QUIC CAMPAIGN LAUNCHED AGAIN

Acclamation for Board of Edu-
cation in Third Ward, and
Candidates for the Other
Offices Do Not 'Bulk' as
Largely as They Did a Year
Ago.

The municipal election campaign is
formally "on." There are three in the
field for the mayoralty, half-a-dozen
for the board of control, and contests
for aldermanic honors in all the wards.
Those nominated last night and who
did not give evidence then of with-
drawal, number 25, as follows: Ward 1,
one; Ward 2, five; Ward 3, seven;
Ward 4, four; Ward 5, six; Ward 6,
two; Ward 7, three. In the latter ward,
only two are to be elected, Edward
Wakefield opposing the present repre-
sentative, who were elected last year
by acclamation.

Last year, 41 were in the field for al-
dermanic honors, divided: Ward 1, six;
Ward 2, nine; Ward 3, five; Ward 4,
seven; Ward 5, eight; Ward 6, six.
Last year five ran for mayor and 10
for board of control, while 18 contested
under the city-wide voting system, for
the board of education, with only six
to be elected. This year, two will be
elected from each ward, and in the
third ward, the retirement of Miss
Cora Brett Martin paved the way for
the election of the veteran C. A. B.
Brown and Alex. Lewis, the latter a
newspaper reporter with municipal ex-
perience, who is a contestant for the
first time, and who is the legitimate
opponent of James Simpson, journalist,
who disappears. Dr. Ogden, for nearly
half a century a member of the school
board, also retires, while Marmaduke
Rawlinson, after nine years on the
board, is a candidate for council in the
third ward.

Two Aldermen Retire.
From council, Ald. Hamby (Ward 2),
and Ald. Welch (Ward 6), retire. Ex-
Ald. Saunders is a candidate in the
first ward, and J. W. Comerford
(Ward 4), and Fred McBrien (Ward 6),
nearly elected last year, are both in
the field again. Ex-Ald. McGhie de-
clined a nomination in the sixth ward,
while Ald. McMurrich told the electors
that this would probably be his last
appearance, after 15 years in council,
and 14 years on the old school board.

Mayor Gets Busy.
Mayor Geary made a flying tour of
the city, attending the nomination
meetings in all the wards except the
first and seventh. He remarked that
he had a "bit of a contest on his
mind" at his nomination yesterday,
but that he had no chance. Mayor Geary
declared at the fourth ward gathering
that while he would not say that his
opponents for office were sworn to in-
terference with the hydro-
electric scheme, yet he was convinced
that all the influence of the anti-hydro-
electric interests would be swung in
their behalf, and he urged all who were
supporters of his to be prepared; keep
a sharp look-out for herrings that
might be drawn across the trail.

Controller Chubb also visited several
of the meetings. Ex-Controller Hocken
and Ex-Ald. Davies are the two new
aspirants for the board.

NO TRACE OF GRACE

Little Hope Now for Safety of Missing
Aviator.

LONDON, Dec. 23.—There was no
news this afternoon of the fate of
Cecil S. Grace, the aviator, who dis-
appeared in the fox while attempt-
ing a return flight from Calais, France,
to Dover, yesterday. It is feared that
he fell into the North Sea.

FATHER AND BROTHER KILLED

One Chicago Fireman Suffers Severe
Loss—Falls Exhausted.

CHICAGO, Dec. 23.—Alex. D. Lan-
gan, captain in the fire department,
killed at the stockyards fire Thurs-
day, died late today. This makes the
official list of dead 24. Coroner Hoffman
announced that the inquest will be
opened Wednesday morning.
A peculiarly pathetic scene occurred
at the funeral this afternoon when the
body of Capt. Dennis Doyle, the last to
be recovered, was taken from the ruins.
Fireman Edward Doyle, a son of the
captain, collapsed when his father's
body was found. Edward Doyle had
been at the fire for nearly 36 hours. He
had assisted in finding the body of his
father. Nicholas Doyle, also killed in
the fire, was refused to leave until that
of his father was recovered.
It was announced that a fund of
\$25,000 is desired. Of this sum \$50,000
had been subscribed when the commit-
tee's office closed for the day.

A Xmas Sermon.

To be honest, to be kind; to earn a little
and to spend a little less; to make upon
the whole a family happier for his pres-
ence; to renounce when that shall be nec-
essary, and not be embittered; to keep a
few friends, but these without captiva-
tion—above all, on the same grim con-
dition, to keep friends with himself—
in a task for all that a man has of forti-
tude and tenacity. He has an ambitious
soul who would ask more; he has a
hopeful spirit who should look in such an
enterprise to be successful. There is, in-
deed, one element in human destiny that
not blindness itself can controvert; what-
ever else we are intended to do, we are
not intended to succeed; failure is the
fate allotted. It is so in every art and
study; it is so above all in the continent
art of living well. Here is a pleasant
thought for the year's end or for the end
of life: only self-deception will be satis-
fied, and there need be no despair for the
despairer.—Robert Louis Stevenson.

DUKE OF CONNAUGHT NOT NEXT GOVERNOR-GENERAL

Semi-Official Hint Received From
England—Needed in the
Old Country.

OTTAWA, Dec. 23.—(Special.)—The
Duke of Connaught will not be the next
governor-general of Canada. At least
that is the opinion in official circles in
Ottawa. The opinion is based on a sub-
stantial hint of a semi-official nature
received from the mother country.

It was announced shortly after the
death of King Edward that it had been
the wish of the King that his brother,
the Duke of Connaught, should go to
Canada as governor-general, and for
that reason the term of Earl Grey was
extended for a year. However, King
George is said to have discovered that
the duties devolving upon a King of
England are too numerous and too oner-
ous for one man to attend to. There
is a constant succession of coronation
ceremonies, opening of hospitals and
countless other similar functions, where
the King feels he should be represented
in person, or by a prince royal.

When Queen Victoria was on the
throne she had as aides, King Edward,
then Prince of Wales, and the Duke of
Connaught. When King Edward came
to the throne, he was assisted by the
Duke of Connaught and Prince George
of Wales. King George, however, finds
that he has only one competent assis-
tant to represent him, and this is the
Duke of Connaught, and this is the
reason why he is not yet old enough to
take his place as his father's representative.

The necessity for the Duke of Con-
naught remaining in England is said
to be becoming more and more evident
to the members of the royal family,
and it is believed that someone else will
be named to succeed Earl Grey.

It is unlikely that Earl Grey will re-
main here another year.

100,000 LETTERS AN HOUR PASS THRU POST OFFICE

Record in Stamping Made Last
Night During the Handling of
Xmas "Push" Matter.

"Just a slight token to let them
know that the heart in the old land
beats in response to that in the new
land across the sea," said Dominion
Supt. George Ross last night as he
stood in the mailing room down at the
general postoffice, where the packages
were being sorted for the mails.

As he mused on the scene, and it was
an animated one, Mr. Ross picked up
here and there a parcel, one large, an-
other small, each bearing according to
the postoffice instructions an inventory.
Here was a pair of baby's stockings,
there a pair of boots, a book, a calen-
dar.

There is one night in the year known
among postal men as the "big draw,"
and down at the general postoffice last
night was the particular one in ques-
tion. It did not last long, it never does,
but while it was in progress, probably
less than two hours, and that between
6.30 and 8.30 p.m., the sight was a
thrilling one. In no other way could
the great social and commercial life of
the city and province be more truly
gauged.

All On the Job.
Not alone the regular staff, but
scores of extra clerks had been pressed
into the service, and so tense was the
situation and concentrated the effort,
that, in all that big throng, numbering
up to 1,000, not a word was heard.
"Every man to his post," was the
slogan thrown out by the superin-
tendent. The sorting tables, where the
letters run thru the mailing machines
like grain thru a mill, were literally
lammed with employes, all working at
high pressure.

"What is our record for the day?"
asked Mr. Ross to Superintendent
Wright.

"In all, we have put thru 500,000 let-

The Viaduct Will Carry

The World has received assur-
ances from all quarters that the
viaduct bylaw will carry by
thousands of votes.

Almost every property holder on
Yonge-street is for it. The
business men are for it. The
west end is for it on the ground
of fair play. The first, second
and third wards are almost
unanimous.

The only two opponents in
sight are The Globe and The
Star. And they won't get on the
platform.

Big British Mail.
"There will arrive to-morrow from the
Luskans 160 sacks, and from the St.
Louis 350 sacks of British mail for dis-
tribution in Toronto. When the enor-
mous capacity of one sack is considered,
some faint idea of the work in store for
the clerical and carrier staff between
now and Monday night may be imag-
ined.

Together 1,000 sacks of British mail
will reach the general postoffice during
Saturday. And how will the contents
reach their destination before Mon-
day night?

On Saturday and Monday each there
will be 200 carriers in the city 100 rick-
shaws and 100 men. The rickshaws will
be placed where the heavy mail comes,
and where the light mail comes, where
no rickshaws are given an extra carrier
will be put on. In this way the authorities
will be able to cope fully with the enor-
mous increase. They take little note
of time, these postoffice employes. As
each man enters and leaves the depart-
ment he registers his name.

Hard on Workers.
"Look here," said Superintendent
Wright, as he ran his hand down the
list, "all the sub-stations here this
morning at 9 o'clock, and not a man of
them has yet signed out. Twelve hours
of work in the city, and the men have
not even signed out yet."

But it must not be supposed that the
authorities make no provision for the
physical wants of their devoted staff.
Up on the second floor of the new an-
nexe, in a clean, well-lighted, spacious
dining-room, and there, in turn, the
men are served with hot coffee and the
best of bread, and during which time
refreshments. And the heads of depart-
ments are just as unsparring of them-
selves. Twelve, 14 and 16 hours
straight work is not unusual.

The citizens have an incompar-
able service in due alike to the execu-
tive and unsparring work of every man
from Supt. Ross clear thru the list.
Everywhere there is system, perfect
system, coupled with good hard, con-
scientious work.

Get Refreshments, Too.
Get down at the Union Station, too,
where 60 men were last night working
like Trojans to clear out the arrivals,
and in all the sub-stations there was
equal activity. At each of these, to
the clerical staff and to the carriers be-
fore they start out on their rounds
morning, for many of them are work-
ing all night, hot coffee and sandwiches
will be served.

WINNIPEG STREET CAR BURNED BY A MOB

Stuffing Was Torn From the
Cushions and Ignited—Mo-
torman Injured—Revolver
Shot Crashed Into Another
Car, and Others Had Bottles
Thrown Thru Windows.

WINNIPEG, Dec. 23.—(Special.)—
The most serious disturbance since the
inauguration of the street railway
strike took place to-night in the same
locality of the previous big distur-
bance, but the damage done was con-
siderably more, a car being burned so
that only the shell remains.

A belt line car had been stalled at
the corner of Logan-avenue west and
Gallagher-street, owing to the fact that
the power had failed. At this point
there are no street lamps, and the car
was on the track in the darkness, with
only the motorman and the conductor
inside, waiting until the power had
been restored. Strike sympathizers
passing by noticed the car, but at first,
suspecting it was a police trap, paid
no attention. One man, bolder than
the rest climbed to the roof and ad-
justed the pole to the wire. As no
lights came on, the real condition of
affairs became known, and a crowd
of about a thousand rapidly assembled.

In a few moments bottles, stones
and pieces of ice were rained at the
car. The windows went like paper,
and the motorman received a very bad
cut over the eye. The conductor es-
caped uninjured.

The cry then went up, "Burn the
car," and this the crowd quickly set
about to do. The stuffing was torn
from the cushions, and a bale of cot-
ton batting was secured nearby. These
were piled on the floor and ignited. In
a few minutes it was a burning mass.
The fire crew from the Weston Hall
turned out as soon as it was known,
and managed to put out the blaze,
but all that was left was the charred
iron works. The police were also
telephoned for as soon as the crowd
assumed a serious aspect, but so quick-
ly was the work done that when they
arrived there was no one around the
burning car. The car was valued at
\$5000, but the loss will not be a total
one.

Firearms Used.
A belt line car at the corner of
Francis and Notre Dame had stopped
to allow some passengers to alight,
when a revolver shot came crashing
thru the skylight, and "Bertie Head"
in the woodwork. From the direction
it came it appears to have been fired
from an elevation, but the culprit es-
caped. Bottles were fired thru a win-
dow of a Broadway car, but no one was
hurt. There were several ladies and
children on the car.

Wm. Mullin and Albert Bradley
were attacked, charged with throwing
bottles thru a car window. Ball was
refused, as they are said to formerly
have been in the employ of the street
railway.

A GREEN CHRISTMAS.

The mild weather of the past few days
makes one think that we will be hand-
ed a green Christmas, but the weather
man predicts some good old-fashioned
Canadian winter weather. This means
plenty of skating and cutter rides. A
prospective change in the temperature
turns our thoughts to the fact that we
will need warmer clothing. Something
in furs is the first suggestion. You
will find it an easy matter to make a
suitable choice from the superb offer-
ings of Furs that Dineen is showing.
Every garment finished by Dineen spe-
cialists, superior linings, new designs
and special prices for to-day, af-
fords you a splendid opportunity to
purchase your Xmas gifts. Store will
be open this evening.

THE LAST STRAW.

Said a prominent merchant to The
World last night when he heard the
news of the Toronto Electric Light Co.'s
attack thru P. Magan on the hydro-
electric power: "This is the last straw.
It may mean an astonishing turnover
in municipal matters by the people who
are grieved by the attitude of the To-
ronto Electric Light Co., and more or
less aroused by the operations of the
Toronto Railway Co."

Witty Sayings and Good Music.

abundance of clever sayings, combined
with charming music and vivacious
dancing. This delightful musical com-
edy ends its stay here with two per-
formances to-day.

7 STAY IN THIRD WARD MEETING RATHER LIVELY

Ald. McBride and Louis Gurofsky Have Verbal Clash—Present Representatives Seek Re-election.

- SAMUEL McBRIDE, 361 Palmerston-boulevard, wholesale lumber merchant, by Noel Marshall and G. A. Cox. NORMAN C. HEYD, 461 Sherbourne-st., journalist-at-law, by W. A. Cox and Arthur Callow. CHARLES SHER, 22 McGill-st., fur manufacturer, by James Murker and James Druks. MARMADUKE RAWLINSON, 27 Maple-ave., carriage agent, by A. Allen and P. W. Johnston. JOHN KIRK, 504 Yonge-st., merchant tailor, by N. L. Patterson and James Labbett. JOSEPH ELLARD, 4 St. Joseph-st., by L. M. Livingston and Martin Doyle. CHARLES ALFRED MAQUIRE, 74 Ontario-rd., farmer, by John A. Macdonald and Richard P. Gough. Frederick Hogg and Louis Gurofsky retired. Joseph Ellard was not present and may not file his nomination papers.

—Board of Education.— C. A. B. BROWN, 47 Wellesley-st., manager, by Graham Chambers and A. A. Allen. ALEXANDER CAMERON LEWIS, 12 Spence-st., reporter, by M. Rawlinson and W. J. Darby. William Harper retired. When Mr. Brown and Mr. Lewis file their qualifications with the city clerk to-day, they will be declared elected by acclamation.

There have been stormier nomination meetings in the third ward than that over which William Lee, veteran arbitrator in the disputes of athletic candidates, presided in Victoria Hall, Queen-st., last night. On the whole, however, it was an animated gathering and a fairly large one despite the rain, and, towards the end, a verbal set-to between Ald. Sam McBride and Louis Gurofsky lived up to some of the bell-curve traditions of the hall. Every speaker was given an encouraging reception, without prejudice to the right of the listeners to try each case on its merits.

Ald. Sam McBride was proud to represent a ward that paid 48 per cent. of the taxes. He hoped all the six by-laws would carry. Any citizen who was afraid to support them, when they only meant 70 cents per year on \$1000 assessment, was without proper civic spirit. C. A. B. Brown reminded his hearers that he had been many years on the school board, and that he had something to do with the founding of penny savings banks in the schools. There was now \$100,000 in these banks. Ald. Heyd had spent his first year in council in profound study of things civic. He had not talked "hot air," but had explored every nook and corner in the city hall and pondered deeply over weighty tomes. The object of all this was to equip himself to grapple fiercely with the city's problems in his second year. It seemed that every great statesman had followed this stern regimen.

The Mayor Drops In. While the additional candidates on the extent of the calamity if Ald. Heyd didn't get a chance to start on the era of golden achievement, Mayor Gray entered and was cheered with much fervor. His words, as expected, had, by a curious chance, just happened to be passing and the thought had struck him to drop in. He recognized that he "had shot of" Ald. Heyd's hands," but that the third ward had always voted for him. William Harper's admiration for C. A. B. Brown was so deep that he could not think of opposing him. Charles Sher's inspiration to be a candidate had reached him at 5 p.m. that day, when a deputation from the Independent Citizen's League had prevailed.

Alexander Lewis spoke as one who did not have to face the electorate. He was out for a daily medical inspection of public school children as in old New York. It would cost about \$20,000 or \$25,000 a year, but everyone present should emulate the beaver in working for it. Also, he wanted an inspector for both public and high schools and a smoke test of all school chimneys.

Why Rawlinson Runs. Marmaduke Rawlinson had been urged to run by his friends, and had consented after nine years on the school board. Effie was for any measure that would relieve disgraced crowding on street cars, and deliver in the viaduct and good roads bylaws. "I asked for three thousand votes last year and didn't get them," was John Kirk's candid admission. Playgrounds was his pet hobby, and he explained the brevity of his remarks by the fact that a year ago he had delivered himself for twenty minutes, and the papers had said that "Ald. McBride of a tendency to verbosity rather than work, and suggested the propriety of Mr. Rawlinson as a substitute. Ald. Maguire declared undying hostility to street railway expropriation. The city would have to pay for the company's estimated earnings of the next ten years, and the cost would be \$20,000,000.

McBride and His "Traducers." Ald. McBride insisted on replying to his traducer, Mr. Gurofsky. There was a sinister motive behind the address. Once upon a time the older man was chairman of the fire and light committee and Mr. Gurofsky had tried to get permits for blacksmiths' forges in places where they shouldn't be. "He is a barnacle hanging on for what he can get," was an allegation from his own platform seat. "I pay more taxes than you do," he declared. "Let him try to run," challenged Ald. McBride, "let him try to run, and he will be nearly put in his grave." The argument ended in cheers and groans, and Controllers Church and Spence, having extended Christmas wishes, the gathering dispersed.

Struck by a Train. NORTH BAY, Dec. 23.—Peter Beauchamp, a young Indian, was struck by a C.P.R. train, near Yellow, six miles west of North Bay, last night, and seriously injured. After being struck, Beauchamp lay out in the snow most of the night, in the intense cold, until discovered in a frozen condition by the crew of a freight train, who placed him on the eastbound morning express, and he was taken to North Bay Hospital. One leg and one wrist are broken, besides other injuries, and he is suffering severely from exposure.

WINNIPEG CAR STRIKE SEEMS BROKEN DOWN

Policemen No Longer Ride on Cars—Refuse to Make Uniforms for Strike Members.

WINNIPEG, Dec. 23.—(Special.)—The Winnipeg Street Railway Company declares that the strike is at an end, and to all appearances it is. Cars, while not running on time, are plentiful enough, and so far all accidents have been minor ones. A few missiles are still flying, but nobody has received injury of any magnitude in this strike, which is now in its eighth day. Guards at the car barns are very vigilant, but policemen no longer ride on ever car. The Garment Workers' Union last night resolved to permit none of its members to assist in making uniforms for the new employees of the company, and also to withdraw the union label from any shop making uniforms for them. However, the firm that has the contract, a Manitoba clothing company, in response to a query, offered to let \$10,000 that their employees were making the uniforms. This was in response to a statement by the secretary of the Garment Workers' Union, that no member of the union is working on any garment. A committee of the union will visit every tailor in the city to interest them in the car strikers' cause. A special meeting will be held by the city fathers to-morrow morning to authorize the recruiting of fifty additional constables. While these men are being trained in view of the strike, a recent civic election was better polling of the city.

WOMAN MAKES AN ARREST

Discovers Suspected Thief—Marches Him to Police Headquarters. James Lauder, 24 years, now has no home, but for a week, up till yesterday, he roomed at the home of Mrs. Bernard, 29 Robert-st. He did not come home Wednesday night, and his neighbors also missed a \$10 bill from her apartment. She suspected Lauder and she set out to look for him. She found him yesterday afternoon in an auction room in Yonge-street and grasped him firmly by the collar. In this way she led him to the detective office, where he was taken into custody charged with stealing the money.

OBITUARY. G. H. Mylne, for twenty-eight years a G.T.R. freight conductor running on the local between Toronto and London, died yesterday morning after being confined to his bed for a fortnight. He was one of the few old employees of the Order of Railway Conductors, and his illness dates back to a few days after that settlement was made. He was 48 years of age, and besides being a member of the Order of Railway Conductors, in which he was held in very high esteem by his brethren, he was a member of the A.O.U.W.

Three sons survive—Lawrence, Barclay and Norman, all of Toronto. Deceased had been a widower for two years. The funeral will take place from the residence of Lawrence Mylne, 72 Winifred-avenue, at 2:30 on Monday to Mount Pleasant Cemetery. SUCCESS TO REMEMBER. Advice from Montreal give further particulars of the phenomenal success of the Christmas Number of The Standard. With an edition running up to one hundred tons, the publishers were obliged to close the sale only partly for thousands of copies only orders from country dealers in all parts of the country clamoring for more. It certainly was a creditable souvenir and fully deserving of the future it created. In England it is attracting widespread attention and eliciting praise on all hands. It was a fitting way to mark the extraordinary career of The Standard, which jumped into popularity and made notable gains every week since its first issue.

Will Run for Council. BRANTFORD, Dec. 23.—(Special.)—John S. Dowling resigned his position as Brantford publicity commissioner to-day. It is understood he takes this action in order to run for the city council.

AUTOS IN FIRE DEPTS. SAVE MUCH PROPERTY

Experience Has Already Proved That Speed is a Great Asset For the Apparatus.

With the practical standardizing of the automobile power plant has come a demand for automobiles for a wide range of utility purposes. In this connection there is scarcely any use to which the automobile can be applied to which it is better fitted than for fire department service, says The Boston Journal. From the earliest days of the pleasure automobile, cars have been applied in various fire departments for use by the chiefs. The great speed attained by such cars has in many cases enabled the heads of fire departments to reach a fire in time to extinguish it by the use of hand chemicals, which are carried on most of such cars. Many cases can be cited where the chiefs have accomplished this, and in returning have turned back other horse apparatus, saving them perhaps a long run. The City of Springfield, Mass., was one of the first to seriously take up the question of applying automobiles to general fire purposes. Its first piece of automobile equipment was built on a well known high grade pleasure car chassis of superior strength and workmanship. This car carried a squad of eight men and light tools and pony extinguishers. Located in the centre of the city it answered all alarms and proved a great success from the start, as it was the means of carrying the squad of trained men to the scene of a fire in any part of the city, frequently some miles away from its starting point, generally reaching its destination before the local horse apparatus arrived. From the experience gained with

FIRE CHIEF BAXTER. Of Philadelphia, who narrowly escaped the fate that befell so many of his men.

This car, it was soon proven that there was no comparison in the result, either in cost of up-keep or efficiency between automobiles and horse apparatus. This car was soon followed by others till at the present time there are ten pieces of automobile apparatus in use in the Springfield fire department, and the city is planning to outfit its entire force with \$40,000 or \$50,000 at once for more automobiles, intending in a short time to entirely eliminate horses from the fire department. The experience of the Springfield department with its earlier cars was considered something of an experiment, but was eagerly watched by fire and insurance officials all over the country. At the present time the majority of automobiles used in fire departments are of the combination horse and chemical type, carrying one or two 35-gallon chemical tanks, 50 feet of chemical hose and an equipment of ladders, plaster hooks, pony extinguishers and space in the body for 300 to 1000 feet of water hose. Cars of this sort may be seen in active service in such up-to-date and progressive departments as Boston, New York, Philadelphia, Chicago and Milwaukee, and nearer home in Springfield, Chicago, Hartford, Haverhill, Brookline, Newton, Malden, Holyoke, Manchester, Mass., Melrose, Belmont, Concord and, in fact, more places than space would permit mentioning.

There is a great demand for automobile apparatus to take the place of steam fire engines and the manufacturers who are paying the most attention to the development of automobiles for fire department service are earnestly working on the problem, and doubtless before long the practical automobile pumping engine will be evolved. The two classes who have most to do with fires, those who have to fight them and those who have to pay for the damage after they are put out, namely, the firemen and the insurance men, are a unit in agreeing that there is only one side to the question of automobile versus horse apparatus, and that the automobile side. What was considered in September, 1906, as an experiment, the Springfield department installed its first fire engine car, is now known to be unquestionably a superior method, viewed from every standpoint of economy and efficiency.

MOVE A CHURCH TOWER.

Daring Feat of Belgian Builders Saves Historic Structure. A large crowd gathered in the little Village of Bocholt on the Belgian frontier to watch the unusual spectacle of a moving church tower. Some time ago it was decided that the church should be enlarged in order to accommodate the increased number of people in the village. It being impossible to enlarge the church at the choir end, it was decided to lengthen the nave. It was thought that this would involve the demolition of the tower, but to this, however, the authorities were opposed, holding that the tower was of great historical value, dating many centuries back, and to this opposition was added that of the villagers, who were against the scheme on sentimental ground. It was therefore decided to remove the tower, which is 90 feet high and about 2000 tons in weight. This enormous mass of stone was cut away at the foundations, and a platform placed beneath it on rails. Slowly and carefully and with great patience by the workmen engaged in this extraordinary task the tower is being advanced inch by inch. Its new place is about fifteen yards in front of the old one, and it is estimated that it will take ten days or so to reach the spot which is in readiness to receive the moving mass. While the operation was in progress the bells in the steeple were ringing loudly, as tho' to signal the extraordinary move it was about to make—London Standard.

CITIZEN OR VILLAGER.

There are two ways of looking at all civic improvements. One is the petty, personal, parochial way. It considers nothing but immediate interests. It saves a penny and loses a future pound. It regards the effect for the moment on the spot. It rooks nothing of what is to follow or of the rest of the community. Character and training have much to do with the point of view adopted. Some men are constitutionally incapable of taking large, wide views of public questions. When by force of circumstances or change of conditions the natural born villager finds himself in a large community with extensive and extending municipal interests, and constantly increasing connections, he naturally tries to obstruct what is so alien to his instincts. No one can blame him for such a natural exhibition of his feelings. Generally it is quite useless to reason with such people. It is a matter of sentiment. They do not like it. They won't have it. If they could find a congenial spot elsewhere they would be happier did they move from the busy environment.

Another class of people possess big hearts and wide open minds. They welcome everything that makes for growth and expansion. They support every movement for improvement and the facilitation of the development of their locality. What is progressive and active appeals to them. They avoid stagnation. They seek the lively currents of life.

Traces of the backward spirit show themselves in men who are to be found in positions where such tendencies are quite anomalous. Such men are the bane of growing communities, and their often appear in prominent positions. There has been much evidence of their existence around Toronto in the last few years, and one feels impelled to sympathize with people so evidently out of their element. It is positively painful to such minds to contemplate the growth of a great city, and the addition of such necessary improvements as its growth demands.

There are many problems up for consideration in Toronto and its suburbs just now which lead men to adopt one side or another in this self-classification. The temptation to oppose any improvement contemplated in the by-laws to be submitted marks the character.

In North Toronto the test is to be applied in connection with the annexation bylaw. There is no question of the all-round advantage of such a step. The matter of transportation alone would dictate the policy. The fact that no many things are being settled in Toronto which must permanently affect North Toronto would in itself make it desirable that the citizens of the suburb should take part in such decisions at the earliest possible moment.

The enlightened and progressive business interests of the city and of North Toronto are a unit in supporting every one of the bylaws to be submitted on election day.

THE GLOBE AND THE VIADUCT.

A Globe editorial paragraph of yesterday read:
Mr. F. E. Smith, M.P., the cleverest and bitterest of the British Conservative orators, says part of the creed of Lloyd-George is that no one but the Chancellor of the Exchequer shall have £500 a year. The Globe won't go far. Lloyd-George has known £100 a year and is careless about money. This common people—his own people—know that he is not miscreant.

Mark the word "Globe." Now read this next paragraph in the same column.
The victors who decided to send out Mr. W. F. Maclean as a missionary to convince the unenlightened citizens of the west end of the need for the Bloor-street viaduct were not very happy in their choice. Mr. Maclean is not a resident of Toronto, and is able to avoid paying even income taxes in the city on the ground that he is a non-resident. What is a million-dollar addition to the city debt to him?
How far will this Globe go?

BLOCKING CITY POWER.

No alarm need be felt over the delay caused by an appeal to the Dominion Government on the question of locating the hydro-electric over transmission line on the Parkdale waterfront. Local politicians who expect to gain prominence by the delay of the power scheme in the city, may find it an unenviable notoriety that may be their reward, and the emolument a particularly bad one. All classes and parties, except a few private corporation shareholders, are interested in the success of the city power and light scheme, and no one can gain any popularity by trying to drag the Dominion Government into such an unpopular cause as blocking the scheme would be.

Dec. 23, 1910.

CONTROLLER FOSTER "WATCH-DOG."

Controller Foster has abundantly justified the vote of confidence given him by the citizens a year ago. The World on that occasion held the view that a man like Mr. Foster, whose idea of civic economy was not to block desirable undertakings, but to minimize waste of funds, would be a desirable acquisition to the board, and, after a year's test, it can be fairly said that he emerges with added credit.
The "watchdog of the treasury" he has been called. It is a homely phrase, but it fits a man who knows how to distinguish between chaff and grain and the elimination of loss so far as possible. Some of the items attacked by the controller during the year may seem petty, but it is just this saving of a few hundred dollars here and there that great corporations pride themselves upon as showing keen business management. He fought consistently for a lower tax rate, and while the present levy is the lowest for ten years, he is out now to get the scarp of that half mill above the 17 mark. Every taxpayer is interested in giving him the opportunity.

That Mr. Foster is not the foe of progress is shown by his advocacy of important public works which he conceives to be necessary. He was a fearless champion of the Bloor-street viaduct last year and is one of the most earnest supporters of the present by-law. His year's record will bear out the statement that he is broad of view and realizes fully that Toronto is not standing still.

There are more showy orators in council, but for hard, conscientious service "Tom" Foster is unsurpassed, and civic officials and others can aver that he is a first-class fighting man.

Santa Claus is one man who can successfully "come back" at any time.

NET EARNINGS OF OVER ONE MILLION.

Fine Showing by Merchants Bank.
The annual statement of the Merchants Bank just issued is the most gratifying one to the shareholders and directors of this institution. During the year its prosperity was so marked that the dividend was increased from 3 to 5 per cent. There have also been large increases in its reserve fund, in the deposits, assets and earnings. For the first time in its history the earnings showed a large increase in its deposits, making a total of \$1,133,000 available for distribution. This was disposed of as follows:
Two quarterly dividends at the rate of 5 per cent per annum, and two quarterly dividends at the rate of 3 per cent per annum, accounted for \$510,000. The sum of \$400,000 was transferred to the reserve account, \$100,000 written off bank premises, \$80,000 contributed to officers' pension fund, and a balance of \$92,000 carried forward. The bank shows a large increase in its deposits, both on call and those subject to notice. The former has attained the sum of \$2,457,000 and the latter the sum of \$2,553,000.
The current loans and discounts show a total of \$4,000,000, indicating the bank's strong position in the business community. The total assets of the bank exceed the million dollar mark, a considerable sum of \$7,160,000. Altogether the showing made by the Merchants Bank is one which calls for hearty congratulations to the president, directors and general manager of this institution.

AN EXPLANATION.

Editor World: In this morning's issue of your paper I noticed the report of Superintendent Rogers re the hospital fire inquest. In connection therewith, will you have the goodness to publish a few lines from me, as I was the petitioner for the enquiry? I have heard that there is a thought abroad (at least in some circles) that I was moved in the matter by an improper spirit, or, shall I say, by a lack of sympathy toward the work itself. It is unnecessary for me to deny this as far as the local officers of the institution are concerned, for they have known that my actions in the past speak the way.

Some may, however, entertain these ideas and so far as I can, I desire to make it known that I not only sympathize with the work itself but that I esteem highly these public-spirited men who are engaged in such self-denying labors.

Single Court.

Before Teetzel, J.
Re Monarch Bank—A. B. Monro, K.C., for Ontario Grain and Livestock, H. E. Ryan, K.C., for Kerr, Mackenzie and Perfect, C. A. Masten, K.C., and M. C. Cameron for liquidator. Appeal from judgment and reference to master in chambers, respecting order of Mr. Teetzel, J., in liquidation, holding the appellants liable to the liquidator for breach of trust or misfeasance under section 123 of the Bank Act. The appellants were appointed by or on behalf of the bank without any statutory or other authority for such payments. Judgment: The appellants are liable to pay the liquidator all moneys which they paid or directed to be paid for commissions. As to the appellant Perfect, I think that with not the exception of \$100 the evidence does not warrant a finding that he paid or directed to be paid any moneys for commissions, except a cheque for \$700, which with other provisional directors he signed and which on its face is said to be on account of commission. Subject to the question of the amount for which the appellants Kerr and Mackenzie are liable, and which may be

Trial.

Before Sutherland, J.
Kenny v. Bernard—E. A. Cleary (Windsoor) for plaintiff, A. H. Clarke, K.C., for defendant. Plaintiff, E. S. Wile, K.C., for defendant. In this action a second mortgage attacks a sale made by a first mortgagee under the power of sale contained in his mortgage. Judgment: A mortgagee is not a trustee of the power of sale for his mortgagee, and if he exercises the power of sale strictly and fairly, according to the conditions prescribed by the security without collusion and bona fide for the purpose of securing repayment of the mortgage money, the mortgagee has no right of action, even if the sale price might have been obtained by a postponement of the trial. In the present case the mortgagee took reasonable means, as I find, of preventing a sacrifice of the property. Action dismissed with costs.

Before the Chancellor, Latchford, J., Middleton, J.

Tasker v. McDougall—W. Laidlaw, K.C., for plaintiff, W. C. Hall, for defendant. An appeal by plaintiff from the judgment of the County Court of Halton of July 2, 1910. This was an action to recover the price of hay shipped to defendants at Toronto and refused by them as not being of quality agreed to be sold to them. At the trial the action was dismissed with costs. Judgment: On the further report of the judge as to the difference in value of the hay, we find the net sum due plaintiff to be \$129.55. This action serves as an illustration of the amount of litigation it is possible to have over a trifling matter. Both parties were wrong, and neither exercised any discretion in following the hay to remain at the railway yard until a heavy bill of charges was incurred, &c. In the result we think that while the plaintiff should have costs, they should be fixed at \$5.

Allen v. Murphy—H. M. Mowat, K.C., for plaintiff, L. F. Hailmuth, K.C., and H. H. Shaver, for defendant. An appeal by plaintiff from a judgment of Mulock, C.J., of Nov. 24, 1910. Plaintiff, a laundry company of Toronto, seek an injunction and damages on the ground that defendant, a former employee of the plaintiff, had, by entering into a partnership with another ex-employee and was carrying on a rival laundry business known as the Ontario Laundry Co., having been educated in the plaintiff with a view of inducing them to give their work to defendants, and was also trying to induce employees of the plaintiff to leave their employment, and enter into defendant's employment, in contravention of an alleged agreement by defendant that he would not do so. At trial action was dismissed with costs.
Judgment: The chief justice dismissed the case on the ground that the custom laundry business entered into by the plaintiff was not a trade or profession, and that the plaintiff's alleged attempt to induce employees to leave their employment, and enter into defendant's employment, was not in violation of any agreement by defendant that he would not do so. At trial action was dismissed with costs.

Sinking Spells Every Few Days

"At the time I began taking Dr. Miles' Heart Remedy I was having sinking spells every few days. My hands and feet would get cold; I could scarcely breathe, and could feel myself gradually sinking away until I would be unconscious. Those about me could not tell there was life in me. After these spells I would be very weak and nervous, sleepless and without appetite; had neuralgia in my head and heart. After taking the remedy a short time all this disappeared and in a few weeks all the heart trouble was gone."

the same city. This appears to be a very easy way of evading a contract which should be discontinued by the court. The defendant left the business of the plaintiff on June 2, 1910, and he should be inhibited for three years from that date from violating his engagement to complete the contract. We understand the operation of the interlocutory injunction was suspended the undertaking to keep an account of profits. These profits should be investigated by the master and paid over to the plaintiffs, who are also entitled to the costs of action and appeal. We agree with the chief justice that the original contract as to the restrictive clause remains in force there was a further arrangement as to increase of salary afterwards made.

Before Meredith, C.J.; Sutherland, J.; Middleton, J.

Atkinson v. Caserley—G. Lynch-Staunton, K.C., and A. E. H. Creevey, K.C., for defendant, M. J. Caserley, D. McCarthy, K.C., for defendant Campbell, and the executors of the McGoey estate, G. H. Watson, K. C., and J. Fraser (Tottenham) for plaintiff, contra. An appeal by defendants from the judgment of Latchford, J., of 17th June, 1910. This was an action by a creditor of George P. Hughes against M. J. Caserley, assignee for the benefit of creditors of the estate of George P. Hughes, and against Jas. Campbell and Thomas G. McGoey, alleging a conspiracy between them with the intent and design of defeating, delaying, hindering and defrauding plaintiff and the other creditors of the said George P. Hughes, and asking that Campbell and McGoey be ordered to account for the said proceeds of the insolvent's property conveyed to them by Caserley, and for damages for conspiracy and fraud against all the defendants, and for removal of Caserley from the office of assignee. At the trial judgment was given for plaintiff, removing Caserley from his position as assignee, ordering him to pay \$245 damages for the said conveyance of property of insolvent held to be in fraud of the plaintiff and the other creditors, and in default of payment by him ordering representatives of McGoey to pay \$125, with costs of action. Reference to local master at Barrie to take accounts, &c. Further directions and judgment: Upon the evidence as a whole, the conclusion that McGoey and Campbell purchased as agents and trustees of Caserley is abundantly justified. Clearly the findings of fact upon the evidence cannot be reversed. The legal effect of this finding, in the circumstances shown, were not discussed at the trial, and we find ourselves unable to agree with the result in all respects. The judgment should be varied. The plaintiff recovers against Caserley the estate of McGoey \$220, and against Caserley alone the further sum of \$125. So far as McGoey's estate is concerned, having regard to the amount recovered, it should only be liable for half of the taxable costs of the action. Caserley and Campbell should be liable for the costs of the action. No costs of the appeal. The plaintiff will have a lien upon the amount recovered for his costs. We do not deal with the rights of the defendants as between themselves. Costs of the trial, and we find ourselves unable to agree with the result in all respects. The judgment should be varied. The plaintiff recovers against Caserley the estate of McGoey \$220, and against Caserley alone the further sum of \$125. Does Not This Tragedy of Real Life at Our Own Doors Appeal to the Christmas and Christian Spirit of All People?

The following paragraphs are from the November Report of the Visiting Nurse of the Muskoka and Toronto Free Hospitals for Consumptives:

"Mrs. M., in broken sentences and with breaking heart, told me the story of her consumption-stricken house, as follows: 'It isn't yet six months since our Frank died, and in less than two months after little Edie was burned to death, and only 8 weeks ago to-day we laid away our little girl Bertie, and now Norman lies at the point of death with pleurisy and pneumonia. Our eldest boy is in a tent in the yard, dying of consumption, the same dreadful disease that took the others from us—even our poor-burned baby girl had tubercular glands—so that all alike—dead and dying—are victims of this awful plague.'"

The Muskoka and Toronto Free Hospitals for Consumptives keep an open door for all such cases as are here so pathetically described by the Visiting Nurse.

To-day in these two institutions there are 250 patients, and over 200 of these do not pay a single cent towards their maintenance. The Trustees look to the people of Canada to help, by their gifts, in carrying on this great fight.

Many have helped. They have our warmest thanks. But there is much yet to do. The burden is a heavy one. To quote Mr. E. F. B. Johnston, K.C., when sending a contribution: "Your work goes beyond the realm of charity, and is in every sense one of grave necessity."

The Trustees at this Christmas Season appeal to every reader to help to the extent of his or her ability.

Contributions may be sent to W. J. Gage, Esq., 84 Spadina Avenue, or Secretary-Treasurer National Sanitarium Association, 347 King Street West, Toronto.

TO FEAST THE CHILDREN

Salvation Army Arranging Fourteen Different Spreads.

Between two and three thousand baskets of Christmas cheer will have been distributed through the city by the Salvation Army before this evening.

On Friday, next, Dec. 23, about 3000 children will be given a Christmas feast and gift, at the 14 Toronto Salvation Army barracks. The feast will begin at five o'clock. The army staff has decided that the plan of having the children's festivity at the Salvation Army hall nearest their homes has many advantages over transporting them to and from the Albert-street Temple.

The following is a list of the halls where the children will be feasted: James and Albert-streets, Tecumseh and Queen, Broadview and Queen, Queen-street, between Sherbourne and Parliament; Rhodes-avenue, 28 Davenport-road, Lippincott and Uiter, Davenport and Westmoreland, Lisgar-street, Keele-street, West Toronto; Little York, Wychwood, Earlscourt and Chester.

BRAKEMAN KILLED

Samuel Curry of Mimico Fell Between Moving Cars.

G. T. R. Brakeman Samuel Curry, living at Mimico, was so crushed when he fell between two cars in the Mimico yards yesterday morning that he died in Grace Hospital three hours later. He was walking along the tops of the cars, and both the engineer and the fireman heard him scream as he fell. He was picked up with one leg almost severed above the knee and crushed above the head and abdomen. He is the second trainman to be killed in that vicinity in two days.

Sunday Afternoon at Massey Hall. A decidedly Christmas flavor will be given to the meeting of the Canadian Temperance League at Massey Hall to-morrow afternoon at 3 o'clock. Rev. W. F. Wilson, D.D., will deliver an appropriate address, and supplementing the singing of the choir, there will be special solos by J. Rhoads Jamieson, school inspector W. F. Chapman will occupy the chair.

Temporary Heat Quickly

Did you ever stop to think of the many ways in which a perfect oil heater is of value? If you want to sleep with your window open in winter, you can get sufficient heat from an oil heater while you undress at night, and then turn it off. Apply a match in the morning, when you get out of bed, and you have heat while you dress.

Those who have to eat an early breakfast before the stove is radiating heat can get immediate warmth from an oil heater, and then turn it off.

The girl who practices on the piano in a cold room in the morning can have warmth from an oil heater while she plays, and then turn it off.

The member of the family who has to walk the floor on a cold winter's night with a restless baby can get temporary heat with an oil heater, and then turn it off. The

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

is invaluable in its capacity of quickly giving heat. Apply a match and it is immediately at work. It will burn for nine hours without refilling. It is safe, smokeless and odorless. It has a damper top and a cool handle. An indicator always shows the amount of oil in the tank.

It has an automatic-looking flame spreader which prevents the wick from being turnd high enough to smoke, and is easy to remove and drop back so that the wick can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be quickly unscrewed for reworking. Finished in Japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental.

COLONIES IN PALESTINE IS OBJECT OF ZIONISTS

Canadian Federation to Hold Annual Convention Here Opening To-morrow—What is Planned.

The interest shown by Jews from all over Canada in the convention of Zionists, which will open here to-morrow, is remarkable, alike in one sense. It is, of course, not surprising that Jews should show keen interest in a movement that aims at acquiring Palestine as the legally assured and publicly recognized home for the Jewish people. For the platform of Zionism is the acquisition of all the agricultural lands which can possibly be obtained in Palestine, and the settlement thereon of several million of Jewish colonists. It goes without saying that the Jews of Canada, or of any western country, where they prosper and are contented, have any intention of pulling up stakes here and going to the Holy Land. The movement is intended for the relief of the Jews who suffer the bitterest persecution in Russia, Rumania and other parts of Eastern Europe.

Nearly 200 delegates are coming to the convention, including some of the prominent Jews in Canada. The first regular session will be held at ten o'clock to-morrow morning in the Lyric Theatre, Agnes street. The floor will be reserved for delegates, but visitors, including Gentiles, who are also interested, will be welcome to seats in the balcony. Clarence I. de Sol, who is head of the Zionist movement in Canada, and one of the members of the supreme executive, will preside, and it is known he will make an announcement to his presidential address Sunday morning that may create some stir.

B. Stone, the chairman of the United Zionists of Toronto, and member of the council of the federation, is supervising the local arrangements; the work of the convention is in charge of L. M. Singer; Miss Mary Landsberg is directing the reception committee; A. Cash is chairman of credentials, and L. Gurofsky is chairman of the publicity committee.

To-day, being the Jewish Sabbath, preliminary services will be held in the various synagogues. Rabbi H. Abramowitz of Montreal will preach in McCaul-street Synagogue at 10 a.m., and Rabbi Kahnowitz of Winnipeg in University avenue at 2 p.m.

At a service in University-avenue Synagogue last night, Rev. Mr. Gordon and Rabbi Kahnowitz spoke.

NOAH HAS ARRIVED

This Time With More Than Two of a Kind.

NEW YORK, Dec. 22.—A python of 25 feet and an elephant of thirty-six inches were among the passengers on that modern Noah's Ark, the Muncaster Castle, which arrived from the orient to-day. Not content with becoming a miniature zoo, the Muncaster Castle, on this trip also claims the record of saving twenty-one persons from suicide.

Just after leaving Calcutta, according to her officers, the vessel picked up a dismasted ship, which had drifted 200 miles at the mercy of the sea. The twenty-one survivors who had had nothing to eat or drink for six days, were suffering such agonies they had determined on suicide by drowning and were about to cast themselves into the sea when they sighted the Muncaster Castle. They were rescued immediately, and landed at the first port on the Indian coast.

In addition to the gigantic python and the tiny elephant, the steamer's menagerie included dozens of snakes, none less than twenty feet long; a pig tailed monkey, five Siamese red-faced apes, a number of rare and beautiful birds, an Abbot fish, and several remarkable specimens of Chinese and Japanese gold fish.

BY ROYAL WARRANT.

A Brand of Whiskey Favored by British Sovereigns for 62 Years.

Messrs. John Begg, Ltd., distillers, Balmoral, Aberdeenshire, Glasgow, have again received the warrant of appointment as purveyor of whiskey to His Majesty King George the Fifth. The firm first received the warrant of appointment as distillers to Her late Majesty Queen Victoria in 1848. On her death, the warrant was renewed by the late King Edward the Seventh in 1901, and this fresh appointment marks a continuity of over 62 years. This has reference to the famous John Begg's whiskey, which is distilled on the royal estate of Balmoral, at Lochmagar, and was manufactured by royalty for royalty.

MAY LOSE HIS FOOT.

CORNWALL, Dec. 22.—(Special.)—John Jesmer, a section hand of the New York Central Railroad, son of Captain John Jesmer of Cornwall, was with a serious accident Tuesday morning, by which he may lose one of his feet. Jesmer was at work in the yards, cleaning out switches when one of the cars which was being switched caught one of his feet, crushing it badly. He was taken to the Ogdensburg Hospital. Jesmer is about 22 years old, and lives with his wife and one child at Massena Springs.

PRISONER DISPLAYS TALENT.

Hon. W. J. Hanna was yesterday the recipient of a finely executed illuminated address from a prisoner at Kenora. The gift was exhibited to the premier and his colleagues and will be framed to adorn the office of the provincial secretary.

Assignments.

The assignment of Abe Hallow, Cobalt, which was made to Richard Tew, has been transferred to McMullan & Co., Cobalt.

A meeting of the creditors of James Forsythe, Cochrane, Ont., whose assignment has been transferred to R. Tew & Co., will be held in the latter's office at 3 p.m. on Dec. 29.

N. Y. C. Will Not Get Road.

ST. LOUIS, Mo., Dec. 22.—J. H. Watson, vice-president of the Quebec Central Railway, stated in an interview to-day that there was no truth in the report that the New York, New Haven and Hartford Railway would take over the Quebec Railway.

Salada Prices.

Notwithstanding the extraordinary advance that has taken place in the price of tea at the auction, the public are getting "Salada" of exactly the same quality and at exactly the same price as they did last year.

Xmas-tide Dangers.

Dr. Hastings, M.H.O., gives out that Christmas parties are often a means of communicating "flu" and that "hill-billy" pay with each other's toys, but tin horns in their mouths, and in other ways make it easy for disease germs to spread.

Xmas Tree at Hospital.
Over a hundred of the patients of the Toronto General Hospital who were able to leave their beds gathered in the theatre of the hospital last evening for the twenty-third annual Christmas tree, which had been very prettily arranged for the occasion by Mrs. I. H. Hamilton.

The chair was occupied by P. C. Larkin, vice-chairman of the hospital board, and Dr. and Mrs. Brown of the hospital and Miss R. Stewart, superintendent of the Nurses' Training School, were among those present. Rev. D. Strachan pronounced an invocation. Miss Ramsden read several Christmas selections and Harry Bennett sang a number of songs.

Presentes were also distributed through the wards to those patients who were unable to leave their beds.

Surprise to Piano Man.
Last night witnessed a happy event at the warehouses of the Bell Piano Company, the occasion being the presentation to the manager, H. E. Winperby, of a magnificent cut glass vessel set, consisting of a handsome beveled mirror plate, with beautiful sapphire cut tankard jug and tumblers to match. In presenting the testimonial, Herb Williamson, the divisional superintendent, took the opportunity of acquainting the chief with the sentiments of loyalty and good-will which are being expressed by the staff.

LAND HUNGER OF U. S.

BERLIN, Dec. 22.—The political situation in Cuba is discussed in this evening's Post, which says: "The object behind the biased and highly-colored despatches regarding Cuba is quite clear. The Americans' land hunger is not satisfied with the present dependent position of Cuba, and they are striving for its complete annexation by the United States as soon as possible."

RHEUMATISM AND WEAK KIDNEYS CURED

Wear My Belt Three Months. If It Cures You, Pay Me. If Not, Send It Back and We Are Friends. No Cost to You.

I want to talk to men who have pains and aches, who feel run down physically, who realize that the old "fire" and energy which was so evident in youth is absent now; men who can't stand the amount of exertion they could years ago. I want you—if that means you—to see what I have done for others who were just as badly off. That's my introduction. I would not part with my Belt for \$100.00 if I could not get another like it. Wishing you every success, I remain, yours truly,

Now, if you don't feel right, I can cure you with my Electric Belt. If you are full of rheumatic pains, I can knock them out. I can pour oil into your joints and limber them up. I have often said that pain and electricity can't live in the same house, and I prove it every day.

COMPLETELY CURED HIS RHEUMATISM.
Clifford, Ont., July 13, 1910.
Dr. McLaughlin: I am pleased to state that the Electric Belt I purchased from you some time ago has completely cured my Rheumatism, and can cheerfully recommend it to anyone suffering from that complaint. I would not part with my Belt for \$100.00 if I could not get another like it. Wishing you every success, I remain, yours truly,
ROBERT WIGHTMAN.

KIDNEY TROUBLE AND WEAK BACK.
Morristale, King's Co., N.B., Sept. 8, 1910.
Dear Sir:—Just a few lines to let you know that, thanks to your Belt, I am a well man now, where before I was a sick one. I think it is the best in America or in the world. You may publish this letter anywhere you want to, and I will be pleased to tell anyone of your Belt who may come or write to me. I remain, yours truly,
JAMES A. ROSS.

This is specially directed to men who have doctored for years without benefit. I want men with Rheumatism, Pains in the Back, Weak Kidneys, Sciatica, Lumbago, Varicocoele, Prostatic Trouble (I cure this by a cure with this new Belt, even after all other treatments have failed. To every weak, debilitated man who wears this new Belt I give my

NEW ELECTRIC SUSPENSORY FREE

Give me a man with pains in his back, a dull ache in his muscles or joints, come-and-go pains in shoulders, chest and side. I will pour the oil of life into his aching body and drive out every sign of pain. It is impossible for pain to exist where my Belt is worn. The reason so many men neglect to use my Belt is that they fear it will fall like other things they have tried. Now, the security that I offer to the doubtful man is that he need not pay for my Belt until it does for him what I say it will do, if he will in turn give me reasonable satisfaction to cure I have cured the less. Now, if you are sick or in pain, or a weak man or woman, and are tired of doctors and drugs and paying out money without result, use my Belt. You have nothing to lose and everything to gain by accepting my liberal offer.

PAY WHEN YOU ARE CURED

My Belt makes people noble. It causes the nerves to tingle with the joyous exhilaration of youth. It fills the heart with a feeling of gladness, makes everything look bright, and makes the nerves like bars of steel. IT DOES THIS while you sleep, by pouring electricity, which is Nature's energy, into your nerves and blood. Electricity is life to the weakened parts. It will make them strong.

FREE—Send No Money
Just put your name and address on this coupon and mail it to me. I'll send you full particulars regarding my Electric Belt, together with my big free book, which explains many things you ought to know about the diseases of men and women. Don't delay another minute. Cut out the coupon right now and send it in.

DR. M. O. McLAUGHLIN, 112 Yonge Street, Toronto, Can.
Dear Sir:—Please forward me one of your Belts, as advertised. 19-10-11

CAPEWELL IN THE FIELD AS MAYORALTY CANDIDATE

Takes Issue With Mayor Geary on Street Railway Policy—Six Candidates for Board of Control.

Occasionally the nominations for the mayoralty and board of control are productive of surprises, but the proceedings in the assembly room of the city hall yesterday morning were without such pleasing spice.

Experienced Travellers Know The Advantages of the Grand Trunk Route To Montreal

It is the only double track route which contributes to safety and comfort.

It runs along the shores of Lake Ontario and through the principal towns and cities.

It has an unequalled passenger service with its great reputation.

It runs a "day car and parlor car" service that cannot be surpassed.

It has polite and attentive conductors and porters. It is the route of Canada's fastest and best train, "The International Limited." Always in the lead, it deserves your patronage.

A high official of one of the greatest railway systems in the United States, who recently travelled over the G.T.R. from Niagara Falls to Montreal, speaking of the roadbed, said there were very few lines in the United States that could compare and none that could surpass.

A BROKEN-DOWN SYSTEM.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a breakdown, as it were, of the vital forces that sustain the system.

No matter what may be its cause (for they are almost numberless), its symptoms are much the same: the more prominent being sleeplessness, nervousness, depression, loss of energy, and a general feeling of exhaustion.

It is a condition which is absolutely essential in all such cases to increased vitality—regain of vital strength and energy.

THE NEW FRENCH REMEDY THERAPION No. 3

to show of these morbid feelings, and experience proves that as night wears on the day this may be more certainly secured by a course of THERAPION.

THE EXPIRING LAMP OF LIFE

See by any other known compound, no surely as it takes in accordance with the directions accompanying it, will the shattered health be restored, and a new course imparted to places what had so lately seemed worn out, used up, and valueless.

This wonderful medicine is suitable for all ages, constitutions and conditions, in either sex and is difficult to imagine a case of disease or derangement which may not be speedily and permanently overcome by this unique compound, which is destined to cast into the wide-spread and consciousness of human ailments.

Slow Pace in Stock Trading Narrow Fluctuations Rule

General Public Apathy Holds New York Market in Abjectness— Holiday Dulness the Ruling Spirit in Toronto Exchange.

World Office, Friday Evening, Dec. 23.

The Toronto Stock Exchange was clearly under the influence of the impending holidays to-day. Trading in every section of the list was restricted, and the market evolved no feature whatever as a result of the medium of business which was put thru. There were evidently inclined to let securities follow their course, there being no activity in any of the general speculative favorites, while price fluctuations were too small in the majority of instances to permit of profitable scalping operations.

Detroit United was the scene of a small flurry in the Montreal exchange, the shares being advanced to 69 7/8 in the eastern market. Little interest was taken in the movement locally, only two small blocks of the shares being taken up for what was understood to be Montreal account.

The traction issues were firm on today's markets, Rio recording a small gain on the morning board. Sao Paulo was not dealt in, sellers holding their shares above the bids which were made, and the shares were advanced a fraction in an endeavor to bring out offerings. There was a small amount of investment buying, but sales for this account were usually limited to small or broken lots. Commerce changer hands at 215 and Imperial advanced to 222, with closing bids a point above that price.

The market showed no signs of any material public interest, and backed initiative through. Speculation has quieted down as is usual at this period of the year, and on this no account no activity is looked for until after the opening of the next month.

BRADSTREET'S TRADE REVIEW.

Montreal reports to Bradstreet's say retail trade is particularly active. Holiday shoppers are thronging the stores and for the time being all other business is put to the background. The volume of trade is well up to expectations and to compare favorably with that of other years. Wholesalers in most lines report their business as seasonally quiet. Some re-ordering however is noted for fancy and general holiday lines, a good number of letter orders being received for these goods. Country trade is reported excellent. Deliveries of produce are large and prices hold up well. Business in metals is quiet. Staple groceries are moving well. Collections are generally good, and manufacturers have been complaining of a shortage of skilled help. The drygoods houses have been stock-taking and reports are that the most year has been a good one for the trade as a whole. The movement of staple goods of all lines is steady, subject to the quietness usual at this season. The volume of holiday goods, however, has been large. Staple lines are also in fair demand with prices steady. Holiday trade at provincial points is reported good. Deliveries of produce here are large and few price changes are noted.

Winnipeg reports say holiday business now has all attempts and a brisk retail business and manufacturers are taking stock and as far as they would indicate the holiday season has seen a large expansion of trade. Cold weather has given a good tone to trade in clothing and general heavy drygoods. The volume of spring business state that the outlook is encouraging. Trade in produce is active with prices firm.

Vancouver and Victoria reports say all lines of trade are active. A good holiday trade is moving through the province and there is also an expansion of demand for staple lines. The movement of Christmas groceries has been heavy and trade in produce has also been very brisk. Money seems to be circulating freely.

SPECULATIVE STOCKS A SHADE FIRMER.

World Office, Friday Evening, Dec. 23.

The day confronting the one expected holiday of the year was not prolific of business in the Toronto market. Prices of speculative and investment stocks held steady, but this was about all that could be said of the dealings. Liquidation and realizing in Canada Permanent were the only features of to-day's business, and nothing otherwise than that holders needed money accounted for the sales. On the average, speculative stocks were a shade firmer, and this was taken to indicate the force of recent investment buying. Waiting for someone to initiate a movement is about the present position of the exchange from a speculative viewpoint.

ON WALL STREET.

Erickson Perkins & Co. had the following:

The pace set for stocks in the first hour continued all day, and closing prices were only slightly changed. The feature was a general public apathy to trade at all. By degrees we will see the foundation for a better market, although the stock market continues to be in a state of uncertainty. When railroad rates are placed on a better basis, when the great trusts know just how they may regulate their business and when our foreign trade position has been righted, there will come a turn for the better, though the tariff controversy and will cause irregularities in business affairs.

Chas. Head & Co. to R. R. Bond:

Comment upon the market to-day seems futile. Practically there has been no market. Trading has been desultory and without feature. Fluctuations have been narrow and meaningless. The money market continues to work easier and a better bank statement should be in line Saturday.

Brokers report time loans at 1-1/4 per cent. and bonds at one-tenth of the maturities. Given time funds at 3 to 3 1/2 per cent. the effect must soon be to stimulate investment in stocks and bonds and lead to a better basis for the higher class of securities. We can see but little in speculation for the present, but believe the stock market paying from five to six per cent. safety on the investment are sure to rise.

J. P. Bickell & Co. from Finley Barred:

Stocks are concentrated in powerful hands and the market is not likely to move until these banking interests are ready. Sentiment has improved materially, and there is less pessimistic talk than there has been. Careful selection of good stocks on any weakness ought to prove profitable before long.

But Judge Morgan Says Civil Suit is His Only Means of Redress.

Judge Morgan, in the sessions yesterday, ruled that James McMillin was not guilty of a criminal offence, but should, instead, be proceeded against in the civil courts in reference to a charge of obtaining \$340 from J. M. Monroe on a horse deal.

Wm. Mowat said that there was something wrong with the horse's jaw which does not permit it to eat. He valued it at \$5.
Wm. Thompson, a contractor, who knew the horse, said that they were in first-class condition, and did their work well.
