CHARLO MAN BEING SOUGHT BY LOCAL POLICE

Distinction For Campbellton In Elevation Of A. T. LeBlanc to Judgeship

LEBLANC APPOINTED JUSTICE IN SUPREME COURT OF N. B.

Designate Succeeds Judge W. B. Chandler
John—For First Time Campbellton En-
Distinction of Having One of Her Leaders
Public Life so Honored—Justice LeBlanc had
Career as Lawyer—Was Successful in
Many Memorable Cases.

Appointment of Arthur T. LeBlanc, K. C., to judgeship in the Supreme Court of New Brunswick, which was officially announced on Tuesday by Hon. E. J. B. Campbell, Minister of Justice, is a distinction of having one of its sons in public life elevated to the highest of the province.

It is no doubt but what the appointment made public Tuesday will bring the general approval of all who are familiar with the life of the young man, and particularly the people of Campbellton, where he was born and raised, and where he has spent the last decade.

Prominent Lawyer
The newly appointed judge is a man of considerable reputation and standing in the province of New Brunswick. Among the many cases with which he has been associated are the St. Pierre murder at Edmundston, in which he secured a verdict of acquittal for his client, the LeClerc trial for attempted murder in which he also secured an acquittal, and the case of the Hammond Lumber company when Mr. LeBlanc obtained a verdict for \$10,000 for his client, the Hammond Lumber company. In addition to these cases he has been successful in many other cases, and is well known as a clever counsel in court proceedings.

Sketch of Life
Judge LeBlanc, who is of French-Canadian descent, was born in Campbellton, Westmorland County, October 8th, 1879, the son of Thomas and Marie LeBlanc. He was educated at the public schools in his native town and later entered St. Joseph's University from which he graduated with high honors and with the degree of B. A. in June, 1900. Following his graduation he was called to the bar and in 1901 he was admitted to the Supreme Court of New Brunswick, and in 1902 he was admitted to the bar of the Province of New Brunswick.

Attorney in 1905
In 1905 he was admitted as an attorney of the Supreme Court of New Brunswick and in the following year was sworn in as a barrister. After practicing his profession in Moncton for one year, he came to Campbellton in March, 1907, where he has resided ever since. In the same year he married Annie McNeil, daughter of the late John McNeil and Marcelline Hubert of Moncton. In the general election of 1917 he was elected to the local Legislature for Westmorland County, having as his colleague Hon. William Currie.

During the session of that year he was the second of the address in reply to the Speech from the Throne. He also was chairman of the Municipal Committee for four years. In the general election of 1920 he was defeated with Mr. S. G. Harrison by a small margin and might have been elected on the second ballot had it been possible to carry it out. In November, 1921, he was recommended by the two chief justices for appointment as "Chief Justice" and his commission was granted and he was sworn in on June 1st of last year.

At the Liberal Convention held here last fall he was unanimously chosen with Mr. H. J. Currie as one of the Liberal candidates for this county in support of the Venet Government.

Some years ago Justice LeBlanc became interested in the militia and was elevated to the rank of Captain in the 3rd Infantry Regiment. The recently appointed judge is a brother of former Warden Alphonse LeBlanc, one of the present councillors of the local parish and a well known travelling passenger agent.

CHATHAM LOSES TO BATHURST 8-2

Miramichi Players Put on Poor
Exhibition in Own Rink
Tuesday Night

The Chatham hockey team playing a very poor brand of hockey suffered a decisive defeat at the hands of the Bathurst squad last night. The locals seemed to be unable to find their feet. The visitors outplayed them at every stage of the game excepting the last period. In this period the locals awakened somewhat and peppered Finnegans with some wicked shots but he was impregnable.

A return game will be played on Friday night. If the home team expects to make a decent showing they will have to get down to real work—Chatham Gazette.

GASOLINE SCARCITY IN UNITED STATES

Los Angeles, Cal., March 5.—There is less than sixty days' supply of gasoline on hand in the United States, according to the statement of Paul Soupp, vice-president of the Southern Pacific Railway and president of the Pacific and Associated Oil Companies, at the Los Angeles Advertising Club luncheon yesterday. Three great oil fields in California—Santa Fe Springs, Huntington Beach and Long Beach—have not returned the money invested in them, although it is estimated they have produced \$250,000,000 to date, Mr. Soupp asserted.

TREMOR LASTED MINUTE AND A HALF

Severe Earthquake Shock at
Malbaie, Quebec

Malbaie, Que., Mar. 5.—Extending over an area of about fifty miles, between the Laurentide Chain and the St. Lawrence River, a severe earthquake shock was felt here at 2:15, yesterday afternoon, in Les Eboulements and at Tadoussac, east of the Saguenay.

There was no damage reported, but the tremor lasted for one minute and a half, with more or less density. The region has been accustomed to frequent seismic shocks, but according to old residents, they have been more numerous in recent months, especially since the Japanese earthquake. Yesterday's was an unusual one in regard to violence and length of time.

BOY ESCAPES ELECTRIC CHAIR

Albany, N. Y., Mar. 5.—Lester Gerstberg, 17, youngest inmate of the death house in Sing Sing prison, convicted in November, 1922, of the murder of his stepfather, Marco Gerstberg, near Baltimore, Green County, was saved from the electric chair yesterday by Governor Smith, who commuted the lad's sentence to life imprisonment.

Changed the Record.
What's her particular grievance against her musician husband? She complained that when they were first married he played only low songs. Now he sits at the piano for hours reeling off death marches and dirges.—New York Sun and Life

Totum Totum

Totum Totum is the only candy that is made from the finest ingredients and is the only candy that is made in Canada.

HONEYMOON QUARRELS
"As for the Presentation Box, says a letter from Ottawa, 'my good wife can say more than I can because she ate more than her share. Just the same they were delicious and we enjoyed each other very much while on our honeymoon.'"

HONEYMOON CHOCOLATES
"There's an honest flavor to Graham biscuits that's likeable. When two of the biscuits are combined with a good filling it's better still. Ask for Mr. Graham's Biscuits."

A. T. LeBLANC, K. C.

Appointed Tuesday to Judgeship in the King's Bench Division of the Supreme Court of New Brunswick.

FRASER CO. HAS GOOD YEAR

Profits of Last Year Placed at
Over One Million—Lumber
Outlook Good

Montreal, March 4.—Fraser Companies, Limited, of Edmonton, N. B., for 1923 report trading profits, after Federal and general taxes and provision for bad and doubtful debts, at \$1,264,467, which compares with \$804,614 in the previous year. After all deductions, the increase credited to surplus account was \$177,894. This is the seventh annual financial report of the company. From the trading profit of \$1,264,467 is deducted \$249,350 for bond interest and \$201,297 for other interest, leaving a balance of \$813,820. To this is added the balance from the previous year of \$338,759, making a balance of \$1,152,579. Other deductions included depreciation, \$220,495; depletion \$183,331 and discount on securities sold \$31,500, leaving a profit and loss balance of \$1,001,653 to be carried forward.

The Working Capital.
The working capital position of the company has been maintained, and evidently improved slightly, as the following figures indicate:

	1923	1924
Current assets	\$4,966,230	\$4,840,847
Current liabilities	2,780,097	2,730,523
Net working capital	2,186,133	2,049,924

During the past seven years the net working capital has increased from \$1,000,000 in 1917 to \$2,049,924 in 1923. This has been written off out of earnings for depreciation and \$940,067 (including \$183,331 for 1923) for depletion.

The Outlook for the Future
After reviewing the financial result of the year's operations, Archibald Fraser, President, in his report to shareholders, says in part:

"The satisfactory showing is attributable principally to continuance, throughout the greater portion of the year of the improved market for lumber which was evidenced in the last three months of 1922 and to which reference was made in your company's annual report for that year."

"A fairly satisfactory profit was also realized from the manufacture of sulphate pulp, despite the continued unsettlement of the market for that commodity and the rather low prices which were realized on tonnage sold during the latter portion of the year."

"During the opening period under review, your company redeemed and cancelled an additional \$250,000 par value of its first mortgage 6 per cent. bonds of which there are now outstanding \$1,500,000 par value, and in addition \$50,000 par value of its general mortgage 8 per cent. bonds were redeemed and cancelled, leaving outstanding \$1,450,000 par value of bonds of that issue."

"Present indications lead to the anticipation that lumber business for the current year will continue to be good. With regard to sulphate pulp, the immediate future is rather more obscure—the market situation on this continent being governed to a very considerable extent by the trend of political and economic conditions abroad."

MARCH 14 AND 15 ARE DOLLAR DAYS

Campbellton Merchants Will
Have Something Special to
Offer on Those Days

Friday and Saturday, March 14th and 15th will be important days for the citizens of Campbellton and vicinity as these two days will be DOLLAR DAYS in Campbellton.

On these days the merchants of Campbellton will offer special inducements for our readers to come to come to Campbellton and exchange their cash for reasonable goods of all kinds.

Many special attractions will be offered and we are sure every reader of the Graphic will be interested. Watch next week's paper for full particulars.

POPULAR C. N. R. MAN RECEIVES PROMOTION

Mr. J. Arthur LeBlanc who has been a member of the C. N. R. Freight Office Staff here for some years was recently promoted to Chief Clerk at the Freight Office at Bathurst. During his period of employment at the local Freight Office Mr. LeBlanc proved himself a most conscientious and capable employee and his elevation to a more responsible position is indeed well merited.

"As he was popularly known as 'the fellow' who in wishing him continued success."

Mr. LeBlanc left on Monday Limited to assume his new duties at Bathurst.

GRAND FALLS DEVELOPMENT

Matter Dealt With in Speech
from Throne—Report is
Favorable

Fredericton, March 5.—It is understood that the speech from the throne at the opening of the session of the New Brunswick Legislature tomorrow will state that the expert's report regarding the feasibility of the development of the Grand Falls on the St. John river for hydro electric purposes are favorable to proceeding with the project, but that it is probably as far as the official document to be read by the Lieutenant-Governor tomorrow will go.

The policy of administration will probably be detailed during debate on the address in reply to the speech from the throne or in the budget. In addition to the Grand Falls project, reference to investigation as to the possibilities of hydro development on the Pettaquamscutt river will probably be made in the speech from the throne.

WILL NOT GIVE UP BOXING IN CHURCH

Denver, Colo., March 5.—Despite a hundred or more protests from a score of cities from New York to San Francisco, Rev. B. B. Kessler, pastor of the Merritt Memorial Methodist church here, declares he will continue boxing bouts after his semi-monthly prayer meetings. The next such programme is set for tonight.

"I am not in favor of prize fighting," he says, "but I am very much in favor of clean athletics and amateur sport. I have told my boys that those who can use boxing gloves will not use knives or guns."

FRENCH WILL BUILD

Paris, March 5.—A bill authorizing the French line to issue additional shares amounting to from four to twelve million francs to cover construction of two new liners for the Havre New York service, was approved by the Finance Committee of the Chamber of Deputies yesterday. The ships are to replace the La Savane and La Lorraine, which, according to the report of Deputy Valade, in behalf of the merchant marine commission, must give way to faster boats in order to compete with foreign lines for French passenger traffic and mail service.

the immediate future is rather more obscure—the market situation on this continent being governed to a very considerable extent by the trend of political and economic conditions abroad."

MAY PASS HERE IN WORLD FLIGHT

General Route of Cross Canada
Section of Trip Not
Decided

An Ottawa despatch Monday announced that the cross-Canada section of the British round-the-world flight had been mapped out by the staff of the Royal Canadian Air Force. Though the details of the route are not yet completed, the general line of flight from the Pacific coast to Newfoundland has been fixed.

The British airmen will probably touch Canada first at Prince Rupert after crossing from Japan via the Aleutian Islands and the Alaskan coast. They will follow the Yellow Head Pass to Edmonton, then to Regina, where they will swing slightly south to Victoria Beach, on Lake Winnipeg. They will then proceed over the Kenora Lake district to Fort William and cross the upper part of Lake Superior, keeping always in Canadian territory to Sault Ste. Marie. They will follow the North Channel and Georgian Bay to Lake Nipissing, then down the Ottawa River to Ottawa. The plane will go south to the St. Lawrence and there is an optional course from there to Newfoundland. They will go either via Fredericton, Bay of Fundy and Amherst, or by Campbellton and the Magdalen Islands to the southern point of Newfoundland and thence to St. John's.

H. M. minesweeper Thetis has already left to place fuel and supply depots along the Alaskan coast, among the Aleutian Islands and down the Siberia coast to Japan.

False Report
According to the officers who visited the McNeill house Tuesday night, there is apparently no truth in the report which was first circulated to the effect that McNeill had actually fired two shots at his mother in a frenzied attempt to shoot her. It was said that the bullets, going amiss had buried themselves in the door through which Mrs. McNeill was entering the house. A careful examination of the premises, however failed to disclose to the officers any proof that shots had been actually fired.

The accused is a man of about 28 or 30 years of age. For some years he resided in different parts of the west but returned last year to the home of his parents in Charlottetown.

ANNUAL DINNER AT CHATHAM

North Shore Regiment Held
Annual Dinner Monday
Evening

The officers of the North Shore Regiment held their Annual Mid-Winter Regimental Dinner at the Hotel Touraine Monday evening.

The affair was a most enjoyable one being attended by about thirty five officers from various points of the North Shore.

The dining room of the Hotel was nicely decorated for the occasion. At eight-thirty the assembled company sat down to a sumptuous repast.

During the evening splendid music was rendered by an orchestra composed of the following: Lieut. R. L. Doucet—Piano; Isaac Rosenberg—Violin.

Gilbert Landry—Cornet and Saxophone.

Mr. Kirby of Moncton gave several vocal selections which were much enjoyed.

The toast list follows:

C. N. R. ORDERS FIFTY ENGINES

Canadian National To Add
Powerful Equipment To
Rolling Stock

Montreal, March 5.—Orders have been with the Canadian Locomotive Co. of Kingston, Ont. for fifteen mountain type passenger engines and five Santa Fe type transfer freight engines and with the Montreal Locomotive Works for thirty Mikado freight engines, by the Canadian National Railways.

It is said that on completion of these orders the system will have in operation the largest passenger and the most powerful freight locomotive engines in Canada.

Judge (to prisoner)—Young man don't you know that, "Honesty is the best policy."

Prisoner—Yes, your Honor, but many policy holders die in poverty."

PUBLIC CONTROL IS WHAT THEY WANT

Big Gathering at Grand Falls
Urge Falls Development by Government

Grand Falls, N. B., March 4.—A banquet was held at the Curlers House, Grand Falls, Monday evening, given by the Board of Trade of Grand Falls. Upwards of seventy-five delegates from points outside of Grand Falls were present. Edmondston sent the largest delegation, sixteen going from that place. The banquet was held in order to confer with the delegates from other Boards of Trade in regard to the development of the power available at Grand Falls and to show the government that public sentiment is behind the movement for the immediate development of the latest energy which has been going to waste for thousands of years.

About a hundred and thirty sat down to the tables at a little past eleven o'clock. Dr. Kilpatrick acted as toastmaster. After the loyal toasts had been drunk, and the national anthem sung, the toastmaster called upon Mayor Collins who proposed the toast to the guests of the evening. In his speech of welcome the Mayor spoke of Grand Falls and gave some particulars regarding the industrial development and educational facilities which were there. Touching on the proposed embargo of pulpwood he said that it was to the best interests of the province that pulpwood should be exported until hydro was developed and mill facilities improved for home manufacture. He was strongly in favor of the development of Grand Falls by the government, and failing that, by the private corporation.

President Berry, of the Grand Falls Board of Trade, spoke, voicing his appreciation of the help which other Boards of Trade had given to the movement to have the power at the falls developed. He was followed by Vice-president Rideout who gave a vivid picture of the raw material being shipped out of the province on account of lack of hydro electric energy.

W. M. Casselman, Grand Falls, in an eloquent speech bristling with humor gave the history of the undeveloped Grand Falls extending over a period of over thirty years. He castigated the various governments which had given rights to private corporations without compelling them to live up to their agreements, but gave extension of time. He said the rights of the people had again and again been sold for a mess of pottage and that the two parties at different times when they were in power had been truly Esau and Jacob in their attitude to this question.

Let us savoured of the historical conversation which took place between the Pot and the Kettle. He called upon the present government to pass the legislation at the coming session which would insure the immediate development of the available power. Professor Theriault, of the Edmundston Vocational School, responded to the toast to the ladies, and in a style which has made him famous in the northern part of New Brunswick and with his humor, and brought out again and again in some unexpected place, points in favor of the government developing the Falls. Dr. Pio LaPorte, President of the Edmundston Board of Trade, gave some figures in connection with the proposed development. He paid a tribute to the Grand Falls Board of Trade for its efforts in the past. He believed the time had come when the government should act in no uncertain way. Mentioning the work which had been done to get the opinions of corporations and municipalities and private individuals, he sketched the benefits which would accrue to the whole province and the Dominion, and related the stand taken by the Edmundston Board of Trade that the task of development was one for the government and for the government alone. Grand Falls should be developed immediately and operated solely for the people of New Brunswick by the Government of New Brunswick.

Hon. L. A. Dugal, ex-member of the hydro commission, dealt with the long delay and the many promises as a former member of the commission. He gave facts regarding storage areas and said he believed that there was no doubt but what the government would do its last talking regarding development at the session to be held immediately and that we should see almost at once the steps taken to make hydro electric energy not a thing of the future, but a thing of the present, bringing prosperity to its train.

Rev. John Hardwick, Edmundston, followed Mr. Dugal. He said he was there, not in the capacity of a minister but as one in part reflecting public opinion. Although he knew nothing about hydro development he did know the people were leaving Canada at the rate of 10,000 a month and that New Brunswick was suffering from the exodus. Co-operating with the Board of Trade of Edmundston, his paper had sent out telegrams to different parts of the province asking for expressions of opinion. He read some from Seabrook, Campbellton, St. John, Fredericton,

ANOTHER MOVE IN BRIDGE MATTER

Resolution Passed at Meeting
Held Here Last Week—Grand Falls Hydro Matter

At a recent joint meeting of the Board of Trade and Town Council the following resolution was unanimously adopted.

Moved by A. C. Belle Isle, seconded by H. J. Currie:

Whereas a bridge for passengers and vehicles spanning the Restigouche River between the Town of Campbellton, N. B., and Cross Point, P. Q., has become an urgent necessity, and whereas both the New Brunswick and Quebec Provincial Governments have committed themselves towards the cost of construction of said bridge to the extent of each 25% (twenty five per cent) of some—And considering that the construction of a great highway between Campbellton and St. Leonard will also greatly increase the need of said bridge in order to adequately take care of the ever increasing tourist traffic.

Be it therefore resolved that the Restigouche Board of Trade strongly urge and recommend that the Federal Government through its Department of Public Works include in their 1924 estimates an appropriation sufficient to cover 50% (fifty per cent) of the cost of our long proposed Interprovincial bridge.

And that copies of this resolution be sent at once to the Honorable McKenzie King, Prime Minister of Canada, the Honorable Dr. King, Minister Public Works, Ottawa, the Honorable Pius Michael, M. P., for the Honorable Charles MacNeil, M. P., Ottawa, the Honorable P. J. Veniot, Premier of New Brunswick, the Messrs D. A. Stewart and Henry Dittie, M. P.'s, for Restigouche, Mr. Pab Bujold, M. P., for Bonaventure, also to the County Councils of Bonaventure, Restigouche and Gaspé, the Town Councils of Dalhousie, N. B., and Campbellton, N. B., and the Municipalities in Bonaventure County.

And further resolved that a committee of three be appointed by the Board of Trade to get in touch and work in conjunction with the above mentioned County, Municipal and Town Councils in a unanimous and joint effort to bring this bridge to a satisfactory and immediate solution.

The following resolution was passed by the Edmundston Board of Trade, re the development of Grand Falls:

RESOLVED that in the opinion of Edmundston Board of Trade, the Grand Falls power should be developed immediately and operated solely by the Government of the Province of New Brunswick.

"It is further resolved that a copy of this resolution be sent to the Prime Minister, Hon. Mr. P. J. Veniot and to the press.

Bathurst, Chatham, from corporations, from men of towns, from newspapers and from boards of trade. He referred to the fight which Governor Baxter, Maine, had had during the past year to keep the water powers of that state out of the hands of corporations who would exploit the people's heritage and read a personal letter from the government, expressing that if the people of New Brunswick rightly understood the issues, the water powers of the province would be retained for the people of province for all time.

Dr. P. J. Veniot, M. P., St. Leonard, said he had consistently been in favor of development. A. C. Belle Isle, Campbellton, followed, sketching the difficulties in the Miramichi district and showing what a great change would come if the power was developed.

A telegram was sent from Frank D. J. Barnum regretting his inability to be present and endorsing Government ownership and immediate development. A telegram was also received from Hon. Peter Veniot saying the Grand Falls question would come up shortly before the local House. Everything pointed to a favorable decision regarding the development of Grand Falls by the Government. Among those present were W. F. Burditt, and R. Downing Paterson, St. John.

It was an enthusiastic meeting and should be of value to the government in showing them what public opinion demands.

DISCOVERED BY DOCTOR

Was Pioneer in Introducing Tobacco in Europe.

Every man who smokes owes a debt of gratitude to Francisco Fernandez. The commencement of the use of tobacco by civilized people has been traced back to its introduction in Europe by that celebrated physician. Fernandez was sent by King Philip Second of Spain to investigate the products of Mexico. As a result of his explorations Francisco Fernandez took the tobacco plant to Europe in 1605. It was the first time the use of tobacco in England dates from 1586 and the name of Sir Walter Raleigh is associated with its introduction here.

That first plant was supposed to possess almost miraculous healing powers, and the poet Spencer called it "divine tobacco". Millions of people since those days have realized that tobacco is "a sweetener" of their lot in life and a great equalizer of the temper.

HAS SHOT MANY BUFFALO FOR MEAT

How Work is Being Carried on at Wainwright Buffalo Park

Wainwright, Alta., March 5.—Sam Parshall, sharp-shooter, has killed 1,847 buffalo for the Federal Government on the reserve at Wainwright this winter. He used an average of 2-1/2 bullets for every animal killed and shot an average of 45 each day. The special slaughter house at the Park was operating. These and other interesting facts are related by a Calgary man who returned recently from the buffalo park and who watched the process of weeding out the bad herd.

There are about 6,000 buffalo left, the best and huskiest of the bunch. In the general slaughter many of the old and weak animals were disposed of in addition to the stronger buffalo killed for their meat. Stories of inhumanity in killing these animals are quickly dispelled by a visit when the shooting is in progress, according to the visitor. The animals are herded into one of the small pastures. Sam Pursell drives out in a rig from which he shoots his victim with a Springfield rifle, using soft-nosed bullets. The brain of a buffalo is higher in the head than that of a domestic steer. In order to get them right through the brain, it is necessary to hit the curly bunch of hair just below the level of the horns.

When one of these big animals is hit directly through the brain, it drops as if a fountain had dropped on it, and so heavy are the odds that, when they fall, the underjaw is often fractured. As they are killed the carcasses are drawn to the slaughter house, an absolutely modern plant, with a staff of eleven butchers. Jack Waddy, Government inspector, inspects the animals and diseased carcasses are drawn to the incinerator. The good carcasses are dressed and shipped to Edmonton where they go into cold storage to await disposal.

The younger buffalo are sold to the public and the older ones are reserved for the manufacture of pemmican in a plant west of Edmonton. Operators will start there in April, under the supervision of Howard Shedd, of Banff. A staff of squaws is engaged in this work and the pemmican is sold to the Hudson's Bay Company. The mounted police and other organizations with posts in the Far North. It is ideal food for men on the trail there.

Matapedia

The Mishes Violet and Isabel Lawlor entertained their friends at a very enjoyable skating party on Friday last week. Skating commenced at 8:00 p. m., lasting until 10:00 p. m., when the young people repaired to the home of our young hostesses where a very refreshing lunch was served. The invited guests were the Misses Grace Young, Etta Adams, Isabel Pratt, Lorena Adams, Alice Lawlor, Jessie MacNeil, Gertrude Adams, Rena McNair, Louis Adams, and Messrs Jno. A. Adams, P. Gauthier, Jas. R. Fraser, A. Beaulieu, Wm. Pratt, F. Boudreau, Irvine Pratt, Walter MacNeil, Leo Lynch. Miss Rena McNair spent the week end in Campbellton the guest of friends.

Miss Lorena Adams has been at her home here for the past week. Owing to an epidemic of measles it was necessary for her school to be closed.

Miss A. C. Lawlor spent Saturday in Campbellton.

A few of our young people enjoyed a very pleasant snow shoe hike on Tuesday p. m.

WEDDINGS

BERTHELLOTTE-DOYLE

A quiet but pretty wedding was solemnized at St. Anne de Restigouche March 4th fourth when Miss Mary Doyle daughter of Mrs. Jane Doyle, was united in marriage to Mr. Arthur Joseph Berthellette son of Mrs. Melina Berthellette of Cross Point.

The bride was given in marriage by her brother, James Doyle, looked very nice in a navy blue tuxedo with a white scarf and hat to match.

The groom was attended by his brother Ouseph Berthellette.

Following the ceremony the happy couple left for an extended trip to Western points. On their return Mr. and Mrs. Berthellette will reside in Campbellton.

The beautiful array of gifts attested to the popularity of the bride. Their many friends join in wishing them a very happy journey through life.

LOCALS LOST BY SMALL MARGIN

Shives Rink Won Place in Finals In Recent Quebec Games—Also Did Good Work

(Held over from last issue)

To be separated from the victory by little more than a hair breadth in the recent Quebec bonaparts was the experience of the R. K. Shives rink of curlers who arrived home on Monday last from the annual matches at Quebec for the Holt-Remfrew Trophy and Senator Cup. Shives rink succeeded in winning a place in the finals but lost by one point, the last stone going just one quarter of an inch out. This rink with Shives as skip, consisted of E. P. Mowatt, Colin Mackenzie and Robt. Campbell. The other rink which also did very creditable work in the Quebec games was—Thos. Wran, skip; H. A. Carr, F. J. McFae and Colin McLaughlin. Although not victorious the local curlers had a most enjoyable trip.

NEVER CHEWED GUM OR ATE ICE CREAM

Liberty, Mo., Feb. 24.—Gus Bishop reached the age of 70 this week and claimed fame for the things he hadn't. Bishop has never chewed gum, eaten ice cream, seen a motion picture, ridden on a railroad train or in an automobile, wore a collar or a necktie, talked over a telephone, seen a building more than four stories high or moved. He lives in the house in which he was born.

"I never saw any sense in doing unnecessary things," Bishop said.

His No Longer.

"Do you leave your valuables in the hotel safe when you go to a summer resort?"

"Only when I depart."

HERE'S WHAT PEOPLE SAY ABOUT TANLAC

"If it had not been for Tanlac I would still be sick, discouraged woman, for nothing else seemed to do me any good," Says Mrs. Edward Gibbons.

All the advertising in the world and all the sales efforts combined could not have made the great success for TANLAC that has been attained, unless this reconstructive tonic possessed merit of the greatest degree. Over 40 Million Bottles of Tanlac have been sold and the demand is greater than ever before.

That TANLAC possesses merit and has brought relief to hundreds of thousands of persons is attested by the great number of testimonials that have been received by the company from people in every state of the Union and every province of Canada. There are over 100,000 such statements on file with the company, all ringing with sincere praise for TANLAC and what it has accomplished.

Here are excerpts from a few of the 100,000 statements on file:

Mrs. Edward Gibbs, Lancaster, Pa.—"For 2 years indigestion deprived me of nearly all the pleasure of living. It had not been for TANLAC I would still be a sick and discouraged woman, for nothing else seemed to do me any good."

Mrs. Mary A. Benson, Seattle, Wash.—"Following an operation my stomach and nerves seemed to give way and I became almost helpless. As a last resort I tried TANLAC. I began to improve from the very first, gained 29 lbs., and today am feeling fine."

O. E. Moore, Kansas City, Mo.: "My stomach seemed to pain me constantly, food seemed to do me no good, I would bloat up with gas, lost my strength, and could not sleep or rest. I was on the down-grade all the time. Tanlac corrected my troubles and put me in excellent shape."

Thomas Lucas, Peterboro, Ontario: "Well, sir, buying TANLAC was the best investment I ever made, for it built up my health and strength to where I haven't a complaint in the world."

Mr. and Mrs. Joseph E. Kaake, Detroit, Mich.: "For more than a year our three children, age 2, 4, and 6, have been so peaked and lifeless that their stomachs were upset, appetites poor, the color had left their cheeks, their nights were restless and during the day they would just mope around, taking no interest in play or anything else. They began to improve with the first dose of TANLAC, and today there are no more healthy children in Detroit."

Tanlac is for sale by all good druggists. Over 40 million bottles sold. Accept no substitute.

Take Tanlac Vegetable Pills.

Campbellton, N. B. March 6, 1923

THE NEW JUDGE

Mr. Arthur T. LeBlanc, K. C. is being warmly congratulated by citizens upon his appointment to the Supreme Court Bench. This appointment is well merited, and we are sure Judge LeBlanc will fill the office with honor to himself and to this community.

We quote from editorials in various provincial papers as follows: St. John Globe—"A. T. LeBlanc, called to the Supreme Court in succession to the late Judge Chandler, had claims for recognition as an outstanding member of his profession in Northern New Brunswick, as a representative of the Acadian people and as a Liberal who in and out of the Legislature had fought the party fight."

St. John Telegraph-Journal—"For a number of years past Mr. Arthur T. LeBlanc has been recognized as a rising lawyer and able public man. His success in the courts is a matter of record, and he has been a member of the Provincial Legislature and was to have been a candidate in the next general elections. His qualifications for the Bench will not be questioned. His appointment will especially gratify the Acadian people, who number about one third of our population, and who were formerly represented on the Bench by Sir Pierre A. Landry."

Moncton Transcript—"Mr. LeBlanc's legal career has been one of notable success, and he has established a wide reputation as a lawyer of sound judgment and outstanding ability. He is therefore splendidly equipped to discharge the duties of his high office, and that is one of the reasons why the general public will be as pleased over his appointment as the French Academics, of whom he is so fine a representative."

Fredericton Mail—"Mr. Arthur T. LeBlanc, K. C., of Campbellton, is a sound lawyer in the enjoyment of a large practice and will undoubtedly make good in the high position to which he has been called. Although still a young man he has had a lengthy

career at the bar and has taken part in many important cases. He served four years in the New Brunswick Legislature and proved himself to be one of the most useful and active members of that body."

Fredericton Gleaner—"Elevation of Mr. Arthur T. LeBlanc, K. C., of Campbellton, to the Supreme Court Bench of the province has not come as a surprise. It was well known and recognized that it was the Acadia's turn, and in Mr. LeBlanc they had the man for the post. The new Justice has been the outstanding French-Acadian lawyer in New Brunswick, he has shown more than ordinary ability in the practice of his profession, and he is recognized as possessing of capacity and attainments to become a very useful member of the Bench, which our last French Acadian justice, Sir Pierre A. Landry, graced with so much credit to himself and the race which he represented."

OFFENSIVE LITERATURE

At a recent meeting of the Ontario Women's Liberal Association, the Committee on Objectionable Literature, reported:

"The tremendous increase in imported magazines may not generally be known. In 1912 the total value of magazines coming into Canada was \$331,000, and in 1922 the value had increased to \$3,122,000. At the present time about 140 various periodicals are imported each month. Of these, many are specializing in printing and pictorial indecency, and a larger percentage is of very low moral tone. One of the worst offenders of the first-mentioned class has a large circulation, about half of which is in Ontario. Twenty-five similar magazines, also with large circulation, means a distribution in this province of approximately 325,000 periodicals, filled with stories based on sexual perversity and crime."

"The circulation of ten magazines banned last year was estimated at 130,000 issues per month in Canada, and one of the worst of these, of which only a few issues were allowed in Canada, rose in that time to a circulation of about 10,000 copies. Thirty new dealers in Toronto were asked who bought this magazine, and the reply was 'Girls and boys'. The chief purchasers of magazines of the most sensual sex appeal are young people, whose standards and morals are still in a formative stage. News-dealers say there is a demand for these magazines. They are confusing the terms demand and consumption. The demand is being created, and the consumption increases as the number of periodicals exposed for sale increases."

South of us are cities crowded with people bred in the moral laxity of European countries. Many of these magazines are edited by such people to cater to others of their class, and it is a matter of paramount importance that the Canadian standard of morals should not be influenced or perverted, by such slum mentality."

It is good to know that the combined efforts of the committees of

several societies have resulted in the banning of seventeen offensive magazines by the Department of Customs and Excise. This is a most important work because of its tremendous moral significance and one that should be taken up by societies everywhere.

HEALTH INSURANCE

According to the Vancouver Sun, medical men in that city are taking considerable interest in the question of public health insurance. There is no doubt such a measure should be brought into existence without delay, because it conforms with the principle that the prevention of disease is infinitely preferable to the curing of disease.

As time goes on people will learn that it is better to employ advice that will teach them how to live than to secure advice by which they may be rescued from the jaws of death after they have fallen a prey to disease. The medical profession is not wholly to blame for the lack of progress in healthful living generally because its resources have always been employed for curing rather than for preventing. The public has always shown an extreme reluctance to seek medical advice except in cases of dire necessity. An adequate system of health insurance should prove of great value to the public, because as a matter of financial necessity it will place upon some organized body the responsibility of maintaining the health of the community. It will help to make prevention of disease an economic necessity.

AYS BRIGHTER ON NORTH SHORE

H. G. Millican Brings Optimistic Report to City From That Section

(St. John Times)

That the outlook on the North Shore was brighter than it has been for some time was the cheering message brought to the city by H. G. Millican, manager of the Campbellton branch of Baird and Peters Ltd., who is spending a few days in the city. He said that business in general was much better than it was at the same time last year and there seemed to be a feeling of optimism in the air.

The fishing on the North Shore had been good and the prices realized for the catch fairly high, which had resulted in placing a lot of money in circulation. There had been a good season in the woods and all the mills were planning for a big cut this summer, all of which had a favorable effect on general business.

Mr. Millican has been located in Campbellton for the last seventeen years and has his finger pretty well on the business pulse of that part of the province. He said the business men felt the period of depression was about over and things from now on would show a betterment.

LOCAL CURLERS LOSE TO MONCTON

Closest and Most Keenly Contested Games Played in Moncton This Season

(Monday's Moncton Times)

Saturday afternoon and evening at the Moncton Curling Rink, Campbellton and Moncton curlers played six rinks a side, were seen in the closest and most keenly contested match played in the local rink this season. It was not until the last stone was played that the victors could be named. The Moncton curlers won by the small margin of one shot, the totals being 81 to 80. Three of the eight rinks won by narrow margins, while three of the nine curlers also emerged winners by slight leads. Skip E. W. Givan's rink, for Moncton, with a win by 13 to 9 over Skip Shives, was the widest margin on any of the rinks.

A feature of the game and just prior to the last two stones being played by Skip Robertson and Miles, which were to decide the winners of the match, was the action of the Campbellton skip producing a "rabbit's foot" from his coat pocket and placing it on the Campbellton stone which was lying the shot. This created considerable amusement for the large number of spectators and players but the "rabbit's foot" lost out.

The score by rinks:

Moncton	Campbellton
J. Wolstenholme	G. Connors
N. Sharpe	H. B. Anslow
Percy MacDonald	H. R. Barnes
R. P. Dickson	J. T. Mowatt
Skip—13	Skip—12

A. P. Corbell	F. Shirley
Frank Dennison	F. Ingram
S. H. M. Rive	A. H. Troy
L. R. Rette	W. R. Fitzmaurice
Skip—18	Skip—19

C. T. Montgomery	W. E. Cooke
W. Wheeler	A. Parolis
G. F. Henderson	L. McLean
A. H. Lindsay	M. M. Mowatt
Skip—11	Skip—10

H. O. Arthur	N. C. MacKay
C. J. Milligan	R. H. Smith
C. C. Johnson	R. J. Lavoie
R. W. Simpson	J. T. Reid
Skip—13	Skip—16

C. W. Rand	J. W. Howard
Thos. J. Allen	S. Russell
C. B. Tritts	John Connell
E. W. Givan	R. K. Shives
Skip—13	Skip—9

H. Lounsbury	N. Boulay
W. G. Atkinson	Ray Matthews
Geo. C. Allen	H. A. Carr
C. S. Robertson	Geo. F. Miles
Skip—13	Skip—14

Totals—81	80
-----------	----

At 6.30 the Moncton curlers were hosts to the visitors at a dinner served in the rink and at the conclusion of the evening play, luncheon was served to the curlers and friends, this being followed by songs, speeches, readings and recitations. The day's activities were brought to a close at midnight with 'Auld Lang Syne' and the National Anthem.

The Campbellton curlers returned home Sunday afternoon on the first of their private pullman, all voting the Moncton curlers good sports of hosts and entertainers.

Among the well known Maritime men at the curling game and the best curlers present were Mr. C. O. Morris of St. John, ex-Secretary of the N. B. Branch of the R. C. C. A., and Mr. Nick Thibodeau, of Bathurst.

Matches between Moncton and Campbellton will undoubtedly be an annual event in future.

THE HARDWOOD CUT IN NEW BRUNSWICK

Extensive Operations in Victoria and Madawaska Counties This Season

Andover, March 1.—Extensive hardwood lumbering operations are in full swing this winter in Victoria and Madawaska counties and the lower part of Quebec. The demand for hardwood by the big buyers far exceeds the possible present cutting. This great impetus to what is practically an infant industry is caused by the fact that the United States is practically bared of this kind of lumber, all hardwood at any near distance to the railways, especially in the state of Maine, having been nearly all cleared off. It is estimated that 100,000,000 hardwood ties are needed yearly in the Middle States for replacement purposes. Cedar ties cannot stand up against the present heavy traffic on these roads, and the ravages of the budworm and the too frequent forest fires have severely depleted the supply of cedar. The nearest hardwood to be had is in New Brunswick, some few parts of Maine and in the Province of Quebec. The present demand for hardwood is greater than the demand for spruce. Hardwood ties are being cut and shipped to the United States at the rate of a car per day on the I. N. R., running from Campbellton to St. Leonard. The veneer lumber is being shipped to France at good prices. Seaman Kent & Co., Toronto, are quoted as paying \$37 per 1,000 feet while the Wayne Lumber Co. is represented as paying as high as \$70 per 1,000 feet for the same lumber. Maple is selling at \$40 per 1,000 feet. The New York Central Railway with 850,000 hardwood ties this year. The Harwood Products Co., an American concern, is handling about 20,000,000 ties in this part of the province and the lower part of Quebec

Dry Goods Department

We have now a complete stock of Piece Goods.

We would especially invite you to look through the magnificent range of

Voiles, Ratines, Fancy Suitings, Skirtings, Fancy and Plain Silks, Cretonnes, Art Sateens, etc.

alone, the big lumbermen hope to cut at least 40,000,000 feet. The men interested in this industry which has just been opened up for New Brunswick this year, are hoping

to break even this year, while next year holds out very bright prospects. However, owing to the wet weather last fall and the lack of good labor early in the season, the cuts of hard-

wood and spruce will hardly meet the sanguine hopes of the majority of lumbermen. Hauling this season has been exceptionally good and will be finished about March 1.

LOCAL ITEMS OF

News Notes of Town Happenings Gathered by G

BORN
Feb. 24, 1924, to Mr. and Mrs. J. McKinnon, a daughter, son Feena Joyce.

ASH WEDNESDAY
Wednesday March 6th was Ash Wednesday, the first day of lent. Friday falls on April 18, and on Sunday April 20th.

CARD OF THANKS
The family of the late Mrs. Mary McRae of River Charles wish to thank many friends for the kindness shown them during their recent sad event.

IN LIKE A LAMB
March came in like a lamb on Monday, and the week end was fine mild. Mild weather has continued all this week, and the snow is melting rapidly.

LOSS OF VALUABLE DOGS
An unusual streak of hard luck visited the kennels of the well known Mr. W. Sheehan of Dalhousie last week and left a casualty list of seven well bred dogs dead from the effects of some dog disease.

SUSSEX WON FROM ABBIES
Sussex piled up a five goal lead in first game of the Sussex Abbies by defeating the Charlottetown team 7-2 at Sussex Tuesday. The next game will be played at Charlottetown on Friday night. The Abbies will find it hard even to wipe out the lead of the fast Brunswick team.

NEWCASTLE LUMBER COMPANY
D. & J. Ritchie Company, Limited, incorporated with capital stock of \$100,000 and head office at Newcastle. The company is to carry on a general lumbering and milling business as well as other activities. Incorporated in 1918. The late Mr. H. H. Ritchie and David Ritchie all Newcastle.

HAS LEG BROKEN
Ray Ferguson of Campbellton while working in the woods on Monday last had the misfortune to have his left leg broken by several logs falling upon it. He was brought to the Soldiers' Memorial Hospital here Dr. MacPherson on examination found that both bones of the leg had been broken. The patient is now doing as well as can be expected.

CHARLIE GORMAN BREAKS RECORD
Charlie Gorman, St. John, broke the 140 and half mile record Tuesday night in a series of races against time. He made the 140 yds. dash in 37.5 seconds which was one fifth second faster than the record made by Bobby McLean in 1918. He also broke the 140 yds. record of 1.21 2.5 for the mile lowering this record by 3.5 seconds. These records cannot be broken as good because they were not made in competition.

ASPIRIN

Beware of Imitations!

BAIER Demand

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin. Bayer Aspirin is proved safe by millions and prescribed by physicians over twenty-three years.

Colds, Headache, Rheumatism, Neuritis, Stomachic Pain.

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains twelve tablets. Handfuls of twelve tablets cost few cents. Drugists also sell bottles of 21 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetyl-acetate of Salicylic acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Of Interest to Women

Suggestions for a Cosy Corner

Furnishing corners in large rooms is part of the art of making rooms home-like. There is the corner seat which may be bought or built in, which is essentially inviting if a small tea or magazine table is set in the triangle of space in front of it. If it is not convenient to buy or build the seat, a couch placed in the corner crossways with the little table in the corner behind it makes an attractive arrangement.

In Russian homes, where the winter is long and people are shut in more than in climate, the four corners of the living-rooms are definitely arranged to suit different tastes of the family and offer congenial hospitality to friends. In one corner we may find the card table with cushions around it that holds all things needed for the players. In another corner we are likely to find all of the conveniences of desk and equipment. Still another will hold a reading table strewn with books, magazines and with lights, cosy couch and chairs conveniently near.

Around the tall white stove, or wide open fireplace, the almost constantly singing samovar is placed, and tea, with eatables, is ready at short notice for family or friends who may drop in. The entrance halls are double-doored and are specially used for outside wraps and fur-lined boots, which are always removed before entering the livingroom. We find also conversation chairs, one facing another, so that people may converse in a semi-confidential manner, scattered about the rooms. In this way, people naturally drift to the most congenial corner.

In one room seen recently, a wong accomplished quite an artistic corner at little expense by purchasing two wire cots with mattresses, setting them triangle fashion. In the small space between she had a carpenter build a set of book-shelves with books facing the head of each couch. A brilliant but soiled reading light was placed on the shelf, which shone down on each couch end, where pillows made lounging and reading a most delightful pastime. Another corner in the same room held a triangle of bookshelves running from baseboard to picture-rail while two sturdy little stool steps ladders invited inspection of books otherwise too high to reach.

A tall screen cuts off a corner attractively, with a small table and a movable extra chair in its folds. A large room, that perhaps is not sunny and not fully furnished, always seems bleak if the corners are bare and empty. One room was completely altered by hanging curtains from poles so that they cut the corners of the room right off. An odd but not a bad idea if furniture is rather scarce.

Large rooms call for large furniture as a rule, while small rooms need small, well-chosen pieces which fit in to the spaces left to them in such a way that they seem to increase rather than decrease the size of the room. If building a home, it is a good idea to put radiators in corners where they may be concealed without disturbing their usefulness, rather than to allow them to be placed under windows or where they take up wall space that might be used for a needed piece of furniture. These objectionable things are placed by many architects under the windows, supposedly to heat the air that is expected to filter in. But this is a mistake, for they are ugly-looking and there is no sense in having them in prominent places. Of course, registers for hot-air heating are unobtrusive and may be disposed of without seriously affecting the decorative scheme of the room.

In a dining room corner closets are the most charming way to fill corners, built in of course after the manner and style of the furnishings of the room. Silver and china, glassware and trays may find a resting place in the pretty closets, where they will be free from dust and not in evidence. They are not shown in the open where they used to be in the old-fashioned days. In fact, the dining table, itself, is apt to be of the drop-leaf variety, and is closed when not in use in order to give more room, its decoration being a runner with a fringed cloth of some sort and candlesticks to match. Planning the corners of our rooms is worth while in decorating, for they have great possibilities.

W. C. T. U.

REMARKABLE RECORD

(By A. J. Cook)

W. E. Johnson has now completed his triumphant tour in South Africa. In nine weeks he delivered 109 addresses to a total audience of some 65,000 persons. During most of the time his audiences have averaged more than 1,000 persons a day.

Beginning among the wine farmers of Worcester and other centres he at once captured the hearts of the South African farmers and lifted the whole question of prohibition to a new plane. With a leading wine farmer presiding as mayor, at his meeting he quickly convinced the grape growers of South Africa that there is at least a possibility that their future salvation lies not in the already languishing market for intoxicating drinks but in turning their attention to new uses for the product of the vine along the lines of the well-known experiments carried out in California.

At one station along this route he was pulled out of the train and taken

Pies and Other Desserts of Proven Popularity

INDIVIDUAL PIES AND OTHER DESSERTS WHICH ARE POPULAR

Individual pies are engaging the attention of the housewife these days, for while they are of the same materials as the larger pies, they are much more easily served. Mince, pumpkin, apple, cranberry and lemon meringue are all popular, and the raisin pie is also a favorite with those who like sweet pies. The pumpkin and cranberry are open faced pies, meringue blankets the golden lemon pie and all the rest boast upper crusts.

BANANA CUSTARD PIE

Line a deep pie-plate with good crust and finish the top by marking it with the ties of a floured fork. Put four small or three large bananas through the ricer. Make a four egg custard, using the yolks of all and the whites of two eggs, a half-cupful of sugar, a pint and a half of milk, a teaspoonful of vanilla, and a little grated nutmeg. Beat in the bananas after working into them a level table spoonful of flour. Turn the banana custard into the crust and bake the pie. By the time the crust is done the custard will be set. Use the remainder of the egg whites for a meringue, beating into them six teaspoonfuls of powdered sugar and a few drops of vanilla. Spread the meringue over the top of the pie and let it brown in the oven.

PINEAPPLE MIRROR PIE

Line a pie-plate with good crust, prick it on the bottom with a fork, then bake it until it is brown. Add to a package of prepared lemon jelly at pint of boiling water. Drain off the juice of a sliced pineapple, then put the slices into a cheese-cloth bag, squeeze out all the juice and add it to the pineapple jelly. When it is cool pour the jelly into the crust and set it to harden in a cool place. Serve this pie heaped with whipped cream.

SWEET POTATO AND CHESTNUT PIE

Shell, blanch, then boil until tender, a pound of chestnuts. When they are tender, mash them and beat them light with a fork. Boil sweet potatoes enough to make two cupfuls when they are mashed. Beat the nuts and potatoes together, add a cupful of brown sugar, a half-teaspoonful of salt, a tablespoonful of butter, three eggs, a teaspoonful of vanilla, a little nutmeg and a scant pint of rich milk. Fill the crust-lined dish with the mixture, lattice the top with strips of crust and bake the pie.

RED-GRAPES PIE

Line a pie-plate with good crust, then fill it with seeded, California red grapes. Sprinkle the top with three-quarters of a cupful of sugar, a half cupful of flour mixed smooth with a half cupful of maple syrup and one beaten egg. Put on the top crust and bake the pie.

SPICED PEAR PIE

Drain the juice from a quart can of spiced pears—home-made are best—remove all the spices left whole and cut the pears into the crust-lined pie-dish. Sprinkle the top with a half cupful of brown sugar. Strain the juice into a half cupful of flour, and work it smooth, then turn it over the pears. Put on a top crust and bake the pie.

on in an automobile some eight miles to a town which was not on his schedule but where the town hall was filled to overflowing with the mayor and councillors in attendance and with even the stationmaster present to ensure his not missing the same train out of which had been taken at a point further along the line.

Liquor Trade Boosts Johnson's Meetings

The first hostility arose at Port Elizabeth where, owing to the publicity methods adopted by the local licensed victuallers, the largest meeting ever held in Port Elizabeth took place. The crowd was variously estimated but probably numbered at least 4,000 while many hundreds were turned away. For the best part of an hour the meeting is described as having been like the raging waves of the sea, but Mr. Johnson succeeded in getting a hearing, and the result of the meeting was that public opinion was completely captured by the temperance reformers. At Grahamstown similar tactics were adopted by the liquor trade but a bunch of college students (Rhodes University College) rose in a body and effectually silenced the interrupters.

On several occasions Mr. Johnson addressed gatherings of natives and colored persons, who invariably received him with great enthusiasm.

Results of Johnson's Tour

Mr. Johnson's visit has given unparalleled publicity to the cause of temperance reform. The press throughout South Africa has been kept busy after column of news and of articles about Mr. Johnson and the cause he represents. On the whole the time has been remarkably friendly and no visitor has ever had such wonderful hospitality from the news-

A rough is a warning that you need

SCOTT'S EMULSION

BRAMBLES

1 cup sugar, juice of 1 lemon, 1 cup chopped Sun-Maid raisins. Make enough pie crust for one pie and cut as for cookies. Mix the sugar, chopped raisins and lemon juice together. Add a little flour if too juicy. Place a teaspoon of the mixture on each round of crust and fold over like turnovers. Pinch edges down to prevent juice from stewing out. Place in shallow tins and bake until brown.

PALACE HOTEL RAISIN PIE

Soak one pound of seeded Muscat Raisins in water three to four hours. Drain off and put in saucepan, cover with water, add rind and juice of a half lemon and a little stick cinnamon, add sugar to taste and boil for a few minutes. Stir in at last while boiling 1-2 ounce cornstarch diluted with water. Cool before filling in lined pie plate; cover and bake in moderate oven.

PIE CRUST

1 cup flour, 3 table-spoons shortening, 1-2 teaspoon salt, ice water. Put flour into a bowl and mix shortening in with the finger tips, add salt and mix well. Add enough ice water to hold together well. Roll out and fit to pie plates.

Old-Fashioned Fancy Work Now to Have a Revival

The persistence of the cross-stitch in fancy work has revived interest in the earlier periods of its popularity and reproductions of articles long forgotten are appearing in shops and craft centres.

Grandmothers open their eyes with astonishment when an old-fashioned hassock is pushed under their feet decorated on top with worsted flowers the rest of the canvas filled with cross-stitch done in a solid color. Flasks are often boxed with velvet to hold the decorations, and room and lined underneath with oil-cloth in orthodox fashion so they can be readily pushed across the floor.

We all remember these old-fashioned rests, though in recent years they have only been found in churches where they were covered with carpet like that stretched in the aisles.

Knitters are doing some wonderfully charming work for the holidays, especially in things for youngsters. Little worsted suits come with caps and mittens to match, also charming afghans for the baby carriage, which are knitted, then over-rich with an embroidered and ribbon-made rose wreath or single flower and silk-lined sweaters of all shapes and kinds there are, so that even the simplest wardrobe may boast several at a small cost of material and not overmuch labor.

Crocheters are making wonderful Dutch dolls, which resemble the old-fashioned crocheted dolls, only that they are up-to-date and look like real people. The rag doll of today is a thing of beauty beside which its ancestor would look very crude. Great artists sometimes paint their faces and hair for live models. The heads are round instead of flat and real hair peeps out from under their costume hats in babyish style. They look so human that it is small wonder that their wee mothers adore them. The clothing can be taken off and put on, another advantage

papers of this country.

The hostility of the liquor interests has been aroused to a point almost approaching that of panic. The leading liquor paper of the Union devotes almost the whole of its last number to Johnson and his work. As an illustration of their weakness in detail, this particular issue contains three different statements as to the number of arrests for drunkenness in the city of Washington, D. C., during 1922. In one place the number is approximately 2,000; in another it is 6,000 and in a third it is 61,000. In the same way, the drug addicts in America are, on one page one million, another page two millions, and yet another, four millions. Unfortunately such wild statements are also quoted in the daily press, but so long as our opponents continue to contradict themselves in this delightful fashion, we may trust the public to make their own estimate of their lying propaganda.

Enthusiasm has been stirred up everywhere amongst supporters of temperance reform. Prohibition and local option have become the universal topic of conversation and correspondence, including leading articles, in almost every responsible newspaper in South Africa. Moderates as well as abstainers are speaking in favor of the limitation of the liquor traffic and great impetus has been given to existing and prospective organizations.

Mr. Johnson's delightful personality and his proved reputation as a good sport has not only created large numbers of pleasant friendships throughout our land but has put the whole question of reform in a better aspect in the eyes of opponents as well as of friends. In more than one instance the mayor who has presided at his meetings, has been himself a liquor seller, and it is being realized that the whole question has become one for public discussion quite apart from personal prejudices.

Mr. Johnson's unique collection of autograph letters from governors of states, attorneys-general, heads of churches and of cities, all written since June of this year, as well as his convincing statements of facts have done much to provide the public with reliable answers to the campaign of misrepresentation with which we are now so familiar.

The gratitude of the whole of South Africa goes out to Mr. Johnson personally and to the World League, which has made his visit possible.—The American Issue.

Carnation Milk

"From Contented Cows"

Saves Time and Trouble

CARNATION Milk saves time and trouble, saves waste and it's always ready for use. You'll welcome its wonderful convenience in cooking. You can keep a supply on your pantry shelves—always ready, always the same dependable quality, always pure, always safe.

And you can order it with your groceries. For the grocer is the Carnation Milkman.

Carnation Milk is just pure fresh milk, evaporated to double richness, kept safe by sterilization. Order several tall (16 oz.) cans or a case of 48 cans from your grocer.

Try this recipe and write for a copy of the Carnation Recipe Book.

CREAM OF MACARONI SOUP: 1 teaspoon salt, 2 table-spoons butter, 1 cup macaroni (broken in 1/2 inch pieces), 1 table-spoon flour, 8 cups water, 1 cup Carnation Milk.

Cook macaroni in boiling, salted water about twenty minutes or until soft. Drain and melt butter; add flour; add salt; then milk, and cook five minutes. Combine with macaroni. This recipe serves six people.

EDITOR'S MAIL

Point a la Garde,
Feb. 28, 1924Editor Graphic
Campbellton, N. B.
Dear Sir:

I see in last week's edition of the
Graphic a very good suggestion
about a public market in your town,
which is a very good one also the
cause for same up to the point. But
the only objection to a public market
in Campbellton from the Farmer's
point of view is this: Will the people
of the town come to the market to
buy direct from the farmer what we
would have to offer them. I say
there will be a very few, but you
will see the man who keeps the shop
come and try to quote you prices in
his own way as he has been doing in
the past. For example, take lamb, they
will give you 10c a pound and take it
to their shop and retail same to the
consumer of the town for 30c a
pound. This I have very often not-
iced.

And with a public market that is
what would happen, because I know
you will not take back home what
you have taken to the market to
sell, but will try and dispose of same
to the first people coming and that is
what happens. You will say why
will this happen, is there not enough
people to buy what you have for
sale? Here is the reason from my
experience, the people that frequent
the local market place are very
scarcely in Campbellton and a good
many know that. Take for example
the class that order the goods, I
mean what is required for lunch or
dinner, about an hour before the
time of said meal, by phone to be
sent at once to her place, although
she may live a mile or more away
from the shop. She won't come to
the market to buy from us twice a
week on the market days. And the
working class as you are aware there
is not an average of one-third of the
women who pass to look after her
home and children who can leave
their place long enough to go to the
market and there is another class of
people that want to come to the
farmer in the local market and are
the ones that run automobiles
on bicycle incomes, they feel too
proud to buy from us so the people
we have left to deal with are very
few.

Here is what we want: The
farmers on both sides of the river to
join together in an interprovincial
Co-operative Society and have an
open shop of our own in Campbell-
ton, where we could take our pro-
duce six days a week and fifty-two
weeks a year and you will all see
that we will be able to sell to the
consumer at prices so that we all can
live and let live. As all the farmers
on both sides of the river should be
interested in a market place and
as we hear from you and if the number
permit, we will advertise a public
meeting in Campbellton and take the
regular procedure and incorporate
such a society and we will see how
we can all benefit by same.

Mr. Farmer and Mr. Consumer in
closing, if any one is interested and
we should all be, let the interested
parties send a note or better give
your view in this paper and if we
can find enough who are interested in
this movement, we will all have a
better market and give the people of
Campbellton a better market.

In loving memory of our dear
mother, Mrs. Daniel Adams, who
passed peacefully away on March 3th
1922.
Peaceful be her silent slumber,
Peaceful in her grave so low,
She no more shall join our number,
She no more our sorrows know.
Yet again we hope to meet her,
When the day of life is fled,
And in heaven with joy to greet
her.

Where no farewell tears are shed,
Inserted by her daughters, Mrs.
Augustus A. Thompson, Mrs. James
F. Pollock.

ENJOYABLE WHIST PARTY
Mrs. Ambrose Alain and Mrs. Phil-
ip H. Bugold were joint hostesses at
a most enjoyable whist party held at
the former's home last Wednesday
night in aid of the Church of Our
Lady of Snows. A great crowd at-
tended, the Alain residence being
crowded to the doors and the solid-
tude of the two gracious hostesses
assured a delightful evening for all.
Miss Dolly Bartholot won the ladies'
first prize; Mrs. A. Gallant second,
while the consolation prize went to
Mrs. Joseph Boudreau. Mr. Sam Le-
Blanc captured the gents' first prize;
Mr. Nadeau de Restigouche, the
second and the consolation was re-
warded Mr. E. Gignac.

The splendid total of \$91.00 was
realized. The hostesses wish to
thank all those who contributed to
the success of the occasion.

PRICES IN THE LOCAL MARKET
An increase in the price of pota-
toes seems the only change in food-
stuff prices in the local market.
Farmers are now asking \$3.00 for
their potatoes and this caused the
former figure of \$2.75 to jump to
\$3.50 per barrel here. Other lines
of vegetables remain about the
same. Cabbage, onions, beets and
carrots are all selling at 8 cts. per
pound; turnips at 2c and parsnips at
10c.

In the dressed meat line prices
remain about the same. With the
approach of spring a male veal is
now in evidence, this is selling at
50c and 55c. Chicken is somewhat
scarce and is now bringing 55c to
45c. There has been no change in
butter and egg prices. Good cream-
ery butter is procurable at 55c per
pound. Fresh eggs are selling at
60c and case eggs at 50c.

On the Job
An Ohio paper says: "The measles
broke out here last week. Sim Ben-
son, the constable, caught them."
Sim deserves to be commended for
being chummy on his job.

OBITUARY

George Herbert Charlton
On Tuesday February 27th, Mr.
and Mrs. James Charlton were called
upon to mourn the loss of their
bright young son George, eighteen
months old. The funeral service
which was held on Friday afternoon
was conducted by Ensign White and
was largely attended.

MISS ELLEN HARRIS
On Wednesday, 28th February,
there passed away at Upsalquitch,
Miss Ellen Harris, daughter of Mr.
James Harris, of Upsalquitch. The
deceased lady who was in her 53rd
year, had been ill only a few days.
In spite of a strong will and all the
assistance that loving friends could
render, acute pneumonia brought her
end. Miss Harris is survived by her
father by her brother, Fred
and John, and by her
sisters, Mrs. Frank Noye and
Mrs. Malcomer. Interment was at
Upsalquitch cemetery, on 22nd Feb-
ruary, the funeral services being con-
ducted by Rev. F. Yates, B. A. of
Tide Head. The pall bearers were
Messrs. John G. Harris, Thos. Noye,
Chas. Noye, Frank Noye, William
Murray and Frank Malcomer. Deep
sorrow was felt by the community at
its sudden loss, and much sympathy
goes out to the friends.

MR CHARLES JEFFREY
At 2 a. m. on Thursday, the 21st
February, Mr. Charles Jeffrey, of
Upsalquitch, passed away at the Sol-
diers' Memorial Hospital, Campbell-
ton. The deceased gentleman, who
was 42 years of age, had been ailing
with heart trouble since November.
Two days before his death he entered
the hospital, but as both he and his
friends feared, the end was not far a-
way. The surviving relatives are the
parents, Mr. and Mrs. Robert Jeffrey,
of Upsalquitch, a brother George,
and sisters, Mrs. Stephen Jones and
Alex. Cleveland of Kellogg and a
married sister in the west. The re-
mains were interred in the new Up-
salquitch cemetery, the funeral ser-
vice being conducted by the Rev. F.
Yates of Matapedia. The pall-bear-
ers were Messrs. Arthur Murray, Geo.
Thomas, Grant Borden, William Main,
Harold Borden and Stephen Jones.
The late Wm. Chas. Jeffrey worked as
a section man on the I. N. R. at Up-
salquitch till prevented from illness
last November. His death following
immediately on that of Miss Harris
plunged the settlement into deep
mourning. The remains of both the
deceased rested side by side in the
Presbyterian Church during impres-
sive funeral services.
All stood reverently at the Commi-
tial service of the late Miss Harris
then all moved over to the other
grave to the Committal service of the
late Wm. Chas. Jeffrey. Much sym-
pathy is felt for Mrs. and Mr. Jeffrey
in the loss of their son, especially as
he was the only member of the fam-
ily remaining at home with them.

Charles Bernier
The sudden death of Charles Bernier
at his home in Carleton, Que.,
on Feb. 29th is regretted by a wide
circle of friends and sympathy is ex-
pressed to his bereaved family. The
death of Mr. Bernier removes a very
prominent citizen, who was beloved
and esteemed by all who had the
pleasure of his acquaintance.
Although not in good health for
about two weeks, he was at his usual
work on Tuesday morning, and feel-
ing weak about 9 a. m. he returned
to his home only a few feet away,
accompanied by his son, but the end
came within fifteen minutes due to
heart-failure.
Mr. Bernier was 77 years old and
had been engaged in the contracting

LOCAL HOCKEYISTS HAD GOOD TRIP

**Speak Highly of the Hospitality
of the Gaspé Coast
People**

The local hockeyists who made the trip to Gaspé, returned home on Tuesday. On their tour they met some of the fastest hockey squads of the Coast, engaging in games with the teams of Gaspé, Cape Cove, Fort Daniel, New Carlisle, and other places.

The local players are delighted with their trip and speak very highly of the splendid hospitality with which they were received by the people wherever they stopped for a game.

OBITUARY

MRS. THOMAS TOURGIS
(Collingwood Bulletin)

Another of the beloved mothers of Collingwood, Mrs. Thomas Tourgis was called to her reward on Saturday night shortly after eleven o'clock. The deceased had been suffering from a heavy cold and complications which such trouble brings for about a week and a couple of days before her

death near life was despaired of. Mrs. Tourgis was born in Campbellton, N. B. nearly eighty year ago and spent her girlhood in that province. While there she was married to Mr. Tourgis, a native of the Channel Islands and together they moved to Collingwood about forty-eight year ago. Mr. Tourgis died about eleven years ago. Their family consisted of ten daughters and three

sions, all of whom survive their parents. The daughters are, Mary, Mrs. Wm. Lawrence and Gertrude, Mrs. (Dr.) Wm. Hall of Vancouver, Estner Mrs. E. S. Brown and Miss Christie in town, the latter of whom has been living with her mother; Margaret Mrs. A. Grier and Emma, Mrs. Thos. Benner in Los Angeles, Cal.; Colla Mrs. W. Rouse, of Orillia; Maud, Mrs. Thos. Rodgers of Pittsburg; Hattie

Mrs. J. P. Costello of Toronto and Jessie, Mrs. J. W. Cooper of Usages Sask. The son are Arthur and George in Montreal and Benjamin in Vancouver.

Mrs. Tourgis was a member of the Plymouth Brethren and the funeral service which took place at the family home on Pine Street on Monday afternoon at two o'clock was conducted by

The deceased was a woman of a very kindly disposition, fully beloved by her family and the friends with whom she came in contact. Until quite recently, though advanced in years, she was able to take an active part in the household and social life.

In years, she enjoyed very good health and during the past few summers was particularly partial to motoring, especially through the country. She never lost her interest in the affairs with which she was associated, while she was always deeply interested in the welfare of all the members of her large family. By her death a truly beloved mother has been called.

When the Canadian Pacific liner "Empress of Canada" left New York on January 30th for her great round-the-world cruise, she was the first Canadian vessel ever to commence such a voyage carrying a regular bookstall in the charge of experienced attendants, in addition to a free library. The stock includes many excellent recent books on travel, which will enable passengers to prepare themselves for the for-

Of the total wheat exported from Canada in November, amounting to 64,196,903 bushels, by far the greater proportion went to the United Kingdom, which took 43,815,391 bushels. The United States was second largest importer of Canadian wheat, taking 9,010,143 bushels. Italy came next, taking 1,013,550 bushels.

In the keenest competition, embracing entries from all important agricultural districts of the North American continent, Alberta farmers won 43 prizes at the recent inter-

national stock and grain show at Chicago. Two grand championships—wheat, Major G. H. L. Strange and oats, J. W. Biglands—went to the province. Major Strange was also first with white field peas and Nunemaker Brothers, of Brooks, first with red clover seed. Major Strange's success is especially remarkable as he has only been a farmer four years.

The latest statement of the earnings and expenses of the Canadian Pacific Railway show that the strong position of that organization has been well maintained, and that a steady improvement has been achieved, in spite of the difficulties of the past few years. The figures for December show gross earnings of \$19,138,674, working expenses of \$15,180,546, and a net profit of \$3,956,127, an increase of \$491,322 over that of December 1922. The 1922

totals show gross earnings of \$195,837,089, working expenses of \$158,358,079 and a net profit of \$37,479,010, an increase of \$1,177,319 over the total earnings of the road in 1922. Net earnings for this year were the highest since 1917 and gross earnings the highest since 1920.

SOCIAL & PERSONAL

F. E. Shephard & Company

Friday Opera House Saturday

JACK LONDON'S

Sensational, unusual and extraordinary story of adventure and romance. It's big, bigger than anything you've seen in a long time.

"THE ABYSSAL BRUTE"

Starring Reginald Denny

WITH A GREAT CAST

INCLUDING—

Mabel Julienne Scott, Crauford Kent, Hayden Stevenson, Duddy Messenger and David Torrance.

Here you see Denny in the greatest picture in which he has ever appeared. It's the story of a youngster raised like an animal of the wild in the forests and mountains, and of his startling advent into the world of men and love.

WOMEN LOVED HIM!

The spirit of primitive man was riotous within him. Men feared him; but women loved him! This modern girl reared amidst refinement and culture felt the call of love at first sight. This man was her mate—poor little fellow! It's a picture that your whole family can, and should see. It's an inspiration to everyone! Don't miss it!

Silver candlesticks holding pink candles are artistically placed about the table. Assisting in serving are Misses Sophie Metzler and Alma Wetmore. Miss Gertrude Adams is replenishing and Mrs. John T. Mowat is ushering the guests to the dining-room.

OBITUARY

Clarence H. McKay

On Feb. 13th the people of Esquimaux, Que., were shocked to hear of the death of Clarence H. McKay. Although the deceased had been in failing health for some time his death came as a surprise to his many friends when it was learned on Wednesday that he was dead. He bore his illness with a calm and uncomplaining endurance and was conscious until the last. He leaves to mourn his loss a widow and four young children, the youngest scarcely three months old; an aged mother, one brother and four sisters. The funeral which was largely attended was held from his late residence on Friday the 15th. The Rev. Geo. Gough, the officiating clergyman delivered a very impressive address both at the home and the grave. The tenderest psalms and hymns were favorites of the deceased and were beautifully rendered by the large attendance. They were, The Sands of Time are Sinking; Asleep in Jesus and What a Friend we have in Jesus. The pall bearers were Messrs. Thomas Mann, Peter Wafer, John Edwards, Samuel Pike, Edgar Brown and Willie Carmichael, Jr. Interment was made in the Esquimaux Cemetery.

Muriel C. Adams

On Sunday morning, March 2nd, Muriel C. Adams died at the Soldiers' Memorial Hospital, where she had been a patient for some three weeks.

She was in her eighteenth year and was the oldest daughter of Ernest G. Adams and since her mother's death some years ago had tried to fill a mother's place to the younger members of the family. She was a member of the graduating class of the C. H. S. in 1922 and last fall attended night classes at the Campbellton Commercial College until her health became so broken that she was forced to discontinue.

During all the last months of her life, she kept her usual optimistic spirit and never murmured or complained. She was very popular among her young friends and classmates.

The funeral services were held on Tuesday, Rev. E. B. Boothroyd officiating in the absence of Rev. Mr. McNair.

She leaves to mourn her father, two sisters, Frances and Dorothy, and four brothers, George, Gordon, Arthur and Allister and a wide circle of relatives and friends.

The beautiful flowers on the casket were a fitting tribute to one who had passed away in life's springtime.

"Not till the loom is silent And the shuttles cease to fly, Shall God unroll the canvas And explain the reason why. The dark threads are as useful In the weaver's skillful hand As the threads of gold and silver In the pattern He has planned."

LADIES' Spring Coats

Our fine assortment of Ladies' New Spring Coats is now on Display. These include a wide range of beautiful new fabrics in great variety of popular shades, representing the very latest in the Spring's pleasing styles.

Values in Yard Goods

The Late Mrs. Mary Dickie

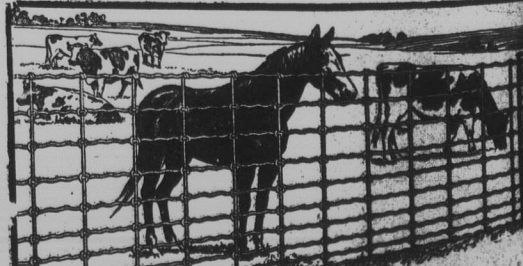

The death of Mrs. Mary Dickie, widow of the late Robert Dickie occurred at the home of her son Murray C. Dickie at River Charlie on Tuesday February, the 26th after a lingering illness of almost eight years.

The late Mrs. Dickie was of an especially cheerful and generous disposition. Prior to her sickness she was always unsparing of herself in the service of others and during her illness she accepted her lot in true Christian patience. A woman of wide sympathies she was beloved and respected by all who knew her. She leaves to mourn the loss of a kind and loving mother four daughters and three sons. The daughters are: Mrs. David Sadler of Chatham, Mrs. J. H. Taylor of Campbellton, Miss Bernice Dickie at home and Miss Lillian Dickie, R. N. of Montreal. The sons are James and Murray of River Charlie and Robert of Newcastle.

The deceased lady is also survived by two brothers, James and Hugh Galbraith of Wash., U. S. A., and one sister Mrs. James McLean of Chatham. To these the sympathy of the community is extended.

The funeral services were held on Thursday afternoon at 2 o'clock and were largely attended by friends and neighbors.

Owing to the absence of the pastor Rev. Mr. McLennan the services at the house and grave were conducted by the Rev. W. McNair of Campbellton assisted by the Rev. Mr. Shaw of Dalhousie. Interment was made in the family lot of the New Mills Cemetery. The pall bearers were Messrs. Peter Fraser, P. W. Hamilton, Dan Hamilton, W. C. Jamieson, Will Fraser and J. R. Hamilton.

They can't slip with the bull-dog grip

Many farmers are surprised to find Maritime fence even when it has been up for number of years, remarkably free from broken wire and loose joints. Examination shows that the Maritime "bull-dog" look holds the joints so rigidly that they cannot give or pull out of shape; and because we use nothing but long, strong "live" wire—No. 9, heavily galvanized—they are able to stand the daily stress of wear and tear without breaking.

Maritime fence is always tight, always ready, and always efficient. It's built strong and straight, because it is made to withstand the heaviest strains than any it is likely to endure. It gives you all that you can expect in a wire fence at a reasonable price.

Before you buy or even visit your fence, learn first what the Maritime fence offers in the way of REAL fence service. A postal brings our illustrated catalogue with full particulars.
