

ORANGE CELEBRATION BEATS ALL RECORDS

BRIAND ANNOUNCES THAT DELEGATION WILL GO TO DISARMAMENT CONFERENCE

French Premier Expected To Represent His Country At Big Gathering in Washington—Cordial Attitude of Government Officials Taken As an Indication That Limitation of Armaments Will Be Pressed by French Representatives.

Washington, D. C., July 12.—Favorable responses are understood to have been received today from all but one of the powers to which the United States suggested a conference on reduction of armaments and related questions.

Paris, July 12.—The French Government will accept with pleasure and without reservation an invitation to a conference on the limitation of armaments. This is stated in a letter sent to the United States embassy here by the Government this morning for President Harding.

Premier Briand later announced publicly in the Chamber of Deputies that the Government would eagerly accept such an invitation.

The premier expressed thanks to President Harding for "his noble initiative," while the Chamber broke into cheers.

Sheldon Whitehouse, counsellor of the United States embassy, said this afternoon that the reply of the French Government had been cabled to Washington during the morning. There was as yet no indication, he said, when the formal invitation would be presented to France.

The attitude of France was officially made known through the foreign office in a note from M. de Peretti de la Rocca, director of political affairs, stating that France would be happy to receive an invitation to a disarmament conference in Washington. It was while the political director's note was on its way to the United States embassy that the Chamber of Deputies was unanimously applauding the announcement by Premier Briand of the cordial attitude of France toward the prospective invitation.

It was said at the foreign office that state for foreign affairs when the war began, may, says the Daily Mail, lead Great Britain's delegates to the disarmament conference to be held in Washington as a result of President Harding's proposal to the allied nations. The newspaper declares that a statement at least of the type of Viscount Grey should be chosen, and that he should act with experts from the dominions at the conference. After the preliminary and technical work of the conference is completed, the Mail says, Prime Minister Lloyd George may go to the United States to attend the final meeting of the agreement. It appears to be the consensus of opinion that the conference will be held during the coming autumn, or at the latest during the early months of 1922.

Cut Short Sessions. Seldom have such scenes been witnessed in the British House of Commons as this morning. Continued On Page Three.

Viscount Grey is expected to lead British delegation.

May Take Action Against Landlords Who Fail To Provide Inside Lavatories

Report of Sanitary Inspector Deals With Conditions in Restaurants, Butchers' Shop's, Laundries, Fruit Stores, etc.—Many Pigs Kept in City—Some Chicken Runs "Sour."

That several citizens are endeavoring to evade the law, which prohibits keeping pigs within the city limits, is asserted in the report of Sanitary Inspector R. H. Sanders, in his report to the board of health for the month of June. According to the report the people try to hide them from the authorities, "but the pigs generally give themselves away with a grunt."

During the month 30 chicken coops, yards and stables were inspected. Many of these are declared to be "sour" through constant use of garbage and refuse thrown upon the ground. If they enjoy the smell themselves they should remember they have neighbors."

TWO POLICE COURT CASES.

Approximately 48 butcher shops were inspected in June with "some good, other untidy, and putrid meat was found in four of them." One shop offending three times during the year led to the police court and a \$50 fine. Another untidy shop, in the rear of which calves were killed, led to a \$25 fine.

Cafes and restaurants, numbering 36, were inspected, and as a rule were found in good condition with fly screens installed. One establishment with many flies in evidence was promised to be remedied.

Regarding lavatories, the report says, "Several inside were in bad condition. In fact, some houses are without any, which is a disgrace to the owners who take the rent, and fail to provide proper accommodation for the tenant. All these cases if not attended to at once we shall bring before the magistrate."

BARBERS SHOPS CLEAN.

Laundries inspected were reported to be "as usual," while seven barber shops visited are given a clean and sanitary bill. Four hotels are reported as improved. Grocery and fruit stores, along with soft drink counters, are in first-class condition here. Milk depots are designated as fairly clean, while three fish shops "have been improved." The proprietors of the latter establishments "claim it is difficult to keep fish right during the hot weather."

Homes in this city, numbering 168, were quarantined during the month. This report will be read at a regular monthly meeting of the board of health this afternoon.

FOSTER LACKS KNOWLEDGE OR PREVARICATING

Local Civil Service Employees' Opinion of Ottawa Report.

NOT INEFFICIENT

Men Under Dismissal Order Here Fully Capable of Duty.

Just how Sir George Foster has disposed, as stated by a report today from Ottawa, with the source of controversy over the reclassification in the civil service departments, is not apparent to local postal employees.

"It is unjust," Sir George is reported as having stated, "to say that a band of foreign experts are ruthlessly dismissing employees. They are simply suggesting the changes, and they are being let out only where they are inefficient and not because they are over 65 years of age."

"Well, Sir George is either unaware of the true state of affairs in the offices throughout the country or else he is deliberately telling what is not the truth," stated a representative of the local employees today.

"It is all very well to say that the efficiency commission has nothing to do with the selection of the victims for the execution."

"Just who should determine the personnel of dismissed employees? The 'back' is passed" to a choice between the civil service commission and the department heads. Here Sir George is in error, whether knowingly or not, by his statement that "only the inefficient are let out." In the recent superannuations in this office we can secure an affidavit signed by more than a hundred names that two of these recently dismissed employees at least were far from being incompetent."

BARRIE MUNICIPAL SYSTEM TO REFUND RATES TO CONSUMERS

Total Net Surplus For 1920 Was \$6,628.

Barrie, July 12.—The 1,600 customers of the Barrie Municipal Electric System are to receive a bonus equal to a refund of one month's rates. As the total net surplus of the Barrie water and light commission for the year 1920 was \$6,628, after deducting \$4,232 for depreciation, as the balance sheet of the local system in Barrie shows an investment of \$35,000 in securities, whereas the outstanding debt balance amounts to \$32,545, and as the lighting rates in force in Barrie are the lowest charged by any hydro system have reached the minimum below which it is not considered wise to recommend further reduction the hydro commission has authorized that the surplus be refunded to each customer exclusive of street lighting and waterworks plant, 25 per cent of the January, February, March and April bills, including both power and lighting customers.

Germans Are Big Bettors

Berlin, July 12.—Wagers aggregating 1,000,000 marks were laid in the betting ring at the Grunewald track on Sunday. This established a new record, and it is estimated the Prussian Government's share will exceed 1,000,000 marks.

STEPS TO AVOID DISORDERS. Tampico, Mexico, July 12.—Gen. Cosío Legido, a Larca, governor of Tamaulipas, is taking steps to avoid disorders in the Tampico oil region due to unemployment.

THE WEATHER

LOCAL TEMPERATURES. Following are the highest and lowest temperatures recorded in London during the 24 hours previous to 8 o'clock last night: Highest, 90; lowest, 65. The official temperatures for the 12 hours previous to 8 a.m. today were: Highest, 80; lowest, 60. BAROMETRIC STANDING. Monday—29.36 inches at 8 a.m. Today—29.38 inches at 8 a.m.

TOMORROW—FAIR AND WARM. Toronto, July 12—8 a.m. Forecast.

Light winds; fair today and on Wednesday; not much change in temperatures.

Temperatures.

Stations.	High.	Low.	Weather.
Victoria	81	50	Clear
Calgary	68	36	Fair
Winnipeg	74	56	Fair
Edmonton	84	66	Fair
Parry Sound	90	68	Clear
Buffalo	90	74	Cloudy
Toronto	94	74	Fair
Kingston	86	71	Fair
Ottawa	90	68	Cloudy
Montreal	84	68	Cloudy
Halifax	74	60	Cloudy

Weather Notes. Pressure remains a little above the normal and very uniform over the greater part of the continent. Showers have occurred at quite a number of places in the Western Provinces and at one or two points in Ontario and Quebec, but no heavy rains are reported.

Wife—I think, dear, if it keeps fine I shall go and do some shopping. What does the weather report say? Hubby (hastily)—Rain, fog, sleet, and snow and a cloud-burst expected! —Passing Show, London.

GIANT PHONE CABLE IS LAID ACROSS DETROIT RIVER TODAY

Windsor, July 12.—With prominent officials of the Bell Telephone Company of Canada and the Michigan State Telephone Company present, the largest submarine cable in the world was laid today on the bed of the Detroit River between Windsor and Detroit. The cable carries 408 pairs of wires, and will make it possible to conduct 600 conversations simultaneously between the two cities.

Half an hour was needed to complete the actual work of laying the cable, the work being done by the barge International, which was towed across by the tug Samuel J. Dark. When the boats reached midstream, Judge F. C. Kuhn, president of the Michigan State Telephone Company, and L. B. McFarlane, president of the Bell Telephone Company of Canada, shook hands and expressed the hope that the cable would result in cementing more securely the ties of friendship between the two countries.

The cable weighs 50,870 pounds, is 3,000 feet in length and 10½ inches thick.

TRANSFERS OF TEACHERS IN CITY SCHOOLS

Announcement Made by Inspector V. K. Greer of the Changes Effective September 1.

Public School Inspector V. K. Greer announces the following appointments and transfers on the public school staff here, effective September 1: Miss F. McDowell to take charge of the auxiliary class at Alexandra. Miss M. Hay to take charge of the auxiliary class at Worley road. Miss Rae Beckett transferred to the staff of Alexandra. Miss Marion Grant transferred to the Boyle Memorial. Miss Lillian Hoffman transferred to Chesley avenue. Miss Lillian Beacom transferred to Ealing. Miss Annie Hogarth transferred to Ealing. Miss Minnie Runians, B.A., transferred to Talbot street. Miss Mary Taylor, transferred to Empress avenue. Miss Gwendolen Serraton transferred to Knollwood. Miss M. A. Taylor, transferred to Lorne avenue. R. E. Dewar transferred to St. George's. Miss Mildred Hamill transferred to Worley road. Miss Hilda Rogers transferred to Teumash avenue. Miss Olive Ward transferred to Chesley avenue. Miss Maud Cuthbertson transferred to Knollwood. Miss Dora Barr transferred to Quebec street. Miss Muriel Lancaster transferred to Ryerson. Miss Frances Loney transferred to St. George's. Miss Jennie Weir, B.A., transferred to Talbot street. Miss Eva Darch transferred to Talbot street. Miss Isabel McLeish transferred to Victoria. Miss Elva Pearson transferred to Victoria.

LEMONADE HAD SOME KICK—LATEST EXCUSE

One drunk in police court this morning explained his plight thusly: "Your worship, I made lemonade out of lemon extract and it got the better of me." "That's a new one!" laughed the court. A "diddy" drunk said that he had not been in the station since January 16. As a matter of fact he had been in twice since that time. He narrowly escaped a term at the reformatory, but was given one more chance, being fined \$10 and costs.

MORE ABSTAINERS THAN INTEMPERATES IN PENITENTIARIES

Ottawa, July 12.—(By Canadian Press).—Single men between the ages of 20 and 30 years formed the majority of prisoners in Canadian penitentiaries in the year ending March 31, 1920, according to the report for that period of Superintendent of Penitentiaries Brig.-Gen. W. S. Hughes. There were 810 prisoners in detention on that date, 770 being between the ages of 20 and 30 years. Tables concerning the social habits of the prisoners furnish somewhat of a surprise, inasmuch as the abstainers and temperate prisoners far outnumbered the intemperate. Those rated as abstainers number 548; temperate 975, and intemperate 408. Single persons led the list of prisoners with a total of 1,218, against 638 married and 75 widowed. Of the number under detention the statistics show 1,235 of British birth against 546 from other countries. The United States with 295 led the "other countries" group, with Austria-Hungary second with 108.

GREEK OFFENSIVE BEGINS; ADVANCE OF 15 MILES MADE

Athens, July 12.—Official confirmation of the beginning of the Greek offensive against the Turkish Nationalists was supplied in a Government statement last night. This announced a preliminary movement in the operations. The Greeks, said the statement, advanced fifteen miles, occupying the towns of Yenî-Shehr and Hassan-Pasha, east of Brussa, and Jeniköy, north of Ushak. No resistance was encountered by the Greeks in this advance.

LONDON MAN IS ELECTROCUTED AT THAMESFORD

Joseph Craft, 13 Wharnccliffe Road North Died of His Injuries.

TOUCHED LIVE WIRE

Employee of Hydro Power Commission Failed To Put On Gloves.

Joseph Craft, an employee of the hydro-electric power commission, was so badly injured yesterday afternoon at 3:45, while at work on a line west of Thamesford, that he died at 10 o'clock last night.

Mr. Craft had completed his work on the line and had come down from the pole on which he was working, but had climbed up again to get the serial number of the transformer, and neglected to put on a pair of gloves. He touched the live wire, and immediately the current passed through his body throwing him onto the arm of the pole and rendering him unconscious. He was taken down by fellow workmen and a doctor was called from London, but nothing could be done to save the unfortunate man.

Dr. Williams, the coroner at Ingersoll, was called and decided that an inquest was unnecessary, as it was evidently a case of negligence on the workman's part.

The dead man had been a resident of this city for about one year, and lived at 13 Wharnccliffe road north.

Besides his wife he is survived by four small daughters, Mary aged 8, Norah 6, Genevieve 4, and Helen aged 2 years. Two sisters and two brothers resided in Buffalo whom he was to visit during his holidays, which were to commence next Monday, July 18. The funeral arrangements have not been completed.

W. G. FITZGERALD DIES IN HOSPITAL

Well-Known Actuary's Death Follows Operation At Hospital.

The sad news of the death of W. G. Fitzgerald, A. R. A., actuary of the Northern Life Insurance Company, was received this afternoon just as The Advertiser went to press.

Mr. Fitzgerald died following an operation in Victoria Hospital which took place three days ago. He resided at 480 William street.

12,000 ORANGEMEN TAKE PART IN BIG WALK AT TORONTO

"Glorious Twelfth" Being Celebrated in Queen City.

Toronto, July 12.—With overcast skies, a faint breeze, the thermometer ranging around the 50 mark at 8 o'clock, and the humidity high, the Orangemen of Toronto are today celebrating the "Glorious Twelfth."

For the first time in several years every one of the 100 city lodges are taking part in the annual parade from Queen's Park to the exhibition grounds, a distance of three miles, and it is claimed there are upwards of 12,000 in the "walk."

On arrival at the exhibition grounds the marchers dispersed for luncheon, after which a number of addresses are being given by prominent members of the order, including the grand master, H. C. Hocken, M.P., Charles Sheard, M.P., and the Rev. Canon W. F. Fitzgerald, Kingston.

FOREIGN TRADE OF U.S. SLUMPED BY BILLIONS IN YEAR

Reduction Evenly Divided Between Exports and Imports.

Washington, D. C., July 12.—The foreign trade of the United States fell off more than three billions of dollars during the fiscal year ended June 30, a summary of trade issued yesterday by the department of commerce shows. The slump was about evenly divided between exports and imports. Exports for the fiscal year aggregated \$6,519,000,000, as compared with \$8,108,000,000 the year before; imports amounted to \$3,565,000,000, as against \$5,228,000,000 the previous year. The trade balance in favor of the United States for the year was \$2,954,000,000. Gold imports for the fiscal year aggregated \$616,000,000, compared with \$150,000,000 in the previous year, while exports totalled \$133,000,000, as against \$466,000,000.

LONDON WITNESSES THE GREATEST ORANGEMEN'S PARADE IN ITS HISTORY

Over 12,000 Men and Women Participate in Procession More Than Three Miles in Length—Total Attendance At Queen's Park Placed At Well Over 20,000.

To the stirring tune of Boyne water, London, Western Ontario and Michigan Loyals Orangemen to the number of 12,000 swung along Dundas street at 1:30 this afternoon on their way to Queen's Park to celebrate the 231st anniversary of the now famous battle of the Boyne—the Glorious Twelfth. Every lodge of Western Ontario was well represented. The early trains from the west this morning brought large delegations from the border cities, including the Detroit quota of 500, the Highland Park representative, while Port Huron and Sarnia both contributed largely to the attendance, more than 200 being in line.

Began to Arrive Early. Bright and early the London followers of King William were lending their efforts to the success of the event, and the veterans of the district, the Hoghill boys were marching early. Not much time elapsed, however, before the Stratford, St. Marys and St. Thomas lodges, with their bands, arrived, and filled the air with enlivening tunes appropriate to the occasion.

Assembling in the streets adjacent to Victoria Park the various lodges were marshaled, and the big parade commenced as scheduled. With the Masonic Temple as the starting point, the Orangemen, headed by the G. W. Y. A. of the city and district who have assembled here in such great numbers today. From year to year London is being made the center for more and more meetings and celebrations of organizations of all sorts. Our people are glad to have these gatherings in this city.

"We aim to make the facilities for such conventions as complete as possible whether they be held in the open air as it is possible to do at this time of the year, or within doors as is necessary at some seasons of the year. That I regard as a proper thing for a city of London's size to own and maintain."

Spirit of Fraternity.

"You have come here today for specific reasons. You meet to emphasize the main principles for which your order stands, to set forth clearly and plainly. You have here, too, in a spirit of fraternity, men from a distance rubbing shoulders and meeting with cordial relations with men of this city. That as we all know, is good for all of us. "Your order stands for brotherly relations, for fraternal unity, and you do well to lay stress upon that side of your work. If you will permit me I would like to mention with credit to you the part which your order played in the great war. From the first months of the war in 1914 your lodges were thinned out by a steady movement of men into the ranks, first into the training camps, then overseas, and then to the fighting front.

Several weeks ago the club first approached the county officials concerning the oiling project. It was felt that if the dust could be laid the club could afford to bear 30 per cent of the cost if the expenditure were not too high.

FIRE DAMAGES SHIPYARDS. Berlin, July 12.—The fire which broke out in the Blohm & Voß shipyards at Hamburg last night caused damage amounting to many millions of marks. The timber sheds with great quantities of building material were destroyed.

East London Residents Want Fertilizer Plant Moved; Object to Smells

Odor From Work Forces Closing of Windows and Doors of Dwellings—Fluid From Hyman's Tannery Kills Fish in the Thames, Says Sanitary Inspector's Report.

A petition from residents of East London in the vicinity of the London Fertilizer Works, protesting against disagreeable odors periodically emanating from this establishment will be presented to the board of health at its regular monthly meeting this afternoon. These ratepayers do not take kindly to "bad smells," waited about their nostrils on warm summer evenings, and will endeavor to persuade the board to rectify this condition.

NAUSEATING AND OFFENSIVE.

In his report on visits to the cause of complaint Sanitary Inspector R. H. Sanders says that the first inspections revealed an untidy condition, but a second inspection showed the plant to be as clean as any slaughter house.

However, the report continues: "I got a whiff or two of the odors complained of, which is nauseating and offensive, compelling citizens in the vicinity to close their doors and windows. The general feeling of the community is that the fertilizer works should be removed."

DISCOLORS THE RIVER.

Inspector Sanders also reports upon a visit to Hyman's tannery, where conditions are satisfactory, although a dark-colored fluid emptied via Carling's Creek into the River Thames discolors the latter stream so that "nothing could live in it." He reports that an odor is complained of by citizens when certain vats at the tannery are emptied. These reports will be dealt with at this afternoon's meeting of the board of health.

"I hope that your 1921 celebration in London will be one that you will long remember with complete pleasure. Speaking on behalf of the city council and the corporation of the city of London, I give you hearty welcome. I trust that no mishap of any kind will mar in any way the day's proceedings, and that those of you who are not residents of London will carry away with you the feeling that London people are good hosts to the strangers within their gates."

Police Arrangements. Chief of Police Robert Birrell arranged for supervision of the Orange parade today, having both motorcycle officers and officers on foot on duty clearing the traffic along the line of march. He also placed uniformed and mounted police along the route.

Continued On Page Three.

NO OIL FOR THE PIPE LINE ROAD

Cost Considered Too High by London Motor Club This Year.

Motorists will still drive to and from Springbank amid flying dust, for, according to the officials of the London Motor Club, no oil will be applied to the Pipe Line road this year. Owing to the exceedingly high cost of oil and the lateness of the season, it has been decided to let the matter drop for another year at least. The county officials will be notified to this effect. According to figures obtained from County Engineer C. Talbot, the club's share of the cost would be at least \$750. While this expense probably would not have been considered too great if the benefits were to be derived of all sorts. Our people are glad to have these gatherings in this city.

"We aim to make the facilities for such conventions as complete as possible whether they be held in the open air as it is possible to do at this time of the year, or within doors as is necessary at some seasons of the year. That I regard as a proper thing for a city of London's size to own and maintain."

"You have come here today for specific reasons. You meet to emphasize the main principles for which your order stands, to set forth clearly and plainly. You have here, too, in a spirit of fraternity, men from a distance rubbing shoulders and meeting with cordial relations with men of this city. That as we all know, is good for all of us.

"Your order stands for brotherly relations, for fraternal unity, and you do well to lay stress upon that side of your work. If you will permit me I would like to mention with credit to you the part which your order played in the great war. Several weeks ago the club first approached the county officials concerning the oiling project. It was felt that if the dust could be laid the club could afford to bear 30 per cent of the cost if the expenditure were not too high.

FIRE DAMAGES SHIPYARDS. Berlin, July 12.—The fire which broke out in the Blohm & Voß shipyards at Hamburg last night caused damage amounting to many millions of marks. The timber sheds with great quantities of building material were destroyed.

# THEATRES

## AT THE ALLEN.

"The Dark Mirror," starring Dorothy Dalton, heading the double program at the Allen, the first part of this week is a photoplay that is remarkable for its unusual character and in the skillful performance of the star in two vividly contrasted roles. The story involves New York's "Upper Ten," and also the worst haunts of the underworld. As Priscilla Maine, Miss Dalton is mistaken for Nora O'More, a belle of the Bowery. Thrilling adventures follow, but everything finally comes out right.

Bryant Washburn, in "Too Much Johnson," will be shown along with "The Dark Mirror." The star is Billings, who has sold his yacht by order of his domineering mother-in-law and goes for one last look at it. The owner, a flirtatious French woman, invites him on a cruise with her party. A business trip to the yacht, but his wife and mother-in-law get suspicious and decide to accompany him. That of course leads to unexpected complications which continue until the party reaches Mexico. Billings escapes from the tangle by a startling trick thus ending everything as it should be.

In addition to the two feature pictures, a rollicking "The Bull and the Comedies," Allen World News and special music complete the program.

## AT LOEW'S.

"Sir James M. Barrie's famous play 'What Every Woman Knows,' in screen adaptation, is the feature attraction at Loew's Theatre today and Wednesday. Presented by an all-star cast, this vehicle loses none of its stage attractiveness, although at times the plots seems to lag, only to have interest revived by new developments.

The story deals with John Shand, a

poverty-stricken youth, in search of knowledge, and Maggie, a Scotch girl, who has loved and lost. Shand steals into the Wylie home to gain access to books which he cannot afford and is caught in the act. Maggie's father and brother, after hearing his story, persuade him to enter into an agreement, whereby in five years' time he will accept Maggie as his wife, provided that they furnish funds for his education.

The agreement, insofar as educating Shand is concerned, is carried out, and success is his reward, with election to Parliament as his final triumph. Maggie, a brilliant man, offers to release him from his pact, in order that he may not be denied further success. Shand, declaring "a bargain is a bargain," announces his engagement to Maggie Wylie, and the marriage ceremony is performed.

Later when John Shand rises to further heights of success and becomes the contemplated prize of a brilliant woman, Maggie awakens to realize things as they are, which provides an amusing climax to this screen classic. Lois Wilson plays the role of Maggie, while Conrad Nagel is seen as John Shand.

In addition to this offering "High Signs," a comedy with Buster Keaton seen at his best, and "Low's Screen Program," an abbreviated musical comedy, presented by four maidens and man, all possessing excellent singing voices, captures premier honors. Costumes in this act are very elaborately designed.

Smith and Cook present a funny singing, dancing and repartee number, concluding with some sharp-shooting which amuses.

"Just Friends," the title of a turn featuring a juggler and two dogs, all three performing clever stunts, which require patience and skill on their part.

## LINE TO SPRINGBANK AGAIN IN OPERATION

Hourly Service Commences This Morning—Repairs Complete Tomorrow.

The London Street Railway has lost no time in repairing the damage done by Sunday's storm to the tracks and roadbed of the Springbank line.

Commencing as usual this morning an hourly service will go into effect until the repairs are completed. One track is now safe for travel, and the workmen expect to have the other in good order by tonight or tomorrow.

Manager King stated that an attempt would be made to accommodate the evening crowds by grouping the cars and at the same time maintaining hourly service.

## Circus Vouches For Every Word In Story of Sells-Floto Coming

They're coming to town—the clowns, the tumblers, the hooters, tooting calliopes, the white dappled horses and the many wonders of the Sells-Floto "second largest show on earth," which carries, among its 400 performers, "Poodles," Hanneford's greatest clown rider of all time and the highest paid circus artist in all white top history.

A large station, but the top world standing feature in the show is the New York Hippodrome was no slight task, and beating out circuit riders in the bidding of the Sells-Floto family constitute the only big, outstanding feature in the show.

Getting the Hanneford from the New York Hippodrome was no slight task, and beating out circuit riders in the bidding of the Sells-Floto family constitute the only big, outstanding feature in the show.

You have seen Sells-Floto for the last eight years a first rank circus during the last three seasons when it has faced to the front the old Man O' War, and will understand when it is asserted that the 1932 performance tops those of 19 and 20. You will understand when it is said that the show given at the annual spring opening stand in the Chicago Coliseum comes to you in the Sells-Floto has added another stage to its arena, making three rings and, and you on circuit day. Better than that they will be filled with feature acts, the Hanneford, the Madri Arabs, the Ottagas, Japanese, the Lindseys, the Whites, the Sieber Seals, the Steiners, Lou Grant, the La Fleurs and scores of others. In the air, the famous Co-donas and the equally celebrated Nodons, big diving troupe, will lead the usual Sells-Floto animal acts, and among the pleasing mid-air thrillers, the Sells-Floto animal acts will please, even more so than last year, and in all, from front to final big show display, the "second largest" bid for first place in your hearts.

## McDONALD CLAN PIONIC AT LAKESIDE

The annual picnic of the McDonald clan held at Lakeside was attended by members of the family from Porcupine District, St. Thomas, Ingersoll, Hamilton, London, Thamesford, St. Pauls and Kintore.

After dinner old and young enjoyed boating, swimming, games and races. Tea was served at 5:30, after which arrangements were made for next year. The outing is to be held at Springbank on the second Wednesday in June. The following officers were elected for next year:

President, Allan J. McDonald; vice-president, Jas. G. Culler; secretary-treasurer, Sam MacDonald; committee, Hugh MacDonald, John MacDonald, Wm. Mackay, Mrs. Alex. MacDonald, Mrs. Calvin Yake and Ruth MacCordquale.

Mr. and Mrs. Klein and daughter of Chicago are visiting friends in London.

Rev. Mr. and Mrs. Cree are entertaining at the rectory guests from Montreal. Mrs. Cree will accompany them on their return motor trip through the Adirondack Mountains to Montreal.

## STORM DAMAGE \$175,000

Most of the damage by the big storm was unavoidable and can be replaced in a few days.

The damage caused to the eye through the eye is a different matter. Money cannot restore lost or impaired eyesight.

Mr. Steele is the "breakwater" against eye damages. Let him examine you at his up-to-date office at 210 DUNDAS STREET.

## PROCEEDINGS BEGIN TO EXTRADITE DAVIS

TORONTO, July 11.—Superintendent Joseph Rogers of the provincial police department, today commenced proceedings to bring back Frederick L. Davis, wanted in Toronto on a charge of murder in connection with the death of the boy, Philip Goldberg, whose body was found at Sunnyside some months ago. Davis is in the Auburn Prison, Superintendent Rogers heard the evidence of a dozen witnesses who will testify at the trial if Davis is extradited.

LIVE HOGS ARE EASIER. WOODSTOCK, July 11.—Live hogs on the local market took another drop in price today of \$1.25 a hundredweight. The best offering was \$10.50, compared with \$11.75 last week.

## FRANCE IN GRIP OF BIG CIVIL SERVICE

Has 717,000 State Employees or One For Every Fifty Inhabitants.

## HARD BUDGET PROBLEM

Number Increased About 40 Per Cent, Expenses At Least 360.

PARIS, July 11.—France is being strangled by a veritable army of state employees, the bureaucracy having developed since the war to such an extent that there is now one functionary for every 50 inhabitants, a record never attained in any other nation. It is this condition which is proving one of the most serious budget problems, for while the total number has increased about 40 per cent, this represents an increase in expenditures of at least 360 per cent, with nothing but disorganized, troublesome groups to show where the money is going.

Members of the parliamentary finance commission are insisting that a comprehensive reform in administration which will affect every ministry must be devised immediately if France is not to succumb beneath the burden of economic students are finding in France's condition a remarkable proof of the war's effect on the population. There is not a single governmental department which is not conforming to the theory that war is productive of laziness. As a result, where 533,000 persons were sufficient to carry on the nation's affairs profitably in 1913, 717,000 are now required to do the same work. A half million of whom are permanent members of France's civil service. And this does not include the army and navy, whose officials are generally considered to be state functionaries.

The greatest increase is found in the war department, however, the bureau craters jumping from \$1,000 to \$7,000 since the war commenced, although, apart from actual operations, it is really not necessary to have extensive staffs in any of the divisions except those handling pensions. The employees of the ministry of justice remain at 14,000, while the ministry of public works, despite the improvements in roads made necessary as a result of the invasion, has not changed from the 1913 figure of 12,000.

All other departments tell the same story of over-staffing, which will be corrected as soon as the leaders understand fully the danger to France's prestige abroad.

## EIGHT BETHESDA NURSES GRADUATE

Exercises To Be Held At Salvation Army Citadel Wednesday Evening.

Eight nurses will graduate on Wednesday evening at 8 o'clock at the Salvation Army Citadel on Clarence street. The names of those graduating are: Jean Mason, Ada Flood, Olive Wilson, Ruth Shipman, Marie Kumble, Evelyn Parrott, Tannis Abbott and Jennie Maidment.

Addresses will be given by Brigadier DesBrisay, the women's social secretary, and Dr. David Arnott, medical superintendent. Brigadier DesBrisay and Major Easton of Toronto will administer the pledge, and Miss M. Marshall and Dr. Arnott will present the diplomas and badges.

## FRENCH SENATORS VOTE RATIFICATION HUNGARIAN PACT

Paris, July 12.—Ratification of the treaty between the allied nations and Hungary, known as the Trianon treaty, was voted by the French Senate last night. Included in the ratification was the protocol of the treaty which stipulated that protection would be given to racial and religious minorities in Hungary.

## NOT EXPECTING ANY GREAT BUSINESS, EVEN WITH REDUCED PRICES

Sydney, N. S., July 12.—"Even with prices being slashed as they are, I see nothing to indicate any great amount of new business," declared G. H. McDougall, vice-president of the British Empire Steel Corporation, when asked whether the drastic cuts in the price of steel products announced by the United States Steel Corporation would be made by Canadian companies.

Mr. MacDougall intimated that the Canadians would have to follow suit in price cutting, but said that even so he did not look for any immediate response in the way of a rush of new business.

## SCHOOL REPORTS

S. S. NO. 5 AND 15. The following is the report of promotion examinations for S. S. No. 5 and 15, London and Nisour, for June of this year, names in order merit:

Junior Third to Senior Third—Helen Timms.

Senior Second to Junior Third—Wilfred Bilyea, Kathleen Elliott, Joyce Innes; Bennie Reilly recommended.

Junior Second to Senior Second—Innes Innes, Wilfred Marshall, Clifford Marshall.

## BRITAIN'S POWER LINKED WITH COAL

Loss of Position in World Would Follow Failure of Supply.

NEW YORK, July 11.—David Evans, editor of the Cardiff Journal of Commerce, predicts in the Black Diamond that if the industrial foundation for Great Britain's commercial eminence, the domestic coal supply, should ever give out, Great Britain would fall back to a secondary position among the nations of Europe, similar to that now occupied by Holland. Mr. Evans doubts that oil can ever be substituted for coal in British industry. The consumption of oil in the United Kingdom is about one-third and a half million tons—equivalent to about five million tons of coal, while coal consumption in 1920 ran to 190,000,000 tons.

# MANY IMPORTANT SALES FOR WEDNESDAY MORNING

A FULL DAY'S BUSINESS IN THE FORENOON TOMORROW.

As the month and the season advances the reductions become more radical, as all departments are determined upon clearing all summer merchandise.

Each Wednesday morning brings a fresh new sales list, and each seems to be better than the last. These half-holiday sales are breaking all records in smashing high costs, and it is significant that tomorrow's sale prices are in most cases about half.

## SMALLMAN & INGRAM LIMITED

est that has been reached under the seven-year act, the output for the current year will only amount to between 100,000,000 and 200,000,000 tons, representing a shortage of between 70,000,000 and 100,000,000 tons compared with 1913.

"What policy the Government will adopt in the distribution of this at the moment to say. There is at present in force a conditional embargo on all exports, and since 1914 the policy pursued by the Government has been that of giving preferential claim to the home market and permit for export only such surplus as may be available after the demand demands have been met. If this policy is enforced after the close of the present strike, the quantity of coal available for export will be less than in any recent year of fact, the inland potential demand will be even greater than the total output, for it is estimated that the productive manufacturing power of the industry of the United Kingdom has been increased by at least 30 per cent—some estimates are as high as 50 per cent—as the result of the

## CONTINUE TO BOIL WATER, IS ADVICE FROM CITY HALL

No Serious Washout at the Reservoirs As Reported On Street.

SUPPLY IS AMPLE  
Pumps Out of Commission On Sunday Through Power Trouble.

Citizens are warned to continue to boil drinking water before using it. General Manager E. V. Buchanan of the public utilities commission, as a result of surface water washing into the reserve ponds at Springbank on Sunday, Mr. Buchanan denies the rumor to the effect that a washout seriously threatened the old reservoir Sunday, and that two men were on guard all night to give water to the city.

The Advertiser today that there was a "little washout, below the two reservoirs, at a point between them." This incident did not affect the reservoirs, and will be filled in with gravel and sodded after the ground dries out.

A washout occurred Sunday about the water main leading from the reservoir on the Pipe Line road, and this has been "shored up" with timbers. The reservoirs are now filled to within two inches of the top, the city being provided with an ample supply of drinking water, despite the fact that more than five million gallons from the reserve ponds were emptied into the river Sunday following contamination with surface water, and the additional fact that owing to power troubles at the waterworks the pumps were not working Sunday.

Although the bathing shacks at Birkett's flats were removed from their locations by Sunday's flood, they were not seriously damaged, and when the waters subsided, were found to be collected together within a short distance of their original sites. A large set of steps leading down to the ground from one shack was carried away by the deluge, and floated over a mile down the river, to be retrieved at the foot of Clarence street Sunday evening by a resident of the vicinity. They will be claimed by the authorities and placed once more at the door of the shack at Birkett's flats.

A small bridge crossing the creek near the north end of the camp floated down the north branch of the river a similar distance to Richmond street, where it was fished out by a citizen to be returned to its original location.

Medical School Invaded.  
Secretary W. A. Tanner of the board of education reports that the Technical School was struck by lightning Sunday, the heavy storm Sunday, but no serious damage resulted. A peculiar feature of this incident is the fact that the Dundas Centre Methodist Church, which is within a stone's throw of the Technical School, was also struck by lightning Sunday.

It has been also reported that the basement of the new Western University Medical School on Ottawa avenue was flooded Sunday. The water gained access through the lavatory sewer connections, an minor damage resulted.

Many Permits for Repairs.  
Building Inspector A. M. Piper reports that many property-owners of this city are actively engaged taking out permits to repair house foundations washed out and damaged by Sunday's storm. In many cases, Inspector Piper advised owners how to carry out their repairs, which will aggregate a cost of several thousand dollars.

## MONTREAL STOCK EXCHANGE

Montreal, July 12.—There was practically no trading on the local stock market during the first half hour this morning. Only three of the leaders appeared, and they remained unchanged at their yesterday's closing levels, viz., Abitibi 25½, Laurentide 71, and Riondon 9.

The market continued to be very quiet all morning, and very little of interest transpired. Abitibi remained unchanged at its opening quotation, Laurentide 25½, and Riondon 9.

Brazilian lost ½ point to 26, as did also Brompton, to 44. Laurentide was also weaker by ¼, at 70½. Riondon advanced ½ point to 9½.

## MAKES MOVE TO REDUCE ARMAMENTS

PRESIDENT HARDING of the United States, who has invited Great Britain, France, Italy and Japan to a conference in Washington on the "limitation of armaments."

## SEVEN DAIRIES REPORTED UNFIT, SAYS INSPECTOR

Three Milk Producers Must Discontinue Supplying Milk To City.

Farms located in all portions of the district from Port Stanley to Kerwood, upon which milk for local consumers is produced, have been inspected by Dairy Inspector Dr. C. S. Tamlin, of the London Board of Health, during the month of June. Dr. Tamlin visited 51 milk producers, and ordered three with insanitary premises to discontinue supplying milk to Londoners until conditions are remedied.

Dr. Tamlin reports general conditions as fair, with "not so much care taken as there should be." Tests for fats and bacteria counts "ran pretty good," he reports, considering the hot weather. "Lack of ice has proved a great handicap to the producers, and serves as a lesson to put in ice in the future. They cannot depend upon water for cooling, and every dairy should have an abundance of ice."

One producer was refused a license because he had no equipment. Dairy inspectors were also carried out by Inspector Tamlin, who discovered seven to be unfit. Samples of milk numbering 120 were taken for analysis, and eight cans of milk were returned to producers as unfit for human consumption.

**City Briefs**  
FUSED WIRES AT TECH.—During the storm on Sunday, lightning struck the high-power wire at the Technical School, but beyond fusing the wire did no harm. The wire will be repaired before the opening of the school in September.

**BUILDING STILL ACTIVE.**—Building permits issued Monday include one for a one-story stucco dwelling, 1414½ street, for L. D. Purdy, to cost \$3,000, and for a frame dwelling on St. Julien street for James Lavery, estimated to cost \$1,000. Permits for July now total \$176,475.

**CAR CRASHES THROUGH FENCE.**—While backing a sedan car out of its garage at the Oxford street end of Gunn street about 8 o'clock this morning, the owner had the misfortune to crash through the fence on the opposite side of the street. Beyond the damage to the fence and considerable scratching of the paint of the car, no harm was done. Failure of the reverse gear to operate quickly is given as cause of the accident.

**TWO INQUESTS THIS WEEK.**—Two inquests will be held at the police station this week, one on Wednesday night to probe the cause of the death of John Price, who died as a result of being struck by a motor car at the corner of Dundas and Richmond streets on Saturday afternoon, and one on Thursday night to ascertain the cause of the death of Alvin Stepien, who died while at work on hydro lines near the train station in London Township on Friday afternoon.

**BAILED FOR A MONTH.**—Arthur Frazeley, because of the intercession of a number of friends, including Lieut.-Col. W. G. Coles, who bore testimony of his personal excellent character, was bailed in police court this morning for the theft of some lumber from the Tecumseh Barracks, of which he was convicted, but was bailed to appear in a month. The prisoner has a wife and five children.

**MAY CONFISCATE WHISKY.**—One hundred cases of whiskey will probably be confiscated by license department officials on Thursday, the shipment having been seized here a few months ago, and three Windsor men fined \$2,500. The runners attempted to quash the conviction, but failed. The liquor is now in the Government warehouse at Toronto, awaiting an order of confiscation. Crown Attorney J. B. McLeod will move for the order. The liquor was addressed to Robert Anderson, 30 Campbell avenue, Windsor, and Joseph Richard, 70 Campbell avenue, Windsor.

## PLUMBING INSPECTOR MADE 135 INSPECTIONS

In his report for the month of June, Plumbing Inspector James C. Young announces that \$278.50 has been collected in fees from 135 inspections, and 85 permits issued, making fees for the first half of the year total \$148.70. The permits issued during June surpassed those of previous months in 1921, while the inspections carried out were over one-half the total for the six months, which augurs well for plumbing activities in the city. Defects discovered during the month totalled eight, and of these six were remedied. Several smoke tests were carried out by the inspector, the new machine, purchase of which was authorized at the last regular meeting of the board of health, being now in use.

## MANY ARE KILLED BY FALLING WALL

Dax, France, July 12.—Many persons were buried by a falling wall during a fire which destroyed a mercantile establishment here, owned by Senator Millies-LaCroix, today. Eleven bodies had been taken from the debris up to a late hour this afternoon.

## ONE SUPERVISOR OR ORGANIZER IS ON THE JOB

The first of the Government's "supervisors" or "organizers" under the "new order of things," Mr. MacNabb, is in the city from the east. The new department, comprising the railway mail service and the office of the postoffice inspection, is being organized today, and it is understood that the intricacies of the new Griffiths scheme of civil service reorganization will be explained in detail. That the work should proceed smoothly after the start is the belief of the officials. Another of Ottawa's foreign efficiency experts is giving his attention to the departments at Toronto, but is expected to reach London directly to assist in the reclassification.

## FOR REWARD FOR SAVING TRAIN

Some Claims Made Over the Phone and Some Personally.

### WASHOUT WAS BIG ONE

Huron and Bruce Still Tied Up by Storm Damage to Track.

Although several calls were received over the telephone on Monday, and at least four personal calls were made at the office of the superintendent of the local division this morning, the local officials of the G. T. R. are still in the dark regarding who really did discover the washout and land slide near the sandpits immediately east of this city Sunday night. According to the official, however, the gratitude of the G. T. R. will go out to the boy or boys who first notified the sectionman in charge of that portion of the track.

**Saw Washout.**  
F. H. Smith, of R. R. No. 8, London, and two boys who work for him, Lorne Staley and Lew Thompson, called at Mr. Forrester's office this morning to claim whatever credit was due for the action. According to the story told by Mr. Smith, the three of them were together when the washout occurred. Realizing the seriousness of the situation, Mr. Smith sent the two boys to notify the sectionman while he waited for the section flag any train which might come along.

**Carried Away 200 Feet.**  
The washout was perhaps the most serious of the whole division. Just west of the sandpits, a section of track, 200 feet long, was carried away by the rain had ceased, and after the waters of the flood had abated. The embankment for more than 200 feet had been washed away, and the track bed was left a hole that will be impossible to fill until a steam shovel has been secured from Toronto. The landslide occurred at 9 o'clock at night, after the International Limited had passed westward. For the time being all trains are running over the east-bound track.

**L. H. and B. Still Blocked.**  
The London, Huron and Bruce is still tied up by a washed-out culvert. The passengers of north and south bound trains were transferred from one to another last night, and again this morning. However, how the hole will be repaired by tonight after the arrival of a pile-driver. Sand and gravel is being hauled by the trainload to the section of the culvert at 230. Many beautiful floral tributes were sent to the local officials, though apparently small, are deserving, for in one hole, according to the local officials, four flat cars of gravel was dumped, but it had little effect.

## Obituary

**SUCCESSFUL TO DIPHTHERIA.**  
On Friday, June 8, the death took place at Clandeboie at the family residence of Edith Mae Flynn, aged 9 years, and 1 month, of diphtheria. She was the only daughter of Mr. and Mrs. George Flynn, section foreman, of that place.

The little girl had been ailing since Monday, but showed no signs of this disease until Thursday, and passed away peacefully at 2:30. Many beautiful floral offerings were sent by schoolmates and friends. She leaves to mourn her loss her parents and two brothers, Cecil, 11, and Harold, aged 7.

The funeral, which was private, took place Saturday morning, at 11 o'clock at St. James Cemetery. There were a number of relatives, friends and members of the L. O. R. A. Lodge, of which the mother is a member, present.

**BURIED AT DELAWARE.**  
The funeral of Mrs. Emily Whitaker, who died on Saturday at her residence, Delaware, was held from the above address to the Presbyterian Church at 2:15, when services were conducted by Rev. Mr. Ross. Interment was made in Delaware Cemetery at 3 o'clock.

**RELATIVES ATTEND FUNERAL.**  
The funeral of William Redding, who died early Monday morning at the Aged People's Home was held this afternoon at 3 o'clock from the undertaking parlors of J. Ferguson's Sons to Woodland Cemetery. Services were conducted at 2:30 by Rev. Canon Gunne of Christ Church.

It was through the report carried in The Advertiser of Monday to the effect that the man had died, and that the body was being held pending investigation as to the whereabouts of relatives that a stepson, James Berryman of Port Huron was located. Mr. Berryman arrived on the noon train to attend the funeral.

## LONDON WITNESSES

plain-clothes officers on duty at Queen's Park.  
The parade was headed by lodges from the State of Michigan, led by the G. W. V. A. Band and pipes. First was the Martin Luther Lodge, 54, of Detroit; then the Highland Park Lodge. After these came the Port Huron Lodge, 103, and the True Blue Lodge of women, who won considerable applause. Other American lodges were the Robert Brown and the Grant County.

Following are the Canadian lodges in order of march: Brantford, 742; St. Thomas, 238; St. Thomas, 359; West Lorne, 238; Fargo, 699; Chatham, 104; Moraviantown, 943; Chatham, 199; Greenway, 219; Bidulph, 493; Lanark, Sarnia, L. O. B. A., 155; Sarnia, Black Knight, 1239; Sarnia, 301; Point Edward, 514; Sarnia, 671; Petrolia, Star of the West, 1096; Wyoming, Havelock, 964; Bruce, 916; Uttoxeter, 516; Watford, 509; Aurora, 819; Wainstead, 620; Ardena, 2338; Stratford, 537; Woodstock, 93; Norwich, 2106; Tillsonburg, 254; Ingersoll, 743; Stratford, 759; Kirkton, 591; Stratford, L. O. B. A., 171; Stratford, Classic, 2668; Granton, 592; Carleton Place, 884; St. Mary's, 518; Huron, 827; Lakeside, Galt, 478; Kitchener, 2027; Preston, 2308; Onondela Reserve, 953; Onondela Reserve, 2750; Mount Brydges, 186; Glenora, 593.

London made a splendid showing with the following lodges: Forest City 702, Ahoghill 230, Royal True Blues 64, Hackett 805, Boyne 298, Beaver 2101, Nassau 2170.  
Nearly every lodge had a fife and drum or a brass band in attendance.

## COLONIAL PREMIERS GO FOR A FLIGHT IN R-34

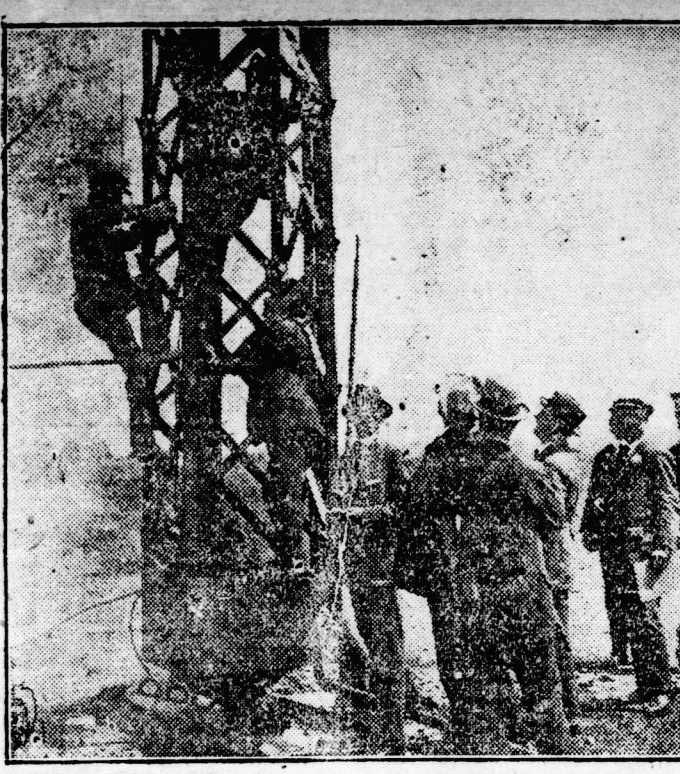

Photo shows a group waiting their turn to climb the mooring mast and enter the big vessel.

## DETAILS OF WAGE REDUCTIONS NOW IN LOCAL G.T.R. OFFICE

All Classes Are Affected — Trainmen's Pay Down 60 Cents a Day.

For the first time since the United States Railway Board ordered a cut in the pay of all railwaymen in that country, a detailed account of the reductions was received this morning at the local G. T. R. divisional superintendent's office. As practically the same reductions will be effective in this country it is expected the following listed reduction will be of some interest:

After the percentage of decrease was worked out in each class of workmen it was found that the decrease in the salary of clerks, with more than two years service to their credit, the cut would amount to 6 cents an hour; with more than one year's service, 12 cents an hour; with less than one year's service, 18 cents an hour. Office and other employees under 18 years of age, the cut would be 5 cents an hour. Station employees, including conductors, would suffer a reduction of 6 cents, while common laborers would receive a cut of 8 1/2 cents.

The employees of the maintenance of way department, including sectionmen, track inspectors and others, the cut ranges from 7 1/2 to 10 cents an hour, according to the class of work. Shop employees, including every class of worker, needed for the repair of telegraphers and dispatchers receive 6 cents an hour less than their present scale.

Engineers, including engineers and firemen, in the passenger service, suffered for a cut of 48 cents a mile, or a cut of 48 cents a day. In the freight service the reduction is .64 cents a mile or 64 cents a day.

Trainmen, including conductors, brakemen and baggagemen, in the passenger department, the cut is 4 cents an hour, 60 cents a day, or \$18 per month. In the freight service, conductors and brakemen would receive .85 cents an hour or 64 cents a day. For yardmen, including the foremen and the switch tenders, the decrease is 6 cents a day.

## WAS HIS ALMANAC WRONG, OR WAS HE REALLY VER COLD?

The janitor of the public utilities building is reported by members of the public utilities staff to be "a cold-blooded cuss," the heat in the office radiators being on full blast today. General Manager E. V. Buchanan discovered this fact this morning while on a still hunt to determine why the electric fan on his desk was not producing the usual cooling breeze.

He set out to hold a court of inquiry, but discovered that the janitor "was out," thereby proving that the heat was not prepared for his own benefit. The court of inquiry will be continued when the summer storm returns.

CONDITION IS IMPROVED.—Harry Merritt, popular caretaker of the city hall, who underwent a serious operation in Victoria Hospital Saturday, was reported to be improved today.

## WOULD KEEP ALLIED TROOPS IN RUHR

Continued From Page One

The failure of the German high court in Leipzig to impose what the French consider sufficient penalties upon the German generals charged with war crimes, is taken by former President Raymond Poincaré as a reason for the prolongation of the allied occupation of the Ruhr ports, seized when the first London conference failed to reach an agreement.

## OVERSEAS PREMIERS TO ATTEND MEETING IF DE VALERA URGES

Participants At Irish Conference Will Hold Widely Divergent Views.

**PLAN OF INTERVIEW**  
Object Will Be First To Seek Settlement Along Broad Lines.

London, July 12.—The parliamentary correspondent of the London Times says the arrangements for the meeting of Mr. Lloyd George and Eamon De Valera are not to be "cut and dried," adding that General Jan Christian Smuts, the South African premier, is not to be present at the opening of the interview, but that it is understood in Mr. De Valera's desire the overseas dominions represented, formally or informally, "this wish will meet with cordial acquiescence."

The Times says that while Sir James Craig, the Ulster premier, who returned to Belfast last night owing to outbreak of disorders, is absent the Marquis of Londonderry, minister of education in the Belfast Parliament, will remain in London. Sir James, it is declared, is prepared to return at any moment.

**Views Widely Divergent.**  
The plan of Thursday's interview, according to the correspondent, will be, in the words of the premier, "to explore to the utmost the possibility of a settlement the aim being first to discover whether the general lines of settlement can be marked out."

News received at the Irish office and reported by the parliamentary correspondent, indicated that the last Sinn Féin shot was fired at 11:55 a.m. yesterday at Kingscourt, County Cavan, where a revolver was aimed at a police patrol. No one was injured, and the shot was not returned.

Editorially, the Times says: "In appearance, if not in reality, the points of view of the parties to Thursday's conference will be widely divergent. The standpoint of the Sinn Féin, temperamental and intellectually, is different from that of Englishmen. The paper attributes the outbreak mainly to the Orange anniversary. When political feeling runs high in Northern Ireland and men's passions are stirred by memories of a stormy past."

**EXCHANGE RATES.**  
New York, July 12.—Sterling exchange steady, demand, \$3 63½; cables, \$3 61½. Canadian dollars, 12½/12½ per cent discount.

## WILL NOT BE NAMED AFTER ROOSEVELT

Hon. H. C. Biggs Declines To Agree To Changing His Plans.

Because Hon. H. C. Biggs, minister of public works and highways in Ontario, does not wish the provincial highways now under construction to be known by the name of the road running between Windsor and Niagara Falls will not be designated "The Theodore Roosevelt International Highway." Word to this effect was received today by the local chamber of commerce, which a communication was also sent to Mr. Tracy of Duluth, president of the association which is endeavoring to designate a transcontinental highway to commemorate the life of the great American.

It was the intention of the association to designate a direct road through Western and Southern Ontario as a portion of the road to be known by the chambers of commerce and other organizations were strongly in favor of the scheme, as it was believed that many tourists would be brought into the province, and with them their money. It was believed also that as the road was to be shown on thousands of maps to be published in the United States this portion of Ontario would receive much free advertisement. To bring this about by gaining the consent of the Provincial Government a committee was formed a few months ago. This committee worked hard to win the approval of the minister of public works, but it was to no avail. Although Hon. Mr. Biggs objected to having other names applied to any of the provincial highways, he suggested that signs be placed at Niagara Falls and Windsor to inform tourists that the provincial highways between these places was a connecting link in the transcontinental system. He intimated that the highways in Ontario under his jurisdiction were to be numbered, and that by taking a road with such a number, it would be easy enough for anyone to keep to the proper road without other signs on the road. This suggestion was passed on to the president of the association.

## STORE THIEVES ARE SENTENCED

Mrs. Ingram Goes To Merceur—Cambridge Women Get Three Months.

Eliza Ingram, third of the shoplifters to face Magistrate A. H. M. Graydon, after pleading guilty to two charges preferred against her in police court this morning, was sentenced to an indeterminate term not exceeding two years in the Andrew Mercer Reformatory at Toronto. She was convicted on four counts, namely: stealing one silk dress, cut glass, and two pieces of jewelry, valued at \$45, from Smallman & Ingram, a cup and saucer from John L. Scott, valued at \$5, on January 1, and of taking \$14.35 worth of silverware from the Cowan hardware, and a \$10.30 sweater from Gray's, Limited, on June 12. The court said that there were other charges which could have been preferred against her, including thefts from Kingsmill's, Limited, and Leo Watson, haberdasher. On the charge of stealing one cup and saucer from John L. Scott, which means the elimination of the military clause to which Premier Meighen and Smuts most strongly objected, Eamon de Valera is on his way to London to meet Prime Minister Lloyd George, which means the prospect of a settlement in Ireland.

The British Empire Congress of Premiers, satisfied that its influence and deliberations have made possible a great step in world peace, is proceeding to shorten its consideration of minor subjects.

## ST. THOMAS GREENS WERE NOT FLOODED

Big Entry List for Tomorrow's Annual Tourney.

A good entry list for the St. Thomas tourney, which opens tomorrow, is already in. The entries close tonight, and the draw will be published Wednesday morning.

A report that the greens of the St. Thomas Club were flooded in the big storm was not correct. Very little water got to the playing greens, and they were well dried out Monday.

**LEAVE FOR LONDON.**  
Dublin, July 12.—Irish republican leaders chosen to participate in the conference to be held with British Government authorities in London on Thursday left Dublin this morning for London. They were: Eamon de Valera, leader of the Irish republicans; Arthur Griffith, founder of the Sinn Féin; Austin Stack and Robert C. Barton, the last two being Sinn Féin members of the British Parliament.

## BRIAND ANNOUNCES

mons as those enacted there yesterday. When Mr. Lloyd George told of President Harding's proposal, and announced Great Britain's hearty acquiescence, it was apparent that parliament, Downing street and the foreign office looked upon the president's invitation to the allied nations to confer on the limitation of armaments as most momentous. Premiers are planning to cut short the sessions of the imperial conference, so that they may return to their home estates and prepare for the Washington conference. It appears to be the feeling in official quarters that discussions of naval projects and other important matters should be held in abeyance until after the nations have met and have decided upon their future action regarding military and naval affairs. Newspapers of this city continued today to express satisfaction over President Harding's proposal and the ready response of the British Government. They indicated that the Washington conference may have far-reaching effects upon not only the armament situa-

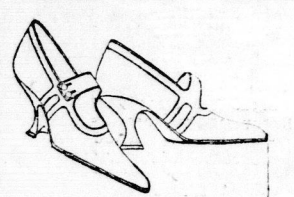

## Wednesday Morning SPECIALS

## Ashplant & Sons

tion, but problems focusing about the restriction of armaments has been favorably received in Italian official circles and especially by Premier Bonomi and Foreign Minister Della Torretta, it was indicated today. This leads to the belief that Italy undoubtedly would accept an invitation to such a conference.

## CANADA TO TAKE OUTSTANDING PART IN BIG CONFERENCE

London, July 12.—By Gratton O'Leary, Special Correspondent, Canadian Press.—The international and imperial situation, as a result of developments over the week-end, may be summed up as follows: The British Empire has welcomed and accepted President Harding's invitation for a conference of the great world powers at Washington on the limitation of armaments. The Anglo-Japanese treaty still exists, but both Japan and Great Britain have agreed that it shall be brought into line with the covenant of the League of Nations, which means the elimination of the military clause to which Premier Meighen and Smuts most strongly objected. Eamon de Valera is on his way to London to meet Prime Minister Lloyd George, which means the prospect of a settlement in Ireland.

The British Empire Congress of Premiers, satisfied that its influence and deliberations have made possible a great step in world peace, is proceeding to shorten its consideration of minor subjects. The conference at Washington is not expected to be held until some time in October. It is recognized that in a matter of such great moment to the world it is the better part of wisdom to make haste slowly, and it is obvious that a great deal of preliminary work must be necessary before such a gathering can be got into motion. Practically speaking, there will be two conferences. The first is to be confined to Japan, China, the United States, Canada, Australia, New Zealand and Great Britain, while the second will include all the great world powers, France, Italy, Holland and other European nations, probably taking part so far as Canada is concerned, it can be definitely stated that she will play a part in both conferences. Premier Meighen's intention, therefore, is to reach Ottawa before the 1st of August and clear up whatever political and administrative problems are awaiting him, and prepare to go to Washington.

**Guest of Government.**  
Meanwhile London awaits Eamon de Valera. The Sinn Féin leader while here will be the guest of the British Government, and, not without amusement, Canadians here have heard that he is to be a fellow-guest of Premier Meighen in the sumptuous precincts of Claridge's.

De Valera, it is regarded as a good omen, is to be accompanied by Austin Stack, one of the most moderate republicans in the Sinn Féin leaders, and by R. C. Barton, formerly a Protestant Unionist, who fought as a British officer in the Great War. It is understood that Timothy Healy, the noted Nationalist lawyer and close personal friend of A. Bonar Law and other Conservative leaders, is acting as his legal adviser. Few here minimize the vast difficulties in the way of a settlement, but, on the other hand, there has never been a time in the last century when more good-will has been exerted toward a just solution.

## ITALY EXPECTED TO ACCEPT INVITATION TO THE CONFERENCE

Rome, July 12.—The proposal of Pres-

# Says Govt. Has No Power To Probe Grain Business

Important Decision Is Given by Justice Curran in Connection With Western Grain Growers—Court Holds That Private Enterprise Cannot Be Investigated.

WINNIPEG, July 11.—Ruling that the Federal Government has no power to investigate the grain business, which, he holds, is a private enterprise conducted for private profit or gain within the province, Justice Curran today made permanent the interim injunction granted three weeks ago against the royal grain inquiry commission. The interim injunction was granted by Justice Galt on the application of the United Grain Growers, Limited, and the Northwest Grain Dealers' Association, et al.

The judgment is based upon the following general propositions:

(1)—The Federal Government has power to legislate upon, or investigate, anything pertaining to the "peace, order and good government of Canada." Justice Curran rules that the grain business does not pertain to "the peace, order and good government of Canada."

Was Within Meaning.

(2)—The Federal Government has power to legislate upon, or investigate, anything pertaining to "trade and commerce." The court holds that the grain business does not pertain to trade and commerce in the restricted sense in which federal authority applies to "trade and commerce."

(3)—The Federal Government has no power to legislate upon, or investigate, anything pertaining to "property and civil rights," which are within the exclusive jurisdiction of the provinces. To his court holds that while appointed ostensibly to investigate a matter pertaining to "peace, order and good government," the royal grain commission was actually authorized to investigate what is really a matter pertaining to property and civil rights.

Have No Power.

(4)—The Federal Government has

higher courts held that he was wrong in not hearing further argument on other phases of the case, they could refer this angle back to him.

Whether the case is carried to the higher courts or not the investigation cannot proceed while the whole matter is subject to litigation that may last an interminable length of time. The question of costs was reserved until it has been decided whether an appeal will be taken. C. P. Wilson, K.C., representing the minister of justice, immediately following the release of the judgment wired the decision to Ottawa and asked for instructions.

Following a conference between counsel and members of the royal grain commission this afternoon the announcement was made at the office of the commission that there was no statement to be given out.

## DECLARES CANADA HAS 8,000 DRUG ADDICTS

Deputy Minister of Health Gives Some Startling Figures.

OTTAWA, July 11.—(Canadian Press)—That Canada has 8,000 drug addicts is regarded as a fairly conservative statement by the deputy minister of health. A continuous fight against this evil is kept up by the health department. They are co-operating with the mounted police and customs officials in checking the smuggling and illicit traffic of narcotics, and they also assist physicians throughout the Dominion in standardizing the medical treatment of drug addicts as carried out in the special hospital in New York City. To this end the health department supplies physicians and others interested with an outline in French or English of the treatment given there. The authorities admit that in case of sickness or trouble the discharged patients are very likely to return to the drug. As long as narcotics can be obtained clandestinely there will be drug addicts to deal with.

May Enter Appeal.

It is indicated that the Government will carry the case to the higher courts, Justice Curran remarking that if the

## GIRL DROWNED WHEN AUTO RAN OFF THE FERRY

Ida Goodman of Wallaceburg Loses Life in Accident At Becher.

CHATHAM, July 11.—Ida Goodman, aged 15, daughter of George Goodman of Wallaceburg, was drowned in Sydenham River at Becher, five miles north of Wallaceburg, last evening about 10 o'clock, when an automobile in which she was riding with another girl and two young men, ran off the ferry that crosses the river at what is known as the Lambton line. The body was recovered in about an hour.

The party left Wallaceburg early in the evening and drove to Lambton and Somers. On their return they lost their way and drove onto the ferry before they realized where they were. The ferryman saw the lights of the car approaching, and it is said, he was on the ferry and attempted to stop the car when it went into the river.

## SERIOUSLY HURT WHEN MOTOR TURNS TURTLE

TORONTO, July 11.—Mrs. Sarah Stevens, aged 72 years, of this city, sustained serious injuries when a motor car in which she was riding turned turtle yesterday a short distance out from Hamilton en route to Toronto. The car was being driven by James Devonshire, who escaped injury, but his wife was slightly hurt. The car slipped off the oily surface of the road, and slowly turned completely over, pinning all the occupants underneath. They were protected to a considerable extent by the top.

## VALIDITY OF GRAIN ACT IS QUESTIONED

Measure May Be Upset and Result in General Confusion.

## AN INTERESTING CASE

Likely To Prove a Boomerang To the Government.

(Special to The Advertiser.)

OTTAWA, July 11.—The judgment of Justice Curran at Winnipeg which makes permanent the injunction against the grain inquiry and inferentially casts doubt upon the validity of the whole Canada grain act is regarded here as a very important matter and there is question that, looking to finally, the case will be appealed. Until it is disposed of on appeal and only in the event of the Curran judgment then being reversed can the investigation into the grain trade go ahead. Here ends the first chapter of what has been claimed to be a political crusade in its primary purpose and an inquiry for the betterment of the grain trade as a secondary and peculiarly subordinate consideration. Not improbably the whole grain act will be upset, and if so a beautiful mix-up will develop with every province making laws of its own regarding the grain business and uniformity lacking.

An interesting case is rather interesting. About a year ago H. C. Denvers M.P. was deposed from the head of the Manitoba Grain Growers. Without suggesting any connection between the two events the facts are that last session Mr. Denvers was the primary spokesman in calling for a full inquiry into the grain trade, alleging that the farmer was being double-crossed. In political circles here the question was discussed in much sober and considerable was heard of having things "on" Crerar and his company which would create dissension and distrust among the co-operative concerns, and incidentally extend to the farmers' political organizations.

The inquiry was started, and one of its members is W. D. Staples, former Conservative M. P., who is grain commissioner in Saskatchewan and is responsible for the operation of the act.

Trouble Commences.

All went well until when the commission was in Alberta. A deputy loomed up suddenly at Fort William without notice, took an affidavit of a discharged employee who claimed to have put a false beam in a farmer's elevator, and made other damaging statements.

The injunction proceedings came soon after, although the grain exchange had previously indicated its opposition to testing the validity of the whole as well as the inquiry. The injunction now is made permanent, and everything is tied up. It has been claimed by Mr. Crerar that the Fort William episode was for the immediate purpose of making campaign material in Medicine Hat for the Government. If so it proved to be a boomerang, as such has been candidate got nine thousand majority. Apparently there is neither political nor legal success for the proponents of the move, though the farmer's vote appears to be well solidified.

Validity Questioned.

An appeal lies first to the Manitoba court of appeals unless by consent it comes direct to the supreme court of Canada at Ottawa. The last resort will be to the privy council. Considering the judgment of that body in the insurance case touching the inability of the Federal Government to regulate provincial trade, some legal advisers here have always been dubious about the validity of the grain act, and their view is supported by the judgment just rendered at Winnipeg.

It appears that, so far as adverse political effects upon the agrarian movement is concerned, the proceedings have been quite abortive. Adjoining Medicine Hat while the ultimate legal effect may be to upset the Canada grain act, heretofore, operating smoothly and giving to the provinces the management of the grain business on whatever conditions or regulations they wish to impose. The whole situation would seem to be extensively bedevilled by the inquiry, the politics of whose conception few have reason to doubt.

## FIRST PLANE LANDS IN YUKON OIL FIELDS

Breaks Wing in Landing, But No One Was Injured.

DAWSON, Y.T., July 11.—A party of eight oil "stampers" from Fort Norman, who arrived here last Friday, brought news of the first aeroplane landed at Fort Norman by the Imperial Oil Company. The plane broke a wing while landing in the river, but no one was injured, it was stated. The party came down via Porcupine River and Fort MacPherson, and left today via the Upper Youkon steamer and Prince Rupert for Edmonton, where they will record claims.

When the party left Fort Norman, the country for miles around the original gusher had been staked and each staker was getting the maximum allowance of four square miles, they reported. The party also stated that the country was heavily covered with high willows, so that there was no difficulty in finding the lines of previous stakes, which the law provides shall be cut out with axes.

## BRITAIN SUFFERING FROM THE DROUGHT

LONDON, July 11.—(Canadian Associated Press).—The great heat continues and Great Britain is suffering much from the prolonged drought. There has been practically no rain in the south of England for two months, and the highest temperatures for the past 40 years have been recorded for the months of June and July.

Extensive heath fires are reported from all over the country, and thousands of acres have been consumed. There is a water famine in many districts, and supplies are being carted from great distances.

## SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia Relieved By "Fruit-a-lives"

Little Bras D'or, C. B.

"I was a terrible sufferer from Dyspepsia and constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, a friend told me to try 'Fruit-a-lives.' In a week, the constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous." ROBERT NEWTON.

## MARKETING IS VITAL PART OF FARMING TODAY

President Reynolds Discusses Agricultural Problems At Guelph Conference.

GUELPH, July 11.—About 100 agricultural representatives from all over the province attended the 14th annual conference held at the O. A. C. this afternoon. R. S. Duncan, B.S.A., director of agricultural representatives, presided. President J. B. Reynolds, M.A., welcomed the representatives and gave a short sketch of the work of the various departments at the college, touching on plant breeding, work of the field husbandry and horticultural departments. He also spoke of the experimental work and extension of the other departments. President Reynolds gave as a definition of an education as the knowledge where to get the information.

Of Vital Importance.

In speaking of the farm economics department, he said that a man might be an expert farmer and not make his farm pay because he did not understand the marketing end of the business. The department deals with production costs, selling, and also how to lay out the farm. He also spoke of the new regulations concerning the sending out of men from college to help individual farmers with their problems. He said that in future the expense would have to be borne by the farmers and not found by the college. In concluding he said that the experimental work of the college was of little use if not put into practice by the farmers.

Tells of Work.

W. Roadhouse, deputy minister of agriculture for Ontario, also spoke on the relation of the agricultural representatives to other activities of the department. MMR. Roadhouse said the O. A. C. is the great fountain head of information and inspiration to the representative for the local conditions, and can apply the results of the experiments. The college young men of the country to the college. He also spoke briefly about the Ontario Veterinary College and the Kemptville Schools of Agriculture.

## CHIEF CONSTABLE QUILTS ON FRIDAY

(Special to The Advertiser.)

FORT STANLEY, July 11.—At tonight's meeting of the council it was decided that the services of Chief Constable Harry Phillips, who came here a short time ago from St. Thomas, be dispensed with on July 15.

A number of deputations were heard. Among others was one asking for improvements in the vicinity of Grandview Heights. It was pointed out that there were repairs needed to the highway there, and the council promised to look into the matter.

Another deputation from Erie Road asked that the parking of cars in front of the residences there be prohibited. The council agreed to this.

## THOMAS

## BOIL WATER IS BOARD'S ADVICE

Citizens Warned Not To Take Chances On Present Supply.

ST. THOMAS, July 11.—Just when the local supply of city water may be used for drinking, without boiling, the officials of the waterworks department cannot determine. But everything that can be done to prevent contamination of the water is under way at the works. Chlorinated water is being forced through the filters, but this preventive against pollution does not do away with the muddy condition of the supply. The health authorities are still appealing to the people to take no chances, and the officials also asked that well water be boiled, too, where used for drinking purposes.

INJURED IN AUTO ACCIDENT.

CHATHAM, July 11.—W. Bell of River Rouge, who owns a summer home near Stony Point, was badly injured last evening, when his automobile turned turtle in a ditch a short distance from his home.

Three other occupants of the car escaped with minor injuries.

SMOKE DELAYED LINERS.

MONTREAL, July 11.—A smoke pall from the forest fires which ravaged portions of Quebec and the Maritime Provinces last week was apparent east of Cape Race, Nfld., the last outpost in the Atlantic, according to captains of liners arriving here today. In the Gulf of St. Lawrence the smoke was so dense that the liners at times were obliged to reduce speed.

WORMS KILLED FISH.

SHELBORNE, Que., July 11.—(By Canadian Press).—Fishermen report a serious condition of affairs in connection with the fish of Magog River. Hundreds of dead fish are lining its banks, and a large catch of bass taken around the Drummond Dam yesterday showed the fish to be all diseased and infested with worms.

Take Notice —To overcome that tired, languid feeling occasioned by the heat of summer days

## War-Time "Farmerette" Builds Up a Profitable City Gardening Business

Miss McInnis of Adelaide Street Spends Hot Days Weeding and Cultivating Her Garden, Which Is a Joy To See.

The influence of the war in inducing women to try out the profession of gardening has not been lasting in most instances. For the most part the war-time "farmerette" has long since surrendered the freedom of breeches and the health-giving life out-of-doors for the less strenuous and seemingly more profitable work of the office, school or shop. But in this district there has been one survivor, and as far as is known, only one. She is Miss Anna McInnis, 80 Adelaide street, who is now a flourishing market gardener and florist. Beginning the work only three years ago on a very small scale, Miss McInnis has now a flourishing, intensive garden of an acre and three-quarters, cultivated in the most up-to-date fashion and yielding such a profit that this most successful garden woman is able

decided to begin a garden on her own. And here I am.

For the first year Miss McInnis had but one-quarter of an acre under cultivation, managing to salvage that small amount of land from the great junk-filled vacant lot at the back of her home on Adelaide street. Now a second quarter of an acre has been acquired, and altogether an acre and three-quarters have been brought under cultivation. Her household was a splendid little greenhouse, 30 by 14 feet, largely built by herself. In addition to regular gardening, she has a few hobbies, which she hopes may

early spring lettuce followed by late asters and interplanting of sweet peas with late cauliflowers, manages to harvest a very heavy crop from her ground. Her specialty is plant-growing and flower growing, and many citizens go to her for their early plants, both flowers and vegetables. She brings to maturity quantities of flowers, lettuce and tomatoes. Just now she is harvesting a quarter of an acre of early tomatoes, which experts estimate will yield a profit of \$300. These tomatoes represent 1,000 plants, as many as a dozen or more tomatoes appearing in one cluster. Miss McInnis confesses that she may have had some little advantage in the matter of growing tomatoes, as her father is the discoverer of the well-known variety of tomato, "McInnis Pientiful."

Her flower garden includes all the lovely spring, summer and fall blooms. Her sweet pea plants have been yielding flowers in the thousands, and the local retail florists have found their way to her gardens to help all out their stock. Her asters have become noted since she captured the first prize at the Western Fair last year.

Starting out with fourteen hotbeds in the first year, Miss McInnis now has 40 such under cultivation, and a splendid little greenhouse, 30 by 14 feet, largely built by herself. In addition to regular gardening, she has a few hobbies, which she hopes may

## NATURE BOOKS.

For those who walk in the country, there are a thousand questions: "What flower, what bird, what tree, is that? What are these queer rocks? What makes the water of this brook so brown, or so red? Why is the soil so different here from that a dozen yards back?"

Children with their keen eyes for detail come running with a perpetual "Why? What? How?" to their mothers. What makes the water of this brook so brown, or so red? Why is the soil so different here from that a dozen yards back?

Children with their keen eyes for detail come running with a perpetual "Why? What? How?" to their mothers. What makes the water of this brook so brown, or so red? Why is the soil so different here from that a dozen yards back?

able cost, and make outdoor life much clearer and brighter. If one cannot buy the books, one can get them from the library or buy them in small clubs to buy and use them about. (Copyright, 1921, by the Metropolitan Newspaper Service.)

## Personal Health Service

(By WILLIAM BRADY, M.D., Noted Physician and Author.)

## Bronchitis From Sinusitis.

Old Doctor Bunker's almanacs and that widely read biographical work "Letters of a Simp" have familiarized the public with the situation of the bronchial tubes and the very profitable decision that these tubes are somewhat susceptible to colds and influenza, climate and weather. But very few people know what a sinus is. In the first place it requires fair intelligence to comprehend that there is such a thing as a sinus in the human body—and so Dr. Bunker never mentioned it in his almanacs. Say what you will, the business of separating the simp from the genuine is a task that has been given him a "guarantee" to cure, there is no denying that the Bunker's know their cures. In every case of chronic or long enduring cough, especially when there is considerable expectoration mornings, the first thing to do is find out whether the trouble is tuberculosis—which can be determined only by careful, perhaps many repeated examinations of the chest with all clothing removed to the waist. To await the finding of tubercle bacilli in the sputum is to procrastinate untidily, for lung tuberculosis should be diagnosed long before the germs can be found, in a great many cases.

The next thing to do, if tuberculosis is positively excluded, is find out the state of the accessory sinuses of the nose. I am speaking now of chronic bronchitis, long enduring cough. There are four pairs of sinuses or air-spaces in the skull communicating with the nasal cavity, and lined with mucous membrane like the lining of the nasal cavity and subject to similar inflammations and infections that may be called "cold" or "head cold," which fails to clear up completely within two weeks is probably prolonged by colds and infection of one of these sinuses; particularly when the attack is accompanied by pronounced headaches or "neuritis," or when there is a periodic excessive nasal discharge in the course of the trouble.

Many French soldiers who were supposed to have tuberculosis were found, on careful examination, to have cough and bronchitis from a sinus infection. Most of them got well soon after the sinus infection was remedied. Children with trouble in the nose, sinuses or adenoid region are pretty sure to have more or less cough and are often unsuccessfully treated for bronchitis without regard for the real origin of

the trouble. Every child with a persistent cough should be given a careful nose and throat examination and proper treatment for abnormal conditions found there.

In some cases of chronic bronchitis and cough found to be dependent on nasal sinus infections, the patients declare they have had no nasal discharge, no head pain and no other symptom pointing toward nasal trouble. Yet discovery of the sinus infection and its treatment brings relief.

Please tell me the name of the rhubarb medicine which you have advised to take the place of castor oil. (Miss B. B.)

ANSWER—Aromatic syrup of rhubarb. It was formerly called spiced syrup of rhubarb. It is given in the same doses and for the same purposes as the irritating, nauseating and wholly unnecessary castor oil. Children call this the "candy medicine." Some doctors still insist on castor oil, for the same reason, I fancy, that some young persons wear horn specs.

Sloughing a Porous Plaster. Appreciating your sound and entertaining department, I want to ask if the best method of removing a porous plaster is to soak it in water until it is fully saturated? For many more years than you are old I have resorted to the old-fashioned method of holding the plaster in my teeth and taking a firm hold upon something substantial while a muscular friend subjects the plaster to a quick, sharp pull. But this process is more or less conducive to Scriptural quotation unbecoming a gentleman. I would like to know if there is not a better way. (H. P. A.)

ANSWER—Soaking the plaster first by mooping on oil. If watergreen will diminish the agony. Or start one corner loose, then keep wiping the skin away from the plaster with pledgets of alcohol. The only real effect of such a plaster is support, a splint effect. The same effect is produced by the application of ordinary zinc oxide adhesive plaster, with less skin irritation. The porous plaster is a relic of the grand old days, before the first bathtub (which was introduced into this country in 1842) when billy bands, chest protectors, kidney pads and red flannel shirts were the rage, and cautious folks had their underclothes sewed on for the winter. (Copyright National Newspaper Service.)

become profitable in time. For example she is trying out the Japanese systems of dwarfing fruit trees for bloom, and is just now growing pergonias from seed. She is intensely interested in the experimental side of horticulture and wants to learn more about hybridizing.

Secret of Success. Perhaps the secret of her success lies in the fact that she is an enthusiast, and she makes everyone who comes into contact with her an enthusiast, too. That she is an economist, as well as an enthusiast, might be judged from the fact that she is about to raise a large steam boiler from a ditch in which it has lain for some time, in order that she may put it to use when her plant will include larger greenhouses and an extensive heating system. She wears the conventional farmerette garb of khaki bloomers and skirt with a large broad-brimmed straw hat, which when up-titled, reveals a welcoming smile for everyone.

One of her chief aims is to produce early flowers and fruit. Already she has picked many of her asters, and last week The Advertiser representative proudly bore away the first dahlia of the season, a lovely golden one, set in a large bouquet of other beautiful flowers.

Cynthia Grey's Mail-Box. To become an able man in any profession, there are three things necessary: nature, study and practice.—Aristotle.

English Edythe. Dear Miss Grey,—I received the letter you forwarded to me, and thank you very much. I have been away for two weeks, but not for holidays. I intend going to Niagara Falls for my holidays. Would you like to come? I can promise you a good time—you see, I like to work there. While I was at the hotel the acquaintance of "Timothy Seed," and we both said we would write to you again. I noticed T. S.'s letter in today's paper. Here's hoping the W. P. is in a corner. I am, as ever,

For Rose Bushes. Dear Miss Grey,—This is my first letter to your Mail-Box, and I hope you will have a little room for me. Could you or any of the writers, tell me what will kill weeds on a climbing rose? We have tried three kinds of sprays and insect powder. But these are of no help. Could you supply me with the songs, "On the Banks of Old Dundee"? I will enclose an addressed envelope for songs. Here is a good cake recipe that might be of use to some. Two eggs, 1 cup granulated sugar, 1-2 cup butter, 1 cup sweet milk, 1-2 cups flour, 2 teaspoons baking powder and vanilla to suit taste. Thanking you in advance, I will sign, ROARING BILL.

Ans.—Can anyone supply these songs for Roaring Bill. You may receive the help you desire from the following: Spraying with water under pressure with a fine spray is a good preventive for the various pests that infest rose bushes. This, however, is oftentimes not effective, only a help. Strong tobacco or soap solutions applied in the same way as stated for the water are good remedies. Three ounces of whale oil soap dissolved in a gallon of water will make a good solution for green aphids, red spider and thrips. A solution of tobacco water can be made by steeping tobacco leaves in a 1-2 or 2 pounds; fill the pail with boiling soapuds, cover up, and allow to cool. Strain and spray it on the plants as required.

Another good formula is made by mixing one part of slightly sour milk and two parts of coal oil. These must be mixed (churned) together thoroughly first, then add 20 parts of water and mix thoroughly. This must be used quickly, as it does not keep long. These remedies are for aphids, thrip and red spider mainly. Another pest that infests rose bushes is what is known as the rose slug. A slimy green caterpillar about one inch long, that eats the leaves and also eats into the flower. Dousing the bushes with the leaves are damp (not too wet) with dry heilebore from an old baking powder tin having a perforated lid, will help to keep down these pests; or an ounce of heilebore powder may be mixed with a gallon of water and sprayed on the bushes. There are also very effective remedies for pests on rose bushes. Care must be taken, however, not only to be particular in mixing the ingredients, but also apply thoroughly to all parts of the plant, more especially to the under side of the leaves. These remedies for the very hot weather spraying may be done in the evening.

## ADVERTISER PATTERNS

A Practical Set for a Young Child. Pattern 3531 is here illustrated. It is cut in four sizes, 6 months, 1, 2 and 3 years. A 2-year size will require 2 yards of 36-inch material for the dress, 3/4 yard for the sack, and 1/2-yard for the bonnet, for which a quarter of a yard of lining is also required. These are lawn, batiste, nainsook, linen, crepe, voile, albatross and silk are attractive for all the styles here portrayed. A pattern of this illustration mailed to any address on receipt of 15 cents in silver or stamps.

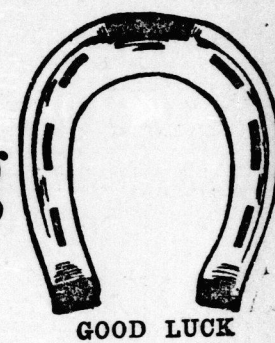

Name..... Town..... Province..... Age (if child's or misses' pattern)..... Measurement: Bust..... Waist..... CAUTION: Be careful to include the above illustration, and send size of pattern wanted. If pattern is to be measured, you need only mark 35, 44, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When misses' or child's pattern, write only the figure representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than one week from the date of application.

## CLUB NEWS

## GUIDE TRAINING CAMP.

The Girl Guide Training Camp held at Holiday House, Burlington, was one of the finest institutions of its kind, declared the enthusiastic London officers, who have returned home after a pleasant and profitable two weeks spent there. The London contingent included Miss Beth Pennington, the provincial secretary; Miss Shirley Carpenter, the local secretary; Miss Alma Price and Miss Muriel McBride. In all from 30 to 40 girls from different parts of the province were present at the camp, under the command of Mrs. W. R. Lang of Toronto. Lectures of all sorts filled up the mornings and evenings, such delightful studies as swimming, life-saving, astronomy, first aid, etc., were part of the camp program. A full parade to the Hamilton Cathedral was an attractive feature of camp.

## BETHESDA NURSES ENTERTAINED.

A very happy evening was spent at Springbank on Saturday, when the junior nurses of the Bethesda Hospital entertained the graduating class. A sumptuous supper was spread in the pavilion, the tables being decorated with the school colors. After supper the evening was spent in games and singing. Senior nurse, Miss Jean Mason, took this opportunity of tendering the

## PERSONALS

Dr. and Mrs. Ross Thomas have taken a cottage at Port Stanley for the month of August.

Mr. and Mrs. Frank Forrietal and family are at their summer cottage, Port Stanley.

Miss Isabel C. Armstrong of Toronto is expected home for holidays at the end of this week.

Mrs. James Ross, of Albert street, left on Saturday for Orangeville, where she will spend the summer.

Dr. and Mrs. D. C. McFarlane and Miss Gladys Thompson have left on a motor trip to New York City.

Mrs. E. Moulton, accompanied by her small niece, Miss Betty Fralick, is visiting relatives in Windsor and Detroit.

Mr. and Mrs. John Young of 114 Worley road have returned after a delightful trip to Toronto and Niagara Falls.

Mrs. Dore, who has been a guest in the city for some time, has returned to Chatham, and is with her sister, Mrs. H. D. Smith.

Mr. R. C. Braddon has taken up his residence in Windsor, and will be followed shortly by Mrs. Braddon and their two sons, Morley and Jack.

Mrs. Victor Blackwell is holidaying at Port Credit. Mrs. Blackwell, who leaves at the end of the week for Goderich, where she will spend some time at the Hotel Sunset.

## MAXWELL-RAMSAY.

A quiet wedding took place at the home of Mr. and Mrs. Thomas Ramsay, Hyde Park, on Tuesday, July 5, at 1 o'clock, when their daughter, Marion Dell was united in marriage to Rev. J. N. Maxwell, B.A., Gananogue. The ceremony was conducted by Rev. N. A. Campbell. The bride was gowned in ivory chamoisee, satin trimmed with sprays of orange blossoms, her veil also being arranged with orange blossoms. She carried a bouquet of Ophelia roses. After the wedding breakfast, the bridal couple left for Toronto and points east, the bride being attired in a suit of navy blue tricot with hat to match. Mr. and Mrs. Maxwell will reside at Beachburg.

## ROE-GANT.

A pretty wedding was solemnized in Holy Angels Church, St. Thomas, at 8:30 o'clock Wednesday morning, July 6, when Cecelia Margaret, daughter of Mr. and Mrs. Joseph Gant, of St. Thomas, was married to Mr. Harold Roe of Chatham. The bride, who was gowned in white satin and georgette with veil and wreath of orange blossoms, was given away by her father. She carried a bouquet of Ophelia roses and sweet peas. Miss Theresa Gant, sister of the bride, and Miss Anna Cowan of Chatham made very charming bridesmaids. Miss Gant being dressed in a pretty frock of pink silk and georgette, with hat to match, and Miss Cowan in pale green orquid with hat to match. Gant carried a bouquet of pink roses, and Miss Cowan one of snapdragons. The groom was assisted by Harold Dyer of St. Thomas. During the ceremony, Miss Cecelia Swift sang "Ave Maria" very sweetly. Immediately after the ceremony the happy couple and their guests repaired to the home of the bride's parents, where a dainty wedding breakfast was served. The table being beautifully decorated in pink and white sweet peas and carnations. A reception for the bride's young friends was held in the evening. Among the guests were Mr. and Mrs. J. Flannigan, Miss K. Flannigan, Mr. and Mrs. McQuade, Miss E. McQuade, and Mr. and Mrs. McLaughlin. Stroud, Mr. J. Ryan and Mr. and Mrs. J. Cummings, London; Mr. and Mrs. J. Gant, Detroit; Mr. and Mrs. D. J. Gant, Hamilton. Mr. and Mrs. Roe were the recipients of many beautiful gifts. They left on a wedding tour to Buffalo and other eastern points, and upon their return will reside at Chatham. The groom's gift to the bride was a pearl necklace to the bridesmaids an onyx ring, and to the groomsmen, initialed cuff links.

## WESTERN ONTARIO WOMEN'S ACTIVITIES

Address News For This Column to The Editor of Woman's Page.

DELAWARE TEACHER HONORED. Miss Maud Robertson, for six years past teacher at S. S. No. 6, Delaware, was recently honored when she was presented with a handsome cut glass water set and reflector by her pupils and friends of that school. The presentation was made by Miss Emma McGowan at a happy school gathering, where sports and refreshments were the order of the afternoon.

Ingersoll Cream Cheese. THE flavor is mild yet it has a tang that is particularly pleasing and appetizing. It is so delicious it fairly melts on the tongue. It goes further than other cheese. "Can be used in a hundred different ways"

TEN

# PREMIER TO MEET VALERA ON THURSDAY

Irish Peace To Be Discussed At a Conference in London.

TRUCE IS NOW EFFECTIVE

Many Acts of Violence Still Reported in Various Districts.

LONDON, July 11.—The two leading developments in the Irish situation today were the designation of next Thursday at the date on which Mr. Lloyd George and Eamon de Valera will meet in London to begin conversations looking to a settlement of the Irish question and the coming into effect at noon of the truce in Ireland as agreed upon.

The official announcement that Mr. de Valera would come to London next Thursday to confer with the prime minister did not specify the place where the actual meeting is to be held. It is understood that the Irish republican leader will have as colleagues Arthur Griffith, founder of the Sinn Fein, and Prof. John MacNeill, E. J. Duggan and Austin Stack, Sinn Fein members of Parliament.

No. Yet Announced. Mr. Lloyd George's associates at the conference have not been announced. The Irish truce brought back to Dublin much of its old peace-time appearance, the streets lacking their usual military display and confidence being expressed that the Sinn Fein forces would observe the conditions of the armistice. Strict observation of the truce also was observed throughout County Galway.

Many Acts of Violence. In other parts of Ireland, notably Belfast, where desperate fighting occurred yesterday and continued with diminished severity this morning, the truce was observed in varying degree, its provisions apparently being complied with more promptly by the crown forces than the republicans. Acts of violence in various parts of the country were reported in considerable number up to midday. These clashes largely occurred in the extreme western and southern sections of Ireland, and the authorities assumed that they were due to non-receipt of notice of the truce.

FIREBOMBS ARE BUSY. BELFAST, July 11.—Incendiary, which was one of the worst features of Sunday's disorders, increased tonight, there being frequent outbreaks. A fire at Short Strand where the corporation stores are situated, was quenched, but several spirit groceries in the vicinity were burned out. The police were fired upon tonight in York street, but no one was hit. In the extent of material damage to property, Sunday's rioting here can be compared to that during the Dublin rising in 1916. A fierce and savage spirit animated the factions throughout the whole day and evening, and large areas of the city were swept by rifle, revolver and machine gun fire. From the confusion of conflicting accounts, printed by the various party papers, an attempt to impute responsibility for the disturbance cannot be made, but it seems clear that it was a three-fold fight between Sinn Fein and Unionist snipers and crown forces, the latter endeavoring to end the hostilities.

WANT SUNDAY PAPERS AND TRAINS STOPPED

NASHVILLE, Tenn., July 11.—Enactment of a Sunday blue law, prohibiting among other things the operation of inter-state Sunday trains and excluding Sunday papers from the mails, will be urged by the Methodist Central Sabbath Crusade Committee, in a petition to be submitted to Congress this week, it was announced by Noah V. Cooper, chairman of the committee, on leaving here today for Washington.

for swellings

Swellings usually mean inflamed tissue. Absorbine, Jr. gently rubbed on the swollen part will quickly reduce the inflammation, and the swelling with it.

Though powerful, Absorbine, Jr. is absolutely harmless, and can be used with safety and comfort. It is a dependable anti-septic and germicide. Keep it handy.

125¢ a bottle at most druggists. W. F. YOUNG, Inc. 344 St. Paul St., Montreal

Absorbine, Jr.

ASPIRIN

"Bayer" only is Genuine

Warning: Take no chances with substitutes for genuine "Bayer Tablets of Aspirin." Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy little boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacturing of Monocetate of Salicylic Acid.

Sir Sam Hughes To Resign

The veteran ex-minister of militia, who is ill, is to retire from the Commons.

Does Not Want To Try It Any More

ST. PAUL, Minn., July 11.—Miss Phoebe J. Fairgrave, 18 years old, of this city, established what was said to be a new world's record for a parachute drop for women, when she dropped 15,200 feet from an aeroplane at Curtiss Flying Field, near here, yesterday.

It took exactly 20 minutes from the time Miss Fairgrave leaped until she alighted safely in a wheat field.

"It was terrible," said Miss Fairgrave later. "I never want to try it again."

GALT GIRL IS DROWNED IN BAY

Trapped in Swell From Motor Boats Canoe Overturned.

HAMILTON, July 11.—Trapped in the swell from two motor boats as they were returning home in a canoe from Wabasco Park tonight, Nancy Whitelaw, Toronto, aged 21 years, and Margaret Caldwell, Galt, aged 22 years, were drowned in Hamilton Bay tonight when the boat capsized. Margaret Bell, Toronto, aged 24 years, clung to the side of the overturned craft, and after waiting for half a hour, was rescued. Miss Bell said that she thought the other two girls were clinging to the other side. She cried to them to hang on until help came, but when no answer came she knew they were lost. She never came back for her own life, knowing that her two companions were drowned. She is in a hysterical condition, but not serious.

The body of Miss Whitelaw has not been recovered, but Miss Caldwell's body was found shortly after the fatality.

SEEK RECIPROCITY WITH AUSTRALIA

Question Is Being Taken Up With Premier Hughes.

[Special To The Advertiser.] OTTAWA, July 11.—The Government has entered into negotiations looking towards bringing about a reciprocity pact. The country with which the negotiations are being carried on, however, is not the United States, but Australia, which commonwealth has but recently adopted a protective tariff.

Sir George Meagher, minister of trade and commerce, has communicated with Premier Hughes by cable requesting that the latter take up with Premier Hughes the question of reciprocal arrangements between the two dominions. By the Australian tariff, which legislative effect has recently been given, a preference is granted to Great Britain, which preference it is held here operates to the detriment of Canadian trade. As, however, in the new United States tariff, provision is made for entering into reciprocal arrangements with other countries, hence the present negotiations.

Canadian trade with the commonwealth has fallen off of late owing to difficulties of financing. In normal times, however, Canadian imports from Australia comprised wool, fruit, chilled meats, dairy products and certain types of lumber. Canada exported agricultural implements, automobiles and other machinery, wool pulp and paper, etc.

HEAT CLAIMS THREE VICTIMS AT TORONTO

TORONTO, July 11.—Three deaths from heat prostration were registered at the city clerk's office today: T. J. Radford, 42 Alice street, aged 50; John Moore, 105 Morse street, aged 67; Richard Constable, general hospital, aged 48. Two are laborers and the third an employee at the C. P. R. freight sheds. This makes eleven deaths to date.

# COSLEY MAY MAKE FULL EXPOSURE OF BOOZE TRAFFICKING

Man Living Near London Said To Be Implicated in Case.

ST. THOMAS, July 11.—The seizure of about a dozen sacks of liquor a week ago at Hillcrest in the possession of Cosley, or Cosley, of Sarnia may implicate a man residing near London, if the story told by Cosley to the magistrate this morning may be believed.

The accused changed his plea of guilty today, and had a preliminary hearing before the county magistrate. Cosley confessed to having 43 cases in the original layout. The inspector, when counting up the contents of the sacks, did not find a quarter of that number, and is investigating the mysterious disappearance of the balance of the consignment.

The hearing of Cosley was behind closed doors in the office of the crown attorney. The brother of the accused came over from Cleveland as soon as he heard of his arrest, but was not permitted to see him. Cosley was, as usual, in tears, and admitted he made a serious mistake when he was approached by Inspector Ross on the morning of the raid. He thought the inspector was the bootlegger who gave him the envelope with the money and had come to tell him where to plant the whiskey.

The accused was given remand for a week, and a full exposure of the affair from its inception at somewhere near London to the early-morning "tragedy" on Hillcrest will be forthcoming before he will be heard again by the magistrate.

OWEN SOUND GIRL DROWNS IN SAUBLE

Parents of Violet McQuaker Are Visiting in England.

[Special To The Advertiser.] OWEN SOUND, July 11.—Violet C. McQuaker, aged 19, youngest daughter of Mr. and Mrs. John McQuaker, was drowned yesterday morning in Sauble. She had been visiting a girl chum over the week-end, and the two girls went out into the water with a punt. The other girl was having difficulties getting the punt back to shore in the strong wind and Miss McQuaker went to wade in to the shore and walked into a deep hole. This spring she had passed high in her class in the first year at the University of Toronto. In Toronto she was staying at No. 4 Queen's Hall, and was going into the political science house preparatory to studying law.

A sad feature of the affair is that her father and mother are at present in Europe and are sailing for home the last of the month. Mr. John McQuaker went as the delegate of the local Rotary club to the world convention of Rotary clubs in Scotland last month.

Besides the father and mother there are two sisters surviving, Mrs. S. H. Pearce and Miss Agnes, both of Owen Sound. The funeral will be private and will be on Wednesday afternoon.

If you want a good attendance at your meeting let Advertiser readers know when it is going to be. The rate is 2 cents per word or 15 cents per line.

Q. T. CLARKSON, who is government commissioner in the inquiry into alleged frauds on the militia department in connection with sterling exchange operations.

CHATHAM DARK AFTER STORM

Lightning Damaged Hydro Station and Burned Out a Transformer.

[Special To The Advertiser.] CHATHAM, July 11.—One of the worst storms of the season passed over the city late this afternoon causing considerable damage. Rain fell in torrents for 1½ hours, flooding the city streets. Some streets were covered with pools of water for over an hour after the storm, the drains not being large enough to carry away the quantities of water which fell.

The city hydro station was hit by lightning, causing much damage to a section of the switchboard and burning out a large transformer. The entire city was in darkness until 9 o'clock when the residential lights were turned on. The city streets were still in darkness up to a late hour.

Crews on incoming passenger trains say the storm was one of the worst they have ever experienced in this section of Ontario.

DEPT. OF LABOR WILL ARRANGE CHEAP FARES

OTTAWA, July 11.—(Canadian Press)—The minister of labor said today that the department intends to make the usual arrangements with the railways to take men at reduced rates from eastern points for harvest work on the prairies. The department also intends this year to relieve the unemployment situation in British Columbia by arranging similar facilities for men out there to reach the Prairie Provinces and return after the harvesting and threshing are over.

LABOR SECRETARY RESIGNS. TORONTO, July 11.—Charles E. Clay announced today that he had resigned from the secretaryship of the Canadian Federation of Labor. He had held that position for five years, and stated that recently he had been finding the duties interfering with his other work. It is expected that Mr. Tumpance will appoint a successor this week.

# STEAMER AFIRE IN MID-OCEAN

British Boat Taking Crew Off Says Wireless Message.

LONDON, July 11.—The United States steamer Western Front of Seattle, which left Jacksonville on June 23 for London and Hamburg, is afire six miles south of The Bahamas and is beyond assistance, according to Lloyd's.

The steamer British Earl, which sent wireless message telling of the fire, adds that she is taking off the crew of the Western Front.

The explosion occurred in the hold of the Western Front when the vessel was about ten miles south of The Bahamas rock, which is a part of the Scilly Isles, near Lands End, England. Fire then broke out, says the report, and was not checked.

One member of the crew is missing and several were injured. Later advices say the members of the Western Front were taken off by the British Earl and were transferred to a lifeboat from St. Marys and landed on that island.

MASS OF EVIDENCE AT GAS INVESTIGATION

Engineer On Stand Four Hours Answers Many Questions.

[Special To The Advertiser.] CHATHAM, July 11.—A mass of evidence was voluminous, also included the question of costs was reserved until it had been decided whether an appeal would be taken. C. P. Wilson, K.C., representing the minister of justice, immediately wired the decision to Ottawa, and asked for instructions. J. P. Foley, K.C., who represented the members of the commission, had no statement to make as to whether his clients would appeal.

WANNAMAKER IS 53. PHILADELPHIA, July 11.—John Wannamaker, president of the World's Sunday School Association, today celebrated his 53rd birthday. Through the association, greetings were sent from nearly a hundred and fifty Sunday school leaders from all parts of the world.

DISOLVES COMMISSION. WINNIPEG, July 11.—(By Canadian Press)—Mr. Justice Curran in supreme court chambers this morning delivered judgment dissolving the royal grain inquiry commission. He held that the order-in-council constituting the commission was invalid, and that the commission itself, therefore, was ultra vires, and that the members thereof should be restricted from proceeding further with their investigations.

He maintained, in effect, that the activities of the commission constituted a direct interference with and invasion of the plaintiff's property and civil rights in the provinces. He pointed out that the Government of Canada did not attempt to inquire into the business of insurance companies, which, although operating all over Canada, enjoyed rights under provincial governments.

Gave No Opinion. At the same time his lordship said he did not feel it incumbent on him to express any opinion as to the validity of the Canada grain act, which had been enforced for 21 years without any complaint or protest and without its validity being attacked.

**Fry's Iced Cocoa**

RECIPE: Keep on hand a syrup made up of one half cup of FRY'S Cocoa, one cup of sugar, one cup of warm water. Stir until smooth. Then boil for 5 minutes—chill and add one half teaspoonful of Vanilla Extract. To serve, allow two tablespoonfuls of this syrup to a glass with a little chopped ice and fill with cold milk. Stir well.

Try this cooling, delightful FRY drink. You'll want it often.

O'CALLAGHAN HAS RETURNED TO CORK

LONDON, July 11.—Donal O'Callaghan, lord mayor of Cork, is reported by the Central News to have arrived in Cork today from the United States.

Counsel for Donal O'Callaghan in the United States announced on June 18 that the lord mayor had arrived safely in Ireland. Immigration officials at Washington declared they had no official knowledge of his departure, and in the belief of Assistant Secretary Henning, he did not leave in "a regular manner."

O'Callaghan came to the United States early in January as a stow-away, and under a ruling of the department of labor had until June 6 to ship as a seaman for the return voyage.

**New hair growth**

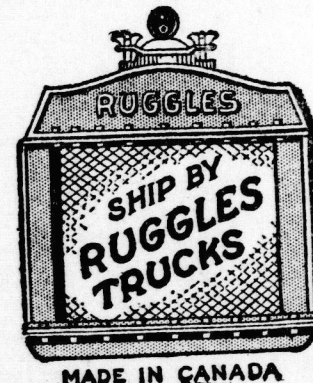

Wonderful new growths of hair are being reported by those using Kotalek the Indian hair compound. In many cases it has induced a full hair crop where there was a large bald spot. Kotalek is obtainable in drug stores everywhere. Or send 10 cents in silver stamps for proof box to KOTALEK COMPANY, LIMITED, 356-L, Adelaide W., Toronto.

# RUGGLES TRUCKS have won!

RUGGLES TRUCKS occupy first place in Canadian motor truck transportation. RUGGLES four standard models are faithfully serving commercial Canada from coast to coast. RUGGLES truck owners are proving, by accurately kept records, that RUGGLES TRUCKS are working at the minimum cost per ton mile. RUGGLES truck drivers recognize that strength and endurance are the outstanding features of all RUGGLES built in units.

Chairman of the Temiskaming and Northern Ontario Railway, who says that a recommendation has been made that the six to seven thousand lots held by the Government along the railway line be sold. As Government property they are not assessable, and the various municipalities lose much revenue thereby.

## MILITARY FUNERAL FOR DROWNING VICTIM

AMHERSTBURG, July 11.—The funeral of Trevor W. Lowe, a veteran, who was drowned north of the water works park dock, took place yesterday afternoon with military honors. The big gun carriage was brought down from Windsor and conveyed the body of the boy scout troop in uniform, the British flag and under a heavy guard. Lowe had an excellent war record and was only getting nicely acquainted with the veterans of the town when the accident occurred.  
Six war veterans, three from town and three from Windsor rode on the carriage. Following in line were the local branch of the Great War Veterans, the boy scout troop in uniform, the full membership of Fort Malden Daughters of the Empire. The whole town turned out to the funeral, and Murray street was jammed in front of the morgue. The procession marched up Sandwich street to the Rose Hill Cemetery.  
The service was conducted by Rev. H. A. Wright.

## EX-SERVICE MAN GIVES BLOOD TO SAVE LIFE

MONTREAL, July 11.—Several ex-service men today volunteered their blood for transfusion purposes, in an effort to save the life of a comrade, Dr. E. C. Cleveland, who served in the Mesopotamia campaign. He was taken ill about ten days ago with hemorrhage of the stomach, and is in a critical condition from loss of blood. The operation was carried out today, and about fifteen ounces of blood was transferred from the veins of one of the volunteers to those of the sick physician. The operation was reported as successful, but Dr. Cleveland is still in a serious condition, although showing improvement.

JOHN D. ROCKEFELLER, JUN., who has donated \$50,000 to help defray the expenses of excavating the site of Armageddon in Palestine, Armageddon or Megiddo, is the site of the first battle of which history carries any details.

## Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multisilf coconut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair. Simply moisten your hair with water and rub it in. One or two teaspoonful of Multisilf will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage. You can get Multisilf coconut oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months. Be sure your druggist gives you Multisilf.

Sold wherever good tobacco is sold

## A real cough remedy

Don't surrender to an obstinate cough. There's a remedy that will help you conquer it—a remedy that speedsily relieves all irritation of the respiratory organs and gives bodily strength for permanent cure. Try it—ask your druggist or dealer for—

**Robert's**  
SYRUP OF  
Cod Liver Oil & Tar

## MOTHER TESTIFIES DEFENDANT PROMISED TO MARRY DAUGHTER

Former London Woman Called To Stand in Detroit Case.

[Special to The Advertiser.]

DETROIT, July 11.—In a voice that barely rose above a whisper, Mrs. Elizabeth Hatton, mother of Monica Hatton, told of her daughter's relations with Arthur F. Stott, as she knew them, in the \$150,000 Stott-Hatton breach of promise suit in Judge Dingman's court this afternoon.

Mrs. Hatton, with white cheeks, their lack of color accentuated by a dark dress, looked across the lawyer's table frequently at the alleged father of her daughter's child as she testified, but her language was expressionless.

She kept herself in hand except once, when she testified it was in September, 1917, that her daughter confided in her that she was to become a mother. Mrs. Hatton lowered her gaze to the gloves in her lap. A question of Mr. Stott's counsel as to how she felt when she heard the news, however, straightened Mrs. Hatton in her chair.

Broke Her Heart.

"I think it broke my heart," she said slowly. She had tried to get Stott at his home and at his real estate office several times, she said, but the answer always was that he was out. Then she consulted a lawyer.

Mrs. Hatton was asked why she hadn't tried to communicate with Stott's brother or sister. She said it was for the same reason that she was not surprised that Stott always took her daughter to public places and never to private parties and that he never introduced Monica to his family. "I heard they were snobs," she said.

Was Not Peculiar.

She didn't think it peculiar, Mrs. Hatton said, that during the time she considered her daughter and Stott engaged that he gave her only a bouquet of flowers, a vanity case and a signet ring. She didn't consider it her place to inquire into Stott's intentions. Monica always told her, she said, where she was going when she went out with Stott. Mrs. Hatton said she didn't think Stott would take Monica "anywhere but nice places."

The signet ring, a gift from Stott, was buried in the coffin in 1919 with Stott's son, Edward, who died in November, 1915. All the members of the Hatton family put some small personal treasure in the casket. Stott's attorneys characterized Mrs. Hatton's statements to the girl as unimportant babblings. Mrs. Hatton went South in September, 1916. She said Stott called at her home in Merrick avenue the night she left, asked her to take Monica South, and said he intended to marry the girl as soon as he was in a position to do so.

In 1915, after the child's birth, Mrs. Hatton said Stott telephoned her and said he was ready to "right the wrong he had done, and marry Monica." She didn't see him nor hear from him after that, she said.

Wanted a Witness.  
Rev. John M. Duffy, an old schoolmate of Stott at the University of Detroit, told of a visit of Miss Hatton and Stott to his home in 1915 and a document. They wanted him to witness her signature. It was the letter previously introduced into evidence, in which Miss Hatton said Stott was not the father of her child.

Father Duffy said he did not know the contents of the paper until he read it in newspapers. He witnessed the signature, sealed the paper and also sealed the whole in an envelope.

Father Duffy said that later he was called to the law offices of James McNamara, and there met the lawyer and Stott. The envelope was opened, the document unsealed, and it was given to a stenographer to copy.

Made No Objection.  
Although the couple told him that they had agreed to be opened without consent of both parties, Father Duffy said he interposed no objection when the envelope was slit in the law office. Stott afterward said to him: "I hoped it would not be necessary to use that paper." "But it was necessary," the priest testified.

During the time Mrs. Hatton, mother of Monica, was on the stand she was asked many questions by Stott's counsel involving dates of birth of her children and of her marriage. Mrs. Hatton testified that she was married 45 years ago, that her husband owned a large farm just outside the city of London, Ontario, and that the name of her eldest daughter was Theresia. She had lived on the farm for 20 years, she said. Her other children were Francis, Edward, Raymond, Fred, Madeline and Monica.

## NEW MOTOR SHIPS PLY GREAT LAKES

Make Trip From Duluth to New York in Six Days.

New York, July 11.—Motor ships running across the Great Lakes from Duluth to Buffalo and thence to New York via the state barge canal are now in service. The first has reached New York, while two others are on their maiden voyages here and two more will be placed in service next month.

These boats are much the largest that have ever gone through the barge canal. Each of them can make the trip from Duluth to New York in less than the average time of freight shipments by rail.

The motor ship fleet is being operated by the Inter-Waterways, Inc., of which Julius H. Barnes, former U. S. grain administrator, is president. A. M. McDougall is vice-president, and G. Roy Hall is secretary and traffic manager.

The first of the vessels, built by the McDougall-Duluth Shipbuilding Company, is at the state canal pier, in Brooklyn, where she has been discharging a cargo of 85,000 bushels of oats, brought direct from Duluth to New York. Her actual running time for the trip was six days, but the run was lengthened by stops at some of the lake ports. She is called motor ship 101. Each of the five vessels is 244 feet long, with a 35-foot beam, and has a molded depth of 14 feet.

Their dead weight carrying capacity is about 1,000 tons each, and their content is 81,500 cubic feet. Each boat is equipped with a pair of semi-Diesel engines of 140 brake horsepower each, and they are constructed to make 18 miles an hour.

## NEW HYDRO GLIDER.

Victoria, July 11.—The "hydro glider," which is being launched here soon, is something entirely new in the shallow-draft boat construction line. The boat is propelled by an aeroplane type petrol engine with an air propeller, and it is equipped with a pair of semi-Diesel engines of 140 brake horsepower each, and they are constructed to make 18 miles an hour.

## FRANKLIN D. ROOSEVELT

Son of a former president of the United States, who announces plans for a Woodrow Wilson memorial to take the form of an annual award in accordance with plans not yet decided upon.

## COVENANT GOVERNS ANGLO-JAP PACT

Formal Notification Received From League of Nations Secretary.

GENEVA, July 11.—Formal notification, dated London, July 7, has been received by the secretariat of the League of Nations that, pending further action, the Anglo-Japanese agreement of 1911 as long as it remains in force will be continued to be governed by Article 28 of the league covenant. The notification is signed by Lord Curzon, British foreign secretary, and Baron Hayashi, the Japanese ambassador to Great Britain.

Article 20 of the League of Nations covenant reads:

"The members of the league, severally agree that this covenant is accepted as abrogating all obligations or understandings which are inconsistent with the terms thereof, and solemnly undertake that they will not hereafter enter into any engagements inconsistent with the terms thereof."

"In case any members of the league shall, before becoming a member of the league, have undertaken any obligation inconsistent with the terms of this covenant, it shall be the duty of such member to take immediate steps to procure its release from such obligations."

## FLAMES SWEEPING HAMBURG SHIPYARDS

Whole City Illuminated by Glare of Fire, Says Berlin.

BERLIN, July 11.—A great fire is in progress in the Blohm and Voese shipyards at Hamburg. The whole city is illuminated by the flames, according to a message received here, which, however, gives no details.

## LOSS IS \$75,000 IN TORONTO BLAZE

TORONTO, July 12.—Fire breaking out at 12:25 this morning on the third floor in the building at 30 Richmond street east, crawled between the ceiling and the roof of number 45 on the east, and 37 on the west before it was finally checked at 1:45 a.m.

While it was impossible to secure anything but an approximate estimate of the damage at an early hour this morning it will probably exceed \$75,000.

## BABY COVERED WITH ECZEMA

When 4 Days Old. Cross and Cried. Cuticura Heals.

"My baby brother had eczema which began when he was about four days old. It came in little pimples and then a rash, and he was covered with it. He was so cross that he could not sleep, and he cried."

"This lasted about two months before we used Cuticura. It helped him, so we bought a box, and he was covered with two cakes of Soap and two boxes of Ointment." (Signed) Miss Almada Williams, Youngs Cove, N. B., May 22, 1918.

Use Cuticura Soap, Ointment and Talcum for all toilet purposes. Soap 25c, Ointment 25c and 50c. Sold everywhere. Write for literature. Cuticura, Limited, St. Paul St., Montreal. Cuticura Soap shaves without soap.

## ALL RULES BROKEN BY MYSTERY SHIP

Refused To Respond To Signals Asking Her Identity.

NEW YORK, July 11.—An unknown ship which was violating international maritime regulations by running without proper lights and which refused to respond to signals asking her identity, was sighted last week 750 miles southeasterly from Halifax by the British steamship Croxeth Hall, which arrived today from Hull and Antwerp.

According to a report made by Captain Spencer of the Croxeth Hall, the ship apparently a small freighter, was first observed ahead of him, showing a stern light. The Croxeth Hall caught up with the vessel, which suddenly swerved in her course, and then came right at the British vessel. The stranger passed astern, went around and came up again on the opposite side.

The red and green running lights indicating the port and starboard sides of the ship were not lighted. Captain Spencer said, and as soon as the Croxeth Hall came up the single stern light disappeared. Repeated efforts to signal the stranger by flash code and by wireless brought no answer. The vessel, after running with the Croxeth Hall a short time, turned away and disappeared.

## LLOYD GEORGE MAY ATTEND CONFERENCE

If Irish Affairs Are Settled He Will Come.

LONDON, July 11.—Mr. Lloyd George may visit the United States to attend some of the meetings, at least, in connection with President Harding's proposed conference, according to the Daily Mail.

This is conditional on affairs at home, as the premier could hardly leave until the Irish question has been settled.

The Mail suggests that all the technical work could be done by experts, leaving the ultimate moulding of an almost completed agreement to a final conference, at which President Harding and the premiers of the other powers would be present, in the late fall of this year or early next year.

GENERALLY APPROVED.  
WASHINGTON, July 11.—The suggestion of President Harding looking to a disarmament conference at Washington was expected by officials here today to meet a ready response from the capitals of the powers concerned. The probable attitude of the powers toward this such a proposal, it was said, was sounded in advance through United States embassies and legations abroad, and the impression was gained that replies to formal invitations to such a conference would prove favorable.

Tending to confirm this belief, in the opinion of officials, was the statement of Mr. Lloyd George in the House of Commons today welcoming the initiative of President Harding in the matter.

In the preliminary questioning through U. S. representatives abroad, it is understood that the Far Eastern question was mentioned to ascertain if this would be considered as a proper subject for discussion in connection with consideration of disarmament. It has been indicated that as a result the impression was given that this question would be treated prominently in the conference program.

## GOVERNMENT TO APPEAL AGAINST INJUNCTION

OTTAWA, July 11.—Sir George Foster,

## Royal Millinery and Fur Co.

246 Dundas Street

Both were natives of England. Edwards was son of St. Thomas Anglican Church and Wilkins son of Christ Anglican Church.

## FORMER RULER OF BULGARIAN QUITE GAY IN HIS EXILE

PARIS, July 11.—Reports from Coburg indicate that exile is not depressing ex-Czar Ferdinand of Bulgaria. Fleeing from Bulgaria, he reached Coburg two years and a half ago, and has lived ever since in the city where he passed the greater part of his youth.

Ferdinand utilized his official knowledge of European politics in his dealings on the stock exchange of Berlin and London, amassing a great fortune. Soon after his arrival in Coburg he bought the former winter palace of Ernst II, the summer palace of the late Duchess Maria and the former ducal gardens.

He contributes freely to the maintenance fund of the state theatre. He occupies his box nearly every evening during the season and sends expensive bouquets to the stage.
