Say Germans Spared Canadian Steamer Crew Because Of Mother And Babe

Something New in Warfare on Part of The Huns is Told in Experience of Midland Queen

Toronto, Sept. 4.—When the Midland Queen, a steamer owned by the Canadian Steamship Company, was sent to the bottom seventy-five miles off Fastnet, by the German submarine U-98, it is possible that the presence of a woman and her baby saved the crew from being sent to join other submarine victims.

At 4:30 a. m. the submarine, painted sea-blue in a dark color, and white rose to the surface a mile and a half from the steamer. The command was given and three shells at the Midland Queen.

The response was that the gun crew were called below, and then the Midland Queen, then afloat in two ships, was ordered to row fifty yards from the steamer. The command was being obeyed when Chief Engineer Crossan caught sight of the black coner of the Midland Queen shooting equally for help from the deck of the Canadian steamer.

The German officer told him to get along side the Midland Queen as quick as possible. No time was wasted and the frantic cook was taken off.

ARREST MRS. MOHR AFTER STATEMENT BY ALLEGED ACCOMPLICES

She Says Charge That She Incited Murder of Her Husband is Absurd

Providence, Sept. 4.—Accused by her alleged accomplices—three negroes—Elizabeth Tiffany Blair Mohr was held without bail on the charge of having incited the murder of her husband, Dr. Franklin Mohr, a wealthy and well-known physician of this city and Newport.

Dr. Mohr was fatally shot while on an automobile trip from this city to Newport on Tuesday night. The negroes have signed a written confession that Mrs. Mohr hired them to kill the doctor.

George W. Heals, the chauffeur, who was driving Dr. Mohr's car at the time of the shooting, said Victor Brown, formerly employed as a hostler by Dr. Mohr, and Henry Spelman, a half-brother of Brown, stayed with number 2, and were also held without bail.

Hearing is set for Sept. 16. The prisoners are not guilty.

Mrs. Mohr was arrested at the Mohr home following the confession of the negroes, who told the police that they had been hired by Mrs. Mohr to put her husband out of the way.

Mrs. Mohr vehemently denied the accusations of the negroes which she characterized as absurd.

Reports to the effect that Capt. Eric MacDonald, formerly of the 12th and now of the 10th Battalion, had been killed in action have been disproven. It is learned today that there is absolutely no foundation for the stories and that Capt. MacDonald, so far as known, is still at home.

Seventeen from Jogging. Jugglers sent seventeen recruits to Sussex in the last two weeks, all of them from eighteen to twenty years old.

Wounded Fifteen Times. That Corp. Burdette W. Harrison, a U.N.B. graduate who resigned his position coming from Maine and also was in the 10th Battalion, was wounded in an engagement in which he is credited with five kills.

One in Ten Killed. It is estimated, and by military men, by civilians, that there will be, in 600 Springfield, N.S., men now in khaki. This includes, of course, the men from the town who have volunteered in other parts of the country as well as those who have enlisted here.

Close to German Trenches. To hear Germans talking almost daily but never to see a single Hun during six weeks of duty in the first line of the trenches in France was the strange experience of Private Henry Dixon of Sackville.

New York, Sept. 4.—One of the passengers on the Sabre liner Saint Anna, which arrived from Europe today, was Dr. Elizabeth J. Van Slyke, of the New York Women's Hospital, who has been serving with the American Red Cross in France and Belgium. She was born when she went to Europe she did not believe the report of the atrocities said to be committed in Belgium.

Dr. Van Slyke said she saw a number of women who had been terribly mistreated by German soldiers. One French woman about forty years old was in an indescribable condition, and both her little girls had been killed. I want the American women to know the truth. Very few French and Belgian women in the territory invaded by the Germans escaped attack. The stories about the atrocities are true. I investigated them and I know. I cannot speak too strongly on the subject.

Dr. Van Slyke said there were 75,000 wounded in twenty-two large hospitals in France and Belgium. She saw a number of victims of the gas used by the Germans in the trenches, and said that nearly all who survived were sightless. Another passenger on the Saint Anna was Miss Ruth Jean McTannay who said that Americans should be very careful in these war times about taking snapshots on other people. She stopped at Pisa, Italy, to take a picture of the celebrated leaning tower, and was arrested when she was taken to the station. She had spent six hours at the police station the Italian authorities allowed her to proceed to Naples.

SERGEANT KNIGHT HOME FROM WAR, WILL SPEAK IN SQUARE. Chairman E. A. Sergeant Knight is a returned wounded soldier and is a speaker of ability.

AUSTRIANS ATTACK BUT ARE DRIVEN BACK AND SUFFER GREAT LOSSES

Also Lose Important Positions Which They Had Occupied Little Change Announced in Russian Report

Rome, Sept. 4.—The following statement was issued last night: "On the upper Rhen, the enemy again attempted an attack on our position on Monte Piana, but was repulsed with great losses.

"In the zone of Paraded, the upper Piave, the enemy occupied the rugged range of Monte Chiodens and Monte Avanzo. A series of operations was concerted between our troops on the upper Piave and those in the Degano Valley, with the object of driving the enemy from this important position. The action, skillfully prepared and carried out with boldness and tenacity, assured us of possession of the entire range, notwithstanding the determined resistance at certain points by the enemy, who had moved from summit to summit and finally from two steep peaks of Chiodens, upon which small detachments were strongly entrenched.

"On the Carso, in the Selisusi zone, the skillful manoeuvring of one of our detachments enabled us to occupy, almost without resistance, several enemy trenches.

"One of our aeroplanes effectively bombed Austrian encampments along the road from Kostanjevic to Vovscica."

Petrograd, Sept. 4.—A Russian official communication issued last night says: "On the Riga-Drinsk front, in the region of the Village of Linden, our troops, after a stubborn fight, retired on the morning of September 3 to the right bank of the river, after setting the bridge afire. The fighting continues. Our positions near Friedricstadt were embanked on the first and second by the enemy's heavy artillery.

"Between the Sventa and Vilya rivers our offensive met with fierce resistance. Nevertheless we continued to advance and have captured, during the last two days, thirteen machine guns, 1,000 prisoners, including officers.

"Between the Vilya and the Niemen and farther to the right as far as Grodno, the situation is unchanged. Near Grodno, toward the evening of the second, the enemy succeeded in throwing a portion of his forces on the right bank of the Niemen. Desperate fighting ensued in the northern and western suburbs.

"In the region between Grodno and the Pripiet river no material change has been reported. Stubborn rear guard fighting occurred only in the region south of Inlura, near Brestovitz and south of Grodno.

"In the direction of Lutsk, toward Kiev and Targovitz, on the first three days of the fighting, the enemy was only minor engagements, which were without appreciable results for either side.

"In Galicia as far as the Dniester occupation of new positions in the region of the river Sereth has been accomplished by slight engagements. First attempts at an offensive by the enemy in the region of the Dniester, the Strips and Zaleszczyk were pushed."

WHY BRITISH FIRMS CAN GET THE ORDERS

United States Agent in Panama Sends Home Sample Letters From Rival Firms Which Tell The Story

Washington, Sept. 4.—A report to the department of commerce from Special Agent Garrard Harris, at Colon, Panama, commenting on the methods of American exporters in dealing with South and Central American customers, incloses two letters illustrating the difference between the way English business houses treat their patrons and that of manufacturers and exporters of the United States.

The English letter was most cordial and in part follows: "The United States city of Colon, and we are anxiously awaiting news to hear that none of them have suffered from the fire. We realize full well that business cannot be very brisk on the isthmus and that this fire, coming along at this time, must indeed make matters very awkward for people in the city of Panama. We wish to take the opportunity of expressing our sincere regret at the disaster. Of course the burdens of the present situation in England are falling heavily on all of us, but we are meeting the situation. Give yourself no occasion for worry at the state of affairs. Send on your orders and they will be filled as usual upon the usual 'c.w.' terms."

The letter from New York was brief and matter-of-fact, and ran like this: "Dear Sir:—Owing to war conditions, we are compelled to curtail our lines of credit and the terms in future will be 'c.w.' terms."

The terms offered were practically cash. The contrast between the letters naturally had an effect on the minds of the Colon merchants, and Mr. Harris says that it is obvious that American trade in that quarter will not be likely to supplant that of European competitors.

Hingham, Mass., Sept. 4.—After he had been frightfully beaten by two prisoners, who were attempting an escape, the Chief of Police Washington James killed one and saw the other captured yesterday. The chief got his man within two hours of the attack in which his skull was fractured and his nose broken by blows with a hammer. James was already weakened by a bullet wound received a few months ago from a man who resisted arrest. After Friday's experience he was taken to a hospital, where his condition was said to be serious.

The dead man was known as James Harmon. With a companion, Wallace Williams, alias Walter Welsh, he had been held on a charge of burglary. On Friday morning when James brought them their breakfast they sat upon him, his revolver and locked him in a cell. Leaving the building the prisoners were noticed by two street car employees who entered the jail and released James. The chief refused to wait for medical attendance, and started in pursuit. He overtook his men a half mile from the jail and called upon them to surrender. Harmon's reply was two shots. Then James began shooting and the third bullet went through Harmon's head. As his companion fell dead Williams made a dash through the brush, where he was found hiding a few minutes later.

New York, Sept. 4.—"Jack" Francis, named as correspondent in Henry Thaw suit for divorce, came to Broadway from South Boston, Mass. His full name is Patrick John Francis, and he was born in Ireland about thirty-eight years ago. He was no surprise to persons along Broadway when it became known that Francis was named in Thaw's suit. He is a Norman.

"This is a surprise to me. I really know nothing about it. Of course, no one should be surprised at anything. Henry Thaw might say, I have not seen Evelyn for a long time. There is some mistake. Francis has been a free lance in newspaper work at various times, filling in other periodicals as press agent for theatrical companies. When Thaw killed Stanford White, Francis was Tenderloin reporter for the Morning Telegraph and thus became acquainted with the young woman. He obtained several interviews with her. Callers upon the young woman frequently found Francis there. He insisted he was merely befriending a young woman in trouble.

Mrs. Thaw filed a petition for divorce in 1908, but later dropped it. The friendship between Francis and Mrs. Thaw suddenly ended in 1912 and soon after Mrs. Thaw was on the stage with "Jack" Clifford as a dancing partner. They appeared in vaudeville. Mrs. Thaw and the child are now at Clifford's camp in the Adirondacks, and are expected to return soon when Mrs. Thaw will make a winter stage tour.

THE VIEW AT THE FALLS. Mr. Hatheway of Boston, brother of W. Frank Hatheway, who is in the city, suggested to the Times this morning that some provision should be made so that tourists could get down where they were formerly able to go, between the bridges at the falls, on the west side, and sit at leisure to enjoy the view. Mr. Hatheway says he advises all his American friends to come to St. John to see the reversing falls, and all visitors should be given the best viewpoint possible, which is at the place indicated.

BIG CAMPAIGN FOR PATRIOTIC FUND NEXT WEEK

Canvassing For The Great Auction is to be Begun - Everyone Can Help

Many lofty patriotic projects have been developed in St. John since the outbreak of war, and each has been given a hearty reception. But the greatest endeavor in the interests of the patriotic fund is the Patriotic Auction to be held in St. Andrew's rink, October 1 to October 8. The object is to secure \$50,000 in a week for the patriotic fund, a pretentious undertaking surely, but when attempted by such an enthusiastic, active and capable body of workers as are now carrying on the preliminary arrangements, its up-and-down nature is more or less forgotten and one dwells in happy anticipation of success.

It is regretted that the information was incorrect.

THE STREET RAILWAY The street railway situation in Main street remains unchanged so far. F. R. Taylor called on Mayor Frink this morning and presented to him a communication on the subject. It is possible that the matter may be dealt with today as otherwise Sunday and Monday, a public holiday, would intervene before anything could be done.

THIS NOVA SCOTIAN WOMAN TRUE HEROINE

Mrs. Charles MacNutt, Salmon River, Colchester county, lost her husband two years ago by accident, while he was in the employ of the Intercolonial. She also lost a son by an accident while in the same employ one year ago. Disease bereft her of a daughter a few months ago.

Her second son, Percy, volunteered for service at the front in the Canadian 25th Battalion and is now at the seat of war. She has one son left, Fred, aged 18. He has offered his services for King and Country to go with the new Nova Scotia regiment that leaves, and his noble mother in consenting said: "Yes, my son, you are all I have left but I cannot say 'no' when the call is so imperative. I will give you all, if necessary to help save our country from that which would be worse than death; with God's blessing, go!" What finer act can the Empire show than this?

Primecrest Special Buttermilk

The refreshing coolness, the purity and cleanliness of Primecrest Special Buttermilk, the perfect conditions under which it is produced, handled and delivered, all combine to give it a distinctive flavor and to place it in a class quite by itself.

The milk from which it is produced is first passed through a sterilized clarifier, then separated, and, after that, pasteurized and the butter made from the rich, fresh sweet cream. That is why you find in it what is known as the "true Buttermilk flavor."

Not only is our Special Buttermilk delightfully cooling and grateful to the stomach, but it will quench your thirst quickly and is both healthful and nourishing.

It is delivered from our refrigerator equipped teams, IN STERILIZED, SEALED GLASS JARS—Quarts Only—at 5 cents the quart.

The Evening Times and Star

ST. JOHN, N. B., SEPTEMBER 4, 1915.

The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

LAST NIGHT'S MEETING.

Why were the bands playing and the flags flying and the crowds assembled at King Square last evening?

Because men are wanted to prevent the British flag from being replaced by that of Germany.

That is the issue, and it does not require anything more than ordinary intelligence to understand what such a change would mean to Canada and the world.

We must fight, and fight to win. It is not merely the sorrow of parting and of separation that we must consider in this hour, but the future of our families, our country, and the world.

Historic King Square was never put to a nobler use than now. It is a recruiting ground for the champions of British freedom.

The St. John boys on the other side are wondering why more of their old schoolmates and friends do not join them. What is the answer?

Bulgaria may over-reach herself. She may ask too high a price for her support and in the end find herself utterly disregarded in the final settlement.

We are inspired by the crowds, the bands, the enthusiasm of such meetings, but if we do not also hear the call that comes from our brothers in the trenches, and if we do not heed the silent motto within our own souls, we fail to get the inspiration of the true patriot and the true champion of human liberty.

HEROES ALL. All honor to the men who last night made their decision to join the colors. They have set an example worthy of emulation by hundreds upon hundreds of young men in this city and province.

Who pays for putting down and tearing up the concrete on Main street? The taxpayer. He also suffers from the delay to traffic caused by the quarrel between the street car, the tram and the railway company.

Never mind what we owe England or what England owes us. We are all brothers in this fight for freedom and righteousness and our existence as an Empire. Let's attend to the Kaiser first, and adjust our relations afterward.

St. John people will hear with pleasure tonight the words of Mr. H. J. Logan, ex-M. P. for Cumberland, an eloquent speaker who has been doing splendid service in the recruiting campaign in Nova Scotia.

Hon. George P. Graham at Scarborough Beach, Toronto:—"We are not fighting men, in the last analysis, but engaged in a struggle for principles. It is your freedom and mine that is at stake, as much as that of the man who lives in Fleet street, London. I believe the pride of the entire world will be due these men, who will eventually lead the Allies to victory for the principles of humanity."

The Canadian Courier says that the test of the Borden government's efficiency comes now, when Canada's record wheat crop is about ready for the market. It points out that the government press predicted prices ranging from \$1.20 to \$1.50 per bushel, and a great "Patriotism and Production" campaign was carried to stimulate the farmer to raise more wheat.

The following from the Regina Leader is very pertinent comment:—"Premier Borden has been endeavoring to arrange with the British Admiralty for the safe transport of Canada's surplus grain crops to Europe. What a pity it is that Canada did not proceed with its own navy as Sir Wilfrid Laurier proposed. Had the Borden Government done so, instead of tearing up the trenches, Canada would today possess a number of fast cruisers which could have conveyed not only our Canadian troops to Britain but our grain-carrying boats as well."

the time being. We must make up our minds that continuous demands will be made and must be met, to keep the various funds in a healthy state, and the Merchant's plea for saving and making ready for such demands is both timely and well-based. There is a tendency, while money is fairly plentiful, to let the future take care of itself, but in the face of a world-crisis such as the world never before faced, it is wise to look ahead and make provision for future needs and demands.

Monday, Labor Day, the Times will not be issued.

Go to King Square tonight and hear the recruiting speeches.

Come away, lad—your country needs you, and needs you now.

Why not have some more night work on Main street and elsewhere? There's a lot to be done.

The 58th is up to full strength. Now for the 64th and the next New Brunswick battalion. It's up to us.

Historic King Square was never put to a nobler use than now. It is a recruiting ground for the champions of British freedom.

The St. John boys on the other side are wondering why more of their old schoolmates and friends do not join them. What is the answer?

Bulgaria may over-reach herself. She may ask too high a price for her support and in the end find herself utterly disregarded in the final settlement.

We are inspired by the crowds, the bands, the enthusiasm of such meetings, but if we do not also hear the call that comes from our brothers in the trenches, and if we do not heed the silent motto within our own souls, we fail to get the inspiration of the true patriot and the true champion of human liberty.

HEROES ALL. All honor to the men who last night made their decision to join the colors. They have set an example worthy of emulation by hundreds upon hundreds of young men in this city and province.

WILL WE EVER WALK ON AIR?

Train of Thought Inspired by a Letter About "Fruit-a-tives."

MR. D. McLEAN.

Orillia, Ont., Nov. 28, 1914. "For over two years I was troubled with Constipation, Drowsiness, Lack of Appetite and Headache. I tried several medicines, but got no results and my Headaches became more severe. One day I saw your sign which read 'Fruit-a-tives' make you feel like walking on air. This appealed to me, so I decided to try a box. In a very short time I began to feel better, and now feel fine. Now I have a good appetite, relish everything I eat, and the Headaches are gone entirely. I cannot say too much for 'Fruit-a-tives,' and recommend this pleasant fruit medicine to all my friends."

All He Wanted

"Can't I send you some books for summer reading?"

"Now, pa don't want no books. He's got a thermometer to read."

Not Impressed

"Think of the days when they danced the minuet!" exclaimed the sedate relative.

"Yes," exclaimed the energetic girl, "the world has improved—some since then, hasn't it?"

The Reason

"But, Etha," said the mistress, "your little boy was christened George Washington. Why do you call him 'Izaak Walton'?"

"Walton, you know, was the famous fisherman."

"Yes," answered Etha, "but that dillie's reputation 'o' tiffin' de droof made dat change imperative."

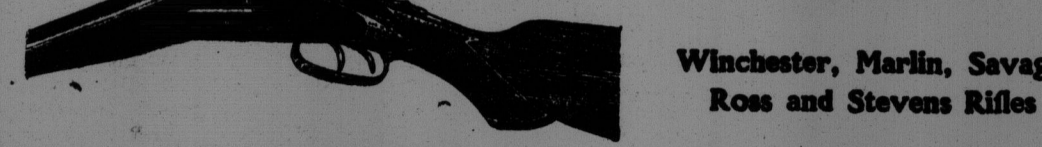

Misunderstood Suggestion

Society Dame—Oh, doctor, I am so sorely troubled with ennui!

Doctor—H'm. Why don't you interest yourself in finding out how the other half lives?"

Society Dame—Gracious! Why, I'm not looking for a divorce.

HOW YOU MAY REDUCE YOUR WEIGHT

Overstoutness is a very unwelcome condition especially in the present day, when slender figures are so fashionable, and every reader of this paper has noticed the tendency of some people to put on an excessive amount of fat.

If you happen to be one of those whose weight is more than it should be, don't try to starve yourself, eat all you want, but go to your druggist and get all of orlene in capsule form and take one with each meal.

All of orlene increases the oxygen-carrying power of the blood and dissolves the fatty tissue, in many cases at nearly the rate of one lb. per day. Be sure to get all of orlene in capsule form. It is sold only in original sealed packages. Any good druggist has it, or a large size box will be sent on receipt of \$1.00. Address D. J. LITTLE Drug Co., Box 1940, Montreal, Can.

Banish Pimples!

Pimples, Boils, and other skin eruptions are an almost indelible indication that the blood is impure.

Abbey's Effervescent Salt is the simplest and most positive Blood Purifier that can be used. When we have perfect digestion we must have pure normal blood, which supplies healthful sustenance to all the organs and tissues of the body; and as a result we must have healthy functions and the absence of disease in any form. Abbey's Effervescent Salt produces this condition by ensuring healthy digestion and the elimination of all morbid matter from the system.

AND BETWEEN THEM A "BANTAM" Highlander, coming toward him.

"Hello, Kiltie!" he shouted. "Where have you come from?"

"The civilian and the soldier—he was from 'Glesca'—shook hands and the Highlander told his story.

"We were at the trenches together," he said. "We were wounded in the same engagement, and we just come out of the same hospital. We're going back to the front in a few days."

"But do you understand what they say?" asked the man from Edinburgh. "We're going like a house on fire. We've separated for two days. Come on, darkies!"

And the grinning Turco, linking arms with the "kiltie" strode away—Rehoboth Sunday Herald.

PREMIER WELCOMED ON RETURN FROM ENGLAND

Montreal, Sept. 3.—Sir Robert Borden was welcomed to Montreal tonight, on his return from England and the battle front in France, with a demonstration of patriotism that probably never has been equaled in this city.

His message was one of confidence in the outcome of the war, and he expressed a sincere belief in ultimate victory for the British Empire and her Allies. "I come back to Canada," said the premier, "with a true sense of the unity of our Empire than I ever had before. After seeing Canadians and men of every part of the Empire at the fighting lines, I come back to you with this message: They are determined that the great cause for which they are fighting—a cause which involves your liberties and the liberties of the whole Empire and the allied nations, as well as the future destinies of the civilized world—that cause shall be made good on the field of battle, and this war shall never terminate until the cause of the Allies is crowned with complete victory."

MORE THAN HORSES.
(Halifax Recorder.)
The evidence given at the "Horse Investigation" is in part ridiculous, in part squallid, in part showing a complete lack of conscience in some individual horse traders and a complete lack of almost everything—in some veterinary surgeons. Yet the horse transactions are perhaps the least important part of the "doings" of the government and its agents, and the investigation thereof largely serves to distract attention from much more serious matters. What the people of this country would like to have investigated is the working of the whole patronage system since the war began. The selling of food supplies, of harnesses, of rugs, of hay, of oats, rubber boots, and many other things connected with government purchasing for the struggle in Europe. The butter question, the cheese question, the canned corned beef question, the sugar question, and the question of hardware purchased by the government, all being looked into with advantage to the public purse. Have drug supplies always been purchased from druggists? Have shoes, rubbers and leather always been purchased from shoe dealers and at contract prices? Have hardware dealers been limited in their contracts to the selling of hardware? Have members of parliament been profiting directly or indirectly by government orders?

Would an investigation of all these things meet with public favor? We emphatically think it would.

MORNING WAR SUMMARY

London, Sept. 3, 10-p. m.—The Germans in their official report today, claim to have carried by assault the fortified bridge-head at Lennawa, on the Dvina river, between Friedrichstadt and Riga. This is considered, for the Russians, the most critical point on their whole front, for should the Germans succeed in crossing the Dvina the Russians would be compelled to evacuate Riga, and their position between the Dvina and Vilna, and even southwest of the latter city, would be jeopardized.

However, the Germans do not yet claim to have crossed the river, which is being defended by a reinforced army, under the command of General Ruzsky, who has proved himself to be one of the greatest strategists of the war, and who brought the previous German advance to a stop on the Buzza river in front of Warsaw. It is believed by military critics that the Russians will make a stubborn defence on the Dvina, the opinion being expressed that should they fall the German fleet would gain command of the Gulf of Riga, and by landing troops at Pernau would considerably shorten the protracted march to Petrograd, which is understood to be the ultimate objective of the German high command.

Concerning the operations at the Dardanelles no news has been received since the report last Wednesday from General Sir Ian Hamilton, commander of the British forces on the peninsula.

The continued successes of the Austro-Germans in the east leads many writers to the conclusion that the sustained bombardment of the German lines in the west means an early move by the Entente Allies. The critics point to this, the thorough redistribution of the British and French armies, and the shelling of Zebruggé some days ago, as heralding something at least preliminary to a general offensive.

Paris, Sept. 3.—The French ministry of marine gave out today a note outlining the operations of the naval aeroplane squadron since the opening of hostilities.

"Last week, notwithstanding heavy artillery fire and the glare of rockets, our aviators dropped during the night, more than three hundred 90-millimeter bombs on German naval bases along the Belgian coast, besides taking an effective part in the bombardment of Monthail forest on August 25. All the machines returned although several of them were damaged severely.

"In Egypt and Syria and at Venice our hydro-aeroplanes have shown great activity. Engagements occurred recently with Austrian hydro-aeroplanes, which were put to flight. One of them was pursued as far as Pola by a French machine."

Paris, Sept. 3, 5:35 p.m.—Adjutant Bertin, of the French aviation corps, has been cited in the orders of the day, and awarded the decoration of the Legion of Honor, for alighting behind the German lines and bringing back in safety Adjutant Boyer, who was compelled to set fire to his machine as the result of an accident.

Bertin's landing point was about four miles beyond that of Boyer. On returning after executing his mission, Bertin saw Boyer's machine in flames. He landed in face of a heavy fire, picked up his comrade and flew back to the French lines, with a fragment of a shell in his thigh. The aeroplane was struck in ninety-eight places by bullets and pieces of shrapnel.

\$300,000 FOR PATRIOTIC FUND

Sum Required For Coming Year—Average of 50 Cents a Month From Each Family Would Do It—Plans For Campaign

It was resolved that a start be at once made in getting further provincial support for the Patriotic Fund by lump sums and monthly contributions, at a meeting held at the board of trade rooms yesterday afternoon, which was presided over by Judge Forbes and at which Lieutenant-Governor Wood was present. After a statement by C. B. Allan, treasurer of the fund, that the money in the province would be an end at about Oct. 1, Dr. A. P. Barnhill moved and Senator Thorne seconded a resolution that a committee be appointed to arrange for an immediate campaign in further support of the Canadian Patriotic Fund, the Rotary Club to appoint three members, the board of trade three, the Knights of Columbus three, and the Automobile Club three, together with the executive of the St. John branch of the patriotic fund, to organize and adopt methods and to start collections.

Senator Thorne in seconding, said that the province would necessarily have more increased and it should be a pleasure to those who had not gone to do all they could to make some sacrifice to sustain the fund. So far as the province of New Brunswick was concerned he thought they should not allow it to be said that they had called upon the central fund for aid. He felt that there were many wealthy men who would make as many sacrifices for the fund as some of the men of more modest means, men on salaries, were already doing. They could even do more and help other districts where there might be a deficiency.

"It would be, I think, a disgrace for the province not to meet the requirements of this fund for those of the province who have gone to the front."

Already, Senator Thorne added, a deficiency was facing the committee and while they knew that citizens had been generous and the ladies had worked hard, there was much more to do. Yet he believed that in the future there should be

THE FRUIT TRAIN

Did you know there was such a thing as a fruit train? Neither did I until Mr. Gabel, inspector of the Fruit Branch of the Dept. of Agriculture, told me of it and offered to take me with him on one of its trips. We left St. Catharines early in the afternoon, after taking on some peaches, early apples, tomatoes and berries. We stopped at all the stations in the Garden of Canada, from Jordan to Burlington, gathering carloads of delicious, luscious fruits to be taken to fruit-hungry people in all parts of the country.

The inspector was everywhere, with his little hammer, opening baskets and boxes to see that the fruit was not "overfaced," or, in other words, that the big ones were not on top, and all the rest little ones. At Vineland we were joined by Mr. Clement, who has charge of the Ontario government Experimental Farm at Vineland. His business is to produce new varieties, and make experiments that the commercial grower cannot afford to spend the time nor money in making. The knowledge garnered by much hard work, and watchful waiting is passed on to the growers for their profit. With the Ontario government to assist the producer and the Dominion government to protect the consumer, the system, to an ordinary observer, seems perfect.

The Fruit Train makes its trip every day during the fruit season. It is run by the Canadian Express Company, and Mr. Hickey, express superintendent, is on hand to see that the packages are carefully handled, so that the "ultimate consumer" shall get one hundred cents' worth of fresh, undamaged fruit for his dollar.

The Tenyson family are noted for their longevity. Miss Matilda Tenyson, who died recently, was in her 99th year. Charles was 71 at the time of his death. Mary 74, Emilia 78, Alfred, poet laureate, 83, Frederick 91, Arthur 85, Horation 80, and Cecilia 92.

Toronto, Sept. 3.—The chief topic at the final session of the Canadian Press Association was the establishment of a school of journalism in connection with one or more of the Canadian universities. NEWFOUNDLAND CONTINGENT AT ALEXANDRIA

02 Naval Reserves from the Niobe at St. John's on a fortnight's leave.

St. John's (Nfld.), Sept. 3.—The Newfoundland contingent arrived at Alexandria yesterday, en route to the Dardanelles for active service.

One hundred and two Newfoundland naval reserves, who have been on active service on H. M. S. Niobe for one year, reached St. John's tonight on fourteen days' leave. They were given a wonderful reception.

The steamer Bonaventure arrived today from Ungava Bay with a valuable cargo of furs of last winter's catch. She reports much ice.

WIFE OF BELGIAN MINISTER RELEASED

HAVE, Sept. 3, 11.55 p. m.—The Belgian government has been officially informed that, in deference to the wish expressed by the King of Spain, Mme. Carton De Wiart, wife of the Belgian minister of justice, will be released from prison tomorrow but will not be allowed to return to Belgium. Her husband has gone to Switzerland to meet her.

Mme. De Wiart was arrested in Belgium by the Germans late in May and sentenced to three months' imprisonment for corresponding with her husband. It was stated later that she had been taken from Belgium and placed in prison in Berlin.

Mistress—I see that another soldier was called for you, Mary. I thought you had only one sweetheart? Cook—Oh, no, ma'am, two. You see, one's regular and the other's a reserve.

A DECLARATION OF WAR

To the citizens of St. John who are interested in the reduction of the high cost of living—and who is not just at this time?—the following is of prime importance:

It may be that, at first sight, the caption of this article may seem a trifle misleading, but this is far from being so, as the writer learned recently on paying a visit to that interesting firm, the "American Dye Works," in the North End, where he had a very interesting talk with Mr. J. H. Burton, the general manager, and incidentally discovered that a new declaration of war has indeed been decided upon.

In this case, however, the war will not be a bellicose one, but quite peaceful.

Mr. Burton showed the writer over a large addition which has been made to the plant, for the purpose of the most up-to-the-minute process of "French Dry Cleaning," and explained the different machines very interestingly.

We were told that large reinforcements had been received and that the war against "dirt" would be waged with more vigor than ever before. This addition puts the firm in the unique position of having the most up-to-date Dry Cleaning establishment in the province.

The writer was shown an immense quantity of work which had just gone through the process and the result certainly reflects great credit on the firm.

Mr. Burton says that just at the present time, with everyone moving back to the city, they have a great rush of work, but that with the new process, it can be handled with ease, whereas under the older and slower system it could never have been turned out so quickly.

He spoke of the firm's long record in giving its patrons a sincere deal. They have been in business here for 40 years and in that time have seen many changes, but have always kept abreast of the times, and their sterling reputation has been the means of their business growing by leaps and bounds.

Their factory handles all kinds of dyeing or cleaning work, as he has had a most thorough experience in both branches of the business all his life, and the writer was taken through the dyeing establishment as well.

He also informed us that a great many people seem to lack faith in dyed goods, simply because they have either attempted to do the work themselves, or have sent it to those who have not the knowledge necessary to do it properly.

It is a lifelong study and he has found that when people have given the "American Dye Works" a trial, that they invariably call again. He says that there are thousands of dollars worth of goods thrown away every season, simply for lack of knowledge of what an up-to-date establishment like theirs can do.

The business includes the dyeing of all kinds of clothing and fabrics, such as curtains and portieres, the dyeing or cleaning of feathers, the cleaning of white kid gloves, for which they have the most up-to-date process known.

In the cleaning department all kinds of goods can be handled, some of the seasonal articles being ladies' sport coats, white sweater coats and gentlemen's suits. In connection with the latter, the manager informs us that they receive an enormous quantity of men's suits to be cleaned and pressed, or to be re-sewed only, and can make a beautiful job of them and turn them out quickly.

Many of the well-dressed men of the city know this already and send their suits to us frequently. Their team is always on the go and can call for and deliver all goods very promptly.

The visit was a most interesting one and the writer was greatly impressed with the enterprise and hustle of this go-ahead firm.

Their works are located at 27-29 Elm Street, North End, and they also maintain a second office for the convenience of their friends at 10 King Square. A telephone call to either office will promptly bring their driver to your door.

You will never be troubled with a warped or buckled range top if you buy the famous

McClary's Saskalta Range

because top sections are made with ample provision for heat expansion. See the McClary dealer.

SHARP RECOVERY IN FOREIGN EXCHANGE RATES

Wall Street Hears That Britain Has Raised a Temporary Loan and a Larger One is Being Negotiated.

(Associated Press.) New York, Sept. 3.—All indications today tended to confirm a report current in Wall Street that Great Britain has borrowed from \$50,000,000 to \$100,000,000 temporarily in this market to correct the exchange rate on sterling until such time as her commission shall reach New York and consummate negotiations looking toward the flotation of a much larger credit loan here.

According to the report the collateral on which this preliminary loan was issued was brought to New York in four lots, and aggregated the approximate figures of the sum borrowed. Two of the transactions of bilateral dealing about \$55,000,000, were brought from Great Britain to Halifax aboard British merchant ships, and the other two, with about \$40,000,000 in gold which had been brought here aboard the liners Adriatic and St. Paul which reached New York yesterday.

This loan, if made, was regarded as but a makeshift to clarify the surcharged atmosphere of the foreign exchange markets. Spurred by an unseasonable stimulus, rates rallied in spectacular manner today, sterling soaring ten cents or more at the opening of the market. They fell back later, but on the day's transactions a substantial gain of three and one-half cents was recorded. Sterling closed at 84.65.

Conservative estimates of Great Britain's needs here in the form of credit placed the sum today at a minimum of half a billion dollars, with twice that sum mentioned as an outside total. A billion dollars credit loan if floated would not, it was thought, be raised on one huge issue. Such a sum would be too great for capital digestion, in the opinion of some authorities. But a half billion dollars loan, it was thought, might be raised.

To furnish this staggering sum, it was said, the bankers of all the chief cities of the country would be called on to participate. Boston, Philadelphia, Chicago, Pittsburgh, Atlanta—in fact all reserve centres, and some cities where there are no reserve banks—would be represented in conference with New York either by delegates or by correspondence. The situation would then be placed before them and they would be asked to contribute their share to insure uninterrupted continuance of America's export trade.

Whether Great Britain could furnish sufficient American securities at present to serve as collateral for this big loan was another question considered. It was thought that should she not be able to raise this sum, Canadian and South American securities—government bonds and even high class railway bonds—would be thought sufficiently stable to serve as collateral for a part of the loan provided the controller of the currency would sanction such collateral.

Today's recoveries in rates were attributed by leading bankers here chiefly to a normal return to real value from fictitious low prices resulting from speculation. Once steady, the exchange market today showed few changes. Closing quotations on sterling were 84.66; on francs 53.85; on reichmarks, 80% and on lire 6.48.

The mother of a family that had just removed to a small Oklahoma town was being sympathized with by a visitor because of the distance of the house from the creek which furnished the water for the household purposes.

"It must be quite a tax upon your strength to carry water for your large family," her visitor suggested.

"O, I don't mind," was the cheerful reply. "Besides, I give 'em all a good wash before we left 'Texas.'—Lippincott's.

Anxious mother (whose little boy had cut his upper lip badly)—"O, doctor, I fear it will leave a scar. Tommy—(innocently)—"Never mind, mother, my moustaiche will hide it."

SCOTCH COMEDIAN GOES TO THE FRONT

Harry Lauder to Sing Droll Songs For Wounded

STAGE AND SCREEN NOTES

Stock Co. For Opera House; Marjorie Davis, improved in Health; Melba A. d. Red Cross; Mary Pickford in "The Foundling"; Owen Moore With Griffith; Various Items

Harry Lauder is going to the front. "I volunteered my services and the Red Cross Society made all the arrangements. I start early this month," he says. "I am going out in my jip, simply as Harry Lauder, and I don't propose to sing any character songs. I shall sing 'I Love a Lassie,' 'Roamin' in the Gloamin', and such like songs that have a chorus to them which the men can take up. My subject in going out is to try to bring a little of the brighter side of life to the men. They see quite enough of the tragic side. I shall sing in the hospitals and the camps and put in as much work as possible each day. While in France I hope to see my son, who is a lieutenant in the Argyll and Sutherland Highlanders. He is back in the trenches again after having been wounded.

Manager W. C. McKay of the Opera House has closed with the Partello Stock Co. now playing outside Boston, for an engagement of several weeks, opening about October 18. Several new bills of late stock release are included in their repertoire, while the company is said to be particularly capable. Mr. McKay has also received a request from an old friend with local theatre-going, Price Webber, for time, and will probably sign for his appearance here in one of his productions.

Marjorie Davis. Friends of Marjorie Davis, a former St. John favorite, will be pleased to hear she is fully recovered after her recent illness, and is now ready to take an engagement as an ingenue. She has been camping the past month on the lower Chateaugay.

Owen Moore, who played in St. John some years ago, has been secured to appear in forthcoming Griffith productions. Perry N. Yekoff, who is directing the Charles K. Harris production of "School Bells," is a Bulgarian and during the recent Balkan war served for fourteen

months as secretary on the staff of King Ferdinand of that country. Mr. Harris, the well-known song writer, has written a new song called "School Bells," to go with the feature picture of the same name which is now being produced for release on the World Film Corporation programme.

Antonio Scotti, Enrico Caruso, and other noted singers were among the debaters to Mrs. Maria Del Pezzo, a descendant of General Del Pezzo, according to the appraisal of her estate filed in New York yesterday. She left assets of \$20,000.

Mrs. Del Pezzo was proprietor of a restaurant in which opera singers were accustomed to dine. Scotti's bill amounted to \$384 and Caruso owed \$36. Alice Brady will be seen soon in another World Film release called "The Ballet Girl," adapted from Grace George's well known success "Carnival." Laura McClure, remembered for her three years' appearance in "The Blue Bird," has been engaged by the World Film Corporation to appear in "The Ballet Girl," featuring Alice Brady.

Helen Ware and Frank Campana are two of the latest celebrated stage stars to be engaged by D. W. Griffith to be starred in Triangle "Fine Arts Films." Klark-Urban. A strong opening bill is that selected for the opening of the Klark-Urban Co. at the Opera House. Bayard Veiller's great play "Within the Law," a drama of great power and one which stirred two continents in its production not so very long ago. Its author was thanked for its production in a public letter to him by Theodore Roosevelt. It caused in deepest reverence. The whole world knows from what it saved us all. It is to be hung in this town hall as a memento. On a tablet beside it will be written the names of those who hid \$100. To such a replica will be given, and I hope His Majesty the King of the Belgians will sign it.

Mme. Melba made the first bid herself of \$100. Her father, David Mitchell, raised it another \$100 and it finally sold for the extraordinary sum of \$2,100 or \$10,800.

Musical Comedy Closed. The engagement of the Empire Musical Comedy Co. closed at the Opera House Thursday. They were popular with some, but for the most part the general body of stage-followers had grown weary of slap-stick variety of forced comedy before their prior engagement ceased, and consequently this last fortnight saw a lessening of patronage. They could not in some things for a moment be compared for ability, refinement, versatility, and general revue qualifications, with the Homans-McCallie Co., which preceded them, though strange to say, the support accorded the latter was rather discouraging.

Joseph Brooks has postponed the production of "Pete," the dramatic version of Hall Caine's "The Manxman," to Jan. 1. Mr. Brooks intended bringing over an English company headed by Derwent Hall Caine, son of the author early in September, but difficulty has been experienced in persuading players to cross the Atlantic at the present moment, owing to the sea peril. When the White Star liner Arabic sunk last Thursday off Fastnet, Ireland, a number of theatrical folk were on board. They were all among the rescued.

Kenneth Douglas, last season seen in "A Pair of Silk Stockings" and en route to this country to appear with Grace George, had an exciting experience. He got away in a small boat and helped row for four and a half hours.

its two years' run at the Eltinge Theatre, New York, that several "crook" plays were immediately placed in its wake, "imitations of the reality." The Klark-Urban Co. have been popular on previous visits here. Their repertoire this season contains several good plays, "The Squaw Man," being their second production.

Melba Aids Red Cross. By an arrangement concluded recently with the management of Massey Hall, Melba has been secured to give a concert in aid of the Red Cross. With characteristic loyalty and generosity she will place in the hands of the Red Cross authorities as her "bit."

Ever since the war began, Mme. Melba has thrown herself heart and soul into the Red Cross movement. On the outbreak of war in August last she was in Australia, where in recent years she has spent much time with her father. In the past year she has raised more than \$100,000 for the Red Cross and kindred purposes. Her greatest success came in Melbourne, April 27, when she gave a concert in aid of the Belgian Relief Fund. The total receipts of this concert were \$80,000. About two-thirds of the sum came from the sale of seats, and the rest of it came from the sale of flags of the allies, which Mme. Melba herself auctioned off.

According to the account of the concert, contained in the Melbourne Argus of April 28, Mme. Melba received \$123 for a Russian naval ensign. The next flag bid was that of Poland and just before selling it Mme. Melba read a telegram from Henry Otto told her to bid a fish hook. As she took the silly worm hook she decided that that was too much to ask, and struck, so "The Divine Deceit" will be seen without Winifred going through the operation of baiting a fish hook.

Death of Playwright. Paul Armstrong, the playwright, who died in New York of heart disease this week, was forty-six years old. He was stricken while riding in an automobile with his wife and son, whom he had met at a railroad station on their return from Baltimore. He died soon after reaching his home.

Mr. Armstrong had been one of the prominent figures of the American stage during the last ten years. He wrote several popular plays and collaborated in other productions.

Paul Armstrong was born in April, 1869, in Kidder, Mo. He began work as a steamboat hand and at twenty-one was captain of a tug boat. One of his few years later a sketch "The Loss of the Steamboat Calhoun," gave him standing as a newspaper man. He drifted thus through Chicago and Buffalo till in 1888 he became boxing expert for the "New York Journal" under the name "Right Cross."

Armstrong always felt drawn toward writing for the stage. His first play, "Just a Day Dream," shown to Joseph Jefferson, brought the comment: "Your play is good. Go to New York."

How refreshing— how beneficial to the skin—is the daily use of this exquisitely pure soap. Should you buy Pears' Soap today, you will at once see why it has been the favorite for 126 years. Though Pears' is the finest of all soaps, it is sold everywhere at not over 15c. (unscented). Matchless for the complexion!

MORE QUALITY PER DOLLAR. The 1916, 40 horse power 7-passenger "Four," and 50 horse power 7-passenger "Six" are essentially high in quality as it is possible to build a motor car. In the face of the exceptionally low price at which these cars are offered, \$1150 for the "Four," and \$1350 for the "Six," it may be difficult to convince you of this fact, but never before in America or Europe has such quality been offered at so low a price. By four years concentration on the design and manufacture of these automobiles Studebaker has been able to perfect manufacturing methods and to develop economies second to none in the industry. Studebaker buys raw materials, equipment and tires in huge quantities and for cash, and therefore at the lowest possible prices. By building its Canadian and foreign product in its Walkerville plant Studebaker has been able to effect still further economies. See the car. Ride in it. Try it on the steepest hills, or on the roughest roads and you will be convinced of the great value offered in the Studebaker 1916 car. Reaching Queenstown he sent a typical message. "I'm feeling quite all right." It was Mr. Douglass's second submarine experience since he went down with the Lusitania when he was returning to England at the conclusion of his American season.

Zillah Covington, one of the authors of "Some Baby," now at the Fulton Theatre, New York, was on board the Arabic. Stella Carol, a seventeen-year-old concert and music hall singer coming for her American debut was a passenger. Mr. Covington was accompanied by his wife, known professionally as Rose Wilbur.

Kathlyn Williams, the popular star of the Selig Polyscope Company, has written a two-reel drama replete with thrills called "A Sultana of the Desert" which will be released in regular service Oct. 6.

Lovers of Mary Pickford's inimitable mannerisms will be pleased to know that she is to be seen again soon in a picture that gives her plenty of opportunity to display her well-known ability. It will be a famous Players' production called "The Foundling" and is headed for release on the Paramount programme Sept. 6. The supporting cast will include such well known screen artists as Frank Mills, Harry Ham, Gertrude Norman, Donald Crisp and Edith Chapman.

Gaby Deslys will come to New York in November to appear in a new musical revue by Henry B. Smith and Irving Berlin, which is to be called "Blow Your Horn." Mrs. Horn, a novelty sketch, a splendid two-part child play, entitled "Coppers" the Animated Weekly, etc., etc.

You have the instinct of a playwright. You may starve, sleep in parks, but you will win if you keep on. In 1899 "Just a Day Dream" was produced in Boston. Armstrong quit newspaper work. Thereafter his score of successful plays was long. "The Hete to the Hoops" being the most noteworthy. In 1900 he married Miss Rella Abell of Kansas City in London. In 1912 the two were divorced, and toward the close of the year he married the leading woman in his plays, Miss Katherine Calvert of Baltimore.

The Imperial Labor Day show will include "The Goddess," "The Dancing Mars in a novelty sketch, a splendid two-part child play, entitled "Coppers" the Animated Weekly, etc., etc.

ZUDORA ABSORBINGLY INTERESTING SERIAL. Carleton, North End and Fairville Picture Houses to Show Wonderful Story.

"Zudora," another absorbingly interesting serial to be shown at the Co-operative Motion Picture Houses, Daniel Carson Goodman is the author of the story complete in itself. Mr. Goodman's serial which will be screened in two reel episodes, each of which will be a "The Escape," "The Battle of the Sexes," and "The Avenging Conscience," all Broadway successes, and is admitted to be the photoplay author genius of Broadway.

In "Zudora" will be more scenes than in all the plays of Shakespeare, a distinction in itself. The title of the first episode gives an idea of the mystic theme through the ten episodes, they to be supported by one thousand people, a construction never before attempted in photoplay production or for that matter on the speaking stage.

Marquette Snow will play "Zudora." She is wonderfully fitted for the role, which will give her admirers the opportunity to see this remarkable young woman at her best, the role demanding the complete gamut of emotions and a more definite histrionic ability than is usually required. James Cruise will play Haasam Ali, a weird oriental character around whose mysticism revolves much of the story. Harry Benham the well known leading man of the Thanhouser Company, will play the hero, a young lover of Zudora. This excellent serial was produced by the Thanhouser Company, and will be screened at the Empress, West End, Monday and Tuesday, September the sixth and seventh. GRAND DUKE IS RUSSIA'S IDOL

Biggest Man in Russia; Bigger Than Czar HAS METHODS ALL HIS OWN

The Real Ruler, With Army Behind Him, and He Will Fight Until Germany is Crushed and Broken

At a time when such tremendous issues hang upon the leadership of the Russian armies it is cheering to have Samuel Blythe's impressions of the Grand Duke Nicholas, which he contributes to the Saturday Evening Post. Mr. Blythe says that the Grand Duke is easily the biggest man in Russia today, a bigger man than the Czar, whose wishes he has disregarded on more than one occasion.

There is another story to the effect that when at the front the Grand Duke had heard rumors that pro-German influences round the Imperial court were trying to have him deposed, and the supreme command of the Russian armies handed over to someone who was not so determined an enemy of the Germans.

It is too early for even military critics to definitely assign the Generalissimo of the Russian armies his place as a general. In the early days of the war, when he had only the Austrians to oppose, he drove them before him like chaff.

We know that much of Russia's shortage of ammunition was due to the German conspirators in Russian factories, who blew up the plants they were employed in a few days before war was declared.

Many of the camarilla, the unofficial government, are Germans. In the Baltic provinces the aristocracy is suspected of German sympathies. But all the German influences in Russia are nothing compared to the will of the Grand Duke. He is the absolute Czar of the army, and there is not in the Russian army or in the army of any of the Allies a man who is more determined than Nicholas to fight until Germany's power is utterly crushed and broken.

Takes Up Religious Life. Salem, Sept. 4.—James R. McDowell, aged 25, a native of this town, has gone to Baltimore to enter as a novitiate of the Passionist Order. He is a member of Thomas E. Power Council, R. O. C., and the Catholic Temperance Union. He served at one time as private secretary of former Lieut. Governor Louis Frothingham. He was graduated from a commercial college and later was in service as a stenographer in Boston. He studied law in the Boston Y. M. C. A. and was graduated from there three years ago. Two years ago he was admitted as a member of the Massachusetts bar, and of late had practiced in Boston. His decision to enter the Order of the Passionist Brothers is a surprise to the townspeople, yet he says that such had been his intention for several years.

DISMISSING THE GIVING POWER

(Maritime Merchant) It is not our wish to "knock" or seem to "knock" the patriotic enterprise of those who labor to build up big funds to buy machine guns and aeroplanes for presentation to the government, but we cannot help feeling that there is a certain amount of hysteria in these movements.

SERIOUS LOSS FOR HAMMONDVILLE FARMER

The house and barns of William Kieley of Hammondville, were destroyed by fire on Thursday afternoon with loss estimated at \$2,000. There is little or no insurance. Mr. Kieley was about a half a mile from the house engaged in hay-making when the fire broke out. All efforts to save the barn proved futile and they were also destroyed. Fortunately most of the stock was in the fields, but Mr. Kieley lost the greater part of his hay crop.

TRACADIE LAZARETTO

There are at present in the Lepet Lazaretto at Tracadie, N. B., sixteen leper patients, the smallest number for years, seven males and nine females. Two are of French-Canadian or Acadian origin, two of English, one of Icelandic and one of Russian. Amelioration of symptoms and suffering is claimed to be following the system of treatment now being carried out at the Lazaretto, according to the annual report of Hon. Martin Burrell.

WELL DONE BY OUR OWN 26TH

Battalion Has Made an Exceptionally Good Name

HIGHLY COMPLIMENTED

On Three Occasions Colonel McAvity's Men Have Won Good Words in High Places and They Feel Greatly Grati-

In a letter to F. W. Daniel, P. N. Nesbit, who is one of the officers of the 26th Battalion, makes the following remarks concerning the work done since the battalion arrived in England, which will no doubt interest Times' readers.

"As you no doubt will see from the papers, the New Brunswick battalion reached this side without mishap and we are housed in huts some four miles out of Shorncliffe. We are kept tremendously busy but it is extremely gratifying to know, and an honor to me, that a St. John man like yourself is hearing that the battalion has made an exceptional name for itself on this side and on three occasions has been highly complimented.

"During an inspection of the whole division by the G.O.C., General Steele made a particular opportunity of congratulating the colonel on the show the regiment had made. This was more than satisfactory in view of the fact that so many crack regiments were present.

"On a second occasion the battalion was congratulated on what is probably the most important part of its training, namely musketry, which was completed in what is probably a record time for the division. A staff officer stated that the men 'handled their rifles like veterans.' "On a third occasion an inspecting officer quite unknown to ourselves had been watching us through glasses some miles distant and he made an opportunity of speaking to the divisional musketry officer congratulating him upon the excellent discipline maintained upon the range, stating that the practices were carried through in such an orderly manner that the men might have been on parade.

"It is extremely gratifying after the months of work that have been put in in St. John to find that the battalion should be so often commended by parties who undoubtedly were absolutely impartial. It is interesting to know also that, with the sole exception of the French-Canadian regiment, we are the only Canadian regiment, and the only one of our nationality, who are the most purely Canadian regiment of the division."

The Man In The Street

Some summer weather, eh?

But the chronic cough rises to remark that he would like this summer weather better if it came in summer time.

Never mind, it will soon be time for the ladies to leave off their summer furs.

Then what will they do for a change, adopt lace overcoats for winter?

Meantime the hunting season is coming and Maine will be issuing official casualty lists just like the European states.

But the happier thought is that the mosquitoes will soon be liberating.

Whole Navy Might Do It

Von Tripps took a holiday and then resigned. Must have found that there was not enough difference to justify drawing his pay. There's no work for the German navy these days.

But the next chief admiral will not have to worry about where he will find his fleet. The German battleships have the habit of staying home at nights.

Just fancy inviting a German to join the navy so that he might enjoy a change of scene and climate.

Fifty Thousand in a Week

The Kaiser might be asked to contribute a few dreadnoughts to the patriotic auction. He does not need them.

Speaking of the auction perhaps the city may be able to donate a large hunk of perfectly good concrete if the committee will call and take it away.

The cry would probably be "Boulevard souvenirs—low much an I offered."

Commissioner Potts evidently decided that the road to Indiantown should be paved with something more substantial than the street railway company's good intentions.

Judging from the Liberals' manifesto Prince Edward Island needs a change of government as urgently as New Brunswick does.

Bulgaria seems to prefer the brink to the battlefield.

It takes a much stronger reason to justify a reduction than it does to excuse a boost in the price of bread.

The chap who does not pretend to know anything about trade economics and that sort of thing was wondering why the opening of the Danubian canals was expected to influence the price of bread. "Surely," he queried, "they are not using loaves like mother used to make for cannon balls to bombard the forts, are they?"

Nothing to that theory, but the man in the street would like to change an old-fashioned bullet if he had a breast-plate some of the restaurant pies he has met.

Officially Berlin reports show that the Germans have captured several thousand Russian appetites on their latest Russian drive.

Until Tuesday next we won't know how Canada's minister of war will take another holiday in Europe. There'll be no papers Monday.

"The Open Door"

The guard-room entrance has been closed to local newspapermen at central station, but we're still polite enough to let the commissioner of safety in the front way when he comes to visit us.

STIRRING RECRUITING MEETING IN HALIFAX

The following report of a recruiting meeting at Halifax is full of interest:

One of the largest attended recruiting meetings on the parade was that of last night when there were stirring speeches from Rev. Dr. Foley and Private Knight, son of W. G. Knight, the George street tobacconist, and Private E. G. Stairs of the 54th Battalion. The speakers were introduced by Lieutenant Mickewright, and the 6th P. L. F. band discoursed patriotic music.

Private Knight received a most enthusiastic welcome and his remarks were impressed on the minds of all who heard him in his appeal for men to serve the empire.

Private Knight is a Gordon Highlander who has seen a lot of service at the front in Serbia, and has sustained several bayonet wounds, from which he has recovered the worst phases of the war and had a narrow escape from death at the hands of the Germans. He declares he will go back to the firing line as soon as he recovers his health and the full use of his limbs. He was a member of a battalion which went into the fight 1,600 strong and came out of it with but a mere handful.

Private Knight said in part: "I am here to speak plainly to the young men of Halifax of the responsibility that rests upon them as citizens of no mean city.

"Count well the cost. I counted the cost, and I reckoned what the ultimate cost would be should I remain at home and not do my share in this struggle, and I found that I could not afford to remain at home.

"I am sorry to say that there have been men in Halifax who have said to me, 'let Belgium fight her own battles.' Let me tell you, men of Canada, men of Halifax, you cannot repay Belgium in blood what you owe her. Where would Canada be tonight if Belgium had not stopped the barbarian hordes, and given us time to prepare resistance? That's what Belgium did with her little army of 180,000 men. Not since the days of Christ upon this earth has such sacrifice been made; not since that day has this world faced such a problem, not since that day have men had to count the ultimate cost as they have today."

Private E. Geoffrey Stairs appealed to the mothers and fathers of the young men of Halifax to recognize their responsibility in making it easy for their sons to go.

Speaking of the sufferings and sacrifices of Belgium and the tremendous service which that country has rendered the British Empire, Dr. Foley told the audience in unobscure manner what their duty was in this war.

"We shall win," said Dr. Foley, "but we can only win by having men."

WHO WILL GIVE LAND FOR THE FUNDS? Among the suggestions for increasing the patriotic fund is one from a resident woman who asks if it is possible to dispose of by lottery in aid of the fund. On the occasion of the drawing or auction a pie social or similar affair organized by the ladies of the district where the land lies, would add to the festivities and to the fund.

WICE ADDITIONS TO MISS MCKIEL'S FUND

In addition to the contributions already acknowledged by Mrs. Cecil R. McKiel of Prospect street, Fairville, to provide comforts for the wounded soldiers under care of Miss Theodora McKiel, nursing sister in one of the military hospitals in France, the East St. John Knitting Association recently donated the fine sum of \$100; Queen Square Methodist church Ladies' Aid, \$10, and "A Friend," Westfield, "E.C.," Roxbury, Mass., and Miss Hill have also generously subscribed.

FREDERICTON FUND IS GETTING LOW

The funds of the Fredericton branch of the Canadian Patriotic Fund are being drawn on at the rate of about \$2,500 a month and there are now only sufficient funds on hand for one month more. During August \$2,888.90 was expended. One hundred and forty families are now drawing on the fund. During August Treasurer Tennant received \$368 in subscriptions as well as the donations from the patriotic auction, steamer Victoria, Firemen's festival and other events, making a total of about \$4,000.

Fredericton has sent \$16,000 to the Ottawa headquarters as our contribu-

tion to the patriotic fund," said Treasurer Tennant, "but our next draft on the fund will about deplete the amount we have standing to our credit at Ottawa."

WILL THEY ACCEPT?

A challenge has been received from far off Shorncliffe for a game of baseball with the Courtenays of St. John. It is contained in a letter from Private Joyce, formerly of Guilford street, now serving with the 42nd battalion. "We would like our ball team from this battalion to meet the Courtenays of St. John," he wrote, "in a baseball match at Shorncliffe."

LIGHTS ON BRIDGE

It was said today that many complaints had been heard about the lighting, or rather the lack of lighting on the Suspension Bridge now in process of demolition. The understanding is that archlights are to be placed in position at the bridge today, and that in a fortnight or three weeks, an up-to-date lighting system will be installed at the new bridge.
