FRIDAY, AUGUST 24, 1923

**NOTE AND COMMENT**

Sir Conan Doyle's famous detective stories of Sherlock Holmes have been barred from the libraries of Inverness, Scotland, by the authorities who have charge of the county education because of their corrupting influence on the young.

In July, 1923, there were 5,713 accidents reported to the Workmen's Compensation Board, this being the largest number in the history of the Act. Of this number 38 were fatal. This figure is higher than the previous month of June, when 5,523 accidents were reported.

**Brantford Expositor:**—It is said that when Calvin Coolidge entered college the son of a country store-keeper, he secured board at \$5 per week, while Thomas A. Edison boasts that when he served the Grand Trunk Railway at Stratford some sixty years ago he paid the princely sum of \$1.25 a week for his board. One could scarcely get a meal ticket of tooth-picks at such prices now.

After all, what better memorial could be erected to our heroic dead than that the people should honor them by living the principle for which they sacrificed themselves. And the heroes were not only the soldiers on the battle fields, but are unnumbered in all walks of life, more notably the fathers and mothers of pioneer days.

**Acton Free Press:**—Farm wages this year appear to be generally higher than they were in 1922. Farmers who think they can afford it are paying experienced men as much as \$50 a month and board; others are going without help and planning to raise smaller crops. Many a farmer wishes he knew where he himself could get \$50 a month in cash besides his living expenses.

**Brooklyn Eagle:**—If it is a misfortune for Britain that labor agitators and politicians have more to do with today's lawmaking than the Oxford and Cambridge men who dominated cabinets in the last century, it is a curse for the United States that men of classical training are of little influence in Washington and at state capitals. Littleness is everywhere, in all factions, in all parties, on every platform and in every forum.

Once more there are groans from towns where guarantors have to make up deficits for Chautauquas. The wonder is that the management can find people willing to sign the rather one-sided agreement. There is no fault to be found with the Chautauqua programs. But it certainly is an expensive undertaking, in which the local committee assumes all the risk, with practically no chance of financial gain.—Orillia Packet.

**Parkhill Gazette:**—Photos of aged people who are climbing up to the hundred or ninety mark have appeared frequently lately in the papers of Canada. Poor old bodies, how tired they must be of it all. To linger on after all life's interests have been lost to survive your friends, to not be needed by your children but be a care for them, to belong to a by-gone age, to be left out of the chatter and the gaiety, is that living? Better a life crowded full to the very end, better to be in death while we are still in the midst of life—but—the choice is not ours and we wonder whether condolence or congratulation would be proper for those who reach a 90th birthday.

The Home Bank of Canada has deemed it advisable to suspend payment. Announcement to this effect was made Friday afternoon following a meeting of the Board of Directors, at which the assistant general manager presided, a report showing that the immediate liquid assets of the bank had been practically depleted. Negotiation with other banks for the absorption of the Home Bank having proved futile, it was found necessary to close the doors of the institution. A. B. Barker, Toronto, has been appointed curator.

It is gratifying to learn that Latin has lost none of its popularity in the High Schools of the United States. In cities of 100,000 and over in 1922 it was studied by 23.3 per cent, while French was studied by 21.2 per cent, Spanish by 21.1 per cent, and German by 1.6 per cent. of enrolled pupils. This statement will surprise some educationists who decry the study of Latin. We endorse the statement of Ellen Glasgow, the novelist, who says: "But I maintain, and will repeat it, that you never find a gentleman of culture and elevated tastes who has not at least a bowing acquaintance with the Latin language."

**CHANGES IN THE KING CABINET**

Ottawa, Aug. 17.—Important Cabinet changes are announced tonight, namely:  
Hon. J. A. Robb, Minister of Trade and Commerce, since the formation of the King Government, takes the portfolio of Immigration and Colonization.

Hon. T. A. Low, member of the Cabinet without portfolio, succeeds Mr. Robb as Minister of Trade and Commerce.

Hon. E. M. Macdonald, who has been acting Minister of National Defence, becomes Minister of Defence.

These changes entail two by-elections. Mr. Macdonald will seek re-election in Picton and Mr. Low will have to seek re-election in South Renfrew.

Under the present appointment of Mr. Robb, the Immigration Department has been in the hands of Hon. Charles Stewart, Minister of the Interior. Mr. Robb, it is announced, will give full attention to developing the immigration plans already worked out by Mr. Stewart and the Government for an energetic and carefully considered campaign of immigration and settlement.

Writs for the by-elections in Picton and Renfrew will be issued immediately. In both cases nominations are fixed for September 6th and polling for Sept. 20th.

**LONDON LADY FINDS RELIEF**

Mrs. Crabb Finds in Dreco, the Famous Herbal Remedy, Corrective Properties that Overcome Sufferings of Years.

The story of Mrs. A. Crabb, of 22 Rayburn street, London, Ont., is an object lesson to every man or woman who is troubled with digestive ailments. It shows the extent of the suffering bad digestion causes if allowed to pursue its way unchecked. Check your digestive complaints now, with Dreco, and avoid the misery that Mrs. Crabb describes. Here is her statement:

"Since August 17th, 1922, I have been in terrible pain through my left side and also around through my back. The pains were so acute that night after night I would walk the floor, unable to sleep. I was unable to do my housework and I was in misery from morning to night. Gastric trouble caused my stomach to bloat and my sufferings from indigestion were awful.

"I began taking Dreco January 15 and today I feel like a new woman. The pains have entirely gone and I am now able to do my own housework and cooking. My appetite is good and I have no gastric troubles while before taking Dreco, everything would turn my stomach.

"I had tried every kind of pills and remedies and had almost given up hope when I thought of Dreco. I am so happy over the benefits Dreco has given me that I tell everyone about it. It was a godsend and I am continuing to use it."

Dreco is a natural remedy, prepared from herbs, roots, bark and leaves that were known for ages for their medicinal properties.

Dreco contains no mercury, potash or habit forming drugs and is a safe and certain tonic and regulator.

Dreco is being specially introduced in Watford by Siddall's Drug Co., and is sold by a good druggist everywhere.

The Oil of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

**Blats' Diary**

By Ross Farquhar

Friday—Pa is all ways making untactful remarks like for instance this evening when ma ast him if he had saw her kimona round the house pa up and says. Why I diddent no it wood reach that far. And then ma sed a few unrespectful things referring to his relashuns and pa slung a few insults about here and all to gether the evening was fur from being a pleasant 1 which proves as things witch is ekal to 1 another is ekal to ennything else.

Saturday—Mrs. Gill em was a telling Blisteres ma that she had just bot a fine new dimond. & as soon as Blisters herd about it he runs right up to see her and ast her cud he rent her dimond and she was puzzled and sed why what fur and he ansd and replide why for are team to play base ball on it of corse.

Sunday—Me and the gang went out in the country and found a apple tree full of apples and we cummensed to eat. Prity soon the kids sed fer me to cum on and go a swimmin but I told them if they got me away from there it wul be acrost my ded body. It was the 1st time I got enuff apples to eat since my sick spell las summer.

Monday—Got into trouble with ma's husband witch is comunly aluded to as Pa but are relashuns is rether strained just now. He advised me to mow the yard but I took a hike and went swimmin insted and pa got sore and grabs me and sed he was going to lam me and ma up and sed Dont you dare lick that boy on an emty stumick. So he turned me over the other direkshun.

Tuesday—We got a joak on Pa. Ma found a paper in his pocket witch sed Big Joe 2842 and when ma ast him what it was he sed it was sum stock witch he had Perchised. And tonite the telephone rung and ma called pa and sed to him. Yure stock wants to tawk to you about sum kind of a game or sum thing.

Wednesday—The preacher was here tonite and he was a trying to exclaim to me that Tomorrow never cumms. Well all I got to say is If Tomorrow never comes what becomes of today. That's what I want to no.

Thursday—Joe Gale is still out of a job yet. He told pa he cud get out a job as a Time keeper down at the mill only he diddent have no wach.

**DOPED THE BEAR AND THE BEAR DOPED THEM**

The marvelous exploits and extravagant fiction of the late Baron Munchausen was no doubt considered wonderful to the dwellers of the eighteenth century, but was no more impossible than the vivid stories dished up to the readers of the London Free Press by their Beach Park correspondent every Saturday. It is a wonderful place for marvelous exploits, this Beech Park, and the correspondent is not lacking in imagination should the attractions get stale. The following up-to-date story came from Beech Park Saturday:

A party of hunters from the border cities camp in the woods east of Abe Warner's farm each year. They arrived on Monday of this week as usual.

One of the party suffers from asthma and before leaving home he secured a box of morphine tablets from his physician to use during the trip in case he needed them. He was unable to accompany his comrades on the hunt Tuesday morning, and the same was true the next day. About noon on Wednesday, however, he felt much better and decided to hunt awhile by himself.

He traveled about half a mile from the camp, when he came on a large bear, which, without warning, gave chase to him. His rifle refused to fire, so he took refuge in a tree, with the bear underneath, apparently determined to keep him there.

He was up the tree about two hours and while wondering if he would have to stay all night he suddenly thought of his morphine tablets. He threw them in the bear's mouth just as the enraged beast was preparing to roar. The bear swallowed them, box and all.

A few minutes later the animal staggered and then went to sleep, curled up around the trunk of the tree. The hunter descended and went home, where he told his companions of his misadventure.

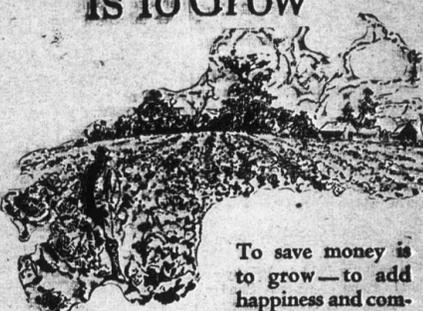

They decided to kill the bear while he slept. They did this and brought its hide and hindquarters back with them. That night they had fine bear steaks for supper, which all enjoyed.

On Friday morning the postman brought them their weekly mail, but found the whole party still fast asleep from eating the doped bear's meat. He had considerable difficulty in arousing them.

**MacLACHLAN CLAN HOLDS BIG REUNION**

Over 250 people were present at the reunion of the McLaughlin Clan all of whom were descendants of the late Hugh McLaughlin, who landed from Kilmartin Manse, Argyleshire, Scotland, and from whence the name of the settlement a short distance from the picnic springs. In addition to baseball games and other sports there were addresses from various members of the clan. Alex. Leitch read the history of the clan in which he outlined the accounts of various members of the family from the landing of Hugh McLaughlin to the day of the gathering. Nevin McLaughlin also gave a well-worded address. A musical program was also followed out with Henderson's Pipe Band, of London, and Sam and Dorothy Munro, London, loyally entertained the audience and were later assisted by home talent. Relatives from Detroit, Bad Axe, Calgary, London and local points began to gather shortly after ten o'clock and there was a continuous round of entertainment from then till well on into the afternoon. Persons, who had not seen one another for years, met and chatted over bygone days and in other ways the time passed pleasantly for all. Luncheon, which displayed a high calibre of culinary art, was prepared in the early evening and ample justice was done to the repast.

**PLYMPTON**

A number of gypsies are camping on the side road adjoining the Shane farm. By the number of horses and people it would appear they are holding a reunion.

A large number of farmers are in need of rain as water is scarce for the stock. The grain is all harvested and the ground ready for fall plowing.

Archie Dawson accompanied by Mr. McDonald, the ex-member from Chesley, is spending some days with his cousins, Archie and Alex Dawson of Plympton, also with his cousin, Miss Mary Dawson of Wyoming.

**WANSTEAD**

Mr. and Mrs. W. E. Morningstar and Mr. and Mrs. A. Morningstar spent Thursday in Port Huron.

Mr. Stanley Morningstar, Merlin, spent Friday at his home here.

Mrs. Elma Ramsay and Miss Gladys Ramsay spent last week visiting in Sarnia.

Mr. and Mrs. A. E. Morningstar and daughter Jean motored to Lynbrook Saturday and spent over Sunday with Mrs. McKnight, who taught school on the townline a few years ago.

Chas. Patterson and Arthur Vickin left Wednesday for the West.

The Wanstead Farmers' Club shipped two cars of hogs and lambs to Toronto Saturday. They will load again in two weeks.

**Asthma Victims**

The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

**Careful Experiments Made With Cattle and Hogs.**

Communication and Destruction of Germs—Not Blown About Like Fog or Vapor—Kept Alive in Manure.

(Contributed by Ontario Department of Agriculture, Toronto.)

At a conference of veterinarians engaged in the eradication of tuberculosis in live stock, held in Chicago, a valuable paper was read by Dr. Schroeder, Superintendent of the Bureau of Animal Industry at Bethesda, Md., who gave details of the results of experiments which he has conducted during many years on the subject of how tuberculosis is carried from one animal to another.

The first experiment he described was where two stables were used, designated T and H.

T. B. Germs Destroyed by Air and Sunlight.

Stable T held for six years a tuberculous herd of about 20 cattle ranging from cattle that were healthy to those that were in the last stages of generalized tuberculosis. Healthy cattle put into this stable contracted the disease very quickly, and deaths were not uncommon. In stable H a herd of 20 to 30 cattle were kept during the same time, but no case of tuberculosis developed among them. Men employed in stable T were not allowed in stable H nor were utensils used in T ever taken into H. Dr. Schroeder believes that this experiment confirms the research of various investigators to the effect "that we have no satisfactory reasons to believe that tubercle bacilli can retain their virulence long enough in tuberculous sputum or other substances to become pulverized sufficiently to be carried about by currents of air, and even if this were possible the germs would be so exposed to light in the minute particles which can float in the air that they would speedily die."

Germs Not Blown About Like Fog or Vapor.

Another experiment of a similar character was carried out on a two-acre field which had been divided into three inclosures, each containing a stable 16 feet square. The inclosures were designated A, B and C.

A was separated from B by a woven wire fence. C was separated from B by two lines of woven wire fence eight feet apart. Several tuberculous cows, some healthy cattle and some healthy brood sows were placed in stable B. Healthy cattle and healthy brood sows were placed in A and C. At first each inclosure had its special attendant but later one man was given the care of all of them, with the injunction that he should attend to the stock in the order of C, A, B. If it was necessary to enter A or C after having been in B, he was required to clean his shoes of manure. This experiment continued with the one man in charge for seven years. Inclosure B proved to be a dangerous place for both hogs and cattle. A few hogs in A contracted tuberculosis, but none of the cattle, and both hogs and cattle in C remained free. As a comment on this experiment, Schroeder says, "Tuberculous infection is a concrete thing, which is not blown from place to place like a mass of vapor or fog. There are many ways in which it can be transported, but they are simple, easily comprehended ways." This he showed by a third experiment. He had two pastures separated by a small woodland and a cultivated field. A stream flowed from one field called I to the other called E. A herd of tuberculous cattle was placed in I and a healthy herd in E. Several of the cattle in E contracted tuberculosis.

Healthy Cattle Contract the Disease by Contact.

Experiments regarding the danger of allowing healthy cattle to come into contact with diseased ones are quite impressive. Calves which nursed a tuberculous udder only once or were fed just once on tuberculous milk from a pail invariably contracted the disease. Schroeder has two records of healthy bulls contracting the disease while serving tuberculous cows, but none of healthy cows contracting the disease during service by tuberculous bulls.

Schroeder's studies show that if healthy cattle are protected from direct contact with virulent tuberculous material or with diseased cattle, their chances of contracting the disease are slight, even nil. For eight years he has been alternating a healthy herd and a diseased herd from stable to stable. The stable in which the diseased cattle were kept is carefully cleaned, but not disinfected, special care being taken to remove caked masses of manure. After a week or ten days the healthy cattle are put in, and the tuberculous cattle put in the stable formerly occupied by the healthy cattle. Both stables are frame structures with earth floors. No cases of tuberculosis have ever developed in the healthy herd.

T. B. Germs and Manure Piles.

Dr. Schroeder closed his paper with this significant statement, "Tubercle bacilli have been proved at the station to remain alive and virulent in a manure pile, some distance below its surface, for a period upwards of six months, but they will not stay alive, in stables or elsewhere, unless they are protected by opaque masses of some kind against the action of the light."

Dehorn cattle on any fine dry day when flies do not abound, but not in very hot or very cold weather. The operation should not be performed when a cow is advanced in pregnancy. It is best done after she has recovered from calving.

C. A was separated from B by a woven wire fence. C was separated from B by two lines of woven wire fence eight feet apart. Several tuberculous cows, some healthy cattle and some healthy brood sows were placed in stable B. Healthy cattle and healthy brood sows were placed in A and C. At first each inclosure had its special attendant but later one man was given the care of all of them, with the injunction that he should attend to the stock in the order of C, A, B. If it was necessary to enter A or C after having been in B, he was required to clean his shoes of manure. This experiment continued with the one man in charge for seven years. Inclosure B proved to be a dangerous place for both hogs and cattle. A few hogs in A contracted tuberculosis, but none of the cattle, and both hogs and cattle in C remained free. As a comment on this experiment, Schroeder says, "Tuberculous infection is a concrete thing, which is not blown from place to place like a mass of vapor or fog. There are many ways in which it can be transported, but they are simple, easily comprehended ways." This he showed by a third experiment. He had two pastures separated by a small woodland and a cultivated field. A stream flowed from one field called I to the other called E. A herd of tuberculous cattle was placed in I and a healthy herd in E. Several of the cattle in E contracted tuberculosis.

No cases of tuberculosis have ever developed in the healthy herd.

T. B. Germs and Manure Piles.

Dr. Schroeder closed his paper with this significant statement, "Tubercle bacilli have been proved at the station to remain alive and virulent in a manure pile, some distance below its surface, for a period upwards of six months, but they will not stay alive, in stables or elsewhere, unless they are protected by opaque masses of some kind against the action of the light."

Dehorn cattle on any fine dry day when flies do not abound, but not in very hot or very cold weather. The operation should not be performed when a cow is advanced in pregnancy. It is best done after she has recovered from calving.

**CHOLERA INFANTUM**

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months, and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent all the dreaded summer complaints. They are an absolutely safe medicine being guaranteed by a government analyst to contain no opiates or narcotics or other harmful drugs. They cannot possibly do harm—they always do good. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Guide-Advocate is well equipped to handle all printing orders.

**Enduring Values**

THE trade-in price of a 1921 Ford is equal to the trade-in price of other 1921 cars which cost 30 to 50% more than the Ford when new.

This is proof of the Ford quality and the guarantee that the purchase of a Ford is an investment as distinguished from an expenditure.

A very successful picnic of the  
McPhedran family from Camlachie  
and Sarnia took place on Wednesday  
August 15th at Crinnian's Grove.  
There was a large number present  
and a notable attraction was the  
presence of the first McPhedrains,  
four generations. The afternoon was  
busy with one event after another,  
races, baseball, etc., and about six  
o'clock all sat down to a chicken sup-  
per. The picnic was a success in  
every way and it was unanimously  
decided to continue having a re-  
union each year.

**ALVINSTON CHILD BADLY**

Alvinston, Aug. 21.—What  
have proved a fatal accident  
ed on Wallace street last  
when Jack, two-year-old son  
of Mr. and Mrs. J. Barnes, re-  
ceived injuries when struck by a  
car by Joseph Barnes. It ap-  
pears that the child was stand-  
ing on the front of his home and on set  
car approaching stepped off  
side of the road. The driver  
off to avoid striking him,  
mediately the boy made a dash  
the road to his home, running  
ly in front of the car. The  
struck him, inflicting injuries  
side of his head and his mouth  
required several stitches. For  
the car was being driven at  
rate of speed.

**WEDDING ANNIVERS**

On Sunday, August 12th,  
party of friends and relatives  
and Mrs. Joseph Redmond  
at their home, Moose Jaw, S  
occasion being their fourtee  
ding anniversary. A very in-  
teresting and enjoyable time was had  
a very enjoyable time was had  
the weatherman contributor  
fect day as his share of the  
ment.

The table was handsomely  
set with flowers, Mrs. E.  
the cakes and ices, Miss  
son and Miss Blanche Hou-  
ed on the table while M.  
Elsom supplied the music.

Among those present  
and Mrs. E. A. White of  
and their two children,  
holidaying in the West, t  
son also being their eight  
anniversary; Mrs. James  
mother of both Mrs. Red  
Mrs. White; Mr. and Mr.  
Elsom and their two dau-  
Misses Irene and Vernia,  
from Regina; Mr. and Mr.  
Houser and their daughter  
of Moose Jaw.

There was not a dull mo-  
ment the day and all agree  
most pleasant day was had

**ALVINSTON CHILD BADLY HURT**

Alvinston, Aug. 21.—What might have proved a fatal accident occurred on Wallace street last evening when Jack, two-year-old son of Robt. Yorke, local barber, received severe injuries when struck by a car driven by Joseph Barnes. It appears the child was standing on the road in front of his home and on seeing the car approaching stepped off to the side of the road. The driver turned off to avoid striking him, but immediately the boy made a dart across the road to his home, running directly in front of the car. The fender struck him, inflicting injuries to the side of his head and his mouth, which required several stitches. Fortunately the car was being driven at a slow rate of speed.

**WEDDING ANNIVERSARY**

On Sunday, August 12th, a large party of friends and relatives of Mr. and Mrs. Joseph Redmond gathered at their home, Moose Jaw, Sask., the occasion being their fourteenth wedding anniversary. A very fine dinner had been provided for all present and a very enjoyable time was had by all, the weatherman contributing a perfect day as his share of the entertainment.

The table was handsomely decorated with flowers, Mrs. Elson cut the cakes and Miss Irene Elson and Miss Blanche Houser waited on the table while Miss Verna Elson supplied the music.

Among those present were Mr. and Mrs. E. A. White of Winnipeg and their two children, who are holidaying in the West, this occasion also being their eighth wedding anniversary; Mrs. James Saunders, mother of both Mrs. Redmond and Mrs. White; Mr. and Mrs. Herbert Elson and their two daughters, the Misses Irene and Verna, who motored from Regina; Mr. and Mrs. William Houser and their daughter Blanche, of Moose Jaw.

There was not a dull moment during the day and all agreed that a most pleasant day was had by all.

**INWOOD**

Mrs. J. Wall is in Thamesville this week.

Dr. and Mrs. Urie were Strathroy visitors on Friday.

Mr. Jim Johnston of Port Huron spent Sunday in town.

Mr. John W. MacVicar returned to Toronto on Sunday.

Mr. and Mrs. R. J. Rutherford are visiting friends in Toronto.

Mr. and Mrs. J. Bishop and family spent the weekend in London.

Mrs. Smith of Detroit visited Mr. and Mrs. D. Lloyd last week.

The Inwood Baseball team were successful—winning two games out of two at the picnic last Wednesday.

Mr. and Mrs. Earl Johnston, Detroit, are guests of Mr. Johnston's parents, Mr. and Mrs. J. W. Johnston.

Mr. Alex. Tyler of Kansas City, is the guest of Mrs. J. P. Warner and nephew, R. B. Warner.

Miss Effie MacVicar, Mr. and Mrs. Crawford and baby Jack, visited Mr. and Mrs. J. Brown, Thamesville, on Sunday.

Mr. and Mrs. John E. Burgess, Mr. and Mrs. Freeman Burgess, Chatham, and Mr. and Mrs. Thos. Bayton, Bothwell, were guests at the home of Mrs. Wm. Chapman on Sunday.

Last Friday Mr. and Mrs. R. J. Richardson attended the birthday party of Mr. Richardson's uncle, Mr. John Richardson, at the home of Wm.

Bourne, Alvinston. Mr. Richardson was 83 years old.

**CHOP STUFF**

Mrs. Alex. Rolston of Euphemia fell and broke her wrist, which accident was followed by a stroke.

The Sarnia Observer will erect a new building and instal a twenty-page rotary press of latest design.

Two carloads of calcium chloride will be placed on the London Road in Sarnia township. This will come as welcome news not only to local motorists but also to tourists.

About a year ago the use of this material was brought to the attention of the provincial highway department by the Sarnia automobile club after its use had been investigated by members of the local suburban roads commission and the members of the Lambton county council.

The placing of any sign or board advertisement within half a mile of a provincial highway is now a criminal offense and the police are supposed to lay charges against the persons responsible for placing such signs.

Among the recent transfers in local household property Mrs. Craig has purchased Sid Welch's house on John street and the latter has purchased Mr. A. Owen's house on the same street.

The Canadian Bank of Commerce has taken over the Parkhill Branch of the Bank of Montreal and the latter will take over the Bank of Commerce at Ganonoque.

Some of the recent English immigrants are said to be "simply thrifting" to see the Old Land again.

A special train carrying 2,300,000 pounds of high grade table salt manufactured in river bank plants left Sarnia for New York City on Friday.

It was the largest single shipment on record through the local depot, and comprised sufficient packages of salt to allow one for every family in New York. The train was so long that it required a rotary camera to photograph it.

Managing Director John G. Kent predicts an attendance at the Canadian National Exhibition of 1,500,000 an increase over last year of approximately 128,000 people. He figures the farmers' attendance and the rush from American cities will account for the jump over a year ago, which up to this time is the record.

Music Day at the Canadian National Exhibition will be on Thursday, August 30, when there will be band, instrumental and vocal competitions and a series of outdoor concerts about the grounds by outstanding choral and operatic organizations.

The death occurred in Victoria Hospital, London, on Friday, Aug. 10th, of Frances Rawlings, beloved wife of William Porter. Deceased only went to that institution on Wednesday afternoon and on Friday she underwent an operation from which she never rallied. Deceased who was in her 57th year was a daughter of the late Mr. and Mrs. Hiram Rawlings, and was born on the Lake road, Bosanquet township. The funeral was held on the following Monday to Ravenswood cemetery.

A daily average of 1120 cars of freight is being maintained through the Tunnel station, which is an unusually high average for this season of the year.

Thos. Holloway, an old resident of Puce, who has been ill for some time with cancer, passed away at his home on Wednesday morning. He was about 70 years of age, and is survived by one daughter who lives at Puce. His wife died last spring.

Mr. and Mrs. Jacob Thrower, of Strathroy, announce the engagement of their eldest daughter, Leta Mildred, to Mr. Edward W. Scott, eldest son of Mr. and Mrs. Herbert Scott, of Strathroy, the marriage to take place the latter part of August.

Damage estimated at close to \$6,000 was done to grain fields on the Walker Farm near Walkerville, by a fire that is believed to have started by sparks from a passing engine on Thursday. Dry as tinder, the stacks of grain burned like tissue paper. Most of the grain destroyed was oats.

Mr. and Mrs. Jacob Sproule, Oil Springs, announce the engagement of their only daughter, Annie Marguerite, to Lloyd C. Nicholson, eldest son of Mr. and Mrs. R. J. Nicholson, Wyoming, Ont., the marriage to take place August 28th.

Garland Gould, eldest son of Mr. and Mrs. Orval Gould, River road, Florence, was unfortunate when his eye was pierced with a fork, which he and his sister were playing with. Mrs. Gould rushed Garland to the doctor's office. It is thought that the sight of the eye is not effected.

Sores Flee Before it.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy as there is nothing like it to be had. It's cheap, but its power is in no way expressed by its low price.

Edgar Frank, a farmer living on the Mill road/Strathroy, suffered a fracture and dislocation of the right arm at the elbow on Saturday afternoon, when he fell about four feet from a wagon which had become slippery from the rain. He was engaged along with Dan Sloan in moving a house for James Fletcher, from the 2nd line north to the 2nd line south. Mr. Frank was taken to the Strathroy Hospital, where the fracture was reduced. He was later removed to his own home.

During the past ten days farmers all over the Ruthven district have been working almost night and day to keep up with the rush of work which is facing them on all sides. The extra big tomato crop has been the heaviest the growers have had to harvest in ten years, and still the vines are loaded to the breaking point and carloads are being hauled to the stations and shipped every evening. These same growers are also cultivating 20 and 30-acre fields of corn and tobacco, both of which demands their attention most of the time, as both crops are extra good and fast maturing. The large fields of alfalfa are about ready to be cut for the second crop this season while a third cutting will be taken off late this fall. This will sure be one of the years that will fill all the granaries and barns in this section.

James and Frank Holling of the 8th line, of Plympton, were charged with manufacturing liquor contrary to the O.T.A. Only the evidence of James was taken and was to the effect that officers visited the farm on August 9th armed with a search warrant. The defendant is alleged to have dumped a barrel of mash when he saw them coming. They shovelled up two gallons of it and put it in a jug for evidence. Detailing Constable Whiting to look after the jug and the three Holling Brothers, Constable Scott and two brother officers set out to search the barn. They had not gone far when they heard a crash and returned to find the jug smashed. How it came to be smashed was not brought out as the officer's evidence would have a bearing on the case against Frank Holling, which was adjourned till Tuesday in Sarnia.

When a mother detects from the writhing and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

A gruesome and tragic fatality occurred on the farm of Arthur Hill, Mersea-Tilbury West town line, Monday afternoon. Mrs. George McKilpatrick and little son Eugent, about three years of age, had gone to Hill Farm to spend a few days, and the boy was riding with the men, who were hauling oats. On one of these trips he rode to the back gate of the lane, and then started for the house alone. About twenty minutes later, at Mr. Hill was returning to the barn with a load of oats he saw the little fellow's cap at one side of the lane and a bunch of hogs clustered excitedly about some object a few rods further into the grove. He went to investigate, and found that the hogs were rending the body of the little boy. He carried the lifeless body to the barn and summoned Coroner Leader, who deemed an inquest unnecessary. Mr. George McKilpatrick father of the deceased boy, is at present in Persia. Mrs. McKilpatrick had but a week ago moved from Chatham to Wheatley so as to be near her parents, Mr. and Mrs. W. G. Hyatt, during the absence of her husband.

**Prince of Wales a Canadian Rancher**

This photograph of the Prince was taken on his first visit to the Dominion. To the left is seen a picture of his ranch, and above it an interior view of one of the suites aboard the Empress of France, bottom right.

HIS Royal Highness the Prince of Wales will for a month or so become a simple Canadian rancher. That he will travel incognito on his coming to Canada does not mean that he will travel in disguise but that he will not take part in official functions or make official visits, and when approached with regard to his stay in the Canadian Dominion he has always stated that his time will be fully taken up by the affairs of the E. P. ranch.

The Prince of Wales exhibits a deep and marked interest in the ranch he purchased near Calgary on his memorable tour of the Dominion, and his desire to visit it is but a fresh indication of the importance he attaches to it and the work it is doing. Immediately after purchasing the ranch, and before returning to England, the Prince made arrangements for the shipment of some of the best stock in the British Isles to the Canadian West. Thoroughbred horses came from the Royal stud, short-horns from the King's farm, shropshire sheep from the Duke of Westminster's estate, and hardy Dartmoor ponies from the Devon moors. The latest importation consisted of a thoroughbred stallion and four mares the finest obtainable in the British Isles. "Will Somers", which heads the stud at the E. P. ranch is a handsome five year old which at three years was the winner of several English classics.

Thus the Prince has demonstrated that his purchase of the ranch was not a matter of sentiment or commercial profit, but a genuine desire to foster the breeding of better livestock in the West. His efforts have been eminently successful. At all provincial exhibitions the animals from the High river ranch are attractive features, and last Fall, shorthorn cattle, constituting the first commercial sales the ranch has effected, commanded top prices.

Cattle from the E. P. exhibited at the stock show at the Calgary Stampede were heavy prize winners, and sheep and horses from the same ranch created an unparalleled standard.

The Royal rancher has planned to arrive at Quebec on September 12th on the Canadian Pacific steamship "Empress of France". The palatial liner, 18,000 tons, which was the flag ship of the 10th Cruiser Squadron on Northern patrol duty during the War is the most up-to-date vessel of its type and is most suited to the accommodation of its distinguished passenger. Reconditioned after the war, this ship is one of the most magnificent yet comfortable vessels in trans-Atlantic service. It holds the record for oil. Its large and comfortable suites and cabins, spacious promenade decks, numerous and excellently appointed public rooms and service facilities make the Empress one of the most popular ships in the Canadian Pacific fleet.

# Agitate for Community Action in Control of European Corn Borer

No single farmer can expect to keep his corn crop free of the European Corn Borer unless all his neighbours are also fighting the pest. For this reason some sort of co-operation is essential. You can organize your whole neighborhood by arranging a mutual plan of campaign whereby each farmer undertakes to account for the Corn Borers on his own farm.

This plan will assist in bringing the Corn Borer under control, but without such co-operation, satisfactory results will not be obtained.

## A Very Important Point

Cut corn crop low and as soon as it is ready. Burn all corn stalks. Garden sweet corn should all be pulled early and burnt.

Plough down all corn stubble very carefully. Seed to winter wheat where possible. Write for pamphlet, post free.

### FOREST

Messrs. W. Flater, T. Maylor and Albert Hare have returned from a month's trip to the oil fields at El Dorado, Arkansas. They report that prospects are very bright for the oil investor in that region.

Mr. and Mrs. Will Osborne, Flint, Mich., and Mrs. W. McRitchie and daughter, of Sarnia, are visiting with their parents, Mr. and Mrs. William Frayne.

Harold Steele and wife, of Detroit, are holidaying with Mrs. K. Kennedy and Mr. and Mrs. Frank Steele.

Mrs. M. G. Cole was called to Chicago owing to the serious illness of her aunt, Mrs. Thomas.

Prof. Green and Mrs. Green and three children who have been visiting Mrs. Green's parents, Mr. and Mrs. Easton, returned to their home in Sudbury.

Ben Scouler of Dutton is visiting with his parents, Mr. and Mrs. James Scouler; also Mr. and Mrs. Hughes and children of Souris, Man., are visiting Mrs. Hughes' parents, Mr. and Mrs. Scouler.

H. J. Pettypiece, C.P.R. representative, booked forty-one for the harvesters' excursion to the west.

### ODDFELLOWS FOR FIFTY YEARS

On Monday evening of last week, Royal Oak Lodge, No. 108, I.O.O.F. Forest has a visit from several brother Oddfellows from Sycamore Lodge Arkona. One of the number was Bro. Alex. Thoman, Sr., who on Aug. 11, celebrated the 50th anniversary of his initiation as an Oddfellow. On Aug. 11th, 1873, Messrs. Alex. Thoman, Henry A. Hoover, Hamilton Hoover and Alias Koppelberger, were initiated into the bonds of Oddfellowship and became members of Royal Oak Lodge. The Conkeman Brothers were Noble Grand and Vice Grand on that night. The object of these four men was to organize a lodge in Arkona, and after their initiation in Forest they instituted Sycamore Lodge, Arkona, and became the charter members. Of these four brother Oddfellows, Mr. Thoman is the last survivor. During the evening short addresses were given by Mr. Thoman and other visiting brothers. Mr. Thoman said he always had a warm spot for Royal Oak and had seen many changes in the past 50 years. He gave some good advice to the younger members asking them to devote more time to the work of Oddfellowship.

During the evening another Royal Oak member stated that it was his 50th anniversary in the person of Brother S. A. Kenzie, who was initiated on Aug. 13th, 1873. Bro. Kenzie during those 50 years has been a regular attendant at lodge meetings, and still takes an active interest in the affairs of Royal Oak. He was also called on to give a few remarks.

The degree team then administered the Initiatory Degree to a candidate after which all the brothers retired to Bro. Brush's restaurant where refreshments were served.

### PETROLIA

Mr. J. S. Shannon, of the C. Umphrey Co., Ltd., has purchased Ab. Drope's grocery and takes control on September 1st. Mr. Shannon was in business in Oil City for ten years.

John Walker, of Petrolia, is suffering from an injury to his leg sustained when his auto struck some gravel on the London Road near Sarnia and took to the ditch. The machine also was badly damaged.

The alterations to the Postoffice held up on account of the war are now being proceeded with. They include the installation of 300 extra boxes. J.&J. Kerr Co. have the contract.

The sale of assets of the W. R. Stephenson estate (Petrolia Business College) realized about \$900. After the preferred claims have been provided for the estate will pay creditors about five cents on the dollar.

Clayton Graham, 15 year old Wainstead boy who was seriously injured by accidental explosion of a dynamite detonator near Wainstead last week was reported to be in a very weak condition at the Petrolia hospital on Saturday and only slight hopes are held out for his recovery. Graham received the full effect of the blast which tore a gaping wound in his abdomen and shattered his right hand. His companion, Kenneth Pye, escaped with powder burns.

Mrs. John Fraser and daughter, Queenie, of Detroit, are visiting friends in Petrolia.

**Asthma No Longer Dreaded.** The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So safe do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it today and know for yourself. m

### CURRIE—SCARSBROOK

A very pretty wedding took place at one o'clock Wednesday, 15th inst. at the home of G. E. Wadland, 202 S. Brock street, Sarnia, when the marriage of Miss Bessie Scarsbrook, second daughter of the late Mr. and Mrs. Albert Scarsbrook of Petrolia, to Gerald William Currie, son of Mr. and Mrs. Wm. Currie, of Franklinville, N.Y., was solemnized by the Rev. R. W. Knowles. The bride was charmingly attired in grey georgette trimmed with cut steel and coral beads, wore a smart black velvet hat and black satin shoes and a corsage bouquet of pink and white sweet peas and baby's breath. The happy couple left on the two o'clock train for Buffalo and other eastern points. The bride wore a navy blue satin gown and platinum grey wrap for her travelling attire. Mr. Currie, who was manager of the Petrolia Hydro Electric for the past 12 years, leaves on September 4th for Columbia, South America, via New York, where he has secured a position with the International Petroleum Co., Ltd. Mrs. Currie will remain in Petrolia on their return from their honeymoon.

Read the Want Ads on Page Four.

### THE CALL OF GEORGIAN BAY

Georgian Bay—that gleaming stretch of Lake's Huron's waters, dotted with 30,000 islands of all shapes and sizes, is one of the most delightful and popular of Canada's summer playgrounds.

It is so beautiful and there is so much to do—canoeing, bathing, fishing, yachting—all these delights await the lover of the water. On land there are sports aplenty—tennis, golfing, lawn bowling, picnicking and dancing for those on pleasure bent and for those who are weary of the gay social whirl there are hundreds of alluring trails over wooded heights and camping grounds where primitive pleasures restore the jaded spirits of the city dweller.

The shoreline of the Bay is dotted with resorts to suit every taste. The breezes from across the broad expanse of Lake Huron are always cool and invigorating, and the waters here abound in black bass, muskellong, salmon trout and other fish. Hotel accommodation is good.

All the chief points on Georgian Bay are reached by Canadian National Railways and descriptive booklet may be procured free from any of their agents.

Corns are painful growths. Holloway's Corn Remover will remove them.

# Fletcher's CASTORIA

Aids in the assimilation of Food, promoting Cheerfulness, Rest, and Natural Sleep without Opiates

To avoid imitations, always look for the signature of *Charles H. Fletcher*  
Proven directions on each package. Physicians everywhere recommend it.

### FIVE YEARS' AGONY END

When He Took "Fruit-a-1  
For Rheumatism

The Medicine Made From  
There can be no doubt  
"Fruit-a-1" is the long  
remedy for Rheumatism and  
bago. From all over Canada  
letters testifying to this fact.  
Mr. John E. Guilderson of  
boro, N.B. writes: "I suffered  
with Rheumatism for five  
tried different medicines—was  
by doctors in Amherst—and  
home—but the Rheumatism  
back.

In 1916, I saw an advertiser  
"Fruit-a-1" and took a 1  
got relief, so I took them for  
six months and the Rheumat  
all gone and I have never felt it

# FIVE YEARS' AGONY ENDED

## When He Took "Fruit-a-tives" For Rheumatism

The Ferguson Government has cancelled the arrangement made by the Drury Government for the revision and consolidation of the Ontario statutes.

A Stratford man claims to have concocted a mixture that if sown with grain will stop the ravages of the destructive wire worm. In tests on farms in Perth County this summer the results appear to bear out his claim.

The Prince of Wales upon his visit to his ranch in Western Canada in early September, will deny himself to the public, taking a complete rest. The prince's strenuous round of duties and his devotion to sport have told on him. He will remain in Canada until early October.

Regulations governing the sale of naphtha for use in lamps have been established by an Order-in-council at Ottawa. The regulations provide that naphtha shall not be sold for use in lamps, unless the lamps are of a design approved by the Canadian Fire Underwriters' Association, or the Western Underwriters' Association.

A resident art representative in Europe of the Canadian National Exhibition has collected an exceptionally attractive exhibit of British and European masterpieces for the Fine Arts Gallery. The Canadian collection is also said to be well selected. There will, as usual, be a display of graphic and applied arts and an International Photographic Salon.

Rev. H. J. Fair, a supernannated minister of the Methodist church, who, during his ministry, occupied many pulpits in the London conference, died at his home at Toronto Thursday. He was born in Onondago Township, 68 years ago. He is survived by two brothers, John of Brantford, and Peter of Park avenue, London, and three children.

Wheat yields in Manitoba will average 15 bushels an acre this year, according to an estimate compiled by George Batho, statistician for Manitoba Department of Agriculture. The crop in the central western and northern parts of the Province is reported best, while the eastern and southern areas average will be around 12 bushels. The coarse grains and potato crops are reported as being very good.

The largest pig in the world is Australian, it is claimed. The animal exhibited there recently weighed 1,188 pounds, or more than half a ton, and measures 8 feet 3 inches in length. Its height is 3 feet 9 inches; it has a waist measurement of 6 feet 5 inches; while it is only twenty-five months old. This giant looks more like a hippopotamus than a pig, and when it has finished growing it is probable that it will resemble an elephant more than a product of the farmyard.

The cost to the Province of the Gregory Hydro-Electric Inquiry Commission, appointed to please ex-Premier Drury, will probably reach \$450,000, according to information given out at the Parliament Buildings, Toronto. The Commission had spent \$400,000 when the new Government came into office, but it has since been curtailing its disbursements in accordance with instructions that it bring its work to an expeditious close.

An appeal for the use of the term "English-speaking" in place of "Anglo-Saxon" since the former included the Celtic races, and the latter did not, was made by W. G. Raymond, M.P., speaking at the Rotary Club luncheon at Brantford on Thursday. He declared that he believed the destiny of the English-speaking nations was the establishment of world peace by co-operation, since no war could be carried on if the British Empire and the United States were opposed.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective is mild.

### DELICATE GIRLS NEED NEW BLOOD

Rich, Red Blood Means Health and Strength.

The anaemia of young girls may be inherited, or it may be caused by bad air, unsuitable food, hasty and irregular eating, insufficient out-of-door exercise and not enough rest and sleep.

It comes on gradually, beginning with languor, indisposition to mental or bodily exertion, irritability and a feeling of fatigue. Later comes the palpitation of the heart, headaches, dizziness following a stooping position, frequent backaches and breathlessness. In a majority of cases constipation is present. There may be no great loss of flesh but usually the complexion takes on a greenish-yellow pallor.

Cases of this kind, if neglected, become more serious, but if taken in time there is no need to worry. Dr. Williams' Pink Pills, which are free from any harmful or habit-forming drug, are just the tonic needed to remedy this wretched state of health. Though it is not noticeable, improvement begins with the first dose. As the blood is made rich the pallor leaves the face, strength and activity gradually return and the danger of relapse is very slight.

If any symptom of anaemia appears, prudence suggests that Dr. Williams' Pink Pills should be given at once, and the sooner they are taken the more speedily will their action improve the blood. You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### IMPRESSIONS OF OLD LONDON AS SEEN BY AN AMERICAN BUSINESS MAN

Mr. W. S. Ashby, an American business man, who has been over in England, has been telling his fellow-countrymen what he thinks about London, and he speaks in warm praise of its handling of traffic problems. The entrance into London at Paddington Station, he says, is free from the disorder and unkept appearance of most American cities. In fact, the whole English countryside gives you the impression of being cultivated and well-kept; and is in sharp contrast to the littered appearance presented by the view from the car window of an American train. The first thing to impress one on arriving from New York is the quiet and absence of hurry. At first thought one might surmise that the English are slow, and we've had enough reports to that effect to warrant our thinking so. But first impressions, while vivid, are often wrong. There is an absence of haste and noise, but no appreciable sacrifice of speed. At the crossings there is no shuffling of traffic officers' whistles, no banking of pedestrians on the curb and no stopping of vehicular traffic for blocks. The traffic officer is in the midst of it all, and is busy every moment. He stands there clam, deliberate, almost in a detached sort of way, but there is precious little that misses his eye. Instead of holding up traffic at long intervals, he seems to keep it moving along in all directions at once, and at many of London's corners the "all directions" is well used, for streets radiate in several directions. He directs traffic, rather than stops it and starts it. And here is another thing about the English—their courtesy. They are anxious to help, and "please" and "thank you" are frequently used words in the language. The "bus conductor thanks you for your fare, the waiter thanks you for his tip, the lift man thanks you when you give him the number of your floor. The London "bobby" or policeman, knows his London and directs you promptly, politely and accurately, without waste of words. The Londoner does not push, crowd or hustle, but he knows where he is going, and will gladly help you get where you are going in an orderly, comfortable and quick way. So, if one were to check up on the question, I would say that for all the Londoner's apparent deliberation, he is moving towards his destination as quickly as any New Yorker, and making far less hubbub about it. It is this quiet efficiency that is misleading and is so often mistaken for slowness.

Also pocket size 2 for 5c

This distinctive head means to you that the matches are sure and safe—always dependable—non-poisonous, no glow, the kind that won't gnaw—stronger and longer, different and better.

Look for the head—a band of blue, tipped with red. It is the symbol of match excellence.

### MAPLE LEAF MATCHES

Different and better  
THE CANADIAN MATCH CO. LIMITED, MONTREAL

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

### THEY TELL THEIR NEIGHBORS

#### Women Tell Each Other How They Were Helped by Lydia E. Pinkham's Vegetable Compound

Woodbridge, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles. I would have headaches, backaches, pains between my shoulders and under my shoulder-blades and dragging down feelings on each side. I was sometimes unable to do my work and felt very badly. My mother-in-law told me about the Vegetable Compound and I got some right away. It has done me more good than any other medicine I ever took and I recommend it to my neighbors. You are quite welcome to use this letter as a testimonial if you think it will help some poor sufferer."—Mrs. EDGAR SIMMONS, R. R. 2, Woodbridge, Ont.

In nearly every neighborhood in every town and city in this country there are women who have been helped by Lydia E. Pinkham's Vegetable Compound in the treatment of ailments peculiar to their sex, and they take pleasure in passing the good word along to other women. Therefore, if you are troubled in this way, why not give Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Upper School Examinations

The standing obtained by the pupils of the Watford High School at the Departmental examinations is given below. A blank under a subject indicates that pupil did not write that subject. A T indicates first class Honors or marks between 75-100, a II between 66-74, III between 50-66, C a credit between 50-69.

Table with columns for subjects: Literature, Composition, Algebra, Geometry, Trigonometry, History, Botany, Zoology, Physics, Latin Authors, Latin Composition, Fr. Composition. Rows list student names and their scores in each subject.

SEPTEMBER DEPARTMENTAL EXAMINATIONS

Table showing exam schedules for Middle and Upper School from Sept. 6 to Sept. 17, listing subjects like Fr. Auth., Fr. Comp., Geometry, Eng. Comp., Algebra, Literature, German Auth., German Comp., Zoology, Physics, Anc. His., Trigonometry, Chemistry, British Hist., History, Lat. Auth., Lat. Comp., and Lat. Comp.

WARWICK COUNCIL

Aug. 20th, 1923. The council met today as per adjournment. Members all present. The minutes of the last meeting were read and adopted. The following orders were granted: J. McGillicuddy, damage to car on 21 sideroad, \$10.00; John Dolan, 1800 4in. tile furnished, \$4.00; Thos. Chambers, gravel furn., \$28.00; Geo. Brodie, inspecting S. Maw's sheep, \$1.50; W. McLean, gravel furnished Stanley Maw, 2 sheep and 5 lambs killed by dogs, \$76.00; A. Meadows, gravel furn., \$151.50; Russell Rivers, gravel furn., \$101.75; Wm. Evans, performing A. Dotzert's road work, \$4.00; S. B. Chambers, holding grad-er on 27 sideroad, \$2.50; F. Conkey, part payment for gravel, \$100.00; Muma-Chambers, that the Reeve get legal advice re complaint of Fred Wynne in connection with the repair of the Edwards drain and report at the next meeting of the council.—Carried. The engineer's report on Jarriott-Tyler Drain was read when it was moved by Mr. Muma, seconded by Mr. Parker, that we accept the report and that the clerk be authorized to prepare a by-law for the same and that S. B. Chambers be appointed commissioner on the same and to serve the by-laws.—Carried. By-law No. 7 for the Jarriott-Tyler drain was read the first and second times and provisionally adopted. The council then adjourned to meet on Monday the 24th day of September at one o'clock p.m. as a court of revision on the Jarriott-Tyler drain by-law and for general business. N. Herbert, Clerk.

ARKONA

Full range of Monarch yarns at Fuller Bros. Miss Sarah McKay has returned after two week's holidays. Misses Iva and Berta Johnston are visiting in Sarnia this week. Mr. and Mrs. Geo. Stoner have returned from a visit in Galt and vicinity. Mr. and Mrs. F. Stoner of Adrian are visiting Mr. and Mrs. Geo. Stoner this week. Mr. and Mrs. Geo. Caughill of Aylmer spent the weekend with Mr. and Mrs. Austin. Mr. and Mrs. Jas. Hartley of Petrolia visited Mr. and Mrs. Wm. McKay on Sunday last. A number of boys of town and vicinity left on Wednesday, Aug. 15, for the harvest fields of Western Canada. Miss V. Bryson of Windsor, Mrs. Mary Woodhull and granddaughter, Miss Della Woodhull of Hemlock, Mich., are visiting Mr. and Mrs. R. Riggs. The union service in the Methodist church next Sunday evening at 7.30 will be in charge of Rev. Gale, pastor of the Presbyterian church. Everyone welcome. Mr. Blakeston of Stratford, representing the Lord's Day Alliance, occupied the pulpit of the Methodist church most acceptably last Sunday morning. Rev. A. W. Hare, a former pastor of the Presbyterian church here, is with his wife and family renewing acquaintance in the village at present. The Ladies' Aid of the Methodist church held their regular monthly meeting at the home of Mrs. Wm. Hall last Thursday afternoon. There was a good attendance. Mr. John Carrothers of Marlette, Mich., visited Arkona relatives over the weekend, his cousin, Mrs. May McLean, returning to Marlette with him on Monday. The house at Rock Glen occupied by Mr. Woolvet, the Power Co.'s engineer, is being moved to the top of the hill. Mr. Sharpe of Watford is overseeing the work. Rev. Hare motored to Arkona, last Monday to join his wife and children who have been visiting Mrs. Hare's parents, Mr. and Mrs. Alex. Oakes, for the past month. They returned to their home Wednesday. There will be no preaching service in the Methodist church Sunday morning because of the absence of the pastor, Rev. E. J. Roulston, who is holidaying at Bruce Beach on Lake Huron. Sunday School at 10 a.m. as usual.

Where Everything is Better Quality and Most Things at Lower Price.

KERWOOD

A very interesting game of basket ball was played in Watford last evening between Watford and Kerwood teams, the score being 7-13 in favor of Kerwood. Miss Beatrice Woods was a patient in St. Joseph's Hospital, London, for several days last week when she had her tonsils and adenoids removed. Miss Irene Dowding of 2nd line, Miss Winnie Dowding of Strathroy are visiting their aunt, Miss Martha Dowding. Mr. and Mrs. Fred Rapley and family of Yale, Mich., spent Sunday with Mr. and Mrs. Angus McLean. The members of the Epworth League were entertained by the Watford Epworth League last Monday evening. All report an excellent time. The Mission Circle will meet on Friday afternoon Aug. 24th, in the church basement. All the members are requested to be present as there is important business to discuss. Next Sabbath Rev. Kerr, a former pastor, will occupy the Methodist pulpit both morning and evening. Mr. and Mrs. E. Payne and son of Chicago motored and are spending a pleasant holiday with Mrs. Payne's parents, and also visiting other relatives in the vicinity. Mr. Wm. Leacock visited relatives in Briden recently. Miss Eva Morgan of Wawanessa, Man., is visiting relatives here. Mrs. Geo. Denning is visiting

WATFORD FALL FAIR

The prize lists of the East Lambton Agricultural Societies fall exhibition to be held in Watford Thursday and Friday, Sept. 20th and 21st, have been printed and are being distributed. Secure a copy from J. R. McCormick, secretary, or at the Guide-Advocate office and get ready to exhibit something at the show. The prize list has been revised and some prizes added. The school children's department shows some attractive prizes for the young people, and the usual number of special prizes are offered by business men and others. There will be two trials of speed on the second day, a 2.19 trial for trotters and pacers with a purse of \$300.00, and a 2.50 race with a purse of \$200, also ladies', men's, girls' and boys' foot races. A dance under the auspices of the Society will be held in the Armory on the Friday night.

INFORMATION FOR SPORTSMEN

Changes in the regulations under the Migratory Birds Convention Act affecting the shooting of migratory game birds in certain provinces have recently been authorized by Order in Council. Under the Order a further closed season throughout the Dominion has been provided for Wood Duck, extending until January 31st, 1924. A similar closed season has been provided for Eider Ducks, except that Eider may be shot in the Yukon and Northwest Territories during the regular open season provided for ducks in those localities. The open seasons provided by the Regulations under the Migratory Birds Convention Act for the season 1923-1924 for Ontario and Quebec are as follows: Ducks, Geese, Brant and Rails. In Quebec: Sept. 1 to December 14, both dates inclusive. In Ontario: Sept. 1 to December 15, both dates inclusive. Shorebirds or Waders, including only the following: Woodcock, Wilson or Jack-Snipe, Black-bellied and Golden Plovers and the Greater and Lesser Yellowlegs. In Quebec: September 1 to December 14, both dates inclusive. In Ontario: September 1 to December 15, both dates inclusive, except that on Woodcock the open season shall be from September 15 to October 15 both dates inclusive.
