St. Petersburg, June 19.—Eighty women were burned to death today by villagers enraged at the importation of cheap girl labor to work on a sugar estate in the district of Piriatin, in the province of Poltava, Southern Russia, according to the Kiex newspaper Kiev Liamin.

The excited villagers first securely fastened all the means of exit from a wooden barn, in which the girls were housed. They then set fire to the building while the inmates were still asleep, and all were burned to death without a chance of escape.

LONDON, THURSDAY, JUNE 19. SEELY REPUDIATES CONSCRIP-TION.

Col. Seely, the British war secretary has put himself on record as a champion of Lord Haldane's Territorials and an opponent of the national military service or conscription advocated by Lord Roberts. For some time British Radical papers have been expressing suspicion of Seely's Liberalism. He has been depicted as sitting on the fence in the question of compulsory military service. But he has now till we die, but not a Canadian will set clearly repudiated the policy of the

panic-mongers. It is very satisfactory to lovers of peace everywhere that the War Minister should take his stand for a free England unentangled in the hostilities threatened between foreign powers. Conscription in Great Britain means the end of a merely defensive attitude, for which a commanding fleet suffices. Competent military judges have figured that England cannot be exposed to attack at any time, under present circumstances, by an invading force of more than 70,000. Even Lord Roberts in his wildest imaginings has not put the number of possible invaders at more than 200,000 men. Against such a force, if it were foolish enough to venture in, and unlucky enough to get in the voluntary Territorials, backed by every advantage, could not fail to be successful. Conscription is not wanted for any such small business, whatever Lord Roberts and his friends may have persuaded themselves into thinking. It is wanted for a military alliance with France, to renew the Rhine wars and Walcherens of the eighteenth century

Nelson said that one volunteer was worth ten pressed men. One of the explicit conditions of Territorial service is that those enrolled shall not country against invasion. A pretence is also made that the same condition will be attached to the proposed compulsory service, but the point is that such a service is not needed except for foreign warfare. Compulsion, in fact, essentially does away with conditions. It is the purely voluntary character of the Territorial service that has made it popular and efficient in spite

of constant attacks by the militarists. There is only one contingency that may justify a resort to conscription in Great Britain. Should airships become so capacious and safe that journey by water would be superseded, Great Britain would be rendered very his audience. From all he did say, much less an island. But that is a long way off, and even when the time ing the inference that the Whitney comes, it is probable that the danger Government had explored the north, of invasion will be better met by an and that prior to Mr. Hearst's advent adequate aerial fleet than by conscrip-

bition. Already it is pointed out, Great Brihas 756 airmen to France's 1,174, the with one-eighth of the air fleet possessed by Great Britain, 5.

oreliminary training is done on Inglish farms, but it needs improvement and extension. Sir Thomas Robinson, agent-general in England for Queensand, says that good results come from the present small beginnings. He says:

"Although many, if not most, of these youths come from 'blind-alley' occupations, the farm training they get before embarkation renders them so thoroughly eligible for work on the land in Queensland that the farmers' demands are far in excess of the supply."

More than farm workers can be thus rained. The colonies need a great deal of female labor, especially capable domestics. At present it is almost impossible to secure British-born domesics of experience fitting them for their work. Preliminary training is needed here also and in many other lines. Get the girs over here ready for their work and England will be lightened of a feminine overplus, while the colonial

gain needs no pointing out. If there is to be a subsidiary Imperial Conference in Canada next fall, this is a subject well worth the attention of mother country and Domin-

THE LIBERALS AND THE NORTH LAND.

Mr. Hearst, the Ontario Minister of Mines, painted a very brilliant picture of the north land before the Canadian Club the other day. His audience was very much pleased as they listened to his glowing description of New Ontario, with its vast extent of territory, its wide areas of agricultural lands, its rich mineral deposits, and its boundless forests, calling upon us to enter and take possession. But while the minister's speech was remarkable for what it told, it was no less remarkable for some things left unsaid.

We were not told that a Liberal Government was the pioneer in exploring and opening up the terra incognita north of us. We did not hear that a Liberal Government commenced the construction of the Ontario and Temiskaming colonization road by which settlers might have access to the new land of promise. Nor did we hear that ther was no encouragement in this pioneer

Mr. Hearst did not tell his audienc that the Liberal Government sent no less than ten exploring parties through Northern Ontario, covering the entire country from east to west, and that the voluminous reports of the government surveyors, mineralogists and scientists are on file in his office, supplying him with much of the information which he in turn handed over to we would have been justified in draw-

Lord Curzon, speaking on the Scott Antarctic expedition, referred jestingly to the geographical interests of the British Government, the world-wide travels of Mr. Churchill, the German expeditions of Lord Haldane, the farmto-farm journeys of Mr. Lloyd George in securing dark agrarian information. The British Government is not different from the Opposition in its propensity for travel. Lords came home from important lion-hunts or yachting explorations to vote against Home Rule and the Lloyd George budget.

LAKES EXPRESS STEAM-SHIP SERVICE. Few people realize with what ease nd speed a trip from the east to Fort William and Winnipeg can be made, via the Canadian Pacific Great Lakes Express Steamships. Stop for a moment and consider that you can leave Toronto at 12:45 noon on Tuesday or Saturday and arrive in Winnipeg at 9:40 p.m. Thursday or Monday. Fifty-seven hours from Toronto to Winnipeg; twelve hours faster than other service. For those who wish to leave on different days in the week, and have a little more time on the water, the trip can be made leaving Toronto at 12:45 noon on Mondays, Wednesdays and Thursdays, arriving in Winnipeg at 11:40 a.m. on Thursdays, Saturdays and Sundays. Think of a steamship service five days each week across the Great Lakes. The steamships are built and

furnished to give the very best comfort that marine architecture can de vise and the cuisine is the result of years of studied effort and experience, and is, needless to say, the best. The Tuesday and Saturday boats contain inside and outside staterooms and cabins de luxe. Large, well-ventilated dining saloon and rest together with spacious decks for promenading. All staterooms on the Monday, Wednesday and Thursday poats are outside and in addition there are parlor rooms. you are contemplating a trip don't

Manuscript Dealt With Her Impres. sions of Canada and States,

London, June 19. - The discovery that Princess Patricia, daughter of the Duke of Connaught, the governor-general of Canada, has written book dealing with her experiences while in Canada and her impressions when she visited the United States, is causing a great deal of talk among the English royal entourage, not only because nobody ever suspected the charming young woman of being an authoress, but especially because of the fact that Queen Mary has requested the Duchess of Connught to have the manuscript destroyed. Several weeks ago the Princess Patricia loaned the manuscript to a friend to read, and this friend in turn showed it to the Countess of Forescue, lady-in-waiting to the Queen, and she promptly took the work to Queen Mark to Qu

Tecumsehs-London Team Not Up To Full Strength.

St. Marys, June 18. - The home team beat the London lacrosse club in the first O. A. L. A. intermediate game played in this town this season Lee led the warriors to a 3 to 1 victory by the score of 14 to 7. The game was a fast one all the way through, the

lowing a slight mix-up with Lavelle. While he was off the London defence went to pieces and the locals scored at will. In the next two quarters the teams played more evenly and scored the same number of goals. Broley Was Missing.

The London team was weakened by

he absence of Broley, their star goalkeeper. Campbell took his place, but it was his first time out and he did not do very well. In the last quarter Simons went between the nets and Campbell took his place on the defence. The London team played much better as a result. Frank Doyle, of Toronto, handled the

Good-bye corns, callouses and bunions Good-bye corns, callouses and bunions and raw spots.
You've never tried anything like TIZ before for your feet. It is different from anything ever before sold.
It acts at once, and makes the feet feel remarkably fresh and sore-proof.
TIZ is not a powder. Powders and other foot remedies clog up the pores.
TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does. Mrs. F. J. Androcks, Jamaica, Long Island, found that out. She says: "I tried so many different remedies, but none seem to draw out the inflammation and poisons like

FREIGHT RATES BEING PROBED BY COMMISSION

C. P. R. Schedule in the West Is a Great Profit Maker.

Great Disparity in Tariffs of East and West Was Shown.

Ottawa, June 18.— After a five months' adjournment the western freight rates investigation was again resumed by the railway commission, today, and bids fair to continue in the present session for the remainder. its present session for the remainder of this week and well on into the next. After that there will be a further adjournment, and it is not probable that the case will be completed until late

The same imposing array of counsel and experts, the same formidable pile of exhibits, old and new, were features of the formula of the formul tures of the resumption of the famous inquiry today. So far as the proceedings today were concerned, however, it cannot be said that the case has advanced one step as a result of them. All day long F. H. Chrysler, K.C., counsel for the C. P. R., examined W. B. Lanigan, traffic manager for the western lines of the C. P. R., and the latter undertook to refute figures submitted by Government counsel as to comparative freight rates north and south of the boundary on west-

The examination was well conducted, but its effectiveness cannot be estimated until cross-examination by Mr. Lanigan has been concluded later by Government counsel, and by Mr. Isaac Pitblado, counsel for the Winnipeg Board of Trade. Mr. Lanigan based his refutations of the figures upon statistics compiled from actual traffic on C. P. R. lines west of Port Arthur. He claimed generally that if the C. P. R. charged rates as high as were charged south its reve-

nue would be much increased. A new figure appeared in the board-oom today in the person of Mr. Jean Muller, accountant, of Washington, who has for some months been preparing the case for Messrs. Bicknell, Whitla & Morrison, Dominion counsel. Mr. Muller has been a statistician for the interstate commerce commission, and has prepared six formidable volumes, four of which are now ready and in the hands of the various counsel. Mr. Muller gives prominence to two elements in such a question as is under consideration namely, the value of the service to the shipper, and the cost of the service to the carrier, together with a fair re-

Value of Service. The value of the service, he says, is hat the traffic will bear regardless 24c; any considerations. With regard to the second element, ne states it is generally conceded hat a public utility is entitled to earn operating expenses and a fair re-

irn on its investment. "Analyses of the financial state-ment for the fiscal year ending June 30, 1911 and 1912." Mr. Muller finds, "lead to the conclusion that the rate ever, of that portion of the C. P. R. Mason told Mr. McMullen that when he questioned Mrs. Beemer about the poison label on the bottle warrants the assertion that the years, and that it used to contain every viewpoint, disproportionately productive of more net revenue than "My husband wanted me to go a the average, and if the analysis is at all, a higher rate of gross profit

cating that though the revenues west of Port Arthur are higher than east that point, in proportion to the otal on all lines, the operating expenses are lower proportionately. Prominent among those figures are

he following: For the year ending June 30, 1911, otal operating revenue of the C. P. R. on all lines, \$97,226,065; operating expenses, \$63,627,293;

operating expense is considerably low-

66.56 per cent. Gross profits on operating cost on all lines (freight), 62.91 per cent.; for lines east of Port Arthur, 34.84 per

ent.; for lines west of Port Arthur, Gross profits on operating cost of all lines (passenger), 35,57 per cent.; per bag, on track. east of Port Arthur, 37.55; west of

Port Arthur, 33.06 per cent. It will be seen from the above figures that, though the gross profits over operating cost in passenger service is somewhat larger in the east than in the west, the gross profits on freight in the west are enormously larger than in the east, in proportion to operating cost. Figures for 1912 show a similar disparity.

Sheep—Receipts, 15,000; market weak: natives, \$4 65 to \$5 75; wearlings, \$5 40 to \$6 50; lambs, natives, \$4 50 to \$7. TORONTO, June 19.—Receipts of hogs were fairly large today at Union Stock-yards and demand was good and prices inclined to advance. Early receipts in other classes were small. Prices held steady. Receipts—195 cattle, 212 calves, 1,885 hogs, 387 sheep. TORONTO, June 19.—The run at the Union stockyards here yesterday totalled 73 loads, with 690 cattle, 270 calves, 1,416 hogs and 1,152 sheep. The shippers are evidently realizing the weak nature of the cattle market and are holding back, for today's consignment was light. There was a steady demand for good cattle at the easier prices, but a large run will probably cause the prices to go off another 10c or 15c. Sheep, lambs and calves remained steady, and will continue to do so throughout the week. Hogs experienced another rise of 5c, but if the packing houses refuse to buy in large quantities the market will fall back to its opening quotations. The large run of sheep and lambs was fully justified by the demand. Quotations were:

To-day's Impressions To-morrow's Sales

Many a September purchase is really decided in July.

Many a woman is gathering information to-day that will influence her selection of a stove two months hence.

Many a man is thinking right now about the store he will patronize for his Fall suit and overcoat.,

Many an October piano purchase is really determined on the porch of a summer hotel or home in August.

How unwise, then, to put off the Advertising of these and similar articles until the actual time of their use arrives. One advertisement seldom makes a sale. It is

the repeated impressions created by Advertising that develops purchases by a discriminating public—and these impressions are seldom built up in a day, a week or a month.

Yet some manufacturers and merchants still procrastinate until the first nip of frost is feltand then besiege the public with belated announcements of Fall clothes, kitchen ranges, home furnishings, winter underwear, and other articles usually purchased in the Fall.

Purchased in the Fall-oh, yes-but decided upon in the Summer. Decided in favor of the goods that are continuously advertised.

It's the Advertising read in July that bears fruit in September and October. For to-day's impressions inevitably lead to to-morrow's sales.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Building, Toronto. Enquiry involves no obligation on your part-so write, if interested.

Health and Beauty Advice

Katie: I advise you to use this formula for a hair-tonic, because to my personal knowledge it does more for the hair and scalp than anything else and is easy to make: Into ½ pint alcohol pour 1 ounce of quinzoin and add ½ pint water. This quinzoin tonic quickly stops the itching and cures the dandruff and is soothing to a sore or tender scalp. The regular use of this inexpensive tonic corrects dry, scaly conditions, or excessive oiliness, because it makes the scalp and hair-sacs healthy; and to dull, brittle faded hair will give a brilliance and softness, as well as re-

Followed Husband Even to Death

[Canadian Press.]
Zurich, June 19.—The mys tery surrounding the suicide last Thursday of Eugene Maggi, reputed one of the Wealthiest men in Switzerland, and his wife had been cleared up by the discovery among Maggi's papers of a letter to his family saying that he had been irretrievably ruined financially, and had decided to kill himself,

Underneath this message, in his wife's firm handwriting, was the following: "I believed myself rich, and I was happy. Eugene has just revealed to me that we are ruined, and an-nounced his determination to die. My duty is to follow him in death. Adieu."

An investigation has firmed the fact that M. Maggi

had lost his all. When Maggi and his wife were found dead as a result of gas asphyxiation in their bedroom in their villa here it was believed that their suicide had been prompted by the fact that although their wealth was estimated at \$10,000,000, they were greatly disappointed because they were childless. Maggi was the owner of extensive flour mills in Zurich and other parts of Switzerland, and had numerous other widespread interests.

England to Withdraw Australian Ships

New Fleet Will Relieve British Ships at Present Stationed There.

London, June 18. - The King will pay a strictly private visit to the new battle cruiser Australia at Portsmouth on June 30, prior to her departure for the antipodes. The Government of Australia has appointed Rear Admiral George Pate as rear admiral in the Royal Australian navy, to com-

mand his majesty's Australian fleet. This appointment may be regarded as marking the birth of the Australion fleet as a fighting force. By the end of August all the ships except one cruiser ordered under the agreemen of 1909 will be in Australian waters and complete in all respects. They include the battle cruiser Australia, two light cruisers, Melbourne and Sydney, out of bed and saw the boy standing by the table, but he did not see anyand a small torpedo boat.

When the present agreement between the British and Australian Governments terminate, the former will withdraw the ships of the royal navy from the waters of the Commonwealth, and the latter will cease to pay subvention, originally amounting to £200,000, which has been its contribution towards the cos of maintaining the local squadron. In present yearly navy estimates £41,600 is shown to be parable by this dominion. This is the last sun which will be received, as she henceforth support her own fleet a charge which, it is calculated, wi in the early years of developmen amount to £75,000, apart from exenses of administration and training. Within a few years the Australian fleet will probably represent an annual charge of two or three millions sterling. This will tend to increase.

The majority of cord on every detail. With fundamentals and essentials agreed upon by ment after a wait of some hours. At President Wilson, Secretary of the Treasury McAdoo and Chairmen Owen and Glass, of the Senate and House, banking and currency committees, the leaders will attempt to perfect its administration measure.

The measure would revolutionize the banking and currency system of the United States, and it had been the aim of its framers to place the financial system, especially the issue of currency, under the control of the Government.

Divide Country.

As now agreed upon, the country twelve regional reserve associations, and all national banks will be compelled to become members of the reserve will organize federal reserve banks in each district, with a minimum capital of \$5,000,000, which will be supplied by the membership banks at the rate of 20 per cent of their capital. These reserve banks will receive the deposits of the Federal Government and thus prevent the treasury department from locking up great quantifies of money from circulation. The reserve bank will be a bank of banks, with the privilege of rediscounting commencial

REV. W. J. KNOX **EXTENDED CALL**

Congregation Meeting of First TO HELP BANKS Presbyterian Church Unanimous for Pembroke Pastor.

SALARY TO BE \$2,500

At a congregational meeting of First Presbyterian Church on Wednesday night, it was decided to extend a unanimous call to Rev. William John Knox, B.A., of Pembroke, to succeed Rev. J. G. Inkster, who left London for the Canadian West some time ago.

Several other names were mentioned, but it was finally unanimously decided to recommend Mr. Knox. The stipend was fixed at \$2,500, with six week's holidays.

A meeting of the church committee was held this afternoon, and the call passed upon, it being then sent on to the special meeting of the London Presbytery, which also held a session this afternoon.

Many Apply To Get Power From Private Plants

Numerous applications have been made to the London Electric and Helena Companies for light and power consequent upon the breaks in the hydro service Monday and today. The London Eelectric Company took half a dozen orders this morning, and have quite a number of applications waiting. Many requests were made to supply power temporarily to stores offices and other buildings so located that they could be hooked up on short notice, thus avoiding the inconvenience following a possible delay of several days before hydro is all right again. These applications for temporary power have beeen refused lowever.

The Helena Company has receive quite a number of applications, only a few of which it was able to acen as this company has customers for all its surplus power already,

New Gas Main for East End of City

High-Pressure System To Be Put To Meet Increased Demand.
Increased gas demands in East London are responsible for a new six inch main, laying of which was com menced this morning. The new mai will run straight east on Horton street from the works at the corner Ridout street to the corner of Horto and William streets, where it will tapped by the supply mains for East London. There will be no connections between Ridout and William streets.

The new main will really act as gas tank for the East End. It will be connected with one of the big gas tanks at Ridout street. The gas will be pumped into it at a pressure of from 3 to 4 pounds. This will be reduced to 4 inches water pressure at the William street end of the high-pres-

sure main. Exceptionally heavy drains on the gas pressure in East London, especially at noon hour and at & o'clock have made the new main imperative, according to City Gas Company officials. is expected that it will be completed within 30 days.

Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baldness, and is also unequalled for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist: Bay Rum, 6 ounces; Lavona de Composee, 2 ounces; Menthol Crystels, one-half drachm. If you wish it perfumed, add half to one teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. This preparation is highly recommended by physicians and specallists, and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics.

Fear a Precedent. Wednesday afternoon was largely ccupied by a discussion regarding he salary to be paid a certain officer f the church, all the delegates being uite willing to pay the salary named in the case of the present holder of he office, but a number being afraid of creating a preceden for the future, The committee having in hand the proposals made in the buhop's charge brought in its report. Ene most important item was the future arrangements concerning mission churches. His lordship in his charge advanced three schemes relating to these, and the second one, viz., that two classes of mission churches be retained as at present, with a minimum salary of \$900 and \$1,000, with a maximum grant of \$300, had the preference of the delegates. The scheme means an extra expenditure of about \$3,500 to the diocese, but it is expected to be f great assistance to the clergy in the smaller charges, and has the advantage of helping both the younger and older men alike.

The report passed its first reading after considerable discussion, and the proposal will in all probability be
