[Vol. 23]

## REGULATIONS FOR FACILITATING THE SALE OF CROWN LANDS TO ACTUAL SETTLERS.

Passed in Council, Dec. 9, 1856.

1. In order to promote the settlement of New Brunswick, Tracts of Land, of ascertained good quality, will, as required, be surveyed and set apart in different parts of the Province for actual settlement.

2. These Tracts will not exceed ten thousand acres each. They will be divided into lots of one hundred acres, as near as may be, and will be selected with reference to their fitness for cultivation, their proximity to existing settlements, and the facilities for reaching them by roads from the nearest highway.

3. After a tract is selected for settlement, and surveyed, the lots therein will be sold in conformity with the following Regulations, which are hereby enacted:

4. All the lots in each tract selected after due notice in the Royal Gazette, will be exposed to sale at Public Auction, by the local Deputy for the district, in which such tract is situated, at the upset price of two shillings and six pence currency, per acre. Not more than one hundred acres will be sold at Public Sale to any one purchaser. The purchase money must be paid at once to the local Deputy; on production of his Receipt for the same to the Emigrant Agent for the District, a Location Ticket in the form annexed, will be granted to the purchaser. The lots for which no bid is made, will be struck off at the upset price, to the Emigrant Agent for the District, as the purchaser for the time being.

5. A Diagram of the lots struck off to the Emigrant Agent for the District, will thereafter be lodged with him; and he alone will have authority to dispose of such Lots. Any person wishing to become an actual settler may, on application to the Emigrant Agent, in the form annexed, purchase from him, at private sale, not more than one hundred acres, or less than fifty acres, at the upset price.

6. The purchaser at private sale shall forthwith pay the whole of the purchase money into a Bank, or Branch Bank, or to the Deputy Treasurer for the District, as may be directed by Order in Council, to the credit of the Receiver General. Upon lodging the Deposit Receipt for the same with the Emigrant Agent, the purchaser will receive from him a Location Ticket, in the form annexed.

7. In every case the purchaser must take actual possession of the land purchased, within thirty days after the date of his deposit receipt. He must clear at least five acres of his Lot, and build a House thereon, and he must reside at least three months in such House, all within one year from the time of purchase.

8. The House shall not be less than eighteen by twenty feet. It may be of logs, or such description as may be put up in four days by five men.

9. If a family comprising several Settlers, prefer residing on a single Lot, they will be exempted from the obligation of building, and residence, except upon the Lot on which they choose to live. But no family shall hold more than three Lots of one hundred acres each, and shall make the requisite amount of clearing on each Lot they purchase.

10. No Grant will be made of Land purchased under these Regulations, until after the expiration of one year from the date of purchase, and not until the foregoing conditions are fulfilled. In case of non fulfilment, the purchase money will be forfeited, and the Land declared open for sale.

11. At the expiration of one year from the date of each purchase, it shall be the duty of the Emigrant Agent to ascertain, by personal inspection, or otherwise, whether the conditions of sale have been fulfilled. If they have not been fulfilled, he will immediately report the same to the Surveyor General. If they have been fulfilled, he will grant a Certificate thereof to the purchaser. Upon production of such Certificate to the Surveyor General, a Grant of the Land, under the Great Seal, will issue to the purchaser, free of expense.

12. Each Tract selected for settlement under these Regulations, will receive a "distinctive name." When one half thereof is sold to Settlers another Tract will be brought forward for sale in the like manner.

13. Land for Churches and Schools will be reserved in each Tract, in convenient situations for the Settlers.

14. A Road will be made at the public expense from the nearest highway, to and through each of the Tracts selected, and set apart, under these Regulations.

15. The sale of Lands under these Regulations, in the Tracts selected for settlement, is not to interfere with the sale of other vacant Crown Lands as at present, under the existing Regulations.

### Form of Application for the Purchase of Land at Private Sale.

To the Emigrant Agent at  
I, the undersigned, desire to become an actual Settler at private sale of acres of Land in your District, thus described:—  
[Description]  
And I hereby declare that I intend to become an actual Settler on such Land, and that I will in all respects conform to the Regulations for facilitating the Sale of Crown Lands to actual Settlers, passed in Council on the ninth day of December, A. D. 1856.  
Dated this day of 18

### Form of Location Ticket.

### PROVINCE OF NEW BRUNSWICK.

This is to certify, that has this day paid to the use of Her Majesty, the sum of \_\_\_\_\_ Currency, in full for purchase money of \_\_\_\_\_ acres of Land in this Province, described as follows:—  
[Here insert Description.]

Which said Lot or Parcel of Land has been purchased by the said \_\_\_\_\_ upon the following terms and conditions:

1. That he the said \_\_\_\_\_ will clear at least five acres of the same; that he will build a house thereon, and will reside in such House not less than three months; all within one year from the date hereof.
  2. That the said House shall not be less than eighteen by twenty feet, and may be of logs, of such description as may be put up in four days by five men.
  3. That no Grant of the said Land shall be made until after the expiration of one year from the date hereof.
  4. That at the expiration of one year, the foregoing conditions are not fulfilled, the purchase money above mentioned shall be forfeited, and the Land herein described shall be declared open for re-sale.
  5. That if these conditions are fulfilled, the said \_\_\_\_\_ shall then be entitled, free of expense, to Letters Patent under the Great Seal, granting the said Land to him, his heirs and assigns, for ever.
- In Witness whereof, the Emigrant Agent for the District in which the said Lot or Parcel of Land is situated, by authority of the Regulations for facilitating the Sale of Crown Lands to actual Settlers, has hereunto set his hand, this \_\_\_\_\_ day of \_\_\_\_\_ in the year of our Lord one thousand eight hundred and \_\_\_\_\_

### INSTRUCTIONS TO EMIGRANT AGENTS.

Passed in Council, December 9, 1856.

1. Each Emigrant Agent in New Brunswick will open an office, in some convenient situation in the District for which he is appointed, and attend therein.
2. At Sea-Ports, the Emigrant Agent will superintend the arrival of passengers by Sea, and perform all the duties of Emigration-office, under the provision of the Imperial Passengers Act. He will protect Emigrants against fraud or imposition, and obtain redress for them, when they have sustained oppression or injury.
3. It will be the duty of the Emigrant Agent to afford gratuitously to Emigrants, every assistance in his power, by way of advice and information, as to obtaining employment, or as to purchasing Land and becoming Settlers. He will also furnish information and advice to persons that are making arrangements for bringing over their friends from Europe.
4. The Emigrant Agent is hereby charged with the duty of carrying out the Regulations for facilitating the Sale of Crown Lands, to actual Settlers, to which he will give special attention. He will be furnished by the Crown Land Department with Diagrams of the Lots in his District, struck off to him at Public Auction, as purchasers for the time being. He will dispose of these Lots by private sale, at the upset price of two shillings and six pence currency, per acre, to intending Settlers, in the order of their several applications. He will sell no more than one hundred acres, nor less than fifty acres, to any one person.
5. Upon receiving the Deposit Receipt from a purchaser, he will forward the same to the Surveyor General, with a description of the Lot, or part of a Lot sold.
6. When one half of a Tract selected for settlement shall be sold to Settlers, the Emigrant Agent will, without delay, give notice thereof to the Surveyor General, in order that another Tract may be brought forward for sale.

thereof to the Surveyor General, in order that another Tract may be brought forward for sale.

7. At the expiration of one year from date of purchase of each Lot, a will be the special duty of the Emigrant Agent to ascertain, by personal inspection, or otherwise, whether the conditions of sale have been fulfilled. This duty he will in no case neglect; and he will proceed therein, as directed by the 11th Article of the Regulations above named.

8. The Emigrant Agent will open a Registry of Farms and private Lands for sale in his District; such Registry to contain a description of the Property for sale, its situation, and price. He will also open a "Labour Registry," in which he will enter the applications of all persons seeking employment, as well as the applications of those who need workmen, servants, or labourers. He will, in addition, collect information as to the amount and description of labour required in his District; he will transmit the same monthly to the Surveyor General, with a list and description of the Farms and private Lands for sale in his District, and state their price, with the facilities for reaching them. He will at the same time furnish to the Surveyor General any other information of interest respecting his District, especially as regards the progress of the Settlement, and the erection of Churches, School Houses, and Mills, therein.

9. The information received from each Emigrant Agent by the Surveyor General, will be transmitted by him without delay to all the other Emigrant Agents; so that every Emigrant Agent will be in a position to furnish information respecting all parts of the Province.

10. Each Emigrant Agent will receive such annual allowance for his services, as may be determined; and he will be so entitled to a commission of five per cent. on the amount of all Sales of Land effected by him, such allowance and commission to be paid quarterly.

J. MONTGOMERY, Sur. Gen.

### CROWN LAND OFFICE, Dec. 9, 1856.

NOTICE is hereby given, that the Tracts of Land already surveyed and described in the annexed Schedule have been selected and set apart for Settlement, under the Regulations for facilitating the sale of Crown Lands to actual Settlers, passed in Council this day.

All persons are hereby forbidden trespassing or intruding upon the said Tracts, on any pretence whatever, until the same shall be sold for actual settlement. The several Local Deputies in whose Districts they are situated, are hereby directed to report any cases of trespass or intrusion on the same, in order that the parties offending may be prosecuted under the Act of Assembly.

J. MONTGOMERY, Sur. Gen.

### SCHEDULE.

#### QUEEN'S and CHARLOTTE.

"Cape Henry."—This tract consists of 9,600 acres, about fifteen miles from the mouth of the Nerepis River, between the Queen's Lake and the South Oronto Lake, partly in Queens, and partly in Charlotte County. It is divided into 91 Lots, intersected by several small Lakes. The numbers are 1 to 48 inclusive, South division, excepting Lots 12 and 30, already located; and numbers 33, 35, 37, 39, 41, 43, 45, 47, and 49 to 56 inclusive, to the North Division, omitting Lot 68, now located.

The School Committee of Boston have expelled the five girls from the Hancock School, whose case has been before the police court, for some time because their conduct has been highly reprehensible, and of late vitiated and corrupted the morals and character of those with whom they associated, and dangerous to the good morals and well-being of the school.

At Funchal, Madeira, it is the fashion to wear white boots, instead of black ones, and a lump of chalk does the service of a blacking brush.

A young man named Sunderland was killed lately on the Railroad. He fell a distance of about 25 feet, among sticks and stones, and died about two hours after. He was a fine steady young man. —*Hartford paper.*

A witty druggist, on a cold night last winter, was woken up by a terrible rapping at his door. Going down, he found a poor fellow who wanted to purchase a dose of salts. The shop was entered, the dose prepared, and a half dime put into the drawer. "How much did you make by that operation?" asked his wife after he got into bed. "Four cents," was the reply. "A shame it is," returned the irritated dame, "for a man to disturb your rest just for a dose of salts." "Recollect, my love," said the druggist, "that one dose of salts will disturb the man's rest more than it has mine, and reflect that these little inconveniences always work well in time."

rest more than it has mine, and reflect that these little inconveniences always work well in time."

SOUP OR NOTHING.—At a very excellent hotel, not a thousand miles from our parts, they were one day short of a waiter, when a newly arrived Hibernian was hastily made to supply the place of a more expert hand.

"Now, Barney," said mine host, "mind you serve every man with soup—the first thing—serve soup first."

"—Bedad, I'll do that same," said the alert Barney.

Soup came on, and Barney, after helping all but one guest, came up to the last one. Soup sir, said Barney.

No soup for me, said the man.

But you must have it—it's the sale of the house.

Darn the house! exclaimed the guest highly exasperated. When I don't want soup I won't eat it. Get along with you.

Well, said Barney with solemnity, all I can say is just this: it's the regulation of the house, and d—n the drop else will you get till ye's finished the soup.

The traveller gave in, and the soup was gobbled.

A farmer once hired a Vermontor to assist in drawing logs. The Yankee, when there was a log to lift, generally contrived to secure the smallest end, for which the farmer rebuked him, and told him always to take the butt end. Dinner came and with it a singular Indian pudding. Jonathan sliced off a generous proportion of the largest part, and giving the farmer a wink, exclaimed, "always take the butt end."

It is said that an old smoker keeps a great while after he is laid in the ground.

### European Intelligence.

#### Arrival of the Canada.

HALIFAX, 23d Dec., 1856.

The Canada from Liverpool arrived at Halifax this day (Tuesday) at noon. The Mails and passengers of the "America," sailed from Liverpool, December 6, but met with very heavy weather, and when lying too, 30 miles West of Cape Clear, was struck by a sea which swept decks, carried bulwarks and completely gutted fore saloon, badly injuring one man. America therefore put back to Liverpool, where she arrived at 2 A. M. 11th. Passengers presented address to Captain and officers.

Other casualties at sea are also reported. Canada reports several vessels at anchor at the Bar on the 12th. On 13th, 15 miles Westward of Fastnet, passed steamship Niagara.

The Captain and 15 persons picked up from the Lyonsais steamer, have arrived at Bordeaux, subscription has been opened in London for widows and children of perished.

Ship Adriatic, Coombs, Liverpool to New York, was wrecked, 8th, near Dungarvan, three men drowned.

Has been succession of severe gales along the British coast, with numerous casualties in channel.

#### BRITAIN.

A deputation from Liverpool, Manchester and London had waited on Lord Clarendon to ascertain what is meant by the British demonstration against New Granada.

Father Mathew dwelled at Cork on the 9th. Felice Orsini, the Italian exile, was lecturing in London on Italian tyranny.

Richard Cobden published another letter on Maritime Law.

Nousand Bey, on part of Pacha of Egypt, had interview with Manchester Commercial Association, on subject of growing cotton in district watered by the river Tigris.

British Government is about to lay telegraph line across Persian Gulf.

Coronation of Napoleon if peace should be concluded, will probably take place next year.

Have Journal has Cayenne letter of Nov. 5th, stating that gold was discovered in several parts of the Colony.

Many shipping casualties are reported from the Mediterranean. In anticipation of the forced sales at the end of the year more activity had been shown in the Parisian Factories, but retail trade was not so brisk as usual.

Disappointment was felt that Bank of France has not relaxed its severe measures, although it is felt that 90 days discount might now be granted with safety. Nevertheless the actual position of commercial affairs is not regarded as unfavourable.

Corn is falling, though but slowly, in all the markets of France. Letters from Rouen mention that the market for manufactures was quiet without variation in rates.

STAIN.

Municipal elections for 5th February.

Madrid commercial letters say that opinion was strongly against the new loan, and that Finance Minister will probably resign.

Accounts from Malaga and Saragossa represent these cities as still agitated, although not open outbreak.

#### HOLLAND.

Weekly statements from the Amsterdam and Rotterdam produce markets represent that although business continued inactive prices on the whole were well supported.

#### RUSSIA.

Prussia has communicated the resolution of the German Diet on the question of Neufchatel to the powers, inviting to join in a collective decision with a view to secure their recognized rights. It is likely that the prisoners of Neufchatel will have been judged by the time an answer to this circular is received; but as the Federal Council of Switzerland is said to have given a formal promise to the Cabinets of London and Paris, that an amnesty shall be granted immediately after the preliminary condition demanded by Prussia will be fulfilled though indirectly—in the course of the negotiations on this question France and Austria have advised Prussia to abstain from military measures; but on the other hand have positively promised to support her views.

#### THE BALTIC.

The Elbe, Dec. 8th, was free from ice, weather rainy and warm.

David Lippert, a well known Merchant of Hamburg, is dead.

#### AUSTRIA.

The Emperor has consented to convocation of Protestant Synod in Hungary. The papers are full of accounts of the Emperor's visit to Venice.

Vienna Bourse generally inanimate.

#### ITALY.

The Baltic carried intelligence that an unsuccessful attempt had been made to assassinate the King of Naples on the 8th inst.

Accounts differ—first announcement said: "At noon to-day there was a review while the troops were drilling, a soldier of the third Battalion of Chasseurs rushed from the ranks and struck the king on the left side, who fell down, and the man was seized by Colonel Latour. All is quiet in Sicily."

Other despatches say, the bayonet of the soldier struck the king on the right side above the waist; another adds, that he is slightly wounded; while a third has it, that the soldier fired his carbine at the king, and that the assassin was killed on the spot.

The Telegraphs from Sicily are wholly in the power of the Government, hence not reliable. They say that the insurrection is suppressed, and Ventimiglia taken prisoner.

From Messina everything is reported quiet and the Police have seized a quantity of contraband landed for the insurgents. I add however, Count Lavina, an ex-ambassador of the Roman States, has been assassinated at Messina.

#### SMALL FISH WITH FOUR LEGS.

A small fish with four legs was caught in the harbor by a native last Monday morning, which is certainly the most singular specimen of natural history we have ever observed. It is a little larger than a frog, about three inches long, and its feet, which are evidently used for walking on the bottom of the sea, or for swimming, are webbed like a duck's foot or perhaps a seal's. In shape it resembles the short snout fish pictured in natural histories, and has two teeth quite prominent. It has a dorsal fin and also a tail. Its color is dark brown with spots. [Honolulu Com. Adv. Dec. 11, 1856.]

It is a lamentable fact, that the prize offered in France for the most moral play has been withheld, as the judges have decided that there has not been such a piece written the past year.

A wealthy old English farmer, who spent thoroughly detested tax-gatherers, was once called on by a collector a second time, for taxes he had once paid but for which he had mislaid the receipt; and as he told the story to his friend:

"Would you believe it, Sir, the fellow began to abuse me."

"Well," said his friend, "what did you do?"

"Do! why I remonstrated with him."

"And to what effect?"

"Well, I don't know to what effect, but the poker was bent."

The Chinese are queer people to go to market; a friend at Canton writes that a neighbour of his had just had in his water provisions—a hind quarter of horse and two barrels of bullock's; the latter asked to keep.

"I know every rock on the coast," cried an Irish pilot, when the ship bumped, "and that's one of them."

THE FUTURE.—It has been beautifully said that "time and which covers the face of Calvary is woven by the hand of Mercy." Seek not to raise the veil of gloom, for sadness might be seen to shade the brow, that fancy had arrayed in smiles of gladness.

## European Intelligence.

From papers by the Canada.  
THE LATE HEAVY GALES.

**SERIOUS LOSS OF LIFE AND PROPERTY ON THE COAST.**—The accounts received on Wednesday and the preceding day from all parts of the coast furnish a sad list of wrecks and other casualties during the late heavy gales. They set in early on Saturday morning, and, with the exception of a few intervals, continued during the week, at times with very great severity. In the more Western portion of the English Channel, on Monday and Tuesday a terrible gale raged from the S. S. W. with a tremendous sea. Towards evening of the latter day it increased to a hurricane, the sea making a complete breach over the ships moored in the various roadsides. Near Falmouth, a fine barque, named the *Colombes*, Capt. Hayes, was driven ashore at St. Mawes Castle, and became a total loss. Similarly bad weather appears to have been experienced all along the Channel. A short distance to the Westward of Portland, at Chesel Beach, on Tuesday afternoon, a Dutch barque, laden with rice, was carried ashore by the gale, and melancholy to add, four of the crew perished. The captain who had been some time ill, died a few hours after he had been landed. The ship was from Akyah, but her name could not be ascertained. The Welsh coast suffered severely from the storm. The fatal wreck of the *Louisa*, Minors, Captain Richardson, from Malta to Cardiff, and the loss of the master, mate, and seven of the crew, on the Marles Sand, near Milford, have already been briefly stated. The wreck of a schooner was passed some 12 or 14 miles to the southward of Tuscary, and it is feared the crew have perished. The Irish packets running from Liverpool, Cork, and Plymouth had most fearful passages. The *Thoubadour*, from Milford to Cork, had a marvellous escape. She was driven some distance up the St. George's Channel, and having run short of fuel, consumed nearly 100 head of swine, so as to keep up steam and enable the ship's being kept head to sea to weather out the gale. She at length succeeded in reaching Kingstown, with a large number of dead cattle on board. In Carmarthen Bay, a French brigantine, the *Clemence*, in ballast, for Cardiff, was driven ashore during the night of the gale. A collision took place between the brig *Becher* Stowe, bound to London, from Alexandria, with the Condor schooner, belonging to Hamburg, some 100 miles west of Sicily. It is feared the Condor went down, and that two only of the crew were preserved.

The gales were very severe in their consequences on the rocks at Reden. Amongst them were the *Peat*-Not schooner, from Dunkirk; Hoffmann, from the Humber; John and Eliza, from London; Betsy, of Yarmouth; the ship *Nancy*, from Scarborough; and the French ship *Agassine*. The two latter sunk; the crews were happily saved. At the mouth of the Tyne, the *Earl Talbot*, from London, and the *Free Briton*, were driven on the rocks.

**TURKEY.**—Constantinople dates are to the last. The Ministry of Redschid Pacha was well established.

**RUSSIA.**—The text of the note addressed by Russia at the end of October last, to the Powers that signed the Treaty of Paris, is published. It is accompanied by a Circular demanding the re-assembling of the Congress of Paris. This circular contains an exposure of the steps taken by the Russian Cabinet with a view to the fulfilment of Articles 20 and 21 of the Treaty of Paris. As regards the Isle of Serpents, the Russian Government says that the island was incontestably in possession of Russia before the rupture with respect to the Bessarabia frontier question.

The memorandum mentions two instances of concession by Russia with regard to the course of the Upper Volga and Bolgrad; the memorandum defends the views of Russia and states that the map from which the iron tier line was defined at the Paris Conference, was supplied by the French Government; the memorandum also states that Count Walewski asked Baron Brunow whether the Court of Russia would abide by the majority of votes at the coming conference, and the Russian Cabinet telegraphed an immediate reply in the affirmative, and hence Russia is blameless for the present difficulty.

**PERSIA.**—The last despatches inform us that the alleged capture of Herat was still doubtful; the Conference opened by the English Embassy with Feroak Khan appears likely to detain the latter at Constantinople for several months. The personnel of the English Embassy had left Teheran. The statement that Russia had demanded from the Shah of Persia permission to occupy the territory of Moghan is confirmed. There is also by way of St. Petersburg a report, but doubtful, that fifty thousand Russian troops under General Bernoff are ready to march to the frontiers of Persia on first invitation of the Shah.

**PARIS.**—Thursday.—The Debates say: "We believe we are able to state with some certainty that England in entering the conference, distinctly declares she will conform to the decision of the majority whatever that decision may be. The relative position of the disputants is no secret: on the one side France, Russia and Prussia; on the other, England, Austria and Turkey; in the middle, Serbia, which, concurring originally with the opinions expressed by France, is now itself stated, oscillating between the two."

**MARKETS.**—LONDON, Thursday night.—Funds Stock and Share Market. Transactions in the English Market unimportant. Consols opened a shade lower and remained all day without change.

Railways generally, exceedingly quiet, the chief features being a slight heaviness in London and Southwestern, owing to a falling off in the traffic, and a continued and considerable rise in Caledonian stocks.

**THE EXPLOSION AT RHODES.**—The following details of the terrible explosion which has been mentioned in our foreign news will be read with interest. A French Journal, the *Pressed Orient*, says:—

"In the afternoon of the 15th of November Rhodes was visited by a most violent thunder storm, and several houses were struck by lightning and more or less injured. Suddenly, a tremendous explosion was heard; the ground shook as from the effects of an earthquake, and windows were smashed in every direction. The explosion was followed by two others, and a dense black smoke arose. It was after a time ascertained that the lightning had fallen on the church of St. John, and had penetrated into the subterranean vaults and vaults used as a deposit for gunpowder, and in which an immense amount of that commodity has recently been placed. It is impossible to describe the horror of the scene.

Not a house was left standing in the whole quarter of the city near the church, and that building itself was completely levelled with the ground. The quarter was the richest and handsomest in the town, but not a vestige of it now remains. Destroyed bodies were lying about on the ground, and the groans of the dying were heard on every side. Had prompt and immediate assistance been given, there is no doubt that many lives might have been saved; but every one was thrown into such consternation by the suddenness of the catastrophe, that but few had presence of mind enough left to undertake the painful task. Night soon arrived, and, from some strange motives of safety, which are inexplicable under such circumstances, the gates were closed, and the operations for assistance were for a time suspended. Mr. Campbell, the English Consul, having extended some workmen, had the gates again opened and proceeded to the scene of the disaster, and, as well as they could, cleared away the ruins, particularly at the places where the groans of persons still living were the most distinctly heard. This work was one of great difficulty, for the rain fell in such torrents that it was impossible to keep a torch burning.

At daylight next morning more efficient means were organized. Several dead bodies were got out, and two young girls of 13 and a child of seven, were afterwards extricated alive. These and three of four others who were saved on the previous night, are all that survives out of a population of 400 or 500 who were in the quarter at the time of the explosion. Only about 150 of the bodies have yet been found, as they are all so deeply buried under the ruins. Only two Christians were killed, the quarter being inhabited entirely by Turks. The family of Mal Muduri Perley Effendi, composed of 18 persons, have all perished. His mother, his wife, and his daughter, were found about 500 yards from their house. Some idea of the force of the explosion may be formed from the fact that a barge in the harbour was sunk by a quantity of stones falling upon her, and beating a hole through her bottom, and by a sailor being killed by a stone striking him in the head at a distance of more than half a mile from the spot.

**THE STEAMER ADMIRAL.**—On Tuesday morning the Admiral made her last trip for the season. On the previous evening near a hundred gentlemen, consisting of the most influential merchants, heads of departments, and the conductors of the newspaper press of the city were invited to the grand wind-up on board this excellent vessel which was served up in the admirable style, peculiarly its own. A. Hayden, Esq. presided, and Captain Small, of the Admiral, and G. Symest, Esq. acted as croupiers. A most exhilarating evening was spent by the guests; the usual toasts were given in appropriate speeches and responded to most enthusiastically. Every one was loud in praise of the manner in which this vessel has been conducted, and which has made the Admiral so deservedly a great favorite and the courtesy and attention of her officers was the theme of general remark. Adversely shall we watch for her reappearance in St. John, for during the interval of the non-running of the Boston boats we seem to be frozen up in earnest, and completely shut in from the world without. (Chronicle.)

A New York correspondent of the Philadelphia Bulletin says that advices received by the Tennessee from Jamaica, state that the entire British fleet on that station had been ordered to hold itself in readiness to proceed to the Gulf of Mexico, for the purpose of blockading the Mexican ports.

**ORDER FOR THE ARREST OF GEN. WALKER AND OTHERS.**—New York Dec. 21.—The President of the United States has issued an order for the arrest of Cornelius K. Garrison, Charles Morgan, and Gen. Wm. Walker, to answer the Accessory Transit Company in a plea for trespass, for converting and disposing of the goods and chattels of the Company, to the value of \$1,000,000; and also a further sum of \$1,000,000 damages for interrupting their business.

**DEATH OF AN OLD MERCHANT.**—Mr. Samuel Davis, one of the oldest merchants of Boston, died at his residence in Dix place, on Friday night at the age of eighty-one years.

We understand, says the Montreal Herald, that an important discovery has recently been made by Sir William Logan. It is the presence, in the township of Chatham, on the Ottawa, of a very extensive deposit of the formation of what is popularly called bursstone. Sir William has expressed the opinion that in its adaptation for the grinding stones of flour and other corn mills, it fully equals that of the best French bursstone, which is imported into every market in the world, and forms no inconsiderable item in the exports from France.

**THE RECENT GALES** along the coast have caused a number of marine disasters, attended with loss of life. The steamer ship *New York*, from Liverpool, New York, with an assorted cargo of passengers, went ashore near Boston on the 20th inst. The passengers were landed in a destitute condition. One of the crew died of the effects of the cold and exposure. Seven of the cabin passengers, who have arrived at Aquin, report that the Captain after setting them ashore in the long boat, returned to the ship, where he found the cabin in possession of the crew, who fell upon and beat him so badly that it is doubtful whether he survives.

**THE STANDARD.**  
ST. ANDREWS, DEC. 31, 1856.

**THE CLOSING YEAR.**

KIND READER—We have been permitted by a merciful Providence to appear before you on this the last day of 1856. Every year of our lives seems shorter than the preceding one, and this is an important fact that loses none of its interest by frequent repetition. Time has been aptly and beautifully compared by an esteemed Divine, to a river.

When we look back upon the year, which shall have passed into futurity in a few short hours—we find that it has not been wanting in the greatness or number of its vicissitudes—everywhere the ravages of time are apparent—his unsparing scythe has made many a blank in the domestic circle, many a vacancy in public life—the young man rejoicing in his strength—and the aged fast sinking into the grave, have all in turn shared the common lot of humanity.

Changes of a less important character—changes in place, in condition, in friendship and in fortune, have had their share in composing the varied scenes which have been enacted around us. In the adjacent Republic, scenes of the most exerting and painful nature, for the last few months have occurred. In the neighboring Provinces great political changes, have during the past year been effected, and that great Empire of which we are a Colony has also had its share of stirring events.

Turning our attention nearer home we find many alterations for the better, and some perhaps for the worse; but as we intend noticing these more fully in another number, we conclude for the present by wishing you—the compliments of the season and a happy New Year."

**THE BRITISH MAGAZINE.**—We have received from Leonard Scott & Co., their reports of the leading British Reviews. In consequence of their receiving the advance sheets from the British publishers, they are enabled to place them in the hands of subscribers, as soon as the original editions can be received from England, and, at about one third the price—the British editions cost \$31 per annum, while the reprints are furnished for \$10! The commencement of the year is the best time to subscribe for these invaluable works, without which no man can keep "posted up" with the measures of the three great political parties in the Mother Country—they contain also articles on Science, Literature, Morality and Religion. The London Quarterly—Edinburgh Review—North British Review—Westminster Review—and Blackwood's Magazine, are all furnished at the low price of \$10 in advance for one year. Messrs. Scott & Co's advertisement will be published in our next.

**CHARLOTTE COUNTY GRAMMAR SCHOOL.**

The semi-annual examination of this institution was held before the President & Directors on Tuesday the 23d inst.; the Visitors present were Dr. Gove, F. Stevenson, Esq., of King's College, and Messrs. King, Morrison, and O'Neil. We give below the minutes of the proceedings:—

"Examined Classes as follows, English Grammar, Latin Declension, Caesar, Virgil, Horace, Greek Testament, Homer, Geography, Euclid, History."—The following Resolution passed unanimously:—

"It gives the President and Directors much pleasure to record the satisfaction which they feel at the general good showing of the school.

"The Board felt particularly pleased with the Latin and Greek Examinations—in reading, translating and parsing. In Prose, the Virgil and Horace Classes, were not deficient; the writing and cyphering also were both good, and books quite clean.

"Very good themes were given in and read by the following boys: Morrison, Polleys, O'Neil, Gove, Ross, G. Treadwell, A. Stevenson."

In giving the above minutes as entered in the Director's visiting book, we feel that they will carry more weight with them than any observations we could possibly offer; for we could only recapitulate or enlarge upon the eulogium contained in the resolution—but we cannot refrain from remarking the readiness and thorough understanding of the pupils in the different branches. The themes were all good, both in composition and sentiment: Morrison's particularly displayed quite a command of language, both classical and chaste, as well as a knowledge of History, by which he has completed his subject. The Rev. Dr. Gove in his address to the boys said that he was in the habit of the Directors looking at the papers of the scholars, and that every class had a perfect command of the English language, and that the discipline and order had been all that could be desired. He expressed his gratification at the introduction of English Composition, and approved very much of the themes which were read. He brought to their minds the words of a Director who had addressed them at the last Examination, "that they were the persons who would succeed their Examiners in the world," that Director is no more, and you have succeeded him. He hoped that in their different spheres in passing through the world, they might so conduct themselves, that finally they might have a good hope, through the merits of the Redeemer, of enjoying a happy immortality."

The Academy will be re-opened on Monday, Jan. 12, 1857. The above remarks were handed to us, by a friend who takes a warm interest in the education of youth.

Dr. Bartlett of the *Anglo-Saxon*, has been appointed British Consul at Baltimore, pro tem. We hope the appointment will be made permanent.

**HARPER'S WEEKLY.**

These enterprising and deservedly popular publishers, Messrs. Harper & Brothers, of New York, will publish on Saturday, 3d Jan. 1857, the first number of a weekly newspaper, entitled "Harper's Weekly," and will spare neither expense nor labor to make it the best family newspaper on this Continent. The terms are \$2.50 per ann., invariably in advance. From the high character and extensive means of the Messrs. Harper, we believe they can carry out any enterprise they undertake. The Prospectus will be published in our next issue.

To SUBSCRIBERS.—We particularly request our subscribers, to liquidate their respective accounts as early as possible, as we have payments to make for material early next month. Several on our books are indebted to us from one to four years, and they may rely upon having their accounts handed to an attorney for collection, should they not attend to this notice. Those indebted for job-work for upwards of six months, are requested to pay the amounts without delay. We are obliged to those friends who have been punctual in their payments.

**PERRY DAVIS' VEGETABLE PAIN KILLER** possesses virtue, which not alone removes pain instantly, but regulates the stomach, gives strength, tone and vigor to the system. It is one of those medicines which is worth more than gold. Sold by druggists generally, throughout the United States and Canada.

**Dir.**

A Boston, Mass., on the 18th instant, of consumption, BARBARA ANN, eldest daughter of Mr. D. D. Morrison, for many years a resident of this Town. This is the second daughter Mr. Morrison has had to mourn.

the death of within the short space of four months. The numerous relatives and friends of the family in this Province, will sympathize deeply with them, in this the day of their affliction, especially those who enjoyed the pleasure of those Ladies' acquaintance in their youthful days. Many of them have departed in different parts of the world,—all turning we have no doubt, with warm feelings to the place of their birth; where they spent many happy days. We cannot close this brief notice without tendering our condolence to our old friends, who have thus been deprived in their declining years, of two amiable daughters, whose devotion to their parents has been equalled, and who were beloved by all for their endearing virtues which are so permanent to the human character.

**NOTICE.**  
THE ANNUAL MEETING OF THE CHARLOTTE COUNTY AGRICULTURAL SOCIETY will be held at the Town Hall, on Tuesday, the 13th day of January next, at 11 A. M., for the reception of new members, Election of Officers, and submitting the Report for the past year.

A full and punctual attendance of members is requested.

By Order,  
ALEX. T. PAUL, Secy.  
St. Andrews, Dec. 30, 1856.—Provincist. 2 ins.

**Notice to the Public.**  
WHEN any LETTERS are dropped into the Letter boxes, marked "Registered," instead of being handed to the Window and a Receipt taken for them, they will be registered, and the Registration, in addition to the postage, charged to the person addressed.

FRANCIS McPHEM,  
General Post Office, Fredericton, Dec. 29, 1856.

**SHERIFF'S SALE.**

**TO BE SOLD AT PUBLIC AUCTION.**  
ON the 28th inst. the 15th day of Dec. 1856, at 11 o'clock, at the Court House in St. Andrews, N. B., the following property, to-wit:—

1. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

2. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

3. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

4. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

5. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

6. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

7. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

8. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

9. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

10. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

11. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

12. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

13. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

14. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

15. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

16. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

17. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

18. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

19. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

20. A certain lot of land, situate in the Parish of St. Andrews, N. B., bounded on the North by the River, on the South by the lands of the late Mr. Andrew Lynton, on the East by the lands of the late Mr. Andrew Lynton, and on the West by the lands of the late Mr. Andrew Lynton.

ty, and many others.

**A MARVELLOUS REMEDY  
FOR A MARVELLOUS AGE!**  
**Holloway's Ointment.**

**THE  
GRAND EXTERNAL REMEDY**  
By the aid of a microscope, we see mil-  
lions of little openings on the surface of our  
bodies. Through these this Ointment,  
when rubbed on the skin, is carried to and  
organ or inward part. Diseases of the  
Kidneys, disorders of the Liver, affections  
of the Heart, Inflammation of the Lungs,  
Asthma, Coughs and Colds, are by its  
means effectually cured. Every house-  
wife knows that she passes freely through  
bone or meat of any thickness. This  
healing Ointment far more readily pene-  
trates through any bone or fleshy part of  
the living body, curing the most dangerous  
inward complaints, that cannot be reached  
by other means.

**ERYSIPELAS, RHEUMATISM  
AND SCORFUTIC HUMOUR**  
No remedy has ever done so much for  
the cure of diseases of the Skin, which  
form they may assume, as this Ointment.  
Scoury, Sore Heads, Scrofula, or Erysipe-  
las, cannot long withstand its influence.  
The inventor has travelled over many parts  
of the globe, visiting the principal hospitals  
dispensing this Ointment, giving advice as  
to its application, and has thus been the  
means of restoring countless numbers to  
health.

**SORE LEGS, SORE BREASTS,  
WOUNDS & ULCERS.**  
Some of the most scientific surgeons now  
rely solely on the use of this wonderful  
Ointment, when healing to cure with the  
most cases of sores, wounds, ulcers, granu-  
lar swellings, and tumours. Professor  
Holloway has dispatched to the East, large  
shipments of this Ointment, to be used in  
the worst cases of wounds. It will cure  
any ulcer, granular swelling, stiffness or  
contraction of the joints, even of 20 years  
standing.

**PILES AND FISTULAS.**  
These and other similar distressing com-  
plaints can be effectually cured if the  
Ointment be well rubbed in over the parts  
affected, and by otherwise following the  
printed directions around each pot.  
Both the Ointment and Pills should be used  
in the following cases:  
Bad Legs, Chirgo-foot,  
Bad Breasts, Chapped hands,  
Burns, Corns (soft),  
Blisters of Mosquitoes, Contracted and Stiff  
and Sand Flies, Joints,  
Cure-bay, Fish-tail,  
Elephantiasis, Glandular Swelling,  
Gout, Lumbago,  
Scurvy, Piles,  
Sore Heads, Rheumatism,  
Tumours, Scalds,  
Ulcers, Sore Nipples,  
Wounds,  
Yaws.

**LET US REASON TOGETHER.**  
**HOLLOWAY'S PILLS.**  
**WHY ARE WE SICK?**

It has been the lot of the human race to  
be weighed down by disease and suffer-  
ing. HOLLOWAY'S PILLS are special-  
ly adapted to the relief of the Weak,  
Nervous, the Dyspeptic, and the Irri-  
table. Prof. Holloway personally su-  
perintends the manufacture of his medi-  
cine, and offers them to a free and en-  
lightened people, as the best remedy the  
world ever saw for the removal of disease.

**THESE PILLS PURIFY THE BLOOD**  
These famous Pills are expressly com-  
bined to operate on the stomach, the liver,  
the kidneys, the lungs, the skin, and the  
bowels, correcting any derangement in  
their functions, purifying the blood, the  
very fountain of life, and thus curing  
disease in all its forms.

**DYSPEPSIA AND LIVER COM-  
PLAINTS.**  
Nearly half the human race have taken  
these Pills. It has been proved in all parts  
of the world, that nothing has been found  
equal to them in cases of disorders of the  
liver, dyspepsia, and stomach &c. complaints  
generally. They soon give a healthy tone  
to those organs, however much deranged,  
and when all other means have failed.

**GENERAL DEBILITY.  
ILL HEALTH.**  
Many of the most despotic Governments  
have opened their Custom Houses to the  
introduction of these Pills, that they may  
become the medicine of the masses—  
Learned Colleges admit that this medicine  
is the best remedy ever known for persons  
in delicate health, or where the system has  
been impaired, as its invigorating prop-  
erties never fail to afford relief.

**FEMALE COMPLAINTS.**  
No Female, young or old, should be  
without this celebrated medicine. It cor-  
rects and regulates the monthly courses at  
all periods, acting in many cases like a  
charm. It is also the best and safe-  
est medicine that can be given to children of  
all ages, and for any complaint; conse-  
quently no family should be without it.  
Holloway's Pills are the best remedy known in the  
world for the following diseases:—

- |                       |                    |
|-----------------------|--------------------|
| Ague,                 | Jaundice           |
| Asthma                | Liver complaints   |
| Bilious complaints    | Lumbago            |
| Blotches on the skin  | Piles              |
| Bowel complaints      | Rheumatism         |
| Colic                 | Retention of Urine |
| Constipation of the   | Scrofula, or       |
| Bowels                | Sore Throat        |
| Consumption           | Stone and Gravel   |
| Debility              | Secondary symptoms |
| Dysentery             | Tic Douloureux     |
| Erysipelas            | Tumours            |
| Female Irregularities | Ulcers             |
| Fever of infants      | Veneral Affections |
| Fits                  | Worms of all kinds |
| Gout                  | Weakness, from     |
| Head-ache             | whatever cause     |
| Indigestion           | &c. &c.            |
| Inflammation          |                    |

**AYER'S PILLS,**  
FOR ALL THE PURPOSES OF A  
**FAMILY PHYSIC.**

A new and valuable remedy for the  
cure of all Bilious Disorders, Constipation, Indi-  
gestion, Headache, Dropsy, Rheumatism, Fevers,  
Gout, Humors, Nervousness, Irritability, Indurci-  
tions, Hemorrhoids, Piles in the Anus, Skin, Back,  
and Limbs, Female Complaints, &c. &c. Induced  
very few are the diseases which a Purgative Medi-  
cine is not supposed to have cured, and much dis-  
ease and suffering might be prevented, if a harm-  
less and efficient Cathartic were more freely used.  
No person can feel with safety a violent action of  
the bowels, and the salutary effects of a mild cathartic  
are shown in the cure of many diseases.

These Pills are the result of long investigation and  
study, and are offered to the public as the best and  
most reliable remedy for the cure of all the above  
mentioned diseases. They are composed of natu-  
ral ingredients, and are entirely free from any  
poisonous or deleterious effects. They are adapted  
to all ages and constitutions, and are the best  
remedy for the cure of all the above mentioned  
diseases. They are the result of long investigation  
and study, and are offered to the public as the  
best and most reliable remedy for the cure of all  
the above mentioned diseases. They are composed  
of natural ingredients, and are entirely free from  
any poisonous or deleterious effects. They are  
adapted to all ages and constitutions, and are the  
best remedy for the cure of all the above men-  
tioned diseases.
