DEMOCRATS MADE A GREAT SWEEP OF IT

Wilson Will Have 400 Electoral Votes

ROOSEVELT ABOUT 100

Early Returns Today Show Taft Only Ten — Features of the Voting in Various States—The Socialists—Colonel Makes Statement

(Canadian Press) New York, Nov. 6.—Overturning big republican majorities in states never before captured by the Democrats in a presidential election, the Wilson-Marshal presidential ticket was swept into office yesterday on the wave of a victory that carried with it, state offices, congressional seats and the control of a number of legislatures that will have the opportunity to elect Republicans from the United States senate and add to the democratic strength in that body.

Second only in interest to the overwhelming victory of Governor Wilson and his running mate, Governor Marshall of Indiana, was the strength shown by Colonel Roosevelt in Illinois, Pennsylvania, and other states.

On returns received up to this morning, it appeared that Governor Wilson would have almost, if not quite, 400 of the 531 votes in the electoral college, and that Colonel Roosevelt would have nearly 100.

President Taft had received ten votes, those of Vermont, Idaho, and Utah, while the forty-nine votes of Iowa, Minnesota, New Hampshire, South Dakota and Wyoming remained in the doubtful class.

In the hours that intervened between midnight and the receipt of fairly complete reports this morning, there were many important changes in the results as earlier reports from closely contested states. In Pennsylvania, based on returns from more than half the states, the thirty-eight votes were apparently carried by Roosevelt at eight o'clock.

Minnesota, conceded to Wilson at midnight, slipped back into the doubtful column in the early morning hours, when a cessation of the Roosevelt strength reduced its proportion of the democratic lead.

Wisconsin, where the Roosevelt returns showed a strong reversal of form, and at eight o'clock this morning, returns from a portion of the state gave Wilson a slight lead.

The race in New Hampshire was so close as to make predictions of the result impossible. Taft and Wilson were neck and neck throughout the night, and the count progressed, Taft's lead varying from thirteen to something more than 100, and with many districts in the midnight electoral vote remained at issue between the democratic and republican candidates.

The Roosevelt victory in Illinois showed signs of being greatly reduced as the "down state" precincts came in during the early morning hours. Reports from Chicago indicated that the big lead held by Colonel Roosevelt last night, gained chiefly through the large majority in Chicago and Cook county, was being steadily reduced by the vote from democratic districts in the state at large, particularly in the southern counties.

A Record Vote No effort was made during the night to compute the popular vote for the presidential candidates. In the majority of states, however, the record vote was larger than at any previous presidential election, and the final returns on the actual number of ballots cast for the three candidates is expected to exceed all records.

The defeat of President Taft, the division of the republican vote between Taft and Roosevelt and the consequent division of republican organizations, resulted in complete democratic victories in many states. In New York the democrats carried the state ticket and the legislature. In Illinois the democratic candidate for governor had apparently carried the state.

THE ELECTION

New York, Nov. 6.—The following table shows the standing at 9 a. m. today in the house of representatives in the sixty-third (new) congress: Democrats 255; Republicans, 64; Progressive 6. Districts unreported 80. Total membership 438.

The total of 255 gave the democrats thirty-seven more than the 218 needed for a majority, and was twenty-two more than the democratic membership in the sixty-second congress.

Democratic emotions appeared as senators to republicans from Colorado, New Jersey, Delaware, Montana and several other states.

The Socialists The general increase in the Socialist vote polled by Eugene V. Debs, as presidential candidate was accompanied by setbacks to the local Socialist organizations in two of their strongholds.

Wisconsin Congressman Berger, the only Socialist in the house of representatives, was defeated with a number of other office holders, and Schenectady, N. Y., where the party had elected almost a complete local ticket at the last election, practically all of its candidates were defeated.

President-elect Wilson will have behind him a greatly strengthened majority in the national house of representatives, and on the early returns, the democrats apparently have a chance to secure control of the United States senate.

In Illinois, the progressive and socialist hold the balance of power in the legislature, which is to convene in two United States sessions, in Colorado where two senators are to be chosen, the Democrats are in apparent control, and other states late returns may show a shift of the legislative power from republican to democratic hands.

Governor Wilson not only carried his own state, New Jersey, by a large majority, but he also carried the state of his opponents, the state of his own running mate, Indiana, and the state of Colonel Roosevelt's running mate, California. Colonel Wilson's successor in the gubernatorial chair, and the choice of William Briggs, Republican.

Roosevelt's Statement Oyster Bay, N. Y., Nov. 6.—A little before midnight Colonel Roosevelt made the following statement: "The American people by a great plurality have decided in favor of Mr. Wilson and the democratic party. Like all good citizens I accept the result with entire good humor and contentment. As for my congressional career, I can only repeat what I have already so many times said, the fate of the leader for the time being is of no concern to me. My only interest is in the end triumph of his triumph is essential for the well-being of the American people."

About the same time he issued his statement to Governor Wilson: "The American people by a great plurality, have conferred upon you the highest honor in their gift. I congratulate you thereon."

In New York New York, Nov. 6.—New York state went democratic in practically every branch of its government. Governor William Sulzer was elected governor, and Martin H. Ghlin, lieutenant governor, and a plurality of members of the legislature over the republican opposition. Job E. Hodges, the republican candidate.

With returns fairly well known this morning, Oscar B. Straus, the progressive candidate, appeared to hold third place in the extent of the popular vote received. The legislature will be strongly democratic in both branches, according to indications early today.

Congressman Sulzer received a plurality of the popular vote cast, not only in the democratic strongholds of New York city, but also in the "upstate" districts, where Henry L. Stinson, republican candidate, polled a majority of votes in his fight against John A. Dix, the present governor. In 1910 the total in New York city was Sulzer 50,741; Straus 160,672; Hodges 111,100.

Massachusetts Boston, Nov. 6.—The magnitude of the democratic victory in Massachusetts for the leaders of the national and state tickets, became more apparent today with additional and revised returns. These returns from 1,073 out of 1,102 election precincts, gave President Wilson, 165,291; Taft, 66,948; Roosevelt, 130,731.

The Massachusetts delegation to the lower branch of congress will stand sine qua non of the republican party. The republican will have a sufficient working majority on a ballot of the next legislature to choose Senator W. Murray Crane's successor.

In Maine Portland, Me., Nov. 6.—For the first time in its history, Maine will send six democratic electors to the national electoral college, according to today's revised returns. With fifty election precincts missing, the vote was Wilson, 50,464; Roosevelt, 48,102; Taft, 26,185.

ADRIANOPLE IS DOOMED

Bulgarians Repulse Sortie By Turks And Latter's Guns Have Been Silent Since

Isolated By Disasters to Army, Stronghold Must Fall—Correspondent Pays Tribute to Bravery of Montenegrin Women—Russia's Position Set Forth

(Special to Times)

London, Nov. 6.—Henry W. Nevinson, the Daily Chronicle's correspondent at Mustafa Pasha, telegraphs—"Adrianople's big guns have been silent since the repulse of a sortie from the west side of the city a few days ago by the Bulgarian artillery fire which was directed by a positive balloon and aeroplane. The twenty battalions of Turkish troops engaged in the sortie were driven behind the defenses. Meanwhile the Bulgarians are occupying all the strategic positions and methodically bombarding the town. Food is scarce and the water supply is cut off.

Isolated by defeat of their comrades at Lule Burgas, the Turks are without chance of victory and Adrianople must fall soon. News of the Bulgarian army's capture of the city of Pograditsa, a vivid account of the happenings around Buzitza in the Balkans, the extraordinary heroism of the Montenegrin women, who group backward and forward even from distant towns bearing food and other supplies to their men at the front. My own carrying water to the actual firing line.

They are gladly sharing the danger and death with their husbands, brothers and sons. Russia's Position At St. Petersburg today Foreign Minister Sazonov said—"It will have confidence that the majority of the members of the foreign ministry will strenuously oppose the forcible occupation of the Balkans by the Ottoman Empire, especially as Russia continues to be loyal to the understanding as to her interests in the peninsula and to preserve the joint representation on the eve of the change of the position of the Turks to the Balkan states in the Balkans. The campaign certainly has vast strategic importance and I believe that Austria will realize that her paramount interests in the peninsula are economic. Russia will join in helping to preserve these undisturbed while time will bring the necessary position of the Turks does not warrant a belief in their ability to stop King Ferdinand of Bulgaria really stimulates the action of the powers in the matter of intervention between the belligerents.

The Turkish headquarters staff has decided to take up its position immediately behind the town of Tabahta and to await the coming fight with the Bulgarian troops. The left wing and centre of the retreat of the Turkish army are said to have made their retirement in good order, but the troops forming the right wing were in a state of panic and demoralization. They achieved considerable success in the fight, but finding themselves without food, they fled to the south, abandoning everything. The Russian government is suppressing attempts at agitation against Austria. It dispersed a meeting of a Pan Slavist organization yesterday.

Another step towards the establishment of a steel and iron industry, and a steel rolling plant, and the enlarging of the plant for the dry dock from 300 to 1,150 feet, was taken this morning when W. H. Thorne, the newly elected president of the Imperial Dry Dock Company, and W. Burton Stewart, member of the board of directors and general manager of the company, were on the city.

There was a long conference at which the various phases of the project were discussed and arrangements made to take the next steps towards getting under way with the project. The first matter to be taken up will be the scheme for the reclamation of 240 acres of land adjoining the site of the dry dock to provide room for the proposed industries.

The ownership of the forebore has not been definitely settled between the provincial and federal governments and the commissioners were asked to take this matter up and endeavor to secure the consent of both governments for its use for the purpose proposed. The steel industry would require the land which is proposed to reclaim which would be needed for the ship repair and ship building plant.

In consideration of the benefits which the city would derive from the establishment of these industries it is understood that the promoters will ask the city to guarantee their bonds to a certain extent and may ask some other concessions. The drydock is enlarged it is possible that the city may also be asked to increase the size of the dry dock to provide room for the proposed industries.

Believed That Bulgarians Will Win Way To Constantinople

Constantinople, Nov. 6.—The threat of the Turks to abandon Constantinople on the Bulgarian advance toward the capital is believed to have been intended to stimulate the action of the powers in the matter of intervention between the belligerents.

SCHOOL QUESTION IN SYDNEY AGAIN

LIPTON GIVES CUP FOR ROWING

Races Between Canada and States—Late News of Hockey in Upper Provinces

(Canadian Press)

Winnipeg, Nov. 6.—Sir Thomas Lipton has promised to donate a \$5,000 silver challenge cup to the Winnipeg Rowing Club to foster international rowing. The cup is to be competed for by crews from the United States and Canada, either four or eight, as may be arranged by the trustees, and the first race will take place on the Red River here.

Montreal, Nov. 6.—The only amendment to be brought at the annual meeting of the National Hockey Association so far as the return to the seven man team. Ottawa will have no more returned to have this amendment carried, while both the Toronto teams are with them in their fight. It is not likely that the change will be made at the annual meeting, but the committee appointed there to look after the matter.

Corwall, Ont., Nov. 6.—Newey Lalonde, visiting here, announced today that he has closed with George Kennedy, of the Canadians, although that manager has not announced the fact. Lalonde played at the coast last winter, and is expected back by some of the promoters of the Pacific League, and he has definitely decided to remain in the east.

Moncton, N. B., Nov. 6.—Rolle Norman may now be able to go into hockey this winter, owing to injuries received during the early summer. Norman, who is an electrician on the I. C. R., left his home and was unable to work for about two months. The knee shows signs of further trouble. Norman last winter played with the champion Victoria and played a name for himself when the Victoria played the winners of the Stanley Cup in Quebec.

London, Nov. 6.—The dominion royal commission yesterday received a deputation advancing an empire trade mark scheme. The scheme is that since he had been here he had seen sold Canadian goods which he had been unable to trace. If the proposed mark was instituted it would mean that the province produced such goods would get the credit for it.

Light Municipal Home by Electricity Lamps and Lanterns to Give Way to Modern System This Winter

The commissioners of the Municipal Home have decided that several changes in the home at East St. John, with that end in view have commissioned Architect Mott to call for tenders for a complete new lighting system. Heretofore the buildings have been lighted with incandescent lamps and lanterns, but the commissioners decided that this method of lighting was antiquated and quite expensive, and they are making arrangements to have both the main building and also the out-building lighted with electricity.

The tenders will close on Nov. 15 and work will be started just as soon after that as possible in order to have it completed before the winter.

DECISION REVERSED In the appeal case of Harry Little, appellant, vs. Thomas M. Wisted, respondent, in the county court this morning, His Honor Judge Forbes reversed the decision of the police magistrate and ordered the fine of \$20 to be returned.

Little was fined \$20 for assaulting Thomas M. Wisted, aged 29 for assaulting Police Sergeant Hastings on Sept. 28. The latter case was not appealed. Mr. Wisted testified this morning that he had no recollection of the assault. Sergeant Hastings gave evidence of Little's good reputation. Little was not represented by counsel in the police court. This morning the appeal case of J. H. Barry appeared in his behalf. The court adjourned sine die.

A Westminster Matter. A review of a conviction made by Magistrate Dunfield at Oxford, Westmorland county, was heard by Mr. Justice White in chambers here this morning. The conviction was against Annie Trenholm for using abusive language to the complainant, Herbert Trenholm. The question of law involved is the authority of the municipality of Westminster to pass certain laws against the use of obscene and profane language. The argument will be resumed this afternoon.

Geo. R. McCord, of Sackville, appeared for the appellant, and Mr. W. H. Harrison for the respondent.

Committee Report On Religious Teaching

WOULD CONTINUE EFFORTS

Report on Kings College—The Up-keep of the Cathedral in Fredericton Arouses a Discussion of Interest—Brotherhood of St. Andrew

Today's programme of the Anglican Diocesan Synod opened with the celebration of Holy Communion at half past seven in the cathedral, which was presided over by Canon Hanington, Canon Meade and Dean Percy Colburn.

The synod met at ten o'clock in the school room of the cathedral and, after opening prayers offered by His Lordship the Bishop, proceeded to business.

J. H. A. L. Fairweather presented his annual report as treasurer and also the report of the contingent fund. Canon Smithers presented the report of the committee on credentials with a list of those parishes which have not contributed and are not entitled to representation in the synod.

Religious Instruction in Schools The report of the committee on religious instruction in the public schools was presented by Dean Schofield. He reported that the committee had met with representatives of the Presbyterians, Methodists and Baptists, but adjourned without agreement. The committee deplored that no action had been taken, but urged the importance of keeping the matter alive and recommended that the committee be continued with power to deal with the issue on church buildings that no meeting had been held before them during the year.

Canon Smithers reported for the standing committee on the consideration of the proposed change in the constitution of the clergy and urged that the church keep before the congregations the quality of young men in this direction, especially as they could do so with the assurance that no candidate need hesitate on account of lack of funds.

They recommended that the action on mission funds be referred to the board of missions. Regarding church literature the committee regretted that the reading was not more widespread and suggested that the clergy recommend to the people the more general use of the "Church Work," published in Halifax.

The registrar's report was submitted by Dr. T. W. Street and taken as read. King's College The report of the governors of King's College was submitted by Canon Smithers. The report, in part, was as follows: "At a meeting held in St. John, it was reported that upwards of \$15,000 had been raised in this diocese for the King's College extension movement, and the boys expressed that the united offering of the maritime provinces would reach at least \$100,000. At present eight students from this province are preparing for the ministry at Windsor. At the last meeting of the governors, held last May, the financial statement of the institution for the year showed an income of \$14,238, and an expenditure of \$21,187. This expenditure includes \$3,133.08 for the president's house, and \$1,000 for other building purposes. Defining the amount expended upon building operations, the outstanding amount almost balanced by the income. At the date of this writing less than \$300 has been derived for King's College from the annual collection taken in this province. For the extension movement a considerable amount has been received by the treasurer of the synod. Some of the amounts forwarded have been designated as direct contribution to the endowment fund of the university.

At the last meeting of the board it was decided to provide an additional building. Such a building has been added and I am informed that at present there are sixty-four men in residence. During the last summer the services of Rev. Canon Yvon, Rev. Professor Hanley, and Noel Wilcox were utilized in the interests of the extension movement. Their efforts met with gratifying success.

At convocation Sir Charles Townshend, as chancellor of the university, and degrees were conferred upon distinguished graduates, including the president of the college and the public orator, Rev. R. D. Hanbrick.

At a special convocation in Windsor on August 16 His Royal Highness, the Duke of Connaught, received the degree of D. C. L. His Royal Highness subsequently unveiled a tablet, commemorative of the foundation of the college. After this function the Duke of Connaught and several members of the Nova Scotia Historical Society, unveiled a tablet erected at "Chiffon" by that society in honor of Thomas Chandler Haliburton, entitling that writer as "The Father of American Humor."

The Cathedral J. H. A. L. Fairweather reported for the committee on the up-keep of the cathedral. During 1911 twenty-one parishes contributed \$176.42 and so far this year sixteen parishes have given \$138.27. At least \$500 should be contributed by (Continued on page 7, fifth column).

A Word to Fathers and Mothers

By RUTH CAMERON

"It is true that I am an alien. But my son—my son is Themistocles."—Esther.

A mother came to me the other day complaining bitterly about her eighteen year old daughter.

It seems that when the mother was a little girl she loved books and study and dreamed that some day she would go to college.

Some day never came. Instead she had to give up even finishing her high school course. It was a very bitter disappointment and naturally made her prize education even more highly, as we always do the good things we miss.

And so it was that when this woman went into a home of her own and one day they laid her baby girl in her arms, her first thought was, "she shall have the finest education in the land."

And so the mother began to dream her dream of college all over again, for this precious new incarnation of herself.

Of course you know the rest. After eighteen years of saving and planning and dreaming on the mother's part, the girl does not go to college.

Just and unreasonable that her mother should insist on trying her down to four more years of the study she hates.

To the mother it is the most bitter blow of her life; she sees her daughter throwing away what to her is an uncountable precious opportunity, and she endures the disappointment of her dreams, a second time.

Only those who have had some such experience in their lives can know how much tragedy is wrapped up in that simple story.

The extent to which fathers and mothers enter into their children's lives is both beautiful and sad.

It is truly wonderful to see how much personal pride, how much renewed ambition they feel in these reincarnations of themselves.

There is a wonderful mother whose daughter has a very fine musical talent. I enjoy hearing the little girl play, but I enjoy even more watching the mother's face fairly glow with happiness as she sits and rocks and listens.

The mother had disapproved, she was bred to a life of culture and ease. She is living a painfully narrow and gloomy existence. And yet as she sits there rocking and listening to the second generation fulfilling her own dreams of musical accomplishment, she looks perfectly happy. I would give much to be able to paint her portrait then.

Young people, you cannot realize too keenly how much it means to the older folks to see you fulfill their dreams. But you older folks, you also cannot realize too well that young people have their own lives to live. They are a part of you, you say. Ah, yes, but remember that they are partly themselves, too.

Grant that they may be willing and able to fulfill those unfulfilled dreams and ambitions of yours.

But grant that you may have forbearance and patience and understanding when that is not possible.

SOJOURNER TRUTH

The Story of a Pioneer Advocate of "Votes For Women"

(By Elizabeth J. Hanson)

Who was Sojourner Truth? This question is asked frequently in Ohio these days for Sojourner's name is on the lips of many speakers.

Sojourner Truth was a slave in New York State. She was old when the abolition movement was comparatively young and was a familiar figure in Ohio, especially in the Quaker communities.

Large crowds assembled from great distances to hear her talk, though she could neither read nor write she was a woman of rare intelligence, life having taught her the wisdom that is not to be got in schools.

It was at the second "woman's rights convention" in Ohio, the one held at Akron in 1841, that Sojourner Truth immortalized herself in the history of the movement.

Mrs. Frances D. Gage, who was presiding over that convention, describes this dramatic incident in the following terms: "I was so struck by her words that I went to her and told her that I would do anything to help her."

"I chanced on that occasion to wear my first bonnet in public. It was a white one, and I was very much embarrassed by it. She came to me and said, 'Sister, let me see that bonnet.'"

"I clean the scalp, drives out every trace of dandruff and stops hair from falling. A bottle costs but 50 cents—but be sure you get PARISIAN Sage. All druggists guarantee it."

Parisian Sage is irresistibly attractive... It cleans the scalp, drives out every trace of dandruff and stops hair from falling.

ALICE IN WONDERLAND

Evening set the seal of its approval last week upon Alice in Wonderland, and upon the efforts of the children and older folks to meet the playground movement in St. John.

The Opera House was crowded to the doors and enthusiasm ran high as the performance went on. There were some new features last evening and cast B. held the stage, giving a very delightful performance.

Little Miss Ruth Shoups had the role of Alice, and proved herself to be a thoroughly self-possessed and altogether charming interpreter of the part. The lighting of the stage, which was had on Monday night, was excellent.

The circus feature which was added to the performance was very laughable and the older performers in the various parts were much more at home than on the previous evening.

A special matinee will be given this afternoon, beginning at four o'clock and a good attendance is expected. Another performance is assured tonight and there is every indication that the whole week's performances will prove a steadily growing attraction.

The ballet, in which sixty-four girls appear, is pretty funny costumes is one of the prettiest of the stage pictures. These girls are dressed and looked after by a committee of eight ladies who have spent a great deal of time in the work since the rehearsals began.

The ladies are Mrs. F. E. Williams, Mrs. James H. Dooey, Mrs. G. Hayes, Mrs. Charles Dunmer, Mrs. Philip Grant, Mrs. W. C. Matthews, and Mrs. A. M. Bolding.

A deputation from a Spanish wireless telegraph company recently visited on King Alfonso to beg him to accept a magnificent motor car to which is attached a very perfect and complete apparatus of wireless installation that will enable him to communicate with any one he pleases wherever he may be by means of radiotelegraphy.

The king accepted the gift with delight, examined the car and apparatus with great interest and began to use it immediately, waiting congratulations to Premier Canalejas on the birth of a little daughter that day.

FOLLOW EXAMPLE OF HEROIC "NEWSY" Others Make Sacrifice to Save The Life of Ethel Smith

Chicago, Nov. 6.—The sacrifice of Willie Rugh, a crippled Gary newsboy, who died that a girl unknown to him might live, has set an example that is being followed by others.

Miss Ethel Smith, for whom he made the unparalleled sacrifice, again has been placed upon the operating table in the Gary General Hospital, and fifty-fifty tickets of skin were granted on her behalf.

Charles Smith, father of the girl to whom Rugh gave his life, and Roy Roberts, her sweetheart, are the three who underwent the operation in Gary.

The skin taken from the newborn's leg, 120 inches, proved insufficient. There were spots which had not been covered, and further grafting was necessary.

The three men cheerfully submitted, but the girl, thinking with horror of the death of Rugh, begged them not to do it.

Dr. J. A. Craig, who had charge of the operation, assured the frightened girl that her loved ones were in no danger and that the grafting was absolutely necessary to save her life.

Eighteen inches was taken from the father's thigh, twelve from the brother's and twenty from Roberts.

In the Michael Rees Hospital in Chicago a man and a woman have volunteered to give part of their skins to Mrs. John A. Benson, victim of a gasoline stove explosion, whose life, according to Dr. Immanuel Friend, can be saved only by skin grafting.

An appeal is being made for twelve or thirteen more volunteers. Four or five square inches from each person is all that is asked.

BAPTIST MISSIONS. Rev. Messrs. Camp, Wentworth, Archibald, and Wilson, and Family, were present yesterday afternoon at the meeting of the Baptist Home Mission board, held in the Opera House building.

The annual public meeting of the Women's Missionary Society of Queen Square Methodist church will be held on Thursday evening, Nov. 7. Rev. Mr. Reddie, returned missionary from the Indian work in British Columbia, will report on the meeting. This is the 35th anniversary of the society and a life membership will be presented to one of the charter members.

MILLINERY SPECIAL. Ladies! Now is the time to order your dress hat, and we are prepared to provide you with the latest and best of the season's offerings at lowest prices. All orders executed without delay, and quite a few left their homes when they were eighteen or nineteen years of age. If they belonged to some organization at home, they were able to go to a place where that organization had no effect about it.

"One good way," said Mr. Bradford, "is to have them tied up to the church while at home, and no matter where they go they will find a branch. In order to perfect this have the churches organized groups of say ten boys each, so that each group may have a baseball team, a basketball team, a chess club, and be able to compete during the week, if not for instructions for social activity, and meet once a month have all the groups meet for competition or for social evening. Have trained instructors who know their work. In this way the churches will get many outside boys who will get interested in the work."

Mr. Bradford left on the noon train for Moncton, but will return to the city on Friday and Saturday of this week of St. Goodwin in his famous impersonation of Pagan in Charles Dickens' "Oliver Twist." This is the most expensive and notable film feature ever engaged for St. John picture-lovers and will doubtless create great interest. The story in celebration of the Dickens centenary at New Amsterdam Theatre, New York, commences five reels of film and runs close to two hours. This will make necessary the prolongation of Nickel hour afternoon and evening and place the whole lower floor upon a ten cent ticket rate.

THE GREAT HALLOCK COMING St. John people should not miss the rare opportunity of hearing the famous pianist, Mary Hallock, "The Rembrandt of the piano," at Century Hall, Nov. 11. Madame Hallock prefaces her members with information regarding them, so that the ear not only hears what is pleasing, but the mind comprehends as well. She created great enthusiasm in Halifax to a crowd, none by her brilliant playing, and that the same conditions will prevail here is testified by the large advance sale of tickets. Parties wishing to see the few remaining seats should call early at Landry's, Friday, Nov. 8. Plan opens at 10 a.m.

LASHED TO MAST, CAPTAIN IS THE SOLE WRECK SURVIVOR

Schooner John Maxwell Lost With Six Men on North Carolina Coast

Norfolk, Va., Nov. 6.—Lashed to the cross-piece of a broken mast, sear dead the only survivor of the seven members of the crew of the ill-fated sailing vessel. She was pounded to kindling wood by a raging, on-shore storm.

It was only after an all-day struggle that physicians and life-savers brought Godfrey back into the land of the living and heard his story. Recognizing that the vessel was doomed, and the life-savers unable to get a boat through the surf, Godfrey and his crew lashed themselves to the rigging.

One by one Godfrey saw his comrades exhausted by the cold, drop into watery graves. All night he was alone, lashed to the mast, beaten by giant waves and almost insensible from exposure.

Just before dawn the mast snapped and he was hurled clear of the vessel into the raging sea. He attributes his salvation to the fact that the lashing with which he was fastened to the cross-piece held firmly and kept his head above water.

The vessel, loaded with coal, was on the way from Norfolk to Savannah. The vessel and cargo are a total loss.

HORSE STEALING CHARGED. While trying to get away from the city this morning on the early Boston train a young man who gave his name as Herbert Wallace was arrested by Constable T. McLeod, of Saco. He was placed in custody when near Fairville and held until the incoming Frederick train arrived, when he was brought back to the city and later taken to Saco, where it is understood that a charge of horse-stealing has been preferred against him.

CONFERENCE ON BOYS' WORK Meeting in Y. M. C. A. This Morning Addressed by Mr. Bradford

A special boys' work conference was held in the Y. M. C. A. this morning, at which Boys' Secretary Milligan of the Y. M. C. A., Rev. Gordon Dickie, of St. Stephen's church, and Rev. J. A. MacKeigan, of St. Andrew's church, were present.

Rev. R. A. Armstrong sent his regrets at not being able to attend on account of the special meeting. The meeting was addressed by Mr. Bradford, of Amherst, N. S., on what should be done with the boys of today.

He said that the majority of boys stayed at school for eight or nine years and quite a few left their homes when they were eighteen or nineteen years of age. If they belonged to some organization at home, they were able to go to a place where that organization had no effect about it.

"One good way," said Mr. Bradford, "is to have them tied up to the church while at home, and no matter where they go they will find a branch. In order to perfect this have the churches organized groups of say ten boys each, so that each group may have a baseball team, a basketball team, a chess club, and be able to compete during the week, if not for instructions for social activity, and meet once a month have all the groups meet for competition or for social evening. Have trained instructors who know their work. In this way the churches will get many outside boys who will get interested in the work."

Mr. Bradford left on the noon train for Moncton, but will return to the city on Friday and Saturday of this week of St. Goodwin in his famous impersonation of Pagan in Charles Dickens' "Oliver Twist." This is the most expensive and notable film feature ever engaged for St. John picture-lovers and will doubtless create great interest. The story in celebration of the Dickens centenary at New Amsterdam Theatre, New York, commences five reels of film and runs close to two hours. This will make necessary the prolongation of Nickel hour afternoon and evening and place the whole lower floor upon a ten cent ticket rate.

THE DEMOCRATIC VICTORY

After a long period of Republican rule the United States has given over the control of its affairs to the Democrats. Mr. Woodrow Wilson will be the next president. The stand-pat Republicans have been overwhelmed. They are beaten by the Progressives of their own party, and the latter are far behind the triumphant Democrats.

One result of this landslide will be a downward revision of the American tariff, and a more vigorous effort to accomplish reform in many directions. In this work Mr. Wilson will have the support of many progressive Republicans, who have weary of the existing conditions.

MORE GOOD NEWS

St. John is to have one of the most modern sugar refineries in the world, to cost over a million dollars. St. John may, if it so desires, have the largest dry dock in the world and an immense steel plant.

These are statements which when read in the morning papers caused a feeling of the greatest satisfaction throughout the city. Of course the steel plant will not be secured until the question of a site is settled, but that is not so serious a matter as it need give rise to any doubt.

THE HIGHER AIDS

It is not inappropriate, at a time when the people of St. John are rejoicing over the daily accumulating evidence of rapid material progress, that a note should be heard recalling attention to those matters which relate to higher citizenship in the growing nation.

A TORONTO SENSATION

The police system of the city of Toronto is under fire. The World says that 3,000 people attended a meeting in Massey Hall last week at which the police administration was sharply criticized and a series of very strong resolutions adopted.

seemed necessary to arouse public sentiment against existing evils. One of the speakers after setting forth the conditions said: "The only conclusion to be reached by these revelations seems to be that the attitude of the police, for some reason or other, is not only unwholesomely lenient, but that it approaches uncomfortably near to being scandalous perversion of justice."

In Thinking of Your Heating Stove Don't Forget Your Kitchen

Don't forget that the kitchen is to be considered in the fall as well as the hall or parlor, and to remind you of the fact we are showing you a cut of our Victor Steel Range. This is the latest triumph of range construction and is made to stand the strain of very hot fires, and is so built in the fire box that it can be taken out and put back again by any person, simply by turning buttons this can be accomplished. The Hot Blast smoke consuming fire box in the Victor is itself an advantage not to be found in other stoves and is covered by patents. The effect of this valuable invention is a great saving in the coal bill over any steel range in the market. Space will not permit to tell all the many points of the Victor steel range, but we invite you to our store where we will be pleased to demonstrate to you all points along with our other lines. Heaters of all kinds in stock.

NEARLY LOSES LIFE TRYING TO SAVE A NIAGARA SUICIDE

Niagara Falls, N. Y., Nov. 6.—In an unsuccessful effort to prevent the suicide of Christian Kledehn of this city, who went over the American Falls, James H. Read, of Cambridge, Mass., nearly lost his own life. Kledehn had followed Read into Prospect Park and his strange actions made Read suspect he was drunk. Three times Kledehn had started as if to enter the water and as many times turned away, when Read ran toward him. As he did so, Kledehn threw off his coat and waded into the stream. Read in his effort to reach Kledehn slipped and went splashing into the shore eddies, but he missed the man, who threw himself into the current. As Kledehn went racing to the brink, he turned smiling toward Read, waved his hand, called out "Goodbye" and went over.

BAD TIMES IN PORTUGAL WITH THE REPUBLIC

Natural Debt Goes Sailing And Country's Credit Takes Drop

BUSINESS AFFECTED

Cost of Living Has Increased Greatly and Crops Have Not Been Good - Emigrants Number 72,000 for the Current Year

Labon, Nov. 5. - Portugal, under the republic, is steadily going backward and distress shows that the national debt has increased enormously. Nor do the Portuguese legislators seem to be making any move of the republic. While the new republican regime was welcomed even by the republican parliament seems to have shown itself quite incapable of putting things straight. Official departments are mostly run by old monarchists whom the republic has retained.

Recently the minister for finance, Senator Vicente Ferreira, visited London and Paris to sound finances as to a new loan. He was informed, however, that guarantees would be required, which it seems Portugal cannot grant without alienating the colonies, a course which public opinion would not tolerate.

Unfortunately, the stage of things is reflected in trade, which is heavily

BIG THINGS FOR ST. JOHN AHEAD; HERE ARE THE CHEERFUL FACTS

REFINERY AGREEMENT IS REACHED

Sugar Plant for Saint John At a Cost Of \$1,250,000

START EARLY IN SPRING

D. Lorne McGibbon Declares It Will Be One of Finest in the World—Terms of Agreement by City and Company

The construction of one of the most modern sugar refineries in the world at a cost of \$1,250,000, with a capacity of at least 2,000 barrels a day, is now being negotiated by St. John. The negotiations for the establishment of a refinery here have been in progress for several years and although, for a time, the outlook was far from good, an agreement reached yesterday between the representatives of the Atlantic Sugar Refinery Company and the city commissioners removes all doubt regarding the further progress of the project.

The final draft of the agreement between the city and the company was ratified at a special meeting of the common council which was held yesterday afternoon and the representatives left by the Pacific express to return to Montreal.

The resolution, as given below, was introduced by Commissioner Schofield and after the agreement had been read, was adopted unanimously. The resolution provides that the council approves of the draft agreement with the Atlantic Sugar Refinery Company Limited, and hereby directs that the same be executed by the mayor under the common seal of the city.

AND HIS STOMACH IS ALL RIGHT Thousands with Poor Teeth Have Good Digestion by Using Stuart's Dyspepsia Tablets After Meals.

Whether or not we eat too much is a matter for individual judgment. Benjamin Franklin tried the experiment of living on a handful of rye. But he discovered that the quantity of what he ate was not the quantity thereof, but one of digestion and assimilation.

It is provided that in the event of this agreement becoming void by breach of the contract, the city shall be bound to pay to the company the sum of \$100,000 as each \$100,000 is shown to have been expended in construction of the refinery buildings, and equipment up to the sum of \$100,000, the remainder to be held by the city until the final completion of the refinery.

Many people have poor teeth, weak gums, sore teeth and other bothersome troubles that prevent a vigorous mastication of food and instead of eating soft, mushy food that palls on the appetite they go in for those savory dishes, the very odor of which starts the saliva and makes the stomach fairly reel with anticipation.

LARGEST DOCK IN WORLD; BIG STEEL WORKS

Here's a Greater Saint John Statement by Mr. Stewart

Imperial Dry Dock Company Charter to Be Acquired by Norton Griffiths Co. and Then For Large Extensions

An important meeting of the Imperial Dry Dock Company was held yesterday afternoon. W. H. Thorne was elected president, Thomas McAvity, vice-president, and P. R. Warren managing director. Colonel H. H. McLean, James Manchester, W. Burton Stewart and J. R. Stone were elected to the board. S. A. Corbett was appointed secretary. A vote of sympathy was also given to the family of George Robertson who was killed.

The Imperial Dry Dock Company has under consideration large extensions of its original programme which consisted only of the construction of a dry dock. Application will probably be made to the federal government for a contract to build a dock of 110 feet in length, which is believed will be the largest dock in the world.

BRITAIN'S POSITION IN THE BALKAN SITUATION London, Nov. 5.—The British attitude in the Balkan situation was explained today in the house of commons by Sir Edward Grey, the foreign secretary, who was loudly cheered when in reply to a question he said: "No one in view of the result of the war to date will be disposed to dispute the rights of the Balkan States to formulate the terms on which they are prepared to conclude peace."

USING CITY SCHOOLS IN SOCIAL WORK

John Bradford, Amherst Community Worker, Tells of the Benefits

IS A HELP TO ALL

Addresses Trustees and School Principals on Subject of Importance—What Has Been Done Elsewhere

In an interesting address John Bradford, community worker of Amherst, strengthened the appeal of the Playgrounds Association for the use of the public school buildings in the evening for social purposes. He explained very forcibly to the members of the school board and principals of the schools yesterday afternoon, the real good that had been accomplished in other cities by making the school buildings established social centers after the school hours.

Other cities in Canada are doing their best to attract manufacturers by offers of free sites, exemption from taxation, and large bonuses; many firms in Great Britain, the United States and Canada, are ready to take advantage of such offers. St. John is singularly deficient in suitable sites as possible should be reclaimed when it can be done at a low cost. It would certainly seem to be a fatal mistake to allow the spaces from the present dredging contracts to be dumped at sea.

IMPORTANT MEETING Viaducts Are Urged For Level Crossings—Mill Street and Douglas Avenue—Memberson Nominated for Offices

The board of trade meeting yesterday afternoon was rich in matter for the welfare of the growing St. John. There was a large attendance at the meeting, and the first business was the selection of candidates for the different offices to be elected at the annual meeting, which is to take place early next month. The nominations were as follows: For president, M. Robinson, H. C. Schofield and W. Shivers Fisher.

THE EVERY DAY CLUE John Bradford and Mr. Milligan, secretary of the Y. M. C. A., attended the meeting of the Every Day Club last evening and gave inspiring talks upon what a men's club which was to help the other fellow could do in St. John.
