

RED DEVILS NEAR TITLE

First N.B. - P.E.I. Crown In Five Years; Nova Scotia Champs Are Next

The UNB Red Devils assured themselves a first place tie in the NB-PEI Hockey League by defeating St. Dunstons University 6-2 Saturday night.

Highlight of the game was, again, Claude Brown's work in the nets. Brown frustrated SDU snipers time and again to keep the Red Devils in contention.

Buck Davey opened the scoring at the 15.37 mark of the first period, on a pass from Whalen. This goal appeared mighty big the way the two teams were battling evenly.

In this first period SDU came close several times, hitting the goal post once, and Brown kicking the rest out. Ed McLellan had a terrific opportunity, but with a Saint defenseman draped around him, was unable to get a good shot away.

The second period continued with the same bruising style of hockey. Then, suddenly the game erupted with two goals and a fight, all within 30 seconds.

At 17.20, Miner MacDonald tripped MacElman who was moving in on goal. Justice prevailed with MacDonald watching from the sinbin, when Pearson scored from Dohaney.

Bud Pearson started off the third period by driving home a pass from McNutt. Miner MacDonald completed the scoring, with a high backhand shot from the blueline that eluded Brown.

The defense led by Dohaney's rushing and bodychecking played its best game this year. They scored two goals, Benson and Savoy, and gave the SDU forwards a rough time inside our

blueline. Bud Pearson emerged as the top scorer, collecting two goals and two assists. Only two minor injuries resulted from the rough play; Savoy sustained a gashed chin early in the first period and Gionet suffered a severe shaking-up in the third.

Although UNB will tie for first place in the schedule, there is a possibility that St. Dunstan's could overtake UNB. If UNB loses all remaining games and St. Dunstan's wins all remaining games, the winner will be decided by some other method, probably on a goals-for-against average.

FASHION NOTE—Fans at the game Saturday night would have noticed the Red Devils sharp-looking uniforms. The following is a quote from the Charlottetown Guardian regarding our appearance there previously this season.

Line-up

UNB—goal: Brown; defense: Savoy, Benson, Parent, Dohaney, Fraser; forwards: McDonagh, Pearson, McNutt, MacElman, Coombs, Mockler, Bourque, Hersey, McLellan.

SDU—goal: Shepard, defence: Hache, Murphy, M. MacDonald, O'Neil; forwards: Gionet, Lemay, Roy, Whalen, J. MacDonald, Davey, McGuigan, Burns.

HEES SPEAKS TO P.C.'s

HEARD AT FESTIVAL

The UNB 'Collegians', shown above were among the many UNB groups performing in the recent Festival of the Arts. Last Saturday afternoon the orchestra gave a programme of modern music, including Jazz. The group has at the recent dances been widely praised.

With a sparkling presentation of the "Miramichi Suite" by Kelsey Jones, and a presentation of recordings by Miss Louise Manly, of Newcastle, the variety-packed Arts Festival was brought to a successful close Sunday evening in the Arts Centre.

The Festival has featured the work of students in the fields of music, photography, drama and painting.

Those in attendance Thursday evening were treated to a fine display of slides made by students who have traveled in various parts of the world. Of special interest were shots taken in the Himalayas by Mike Arnold.

On Friday evening a delightful concert of music was presented by the UNB Choral Group under the direction of Mr. Trythall.

Yesterday Mr. George Hees, Progressive Conservative MP for Toronto-Broadview, addressed the students of UNB on the situation in Ottawa from the Maritime Conservative's point of view. A good turnout of students was present to hear Mr. Hees' ideas on the Federal Government's policy especially where it most directly affects the Maritimes.

Mr. Hees was introduced by David MacKeen, president of the U.N.B. Conservative Club. In his speech Mr. Hees pointed specifically to three areas of the federal policy, namely: power, Freight Rates, and the Canada Council. He referred to Premier Flemming's policy of desiring federal backing of power bonds as "fair" and hoped to see a decentralization of industry and the end of the exodus of youth from the Atlantic Provinces.

MODEL PARLIAMENT GROWS

TORIES

At their last meeting, Thursday, February 7, the P. C. Club mapped their platform for the coming election campaign. Although it is not for release at this time, it is expected to contain items of interest to the students from national, provincial, and local standpoints.

The Conservatives also chose their representatives to the joint Model Parliament Committee which will have the responsibility of planning the proceedings of the actual sessions. Those chosen were David MacKeen, the Club president, Elsworth Briggs, the past-president, and Mac Harris, who has had experience in other Parliaments.

Other committees were formed at the meeting to assist in the campaign and in the future workings of the Club.

WHIGS

Bruce Gates, a third year Business student, was elected leader of the Liberal Party at its first meeting in the Student Centre last Thursday. He was chosen by a ballot of the twenty students who had shown interest in the reformed organization. Joan Proudfoot and Brian Kempster were elected Vice-President and Secretary-Treasurer respectively.

Following the election of the leader and his executive Barry Toole, who had called the meeting to organize Liberal forces for the forthcoming election, handed over the chair to Mr. Gates. The remainder of the meeting was used to appoint committee chairmen and their members to formulate the constitution and the platform of the party organization.

The good turn out at the meeting showed that the model parliament will not be lacking an opposition. A promising start to the efforts of a few students to stir up interest in political activity on the campus.

FILM SOCIETY ELECTS

The annual meeting of the UNB Film Society was held in the Physics Lecture room of Mem. Hall. President Jim King was in the chair. Reports of the year's activities were presented as was a report from the treasurer. The financial position of the society this year was revealed to be far superior to that of previous years with a substantial surplus forecast at the conclusion of the present year.

This year the society, though experiencing some problems in receiving the films due to trans-

portation difficulties, has successfully shown many excellent 'off the beaten track' films; including, 'Major Barbara', 'Jour de Fete' and 'Rembrandt'. For the next year (1957-58), the society plans to change the location of showings from the Mem. Hall to the new Chemistry building where better facilities will be (Continued on page 2)

UNB Debaters Meet St. F.X. and St. Mary's

On this Thursday, Feb. 14, the lounge in the Student's Centre will be the scene of two intercollegiate debates in which UNB debaters will match wits and words with representatives of St. Mary's and St. Francis Xavier universities. These are the last two debates in the regular schedule of the Maritime Intercollegiate Debating League, which will decide Maritime debating supremacy this year. Two victories for UNB could bring back the honours to our campus, and send our debaters into the National Finals.

In the first debate, beginning at 7:30 Sherman Hans and Barry Toole will be going against St. Mary's and upholding the affirmative on the resolution "that Canada should enact compulsory arbitration laws for the settlement of labour-management disputes in industry coming under Federal jurisdiction." The judges for this contest will be R. Tweedie, Dr. Turner and Professor R. LeBlanc.

In the second debate, against St. Francis Xavier, Peter Miles and Brian Kempster will defend the negative on the resolution "that the U.N. should have taken military action in Hungary." The judges for this debate will be Mr. Murray Sergeant, Mr. C. B. Rouse and Mr. Smith Hilton.

Last Chance to Get in Year Book

Final deadline for publisher (Yearbook House, Kansas City) is Feb 20. Yearbook will then be complete.

Present indications point towards a 240 page book compared with 180 in 1956. The Hodge-podge will be increased by approximately 20 pages with the emphasis on sports. Majority of material will be provided by staff photographers, Ian Matheson and Terry Ingham. Advertising will be increased by approximately 40 pages.

Special precautions have been taken to insure that the budget will be met and, barring any unforeseen developments, the Yearbook will establish a precedent and come out "in the black".

The response for general hodge-photos has been poor and students are requested to note that the hodge-podge box in the student centre will be removed Friday at 9 P.M.

The Yearbook will probably be several days later in arriving than the contracted date of May 1. This is due to the inability of several organizations and teams to be available for photo sittings and the poor response to notices regarding write-ups.

Books will be distributed at the Book Store. Watch for notices regarding the definite date.

VOL. 89 FREDERICTON, N.B. FEBRUARY 12, 1957

Ignorant, Narrow and Apathetic . . .

A short while ago, the editorial column of this paper carried an article on the Blood Donor Clinics. In that, students were urged to forward any questions regarding this controversial issue to the paper, and they would be answered by Clinic officials. As yet, we have had no evidence of any questions or inquiries. Many critical remarks are heard on the campus at the time of the Clinics, and the failure to answer them has fallen squarely with those organizing the affair. However, this time, an attempt is being made to anticipate these questions. There has been no response. It would almost seem as if these self-styled critics want to remain in ignorance; and ignorant they are, if they dispense with the Clinics on the basis of their own inadequate and often erroneous knowledge. No amount of senseless braying will make a man out of an ass.

The "Brunswickan" does not want to set itself up as a judge of its fellow students, but it would seem that there are a large number of ignorant narrow-minded, apathetic and self-satisfied students at UNB who cannot or will not listen to reason. They complain and yet they do not want to hear an explanation. It is unfortunate but true. This observation is true of practically any activity at the university which involves something more than self-enjoyment and gratification. We are quite prepared to take part in anything which is designed and organized by someone else, but would no more think of helping or contributing to its creation than we would of flying to the moon.

It is sad that students have this attitude. It leads to a great many false observations and distorted values. For example, one of the objections to harsh treatment to misbehaviors, was that it would be uncomfortable to associate with them after the penalty had been levied; or that "I wouldn't want to be an informer". These considerations are not valid; and exhibit stupidity, if not a large measure of immaturity.

If a member of the university is unsure about the use of the blood collected at the Blood Clinics, or the methods followed to extract it, the Clinic officials will be glad to answer them. The Brunswickan has set up this service in the interest of the students and of mankind. If there is no response, and persons still insist on remaining uninformed; and if these persons refuse to contribute on the basis of their own misconceptions, then they are criminals, and must be treated as such.

It's Our Job . . .

"How is it possible to expect that mankind will take advice when they will not so much as take a warning."—Swift.

Speaking before the student Council Wednesday night on the subject of student discipline, Prof. McAllister intimated that the University authorities would prefer any action involving the student misdemeanours was initiated by the students. He went on to point out that the control of certain students at university functions was becoming a very serious problem to the President and the Board of Deans, and that they would not tolerate any repetition of last Friday's fiasco. "I have been a member of the UNB SCR myself," Prof. McAllister remarked, "and at no time can I remember a situation as serious as this."

The situation is serious. Not only is it obvious that some of the students are conducting themselves in what only can be described as a "bestial" manner, but we are in danger of unnecessarily losing a fair measure of control over the Student Body. If the students at UNB cannot indicate any willingness to shoulder the responsibility of student behaviour, then the university authorities will be forced to handle it themselves. This would be a very unhealthy situation. However, as things seem to be shaping up at the present, it seems the only course of action.

Several interested students made suggestions for improving and consolidating control at UNB functions, at last Wednesday's

You are Always Welcome at the

Paradise Restaurants

SAINT JOHN — AND — FREDERICTON

council meeting. These plans ranged all the way from fines to "strong-arm" tactics. Most of the discussion centred around the question of punishment after the alleged crime. There are two facets to this thorny problem—arrangements for preventing the misbehaviours in the first place and punishments afterwards to those apprehended. As regards the latter, there can be no question of the wisdom of levying a stiff penalty in the form of a fine. When the adjective "Stiff" is used, that should exactly characterize the penalty. No amount less than \$50. If the student persisted in his action, then recommendation for expulsion or suspension should follow. The only way to impress those students who insist on making asses of themselves in public, defacing university property and degrading the university, is to hit them where it hurts the most—in the pocketbook. Perhaps \$50 is too low.

The job of prevention should not be up to the campus police alone. Chief Don Welden explained his position in the matter by stating that "no one will turn out for campus police duty if they receive nothing but abuse. It is not our policy to forcibly evict anyone from the university premises. . . . If we cannot talk them out of it, then their names are passed on to the authorities. . . ." It is obvious that the police force cannot handle the amount of trouble in evidence Friday night. One alternative suggested was the use of City Police. This is a very unwise observation. A university does not amount to much if it cannot manage its own members.

The most efficient measure that could be taken, would be to utilize the senior years. Students who have reached their fourth and fifth years have a responsible position in relation to the university. It is their duty to enforce order. No-one should expect a small force of volunteers to cope with the kind of behaviour witnessed recently. The sooner we come to realize this, the sooner we will grow up!

Letter to the Editor Queen says "Thanks"

The Science Faculty,
The University of New Brunswick.
Dear Science,

I would like to take this opportunity to express my sincere thanks to your faculty. It was indeed an honour for me to represent you in the "Queen" contest and I am more than glad to have been able to do justice to your support.

Although all the departments of the faculty contributed to the Carnival work, I feel the geologists deserve a great deal of credit.

These boys decided that Science would not be left out of the sculpture and float contests again this year. The results of this decision are widely known for "Rex" has had many spectators while the science float took top honours. And I want all who worked so hard in making the float nothing less than a winner to know that I was the proudest of the "Queen Bees".

Thus I say "Congratulations Science", and I am sure that the rest of the student body joins me in this well deserved praise.

Sincerely,
Audrey Cheeseman.

FILM SOCIETY ELECTS Elected president was Larry Fowler, at present the society treasurer. Also elected were Steve Fay, Vice-President; Winslo Brewer, Treasurer; and Carl Wallace, Secretary.

One of the most important reasons for the meeting was the election of a new executive.

Thoughts On Various Subjects

One sage person once remarked that the opening of the students Centre cleared the noisy students from the Library and allowed others to study. If I am not mistaken the number of students in the library is no larger or smaller than it was. Where did all these extra people come from? What did they do with themselves before the "Blessed" opening of the Centre? Perhaps all these people are, in reality, collecting for a mass exodus out of the province.

It doesn't matter how vigilant and watchful a girl is; if a fellow kisses her, it is ten to one that he will do it right under her nose.

Co-eds are divided into two species: those who shut their eyes when kissing and those who look to see if you do.

Every year college deans pop the routine question to their undergraduates: Why did you come to college? Traditionally the answers match the questions in triteness. But one co-ed unexpectedly confided: "I come to be with—but I ain't yet."

Several college presidents were discussing what they would like to do after they retired. "Well", said one of them, "I know what I'd like to do. I'd like to be superintendent of an Orphanage so that I'd never get any letters from parents." "I've a much better ambition," exclaimed another. "I want to be warden of a penitentiary. The alumni never come back to visit."

During a Christmas exam, one of the questions was "What causes a depression?" One of the students on pro wrote: "God Knows! I don't. Merry Christmas!" The exam paper came back with the professors notation: "God gets 100. You get zero. Happy New Year!"

The professor was delivering the final lecture of the year. He dwelt with much emphasis on the fact that each student should devote all intervening time preparing for the final examinations. "The examination papers are in the hands of the printers. Are there any questions to be asked?" Silence prevailed. Suddenly a voice from the rear inquired: "Who is the printer?"

RELIGION AND THE COLLEGE

This article is the result of a questionnaire which was presented to several of the religious leaders of Fredericton, representing various denominations. The questionnaire was prepared and the contributions edited by Neil Mulvaney and Ken Grant. We hope that the results will be of interest to U.N.B. students, concerning whom much of the opinion is centred. We would like to thank the following who contributed to the article: Rev. T. J. Watson of Saint Andrew's Presbyterian Church, Monsgr. Boyd of the Roman Catholic Church, Rabbi Spiro of the Jewish Orthodox Church, Rev. A. H. Moore of the United Church, Rev. B. C. Cochrane of the Reformed Baptist Church and Dean Gray of the Anglican Church.

What Congregational effects has the presence of University students in Fredericton upon your Church?

Here, an enlarged congregation, a closer balance of girls and boys, and assistance in the choir were all mentioned. Most religious leaders felt that the attendance at public worship of college students was stimulating to him, in the sense that a certain part of his preaching is an answer to the challenge of the presence of "young, thinking men and women seeking enlightenment on questions that disturb them". Rev. A. Moore wrote: "Individually it is perhaps more effectively measured by the consultations which clergymen have with interested students who are seeking answers to their problems in religion. Then too, the shadow of a university, with hundreds of students, places a direct responsibility upon the local church and pastor, to make the worship as helpful and as sound doctrinally, as possible."

What effect is your Church having on the lives of the College students with whom it comes in contact?

Perhaps the most representative answer to this question was "I wish we knew". One religious leader suggested that from the number attending, the effect of the university numerically was not great. However, they were unanimous in expressing the "hope that it provides a steady influence on young people whose way of life is suddenly and drastically changed by attendance at university." It was also stated that: "the friendly contacts made at Church Services and at other congregational functions may help to tide students, especially first year students, over loneliness and homesickness, a feeling most young people have who are away from home for the first time."

In what way do you feel that college students are spiritually lacking?

Most were agreed that university students did not have a sufficiently wide knowledge of the Bible. Rev. Cochrane wrote that "a spiritual lack with many students is a vital, personal, Christian experience born out of implicit faith in Christ as the Son of God and Saviour of men." However Rev. Moore expressed the view that "sometimes there is a deep undercurrent of religious faith in otherwise seemingly in-

different youth". One of the religious leaders said that college students, especially in the early years at college, are too readily carried away by the impact of new and strange opinions, unfamiliar systems of thought that seem antagonistic to or vastly different from the familiar teaching of their Church and home. It was also suggested that this attitude is sometimes facilitated by teachers who pronounce on religion without perhaps having any special qualifications for doing so.

Do you feel that College students of your faith are patronizing your Church as they should be?

In one case the use of the word "patronize" was objected to here. On this question, only Monsgr. Boyd observed that attendance at his church was quite adequate, but he said that attendance at Newman Club should be much higher. "Every Catholic student should be a member of Newman Club." Although the other religious leaders did say that not a sufficient number come to worship, it was generally felt that the ratio did not differ greatly from other church members, "some of whom are quite faithful, in their attendance at Church, others are 'Christmas' or 'Easter Christians' while some do not attend church at all". Rev. Moore said "there are approximately three hundred United Church members at U.N.B. We get a mere handful in Young People's Union, and a larger number, though still a small group attending Sabbath worship".

What specific problems does College life present to a member of your faith?

Here, Rabbi Spiro pointed out that "to an observant Orthodox member of the Hebrew faith one of the problems may arise when an examination has been scheduled for the Sabbath or a Holy Day. Since writing in any form is strictly forbidden on these days, these students are placed in an unenviable position. Except where human life is in jeopardy there is no special dispensation. A Rabbi cannot advise a student in the above case. He must quote the law; there is only one interpretation." In answer to this question Rev. Moore said that "at U.N.B. lack of a chapel, and regular chapel services, and lack of official religious emphasis, along with the scattered residence life throughout the city, makes

'community of spirit' difficult." Monsgr. Boyd stated that the problems for the Catholic student would be much greater than for example at St. Joseph's. Dr. Watson expressed the views of some of the religious leaders when he said that "materialistic teaching offered at the University level tends to undermine the 'old faith' in which the students were reared: this seems to be a phase through which most students pass, but time and experience, in the over-ruling and understanding Providence of a Sovereign God, usually take care of it."

Dr. Watson also expressed concern about the "so-called 'social drinking' or the amount of it" which might cause students "to 'play the fool and err exceedingly' for a while. But here again time and the experience of a few 'mornings after', the sorting out of friends, some wholesale advice from University officials, and a bit of shame in their own souls, bring them back to the moderation of true Presbyterianism". Some of the leaders, in answer to this question, expressed concern over "the intra-mural sports on Sunday that seem to have the tacit approval of the University."

What problems do you feel that College presents in respect to interfaith marriages?

Most of the religious leaders felt that University life, by bringing students into very close contact with members of other faiths in a 'democratic' atmosphere, tended to break down old restraints and prejudices and make inter-faith marriages more common. Almost all, felt that this was not a good thing. One said "I suppose the problems of inter-faith marriages are the same in every area — domestic discord, misunderstanding and maladjustment in family life." Another seemed to express the opinion of the group when he said that "a home is usually the better for a common reverence."

Do you feel that Colleges make students more tolerant of other religions?

Dean Gray gave a "No" answer to this question. However, the general consensus here was that "college life inclines to make students more tolerant of religions other than their own. The common ground of college classes, social functions, athletics, and so on tend to develop this tolerance". Monsgr. Boyd answered that "It should. College

life is supposed to enlarge student's thought." He stressed that what purports to be 'objective history' must really be objective. Rev. Moore said "I believe that colleges make for greater understanding of other religions if there is some objective study of religion given." He seemed to express the opinions of most when he said that "perhaps, rather, we should say college life makes for a less indifferent acceptance of other faiths, for unless one's faith is the vigorous and practical kind, there will be indifference rather than toleration, which latter sees the good and fine in other faiths. Toleration presupposes in the individual a strong basis for his own beliefs". All seemed to concur in the opinion that "tolerance must never be taken for approval."

Do you feel that college students of today are more religious than students of ten year ago, or of twenty years ago? Do you feel that the situation is improving?

There was mixed opinion on this question, but perhaps a stronger note of optimism than of pessimism. Rev. Moore said that "ten to twenty years ago students more generally came from family backgrounds which were less strenuous and more professedly Christian". However, he felt that scientific studies brought students into contact with the deeper implications of religion. The student comes to consider religion as part of the normal and necessary growth of personality. Rev. Cochrane felt that students today are more interested in religion than were students of ten or twenty years ago. However, Dr. Watson stated that "from the religious point of view, students are much the same in every generation. I have been asked the same questions on doctrine that I thought were smart when I asked them about thirty years ago." He said that "if there is any change at all for the better, it is perhaps that many students today do not consider religion a matter for ridicule, and they will discuss it more freely with ministers than students of former years."

How do you think that relations between your Church and the College students could be improved?

Monsgr. Boyd again stressed the need for Catholic students being members of Newman Club. Rev. Moore said that "this is the \$64,000 question. Our United

Church Presbytery has made efforts to have the first and second year students together for a social evening for community of spirit. We are concerned that something should be done in this respect. Perhaps by a representative, or a "Church committee of the Student Body" with interests in the church life of the city, we of the local churches could learn more of the needs and desires of the students, and could help to formulate our week-day programs, and our Sunday services, so that we would meet more efficiently the student's spiritual needs. I am sure my church would welcome such a representative or group of representatives."

Rev. Cochrane suggested that "perhaps the college could help in this matter through its Student Council, or some other medium, by strongly encouraging all students to attend the church of their choice. From that point more intimate association might be encouraged through personal interest by the minister, invitation to home fellowship by people of the church, friendship contacts between students and youth of the church."

Dean Gray said that "by students realizing that religion is a religion of a Cross and that the Cross must enter into their whole outlook. Sacrificial service is one way in which they could improve their relations with the Church." In answer to this question Rabbi Spiro stated that he would be extremely interested to see what the students themselves might suggest on this subject, of improving relations between the student and his faith. He suggested that the question be posed to a cross-section of the student body.

Dr. Watson said that the students should feel free to come to a clergyman, or other religious leader in the church, with their problems. "Another good thing would be for our church to have an organization solely for Presbyterian students (such as the Canterbury Club for Anglicans, and the Newman Club for Roman Catholics) where they can meet to discuss their problems as they are related particularly to their own church. There could be occasional inter-club meeting, for a joint social hour, discussion of common problems; such contacts are helpful, for among other things, they help to save us from that smug 'holier-than-thou' attitude that has almost made the word 'religion' stink in the nostrils of decent, thoughtful and enquiring students".

SWIM TEAM FIRST

On Saturday, the 2nd of February, a swim meet was held at the Pool between UNB, Acadia and Mount A. The gallery above the pool was crammed with enthusiastic spectators who were to be rewarded by a fast-moving and record-breaking afternoon. Both the UNB girls' and men's teams won the day, adding to the sporting victories of UNB throughout the Winter Carnival.

Eleanor Hoyt and Pam McCready of UNB were outstanding, winning four of the first places in the Ladies events.

Rogers, of Acadia, deserves credit for two outstanding firsts in freestyle.

Special mention should go to Sanger, who unofficially set a new 40 yard Butterfly record, with a time of 23.7 seconds. The UNB Relay team trimmed the standing record by two seconds.

This was a most satisfactory exhibition swim meet for UNB, since Acadia was last year's holder of the title. Perhaps this will point to a UNB victory in the inter-varsity swim meet on March 9th.

EXHIBITION

Last Saturday an exhibition swim meet was held in Saint John between Saint John Vocational High School and UNB Junior Varsity swim team.

The UNB girls came out victorious 30½ points to 15½ points while the men went down to defeat 45-40.

RED DEVILS NEAR

Summary

First period — 15.37, SDU, Davey from Whalen; 19.45, UNB, Savoy from Mockler.

Penalties: 13.15, UNB, Parent, tripping.

Second Period—13.47, UNB, McNutt from Pearson; 14.00, UNB, Benson from McDonagh, Pearson; 17.49, UNB, Pearson from Dohany; 18.28, UNB, McDonagh.

Penalties: 14.21, UNB, Pearson, roughing; SDU, Hache, roughing; 17.20, SDU, M. MacDonald, tripping; 18.33, UNB, Dohany, kneeling.

Third period — 00.54, UNB, Pearson from McNutt; 2.28, SDU, M. MacDonald.

Penalties: 8.17, UNB, Savoy, slashing; 13.31, UNB, Fraser,

Co-Eds Win 3rd.

Straight Game

The Bloomers blasted Acadia University co-eds 56-13 in their third straight win of the inter-collegiate schedule on Friday night. Iris Bliss was outstanding as she struck the Acadia twines for 31 points. Team mates Lois Lange and Peggy Colpitts scored 12 and 10 points each. Acadia was handed eighteen fouls and UNB, eleven fouls.

UNB—Lange 12, Colpitts 10, Stiven 2, Sanger 1, Bliss 31, McDade, Scovil, Caughey, Wilson, Baird.

ACADIA—Sutherland 4, Atkinson 6, Wigglesworth 1, Doull, Barteaux, Oliver, Sinclair 2, Murray, Mount.

EngineEars

by Red 'N Black

There are two main topics to our column this week. Winter Carnival and Engineering Week.

We think everyone will agree that the Winter Carnival was an immense success and has proven to be the social and sporting event of the term. This success was largely due to the efforts of the students concerned with its planning. While we are on the subject, we take this opportunity to thank Gaetan Bourassa, Russell Chiasson, "Zip" Edgcombe and the other 5th year engineers who spent so many painstaking hours on the Engineering Float. Also thanks go out to Dave Seheult, Jack Oudemans, Don Campbell, Hans Foerstel and the many 3rd and 4th year boys who burnt the midnight oil to finish the Engineers' "Rocket" Sculpture. Well done, boys!

This week is Engineering Week and some very interesting events are being scheduled. Wednesday from 8:30 to 10:00 p.m. the Engineers will meet the Foresters in their annual hockey game at The Lady Beaverbrook Rink. This will be followed by general skating for all until 11:00 p.m. On Friday the highlight of the week, the Engineering Formal, will take place. As in past years, the Engineering Queen will be crowned. It has been decided that this will be a "no corsages" affair and please remember—engineers and their dates only is the rule! There is a good possibility of an Engineering Wassail being held on Saturday the 23rd but this all depends on the outcome of Engineering Week.

ripping.
Referees—Wilf Miles, Arnold Cream.

What Happened?

Saturday night in Charlottetown UNB Red Raiders were defeated in overtime play 66-63. The complete story had not arrived at press time so none of the more pertinent facts are as yet known.

At the end of regulation time St. Dunstan's and UNB were tied 59-59. As the series is a home and home total point series and winners must be declared at the end of each game five minutes overtime was played.

As it now stands the Red Raiders have a three point deficit to make up on their own floor. Giving credit where credit is due we think they should be able to do this.

RINK SCHEDULE

- Feb. 12 Var. Hock. practice 6:30-8:00
- Feb. 13 Eng. Wk Hockey Game Foresters vs Engineers 8:30-10:00
