MEASURING THE EARTH.

Recent Applances Used in the Science of Goedesy.

"I suspect," ruminatingly said the Old Codger, apropos of nothing in particular, "that if all men were mind readers in the full sense of the term, and each was able The science of geodesy is making rapid strides along the line of accuracy, and there is not much left to be perfected in the way of method. The all-important problem of modern as well as ancient geodesy, of course, is the measurement of the dimensions of the earth, which full sense of the term, and each was able to realize what every other person he met actually thought about him, there would be very little going on in this world but fights, lawsuits and undertaking; and only the helplessly meek, the sublimely egotistical, the genuinely philosophical and the hopelessly idiotic would have any happiness in this life.—September Smart Set. enters into all practical work of survey ing, navigation and terrestrial physic The International Geodetic Association The International Geodetic Association several years ago undertook the problem, the different nations having agreed to contribute their share toward an accurate determination. As has already been recorded, the determination was undertaken in Ecuador in 1901, and extended from the Columbian to the Perusian forester and every neasible refine. vian frontier, and every possible refine-ment to attain the maximum degree of accuracy was adopted. The greatest dif-ficulty is to secure an accurate base line, which is complicated by so apparently trivial a thing as the expansion of the measuring medium. The latest refine-ment in the bar method is that originated by the United States Coast and Geodetic Survey, using a single bar immersed in melting ice, the containing trough being carried in a suitable car upon a temporary track. Later still, M. Guillaume discovered an alloy of 64 per cent. steel and 36 per cent. nickel possesses an exceedingly low coefficient of expansion, and, consequently, offers the best medium for accurate base line measurements. This alloy is known as "invar" and is usually employed in the form of a wire supported by tripods and stretched by a definite weight. A very valuable piece of work on the Island of Spitzbergen was completed with the use of ed by the United States Coast and Geoergen was completed with the use of

this alloyed wire.

Even the infinitesimal variation in the force of gravity at different portions of the earth is not too insignificant to be disregarded, and must be determined and disregarded, and must be determined and a correction applied. This delicate determination is made by observing the pressure of the atmosphere by the determination of the boiling point of water, and comparing the same with the barometric reading, the difference, if any, being considered due to a variation in the action of the force of gravity upon the mercury.

The New Reduction Cure the Secret of Some Fine Figures at Newport.

There is a new method of flesh-reducing which is intended only for people addicted to athletics. One of its features is the fact that one may follow it without attracting attention from their friends.

The graceful woman one sees at Newport riding along Ocean avenue, playing tennis at the Casino or on the links at the golf club may all the time be taking this method of getting this, although there is no trace of it in their appearance. Men who ride cross-country or play polo may be simultaneously following this method of flesh reduction. Alter the brute's teeth have no effect on it. The graceful woman one sees at Newport riding along Ocean avenue, playing
tennis at the Casino or on the links at
the golf club may all the time be taking this method of getting thin, although
there is no trace of it in their appearance. Men who ride cross-country or
play polo may be simultaneously following this method of flesh reduction, although nebody would suspect it.

It is a fact that some of the women
of New York smart society who are noted for their good looks and athletic figures are most devoted to this method of

ed for their good looks and athletic figures are most devoted to this method of keeping their weight down. Among men its advocates are those conspicuous for their athletic figures and their strength. This new method of melting away the too solid pounds is described as the "rubber dam" system. A rubber dam is the bit of rubber fitted by dentists about a tooth on which they are working to keep away saliva and other moisture. The rubber from which such dams are made comes in bolts about two-thirds of a yard wide. It is a hard rubber cloth, and is sold by the yard in one or two drug stores. drug stores.

Persons who want to take off flesh

Persons who want to take off flesh buy four or five yards of this material wrap it tightly about the body, and to keep it in place put on a tight-fitting suit of silk or woollen underwear, preferably of the kind called the combination. This is only the first stage of the rubber dam reduction cure. The hardest part is still to come. One the rubber at is place there must come many swift sets of tennis, hard horseback riding, tether ball playing or some equally exacting sport. The use of the rubber wrappings assists the action of the skin, makes the perspiration much freer and has been known to take off as much as five or six pounds in one day.

has been known to take off as much as five or six pounds in one day.

Women usually wrap the rubber about the body from the chest down to the knees. Many women are most interested in getting rid of their hips, as they are likely to show stoutness first there, and the big hipped woman is not at all in the style nowadays. Such women wrap the rubber dam several times around the hips, and waist and devote all their energies to that particular part of their energies to that particular part of

In the same way, men who think they are getting too heavy over the hips or maybe over the abdomen wrap the rub-ber only about these parts that they are anxious to attack.

The raffesia is a strange plant. It grows in Sumatra and derives its name from Sir Stamford Raffles, Governor of Sumatra at one time, and his friend, Dr. Arnold, a naturalist. They were the first white men to discover the wonderful plant. It is said to be the largest and largest plants of the same flower in the world. are anxious to attack.

The treatment requires nothing in the way of diet, although it will, of course, be very much more effective if fattening foods and liquids are avoided. But the rubber dam devotees do not, as a rule, follow any other course in attempting to get thin.

The treatment is not expensive. The

original cost of the rubber will not extime and time again.

There used to be complaints that pa

time and time again.

There used to be complaints that patients under the treatment might take cold, but that happens so rarely if after the exercise they go home immediately and take a bath. For persons who ride or play tennis the new treatment is splendidly effective, but it is of no value to those not addicted to athletics.

Chinese Silver Tea Sets... Mme Wong, wife of Wong Kai Kah, Vice-Commissioner from China to the St. Louis World's Fair, has taken up St. Louis World's Fair, has taken up her residence in Indianapolis, Ind., during her husband's absence on official matters. This gives the American woman a chance to see what the table silver of a wealthy Chinese woman is like. Several dishes new to the Americans are seen in Mme. Wong's collection. All the dishes are solid silver and richly ornative of the solid silver cure. mented. The tea set has solid silver cups and saucers, the size of our ordinary cups for family use. The soup spoons resemble our chafing dish.

Minard's Liniment Cures Dandruff. MALACCA STRAITS.

Odd Superstition of the Natives About Crocodiles.

Along the Malacca Straits the Malays still believe that many beasts are sacred, and they are particularly impressed with the belief that the crocodile is a spirit of the water. Therefore these

are. You must think of the first one as representing Life, of the second one as representing Liberty, and the third one as representing the Pursuit of Happiness. Next Sunday I will ask you each to produce the three buttons and tell me what they represent."

The following Sunday, in accodunce with his plan, the teacher interrogated his class on the subject of the buttons. says Harper's Weekly.

"Now, Johnnie," he said to the youngest member, "produce your three butplentiful there, but they are so daring that they make most of the waterways dangerous even for persons in boats. The Englishmen who dwell in that part of the country declare that hardly a week passes without the killing of a na-tive by a crocodile. The brute swims slowly along behind the rude, flimsy canoes and dugouts used there and sud-denly switches his terrible tale around

denly switches his terrible tale around in such a way as to sweep the men out of the boat into the water.

Here and there along the banks of the black rivers will be seen strips of white cloth and baskets full of fruit and rice, attached to trees or saplings close to the water. These are offerings Minard's Liniment Relieves Neuralgia.

A YEAR'S ARVERTISING.

Entirely through advertising in the leading newspapers, a real estate company of Chicago sold in one year 25,000 lots at a Michigan summer resort. The manager says: "We found that every chart of buyers, including the men of leading the periched through a many constructions in the same forms of the periched through a many construction and curious method. They make a small bamboo raft about three feet square, and to this they attach a long rope, made of loosely-pleated cotton. At the end is a huge hook, to the shank of which they are a live chicker.

They set the chicken on the raft and

Minard's Liniment for sale everywhere. AN HISTORIC HANGING.

Drop First Used on Unfortunate Earl of Ferrers.

It was the fourth Earl of Ferrers who was hanged in May, 1760 for the murder of his steward, a man of the name of Harold. The Earl, who killed the man in the most cold-blooded fashion, was tried by his peers in the House of Lords and found guilty unanimously, the sentence of death being pronounced upon him by Lord High Chancellor Henley, who presided at the trial at Lord Steward. The Earl was allowed to drive to the gallows sided at the trial at Lord Steward. The Earl was allowed to drive to the gallows in his own state carriage, drawn by six horses, which was followed be a hearse and six, and it is on record that the rope with which he was hanged was silk instead of hemp. This concession being due to his rank. Indeeed, the silk rope used on that occasion was still in existence towards the middle of he last century, forming part of a celebrated collection of ropes used for purposes of capital punishment.

It was at the execution of Lord Ferrers at Tyburn that the drop was used for the first time, in the place of the old cart and ladder. The drop, it is reported, did not work very well. It is on record that the earl's toes touched the ground, and that he "suffered a little, having time to raise the cap, and the ex-

ground, and that he "suffered a little, having time to raise the cap, and the executioner pulled it down again, and then they pulled his degs, so that he was soon out of pain and quite dead in four minutes." In fact, the experiences of the unfortunate earl led to the adoption of what is known as the "long drop" in lieuwhat is known as the "long drop" in lieu-

There is only one member of the House of Lords who within the last 200 years has suffered death as a felon, namely, the Earl of Castlehaven, described by his contemporaries as "the wicked husband of the wickedest woman in the world."

USE OF DRUGS FOR HEADACHE. It may be said, with little fear of con-tradiction from those who know the facts, that if a cast-iron law forbidding the use of any drug whatever could be enacted and enforced there would be much less misery for the coning genera-tion than there is for this.

A sufferer from repeated headaches who has found a runs of relief in headwho has found a roman of relief in headache powders or other even less harmful
drug may dispute this assertion, but the
victims of some drug habit or the friends
of one whose heart, poisoned by acetanilid or antipyrine, has suddenly ceased
to beat before its time, will look the matter from another point of view entirely.
During the Spanish war numbers of
would-be recruits were rejected because would be recruits were rejected because of a weak heart; and in the epidemic of pneumonia, which ravaged the coun-try last winter, an unusual number of eaths occurred from failure of the

heart to meet the added strain.

Although various causes have doubtless been at work to weaken the hearts of the present generation, there can be no question that one potent influence has been the indiscriminate use of head-

ache powders.

In all cases of habitual headaches reeurring periodically, a physician must, of course, be consulted that he may find the cause,—eye strain, disease in the ears nose, stomach or other more distant organs, and remove it if possible. But the separate attacks of headache have to relieved, if severe; and in these cases t is better not to resort to drugs, unthe drugs are taken und ial guidance of a physician. In the con-gestive headache, marked by throbbing, and made worse by stooping or lying down, a cold towel or an ice bag applied to the head, a hot water bag to the st a mustard plaster to the back of the neck or to the inner side of the thighs, or a hot mustard footbath—one or more —will often give relief when many drugs fail.—Youth's Companion.

According to Law. This story is being told of a certain New York politician, says Harper's Weekly. He had succeeded in securing for a friend of his a position as tax assessor at the cost of considerable exertion. Not long after the feight seasor at the cost of considerable ex-ertion. Not long after the friend had begun work in his new position the poli-tician was surprised and grieved to see that he was taxed under "personal pro-perty," \$24 as the possessor of one goat. He called on his friend the assessor, for an explanation, accusing him of ingra-titude and forgetfulness of favors re-

"But I couldn't do less than obey the "But I couldn't do less than oney the specific details of the law," protested his friend; "look—here's what it says," and he read from his papers: "For all property bounding or abutting on the highway, \$12 per front root."

Sitting on His Plate of Cream. They were discussing political broils remarks Youth, and Senator Charles Fairbanks said that the personal element

in them reminded him of a characteristic ble he once attended.

"As I sat down comfortably to enjoy the scene, a little boy opposite set up a shrick.

"What's the matter, child?" I in them reminded him of wchurch socia-

quired. "Boo hoo! Boo hoo!" he velled "'Who's worrying you?" I asked.
"'You,' he whimpered.

"'Me'?"
"'Yes,"
"'Yer settin' on my plate of ice

cream.

Where the Doctors Agreed. (Boston Transcript.)

Dr. Scalpel—What was the result of the conference between you and Dr. Cutter in Dinsbury's case?

Dr. Lancet—We had a long and earnest discussion, but we finally came to an agreement. After we had been closeted together for about an dour the nurse came in to tell us that there seemed to be a change in the condition of the patient. So we went to take a look at him. It was then that we seeme united in our opinions. We agreed that Dinsbury was dead.

DIGGING IN ANCIENT RUINS. Light Thrown on Grecian Life by Di

Interesting and valuable archaeologi al discoveries have been made on the site of the ancient Greek city Olbia. The site is situated on the southern bank of the Boug, about midway between Otch-akoff and icolaierr, and not far distant from the mary of the Dneiper. This ancient city was a colony of Miletus 655 B. C., (and was a great centre for Greek trade with the interior. It is generally maintained among archaeological auth-orities that a trade route extended from orities that a trade route extended from Olbia across country to teh northern sea, and when a find of ancient Greek coins was made it was contended that was substantial proof of the fact. Recently, however, it was proved that these coins were sepurious.

Olbia was destroyed by the Getae about 70 to 60 B. C., but it was revived

about 70 to 60 B. C., but it was revived and when it was visited by Dion Chrysostum, about 100 A. D., it was again a flourishing city. The excavations that are now in progress upon the site of this city are being carried out by M. Formakovski under the auspices of the Russian Archaological society. M. Formakovski has succeeded in unearthing extensive portions of the walls and foundations of the original city, which date back from the seventh century, B.C. The masonry is identical with that of ruins of ancient cities excavated in various parts of Greece. Before this depth was reached two different strata of walls and basements bearing descriptions of the fourth and first centuries B. C. were encountered. encountered.

The stone blocks composing the ruin

The stone blocks composing the ruins of houses, temples, etc. in these upper strata are of remarkably exact area, square proportions and excellently dressed. The more solid constructive work is, however, found in the remains of the original city. At this depth there was mounted a perfectly preserved wine cell. unearthed a perfectly preserved wine cel-lar. Some fifty huge jars or vases had evidently contained red wine, now turned evidently contained red wine, now turned to a light powdery substance. A large collection of valuable antiques in gold, marble, and ancient pottery has also been found in these newly uncovered ruins. These have been dispatched to the Hermitage at St. Petersburg. M. Formakovski, however, carefully examining every antique uncarthed, to establish its genuine character, as it was on this site that the spurious tiara of Saitapharnes, now in the Louvre was alleged to have been discovered.

What is eatable in a figure?—The fig in it.
What makes a broom musical?—The Handel in it:
What tree grows by a winter fire?— The

ash. One part of the day is in seven —what is it:—Eve. What fish is always in pain?—The bake.

TO EXTERMINATE HOUSE FLIES.

Scientists having proved that the common house fly is responsible for the spread of some of the most deadly diseases, it becomes the duty of every housekeeper to assist in exterminating the little posts. Many contrivances have been used for the purpose, including fly traps of many kinds, sticky paper, and different makes of poison, but although all will kill some flies there always seems to be as many left as ever. There is only one really effectual way to kill them all, and that is Wilson's Fly Pads, being sure to follow the directions carefully. One ten cent packet of Wilson's Fly Pads has been known to kill a bushel of flies, and a few pads properly used will kill all the flies in any room in a few hours.

The other section passed through Liao Yang the collection passed through Liao Yang the collection of the south of the climbed steadily upward, finally reaching the collection of the south of the sout to the south on a cen-mile line. The other section passed through LiaoYang by the Mukden read, and is offering a front against an expected flanking movement. Gen. Kouropatkin realizes that his safely depends on crushing the flank attack while the rear guard holds Liao Yang. All the impedimenta are moving over the plains north of Liao Yang. There are thinge courses open to Gen. Kouropatkin. If the rear guard can hold the positions to the south and the turning movement can be crushed to the north, he will reap a splendid victory. If he fails against the flanking columns he can retreat towards Mukden safely, as the Japanese have insufficient cavalry for pursuit. The rear guard, however, wield the passed to the conviction of the care retreat the convertigated of defeated. for pursuit. The rear guard, however, might have to be sacrificed. If defeated in flank and rear his Liao Yang position will become a second Ladysmith. An army of 160,000 disciplined regular troops is being prepared to go to Har-bin. They are vastly superior to the Siberian troops now fighting in the Far East. Theirs will be the task of starting the winter campaign on a level foot-ing, or of attempting to relieve Gen. Kouropatkin if he should be besieged at

#### THE JAPANESE ACCOUNT.

### Of the Three Days Desperate Fight Near

either Liao Yang or Mukden.

Anping. Tokio cable says—Details of the opera-tions against Liao-Yang from Aug. 25 to 28, which include an account of the des-perate three days' battle in the neigh-borhood of Aping and the abandonment of Anshanshan, reached Tokio to-day.

The first Japanese army was divided into three columns and moved against Anping, where the Russians occupied a The Japanese Repulsed no Less Than Six Times.

London cable — A despatch from Liao Yang, to a news agency, dated Aug. 30, says: "The Japanese artillery fire only ceased at 8 o'clock this evening. The casualties have not yet been ascertained.

"The third Russian corps repulsed a hot Japanese assault, the Japanese hot Japanese assault, the Japanese being hurled back by bayonet charges, large results of their artillery except along the Liao Yang road.

Yang road. The Japanese left column moved for ward Aug. 23, driving back a small force of Russians, and on the 25th took possession of a line on an eminence north of Erhtaoku and south of Petimes.

"Two Japanese companies which succeeded in occupying a Russian position were mistaken for Russians and annihilated by Japanese artillery fire.

"At 4 o'clock in the afternoon the Japanese concentrated their fire on a Russian southern detachment, and also tried to flank the detachment from the right under the protection of the batteries.

"One company after another was noticed running swiftly to the westward in an attempt to outflank the positions, but a Russian regiment and a battery were ordered to advance, and succeeded in occupying a Russians, and on the 25th took possession of a linc on an eminence north of Erhtaoku and south of Pelingtzu, and prepared to give battle the following day. The centre and right columns made their preparatory moves before the night of the 25th. At mid-night on the 25th the Japanese centre suddenly rushed forward in a bayonet charge against the Russian centre, which was located in the vicinity of Kungchangling.

This charge was a surprise, and proved to be eminently successful. The Japanese captured the entire position. The Russian forces on the second and in forcing the enemy to retreat in disorder, evacuating positions they had offered determined resistance.

A despatch from Chefoo says the Port Arthur Novikrai, in its issue of Aug. 25, speaking of the incidents of the siege occurring between "Aug. 26, makes no mention of any general assault during that period, but records several desperate attacks on the Russian Consul at Chefoo says the Port Arthur Novikrai, in its issue of Aug. 25, speaking of the incidents of the siege occurring between "Aug. 26, makes no mention of any general assault during that period, but records several desperate attacks on the Russian Consul at Chefoo says the Novikrai relates conly facts, but colors them with the incidents of the siege occurring between "Aug. 26, makes no mention of aug. During the night of the 26th the Jap

havoc in their lines.

On the morning of the 27th, through mists and haze, all three of the Jap-anese columns moved forward. The

Japanese reserved their fire and climbed steadily upward, finally reaching the summit and driving the Russians out. Russian forces included the second army corps, the rifle regiments attached to the 10th corps and half of the 17th corps. They numbered in all 65 battalions and 120 guns. The main force retreated toward Liao Yang. The Japanese casualties in this fighting numbered 2,000. No estimate is given of the Russian casualties, but they are believed to have been heavy.

of the Russian casualties, but they are believed to have been heavy.

The Japanese army which operated against Anshanshan advanced along the Hai Cheng-Liao Yang road, clearing away small forces of Russians. On the morning of Aug. 27 the Japanese line extended from Shangshihichiatz to the west of Syumati, and prepared to attack the Russian line, which extended from Anshanshan to Tengaopo. The Russians abandoned their positions here without offering resistance. The Jap Russian war correspondent variables also 25 Chinese women from Chiaofantum, whom Dr. Westwater, the distinguished missionary, is caring for in the Chinese Red Cross refuge.

The day's developments show that the Russians are prepared for all emergencies. Slow rain began to fall at noon, gradually transforming the plain into a wilderness, through which the wounded, in carts and walking, are to-night making their way to the hospitals.

Considering the scale of the day's operations the number of Russian wounded is apparently small, while the Japanese losses are believed to be great, especially where they were repulsed on the south road. Russians abandoned their positions here without offering resistance. The Japanese pursued the enemy and overtook him east of the read near Liao Chuntal Tashihtao and Pakuakou, and took him east of the read near Lado Chuntal Tashihtao and Pakuakou, and attacked vigorously at 10 o'clock in the morning of the 28th. The Russians re-treated in confusion towards North Shaho. The column of Japanese in-Shaho. The column of Japanese infantry and artillery which pursued the Russians on the west side of the Hai Cheng-Liao. Yang road overtook the mainb ody of the enemy as it was retiring northward and drove it also toward North Shaho.

ward North Shaho.

In these engagements the Japanese captured eight guns and a number of ammunition and commissariat wagons. The interest in the long official state. ment of Gen. Kuroki on the operations about Liao Yang centres in the fact that infantry and artillery from the

### LOSSES AT PORT ARTHUR. The Japs Lost 2,000 Men in a Single

Paris cable says-A despatch to th Paris cable says—A despatch to the Echo de Paris from St. Petersburg states that in the fighting at Liandiansian and Anshanshan the Russians lost 3,150 killed. The Japanese losses were enormous. They are reported to have lost at one point on a single day 2,000

third line were strongly reinforced, and offered determined resistance. A fierce rifle engagement ensued, and continued without abatement throughout the land. The Japanese crept forward in

the Russain rifle fire. At midnight they made a powerful rush, but were moved down in all but one quarter. The Japanese succeeded in entering over the dead bodies of their comrades, but nearly all were bayon etted inside the fort. The remnant retreated, losing severely as they fled.

The Japanese searchlights showed ghastly heaps of dead, like magic landars of the contraction of the contract

tenr pictures. The Japanese were reinforced and re newed the attack, but again were re-pulsed. The Novikrai asserts that the Japanese troops were forced forward by their own shrapnel fire, the guns having been placed behind them to prevent a retreat.

A third attack also failed, and, anticipating a fourth, the Russians were re-inforced, but the fourth attack was not

The Zardeoutni presented to the Japanese a high stone wall and the fact that one detachment succeeded in scaling it is accounted marvellous.

At daylight there was an artillery duel. Gen. Gorbatowski directed the Rusian fire, having been six days and

nights without sleep. The fort suffered considerably from the Japanese artillery, and Gen. Gorbatowski ordered the garrison into the undamaged trenches.

At 10 o'clock on the morning of Aug
24, a mountain battery of mules was seen in motion. The Russians opene and dispersed it. At noon of the

sian artillery attacked them.
At 2 o'clock in the aftermoon the Ja-panese began a heavy bombardment of the Russian position with their 120 During the night of the 26th the Japanese made fruitless assaults upon the Russian positions at Hungshaling and Tahsikou. They finally succeeded however, in getting possession of Hungshaling, where they captured eight guns, which had previously wrought have in their lines.

At 2 ociock in the Russian panea began a heavy bombardment of the Russian position with their 120-millimetre guns, and at the same time a Japanese column of infantry and swalry appeared at Palichuang. At 6 o'clock the Japanese attacked the north-eastern front of the Russian department of the Russian position with their 120-millimetre guns, and at the same time a variable of the Russian position with their 120-millimetre guns, and at the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of infantry and began the same time a Japanese column of inf fences, but were compelled to retire with fearful loss.

The foregoing is an account of a bat-

mists and haze, all three of the Japanese columns moved forward. The Russians resisted their advance vigorously, and it was nightfall before the Japanese were in possession of the long ridge. The most fierce engagements of Aug. 26 occurred at Hungshaling and Kungchanling.

The moonlight revealed the Japanese troops as they advanced. The Russian there is the resistance of the resistance o

# nese battery on "Corner Hill," but Japanese nattery on Confer Int., without success. The Novikrai adds the Japanese were building trenches in front of "Corner Hills" to "High Hills," but it does not mention the retreat of the Russians from the latter place. The Japanese have about 30 guns. In the vicinity of Louisa Bay, northwest of Port Arthur, the Japanese have 200 guns concealed in a cornfield.

**Excursion Train in Collision** Liao Lang cable says—The second Near Richmond, Que. day's battle commenced at dawn. The Rusians made repeated bayonet advanc-es on the road directly south of Liao

The that the condu special from Montreal got confused with trains at Richmond, and was under the impression that the train had arrived from Island Pond, while it was the Que bee train which carries the same number. Just as the train was pulling out from the station the operator ran out and shouted to the end cenductor not to go until the Island Pond train had arrived. rank as one of the great sanguinary bat-tles of history.

It is estimated by the general staff The conductor shook his head as if he inderstood the train had proceeded, and that the Japanese armies engaged num-ber 17 divisions of 15,000 men each, or, allowing for inefficients, about 240,000 men. Each division has 36 guns, and there are two independent artillery brithe suspense of the operator and offi-cials at the station, as well as the large umber of people who were on the sta tion platform, was terrible, as they realized the terrible danger, and ran down rades of 100 guns each, making a total of about 800 guns. The estimate of Russian correspondthe track

When they reached the scene, about When they reached the scene, about a mile distant from the station, a terrible sight presented itself. The two expresses lay in a hrap of scrap. The worst scene presented itself on the special train. The baggage car was telescoped itself the front resenger cough. The hard into the front passenger coach. The bag-gage car was lifted clear off the tracks and stuck into the passenger right up to the end three feet from the rear. It was in this coach that the most of the dead and injured were found, and it is remarkable that a single one escaped remarkable that a single one escaped alive. It took over half an hour with the wrecking apparatus before the dead and injured could be removed, and not then until the side of the car had been

The sight in the under car was a most gruesome one. The mail car was teles-coped into the following passenger car, and three that were killed on this train were sitting in the smoking car. The were sitting in the smoking car. The massengers in the other part of the train did not suffer serious injury.

Conductor to Blame. At the inquest, which was opened Charles Partridge, of Toronto. Mr. Partto-night, Telegraph Operator Charles ridge is manager in Toronto of the mediwithrow was examined, and made it cal agency, a collecting business.

perfectly clear that the fault lay with Conductor Atkinson, of the Montreal special, who neglected to obey orders, and who, by the way, could not be found to-day by the coroner's officers with a summons for him to appear at

Montreal report says—Several of the Montrealers who were injured in the Richmond wreck to-day arrived in the city to-night and told a frightful story of the collision.

Edward Merrill Gagnon, Montreal, said: "I was on the special train in the front car, when the train stopped dead, as if it had hit a stone wall. Then it lurched forward, and there was a crashing and wild yelling in front, just as the first crash came. I shot like an arrow backward, clear over two seats, and pulled up in a heap. When I got back my senses I was badly bruised. The sights were awful."

J. A. Denault, Banker and broker, of Montreal, who had a narrow escape from death, and who sustained a triple fracture of his leg, gave a graphic story of the wreck to-night. "I was taking my two greybounds," he said, "to the show at Sherbrooke. They were in the baggage car, and I was with them most of the time. I had just

"to the show at Sherbrooke. They were in the baggage car, and I was with them most of the time. I had just stepped into my seat in the car behind when there was a crash. followed by a sharp cracking. My feet shot out, and I received a blow on the head. Everything was indistinct for a minute, and then I saw daylight. After recovering my senses I heard awful cries, prayers, and curses, and shrieks of torture. I heard someone moaning under me, and I found I was lying across another man and all around me seemed to be people. It was simply terrible. A poor fellow died with my body pinned across his chest. He kept crying: God, take me out! I'm dying! Have mercy!' Several others died mear me, in frightful agony.

agony.
"I lay still, with the others dying around me, until I was taken out by the rescuers."

A curious corcumstance was that one of Mr. Denault's dogs was killed, while ther escaped.
Mr. Blanchet, M. P., Killed.

Mr. Blanchet, M. P., Killed.

Mr. Blanchet left his home at St. Hyacinthe to-day with his friend, Mr. Denjs, to visit the Sherbrooke Fair, and his terribly sudden ending is deeply lamented. He had been in practice as a lawyer for many years, and occupied a leading position at the bar of the district. He was elected at the by-election, which took place last February, to replace Hon. M. E. Bernier, when the latter became amember of the Railway latter became amember of the Railway Commission. He leaves a wife, but no

family.

Mr. Charles Simard was a well-known manufacturer, and leaves a wife several children.

#### NIAGARA GRAPE CROP.

#### Reports of Damage by Black Rot Declared to be Exaggerated.

St. Catharines report-A number prominent fruit growers of this district were interviewed in reference to report sent out by the Ontario Agricul-tural Department that the grape crop in the Niagara Peninsula has been ruined by the black rot. They all claim that the the black rot. They all claim that the damage has been greatly exaggerated. While there is no doubt that some damage has been done, they claim there will be plenty of grapes, while a quantity of them may be only second quality. The rot has affected the white and some varies of Ropers grapes, and it was worserot has affected the white and some varieties of Rogers grapes, and it was worse on the light, sandy soil, and was undoubtedly caused by the wet weather and cold nights, which seriously retarded maturity. In the eastern portion of the county about 50 per cent. of the Niagaras were spoiled.

However, before the rot made its appearance, the vield gramised to be seen

However, before the rot made its appearance, the yield promised to be exceptionally heavy, and even now the supply will be in excess of last year's supply, which was considered excellent. If the weather keeps dry and warm for about ten days the rot will not likely spread any further. The rot is more prevalent in the eastern portion of the county than in the western. This is acount-ed for by the fact that the grapes grown on clay soil were hardier than those grown on lighter soil.

#### "BURNSITES" MEETING.

#### uccessful Summer Convention at the Falls.

Niagara Fallis report-The 23rd annual summer convention of the Burnsite Christian Association has just been brought to a close. The gathering has been the most successful in the history of the association and the attendance has been large and representative, mem-bers being present from Toronto, Ham-iton, London, Brantford, Galt and other

laces.
The ministers of the denomination are supported by tithing. Each member pays one-tenth of his actual earnings into the general fund, and from this the one-tenth of his actual earnings into the general fund, and from this the leaders are paid stated salaries. They in turn tithe what they receive and the money so received is used for the propagation of the gospel by the distribution of literature, meetings, etc.

The late Rev. Nelson Burns, whose lath secured leaf lune in Toronto was

leath occurred last June in Toronto, was the founder of the gospel now known as "Burnism." He was formerly a well-known Methodist minister, and was expelled from that body for so-called hersey. For 22 years he was President of this association, which was formerly the Canada Holiness Association. He established his gospel in the town

He established his gospel in the town of Georgetown on Aug. 5, 1881, when he made a covenant with God that he would allow Him to be his sole guide in thought, word and deed, and would leave the result of so doing to be judged as a whole at the end of life. His followers claim that he had learned the secret of always knowing God's will for himself, and that he could and did help very many others into the enjoyment of a similar experience. His autobiography will be published shortly.

The new President is Rev. Albert Truax, of Brantford, also expelled from the Methodist Church for heresy, who was for many years the right hand man of the late Mr. Burns. He is a capable and energetic Christian. It is his intention to move to Toronto shortly. The Secretary

move to Toronto shortly. The Secretary is Rev. Paul Flint, of Galt, formerly a Methodist divine. Other leaders are Mrs. William Graham, of 480 Ontario street, who is the Sunday School Superintend-ent; Mrs. Dremery, of London, and Mr. Charles Partridge, of Toronto. Mr. Part-

diseases of women. We control the formula in Canada and the United States of this wonderful man's medicine and offer it in tablet form for the complete and speedy cure of Menstrual Irregularities, Uterine and Womb Affections, Backache, Hot Flashes, Bloating, Melancholy, Tiredness, Bearing Down Pains, and all other organic affections to which women are subject when they allow their

#### systems to get run down. Make Healthy Women

A single box will make a woman endorse the tablets. Here's the testimony of one:

I take pleasure in speaking a good word for a good medicine. I feel that I should tell you what wonders Dr. Hugo's Health Tablets have done for me. I had been running down, getting thin in fisch, and losing appetite for the past year, and, though doctor's advice was sought and different remedies were used, there seemed to be no improvement. At length a friend, whe had received great benefit from Dr. Hugo's Health Tablets, advised me to try this remedy. I did so. In less than a week I began to see good effects. My appetite returned, my nerves commenced to get steady, my aches and pains began to leave me. I commenced to take on fisch, and I felt that I was being rapidly restored to health. At this moment I fell I am a new woman. I believe woman now have a remedy they can rely on for the various Ills. remedy they can rely on for the various file with which they are afflicted.—Mrs. C. A. Man-zzz, of Granville, N. Y.

\$5000.00 \$2358.00 \$7358.00 THEREFORE the Municipal Council of the Village of Athens enacts as follows;—

1. It shall and may be lawful for the Corporation of the Village of Athens to expend in the erection of the said town hall the sum of five thousand dollars.

2. It shall be lawful for the Council of the said Company for the said.

hall the sum of five thousand dollars.

2. It shall be lawful for the Council of the said Corporation to borrow for the purposes aforesaid the sum of five thousand dollars and issue debentures of the said dollars and issue debentures of the said dunicipality to the amount of \$7,358 (being the total amount of the said amounts authorized to be borrowed as aforesaid and interest on the unpaid principal at the rate of four per cent per annum) in sums of not less than one hundred dollars each, payable in the manner and for the amounts and at the times respectively set forth in the above recitals to this by-law.

3. That the said debentures shall be payable at the agency of the Merchants Bank of Canada at Athens ou the 31st day of December in each of the twenty years hereinbefore mentioned and shall be signed by the Reeve and Clerk of the said Village and sealed with the Corporation seal and countersigned by the Treasurer.

4. That there shall be raised and levied in each year by a special rate on all the rateable property in the said Municipality a sum sufficient to discharge the several instalments of principal and interest accruing due on the said debentures as the same becomes due respectively payable according to the provisions of this by-law.

Miss Falkner returned to Athens last week from the Toronto millinery openings.

Mr. Sidney Crummy of Dakota is visiting old friends here and at Frank ville.

Mr. Alfred Pepper of the Redan and Miss Jane McNair were married in Brockville on Wednesday last.

Next Sabbath the Rev. S. J. Hughes, M.A., will preach at Athens at 10.30 a.m., at E'be 1.30 p.m., at Temperance Lake 8 p.m., at Athens 7.30 p.m.

On Tuesday, Miss May Bradfield, Maughter of the late Hector Bradfield of the front road, near Brockville, and Mr. Herbert Bresee of St. John, N.B., formérly of Elizabethtown, were united in marriage by the Rev. E. H. Emmett.

becomes due respectively payable accord-ing to the provisions of this by-law.

5. That this By-law shall take effect

immediately on the passing thereof and the said debentures may be issued at any time after the first day of October A.D.

6. That the votes of the ratepayers of the said Municipality qualified to vote on money by-laws shall be taken on this on money by-laws shall be taken on this by-law in the several polling sub-divisions appointed in said Village for election purposes on the 19th day of September 1904 commencing at 9 o'clock in the forenoon and closing at 5 o'clock in the afternoon and for that purpose the following persons shall-be deputy returning officers and the following shall be the polling places for taking of votes namely:—

D.R.O. for No. 1 polling sub-division at Mary Livingston's house, Victoria St. Athens, Hiram C. Phillips.

Alex. Compo's restaurant, Main St., Athens, Jas. Ross.
7. That the Reeve of said Village shall attend at Lamb's hall used by said Village as a town hall on the 16th day of September, 1904, at the hour of 10 o'clock in the orenoon for the purpose of appointing tersons to attend at the different polling ces on behalf of the persons intereste in and desirous of promoting or opposing the passing of this by-law respectively, and also persons to attend at the final summing up of the votes by the Clerk of the said village.

8. That the Clerk of the said Village shall sum up the number of votes given.

shall sum up the number of votes given for and against this By-law on the 20th

for and against this By-law on the 20th day of September A.D. 1904 at the hour of Seven o'clock in the evening at the town hall used by the said village,

9. That this By-law shall be finally considered by the council and if the same shall have been assented to by the electors shall then be passed on the 30th day of September, 1904, at the hour of 8 o'clock in the evening.

By-law read a first time in open counc this 29th day of August A.D. 1904. B. Loverin, Clerk.

By-law read a second time in open council this 29th day of August, 1904.

B. Loverin, Clerk.

#### NOTICE

Notice is hereby given that the above is a true copy of a proposed By-law which has been taken into consideration and

#### MORTON

which will be finally passed by the Council of the Village of Athens, in the event of the assent of the electors being obtained, on the 30th day of September, 1904, at the hour of eight o'clock in the evening, being one month after the first publication thereof, the date of such first publication thereof being the 31st day of August, 1904, and that the hour, day and place fixed in said By-law for taking the votes of the electors on the same the polls will be so held for taking such vote.

Dated at Athens this 29th day of August, 1904. Or Wednesday evening Aug. 24, an old resident of this vicinity, Mrs. Frank Wills, passed peacefully away at her home, Leeds Rear. For some time past the weight of many years had been pressing heavily upon her and her health of late had been very uncertain up to the time of her last short illness. The funeral took place on Friday afternoon to St. John's Church and the remains were interred in the cemetery there Her husband and seven sons and daughters survive: Mrs. F. F. Booth, Mrs. A. R. Jacob and Frank Wills of Morton; Mrs. G Cheetbam, Edward E. Wills and Luke Wills, Seeley's Bay; and W. J. Wills at home. The deep sympathy of all is extended to the bereaved family. VOTERS' LIST FOR 1904

#### DAYTOWN

Mr. Weller Wood of Plevna, Ont., is visiting his brother, Mr. Eli Wood, this, week.

Notice is hereby given that I have transmitted or delivered to the persons mentioned in sections 8 and 9 of the Untario Votors' Lists Act the copies required by said sections to be so transmitted or delivered of the list, made pursuant to this Act, of all persons appearing by the last revised Assessment Roll of the said Municipality to be entitled to vote in the said Municipality at Elections for Members of the Legislative Assembly and at Municipal Elections; and that the said list was posted up at my office, at Athens, on the 7th day of September. 1904, and remains there for inspection.

Electors are called upon to examine the said list, and, if any omissions or any other errors are found therein to take immediate proceedings to have the said errors corrected according to law.

Dated at Athens this 7th day of September, 1904. Mr. Adelbert Campbell has gone to Dr. Dixon ot Frankville for medical

Mrs. James McMillen of Smith's Falls is visiting her brother, Mr Arthur Irwin, and calling on Miss

Maria Wood and other friends. Mr. Vet Stevens has sold his farm to Mr. Philips of Athens.

Mrs. Emily Wood, who was so unfortunate as to fall down cellar some time ago, is slowly recovering under the skilfull treatment of Dr. Creeggan A House and Lot in the Village of Athof Delta.

Mr. Shirley Wood of Rome, New York, and Miss Maria Wood of Delta were visiting his aunt and her sister, Mrs. Frank Eaton of Frankville, last week.

Mr. George Huffman is building his shanty at the lake for fishing in the winter.

#### CHARLESTON

ou the 26th day of May A. D. 1890 as Number 141 for Plans.

On the premises is a well built two storey brick dwellinghouse, iron roofed, with frame kitchen attached, and a good stable and carriage house. There are also beautiful shade trees, and a splendid well on the lot. The property is convenient and centrally located, being on the south-east corner of George and Wellington streets.

The title is all clear and buildings insured. The sale will be subject to a reserved bid. The purchaser shall pay down ten per cent of the purchase money at the time of sale to the Vendor's Solicitor, and the balance in thirty days thereafter without interest.

Deed of conveyance given free of expense. Further terms and conditions made known at time and place of sale.

Fer further particulars apply to Edwin Abbott, Esq., James St., Brockville, or to the undersigned Mr. and Mrs. Singer, who were the nuests of Mr. and Mrs. R. Foster for a couple of weeks, left for their home in Philadelphia on Saturday.

Mrs. T. Laffan and children, Pres ott, who were visiting friends here for the past week, have gone home.

Mrs. P. C. Yates and daughter and Miss Florence Fenlon, Toledo, spent Wednesday and Thursday with friends

paired so it runs very nicely.

Miss Jennie Eyre has gone to Mor ton to take charge of the school there Mrs. Jones of Athens and the two attle Misses Hartwell of Standstead. Que., were guests of Mrs. H. C. Phillips recently.

Miss May Berney, Athens came to the cottage on Monday.

Miss Mary Ennis spent a tew days at the lake last week, the guest Mrs. J. Thompson.

#### FRANKVILLE

Aug. 29-Miss Florence Dowsley of Brockville is visiting at J. L Gallagh-

Rev. Mr. Baldwm filled the pulpit in the Methodist Church on Sunday

The people of Frankville and Toledo met on Tuesday to clean the burying ground at Toledo. The ladies brough the dinner and the men worked with will to remove all the surplus grass, weeds and shrubs. They expect to have a new fence in the near future.

There was a good attendance at the Frankville might justly be called Methodist S. S. picnic, which was held at Loyerin's park, Charleston Lake, on Monday last. The weather was summer resort—the remark was passed a short time ago that every unfavorable, but nevertheless a ouse had visitors. time was spent. After

Mrs. (Dr.) Haskins of Plessis, N.Y. spent last week with her parents here, Mr. and Mrs. R. Richards, and re turned home on Saturday.

Still another departure of our boys for the North-West on Friday last. T. Livingston, W. Melville, Stanley Bulford, and Geo. Dillabough left to make their fortune in the Land of Wheat.

The robbery of W. E. Stratton's store has quieted down to some extent, but we understand he has put the matter in the hands of the police at Brockville. Miss Ada Shields has returned home

to Toronto, taking with her Miss Lulu Smith, of Athens. Her brother, Mr. Norman Shields, is visiting friends here at present. The Misses Websters of Spe

ville have spent some time with their aunts, Mrs. Percival and Mrs. Connor. Miss Derbyshire of Kingston and Miss Ball of Toronto have returned home, having spent a week with Mrs.

Miss Ada Jackson has started ess-making establishment over W. E. Stratton's store, which we needed badly. We wish her every success.

THE ATHENS REPORTER SEPT. 71 1914

Elijah Taken Up Into Heaven. - Kings 2: 1-11 Comemutary.—I. Elijah and Elisha journeying together— (vs. 1-8). 1. When the Lord would take up Elijah—A great truth is her disclosed. Our lives are absolutely at God's disposal. It had been at least ten or twelve years since Elijah had asked that he might die, and during al that time he had been wielding a mighty influence for God. But now his work was ended. Although no mention of Elisha as L. jah's companion is given in the history between the day of Elisha's call and the time of the events had this chapter, yet from I. Kings xix. 21, and II. Kings, iii. 11, we conclude that Elisha had spent most of his time with the aged prophet, ministering to his necessities. From Gilgal—This was the Gilgal a few miles northwest of Bethel, not the Gilgal near Jericho. A school of the prophets was located here as well as at Bethel and at Jericho. 2. To Bethel—About nine miles southeast of Gilgal. 4. Comemntary.-I. Elijah and Elisha About nine miles southeast of Gilgal. 4. To Jericho—About thirteen miles southeast of Bethel. "At the time when he was translated Elijah was probably dwelling along the prophetic body, and passed to the other two centres, Bethel and Jericho, that to them he might leave

these schools.

5. Sons of the prophets—That is, the young men attending the theological seminaries, first organized by Samuel for the continuous teachers for the preparation of religious teachers for the people. Knowest thou, etc.—"Not the people. Knowest thou, etc.—"Not only was Elijah himself conscious of some great event at hand, but Elisha and the bands of prophets in Bethel and Jericho had an intimation that the peparture of Elijah was very near." From thy head—That is, from being thy head; thy spiritual father, teacher, leader, and director. The expression, which is literally "Taken from over thy head" might ally "Taken from over thy head," might also intimate the manner of Elijah's removal.—"Perry. Yea, I know—Elisha replies with solemnity and emphasis. "Literally, the Hebrew is, Of course I know; hush!"—Terry. "Elisha cannot bear the questioning.

the precious memory of a visit on the last day when he was seen on earth."

—Cam. Bib. It was his farewell visit to

6. Tarry .... here—Elijah had made the same request at Gilgal and Bethel. To Jordan—About five miles from Jericho is a bend in the River Jordan where the ascension of Elijah is supposed to have taken place.—Hurlbut. As the Lord liveth, etc.—This double oath, expressive

of the most intense earnestness, is re-peated three times. Will not leave —He refused with gentle, respectful per-sistence. He will not be dissuaded from his purpose to remain with Elijah to the

7. Fifty men—We see how large were the prophetical schools of Jericho. How surprising to come upon so large a body of men devoting themselves to a holy life while Anal's children were still on the throne." Stood to view—If forbidthe throne." Stood to view—If forbidden the gratification of personally accompanyving their master, they would at least watch his movements as long as possible. What they saw we are not told. 8. His mantle—"The shaggy garment which had been so long his prophetical badge." It was probably a sheep-skin. The skins of beasts dressed with the hair on were worn by phophets as an insignia of their office. Wrapped it—Tightly round and round, as the word means, in the form of a staff.—Macduff. Smote the waters—As if they were an enemy in his way. Elijah's mantle was to him at Jordan what the rod of God was to Moses at the Red Sea (Exod. xiv. to him at Jordan what the rod of God was to Moses at the Red Sea (Exod. xiv. 16, 21); and many things in the lives of these two prophets who should meet Christ on the mount were parallel.—Whedon. Were divided—"On the one side rushing hastily on; on the other, towering up like a wall of crystal."

II. Elisha's request (vs. 9, 10). 9. Ask.—What is your last request? Elijah thinks not of himself, but of the needs of the one he was so soon to leave behind him. The test will show whether

hind him. The test will show whether Elisha's aims are spiritual or material. How would we answer such a question? Before I be taken—What Elijah ddoes for Elisha must be done before his defor Elisha must be gone before his de-parture, for there will be no communica-tion between them afterwards. A dou-ble portion—"There is nothing here of selfishness or ambition." "This does not mean twice as much as Elijah had. The expression was suggested by the custom and law (Deut. xxi. 17), which gaev to the eldest son twice as much of an inheritance as to any other of the sons."

110. A hard thing-It was hard (1) because God and not Elijah must bestow such a gift, and (2) because it depended upon, Elisha's fitness to receive it. If thou see mc—If he was able to retain to the end the same devoted perseverance, and keep his eye set and steadfast on the departing propagit, the gift would ance, and keep his eye set and steadfast on the departing propact, the gift would be his.—Stanley. Years before Elisha had been informed that he would be Elijah's successor, but even this, like all of God's promised blessings (Jer. xviii. 7-10), depended upon character and faithfulness.

faithfulness.

III. Elijah's translation (v. 11). 11.
Talked—"We can understand how much
Elijah would find of exhortation and en-Elijah would find of exnortation and encouragement to bestow as parting counsels on his successor." "What moments were those! It was a walking and talking on the verge of heaven!" Chariot of fire; etc.—We cannot agree with those commentators who think this was merea "display of flame and fire," "a fiery phenomenon" which appeared "as a char-iot of fire," etc. "These were creations of the spiritual world. This heavenly scene was no hallucination, but the char iot and horses of fire were a part of that vast host, the sound of whose move-ments David once heard over the mulments David once heard over the had-berry trees (H. Sam. v. 24), and who at a later time filled the mountains round about Elisha (H. Kings vi. 17). Why should we doubt this? See Psa, lxviii. 17; Dan. vii. 10."—Whedon. Parted them, 17; Dan. vii. 10."—Whedon. Parted them, etc.—The fiery chariot separated the two prophets. A whirlwind—The text does not say that Elijah went up in the chariot of fire, but he "went up by a wairl-

#### PRACTICAL SURVEY.

Christian schools. "The sons of the pro phets" evidently had the sanction of the great prophet elijah. The real Christ ian school of to-day is a conserver of the

should be supported by the church.
Elisha's request was in keeping with the Saviour's admonition to ask and re-ceive that our joy may be full. He evi-dently realized, what was afterwards a

prophetic declaration, that success was "not by might nor by power, but by my Spirit, saith the Lord."

Elijah's power was not to be found in any remarkable endowment with which nature had invested him, neither did it consist in any unusually acquired fitness outside of the divine." Though in his exterior the "fire prophet" seemed rough and uncultured, yet his spirit, was thoroughly with the divine, which was the earthquake and cyclonic power, energizing him in all of his most wonderful exploits and daring feats against sin in the realm, whether along gilt-edged lines among the aristocracy of the land, or along a line that was on a plane at once seen to be groveling and base.

This spirit gave Elijah clear spiritual discernment. To him conviction was undimmed and the line of duty well defined and clearly pronounced. This spirit assisted him to render prompt and full obedience to the divine requirement, and he sped like a heavenly messenger to deliver the terrible message to the compromising and wicked Ahab.

The conditions of acceiving what Elisha had asked. "If thou see me when I am taken from thee," etc. Here is indicated concentrated thought, intense earnestness, oneness of aim and a centred purpose to one end, namely, that of receiving o "double portion" of the spirit of Elijah. This undivided, unabated, all united soul-earnestness is a characteristic of all successful seekers after pardon or purity to-day. The half-hearted, slug-

tin of all successful seekers after pardon or purity to-day. The half-hearted, slug-gish seeker after divine blessings is an unsuccessful seeker, and justly so.

Our power to bless others is measured by the limitations of this short life. What Elijah did for Elisba must be done What Elijah did for Elisha must be done before he was taken away from him (v. 12). Every Christian should be a free dispensary giving out light and cheer and dispensing good to all around. "Ye are the salt of the earth"; "ye are the light of the world," are God's declarations. Every opportunity to help and bless others should be improved. Bless me, Lord, and make me a blessing, I'll gladly Thy mesage convey; Use me to help some poor, needy soul, And make me a blessing to-day. Elijah taken to heaven, Here was a

And make me a biessing to-day. Elijah taken to heaven, Here was a man ready for two worlds. Although engaged in the pursuit of his calling, yet he was so delivered come sin and sinful affinities as to be able at any moment to quit the scenes of this world, step into the heavenly charlot and sween into the heavenly chariot and swee into the heavenly chariot and sweep through the skies to the paradise of God. Many centuries afterward he came back to earth in company with Moses, and on the glory-caped mount in company with the transfigured Christ talked of the Saviour's coming death. Here we have a clear evidence of the immortality of the soul. Enich, Mose and Elijah did not sleep in the grave, or enter into a state of unconsciousness, but, on the contrary, they went to heaven, where all of God's they went to heaven, where all of God's saints go immediately after death. Amen. James D. Marsh.

AYLMER GIRL WINS TITLE.

#### Married to German Baron, a Man of Wealth and Distinction.

Aylmer, Sept. 5 .- More than twenty years ago a niece and adopted daughter of the late John Dunn, of South Dorchester, went to California to visit relatives. After she had been there some time she was married to Andrew Jackson, who died in 1902. Last May she was married in Scattle to Lieut. Hugo von Shuster, M. D. P. C., a United States officer, and a descendant of an ancient German family. Since their marriage he has fallen heir to the family title of Baron von Shuster. He has harge mercantile interests in Seattle, Hong Kong, Shanghai, and Manila. With his wife and son he sailed from Seattle on the 15th inst., on the Tremont for Shanghai and Hongkong, where they remain for and Hongkong, where they remain for a month, thence to Manila, their future home. Baron von Shuster is familiar with five languages and is much in demand in the Philippines. Lady von Shuster's maiden name was Elizabeth Montgomery Dunn. She is a sister of Miss Dunn and Mrs. Reavie, of this Aylmer, and the Fundlays, of Carleton Place. place, and a cousin of the Nairns, of

Miss Whittaker, a prominent club woman of Savannah, Ga., tells how she was entirely cured of ovarian troubles by the use of Lydia E. Pinkham's Vegetable Compound.

Compound.

Dear Mrs. Pinkham:—I heartily recommend Lydia E. Pinkham's Vegetable Compound as a Uterine Tonic and Regulator. I suffered for four years with irregularities and Uterine troubles. No one but those who have experienced this dreadful agony can form any idea of the physical and mental misery those endure who are thus afflicted. Your Vegetable Compound cured me within three months. I was fully restored to health and strength, and now my periods are regular and painless. What a blessing it is to be able to obtain such a remedy when so many doctors fail to help you. Lydia E. Pinkham's Vegetable Compound is better then any doctor or medicine I ever had. Very truly yours, Miss Easy Whittake, 604 39th St., W. Savannah, Ga."—\$5000 forfeit |forlined of above letter proving genuineness cannot be produced. The testimonials which we are constantly publishing from grateful women prove beyond a cloubt the power of Lydia E.

grateful women prove beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

#### REFORM ASSOCIATION IRISH

Now in This Country.

#### Wants a Large Measure of Local Government for Ireland.

London cable — The Irish Reform Association has adopted a platform for the association which, while firmly maintaining that the Parliamentary union of Great Britain and Ireland is essential to the political stability of the Empire and the prosperity of the two islands, expresses the belief that such a union is compatible with the devolution to Ireland of a larger measure of local government. It considers that such a devolution, while avoiding matters of Imperial Parliament of a mass of business occupying its time to the detriment of more important concerns. The association also considers that the present financial administration of Ireland is wasteful, that it ought to be revised, and that the time has arrived to extend to Ireland the system of private bill legislation, which has been so successful in Scotland. It advocates urgently higher education, and expresses the desire to do all in its power to further the policy of land purchase in the spirit of and on the general lines laid down by the land conference report.

SOME PICH TAXPAYERS.

Ten in the United States of Great Wealth.

New York report-The report from Chicago, that Marshall Field, the mer-chant of that city, pays taxes on a great-er amount of property than any other man in the United Stattes, the total beman in the United States, the total being put at \$40,000,000, called attention to the fact that in John Jacob Astor, New York City, is a close second, the latter being assessed for property worth

latter being assessed for property worth \$35,300,000. While Mr. Field pays taxes on \$40,000,000 worth of Chicago property, this represents only a fraction of his wealth. Besides being interested in numerous corporations and business enterprises, he has large real estate holdings outside of Chicago, and is a large stock and bond holder, especially in the Pullman Palace Car Co. It is estimated that Mr. Field is worth between \$250,000,000 and \$300,000 000.

John Jacob Astor is the only one of New York's rich men whose real estate holdings are comparable with those of Mr. Field, being about \$5,000,000 less in value than the Chicagoan's. William Waldorf Astor lives in London, but he pays taxes on \$27,500,000 of real estate in this city. Andrew Carnegie leads the personal property list here, being assessed for \$5,000,000.

John D. Reckefeller is assessed for only der from the cartillocate. Hoboken, fired a 32-calibre revolver with the muzzle pressed against his wife's breast. She field to the floor with a scream and Wood jumped out of a back window and escaped.

The woman was taken to St. Mary's Hospital, where it was found that the bullet had struck a steel in the front of her corset, and, glancing down, had been imbedded in the corset. The pow-

Sears, whose contribution to the city is \$67,917 yearly.

Philadelphia's largest record against an individual taxpayer is \$30,000,000 worth of real estate, the assessment of William Weightman, who died several days ago. In Baltimore, Francis White's combined real estate and personal property is \$8,000,000. nal property is \$8,000,000. Next to Mr. Field, in Chicago, the late

Levi Z. Leiter paid taxes on the great est amount of real estate. Mr. Leiter's down town property amounted at the time of his death to \$13,000,000. Otto Young probably is next to Mr.

Field as a heavy carpayer. His real estate holdings in the county amount to \$10,000,0000, and his personal property assessment is \$200,000. In the last year Mr. Young has bought \$4,000,000 worth of real estate.

A Pleasant Duty .- "When I know anything worthy of recomm sider it my duty to tell it," says Rev. Jas. Murdock, of Hamburg, Pa. "Dr. Agnew's Catarrhal Powder has cured me of Catarrh of five years standing. It is certainly magical in its effect. The first application benefited me in five minutes, 50 cents."—9

CORSET STEEL SAVED HER.

Weman Shot by Her Husband Saved by Her Corsets. New York, Sept. 5.-In a quarrel yes terday morning George Wood, 30 years

old, of 29 Willow Terrace, Hoboken, fired a 32-calibre revolver with the muzzle pressed against his wife's breast. She fell to the floor with a scream and Wood

pays taxes on \$27,500,000 of real estate in this city. Andrew Carnegie leads the personal property list here, being assessed for \$5,000,000. Tohn D. Reckefeller is assessed for only \$250,000,000. while Russell Sage pays taxes on \$2,000,000. Pittsburg, has a resident, H. C. Frick, of coke and iron fame, who owns nearly \$10,000,000 worth of taxed real estate, all in the city. Wealthy Boston's largest individual taxpayer is J. Montgomery Sears, whose contribution to the city is \$67,917 yearly.

Itching, Burning, Creeping, Crawling Skin diseases relieved in a few minutes by Agnew's Ointment. Dr. Agnew's Ointment relieves instantly, and cures Tetter, Salt Rheum, Soald Head, Eczema, Ulcers, Blotches, and all Evuptions of the Skin. It is soothing and quieting and acts like magic in all Baby Humors, Irritation of the Scalp or Rashes during teething time, 35 cents a box.—7.

# The Markets

Toronto Live Stock.

Receipts of live stock a. the city market were light, as is usual on Friday—in fact, Tuesdays and Thursdays are the market days.

There were 12 cars, composed of 139 cattle, 219 hogs, 86 sheep and 33 calves. Seven cars of the above cattle were not for sale, being exporters from Chicago belonging to W. H. Dean.

Hogs—Prices for hogs took another drop of 10c per cwt., and are now quoted as follows: Selects \$5.50, lights and fats at \$5.25 per cwt., sows at \$3.50 per cwt. Mr. Harris bought all offerings at these quotations to-day.

Export Cattle—Outside of the load quoted by Crawford & Hunnisett, which brought \$5 per cwt., there were a few odd cattle renorted as shippers at \$4.60 and \$4.80 per cwt.

and \$4.80 per cwt.

Butchers' Cattle—Trade for butchers

Butchers' Cattle—Trade for butchers' cattle was good at the price reported below, but there were not a dozen cattle reported by the different commission firms that sold over \$4.25 per cwt. Mc-Donald & Maybee report three butchers' cattle, weighing 980 lbs. each, at \$4.00 per cwt.; and Maybee & Wilson report three butchers' cattle, 1,000 lbs. each, at \$4.35 per cwt.

Feeders and Stockers—Deliveries of feeders and stockers were fairly large.

Feeders and Stockers—Deliveries of feeders and stockers were fairly large. Feeders weiging from 850 to 1,000 lbs. each, of good quality, are in demand, and there was not enough of these on the market Prices for this class ranged from \$3.25 to \$3.80 per cwt.

There were some fair lots of stockers, weighing 600 to 650 lbs. each, that sold at \$3.15 to \$3.20 per cwt. But there were also a lot of ill-bred mongrels that sold at \$2.50 to \$2.75 per cwt., as will be seen by sales quoted below.

Milch Cows—Trade in milch cows and springers was a little brisker, prices ranging from \$30 to \$52 each.

Veal Calves—Prices for veal calves were unchanged and firm for all of good were unchanged and firm for all of good were unchanged and firm for all of good to the stockers.

Veal Calves—Prices for veal calves were unchanged and firm for all of good quality. Prices ranged from \$3.50 to \$5.25 per cwt., as per quality. Sheep and Lambs—The run was fairly large and prices ranged a little easier. The bulk of sheep sold at \$3.75 per cwt. The bulk of the lambs at \$4.75 per cwt. But choice lots of both classes brought a little more money.

Toronto Farmers' Market.

Receipts of grain were small to-day. Wheat easier, 100 bushels of new red winter sold at \$1. Oats unchanged, 100 bushels of new selling at 37 1-2c.

Hay in moderate receipt, with prices firm; fifteen loads sold at \$9.50 to \$11 a ton for new. Straw firm, two loads selling at \$12 a fan.

ong at \$12 a ton.
Dressed hogs ar

ing at \$12 a ton.

Dressed hogs are firm, with light ones quoted at \$8.

Wheat, white, bushel, \$1.06 to \$1.08; new, \$1.04; red, \$1.06 to \$1.08; spring, \$1; goose, 90c; oats, old. bushel, 40 1-2 to 41 1-2c; new, 37 1-2c; barley, 46c; hay, old, per ton, \$12 to \$12.50; new, \$9.50 to \$11; straw, ton, \$11.50 to \$12; dressed hogs, light. \$8: evgs. dozen. 20 to 22c; \$11; straw, ton, \$11.50 to \$12; dressed hogs, light, \$8; eggs, dozen, 20 to 22c; butter, dairy, 17 to 20c; creamery, 40 to 22c; chickens, spring, lb., 14 to 16c; turkeys, lb., 13 to 15c; cabbage, dozen, 40 to 50c; potatoes, new, bushel, 70 to 80c; cauliflower, dozen, 75c to \$1.50; celery, dozen, 35 to 50c; beef, hindquarters, \$8 to \$9; forequarters, \$4.50 to \$5.50; choice, carcase, \$7 to \$7.50; medium, carcase, \$5.50 to \$6.50; mutton, cwt., \$5.50 to \$7.50; yeal, cwt., \$7.30 to \$8.50; lamb, to \$7.50; veal, cwt., \$7.50 to \$8.50; lamb,

cwt., \$8 to \$8.50.

Toronto Fruit Market.

Toronto Fruit Market.

The local market was active, Raspberries, 7 to 8e. Lawton berrice, 7 to 8½c. Red currants, large backet, \$1 to \$1.50. Black currants 85c to \$1.10. Huckelberries, basket, 75c to \$1.25. Watermelons, 20 to 30c each. Canadian apples, basket, 15 to 25c. Peaches, basket, 25 to 30c. Pears, basket, 30 to 40c. Plums, 25 to 35c. Potatoes, bushel 70 to 75c. Canadian Tomatoes, basket, 20 to 30c. Celery, dozen. matoes, basket, 20 to 30c. Celery, dozen, 40 to 65c. Egyptian onions, \$1.50 per sack. The British Market.

market at present, but the fruit crop is lighter than anticipated, though still a good crop. American apples are seventy-five per cent., peaches sixty per cent. and grapes ninety per cent. of a full crop. full crop.

Bradstreet's on Trade.

Montreal business continues to be af Montreal business continues to be af-fected by the holiday season, but there is more inquiry from outside points for staple goods for the fall, which is taken to be a forerunner of more active trade in the immediate future. Orders for fall delivery in dry goods, hardware and other staple goods are more numerous. The outlook for general business is pro-

There was some increase in the demand at Toronto this week. Next week the autumn milligery openings and the opening of the Exhibition will mark the opening of the fall sorting trade. Business pros-

octs are encouraging.

Ouebec wholesale business shows little

Quebec wholesale business shows little improvement over that of the preceding week, although the fall outlook is fairly satisfatory. The crops have, as a rule, turned out, so far, good.

In Victoria and Vancouver there is a brisk demand for staple goods for shipment to the Yukon. A good deal of mining work is being done in the province, and the demand for supplies is very fair. The salmon run is about over. The pack will be a light one. The lumber industry is active, with the mills running day and night. The outlook for the fall trade is good.

good. There is a healthier tone reported in There is a healthier tone reported in trade-conditions in Winnipez. The crop is passing through a critical stage, and that is naturally making buyers conservative and keping trade on a safe basis. After next week a larger demand for staple goods if expected. The prospects are excellent for the fall trade.

The inquiry for fall goods at Hamilton, as reported to Bradstret's, has been fair, and some large shipments have been made on the earlier orders. The volume of business booked so far this season

made on the carner orders. The volume of business booked so far this season compares well with previous years at this date. Prices of staple goods are firm. The general business outlook is

In London there is a rather better inquiry for some lines of staple goods, and this encourages the jobbing trade to look for renewed activity in the buying after the beginning of the month. Prices of dry goods, hardware, etc., have been generally well maintained.

Ottawa wholesale trade is moderately active for this season. Business conditions generally are satisfactory. A good fall trade is looked for.

# VISITS QUEBEC.

Primate of All England is in Canada.

Was Given a Warm Welcome by the People.

#### Preached at Centenary of Holy Trinity.

Quebec report -For the first time in the history of the new world, an Archbishop of Canterbury was heard today in the historic City of Quebec. It was also notable that the Primate's visitshould be on the date of the one hundredth anniversary of the Cathedral of the Holy Trinity of Quebce, and of the centennial of the convertation of the first English Protestant cathedral in

The Archbishop arrived here at \$6.40 this morning by special train over the C. P. R. from Montreal. He was accompanied to his wife, Rev. Mr. Holden, domestic chaplain; Rev. Mr. Ellison, vice: of Windsor, and J. Pierpont Morgar, of New York.

Morgar, of New York.

His Grace was announced to preach in Holy Trinity Cathedral at 11 o'clock, and long before that hour the edifice was packed. His Lordship Bishop Dunn was the celebrant of Holy Communion, Very Rev. Archdeacon Roe reading the Gospel, and Very Rev. Dean Williams the epistle. The Archbishop of Canterbury then ascended the pulpit and announced his text, which was from the Epistle of St. Paul to the Romans, 5th chapter, 4th verse: "And patience, experience; and experience, hope."

These words might stand as the motto and watchword of our colonail churches. "Of that," he said, "we had a magnificent object lesosn to-day: It is asuredly with some diffidence that I stand here this morning to speak to you about that object lesson. Some six hours only have passed since, in happy fulfilment with hopes and dreams of years, I set eyes on Canada for the first time, and I might well perhaps have shrunk abashed from the present the structure endeavor to give expression

first time, and I might well perhaps have shrunk abashed from the presumptious endeavor to give expression at such a moment to the feelings with which, on this centenary day, your hearts are rightly full. Yet I cannot, I dare not, gainsay what has been eloquenaly urged upon me by those best qualified to speak."

They said there was a singular appropriateness in the opportunity so strangely—some would say accidentally—given to the man who occupies the position assigned to him in the Anglican Church, the opportunity of taking part in the first centenary of the first Anglican cathedral, erected in any colony of the Empire, It was an occasion of deepest meaning and happicst association, not for Quebec only, not for Canada only, but for the Church of Christ throughout the world, and he steemed it a very high privilege to be allowed to bear his part with them as together they thanked God, and took courage. The text, he said, was one which linked in an unbroken chain the past, the present and the future, and his Grace proceeded to speak eloquently of the history of the English Church and its associations.

The Archbishop spoke for half an hour

ts associations. The Archbishop spoke for half an hour The British market.

The first American apples sold in Glasgow at twelve to fourteen shillings. Glasgow at twelve to fourteen shillings. He interest if civilization and gime, in the interest if civilization and Christianity. He read a very interesting resume of the history of the Holy Trinity Cathedral, and spoke of the wonderful development of the Church of England in Canada, due to the detailed the control of the clercy and laity. or England in Canada, due to the devotion and zeal of the clergy and laity.

The special train of the C.P.R. which conveyed the Archbishop of Cantérbury to Quebec will be at the disposal of his Grace while he remains in the

GRAPE CROP IN DANGER.

Black Rot is Working Havoc in Niagara

Toronto, Sept. 5.-Prof. Lockhead, of Toronto, Sept. 5.—Prof. Lockhead, of the biological department of the Guelph Agricultural College; in a report to the Minister of Agriculture, says that he found the grape crop in the Niagara district in danger of being ruined from black rot, and adds:

"It is saddening to ree the results of the work of this fungus. Where there might have been fifty tons of grapes there will now be difficulty in finding the reason of the distance of the results." The disease is

might have been fifty tons of grapes there will now be difficulty in finding one-half or one ton," The disease is capricious in its attacks, unaffected vineyards being found lying right between badly infected ones. He recommends all growers to circfully pick all mummy grapes and to spray thoroughly early in spring and at least twice in the middle of July and August, with Bordeaux mixture, to prevent infection from outside sources. from outside sources.

UNION COFFINS HEREAFTER.

If They Don't Bear the Union Label, Men Won't be Buried in Them.

Boston, Sept. 5.—Union made coffins were the subject of a long debate at the meeting of the delegates to the Building Trades Council yesterday afternoon, and the followin resolution on the subject

the followin resolution on the subject was unanimously adopted:
Whereas in the past all coffins used by the friends and relatives of union men in this vicinity have been made under non-union conditions; be it

# The Unknown Bridegroom.

water Leighton's eyes were de-those of the mysterious stranger were dark, and that one look which she had shot into their soulful she had shot into their soulful depths had served to tear the veil from her own and to arouse her

from her own and to arouse her from a fatal illusion.

"I am sure I cannot comprehend your object in instating that I am your wife," the returned, meeting his eyes with a look of grave accusation. "I do not like to charge you with speaking falsely; but I know that you did not stand beside me during that ceremony in Rosedale chapel; I know that a stranger was there, holding my hand and plighting his vows with all the solemnity which the occasion required, although what his motive could have been in perpetuating such a farce—for such I regard it—is utterly beyond my comprehension."

"Floy! Floy!" exclaimed the young man, simulating a tone and gesture and section."

man, simulating a tone and gesture of despair. "I begin to believe that of despair. "I begin to believe that the fever was on you—that your brain was turned even before you went to Rosedale chapel that night!" "No; you are mistaken—my brain was as clear then as it is at this moment," she firmly replied; "and," she added, "I regard the incidents, that occurred to provent our mar-

that occurred to prevent our mar-riage as providential—" "How can you have the heart to sit there so calmly and say such dreadful things, Florence? You do not love me—you never loved me!" "No, Walter—ns I told you in my letter—I know now that I never loved you as a woman should love the man whom she marries and expects to pass all the years of her life with," she gravely replied. "You made me think I did, for a time,"

pects to pass all the years of her life with," she gravely replied. "You made me think I did, for a time," she continued; "your strong, magnetic nature mastered mine, temporarily—especially on that last day when we were together in the arbor—you literally compelled me to believe that I loved you, and I consented to do as you desired, although sented to do as you desired, although I knew it was wrong. I fainted at I knew it was wrong I fainted at the attar the moment that I dis-covered that the man to whom I believed I had irrevocably pledged myself, was not you. But as soon as I recovered consciousness, a vell seemed to have been torn from my seemed to have been torn from my eyes—I was able to reason more bearly than I had ever done, regarding our relations, and I knew at once that you and I could never have been a happy husband and wife. My swoon—I knew now—was caused partly by the shock at finding a stranger beside me—partly by a sense of relief upon learning that I was no wife; for, I had been remaining of my rash step every red I was no wife; for, I had been repenting of my rash step every red
of the way to the church; and, had
that man been five m nutes later, I
firmly believe I should never have
gone to the altar—even if you had
come."

"Heavens! Florence, why will you persist in that illusion? I tell you that you are my wife and I will claim you in the face of the whole world. Why! I have the certificate, signed by the clergyman, here in my pocket at this moment, while, as you very well know, there were three witnesses to the marriage," Leighton exclaimed, with considerable heat, his temper beginning to give

heat, his temper beginning to give way in view of her obstinacy.

"All the same, I know there was no marriage," she steadily replied, although she lost color while he was speaking of the witnesses and cer-tificate. "Ab, Walter," she added appeaplingly, "do not let us have a scene! Pray let us settle this matter in a kind and dispassionate way;

ter in a kind and dispassionate way; let us part friends—"Friends!" he interposed, with surpassing bitterness; "do you imagine that I could ever regard you simply as a friend, even if it were possible for us to part, as you so calmly suggest? Friend! you whom I have held in my arms, close to my heart—so close that you gould feel its every throb; whose lips I have kissed as only; a lover kisses the wopassing bitterness; "do you imagine that I could ever regard you simply as a friend, even if it were possible for us to part, as you so calmly suggest? Friend! you whom I have held in my arms, close to my heart—so close that you gould feel its every throb; whose lips I have tis every throb; whose lips I have worships, and into whose willing ears I have poured the most man he worships, and into whose willing ears I have poured the most sacred thoughts and feelings of my "Don't-please don't!" cried the

"Don't — mease don't lead the girl, shrinking with mingled shame and pain as she recalled these scenes of the past. "I know that I have seemed to respond to your affection; but, as I have before intimated, I but, as I have before intimated, I am sure I was governed more by your magnetic nature than by my own volition—you simply compelled me to believe for the time, that I could be happy, only as your wife."
"You seem to have entirely recovered from the spell," the young man sarcastically retorted, although a startled look had leaped into his eyes at her words. "Do I understand," he pursued hotly, "that you charge me with having hypnotized you into the belief of loving me, when you really belief of loving me, when you really entertained no affection for me—that mesmerized you into consenting to my wife?"

Florence started at these questions Florence started at these questions and her mind instantly reverted to that scene in the arbor, when, as he held her infolded in his arms, and was stroking her hair and face with seeming fondness, all her will power and suddenly deserted her, and she had, almost unconsciously, yielded to his entreaties for a secret and impediate marriage.

nediate marriage. had clung to her-although she tried in vain to shake it offhad tried in vain to shake it off— antil the moment when she had look-ed into the depths of the dark eyes of that mysterious stranger, when the shock had free her instantly. She darted a curious glance at her

These thoughts are maddening—the idea was horrible to her, and for a few moments she did not know what to do or say.

Then she grew suddenly calm.
No, she knew she was not mistaken, in spite of the very plausible version which he had given her, doubtless for the sake of carrying his point.

Walter Leighton's eyes were blue—those of the mysterious stranger were dark and that one look which

room for doubt as to her settled purpose.

"Florence—Floy! my darling! I cannot bear to lose your love—I am crushed, heartbroken, in view of this unaccountable change in you," Leighton exclaimed with a well simulated sob—adopting this role as a last resort—while he dropped his face upon his hands to conceal all signs of the impotent rage that had taken possession of him.

The fair girl regarded him in sorrowful silence for 1: moment; then she remarked in a kindly, regreiful tone—

"Sometime, Walter, I am sure you will realize and acknowledge the wisdom of my decision."

om of my decision."

"Then, it is a final decision? You really mean that you will never live with me as my wife—that you will never acknowledge the tie that binds us?" he questioned, lifting a sullen

look at her.

"Really, Walter, it becomes almost a farce for me to persist in asserting that no tie binds us; but; since such is the case, let me say, once for all, that I certainly mean every word I have uttered. And now every word I have uttered. And now taking a ring Box from the table beside her—"I wish to return the be-trothal ring you gave me." "I do not want the thing—I will not have it," he returned with child-

"I do not want the thing—I will not have it," he returned with child—ish petulance.

"Surely you cannot wish me to keep it, under existing circumstances," Florence observed with a note of hauteur la hen usually gentle tones.

"If I take it, it will only be to destroy it—to grind it to atoms beneath my heel," retorted the baffled lover with almost savage vehemeace.

"That, of course, will have to be as you choose," coldly responded the young girl, "although, to me, the wanton destruction of any valuable thing seems both foolish and sinful."

She still held the box extended to him while she spoke, and he, beginning to realize that he was making himself ridiculous, suddenly snatched it from her and shoved it into the depths of a pocket.

"I take it under protest," he muttered, "but you shall have it again, when you come to your senses, which—you will find it for your interest to do later on," he concluded with a threatening glance.

She paid not the slightest attention to his remarks, but observed, with quiet self-possession:

"I wished to have these matters

with quiet self-possession;
"I wished to have these matters

"I wished to have these matters settled before I went away, for, to-morrow, we leave for New York, and sail the following day for Europe." "Ah!" exclaimed Leighton with a start, "that was why you told me in your letter not to come to you for a fortnight—you wanted to make short work of this business, and give me no opportunity to make short work of this business, and give me no opportunity to follow you. Very well; I will submit to this condition of affairs-for the present; I will not press you further now, but let me tell you I shall insist upon my rights later on, and shall expect to find you in a more tractable frame of mind when you return. Out of regard for you I will keep our secret until then."

then."
Without giving her time to rehe turned abruptly upon heel, and hastened from the room and the house.

Raving with wrath and disap-rointment, he went directly to his lodgings, let himself in with his latchkey, and ran upstairs to his

ped short on the threshold, and stood like one suddenly turned to stone, his face blanching to the hue of marble, a smothered exclamation of mingled astonishment and fear

and shut the door. CHAPTER VI. Florence Richardson gave utterance to a long sigh as the door closed after her rejected lover, and yet she was vaguely conscious that yet she was vaguely conscious that it was prompted by a sense of re-lief, rather than of regret, as she realized that that page of her life history had been turned forever, in spite of the man's preposterous claims and threats, she sank back into her chair, where she sat think-ing for some minutes; then flushing vividly, her white fingers crept up to a delicate chain that encircled her neck, and grasping it she drew

forth from its place of concealment a tiny circlet of dull red gold that had been strung upon it. The ring was of peculiar work-manship, being composed of three small strands braided together and fastened with a little plate upon which was engraved a strange de-vice. She had never been able to decipher it, although she had tried

during the excitement and weariness of her return, after that strange scene in the church, until, when she was disrobing for bed, her glance had fallen upon it, and great shock went quivering

companion, and wondered if he really possessed hypnotic powers.
"I do not believe that I should ever have thought of accusing you willingly exerting such an ignoble where the statily drew it from her finger and examined it curiously. Anna having already fallen asleep upon the couch where she had thrown herself.
"What a curant thrown herself." through her.

An ley shiver ran over her as she hastily drew it from her finger

"I could have proven to him that I am not his wife by showing him this," she murmured; "but, somehow, I did not like to—he would probably have made up some story about it as he did about his accident—what a story-teller he is!—and since he did not apoligize, on his own account, for using such hing, I think it is safe to assume that he does not know anything about it. Oh, what an experience! Will the mystery ever he solved?—will I ever meet the man again? I believe I shall never feel quits free again, at least until the puzzle is solved. I should feel almost as if I was wedded to some ghost who had crossed my path and left his speel upon me, but for those eyes so dark and tender! Ah, they were beautiful eyes! And no ghost could have worn a ring—I wonder what this device means?" she added, as she tried to trace the engraving upon the tiny plate. "I will procure a strong magnifying glass at the first opportunity, and study it thorough-ly." opportunity, and study it thorough-

A step outside her door warned her that some one was coming, and, quickly shipping the ring back into its place of concealment, she caught up a book, just as Mrs. Seaver, after tapping lightly, for admittance, entered the resm.

"Why Floy! what a grave, tired-looking face!" that lady exclaimed as she observed the serious expression and troubled eyes of her husband's ward. "Wasn't Mr. Leighton's

and when one day, Mrs. Seaver pro-posed leaving her at home, she read-ily, even eagerly, assented to the about he was in he hands of the canni-

ily, even eagerly, assented to the arrangement.

"It would be somewhat of a nulsance having her to look after," that lady had observed, "for, of course, she could not always accompany us upon our sightseeing, and would have to remain alone at our hotel during our absence. She would not have half enough to do to keep her busy, and would get lonesome and homesick, and perhaps insist upon being sent home. Besides, dear, since you and I will always be together, we can help each other; or, if we should find ourselves in a strait, we could find ourselves in a strait, we could easily get another maid."

about he was in he hands of the cannot bals.

Luckily, he had just recovered from an attack of fever, and was thin and emaciated. The shrewd cannibals demaciated to kill him immediately, but gave him the best they had to eat to fatten him up for the festive occasion. Days passed by until he reached the stage of perfection, and the chief and her will always be together, we can help each other; or, if we should find ourselves in a strait, we could not believe you will like me

Fiorence murmured; "it looks like a relic of some long-past age. But, of course, the man was bound to produce a ring of some sort, in order to carry out the role he had assumed; and so, as he had not provided himself with the conventional circlet, he was policiated to substitute one that he was probably rearling. It is probably an heirloom, for he certainly could not have treasured it for its intrinsic value. It proves one thing, above ever—that his personating Walter could not have been a premeditated act; in that case, he certainly would have provided himself with a proper ring. But it will not do for me to wear it, for it, would surely cause comment and emparrassing in a tiny ivory case that had a secret spring, then looked this in her level box and concealed the key.

It was well that she did last then, for morning found her raving in delirium; and, had it been upon her hand, it must have arroused the curiosity of Mrs. Seaver and others who assisted in caring for her.

As soon as sive recovered, however, her first act had been to slip the ring upon a delicate chain and fasten it about her neek, for Anna was of a prying disposition, and she thought it would be safer there than anywhere clae.

And now as she sat looking at it after the departure of Walter Leighton a curious smile wreathed her lips.

"I could have proven to him that I am not his wife by showing him this," she murmured; "but, somebow, I did not like to—le would be companied. The same way again," "Florence heartily responded." "I shall be necessary, I am on my guard now and will take heet that I do not get the curious thile to the companied; "it as been done beyond what a few which, indeed that I do not get tafter the departure of Walter Leighton a curious smile wreathed her lips.

"I could have proven to him that I am not his wife by showing him this," she murmured; "but, somebow, I did not like to—le would be companied with any provention of the safe that I do not get the companied was the safe there. The same way again," Florence responded wi and will take heed that I do not get caught in the same way again," Florence responded with another glance into the fine eyes that were regarding her with an earnest, ad-miring look which caused her heart to thrill with a novel sensation. (To be continued.)

### A LUCKY WOMAN.

How Good Health Came to Mrs. Deschesne Atter Much Suffering.

ohesne Atter Much Suffering.

Mrs. Abraham Deschense, wife of a well known farmer at St. Leon le Grand, Que, considers herself a lucky woman. And she has good cause as the following interview will show: "I was badly run down and very nervous. Each day brought its share of household duties, but I was too weak to perform them My nerves were in a terrible condition. I could not sleep and the least sound would startle me. I tried several medicines and tonic wines, but none of them helped me. In fidt I was continually growing worse, and began to despair of helped me. In fact I was continually growing worse, and began to despair of ever being well again. One day a friend called to see me and strongly advised me to try Dr. Wiliams' Pink Pills. I decided to do so, and it was not long before they began to help me. I gained in strength from day to day; my nerves became strong and quiet, and after using about a half dozen boxes of the pills I was fully restored to my old time health and cheerfulness. I now think Dr. Williams' Pink Pills an ideal medicine for weak women."

Dr. Wiliams' Pink Pills feed the nerves with new, rich red blood, thus, strength-

band's ward. "Wasn't Mr. Leighton's call a pleasant one?"

"Not altogether, auntie," Florence replied, flushing, and then she changed the sirbject so abruptly that Mrs. Seaver regarded her with surprise.

She did not give the circumstance much thought at the time, however, but many months later it recurred to her with peculiar significance.

The special allents of women. Get the genuine with the full to her with peculiar significance.

much thought at the time, however, but many months later it recurred to her with peculiar significance.

She sat with Fiorence for half an hour or more chatting pleasantly of their plans for the bouning year until the fair girl, finally appeared to forget the copression and annoyance she had at first betrayed.

The following Wednesday was the day set for their departure; but, contrary to her first intention, Florence had decided to leave her maid behind her, greatly to the girl's chingrin and disappointment, for she had iong been anticipating the trip, and had fully expected to accompany her young mistress, up to within a week of her departure.

But, ever since the night of her romantic, though mortifying adventure, Florence had entertained an inaccountable aversion for Anna; and ever adventure and an accountable aversion for Anna; and went to another island on a hour of inspection. He reached the is under the swaying grasses reached out in the process of the contrary of the proposition was given an exceedingly difference that decided to leave her maid behind her, greatly to the girl's chingrin and disappointment, for she had iong been anticipating the trip, and had fully expected to accompany her young mistress, up to within a week of her departure.

But, ever since the night of her romantic, though mortifying adventure, Florence had entertained an inaccountable aversion for Anna; and went to another island on a look up her pocket-book. The dead boy and went of another island on a look up her pocket-book. The dead boy and went to another island on a look up her pocket-book. # OFFICIAL RECORDS OF HOLSTEINS

The following additional seven-day tests of Holstein-Friesian cows and heifers have been accepted bor entry in the Canadian Record of Merit. The most remarkable of these is that of Faforit 5th, a cow sold by R. F. Hicks, of Newton Brook, Out., to H. A. Moyer, of Syracuse, N. Y. In an official test, under the supervision of Prof. Wing, of Cornell University Experiment Station, this cow produced 550.2 lbs. of milk and 26.34 lbs. of fat, equivalent to 24.31 lbs. of but ter, containing S5.7 per cent. of fat All the other tests in this list were made under the supervision of Prof. Dean, of the Ontario Agricultural College.

1. Faforit 5th (2.788), age, 3 years 6 days; milk, 550.2 lbs.; fat, 20.84 lbs.; cquivalent butter, 24.31 lbs.; owner, W. S. Schell.

2. Frietertje Hartog DeKol (2.216), age 8 years 23 days; milk, 408.5 lbs.; fat, 14.70 lbs.; equivalent butter, 17.16 lbs.; owner, J. A. Caskey, Madoc, Ont.

3. Echo Bell DeKol (2.276), age 5 years 5 months 17 days; milk, 303.9 lbs.; fat, 14.29 lbs.; equivalent butter, 17.16 lbs.; owner, J. A. Caskey, Madoc, Ont.

4. Gentle 2nd (2.611), age, 5 years 8 months 8 days; milk, 393.5 lbs.; fat, 13.32 lbs.; equivalent butter, 15.55 lbs.; owner, W. S. Schell.

12. Cora DeKol Pietertje (3.472), age, 5 years 6 months 17 days; milk, 303.9 lbs.; fat, 14.29 lbs.; equivalent butter, 15.55 lbs.; owner, W. S. Schell.

12. Cora DeKol Pietertje (3.472), age, 5 years 10 months 21 days; milk, 305.3 lbs.; fat, 13.32 lbs.; equivalent butter, 15.55 lbs.; owner, W. S. Schell.

12. Cora DeKol Pietertje (3.472), age, 5 years 10 months 21 days; milk, 305.3 lbs.; fat, 13.52 lbs.; equivalent butter, 15.55 lbs.; owner, J. A. Caskey.

13. Dolly Inka DeKol (3.473), age, 2 years 6 months 15 days; milk, 305.3 lbs.; fat, 12.52 lbs.; owner, P. D. Ede, Oxford Centre, Out.

6. Lassie Pearl (2.356), age, 6 years 5

# THE BOY TRAMP

They had just finished supper when there came the knock at the back door. The tender-hearted one rose and, pass-ing into the kitchen, opened the door. We heard a nurmur of voices, then the tender-hearted one came into the dining-room and began to heap a plate with

food.
"What are you going to de?" de-manded the unbelieving one. "Not feed ramps, I hope."
"That's just what I am going to do,"

was the calm reply.

"Now that is very foolish," returned
the unbeliever. "You will have a string
of them bothering the life out of you."
An ominous glitter came in the eyes
of the tender-hearted and rigid lines setof the tender hearted and rigid lines set-tled about her mouth. "This is only a boy," she said. "I shall give him some-thing to eat."

The worldly one understood. Years

The worldly one understood. Years ago there was a boy who was all in all to the tender-hearted. The grass grows on his grave now, but for the sake of that boy she is good to all boys. Hence the heaped-up plate of savory food she now carried to the boy tramp.

The unbeliever arose and followed her. It is, perhaps just as well to let these

It is, perhaps, just as well to let these tramps know there is a man about the It is, perhaps, just as well to let these tramps know there is a man about the house. This tramp was not very formidable in appearance. He was a boy of 16, possibly, with a nice face, dark, penetrating eyes and a pleasant smile.

The unbeliever began: "Well, what are you driving at now? What kind of game is this?"

under the swaying grasses reached out and touched her heart-strings too.

When she joined the others the unbeliever was still catechising the boy.

"You are pretty well dressed for a tramp," he said; "pretty gay necktie you've got on; pretty high collar—"

The worldly one interfered. "His collar is only celluloid and his shirt is regged. He is yory noor." lar is only celluloid and his shirt is ragged. He is very poor."
"Why don't you go to work?" de-manded the unbeliever.

"How is he going to get a job?" in-trupted the worldly one. "Will you recommend him?"

"Why, no," hesitated the unbeliever,
"how can I? I don't know anything about him."

about him."

"Just so," returned the worldling.

"Who does know him? And who is going to give an unknown lad a job?"

"He might get some work on the road to-morrow," suggested the unbeliever, dubiously.

Meantime the tender-hearted one.

They are human as much as you. I don't believe that boy was lying."

"Well,' said the unbeliever, "perhaps I was a litte hard on him. But then I guess I called the turn on him, all right. He was a runaway boy."

"And if he had a decent, pleasant home," spoke up the tender-hearted one, "he wouldn't have run away." She rose and loked out the window at the black, threatening sky. "I wish we had not let him go. Poor boy I should like to take him, give him a home and make him happy."

happy,"
"You gave him his supper,"snorted the
unbeliever. "I should think that was

To gave Am his supper, snorted the unbeliever. "I should think that was enough."

Then the unbeliever turned upon the worldly one. "You gave him money," he ejaculated. "Well, I did not know you were such a fool."
"I may be several kinds of a fool," returned the other, "but a boy who does not wish to have a comfortable bed behind bars is a boy over whom I am perfectly willing to be a driveling imbecile."

The unbeliever stared incredulously, "Well," he said, after a pause, "I yield to no one in sympathy for the unfortunate. But you two beat me. I caa't see how you are so easily gulled."

But the tender-hearted and the worldly one looked at each other. They understood. The dead boy in his grave had reached out and touched them.—Edith Sessions Tupper.

A WONDERFUL BIBLE.

"The most wonderful volume among the half million in the Congressional Library at Washington is a Bible which was transcribed by a monk in the sixteenth century,' said a gentleman connected with a leading book is this?"

The boy told his story straightforwardly, He had come from Chicago. Yes, he had beaten his way east on a train. Had been to Buffalo looking for work. Couldn't find any. Was now trying to get back to Chicago.

"That's a pretty good story," jeered the unbeliever. "Now, you know you the unbeliever. "Now, you know you thave run away. Why don't you tell the truth?". beginning of each chapter the first letter is very large, usually two or three inches long, and is brightly il-lumniated in red and blue ink. Within which the chapter tells. There are two traceable the slightest irregularity of line space or formation of the letters. Even under a magnifying glass they seem flawless. This precious volume is kept under a glass case, which is sometimes lifted to show that all the pages are as perfect as the two which lie open.

open. "A legend relates that a young man "A legend relates that a young man who had simed deeply became a monk and resolved to do pennance for his misdeeds. He determined to copy the Bible that he might learn every letter of the divine commands which he had violated. Every day for many years be patiently pursued his task. Each letter was wrought in reverence and love, and the patient soul found its only companionship in the saintly faces which were portrayed on these pages. When the last touch was given to the last letter the old man reverently klased the page and folded the sheets together. The illustrated initials in perfection of form and brilliancy of color surpass anything produced in the present day. With all our boasted progress, nothing in Europe or America equals it."—New York Press.

THE LITTLE WOMAN'S RETORT.

The mild business man was calmly rading his paper in the crowded trolley car. In front of him stood a little woman hanging by a strap. Her arm was being slowly torn out of her body, her eyer were flashing at him, but she constrained herself to silence.

Finally, after he had endured it for twenty minutes, he touched her arm and

said:
"Madam, you are standing on my "Oh, am I?" she savagely retorted;
"I thought it was a valise."—Kansas

## GRAND BIRTHDAY **★ CELEBRATION**

One of the most sincere and unique ributes of respect and esteem eve same management and with the same paid to any man was that accorded to Mr. Thos. Pounder of Boston at Lyndhurst on Wednesday last, when

nearly a thousand of his relatives and friends met to honor his Birthday. Mr. Pounder was born in the Emerald Isle in 1830, and in 1846, when but 16 years of age, came to America to seek his fortune, as hundreds of his compatriots were doing at that time. On landing in Boston he obtained employment in the chandler and soap business, and his industry, ability and siness, and his industry, ability and faithfulness soon secured for him mer ited reconition. Six years later, while still on the lower rungs of the ladder, he met and married Miss Elizabeth Earl, second daughter of Mr. Robert Earl of Lansdowne, she having accompanied Mr. Thos. Earl on his return to Boston after visiting friends here. The

marriage proved a peculiarly happy one, and together they fought successfully the battle of life. Three children blessed their union, only one of whom survives, a son, William, who has suc ceeded to the business of his father.

Patient industry, sterling intergrity, an intelligent application to business an intelligent application to business and an enterprising spirit brought them a large measure of success, and a few years ago Mr. Pounder was de-scribed as "the millionaire soap manufacturer." Recently, he sold out his business and invested heavilly in real estate in the growing suburb of East Boston, and in this line also he has

met with success. During these busy, prosperous years,
Mr. and Mrs. Pounder did not forget
their old friends in Leeds county, and
their old friends in Leeds county, and
all due honor to the Americans, Mr.

The are no matrimonial intentions on this side of the line. While giving a share of your patronage,
Mr. wm. wing to which, visiting his brothers, Messre.

James. Asa, and Henry, was among the guests present.

FALL GOODS

D. Wiltse at least once in two years came here to renew those ties which grow dearer and stronger as the years pass by, and in their beautiful home in Boston visitors from Leeds were always right

royally entertained. Three years ago, death entered their home and called Mrs. Pounder hence. From under the shadow of this great sorrow Mr. Pounder has never entirely emerged, but has continued to follow the paths which they so long trod happily together. Since the death of his wife, Mr. Pounder's visits here have been annual, and his coming is

always looked forward to with pleasure by friends and relatives in Leeds. And so the idea of honoring his 74th birthday took form, and the proposal was most enthusiastically endorsed by friends far and near. Mr. Robert Harvey of Lyndhurst was entrusted with the direction of the celebration, and to him and the various committees formed great credit is due for its suc

Early in the torenoon, guests began to arrive, and they were surprised and delighted to find the elaborate prepara-tions that had been made by the people of Lyndhurst The large main building at the fair grounds had been transformed into a perfect bower of beauty. Both the walls and ceiling were compeltely hidden with sprays of cedar, and these were decked with brilliant mountain ash berries, cut flowers and wild flowers in profusion. Above the richly furnished tables broad bands of white hung in festoons, bearing at intervals sprays of cedar, producing a very striking and pretty effect. Tables seating 165 were laid in three wings of the building, meeting in the rotunda. In the east wing a dais was erected, three sides and the ceiling of which were tapestried with colored material, making a very pretty stage. Here excellent music was dis

Horton of Sand Bay, Mr. Wm. War-

ren of Brockville, Miss Grey, Miss Knapp, Miss Lee, Mr. A. Jacob and Mr. Wood of Lyndhurst.

The rotunda was gaily bedecked with flags, bunting and mottoes, the latter the work of Mrs. F. Bresse. On one side an eagle surrounded with a border of American flags was shown. Opposite the platform appeared "Lyndhurst's Welcome"

But the tables—who shall describe them! Long reaches of snowy linen, decked with out flowers and supplied with the choicest viands the culinary skill of the ladies could produce. In the centre of the largest table a beautiful storey cake, faultlessly iced and that he would ever treasure up the last and Chickens bought avery Wednesday evening at Willson's every Wednesday evening at Wills ing rapidity, with courtesy unceasing, with every care and attention, over nine hundred guests were served with

dinner between the hours of 11 and 3, making a record of which any first-class hotel might well be pround. And the viands served at the last table were the viands served at the last table were just as hot as the first received. Within the building, Mr. Pounder welcomed the guests and moved from table to table exchanging greetings with the merry assemblage.

Out on the grounds the family reunity feature of the gathering, was being

ior feature of the gathering was being worked out in a delightful way. Relative met relative, friend met after years of separation, and their meetings and greetings were joyous. Family history was brought up to date in earnest converse, and then the visitor would move on only to be recogn ized, greeted and his or her attention claimed by some other friend or rela claimed by some other friend or relativo. It was a happy gathering in which the use of common kinship was fully recognized, a gathering in which all were conceded to be friends of "Uncle Tom," and with this common bond of union all felt free to be unre-

strainedly sociable.

By 3 30 the tables were all remove and the building seated with chairs and benches. Then Mr. Harvey, chairman of the day, opened the programme with a neat address in which he detailed the events that preceded the great birthday celebration. In his comparatively short acquaintance with Mr. Pounder he had tound him to be a man of broad

views, possessing an intellect cultured and refined by travel and careful reading. After congratulating him upon the magnificent demonstration in his honor, he introduced the first number on the programme, a song of welcome by the united choirs of the three churches of the village. Their voices blended well into a full tone well suited to the occasion, and in all parts

was well balanced. Rev. A. H. Sovereign, rector of the Anglican church, Lyndhurst, was the first speaker, and his address was positively brilliant. His subject, "Our American Friends," was ably handled. In extending congratulations to Mr. Pounder, he spoke of him as being a British subject who had found a home under the stars and stripes. Some of the very best Americans had been born and bred in Canada, and for the whole nation he had only the kindliest feelings, but he warned them that if at any time Miss Canada's actions should give ground for the suspicion that she is flirting with Uncle Sam they must not regard it as more than a flirtation

Sovereign's peroration was stirringly patriotic, composed of just such sentiments as should possess the hearts of young Canadians.

The chairman said he was glad learn that Mr. Pounder was an Irishman. Some people were proud of the

fact that they were Irish and others rejoiced that they were Scotch. Standing upon a bill in Ireland and looking over into Scotland, one might say there can be but little difference between these peoples; but for himself he fel sure that no matter how you mixed them up you wouldn't produce any Miss Bertha Pierce of Athens gave

vocal solo that was well received, and the choir followed with a harvest hom Rev. Mr. Meredith was very interesting in his treatment of the subject assigned to him, "How to make friends and keep them." After complimenting the managers on their selection of a chairman, he said he was glad to interpret the large representive gathering as a testimony that Mr. Pounder was appreciated as a citizen, a Christian and a gentleman. To make friends and keep them, he said it was neces sary to study man, his disposition and environments, and then interest yourself in what interests the person you

are dealing with. The orchestra gave a selection and Miss Frankie Bresee sang in good style one of the song-bits of the season, 'That's what the daisy said."

Rev. Mr. Bevridge had for his subject, "Influence," and he dealt with it in a bright, crisp way that both amused and instructed. Rev. R. B. Patterson of Athens invited to speak, and after expressing his appreciation of the privilege, he congratulated very warmly Mr. Pound-der on the passing of the 74th miles:one of his life's jouncy under such stage. Here excellent husse was an coursed during the dinner hours by an orchestra consisting of Mrs. and Miss happy auspices. He expressed the hope that the everygreen decorations
