ST. JOHN, N. B., TUESDAY MORNING, AUGUST 19, 1919.

SHOWERS

THREE CENTS

SINCERE GREETING EXTENDED GEN. CURRIE ON BEHALF OF CANADA BY THE ACTING PREMIER

Immense Crowd at the Station to Welcome Home the Commander of Canada's Overseas Forces—Presented With Address Expressive of the Country's Pride in the Achievements of Gen'l Currie and the Men He Commanded—Has Been Elevated to the Rank of Full General.

Ottawa, Ont., Aug. 18.—In the name of the Government and people of Canada, and citizens of Ottawa, General Currie, K. C. B., commander of the Canadian Corps, was welcomed to Ottawa and to Canada by Sir George Foster, acting Prime Minister, and by Mayor Harold Fisher, of Ottawa. General Currie's train arrived promptly on time at Central Station, and an immense crowd waited there, or lined the streets from the station to Parliament Hill, where, on the steps, the official addresses of welcome were delivered, and where later General Currie inspected the Guard of Honor of Great War Veterans and military bodies.

It was not a tumultuous welcome, but the sincerity of the greeting from all sides could not be doubted. Speaking on behalf of the Government and people of Canada, Sir George Foster said it was fitting that the first official welcome to General Currie should take place under the shadow of the Parliament Buildings, where the very foundations of Canada had been laid. The return to Canada, said the acting Prime Minister, meant that the period of soldierly duty of Sir Arthur Currie, and most of Canada's soldiers, would end, but it would mean that they again took up their citizenship duties, stronger and better for what they had endured, and for what they had seen.

SACKVILLE MAN LOSES HIS LIFE BY DROWNING

Was Spending His Honey-moon at Ste Anne De Bellevue and While Swimming Went Down—Body Not Recovered.

Montreal, August 18.—Clarence E. Dixon, grain merchant of Sackville, N. B., who was married a week ago and was spending his honeymoon at Ste. Anne De Bellevue, was drowned in front of the Clarendon Hotel there this morning. He had gone for a swim before breakfast.

MEXICAN BANDITS HOLD AVIATORS FOR BIG RANSOM

Are Somewhere in Mexico and a Ransom of \$15,000 is Demanded for Their Release.

Marfa, Texas, August 17.—Letters purporting to be from Lieutenant Paul N. Davis, and Harold G. Peterson, American army aviators missing since last Sunday, were received here today at military headquarters. The letters stated that the aviators were being held by bandits for \$15,000 ransom somewhere in Mexico, and were threatened with death unless the ransom was paid.

THE WAR COST BRITISH GOVT. FORTY BILLION POUNDS FOR PURPOSES OF DESTRUCTION

House of Commons Crowded With Members and Spectators to Hear Premier Lloyd George Discuss Financial and Industrial Questions—Changing from War to Peace Basis Will Take Just as Long as Changing from Peace to War—Adverse Trade Balances Are Alarming Says Premier—Labor Conditions Have Improved—

London, Aug. 18.—Premier Lloyd George, when he appeared in the House of Commons today announced that it was his intention, in his address to the House, to deal only with Great Britain's trade relations and her industrial position, including the coal mining problems.

Many members said they expected the premier to announce the government's plans for Ireland and expressed disappointment that this subject was not to be discussed by him. Virtually every member of the House of Commons was in his seat when the speaker took his chair. The lobby, galleries, and the outside courts were crowded when members of the ministry arrived.

The war cost forty billion pounds, Premier Lloyd George declared in his speech. Most of the sum was spent for purposes of destruction. The premier asserted that the changing from war to peace conditions would take just as long as the change from peace to war. The first outstanding fact of the present situation was the alarming adverse trade balance.

The import restrictions which will terminate Sept. 8, the premier continued, had given British manufacturers an opportunity of making and dealing in goods which otherwise would have been hurried here from foreign countries.

The national debt, the premier declared, has grown from £641,000,000 to £2,500,000,000. Receipts from foreign investments at present were down to £100,000,000, while Great Britain has to pay back an adverse trade balance of £1,500,000,000.

Labor conditions in the United Kingdom, he added, have improved. Of the 3,600,000 men demobilized, only 250,000 have not been absorbed in industries.

GREAT CROWDS THRONGED GAILY BEDECKED STREETS OF GRARISON CITY TO GREET PRINCE OF WALES

Nova Scotia Gave His Royal Highness a Popular Welcome and Kept Him Busy—Helped Young Miss Win a Bet—Received and Replied to Six Addresses, Laid Two Corner Stones, Inspected Various Hospitals and Was Kept on the Move.

Halifax, Aug. 18.—At 9.30 tonight the Prince of Wales left Halifax for Charlottetown, proceeding on board the battle cruiser Renown, which was accompanied by the Destroyers, Dragoon and Dauntless. The Halifax reception and demonstration in honor of the Prince was a huge success.

The weather was ideal and it is admitted that the arrangements were carried through without a hitch. It was officially announced that His Royal Highness was particularly pleased with the reception from the people of Halifax and of Nova Scotia.

After the reception, and before the official dinner given by Governor Grant, there was a short dance. It had been the intention to have a large dance at night, but the program made this impossible.

MINERS' STRIKE AT FERNIE SETTLED

Expected Operations Will Be Resumed Today After a Three Months Lay-off.

Fernie, B. C., August 18.—The miners' strike here finally has been settled after a long drawn out struggle of nearly three months' duration. A mine train left here for Coal Creek at 3 o'clock this afternoon, and men signed on for work, which is likely to commence tomorrow. It will be a few days, however, before producing will be started.

William Will not be Bothered

Belief Among the Advisers of Herr Hohenzollern That Allies Will Not Make Serious Attempt to Bring Him to Trial.

Amerongen, Saturday, Aug. 16.—(By the Associated Press.)—Although it has been known in Amerongen that former Emperor William, in the hope of settling down to the life of a country gentleman in Holland, had been negotiating for the purchase of the Castle of Doorn, the correspondent, today, was unable to definitely confirm a despatch from Utrecht that the deal had been completed.

Nothing has been settled," was the reply of those close to Herr Hohenzollern when questioned, but they added that they could not deny the report.

Despite official announcements of the intention of the Allies to try the former Emperor, it is the general belief among the advisers of Herr Hohenzollern, it is said, that the Allies will not make a serious attempt to bring him to trial.

RAPIDLY REDUCING BRITISH ARMY OF OCCUPATION

Settle Strike of Interborough Rapid Transit Co.

DOMINION TEXTILE STRIKE SETTLED

Arrangements Made That Will Smooth Out the Difficulties for the Present at Least.

Montreal, Que., Aug. 18.—The strike of the Dominion Textile Workers is now practically settled and an arrangement has been made by the management and the company which has smoothed matters over for the time being.

LOSS OF MEMORY CASE PUZZLING BRANDON POLICE

Man Taken From Train Who Does Not Know His Name or Where He Lives—Believed to be a Nova Scotian

Brandon, August 18.—Brandon police are investigating the case of a man who has apparently lost his memory. He does not know his name nor where he came from.

New York, August 18.—The strike which for two days has paralyzed the subway and elevated system of the Interborough Rapid Transit Company in Manhattan, the Bronx, Brooklyn and Queens, was formally called off tonight by a vote of the strikers to accept a compromise offered them at a conference of city and state officials this afternoon.

EXCURSION TRAIN DERAILED NEAR SYDNEY MINES

Was an Harvesters' Special With 200 Passengers Aboard.

Sydney, N. S., August 18.—The harvest excursion special, which left here last evening, was derailed an hour later at Sydney Mines as she was pulling out from the station. But for the fact that the train was just gibbering apart, the smash might have resulted fatally.

CONSPIRACY IN NEW YORK STREET RAILWAY STRIKE

District Attorney Says Company Conspired With Employees to Bring on Strike in Order to Win Higher Fares Fight.

New York, N. Y., Aug. 18.—Evidence which District Attorney Swann claims proves that the Interborough Rapid Transit Company conspired with its employees to bring about the present strike which has very nearly paralyzed traffic on Manhattan Island, in order to win the company's demand for higher fares, will be placed before a Grand Jury by Mr. Swann, he announced late today.

AUTO BANDITS HOLD UP BOOKKEEPER AND SECURE \$4,000 PAYROLL

Cleveland, Ohio, August 18.—Two automobile bandits held up Miss Augusta Kilmack, a bookkeeper for a fruit company, here this afternoon and secured with a \$4,000 payroll she carried.

Supreme Council Ignores Request of Archduke Joseph

Paris, August 18.—(By The Associated Press)—The Supreme Council has decided that it will make no reply whatever to the communication of Archduke Joseph, Governor of States in Budapest, asking for recognition.

FOOD DEALERS AND CONSUMERS CLASH IN PARTS OF FRANCE

Paris, August 18, (Hayes Agency)—Several collisions occurred between food dealers and consumers yesterday in the southeastern provinces and elsewhere. At Breck dock workers seized provisions in the center markets and sold them at half price. Consumers and retailers at Levallois, near Paris, decided to take joint action against the middlemen.

REVIEW OF FORD-TRIBUNE CASE PRESENTS INTERESTING EVENTS

Expert Witnesses Produced by Both Sides Added Zest to the Legal Proceedings—The Editorial Causing Suit Was Published During Ford's Tirade Against Recruiting.

St. John, N. B., Aug. 18.—It was on June 23, 1916, after Mexican bandits had raided Columbus, N. B., and military preparedness was a burning issue, not only because of the Mexican menace, but because of the conflagration in Europe, that the Chicago Tribune printed its famous editorial headed "Ford is an Anarchist."

is no government there is anarchy. Therefore, they sought to establish that in opposing the recruiting of soldiers Mr. Ford opposed government itself, and, by the same token, sought to establish anarchy.

It was then that the editorial was written. It called Mr. Ford an "ignorant idealist" and remarked that his views on disarmament might be different if his factories were on the Rio Grande instead of the peaceful Canadian border.

Mr. Ford did not accept the definitions of anarchy given by Professor Reeves. He personally as a witness, and by other means, insisted that by anarchy the Tribune meant the old-fashioned bomb-thrower of the Haymarket square variety.

It was then that the editorial was written. It called Mr. Ford an "ignorant idealist" and remarked that his views on disarmament might be different if his factories were on the Rio Grande instead of the peaceful Canadian border.

Mr. Ford did not accept the definitions of anarchy given by Professor Reeves. He personally as a witness, and by other means, insisted that by anarchy the Tribune meant the old-fashioned bomb-thrower of the Haymarket square variety.

Imperial's Pictures Of Prince Are Great

Thousand Feet of Clear, Well Taken Movies—Crowds Delighted With Them—Anita Stewart Feature Too.

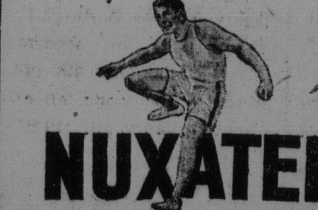

When Imperial Theatre announced on Saturday last that it would on Monday exhibit moving pictures of the great Joy Day and Prince of Wales celebration of Thursday and Friday, there were some who thought this was stretching one's hopes a little too far, since St. John was so far removed from laboratory facilities and movie-making outfits. But the Imperial kept its word and yesterday thousands of people saw one of the finest topical pictures ever shown in St. John, as well as a subject hot of the griddle and beloved to this very city—an historic record that will be of immense value as a treasure in local archives for generations to come. The cinematograph of the two big days' events was comprehensive of the whole celebration. There were pictures of the procession in its various details, of the rowing and motor boat racing, depicted the soldiers and their sweethearts and filmed the wonderfully effective decorations round about the city. Then coming to the day the Prince was welcomed it covered all the inspiring details of the event, showing the thousands of participants and the dapper little heir apparent in a hundred different poses and smiles. The Prince's visit to the numerous places, his ship the Dragon, the military formations and all other functions were wonderfully reproduced. It was a great treat for St. John eyes and applause continually marked the film throughout its screening. Altogether there were over one thousand feet of the picture, and throughout it was clear and bright, as if taken on a sunny day.

The Imperial had also a remarkable fiction feature in Marion Orth's story "A Midnight Romance," starring Anita Stewart, supported by Jack Holt and other well-known players. They were alone together. It was the wretched hour of midnight, the croon of the night wind and murmur of the waves against the rocks that hid them from the huge summer hotel where the music to which she had been skipping over the bands when first he saw her. They were truant, they were two, runaways from the treadmill of life. He had called and asked if he might join in her revel. Something in his voice reassured her. So they ran, and swim, and talked. Finally—"I dare you to dive off that rock," she said. When he came back she was gone. He had failed to reach her name or whence she came. He hunted the beach, nightly, without avail. She was the first woman, handsome, wealthy Roger Sloan had ever really wanted and failed to interest. He often passed her to the hotel corridors, but he made no attempt to avert face mask her. Of course he finds her.

OFFICIAL DENIAL OF MERGER TALK

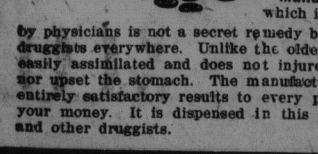

Rapid Advance of Western Canada Flour is Otherwise a Mystery.

The sharp advance in the common stocks of the Western Canada Flour Mills during the week has occasioned some speculation, and the natural version to the old rumor of a merger. Officials of the company give an unqualified denial to the merger report, however, but can give no definite reason for the sudden activity of the stock. It is probable however, that the real reason is that some buyers are forecasting an advance, and are willing to pay to get the stock. The company is known to be doing a good business, and even at the advanced figures the stock is selling well below the average of other milling industries of the same size. From an even level of 140, there was a very sharp advance Monday, sales opening at 150 and climbing steadily till they reached 170. There was a decline from this figure before the end of the day's trading and Wednesday showed 160 asked, with 150 bid.

NUXATED IRON

Helps Make Strong, Sturdy Men and Beautiful, Healthy Women 3,000,000 People Use It Annually As a Tonic, Strength and Blood-builder

MAKES THIS TEST. If you are not well or strong you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next, take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people, who were ailing all the while, have most astonishingly increased their strength and endurance in 2 weeks' time in many instances.

PILES

Zam-Buk ends the pain, and stops bleeding. Try it! All druggists, 50c. jar.

THE FUNERAL OF J. SEYMOUR GUNNING

(Moncton Times, Aug. 14)
The funeral of J. Seymour Gunning took place this afternoon from the family residence, at Gunningville, at 2:30 o'clock, Rev. Canon Siam, Rector of St. George's Church, conducted a very impressive and sympathetic service. Members of the choir of the church were present and rendered several favorite hymns of the deceased, "Nearer, My God, to Thee," and "Safe in the Arms of Jesus."

The casket was covered with many beautiful floral tributes, testifying to the high esteem in which the late Mr. Gunning was held by a host of friends. The pall-bearers were chosen from the International Association of Machinists' Lodge, Moncton.

At three o'clock the funeral cortege left the residence for Elmwood Cemetery, many citizens following the remains to their last resting place in the family lot at the cemetery. Rev. Canon Siam also conducted the committal service.

The floral offerings included the following: Pillow—Wife and family. Wreath—Sister, Employees C. G. R. Roundhouse, Auditor of Disbursements Office, Mr. and Mrs. Ell Brooks, Manchistia's Union, L. A. of M. Ell and John.

ST. JOHN, N. B., TUESDAY, AUGUST 19, 1919.

A VACANT OFFICE.

Since the death of Honorable Austin Macdonald some weeks ago, the Province of Prince Edward Island has been without a Lieutenant-Governor. A successor to this position will probably be chosen during the present week after consultation by Premier Borden with representatives of the various political parties.

A BIT OF VERSE.

A DREAM O' HAME.

WEDDINGS
King-Morton. A pretty wedding was solemnized yesterday morning in the Cathedral of the Immaculate Conception, when Rev. W. M. Duke united in marriage Frank C. King and Nan E. Morton, both of this city. They were unattended. After the ceremony they returned to the home of the bride where a dainty breakfast was served. The groom's present to the bride was a wrist watch with diamond setting. Mr. and Mrs. King will leave this evening for Denver, Colorado via New York, Chicago and Baltimore.
Miss Margaret Dixon left last evening for St. Andrews where she will be the guest of Miss Phillis Cockburn. F. W. Daniel returned yesterday from a trip to New York and Toronto.

Common Council Met In Committee

Matter of Having Horses Drawn Vehicles Carry Lights Was Discussed — Resolution Proposed by Mayor Regarding Last Week's Celebrations.

Commissioner Jones yesterday at the council meeting referred to the necessity of having horse drawn vehicles carry lights as well as motor driven ones and moved that a bylaw be passed requiring all vehicles entering the city from one hour after sunset until daybreak be required to carry lights on the front and rear, under a penalty of a fine of \$10 or ten days imprisonment. The motion failed to find a second.

A resolution proposed by Mayor Hayes and adopted unanimously, read as follows: "Now that our settlers' 'Joy Day' and the visit of H. R. H. the Prince of Wales are over, I wish to express my appreciation to the citizens for the hearty manner in which they entered into the spirit of both occasions. The parade and other features in connection with the 'Joy Day' were carried through in a manner which reflects credit on all concerned, and the enthusiasm of the citizens under unfavorable weather conditions on the occasion of the prince's visit, was most gratifying.

The comments of visitors, especially the visiting newspaper men, were of a pleasing and satisfactory character. St. John citizens have good reason to be proud of the manner in which they carried through in a manner which reflected credit on all concerned, and the absence of the effects of liquor was especially referred to by Chief Chamberlain of the Dominion Police, who stated that such a satisfactory state of affairs would be impossible under license laws.

The merchants who decorated their premises so splendidly, the organized societies and individuals who organized and took part in the parade and sports at a considerable cost to themselves, are deserving of all praise, and the same may be said of the commercial travellers who contributed so much to the enjoyment of the soldiers; the committees who arranged the fireworks and other features, as well as the churches, organizations and institutions which looked after the housing and feeding of the visiting soldiers.

S. E. Elkin, M. P. On Harbor Commission

Addressed Rotary Club Yesterday and Strongly Advocated Acceptance of Government Terms Offered—R. W. Wigmore, M. P. Was Also of Same Opinion.

At the meeting of the Rotary Club, yesterday, E. J. Terry, general manager of the James Robertson Co., was elected vice-president to succeed F. H. Quirt, lately removed to Montreal. The speaker of the day was S. E. Elkin, M. P., who dealt with harbor commission. Mr. Elkin strongly advocated the adoption of harbor commission and the acceptance of the terms offered by the Dominion Government. He traced the history of the negotiations up to the time the definite offer was made and pointed out that the city was really receiving \$50,000 more for the property than it was selling on the books.

He stated that when the \$2,500,000 price was talked of it understood the sinking fund of \$100,000 was to be turned over to the government, but under the present agreement by which the city was to receive \$2,000,000, the sinking fund was left with the city, thus really making the price \$2,300,000. He went on to show what this meant to the taxpayers, as it would allow the city to address a vote of 600 of new bonds for needed city improvement without any cost to the citizens or any addition to the tax rate. His address a vote of thanks was moved by R. W. Wigmore, M. P., who expressed the opinion that the city fathers, no matter what their party, should in the master might be had no right to hold up the matter in the way they were doing but should immediately give the voters a chance to express themselves on the proposition. He pointed out that it was not so much a matter of the price as it was the future development of the port, which could be done better by the government than by the city. The port was a national asset and should be developed by the country as a whole, not at the expense of the taxpayers of this city alone.

It was decided to hold an outing on Thursday afternoon at Loch Lomond, when a discussion on city streets and harbor commission would be the order of the day.

STRUCK OFF STRENGTH.

The undermentioned officers were struck off the strength of the C. E. F. on general demobilization, unless otherwise stated:

Lieutenants: Frederick Polley Joseph Travis, 20th May, 1919.
Lyle Stewart MacGowan, 11th June, 1919.
Bert Allan Burdon, 9th June, 1919.
Frank White Stevenson, 10th June, 1919.
Amos Atwood Pickard, 12th June, 1919.
George Kingsley Shiels, 15th June, 1919.
Nursing Sister: Huiiota Dykeman, 12th June, 1919.

W. F. Smith Could Scarcely Breathe

Halifax Man Had Suffered Five Years from Nervousness and Stomach Trouble—He Praises Tanlac.

"Nothing helped me until I got Tanlac, and that's saying a good deal, for I have just tried everything during the past five years in my efforts to find relief," said Warren F. Smith, a well-known lumberman, living at 154 Argyll street, Halifax, recently.

"For fully five years," he continued, "I have suffered constantly from nervousness and stomach trouble. My appetite went back on me and what little light food I did manage to force down caused indigestion. If I ventured to eat anything the least bit heavy or rich it would almost lay me out. I would hardly get through eating until my stomach would get as sour as vinegar. I would blot all up with gas until I could scarcely get my breath and have the worst kind of pains in my left side and around my chest. There was a heavy feeling, like lead, in the pit of my stomach and I would often turn so sick that I could not retain anything I would eat or drink. In fact my stomach was so acid and upset all the time. I was badly constipated and so nervous and miserable that I could never get a good night's sleep. I would get up every morning with a mean, nagging headache, and had fallen off fifteen pounds, or more, in weight. It was no condition to work and just barely able to put in a few days during a month.

"Finally I went to the hospital for treatment, but came out suffering just the same, and have tried all kinds of medicines in the hope of getting something that would help me, but nothing did me one bit of good. Just about six weeks ago I made up my mind to try Tanlac, as so many were telling about the good it had done them, and before I had finished my first bottle I was feeling altogether different. I have taken four bottles to digest fine and agree with me perfectly. My nerves have gotten better, normal already and I have also been relieved of constipation and headaches. I can sleep all night long now and get up in the mornings feeling rested and good. Tanlac has certainly proved its value in my case and I would advise anyone who has any cause for taking medicine to try it." Tanlac is sold in St. John by Ross Drug Co. and F. W. Munro under the personal direction of a special Tanlac representative.—Advt.

POLICE COURT CASES YESTERDAY

Brayley Drug Co. Case Adjourned Till September 3—Harry Kent Fined Fifty—Several Other Cases Dealt With.

The case against the Brayley Drug Co., charged with shipping liquor to Balthazart without proper marks on the package, was resumed yesterday afternoon in the police court. During the early part of the proceedings it was said that Chief Inspector Wilson was a material witness but he was not available at that time. His Honor postponed the case till 4:30 o'clock when Inspector Wilson was present and asked to have the manager of the Dominion Express Company summoned as a witness. The case was then set over till September 3.

Harry Kent was charged with having liquor on his premises unlawfully. He was fined \$20.

Clifford Carr, who was charged with taking Wm. Taylor's auto from the garage without the owner's consent, pleaded not guilty. Some evidence was taken and the prisoner remanded.

Thomas Nixon, accused of threatening Patrick Duffy, on a charge of assault in court but his case was set over till this morning.

WOUNDED SOLDIERS HERE YESTERDAY

Men Who Arrived at Halifax and at Portland on Hospital Ships Given Welcome Home Yesterday.

The men who arrived at Halifax on the Cronia and those who reached Portland on the Araguay for Military District No. 7 reached the city yesterday and were warmly welcomed at the depot by representatives of the citizens' reception committee and K. of C. army club committee. DIVING MERMAID STEPS TO FORE

MISS BETTY GRIMES, MINNEAPOLIS CENTRAL A.A.U. FANCY DIVING CHAMPION, MAKING BACK DIVE

Miss Betty Grimes, of Minneapolis, nineteen-year-old coed at Minnesota University, romped away with the women's Central A.A.U. fancy diving championship last week in Detroit under circumstances which proclaim her a diver of sensational ability.

Indeed, particulars of her brilliant victory furnish convincing evidence that she stands today well above all rivals in her chosen field. Not only did she defeat by the great margin of twelve points Mrs. Yonnie Matcomson, of the Detroit Aquatic Club, who came within half a point of winning supreme national laurels in springboard diving last spring, but she ran up the amazing total of 137.7 points, of which only one point behind the score turned in that day by Ernest Briggs, of the Detroit Athletic Club, in capturing the men's Central A.A.U. championship from the same board, with the same judges officiating.

An occurrence that enlivened the melancholy progress of the inventory recently damaged, done in war swept hands was that of an Alsatian who, it is reported, when the agents of the Allied commission came to this man and looked upon the heap of ruins that once was his beautiful home amazed them by saying: "There is no damage here."

The mission of the agents was to determine the amount of damage wrought by the Huns, to be listed in the record upon which an estimate of indemnity from the Germans was to be made. Later the agents learned the reason for the Alsatian's unconcern over his loss. It was because the Hun officers and men who had lived in the chateau and had wrought its destruction themselves perished in the ruins. The dynamite blast had exploded prematurely, destroying the entire company of vandals. For that reason the Alsatian nourished no remorse, but only satisfaction.

Casualties At Baseball Game

Carleton Player Received Bad Cut on Nose—Y. M. C. I. Won the Game.

Carleton and Y. M. C. I. battled for five innings last night and Y. M. C. I. came out ahead with 5 runs to 4. Clarke, who was playing short for Carleton, suffered a severe injury to his nose when a hot grounder hopped. He was quite badly cut. The game was a good one and was greatly enjoyed by a large crowd.

Carleton had 22 men at bat, made 4 runs, 7 hits, 15 put outs, 2 assists and 5 errors. For Y. M. C. I. 21 men at bat, 5 runs, 4 hits, 14 put outs, 10 assists and 3 errors.

Score by innings—Y. M. C. I. 1 2 1 0 2—5 Carleton 0 0 1 0 1—4

SPORTING NOTES.

Fishers Perry and Rogers of Philadelphia Americans have joined the Franklin, Pa., semi-professional club.

The challenge round of the National Lawn Tennis doubles tournament at the Longwood Cricket Club course, Newton, Mass., were postponed yesterday on account of rain.

The single tennis tournament in which are several American players was postponed at Southampton, N. Y. yesterday on account of rain.

At Chicago yesterday Schalk the Chicago American catcher went behind the plate for the one hundredth game he has caught this season and marked the seventh consecutive season that he has accomplished this unusual feat.

FORT HOWE STARS WON.

The Fort Howe Stars defeated the North End Cubs by a score of 9 to 5. Wilson did good work on the mound for the winners.

BANKRUPTCY FOR EUROPE

The general public is so preoccupied with other matters that it can scarcely be expected to know much of the grave domestic anxieties which the war has bequeathed to the nations of the Continent. But undoubtedly, whether we like it or not, the economic and social conditions in Europe at large will react upon us. The financial straits of Italy and France, for example, are soon bound to tell upon the position in Britain. To Italy we have loaned £412,500,000, and to France £434,490,000. From all our allies, including Russia and excluding the Dominions, we are due the huge sum of £1,558,000,000. What is going to happen to these debts? This, at any rate, is clear: that despite Mr. Chamberlain's optimism, they cannot be repaid within any reasonably early time.

Mr. Ellis Barker, indeed, writing in the "Nineteenth Century and After," suggests that Italy, with the best will in the world, may not be able to fulfil her financial engagements. He recalls that her still increasing debt threatens to reach four thousand millions sterling, and to approach her estimated entire wealth in 1914, while a huge and growing budgetary deficit is becoming chronic. Italy, moreover, is a poor and most densely-populated country. Her people cannot well increase their already penurious thrift.

It is difficult, therefore, Mr. Barker holds, to see how Italy can raise her taxation sufficiently to service her debt. As for France, her debt approximates 75 per cent. of the national wealth in 1914, as compared with 50 per cent. in the case of the United Kingdom. Mr. Barker argues against the popular idea that she is a very rich country, and he is inconceivably right in asserting that the French Government will find it extremely difficult to pay interest in full on her national debt. Though Mr. Barker believes that we shall "manfully struggle" with our colossal debt, he anticipates a financial debacle on the Continent. If that comes, it would be our experience in the Napoleonic wars over again. But would our losses stop at our loans? Under the shock of a wholesale repudiation of National Debt, Continental markets would not, one is apt to imagine, be very brisk. The effect of their deadness or sluggishness upon our trade would obviously be harmful and would retard the vital process of economic recuperation. — Liverpool Post.

ENGLISH BOXER HOPES TO MEET DEMPSEY

The latest photograph of Joe Beckett, England's heavy weight boxer, at the Goodwood races in England. Beckett is to meet Eddie McGoorty, the American boxer, on September 2 in London. The Englishman is anxious to dispose of McGoorty in the hope of coming to America and challenging Jack Dempsey to a match.

Y. W. C. A. BOARD MET YESTERDAY

Reports on Work of Association Read—There Are Twenty-Nine Boarders—Travellers' Aid Report—Dominion Meeting Here October 5 and 6.

The board of the Y. W. C. A. met yesterday afternoon with Mrs. Mealy in the chair. Reports on the work of the association were read. At the present time there are twenty-nine permanent boarders. The Dominion Y. W. C. A. is to hold a meeting of city association officials here on October 5 and 6. The Travellers' Aid reported that 189 people were accommodated during the month and that 33 trains and 48 boats were met.

VACCINATION OF SCHOOL CHILDREN

Board of Health Has Made Arrangements—The Doctors, the Place and Time When Children Can Be Vaccinated.

The Board of Health has made arrangements for the vaccination of school children as follows: Dr. Mabel Hamilton at the Board of Health office, Princess street, each day from 9 to 12 and 2 to 4, for city children; Dr. W. L. Ellis at his office, corner Champlain and Prince streets, each evening from 8 to 8.30, for children of Lancaster and Musquash parishes; Dr. Nugent at his office, 104 Waterloo street, each day from 1 to 2.30 and 4 to 8, for the children of Elmwood, and at the schools the day of opening.

While there were many opportunities, Sir Frederick went on to say that he believed that Canada's limit in extending credits would soon be in sight. He said this, fully realizing that these trade openings might soon pass away. He did not favor the opening of Canadian banks in foreign countries or altering the present system overseas.

On the subject of the moving of this year's wheat crop, he said that Dominion banks and financiers would again have to finance the movement and that a large proportion of the yield would be taken by Great Britain. He said that the attractiveness of the new war loan must lie in its price if the issue was to meet with the popularity accorded previous tax-exempt issues.

MAY SOON REACH MONEY LIMIT IN FOREIGN TRADE

Sir Frederick Williams-Taylor Talks About Export Opportunities.

BUILD AT VANCOUVER

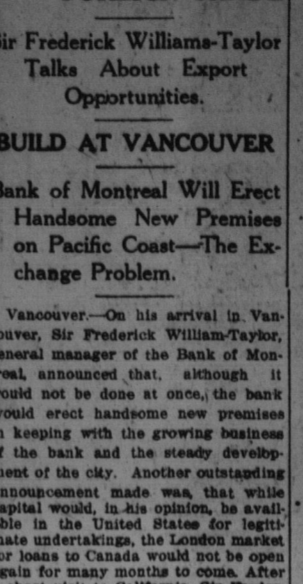

Bank of Montreal Will Erect Handsome New Premises on Pacific Coast—The Exchange Problem.

Vancouver.—On his arrival in Vancouver, Sir Frederick Williams-Taylor, general manager of the Bank of Montreal, announced that, although it would not be done at once, the bank would erect handsome new premises in keeping with the growing business of the bank and the steady development of the city. Another outstanding announcement made was that while capital would, in his opinion, be available in the United States for legitimate undertakings, the London market for loans to Canada would not be open again for many months to come. After a short visit to California, Sir Frederick and his party will return east, via the Crow's Nest.

On the subject of New York exchange, which is creating a great deal of interest here just now, he said that all allied countries were at a similar disadvantage in their dealings with the United States as a result of the war. The prime factor in the higher rate was an excess of imports over exports and foreign interest payments, in connection with which daily remittances are required. The purchase of luxuries abroad accentuated the situation. Had the British Government been in a position to pay in full for its purchases made in the Dominion and not borrowed the \$200,000,000 now owing Canadian banks, the premium on American funds, he said, would not have reached its present height. The condition of the American investment market made it practically impossible, if desirable, to float public loans and this would tend to ease off the rate.

Financing Foreign Trade.

JUST A SIDE LIGHT ON A BIG STRIKE

STRIKE MEANS FUN IF YOU LIKE ROLLER SKATING

Brooklyn, the big borough of New York city, is tied up tighter than a snare drum just now as a result of the strike on the elevated and surface car lines, and, with all this inconvenience, there are those who find a chance to introduce just a little comedy and convenience into the occasion. Roller skates as a means of transportation are rather crude, to be sure, but effective nevertheless.

CATELLI'S HIRONDELLE MACARONI

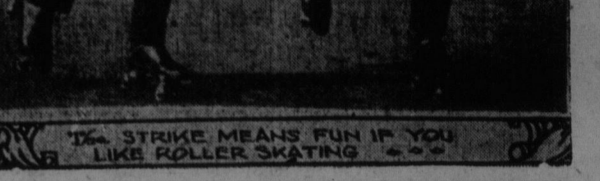

The best food you can give to Children, — much better than meat — is so nourishing — can be prepared in so many inviting appetizing styles — costs so little, that it pays to serve it often.

Our Cook Book tells how to prepare it in 125 styles. Write for free copy.

The C. H. Catelli Co. Limited, Montreal.

THE CRAVING FOR MEAT

is not a natural craving. Man is mostly herbivorous. Less meat and more cereals mean better health, higher efficiency, longer life. Shredded Wheat Biscuit is a real whole wheat food — contains more real, digestible nutriment than meat or eggs and costs much less. The crisp and tasty goodness of the baked whole wheat is a joy to the palate. Two or three of these Biscuits with milk or cream, or sliced bananas, peaches or other fruits, make a nourishing, satisfying meal, at a cost of a few cents.

CANADA'S OPPORTUNITY

Former Food Controller leaves Canada. Outlet in Britain.

Mr. H. B. Thomson, the former Food Controller who is a member of the Canadian Manufacturers' Association, is leaving Canada for Britain, and in so doing is perhaps really realizing the policy of the Government. He is going to Britain to assist in the reconstruction of that country, and he is expected to be of great value to the British Government in the reconstruction of that country.

The importation of eggs into Canada is a potentially Canadian industry and he recalls that in the year before the war he was the war Canada's export of eggs.

CANADA'S OPPORTUNITY

Former Food Controller Reveals Canada Will Find Outlet in Britain.

Mr. H. B. Thomson, the former Canadian Food Controller who is now a member of the Canadian mission in London, is a strong believer that in her trade competition with Canada will find an outlet in British and in Europe to an extent which is perhaps not generally realized. He points to the surprising fact that Ireland exported five times as much butter to Great Britain in the year before the war as did Canada.

The importation of eggs into Britain is regarded as potentially Canada's opportunity and he recalls that during the war Canada's export of eggs to this

country was only 1.5 per cent of the requirements. The quantity of butter exported from Canada was only 2.5 per cent of British requirements. Thomson says he shows that the Dominion's war exports were only 1.2 per cent of British requirements. Mr. Thomson strongly advises the Canadian manufacturer to seek a big distributor in Britain who covers the whole country by his own agents rather than to take a number of small orders direct.

COMPENSATIONS

If a woman is extravagant, she is also charitable.

If she is quick-tempered, she is also lovable.

If she lacks style, she has a conscience.

If she is homesick, she is a good nurse.

If she is literary, she is often absent.

If she is musical, she is too supreme to love you with it.

If she is talkative, she is (we give it up).

WANT DELEGATES TO BE LODGED IN JAPANESE HOME

Japs Anxious That Those Who Attended International S. S. Convention in Tokio Learn the Real Jap.

Tokio, Aug. 17.—(Correspondence of The Associated Press.)—A proposal that the foreign delegates to the International Sunday School convention to be held in Tokio in the autumn of 1920 be lodged in Japanese houses has been made by Japanese.

It is suggested that one thousand Japanese families open their homes to the visitors and that the delegates be given an opportunity to experience something of real Japan. They would sleep on mattresses laid on the tatami of straw-matting floor, and they would move in stockinged feet instead of shoes or boots. Instead of opening doors and windows, they would get used to aboji, or paper covered sliding panels. Instead of reclining in chairs and divans, they would sit on the spotless tatami floor and get accustomed to the simplicity of Japanese internal decoration.

In the morning each Japanese host or hostess would supply the two or three foreign guests with bread, milk and eggs, giving a Japanese breakfast only when the foreigner requested it. Luncheon and dinner could be taken by the delegates in the hotels.

A writer says: "It is not only the practical solution of the difficulty, but it will also serve towards breaking up the barrier that has been, for so many years a stumbling block to perfect understanding and friendship with foreigners."

PRIME MINISTER'S WAR HONOR

The King has done a very graceful and unexpected act in conferring the Order of Merit on the Prime Minister. It is not the British way to reward our Premiers with titles or money for their services to the State. To do so would be not only a violation of custom and tradition, but repugnant to national sentiment. If postage and money grants are ruled out the Order of Merit is the only possible honor that could be bestowed on the head of the Government and it is one he can accept with due regard to all the traditions of his high office.

It is the most exclusive and select of all the Orders open to a Commoner. The membership is very small and everyone admitted is a person of "outstanding distinction." Mr. Lloyd George will find himself in the congenial company of Lord Morley, Lord Bryce, Lord Haldane, Mr. Balfour, Sir George O. Trevelyan, and Mr. Thomas Hardy among the Civil Members of the Order. Lord French, Lord Jellicoe, and Lord Fisher among the military members, and Marshal Foch one of the honorary members.—Liverpool Post.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

The Safety "Bayer Cross" on Tablets Means Genuine Aspirin—Others Are Not Aspirin at All!

"Bayer" Now Made in Canada—No German Interest—All Rights Purchased from U. S. Government

Your druggist gladly will give you the genuine "Bayer Tablets of Aspirin" because genuine Aspirin now is made by Canadians and owned by a Canadian Corporation.

There is not a cent's worth of German interest in Aspirin.

Don't accept Aspirin in a pill-box! Buy a "Bayer Package"!

During the war, acid imitations were sold as Aspirin in pill boxes and various other containers. But there is no substitute for genuine "Bayer Tablets of Aspirin" which have been proved safe by millions for Pain, Headache, Toothache, Earache, Rheumatism, Lumbago, Colds, Grippe, Joint Pains, Neuritis.

Proper and safe directions are in every "Bayer" package. Boxes of 12 tablets—Bottles of 24—Bottles of 100—Also Capsules.

Aspirin is the trade mark registered in Canada of Bayer Manufacture of Monocyclic acetylated salicylic acid. While it is well known that the name Bayer manufacture, to avoid the public against imitations, the Tablets of Bayer Company will be stamped with their special trade mark, the "Bayer Cross."

New York, Aug. 16.—The election of William A. Appleton as president of the International Federation of Trade Unions at the recent congress of that federation in Amsterdam, is characterized as a hopeful sign, by the American Alliance for Labor and Democracy in a statement issued here. Mr. Appleton is described in this statement as constructive, progressive and democratic.

For years, says the Alliance, Mr. Appleton has been secretary of the General Federation of Trade Unions in England. In 1917 he visited the United States as head of a delegation representing the General Federation of Trade Unions. Pointing out that Mr. Appleton was nominated by Samuel Gompers to head the International labor movement, the Alliance statement adds: "Mr. Appleton always has been a staunch friend of the American Federation of Labor and an ardent admirer of its policies and achievements. More than any other European leader of labor, he thinks in accord with Samuel Gompers. During the war Mr. Appleton was tireless in his work for victory."

RAPID AMERICAN GAIN ON BRITISH IN SHIPS

English Experts Divided as to Yankee Menace to Supremacy on the Sea—Is America's New Merchant Marine a Great Menace to British Supremacy, or a Great Joke?

In America's new merchant marine a great menace or a great joke? It is called both abroad, says an article in "American Shipping Through Foreign Eyes," by Henry C. Wilbank, in the current issue of "The Rudder."

In England, the article adds, the United States has been called the "Bad Boy of the Allied Family," and is accused of adding "greediness to its other vices," because of its maritime ambitions.

Another English view, it is stated, is that American shipping is so overcapitalized that it cannot earn reasonable dividends, and restriction of activities and in some cases actual stoppage of operations is declared to be inevitable.

But these are extreme and excepted views. The Rudder points out adding that the great question of the moment in British commercial circles is whether England can meet American competition.

The very form in which the question is put is striking evidence of the revolution in maritime conditions, says the article. Two years ago no one would have thought of asking "can America meet British competition?" At that time the seagoing tonnage of the United States was hardly 10 per cent. of that held by Great Britain. Today it is over 50 per cent. and gaining with a rapidity that threatens to strip Britain of the last remaining vestiges of the maritime supremacy held for 60 years.

Cheaper coal, cheaper steel, and cheaper labor in proportion to the amount of work done, are now America's actual operations of American vessels in some of her particularities, it is pointed out. But British costs are increasing at a rate that indicates that even this advantage is likely to be nullified before long.

Taking 12 of the leading British authorities on shipping and shipping matters, the Rudder pulls their views as to the gravity of American competition. Six see little or no hope of England's regaining its old position, and the other six express confidence in their country's ability to outstrip the United States. A vote on the question, "Is the advantage with Britain or America?" is given in the Rudder's special issue.

It is pointed out that the result would be a tie. The Rudder's special issue, for America—Sir Walter Runciman, former president of the Board of Trade and ship operator; Sir Frederick Henderson, shipbuilder and former president of the Shipping Line Employers' Association; Lord Burgess, head of the Cunard Line; J. W. Harwood, world-famous marine engineer; James French, chief surveyor of Lloyd's register of shipping for the United States; and Lord W. N. Phipps, head of the Canada West Line.

Britain—Lord Pirie, Controller General of Merchant Shipping; Lord Balfour, head of the White Star Line; Lord Inskip, head of the Peninsular and Oriental Line; Sir Joseph Macarty, head of the Canadian Line; Sir Leo Chiozza-Money, former Parliamentary Secretary to the Ministry of Shipping; A. Munro Sutherland, head of the St. Andrew Steamship Company.

Most optimistic of all the views, expressed are those of Lord Pirie, Controller General of Merchant Shipping, and Lord Inskip, head of the Peninsular and Oriental Line. They believe that the United States cannot get along without each other and will work together, he says. Not only does he see no war for trade, nor any dangerous commercial rivalries, but he declares that it will be impossible to construct too many ships in the next 10 years, even with the whole world building at top speed. A sharp contrast to this, however, is presented by the view of Sir H. Babington Smith, Controller General for Great Britain in the United States during the war, who states that unless proper measures are taken it is probable that within three or four years the world's shipping will be in excess of the world's needs, with disastrous results for shipowners and shipbuilders.

Lord Burgess, head of the Cunard Line, the rock upon which British shipbuilding supremacy was constructed, is the rock upon which it is being wrecked, says the article.

More pay for less work is the present attitude of the British workmen and with this handicap the British shipbuilder called upon to meet the American condition of greater pay and greater production.

So serious in fact is the labor situation that two prominent British concerns are establishing plants in America.

Other British shipbuilders who have studied American methods during recent visits to this country have urged English shipbuilders and shipbuilding unions not to be chary in ruthlessly scrapping old practices, hoary traditions and out-of-date methods and machinery.

Claims Dandruff Will Cause Baldness

If you have dandruff you must get rid of it quick—it's positively dangerous and will surely ruin your hair if you don't.

Dandruff means mean faded, brittle, gray, scraggly hair that finally dies and falls out—new hair will not grow—then you are bald and nothing can help you.

The only sure way to abolish dandruff for good is to destroy the germ that causes it. To do this quickly, surely and safely, and at little expense, there is nothing so effective as Parisian sage, which you can get from good druggists everywhere. It is guaranteed to banish dandruff, stop itching scalp and falling hair, and promote a new growth, or the cost, small as it is, will be refunded.

Parisian sage is a scientific preparation that supplies all hair needs—an antiseptic liquid neither sticky or greasy, easy to apply, and delicately perfumed.

If you want beautiful soft, thick, lustrous hair, and lots of it by all means use Parisian sage. Don't delay—begin tonight—little attention now insures abundant hair for years to come.

For Skin Made Flabby and Wrinkled by Heat

Sun, winds and flying dust often cause squinting and other contortions which make wrinkles. You can quickly get rid of every line, however caused, by using a harmless wash lotion made by dissolving an ounce of powdered saxolite in a half pint of witch hazel. The ingredients can be purchased at any drug store.

When depressed by the heat and you want to freshen up quickly for the afternoon or evening, bathe the face for a few moments in the saxolite lotion. You'll find this more refreshing than an hour's rest. It is fine for overcoming that appearance of flabbiness so common in hot weather.

But James French of Lloyd's Register of Shipping who is familiar with the situation on both sides of the Atlantic shows that the attitude of the British worker is hostile to labor-saving devices.

"British interests," he points out, "are watching the development of the American shipbuilding industry very closely. American methods are being taken up to a considerable degree, and the introduction of American labor-saving devices in the British shipyards is increasing steadily. It is difficult, however, to get the men to cooperate to the fullest extent possible in their use."

How much more severely British shipping has been handicapped than that of other nations is not generally realized. During the war period Great Britain, in comparison with all the other Allies and neutrals combined—

Lost 20 per cent. more tonnage. Built 30 per cent. less tonnage. Captured 40 per cent. less enemy tonnage.

Replaced by building alone 60 per cent. less tonnage.

And by building and capture combined 70 per cent. less.

So that at the close of hostilities her seagoing merchant marine showed a net loss of 3,885,000 tons, as compared with a gain of 2,779,000 tons for the other Allies and neutrals.

As a result of the continued shortage of output by the English shipyards, renewed stress has been laid recently by the British press on the suggestion that America should turn over to Great Britain the German tonnage captured in American ports throughout the war. It is pointed out, however, that the United States have been only about 5 per cent.

Supplementing British views a neutral one is presented by the late Mr. Christiano Hannevig, a Scandinavian and an owner, operator and builder of American ships. Visiting England early this year he interviewed representatives of the Anglo-American shipping situation.

"There is no sense in trying to make the United States an artificial maritime nation," he continued. "Her present state methods of shipbuilding as compared with England's are not to be envied. Moreover, the United States is not by habit or training a shipbuilding nation. As to the policy of training her naval architects and sailors, that may joke."

"The United States cannot compete against Great Britain, either in building ships, in managing them or in manning them."

How England Regards American Competition

"I am afraid of America. British industry is going to take second and even third place in the world if things go on as they have been going on in recent months and years."—Sir Frederick Henderson.

"Talk of England being worried about the growth of American shipping is nonsense. We aren't afraid of our American cousins; they aren't afraid of us."—Lord Pirrie.

"Despite our heavy losses we have no reason to think that British shipping will not be fully equal to the demands likely to be made upon it."—Sir Joseph Maclay.

Newly established foreign lines have had ample opportunity of securing a firm hold upon trades which the British shipper had to abandon during the war—a hold, I fear, that they will not readily relinquish. We must therefore be prepared for serious competition in this direction."—Lord Furness.

"It is becoming increasingly difficult for Great Britain to meet American competition. Present shipbuilding costs are not far from the American level and labor conditions are far from encouraging any belief in a reduction of costs in the near future."—James French.

"It does not seem quite fair that America should have the large amount of German shipping that has been taken over by British lines which have borne the brunt of the submarine losses; and apart from that we are not afraid of anybody's competition."—Sir Alfred Booth.

Wheat Shows up Best of Different Crops in England.

ONE DOLLAR!

ITS INCREASED BUYING POWER ON DOLLAR DAY

DOLLAR DAY does not necessarily mean that only one dollar articles are on sale. It does mean, that this is one day in the year when a dollar has more purchasing power than at ordinary times.

During these reconstruction days it behooves everybody to put shoulder to the wheel and help. One way is to buy, buy all you want—this keeps the wheels of industry turning—but buy wisely, and what better time than Dollar Day when the dollar will buy more than at ordinary times.

LARGE VOLUME AT MINIMUM PROFIT being our motto, our prices are always low, so when an opportunity is offered to procure dependable merchandise at substantial reductions on these low prices can you honestly afford to pass it by?

MANY ARTICLES AT BIG REDUCTIONS. Ten per cent. discount on all lines of merchandise not marked at special Dollar Day prices.

CASTORIA For Infants and Children In Use For Over 30 Years

Always bears the Signature of Dr. H. Williams

"BALKANIZATION" GOES ON A FLOUR

Constantinople, July 14. (By wire)—This is "Balkan Day," and Constantinople is in such a state of excitement as she never was for a purely national celebration. Does this mean that the city is more enthusiastic over the French anniversary than over the event in its own national history?

The meaning is the same. The great game of propaganda and the position is played with all the force on the chess board.

Paris, which is the foreign capital of Constantinople, is indeed a city of flags and astral with soldiers. It was a town in France, while the parade of the old Sultan across the Golden Horn, shows the recognition of June 14. In like manner, though in a somewhat lesser degree, Paris a few months ago became a city with Greek flags.

The purpose, of course, is to press the fact that France is the world leader in the idea that France or Greece whatever other nation may be the celebration is paramount in importance. These are outward manifestations of the ceaseless game of propaganda that is being played here by Powers.

Almost as obvious is the way in which newspapers are published propaganda despatches circulated industrial natives "employed" in Constantinople, and any news succeeds in getting through this is likely to be justicous. This propaganda is being carried out by cable or open mail.

Why the Turk May Not Go. At present the game of intrigue reaches almost a checkmate in Constantinople. Each power has scored advantages out of the provinces. Because of mutual jealousy, these are not one European Power will be permitted to acquire this gate city. Therefore, they are agreed to give it to America or to let the Turks retain it.

Civilization should know that this is every present prospect of the Ottoman government. Here in Constantinople as well as elsewhere in the world, the Europeans and Americans that Turk should get out of Europe and so release his hold upon subject races. Every day's delay increases the likelihood of the continuance of Turkish control.

There are several reasons for this. Foremost is the fact that the designing European nations may by intrigue and bribery, use the Ottoman Empire as a base for their own signs, political and commercial.

COCCHI KNOWS HE IS DOOMED

In His Trial for Murder of Ruth Cruger His Dramatic Appeal to the Court Gained Him Nothing.

Bologna, Italy, July 18.—(Correspondence of the Associated Press.)—Jurors who sat in the last session of the court which has been trying a man named Cocchi for the murder of Ruth Cruger in New York City have today admitted that they saw little hope of his own dramatic tale in which he accused his own wife of killing the New York girl and admitted he mutilated his wife's face to protect his wife.

The jurors said Cocchi's story had robbed him of any pity for his plight. "He gained nothing by his dramatic presentation in the court of the affair," said one juror. "The very description of the incident was enough to accuse him disregarding any motives that he might have had. His tale was certainly not his own. He had to have this trial postponed again and again so that he will be entitled to receive his friends and his family in prison instead of suffering solitary confinement."

Cocchi's counsel has obtained another delay in the trial. According to Italian criminal procedure, any convicted man would have deducted from his sentence all the time he served in prison prior to his trial so that all the time Cocchi delays the sentence will be much time saved from hard labor and solitary confinement.

"Cocchi knows that he is a doomed man. That is why he is playing for delay," said one juror to the Associated Press correspondent. President Judge Bagnoli, who, according to Italian practice, conducts the cross-examination, there being no private prosecutor present, stated he would use all his powers to bring all the evidence before the jury, requesting if necessary, witnesses from America.

ADMIT WINNIPEG BEACH ROBBERY

Two Self-Confessed Hold-up Men Receive Prison Sentences.

Winnipeg, August 18.—Gordon C. Thompson was sentenced to two years and three months in the penitentiary, and his partner, Albert E. Broadley, to a two year term when they were in court today charged with a highway robbery committed at Winnipeg Beach last Wednesday.

The accused pleaded guilty to having held up, at the point of a loaded revolver, the cashier of the Winnipeg Beach Amusement Company, and robbing him of \$2,287. Practically all the money was recovered.

GIRLS! USE LEMONS FOR SUNBURN, TAN

Try it! Make this lemon lotion to whiten your tanned or freckled skin.

Squeeze the juice of two lemons into a bottle, containing three ounces of orchard white, shake well and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

The grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

OBITUARY

Edward Powers. The death took place yesterday morning at the General Public Hospital, of Edward Powers, a well known resident of the North End. He leaves his wife and two daughters, Mrs. Harvey Buxton, of Old Town, Maine, and Frances, at home. John Powers and Mrs. Robert Barry, of this city are brother and sister, respectively.

The funeral will be held on Friday morning next at 8:45 standard time, from his late residence, 31 Hilyard street, to St. Peter's church.

How England Regards American Competition

"I am afraid of America. British industry is going to take second and even third place in the world if things go on as they have been going on in recent months and years."—Sir Frederick Henderson.

"Talk of England being worried about the growth of American shipping is nonsense. We aren't afraid of our American cousins; they aren't afraid of us."—Lord Pirrie.

"Despite our heavy losses we have no reason to think that British shipping will not be fully equal to the demands likely to be made upon it."—Sir Joseph Maclay.

Newly established foreign lines have had ample opportunity of securing a firm hold upon trades which the British shipper had to abandon during the war—a hold, I fear, that they will not readily relinquish. We must therefore be prepared for serious competition in this direction."—Lord Furness.

"It is becoming increasingly difficult for Great Britain to meet American competition. Present shipbuilding costs are not far from the American level and labor conditions are far from encouraging any belief in a reduction of costs in the near future."—James French.

"It does not seem quite fair that America should have the large amount of German shipping that has been taken over by British lines which have borne the brunt of the submarine losses; and apart from that we are not afraid of anybody's competition."—Sir Alfred Booth.

Wheat Shows up Best of Different Crops in England.

Southwest Lancashire farmers do not take an encouraging view of the harvest prospects. The fullness of the crops was fatally affected by the dry weather in May. June's rain came too late to repair the damage, with the result that oats are poor, wheat only relatively fair, and root crops an absolute failure. So far as potatoes are concerned, the acreage is 15 per cent. below that of last year, and the prospective yield may be 25 per cent. below that of 1918.

It can, perhaps, be said that the harvest prospects are somewhat better than seemed probable a short time ago and possibly the prospects for southwest Lancashire are slightly better than those of the rest of England. But the productivity of the fields generally, according to an authority, are below expectations. In regard to wheat, it is probably the best of an indifferent array of crops, though the wet autumn prevented as large an area being put under cultivation as had been proposed.

Labour in the agricultural districts is becoming an easier problem, though the withdrawal of all, but 20 per cent. of the soldier laborers, which occurred some months ago, may create a difficult situation when the harvest is in view.

"BALKANIZATION" OF TURKEY GOES ON A PACE, WITH INTRIGUE FLOURISHING AS BEFORE WAR

Constantinople, July 14, (by Con- tributor.)—This is "Balkan Day," and Constantinople is in such a state of excitement as she never was for a purely Turkish celebration. Does this mean that the city is more enthusiastic over the French anniversary than over any event in its own national history? Far from it. The meaning is that the great game of propaganda and power and position is played with all the men on the chess board.

Pera, which is the foreign quarter of Constantinople, is bedecked and be- flagged and astir with soldiers as if there were a town in France, while stores are closed and street cars stopped for the parade; though the French Indian across the Golden Horn, shows no signs of recognition of June 14. In like fashion, though in somewhat lesser degree, Pera a few months ago became a flutter with Greek flags.

The purpose, of course, is to impress the natives and the world with the idea that France or Greece or whatever other nation may be staging the celebration is paramount in Turkey. These outward manifestations of the cause of particular nations that is being played here by the Powers.

Almost as obvious is the way subsidized newspapers are published and propaganda despatches circulated and influential natives "employed" to promote the cause of particular nations. There is a treble ownership upon outgoing despatches and mail and upon local publication, and any news that succeeds in getting through this mill is likely to be false. This present despatch could never survive even the first one of the censors if transmitted by cable or open mail.

Why the Turk May Not Go. At present the game of intrigue has reached almost a checkmate in Constantinople itself, although each player has scored advantages out in the provinces. Because of mutual jealousies it is clear that no one European Power will be permitted to acquire this gate city. Therefore, they have agreed to give it to America or else to let the Turks retain it.

Civilization should know that there is every present prospect of the continuance of the Ottoman government here in Constantinople, as well as over so much of its former territory as is not grabbed by the Entente nations. It has been a slogan of all intelligent Europeans and Americans, that the Turk should get out of Europe and also release his hold upon subject races. Every day's delay increases the likelihood of the continuance of Turkish control.

There are several reasons for this. Foremost is the fact that, at present, the designing European nations may, by intrigue and bribery, use the Ottoman officials to further their own designs, political and commercial. It is

the general opinion here that intrigue is more rampant in Constantinople today than before the war. Nations which know that their interests may not hope to attain sovereignty of the city and the straits are aware that they can secure their ends through the Turkish government.

Indian Moslems Prop Sultan's Throne. Possibly of even greater weight in securing the continuance of the Sultan at Constantinople and the maintenance of St. Sophia as a Moslem mosque is the softness of Great Britain for the sensitivities of her Indian Moslems. At least informal assurances have been given to these that the Sultan, who is Caliph of all Islam, will not suffer in his dignity and that St. Sophia's position as a Moslem shrine will not be disturbed.

The constant tugging and pulling here of the rival Powers, not only threatens to Balkanize Turkey and thus create a permanent condition of strife in the Near East, but it also delays the restoration of anything like normal conditions of life. The leaders in the Armenian atrocities have not yet been punished, although there are hundreds of men known and within reach who could be quickly tried and hanged by any disinterested tribunal. The scandalous delay in bringing to book these arch criminals against humanity has created the impression that the Allies have political aims of their own which take precedence of justice and honor.

Trouble Back in Its Old Home. Naturally, all Turkey is in a ferment. Anarchy is widespread in the interior. Fighting is going on in many places. Bands of patriots or robbers are dominating some sections of the country. In the Caucasus they have slain Christians. Wherever the Greeks and Armenians have been strong enough to attempt reprisals for war-time atrocities they have done so. The French enrolled an Armenian "Oriental Legion," which has been an unfortunate experiment, for in addition giving occasion for high-handed conduct by the uniformed Armenians toward the natives it has caused great bitterness of feeling between the French and the Armenians, and both count the "Oriental Legion" a mistake.

There is a shifty action against it, a conference of Turkish leaders to formulate a policy for the Turks. This may be a decisive meeting. The arrival of the American Commission Upon Mandates in Turkey from Syria is also looked forward to with expectation of a possible settlement of the present impossible situation. A little while the present sort of peace and there would surely be open international war in Turkey.

SUMMER DRESSES—Only \$5.00 are these lovely muslin and voile dresses that are regular \$10.00. They are good shades and smart styles in dainty colors, flesh, mode, grey, sand, green, blue, yellow, also white. Sizes 16 to 42 inch. Regular \$10.00 each. On Dollar Day \$5.00

Two Self-Confessed Hold-up Men Receive Prison Sentences

COCCHI KNOWS HE IS DOOMED MAN

In His Trial for Murder of Ruth Cruger His Dramatic Appeal to the Court Gained Him Nothing.

Bologna, Italy, July 15.—(Correspondence of the Associated Press.)—Jurymen who sat in the last session of the court which has been trying Alfredo Cocchi for the murder of Ruth Cruger in New York City have told that they saw little hope for Cocchi in his dramatic tale in which he accused his own wife of killing the New York girl and admitted he murdered Miss Cruger's body to protect his wife.

"He gained nothing by his dramatic presentation in the court of the affair," said one jurymen. "The very description of the incidents were enough to accuse him disregarding any of the motives that he might have had. His tale was certainly well prepared for the jury, and his meals in prison instead of suffering solitary confinement."

Cocchi's counsel has detained another day in the trial, according to an Italian criminal procedure, any convicted man would have deducted from his sentence all the time he served in prison prior to his trial so that all the time Cocchi delays the sentence will be much time saved from hard labor and solitary confinement.

"Cocchi knows that he is a doomed man. That is why he is playing for delay," said one jurymen to the Associated Press correspondent. "President Judge Bagnoli, who, according to Italian practice, conducts the cross-examination, there being no private prosecutor present, stated he would use all his powers to bring all the evidence before the jury, requesting if necessary, witnesses from America."

Winnipeg, August 18.—Gordon C. Thompson was sentenced to two years and three months in the penitentiary, and his partner, Albert E. Broadley, to a two year term when they appeared in court today charged with highway robbery committed at Winnipeg Beach last Wednesday.

The accused pleaded guilty to having held up, at the point of a loaded revolver, the cashier of the Winnipeg Beach Amusement Company, and robbing him of \$2,267. Practically all the money was recovered.

Nothing Like Plain Bitro-Phosphate to Strengthen Weak Nerves and Increase Strength and Vigor.

According to a noted French Scientist, the most effective remedy for nervousness, insomnia and ailments due to depleted nerve force, is a form of organic phosphate known among druggists in this country as Bitro-Phosphate.

How to Stop Being Nervous

Nothing Like Plain Bitro-Phosphate to Strengthen Weak Nerves and Increase Strength and Vigor.

MARKET REPORTS

STOCKS, BONDS AND PRODUCE

SECURITIES UNDER SEVERE PRESSURE ON STOCK MARKET

Some of the More Active Issues Fell to Lowest Quotations of the Year—Labor Troubles Show Their Bearing on Transactions.

New York, August 18.—Securities were under severe pressure in today's very nervous stock market, some of the more active issues falling to lowest quotations of the year, while many others completely offset the material gains scored in the long-continued bull movement which culminated two weeks ago.

Liquidation was resumed at the outset, notwithstanding the double holiday, notably the Mexican situation and especially the local traction strike, provoking further selling. From the character of the trading the decline was obviously assisted by substantial selling on the part of the shorts, who continued to press their recent advantage on the apparent lack of public support.

FORTY WORKMEN ENTOMBED BY MINE EXPLOSION

Trinidad, Colo., Aug. 18.—Forty coal miners are entombed by an explosion in the Oakview mine of the Caddo Coal Company near Laveta, Colorado, in Huerfano county, according to reports reaching here, early this afternoon. Calls for helmet men and rescue gangs have been sent out to mines in the Walsenburg and Trinidad districts.

PRICES FIRM ON MONTREAL TRADE

Montreal, Aug. 18.—During the early trading, transactions were light and prices held well, ignoring the weaker tendency in the New York market. In the afternoon, however, prices eased off, but the reaction amounted to a point only, in issues such as Brazilian. Steel stocks held well throughout the day. Power was steady and unchanged at 91. There was an easier tendency in the war loans.

TORONTO GRAIN QUOTATIONS

Toronto, Aug. 18.—Cash grain quotations on the board of Trade here today are: Manitoba Wheat, in store Fort William, No. 1 northern, \$2.24 1/2; No. 2, \$2.21 1/2; No. 3, 2.17 1/2; No. 4 wheat, \$2.11.

Ontario Oats, according to freights outside, No. 2 white, \$7 to 90 cents; No. 3 yellow, nominal; No. 4 yellow, nominal. American Corn, track Toronto, prompt shipment, No. 3 yellow, nominal; No. 4 yellow, nominal. Ontario Wheat, f.o.b. shipping points, according to freights, No. 1 winter, per car lot, nominal; No. 2, \$2.03 to \$2.08; No. 3, nominal; other grades nominal. Barley, according to freights outside, No. 2, nominal; other grades nominal. Buckwheat, according to freights outside, No. 2, nominal. Rye, according to freights outside, No. 2, nominal. Manitoba Flour, government standard, No. 1, \$1.10 to \$1.15; No. 2, \$1.05 to \$1.10; No. 3, \$1.00 to \$1.05. Ontario Flour, government standard, in late bags, Montreal, prompt shipment, \$0.25 to \$1.00; Toronto, \$1.05 to \$1.10. Millfeed, car lots, delivered Montreal, freights, bags included, bran, per ton, \$42 to \$45; shorts, per bag, \$4.4 to \$5.0; good feed flour, per bag, \$3.25 to \$3.35.

STEEL OPERATIVES REPORTED READY FOR STRIKE

The Rumor, Although Unconfirmed, Had Damaging Effect on Stock Market.

(McDougall & Cowans.) New York, Aug. 18.—Reports that 90,000 operatives in the steel mills of the Chicago district had voted to strike appeared to be of doubtful reliability, but nevertheless affected stocks. Other rumors were current of impending strikes on individual railroads, but these were almost certainly unfounded. Attacks in Congress on various food corporations, though of the kind that has become familiar of late, added to the general feeling of unsettlement. Stocks steadied somewhat in the last few minutes of trading but did not have a rally.

MONTREAL MARKETS

Montreal, Aug. 18.—OATS—Extra No. 1 feed, 1.91. FLOUR—New standard grade \$10.70 to \$11.10. ROLLED OATS—Bag 90 lbs., \$4.95 to \$5.25. MILLFEED—Bran \$42; shorts \$44. HAY—No. 2, per ton, car lots, \$28. CHEESE—Finest eastern, 25. BUTTER—Choice creamery, 55 to 55 1/4. EGGS—Fresh, 62 to 64; selected, 57 to 58; No. 1 stock, 50 to 52; No. 2 stock, 43 to 45. POTATOES—Per bag, car lots, \$2.50 to \$2.75. DRESSED HOGS—Abattoir killed, \$33.00. LARD—Pure, wood pallets, 20 lbs. net, 36.

CHICAGO PRICES

Table with columns: Commodity, Price, Change. Includes Chicago, August 18—Corn, No. 2 mixed, 1.94 to 1.95; No. 2 yellow, 1.96. Oats, No. 2 white, 72 1/2 to 75; No. 3 white, 70 1/2 to 75. Rye—No. 2, 1.53 1/2 to 1.54 1/2. Barley, 1.35 to 1.43. Timothy—90 to 117 1/2. Clover—Nominal. Pork—Nominal. Lard—28.30. Hibe—23.50 to 24.00. Corn: High, Low, Close. May, 1.87 1/2, 1.83 1/2, 1.85 1/2. Sept., 1.80, 1.76 1/2, 1.78. Dec., 1.43 1/2, 1.38 1/2, 1.40 1/2. Oats: May, 78 1/2, 76, 77 1/2. Sept., 73, 71, 72. Dec., 76 1/2, 73 1/2, 74 1/2. Pork: May, 44.90, 40.40, 41.25. Sept., 44.90, 40.40, 41.25.

N. Y. COTTON MARKET

Table with columns: Month, High, Low, Close. Includes Jan., 30.23, 29.36, 29.14. Mar., 30.36, 29.96, 30.18. May, 30.30, 29.90, 30.19. Oct., 30.30, 29.75, 30.03. Dec., 30.43, 30.29, 30.18.

BRITISH PROFITS TAX

Finance Bill Provides Big Cut in Levy on Business. Although London dispatches on May last carried a summary of the new British budget, which included a reduction in the excess profits tax from 30 per cent. to 40 per cent., the Finance Bill for 1919 has not yet been passed by the Parliament. It is not known in local financial circles whether or not the delay is due to hesitation as to cutting down the excess profits tax. Ordinarily the Finance Bill is promptly approved by the Parliament, and the provisions of the tax levy became operative from the date of introduction of the bill. In the pending measure income tax rates were left unchanged, but excess profits rates for the calendar year 1919 were cut in half. Presumably excess taxes have been collected so far at the reduced rate. In the event that the bill should be modified by a restoration of the 30 per cent. rate or a compromise at 60 per cent., calculations as to taxes to be paid by British companies whose shares are dealt in the market may have to be revised.

Polarine

REDUCING MOTOR OIL "Makes a good car better."

ALL SERVING YOU

From Halifax to Vancouver, thousands of Imperial Oil Service Stations and Imperial Oil Dealers are ready to give prompt, courteous service and reliable information regarding the most suitable fuel and lubricants for your requirements. Behind Imperial Oil Representatives and Imperial Oil Products stands the warehouse man, the refinery man, the pipeline man—an army of thousands—an oil refining and distributing organization second to none on the Continent. Selected crude oil and scientifically perfected processes make Imperial Oils, Fuels and Greases unbeatable for their intended uses. Imperial Polarine is the perfected lubricant for automobiles, trucks, tractors and gasoline-driven stationary engines. It does not disintegrate at high cylinder heat—protects bearings and engaging parts from wear. It maintains a fuel and gas-tight seal between pistons and cylinders—saves fuel and delivers maximum power. Consumed with hardly a trace of carbon. Three grades—Imperial Polarine, Imperial Polarine Heavy and Imperial Polarine A—for different types of engines, service conditions and fuel. Ask the Imperial Oil man who to use. In half, one and four gallon sealed cans, twelve and a half gallon steel kegs, half-barrels and barrels.

IMPERIAL OIL LIMITED

Miramichi to load dents.

Boleslavim on the Wane.
Philadelphia Record: The collapse
of Bela Kun's communist regime at
Budapest probably marks the begin-
ning of the end of the Bolshevik
threats to Europe. To be sure,
Lenine and Trotsky still hold sway in
Russia, but their capacity for mischief
is limited so long as it is confined to
that unfortunate country. Lenine has
been quoted more than once as saying
that the ultra-socialistic movement
engineered by him would be a failure
unless it could be communicated to ad-
joining nations and then spread
throughout Europe.

L'Etete or Back Bay.
Leaves St. Andrews Monday evening
or Tuesday morning, according to
the tide, for St. George's, Mack Bay
and Black's Harbor.
Leaves Black's Harbor Wednesday
on the tide for Dipper Harbor, calling
at Beaver Harbor.
Leaves Dipper Harbor for St. John
a. m. Thursday.
Agent—Thorne Wharf and Ware-
housing Co., Ltd., Phone 2881. Man-
ager Lewis Cove and Beaver Harbor.
This company will not be responsi-
ble for any debts contracted after this
date without a written order from the
company or captain of the steamer.

SEALING TENDERS
The undersigned and endorsed "Tenders
for Ties" will be received at this office
until twelve o'clock noon, Monday,
25th day of August, for 1,400,000 Rail-
way Ties to be made and delivered
between October 1st, 1919, and Octo-
ber 1st, 1920, in accordance with the
Specification No. 3858, dated March
11th, 1919.
400,000 to be delivered on Trans-
continental (District 5), South of the
St. Lawrence River.
1,000,000 to be delivered on Inter-
colonial, Halifax Division.
Tender forms and Specifications can
be obtained at the office of the
General Tie Agent, No. 2 Toronto
Street, Toronto.
Tenders will not be considered un-
less made on forms supplied by the
Railway.
No tender for quantities less than
10,000 ties will be considered.
A certified cheque for one thousand
dollars must accompany each tender.
The Board does not bind itself to ac-
cept the lowest or any tender.
Dated at St. John, N. B., August
8, 1919.
H. HEDDEN, M. D.,
Secretary of Board of Commissioners

PRE-WAR AND PRESENT PRICES

Four-fold Increase on Wool-
len Goods Recorded in
England.

Captain Bagley (Farnworth, CUD)
asked the President of the Board of
Trade, in the House of Commons, yester-
day, what would be the approximate
value at pre-war prices of the quanti-
ties of the following commodities, re-
spectively, purchasable today for £100
at any popular retail store:—Boots,
clothing, cotton, piece goods, woollen
underwear, furniture domestic hard-
ware, glass and chinaware.

Mr. P. Horpe, who replied, writes:
"Owing to the changes in quality
which have been made during the war
and to the general increase in the ex-
tent to which different articles and dif-
ferent qualities of the same article
have been affected by price changes,
it is not possible to give precise par-
ticulars. The available information,
however, indicated that taking the
quantities generally bought by working-
class and lower middle-class families,
the pre-war values of the quantities
now purchasable for £100 would be
approximately as follows:—
Boots £30 to £60
Men's suits 35 " 40
Cotton piece goods 25 " 30
Woollen underwear 25 " 30
I am unable to give corresponding
figures for furniture, domestic hard-
ware, glass, and chinaware.—Liverpool
Post.

SURVEYING ROUTE OF AERIAL LINE SYDNEY-LONDON
Sydney, Australia, July 9.—(Corre-
spondence of The Associated Press.)—
Survey of the route of the first section
of the projected aerial service between
Sydney and London was recently com-
pleted. The section extends from Syd-
ney to Darwin, which is on the north
coast of Australia and relatively near
the Malay Archipelago. The ser-
vice will be carried on by a Sydney
company.

From Darwin the route will cross
the sea to the island of Timor, pro-
ceeding along the Malay Archipelago to
India and thence north to Bagdad or
Port Said—probably the latter. From
Port Said it will cross Europe to Lon-
don. The survey of the second sec-
tion of the route, from Darwin through
Malaya to Delhi, is now going on.
It is expected that the first flight
will be made within the next few
months, and it is planned to have the
proposed passenger and commercial
services in full operation in about two
years. If the company succeeds Lon-
don will be reached regularly from
here in 6 1/2 days.

AROUND THE CITY SHOWERS

A NEW CURBING. A new curbing is being placed in City Road. Some of the excavation work has already been done and the granite is at hand ready to be placed in position.

CLOSED TO TRAFFIC. Work on the paving of Union street between Waterline and Brunswick streets was begun yesterday. While the work is in progress this block has been closed to traffic.

WANTED FOR BLEACHERS. Two requests were received yesterday by Commissioner Bullock for the stand erected for the school children at Reed's Point, delegations from the West End and East End Improvement League asking that they be allowed to remove it for bleachers. A decision in the matter will be given later.

WILL ATTEND CONVENTION. Hon. J. B. M. Baxter is to leave this week for Winnipeg to attend the meeting of the Canadian Barriers' Society to be held in that city. He will be accompanied by J. Allen LeBlanc of DeLorge and after the convention they will pay a visit to the Pacific coast.

THE HOUSING SCHEME. Nothing new in regard to home building under the federal aid scheme was announced by Commissioner Bullock yesterday. The scheme as outlined did not seem to meet the requirements here and it had been suggested by the mayor that at the next session of the legislature the city procure authority to loan money for housing when local needs could be met better than under the present scheme.

SEVERELY INJURED. Malcolm Yeomans, nine year old son of Frederick Yeomans, of Candon street, was severely injured yesterday while flying a kite at the foot of Portland street. He fell over the wharf while running and when picked up it was found he had broken one leg and bruised his head and body. He was taken to the hospital where last evening he was reported to be resting comfortably.

G. W. V. A. FAIR. The attendance at the Great War Veterans' Association Fair in the St. Andrew's rink last night was large, there being about two thousand people present. The winning number was 9020, and the prize was half a ton of coal. A good prize is offered for tonight when the most successful fair yet held will be brought to a close.

A NARROW ESCAPE. W. Norman Earle had a narrow escape from injury yesterday when his auto dropped over an embankment at the southeast corner of Duke and Prince William streets. Mr. Earle, who had intended to back the car placed his foot on the go ahead pedal instead of the reverse, the front wheels going over the bank but the rear wheels staying on the street. With the aid of planks the car was safely returned to the street and Mr. Earle proceeded on his way.

APPLE ORCHARDS ARE LOOKING FAIR

Prospects Are for a Good Crop Along the St. John River Valley is Statement of Supt. Hubbard of Dominion Experimental Farm.

The apple orchards in the St. John River valley are looking fair and the prospects are for a good crop if nothing untoward happens, according to Superintendent Hubbard of the Dominion Experimental Farm at Burton who arrived in the city yesterday on his way to Nova Scotia, where he will make a trip through the Annapolis Valley in company with a party of fruit growers. This spring the apple growers of the Annapolis Valley tried some new dust and other sprays on their orchards and the party will observe results.

Over thirty returned soldiers have taken the course at the Experimental Farm provided by the Soldiers Civil Re-Establishment Department, and there are about a dozen at the farm now, while others are working along with private farmers. Mr. Hubbard said that all the men who had been sent to the farm for training were of A1 calibre, and showed a surprising eagerness to make the most of their opportunities. Some had already bought and settled on farms and he believed they would make a success. Among those who have taken the course are men who have been officers.

FARM LABORERS BOUND FOR WEST

Final Section Conducted by C. P. R. Left Last Evening With Five Hundred Men—Over Eight Hundred Left a Week Ago.

The final section of the farm laborers' excursion conducted by the Canadian Pacific Railway left here last evening at 10:30 with about five hundred men aboard bound for western points. The first excursion was a week ago when the C. P. R. special took out something over eight hundred. The fare this year was \$12 going and \$18 for the return trip. There was an excursion run last year on account of the war conditions. There was need of men to assist in harvesting the western crop this year, and the low rate trip was again started. The Canadian National Railways also ran excursions this year, but their trains went through Moncton. The men in the party which left here last evening included many returned soldiers, who will look over conditions in the west and it was understood that many will remain there if there is opportunity.

CONFERRED IN REFERENCE TO THE HARBOR SITUATION

Mayor, Commissioner Bullock, City Solicitor and City Engineer in Conference—Decide to Ask Dominion Gov't to Appoint Engineer to Go Over Harbor Property Boundaries With City Engineer to Establish Metes and Bounds.

The mayor and Commissioner Bullock held a conference yesterday with the city solicitor, Dr. Baxter, and the city engineer, Mr. Hare, in reference to the harbor situation, and it was decided to ask the Dominion government to appoint an engineer to go over the harbor property boundaries with the city engineer. The city fathers are of the opinion that the act passed by parliament should not be the basis of the plebiscite, as no reservations are made giving the city the right to slips to operate the ferry service. One point of departure of the harbor line specified in the act is Green Head on the St. John river, and the other is somewhere on the shores of Courtenay Bay, apparently outside the city limits. Commissioner Bullock said yesterday that their idea was to have the city engineer and an engineer of the government work together to establish metes and bounds showing just what the government might take over, and then have the city recorder draft provisions respecting the city's right to the use of ferry slips, etc. Then they would advertise the proposition, and call for a plebiscite.

"I am in favor of a plebiscite as soon as possible," said the Commissioner of Harbors. "I don't think the offer made by the government is fair to St. John, but it is the business of the citizens to decide." "Costs of maintenance are going up, and at present prices of oil it costs a small fortune to do any painting. We can only get more revenue by having more shipping come here, and we are

already in competition with the government here. The Canadian National Railways have leased orders to abolish top wharfage on the Long wharf, which will put that part of the harbor on a similar basis to Halifax, where the railway absorbs the top wharfage. But that may tend to attract ships from the city wharves. "We have been trying to induce the government to get busy, and build grain conveyors to the berths 14 and 15 on the west side," added Commissioner Bullock. "This winter the Canadian grain crop will evidently have to be shipped through Canadian ports, and there will be more grain than we can handle. Unless the grain conveyors are built we will have the same situation as last winter. The city berths will have to be largely reserved for the grain ships, while the general cargo ships will go to the government berths. That is no good to us. The city depends for its harbor revenues mainly on the general cargo ships. The revenue from the grain ships is very small, and it would not pay to get a share of it if they went to Portland."

Mr. Bullock did not appear to be hopeful that the grain conveyors would be constructed in time to be of service early this winter. Col. Ballantyne, Minister of Marine, is now sick in Montreal, and the Ministry of Public Works is without a head. When Col. Ballantyne was in St. Andrews Commissioner Bullock spent three days there trying to get a chance to see him, but the minister was then so sick that he could see nobody on business.

ARE SAID TO BE PLANNING TO CONSTRUCT COAL DEPOT HERE

Nova Scotia Steel and Coal Company May Enter Into Competition With Dominion Coal Company in Business of Bunkering Ships—Reported Company Plan on Establishing Coal-Pocket on the West Side.

The Nova Scotia Steel and Coal Company are said to be planning to construct a coal depot here and enter into competition with the Dominion Coal Company in the business of bunkering ships as well as of supplying coal for local consumption. This company has purchased the up-to-date bunkering plant, which the Imperial Government assembled at Halifax during the war to supply coal to transports. Part of this is said to consist of floating bunkering machines such as are used in England, which are placed alongside a ship, and have a bunkering capacity of 200 or 300 tons per hour each. One of these machines may be brought to St. John.

It is reported that the N. S. Steel and Coal Company plan on establishing a coal pocket on the West Side, with the most modern equipment for unloading colliers, and when its plans are worked out the effect on the local

coal situation should be favorable. The city authorities now have no coal from this company's mines on its ferry boats, and the engineers have reported that this coal is of a very fine quality. It is understood that the N. S. Steel and Coal Company figures that in the future, owing to the advance of coal prices in England, and the fact that the British shipping companies will take coal here for the round trip, as they are now doing in Montreal, and it proposes to get a share of this business. Moreover the number of boats sailing from St. John to foreign ports where there is no possibility of securing cheap coal is increasing, and offering a bunkering business of some importance.

Another consideration is that the Canadian National Railways are expected in the near future to make St. John a winter terminal of some consequence, and that with a coal pocket here the railway would take large supplies of coal.

Dominion Trade Commissioner Here

D. K. Ross, Commissioner at Melbourne, Australia, Talks Interestingly of Prospects for Future Trade Between That Country and Canada.

D. K. Ross, Dominion Trade Commissioner at Melbourne, Australia, who has been spending a few days in the city, when seen last night at the Royal by a Standard representative, talked interestingly of his work in the Commonwealth and the prospects for future trade between that country and Canada. He said it was the policy of the Department of Trade and Commerce of Canada to temporarily recall their trade commissioners in various parts of the world to the Dominion in order that they might become familiar with industrial advances by close personal investigation. During the war it had been impossible for the commissioners to come home and as a matter of fact he himself had not been in St. John since 1908. Now that the war had ended, however, they were once more resuming their periodical visits, and among those who had recently come to Canada, were E. J. Egan, of South Africa; Mr. Webb, of the Argentine Republic, both of whom have been in St. John, and W. A. Beddoe, of New Zealand, who is shortly due here. Mr. Ross said he had found quite a number of manufacturers in the Maritime Provinces, including several in St. John, taking a great interest in the development of trade with both Australia and New Zealand, but the prospects for immediate business were not favorable for two reasons, one being that the country was to some extent overstocked in several lines, and the other that the tariff was under consideration in parliament, and until the new schedules had been settled and made public the importers did not know just where they got off. During the war it was practically impossible to secure shipping facilities and hence much Canadian cargo which had been sold in Australia had remained at the factories until this year, and this was one of the reasons for the overstocking which existed at present.

The Commonwealth already owned a considerable fleet of steamers, besides operating twenty-one German

RETURNED MEN REACH QUEBEC

Charles Robinson, Secretary N. B. Returned Soldiers Commission received a wire last night stating that the steamer Corsican had arrived at Quebec with the following men for this district: Sgt. S. Callow, 247 Charlotte St. St. John. Pte. J. M. Comors, Lowell, Mass. Pte. A. Doucette, Bank of Nova Scotia, St. John. Spr. M. C. Fillmore, Sison Ridge, Vic. Co. N. B. Pte. G. Lecousse, Bathurst, N. B. Pte. J. J. Price, Sussex, N. B. Pte. N. H. Smith, St. John. Pte. A. A. Smith, St. John. It is expected that these men will arrive here this evening on the express at 9:10 o'clock.

WEDNESDAY IS DOLLAR DAY

Great preparations are going on at Dyckman's. They purpose making this the record breaking Dollar Day, and if bargains are an inducement for people to buy, they certainly have them. They have imported a big lot of Fall's Silk Dresses for Dollar Day selling, the like of which has never been had before for twice the price they have placed on these, \$12 each, and the quantity is so large that you are sure to be able to find your size and the color you want. They also have a lot of Silk Poplin Skirts which will be sold during Dollar Day at \$5.50 and \$6.75, and a lot of Taffeta Silk Skirts to be sold at \$7.50 each. Every department in the store will offer its bargains for this day. A lot of very fine Wool Plaid Skirts will be on sale on Wednesday at \$9.00 each. Worth from \$13.00 to \$15.00.

Steamers which had been interned in Australian ports at the outbreak of the war, and Australian importers were taking a great interest in the Canadian government construction of seagoing vessels, with a view to securing the tonnage necessary for the development of trade between the two countries.

Through the sending of these trade commissioners to various countries the trade had been stimulated and Australia was no exception to the rule, his office having been instrumental in placing several very large orders with Canadian manufacturers. Mr. Ross leaves tonight for Bathurst, going from there to Ontario, where he expects to spend some considerable time before returning to Melbourne.

The Canada-France Lite For This Port

Now Operating Fortnightly Service Between Montreal and Havre—Managers Seeking Information and Expected Ships Will Be Here Next Winter.

St. John will probably be the winter port of the Canada-France line, which is now operating a fortnightly service between Montreal and Havre. The managers have been seeking information about the insurance rates to the Bay of Fundy, and the harbor facilities here, and Com. Bullock said yesterday that he thought the line would come to St. John this winter. The Canada-France service was established this spring with cargo boats of about 4,000 tons, and has evidently been successful; at any rate two passenger boats have recently been added to the service, and there is a report that the big French liner La Touraine will be diverted from the New York to the Canadian route. The service is operated by the Compagnie Generale Transatlantique, probably the most important shipping company of France, in co-operation with the Canada Steamship Lines, Ltd., the biggest shipping company in Canada. If, as seems probable, the boats of this line come to St. John, it will mean considerable business for the port, and the boats will probably call here for the round trip as they are now doing in Montreal.

Another indication of the increasing interest in St. John as shipping port was furnished yesterday by a report that the Head Line were contemplating opening an office of their own here. This company's service between Montreal and Belfast this summer has been doing well, and it is said to be planning for a considerable expansion of its Canadian business. During the war the Head Line lost a large number of ships through enemy action, but it is replacing its lost boats with ships of larger tonnage.

Grand Closing Of The Veterans' Fair St. Andrew's Rink

The G. W. V. A. fair, which has proved the most successful ever held by the association, will be brought to a close tonight with special music and attractions. A brass band and orchestra will be in attendance and will conduct a continuous programme during the evening. There is a large number of articles to be disposed of and these will go at very low prices. At the close of the regular programme a farewell dance will be held, when ladies and gentlemen will be given the privilege of dancing to the music of a first class orchestra. Every one in the city is invited to be present and enjoy themselves.

THE GREAT CELEBRATION

Part of Mayor Hayes' Resolution in the Council Yesterday.

St. John probably never saw such crowds on her streets, and no city ever saw such good natured and well behaved people. The almost entire absence of the effects of liquor was especially referred to by Chief Chamberlain of the Dominion Police, who stated that such a satisfactory state of affairs would be impossible under license laws.

WHO WANTS TO RETURN TO LICENSE?

Mr. and Mrs. G. Merritt Williams of Long Reach, N. B., announce the engagement of their second daughter, G. Mabel, to Sergt-Major W. O. G. Wright, of the Headquarters Staff, M. D. No. 7, the wedding to take place in September.
