TRUANCY.

The law requiring the regular attendance at school of all children of suitable age, may have involved the city in considerable expense, and may have worried the officials in charge with a problem and may not have driven all wayward children to school, and yet may not be a total failure.

IN THE TULLERIES GARDENS. Here, where the merry children play, Where fountains splash, and each Acacia bloom across their way, A world of shadows comes and goes;

I wonder in the alleys sweet Where mirth and sunshine bide to bliss, If once again these ghosts repeat The litany of loneliness!

Here, then, we have a complete case against the law. It is wrong to involve the community in a peck of trouble. The school education is of a questionable value anyhow.

The difficulty with the argument is that it proves too much. It does away with the offensive law, but that is not all. It practically does away with the schools.

The appointment of Inspector W. S. Carter to fill the position of Dr. Irwin, the Superintendent of Education, will be a popular one.

## W. S. CARTER APPOINTED SUCCESSOR TO DR. INGH

W. S. Carter, M. A., is to be chief superintendent of education in succession to Dr. Ingh, resigned. Last night the executive of the government met at the provincial rooms, Church street, and among other things decided, it is understood, upon the appointment of Mr. Carter to the position of chief superintendent of education. Mr. Carter is a native of Kings county, where he received his early education at the grammar school, subsequently removed to Hampton. He first began teaching under a local license in Westfield, and after attending the Provincial Normal School returned to country school work for another period of two years. In 1878 he entered the University of New Brunswick, where he distinguished himself as the leader of his class throughout the course. He won the microscope for science at the close of his junior year upon graduation. Later he proceeded to the degree of M. A.

In 1881 he was appointed mathematical master at the St. John High School, which position he occupied until January, 1886, when he resigned to become inspector of the district of the city of St. John and the counties of St. John and Charlotte. This position he has held up to the present. Inspector Carter has had experience in all branches of school work, both county and city, and is also the holder of a certificate for proficiency in manual training. He was the first teacher representative in the senate of the University of New Brunswick and is at present president of the Alumni Society. Mr. Carter was the recipient of many congratulations last night upon the news of the appointment becoming known. When seen by The Sun last night he stated that he had no immediate plans for the future. Among the other important matters transacted at last night's meeting of the government was the appointment of a committee consisting of the Premier, the Provincial Secretary and the Solicitor General to confer with the St. John River Valley Railway and the government of Canada regarding the assistance that will be given by both governments in the construction of the Valley railway.

Tenders for the purchase of a quantity of iron at the Provincial Hospital were opened, the successful tender being John McGoldrick, to whom was awarded the sale.

Yesterday afternoon the members of the provincial government visited the Provincial Hospital for the purpose of inspecting the work now being prosecuted in the reconstruction of the wing destroyed by fire during the winter. The chief result of the inspection was the decision reached to demolish the unsightly outhouses of the property near the bridge and to erect a structure more in harmony with the surroundings. The work, it is understood, will be commenced shortly.

The members of the government expressed themselves last night as well pleased with the work of reconstruction.

At the afternoon session several petitions were heard, among them being that of A. E. C. Elkin regarding the South Shore steamship subsidy. The subsidy, amounting to \$1,000, is at present controlled by the Thomsons, and it was decided to defer action until the intention of this company respecting the future operation of the service was made known. A delegation from Kings county approving the matter of roads and bridges was also heard.

The next meeting of the executive will be held the first Tuesday in July.

PARIS, June 8.—A special despatch from Madrid says that the Spanish government considers that the Cuban debt was not repudiated by the Treaty of Paris and that the claim will be followed up.

### A WOMAN'S BACK WAS NOT MADE TO AGUE.

Thousands of Women Suffer Untold Misery Every Day With Aching Backs That Really Have No Business to Ache.

Under ordinary conditions it ought to be strong and ready to bear the burdens of life. It is hard to do housework with an aching back. Backaches come from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Backache is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney troubles.

Doan's Kidney Pills will cure you in the same way as they have cured thousands of others.

Mrs. O. Warren, Redwood, N. B., writes: "I was troubled with very severe pain in my back for years. I tried everything I could think of but they did me no good. A friend told me about Doan's Kidney Pills and after taking two boxes, I have not been troubled since."

Price 50 cents per box, or 3 for \$1.35. All dealers or mail direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## "DON'T CRITICIZE," SAYS MRS. ANNIS IN VAUDEVILLE, "IT'S FOR MY BOYS"

MRS. ANNIS PHOTOGRAPHED AT THE PIANO, REHEARSING WITH THE VAUDEVILLE MUSICAL TEAM, FOR WHICH SHE HAS BEEN ENGAGED AS PIANIST, AT \$800 A WEEK.

NEW YORK, June 8.—Mrs. Wm. E. Annis sat the piano. Around her were grouped four young men. "One played the flute, one the 'cello' and two violins. The strains of the prison song from 'Trovatore' floated out the door. The selection ended, the widow of Capt. Hains' victim left the stool and was replaced by a girl in green. The concert went on, and Mrs. Annis ceased to play in poor health and she was a pause, and the girl turned laughing to the tall woman in black who sat beside her. "I wish I could memorize as you do. It would make it so much easier."

"Now," said Mrs. L. Lykens, vaudeville booking agent, "this photographer wants to take your picture. Mrs. Annis, so we will excuse you a minute." It was Lykens who obtained Mrs. Annis' signature to a contract for vaudeville, at a reported salary of \$800 a week.

The photographer held his flashlight "Do you mind the flash?" he asked.

"I am doing this for my two boys," she said. "It is not an agreeable thing for me to do, to go before the public, but I have got to support them and myself."

"I know people will criticize me, but I only wish some of them might be in my place, that we might see what they would do. I am getting the highest market price for my musical ability, that is all. I have got to make good. One of them is and the other 7."

Nature has done well by Mrs. Annis, in case she should ever desire to become an actress. She is unusually tall for a woman, with a splendid figure, and a number of features of undeniable charm.

## ONE DAY'S TRAGEDIES IN THE MARITIME PROVINCES

### SUICIDE BY HANGING.

APOHAQUIL, N. B., June 8.—A distressing tragedy started the morning at the head of Millstream this morning when William Long was found dead in his barn. Neighbors going to see him found the dead body suspended from a low beam with life extinct. Long always wore a handkerchief about his neck and used it to end his life. He tied it around his neck and then bent his knees until he strangled himself. For some time he had been in poor health and the suicide was the result of temporary insanity. Dr. Faldina, coroner at Norton, was notified and on viewing the body and hearing some evidence decided that an inquest was not necessary. Long was a farmer, 38 years of age, and unmarried. He was an industrious man and his untimely death came as a great shock to the village.

### CHILD FOUND STRANGLED.

SACKVILLE, N. B., June 8.—A revolting discovery was made this morning when the family of William Polley moved into a house at Cookville, 12 miles from here, which had been vacated two weeks ago by the family of William Bayles. On entering the cellar the body of an infant was found with a cord tied tightly around its neck, the child having been strangled to death. Being under a foot of earth it was only partly decomposed. An inquest will be held tomorrow morning by Coroner John M. Baird. Mr. A. W. Bennett representing the crown. The authorities are in possession of information that may lead to an arrest soon. It is believed that the child was murdered about three or four days prior to birth. William Bayles is the father of three or four young children. The affair has created a great sensation in the neighborhood.

### DROWNED AT HALIFAX.

HALIFAX, N. S., June 8.—George L. Way, city traveler for Wentzell's, Ltd., was drowned in the harbor by falling from his boat. Mr. Way was at work today. About half an hour before he met his death he was at Wentzell's in regard to supplies for the schooner Evadne. He left the shop and proceeded to the Fishford and Black wharf. He entered the boat which was used for hoarding vessels and this was the last seen of him till he was found floating in the harbor. Cock by two young men who were on the wharf. They noticed the apparently lifeless body floating near the boat. Way was making no effort to keep afloat or to get ashore. When he fell out of the boat he was not outcried, and the many men working on the wharf knew nothing of the accident till the body was discovered and taken from the water.

### DRANK WOOD ALCOHOL.

ANNAPOLIS, N. S., June 8.—The death of Kenneth Murray occurred here this afternoon as a result of drinking wood alcohol and bay rum. Murray was about thirty-eight years of age, and leaves a widow and several small children. Three brothers also survive.

### HAS DEFICIT OF \$150,000.

ST. JOHN'S, N. F., June 8.—According to the budget of the finance minister, presented to the legislature today, the fiscal year, which ends on June 30, will show an estimated deficit of \$155,000 as against a surplus of \$100,000 for the previous year ending June 30, last. The expenditures charged to the capital account without legislative authority, a deadlock in the assembly existing at the time, will create the colony's floating debt of \$320,000.

The late Boston government was responsible for the heavy deficiency, the Morris government not taking office until recently.

The finance minister proposes to add the \$320,000 to the funded debt and use the year's surplus to pay the cost of the second general election.

For the coming fiscal year the revenue is estimated at \$3,000,000, giving a surplus of \$250,000. The people's deposits in savings banks have been invested in \$12,000,000 of government bonds. In concluding his address the finance minister predicted a decided improvement in commerce and expressed his opinion that the future of the colony was bright.

## FRANCISCAN FATHER WRITES NEW DRAMA

Story of Saviour's Passion to be Enacted in San Francisco.

SAN FRANCISCO, June 8.—The most elaborate passion play ever produced in America is in preparation and will be presented in San Francisco by the order of Franciscan monks. The play is being written by Father Joseph Kraus, who is translating and adapting his text from original German sources. It will be staged in September. This representation of the passion of the Saviour will run three nights and possibly four, each performance representing one part of the holy story.

The play will begin with the Christ's entry into Jerusalem, depicting the excitement and the people's rejoicing at the resurrection from the dead. More than 200 persons will take part.

The play is to be produced in the hall in the basement of the new St. Boniface Church, in Golden Gate Avenue.

The new St. Boniface church building, with its monastery and parochial school, is one of the handsomest church edifices in San Francisco. It was one of the first of those that had been leveled in the conflagration to be rebuilt. The church lost \$150,000 in the fire, but within a year had begun reconstruction of the \$300,000 building that now occupies the property.

The church is for German Catholics, and all the services are conducted in the Teutonic language.

The order of Franciscan fathers is in charge of the parish, which covers half of San Francisco.

The new church is one of the most artistic in San Francisco. The mural decorations within are exquisitely executed, and the entire building is done in fine harmony. The architect who designed the structure was a member of the Franciscan order, being known as Brother Adrian and Alex Bartuszek, the artist who did the painting, that is all. I have got to make good. One of them is and the other 7."

Nature has done well by Mrs. Annis, in case she should ever desire to become an actress. She is unusually tall for a woman, with a splendid figure, and a number of features of undeniable charm.

## EPISCOPAL SUNDAY SCHOOL CONVENTION

SUSSEX, June 8.—The Church of England Sunday School Teachers' Conference opened here yesterday. His Lordship Bishop Richardson presided and there were present about sixty-five teachers and clergy. After prayers Rev. Canon Cowie read a most admirable and suggestive paper on the place of the church catechism in the Sunday School system.

Mr. Pickett presented views against the teaching of the catechism before the age of nine years. Rev. D. Campbell maintained that we should begin the teaching of the catechism at a very much earlier age. Canon Hamilton, Miss Prink, Canon Nesbitt, Rev. Mr. Whistly and others took part in the discussion. Miss Ethel Jarvis was a lesson to a class of little boys on Faith. She interested the audience of teachers as much as the class she was teaching.

An interesting paper on the home department was read by Rev. Canon Smithers.

At the evening session in the absence of Rev. D. S. Converse his most scholarly and interesting paper was read by Rev. J. B. Hooper. The subject was the New Testament and Modern Discoveries. The Bishop called upon Rev. J. Hooper Campbell who was in the audience, to speak on the paper and its subject, which Dr. Campbell proceeded to do with singular power and eloquence.

Rev. G. A. Kubring was called upon to read his paper, The Bible, What It Claims To Be and the Direct Contact With the Word. After a brief address from the Bishop a hymn and the collection, the meeting was closed.

## BLOOD TROUBLES

Cured Through the Rich, Red Blood of Williams' Pink Pills Actually Make

Thousands of women suffer from headaches, dizziness, nervousness, and general weakness. Few realize that their misery all comes from the bad state of their blood. It is the cause of their troubles. Dr. Williams' Pink Pills cure all these and other blood troubles because they actually make new rich, red blood. Mrs. J. H. McCord, St. Thomas, Ont., says: "Dr. Williams' Pink Pills have done me a world of good. For about eighteen months I was terribly run down and the least exertion left me fagged out. I slept badly at night and this further weakened me, and finally I had to give up house-keeping and go to bed. I was quite unable to do any housework. I took doctor's medicine but it was of little or no benefit. One day a neighbor told me how much benefit she derived from Dr. Williams' Pink Pills and advised me to try them. I sent and got three boxes, and by the time I had used them I could feel a change for the better. Then I got four boxes more, and before long I was gone my health was fully restored. To see me now one would not think I had ever been sick for a day, and I can honestly say I owe my renewed health to Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills are the greatest cure there is for the weakness and backaches and aches of anemia; all the distress of indigestion; all the pains and aches of rheumatism, sciatica and neuralgia, and the weakness and ill health that follows any disturbance of regularity in the blood supply. Sold by mail at 50c a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

## THREATENED TO BLOW THEIR HEADS OFF

WINDSOR, June 8.—William Taylor, engineer on one of the river dredges at Amherstburg, ordered Chief of Police Laporte and his assistant out of his cottage yesterday, and Laporte and his assistant decided to go, after Taylor had produced a rifle and threatened to blow their heads off. The police were attempting to serve Taylor with a writ issued by the Detroit Court, ordering him to give up possession of his eight-year-old nephew, Percy Tich, whose parents reside in Detroit. The boy was attached to his uncle and refused to go. Magistrate McGee was unable to, but declined to interfere, on the ground that he could not recognize a United States order in Canada.

Blodgett, the Chicago advertising agent of the magazine, for \$30,000. This magazine was considered to be the chief asset of the Outing Publishing Company. ## GARNEGIE HAS FOUNDED 1800 PUBLIC LIBRARIES

NEW YORK, June 8.—Andrew Carnegie has founded 1,800 public libraries, representing donations of \$51,036,063, according to his own statement in the current number of Collier's Weekly. Up to December 31, 1923, the philanthropist says he erected in the United States 569 libraries, with 296 branches at a cost of \$24,879,745. England and Wales come second in the list with 229 buildings and fifty-nine branches at a cost of \$3,833,569.

Mr. Carnegie thinks that, considering the population of the two countries, he has done almost as much for Canada as the United States, having erected there eighty-six buildings and established five branches, at a cost of \$2,660,415. He says he is satisfied with the results of his own expenditures in the library line.

## SHOWER OF GOLD IN GERMAN TOWN

BERLIN, June 8.—The per capita wealth of the little town of Camperdown, in Silesia, has been suddenly increased as a consequence of the visit of a Berlin merchant, who sought to cure a temporary fit of mental depression by throwing away hundreds of money and precious stones.

He arrived from a neighboring village in a cab, which he managed after handing the driver \$25. A two-penny bridge-toll, payable upon entering the town, he discharged with a fifty-shilling note, refusing to take any change.

Upon every person he met he forced either a ten or twenty-shilling gold piece. Among others he distributed his gold watch, his diamond ring, his pearl cuff links, and other articles of jewelry.

Reaching the market square with several pockets still full of cash, he threw forth handfuls and threw them into the air, with the result that the square soon became the scene of wild scuffles among the townspeople.

At the tavern where the unknown benefactor took lodgings for the night he explained that he was suffering from "southern" in consequence of the death of his wife. He said he had got rid of \$750 in gold and of jewels worth the same amount.

**SENATE HEARD LECTURE ON WOOLLEN INDUSTRY**  
Interesting Feature of Tariff Debate—Many Pleasurists Enchanted.

WASHINGTON, D. C., June 8.—There was a great deal of good humor and many pleasant incidents in the debate on the woolen schedule in the senate today. Mr. Dilliver being the central figure. He offered several amendments and announced his intention of presenting a number of amendments appealing to the Republican members to vote for them, because, he said, these amendments would be in the attitude of the Republican party in advocating a protective tariff.

Mr. Spooner, assistant to a large extent by Mr. Warren, who is considered an expert on the woolen industry, defended the finance committee's recommendations with regard to that schedule. The various amendments proposed to the house bill by the finance committee of the senate are intended to restore the Dingley provisions of the woolen schedule which, in some instances, provide higher duties than the Payne bill, as passed by the house one of the interesting features of the day was a lecture on the woolen industry from beginning to end, by Mr. Carter, who brought forth a large book filled with samples of various grades of wool. To the senators who gathered about him he explained each step in the manufacture of woolen goods from the raising of the sheep to the making of the garment. He familiarized the members of the senate with the uses of shoddy, waste, tops and the various grades of wool.

He became involved in an argument with Mr. Brock as to the feasibility of such an arrangement of the woolen duties, and latter contending that it would be impossible to collect the duties on that basis, because the American manufacturers want their wool in the grease and hardly any of them use the same methods of scouring the wool.

**TELEPHONE GIRL SHOCKED BY THE EXCUSES SHE HEARS**

She is on Duty When the Husbands Explain to Their Wives Why They Can't be Home for Dinner—"Such Liars!" It Makes Her Cry—Wife's Remedy.

The telephone girl on evening duty at a suburban public station pretty close to that pulsating corner, Broadway and Forty-second street, thinks that she has classified the men folks all right. She says herself that she's "got the men's number," which means the same thing as assailing 'em.

Being in charge of a central and Tenderloin phone station and on evening duty, she has a lot of phone girls catches, you see, most of the "excuse" phoning trades; the bunch and the telephone girl, looking, however, not quite so horrified as might have been expected; and their behavior, although not blooded, forey way of lying—o-o-h!

Detailed counts of this indictment were called for.

"Well," said the telephone girl, "you ought to hear 'em, that's all. Two of 'em that came in here about 9 o'clock this evening were sample-amples of the limit."

"They were men around 30 and both were what you call happy soured. They strolled in here arm in arm, sort of leaning on each other, and they had their feet together, and they had lost any of their foxiness, though—men never become so fat gone as to lose their foxiness, in my opinion."

"Well, what was going to hand her, matey?" the lean man asked the fat.

"Search me," said the fat man, pushing back his hat and scratching his head. "I don't know, matey. She's jerry to all the old comedy."

"Important customer from Ontario just dropped in here, and you've gotta take him around," suggested the lean man, grinning.

"Now—nothing like that," chipped the fat man, looking at his watch. "That's an almanac A. D. 1888 number. Nix! Gotta spring something new and neat."

"Old scoundrel that you hadn't seen for twenty-two years came along and dragged you in, in my opinion."

"Aw, in those lumpy things," wheezed the fat man, "and they're able to put it over yet."

"Gotta run over to Phillis to close a deal."

"Nothin' like it."

"Friend of yours took you down to Long Island to look at a furnished summer bungalow?"

"Tried that last summer and fell down."

"Man interested in settlement work took you over to the East Side to look the thing over?"

"Say, how old'd y'e think my wife is—bout six."

"Your boss took you out in his new motor car and the machine broke down at Yonkers and you'll be home as soon as repairs are made?"

"Went to the hospital to see an old sidekick that's dying of—er—oldie, plis, let's trouble."

"Not a chance."

"Glow bet you wouldn't walk in the Bronx and you took him up?"

"Killion to one shot."

"Man in your office took sick from eating shell crabs at lunch, and you had to take him to his home?"

**ANTHEM OF THE UNEMPLOYED**  
A New "My Country, 'Tis of Thee" Song by How's Followers.

(New York Sun.)

A special meeting of the unemployed was held yesterday in a hall at 44 Bowers' under the auspices of the International Brotherhood Welfare Association and the local committee for the unemployed to discuss, according to the printed programme, the elevation of the workers, Chairman J. Eads How of the local committee presiding. Speeches were made by representatives of local committees in different cities. A resolution was passed appointing a petition to Gov. Hughes to appoint six workmen on the commission for the investigation of the conditions as regards employment in New York State. Some one submitted a resolution favoring the re-employment of men by the state. This resolution was listened to apathetically but was declared to be carried.

At the opening of the meeting Chairman How said that the proceedings would begin by the singing of a hymn, the "Hymn" being a paraphrase of "My Country, 'Tis of Thee." The first verse runs as follows:

My country what of thee?  
What has thou done for me  
That I may sing?  
In labor's crowded mart,  
Strong hand and willing heart,  
Striving to my part,  
To thee I sing.

One of the speakers was Miss Lily Easton, an anarchist, 18 years old, who said:

"The unemployed should be infused with the spirit of the French Revolution. They should assert themselves as the French people did and make it understood that it is the duty of the Government to provide for the unemployed and put them to work."

Miss Cora D. Harvey, of Oklahoma, secretary of the National Unemployed Committee, a socialist, said that the capitalists ought not to be blamed as they were merely an unconscious product of the capitalist system. The masses were at fault, she said. If they were ruled by the capitalists as they effected the tools of the capitalists to office. Dr. Ben Reitman, the "king of the hoboes," and others spoke.

**MAKING SUNSHINE**  
It is Often Found in Pure Food

The improper selection of food deprives many a healthy person into a condition of despairing illness. Indeed, most just as surely as that is the case right food will make the sun shine once more.

An old veteran of Newburyport, Mass., says: "In October, I was taken sick and went to bed, losing forty-seven pounds in about 60 days. I had been after doctor, food hurt me and I had to live almost entirely on magenta and soda. All solid food distressed me so that water would run out of my mouth in little streams."

"I had terrible night sweats and my doctor finally said I had consumption and must die. My good wife gave up all hope. We were at Old Orchard, Me., at that time and my wife saw Grape-Nuts in a grocery there. She bought some and persuaded me to try it."

"I had no faith in it, but took it to please her. To my surprise it did not distress me as all other food had done and before I had taken the fifth package I was well on the mend. The heavy mucus in my chest was cleared and I gained weight rapidly."

"I went back to my work again and now after six weeks' use of the food I am better and stronger than ever before in my life. Grape-Nuts surely saved my life and made me strong again. It is pounds heavier than I was when I was taken sick."

"Both my good wife and I are willing to make affidavit to the truth of this."

Read "The Road to Wellville" in plain English.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

"Not, of course, I am glad to say, that these men got away with their phones last evening, or anything like every time. As a matter of fact I should say that they don't put their yards over more than about once in three times, and I notice that the men who succeed in making their stories stick over the phone are usually the youngish type of men who look as if they're not long married."

"The getting along and middle aged men don't often win out at the finish of their phoned confabs with their wives, but the same men bob along at regular intervals with new stories fixed up to excuse themselves, and sometimes if I think they're actuated more by a desire to find out how expert they are as liars than by any genuine desire to appease the wrath of their wives."

"The prompt way that some of the wives cut off their husbands when they see the inevitable fairy story coming is funny."

"Oh, hello, there, baby," says the man, "Say, angel face, I—"

"Yes, I know, scorch eyes," a woman with a pleasant voice got right back at her hubby when he opened up that way one evening not long ago. "I know all about it, news—news, I might say. I heard that you'd been drowned while trying to save a little girl's life off the Battery, and I was quite affected, really. By the way, where are you now?"

"In the least abashed by her sarcasm and her beating him up. 'Why, right now I'm in the swimming room of the West Side Y. M. C. A. taking—"

"That's perfectly grand," she interrupted, "but I don't see why you'd need two swims in one afternoon. However, very well. Of course I fully understand you're going to be home for dinner, Cakes of the Word, because—"

"Because," he broke in there, "the boss had a mild stroke of apoplexy this afternoon, and—"

"Oh, that was it? She cut in, sweetly. "I thought it was because my Aunt Ellen in Schenectady was being treated for chilblains last winter of some—"

"Now, look a-here, dawling," he put in at this point, "you know perfectly well that I wouldn't think of trying to tell you anything that wasn't—"

"Oh, I know, I know, Brighteyes," she smiled, "but the fat man's reason I'm going out myself now for a little amusement. I don't exactly know where he's going, but the fat man's sitting around and waiting, and I'm going to get on my bonnet and shawl and—"

"Wait a minute—wait a minute!" he chipped right in there, in a pacific way. "I'll be right up—just as soon as my express car can take me. Don't you think of going out—I'll be right up!"

"That's all right," she said, "but I'll be right up with the receiver and hunted out of the booth and paid me for the phone and dashed to the subway station like somebody going to a fire."

"That by the way, is the thing that gets all of these excuses—the little indignation on the part of the wife that she's going out herself. That's the number when she can't stand them when wife at the other end of the line says in a sort of careless tone that she doesn't mind how long they stay out, because she's going out with a little party herself. It gets 'em every time, and he hangs up the receiver and hums and sobs and gloomy laments right away and to beat up to their homes as fast as they can."

**A BIT OF SHOPPING.**

(By Stuart B. Stone.)

When young Mrs. Palmer went forth to buy Friday specials and remnants of things, she invariably had her husband to accompany her. Palmer did not like to go and always had some little excuse about a lame ankle, a business engagement or the double-header with Chicago. But just as invariably the excuse was declared invalid and poor Palmer waited for three hours through the fashion marts carrying dozens of packages and praying that his friends might not see.

Consequently Mrs. Palmer was almost shocked when her husband calmly announced at the breakfast table that she must go shopping with him. Mrs. Palmer's curiosity was aroused and it required very little effort to induce her to make the trip.

The first place where they stopped was the Owl cigar store. "I want a dozen empty cigar boxes," announced Palmer.

"When the clerk brought the boxes tied into a cumbersome bundle, Palmer handed them to his wife. "You may carry these, please, dear," he said.

The next stop was at the Queen department store. Palmer made for the toilet goods counter. "I want to look at some soap," he directed.

"What kind of soap?" asked the salesgirl.

"Every kind you have, please," answered Palmer.

"The girl stacked 22 kinds upon the glass case."

"I'll see three more kinds behind the counter," indicated Palmer. "Bring those out, too, please."

Wonderfully, the young lady placed the three additional brands upon the counter, while Palmer eagerly fumbled and mused them about. Mrs. Palmer, who had been looking at some neckties, asked the salesgirl:

"What is the price of the 5-cent kind, please?"

"Then he stood before the mirror and tried on a pink tie, and after that a lavender, a white, a green and finally several speckled patterns. He looked sideways at himself, walked back a piece and looked over his shoulder, then held his arms straight out and peeped through the opening. It was in the act of trying on all the ties at once for a final rain-bowish effect, when the clerk ejected him from the store as a dangerous lunatic.

"It has been a lovely shopping day," said Palmer when they reached the Ventura apartments. "We will go out again tomorrow."

"Never again," declared Mrs. Palmer. "I stop by myself after this!"

And Palmer smiled.

**DUNCAN BROWN SHOT DEAD AT NEW GLASGOW**

BOSTON, Mass., June 8.—The enthusiasm of the alumni of Tufts Medical School was raised to its highest pitch tonight by the announcement of President Hamilton that the trustees of the college had early today voted to enlarge and remodel the medical school at the expense of \$100,000.

HALIFAX, N. S., June 8.—A young man named Duncan Brown was shot dead in New Glasgow today. It appears that several men were in an alleyway idling; among others Jack Fraser, who it is said, furnished a revolver several times. Brown came along and immediately Fraser began to pick a quarrel with him and wanting to fight. Brown told him to go away as he did not want anything to do with him. Almost immediately Fraser pulled a revolver and fired a shot which hit Brown in the head and back, killing him instantly.

Brown's slayer at once took to his heels, passing through an alleyway, through Duncan Grant's woodworking factory and escaped. Brown is a young man about 20 years of age and was lately employed about Rogers' livery stable.

Fraser after going on the road was met by a policeman tonight and at once gave himself up and was lodged in jail. He is said to be a morphine user. He belongs to Hopewell, and has served a term already in Dorchester penitentiary.

**WHAT IS THE PRICE OF THE 5-CENT KINDS? ASKED PALMER.**

"Do you think I'm a camel?" she snapped.

A furnishing goods store was near and he conducted Mrs. Palmer within. "I want to look at some neckties," he announced. "The 5-cent kind, please."

"Then he stood before the mirror and tried on a pink tie, and after that a lavender, a white, a green and finally several speckled patterns. He looked sideways at himself, walked back a piece and looked over his shoulder, then held his arms straight out and peeped through the opening. It was in the act of trying on all the ties at once for a final rain-bowish effect, when the clerk ejected him from the store as a dangerous lunatic.

"It has been a lovely shopping day," said Palmer when they reached the Ventura apartments. "We will go out again tomorrow."

"Never again," declared Mrs. Palmer. "I stop by myself after this!"

## NO GRAIN GOING FROM MONTREAL New York Gets the Trade Temporarily.

The Rates are So Low That Steamers  
Prefer Ballast to  
Grain.

MONTREAL, June 8.—An unusual condition is now prevailing in the grain export business. Steamers sailing from Montreal are refusing to carry grain at the rates offering and are going out with water ballast. This is due to the fact that the passenger boats sailing from New York are carrying grain at the cost of loading it on board and discharging it. The railroads have also reduced the charges for hauling between Buffalo and New York by a cent, and the new rail rate, plus rate of handling charged by the New York steamships, makes the rate Montreal would have to meet so low that the steamship men have come to the conclusion that water ballast is a cheaper freight to carry.

The situation is not expected to last very long, and as a matter of fact there is very little grain now offering for export, most of the movement being back to the West, where it is required for local consumption. Sir William MacDonald was today offered the property recently acquired from the Joseph estates for the purpose of erecting an hotel at the price it cost its recent purchaser.

Sir William accepted the offer, and as a result the property which adjoins McGill University on Sherbrooke street will pass into the hands of the university and give it the whole of the Sherbrooke street frontage. Sir William's latest gift to McGill is believed to have cost him something over \$125,000.

## 125 MILES AN-HOUR IS SPEED OF CRAFT

Boat Invented by Italian Will Beat All  
Records on Land or Sea.

MILAN, June 8.—Yesterday 350 members of the International Cotton Congress, fully one-third of whom are English-speaking people, were conveyed in a new and luxuriously fitted special train to Lago Maggiore. After a sumptuous lunch at the recently completed Regina Hotel, the party were taken on a steamer trip up the lake, where the marvelous capacities of the new Italian hydroplane were displayed to them. It has been constructed by Signor Fagnani, a Milanese engineer, whose inventions range over a period of thirty years. This water-racer is able to tear along at forty-five miles an hour.

It is propelled by a motor engine of only twenty-five horsepower. The motor presents the appearance of a torpedo, and when in a state of rest lies upon the surface of the water. When set in motion its seven planes, all slightly inclined and each successive one of which curves near the center of the hull, cause the water to rise and skim the surface. A screw propeller is fixed at an inclined angle of degrees behind the hull of the vessel and always remains in the water. Today Signor Fagnani carried four passengers. He has just finished a large hydroplane, which can also be used at sea, attaining the terrific speed of 125 miles an hour in smooth waters. As soon as he has completed his series of experiments with this latest improved design, the principal features of which are the substitution of the screw propeller by a pair of aerial ones and the use of the motor instead of steam power, Signor Fagnani will turn his attention to the building of a mammoth ocean-going hydroplane, capable of whirling 100 passengers between Genoa and Buenos Ayres or New York.

Steel sold at 67 3/4 and 67 1/4, compared with 67 3/4 last night. St. Paul, American Smelting and Anaconda lost 1 and Union Pacific, Reading, Erie and Amalgamated Copper large fractions.

## LEPROSY DISCOVERED IN LOS ANGELES

Mexican Has Been Afflicted With Dread  
Disease for Two Years—Discovery Accidental.

LOS ANGELES, Calif., June 8.—A case of leprosy was found in this city yesterday. Dr. Tebbats, assistant health officer had been called to make an examination of a case of measles which had been reported to the office when he found a Mexican suffering from a well-developed case of leprosy. ## NOT UNTIL NEXT FALL

Delay in Bringing International  
Fishery Regulations  
Into Force

OTTAWA, June 8.—It is probable that the new uniform international regulations governing the boundary waters between Canada and the United States, as finally drafted by Commissioners Prince and Jordan, will not be brought into force by simultaneous proclamation at Ottawa and Washington until next autumn. The federal government at Washington has first to organize a fisheries service similar to that existing now with the Canadian fisheries department. Hitherto enforcement of the fisheries regulations in United States waters has been under the jurisdiction of the respective states concerned, and delay in putting the new international regulations into force is due mainly to the delay involved in organizing a federal fisheries protective staff at Washington.

## FOREST FIRES

The forest fires which have been raging in various sections of the provinces showed no signs of decreasing in fury yesterday. A number of smaller blazes which have been regarded as under control, have again assumed enormous proportions and broken out with cleared activity. From Fredericton it is learned that the fires in the upper district have broken out with cleared activity. At Baird's Settlement considerable timber lands have been destroyed. At Fredericton the fires have been fanned into fury by the high wind. Numerous dwellings and barns were ignited and the large forces of men are vigorously fighting the flames.

Along the G. T. P. between Grand Falls and Edmundston, parallel to the C. P. R., there is almost a continuous path of fire, throwing out such intense heat that the cones of the Montreal express were blistered while passing through this district yesterday.

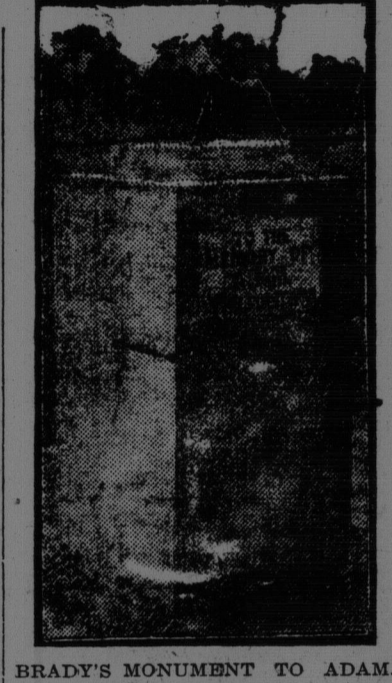

Along the C. P. R. between Edmundston and St. Stephen, there is no point from which flames and smoke cannot be seen by passengers from the train. In the vicinity of Mars Hill grave danger threatens the residents and a constant watch is being kept to warn the inhabitants immediately.

## DEATH OF A DWARF

SHAMOKIN, Pa., June 9.—Harry Bots, 44 years old, three feet eight inches tall, died here yesterday. For 25 years he has worked comedy roles in circuses and theatres. He hurt his back five years ago while performing.

## Here's a Real Patriot; Rears Monument to Adam, 1st Man

GARDENVILLE, Md., June 8.—When Jas. P. Brady, a millionaire Baltimore contractor, completed his summer home here, he began to think of decorating the grounds. "Get some statues," his friends suggested. "Yes, it's statues I want," Brady agreed, "but what kind?" One suggested St. Patrick. Brady, despite the fact that he's an Irish as the pigs from Drogheda, and proud of it, snorted. "Stone reindeer, and a cast iron dog or two," suggested another. Brady chuckled. Friends took a moment after. He called up his friend, the monument maker. "There'll be no companion piece in the shape of a monument to Eve," "I never could see Eve," says Brady. "She had a little affair with a snake."

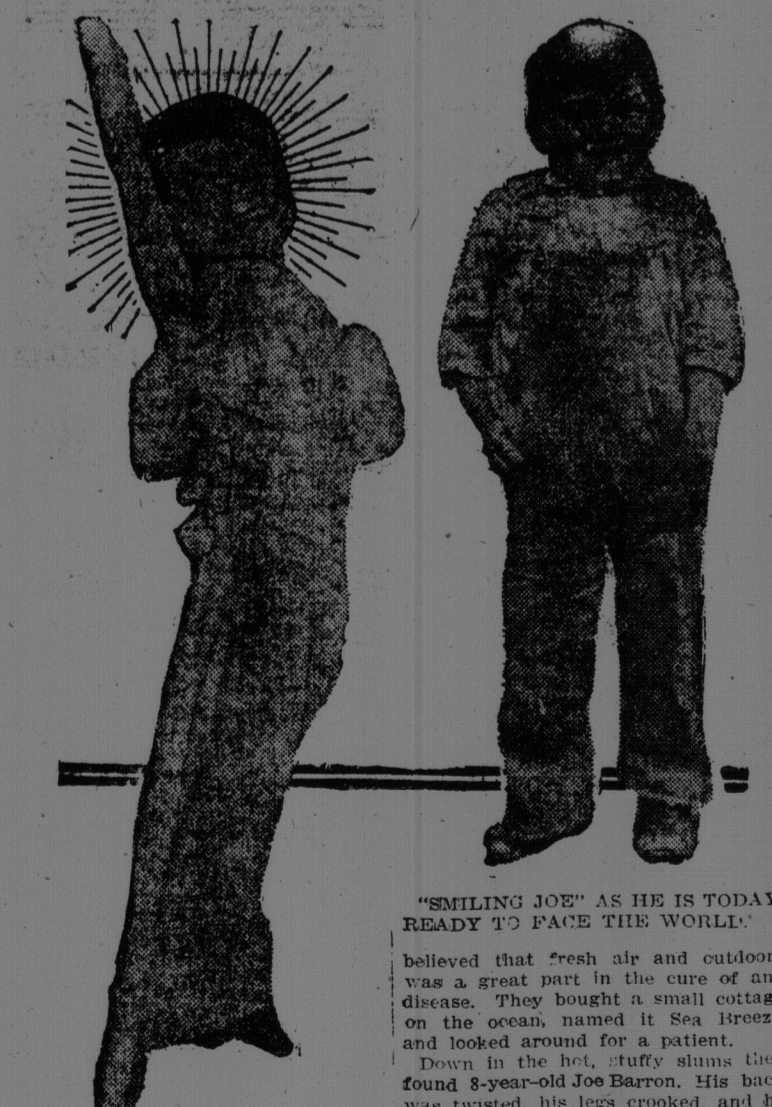

BRADY'S MONUMENT TO ADAM. Did you ever know an Irishman who could stand for snakes?

## ANOTHER STEP TOWARD UNION

HAMILTON, Ont., June 8.—The Presbyterian general assembly resumed their sessions here today and considered the subject of church union was immediately taken up at the opening of the morning session. Mr. Drysdale, of Montreal, was the first speaker and he put forward reasons for the adoption of the resolution favoring the union. Dr. Pringle also gave an earnest address in support of the resolution. Dr. Robert Campbell, Dr. T. W. Taylor, Hon. Edward Brown, Elder Lawson of Charlottetown, delivered stirring addresses opposing the federation. The resolution being placed before the meeting was carried by a vote of 164 to 42.

## "JOE" SMILED!

Roosevelt Wept—Rockefeller Caved—Money Poured in—Lives Were Saved

THE POSE OF "SMILING JOE" THAT "EARNED" \$350,000.

NEW YORK, June 8.—"Smiling Joe" Barron, at 12, has already done a man's work in the world—and more. He has collected a quarter of a million dollars for a home for sick and crippled children, big enough to house 4,000 of them at a time. "Smiling Joe" they call him. The name tells the story. There were some young doctors in New York about four years ago who

them well. But they couldn't drive the smile away. Just how much Joe suffered nobody but he ever knew. But he smiled all day. One day, in 1905, President Roosevelt visited Sea Breeze. There were tears in his eyes as he looked at the little crooked twisted boy. Joe didn't know who the big man with glasses was, but he smiled his happy baby smile. Roosevelt, quick, impulsive, caught the arm of Jacob Ellis, who was with him. "What do we do something for this boy?" he asked. Ellis was a newspaper man. "I am going to take his picture and tell his story to the people of the United States," he said. "I will help them, as it's helped us."

This was the beginning of a fame for "Smiling Joe" which was to go for a dollar, ten, a hundred, a thousand and more began fluttering into the Sea Breeze home like snow flakes. Rockefeller gave thousands of dollars. In all \$250,000 was sent in to the hospital within a year. It was all due to "Smiling Joe."

## JEALOUS WOMAN WHITES MYSTERY

Widow Living in Apartment  
House Declares She Knows  
Her Persecutor

NEW YORK, June 8.—It developed yesterday that the mysterious person who has been persecuting Mrs. Mary J. White and in anonymous letters threatening to blow up with dynamite the apartment house at which she lives at No. 1129 Boston road, the Bronx, is a woman who is identified as Mrs. White's stepson, Thomas T. White, and of whom she is insanely jealous. Mrs. White made this statement yesterday and added that the affair had nothing to do with any alleged grievance against her because of transactions concerning her husband, who has been dead two years.

## A BOWLING BRIDGE

Probably Placed in Position by an Ancient Cloudburst.

One of the most remarkable freaks of wind and erosion known in the west is to be found in one of the smaller side canyons of the Grand Canyon of the Colorado river in Arizona.

In a narrow gorge, carved through centuries of flow of water and wind driven down the little valley, there lies a huge bowler as big as the average house moving ven seen on a city street. It is held up solely by friction on the sides of the gorge and is entirely free from any solid connection with the sides of the sandstone walls.

From the rocky bed of the little gorge to the rock is fully seventy-five feet. The Indians who once roamed over the Grand canyon country have, of course, legends to account for the origin of the big round rock, but as a matter of fact it is believed to have rolled off the slope of the Grand Canyon about five years ago and to have been picked up in the patch of some cloudburst years ago and rolled to its present resting place.

The stone hangs only by a small projection on each side, but it is so solid that it forms a convenient footbridge across the gorge over which the pedestrian may take his way.

## A POSTSCRIPT

White, aged five, had delivered a message from his mother to a lady, but did not seem in a hurry to do so. Being asked if there was anything else his mother had bidden him say, he replied, "No, ma'am; only she said I wasn't to ask you for any cake, but if you gave me any I was to take it and thank you." He got the cake.

NEW YORK, June 8.—Arrived steamer Blucher from Hamburg and Koenig Albert from Genoa, Naples, etc.

### Here's One of The Best

A Bishop who has a liking for fine suits once remarked that while the Creator could doubtless produce a better berry than the strawberry, doubtless He never had.

We often reflect the same words, slightly varied, would be true of the magnificent models of 20th Century Suits we are now selling at \$18, \$30, \$35 and \$38.

Some day as experience and skill show the way, better suits may be produced for equal money.

But we believe they have not YET been surpassed—equal, genuine, honest worth—INSIDE as well as OUTSIDE goodness—characterize these suits.

Summer weight, light fabrics, costs half lined or full lined as preferred.

\$18, \$30, \$35, and \$38 for the exceptionally fine ones. But good honest value at all prices down to \$3.

**JUDGE SAYS IT WAS MRS. MURPHY'S FAULT**

Charles Collins Found Not Guilty on Charge of Assault.

Charles Collins, charged with assaulting Mrs. Eileen Murphy on 6th St., was found not guilty by Judge Forbes in chambers this morning. At the conclusion of the testimony His Honor found Collins not guilty and dismissed the case. Charles E. Ferguson appeared for the crown, and A. W. MacRae, K. C., for Collins.

Dr. Edward F. Ryan of the local hospital staff was the first witness. He explained the nature of the wound.

John Murphy, New Northy, Thomas Nelson, Brown, Rosana Murphy, and the victim of the alleged assault, gave evidence for the crown.

George Collins, Hannah Collins and the accused gave evidence for the defence.

The testimony of the witnesses was practically the same as given at the preliminary examination.

His Honor in dismissing the case said that Mrs. Murphy was the cause of the trouble and as the prisoner had alibi he bore a good reputation he could do nothing else but dismiss the case.

**WEDDINGS.**

**WILSON-KELLY.**

ST. STEPHEN, N. B., June 8.—Two of our popular young people were united in a happy event solemnized at 7 o'clock this morning. The bride was Miss Mabel Kelly, daughter of Charles Kelly, of Valley Road, and the groom, Mr. Albert E. Wilson, of the firm of Jas. Wilson and Sons. The ceremony was performed by Rev. Geo. Young, at the residence of the bride's sister, Mrs. Wm. Robinson, in the presence of the members of the family. The bride was very winsome in a travelling costume of grey broadcloth with hat to match. They were unattended. After the ceremony a wedding breakfast was enjoyed, and later Mr. and Mrs. Wilson left on the Washington county express for a visit to Boston and other cities. A large number of beautiful presents testified the esteem in which they are deservedly held.

**RIORDAN-KEENAN.**

At St. Peter's Church this morning at 6 o'clock, Rev. Father Duke united in marriage Henry Edmund Riordan and Catherine Grace Keenan. The ceremony was performed in the presence of the immediate friends and relatives of the contracting parties.

The bride wore a handsome Princess gown of cream serge with cream moiré hat. She carried a shower bouquet of cream roses. She was attended by Miss Regina Connor, who wore an Empire gown of lavender poplin and black crepe hat. The groom was the recipient of a fancy parlor chair from the Carrille, Patterson Manufacturing Company, where he is employed.

The newly married couple will reside at 146 Carmarthen street.

**PATTERSON-PLUMMER.**

In the presence of immediate friends and relatives at 140 Britain street at 11 o'clock this morning, Rev. A. B. Cobbe united in marriage William A. Patterson and Miss Amy K. Plummer, both of this city. The groom is travelling for W. H. Thorne and Company. The happy couple were handsomely remembered. Mr. and Mrs. Patterson left on the Halifax express.

**STEWART-CARSON.**

The Presbyterian Church at St. Martin's was the scene of an interesting event at 10 o'clock this morning, when Donald Stewart was united in marriage to Miss Charlotte Carson. The church was beautifully decorated in honor of the event. A large number of friends and relatives attended. Rev. Mr. Stewart, father of the groom, performed the ceremony and was assisted by Rev. J. H. A. Anderson, of this city. The wedding march was played by Mrs. McGregor Bentley. A wedding breakfast was served at the residence of the bride's parents in St. Martin's Village.

Mr. and Mrs. Stewart will visit Montreal, Quebec and other Upper Canadian cities.

**INTERSCHOLASTIC SPORTS THIS AFTERNOON**

School Boy Athletes From Fredericton, Robbsey, Moncton and St. John Meet on the Victoria Grounds.

The various high school athletes who will compete with the local lads in the interscholastic sports this afternoon reached the city by train today. The Robbsey boys came in this morning. They are a fine looking class of athletes and should make their opponents work hard to land the prize honors. A few "cak horses" are included in the team and the Robbsey school can be counted upon to give a good account of itself. Among the blue and white lads who will take part are: Stolne, McQueen, J. MacKay, C. West, C. Gilmour, H. Hall, Gilbert, H. Tennant and H. Teed.

Messrs. MacDonald, Barry and Atkinson, Fredericton representatives at the meet, reached the city on the Montreal express. They expressed deep dissatisfaction over the arranging of the date and place for the holding of the event.

The Moncton team arrives on the Maritime express, accompanied by a large number of students. Among the athletes from the railway town are: Sears, Bares, Ryan, Armstrong, Lockhart, Leon, Le Blanc and McDonald. The local school students have been granted an session.

The sports will start at three o'clock and there should be a large attendance.
