Greece Decides To Evacuate Thrace

Official News of Decision Reaches France—General Harington Says British Patience and British Reinforcements Brought About Agreement With Turks.

NEARLY ALL BY ACCLAMATION

Choosing of Methodist Conference Officers

Contests Because of "Headquarters Rule" Had Been Expected—Must be a New Editor for the Wesleyan—Church Union Committee.

(Canadian Press.) Toronto, Oct. 12.—Mild surprise was created in general Methodist conference circles last night when the delegates elected almost all the general conference officers by acclamation. It was said that in most cases one or more nominations would be tendered because of the severe criticism of the "headquarters rule" offered by the delegates throughout the conference, but when the names of the present heads of departments and officers of the various organizations were offered, nominations were closed and they were given another term of office.

D. W. Johnson, editor of The Wesleyan, the maritime publication, came under the regulation adopted earlier in the day, which provided that no one who has reached his seventieth birthday shall be appointed a general conference officer. He was seventy years old yesterday. In addition to the taken will be in the appointment to the Wesleyan editorship, for which the names of E. J. Thomas and R. O. Armstrong have been presented.

It was decided to allow representation on the church union committee on the basis of one delegate for every number of conference delegates and totalling seventy-four ministers and seventy-four laymen, leaving one of each to be elected.

The committee further recommended that Rev. Dr. Chown, general superintendent, and Hon. N. W. Rowell be the minister and layman respectively to complete the list.

CHECK FOR FIFTY MILLION DOLLARS

Britain to Hand it to U. S. on Monday for Interest on War Loan.

London, Oct. 12.—A check for \$50,000,000 will be turned over to the U. S. government on Monday on account of Great Britain's interest on her war loan from the U. S.

The interesting slip of paper, which will probably be preserved as a historical relic, after it has served its purpose, will be drawn on the British treasury account with J. P. Morgan & Company of New York. It will be made out in New York and signed for the British treasury by the Morgan Company. The check will be drawn in favor of the general account of the treasurer of the U. S. in the Federal Reserve Bank of New York.

In connection with this payment it is said that the British treasury has for some time gradually been accumulating dollars, building up its dollar resources in the U. S. partly by shipments of gold from this country, sold to the U. S. mint for dollars. Any dollars Great Britain secures otherwise are obtained by purchase in the exchange market.

NO BLOCKADE

Britain Replies to Allegation Made in Soviet Note.

London, Oct. 12.—The British government has informed the Russian Soviet government, according to The Times, that there is no foundation for the allegation in the Soviet's latest note that Great Britain had instituted a blockade of the Dardanelles.

The British admitted, the government says, has reported that no such blockade has ever been imposed and that ships are going through without molestation.

(Canadian Press Cable.) Paris, Oct. 12.—Greece has decided to sign the Mudania armistice convention and evacuate Thrace, according to the conditions stipulated in that document, so the French foreign office was officially informed today.

WAS DUE TO THE BRITISH TROOPS

London, Oct. 12.—A Reuter despatch from Constantinople says Brig-Gen. Sir Charles Harington, commander of the allied forces at Constantinople, in the orders of the day has announced the signing of the Mudania agreement and says the arrangement was rendered possible only in the first place owing to the wonderful forbearance of the British troops in the most trying circumstances. That forbearance, he says, won the admiration of all. Their attitude afforded a fine example of British discipline.

The agreement he says, was rendered possible in the second place, owing to the action of the British government sending out, without delay, such splendid reinforcements, naval and military, as well as the out force. He expresses confidence that the convention which has just been signed will remove all pressure of danger from the British troops, and concludes by an expression of deep gratitude to all ranks of the British forces for the warm support they extended to him in the recent difficulties.

Friendly Words. Mudania, Oct. 12.—At the conclusion of the conference here which resulted in the signing of an armistice between the Turks and Greeks, Lieut. General Harington, on behalf of the allied delegates, said to the Turkish representatives:

"We came here without knowing each other, and we are leaving as good friends. It would have been impossible to reach such a happy termination of the conference unless we had faith in your sincerity of purpose and were ready to give sympathetic consideration to your claims."

"I thank you in the name of the associated powers for your great patience and the intelligent effort you made to achieve a successful issue of the conference, and before bidding you farewell, I wish to express deep appreciation of the hospitality and kindness of the Turkish people and army."

"We have all worked earnestly for a specific object. Our efforts have borne abundant fruit. We must thank the representatives of the press for the valuable assistance they accorded, which was no small factor in the success of the conference."

Ismet Pasha voiced the thanks of the Ankara government and of Mustafa Kemal for the assistance and the labors of the allied generals toward an amicable solution of the many delicate problems. Turkey and the allies, he said, must now live as friends and not as adversaries.

In Greece. Athens, Oct. 12.—The Greek government, supported by private organizations, including American, is achieving extraordinary results in solving the problems presented by the presence of thousands of refugees from Asia Minor.

The arrival here of Dr. Fridtjof Nansen will add to the strength of the support given by the League of Nations. He will be accompanied by a contingent of thousands of women and children to be saved. Clothing, especially undergarments, is badly needed.

Newspaper despatches report that the Greek residents of Eastern Thrace are already fleeing, fearing the arrival of Turkish soldiers from whom they declare the allied soldiers cannot protect them. The government is requisitioning the street rooms in private houses as refugee shelters.

The nation was prepared for the signing of the armistice at Mudania, and its report of its consummation caused no excitement here.

U. S. AND TURKEY

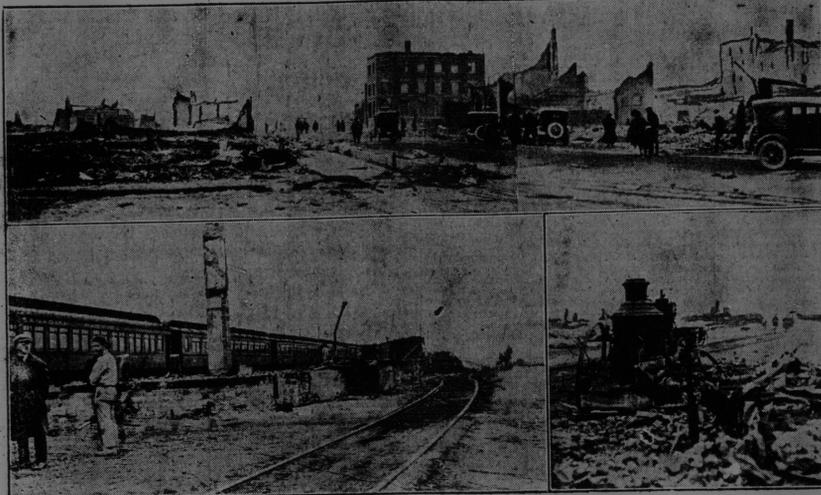

Senator Lodge Says Reference to Congress Would Have Been War Declaration.

Stockbridge, Mass., Oct. 12.—Senator Henry Cabot Lodge, speaking yesterday, gave an explanation of the attitude of the U. S. with regard to Turkey and of what President Harding has done to insure protection of U. S. lives and property in Northern Asia Minor, and said that if the president referred the issue to congress there would be a declaration of war, which he was confident the people of the U. S. would not want.

Three things had been achieved, he said: "Protection of U. S. lives and property; freedom of racial and religious minorities, and this country was ready to join with other powers in a commission to meet in Asia Minor."

Beyond that there was only one step the president could take. He could refer the question to congress, Senator Lodge said, which would be equivalent to a declaration of war.

"Our duty is to stand behind the president. I believe the U. S. can render the best service by acting with entire independence. But if war should come the U. S. would not fall, as it never has. Its mission is to promote peace for all mankind."

The upper picture shows what remains of Halleybury's principal street, one of the show places of the north. The lower left picture is the first relief train to reach Halleybury, drawn up by the ruins of the station. At the lower right is one of the fire engines, where the firemen had to abandon it when overtaken by the flames in the middle of the street.

Paderewski is expected to visit Toronto this winter to give a piano recital.

GRAHAM BELL FORTUNE NOT DISCLOSED

Petition for Probate of Will of Inventor of Telephone—Widow Sole Beneficiary

Washington, Oct. 12.—Petition for probate of the will of Alexander Graham Bell, inventor of the telephone, naming his widow as sole beneficiary in an estate valued "in excess of \$2,500," was granted yesterday in the district of Columbia supreme court.

The value of the estate was not revealed under a provision of the will that no inventory be required of the executors, Mrs. Bell and a cousin, said, must now live as friends and not as adversaries.

WHAT FRANCE PROPOSES FOR HER NAVY

Paris, Oct. 12.—France's naval programme, which will be presented to the chamber of deputies soon, according to the Figaro, will be spread over twenty years, and consequently is of a very general character.

It will fix the total tonnage for each class of ship without specifying the number of vessels, which is left for the building programmes to be arranged every five or six years.

It is understood the proposed figures are as follows. Battleships, 175,000 tons, the figures fixed by the Washington naval agreement; cruisers, destroyers to torpedo boats 330,000 tons, the existing tonnage; submarines, 65,000 tons, not including the small types suitable only for coast defence.

100,000 PERSONS VISIT CHICAGO TRACK IN 7 DAYS OF RACING

Chicago, Oct. 12.—More than 100,000 persons passed through the gates at the Hawthorne track during the first seven days of the running race jockey there, according to Ilynois Jockey Club officials. Joseph A. Murphy, presiding steward, announced plans for bringing the meet to a close next Saturday with a handicap race that will attract some of the country's best horses.

Two To One Against Election This Year

Political Situation in the Old Country Very Uncertain

Generally Agreed That Conservatives Have Brought About Crisis—Leaders in Cabinet With Premier, but Rank and File Rebellious

(Canadian Press Cable.) London, Oct. 12.—Odds of nearly two to one against an election before the end of the year are being accepted in the London insurance market notwithstanding the positive assertions in the press and in political circles that an appeal to the country before Christmas is inevitable. The discrepancy thus manifested is significant of the complete uncertainty surrounding the political situation for the moment.

The morning newspapers again give over their chief columns to discussion, predictions and supposed revelations. Premier Lloyd George's friends continue to insist that he will not resign, while other assert with equal confidence that he has determined to ask the king to get back to party lines, and that his speech at Manchester on Saturday will be the first given in the general election campaign.

Conservative Cause Cited. There is general concurrence on one point, namely, that the crisis has been brought about by the action of the rank and file of the Conservatives, who are tired alike of the coalition government and Lloyd George's leadership and eager to get back to party lines. It is said in several quarters, however, that the Conservative leaders, in a coalition cabinet continue loyal to the premier, and that the situation in that respect is practically identical with the position when Lloyd George previously threatened to resign unless the Conservatives gave greater support to his leadership.

It is this loyalty on the part of his Conservative colleagues is having a great influence on the premier's attitude, and according to some versions he is relying upon it to secure the country's support and wreck in advance the Conservative convention scheduled for the middle of November, which if held, might attempt to compel the Conservative leaders to resign their coalition posts.

Around this revolt in the Tory rank and file numerous conjectures, speculations and predictions are framed. Austen Chamberlain's speech at Birmingham tomorrow is expected by some observers to be mainly a strong plea for a continuance of the coalition as a means of averting the advent of a "left" government.

Amidst the many uncertainties, one thing is certain, that the next few days will supply the public with more excitement concerning domestic politics than it has enjoyed since the outbreak of the great war.

Women Candidates. One of the interesting features when an election is declared will be the number of women seeking the limelight of parliamentary life. The two present women members, Lady Astor and Mrs. Margaret Wintringham, are understood to desire re-election, and nearly a score of others are already candidates, the great majority being for Liberal and Labour constituencies.

WILL ATTEND ANGLICAN SYNOD IN HALIFAX

Quebec, Oct. 12.—(Canadian Press)—The Lord Bishop of Quebec and the Very Rev. Dean Shreve will attend the Anglican Synod of Nova Scotia, which will meet in Halifax on the 18th instant. This meeting has been called to ratify the new book of common prayer for Eastern Canada.

OPPOSES CHURCH UNION

Rev. E. Scott, D. D., of the staff of the Presbyterian Record, at Montreal, who is one of the leaders of the movement against church union in Canada.

CHARGES MADE BY MEMBERS OF CREW AGAINST COMMANDER OF U. S. SHIPPING BOARD STEAMSHIP

Boston, Oct. 12.—Charges of having abandoned a vessel in distress at sea preferred against Capt. W. E. Rosemond of the U. S. Shipping Board steamship Nocoluca by three members of the vessel's crew were investigated by steamboat inspectors yesterday.

The seamen told the inspectors that on the night of October 1, the ship, bound from Glasgow to Boston with coal, failed to investigate properly the condition of a barkentine that was sending up fumes, about 400 miles southeast of St. John's, Nfld. A gale was blowing at the time.

Oluf Olsen, one of the complainants, said that as a member of the watch he noticed the fire and notified the captain. The steamship's course was changed and she made for the barkentine, circling the craft several times. On her approach some one aboard the barkentine fired three shots and members of her crew shouted to the steamship to lay around, and that "probably the barkentine only wanted her position," then put the Nocoluca back on her course.

The inspectors said they would question Capt. Rosemond before taking action.

BALKAN SCHOONER ON REEF NEAR HAVANA

Havana, Oct. 12.—The four masted Jugoslav schooner Zagreb, bound for Tampa, Fla., in ballast, ran on the reef near Mariel, forty miles west of Havana yesterday. Advice received here says the crew has been saved.

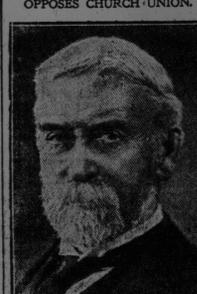

WEATHER REPORT

Synopsis.—The disturbance which was in the lake region yesterday is now centered in the lower St. Lawrence Valley while the high pressure area is drawn southward to Iowa. Showers have occurred again in most localities from Lake Superior to the maritime provinces accompanied by strong winds and gales over the great lakes.

Forecast.—Maritime—Fresh to strong southwest to west winds, partly cloudy with a few showers, cooler on Friday.

Gulf and North Shore—Strong to moderate gales southwest to north-west, cloudy and partly cloudy. A few passing showers. Friday fresh to strong north to north west winds, cooler.

New England—Fair and cooler to night and Friday; probably frost on the mainland; fresh west and north west winds.

Rev. E. Scott, D. D., of the staff of the Presbyterian Record, at Montreal, who is one of the leaders of the movement against church union in Canada.

IMPERIAL EDUCATION CONFERENCE

Empire Gatherings in London Next Summer; Canada is to be Represented.

London, Oct. 12.—(Canadian Press)—An imperial education conference was met in London about the end of June next year. It will be one of the most representative yet held and delegates will attend from Canada, Australia, New Zealand, and the smaller colonies.

Problems will be discussed including questions affecting the status, standing and recognition of teachers and educational methods. Special attention will be given the problems affecting the education of native races and also vocational training with the object of developing students of the highest usefulness to themselves and the empire.

The discussions will take place on terms of absolute equality as among the dominions and the mother country. It is expected that some of the sessions will be open to the public.

A lengthy agenda arising from suggestions submitted by the various dominions and colonies is being prepared.

PHIL DOUGLAS PUT IN JAIL

Former Star of Giants Given in Charge by Wife, Who Says He Beat Her.

Birmingham, Ala., Oct. 12.—"Shut-in" Phil Douglas, erstwhile star pitcher for the Giants, who was banished recently from organized baseball, was placed in the city jail yesterday on charges of disorderly conduct preferred by his wife, who called officers to their home and, they said, declared Douglas had beaten her.

They said they found Mrs. Douglas suffering with both eyes blackened. Officers quoted her as saying she had been abused in the presence of her two children.

Douglas with his family arrived here, his former home, recently from Florida, where he was said to have completed the season with a semi-pro team. The trial was set for today in the police court. After he was lodged in the city jail yesterday a bond of \$50 was made, and he was released.

Passenger Ship Is Afire on Pacific

The City of Honolulu in Grip of Flames with 300 Tourists on Board—Life Boats Being Lowered, Says Wireless Message.

(Canadian Press.) Los Angeles, Oct. 12.—With some three hundred passengers aboard the Los Angeles Steamship Company's new steamer City of Honolulu was reported by wireless today afire two days off shore from this port on the return trip of its first voyage between Los Angeles and Honolulu.

San Francisco, Oct. 12.—Lifeboats were being lowered at 8.47 a.m. by the passenger steamer the City of Honolulu, according to wireless messages received today.

The City of Honolulu is a U. S. shipping board vessel of 17,500 tons and was allocated to the local company for six months trial service between this city and the Hawaiian Islands. It left September 23, with more than 300 passengers, mostly tourists, and it is believed a large number of these were returning on the vessel.

San Francisco, Oct. 12.—Twelve minutes before the Honolulu set sail that she was lowering boats picked up by the Malson line steamer Enterprise, which immediately put about in the hope of reaching the steamer in four or five hours.

The Honolulu sent two S. O. S. calls for help, which were picked up by the Malson line steamer Enterprise, which immediately put about in the hope of reaching the steamer in four or five hours.

CANNOT PAY IN NEXT FOUR YEARS

France Reported in Need of All Her Receipts for Reconstruction in Devastated Regions.

Paris, Oct. 12.—France will be unable to meet any part of her debts for the next four years, as all available receipts for that period must be devoted to reconstruction of the devastated regions, according to the Paris Herald, which quotes "one of the highest authorities of the French ministry of finance."

The government, adds the newspaper, is doing its utmost to find a new formula for the settlement of the European debts and reparations tangle, and will probably submit a detailed scheme drawn up by M. Poincare when the inter-allied financial congress meets in Brussels.

This plan calls for a revision of the total of Germany's indebtedness on a basis of actual production only, the charges for pensions, war allowances and the like being wiped from the slate. This would reduce the French claims by nearly twenty-five per cent.

INTERNATIONAL NARCOTIC RING

Montreal Hears of Operations at Inquest Into Death of Victim of Drug Traffic.

Montreal, Oct. 12.—The alleged working of an international narcotic ring between Chicago and Montreal, and alleged operations here, of a Chicago colored man, who members of Montreal's negro colony swore in court yesterday, was connected with the murder of a woman in that city, were uncovered at an inquest into the death of Leo Wine, 28, of this city, one of the latest victims of the drug traffic.

The jury held the Chicago man, "Lefty" Therrien, responsible for the death of Wine. Six men and a woman swore that Therrien had a bad record in the U. S. and that he was reputed to be a link between drug rings in Chicago and Montreal.

"Lefty" Therrien is reported by the local detective officers to have left Montreal suddenly on Monday night, a few hours before Wine died of narcotic poisoning.

SPEAKER OF THE SENATE INJURED

Hon. Mr. Bostock Thrown from Horse on His Ranch in British Columbia.

Kamloops, B. C., Oct. 12.—Senator Hewit Bostock, speaker of the Canadian senate, was brought to the Kamloops hospital last night for an X-ray examination to determine the extent of the injuries he sustained when he was thrown from his horse while riding last week at his ranch at Morfe Creek. He is suffering great pain and it is feared he is injured internally.

The federal government is to help the Quebec fire sufferers. The federal government is to help the Quebec fire sufferers.

NEAR TRAGEDY IN MONTREAL

Chorus Girl Close to Death from Gas Fumes

Note Pinned on Hotel Dresser Pointed to Triangle—Constables Break into the Room—Broken Window May Mean Life Saved.

(Special to The Times.) Montreal, Que., Oct. 12.—Dear Don—"I have broken your promise to me. I have tried my best to help you live your weak way—but you did not heed me, so see how far you can go with your friend Miss... There's a God above who will judge you; you cannot stand it any more. Give Edie my pawn tickets. Let her keep the soles and let her get the choker out of Wilma. My trunk goes to Wilma. Good luck—I have done it."

There was a short white space and then, "Don't let my mother know." This brief note on the dressing table in a downtown hotel room occupied by an actress playing at a theatre told the story of another case of the triangle, with tragedy as its probable sequel. Lying on the bed, almost dead, was a chorus girl, Miss Edie Clark, thirty-seven years of age of Duluth, Minn., who tried by death to break the unhappy triangle, by lying in a critical condition in the Montreal General Hospital suffering from gas poisoning.

A chorus girl, Miss Edie Clark, thirty-seven years of age of Duluth, Minn., who tried by death to break the unhappy triangle, by lying in a critical condition in the Montreal General Hospital suffering from gas poisoning.

RED CROSS BOOK

History of Its Work in Canada is to be Published—Protection of Insignia.

Winnipeg, Oct. 12.—Owing to the importance in the history of Canada of the Red Cross work during the war, the central council of the Canadian Red Cross Society yesterday decided to proceed with arrangements for the publication in book form of an adequate history of Canadian Red Cross efforts.

The sum of \$30,000.00 was raised under the auspices of the Red Cross and spent in alleviation of suffering caused by the war.

Protection of the name and insignia was the subject of much discussion. Hitherto the insignia, a red cross on a white ground, has been used indiscriminately, it was added, by many organizations, but under the charter amended by the federal government, the Canadian Red Cross Society and the militia department of Canada are given the sole right to use it.

AUTO SNAPS OFF POST AND BORES INTO BANK

Hattonville, Ont., Oct. 12.—Four motorists were badly cut by a flying glass when their car swerved to avoid a horse and buggy, struck a telephone post, which was snapped, cleared the ditch, and buried itself in a bank. The men were proceeding to their homes at Georgetown, the accident occurring at the top of the steep hill at the north of the village.

This is the second accident to Georgetown men at this point.

JORDAN-MARSH HAS UMBRELLAS TO LEND CLERKS

No Fee Charged Regular Employes for Rainy-Day Convenience—Loans Recorded on Time Cards.

It has been stated that one of the most apt definitions of an optimist is the man who lends an umbrella and expects to get it back.

hard-and-fast rule that the first come be first served.

The umbrellas will be kept at the time desk and may be obtained and returned there.

"First. Umbrellas will be given to any employe on a regular time card upon presentation of card at time desk during lunch hours and at closing of store at night.

"Second. White time card people must present card at time desk and have 'umbrella' written in blue pencil on card.

"Third. Executives, upon receiving umbrellas, will sign name on a traveler and leave it at time desk.

"Fourth. One day workers, upon presenting their card and making a deposit of \$1, will be loaned an umbrella, which will be refunded when umbrella is returned.

"Fifth. A fee of five cents a day will be charged for each day umbrella is in employe's possession.

"Sixth. A fine of \$1 will be charged for failure to return the umbrella.

"Seventh. Employes not returning umbrellas in a reasonable length of time will be reported to the personnel service manager.

MEASURE A STAR CLOUD OF HUGE SIZE

Harvard Astronomers Study Photographic Plates of the Southern Milky Way—Nebulae Found.

Cambridge, Mass., Oct. 11.—Studying photographic plates made in Peru at the Arequipa station of the Harvard College Observatory, Harvard astronomers have discovered during the summer more than 2,000 nebulae, several new variable stars, and one nova or new star, and have now measured for the first time the distance and size of the Large Magellanic Cloud, a cloud-like group of stars and nebulae visible from the southern hemisphere and resembling in appearance the Milky Way.

This Magellanic Cloud, which is believed to be a sort of small universe in itself, separate from the Milky Way system of stars of which our own solar system is a comparatively infinitesimal part, proves to be of staggering dimensions.

Its distance from the earth, while not the greatest distance ever measured by astronomers, is so immense as to be almost beyond human powers of comprehension, being 110,000 light years.

A light year is six trillion miles, the distance traveled in a year's time by light, which covers 168,000 miles in a single second.

The linear diameter of the cloud has been found to be about 15,000 light years. This is determined by finding the distance, which observers work out by complicated methods involving spectroscopic studies, and then measuring the apparent size of the clouds as they appear on photographic plates made at Arequipa.

Photometric measures of the stars in the large magellanic cloud make it possible, now that their distance is known, to find their actual candle power.

This work is still in progress at Harvard, but preliminary results would seem to show that this cloud contains many stars which are actually far brighter than any we have yet discovered in our stellar system, although of course they are very faint on account of their immense distance.

Hundreds of these stars are found to exceed the brightness of the sun by 10,000 times.

Photometric investigations are being continued at Cambridge in order to get a more precise measure of the distance of the cloud by other methods than the spectroscopic method provisionally used, and to set up standards of brightness in the cloud so as to make possible the study of various types of stars and nebulae existing there.

The methods followed in finding the 2,000 new nebulae which were discovered by Harvard astronomers this summer are characteristic of modern astronomy.

These nebulae were found by the study and comparison of photographic plates made at Arequipa during the last twenty years. The total number of known nebulae is about thirty thousand, and more than one-fourth of these have been found at various times on plates made with a single telescope, the Bruce photographic refractor. Made in Cambridge,

this is one of the most powerful photographic instruments in the world. It is one of four instruments in constant use at the Harvard station at Arequipa.

The 2,000 newly discovered nebulae are mostly too far south for observation at the observatories of North America, but many of them are relatively conspicuous and important.

Of the new variable stars discovered during the summer on plates made at Arequipa some were found by the observers in South America and some by the workers at Harvard on old plates.

One of the variables, discovered by Professor S. L. Bailey, is important, because it is extremely faint, like the variables in the globular clusters, but nearly a degree away from the nearest cluster, which suggests that these variable stars are escaping from the clusters.

The Arequipa station is situated in Peru at an altitude of 8,000 feet. The work there is in charge of Professor S. L. Bailey, who played a prominent part in the establishment of the station over thirty years ago, and served as acting director of the observatory in Cambridge during the interval between the death of Professor E. C. Pickering in 1919 and the appointment last year of Professor Harlow Shapley as his successor.

Professor Bailey has recently taken a large number of photographs at Arequipa for the study of the motions of the stars and the variations in their light. He has made several exposures extending over two nights with the Bruce telescope. Single photographs taken with this powerful instrument frequently show more than 60,000 stars.

In the clouds of stars in the constellation Sagittarius, recent Harvard plates show the individual stars to be extraordinarily numerous that the moon could hide 10,000 of them at a time.

N. H. S. LADIES ELECT OFFICERS

At the annual meeting of the Ladies' Association of the Natural History Society held yesterday afternoon in the society's rooms, with the president, Mrs. W. H. Shaw, in the chair, the election of officers was held and resulted in the election of Mrs. Harold Lawrence as president for the ensuing year.

Shaw, in her report, spoke feelingly of the death of Mrs. J. V. Ellis, and referred regretfully to the death of the president of the Natural History Society, R. B. Emerson. She also regretted the departure of Mrs. George Matthews and expressed gratitude for the assistance of Dr. William McIntosh on behalf of the association. A resolution of appreciation of her work for the association was unanimously tendered to Mrs. Shaw.

Announcement was made of the coming lecture course. Those who will take part in the programmes include Mrs. W. Edmond Raymond, Mrs. George Parker, Mrs. Harold Lawrence, Mrs. R. B. Emerson, Miss Homer, Mrs. Kent Scovil and Mrs. R. O'Brien.

Mrs. Shaw was asked to send a message of greeting to Mrs. George Matthews and resolutions of sympathy in their illness were extended to Miss

A dish with distinction

Heinz Spaghetti holds a place of distinction among the choicest dishes—and ranks equally high as a substantial food that fills, builds and satisfies.

Heinz makes the dry spaghetti, cooks it after the recipe of a celebrated Italian chef, adds Heinz famous Tomato Sauce and "tops it off" with a rare cheese.

HEINZ Spaghetti

Ready cooked, ready to serve

Grace W. Leavitt, Mrs. William McAvity and William McIntosh, who met with an accident recently and had both feet injured by a motor truck.

New Officers. The election of officers resulted as follows: Honorary president, Mrs. George Matthews; honorary vice-president, Miss Grace W. Leavitt; president, Mrs. Harold Lawrence; vice-presidents, Mrs. F. B. Ellis; second, Mrs. John A. McAvity; third, Mrs. James F. Robertson; fourth, Mrs. W. H. Shaw; fifth, Mrs. W. Edmond Raymond; secretary-treasurer, Mrs. R. R. Rankine; additional members of the executive, Mrs. George F. Smith, Mrs. Alfred Morrissey, Mrs. J. Arthur Coster, Mrs. John Sealy, Mrs. F. E. Holman, Mrs. W. E. Burditt, Mrs. T. N. Vincent, Mrs. William McIntosh, Mrs. A. W. Estey, Miss Alice E. Estey, Mrs. T. H. Estabrook, Mrs. R. O'Brien, Mrs. W. P. Bonnell, Mrs. James McAvity and Mrs. J. H. Doody.

The delegates to the local Council of Women were appointed as follows: The president and Mrs. John Sealy, Mrs. James McAvity, Mrs. R. R. Rankine, Mrs. William McIntosh and Mrs. W. P. Bonnell.

The remainder of the meeting was occupied with the formation of plans for the fall and winter activities.

HOTEL CHAIN SHOPS TO CATCH "STOUTS" Susy Collin Miller Believes Plan is a Strategic One.

Are women who can afford to patronize first-class hotels more often stout than the average run of women? Mrs. Susy Collin Miller, who specializes in stout wear, evidently believes they are, for she is launching what is deemed to be the first unit in a chain of stout-wear shops in hotels all over the U. S. It is located in the Edgewater Beach Hotel in Chicago.

Associated with Mrs. Miller in the enterprise are Rose Stannell Townsend, formerly of the Lane-Bryant organization, and Elsie Spangler, formerly of the Carson, Pille & Scott Gray Shop.

One of the features of the new shop is a passageway connecting it with that run by Alice C. Baillie. Both shops expect to benefit by the co-operation for though they will be competing in the quality and kinds of merchandise handled they will not be competing on sizes.

OTTAWA TO KEEP 5-CENT CAR FARE

Expert Estimates 18 Miles of New Track and 47 New Cars Needed.

Ottawa, Oct. 12.—Estimating that in the next five years the Ottawa Electric Railway Company should lay eighteen miles of new track extensions and add forty-seven new cars to its equipment, R. M. Feustel, street railway consulting expert, makes some highly important recommendations in his report.

The report of Mr. Feustel deals chiefly with operating revenue of the street railway company and expenses, returns on investment, expense per mile in operations, passenger revenue, number of passengers carried, and covers the period from 1892 to 1921.

The report Mr. Feustel estimates that for the next five years the city's agreement should provide for the Ottawa Electric Railway laying eighteen miles of extensions, which he finds are urgently required. He also makes the very important finding that it is possible for the company to maintain a five cent fare and secure an adequate revenue.

Mr. Feustel reported that his investigations revealed a steady increase in the patronage of street cars in Ottawa. Ottawa now ranks second among cities investigated by Mr. Feustel's staff. The patronage in this city was 886 rides per capita per year among the trolley-riding public. Toronto was first, with 850 rides per capita a year.

FAKE VALET STRALS GEMS. Took \$5,000 Worth Belonging to F. P. Moore, But Missed \$100,000.

Leont Valley, L. L., Oct. 12.—Nassau county officials have begun search for a "Mr. Jones," who visited the cottage of Frederick P. Moore, adjoining the Riping Rock Club, last Saturday and disappeared with jewelry valued at \$5,000.

In searching bureau drawers the intruder overlooked a case containing \$100,000 worth of jewels.

About noon Saturday, while Moore, who is a Manhattan banker, was playing golf, Thomas A. Wright, a St. Louis mine owner, a guest at the cottage, was approached by a man who represented himself as valet at Moore's New York home. He said he was "Mr. Jones," and told Wright and a servant that he had been sent down for duty at the cottage. Jones was permitted to enter and went at once to the bedrooms.

Copper and Gold. The leaves of Blue Bird Orange Pekoe Tea turn a rich copper in the infusion, the liquor itself becoming a sparkling, smoking gold which creams as it cools. The test of rarely delicate tea! Blue Bird Tea Brings Happiness!

WOULD MAKE BILLIONS OF LOAVES OF BREAD

Figures Showing the Enormous Size of Canada's Exportable Wheat Crop.

Montreal, Oct. 12.—A graphic illustration of the tremendous size of the wheat crop of Canada is shown in a statement that the largest trans-Atlantic cargo carrier of the Canadian Pacific is the S. S. Bosworth. The possible capacity of this steamship is 882,000 bushels of wheat. To carry Canada's 340,000,000 bushels of wheat it would take 974 steamships of the Bosworth's capacity to convey the exportable portion of the wheat crop of the three prairie provinces across the ocean. Statistics show that 340,000,000 bushels of wheat are equivalent to 20,000,000 tons or 73,500,000 barrels of flour, which could be made into 12,862,500,000 loaves of bread weighing 24 oz. each, enough bread to feed 35,289,728 people with one loaf per diem for a whole year. These figures do not take into account the enormous crop of oats, or the large crops of barley and rye and Canada has still immense sections of arable land that are untouched. To carry these 340,000,000 bushels of wheat would require 287,200, forty-ton freighters, or 2,872,000 cars, or one train about 2,600 miles long, or one extending from Montreal almost to Medicine Hat, Alberta.

The stock-in-trade of Regional C. Rice, an ascending debtor, was sold at public auction at the store lately occupied by him in Westfield, yesterday, under and by virtue of an order issued by Mr. Justice Barry, dated Sept. 18, 1922. The horse, sled and harness, mentioned in the inventory, were also sold at the auction.

Do You Know

what makes good clothes good? Can you distinguish the wool from the near good? Can you always spot a price that's too high?

If not then the thing to do is to pick a store that deals only in good clothes, that shows only the approved styles, and that is more interested in giving satisfaction than in merely making sales. Then you'll be safe.

This is that kind of a store.

MEETING OF RETAIL MERCHANTS ENDS

Complimentary Banquet to Delegates by Local Association—A Successful convention.

The eighth annual convention of the provincial branch of the Retail Merchants' Association came to a successful close at a complimentary banquet tendered the delegates by the local branch of the association in Bond's restaurant last evening, with speeches by Hon. Fred Magre, provincial minister without portfolio; Hon. Dr. J. B. Daniel, E. M. Towners, and others, featuring the eventful occasion.

Passing of resolutions occupied the time at the short afternoon session, previous to the inspection trip to the hydro-electric development at Musquash. The more important resolutions referred to the income tax, fraudulent advertising, and minimum wage. The income tax resolution demanded that the income tax, tax on receipts and tax on checks be abolished, and, if necessary, the sales tax should be increased so as to secure sufficient revenue for the needs of the country and be collected from the source of supply. The minimum wage resolution urged that this matter be given careful attention by the incoming executive.

The convention went on record as favoring stricter provisions for the prevention of smuggling; of opposing any proposals for an eight-hour day for all manufacturing, producing and distributing classes; thanking the government for the abolishing of all guessing and lottery contests; endorsing the action of the dominion board relative to postal rates for mail order houses.

Another resolution requesting that a questionnaire be sent out to the various members to ascertain the meeting with regard to open book accounts or trade accounts, and also one regarding a definite weekly holiday.

A final resolution requesting that steps be taken to have all retailers exempted from the operations of the Workmen's Compensation Board was adopted. The convention went on record as being opposed to the tax on records, which is ordered to go into effect Jan. 1, 1923.

Speeches by Hon. Fred Magre, minister without portfolio; Hon. Dr. J. B. Daniel, E. M. Towners and others, featured the complimentary banquet tendered the delegates by the St. John branch of the association. In the absence of the local president, R. A. Macaulay, the vice-president, A. Ernest Everett, presided and called on the gathering to honor the toast to the King.

Following this, W. G. DeWolfe, of St. Stephen, proposed the toast to the City of St. John, which he termed "the centre of the commercial activity of the province." Mayor McClelland replied to the toast, taking as his theme the neglected rights of the maritime provinces.

Miss Alice Fairweather of the Art Films (Maritime) Ltd., then delivered a short address on advertising, illustrating it with motion pictures. Motion pictures of the raisin industry also were shown and solos by B. Shillwell and F. B. Cross were appreciated. T. C. Cochrane and Stanley Fisher acted as accompanists.

OUTLINES PLANS FOR INSTRUCTION IN THE BIBLE

The teaching of the Bible to children was the subject of Rev. Dr. Campbell Morgan's address at Centenary church last night, the last of his evening addresses. As a subject it had perhaps the greatest appeal of any upon which he has touched and the large church was entirely too small to seat all who wished to attend. Many stood throughout the evening and many more were turned away from the doors. In the afternoon St. Andrew's church was also filled to capacity. The two final addresses in Dr. Morgan's mission are to be given today, in the morning at 10 o'clock in St. Andrew's church. In the third of his addresses on the portrait of Christ as found in St. Luke's gospel, which was given in St. Andrew's church in the afternoon, Dr. Morgan began with the verse forty of chapter two, which he said contained the record of the ideal development of a child and he contrasted it with verse fifty-two, which referred to the devel-

WELCOME YOUR BIRTHDAY WITH A SMILE What a compliment to a woman of 40 to be judged about 35! She can greet her birthdays with the glad knowledge that age does not weigh on her. Almost the first sign of age is the graying of the hair. "HERNA DE L'ORIOLE," a new and lasting hair dye, makes it possible for you to retain the natural color and sheen that belongs to the well dressed hair. Will not fade nor wash out and cannot hurt the finest hair. Use this, then when your birthdays come around, "Smile!" Come and let us demonstrate.

opment of the boy to manhood. The child "grew" without responsibility, while the boy "advanced" to manhood having responsibility. Telling of the incident of the child being discovered in the temple, Dr. Morgan explained that it was a perfectly natural occurrence. Having spent three years as headmaster of a Jewish school, he knew of Jewish customs. At twelve years of age Jewish boys took their "Barmitzab," appeared before the rabbis and recited a portion of the law having at that time the privilege of questioning the rabbis, who also exercised their right of questioning the boys to see if they had been trained in religion. The boys must be presented by their father and not by their mother.

Having no earthly father to present him, the child Jesus had presented himself and had put many questions to the rabbis. The learned doctors were "amazed," Luke said, which showed the boy was not "trying to be smart" for had that been the case the teachers would have been angry, not amazed.

As the theme for his evening address, Dr. Morgan took 2nd Timothy, 3-16, from which he demonstrated three things about teaching the Holy Scriptures to children: First, that the purpose was the salvation of the child, considering salvation as a living thing affecting the life in this world as well as the future life; and second, that volitional surrender to intellectual con-

LAND RECLAMATION IN ITALY PROVING SUCCESSFUL

Rome, Sept. 19.—(A. P. by mail.)—Pursuing a policy of land reclamation the government, working with private association, has brought under cultivation 500,000 acres of land which otherwise would be virtually worthless. In the Ferrara and Modena districts a drainage basin covering more than 200,000 acres has been completed, and 150,000 miles of ditches have been built. This work has cost already 30,000,000 lire, and further drainage and irrigation projects will cost as much again.

In the Poisine-San Giorgio district 125,000 acres of swampy malarious land has been converted into some of the most fertile grain fields of Italy.

RECENT WEDDINGS

Coleman-Rankine. Miss Marjorie Rankine, daughter of Dr. W. D. Rankine and Mrs. Rankine of Woodstock, and Lieut. A. H. E. Coleman of Plymouth, England, were married yesterday afternoon in Woodstock by Rev. H. P. Bigby. It was a military wedding, at which about 250 guests were present. The bridesmaids were Miss Gladys Smith and Miss Gladys Giddens. The matron of honor was Mrs. Jeffrey Lockhart of Moncton. The flower girl was Miss Muriel Blair, and the pages R. Daniel and Joseph Boyer. Lieutenant Donald Rankine, brother of the bride, was groomsman. The ushers were R. F. Armstrong, George F. Fittler, both of Woodstock, and J. MacLeod Boyer of Victoria Centre, N. B.

Walsh-Bigney. Miss Viney O. Bigney of Westville, N. S., and Harry Walsh of this city were married yesterday morning at 8.30 at the home of Mrs. Robert D. Hanington, Elliott row, by Rev. F. S. Dowling. They were unattended. Among the gifts received was one of silverware from the staff of the Cornwall and York Cotton Mills, where the groom is employed. They left after the ceremony for a tour of Upper Canadian cities.

MARGARET PIERCE MARRIED

Heiress, Condemned in Alienation Suit, Weds Housepainter. Castle, N. Y., Oct. 12—Cards were received here announcing the marriage of Lyle C. Smith to Miss Margaret E. Pierce of Castle, the heiress who recently unsuccessfully defended an alienation suit in the Wyoming County Court. The jury in the case returned a verdict for \$42,000 in favor of Mrs. James O. Howard, whose husband's affections Miss Pierce was accused of stealing when she was only 16 years old. Miss Pierce will come into her fortune of about half a million dollars on May 1 next, when she will be 21. Smith, who is also 21, is a housepainter. After spending the winter in Florida Mr. and Mrs. Smith will make their home in Rochester.

DEATH RATE AT ITS LOWEST LAST YEAR IN REGISTRY AREA

Washington, Oct. 12—A record low death rate was established last year in the registration areas of the United States, according to an announcement by the Department of Commerce, which gave the 1921 rate as 11.7 per thousand population, against 13.1 in 1920. The infant mortality rate for 1921 also decreased from 1920, according to the statement, which gave the rate for 1921 as 76 per thousand, and 86 per thousand for the previous year. The registration areas include a population of 70,425,000. The birth rate for 1921 was 24.3 per thousand, against 23.7 per thousand in 1920. The department statement showed 1,714,261 births in the registration areas for the year. The total number of deaths were 826,511, of which 129,000 were of children under one year old.

GARY TELLS WOMEN THEY HAVE ARRIVED

Are Bearing Heavy Responsibilities as Ably as Men, He Declares.

New York, Oct. 12—Problems of interest to women in private and public life are scheduled for discussion during the four-day session of the twenty-eighth annual convention of the New York State Federation of Women's Clubs, which opened Tuesday at the Commodore. About 1,000 of the 8,000 delegates had reached the hotel. Speakers at the dinner, which was called the Helmut Fellowship dinner, a yearly event in honor of Mrs. William T. Helmut, a past president of the federation, included Elbert H. Gary, Professor Nelson P. Meade, Hans W. Kuitert and Mrs. D. Denison, vice-president of the federation. Mrs. William H. Purdy presided. The delegates are the guests of the clubs in the Ninth District of the State, including cities and towns in Orange, Dutchess, Rockland and Westchester counties.

"Women have come into their own," said Judge Gary. "For a great many years they were considered by the majority of men and a minority of women not quite equal to the men. But quietly, persistently and persistently they organized, selected leaders and pursued a course of demanding what was their right. Finally a majority of the men, shamed that they had considered that they alone should be the managers of affairs, granted the women's demands. This organization grew in strength until the women succeeded in everything they had set out to achieve. You'll pardon me saying what I'd say to any men occupying responsible positions and who have been successful with the privilege of success goes a corresponding responsibility. But I am glad to say that the women are living up to this responsibility."

SHOT IN MOTHER'S HOME

Girl's Fickleness Results in Double Tragedy. Olean, N. Y., Oct. 12—Gertrude Blinn Carlton, twenty years old, of Olean, and Anthony Barone, twenty-three, a taxiab driver, Buffalo, are dead as a result of a murder and suicide tragedy in the home of Mrs. May Blinn, mother of the girl. Romance, however, was not overshadowed by grim death, and Rose Hlo and Philip Pina, of Buffalo who came here with Gertrude and Barone for the purpose of marrying, went through with their programme. Justice of the Peace E. Boyd Baker performed the ceremony, which was arranged by police, two hours after the tragedy.

The National Railway Board

La Presse: "It is permissible to believe that the choice of Sir H. Thornton as president of the National Railway Board is a fortunate choice. His professional experience is an excellent guarantee, and being a stranger to our differences of opinion on the question of railway nationalization in Canada, perhaps he will be the better able to ignore the fact and rely exclusively upon the technical factors to find a solution to the problem. The choice of directors appears to have been judiciously made. Apart from Mr. J. H. Sinclair, formerly member of Parliament, the members are all strangers to active politics. They are business men of high reputation. We will judge them only after seeing them at work. It may be said in the meantime that the Government's selection of a railway board manifests a sincere desire to fulfil its promise to give a fair trial to the system of nationalization into which the country has been drawn. It is to be hoped that this fair trial will give the good results promised by the parliamentarians."

FINEST IN THE WORLD.

During a recent visit to Great Britain the members of the Chicago streets committee were greatly impressed with the efficiency of the underground railway system of London. They admitted that it was the finest system of transport on a large scale in the world; and the chairman of the committee described the conditions as luxurious. In spite of the high standard attained, improvements continue to be made in the service and in the mechanical equipment. The latest effort to keep in the van of progress is

BOY FELL INTO BARREL

Montreal, Oct. 12—Falling into a barrel from the roof of a shed on which he was playing near his home on Sunday afternoon, Albert Desjardine, eight years of age, of Montreal, suffered severe internal injuries. He was taken to the Hospital Francais, where it was reported that his condition was serious. Information obtained by the hospital authorities was that the boy was running on the roof of the shed and went too near the edge, lost his balance and fell into a barrel which was on the ground near the shed wall.

SERUM BOON IN FIGHTING DIABETES

Ravages of Disease Checked by Insulin Discovered by Canadian Doctors—Found in Pancreas Tissue.

(New York Times)
Experiments in the treatment of diabetes, hitherto regarded as practically incurable, have met with remarkable success, according to reports by officials of the Carnegie Corporation, which has made an appropriation for research work at the Potter Metabolic Laboratory and Clinic in California. The treatment that is being administered has given relief in practically all the cases under observation.

The ravages of the disease have been checked by application of a serum discovered by Canadian physicians working under Dr. J. J. R. Macleod of the University of Toronto. This serum has been used at the Potter laboratory. Thus far relief has been dependent upon constant application of the serum. It is too early, physicians say, to describe the treatment as a "sure cure" for diabetes, for the experiments at the Potter laboratory have been going on for only about eighteen months.

Dr. Henry S. Pritchett, President of the Carnegie Corporation, who recently visited the Potter clinic and observed the experiments there, has made a report on the study and treatment there of diabetes, for incorporation in the annual report of the corporation.

Dr. Potter's metabolic research began at the French Hospital here. He re-

moved to Santa Barbara, Cal., where a metabolic clinic and laboratory was built by public-spirited Californians. The Carnegie Corporation has aided the work by an annual appropriation. Dr. Potter died in 1919, and since then the work has been carried on under the direction of W. D. Sansum.

Intensive studies on the internal secretion of the pancreas had been carried on in the meantime under Dr. Macleod in Canada. It has long been known that some pathology of the pancreas is responsible for diabetes. Dr. F. G. Banting, working under Dr. Macleod, carried on intensive experiments to extract a substance from pancreatic tissues. This substance was first injected into dogs suffering with diabetes. The diabetes symptoms disappeared with the application of the serum, which is known as insulin. Convincing results of the efficacy of the serum were obtained by Dr. Banting in the cases of humans suffering with the disease.

"On account of the admirable facilities in the Potter Metabolic Clinic in Santa Barbara and the opportunity afforded by the close association of laboratory and hospital," Dr. Pritchett's report says, "Dr. Macleod and his associates most generously and kindly communicated to Dr. Sansum and his staff in Santa Barbara such full information as they had and because of the urgent need for such an extract of the pancreas urged their immediate co-operation. With the information thus generously given through Dr. Macleod, the staff of the Potter Metabolic Clinic began strenuous efforts in the isolation of the internal secretion of the pancreas now known as insulin. They were immediately successful and within two months had been able to secure a sufficient amount of insulin to use on nine severe cases of diabetes.

Success of Treatment Established. The results have been so convincing that there can be no doubt of the great value of this substance in the treatment of diabetes and it is quite within the possibilities that the discovery may re-

BED sheets and counterpanes—bath towels and bath mats that you dread to clean on wash day.

Just let them soak themselves perfectly clean with Rinso—the new scientific form of Soap in granules. Do not put the Rinso direct from the package into the tub. Make the Rinso liquid first.

Mix half a package of Rinso in a little cool water until it is like cream. Then add two quarts of boiling water and when the froth subsides put it in a tub of cool or lukewarm water and you will have enough for a batch of clothes. If the clothes are extra soiled, use more Rinso.

nant prospects of the future which it holds out forms a source of the greatest encouragement to the trustees of the corporation that their gifts may, if given with discretion, advance the cause of medical knowledge and thereby increase human happiness and usefulness in the most desirable fashion. Mr. Carnegie had always in mind the desire to find the efficient man and enable him to do his work. Not every research can show the brilliant results which have come out of these investigations, but all patient, long-continued study adds little by little to the sum of knowledge, enriches life, and helps to turn away misfortune.

"Not the least pleasing feature of this investigation lies in the generous and admirable attitude in which two sets of investigators, each of whom has received modest help from the Carnegie Corporation have co-operated toward their common end. It was a graceful and generous act on the part of Dr. Macleod and his colleagues to put at the service of the Potter-Metabolic Clinic the full results of their important researches, but this action is in entire consonance with the spirit and the purpose of true scientific research."

375 KINDS OF ALGAE.
New York Harbor and Adjacent Waters Rich in Seaweeds.

More than 375 kinds of marine algae or seaweeds proper have been found in the waters of New York and its vicinity, although, owing to the marked increase of commerce and of sewage, New York Bay itself is not so good a collecting ground for seaweeds as it used to be fifty or seventy-five years ago, said Dr. Marshall A. Howe, curator of the New York Botanical Garden and author of various works on the marine algae, who lectured recently on the subject in the Museum Building of the Garden.

While "The Sea Weeds of New York and Vicinity" was Dr. Howe's title, the term "vicinity," he told his audience, in this case meant rather broadly as it was a radius of one hundred miles, with the radius stretched a little to include the whole of the marine algae of Connecticut and New Jersey, as has been done by the Torrey Botanical Club in its studies of the local flora.

There are still places within the greater city, as at Hunter's Island in the Bronx and Jamaica Bay in Queens, where a goodly number of marine algae or seaweeds may still be found, growing in shallow water or on the rocks and stones between the tide-lines. While the local marine flora is not so rich in species and forms as the flora of certain equal areas in Bermuda, the Florida Keys, the West Indies and California, yet it possesses elements of interest both to the scientist and to the collector for the curious and beautiful.

Among the attractive ornamental forms are *Dasya pedicellata*, which was discovered by Professor John Torrey of New York and sent by him to Europe for its first naming just about one hundred years ago, and Grinnellia americana, which was dedicated to Henry Grinnell the New York merchant and philanthropist who fitted out the arctic expedition for the relief of Sir John Franklin and whose name is further commemorated in the Grinnell Land of the Arctic region.

THE CUP SPORT TROPHY.
(Toronto Star)

"For years," says the editor of the Conning Tower in the New York World, "they have been trying to devise some substitute for the cup as a sport trophy. We might suggest a gold platter," and he goes on to explain that a gold platter, as everybody knows, is something a candidate wouldn't accept a nomination if it were offered to him upon. The Conning Tower man jests, of course, but platters are preferable to cups for more genuine reasons. The stuff they are supposed to put in cups gets scarcer every year, and as a result there is more use for the platter in many families where at one time they didn't use them very often.

THE SCIENTIFICALLY BUILT WATCH

Waltham No. 1420 Colonial Series
Cat. No. 237, Raised gold figure dial
Price \$55.00

A Permanent Value

WE hear a lot today about values. That is worth so much. This is now priced at so much. But everywhere the element of fluctuation.

Here is a man's watch that will never fluctuate in value. The longer you wear it the more you will value it. And the older it grows the more it will tell you why the Waltham "movement" is so honored and esteemed all over the world.

This No. 237 Colonial Series No. 1420 Watch is a timepiece to be proud of. It is a "class" in good looks—and the raised figured dial is an additional attraction.

Priced at \$55.00. Your jeweler will tell you what a real watch value it is. Ask him to show it to you. He knows Waltham Watches.

Write for a valuable booklet that is a liberal "Watch" education. Send free upon request. The Waltham Watch Co., Limited

Every Home Needs a "Keepsweet" Herd

IT is hard to judge how much milk and cream to buy from the milkman every day.

Sometimes you buy too much and it spoils before you can use it. Other days you run short of milk or cream just when you need it most.

You can avoid all this costly waste of milk and cream—all the annoyance of running short—by buying your milk and cream from the grocer or fruit store in Keepsweet cans instead of from the milkman in bottles.

You can buy a whole week's or month's supply at a time. You can have a Keepsweet Herd on the pantry shelf ready at all times to supply you with rich, thick cream or pure, undiluted milk.

Just open a can as you need it. Keepsweet Milk and Cream will keep sweet, fresh and pure in the unopened cans without ice or care or trouble.

It's the wonderful Keepsweet process that does it. By this process Keepsweet Milk and Cream are sterilized in a way that retains their purity, freshness and quality without condensing, evaporating, powdering or medicating—without giving that strong, cooked taste. Nothing is added and nothing is taken away by the marvelous

Keepsweet process. The food value of the milk and cream remains the same.

Open a can of Keepsweet Cream. Notice how rich and thick it is. It's not a thin, half-cream. It's more like the famous English Devonshire Cream. Taste it. You'll find Keepsweet delicious. Just the very cream you'd want for your coffee, puddings and desserts.

Table Cream
Rich, thick, delicious cream—not condensed

Keepsweet Milk is fresh whole milk from selected dairy farms. It is not skimmed or diluted. All the cream is left in. It is sterilized, free from all germs, 100 per cent. pure. Absolutely safe for children. Good for grown ups. The perfect family milk. Try it.

A Joy to the Housewife

A never ending source of satisfaction to all who use it—a range that embodies beauty, usefulness, durability and economy—a range that has proved itself for years—the Pandora.

It is a joy to the housewife because of its wonderful oven—a ventilated oven made of nicked steel easily washed. The properly proportioned fire box is economical with fuel and produces the right amount of heat. The smoothly polished top of the range is easily cleaned.

The Pandora requires less fuel than other coal ranges because the Special Flue System directs the heat twice around the oven and stops the usual wastage.

M'Clary's Pandora Range

To let every woman know all about the Pandora we have compiled a little booklet, "The Magic of the Pandora." This booklet explains clearly the features that have made the Pandora famous. Tear off the coupon and take it to your dealer or mail it to the factory and receive your copy.

PROHIBITION ACT DISCUSSED

N. B. Temperance Alliance Hears Reports and Passes Resolutions AT WOODSTOCK

Criticizes Work of Chief Inspector and Asks That Exportation From New Brunswick be Prohibited—Goes on Record as Opposed to Quebec and British Columbia Systems.

Woodstock, Oct. 11.—Resolutions calling for energetic action towards better enforcement of the prohibitory law in the province were passed at the annual meeting of the New Brunswick Temperance Alliance held yesterday at Woodstock with the president, Donald Fraser, in the chair. The meeting was largely attended and keen interest was

shown in the proceedings. It was one of the most enthusiastic meetings yet held. The financial report of the treasurer was in every way satisfactory. In the evening a public meeting was held and there was a fair attendance. Many of the delegates were not able to remain for the evening meeting. The resolutions and reports were as follows:

Resolutions Adopted. Whereas, the federal government has so amended the Canada Temperance Act that the importation of liquor shall be prohibited by the passing of an order-in-council by any provincial government; therefore Resolved, that the government of New Brunswick be urged to request the necessary order-in-council at the earliest possible opportunity. Whereas reports from all parts of the province clearly indicate that no serious attempt is being made to enforce the provincial prohibition law; and Whereas, we believe this condition of affairs to be largely due to the attitude of the chief inspector, who repeatedly expresses himself as satisfied with the present measure of enforcement; therefore Resolved, that we heartily concur in the request of our executive that the present chief inspector be removed from office.

Resolved further, that in the appointment of his successor a man be chosen whose sympathies and convictions are favorable to strict enforcement of the law. Resolved, that the Alliance again express its sincere appreciation and fullest confidence in the work and person of its general secretary, Rev. W. D. Wilson, not only in his public platform addresses and appeals, but also in his watchful care over our interests both in law enforcement and law instruction.

Report of Executive. Your executive begs leave to submit the following annual report: That since our last annual meeting our work has been continually carried on. Many and varied have been its problems that we have had to contend with.

ANY FAMILY MAY TRY IT FREE Thousands of parents are asking themselves, "Where can I find a trustworthy laxative for my family?" I urge you to try Dr. Caldwell's Laxative Syrup Pepsin. It is gentle and mild. The formula is on the package. Miss Gertrude Steves of St. Stephen, N. B., says her mother will use no other laxative for her little sister, Jennie McDonald, of Fort Mill, Ont., declares it is just what her mother needed. Try a teaspoonful of Dr. Caldwell's Laxative Syrup Pepsin for constipation or any of its symptoms. And the cost is only one cent a dose.

Spoonful for a Penny Brings Quick Relief

Splendid laxative properties of Dr. Caldwell's Laxative Syrup Pepsin proven by test. A SCIENTIFIC test has now proven what Dr. Caldwell of Monticello asserted many years ago, that constipation will slow you up fully 25 per cent. The test was made by Dr. Donaldson of Loma Linda up on four men in the prime of life who deliberately went without a bowel movement for four days. Within 48 hours the men had breathed tongue and foul breath, cankers in the mouth, no appetite, restless sleep, indigestion, headache, depression, nervousness, cramps. The blood pressure was up 25 per cent. It is just this that Dr. Caldwell has preached to his patients in private and to the public through the printed word ever since he began the practice of his specialty, diseases of the stomach and bowels, back in 1875.

After observing for years the satisfactory effect of his prescription for constipation, he placed it in drug stores in 1892, a simple vegetable compound of Egyptian seeds and pepsin with pleasant-tasting aromatics, now known as Dr. Caldwell's Laxative Syrup Pepsin. That was 30 years ago, and today over 10 million bottles are bought annually, the largest selling family laxative in the world. You will find it in any drug store you enter, a generous-size bottle costing you less than a cent a dose.

TAKE DR. CALDWELL'S LAXATIVE SYRUP PEPSIN The family remedy

See for Yourself How Lovely These Rugs Are

We wish we could show you right here how beautiful Gold-Seal Congoleum Art-Rugs are. Their colors are so delicate, so softly blended—their patterns so artistic. You really must see the rugs themselves to fully appreciate them. There are many attractive patterns suitable for all the various rooms in the house. But even more important than the beautiful designs of these rugs, are their practical, labor-saving qualities. Congoleum Art-Rugs are impervious to dirt, water and spilled things. They lie perfectly flat without fastening of any kind and are cleaned by merely a quick, light mopping. Service is guaranteed by the famous Gold Seal. With all these advantages, small wonder that Gold-Seal Congoleum Art-Rugs have become Canada's favorite floor-covering. If you have not seen them yet, a surprise awaits you. Ask your dealer to show them to you today.

of its general secretary, Rev. W. D. Wilson, not only in his public platform addresses and appeals, but also in his watchful care over our interests both in law enforcement and law instruction.

Resolved, that the Alliance acknowledge its indebtedness to the treasurer, W. G. Clark, at the secretary, Fred Z. L. Fash, who without any remuneration give of their time and work and personal influence for the advancement of our principles.

Resolved, that the thanks of the Alliance be tendered to the pastor and trustees of the United Baptist church of Woodstock for the use of their church building for their annual convention at large.

Resolved, that the Alliance be urged to request the necessary order-in-council at the earliest possible opportunity.

Resolved, that we heartily concur in the request of our executive that the present chief inspector be removed from office.

Resolved further, that in the appointment of his successor a man be chosen whose sympathies and convictions are favorable to strict enforcement of the law.

Resolved, that the Alliance again express its sincere appreciation and fullest confidence in the work and person of its general secretary, Rev. W. D. Wilson, not only in his public platform addresses and appeals, but also in his watchful care over our interests both in law enforcement and law instruction.

Resolved, that the Alliance acknowledge its indebtedness to the treasurer, W. G. Clark, at the secretary, Fred Z. L. Fash, who without any remuneration give of their time and work and personal influence for the advancement of our principles.

Resolved, that the thanks of the Alliance be tendered to the pastor and trustees of the United Baptist church of Woodstock for the use of their church building for their annual convention at large.

Resolved, that the thanks of the Alliance be tendered to the pastor and trustees of the United Baptist church of Woodstock for the use of their church building for their annual convention at large.

Resolved, that the Alliance be urged to request the necessary order-in-council at the earliest possible opportunity.

Resolved, that we heartily concur in the request of our executive that the present chief inspector be removed from office.

Skin Cleanliness means Beauty

Cleanliness is one of the first essentials of a beautiful complexion. You must keep your skin thoroughly clean—each tiny pore free from impurities—if you would have that clear, fair complexion every woman desires.

It has long been acknowledged that a good cold cream is the best to use, and the value of Daggett & Ramsdell's Perfect Cold Cream, as a part of your toilet, has been proved by three generations of women.

Daggett & Ramsdell's Perfect Cold Cream cleanses and beautifies; it builds up the tissues and keeps your skin firm and fresh looking. It is as invaluable as at all seasons for the woman who gives her skin proper care.

PALMERS, LIMITED 100 Laurier Street MONTREAL Canadian Distributors

DAGGETT & RAMSDELL'S PERFECT COLD CREAM "The Kind That Keeps"

We are appending hereto a copy of the Premier's statement regarding this matter. We shall need to watch carefully lest another attempt be made in the future.

During the session of the Legislative Assembly several statements made by Premier Foster called for a reply. Early in the session of the Legislative Assembly there was introduced a measure for the purpose of placing a tax upon liquors held in the Export Liquor Warehouse in the city of St. John. Your executive protested against the passing of this measure, which violates the principle of the Prohibition Act. Copies of the communications sent to the members of the Legislative Assembly are herewith attached. Despite our protest this measure was enacted, thus practically legalizing the exportation of liquor from New Brunswick. On June 7, last, the regulations dealing with the exportation of liquors were published in the Royal Gazette, a copy of which is on file.

There can be no doubt but that large quantities of liquor from these export warehouses are finding their way into many communities in the province of New Brunswick in violation of the law, thus adding to the difficulties of law enforcement and creating additional hardships for the people. During the latter days of the last federal parliament an act was considered and later became law that provides for us a remedy for the evils in reference to the wholesale liquor export warehouses. This remedy in brief is that the government of New Brunswick can pass an order-in-council asking the federal government to bring into operation the amendment to the Canada Temperance Act which prohibits the exportation of liquors. Your president has urged the government that this order-in-council be passed as early as possible.

These export liquor warehouses which are now operating in the province and which can obtain carrier's receipts from the appointed export inspectors for carrying liquor, have created a new situation in the illicit distribution of liquor. These carriers under the protection of that receipt have a specified time to clear from the warehouses in the city of St. John wherever they may desire to deliver this liquor. No prosecutions have taken place in reference to this.

The present prohibition act has been of untold benefit to this province, reducing drunkenness in public places, such as horse races, public gatherings on railway trains, and in other ways. It has also brought happiness to many homes, as horse races and children have been the beneficiaries.

Your executive would state again that the New Brunswick Temperance Alliance is an educational organization and not a political organization. Our position is non-partisan. We stand ready to oppose any party or individual which opposes temperance principles. We again emphasize the necessity of temperance people putting temperance principles before party politics. We are favorable to all those who truly favor the cause of prohibition.

Your executive takes this occasion again to express their appreciation of the valuable service which our general secretary, Rev. W. D. Wilson, is rendering to the cause of temperance. He is unceasing in his labors. It was largely due to his skillful handling of the situation that a new liquor act for revenue purposes, similar to that in British Columbia, was not enacted at the last session of the legislature. Such a law would be a calamity to this province as it is to British Columbia. Your executive believes that Mr. Wilson has the confidence and esteem of the temperance and Christian people of this province.

An application was made by Dr. J. G. Shearer, secretary of the Social Service Council of Canada, that the Temperance Alliance of New Brunswick amalgamate with the Social Service Council of New Brunswick. After mature and careful consideration your executive took the responsibility of declining this invitation, believing the time was not opportune.

In order that our constituency might receive in permanent form fuller information concerning the temperance situation in the province, your executive published Bulletin No. 1 and circulated several thousands of the same. We believe that such a bulletin might well be a regular and frequent feature of our work. The W. C. T. U. have been asked to co-operate in such a publication.

Recommendations. We urge that every influence possible be brought to bear upon the govern-

ment to induce them to pass at an early date the order-in-council bringing into operation the amendment to the Canada Temperance Act prohibiting the exportation of liquor from New Brunswick and the importation of liquor into New Brunswick.

We urge the alliance to approve the action of the executive in asking through our president and our treasurer, the removal from office of the present chief inspector.

In view of the many and serious violations of law and the apparent laxity in enforcement in nearly every part of the province, we would urge immediate action in a strenuous campaign for law enforcement. We are convinced that the numerous and serious crimes in the province are in large measure induced by laxity in the enforcement of the prohibitory and other laws.

Respectfully submitted, DONALD FRASER, President. Woodstock (N. B.), Oct. 10, 1922.

General Secretary's Report. As general secretary of the Alliance I beg to submit the following report of the work of the last year: Throughout the whole of the year I have kept in close touch with your executive. Special attention was given to the propaganda of government control. In the following sections I review for your information the situation as we viewed it:

1. The situation throughout the last year has been peculiar in this respect that the liquor interests waged a vigorous campaign looking to a partial repeal of the prohibition acts and the extension of the traffic. The campaign has taken two forms. A. An attempt to amend and change existing legislation in a way to permit larger sale of liquors. In some cases they have advocated as an entering wedge the sale of wines and beers.

In the province of New Brunswick a bold attempt was made to introduce new legislation for the purpose of foisting upon the people a system called "government control" of the sale and distribution of liquors, wines and beer as exists in the provinces of Quebec and British Columbia. It was stated that such a system would eliminate illicit manufacture and sale, that it would promote temperance and sobriety and that our "most citizens" would no longer need to be law-breakers. These specious arguments are put forward to deceive, while the real motives behind the promotion of such legislation are (1) The desire of the liquor traffic to increase its sales and extend its power; (2) The desire of habitual users to secure sufficient supplies of strong drink without the present humiliating restrictions; and (3) the desire of larger retailers and the opportunity which the monopoly of the liquor trade offers to fill the coffers of the government if it would turn saloon-keeper.

In both British Columbia and Quebec, government sale has not lessened but rather increased bootlegging; it has not prevented law violation but has increased the consumption of liquor enormously, bringing thereby all its attendant evils.

The province of British Columbia has made a profit of little more than \$2,000,000 while its citizens spent over \$15,000,000 on strong drink, and if we take into consideration the amount spent on wine and beer probably \$25,000,000 of the people's money was diverted from the homes of the people and from the channels of industry of the province.

Our people should remember that for every dollar that goes into the treasury of the province from the sale of liquors \$5 must be taken out of the incomes of the people, as the provincial profit is 20 per cent of the sale price. The liquor traffic has also been very persistent and in its violation of existing laws serves a two-fold purpose. It increases the trade of traffic; makes evident inefficiency in administration; and weakens the law and weakens the faith of the people in the value of the law.

The situation is serious today because existing temperance legislation is so inefficiently administered as to encourage doubt as to the real value of restrictive legislation.

The very government charged with the responsibility for the rigid and honest enforcement of the law likely to use its own manifest failure, whether due to inefficiency of officers or insincerity of purpose, as an excuse to repeal the present restrictive legislation.

Are we to have in these provinces as they had in Quebec a period of bad administration to be followed by an effort to repeal the prohibitory law and establish government control?

The existing administrators are creating a suspicion that their failure in law enforcement is meant to be used as a justification of the repeal of existing legislation.

Your secretary of this Alliance desires to place on record his opposition to the adoption (1) of any system of government control and sale of liquors for beverage purposes, (2) opposition to any existing legislation character or of law likely to be followed by an effort to repeal the prohibitory law and establish government control?

I wish to express to Mr. C. N. Vroom of St. Stephen, my appreciation for his help and companionship on several occasions in different parts of the province.

We are face to face with a crisis in our temperance work, and here at this annual meeting we should meet the situation frankly and decide what policy can be best followed in the days ahead. In every part of New Brunswick people are asking what should be done, what can we do, and today we must define a course calculated to benefit the cause of righteousness and thus help individuals and communities to a higher ideal in the Kingdom. Respectfully submitted, W. D. WILSON, General Secretary.

TO SEND CATTLE TO ROYAL FAIR (Canadian Press Despatch.) Halifax, Oct. 11.—More than ninety head of Guernsey cattle, seventy-five from this province, will be sent from Nova Scotia and Prince Edward Island to the Royal Winter Fair in Toronto next month, H. W. Corning, M. P., secretary of the Canadian Guernsey Breeders' Association said here tonight.

AN ASSIGNMENT. The Eastern Produce and Fisheries, Ltd., of Bathurst, has made an assignment to the Canada Permanent Trust Company. A meeting of creditors has been called for October 26.

PUBLIC GARDEN HINTS
Commissioner Frink has received from the curator of the New York Botanical Gardens some suggestions regarding the laying out and care of public gardens, which the commissioner termed timely and interesting.

NO WORD YET.
H. S. Culver, United States Consul, had not succeeded up to noon in tracing Mrs. Freelove Delaney, advertised for yesterday. He received a communication from the United States Veterans Association asking for information regarding her whereabouts, as William Henry Delaney, upon receiving the United States army for service overseas had given her name and two children as his dependants. Mr. Culver explained that the members of the United States army were all insured against death or injury and an effort is evidently being made to have the insurance adjusted.

COMPENSATION ACT CHANGES
Suggestions Considered at Government Meeting Here.

Action is Deferred—Some of the Proposals—Fuel Controller Reports to the Executive—Kings County Appointment.

Suggested amendments to the Workmen's Compensation Act of this province, some of which were brought up at the recent annual meeting of the Canadian Manufacturers' Association at St. Andrews, were given consideration at yesterday's session. No definite action, however, was taken, and they will come up for further discussion later.

Amongst the proposed changes in the act were the following:
That the board be judicial, or, failing this, then the employer to have the right to nominate one member of the board; the laborers' member, and the chairman to be appointed by the government, and the latter to be a qualified man for such a position.
That, where the board refuses to recognize any association, such association may appeal to the lieutenant-governor-in-council.
That the board's decision on questions of fact be final, but on questions of law to have recourse to the courts.
That the board publish all its decisions and findings and payments which it makes in the Royal Gazette.
That a minimum charge of \$50 be made for each inquiry.
That a contribution be made by the men of a percentage of their pay roll to cover, say, twenty-five per cent. of the board's activities for each calendar year.
To increase compensation to sixty-five per cent. and have the men pay all their own medical bills, leaving the board to pay compensation only.
A report of his investigations and observations in connection with the fuel situation was made to the provincial government in session here this morning by George S. Cushing, provincial fuel controller. Mr. Cushing was optimistic as to the supply of hard coal for the province, but was of the opinion that it should be regulated by the distribution of all supplies imported into the province, and was asked particularly to see that those districts that were now totally un supplied should receive their fair share.
The appointment of Mrs. W. Haddon Hill as registrar of probate for Kings, to succeed Miss Gilbert, resigned, was announced.
The government session will end this afternoon when a meeting of the provincial hospital commission will be held.

London, Oct. 12.—A treaty of alliance between Great Britain and Iraq was signed at Baghdad yesterday by the British commissioner, Sir Percy Cox, and the Iraqi premier, Sir Saïvid Abdurrahman.

Blames Currents For Empress Disaster

Captain McDonald's Evidence at Inquiry Held Today

Decision of the Court to be Made Known This Afternoon—Evidence on the Bay Steamer on Day She Went on Black Point.

The investigation into the grounding of the bay steamer Empress on Black Point shoals on September 29 was begun and completed this morning by a marine court of inquiry which met in the board of trade rooms and consisted of Captain L. A. Demers, chairman; Captain A. J. Mulaney and Captain Parker of the steamer Chignecto, F. Rowan was secretary. Dr. F. R. Taylor, K. C., and H. H. Moran, Jr., appeared for the C. P. R. When the evidence had all been taken the chairman announced that the finding would be announced at three o'clock this afternoon. In the course of his evidence Captain Angus McDonald, master of the Empress, ascribed the cause of the grounding to the abnormal currents. He was not represented by counsel.

Captain McDonald presented his certificate as master dated, June 27, 1911. The ship, he said, had all the implements necessary to navigation. The compass had been adjusted three years ago. On the day of the accident the weather had been heavy. The ship had been proceeding at full speed when she struck. This was about fifteen knots. He usually kept the telegraph at full speed when crossing the bay in heavy weather. He had made it a rule to slow the engines down at 0.25 as he found that this worked best. He had taken no soundings before the ship struck. He kept no log but kept a check on the time the ship made each day. He was sure the compasses were correct. The ship steered well and he had old hands with him.

The ship had grounded one hour and a half before high water. He had heard faint sounds from Partridge Island about five minutes before the ship had struck. They came from the south side. The lookout man reported a hurr ahead. The chief officer had been in the wheelhouse with him and two windows had been open and the door was closed. He had seen the chief officer successful for ten years he had become somewhat lax, he replied no. He attributed the accident to the abnormal currents. He should have made one of the buoys to the westward which he had not done, and this led him to believe that the currents were responsible. He had not heard the bell at all, though he could hear it the next morning. He could see about a ship's length ahead of him before she struck the shoals.

When he had seen the breakers he had ordered full speed astern and swung the wheel hard to starboard. It took about two lengths to stop the ship. He had put one engine full astern. He had not felt the shock of striking. He had ordered all the holds and tanks sounded to see if she was making any water. He had then ordered the boats taken two minutes to swing the boats. He held both boat would carry thirty people. Good discipline had been maintained and there had been absolutely no panic. He had sent the quartermaster and four deck hands to St. John with a boat. He said that a wireless message had been useful in getting his position. If he had had it he would not have had to send part of his crew to town with a boat. It had taken two hours to land the passengers. He asserted that if he continued in command he would run on the same system as he had in this case.

AT LEAST MORE THAN HALF HARD COAL SUPPLY

Fuel Controller Brings Optimistic Report from Ottawa—Continues Urging Use of Substitutes.

Optimistic reports of the fuel situation were brought to the city yesterday by Geo. S. Cushing, provincial fuel controller, on his return from Ottawa where he was in consultation with the federal advisory fuel committee. Mr. Cushing said that he was assured that there would be an amply supply of anthracite for the people of this section at least by Christmas and he urged that every effort be made in the meantime to carry on with substitutes.

CLOSING FIELD DAY AT RIVERSIDE

Presentation of Golf Trophies Won During the Season—The List of Winners.

The closing field day of the Riverside Golf and Country Club was held today and there was a very large attendance of members. Mixed foursomes were held this afternoon at 2.30. Luncheon and tea were served at the club. Honors among the ladies went to Miss Audrey McLeod, who, besides being runner up for the championship, won by Miss Bessie Dawson, the winner of the McLeod cup, the Thomas trophy, the Ringer prize and the L. G. U. handicap. The gentlemen's club champion is H. N. Stetson with Douglas Fowler as runner up. Following are the prize winners:

Ladies
Championship—Miss Bessie Dawson.
Runner Up—Miss Audrey McLeod.
Riley Cup—Mrs. R. M. Fowler.
McLeod Cup—Miss Audrey McLeod.
Thomas Trophy—Miss Audrey McLeod.
Gentlemen
Club Championship—H. N. Stetson.
Runner Up—Douglas Fowler.
Championship Consolation—A. P. Paterson.
Thorne Cup—E. D. Thomson.
Walden Cup—(Not finished).
The McAvity June Handicap Trophy—E. D. Thomson.
80 Handicap Competition—Alex. Gray.
Ringer Prize—Percy Turcot.
Girls
Junior Championship—Miss Annette Holt.
Junior Championship, Runner Up—Miss Doreen McAvity.
Silver cups were presented by Miss Catherine McAvity, for annual competition, miniature cups for winners.

LOSES ALL IN FIRE, BUT WEDS

Cobalt, Ont., Oct. 12.—Cupid flourishes even amid the ruins and desolation of Hallybury. In pleasing relief to the sorrow and suffering that prevail over so great a portion of Temiskaming was the wedding, at New Liskeah yesterday, of Miss Yvonne Gauthier to Eugene Boullaine of Temiskaming, Que. Miss Gauthier's family lost all their worldly possessions, but he now has the honor of being the first bridegroom from Hallybury that is to rise from the ashes of the old.

Digby Gut on the day of the accident and knew the conditions. On that day he had told his second officer to allow about six miles for wind and tide. He said wireless had been a great aid to him in navigation, and thought it had probably saved him from going ashore that day. He would not reduce his speed if he could see a length ahead.

Captain McDonald, on being questioned by Captain Demers, said he had no instructions as to how he should navigate his ship. Captain Demers then announced that the finding of the court would be given at three o'clock this afternoon.

A Three Days Hosiery Selling Event

Dear Madam:—No doubt you have noticed that it isn't always a woman's suit or frock or hat that accounts for her attractive appearance. No, frequently it is in the lesser costume details that she expresses her smart individuality, her feeling for perfect grooming.

This is particularly true of Hosiery, for no matter how fashionable a woman's frock may be it loses much of its style distinction unless her ankles are trimly clad in stylish hosiery. Just now then when you are assembling your fall and winter apparel, is an excellent time to choose hosiery that will harmonize with your new costumes. That is why we have arranged this special Hosiery event which represents values of extraordinary importance.

This selling starts on Thursday morning, October 12th and will continue for three days so decide now what day will be most convenient for you and make a memorandum in your engagement book, "Hosiery Shopping at Macaulay's."

Yours very truly,

Distinctively Styled Afternoon Frocks For Immediate Wear

With the numerous Bridges, Club Meetings, etc., to take up one's afternoons, the question of having a suitable frock comes under the head of immediate business.

The afternoon frocks in our Women's Shop are fascinating affairs of Canton, Satin Canton, and Lace Combinations. They emphasize the new style features, as the flowing sleeve, beaded or embroidered, the long plaited panels, or the cascade drapes. The darker shades in many cases have a dash of bright color in panel lining, beading, or sleeve facings, and all so modestly priced.

It will be a pleasure to show you these lovely models.

GETS LICENSE TO LOOK FOR GOLD

A Gloucester Merchant to Search at Shippegan. Logging Outlook on North Shore is Reported More Encouraging—The Chief Scaler Estimates a Cut of Seventy-one Millions.

(Special to The Times) Fredericton, N. B., Oct. 12.—J. H. Corbett, general merchant of Pitt Rivers, has taken out a mining license for thirty acres in the village of Shippegan, Gloucester county. He is after gold and supported his application of the license at the Department of Lands and Mines, by displaying a small gold nugget.

Mr. Corbett said that there might be deception in the matter but that he was going to find out. On Sunday he called the Deputy Minister, T. G. Loe, concerning his find and asked concerning the steps he should take. Later he took out his license.

Conditions in respect to the lumber cut on the North Shore during the coming logging season are reported most encouraging at the present time. Similar conditions are expected to prevail in other parts of the province and the entire lumbering outlook is bright.

The decision is expected to have considerable influence upon the other exchanges of Central Europe as it practically controls the markets in these countries.

SCOTT'S ARM AND MCGRAW'S BRAIN

William P. Hurley returned to the city today from New York via Montreal, where he saw the Giants vanquish the Yankees in the world series.

N. B. CROPS

Fredericton, N. B., Oct. 12.—A summary of conditions on October 10 issued by the provincial department of agriculture, says in part: The season of 1922 has been favorable to those crops which thrive with copious rains; hay, grass pastures, grain and root crops made rapid and vigorous growth.

Dr. Adams, formerly of Montreal, now vice-chancellor of Liverpool University, would have British people entered in a human stock book.

PERFECT DAY FOR SCHOONER RACE

Elimination Contest to Select Opponent for Bluenose The Howard in Lead, Meets With Mishap and Leaves Course for Port—Henry Ford Leading the Two Others.

(Canadian Press) Gloucester, Mass., Oct. 12.—A slapping white sail breeze out of the southwest, with clear skies and a running sea, provided perfect racing conditions today for the start of the sailing competitions among the fishing schooners of the U. S. north Atlantic fleet to determine which shall meet the Bluenose, winner in the recent Canadian races and international cup competition of last year.

The course for today's race, the first of three, if so many are necessary to determine the schooner selection, was forty miles, starting from Eastern Point, running along the Cape Ann shore to Thatcher's Island, and thence in a triangle to the Yankee and the Howard, with the Yankee following the Cape Ann shore in a direct line to the start.

The Howard increased her lead soon after the start, and was up to ten miles at the end of the race. The Yankee and the Howard were nearly half a mile apart.

LOCAL NEWS

MILITARY

Captain H. B. Poston of the Royal Canadian Rifles is expected in the city tomorrow from Montreal to assist in the winter training work of the militia.

BANK CLEARINGS

St. John bank clearings for the week totaled \$2,619,687, as compared with \$2,674,989 last year and \$3,098,282 in 1920.

HUNTING TRIP

Lieutenant-Colonel H. C. Sparling, D. S. O., returned to the city this morning after a hunting trip to Deer Lake, N. B. The colonel said this morning that there was an abundance of deer, but that they had not seen many moose.

BURIED TODAY

The funeral of Stanley M. Phippin was held this afternoon from his late residence, Little River, to Cedar Hill for interment. Service was conducted by Rev. Charles Lawson.

LEAK REPAIRED

Excavations made by the water department near the One Mile House this morning disclosed the fact that a leak in the water main was repaired.

LATE SPORT NEWS

New York, Oct. 12.—Miller Huggins whose re-engagement as manager of the New York Yankees for 1923 was announced yesterday, will have a free hand in organizing the team for next year, according to the owners of the baseball club.

Treat Your Liver Fairly

Help your liver act right Take Beecham's Pills A disordered liver throws the whole system wrong and affects the health generally. Beecham's Pills act directly on the liver, cleanse and strengthen the stomach, regulate the bowels, remove all impurities from the system, and make you fit and well. You can have a healthy body, strong nervous system, bright eyes and clear complexion if you

BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of Bladder Irritation or Backache.

The American men and women must guard constantly against kidney trouble because we eat often too much red meat and all our food is rich. Our blood is filled with uric acid which the kidneys must filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the acid in the blood causes bladder weakness and a general decline in health.

Clears Skin of Pimples

Remarkable Action of Stuart's Calcium Water in Ridding Face of Pimples, Boils, Rash, Blisters, Etc.

You know what a tiny pinch of saleratus does when added to milk and acid. It stops curdling, and this is comparatively the same influence that takes place when you add calcium to the blood. It is a refining influence. Calcium is the principal element in Stuart's Calcium Water and exerts a peculiar stimulus to skin repair. Pimples, blackheads and other blemishes either come from within or are replaced with new material and soon the skin renews itself with finer, healthier tissue.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for Colds, Toothache, Earache, Headache, Neuralgia, Lumbago, Rheumatism, Neuritis, Pain, Pain.

"I Was Run Down"

"Body was completely covered with Boils"

"If you have ever had boils, you know how painful and annoying even one or two can be. But imagine having your whole body almost entirely covered with them! I am a watchmaker by trade, making a specialty of repairing the highest grade movements. This is probably the most trying of any mechanical work, particularly for a nervous individual like me. Working under great strain both day and night for three months, brought me almost to a complete collapse. I was so irritable and nervous that the slightest thing would send me up in the air. I managed to get a few hours of sleep at night. I was lucky. I had no appetite for food. I certainly was miserable. During this time, boils began to appear on different parts of my body and the pain from them made life a misery. My suffering was so great at times that I felt there was nothing left for me to do but to end it all. I consulted doctors but they told me that if I didn't give up my work and live out of town, I would go into decline. As I had no money I couldn't do this. In fact, my doctors' bills and buying medicines used up all the money I made. Finally in desperation, I decided that I would either kill or cure myself, so I began to study my case. I realized that I was completely run down as any one could possibly be with a bad case of nerves. What I needed was building up. After reading descriptions of different preparations, the one which appeared to be the best for me was Carnol. It has simply performed miracles for me. Four bottles have done more than months of travel abroad. I feel like a two-year-old. I sleep eight hours every night and eat three good meals a day. My skin is like a baby's, free from blemishes of any kind and I have now almost forgotten that I have ever had such things as nerves. I want everybody who is willing to know about Carnol, because I have such faith in it, I believe it will cure any human ill."

98 Out of Every 100 Women Benefited

An Absolutely Reliable Statement Important to Every Woman

Remarkable Results Shown by a Nation Wide Canvass of Women Purchasers of Lydia E. Pinkham's Vegetable Compound. 50,000 Women Answer

For some time a circular has been enclosed with each bottle of our medicine bearing this question: "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?" Replies, to date, have been received from over 50,000 women answering that question.

Of course we know that our medicine does benefit the large majority of women who take it. But that only two out of 100 received no benefit is most astonishing.

It only goes to prove, however, that a medicine specialized for certain definite ailments—not a cure-all—that is made by the most scientific process; not from drugs, but from a combination of nature's roots and herbs, can and does do more good than hastily prepared prescriptions.

You see, we have been making, improving and refining this medicine for over 50 years until it is so perfect and so well adapted to women's needs that it actually has the virtue to benefit 98 out of every 100 women who take it.

Its reliability and recognized efficiency has gained for it a sale in almost every country in the world—leading all others.

Such evidence should induce every woman suffering from any ailment peculiar to her sex to try Lydia E. Pinkham's Vegetable Compound and see if she can't be one of the 98

THE LYDIA E. PINKHAM MEDICINE CO., Cobourg, Ont. and Lynn, Mass.

SPECIAL SQUAD OF POLICE TO HANDLE NARCOTIC ADDICTS

Montreal City Council Requests Executive Committee to Combat Illicit Drug Traffic—Views of Aldermen.

Montreal, Oct. 12—In order to wage a more effective campaign against the alarming spread of the number of those addicted to the use of drugs, the city council has accepted a resolution by which the executive committee is requested to establish a special squad of constables whose duty shall be to suppress this traffic in Montreal.

Ald. Gahias in his motion and other aldermen in the debate that followed, intimated that if the police were encountering difficulties in suppressing this illegal and dangerous traffic, it was because they had not reached those responsible for the sales of these drugs who were vaguely referred to as prominent persons interested in the traffic.

The motion submitted by Ald. Gahias was as follows: Whereas the number of drug addicts is constantly increasing; Whereas a certain newspaper recently intimated that if the drug traffic was not more efficiently eradicated it was because certain high personages interested in such traffic had to be protected;

Whereas, in spite of the arrests which are being made, the police authorities do not seem to go to the root of the evil;

Whereas many deaths are caused by the use of such drugs;

Resolved, that in order to remedy this deplorable state of affairs and in order that those who are responsible for the extraordinary expansion of drug traffic may be severely dealt with, the executive committee be requested to establish a special squad of constables whose duty it shall be to hunt up the real guilty parties, and to take all necessary measures in order to put a stop to the drug traffic.

In support of his motion, Ald. Gahias said the city newspapers for the past month or so had contained numerous reports, showing the growth of the drug trade and in that connection he thought it was time for Montreal to follow the example of Toronto and New York and organize a squad of police for the suppression of the traffic. What he feared was that the present campaign consisted of arrests of street victims, while those above them in the business escaped. By the organization of a special police squad he thought the stamping out of this dangerous vice would be materially aided.

Outside Assistance. Ald. Seybold assured the council that the Kiwanians and the Rotarians were willing to join hands with the city executive in the work suggested.

Ald. Trepanier said those behind the drug traffic seemed to enjoy a certain immunity. He thought it would be advisable to investigate whether the traffic was not due to the presence in Montreal of undesirable immigrants whose presence he attributed to laxity of immigration laws.

Ald. Brodeur suggested that if any of the aldermen had any specific information concerning the circulation of such drugs, they should place their information before the police.

Ald. Thurot remarked that the city authorities should not think of the expense of establishing a police squad, but of protecting the health of young men and of young girls.

Ald. Quintal was also of the opinion that the real work of the police was to get at the group who were at the head of the drug traffic.

After a few remarks by Ald. Sansregret, leader of the council, the motion was declared carried.

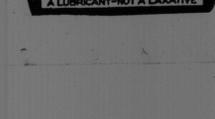

HYDRO PLAN FOR NOVA SCOTIA IS OUTLINED

(Canadian Press Despatch.)
Yarmouth, N. S., Oct. 11—A scheme of hydro development on the east branch of Bear River at a probable cost of \$11,500,000 which would supply the north shore of Nova Scotia from Yarmouth to Middleton was outlined in the address here before the town council and interested citizens by K. H. Smith, chief engineer of the Nova Scotia Water Powers Commission.

Mr. Smith said that while the preliminary plans for the scheme were not complete, he was satisfied it was sound. The work had so far advanced that within two weeks the commission would be prepared to suggest a definite contract for the approval of the town.

Distributing stations under the plan would be at Middleton, Bridgetown, Annapolis, Bear River, Digby, Weymouth, Port Maitland and Yarmouth.

Laxatives Replaced
By the Use of Nujol
Nujol is a lubricant—not a medicine or laxative—so cannot gripe.
When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving.
Doctors prescribe Nujol because it acts like this natural lubricant and thus replaces it. Try it today.

PEERLESS LODGE CELEBRATES ITS ANNIVERSARY

Peerless Lodge No. 19, Oddfellows celebrated its forty-eighth anniversary on Tuesday evening, by inviting Oliver and Golden Rule lodges to participate with them fraternally, and at their hall in Simonds street.

After a short session of the lodge, Ray Colwell welcomed the visitor after which a programme was carried out.

M. D. Brown, deputy grand master, gave an address, in which he portrayed very fully what the lodge has accomplished in its fine record of forty-eight years, showing its financial and numerical standing to have been first class, all through its history.

Speeches were also given by W. F. Hatheway, C. W. Segge, M. D. Morrell, G. H. Chase, J. Robson, W. J. Watson, M. Tait, George Gorham and W. B. McLean. Messrs. Gorham and McLean are both members since 1874. They received much applause for their long services.

The speeches of C. W. Segge and M. D. Morrell describing their travels to the West, and to the Sovereign Grand Lodge I. O. O. F. at Detroit respectively were very interesting and profitable.

Songs were given by G. W. McAuley, E. C. Treacartin, Joseph Murdoch and Arthur Harris, and recitations by B. W. Thorne and John Salmon. All proved good entertainers. After refreshments had been served, the social time was brought to a close by singing the National Anthem.

C. Leiford, M. D. Brown and F. Smiler were the committee in charge of the meeting.

INVESTIGATION OF EXECUTION OF BENNY SWIM

J. Bacon Dickson, of Fredericton, has been named a commissioner to look an investigation into the circumstances surrounding the execution of Benny Swim at Woodstock last Friday. The appointment was made at the meeting of the provincial government here last evening.

Proposed amendments to the New Brunswick's Electric Power Commission Act were also discussed at the meeting, as were proposed amendments to the Workmen's Compensation Act. The meeting will be continued today.

Hon. Dr. E. A. Smith, chairman of the power commission, C. O. Foss, chief engineer, and Gordon Krebs, electrical adviser to the commission, met with the government and explained details in connection with the changes proposed in the Power Commission Act.

MORPHINE IN BEER FACTOR IN DEATH

Information Given Detective of Coroner's Court Investigating Man's Death.

Montreal, Oct. 12—From what is stated by the hospital doctors to have been a combination of morphine poisoning and pneumonia, Isaac Ehnatow, thirty-one years of age, of 1636, Chenille street, died at the Montreal General Hospital Monday afternoon.

Information obtained by Investigator Fuisse of the Coroner's Court, was that Ehnatow had left his home at 11:30 o'clock on Saturday night and gone to a house on Vibre street. Rose Macneil, twenty-eight years of age, who followed Ehnatow to the house, told the investigator that Ehnatow had gone to visit a friend. She stated that at 9 o'clock on Saturday morning she and Ehnatow were about to leave the house when he was taken suddenly ill. She called a taxi and, with the assistance of a man from the house, took the victim to the hospital. The investigator was informed that the victim had been drinking morphine in beer during the night. The woman was arrested as a witness for the inquest.

THIEVES ROB CASTLE ROCK

Henry Fairfield Osborn's Summer Home Searched for Wedding Gifts.

Garrison, N. Y., Oct. 12—It transpires that the summer home of Henry Fairfield Osborn here had been broken into last Saturday night by thieves, presumably seeking wedding gifts to Mr. Osborn's daughter, Miss Josephine Osborn, who was married last Thursday in New York city.

The Osborn country home, known as Castle Rock, is one of the show places along the Hudson River. The house had been closed for the winter a few days ago.

The intruders entered through a window in the basement and searched all the rooms. They were unusually

diligent in ransacking the room of Mr. Osborn's daughter. There were no wedding presents in the house. The thieves took only a few trinkets. The State Constabulary troops were notified. Mr. Osborn is preparing to go to China.

WILL AFFILIATE

Decision to affiliate with the M. P. B. A. A. U. of C. and appointment of P. J. Legge and L. J. Maxwell as delegates to the coming meeting of the union in Amherst, featured a well-attended session of the St. George's Athletic Club last evening. T. Gosnell brought up the matter of a football

CANDY DAY-A NATIONAL DAY OF REMEMBRANCE

October 12th a Day for All

What happy thoughts race through the brain of average men and women, not to speak of the kiddies, when the "sweetest day of all the year" is mentioned.

To some come misty faced memories of the delectable sugar stick of our youth, to others come the penny of Saturday morning fame. Still to others come the happy thought of the parcel from home when temporary respite from hammering the Bosche gave an opportunity for getting mail. To wives and sweethearts, come the memories of the thrills of opening the boxes of well chosen sweets labeled from "Bob" and "Jack," and so on down the list.

But every time with the thought of candy or of sweets were thoughts of happiness, kind thoughts of someone else, for no one could think of candy selfishly and enjoy it alone.

There's hardly a man today but had boyhood dreams of when he had reached man's estate he would work in a candy shop where he could eat to a finish and satisfy himself. That was the happiest dream of all.

So there has come a National Candy Day to be celebrated as a Remembrance Day, a day for giving gifts of candy, gifts that carry no obligations, just express thoughtfulness and kind feelings and happiness. It may be the kiddies. It may be the sweetheart, brother, daughter, or just a friend.

Candy is always welcome, but more so on Candy Day.

Picking the Packet That Wins

The way to a woman's and a family's heart is said in a word—Candy. Somehow or other we've an idea that could be amended to read—Ross's. For today of all days we feel we've done ourselves proud in as neat a selection of winners as ever were grouped and fairly priced.

Moirs for Instance
Provide here a package that is as much a work of art outside as always within. At \$1.25 you find such assortments as:
Stolen Dainties.
Luscious.
Rose Beauty.
Cherry Centers.

Neillon's Show Here
Not only their new Home Made chocolates at 60c the box—but extra fancy lots like these at \$1.25.
Demonstrator.
Chocolate Caramels.
Nut and Hard Centers.

Fosses Come Forward
With their Boston Beauties that have been all the rage lately. The Quality Assortment at \$1.50 contains Nougats, Caramels, Butter-Scotch and Creams. At \$1.25 there are the Standard and Introductory Assortments. In bulk you choose your own variety from 90c.

And at the Bulk Candy Counter
Creamed Almonds are before you in fluffy white balls at 39c lb. Chewy Chicken Bones are shown in satiny deliciousness at 49c lb. Peter Pan Caramels are intriguing at 59c lb. You find Orange and Lemon Quarters for the kiddies at 39c—while a nifty assortment of good chocolates appears at 49c the pound.

lington League, while E. Richter was appointed representative to look into the proposal to have a west side basketball league formed, including teams from Fairville.

WORK CONDITIONS REPORTED BETTER

Conditions of employment during the summer were reported to have been better than in recent years at the meeting of the Associated Charities held yesterday afternoon, at 117 Germain street, with Mrs. George F. Smith presiding in the absence of W. Hives Fisher. The meeting was the first of the season and the summer's work was reported upon. The annual

meeting is to be held next month and a committee was appointed to make all arrangements in regard to it. A resolution was passed expressing the deep loss which the society had experienced in the death of the treasurer, William Young, and conveying sincere sympathy to his bereaved relatives. Mr. Young, for many years, had taken a great interest in the work of the society and had aided it in every way. A copy of the resolution was to be sent to Mrs. Young. The secretary, Miss Grace Robertson, was authorized to act as treasurer until the annual meeting.

The secretary was authorized to give necessary relief to some cases and other cases had already been helped. It was reported that during the summer employment had been readily found but the society has always the incapacitated and those not able to work to consider and much was done in caring for the needy cases.

The secretary's report gave the following statistics of work done in the summer: Applications of all kinds, 314; requests for employment, 36; employment found for 27; visits made, 264; relief provided for 21; clothing given, 16.

For the Lover of Good Candies

Huyler's

MEET EVERY DEMAND
Their absolute purity and fine quality are unequalled. Huyler's on candy is like Sterling on silver. Huyler's flavor and variety are satisfying. They are different to others.

Here is What "Candy Experts" Say About FRANK WHITE'S PURE HARD MIXTURE

A PURE CONFECTION

There is at the present time one Confection on the Canadian market that stands out exceptionally prominent for purity and excellence of flavor called Frank White's Hard Mixture. Taking the highest grade of Granulated Cane Sugar for the standard of purity in candies, this mixture—classes 100 p.c. Ordinary hard boiled mixture is composed of 70 lbs. sugar and 30 lbs. glucose. Frank White's Hard Mixture is made from the best sugar only, no glucose whatever. This with the excellent flavors used is making this mixture a popular one, not only with the kiddies but from grown-ups as well.

Frank White's Assorted Creams are also made of Pure cane sugar only.

Watch out for Chesterfield Chocolates; will be on the market November 1st.

LAST VOYAGE OF LA TOURNAINE FOR FRENCH LINE

New York, Oct. 12—La Touraine, oldest passenger ship plying between France and the U. S. started on her last trip when she sailed for France yesterday. Her owners, the French line, have decided to dispose of the thirty year old vessel upon arrival in Havre.

MUTT AND JEFF—JEFF HAD A RINGSIDE SEAT

MUTT, MUTT ME! AT LAST I'M GONNA GET MY NAME IN THE PAPERS!
WILL IT BE IN THE POLICE COURT NEWS?
NO! THE COUNT AND COUNTESSES OF HOBOKEN ARE GETTING A DIVORCE AND I'M GONNA BE THE STAR WITNESS!
WERE YOU PRESENT AT THE BEGINNING OF THEIR QUARREL?
I WAS!
WHEN DID IT BEGIN?
IT BEGAN SEVEN YEARS AGO TODAY!
SEVEN YEARS AGO TODAY! HOW COME YOU REMEMBER THE DATE SO WELL?
IT WAS THE DAY THEY WERE MARRIED! I WAS AN USHER AT THE WEDDING!

BRITISH MERCHANTS AND CANADA

(Vancouver World)

One difficulty in establishing more ample conditions of commercial interchange between Great Britain and Canada is occasioned by the fact that the British merchants as a class have no idea of the commercial possibilities of having under their eyes a new market for their goods. The truth about Canadian resources can only be realized by travelling through Canada.

For centuries the attention of British merchants has been mainly directed towards the Levantine ports, the Far East of India and the Orient, and the Antipodes. The history of the East Indian Company, developing trade with India is known in every British counting house. The China tea trade and the spice and coffee trade have given British merchants a great richness of Asia and the Islands along the Asiatic coasts. Australia and New Zealand and South Africa are in large measure commercial outposts of British trade. British merchants have direct knowledge and direct personal interest in all these markets as a result of the course of both import and export trade for many years.

Canada on the other hand, has never grown into the personal consciousness of British merchants as a class. They have not yet really turned their attention westward because they have no real, certain knowledge of the magnitude of having under their eyes a new market for their goods. This knowledge they can only properly gain by coming to Canada and seeing for models.

THE C. P. R. AS A MODEL

La Patrie: "In order to put the national railways on a sound financial basis, the railway board will have to maintain a good service at the same time practice extreme economy—two things which do not go together easily. The board will have the advantage of having under its eyes a model which will be a constant source of inspiration. We refer to the Canadian Pacific Railway, which is probably the best administered railway in the world."

Feed your product more vitamins

BRIGHT color on big spaces

may create interest in a picture, but it lacks four-fifths of the advertising vitamins that send people into a specific retail store to buy goods.

The retail distributor must have advertising that builds up confidence in the product; that can educate new customers; that can make them desire new things to eat and wear and enjoy; that finally sends them to the counter with cash in hand.

Thirty years ago, Mr. P. C. Larkin sought anxiously for a link between his brand, the retailer and the buying public. He found one that that has never broken.

"I thought of telling my story in a single newspaper," he writes, "which I did and soon saw results. The single medium soon became two, and then a dozen, and now many hundreds on the American continent alone, where practically every daily newspaper of any importance carries Salada Tea Company advertisements."

There is only one common power that can influence buyers for our local merchants and the national advertiser. This is the Daily Newspaper in our trade area. The retailer who impresses this fact upon the manufacturer turns over his stock quickly and profitably.

Issued by the Canadian Daily Newspapers Association, Toronto.

SOME PRICES IN GERMANY

Berlin, Sept. 18.—(A. P., by mail.)—About the only thing that can be bought in Germany today for one mark is a wire nail. Before the war 100 marks would pay for twenty suits of clothes. Today that sum will purchase a vest. A good piano could be bought then for 900 marks, a sum now required for a pair of boys' shoes. Five hundred pre-war marks sufficed to build a small house, while now it scarcely foots the bill for two pairs of women's woollen stockings. Two pounds of butter can be found on the market today for 400 marks, or the pre-war price of a milk cow.

One cannot get a spool of thread today for the former price of a sewing-machine. Fifty marks once bought a lady's silk dress; now it will buy a cheap handkerchief. There was, some eight years ago, when one could get a bottle of champagne for what it costs now to ride on the subway. Two cigarettes are worth what a hundred of the same quality cost in 1914.

To follow the daily rise in prices at the present time, the Berlin newspaper reader must pay six marks for a copy of his favorite journal. In the "good old days" the paper cost him sixty times less, or ten pennies.

A shopkeeper in Darmstadt displays a five-dollar bill in his window attached to the following notice: "For this note foreigners formerly obtained goods to the value of 26.25 marks; now they get wares worth 7,000 marks for it. Therefore I sell only to Germans."

THE BOARD WILL DO WELL TO STUDY THE C. P. R. METHODS, AND APPROPRIATE THEM TO THE FULLEST EXTENT POSSIBLE WHEN THEY CAN BE PRACTICALLY ADAPTED TO THE NATIONAL SYSTEM.

The Canadian Pacific is the competitor of the national railways. However, the interests of the former are so bound up with the national interests that its proprietors and administrators must hope to see the national system attain some prosperity. As to the people of Canada, cravers that they are by the burden of the annual deficits of the national railways, they have the best of reasons for desiring that Sir Henry Thornton and his colleagues may succeed in the work that has been confided to them.

BABCOCK MILK TESTS.

Only Five Types of Glassware Are Now Permitted by Law.

New York, Oct. 5.—The New York Analytical and Experiment Station at Geneva has issued a statement setting forth the provisions of the amendment to the agricultural law enacted at the last session of the legislature relative to the kind of Babcock glassware that can be legally used for making butter-fat tests.

Accurate glassware is essential for just payment to milk producers. Farmers in New York have been protected by law in the past against inaccurate glassware which has marred the butter-fat test. New York was one of the first states in the Union to compel all glassware jobbers and manufacturers to submit their glassware to be tested for accuracy previous to its sale. Since 1900 the Experiment Station has tested all the Babcock glassware used in New York before it was offered for sale. All glassware meeting requirements is marked S. B. or State Brand, to show that it has been tested and found correct.

The purpose of the amendment of the old law is to reduce errors in testing milk and cream for butter fat by the Babcock method, by reducing the number of kinds of glassware that can be legally used in making the test. During 1921 the Experiment Station tested more than 93,000 test bottles and pipettes representing more than twenty-four distinct types. Many of these types, although accurately made, were so constructed as to lead to errors. Such glassware is now illegal. Only five types of glassware are now permitted by law. These are the usual 8 per cent milk bottle, the 9-gran short and long cream bottles, the 19-gran long cream bottles, and the plain 17½ cubic centimeter pipette. The New York law, which is now in force, is in accordance with the provisions of the United States Bureau of Standards.

Babcock glassware takes its name from Dr. S. M. Babcock, formerly chemist at the Geneva Station, who perfected the Babcock method of testing milk and cream for butter fat. The method is now used universally as a basis for payment to the farmer for his milk and cream.

MORE ABOUT NORTHLIFFE.

(Halifax Chronicle.)

Mr. M. Pemberton is engaged upon a volume, which Messrs. Hodder & Stoughton will issue immediately, with the title "Lord Northcliffe—A Memoir." The memoir is based partly upon facts dictated to Mr. Pemberton by Lord Northcliffe himself, specially selected and arranged for the purpose, and partly upon a certain amount of his own lived and worked with him for many years.

Use the Want Ad. Way

CITY OF LONDON GROWS "AMERICAN" WITH BREAKFAST FOODS AND MUSIC

London, Sept. 28.—(By mail.)—London is twice as much like New York as it was ten years ago. H. L. Mencken, compiler of "The American Language," asserted in an interview.

An Anglo-American who agrees to admit, for example, that the establishment a few years ago of a huge department store on American lines revolutionized the whole business of retail selling; and that the completion of the Bush terminal building at the foot of Kingsway will give the Strand rather an alien tone. Kingsway, incidentally, despite its imperial title, is far more American in its Englishness than the Strand.

Beneath the Surface.

Yet, in spite of the many changes, is London really more like New York than it was ten years ago? Looking beneath the surface assuredly not. For we must remember two salient facts. One is that during the ten years London has been invaded by thousands of America's young military manhood. That they left their mark it is plain to see.

The other point to be remembered is that for six months of every year this American invasion is continued, and that to meet the demands of visiting Americans a certain amount of "homes-from-home" have come to be set up—places patronized exclusively by Americans.

No, whatever London may have borrowed from New York in the last ten years is a normal and permissible loan—remembering all that New York has taken from London in the last fifty years.

Indeed, as one of Mr. Mencken's collaborators has not hesitated to say in a recent work, "Civilization in the United States":

"All that is best in American life is ascribable to England. As for the rest, but there, we must not be led into a disquisition on national taste!"

CHEMICAL EXPORTS DECLINE.

\$2,000,000 Decrease Noted in First Seven Months of This Year.

Exports of chemicals and allied products from the United States to foreign countries for the seven months, January to July of this year, were valued at \$63,118,990, a drop of more than \$2,000,000 from the value in the corresponding period of 1921, the decreases occurring in the exports of soda ash, pigments, paints and varnishes, fertilizers and coal tar products, according to the statistics of the Department of Commerce. Some of the chemicals showing increases during this period were wood alcohol, acetate of lime, caustic soda, zinc oxide, ammonia, resin and spirits of turpentine.

Of the heavy chemicals exported, the most marked increase was that of 94 per cent in quantity and 340 per cent in value of caustic soda, the figures being 97,487,100 pounds and \$3,897,010 for 1922, compared with 10,698,548 pounds and \$16,698,548 in January to July, 1921. Borax exports increased 300 per cent in quantity—from 2,180,937 pounds, valued at \$154,248, to 8,543,094 pounds, valued at \$409,612. Acetate of lime and glycerin more than doubled, rising from 8,985,000 pounds, valued at \$200,771, to 19,625,760, valued at \$389,769, and from 868,962 pounds, valued at \$154,699, to 2,001,749 pounds, valued at \$290,352, respectively.

Other increases were: Calcium carbide, from 7,900,203 pounds, valued at \$891,231, to 9,123,697 pounds, valued at \$447,185; chloride of lime, from 9,775,000 pounds, valued at \$282,900 to 22,000,000 pounds, valued at \$384,200; copper sulphate, from 2,040,000 pounds, valued at \$189,918, to 4,427,000 pounds, valued at \$268,000. Ammonium compounds, exclusive of ammonia sulphate, totaled 2,887,000 pounds, valued at \$886,797, for the seven months of 1922, compared with a value of \$847,875, compared with \$8,077,844 from January to July, 1921.

Fertilizers increased about ten per cent in both quantity and value amounting to 507,990 tons, valued at \$9,418,000, in 1921, and 564,834 tons, valued at \$10,518,000, in 1922. There was an increase of nearly 300 per cent in quantity, from 25,707 tons to 110,000 tons.

GEORGE KELLY

He helped the New York Giants to victory by his play in the final game of the world series.

Messenger. Mad Hatter's career should not end with the day he bids adieu to the race course. His breeding and splendid individuality should make him achieve success in the stud for which he is destined at the close of his racing career.

Mad Hatter's earnings his first season out amounted to \$2,475. He was sent to the post ten times as a two-year-old and won two races, being second once and third twice. In 1919, as a three-year-old, Mad Hatter won \$34,901 in the colors of S. C. Hildreth. He ran seven races that year, winning four, being second in two and third in the other. His best contribution was gained in the Latonia championship at one mile and three-quarters, worth \$44,000.

In 1920, Mad Hatter had a strenuous campaign, taking part in twenty races, of which he won nine, was second three times and third on a like number of occasions. His earnings amounted to \$20,834, and his largest single winning was gained in the Bowley Handicap at a mile and a half, worth \$7,700. The season of 1921 found Mad Hatter racing in the colors of a Hancock Stable. Twenty races constituted the campaign of that year. Of these Mad Hatter won eight, was second six times and third on four occasions. His winnings totaled \$42,932. He began the season impressively by winning the Kings County Handicap at Jamaica with 124 pounds up, beating Exterminator and establishing a track record for the mile and a sixteenth.

Other victories that year included the Metropolitan Handicap and the Caughnawaga Handicap. His second to Yale Hand in the Saratoga Handicap, carrying 132 pounds to that gelding's 120, was another brilliant effort. He won the Jockey Club Gold Cup, running the two miles in 3:22.2-5, the first mile and a half in 2:20.2-3 with 126 pounds in the saddle.

Three hard races in a row brought a protest from the big horse and he refused to do his best when brought out within two days to contest for the October Handicap. That race was run on Monday last and was taken by Brantstom. A period of rest will undoubtedly refresh Mad Hatter and he will give racegoers many thrills before the close of the season.

In the meantime 27 victories, 17 records and 11 thirds for a total of \$168,335 out of 90 starts is a record to be proud of, especially when the horse that did it is sound and ready for other battles after a period of well-earned rest.

HEYDLER SAYS FANS ENJOY LIVELY BALL

National League President Believes Spectators Like Lots of Hitting.

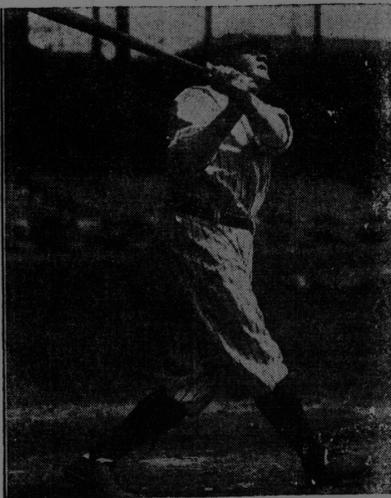

New York, Oct. 12—John Heydler, President of the National League, thinks that the baseball fans of the country are well satisfied with the lively ball, and that it will therefore remain lively in the future, in spite of the fact that there has been a great deal of complaint about it in some circles.

Heydler says that the club owners seem satisfied with the lively ball, the heavy hitting and the amount of liberty allowed the players.

"There seems to be much discussion about the lively ball and the advisability of allowing it to continue in use," remarked Heydler in an interview recently. "It is by far the best ball we have had. I am convinced from my observations around the circuit that the fans like to see a lot of hitting and the increased activities that naturally follow the heavier hitting."

"The lively ball means that a new

BABE RUTH WHO PROVIDED THE EXCITEMENT IN ONE GAME

In the eighth inning of a game with the Giants in the world series, he bugged two points and made a clean steal of the plate.

type of outfielder is generally sought. At least, there is no longer room for the heavy-footed, slow, but slugging outfielder. He would lose more games through his slow outfielding than he would win by his slugging. The infielders cannot cover so much ground, because the ball moves more rapidly through the infield. But there is still plenty of room for infield skill.

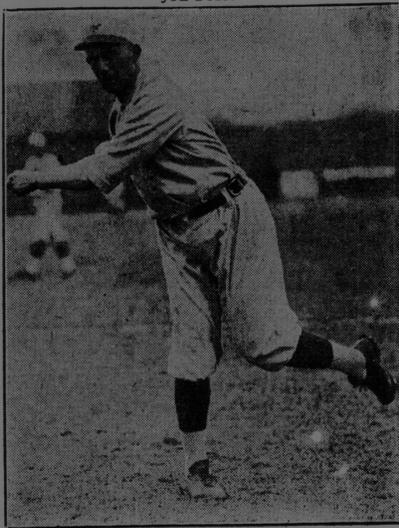

When asked his opinion on the quality of pitching displayed this season, Mr. Heydler said, "It was our opinion that pitching would improve materially this year, but it has not made much of an upward movement. Pitchers apparently have lost the art of control. It may be—and I have often thought this was a sane explanation—that the pitchers now work with the big idea of shutting off the home run. They overdo the effort to keep the ball away from the heavy hitters, in the hope that if they shut off the home run they will have a much better chance to win."

"This extra caution has resulted in a lot of 'cripple' hitting. The pitcher keeps feeding up bad balls, and gets two or three balls and no strikes on the batter and then the latter, ready to pounce on the 'cripple,' takes a toe hold and swings away at the next pitch. In the old days—and it was not so long ago—with the count two or three balls and no strikes, but now it is an uncommon thing to see a player let a cripple slide through without blazing away at it, usually with good results for his side."

Chess Prodigy in Draw.

New York, Oct. 12—Two adjourned games were played in the ninth American chess congress, Samuel Reschewski, 10 year old Polish prodigy, earning a draw with David Jaffe, former New York state champion, in one, while David Janowski, French champion, and I. Bernstein, present state title-holder, suspended play again after the 81st move.

JOE BUSH

Who failed in two attempts to pitch the New York Americans to victory in the world's championship baseball series against the New York Giants.

TURF WINNINGS

Mad Hatter Sixth in the List With Total of \$168,185.

New York, Oct. 12—While Mad Hatter, the highly temperamental handicap horse, which carries the silks of the Rancocas stable, is one of the best-known racers of the American turf, racing followers in general probably will be surprised to learn that this speedy son of Fair Play now stands sixth among the great money winning horses on this side of the Atlantic.

Statistics show that Mad Hatter has won to date a total of \$168,185. He is surpassed in earnings only by Man o' War, Exterminator, Domino, Sycoby and Colin.

None of his victories has been achieved with a feather on his back. All have been gained with steady imports—the majority with 125 pounds or more—and many have been won by the narrowest of margins in finishes calling for the last atom of speed and courage.

No horse in training, with the possible exception of Lucky Hour, has more speed when Mad Hatter is in a generous mood; and that he has bottom as well has been demonstrated in such races as the Jockey Club Gold Cup, which he won twice at two miles; the Latonia Championship and the Saratoga Cup, both of which are run at a

mile and three-quarters. Though beaten for the latter the past summer, he yielded by inches only to Exterminator, one of the truly great distance horses the American turf has known.

A true representative of the Fair Play-Rock Sand cross, which has given the turf Man o' War and a lot of other good performers, including the phenomenal

FASHION-CRAFT CLOTHES

"Art wins the heart"

"HOW smart you look in your new coat, Ned! Fashion-Craft, isn't it? I thought so. Awfully well made. A woman appreciates the deft touches of hand-tailoring that give it the clean long lines of a thoroughbred. Fits beautifully around the neck, Ned. Bye-bye, you lucky beggar."

Worn with or without the belt, this Viscount model, with its slenderizing, youthful Raglan sleeves falling straight in one piece from the collar, is the season's last word in stylish smartness. It buttons high under the collar for stormy weather. Exclusive, without extravagance, you can be sure you get a Viscount if you look for the Fashion-Craft autograph.

FOR 16 YEARS THE RECOGNIZED STANDARD FOR VALUE AND STYLE IN CANADA

OAK HALL SCOVIL BROS., LTD.

King Street Germain Street Market Street

Get Acquainted Selling Event

From Friday, Oct. 13th. to Saturday, Oct. 21st.

WE have been in our new store on King Street about a month now. All our old friends are regular callers and we have gained new friends by the score. But there are hundreds of men in St. John whom we haven't met. We want to get acquainted with them. We know that the service, the satisfaction, the quality of the merchandise that they will receive here will MAKE them come again.

So beginning Friday, October 13, and continuing until Saturday, October 21st, we are going to give you men such values on brand new Fall and Winter clothing and Haberdashery, that will not only allow us to get acquainted but will make you join the procession of our regular callers. We suggest that you shop around and then come in here.

Overcoats

There are 35 overcoats which we have unpacked within the last three weeks. They are the very latest modes for the Fall of 1922. The colors are the new Autumn shades—fawn, brown, green, grey and beautiful mixtures. Some are lined throughout with satin; others partially lined and have the reverse side in Scotch plaid.

Regularly selling from \$25.00 to \$55.00. Get acquainted for \$20.00 or \$25.00 up to \$40.00.

Your Fall and Winter Underwear

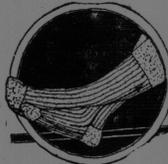

You need a lot of this right now, and you're putting it off till the weather gets real cold. Might as well save a few dollars, especially when all the Standard brands are included in this unique selling event.

- Penman's Union or 2-piece suits \$1.40
- Mercury in Union or 2-piece suits \$2.15 to \$5.25
- Wolsley in Union Suits \$9.00
- Wolsley in 2-piece suits \$6.00 per garment
- Others from 60c per garment up.

Hosiery

Almost everyone is getting their supply of Fall and Winter Hosiery. Of course, you can buy one pair, but the best thing is to get what you will need until Spring comes again. And you will when you see the quality of these and the exceptionally low price.

- All-wool cashmeres in black and grey 75c
- All-wool ribbed in fawn, heather, green or black 65c
- Wolsley all-wool worsted \$1.00
- The best value of the week in worsted socks 55c

Gloves

You can walk along and let your hands get cold if you want to, but what's the use. It makes no difference to us whether you want a dress glove, motor-glove or the regular walking glove. They're here in the best imported English and French makes. If you want a Canadian made glove, it's hard to beat the Hudson Bay, Silk, Cape, Suede, Buckskin, Pigskin and Chamois. Gauntlets as well. Regularly selling from \$1.50 to \$5.50, but you can get acquainted for \$1.25, \$1.50 or as high as you like, but no higher than \$4.50.

Hats

Some of you feel as though you must have an Imported Hat. If that's the case, you can get the English Woodrow or the French Tirard Freres. Both of these makers have put real "pep" and style in their hats and the colors are the favorite Autumn shades. There's a Canadian made hat that is worth more than we ordinarily ask for it but you want to be shown, so come in and get your size. We have it.

- Regular \$4.00 is selling for \$2.95
- Regular \$6.00 is selling for \$4.25
- Regular \$7.50 is selling for \$6.45

Shirts

The Fall weaves and stripes in shirts are very attractive. You'll like them as soon as you see them. Some have collars to go with the shirt. Such makes as Tooke, Forsyth and Imperial—all nationally known. The materials are Percal, Madras, Potters prints, Taffetas and hand-tied Crepes. Those sell regularly all the way from \$2.00 to \$9.00. Get acquainted—\$1.50, \$1.75 and \$2.00. You can go a little higher if you like.

Pajamas

It's mighty nice these cold nights to slip into a pair of flannel pajamas. These have only been unpacked about two weeks and sell regularly for \$2.75 to \$3.50. Get acquainted with a pair of these for \$2.15 to \$2.75. If you don't care for the flannel, take your choice of something in cotton or silk. They're here for your approval and regularly sell from \$2.50 to \$8.00. Get acquainted for \$1.75 up to \$6.00.

Just because this is a man's store don't think we can't take care of the Ladies. We can give you a coat almost like your brother's, and you'll save at least \$10.00.

Table with columns for player names and scores. Includes names like Mod. Business College, Kimball, Lumsden, Smith, Mahony, Maxwell.

At the East End Boys' Club last night the Central Baptist basketball team defeated the club team 18 to 8.

Table with columns for player names and scores. Includes names like Arthur, S. Arthur, McRoberts, McRobert, McRobert, McRobert.

Table with columns for player names and scores. Includes names like G. W. V. A. Bowling, McGowan, McGowan, McGowan, McGowan.

BASEBALL. Huggins to Remain. New York, Oct. 11—Miller Huggins, manager of the New York Yankees, has been re-engaged to pilot the club in 1923.

ATHLETIC. Son Was Winner. Nathan W. Rubin, son of S. S. Rubin of this city, was the winner of the three mile race at the Freshmen-Sophomore meet at McGill, Montreal.

RING. Polo Grounds Bout. New York, Oct. 12—"Tish" Jimmy Curtin of Jersey City and Terry Martin of Providence, bantams, are scheduled to box ten rounds today at the Polo Grounds.

ENJOYS BOUNTIFUL CROP. South Saskatchewan Averaging Forty Bushels to Acre. Moose Jaw, Oct. 12—There are portions of the southern part of Saskatchewan where the crop threshed already has averaged forty bushels to the acre.

OULD-BE FIREMAN STARTS FIVE FIRES. New York, Oct. 12—The aspirations of a seventeen-year-old Morris Gold, of number 305 Union avenue, Brooklyn, became a fire-fighter, led, according to his confession to Fire Marshal Murphy, to his starting five fires in New York within the last few weeks.

Use the Want Ad. Way. The fire was caused by a candle which had been left burning in a room which was unoccupied.

BRITISH FOOTBALL

London, Oct. 11—In a friendly association football game between Aston Villa and the Army played today the former won by 4 goals to 2.

London, Oct. 11—Rugby football games played today were as follows: Norths and Derby, 0; Durham, 18; Moseley, 6; Leicester, 19.

PLANS MADE FOR THE Y. M. C. I. DRIVE

Enthusiastic Meeting of the Committee Last Night—Enjoy Luncheon Served by C. W. L. Members—Campaign Next Week.

If the enthusiasm which marked the organization meeting of the Y. M. C. I. membership drive committee last night, sustains throughout the campaign which is to take place next week, success of the undertaking is assured.

At the close of last night's session votes of the committee were passed by Dr. McDonald, the principal speaker; the committee which arranged the luncheon expected this special day will be the opening day of the campaign, but this and other matters of detail were left to the final organization meeting which will be held on Friday evening at 8 o'clock.

At the opening of the house bowling league on the G. W. V. A. alleys last night, the Marguerites won from the "Art-a-moo" by 14 pins.

Table with columns for player names and scores. Includes names like Marguerites, McDonald, McGowan, McGowan, McGowan.

AWARDS OF MERIT

French Academy Honors Domestic Virtue and Filial Devotion. Paris, Sept. 10—(Associated Press, by Mail)—Among the varied activities of the French Academy is the distribution every year of the sum of 2,500,000 francs in awards of merit, not only for literary excellence, but for filial devotion; to compensate the underpaid domestic servant, and to help the needy.

Two medals valued at 300 francs each are conferred on persons not less than sixty years of age who in difficult circumstances. The sum of 5,000 francs is to be given yearly to an unmarried woman servant who has served with devotion a family or preferably a maiden lady, in advance circumstances.

Another testator who specified that his or her name was never to be published left 4,000 francs a year to be distributed every two years in prizes of 1,000 francs each to poor but well brought-up young women of irregular birth.

THE "COME-BACK" HAIRCUT. Chicago, Oct. 12—"The come-back" haircut, which lasts but a week, has been invented by the barbers. It consists in merely snipping off the outstanding hairs and smoothing the rest down with a salve that gives the appearance of a smooth haircut.

Use the Want Ad. Way. The come-back haircut is a new invention of the barbers. It consists in merely snipping off the outstanding hairs and smoothing the rest down with a salve that gives the appearance of a smooth haircut.

TIE GAME CAUSES BETTING DISPUTE

Stake Holders Say Those Who Backed Giants to Win Four Straight Can Collect.

(New York Times.) Bettors who wagered their money that the Giants would win four straight games in the world's series are entitled to collect, although the game intervened, according to betting commissioners in this city.

According to John Doyle, who handled much of the world's series betting in Manhattan, and Fred Schuman, who performed a similar office in Brooklyn, the Giants really did win four straight. They agreed that the tie game is "no contest" and that all bets based on it are void.

"One way of looking at the matter," Doyle said, "is to consider what would be the case if the first game, instead of the second, had been tied. Obviously it would be unfair and ridiculous for the men on the Yankee end of the bet to come and demand that the wager be paid, even before a game of the series had been decided.

"When the Yankee bettor bet that the Giants would win four straight, it was implied that the Yankees would take at least one. That goes for any bet. If one man bets that A will win a contest, the other man implies his wager not only that A will not win, but that B will win."

Only isolated cases came to light of any big wagers at the time of the tie game. One man who had put up \$1,000 against \$1,000 pocketed the bet, and another who had bet \$1,000 on the Yankees' series as a boon to humanity. The odds generally were about ten to one on this proposition, and the Yankees' victory was a boon to humanity.

Best information available indicated without question that the extent of the betting on the series was much smaller than in other years. Betting men attributed this to the fact that the Yankees were such strong favorites, thus driving much money to cover. The bet of five to seven on the Yankees went begging and were never covered.

The heaviest betting, Doyle said, was at the last game Sunday, when racing followers took advantage of their day off to flock to the Polo Grounds and put their money down. In the hour before the game the number of wagers was considerable.

For some of the Yankee backers it was a disastrous series. One fan started by laying a considerable sum on the Yankees to take the series. After the first game he doubled the bet, and after the second game he doubled it again. He kept up this doubling for the rest of the series, always on the proposition that the Yankees would win the game that day. He was confident that the Yankees would capture one game at least, and he was doubling what he had bet before he hoped to recoup his losses. At the end of the series he was cleared out of the cases of the same kind were discovered.

GOOD MATERIAL SCARCE FOR THE BIG LEAGUES

Scouts of Pittsburgh Nationals Say Great Developments in Semi-Pro. Ball Furnish Reason. Pittsburgh, Oct. 12—The tremendous development of industrial league and semi-professional baseball, blamed by the scouts of the Pittsburgh Nationals for the unusually small number of promising youngsters in the minor leagues this season.

Pirate scouts who have been ransacking through the bushes since spring have found that many ball players of Class A attention, have preferred to "play on the side" while holding down industrial positions.

"I have spent considerable time watching semi-professional league games this year, and I'm about convinced that a great many of these players have been making more money than most minor league stars," said Tom McNamara, one of the Pittsburgh "scouts."

being a permanent resident in Central Park. It inhabits thickets and tangled underbrush, being wild and shy. Though constantly active and brilliantly colored, it manages to keep concealed, usually revealing its presence, however, by its rich, clear, whistling notes. On account of its bright plumage and rare vocal powers, the cardinal is greatly prized as a cage bird.

FRANCE UPBUILDS ONE RUINED AREA

\$1,800,000,000 Spent on the Nord Region in Three Years—Families 500 Fewer; 100,000 Men Lost—Of 53,107 Homes 2,948 Have Been So Far Restored.

(Foreign correspondence of the New York Evening Post.) Paris, Sept. 25.—The results achieved by reconstruction work which has been going on for three years in the single Département (one of the ten devastated) have now been published in detail down to July 1, 1922. From the beginning of the war, government made itself responsible to the inhabitants of these devastated regions for all war damages, and in default of reparations to be paid by Germany, the French government has so far borne the expenses of reconstruction. The figures indicate the answer to the curious question which has lately been asked in America. What is being done with the 36,000,000,000 francs in paper money notes of the Bank of France which are in circulation?

From the armistice to July 1, 1922, the government has paid out in this one department 15,995,000,000 francs, or \$1,300,000,000 at the average rate of exchange. Of this large sum only a fraction was paid in kind, of which a part was accounted for by German coal and building materials and restitution of machines—all reckoned at international prices brought up to the level of British sanctions. These are the only reparations yet made by Germany, since France has so far not received from her the equivalent of one cent in cash on this score.

The amount of its own actual cash which the French government has thus paid out in the Nord, either in notes of the Bank of France or in credits that work out in such bank notes, is more than 14,000,000,000 francs. This paper money circulation, repeated in the ten devastated departments, is well illustrated by an item of fact not included in this report. Some 200,000 Poles and more than half as many Italians have been occupied as laborers in this reconstruction work at wages averaging twenty francs a day. Belgium, which is to have the priority in German reparations payments whenever they are made, while not having to employ foreign labor like France, bends under the same financial burden of doing her reconstruction alone.

Before the war this department of the Nord had a population of 2,000,000 inhabitants, with immense industrial agglomerations like Lille, Roubaix, Tourcoing, Cambrai, and others, and an intensively cultivated agricultural area scattered over its 1,400,000 acres. At the armistice, only 1,200,000 inhabitants remained, but with the return of refugees as they found a living place for themselves again, the number has risen to 1,836,000. A pathetic sidelight on the meaning of reconstruction in these devastated regions is cast by the statistics of families. There are now 500 fewer families than there were before the war, and these do not account for the deficit of 185,000 in the number of inhabitants. That is due to two facts—the factories which have so far been re-opened employ 35,000 fewer workmen, and 100,000 men have been lost in the war. The rest is silence.

Of the homes of the people 53,107 were totally destroyed, and of these only 2,948 have been rebuilt, while 5,220 others are well under way. There were 206,608 other houses more or less demolished, and of these 120,372 have been completely repaired and 80,569 are under way. The great trouble with all this rebuilding, over and above the ready money difficulty, is to find transport and labor for the removal of the masses of rubbish and for the new building and repairing materials, which also have first to be obtained, and it is no easy matter. Refilling Prodigious War Trenches. In this single department the ruined zone occupied 600,000 acres, or three-sevenths of the total area. Some 20,000,000 cubic yards of earth have had to be filled into the war trenches which

HAPPY THOUGHT Ranges—Furnaces

barbed wire net-work have had to be removed. This part of the reconstruction work has been practically finished and it has cost dear in time and labor. In the agricultural area 600,000 acres had been rendered unfit for cultivation, but with the exception of 2,500 acres, all this land has been leveled up and ploughed again. Like some of the following items, this shows that the stubborn grubbing if their restored land by the peasant farmers leads in the work of reconstruction wherever their own handiwork and the means supplied them enable them to do the work themselves. The people took stock of their belongings as soon as the armistice gave them a free hand, and they found they were short: 265,000 beef cattle, of which 108,442 have now been replaced; 86,400 horses, asses, and mules—now 69,469; 97,800 sheep and goats—now 46,871; 70,000 hogs—now 60,128; 1,850,000 fowls—now 918,461; benches, 4,950—now 3,411. Here, too, thrift and persistent effort, with the help government has been able to give, are bringing back the rule independence and comfort for which the French peasant has been always noted. But this should not be a reason why, as the English press virtually insists, the French people should be left to shoulder an unending burden of paper money to be redeemed and domestic loans to be paid with interest, while Germany is let off the reparations signed by her and the Allies in the peace treaty. As for industry, 7,284 factories, each employing at least ten workmen but averaging between fifty and sixty, were destroyed. Of these 4,883 factories are

at work again wholly or in part, with equivalently 66 per cent of the pre-war capacity, and they occupy—often on part time to keep the laboring population going—84 per cent of the pre-war number of workers. Lack of funds for the purchase of necessary machines which the Germans took away or de-

MILLIONS FOR ROADS. Dominion and Provincial Governments Join in Canadian Programme.

The Dominion government and the provinces of Canada have joined in an extensive programme to improve and maintain the highways. The Canada Highways Act of 1919 was a recognition of the importance of good roads and elicited the co-operation of all sections of the Dominion. The bill made \$20,000,000 available in the following five years, to be divided among the provinces on the basis of population with the expenditures of proportionate amounts by these provinces to a total of \$30,000,000.

Just a trace of soothing Boracic—to make it the perfect soap for mother, baby and all the family. INFANTS DELIGHT IT'S WHITEST TOILET SOAP

stroyed and for buying raw material at present rates of exchange, and the great restriction of purchases of manufactured goods by consumers in these hard times, all stand in the way of a revival of normal production. Railways Half Repaired. In public works, which are essential to agriculture and industry alike, the destruction of 850 miles of main railway lines has been repaired and of 825 miles of side railways destroyed 250 miles have been repaired and the remainder are under way. Of the 2,464 schools existing before the war, 2,357 have been re-opened. Of the many churches destroyed or damaged, 184 have been completely rebuilt; 199 provisionally, but forty-two are still replaced by army barracks; thirty-three hospitals have been re-established, twenty are provisionally installed, and four are still in barracks. This is the exact summary of reconstruction in the most populous but relatively not the worst injured of the ten devastated departments of France to July 1, 1922. S. D.

RED ROSE TEA is one of the first package Teas sold in the Maritime Provinces— for 28 years it has been the foremost. RED ROSE COFFEE is as generously good as RED ROSE TEA.

and since that time \$30,000,000 has been expended. This year the province will spend \$7,500,000 upon provincial roads. "At the present time, there are 18,000 miles of main roads in the various provinces and networks of communications branching off from them to serve the rural areas," continues the bulletin. "In addition to the maintenance of these, new roads are being constructed each year. These serve to join up the provincial centres, and it is now the aim of the various governments to join up the provincial systems and provide a main highway across Canada from coast to coast, an undertaking not difficult of accomplishment and the consummation of which may be soon expected. "Excellent motor roads join up all the principal civic centres and the arteries to the international boundary are maintained at a fine standard. Last

year 500,000 motor tourists visited Canada from the United States alone, staying for various periods from one day to six months and it is said that the number of visitors staying for more than one month has doubled within the last few years. In many cases the upkeep of such highways as Toronto-Hamilton, Ottawa-Montreal, Montreal-Quebec is paid for by the tourist traffic upon them, and the completion this year of the roadway of the Grand Circle Motor Tour, running from California in the South to Alberta, in the North, linking ten national parks and constituting the finest scenic motor tour on the continent, is expected to bring the dominion an unprecedented volume of motor traffic. "To date, 204 agreements for federal aid have been authorized for 5,125 miles of provincial roads at an estimated cost of \$29,461,515. The total amount of provincial expenditures audited with

respect to this work is \$16,974,931, and the total thereto is \$5,179,275. The total mileage of completed federal aid work to the time was 1,400 miles, and the mileage construction 2,287 miles."

Freshness and power regained by thousands

They found a simple way to help Nature rebuild all the strength and vigor of a healthy body

Women with the life and charm that fairly radiate from a body brimming with health— Men whose every action is marked by a splendid vigor and decision—

Every normal human being has the possibility of this irresistible power. Vigorous, compelling health is natural, not exceptional. Loss of it is always due to some violation of Nature's law.

The vital needs that so many people neglect Health and life itself depend on two vital functions: First, the living cells that form our bodies must be repaired and nourished from day to day. Second, the poisonous waste that gathers in the intestines must be regularly removed.

Check either of these two processes, even temporarily, and the body is weakened. Natural buoyant health begins to fade. Premature age, loss of vigor and vitality, constipation, and skin disturbances are the result.

Today we know that the fresh, living cells of Fleischmann's Yeast contain a natural food—with the very elements which help the body absorb its proper nourishment, and keep the system clean.

Like any other plant or vegetable, yeast produces the best results when fresh and "green"—not dried or "killed." Fleischmann's Yeast is the highest grade living yeast—always fresh. It is not a medicine, it is a natural food. Results cannot be expected unless it is eaten regularly. Eaten regularly day after day, it helps to "tone" up the whole system and assures regular daily elimination.

Everywhere physicians and hospitals are prescribing Fleischmann's Yeast to correct constipation, skin disorders and to restore appetite and digestion.

Eat two or three cakes a day. If you prefer, get six cakes at a time. They will keep in a cool, dry place for several days. Begin at once to know what real health means! Be sure you get Fleischmann's Yeast. All grocers have it.

"—the life and charm that fairly radiate from a body brimming with health"

Appetite and digestion restored The great problem for those who are "run down" or suffering from indigestion is first to stimulate the appetite, and at the same time make it possible to digest the increased food that is eaten. Fleischmann's Yeast has this remarkable effect on the digestive system. It enables you to eat more, and to get more benefit from the food you eat.

Laxatives made unnecessary Fleischmann's Yeast does for you naturally and permanently what drugs at their best do only artificially and for a short time. In hospitals, even chronic cases respond to it and normal functions are restored in from 3 days to 5 weeks. People all over the country are telling how Fleischmann's Yeast has helped them.

Skin and complexion cleared A poor complexion and even actual skin disorders are usually signs that your vitality is being lowered. Fleischmann's Yeast by increasing the number of white corpuscles in the blood acts as a powerful agent in clearing the skin of boils and pimples.
