The Best Remedy

for Colds, Coughs, and all Throat and Lung diseases, ever used in my family.— Robert Vanderpool, Meadville, Pa. Robert Vanderpool, Meadville, Pa.

Some time ago I took a slight Cold, which, being neglected, grew worse, and settled on my lungs. I had a hacking cough, and was very weak. Those who knew me best considered my life to be in great danger. I continued to suffer until I commenced using Ayer's Cherry Pectoral. Less than one bottle of this valuable medicine cured me, and I feel that I owe the preservation of my life to its curative powers.—Mrs. Ann Lockwood, Akron, New York.

Ayer's Cherry Pectoral is considered, here, the one great remedy for all diseases of the throat and lungs, and is more in demand than any other medicine of its class.—J. F. Roberts, Magnolia, Ark.

I contracted a severe cold, which suddenly developed into Pneumonia, presenting dangerous and obstituate symptoms. My physician at once ordered the use of Ayer's Cherry Pectoral. His instructions were followed, and the result was a rapid and permanent cure.—II. E. Simpson, Rogers Prairie, Texas.

Two years ago I suffered from a severe Cold which settled on my Lungs. I consulted various physicians, and took the medicines they prescribed, but received only temporary relief. A friend induced me to try Ayer's Cherry Pectoral. After taking two bottles of this medicine I was cured. Since then I have given the Pectoral to my children, and consider it

In no other city in the world does the practice of giving customers something "to boot" obtain to the extent that it does in Berlin. The tax on merchants has grown heavier and heavier under the strife of competition, until now it is said, to be almost cheaper to buy than to go without. Confection houses give Chinese shawls, hats and sachels; give Chinese shawis, hats and stoners; grocers bribe cooks with gifts of soap; butchers give extra slices of ham, and dry goods dealers give dress patterns valuable according as the value of the purchase is much or little. The practice is most general among booksellers, who give toys, dolls, games, pencils, and the like, and recently in one of the Berlin schools the police had actually to be called in, the pupils having got into a vision to a product the property of the pupils having the product of the pupils having got into a product the pupils having got into a pup violent quarrel over some fire-crackers obtained by one of them as "boot" in

MEETING AT ENNIS.

BALLY CORE HILL HELD BY SOLDIERS

DUBLIN, Sept. 4.—Ten thousand persons assembled at Ennis to attend the meeting of the Irish National League. The police last night took possession of the Hill of Bally Core, where it was intended to meet. At 2 o'clock the precession, accompanied by 12 bands of music, and including Messrs. T. Sullivan, Dillon, Cox, Sheehy, William O'Brien and Phillip Stanhope, all members of the House of Commons, and several priests, moved towards Bally Core Hill, the approaches to which were guarded by soldiers and police. The procession, finding its progress barred, halted in the fields and Messrs. Sullivan, Stanhope and O'Brien made speeches from carriages. ting its progress barred, halted in the levis.

The moulting season, or the season when hens shed their feathers will soon be at an end. The process is one that in certain respects de-bilitates and prevents hens from laying. The reason of this is that the growing of new feath-ers requires all the nitrogen and phosphates contained in the food and there is none left to Waterloo, Niagara and Charter Oak Coal contained in the food and there is none left to form the egg. A curious fact about the hen, and one that illustrates the foregoing statement, is this, if a hen's leg be broken during the laying season, she will lay her eggs without shells until the break is mended. The reason for this must be that all the lime contained in the food is required to unite the broken bone, there is therefore none for the formation of egg shells. The formation of new feathers does not require any carbonaccous or fat producing food, consequently well fed hens mitrogen and phosphates before mentioned the old hens will be through shedding feathers much sooner and will begin laying on the approach of cold weather and they will, continue to lay vigorously all winter, while the approach of cold weather and they will, continue to lay vigorously all winter, while the young pullets, reserved to take the place of the old hens, may not begin to lay until much later in the season. Very many people have learned from experience that Sheridan's Condition Powder mixed once daily with their food will supply the extra material needed to strengthen and invigorate their hens, enabling them to grow new plunage quickly and commence laying early. Those who commence how to use Sheridan Powder, will find that their young pullets will commence to lay at from four to six months old, and will lay continuously through the winter. The Farmers' Poultry Raising Guide, published by I. S. Johnson & Co., will send post paid, two 25 cent packs of powder and one Guide for 60 cents, or a 2½ Ib can of the powder, postage or express prepaid, for \$8.20 and a guide free.

The colonels of all the volunteers were called to getter at the Plaza and ordered to disarim their volunteers, who are called to strengthen and invigorate their hens, enabling them to grow new plunage quickly and commence laying early. Those who commence the volunteers, who are opposed to Marin and are encamped there, are encouraged there in by political bodies desirous of his remove to use Sheridan Powder, within their force will and the volunteers, who are encouraged there in by political bodies desirous of his remove to use the fields.
