RECOGNITION OR INTERVENTION?

Somewhat More Serious Tone to Mexican News

U. S. AMBASSADOR LEAVES

Report is He May Not Return After Conference in Washington—Rumor of Plot to Dynamite American Consulate

(Canadian Press) Mexico City, July 17.—The U. S. ambassador, Henry Lane Wilson, left last night for Vera Cruz to sail for Washington. He will leave before the administration the exact situation in Mexico, but not likely before July 27. Sharp developments in Mexico during his absence, would cause no great surprise, although at present there is no good reason to believe that the situation will alter materially. Rumors are anxious by the long warfare, and by the conjectures regarding intervention the American residents here were somewhat alarmed at the ambassador's summons to Washington, but his friends consider it quite possible that he may not return. Of late the Ambassador has been unable to extract from the Mexican government, the protection for American citizens which he sought, but that was largely due to the fact that the government was unable to give that protection.

This is open to doubt, that he will advocate intervention unless conditions during his absence grows worse, is considered unlikely. Many Mexicans appear to regard intervention almost as a certainty. Some of the Mexican newspapers have urged Mexicans to forget their differences and unite for the defence of the fatherland. The ambassador has announced that he will be back in the Mexican capital in three weeks, but his friends consider it quite possible that he may not return. Of late the Ambassador has been unable to extract from the Mexican government, the protection for American citizens which he sought, but that was largely due to the fact that the government was unable to give that protection.

With respect to the campaigns now proceeding throughout the country, government reports are that the situation is not so serious as it is reported to be. The federalists in the north, are cutting the railroads and the Nationalists are again in ruins for a great part of the distance.

Mexico City, July 17.—The Mexican government has decided to take vigorous action with reference to the sending out of false reports from Mexico regarding the situation and matters relating to the administration. An official of the government last night summoned all the foreign correspondents and informed them that inaccurate news or that construed as intended to injure the government, would be punished by the expulsion of the correspondent responsible.

Eagle Pass, Texas, July 17.—Urging that the constitutionality in Mexico be granted rights of belligerents by the United States government, Governor Carranza, their leader, wired a long protest to Washington yesterday against recognition of Provisional President Huerta. Carranza contends that the majority of Mexicans favor him and that if he were granted belligerent rights he soon could get control of the government.

Plot to Dynamite Consulate? Eagle Pass, Texas, July 17.—It is declared here that U. S. Consul Luther Ellsworth, at Piedras Negras, Mexico, has reported to Washington the discovery of a plot to dynamite the American consulate, and that his life is in imminent danger. Consul Ellsworth sleeps in the army post in Eagle Pass at night. Official records of the consulate were removed to the American side for safe-keeping yesterday.

Berlin, July 17.—The German foreign office denied today that it had demanded that the United States government protect foreign interests in Mexico. Germany it was declared, had not taken any diplomatic action at Washington.

COURTENAY BAY. In spite of the protests which have been made through the papers regarding the trouble caused by one of the locomotives used by the Courtenay Construction Company standing at the side of the Red Head road crossing when not in use no change has been made. The trouble has continued and two more runaways are reported.

VITAL MATTER FOR FORESTERS AT HIGH COURT

Finances of Old Members And The New Legislation Plain Talk by the High Chief Ranger

Mr. Cockburn Deals With Subject of Prime Importance—Not Well Satisfied, Either, With Progress in Membership

(Special To Times) Moncton, N. B., July 17.—The High Court of New Brunswick, O. F., met this afternoon in triennial session in Oddfellows Hall here. Mayor W. K. Gross, on behalf of the city, tendered a public welcome to the delegates and the high chief ranger responded. The ladies of Companion Court Regal will provide entertainment in the hall.

Judge M. N. Cockburn, high chief ranger, in his report said: "This being the first triennial session of our high court, under the new order of things, there will be some changes to observe in our methods of doing business, among which may be mentioned election of officers for a term of three years, and delegates to the supreme court must in future be elected at each session of the high court."

"While that radical change in the supreme court constitution has brought disappointment to many, it seemed at the time to have been founded on sound principle and I hope will yet work beneficially for our beloved order throughout the world-wide jurisdiction. Although I must confess that in my work connected with the order throughout the province during the last two years, I have found the change thus brought about in our high court meetings is responsible for a great deal of apathy and declining enthusiasm among members of the order, who formerly devoted much time and energy to the upbuilding of Independent Forestry in this high court jurisdiction."

ATTEMPT TO KILL ROYAL BOY OF NORWAY

Bill Before Parliament Puts Premium on Life of Little Crown Prince Olaf

Christiania, Norway, July 17.—Mysterious stories of an attempt to kill ten-year-old Crown Prince Olaf, have caused a great commotion. An armed man was found hiding a week ago, in the gardens where little Olaf plays. The man was arrested, but the fact was hushed up. It is reported that when the queen heard of it she was prostrated with anxiety and sobbed for hours, repeatedly saying that the Royal family must leave the country and that a bill now before the Storting virtually puts a premium on Olaf's head. That bill provides that if the king and queen die without a male heir, Norway shall become a republic.

The anti-monarchy agitation is making great headway here and the outlook for the Royal family is anything but hopeful.

PLAN TO HAVE TWO CHIEF JUSTICES

Latest Reports in Connection With Judiciary Changes

The changes which are to be made in the judiciary in this province have inspired various rumors regarding the manner in which the situation will be worked out. At the last session of the legislature a bill was adopted which provides for the appointment of an additional judge and also for the division of the judges' duties and the creation of what amounts to two chief justiceships.

As this legislation was promoted by Attorney-General Grimmer, and it is known that he is not unwilling to retire from active politics it is taken for granted that he will receive the appointment to the new judgeship.

What other changes there will be will depend upon the action of the present Chief Justice, Sir Frederick E. Barker. While there have been fairly definite reports that he will retire in December, this is also denied and it is said that he will remain and, under the new arrangement which will go into effect when the extra appointment is made, he will become chief justice of the Appeals Court. In this case, it is rumored, Hon. P. A. Landry would take the new office of chief justice of the Kings' bench division.

If Sir Frederick does retire it is reported that Hon. Ezekiel McLeod will become head of the appeals section and chief justice of the province with Judge Landry in the other chief justiceship.

In the event of the present chief justice retiring there would be another vacancy and there has been some discussion as to who would get the appointment. The name of Mr. G. Teed, K. C., was mentioned prominently as the choice of the profession for this office but by Mr. Teed's own admission, he does not want it and that O. S. Crockett, M. P., will be the man. The fact that Mr. Crockett was greatly disappointed when Hon. J. D. Hagan was chosen over his head as member of the Dominion cabinet and that it is considered that he is entitled to some preferment to save his feelings will make the appointment probable and it is under the impression that Mr. Crockett is a stone turned in his effort to make sure that he will be the man.

The resignation of Hon. J. G. Forbes, County Court judge, who is expected to retire at the end of the year, is also engaging the attention of some members of the legal profession. Amos A. Wilson is said to be strengthening his position as a candidate for the office. It is also being circulated among the faithful asking for his appointment.

The resignation of Mr. G. Armstrong, K. C., Judge of Probates, would be willing to become county court judge. Mr. Wilson would be willing to take the office the former would vacate, but that arrangement is prevented by an agreement of an earlier date. A third lawyer was promised the appointment as judge of probates if a vacancy occurred, so it is expected that Colonel Armstrong will continue in his present office.

RECTOR OF LAVAL UNIVERSITY DEAD

Very Rev. Father Hamel Was Noted in the Work of Education

Quebec, July 17.—Very Rev. Thomas Etienne Hamel died at the Archbishop's Palace here last evening. He was a member of the Faculty of the Holy Society of Canada, vicar general of the archdiocese of Quebec and Toronto and the rector of the University of Laval, Quebec, since 1904. He was born in Quebec on December 21, 1830. His father was Victor Hamel a merchant and his mother Therese De Roy. He afterwards spent several years in Europe completing his studies and later devoting the greater part of his time advancing the interests of Laval University.

RAILROAD TRAIN ENTERS A GIRL'S BEDROOM

Chicago, July 17.—Miss Clara Marske while sleeping in the untroubled sleep of a care-free school girl early yesterday when suddenly something entered the room. It was a railroad train.

The Marske home stands at the foot of a railroad embankment. On this elevation a freight train left the rails, several cars tumbling down from the tracks. One of them tore through the front of the house and stopped directly in front of Miss Marske's bed. She escaped from the wrecked house without injury.

The income from the office is \$4,500 a year.

BULGARIA NOW IS READY TO SETTLE

King So Telegraphs Roumanian Monarch—Servians Said to Have Been Put to Flight

(Canadian Press) Sofia, July 17.—King Ferdinand today personally telegraphed to King Charles of Roumania that Bulgaria was ready to negotiate terms of settlement with Roumania. The efforts of A. Malinov, the democratic leader and former premier, to form a cabinet to take the place of that under Premier Danoff, have thus far proved futile.

An official despatch reports the defeat of the Serbian forces which had penetrated Bulgarian territory on the western frontier. The Bulgarians attacked them yesterday, and put them to flight. The Servians are retreating in the direction of Vlasina across the border. Another despatch says severe losses have been inflicted on the Greek army operating on the Bulgarian left flank.

New York, July 17.—King Ferdinand of Bulgaria denies emphatically the horrifying stories attributed to the Bulgarian troops during their retreat before the Greek armies through Macedonia.

Sofia, Bulgaria, July 17.—The Roumanians today took possession of the cable station at Varna on the Black Sea, and the establishment of Roumania with Sebastopol. As the railway between the coast and Sofia also has been cut, Bulgaria cannot communicate with the outside world except through Servia and Roumania.

Sofia, Bulgaria, July 17.—The Turkish army forced marches is approaching the town of Kirk Kilisseh, taken by the Bulgarians after heavy fighting at the beginning of the Balkan war. Many of the population are reported to be fleeing.

A soldier on sentry duty guarding the balloon was caught up in the balloon, carried 600 feet and fell to death. The dirigible landed an hour later about two miles away. It is badly damaged.

FRENCH COALING STATION ON ONE OF THE SOCIETY ISLANDS

Paris, July 17.—Papeiti, capital of Tahiti, one of the Society Islands in the South Pacific Ocean, has been designed by both private and official commissions which have been studying the question, as the most suitable port to serve as a French coaling station in view of the opening of the Panama Canal.

THE PUBLIC HOSPITAL

Several citizens called up the Times by telephone today to urge that an entirely new site be selected for the public hospital. Whether it should be Mount Pleasant or in East or West St. John, they thought land could be got much cheaper, and more of it, making provision for all the enlargement needed.

It has also been suggested that the present hospital building be used as a hospital for advanced cases of tuberculosis instead of erecting one on the Merritt property, and that a new general hospital be erected on Mount Pleasant.

WILL HAVE VOTE ON HOME RULE

Likely General Election After King Assents to Bill

ANNOUNCEMENT IN LORDS

If Liberals Are Returned Then Programme Will be Carried Out: If Not it Will be For Unionists to Act—This Likely After Next May

(Canadian Press) London, July 16.—That the government intends to let the country have a final word to say on the question of home rule for Ireland, was intimated during the debate in the House of Lords yesterday by Baron Ashby St. Ledgers, who holds a minor post in the government.

After Lord Lansdowne's declaration that the upper house would not consider the bill before general election was held, Lord Ashby St. Ledgers said that there would be no general election before 1914, by which time the home rule bill was expected to be passed by the commons for the third time and signed by the king, but that there would be a general election after the Irish parliament was actually established.

The Liberal government, if it can retain office will pass the bill by May. It then, under the terms of the parliament act, will receive the royal assent without a general election, the Liberals are expected to accept the position, providing for a parliament in Dublin, but the Unionists are successful will be for them to repeal the law or do what seems best in the circumstances.

THINK THEIR TRIP TO THE MUNICIPALITIES CONVENTION WASTED

Failure to Take up Important Matters Complained of—Halifax Mayor President

Saskatoon, July 17.—The Canadian municipalities convention will be held at Sherbrooke, Que., in 1914. Officers for the year elected are—President, F. B. Blich, mayor of Halifax; first vice-president, C. M. B. Graham, mayor of London, Ont.; second vice-president, F. H. Herbert of Sherbrooke, third vice-president, F. E. Harrison, mayor of Saskatoon; honorable secretary-treasurer, W. D. Lighthall, K. C., of Westmont, Que. (re-elected).

Many delegates complained that important subjects on the programme were not dealt with. They held that they were sent here by their city councils to secure information regarding civic improvements and that very little of any value had been forthcoming. Secretary Lighthall declared this had not been because the executive had been negligent. Every effort had been made to secure leaders in civic matters but without avail. The convention is practically closed.

MOTORING JOYS

Two motor boat parties bound for Baywater, left Millville last evening carrying altogether about thirty young people. They spent a pleasant time after they arrived there, owing to the uncertainty of motor boating a regards scheduled time was evidence both going and coming. One of the boats broke down on the way over while the other, just to show there was no hard feeling, followed suit on the way back. Each was hung up for a little while but got under way again before long.

A Double Barreled Guarantee

The readers of The Telegraph are asked to consider the two-fold responsibility behind the many products of nation-wide repute advertised locally in the newspapers and offered for sale by the leading merchants of this city.

First and foremost, our readers must know that advertising has arrived at such a sound basis that it is a rare thing nowadays that an advertised article does not measure up to the standard established by its advertising.

Secondly, to secure the endorsement and co-operation of our local dealers, manufacturers must prove beyond question the worth of their product.

Thus we find the manufacturer's national reputation fortified by the local merchant's good reputation.

It is quite likely, therefore, that our confidence is easy won and we look with favor upon the many necessities of life offered for sale under such assuring auspices and advertised in newspapers like The Telegraph and Times.

New Way to Banish All Hairy Growths

(Modes of Today.)
 Many people will be interested in the new and simple treatment by which hair or fuzz can be permanently removed from the face, neck or arms. This consists in making a paste with plain powdered deLorane and water and applying to hairy surface. After two or three minutes it is rubbed off, the skin washed and every trace of hair has vanished. This is a painless, harmless method and seldom requires the second application to remove even stubborn growth, and it is so simple to use that failure cannot result.
 Straggly eyebrows can be made to grow thick and beautifully lustrous by rubbing pyroxin on frequently, and to make short, straight eyelashes come in long and silky, apply pyroxin at lash-roots with thumb and forefinger. Use care and don't get any pyroxin where no hair is wanted.

The following resolution which speaks for itself has been received by the officials of Zion church from the District Lodge of L. O. A.:

St. John, N. B., July 15, 1913.

Dear Sir and Brother,—
At a special meeting of St. John District L. O. A. No. 1 held after returning from your church on the 13th inst. it was unanimously resolved that the thanks of this District L. O. A. be extended to you for your very able, inspiring and instructive sermon preached to the members of our beloved order, on that afternoon; also to ask you to extend to the members of the choir of your church our thanks for their able assistance in making the service the success that it was, in furnishing the music. I was also instructed to extend to the trust ees of the church the thanks of the District Lodge for the use of the church

Who Ever Knew Any Corn to Stay?

Who ever saw a corn so old, so tough as to resist a Blue-jay plaster?

There are corns which resist the first plaster—that's true. But the most stubborn corn must come out with the second.

Think how easy it is. The Blue-jay plaster is applied in a jiffy. The pain stops instantly.

A in the picture is the soft B & W wax. It loosens the corn. B stops the pain and keeps the wax from spreading. C wraps around the toe. It is narrowed to be comfortable. D is rubber adhesive to fasten the plaster on.

Blue-jay Corn Plasters

Sold by Druggists—15c and 25c per package. Sample Mailed Free. Also Blue-jay Bunion Plasters.

Prevention is Inexpensive

Are you giving your eyes the attention they deserve?

Prevention of eye trouble is inexpensive. It costs but little care and money to keep your eyes in good condition.

But if you neglect your eyes they may easily become injured and it is often costly to remedy aggravated eye troubles.

When you feel any strain in using your eyes take no chances. Have one of our experienced opticians examine them at once.

It is generally a simple matter to remedy slight strains. If you do not need glasses, we tell you so.

THE PEACE CENTENARY

St. John and the province of New Brunswick generally should be deeply interested in the celebration of one hundred years of peace between Canada and the United States. Almost every citizen of this province has relatives in the United States, or if not relatives at least once a year the citizens of St. John commemorate the landing of the Loyalists, and perhaps indulge in disparaging remarks concerning the Americans of revolutionary times, yet the principal feature of the celebration is a commemoration of the loyalty and courage and cheerful self-sacrifice of the founders of this city. The people of the mother country are now agreed that the British government committed a very great blunder at the time of the American revolution, which should never have taken place. Now for one hundred years there has been peace between the nations of Anglo-Saxon speech, and the fact is worthy of a great commemoration. Canadians do not envy their cousins to the south, but they are able to profit by the mistakes of that country, and by its experiences in the past; and they gladly pay a tribute of admiration to the splendid service to humanity which has been rendered by the American people along many lines of effort. The peace of the world would be greatly promoted by an alliance between the British Empire and the United States, and a war between them would be a catastrophe too dreadful to contemplate.

LIVING AND COST

Mr. Arthur Marled, a member of the general executive of the United Brotherhood of Carpenters of America, has been making some inquiries concerning wages and cost of living for carpenters in the Canadian West. Taking a family of five persons he estimates an annual expenditure of a little over \$1,700, which is \$200 more than the carpenter, according to his figures, could earn during that period. Both estimates appear to be somewhat excessive. It should not cost a family of five \$1,700 per year to live, if reasonable economy were observed, and on the other hand there are probably few carpenters who earn as much as \$1,400 in a year. According to the last Dominion census the average salary of skilled workers is not more than \$800 annually, while laborers average less than \$500. If it is a serious problem for a family of five to live on \$1,700, what must it be for a family of the same number on \$500 or less? In connection with this matter of the cost of living it is worth noting that Bradstreet's index number of commodities for July 1, while it shows a slight downward tendency, is yet the highest with two exceptions ever recorded at this time of year. Another interesting fact is that in cases where a decline in wholesale prices of staple articles has been reported, it has also been said that the ultimate consumer failed to derive any material benefit. Producer and consumer must get closer together.

ince to Dr. Miller, the medical superintendent, who was himself cured of tuberculosis at the sanitarium at Saranac, where for a time he also labored on the staff of the institution.

If there is to be a battle between Colonel Sam Hughes and officers of the permanent corps, or of the militia or both, upon the question of a free use of liquor by the officers, no special powers of divination are needed to tell who will have the popular side of the dispute.

The conference held between insurance men, city commissioners and the police magistrate yesterday puts a somewhat different complexion upon the matter of incendiary fires. Apparently a smaller proportion of recent fires were deliberately set than had been assumed by many citizens. The fact remains, however, that there have been quite too many incendiary fires or attempts to light them where the evidence was perfectly clear.

The municipal council yesterday decided to pursue a wise course in connection with the enlargement of the general public hospital, and the result will be that within a few years the city will have a very much larger and much better equipped institution, so designed that it may be enlarged from time to time in harmony with a well conceived general plan. The council did well to abandon the policy of adding wings to the present out-of-date structure.

The returns of building expenditures in the United States show that the effect of the financial stringency is being felt throughout the country. The returns for each month since March have shown a decrease, and the percentage of decrease in June was the largest in eighteen months. Not only is there a decline in New York, but in Chicago, Los Angeles, Milwaukee, San Francisco, St. Louis, Boston and some other centers. The decline during the last three months followed a slight increase in the first three months of the year, and the figures for the whole six months, the country over, show a decline when compared with those for the first half of 1912.

A cocksure gentleman is Controller of the Church of Toronto. It was announced in the dispatches yesterday that he had assured the Convention of Canadian Municipalities in session at Saskatoon that commission government of cities was merely a Yankee fad. Today we learn that he has also condemned the Canadian senate and declared that it should be abolished. Both the commission plan of government and the Canadian senate have been giving so good an account of themselves that no one will be at all impressed by the assertions of Controller Church. If they had the commission form of government in Toronto they would get very much better results than under the present system. Perhaps also they would be able to get along without Controller Church.

MORNING LOCALS

The apple crop will be short this year in Ontario, Quebec and Nova Scotia. No doubt the same conditions will prevail in this province.

There are very many unemployed men in the cities of Western Canada. The conditions, so far as labor is concerned, are better in the eastern provinces at the present time than they are in the west.

The state of affairs in Mexico is such that European powers are apparently beginning to think it high time for the government of the United States to make a demonstration with the Big Stick.

The city of Calgary owns its street railway and the railway has paid a very large dividend to the city. No doubt also it gives the city a satisfactory service.

The people of the West India Islands are very indignant at the failure of the Canadian government to provide a satisfactory steamer service between this country and the islands. The press of the islands is strong in criticism of Mr. Borden and his colleagues. The Fort of Spain Gazette charges Mr. Borden with talking "rot," and making a statement about the islands that is not true. As a bungler the Borden government is surely making a record.

The sanitarium at Kentville, N. S., has been enlarged by the addition of two pavilions, one on each side of the main building. Hitherto the institution could accommodate only twenty-five patients, and it is now able to accommodate forty-five. Of twelve cases in the incipient or early stages of tuberculosis admitted during the last year to the Kentville institution, eleven were discharged apparently cured. This sanitarium, which was opened in 1904, has done a most valuable work, and is now in a position to be of still greater benefit to the province. The highest tributes are paid by the press of the province.

F. H. Scammell of Toronto who was here yesterday with a view to arousing local interest in the celebration of 100 years of peace to take place on Christmas day, 1914, added to the New Brunswick committee: Mayor Frink, W. E. Foster, Senator Daniel, J. M. Robinson, Justice McKeown and Her. G. A. Kubring.

The Canadian Pacific Railway Company have secured from the Great Western Railway Company the triple-screw turbine steamer St. George for the Bay of Fundy service. The St. George is the largest shelter deck boat of 2,500 tons built in 1906. She is now being towed across the Atlantic as her bunker capacity is insufficient for the ocean trip.

At a meeting of the Journeymen Barber's Association last evening, it was decided to accept the bye-laws endorsed by the International Association. It is understood that the journeymen intend asking their employers for a half-holiday on Monday afternoons.

The loss in the fire on the corner of Canterbury and Church streets last Saturday has been partially adjusted. The damage done to the building has been appraised at \$2,500 and that to the stock of Thomas P. Kane at \$85.

MORNING NEWS OVER THE WIVES
A Georgetown, P. E. I. yesterday, the trial of James A. McInnis, charged with murdering Gullian J., his cousin, was begun. Several witnesses were examined, and testimony was given by Catherine McInnis, a neighbor, that the prisoner had come to her home and said he had "killed Gullian." The McInnis family told of the prisoner going to the home of James A. and using him brutally. The trial will probably be finished by Friday.

The reported purchase of the International Railway by the Intercolonial will probably cause a delay of some weeks before calling upon the bridge building companies for bids in connection with the construction of the new bridge from St. Leonard's across the St. John river to Van Buren, Me.

New York, July 16.—An engineer who operates an express train on the New Haven road hereafter must have had two years road experience and have complied with other requirements designed to insure the management of his competency. Local train engineers must have had a previous road experience of one year.

BIRTHDAYS OF NOTABILITIES

THURSDAY, JULY 17

Dr. Col. Herbert Stanley Birkett, M. D., Montreal, celebrates his forty-ninth birthday today. He was born at Hamilton and has long been prominent in hospital work in Montreal, as well as being on the staff of McGill. He has also been interested in the medical service in connection with the militia.

HER IDEA OF IT

"Yes, but Ned's failure isn't nearly so bad as Mr. Naybor's. He failed for fifty cents on the dollar, while my husband failed for only ten cents on the dollar."

NEW IMPETUS IN RUSH FOR BOOKS

Reports Show Utmost Importance of Correct Spelling and Consequent Need of Knowledge.

The Telegraph and Times has not cornered the dictionary market, but you will think that some one has if you try to buy the book after the close of this distribution. After The Telegraph and Times ceases their educational philanthropic work, the book will be for sale just look at the store at a cost of no less than \$4.00.

A new impetus has been given to the Telegraph and Times Dictionary distribution by reports from an eastern city, showing the utmost importance of correct spelling.

In the municipal Civil Service examinations, only three girls passed the examination, while 28 failed by reason of not being able to spell a few words which are probably regarded as words of common usage.

You may laugh at the unfortunate 28, but perhaps you could not always be sure to spell the following words correctly: Ambiguous, advantageous, accommodation, diphtheria, dignified, annual, development, elementary, efficient, judgment, laboratory, parallel, judicial, privilege, rescind, statistics, technical, disapproval, installment, principal, subpoena.

MURDEROUS ACT OF SASKATCHEWAN FARM LABORER

Manor, Sask., July 16—While his employer C. D. Benneson, was stabling his team last night, Lloyd Atz, hired man at the Silvermoon ranch, south of here, made a vicious assault upon him with a whiffle-tree, beating the unarmed man to the ground.
Benneson struggled to his feet and staggered toward the house, but Atz followed and within a few yards of the door, made a second attack, leaving his victim for dead. Benneson, however, managed to make the house, where he was taken in by his wife and a Miss Wolfe.
Atz had disappeared, but the women's cries for help attracted John Brenow, and his sister, who were driving past. Brocknow barred the doors, as Atz returned to the house. The hired man made an unsuccessful effort to enter, and then went away.
About this time Miss Wolfe remembered the other hired man, Leonard Warne, was somewhere about the farm, and she went out into the night to find him. After a brief search she found Warne near a strawstack unconscious and with terrible wounds on his face and head. Despite the fact that Warne weighed 180 pounds the girl raised him, and carried him on her back to the house. Nothing more was seen of Atz.
When Warne recovered sufficiently to speak, he told of a vicious attack made upon him by his fellow employee, who snatched him with the butt end of a 28 rifle, the butt of which was found to have been broken in two places and the barrel was covered with blood. The Mounted Police were notified, and are scouring the country for Atz.

FIRST STEP TOWARDS NEW HOSPITAL PLANT

Will Buy White Street Lots and Erect First of New Buildings—Mayor Wants New Site—Power to Build Abattoir

Councillor Agar moved a resolution at the meeting of the municipal council yesterday afternoon that three of the lots shown on the plan of the 400-ft strip of land on White street be appropriated with a view to the erection of a new hospital building and that a plan of sale be filed at the registry office. After some discussion during which Coun. Frink expressed himself in favor of acquiring a site in some other part of the city, the resolution was adopted by a vote which would have been unanimous but for Coun. Frink, who emphatically opposed the plan.

H. A. Porter and Arthur Irvine appeared before the council and offered to sell the Reid Case property for use as a hospital site for \$70,000 but the proposition, at that price, was not considered. Coun. Frink moved an amendment which was not adopted, that the choosing of a site for the proposed hospital should be deferred till a future meeting, as he did not think the old site was suitable as the vicinity was smoky and any expansion towards Golding street would be undesirable.

Further business of the council was the nomination of Dr. W. H. Donald to take the place of Warden Carson, who had resigned as one of the hospital commissioners.
Coun. Frink said he had inquired about the right of the council to construct a public abattoir, and was informed that the municipal council had full legal power to go ahead in the matter. He would prepare a report for the next meeting.

WHAT THE PLAYHOUSES OFFER

GOOD THINGS AT THE NICKEL
The Nickel is finishing with another especially fine programme tonight. It includes a Pathe Weekly, a Vitaphone romance entitled "A Modern Psyche" and a powerful Edison drama "The Broken Soul of Jim Grant." Miss Harney is singing her farewell numbers this week and the DeLaney-Boy Duo in their glass music performance have created a furore of interest. This is a neat little set, quite out of the ordinary. Real music is gotten out of bowls, water glasses, glass tubes, brandy bottles and set most expertly from anything of rag dolls. The act is prettily staged and nicely dressed and makes a fine impression.

The Nickel has a list of good things coming. Chief of these is the Metropolitan Trio, a group of charming vocalists who will appear next Monday. On the same bill will be the most engrossing melodramatic offering of the year. It is the first big production of the reconstructed Essanay Company, entitled "The Hand of Fate, Or A Final Judgment." The story is one of the Klondykes, in the 1890 rush, being finished in New York.

STAR'S GOOD SHOW
The Star Theatre in the North End exhibited last evening a show of pictures that sent a way many delighted patrons. The last flash on the curtain at ten o'clock was witnessed by a crowded house. Two very heavy and thrilling dramas in two distinct classes were shown. "Panic Day in Wall Street" by the Kalem Company is undoubtedly a treat to St. John people, as it is entirely different from anything attempted in the Stock Exchange line. "Courageous Blood," by the Kalem Company is a heady, action western drama far beyond the ordinary. It received round after round of applause. An Essanay comedy, entitled "The Housekeeper of Circle C." wound up the show in roars of laughter. From the title to their trade mark the Essanay western players had the crowd laughing at one of the funniest comedies of western life. The Star will repeat this show tonight.

North Market Wharf.
Property owned of North Market wharf assembled yesterday afternoon to meet Commissioner Schofield with regard to the plans submitted for the construction of a retaining wall on the wharf. It was decided that if they found this wall and the consequent filling-in between the wall and the old wharf was likely to injure their property in any way, they should make a report of the matter, to be submitted before Monday next.

British Aviator Killed
Salisbury, Eng., July 17—Major A. W. Hewetson, of the Royal Artillery, corps was killed today by the falling of his monoplane. The machine took a turn too sharply, and fell 100 feet. The motor exploded and burned the aeroplane.

It is useful to know that a cake which seems to be hopelessly fallen in the middle need not be wasted, but can be made into a splendid steamed pudding if it is crumbled up and mixed with milk to the usual stiffness. Any kind of cake, fruit or seed, &c., can be treated in this way with certain success.

ONE OFFICER RETIRED; OTHERS APOLOGIZE

Ottawa, July 16—One officer has been promptly "allowed to retire" from connection with the defence forces of Canada as a result of Hon. Colonel Hughes' investigation in regard to the bibulous tendencies of a few of the minister's guests at the now famous Halifax garrison banquet of Friday last.
It is understood that several other officers have expressed regrets for indulging in liquor at the minister's "dry canteen" banquet. The incident will probably be now quietly closed. Colonel Hughes believes there is little further necessity for rubbing in the moral of his strictures in regard to intemperance and idleness on the part of a small percentage of the officers who draw pay from the militia department.

TWO MEN'S WORK

It is not many years ago since Black's Harbor was the home of only a few fishermen, today it is the centre of a hive of industries, and the home of a large number of industrious people, all of which may be traced to the business sagacity and energy of two men—Lewis and Patrick Connors—whose firm name of Connors Brothers has more than a continental reputation.

What Connors Bros. Have Done At Black's Harbor

(St. Andrew's Beacon.)

It is not many years ago since Black's Harbor was the home of only a few fishermen, today it is the centre of a hive of industries, and the home of a large number of industrious people, all of which may be traced to the business sagacity and energy of two men—Lewis and Patrick Connors—whose firm name of Connors Brothers has more than a continental reputation.

They began in a small way, did these two plain fishermen, and as their products were well put up, they soon found a ready market, and by degrees a great fish industry was established.

While their leading line is sardines, they are also big packers of other lines of sea products, such as clams, lobsters, scallops, annan haddies, and the larger herring. Their factory is one of the best equipped and most convenient on the continent.

Quite recently, they have launched out to other enterprises, and they are meeting with the same degree of success that they have attained in their fish industry.

They control the Maritime Steamship Company, whose boat, the "Connors Bros" makes weekly trips to that port as well as to St. George, St. John and other bay points. About all the product of their factory is shipped to market or to the railway in this steamer.

Within a few weeks a large sawmill plant has been set in operation, a concrete dam enclosing enough water to keep the mill running six months. Bax shooks are the chief manufacture, but other lines of lumber are also manufactured.

All the latest labor-saving and money-saving devices have been placed in this mill. The fuel by which the mill is operated is composed of sawdust, which is specially treated, making an excellent combustible.

But interesting as these other lines of

business are, the greatest interest centres around their fox farm. There are 60 foxes on this farm, some of them black, some blue, and some just plain fox. One pair of black pups of company recently sold for \$10,000, and they have two other pups that they value at \$20,000. A valuable consignment, recently arrived from Prince Albert, Sask. There are five raccoons attached to the farm, occupying domiciles of their own. The keeper, a Scotchman, named Campbell, enjoys the confidence of the animals to a wonderful degree, and they readily respond to his call, particularly when he has something tasty to tempt their appetites with. The animals are fed chiefly on soda crackers and fish given their rations frequently and in small quantities.

VITAL MATTER FOR FORESTERS AT HIGH COURT

(Continued from page 1).

The high chief ranger said: "There has been much activity among many subordinate and companion courts in different parts of the province during the last two years, and where that activity has prevailed there has been a marked increase in membership although that increase has to a very great extent been offset by a decline in membership in other sections of this jurisdiction and in other parts of the province at the close of my term of office the increase in our numbers is so slight that the supreme convention would be chosen at the results."

How About Old Members

The high chief ranger devotes attention to the fact that at the supreme court meeting in 1911 a change was made in constitution whereby future contracts between the society and its members should provide for payment in cash at the age of seventy, or severally of the amount of the mortuary dues from courts for supplies, \$12.75; for high court dues, \$488.00; total \$601.02.

"So far as discussions in the supreme court meeting in 1911, a change was made in constitution whereby future contracts between the society and its members should provide for payment in cash at the age of seventy, or severally of the amount of the mortuary dues from courts for supplies, \$12.75; for high court dues, \$488.00; total \$601.02."

HIS CUE

He was a young man of limited conversational gifts, but had a habit of prolonging his calls. Several hours had passed, and his hostess had been laboring under the burden of making most of the conversation. From his cage in one corner of the room the canary bird chirped cheerily. The young man was inspired. "What's the matter, birdie?" he inquired. The girl glanced at him with a dreamy smile. "He thinks it's morning," she cooed, stifling a weary yawn. The young man hastily made his adieu, and hasn't called since.

EASIER MONEY BEFORE WE GET INCINERATOR

South End Site is Recommended But Action Likely to be Deferred

The present unsatisfactory condition of the money market is likely to delay the construction of the new incinerator. At this morning's meeting of the commissioners the matter of a site was under discussion and Commissioner Agard recommended that it be located on the city lots at the foot of Broad street adjoining the asphalt plant.

The commissioner of finance has been advised by the bankers and other financial men that the present is a most inopportune time for floating city debentures as has been shown by the fact that larger cities have been forced to secure short term loans while awaiting a more favorable opportunity for issuing longer term bonds. The city is already committed to a large bond issue with a dreamy smile. "He thinks it's morning," she cooed, stifling a weary yawn. The young man hastily made his adieu, and hasn't called since.

THINGS WORTH KNOWING TO THOSE INTERESTED IN THE DRINK CURE

One year ago we opened a Neal Institute treating the drink habit at 46 Crown street, St. John (N. B.), to demonstrate to the public that we had a treatment that would cure all desire and craving for alcohol in three days time. Some few call it a "fake" while others tried it with the remarkable result we cured several score of men and women. St. John was only one of our sixty branches that we have established throughout Canada, U. S. A., and foreign countries. After running it at a big expense for one year we closed our eastern branch as well as several other places where there was a danger of it becoming known that certain prominent people had taken the drink treatment. For the self-same reason we established a large central hospital at the Capital City Ottawa some two years ago, where we have every convenience, thoroughly trained male nurses and graduate female nurses for women. Our two-story private rooms with electric fans, bath and every modern convenience guarantees to the outside patient comfort and secrecy while taking treatment. While the ride may seem rather long when starting, it is well for the public to know that it is not necessary for the patient to arrive here perfectly sober, inasmuch as we never cut a patient straight off from liquor. Another feature that adds to taking treatment away from home is the fact that a good long ride after completing the Neal treatment acts as a tonic, the fresh air, change of scenery and the knowledge that when one returns nobody will be a bit the wiser. Remember our fee or charge is \$125 out of which we allow you transportation both ways with the understanding that we guarantee to return all money paid if the patient is not perfectly satisfied that all craving and desire for liquor has been destroyed when leaving the Institute. If you have a loved one at home who is near and dear to you speak kindly to him and try and persuade him to take the Neal treatment.

Write or wire in advance as our hospital is mostly filled to capacity.

"John," she said, gently, "you are interested in temperance movements, are you not?" "Of course I am," he answered. "Well, suppose you go and make a few of them at the pump handle. I need a pail of water at once."

AN ATTRACTIVE VISITOR

Yacht Alacrity in Harbor on Cruise From New York

With points and brass glistening brightly in the sunlight the American steam yacht "Alacrity" of New York sailed up the harbor this morning and moored alongside of the Long wharf. The owner is W. A. B. Radford of New York. He has a party of friends with him. So far the cruise has skirted along the coast stopping at different cities on the way up. After sailing from St. John the party will go up the St. Lawrence for a few days; they will then leave for the coast of Labrador and return to New York about the last of August.

The "Alacrity" was in St. John last year while on a similar trip with her owner. She is a particularly attractive boat, one hundred and fifteen feet in length. The engines are 600 horse power and will develop a speed of eighteen knots an hour. The crew consists of eight men including the captain.

THE NEW PROFESSORS FOR CHAIRS AT U.N.B.

The new professors appointed by the University of New Brunswick to fill the chairs of English and Chemistry, are men of considerable practical experience in teaching, both in the common schools as well as universities.

Dr. W. L. McDonald, who succeeds Professor R. K. Gordon in the chair of English, was very highly recommended. He is about twenty-eight years of age. He took his B. A. degree at Toronto, his M. A. at Wisconsin and later, after a post graduate course in English at Harvard, was awarded the Ph. D. During the last year he has been assistant professor of English in the University of Toronto.

FRIENDS REMEMBER THE BIRTHDAY OF PETER CHISHOLM

About thirty friends, most of them from St. John, with some from Rothesay, gathered at the residence of Peter Chisholm, Rothesay, yesterday to extend their congratulations upon the anniversary of his birthday. During the evening a comfortable arm-chair was presented to the host as a souvenir of the occasion.

Charged With Burglary
While sauntering along Charlotte street last evening John McDonald was taken in charge by Detective P. F. Killen and is now confined on a charge of burglary it being alleged that he stole from the store of Mills, Eveleigh Ltd., at Sussex, on Tuesday night. The robbery was reported to Chief Ashell of the Sussex police, and he immediately notified the local police. Detective Killen was placed on the case and in but a few hours he had rounded up his man. When the detective "spotted" McDonald there were large crowds of people in Charlotte street, but so quietly was the arrest made, that very few noticed it. When McDonald was searched he had \$21.40 on his person with some other articles, while in a store in the city were found by Detective Killen ten watches, and safety razors, which had been disposed of by the prisoner and which correspond with those stolen from Mills, Eveleigh, Ltd.

SAYS GREEK'S NEW CATCHER IS DANDY

Word From Bangor Praises Ladd—More Strengthening—Bangor Drops Two

Word comes from Bangor that Ladd, the new catcher for the Greeks, who was secured in Portland, Me., played a fine game for the locals yesterday and caught Tarbell in good fashion. While he had one error, he had ten put outs, made one hit and one assist, and only two bases were stolen on him in the eleven innings. He is expected to strengthen the Marathons materially in a department where accidents had greatly weakened them.

The local management also is after more material to add to the defence in the field. By the way, Riley had three hits yesterday out of four times up. Bangor is reported to have released Pitcher McPhee and Outfielder Ashworth.

BORDEN AND FIELDING

St. Andrews Beacon: Two leaders of two distinct schools of political thought—Premier Borden, leader of the Conservative party, and Hon. W. S. Fielding, minister of finance in the late Liberal government—are spending their summer holidays in St. Andrews, gathering strength, no doubt, for the great party struggle which cannot be much longer deferred. Mr. Borden's health, which was not quite up to the mark when he came here, is improving every day, and Mr. Fielding seems almost his old self.

THE OLD C-O STORY

(St. Andrews Beacon)
R. B. Hanson, the well known lawyer of Fredericton, who with his wife and Mr. and Mrs. B. C. Foster, are summering at the Walker Cottage, Bocabec, was in town on Saturday, anxiously inquiring of the county members: "What's the trouble now?" queried the reporter. "Bad roads—that's what it is," was Mr. Hanson's rejoinder: "the Bocabec district of the St. John road is a fright. It hasn't been touched for years. Rocks and boulders are sticking up everywhere. It wouldn't be so bad if the rocks were raked off it, but even then it would be bad enough." The rest of the road is "pretty good."
