Hamilton. The object is the extension of a branch of the W. G. & B. from Paisley to Owen Sound, thourgh Invermay. In view of the immense resources in mines and timber of the north shores of Georgian Bay, a good deal could be said in favor of the project. The route will have a sturdy rival in the Colpoy's Bay scheme. We have no doubt the one or the other will ultimately succeed." The Durham Chronicle also reports a meeting recently held there in the interest of an extension of the W. G. & B. Railway from Clifford to Durham. The English Directors of the Western were reported favorable to the extension on receiving a bonus of \$6,000 per mile, the distance being 19 miles. A bonus of \$30,000 is expected from Bentinck, \$40,000 from Normanby, \$10,000 from Glenels, \$15,000 from Durham, and something from Egremont. The Chanicle calls for unanimity of action, and we earnestly hope the scheme may be successful; and then hof for the last link needed to complete the chain—the extension from Durham to Meaford.

A new stimulant has been invented in England, and its growing use is exciting considerable slarm. The stuff consists of a mixture of maphtha and ether, and it produces a kind of intoxication which its admirers find highly agreeable. No check can be put on the consumption of the vile fluid, for the reason that it is not a sold under the name of an excisable spirit, and apparently an act of Parlament will have to be devised to meet the difficulty. We have heard before of people stupefying them selves with cologne water, and even agetting drunk on camphene, but this naphtha and ether mess certainly beats everyting in the way of exhilarating nastiness. Doubtless news will soon come of cases of spontaneous combustion, as consequences of indulging in this pleasant beverage. CHAPTER III.

WHAT KENNETH AND THE FISHERMEN FOUND
ON THE ROCKS.

It was an affecting sight, and one that drew tears from every eye. Kenneth laid his face ov r the gunwale, and drops fell on the water other than those cast by the oars; Dan Kirkby, too, raised the back of his rough hand and passed it across his eyes, murmuring in pitiful tones as he did so, "The puir orphan lammie;" while one of the rowers cried outright, and the others felt such a lump rising in their throats, which could not for some time be swallowed down.

"Ma! ma! speak to Goegy," wailed the little sobbing mourner, as again and again he kissed those cold and stiffened lips, and clung closer and closer to the dead bosom, where he had been wont to find warmth and shelter, but which now remained wholly unresponsive to his vehement grief. Oh death, death, what hand but thine could seal up the fountain of a mother's love and close a mother's ear to the cry of her child? Never till now had she disregarded the faintest murmer of her precious darling; he could not understand, therefore, how she lay there so still and white, and kept her eyes closed, and answered not his piteous wailing, but kept calling and calling with passionate wildness for her to speak to him; and, as still no motion came from the closed lips, and the sharp face turned not towards him with loving smile, his wild cries ended in convulsive sobs, that shook with violence his little frame.

The sight affected Kenneth beyond control. The beautiful child weeping and wailing on its dead mother's breast stirred his warm generous heart to the centre and with an impulse born of a generosity which would not fail, he knelt, down, gathered the child in his arms, and promised that he and Lucy should be parents to the helpless and friendless orphan, Was it but an imagination, the fruit of his holy enthusiasm, that suggested the impression of a smile fitting over the dead nother's face, or was it possible that the released spirit, lingering in pain, and waiting for the ponies of protection to

chance in bright and golden dreams, or in delightfully listening to "the angel's whisper."

The maniae's slumber was also deep and profound. Exhausted nature was doubties now claiming her due, after the toil and agony of that terrible night. This was the state of matters when they reached the shore, where they were received by a group of faces on which intense expectancy rested. Wonder, curiosity, pity, awe filled every heart when they saw the forms of the sleeping and the dead, and the sensation reached its climax when Kenneth stepping face of innocence and beauty nesting in his bosom. How mothers and maideas crowded forward, full of womanly sensibility and exclamations of melting tenderness, and a compassion of heart deeper than any words or circulations could express. Tears flowed down many checks, and many pressed forward to kiss with trembling gentleness the rosy checks and ruby lips of the unconscious slumberer.

Kenneth paused a moment on the beach to allow of this outburst of rude but true and genuine feeling; also to see the fishermen carry away the dead body to lay it beside the others in the barn. The disposal of the sleeping maniae was a more difficult matter, but Dan Kirly solved the problem for the present by offering to have him taken to his house and attended to there, till more permanisationely he was wrapt in blankets, hid cautiously on a hand-barrow, and borne away to the fisherman's cottage.

Hypothosympton Cereb by Fellows' Hypothosympton Cereb by Fellows' Hypothosympton Cereb by Fellows' Hypothosympton Cereb by Fellows' Dear Sir, —I came to this country in May, 1869. I found a countryman of mine laboring ander some affections of the lungs. I recommended your Syrup, tried at the Druggists in Harbor Grace, but they though I was inventin the name at their expense. However, in April, 1869. Mr. Edgar Jones rapidly, wasted a way with every symptom of quick consumption, so that he was unable to walk across the room, having no appetite, pains in the left side, nervous system unstrung, dry, hacking cough, &c. Fortunately Hearned that your Syrup could be obtained at Mr. Dearin's, in St. John's, and immediately procured some (showed one to W. H. Thompson, who ordered a smply at once). This was Tuesday afternoon; at night he took the precribed dose, and in the morning he described the very results notified on the wrapper. His appetite soon began to return, and a voracious one it was, too; the dry, hacking cough changed into loose but violent attacks, finally disappearing altogether; pains left his sides, his hard assumed its usual steadiness, and before he finished ten bottles his health was quite restored and to day not a more healthy person is to be found on our streets; and it is the opinion of all, had he not been fortunate in getting your valuable Syrup of Hypophosphites, he would now be in his grave, I also recommended it to another consumptive, but have not heard from him since, as he lives in a distant part of the Island. Hoping this will give you some encouragement. I remain yours, &c., D. H. Burnpoe. HASTY CONSUMPTION CURED BY FELLOW

Nine years before the public, and no preparation for the hair has ever been produced equal to Hail's "Vegetable Sicilian Hair Renewer," and every honest dealer will say it gives the best satisfaction. It restores GRAY HAIR to its original color, eradicating and preventing dandruff, curing BALDNESS and promoting the growth of the hair. The gray and brashy by a few applications i changed to black and silky locks, and wayward hair will assume any shape the wearer desires. It is the cheapest HAIRDRESSING in the world and its effects last longer, as it excites the glands to furnish the nutritive principle so necessary to the life of hair. It gives the hair that splendid appearance so much admired by all. By its tonic and stimulating properties it prevents the hair from falling out, and none need be without Nature's ornament—a good head of hair. It is the first yeal perfected falling out, and none need be without Nature's ornament—a good head of hair. Tooth ache proceeds from ague in the face, operating upon the exposed nerve of a decayed tooth. Rub the gun thoroughly with the finger, wet with Johnson's Anadyne Liniment, heat the face well, and lap a flannel wet with the liniment on the face, also put a little of the liniment in to the cavity of the tooth on cotton.

The system frequently gets out of order and should be at once regulated, else other troubles shall ensue; when a physic is needed take Parson's Pargative Pills; they are a safe, wholesome, and natural medicine.

No intelligent mind can fail to observe how the various and ever varying wants of the community are attended to by the enterprising merchants of Guelph. Instancing Hardware, in Mr. Horsman's Establishment, so noted for many years as the Emporium of everything in his line of business, it is somewhat astonishing to take a comprehensive view of the variety of his stock in Guns, Pistols, Ammunition, Fishing Tackle, House Furnishings, idoor Oil Cloths, Mats, Ivoy Table Cutlery, Plated, Ware, Bird Cages, Flower Baskets, Smoothing Irons, Tea Trays, Wringers, Mangles, Idanys, Mechanies' tools, Besides the great assortment of Farming Implements, Sevines, Smaths, Rakes, Forks, Hoes, Building and General Shelf and Heavy Hardware, Oils, Paints, Colors, Varnishes, One gets from this a slight idea of what it is to carry on with enterprising spirit a large Wholesde a Retail Hardware Establishment.
