REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at much lower Rates of Premium than those of any other Assurance Company t ansacting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PRE-MIUM which have been so highly approved, and sue so by the HALF CREDIT RATES of FREMIUS, which have been so highly approved, and sue so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

An awkward affair has occurred in the Postal communication of Prince Edward Island. It appears that in consequence of the House of Assembly at its last Session having refused to grant the sual provision for the Mail service of the Island, an order has been received by the Deputy Postaster-General to discontinue the inland mails. The foreign Mails are continued, as there are funds proceeding from them sufficient to bear the expense of their transmission.

The steamer Floeroy, which was wrecked a while ago off Hali ax, is likely to prace a profitable investment for those who purchased her when she was on the rocks. They paid about \$2,000. Recently the engines were taken out, without having austeined any damage, and it is believed now that her ponderous machinery is removed, that the hull can be gotten off and repaired at no very gerat expense. The engines alone are worth \$50,000, it is proposed, according to the Halifax Sua, if the hull is gotton off, to employ her as a regular steam packet between Halifax and Boston.

Its vegetable and detergent properties have the purset and most nourishing effects on the skin,—it soothes and allays irritation, and has a fine, thick, creamy father, which does not dry on the face.
