

HUNS RENEW DRIVE ON RHEIMS

Launch Night Attack Between Vrnigny and La Pompelle

LULL ON WEST FRONT IS BROKEN BY ATTACK ALONG FOURTEEN MILE SECTOR; FRENCH ARE HOLDING VALIANTLY AGAINST ONSLAUGHT

Heavy Bombardment by German Guns Preceded Attack Last Night; Foe Will Make Effort to Oust Defenders of Rheims Which is Hemmed in on Three Sides

The lull on the western line was broken last night. The Germans, after a violent preparatory bombardment, began an attack in the Rheims region, on a front approximately 14 miles. During the lull, the French and British had improved their positions at isolated points between Rheims and Ypres. The German artillery fire has increased in intensity from northwest of Montdidier to the Aisne.

FRENCH RESISTING WITH SUCCESS PARIS, June 19.—(Bulletin).—The Germans began an attack on the Rheims front, between Vrnigny and La Pompelle, the war office announced today. Last night, after a violent preparatory bombardment the French are resisting the German blow with entire success.

On the western front of the attack the enemy was not even able to reach the front line. In the centre before the city the Germans were completely repulsed and suffered heavy losses. East of Rheims the French were equally successful.

SEMI-CIRCLE AROUND CITY The front of the new German attack is the semi-circle drawn by the enemy about the city in the recent offensive on the Aisne front. The Rheims region comprised the left flank of the German attack. Ground was given by the French on both sides of the cathedral city, but the town itself and the nearby protecting forts were held against the German onslaught and have since remained in French possession.

Rheims, however, was hemmed in on three sides by the enemy, and it has been considered only a question of time when the Germans would make a concerted movement to oust its defenders. The front of the present attack from Vrnigny, west of the city to La Pompelle, around the semi-circle to the east is approximately fourteen miles.

OFFICIAL STATEMENTS Paris, June 19.—The text of the official statement follows: "Last night at six o'clock the Germans delivered a violent preparatory artillery fire along the whole front of Rheims from the region of Vrnigny, west of the city, as far east as La Pompelle. At 9 o'clock the enemy infantry began an attack on the French positions between these two points. "The French troops resisted the German attack with complete success, the counter barrage of the French artillery proving very strong. "Between Vrnigny and Ormece the German assault troops were stopped by the French fire and forced to return many times to their lines of departure and not finally able to reach the French positions.

WEATHER BULLETIN Toronto, June 19.—The barometer continues quite high over the great lakes and relatively low both east and west. The weather is fine throughout the Dominion, but a few local thunderstorms have occurred in Saskatchewan. Forecast: Moderate easterly winds, fine to-day and Thursday, with much the same temperature.

FRENCH MINISTER OF PROPAGANDA Former Minister to Belgium is Commissioner General in Charge of Work

Paris, June 19.—Official announcement is made of the creation under the Foreign Ministry of a propaganda service to Allied and neutral countries with a director under the title of commissioner-general. Anthony W. Kloubkowski, former minister to Belgium, has been appointed commissioner-general in charge of the work.

POLISH TROOPS FIGHT UNDER NATIONAL FLAG

First Regiment Entered the Front Line Trenches Against the Germans Yesterday—Impressive Service of Dedication Paris, June 19.—Fighting under the national flag of Poland, the first Polish regiment of the first Polish division entered the front line trenches opposite the Germans today. "Within the sound of the roar of the cannon, and in the presence of civil and military authorities, the regiment received its battle flag and entered the war on the side of the Allies. "It is a reply to Germany's contention that the Polish question is settled," said General Archinard, chief of the Polish military mission to France. "Poles, who have escaped from Germany and Poland, or who have succeeded in leaving Austria and other countries, come to Poland to fight for the Polish cause which may shed its blood tomorrow against German atrocity in the defense of liberty and the autonomy of Poland. Amid an impressive silence, the chaplain of the regiment, facing the troops and raising both hands above his head, gave them this oath: "I swear before God, before the Holy Trinity, that in allegiance to my country, I am ready to give up my life for the last drop of blood in the service of the holy cause of Poland, to obey my chiefs and to remain true to Poland, one and indivisible. "The Polish soldiers and officers cheered as they repeated the oath. "General Goussard confided the Polish flag to the safe keeping of the legion as a Polish military band played the Polish national anthem.

TAUT NERVES OF PARIS RELAXING AT LENGTH

French Capital Once More Resembles City of Pre-War Days—Strain of Over Three Months is Commencing to Lift Paris, June 19.—News of the Austrian repulse on the Italian front, the comparative quiet on the French and British lines, silence on the part of the long range guns for six days and the inability of the Goths to cross the terrific defensive barrage in their last three attempts to reach Paris, only one German aeroplane flying over the city, have caused the taut nerves of Paris to relax. The city has assumed an appearance nearer that of before the war than at any time since the opening of hostilities.

ROUMANIA FORCED TO MAKE PEACE

To Resist Further Would Have Meant Destruction, Declares King National Council of Women Should Have Known They Had Vote

King Ferdinand was loudly cheered as he entered the building and his reference to peace having been forced on the country, evoked a storm of applause which lasted several minutes. A passage in his address concerning the resumption of friendship with the Central Powers also was applauded.

LADIES, SIR GEORGE IS SURPRISED

National Council of Women Should Have Known They Had Vote Ottawa, June 19.—Speaking to the W. G. T. U. convention in Chalmers Presbyterian church last night on the subject of Dominion-wide franchise for women, which became a fact at the recent session of Parliament, Sir George Postler, Minister of Trade and Commerce and acting prime minister impressed his audience with the serious responsibilities that had now fallen on them.

CHEERED BY PEOPLE

Amsterdam, June 19.—Roumania concluded peace because to resist further would have exhausted the country to the point of destruction, said King Ferdinand in his speech from the throne at the re-opening of the Roumanian parliament at Jassy Monday. The peace treaty was then submitted to the legislature for approval. The king said that Roumania had accepted the peace for upon her as a necessary condition to her existence. The treaty manifestly imposed painful sacrifices, but the Roumanian people would examine it with the manliness which an exact comprehension of the interests of the state demands. He alluded with satisfaction to the fact that the war had brought back the Bessarabian land, thrown the Bessarabian people into the arms of Roumania and restored friendship with the central powers. Good relations with other countries were still maintained and plans were still on foot to resume normal diplomatic intercourse.

BRITISH TROOPS RAIDED ENEMY SUCCESSFULLY

Carried out Successful Attack South of Hebuterne, Recaptured a Lost Position and Took Prisoners and Two Machine Guns in Addition London, June 19.—British troops last night successfully raided the German lines in the region to the south of Hebuterne, north of Albert, the war office announced to-day. A British post recently taken by the Germans near Vieux Berquin on the northern side of the Lys salient, was recaptured, some prisoners and two machine guns being taken in the operation.

ZEEBRUGGE HARBOR IS BLOCKED AT ENTRANCE

Germans Fear to Blow Up Cement Ships Sunk There, Lest Sluices be Destroyed—Have Trouble At Ostend Also Amsterdam, June 19.—The entrance to the harbor of Zeebrugge is blocked, according to Lieuts. George Coward and John Read of the British royal air force, who landed in the province of Zeeland Monday and are to be interned at The Hague. The cement ships sunk in the harbor are still there and the Germans are afraid to blow them up for fear they will also destroy the sluices. The lieutenants assert that no submarines can enter or leave Zeebrugge. The blockade of Ostend is not so complete, but the Germans are having great trouble there.

NINETEEN ENEMY SEAPLANES WERE FOUGHT BY FIVE BRITISH

American Naval Aviator Tells Graphic Story of a Fight Off Dutch Coast on June 4—The Whole Battle Lasted Seven Hours London, June 19.—(By the Associated Press)—In the fight off the Dutch coast on June 4, five British seaplanes of the largest type, outnumbered nineteen German seaplanes. One of the enemy machines was sent down in flames and another driven down out of control, according to a description of the fight written for the Associated Press by Ensign K. S. Keyes, a United States naval aviator. Previous to the encounter one of the British machines had descended to make repairs and the Germans set upon the four other machines protecting the injured one. Ensign Joseph Eaton, another American aviator and he was subsequently interned in Holland. "Ensign Eaton and I were two Americans among the crews of five flying boats on a North Sea patrol," says Ensign Keyes. "West of Ter-schelling Eaton's machine had a slight oil on the surface, owing to engine trouble. We stood by, circling in the air and waiting for him to repair the damage. "Soon five German airplanes were in sight. We took battle formation and went for them. I was in the front cockpit with one gun and 400 rounds of ammunition. In the stern were three more guns and their operators. The Germans fled at our approach, but I had the satisfaction of getting several rounds into them although it is impossible to say whether there were any effective hits. "After a time the enemy came circling back, but instead of five machines there were only four. One small scout having been sent landwards presumably to bring help. "Soon afterwards we discovered ten hostile machines coming up from an opposite direction. They were not high in the air, but close to the water, and were joined almost immediately by five more, making 19 in all. The enemy scouts were painted black, while the two-seaters were sea green and very hard to distinguish from the water. "We four swung into battle formation again and charged into the middle of the enemy fleet. When we were nearly within range, four planes on the port side and five on the starboard rose to our level, while two of the enemy machines passed directly beneath us, shooting upward. "The firing was incessant from the beginning and the air was blue with tracer bullet smoke and the Germans used explosive bullets. "I devoted my time to the port-side, where four planes offered fine targets. Once I looked around and noticed my commander was in a scoping position, I thought nothing of it until a few minutes later, when I looked again and saw he was still in the same position. Then the truth dawned on me that he had been hit and, looking closer, I discovered his head was in a pool of blood, but for the moment I could not leave my post. "We kept up a fine running fight, although our machine was cut off from the rest and surrounded by seven enemy seaplanes. We fought for ten miles until we drove off seven Germans, sending one down out of control and crashing another in flames from a height of two thousand feet. The five other machines were severely punished by our gunfire. "During the last few minutes our engine began stopping and the engineer reported that the patrol plane had broken. Meanwhile I had laid out of control and crashing another in flames from the cockpit and taken his seat. "The whole engagement lasted a half hour and I think we did very well. Afterward my machine descended into the water, where repairs were made and then we returned to port. "The whole fight lasted seven hours. "Ensign Eaton of Connecticut was interned in Holland on June 5 with other Allied aviators who descended on Dutch territorial waters in the fight off Ter-schelling. Although his machine was damaged, Eaton was not hurt.

HUNS THREATEN TO TAKE REPRISALS Will Jail French Civilians to Avenge Internment of Germans by China

Amsterdam, June 19.—When reports that 10,000 Germans have been expelled from China and interned in Australia are proved, says The Deutsche Tages Zeitung of Berlin, the German Government will collect 10,000 inhabitants of French occupied districts and send them to prison until the Germans are returned to their homes and compensated for their losses.

DEFENSE LINE ON THE PIAVE STILL HOLDS

Fierce Attacks by Austrians Fail to Overcome Italian Resistance BATTLE CONTINUES Foe is on Defensive in Mountains, Where He Has Been Flung Back

Pieve attacks are being made by the Austrians to overcome the Italian resistance along the Piave, but the defensive line still holds. Apparently the enemy sees his only hope of success in capturing his gains across the Piave, having been given a disastrous check in the mountains from west of Asiago to the Piave.

Ir. the mountains the Austrians have been generally on the defensive since they were checked and then thrown back over the terrain gained Saturday in the first day of the offensive. The French and British around Asiago are under a heavy enemy bombardment and the French Tuesday repulsed a strong local Austrian effort. Along the Val Susanzan and against the bastion of Monte Grappa the enemy holds further attacks in abeyance.

Along nearly thirty miles of Piave line the situation has not improved greatly from an Allied viewpoint, although the Austrians have been defeated in their efforts to enclose their gains. Where, and in what force, the enemy has crossed the river and how far he has progressed into the Venetian plain, are not outlined clearly, but apparently the Austrians are making violent attempts to drive the Italians off the heights entirely, while the Italians are fighting just as determinedly to keep the enemy close to the river bank. The fighting the past two days has been favorable to the Italians. In the centre from Mesurada to Fossalta, the Austrians are being held well in check and have been unable to make any progress across the Piave, despite repeated attempts.

Seemingly the Austrians have pushed back the Italians several miles between Fossalta and Capole Sile and along the Fossalta canal, which runs southwest toward Venice. Capole Sile is in the lowlands along the Adriatic, but if the enemy reaches the Fossalta canal to the north he would be on drier ground and better able to push toward Mestre and outflank the line northward along the Piave.

What gains the enemy has made, however, have been hardly commensurate with the preparations made, the shells expended, and the lives lost. Emperor Charles, unless his troops can make swift progress, will have to call off "his huge offensive" and face the populace at home. Reports have reached Switzerland that "Socialistic manifestations occurred in Vienna Monday.

"The whole engagement lasted a half hour and I think we did very well. Afterward my machine descended into the water, where repairs were made and then we returned to port. "The whole fight lasted seven hours. "Ensign Eaton of Connecticut was interned in Holland on June 5 with other Allied aviators who descended on Dutch territorial waters in the fight off Ter-schelling. Although his machine was damaged, Eaton was not hurt.

## PORT DOVER MAN IS ACQUITTED IN LIQUOR CASE

License Inspectors Failed to Impress Magistrate Gunton at Simcoe

## FALCONER NOT GUILTY

(From Our Own Correspondent) Simcoe, June 19.—There were slightly less than fifty sons of the soil and others in Magistrate Gunton's court yesterday afternoon when the adjourned case against A. Falconer of Port Dover was resumed. The provincial inspector was present to watch the case and Mr. T. J. Agar prosecuted. It appears that on the day that Mr. Falconer made his ungraceful somersault, over the embankment at Townsend Centre some of the men who went to the rescue and drew the man from under the car, saw a flask in the wreck. When one sees a flask he can pretty nearly see a man. The case (legal) developed. But as in many other instances that dearly loved flask was very inconvenient. The prosecution had six or seven witnesses and the defence about twice that number.

Moved by the Spirit. "Something told me," said a Crown witness, to Mr. Agar, "that the accused was intoxicated. When Mr. Kelly got after this witness he wanted to know explicitly what it was that told him. "Must have been the holy spirit," was the reply. "Get down out of the clouds," said Mr. Kelly, "are you sure it was not the lower spirit, the devil, that told you?" The case was dismissed.

We understand that Mr. Falconer contemplates the action of damages against the township of Townsend, with reference to the accident, and that notice has been served regarding the same.

## Odd Ends of News

Mr. Joseph Coates, sr., has succeeded in taming a robin, that the bird comes to him for food for its nestlings, and will alight on his hand.

Dr. and Mrs. C. N. Holmes, of Edmonton and Mrs. Ivan Holmes of Jarvis called at the rectory on Monday when on a motor trip through town.

Rev. A. B. Farney was in Mt. Pleasant yesterday conducting the funeral of the widow of his first churchwarden.

Mr. John Ross underwent the resetting of a broken femur on Monday, and his daughter is expected home from Reno in a few days to

assist in nursing him to recovery. Principal Christie presided at departmental examinations at the Port Rowan High School.

Eleven hundred and fifty-one automobile permits have been issued from Mr. Boughner's office during the present season.

Two autos, one southbound and one eastbound, collided at Sinclair Corners, Colborne street. No one was hurt.

Two young Mabos is still confined to bed from the effects of his recent affliction.

Prepare for Saturday. Some registrants will waste more time of those in waiting than they themselves will be able to retrieve all summer. The deputies are at their desks to write answers, not to dictate them.

The registration booths are not smoking rooms nor pink tea rooms. Three minutes should suffice for any registration unless the registrant is stupid, illiterate or vainly conceited. The deputies are warned to go to their duties proof against snail for their is bound to be a supreme demand for patience. It might not be surprising if some summer girls should offer the information, "I can bait my own hook, but cannot take the fish off," should look very stupid, illiterate or vainly conceited. "What do you think I should say there," or "What do you think I could do."

"Dus" men will not be required to give their opinion about the Government either, they may spill that out when they get away from the booth; it does not matter a continental anyway. But it does matter that answers are given promptly, correctly and to the point. Get through with the matter and get out.

But give all the information you can. If you can tramp a trout stream for five hours battling off mosquitoes and land a five-inch trout be sure and get it down.

Young ladies who can do farm work need not put down such exception as "can't feed the calves milk."

## WORKMEN'S DEMONSTRATION

London, June 19.—A despatch to the Exchange Telegraph from Copenhagen says that several thousand workmen and women held a demonstration Tuesday in the streets of Copenhagen, demanding bread and butter. They marched to Parliament House, where the members of Parliament received a delegation from the crowd.

The organ of the Independent Danish Socialists says a great demonstration has been planned for Wednesday and that work will be suspended in a number of factories.

## IRISHMEN JOIN NAVY

London, June 19.—(via Reuter's Ottawa agency)—Sixty recruits for the naval reserve, mostly fishermen from the Irish coast, paraded through Dublin en route to Davenport, accompanied by a naval guard of honor and a military band. They were cheered by a large crowd. They carried a banner inscribed: "The Germans are sinking Irish ships and murdering Irishmen. Join us and avenge their crimes. We are Beatty's boys. Brother Irishmen, come along, you are wanted."

Ex-Ald. David Hay, of Belleville, died in his eighty-second year.

## FRONT IS QUIET NOW

## Either Paris or the Road to Calais May be Next Foe Objective

By Courier Leased Wire  
Paris, June 19.—The lull in fighting activity persists on the western front, but military critics expect another battle will be begun soon by the Germans.

The Petit Journal thinks that the Germans will strike either the road to Calais or the direction of Paris perhaps on both fronts simultaneously.

The Echo de Paris believes that the next German effort will come between Montdidier and Chateau Thierry, across the Oise and Aisne to the Marne.

## OBITUARY

### CHAS. PEET.

There passed away in this city yesterday Chas. Peet, an old and respected resident. His wife predeceased him last February. Mrs. T. Moore of Toronto is a sister and Mr. E. Peet of that city a brother. The funeral will take place on Friday afternoon from the home of his son, John Peet, 14 Elizabeth street.

### REV. E. SOFTLEY.

Rev. Edward Softley, for three years rector of St. James' Anglican parish here, and for four years in charge of All Saints' Church, Mount Pleasant, died yesterday at his home in Mount Pleasant. The deceased was born in Walkerton, Ont., fifty-three years ago and was the eldest son of the late Rev. E. and Mrs. Softley. He was educated in Walkerton and at Wycliffe College and Toronto University. Since graduating he has been rector at many churches in the Diocese of Huron, his latest parish being St. James' here. He was superannuated last October owing to ill health, and took up his residence at Mount Pleasant. The late Mr. Softley's mother is still living with a number of sisters in Grimby. There are also two brothers, Dr. and William Softley. The late Mr. Softley was the Courier's special correspondent on Terrace Hill and leader at Mount Pleasant. As a priest and a man alike, he was of the highest type of Christian character.

DYSPEPSIA OVERCOME

Tone Up the Stomach with Hood's Sarsaparilla.

When you have dyspepsia your life is miserable. You have a bad taste in your mouth, a tenderness at the pit of your stomach, a feeling of puffy fullness, headache, heartburn, and sometimes nausea.

Dyspepsia is difficult digestion—that is what the word means—and the only way to get rid of it is to give vigor and tone to the stomach and the whole digestive system.

Hood's Sarsaparilla, sold by all druggists, is the one medicine which acts on the stomach through the blood and also directly. Its beneficial effects are felt at once. Improvement begins immediately.

Hood's Sarsaparilla purifies the blood, makes the rich red blood that is needed for perfect digestion, and builds up the whole system. Be sure to get Hood's, for no other medicine can take its place.

WEDNESDAY, JUNE 19, 1918

THE SITUATION

The Allied lines on the Italian front continue to hold, and counter attacks have regained some of the lost ground. In the mountain sections, the Austrian effort seems to have somewhat spent itself, but fierce fighting still continues along the Piave river. Generally speaking, the outlook may be characterized as encouraging, and it is very certain that the big offensive in the initial stages, has been held up in an effective manner not at all expected by the foe.

Over the Courier leased wire today there comes the announcement that the Germans have renewed a violent attack on the Rheims front. It is further stated that the French are resisting with entire success. Foch's men are also improving their positions south of the Aisne in a number of local actions.

United States troops continue to pour into France, and Bonar Law was able to inform the British House yesterday that the Allied nations were now building ships at a faster rate than U-boats could sink them, so that the transportation of the Americans would continue in an unimpeded manner.

Reports from France indicate larger crops this year than at any period since the commencement of the war.

THE WOMAN SLACKER.

Dr. Esther Lovejoy recently made a notable address before the American Woman's Medical Association in Chicago during which in an earnest appeal for the women of the United States to do their part in the war she said:

"They need only to be as good as their grandmothers who made this great land for them to loaf in."

She stated that she had recently returned from Europe and in France she saw the women bowed beneath the terrible burdens of bereavement and misfortune, hunger, misery and desolation, preserving a cheerful trust in Providence while they toiled at the nearest, most immediate tasks—tending the farm, driving the engine, cleaning the street or nursing wounded soldiers.

In Britain she also observed a complete change in the lives of mother, sister and wife. There used to be a surplus of females in England, as a result of which thousands of them were threatened with poverty stricken spinsterhood. The average woman worker was underpaid and underestimated, because there were so many of her; only the good looking or clever ones had a chance of preferment. To-day, with the men at the front, the women have come into their own—responsible jobs at excellent wages. If the war has crushed the hearts and hopes of many of them, it has also granted to many others the golden boon that seemed impossible of realization in the old days—Independence.

But overseas Dr. Lovejoy found herself in the midst of work—hard, soul-searching, deadly earnest industry, whose keynote was patriotism. Women could not help being glad of recognition at last, but they were gladder still of the chance to do something for king and country. They threw themselves into their tasks with joyful enthusiasm, and their male supervisors reported with amazement that things were "carrying on" as well as ever notwithstanding the enforced absence of the old, experienced hands.

The American doctor left Britain and France with her head and heart spurred to a deeper appreciation of the great Sisterhood. Then she reached her native land and her hot emotions experienced a chill. She found American society women and lots of the lower stratum living their lives as usual—beating-going, two-stepping, cabaretting, horse-showing and generally idling as before the war. These women seemed to be oblivious of the fact that the tempest raging in Europe involved everything they held dear, and that it was coming perilously closer to their fireplaces every day. So far as Dr. Lovejoy could discern, the struggle that has sacrificed the virtue and happiness and homes of

myriads of girls and women in France and Belgium, Serbia and Armenia, has meant absolutely nothing to thousands of their sisters in America. The latter continue to loaf in luxury and indolence while the outside world is ablaze.

NOTES AND COMMENTS.

The Tuteons are not able to do any tooting in connection with the drive on Italy.

Those means which the Kaiser and Hindenburg were going to eat in Paris must by this time be getting somewhat mouldy.

Berlin hastens to explain that full credit for the Italian attack rests with the Austrians. Thus one more evidence is forthcoming that Hohenzollern outfit are not satisfied with the trend of affairs.

Premier Hughes of Australia in a recent speech said: "Within six months of the declaration of war our soldiers had wrested New Guinea from the Germans, and were in Egypt awaiting orders to embark for the Dardanelles. For over two years now we have maintained five divisions of first-line troops, besides our forces in Palestine and Mesopotamia. Our death toll to date is nearly 47,000; our total casualties nearly 150,000. Only 3,000 have been taken prisoner. This is not a bad record for a nation of a little over five million people. If America had lost proportionately, her dead would number nearly one million and her casualties many millions."

Enquirer is informed that the prophetic utterance of Tennyson with regard to aeroplanes in warfare is contained in "Locksley Hall," as follows: "For I dipt into the future, far as human eye could see, Saw the vision of the world and all the wonder that would be. Saw the heavens fill with commerce, Argosies of magic sails, Pilots of the purple twilight, Dropping down with costly bales. Heard the heavens full with shouting, and there rained a ghastly dew From the nations airy navies, Wrapping in the central blue."

GIRL SUICIDES.

Chicago, June 19.—The body of Miss Alberta Key, 19 years of age, employed at a local bank was found today in a clump of bushes at Jackson Park. The police believe she committed suicide by poison. Miss Key was the great-granddaughter of Francis Scott Key, author of the "Star Spangled Banner."

SHELLED AUSTRIAN SHIPS

Paris, June 19.—At the time the Austrian battleship Wien was destroyed in the harbor of Trieste on the night of December 9, 1917, by an Italian torpedo boat destroyer, two torpedoes were launched against the Austrian cruiser Budapest, according to a Havas Agency dispatch. Although it is not admitted by the Austrian Admiralty, it has been learned that the Budapest is now being used as a barrack ship, according to The Tribuna.

Five following explosions in the furnace of a Poughkeepsie plant busy on war work have put it out of commission for a month. It is suspected that the fuel was tampered with.

SEAPLANE RAIDS VERY EFFECTIVE

Docks, Railway Stations, Airdromes and Munition Works Bombed by British

By Courier Leased Wire London, June 18.—Extensive damage was done by British seaplanes in the period between June 13 and June 16, according to an official statement issued by the Admiralty today. The docks at Zebrugge, Ostend and Bruges, the Thorout railway station and airdrome, the Ghisteels airdrome and the Bourgeois works at Aertcrcke were targets for bombs dropped by the aviators. The statement says:

"Good results were obtained and his were observed in the Ghese Basin, the railway station, the docks, the Leopold Basin, the Frederick battery and the lock gates at Ostend. Fire was started in buildings at the junction of the canal and the Leopold basin.

"Bursts were also observed on the Mole at Zebrugge and near the lock gates. At Bruges bursts were seen on the northwest quay, alongside the west basin on the northern floating west dock, on the east side of the dock and between the north and east quays as well as at the south end of the east basin.

"The railway at Thorout was also hit. "Nearly 24 tons of bombs were dropped and all the machines returned with the exception of one.

"Bombs were dropped on an enemy vessel. During the same period notwithstanding unsuitable weather, the aerial fleet was active in home waters in anti-submarine escorting and in aircraft patrol. Lenticle submarines were sighted by the same planes, airplanes and airships, which also attacked enemy mines and destroyed them. Allied and neutral shipping was also convoyed by the aerial fleet."

LIQUOR TRAFFIC NOT DEAD By Courier Leased Wire Ottawa, June 19.—The liquor traffic is not dead in Canada although we have now prohibition in every province. After the war, this fight against the liquor evil will continue in some form. But that we will have the open bar as formerly? Never.

Such was the statement of Mrs. L. C. McKinney, M.L.A., of Clearholm, Alb., the first woman to Canada to sit in a legislature. She is here to attend the provincial W. C. T. U.

Mrs. McKinney, as the president of the Alberta W. C. T. U., has come to Ottawa to attend the Dominion convention of that organization. Mrs. McKinney, when she leaves the convention will go to her old home at Frankville, Ontario, for a brief visit, later stopping off at Toronto to see her only child, Willard, who is training as an aviator.

BUILD UP THE BLOOD

It is a hopeless task to try to restore your health while your blood is deficient in quantity or quality. The blood circulates through every portion of the body. It takes nourishment from the food and distributes it to the various organs and muscles; it takes also any medication that is administered through the system. The blood is the only means by which medicine can reach the system. Hence if the blood is poor, the body becomes weak and the nerves shaky, and the victim may be subject to headaches and dizziness, poor appetite, indigestion, a constantly tired feeling or perhaps to rheumatism, sciatitis or neuritis. Poor blood is the forerunner of nearly every ailment to which mankind is subject, and you can only enjoy robust health by keeping the blood rich, red and pure. To keep the blood in this condition no medicine yet discovered can equal Dr. Williams' Pink Pills. Every dose helps to make new, rich red blood which carries new health and new strength to every part of the body. When one becomes weak and pale Dr. Williams' Pink Pills will restore the blood, bring the glow of health to the cheeks, and make weak, ailing people energetic and strong.

You can get these Pills through any drug store in medicine, or by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

Margaret Carrett's Husband

By JANE PHELPS

CHAPTER LXXXV Wasted Effort

Bob was coming. I had had a short note telling me when he would arrive. My heart sang for joy; and I could scarcely wait for the expected day.

It came at last, and early in the morning I went into town to keep my appointment at the beauty parlor. I had made it by telephone as soon as I received Bob's note. I would look my best when I met him. Perhaps Elsie was right about it and if I took more pains to beautify, to keep pace in that regard with other women he knew and saw, he would be more attentive.

I had my hair dressed and my nails manicured before I left, and once more as I looked into the mirror I was pleased with my reflection. Beauty parlor mirrors and lights are purposely arranged to make one look one's best. I didn't know that she was perhaps unduly pleased with my appearance.

At least I had given three full hours beside the greater part of a five dollar bill in the attempt to make myself attractive in my husband's eyes. And strange as it may seem in view of my ideas on such subjects, my feeling that it was a man's duty to love his wife, I really expected Bob to be pleased and to flatter me.

I had another hour to wait for the train, and I went into a restaurant not far from the station and drank a glass of hot milk. I had eaten but little breakfast and felt a little faint. As I sipped the milk I thought I detected glances of admiration thrown in my direction, and while I should have quickly resented anything approaching impertinence, I could not help being pleased—because if I were attractive to strangers, I surely would be to Bob.

When the train came in I was waiting directly in the path of the incoming travellers. I saw Bob long before he saw me, and my heart beat almost to suffocation. I forgot all about my wonderful preparations on this account; all about everything save that he was back, and would be with me.

"Why, hello, Margaret! What brought you here?" was his greeting. "I came to meet you," I tritely replied. "That's too bad! I've got to see John before I come down. I shall probably be late."

"But I came in town purposely to meet you," I interposed. "As I said, I am sorry, but it can't be helped. I must see John about some important business after I get through at the office. I may find things there also to keep me." Then he added, it was a foolish thing for you to do unless you had some errand to bring you in."

As he spoke I thought of my errand. He had not even noticed my pitiful attempt to make myself attractive. "You are looking well," I said in an attempt to make him look at me. And he was. His eyes were bright, and he looked fresh and somewhat more boyish than when he went away.

"I am feeling bully," he replied as he motioned for a taxi. "Where shall I leave you, Margaret? Have you some shopping to do?" "Yes, you may leave me at Tracey's," my voice sounded weak and far away.

CHAPTER LXXXV Wasted Effort

A chill like the grasp of icy fingers clutched my heart. He had been away for nearly two weeks and had met me as if he had seen me only the hour before. My elaborate efforts were wasted. He cared nothing about my looks; hadn't noticed me at all. At the thought the slow tears oozed between my eyelids which I had closed tightly in an attempt to force them back. I let them fall unheeded. If I wiped them away he might see that I was crying and grow angry.

"Boys all right?" he asked after a minute. "Yes."

"That's good! I suppose you have become quite friendly with that Mrs. Baldwin while I have been away?" "Oh, not so very." I knew he was trying to make conversation, so would volunteer nothing.

"I expected to come back and find you aside by as a day on behalf of the Prime Minister's Premier. I sat staring stupidly at him. I wanted to object; wanted to beg him to come with me, but I was afraid to speak. I couldn't trust myself not to cry.

"Come," he said, holding out his hand to help me out, and I got out of the cab and went into Tracey's without speaking. "How lovely you look, ma'am!" Delle said as she opened the door. "Did you meet Mr. Garrett?" "No! I didn't meet him," I replied as I went past her up the stairs.

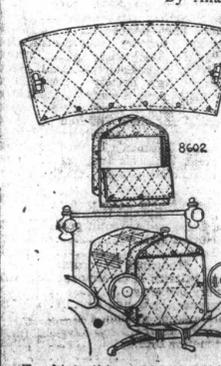

A simple cover which may be made at home for the Ford is given in No. 8602. It is in two parts—the shaped piece which goes over the engine hood and the fitted part, which goes over the radiator. The cover is made for a 1917 model and fits perfectly. The square section which covers the radiator, at the front is attached with snap fasteners so that it may be opened downward as shown in the small view. The engine cover is also fastened with patent snaps. Wide felt, wool blanket cloth, or wide leatherette may be used to make this cover.

The Ford radiator and engine hood cover No. 8602 is cut in one size. It requires 3 1/2 yards 22 inch or 2 1/2 yards 36 inch material, with a blanket 36 by 72 inches for lining.

**DAY OF PRAYER.**  
Sunday, June 20, has been set aside by the Dominion Government as a day of prayer and intercession on behalf of the allies and a national response is anticipated. Sir George Foster, the acting Prime Minister, has telegraphed the premiers of each province, urging them to lend all assistance possible to bring the people of Canada, regardless of creed, together in prayer.

**POLICE COURT.**  
John Dalton and William Grimstead appeared in the Police Court this morning. They had been arrested while fighting at their home on Terrace Hill on Sunday. It was claimed. The case was dismissed. John and May Robinson were charged with conspiracy to defraud. The case concerns an attempt to sell a house and automobile. They were remanded till Monday.

**GIRLS GAVE CONCERT.**  
The Older Girls' Conference of the city night night put on a largely attended concert in Victoria Hall. "The Arrival of Kitty," a laughable four-act comedy, was successfully played by the St. James' Dramatic Society. The piece, which has been presented several times before by the St. James' young people, was nicely handled and received hearty applause. Other numbers on the program were Miss Neva Smith, reading; Mrs. George Simpson, violin solo, and Miss Maskell, solo. Miss Annie Howden, superintendent of the Secondary Divisions of the city, presented the girls who have passed their examinations in the Bible study classes with their certificates. During the evening Mr. A. E. Day acted as chairman, filling the position in a very capable manner.

**CAME FROM ENGLAND.**  
T. Y. Thompson of the Government Employment Bureau, stated this morning that he had just secured factory positions for three girls who recently arrived in Canada from England. The girls came with fifty others, who have since commenced work in factories in Halifax, Montreal and Toronto. They came to Canada solely to obtain work where they believed they were needed.

**SEMI-PRO TEAM BARRIED.**  
The Telephone City Manufacturers' Amateur Baseball League, at a meeting in the Y.M.C.A. last night, decided to debar all league players from playing with the recently organized semi-professional team which is playing Hamilton to-night. Any league players who take part in semi-pro games will be suspended without the privilege of reinstatement. Summerhayes of the Corduroy team is expected to catch for the semi-pros to-night.

**OPOSEE TITLES.**  
At the last general meeting of the Machinists' Union, a discussion took place over the action of the government in regard to the giving of titles when the following resolution was passed unanimously: Resolved that this local 607, Telephone City Lodge International Association of Machinists, condemn the action of the Dominion Government in connection with the giving of Imperial titles, as being opposed to the principles of democracy, and the best interests of the citizens of this country. And whereas we favor the abolition of all titles, believing such to create class distinction, and fostering a spirit tending to divide the race.

**WHERE IS MY WANDERING DOG?**  
Mayor MacBride this morning issued a warning with regard to the practice of allowing dogs to run at large at night, resulting in the destruction of many gardens throughout the city. "I have no desire to see any dogs destroyed," stated His Worship, "but persons who have culled war gardens, at the request of the government, are entitled to protection, and citizens who have dogs valuable enough to be kept must see that their pets are kept in at night. I have a dog, and am setting an example in this." If further complaints are received, after this warning, the dog catchers will be set to work.

**REMEMBER THIS.**  
A bulletin issued by the Canada Food Board to-day reads as follows: "The population of France was about 39,000,000 when the war broke out. About 7,000,000 able bodied men were conscripted, 1,000,000 have since been killed and over 1,000,000 more were put out of action. Agricultural production has dropped to nearly one-third. Widowed, children, old men and crippled soldiers are struggling to till the fields of France. Horses were also conscripted for military service and French women hitched themselves to the plow and harrows in place of draught animals. Frenchmen are fighting Germans, French women are fighting starvation. Deaths from starvation among the Allies in Europe since the war are estimated at 4,750,000. Remember that on registration day, when you are asked to help with the harvest."

COUNTY COUNCIL ON THE ESTIMATES

County's Expenditure For the Year Was Considered in Committee Yesterday

GRANTS WERE ASKED Salvation Army and W.H.A. Both Applied For Contributions

The County Council at yesterday afternoon's session met in committee to strike the estimates for the coming year. The committee did not bring in a report before adjournment but a number of resolutions were passed regarding the expenditures.

A sharp discussion took place in regard to the grant asked by the Salvation Army, a number of the councillors being completely at sea as regards the use of the money would be put to. Councillor Seace believed that as no other church organization ever approached municipal councils for grants the Council should not make a grant in this case.

After much exchange of opinion decision on the matter was left over, allowance to be made in case the work be found to be worthy. It is expected that the Brant Sanitarium will receive a grant of \$2500 as extra expenditure may be needed for a home for the nurses there.

The grants to the agricultural societies of the county will remain the same as last year and to the county board of agriculture, \$50.

Red Cross and other patriotic purposes were allowed \$6,400 this year. In addition to this the Patriotic Fund gets \$30,600 and the British Sailors' Relief Fund \$1,500.

Salaries are estimated at \$6,000 and improvements on county property were allowed \$1,000. Bank interest will likely amount to \$500. Roads and Bridges expenditure will total \$35,75 and for the House of Refuge \$4,000.

Before the Council adjourned the organization and stated their need for an addition to the nurses' home. The deputations was promised consideration of their appeal. The estimates for the expenditures on county share in hospital work is \$2,500.

Before the Council adjourned the suggestion was made that the county make licenses necessary for junk dealers and peddlers. This would eliminate unfairness and be a source of greater revenue for the county.

Total receipts make the I.O.D.E. drive fund at Chatham over \$7,700. At Prince Albert, Sask., the temperature yesterday was 91 in the shade.

COULD NOT AGREE

There was anything but unanimity of opinion at the conference between the City Council, the Parks Board and the Street Railway Commission last night, on the question of popularizing Mohawk Park.

Mr. Turnbull, present criticism of the commission by His Worship, pointed out the Mayor, "wants money to make a deficit when it is unwilling to improve its service, and I intend to advise the Council against giving any more money until such improvements are made. It is the matter with the street railway and from Mohawk Park that is the matter with the tax rate.

Mr. Frank Cockshutt felt that the park would be well patronized if better service were given by the street railway. He pointed out that the parks board were doing their best with the finances at their disposal.

"It looks to me as if both the parks board and the railway commission wanted to run things in their own way," observed the Mayor. The committee agreed to rise and report that no progress could be made.

The City Council was reorganized by the Mayor and Ald. Chalcraft, Hill, Clement, Baird and Simpson; the Street Railway Commission by Messrs. Turnbull, Calbeck and Hartman and the Parks Board by Mr. Frank Cockshutt and Mr. Wm. Glover.

ALIENS ROUNDED UP AT WINDSOR

Troops From London Are in Readiness to Quell Trouble at Border City

By Courier Leased Wire Windsor, Ont., June 19.—Drastic action has been taken by the Government authorities to end the alien enemy menace in this district. Thirty-eight of the Russians arrested Tuesday in this city as violators of the Military Service Act were sent to London early this morning by order from Ottawa. They were in charge of an armed guard commanded by Provost Marshal Hirst of London. The authorities intend, it is said, to put them in uniform. At a meeting Tuesday night in Ford, alien residents of the town, it was decided not to return to work until the release of Perchuda and his followers were ordered. They, however, promised to comply with the Registration Act and arrangements have been made to register them this morning at the town hall in Ford.

London, June 19.—No 21 Battalion, Canadian Garrison Regiment, was mobilized last evening at Carlisle Heights in preparation to move to Windsor, where some 1000 men were being among foreign residents along the border because of the registration of man power.

Members of the Garrison Battalion were called from their quarters at other places and ordered to the heights, where they were held ready.

The Trouble. Windsor, June 18.—Coming to Windsor this morning from Ford to make a demonstration in favor of John Perchuda, who was arrested on Monday afternoon on the charge of inciting foreign residents of the border cities to rebel against registration, more than 400 aliens, a majority of them Russians and Austrians were searched at police headquarters to discover if they were complying with the Military Service Act by carrying credentials showing their nationality. One hundred failed to produce certificates and were immediately placed under arrest.

They will be arraigned on the charge of violating the Military Service Act. Many of the Russians who were searched had in their possession Bolshevik and I.W.W. propaganda.

For some time there have been rumors of enemy propaganda along the border and it is believed that the present arrests will go a long way to clearing it out.

Although the charge against Perchuda is the nominal one of being without useful occupation, the police are confident that they have an important prisoner. Magistrate Miers remanded him for eight days.

This evening Dominion police searched Perchuda's house in Ford. In addition to small bombs, such as were used for the purpose of burning there were electric flash lights, photographs of Canadian railroad bridges and a lot of literature of the I. W. W. type.

Col. Brown and Major Hirsch of London, arrived here this evening to conduct a further probe.

PEMBROKE SWEPT BY BAD BLAZE

By Courier Leased Wire Pembroke, Ont., June 19.—A section of commercial buildings on the main street of Pembroke and several fine dwellings are the toll of the fire which broke out here at 6.30 last evening and for a time threatened the destruction of the whole town owing to prevailing high winds and limited fire fighting facilities.

The property loss is estimated at \$600,000, exclusive of a loss of \$500,000, which J. O. Kelly, cigar manufacturer, claims to have suffered in the destruction of an immense stock of cigars stored in the basement of his building occupied by the F. W. Woolworth Company.

Fortunately there was no loss of life and a fair percentage of the damage is covered by insurance.

The burned area in the business section takes in an entire block on the north side of Pembroke street, the main thoroughfare of the town, bounded by Prince, Lake and Alexander streets. On the south side of Pembroke street the central part of the block between Moffat and Church streets and running back to Renfrew street is completely wiped out. In addition there were a number of dwellings burned two blocks farther south of what is known as "The Point."

The flames fanned by a strong wind here, left no surviving in their path. Some 30 families were rendered homeless when the houses or flats above the various stores were burned to the ground.

CHANGES AT OTTAWA.

The upper picture is that of G. N. O'Halloran, present Deputy-Minister of Agriculture, who is it is said, will become chief of the Copyrights Branch, which is to be transferred to the Department of Trade and Commerce. The lower picture is that of Prof. J. H. Grisdale, director of the Central Experimental Farm, who is said to become the Deputy-Minister of Agriculture.

## Sporting Comment

**SEMI-PRO BALL.**  
The war has not robbed Brantford of all her old time baseball stars, it is clear, for, in addition to the city league, a semi-professional team has now been organized, and will play its first game at Hamilton to-night. A game will also be staged with London, at London, on Saturday next, an encounter at Dundas on June 29, and a double-header at Woodstock on Dominion Day. The diamond at Agricultural Park is in use by the city league every Saturday for the remainder of the summer, but later in the season the semi-pros will endeavor to arrange for home games and the teams they have encountered will then pay return visits.

**ESTATE NOT YET DISPOSED OF.**  
By Courier Leased Wire.  
Washington, June 18.—Disposition of the estate of Mrs. Lily Busch, widow of Adolphus Busch, late millionaire brewer of St. Louis, which has been taken over by the government under the alien property law, has not been decided upon it was said to-day at the office of alien property Custodian Palmer. Announcement of the taking over of the property was withheld, awaiting the arrival in this country of Mrs. Busch, who has just returned from Germany, where she has been living for several years. It is expected that the widow of the late millionaire brewer will attempt to prove her claim to citizenship to the satisfaction of the Departments of Justice and State.

## INTERNATIONAL SERIES OF SPORTS NOW BEING PLANNED

**Baseball Taking on Well in England — Game "An Acquired Taste"**  
New York, June 19.—The success of several minor track and field meets, not far from the battle lines in France and Italy has led to tentative plans for a real international set of games to be held during the autumn. At present the scheme has only been outlined in a general way but the interest evinced indicates that such a series of events can be made unusually attractive in view of the athletic talent available.

The games, if staged, will probably be held in Paris and will include entries from the English, French, Italian, Canadian and United States army, navy and air force. Much will depend, of course, upon conditions prevailing at that time, but it can be stated without fear of contradiction that if the opportunity is favorable there will be a remarkable turn-out of athletes from France and Italy.

## HEAVY MEAT EATERS HAVE SLOW KIDNEYS

**Eat Less Meat if you feel Backache or have Bladder trouble**  
No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the juicy grapes and lemon juice, combined with lithia, and has been used for generations to flush the kidneys, also to neutralize the acids in urine so no longer causes irritation, thus ending bladder weakness.

## BRITISH LEARN DYEING SECRETS

**Fast Building Industry That Will Relieve Dependence on Germany**  
In a secluded Yorkshire valley in England is being fought one of the grimmest and most far-reaching battles of the war. It is the preliminary bombardment of the great commercial world, that of the dyestuffs industry, that of the dyestuffs industry, that of the dyestuffs industry.

Many years ago an English chemist discovered that artificial dyes could be made by substituting carbon for various chemical processes. On that discovery a great industry responsible to-day for almost every atom of color in our clothes, our books, our pictures and our household goods has been built.

**DELAY IN CALLING NINETEEN CLASS**  
Government Considers Necessity of Farm Labor — Call Will be Made Later

Ottawa, Ont., June 18.—Within a few days there will be published an official announcement throughout the Dominion that men of 19 years of age are not to be called up for military service immediately. The announcement will state that no date has been fixed for the calling up of these men, nor has the question been brought before the cabinet for decision. "In view of the need of labor on the farms," the announcement proceeds, "it is most unlikely that consideration will be given to the matter until after the harvest is over, although, of course, the Government's action must be determined primarily by the military situation. There is no further obligation incumbent on young men of the ages mentioned (19), who have registered or who do so hereafter until they receive notice from the registrars."

**MILLIONS SPENT TO SECURE CONTRACTS**  
U. S. Department of Justice Has Proof of Elaborate System of Bribery

Washington, June 18.—Several thousand letters and documents containing proofs of an elaborate system of obtaining government contracts on the illegal contingent fee basis were received by the Department of Justice from its agents who conducted raids on hundreds of contractors' business offices late yesterday.

## Cities Render Practical Help

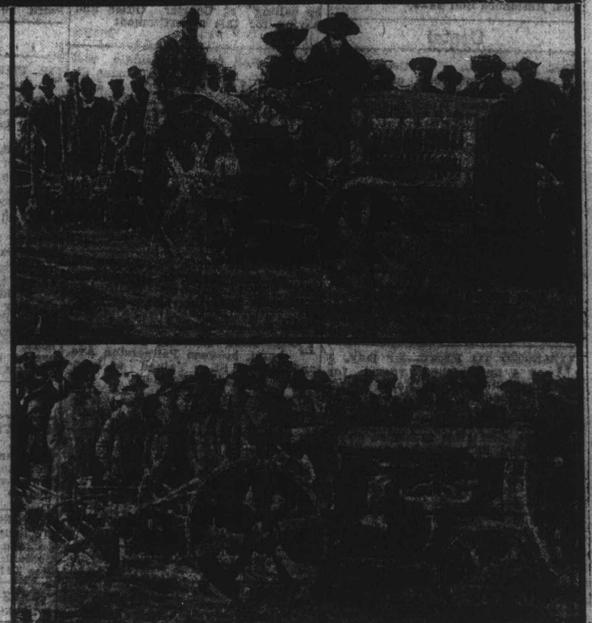

It is not often that the residents of a city have an opportunity of seeing farming operations on a large scale carried on right at their own doors. Even in Western Canada, where hundreds of thousands of acres of virgin land are being turned over and cultivated in order to raise increased crops of wheat and other food grains to supply the needs of the Allies, the spectacle witnessed by the citizens of Calgary, Alberta, recently was an unusual one. Not far from the centre of the city—about a mile from the city hall to be more exact—two hundred acres of vacant land were to be put under the plow. The use of the land had been granted to the city of Calgary through the courtesy of the Canadian Pacific Railway Company, the owners.

But how was such a tract of land to be ploughed when all the available machinery was being used to the utmost capacity in the country; when the demand for all kinds of machinery is so great that it cannot be delivered to the farmers fast enough. That was the question asked by many of the city fathers. The implement companies came to the rescue. A day was set when the

work should be begun. Telephone and telegraph wires were put into operation. And by the date set seventeen tractors and the requisite plows and other implements were got together. One large tractor rolled sixty miles over the country in order to participate in the event.

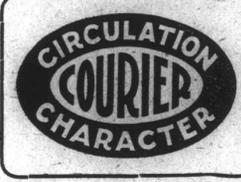

Seldom has such an array of farm machinery been concentrated on an area of two hundred acres. Never, perhaps, has such an area been broken and cultivated in shorter time. Although there was no competition, all engaged were animated by the good they were doing in the cause of greater production. Furthermore, the machinery was wanted in the country, and it must not tarry in the city. Unfortunately rain prevented the work being completed in one day, an achievement which, if it had been accomplished, would no doubt have constituted a record not easily surpassed.

A crop of oats, potatoes and flax is now grown on the land and it is hoped that this will add considerably to the production now so earnestly desired. The illustrations show the workers on the land.
