GENERAL CIRCULAR.

THE MOUNT ALLISON WESLEYAN COLLEGE was organized in July, 1862, under a charter obtained from the Legislature of New Brunswick. By virtue of this charter it possesses full University powers.

It is one of the affiliated Colleges of the University of Halifax. This relation involves important privileges to the graduates and students of the College, but does not, of course, impair or affect in any way, its chartered rights. The University Act establishing the University of Halifax, passed by the Legislature of Nova Scotia during the session of 1876, is ostensibly an attempt to promote the cause of higher education, by securing the sympathetic co-operation of the Governing Boards and Faculties of various Colleges. Interpreting it as a sincere movement in the interests of Educational unity and University Reform, the Board of Governors and Faculty of the Mount Allison Wesleyan College, in their conjoint character as the College Board, have authorized such a modification of the Arts Curriculum as will promote the convenience of Students preparing for the Degree Examinations of the University of Halifax. The subjoined Course of Study will, it is believed, answer this end, and at the same time render it easy to conserve the acquired rights of Students who have been working for Degrees according to the original Curriculum.

The College, true to the historic reputation of the other and older Mount Allison Institutions, is conducted on strictly non-sectarian principles. The general denominational control, under which it is placed, furnishes a sufficient guarantee that sceptical license will never be allowed to run riot within its walls, but does not imply the existence of a purpose or a wish to interfere with the conscientious convictions of any. The fullest recognition, however, is given to the truths and claims of the Christian religion: the Bible is publicly honoured as the Word of God, and no pains are spared that the education imparted may be suitably leavened with religious principle.

Course of Study for the Degree of B. A.

The number of hours per week to be devoted to the above subjects, respectively, will be determined by the necessities of the case.

The Course of Study for the Freshman and Sophomore years includes the subjects required for the first B. A. Examination of the University of Halifax, which examination, according to the regulation of the Senate, cannot, in the case of any candidate, take place within one academical year of the time of his passing the Matriculation Examination. The time assigned in the above course is not too long, it is deemed, for the average student. The Course prescribed for the Junior and Senior years contains a similar relation to the second B. A. Examination of the University. It should be observed that the University regulations prescribe that the Mathematics, Physics, and Classics of these years are *compulsory*, save that *Spherical Trigonometry and Astronomy may be omitted by students who pass in Classics*, and that *one subject in Greek and Latin may be omitted by candidates who pass in Mathematics and Physics*; also, that of the three subjects, French or German or Hebrew, Mental and Moral Philosophy, Constitutional History or Political Economy, *two are compulsory*.

Regulations and Announcements.

ADMISSION.

The Matriculation Examinations are held on the first and second days of the first term of the Collegiate year. Supplementary Examinations for special cases may be held at other dates.

No student is admitted to undergraduate standing without passing the Matriculation Examination; but non-matriculated students, in the character of specialists, may attend any course of Lectures for which, in the judgment of the Faculty after due examination, they are deemed prepared.

By an Explanatory Regulation of the Senate of the University of Halifax, candidates for Degrees in that Institution who shall have passed the Matriculation Examination of the Mount Allison Wesleyan College, are admitted to the first B. A. Examination without being required to have passed the Matriculation Examination of the University.

EXAMINATIONS, DEGREES, &c.

At the close of the first term, all the Classes will be examined by the Faculty both orally and by means of written papers. The Annual and Degree Examinations at the close of the second term are conducted in the same manner by the Faculty and duly appointed Examiners.

The Degree of Bachelor of Arts is conferred upon those who complete the regular course of study and pass satisfactorily the required Examinations.

The Degree of Master of Arts may be taken in course by any Bachelor of Arts of three years standing, who shall satisfy the College Board that his course, subsequent to graduation, entitles him to this distinction. Those who propose to be advanced to this Degree should intimate their wish to the President of the College a few weeks prior to the Annual Meeting of the College Board.

DISCIPLINE.

Students, both regular and special, are expected to conduct themselves with propriety, and to observe the regulations of the Faculty as from time to time announced. The use of tobacco is prohibited; and no student, known to indulge in intoxicating drinks, will be allowed to retain his connection with the College.

GENERAL CIRCULAR.

This ACADEMY has been opened and in successful operation upwards of thirty years. The arrangements which were made for the accomplishment of the important object for which it has been founded, were such as obtained for it a high position in the public estimation very early in its history; and those upon whom the direction of its affairs have devolved have been stimulated and encouraged, by its prosperity, to continued efforts to render it, in all its departments, ever increasingly efficient. Each year has, therefore, been marked by valuable additions to its educational facilities, and by more or less extensive general improvements throughout the establishment. The Officers of Instructions and Government have labored assiduously to prove themselves not unworthy of the important trust committed to them by the Trustees of the Institution and the Parents and Guardians of their pupils; and that they have not seemed to toil unsuccessfully has been proved by the continual large attendance of students from almost all parts of these Provinces. The employment of a large staff of Instructors renders practicable a thorough classification of the students, and such a division of labour as is most pleasant to the teacher and most profitable for the pupils, ensuring a sufficient amount of attention daily to each Class; and to every individual in each Class; and, as the ACADEMY will still be conducted upon the same principles which have secured for it such enviable and distinguished popularity, and such extensive and continued patronage, the attention of young men, and of the parents and guardians of youth, is confidently, but respectfully, invited to it, as an Institution where, under most favourable circumstances, thorough intellectual training may be obtained in safety and comfort, and at very moderate expense.

Family Arrangements.

These are such as are best adapted to promote the comfort, guard the morals, and form the manners of the young gentlemen who are placed in the Institution for Education. The Associate Principal and family, as well as other teachers and the Steward and Stewardess sit at the same tables, and live in immediate and constant connection with the students. Special arrangements have been made to secure the proper oversight of the clothing, especially of the junior lads.

Course of Study, Classification, &c.

The course of study is designed to ensure to the student thorough preparation for College matriculation or for comfortable entrance upon a course, either of special training for agricultural, mechanical, or commercial pursuits, or of specific study for professional life; it is, therefore, systematic and extensive, including all the branches of science and literature which are taught in the best conducted educational establishments on this continent and in Great Britain.

The aim in arranging the order in which the several subjects for study succeed each other in the course, has been not only to secure to the greatest possible extent, the symmetrical development of all the intellectual powers of the regular student, but at the same time also to accommodate the class of worthy young men, who, being able to spend but a short time in the Institution, wish to devote it all to particular studies.

The students being classified according to their respective scholastic attainments, are arranged in two distinct departments. Each Department is sub-divided into classes, and has assigned to it its own appropriate portion of the Course of Study, as follows, viz:

I.—PRIMARY DEPARTMENT—TIME, TWO YEARS.

This is designed as a preparatory school for such of the more youthful pupils as may not be prepared for the exercises of the classes in the higher Department.

STUDIES.

FIRST YEAR—SECOND CLASS.

Reading, &c., Penmanship, Mental Arithmetic, First Lessons in Geography.

SECOND YEAR—FIRST CLASS.

Reading, &c., Penmanship, Arithmetic (elementary rules,) First Lessons in Grammar.

NOTE.—Weekly exercises in Dictation and Composition required from all the Pupils in this Department.

II.—INTERMEDIATE DEPARTMENT.—TIME, TWO YEARS.

STUDIES.

FIRST YEAR—SECOND CLASS.

First Term.—Latin Grammar, Geography, English Grammar, Arithmetic, Greek Grammar.

Second Term.—Latin Reader, Greek Reader, Arithmetic, Analysis.

SECOND YEAR—FIRST CLASS.

First Term.—History, Cæsar, Xenophon, Geometry.

Second Term.—History, Cæsar or Virgil, Xenophon or Homer, Algebra, Natural Philosophy.

NOTE.—Weekly exercises alternately in Composition or Declamation required from all the Students in this Department.

Special Classes for Candidates for licenses under Provincial School system will be formed, if demanded

Commercial College.

This branch of the Institution has been in successful operation during three years. The extensive patronage it has received, shows that a public want has been met.

The regular course includes everything taught in the best Commercial Colleges of the Continent, and students completing it will receive an appropriate diploma. The Institution is provided with bank, currency, commercial forms, and all the requisites for instruction in the arts of merchandise, railroading, banking, &c.

A modified course, involving advantages only to be found in connection with a Commercial College, has been arranged to take the place of the ordinary terms training in book-keeping. See table of Fees.

Parents are advised that the thorough mastering of the regular course presupposes a good English Education, and are urged not to seek its advantages for their sons at too early an age.

By extending the time for prosecuting their commercial studies, young men will be able to carry on simultaneously one or more branches of Study in the Academy or College.

Students of the Commercial Department will be boarded at the regular Academy rates, and will be subject to all the regulations binding on other students. Applications for admission as boarders on other terms will not be received.

Necessary books will be furnished at lowest possible rates.

For full particulars, see table of Fees.

The Method of Instruction

is that which, after careful observation and mature experience, has been judged best calculated to interest the youthful mind, and to develop most harmoniously all its powers. The best text books extant,

in the various studies, are placed in the hands of the student, and he is required to make himself acquainted with successive portions of these as they are from day to day definitely assigned by the teachers, and to furnish satisfactory evidence of such acquaintance in his recitation rooms at the appointed hours. To do this he must study, and persevering in so doing week after week, he acquires the *habit of methodical study*. But to prevent the preparation for the recitation room from becoming mere *task work*, and the recitations mere memoritor repetition of words and phrases, the student is encouraged to extend his range of enquiry beyond the limits of his text book, to investigate and think and talk for himself; to lead him to do so is the constant endeavour of all the officers of instruction.

Government.

This is parental and mild, although strict and firm. The student on joining the Institution is made acquainted with its regulations, and is expected to observe both these and the special directions of the Faculty, as announced from time to time. Appropriate methods of punishing minor delinquencies will be devised, and measures of disciplinary severity will be employed only in the case of serious or repeated offences, and after the trial of other means has been found insufficient to secure good order. At the same time, let it be distinctly understood that no one will be allowed to continue in the Academy whose habits are damaging to good morals, or who persistently disregards its rules. In cases where it appears necessary to take steps towards severing the connection of a student with the Institution, preliminary notice will be given to parents or guardians, if the gravity of the offence does not require instant action, and all possible chance will be afforded for the beneficial operation of family influence. As it is believed, however, to be of pre-eminent importance to preserve in the school a wholesome moral atmosphere, nothing shall be permitted to stand in the way of a rigorous discharge of duty in the expulsion of unworthy members.

Requirements.

It is unnecessary to state these in detail. The general principle insisted on is *obedience to proper authority*. There may be mentioned, however, as points of great importance, punctuality and regularity in attendance upon school duties, industrious application to study, chasteness of speech, proper observance of the Sabbath, a careful refraining from injury to the buildings and property of the Institutions, and a strict abstinence from tobacco, and from intoxicating drinks and places where they are sold. The legitimate penalty for neglect of this last principle is immediate expulsion.

General Notices.

Parents are particularly requested to see that each article of clothing is marked in full. Initials are worthless.

Money (in addition to regular payments) may be lodged in the Principal's hands to meet the incidental needs of the students, and will be paid out as really required.

Parents are requested not to furnish their sons with fire-arms, the use of which is prohibited.

CIRCULAR.

THE Mount Allison Ladies' Academy was opened for the reception of Students on Thursday, the 17th of August, 1854. The edifice was planned and finished for the express purpose of affording a pleasant, healthy, and in every respect desirable residence for young Ladies requiring a course of liberal educational training. The main building is 160 feet long by 50 feet wide, three stories high, with a French roof. It is heated throughout with steam, each room being provided with one or more of Nason's Radiators, fitted with valves, by which the temperature may be regulated at pleasure. The apartments are exceedingly commodious, and all are tastefully and comfortably furnished, so as to present a most inviting home for a large number of resident students. It is designed to be, in every respect, equal to any public institution devoted to the advancement of female education in the Dominion. The eminence on which the Academy is situated commands an extensive view of a rich and beautiful stretch of Country. The surrounding grounds are well adapted for exercise and pleasant walks secluded from public observation. The locality is specially noted for its healthfulness.

The constant object of all the Officers of Instruction is to impart an education which regards not accomplishments merely, but one which will modify the character and bestow the power of self-control; one which will enable its possessor to enrich the genial atmosphere of home with calm and elevated enjoyments,—an education which shall prepare the daughter, the sister, and the mother, to exert a moral influence, the stronger always for being associated with intellectual vigor.

The family and class organizations of the Ladies' Institution are entirely distinct from those of the neighboring academy and college, with this exception—that young women, as soon as they are prepared, are admitted to the regular college classes and lectures, and may claim all the advantages, honors and degrees of the college on the same conditions as students of the other sex. Hence, a course of study ranging from the elementary English branches to and through a full curriculum for the Baccalaureate degree, may be pursued at these institutions by young ladies, under the most favorable circumstances, surrounded by social safeguards, and amidst social advantages quite unusual to school life.

The Ornamental branches, though regarded only as the accessories and embellishments of learning—not its substitute, are by no means depreciated or neglected. The tendency of the study of the Fine Arts to cultivate the taste and refine the manners is fully recognized. Hence adequate provision is made for a thorough and extended course of instruction in Vocal and Instrumental Music, and in Drawing and Painting.

Terms, Courses of Study, &c.

The Academic year is divided into two Terms; the First Term, seventeen weeks long, begins on the First Thursday after the twentieth of August and ends on the Wednesday before Christmas; the Second Term, twenty-two weeks long, begins on the first Thursday after the first of January and ends the first Wednesday in June.

There are two Courses of Study. The first is the regular course for the Baccalaureate Degree as given on pp. 11, 12, 13, preceded by the course preparatory to Matriculation as given on pp. 29, 30. All Collegiate privileges and honors are open to young women attending the Ladies' Academy, subject to such prudential regulations as the Faculty may deem advisable.

The other Course, as given below, is designed for those who prefer to substitute for the Classics the Modern Languages and Natural Science.

The students being classified according to their respective scholastic attainments, are arranged in distinct departments. Each Department being sub-divided into classes, has assigned to it its own appropriate portion of the Course of Study, as follows, viz:

I.—PRIMARY DEPARTMENT.

This is designed as a preparatory school for such of the more youthful pupils as may not be prepared for the exercises in the classes in the higher Department.

TIME—FROM ONE TO TWO YEARS.

STUDIES.

Reading, &c., Penmanship, Geography, Arithmetic, First Lessons in English Grammar, &c., &c.

II.—INTERMEDIATE DEPARTMENT.—TIME, TWO YEARS.

FIRST YEAR—LOWER CLASS.

First Term.—Arithmetic, English Grammar, Geography, Elocution.

Second Term.—Arithmetic, English Grammar, Physical Geography, Book-keeping.

SECOND YEAR—HIGHER CLASS.

First Term.—Algebra, Latin or French, English History.

Second Term.—Algebra, Latin or French, Natural Philosophy, Canadian History.

III.—COLLEGIATE DEPARTMENT.—TIME TWO YEARS.

FIRST YEAR—JUNIOR CLASS.

First Term.—Geometry, Rhetoric or English Literature, French or German.

Second Term.—Geometry, Latin, French or German, Logic.

SECOND YEAR—SENIOR CLASS.

First Term.—Chemistry, Mental and Moral Philosophy, Botany.

Second Term.—Physiology, Political Economy, Evidence of Christianity.

NOTE.—Music, Instrumental and Vocal, or some one of the Ornamental Studies, may be taken throughout the Course.

Weekly Exercises in Composition and Rhetorical reading required throughout the whole course.

Every student who completes the above course of study, and passes the required examinations, will be entitled to receive a Diploma conferring the title of M. L. A., or Mistress of Liberal Arts.

An appropriate Diploma will be given also to each one who finishes the course of study in the Intermediate Department.

A student who takes only a partial course of study may, upon being regularly dismissed, receive a certificate to indicate the extent of such a course.

Department of Music.

A talented Professor of Music educated at one of the most celebrated Conservatories of Germany, and two well trained and accomplished lady teachers devote their attention exclusively to this Department. The course of Instruction embraces a thorough training in Instrumental Music, (Pianoforte, Organ and Violin,) Vocal Culture, Class and Solo Singing, Harmony, Thorough Bass, and Composition. The Institution is fully supplied with *superior new Pianofortes*, and the arrangements are such that the Students while practising are under the supervision of the Professor and teachers. It is confidently believed that no greater facilities can be found elsewhere for securing a thorough knowledge of Music both Vocal and Instrumental.

An appropriate Diploma, under the College Seal, will be awarded to Students who shall have satisfactorily completed the following

COURSE FOR PIANOFORTE.

- (c) Selections from Bach's Inventions, &c.

The study of Harmony and Thorough Bass to be continued through Grades III. and IV.

Department of Painting, Drawing, etc.

The method of Instruction in this Department is that employed in the best European schools. Copying, under the eye of a skilful teacher, is regarded as the first means of acquiring correct ideas of the Art; but, from the beginning, the pupil will be taught that Nature is her ultimate guide, and as early as possible will be accustomed to make studies and sketches directly from natural forms.

Pupils who become proficient in Drawing and Painting, will be entitled to receive a special Diploma.

Domestic Arrangements, etc.

The Principal and his family, as well as the Chief-Preceptress and other Teachers, live in constant and immediate connection with the Academic family.

The students of the different Branches are not allowed to associate, except in accordance with well considered and established regulations, under official direction.

Parents and guardians of young ladies may feel assured, that while the most strenuous efforts will be made to secure the development and strengthening of the mental powers, and to form correct general habits and a high-principled Christian character, due attention will also be given to the preservation of health, and the cultivation of refined taste and lady-like manners. With this object in view, familiar Conversational Lectures will be given by the Chief Preceptress or by other teachers, on the Personal, Domestic and Social Proprieties of Life. These lectures will embrace such topics as private personal habits—as to exercise, exposure, eating, sleeping

and sitting, walking, dress, and room; domestic manners; table manners; school room manners; hotel and railroad manners; street manners; manners in public assemblies—as in church, concert, parties and parlors; manners towards kindred and friends; manners in intercourse with other ladies; manners and intercourse with gentlemen. In short, no pains will be spared by these lectures, and by private hints and suggestions, as occasion shall require, so to regulate the daily deportment of each pupil, as to make easy and habitual all the graces and proprieties of refined and accomplished womanhood.

Receptions.

A Drawing Room entertainment is given every fortnight, to which all the officers and students of the College and Academies are invited. These Receptions, enlivened by music and pleasant conversational intercourse, are found to exert a very beneficial influence on the manners of the students, and to promote a healthy development of the social nature.

Correspondence, Visits, etc.

Students are allowed to correspond with the home circle without any supervision; but correspondence beyond the home circle is not allowed without special permission, and, without such permission, letters may be destroyed by the Principal or forwarded to the parents as he may judge best.

Students, unless accompanied by a teacher, will not be permitted to visit families in the vicinity without the written request of parents or guardians to the Principal, authorizing him to grant such permission; and parents and guardians are earnestly advised not to allow their children or wards to be absent during Term time for the purpose of visiting at home or elsewhere. Visitors will be expected to present proper letters of introduction before being permitted to call on any of the young ladies.

Dress.

It is especially desired that the dress of students shall be simple and inexpensive.

Each student should be provided with thick boots, India-rubber over-shoes, a water-proof cloak, and a loose dress to be worn while taking gymnastic or other active exercise.

Expenses.

An Advance payment of \$50 is strictly required at the beginning of each Term.

The balance of the 1st Term's account is payable on the 15th day of November; and of the 2nd Term's account, on the 1st day of May in each year.

 In no case shall the expense for Board and Tuition (exclusive of the Music and Art Departments) exceed \$165 per Academic year.

 No deduction is made for absence during Terms unless it is rendered necessary by sickness or other unavoidable cause, and exceeds two weeks.

Miscellaneous Remarks applicable to both Academies.

All who design to become Students in either Branch of the Institution, should enter, if at all possible, at the commencement of the Term, as the regular classes are then organized; pupils, however, will be received at any time. The only pre-requisites for admission into the Primary Department are a good moral character, ability to read and spell, and age sufficient to enable the pupil to prepare regularly for recitation.

Students in good standing can receive an honorable dismissal from the Institution at the end of the Examination at the termination of any term, and at no other time, except in special cases.

Parents and guardians are respectfully requested to write to the Principal, should they find it necessary to recall a student in Term-time.

Persons who may not wish to pursue either course regularly, will be allowed to enter any of the Classes, in order, for which they are qualified; but where there is no inclination or desire on the part of the parents and guardians of the youthful students, dictating a modified course, they will be examined, and have their places assigned in the Department which they may be prepared to join, and they will be required to pursue the regular course, as above given, while they may continue in the Institution.

Parents are particularly requested to send every article of clothing marked with the name of the pupil in full.

If parents wish to aid us in our efforts to promote the health of their sons and daughters, they will do well to heed our *earnest request* that no eatables, except perhaps fresh fruit, be sent to those under our care. Our table is abundantly supplied with every needful variety of wholesome food. A large part of the little sicknesses among students is directly traceable to the "boxes from home." We suggest also that spending money, beyond actual needs, is injurious in its influence on students, and should not be furnished.

Prizes.

At the Anniversary of 1874, Dr. Ring of St. John offered a Gold Medal for excellence in English Scholarship, to be competed for by the Students of the Academic Year, 1874-5, and to be presented at the Anniversary of 1875. Through the kindness of H. A. Austin, Esq., M. P. P., and W. H. Tuck, Esq., D. C. L., similar medals were offered for competition to the Students of the years 1875-6 and 1876-7. In conjunction with the Medal, a prize of Twenty Dollars was given each year by friends of the Institution to the competition ranking next the Medallist.

1874-5.

Medallist, MISS LIZZIE MCGREGOR.
Winner of Prize, MR. JAMES SMITH.

1875-6.

Medallist, MR. C. C. CAMPBELL.
Winner of Prize, MISS JOSEPHINE SMITH.

1876-7.

Medallist, MR. ARTHUR G. WINTERBOTHAM.
Winner of Prize, MR. FRED. DIXON.

Library, Apparatus, etc.

The Library, containing more than three thousand well-selected volumes, is for the use of all the students.

The Recitation Room, Laboratory, and Lecture Rooms, are furnished with Geographical and Astronomical Maps and Globes, and Philosophical, Astronomical, and Chemical Apparatus.

The Geological and Mineralogical Cabinet has been recently increased by the addition of a fine collection of New Brunswick Minerals, Earths, etc., which was made by the late Mr. Payne. This contains about five hundred specimens, all properly labelled and arranged in eight different cases.

A full supply of all the Text Books, Music, Stationery, Materials for Drawing, Painting, etc., needed by students, is kept constantly for sale at the Institution, at the lowest possible prices.

Situation, Buildings, etc.

Sackville is situated on the line of the Intercolonial Railway, midway between Halifax and Saint John. Four Express trains connecting these cities pass daily, as well as accommodation trains for nearer points. The various branches and extensive connections of the Intercolonial bring Sackville into direct railway or steamboat communication with all parts of the Maritime Provinces, as well as with the Western Provinces of the Dominion and the United States.

The Academy Buildings, are elegant, spacious and comfortable and delightfully situated upon an elevation of ground, so that they command one of the richest and most extensive views in the Dominion.

This Association was organized in May, 1871. Its objects and plan of operations are similar to those of the Alumni Society of the Male Academy and College. All former students of the Ladies' Academy may become members by paying to the Treasurer the sum of One Dollar annually. Life-membership may be secured by paying Twenty Dollars at one payment. The regular annual meeting of the Association will be held during the Anniversary Exercises of the Institution in May.

All Alumnae who wish to join the Association will please forward to the Secretary the membership Fee on or before the 1st of Jan., 1877.

In May, 1872, an Alumnae Mathematical Scholarship was established, of the minimum value of Twenty-five Dollars, to be competed for annually by students of the Ladies' Academy. The examination for the Scholarship will be conducted by a Committee specially appointed for the purpose.
