Bulmer, on behalf of the congregation, presented an address, accompanied by a purse of \$81.25.

Two Yesterday

Two recruits were secured in the city yesterday. They were L. H. Warner, Annapolis, N.S., No. 8 Field Ambulance, and A. J. Maskell, Queens county, C. A. S. C.

Gunner Harold Vail who was reported gassed is now in a hospital in England. He was blind for six days but at the time of writing had recovered his vision, although his eyes were weak.

In a recent letter from Private William H. Milton, to his parents, Mr. and Mrs. E. H. Milton, 20 Harding street, he mentions that he has received an honor stripe for distinguished conduct. The stripe which is worn on the arm is an honorary one, and only given in most deserving cases. He went overseas with the 140th battalion and was later transferred to the Princess Pats. Word has been received in the city to the effect that Corporal Clyde Robertson Gerard, M.M., of the Royal Field Artillery, only son of Captain and Mrs. W. H. Gerard, of Bothe, England, has been killed in action. Corporal Gerard was born in Sackville, and was the only grandson of Captain Andrew Robertson, of St. John. In 1900 the family removed to England. He joined the colors in 1915.

PROHIBITION

A year of prohibition in Ontario has satisfied the people that the abolition of the liquor traffic is good for any province or country. The Toronto Globe quotes the provincial premier, the leader of the opposition, and others whose views command respect, and they all agree that prohibition pays.

THE SOCIAL REVOLUTION

It is frequently asserted that this war is over there will come a great struggle between labor and capital. The Financial Post of Canada sees the change labor to prepare for such action on their part as will bring about co-operation rather than open strife.

Already in England the problem is being appreciated. Steps are being taken to bring about a better understanding of employer and employed. There has been an industrial awakening as the result of the great war effort and it is evident that the advantages of co-operation in developing productive efficiency have been appreciated by both factions.

The Post adds that Canadian manufacturers will do well to give the question consideration and to endeavor to pave the way to closer relationship with their employees. The advice is good. In every country there will be, after the war, a movement to overcome the autocracy of wealth and privilege, and gain for the workers a larger share of that which they produce.

ANGLO-AMERICAN RELATIONS

The new era in Anglo-American relations is nowhere more heartily welcomed than in Canada, not merely because Canadians and Americans have lived at peace for more than a hundred years, but because so many Canadians have relatives living in the United States, and feel so thoroughly at home when they visit that country.

way the relations between Britain and America for a century past. If his address of last evening, amplified a little, and with the illustrations thrown on the screen, were placed in book form in the schools of our country and his, it would not only arouse a new interest in our common history, but promote the more cordial relations the assurance of memory. Students of history had their comrad. Students of history had their comrad. Students of history had their comrad.

The intelligent censor has once more permitted the Canadian correspondent at the front to tell the story of wonderful deeds of individual courage and endurance by three Canadian soldiers, but has not permitted him to tell their names. There is no excuse whatever for withholding the names.

Some members of the Tory party in Canada would like to build up a military autocracy in this country, to enforce their decrees. What we are fighting against in Europe is not likely to prove popular at home.

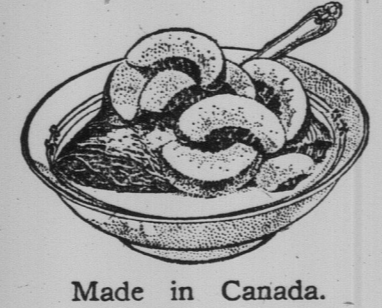

The amount of money wasted by the Borden government on commissions which were never intended to serve any useful purpose would pay a lot of war bills.

The news from Russia continues to be of a reassuring nature. The army on the Riga front is making a much stronger stand against the Germans.

Germans Guilty Of Blackest Of Crimes Charged

Rev. Dr. Hillis Brought Back Indisputable Proofs of Atrocities

Cut Out German Cancer

Official Records of More Than 10,000 Separate Outrages Filed for Production in Peace Conference—Some Awful Cases

The Rev. Dr. Newell Dwight Hillis, pastor of Plymouth church, quoting from official records and affidavits he had collected on his recent tour of regions in France evacuated of Germans, asserted, in the first of a series of sermons on the war in his church on last Sunday, that there could no longer be any doubt of the fact that the German armies have been guilty of the blackest crimes charged against them.

Dr. Hillis spent last July and August visiting the areas in France that were ruined by the German armies in their retreat. He brought back with him hundreds of trophies testifying to German brutality, and some of these, such as affidavits and copies of official records, he placed on the pulpit from which he preached.

"For three years German-Americans have protested that the stories of German atrocities were to be disbelieved as English inventions, Belgian lies, and French hypocrisies, but that day has gone forever," he said.

"When the representatives of the nations assembled for the final settlement there will be laid before the representatives of Germany affidavits, photographs, and other legal proofs that make the German atrocities far better established than the scalping of the Sioux Indians on the western frontiers, the murders of the Black Hole of Calcutta, or the crime of the Spanish Inquisition.

"On a battle line three hundred miles in length, in whatever villages the retreating Germans passed, the following morning accredited men hurried to the scene to make the record against the day of judgment.

Photographs Tell No Lies. "The photographs of dead and mutilated girls, children and old men tell no lies. Jurists rank high in forensic testimony—the testimony of mature men who have seen and heard, and the testimony of children too innocent to invent their statements, but old enough to tell what they saw.

"For the first time in history, the German has reduced savagery to a science, therefore, this great war for peace must go on until the German cancer is cut clean out of the body politic."

Dr. Hillis asserted that more than 10,000 separate atrocities committed by the German armies had been documented and were on file in the chancelleries of the allied nations, for use when the terms of peace are to be discussed.

"When the German army in Lorraine was defeated by one-half its number," he went on, "it fell back northward, passing through French towns and villages where there were no Frenchmen, no guns, and where no shots were fired. During July and August we were told from one ruined village to another, talking with the women and children, and comparing the photographs of a woman and her children, the testimony of a man who had been beautiful, orchards, vineyards—but now was only desolation.

Boy a Flaming Torch. "In Gerbeville, standing beside their graves, I studied the photographs of the bodies of fifteen old men whom the Germans had lined up and shot because there were no young soldiers to kill. I heard the detailed story of a woman whose boy of fourteen, being nearest the age of a soldier, was first hung to a pear tree in the garden. When the officer and soldiers had left him and were easy setting fire to the next house, she cut the rope and revived the strangled boy, only to find the soldiers had returned, and while the officer held her hands behind her back, his assistant poured petrol on the boy's head and clothes, and set fire to him, and while he staggered about, a flaming torch, they shrieked with laughter.

"When they had burned all the houses and retreated the next morning, the prefect of Lorraine reached Gotherhouse and photographed the bodies of thirty aged men, lying as they fell, and the bodies of women, striped and slain. In the next village stood the ruined square belfry into which the Germans had lifted machine guns, then forced every woman and child, in a number into the little church, and notified the French soldiers that if they fired upon the machine guns, they would kill their own women and children.

"After several days' hunger and thirst, at midnight these brave women slipped a little boy through the church window, and bade their husbands fire upon the Germans in the belfry, saying they preferred death to the indignities they were suffering.

"And so these Frenchmen turned their guns, and in blowing that machine gun out of the belfry, killed twenty of their own wives and children.

"In a hundred years of history, where shall you find the record of any other race, who called themselves civilized, who were such snaking cowards that they could not fight like men, or play the game fairly but in their chattering terror put women and little children before them as shields?"

Dr. Hillis asserted that further indisputable proof of the awful heartlessness and dares taken from the bodies of dead German soldiers. He continued:—"Out of the large number, note these hundreds of photographs of dead bodies of aged priests, some of whom had been staked down. Here is German efficiency for you, and organized by the devil himself.

Sturdy Shoes for Rugged Boys

A BOY'S SHOE THAT WEARS

Your boy is just like all healthy boys, in one respect at least. He wears out shoes in the proverbial "no time." It was terrible to watch. At Hecht I saw the dead body of a young girl mangled to the outside door of a cottage by her hands. She was about fourteen or sixteen years old.

Dr. Hillis quoted from one of the affidavits, "Affidavit D-88. It reads:—'After passing Weerde we met a woman covered with blood, with her breasts cut off. She was delirious.'

"And here," continued Dr. Hillis, "are the records of hundreds upon hundreds of similar cases with every form of atrocity. Does the sunlight in photography tell lies? Are the German soldiers lying in writing to brothers at home, or keeping the records of events in their diaries, thus leaving on their bodies the indubitable evidence of the highest order of truth?"

"Standing in the village of Herincell, a boy of sixteen and his mother showed me twelve bullet marks against the stone wall where a young mother, aged twenty-three, with a babe on her breast, with her young sister and sister-in-law of sixteen and seventeen, were shot by twelve German soldiers—four brave and heroic Germans shooting at each girl.

"On a little board in one ruined village, I read these words:—'Marie, aged sixteen. Dead August 24, 1915. Vengeance is mine, I will repay, saith the Lord.'

"The hundreds of atrocities personally investigated only serve to interpret Ambassador Morgenthau's statement as to Armenia, that the Turkish soldiers and German officers massacred in Armenia a half million people, that they might move into their farmhouses and little shops and stores."

Germany's philosophy, the pastor concluded, had dehumanized her officers and men. He said the Kaiser was the son of diseased parents and had schemed to conquer the world. The Kaiser and not the rest of the world, he said, had coined the word "Hun" and had applied it to his own people.

TO BUY 1,000,000 CALVES
Hotel Men Plan Great Extension Of Beef Raising Campaign

New York, Sept. 18.—The Buy a Calf campaign of the hotel and restaurant men has been so successful that the men in the industry, it is said, now contemplate the purchase of 1,000,000 calves instead of 10,000 as originally intended. The Hotel Review, it is announced, will establish near Milford, Penn., a calf farm upon which will grow up the

calves purchased by the men in the movement here. The farm covers 150 acres, and provision has been made for the caring of 500 calves.

The Buy a Calf movement began when Mr. Hoover asked the representatives of the restaurant and hotel men from all parts of the country to help out the present food emergency. They adopted calf buying as part of food conservation and each one pledged himself to buy and raise a calf to stimulate interest in cattle raising. The plan called for the purchase of 10,000 calves to be kept two years, during which time they will have increased in weight about 1,000 pounds.

John McE. Bowman, now a member of the United States food administration, was head of the committee that worked out the details of the campaign and the Calf Owners' Club. He hopes that 1,000,000 calves will have been raised by hotel and restaurant men from all parts of the country when this campaign is finished. The idea, he explained, was not one of profit, but to bring about an increase in the country's beef supply.

Among the charter members of the Calf Owners' Club are Thomas D. Green of the Hotel Woodward and president of the Hotel Association of New York city; Fred Sterry of the Plaza; George C. Brown of the Park Avenue, and W. H. Marshall of the Vanderbilt.

"Real Sport" For Germans.
Dr. Hillis read what had been copied from the diary of Eitel Anders, another German soldier. It read:—"In Vendre all the inhabitants without exception were brought out and shot. This shooting was heartbreaking, as they all knelt down and prayed. It was real sport, yet

U.S. Orders For All Canadian Mills Can Make

Montreal and Welland Mills Get Big Orders For Duck
No Injury To Canada - Acceptance of U. S. War Business Will Not Hurt Domestic Deliveries - Enameled Replaces Munitions

(Financial Post) Montreal, Sept. 19.—The readjustment of Canadian industry goes on with many encouraging elements of compensation. Increased activity in shipbuilding at both ends of Canada is now an accomplished fact, and business is starting for the auxiliary industries. A factor that should be taken into consideration is the prospect of large war orders coming to Canada from the United States.

THREE MONCTON CHUMS MADE LAST SACRIFICE

(Moncton Times.) The death of Pte. Curtis Wortman, son of Mr. and Mrs. James Wortman, Union street, closes a unique local incident of the war. During the winter of 1916, while the 104th was still at Sussex, G. E. Foster, Keith's tobacco shop in Main street was the favorite headquarters of Fowler's men, whenever there chanced to be any considerable number of them in town on leave. The most steadfast chums in the Moncton lot were Private Wortman, Bert Hoey and Laurier Emerson. One evening all three were seated on a bench in Keith's store examining a handsome banner which had been brought up from Sussex. As the outcome of a bantering conversation, the boys named the banner to the wall in their corner, asking Mr. Keith to leave it there "until we come home." The banner is still in its place for these boys will never come home. Private Hoey was the first to fall killed in action, and Private Emerson lost his life but a short time later. And now

RECENT DEATHS

The death of Mrs. Eliza Pitt of Reed's Point, Kings county, occurred on Monday after a lingering illness. She was seventy-eight years old and leaves two sons, Frank W. and Adam P., of Reed's Point, and one daughter, Mrs. George A. Chase, of St. John; also one sister, Mrs. Lavina Foster of Kingston, N. B. The death of Miss Elizabeth Prece, of Belleisle Creek, occurred on September 12. She was seventy-three years old.

QUICK UPTURN In Stocks But C. P. R. Is Low

New York, Sept. 19.—Wall street—Vigorous bidding for stocks brought about a quick upturn at the opening today. The strength shown on the first transactions caused a flurry among the shorts, resulting in a rapid extension of gains in the first half hour. Central Leather, Marine Preferred, Mexican Petroleum, Smelting, Crucible, Bethlehem Steel, United States Steel, Republic and Maxwell were marked one to three points. Railroad shares were quieter. Reading and Canadian Pacific rose a point each, but C. P. R. subsequently relaxed two points to a new low figure at 147 1/2.

ONTARIO LIBERALS

A Liberal correspondent of the Toronto Globe writes to that paper: "Toronto to say that many Liberals who have been in favor of conscription are not satisfied with the leadership of The Globe and The Star at the present time. These papers have deserted Laurier, but have nothing to offer in his place. Assuredly we will not accept Borden. The introduction of the wartime elections act has turned us again to the Old Pilot, as after all the wisest and most to be trusted. The introduction of this measure proclaims the conviction of the government that it has lost the confidence of the people, and also that it is about to legislate in defiance of the people. That being so it becomes the immediate duty of every one to turn the autocrats out and re-establish democratic government at home."

RECENT WEDDINGS

The wedding of Joseph B. Beesley of Main street to Miss Lillian Alice Linton of Victoria street took place last night at the residence of the officiating clergyman, Rev. G. B. Trafton, 229 City road.

THE EVAPORATED APPLE SEASON CLOSE

ENCOURAGING TO DULLARDS

Like Newton, Herbert Spencer in his school boy days showed no aptitude for High Elliott, his biographer says of him that "he was very backward as a boy in the ordinary subjects of children's lessons." Morally he was extremely disobedient and contemptuous of authority." At 18 he "found the discipline of his school more severe than he cared about, and he ran away home to Derby again, walking 48 miles the first day." Yet as a man, "without money, without special education, without health, a variety of mechanical inventions, and on endless other subjects, great and small, he set forth a profusion of original ideas."

BEAUTY FOLLOWS GOOD DIGESTION

Women Who Suffer From Weak Stomach Should Follow Meals With Stuart's Dyspepsia Tablets.

Women who are bilious, run-down, with feeble appetite, gas, sour risings, water brash, headache and other such symptoms of a weak stomach, need Stuart's Dyspepsia Tablets after eating. Not only do they digest food but they supply essential extracts which sweeten the stomach, arrest harmful fermentation and afford relief almost immediately. The sour heartburn does damage to the blood and such dyspepsia or indigestion is the frequent cause of rash or pimples and blotches on the face, neck and shoulders. Every woman should try Stuart's Dyspepsia Tablets and thus avoid the ruinous effect of a weak, sour stomach on the complexion. Don't make the mistake of smearing the skin with pastes and bleaches. Correct the stomach. Get a 50 cent box of Stuart's Dyspepsia Tablets at any drug store.

MAKES READY FOR ANOTHER PEACE MOVE

Signs of Scheming by German Authorities

Erzberger Admits U-Boat Campaign Failure and Says Terrible Winter is Coming—Urges Ending it All

London, Sept. 18.—The flood of so-called peace rumors which the German censors are permitting to spread in German newspapers convinces the London press and public that Berlin is preparing some hope for another adroit peace manoeuvre.

A dispatch to the Central News from Amsterdam says: "A careful reading of German papers leads to the belief that reports of a British peace offer were circulated simply with the object of making it easy for the German government to rally to the attitude of the Reichstag majority, and the whole thing is an adroit manoeuvre engineered by Dr. Von Kuehlmann, the German foreign secretary."

Speech by Erzberger

Zurich, via London, Sept. 18.—(Montreal Gazette cable)—Herr Erzberger delivered an important speech yesterday at Biberach. He said that in spite of the fact that fifty per cent. of the guaranteed shipping of Britain had been sunk, it had not been noticeable, and England remained unconquered. Before voting a new war loan, it was the duty of the Reichstag to consider whether a way could not be found to shorten the war. In the fourth year, it would cost fifty milliard marks and a daily death roll of 1,250 men. The world's harvest was bad, and a general shortage in coal, fat and leather was threatened, which would cause the belligerents greater hardships this winter than in the last three winters put together.

After referring significantly to the necessity for Germany to consider the desires of her allies, Erzberger continued: "We cannot have a peace dependent on might and oppression. That would lead to future wars. We must find the solution in enabling all nations to live side by side."

PREPARED TO SEIZE COAL AT MINE MOUTH

War Industries to be Supplied at All Hazards Under Dr. Garfield's Programme

Washington, Sept. 18.—The Fuel Administration soon will requisition spot coal at the mines if necessary to supply the war industries. Plans for such action, it is believed, can be completed by October 1.

Reports of a coal shortage in some sections, due in part to the holding back of coal under contract, have been received. Dr. H. A. Garfield, the fuel administrator, believes, however, that a serious shortage can be averted by forcing proper distribution of output.

In an effort to bring down prices to the consumer under contracts made at figures considerably above that named by President Wilson in his proclamation, affecting bituminous coal, Dr. Garfield contemplates negotiations with the operators which he hopes will result in lopping off at least ten per cent. from the contract prices.

The law does not make it possible for the government to abrogate contracts made in good faith, but it does give the fuel administration power to requisition output, even while held under long-term

contracts, and dispose of it at government prices. It is expected that the operators will be willing to compromise.

A readjustment of the prices for bituminous coal at the mine may be expected by October 1, as Dr. Garfield has now before him data presented by most of the protesting operators. Dr. Garfield made it plain today that, with proper regard to the interests of consumers, he was prepared to deal fairly with the operators and to grant increases if it could be shown that the prices now fixed made increased production impossible. A licensing system possibly will be put in operation soon. It is the belief of the fuel administration that the market can be stabilized and that the retail prices will be accepted by dealers without protest.

It is understood that it will be through the state representatives, soon to be named, that Dr. Garfield will deal in regulating prices. These state representatives will have as a duty observation of the local committees throughout the country, which are to determine the retailers' margin and work with the federal government in enforcing the prices announced.

Labor troubles in various mines have given the fuel administration some concern, but it is believed that they can be adjusted. John P. White, president of the United Mine Workers of America, who is associated with the fuel administrators, will have a large part in such adjustments.

Indianapolis, Ind., Sept. 18.—John P. White, president of the United Mine Workers of America, has issued a call for an interstate conference of coal operators and miners in the central competitive field in Washington on September

25 to consider an increase in wages. The competitive field comprises Illinois, Indiana, Ohio, and Western Pennsylvania.

Plea From Here For Potatoes On Free List

Food Controller Criticized in House of Commons

Lapointe, of Montreal, Says He is Doing Nothing to Reduce Cost of Living—The House, The Senate and the Railway Act

Ottawa, Sept. 18.—A dull day in the house introduced a variety of topics. A long discussion on pelagic sealing was followed by a plea from maritime province members that potatoes should be placed on the free list. Both questions arose on a motion to go into supply and they fell, finally, to a charge by Mr. A. Lapointe of Montreal, that the food controller was doing nothing to bring down the cost of living. Mr. Lapointe obtained, too, that there was a good deal of arguing in the house, but there was no solution of the problem how the cost of living might be reduced.

A little before midnight Hon. J. D. Reid moved the house into committee to consider the senate bill concerning the payment of salaries of employees of railway companies. He proposed to move amendments covering certain clauses of the general railway act so that, in the event of the bill not being adopted by the senate, this measure could be passed by both houses. He submitted clauses from the general act relating to the compensation of workmen, the safety of railway employees, etc. These were accepted.

E. M. MacDonald asked the minister if he really thought the railway act would be passed by the senate. Mr. Reid replied that he did not know, but he hoped that it would.

Hon. E. P. Graham said the senate was divided. One side wanted to pass the bill, and the other did not. It was hoped by those opposing the bill to get rid of a vesting clause affecting the Toronto power situation.

J. E. Armstrong, chairman of the commons railway committee, assured the house that the government was very anxious to have the general railway act pass the senate.

Mr. MacDonald said the situation in the senate was a peculiar one. All the government had to do, if it really desired to pass this bill, was to crack the party whip, as in the case of the C. N. R. and franchise bills. Apparently the government was not anxious to stand for third reading.

The bill was then reported and stands for third reading.

A COMMISSION TO GOVERN AT MONTREAL

Steps Being Considered to Wipe Out the Board of Control and the City Council

Montreal, Sept. 19.—The financial condition of the city of Montreal may be near the period when a revolution may take place. Word comes from Quebec that the legislature that is soon to meet in special session will pass a bill, under the name of a "survey" of the city administration, which will sweep away the board of control and aldermanic government that has been blamed for a succession of heavy deficits, and replace it by a commission. The main point in this, of course, will be the character of the men who are chosen, otherwise it is conceivable that the last state of Montreal might be worse than the first. It is understood, however, that a powerful element is behind the move, and that the banking interests that are concerned as to the condition of the city's credit will, to put it mildly, place no obstacle in the way of the consummation of a new form of government.

Synchronizing with his report is another actual event in the movement for a cleaning up of the financial mess in this city; the arrival late this week of several members of the staff of the New York Bureau of Municipal Research, who will make a "survey" of the civic administration much after the manner of the one in Toronto. The start will be made on the treasurer's and auditor's reports, so that these may be ready for the coming session of the legislature. The vote of \$18,000 for this work was voted by the mayor, but carried again by council, which thus set aside the power of veto.

I. W. W. AND GERMAN PROPAGANDA AMONG AMERICAN FARMERS

Chicago, Sept. 19.—I. W. W. and German propaganda among American farmers and the protection of a fixed price for wheat set by the food administration have resulted in much curtailment of the usual fall movement of wheat that there is a scarcity of wheat and flour in the largest consuming centres.

A shortage of wheat and flour at the end of a short crop is not unusual, but the present situation, coming after the winter wheat movement, has been on two months and the spring wheat movement three weeks is unprecedented. It results from the depletion of the world's supplies, due to last year's small crops, the demands of the war, and the slow movement of this year's crops due to "peace" propaganda and the certainty of sale at the price fixed by the food administrator.

In parts of Iowa and Wisconsin a German propaganda has influenced the farmers to hold their grain so that it may not be used to support a war. Some of these farmers also have a notion that the government price of \$2.24 at Chicago for best grades may be increased. Food Administrator Hoover has declared that this will not happen, but he also said that the grain will not be commandeered.

In the northwest the I. W. W. activities are largely responsible for the 20,000,000 bushel shortage. The Dakotas and Minnesota have 80,000,000 bushels more than last year and 24,000,000 more than their standard capacity.

In Ohio, Indiana, Illinois, Missouri and Michigan, where the capacity of the mills exceeds the wheat production, the crop this year is 150,000,000 bushels or forty per cent. over last year. But the grain has moved slowly to the mills.

Don't Fail to See This Brilliant Famous Players Production, Featuring
PAULINE FREDERICK A STORY OF LOVE AND ADVENTURE "THE SLAVE MARKET"
The subject is a stirring melodrama of the Spanish Main, and for the semi-tropical land backgrounds, Director Hugh Ford took his company of players, headed by Pauline Frederick, into the field of the special activities of the old-time pirates. The Cuban scenes in their richness of setting are ample compensation for the journey.
Miss Frederick has the role of the convent-bred daughter of a governor of one of the West Indian islands. On her way out from Spain to meet her father she is captured by pirates, and by the leader of them is declared to be his slave. It is a strongly emotional role, that of Ramona, one suited to the talent of Miss Frederick. A great majority of the situations in which she figures are of stress, but there are others that are tender, when she is thrown into the company of the man whom she loves and who eventually rescues her and escorts her to the priest.

DON'T FORGET
This Friday, First Episode of "THE MYSTERY OF THE DOUBLE CROSS"

ONE WAY TO WOO SLEEP
It is hard for me to remember now that my knowledge of the sleepy road, gained so many years ago, came only through the chance bit of advice dropped by a wise, kind, weary old doctor as he shuffled at midnight down the corridor of the silent hospital, says the Atlantic Monthly.
Whatever was the errand of life or death that had called in such haste, you water and woods and hills. Keep your eyes tight shut and travel along

friendly word, although I, a small and incorrigibly sleepless patient, was sitting bolt upright among the pillows in defiance of all his orders and was staring wide eyed into the hot pain haunted dark.
"You think you are never going to be able to sleep again, don't you?" he observed. "Well, shut your eyes and do just what I tell you. Think of some road that winds and turns and shows you water and woods and hills. Keep your eyes tight shut and travel along

troting hilly when she went the second mile in 2:04 1-4. Volga held the former record of 2:04 1-2. Early Dreams in the Hoster-Columbus stake for 214 trotters took the big end of the \$10,000 purse, twice surpassing former records for the event. His mile in 2:04 1-4 lowered the stake mark of 2:05 1-4, held by Sanoma Girl since 1907.
In the 2:07 pace, after the second heat, Driver Mann was removed from Barlight and Driver Frost from behind Colleen. Messrs. Flemming and Jamison respectively replaced them. The change appeared justified in part when Barlight won the next two heats. In the final mile, however, he was not able to stave off Peter G., winner of the first two heats and the race went to the Snow pacer.
THE RING.
Herman All the Way.
Philadelphia, Sept. 18—Pete Herman, bantamweight champion, easily defeated K. O. Eggers, of New York, in a six-round bout here last night. Herman had the better of every round, his speed and cleverness being too much for the New Yorker.

FORTUNES IN FILM GAME
Good Pay for Competent Folk and Plenty of Work
(Film Fun.)
That the standard of excellence which will necessarily result from open booking will make the picture game hard for even the multi-millionaire to break into, and well-nigh impossible for the average actor, goes without saying.
Quite a few studio stars we could name are drawing salaries equal to that paid to the president of these United States. A dramatic director that isn't worth at least a thousand dollars a month isn't worth considering. Continuity writers are paid anywhere from \$3,000 to \$7,000 a year or more. Publicity directors are demanding, and receiving, a wage commensurate with the work they do and the responsibility for success or failure of a picture which rests upon them.

The Man In The Street

Summer seems to have responded to the demands for a encore.

But the small boy thought he had discovered evidence of preparedness for winter. "Come, quick, and see the worm with its winter furs on," he shrieked when he found a caterpillar.

The food controller says that the food conservation pledge cards will be treasured in the family archives of future generations.

And in years to come, when our golden locks have turned to silver and the grandchildren clustering around our knee in the glowing ask: "Granddaddy, what did you do in the great war?" we can point to the framed pledge card hanging on the wall of the front parlor and, with a voice trembling on the occasion, we can lay a hand on our heart and answer with pride "We lived on the menu mapped out by a government food controller."

This idea of saving beef will not appeal to the calves; veal appeared on the official menu again this week.

The man who figured out that the proper way to conserve the beef supply is by eating the calves should have his brain examined.

It will cost the government \$40,000 to print the report on why the cost of living is high; some of us would be willing to remain in ignorance for a small share of that outlay.

Isn't it had enough to have to pay the 1917 model grocery and meat bills without having to pay taxes to be told that the prices are high?

So thoughtful of parliament to talk of cutting down the supply of free reports, with winter coming on and other fuel so scarce.

Perhaps this weather has induced the fuel controller to take a summer vacation.

Premier Borden's hopes for success in his home province in the coming elections may be measured by the attempt to provide machine-made election lists for the emergency.

One more monarch has been proposed for membership in the amalgamated union of ex-kings.

And there are a whole lot of former premiers with whom Sir Robert Borden may have a fellow-feeling after the next election.

The local police have added another to their long list of captures of clappers. The next pair who reach this city should promptly commit a quiet little murder if they want to be sure of escaping.

With the United States in the war and the world's series, approaching, it is not two first pages will meet the situation in some of the newspaper offices across the border.

The new confederation celebration stamps would do more to perpetuate the memory of the fathers of the Dominion if a powerful magnifying glass were thrown in with each purchase.

It's a safe bet that Sir Sam Hughes won't have his picture on the victory stamps at the end of the war, if his former associates in the government have anything to say about it.

Those Khaki Rhymes.

Upper Canadian newspapers are wrestling with the problem of finding a word to rhyme with khaki. There have been some laudable efforts. Here's another: When he tried to find a word to rhyme with khaki And the Muse proved coy and singularly balky, He just used an extra R and called it khark!

AUTO DRIVER TOO
YOUNG; FINE OF \$10 IMPOSED

First Case Since Rigid Enforcement of Section Insisted on—Other Traffic Law Violations

Reports for violation of by-laws were brought before Magistrate Ritchie in the police court this morning. John A. Davidson was fined \$10 for breaking the traffic law. W. S. Fisher's car was reported as taking the wrong turn from Germain into King street. The case was postponed until Friday morning when the chauffeur could be brought into court.

Walter Gilbert was fined \$10 for not sounding his horn in turning from King into Germain street.

Miss Kathleen Coster was reported for driving on the wrong side of Waterloo street. There was some discussion and Miss Coster said that she had turned out to pass a slow moving car in front of her. She was going about ten miles an hour. It was dark and she did not see any other car coming. It appeared that she had collided with Frank Jones' car. The case was postponed until tomorrow at 2 p.m. for further testimony.

W. E. Emerson was fined \$10 for speeding up Main street on last Sunday.

W. T. White was reported for allowing his two to go about without rear number tags. The matter was held over until his chauffeurs could be brought to court.

D. W. White was fined \$10 for allowing a boy under eighteen years of age to run his automobile. This is the first fine struck since the rigid enforcement of this law has been insisted on.

F. J. Donnelly was reported for passing a standing street car at the corner of Union and Waterloo streets in his automobile. The case was deferred until 10 o'clock this afternoon for witnesses.

A charge of obstructing the sidewalk by dumping coal on the corner of Cambridge and King streets was brought against James Berry, James Sherwood, Joseph Stevens and George Fitzpatrick, employees of J. S. Gibson & Co. Ltd. They denied the charge and the matter was allowed to stand for the present.

MISS MARY O'BRIEN
AGAIN PRESIDENT

Lancaster Ladies Re-organize for Work of Sending Christmas Boxes to Soldiers

An enthusiastic meeting of those interested in sending Christmas boxes to the soldier boys from Lancaster, was held last evening in Temperance Hall, Fairville, and organization was completed to carry out the work in effective manner.

Miss Mary O'Brien who was in charge of last year's committee that gave such commendable service, was elected president of the new committee. The appointment of Miss O'Brien, who has been such a friend of the boys overseas since the outbreak of war, assures the Lancaster khaki boys that the boxes will be fully equal to if not better than those sent across for Christmas, 1916.

The other officers elected last evening were: Mrs. Tennyson Currie, first vice-president; Mrs. George Currie, secretary; Mrs. Cecil B. McKel, assistant secretary; Mrs. William Golding, treasurer.

Mrs. J. V. Anglin, president of the Lancaster Red Cross Society, was present and Councillor John O'Brien also spoke. It is understood there is an unexpended balance from last year's patriotic tax, amounting to about \$3,000 and the committee feel that part at least of this should be spent in looking after the boys overseas at Christmas time. Further action will be taken in the matter at a later date, but all present were unanimous in the opinion that the boxes should be financed from this fund.

The committee as operating consists of three members from each church in Fairville and is as follows:

Catholic church—Miss Mary O'Brien (president); Miss Hennessy, Mrs. McCree.

Presbyterian—Mrs. Tennyson Currie (first vice-president); Mrs. Ed. Duff, Miss May Myles.

Methodist—Mrs. Wm. Golding (treasurer); Mrs. Joshua Chessman, Miss Ruby Irvine.

Baptist—Mrs. George Currie (secretary); Mrs. Walter Ross, Mrs. Harry Carr.

Church of the Good Shepherd—Mrs. C. B. McKel (asst. sec.); Mrs. Stewart Nelson, Mrs. Charles Hill.

So far as can be learned there are about 150 Lancaster men in the khaki uniform, but the committee purpose finding out at once by a house to house canvass just how many soldiers there actually are and secure their addresses so none will be overlooked.
