 milist (London), April 1571.
 "A series of charming Essays. . . Each ohapter branches out into innumerable topics of a secondary and collateral nature, giving to the work a boundless diversity. enriched with stores of chical as well as of spiritual wisdom, evincing at once acute observation of social life and of human character, and containing the nohlest lessons for practical guidance. Our author's style is remarkable for its free, unconstrained flow, almost collequial at times, but invariably signalized by elegance, force, adaptation to the subject, and not seldom by originality of thought in combination with termenes and beauty of expression. . . There is about it a freshness, as well as a fullness of protical teaching, rarely to be met with in ordinary Biblical commentaries."-Londonderry Standard, Feb. 15, 481. December. The Daily Tribune. ST. JOHN, N. B., FEBRUARY 15, 1872. Progress of Japan-The Record of Fifteen Years. Progress of Japan-The Record of Fifteen Years.

Fifteen Years. The recent arrival of the Japanese em-bassy at San Francisco, and the facts stated by Governor Ito, in his speech at the banquet given there, are among the most significant events of the era of pro-gress in which we live.

most significant events of the ers of pro-gress in which we live. Fifteen or twenty years ago little was known of Japan. No foreighner could land on its shores ; no native could visit a foreign land and return ; and scarcely any of the products of the Empire could be exported. The penalty of any violation of this law was death. For over two hundred years the only foreign people with whom the Japanese would trade were Dutch, who were confined, like rats in a cage, to the little islet of the Desima, off Nangasaki ; and what traffic was carried on there was but the exchange of a jew European articles for the precious metals, copper, &c. Even this little commerce was con-ducted under such dolus restrictions and amid such constantly occurring insults, that none but the most meek spirited of them. So great was the difficulty oor nected with the purchase of the manufac-tures of Japan, that a few shelves and glass cases, in a museum at the Hague ontained nearly all the products of Japan to be found in Europe; and the value of these could only be rightly estimated to be found in Europe; and the value of these could only be rightly estimated these could only be

to be found in Europe; and the value of activity. these could only be rightly estimated "As distinguished citizens of a great these could only be rightly estimated when the fearful penalty connected with their smuggling out of the country was taken into consideration. But we have changed all that. The day came when the Japanese were compelled to trade. Their ports were forced open to the hated foreigner. It seems at first blush some-what cool for the American and British Governments thus to have thrust their commerce upon a people who wanted only to be let carefully alone in their emblem of the rising sun, moving onward and upward amid the enlightened nations isolation. Jack Shephard politely, but of the world."
