VOL. XXXI—No. 11,321

BARLEY SPROUTS.

A United States trade publication is quoted in The Globe of Aug. 9 in the article of "For a Barley Revival," giving an estimate of a Canadian crop of 50,000,000 bushels of barley, which proceeds: "Taking into consideration home feed requirements and inferior quality, we doubt if Canada will have to exceed 12,000,000 to 15,000,000 bushels of malting barley available for consumption in the United States." The Globe article concludes: "If the crop remains at 50,000,000 bushels, the 30c relief will mean \$15,000,000 to Canadian farmers. For that item alone we could profitably spare the Hon. Mr. Fielding and the Hon. Mr. Paterson for a week at Washington." This is palpably misleading on the part of The Globe.

Presumably The Globe obtained the best contrasted prices on Aug. 1 to bolster up the "barley revival." The difference was 20c per bushel. This works out on the expected maximum export to the United States of 15,000,000 bushels, a total of \$3,000,000.

Twenty years ago hundreds of teams, heavily loaded with good bright barley, wended their way to the lake ports of Ontario throughout the fall and early winter to receive cash for their barley. This fall only a small quantity of barley will reach the market buyers. Why the change? The live hog has thriven at the expense of the barley market.

The World's energetic live stock reporter, in his concise market notes of Aug. 15, writes: "William Stinson, live stock dealer, of Gorrie, informed us, thru Mr. Joseph Wilson, that he had bought seventy hogs from a farmer, for which he paid \$1082."

The said farmer, altho a Reformer in politics, has no use for reciprocity. How much would it cost that farmer in teaming and expenses to bring him in cash \$1082 for the sale of barley and oats at his nearest market town? Put the question to yourself, especially those of you who have had hard experience in the past years of long hours of teaming, often on poor roads. Is it wisdom, think you, to quit the raising and feeding of hogs?

The Globe has started a "barley revival." The preaching so far has only one plank for the platform—it is, the Canadian farmer must raise barley and sell it to the United States buyers. The preacher gives the command: "Our farmers can market barley and buy other grain for feed." Farmers of Canada, you are not to question the dictum; prepare your fields for the barley revival. You must not even suggest that the fertility of the soil might be impaired thru the lack of manure; the preacher has vaunted light on that issue. "The talk of impoverishing the land thru neglecting live stock is visionary." Let your memory recall to you the days that the Hon. George Brown edited The Globe. In those days you were appealed to as men with reason and forethought; now you are treated as mere voting machinery.

The World confidently asserts that the majority of Ontario farmers are well fitted to manage the outlay of their farms to the best advantage; they have learned by experience not to depend too much on any one crop. Twenty years ago there was too much dependence on one crop; a failure or partial failure of the crop brought a bitter disappointment to the tillers of the soil. The preacher affirms that the Canadian farmer must stand on the one plank. Time will quickly prove how many converts, or, vice versa, how many backsliders.

A Free Fiscal Fist Ex-Premier of Ontario

Sir George W. Ross spoke before the Canadian Club, Toronto, on Nov. 30, 1903, on the subject of Mr. Joseph Chamberlain's tariff proposals, and he said: "I also favor Mr. Chamberlain's policy because I believe it will prevent entangling alliances with the American republic. Our experience so far with the Americans has not been very satisfactory.

"I have not quite forgotten the reasons why the reciprocity treaty negotiated by Lord Elgin in 1854 was so summarily repealed in 1866. Neither is my judgment closed to the hostile character of the Dingley Bill, by which the American market was practically closed against the Canadian manufacturers and farmers.

"In my judgment the commerce of Canada should never be placed at the mercy of the United States Congress, or of any other competing nation.

"We have adapted our transportation now to British trade; to enter into a reciprocity treaty with the United States would be to make this dependent upon the humor of our American neighbors, and would be to discount all this expenditure."

And the same holds good to-day. Canada must have a free fiscal fist.

COUNCIL TO MEET FRIDAY.

Friday is mentioned as the probable date of the next meeting of the city council. It will likely be decided to-day by the board of control. That the council should meet soon is the general feeling, as there is much to be done. The annexation of North Toronto should be dealt with; the tube question needs consideration; the Humber Park project ought to be taken up, and there are a number of estimates to be passed.

THE DOG-FIGHT PLAN.

A New York editor, not being able to make a neighboring saloonkeeper do what he wished, in anger, rushed to his city editor and made him start a dog-fight in front of the fellow's saloon every day, and to play it up big in the paper. There are other editors, who, when they cannot answer an argument, try to start a dog-fight in front of the house of the man of the argument, or to quote all the names he was ever called by others who could not answer his argument.

ENGLISH LABOR STRIFE ABATING

Truce in Effect on All Lines Except London & Northeastern, and There Amicable Agreement is in Sight.

LONDON, Aug. 21.—The strife in the industrial world of the United Kingdom gradually is abating. With a truce in effect on all railway lines except the London and Northwestern, the board of trade was occupied all today in an endeavor to reach an amicable arrangement between the employees of this line and the managers, and also in trying to settle the strike of the short sea traders. It was announced to-night that both these controversies are now in line for early adjustment.

There is still much friction on some of the railroads over the impatience of strikers returning to work, to be accorded full reinstatement to their old positions, which have been given to men who remained loyal to the companies when the walk-out was declared. As a result there were several instances of disorder to-day, in various parts of the kingdom, and decisions by small bodies of men to remain on strike.

Work on the London docks was in full swing to-day for the first time in three weeks, but it will be some time before the congestion of the port, due to the dock and transfer men's strike, is relieved.

King George telegraphed his congratulations to Premier Asquith, David Lloyd-George, chancellor of the exchequer, and Sydney Buxton, president of the board of trade, on the settlement of the railway strike. The King's message to Mr. Lloyd-George said:

"I am glad to hear that it was largely due to your energy and skill that the settlement was brought about. I heartily congratulate you and feel that the whole country will be most grateful to you for averting a most disastrous calamity. It has caused me the greatest possible anxiety."

The representatives of the railway employees to-day complained that the companies were not carrying out the terms of the agreement under which the strike was called off, referring particularly to clause two, which provides for the reinstatement of strikers without prejudice. As a consequence a long conference was held at the board of trade and a protest of the men investigated. At its conclusion the announcement was made that a satisfactory solution of the difficulty had been reached.

MATERIAL FOR TRAGEDY

Editor World: I have spent two pleasant months in Toronto, partly on business, partly pleasure; have invested in several parcels of real estate in different sections of the city. In looking up investments it was necessary for me to inspect all kinds of property. My investigations principally led me to the western and north-western part of the city as being the most active centres and in these localities I purchased a few parcels, wisely, I hope. I was horrified, however, to see the extreme carelessness of the builders in building these buildings with flats overhead—flimsy structures, food for flames, the rear of every building having a gas pipe, and in some cases the galleries connected by landings made of the most combustible materials—go west on College-st. and you will see the self-BEFORE A CATASTROPHE HAPPENS—NOT AFTER—if something is not done to make these buildings safer, I can say is "God help the people in the upper tenements," should a fire occur.

J. Worthington Bromley.

ANOTHER GOOD MAN GOES RIGHT

Toronto Star: Dr. T. F. Chamberlain, a life-long Liberal of Morrisburg, has announced that he is not in accord with the policy of the Laurier Government. He declares that he is prepared and intends to speak publicly in a number of constituencies in Ontario and Quebec during the present campaign in opposition to the government candidates, when he will explain fully the reasons for opposing the government. Dr. Chamberlain was a candidate for parliamentary honors in Dundas County in the Liberal contests, and was inspector of public institutions for the Province of Ontario for a number of years during the Liberal regime.

INFORMATION FOR VISITORS

Information can now be secured from the city by all who come up from the sea from boats and by all who come overland by rail, for the civic information bureau has been opened at 15 Yonge-st. All boarding and rooming houses and hotels are hereby requested to send in information about their capacity to the information bureau. It has been opened for the convenience of visitors to the exhibition and it will provide all the information it can gather about places where the necessities of life can be obtained.

George Taylor, of the city clerk's department, is in charge and will be available until the exhibition is over.

W. C. T. U.

Parkdale W. C. T. U. will hold their regular monthly meeting on Friday, 25th inst., at 3 p.m., in the Parkdale Methodist Church.

Queen Wilhelmina's Birthday.

A celebration will be arranged on Thursday, Aug. 31, of the birthday of H. M. Queen Wilhelmina, and all Hollanders will be invited to join in making it a success. The Guild of Church officers have very kindly granted the use of their hall, where it is intended to have a pleasant and an attractive musical program. A cablegram of congratulations will be sent to her majesty. The assistance of the Netherlands consular general has also been promised.

That Canadian Love Affair.

"And for bonnie Wilfrid Laurier I'd la-ay me doon an' dee!"

—Baltimore Sun.

AN OVERFLOWING MARKET NOT AN OPEN ONE

Borden Well Received In Mackenzie King's Constituency—Conservatives Not Pitting Moneyed Interests Against the Farmers—Labor Minister's Anti-Imperial Appeal.

BERLIN, Aug. 21.—(Special.)—Between twenty-five hundred and three thousand people heard R. L. Borden, the Conservative leader, here to-night. The meeting was eagerly anticipated in view of the vigorous campaign which Hon. W. L. Mackenzie King is conducting thru the riding of Waterloo, and the more immediate fact that he received the Liberal nomination at Waterloo this afternoon.

In Mr. King's speech of acceptance he clothed himself with considerable emotion. The personal pronoun was not lacking in his remarks. He made a direct reference to the German war scare. He maintained that Sir Wilfrid Laurier stood by the autonomy of the Canadian navy, and quoted Mr. Borden's proposal urging the government to go to Britain's aid with a Dreadnought or a cash contribution. Were the people of this country going to place at the head of affairs a man who would have precipitated Canada in such a position as that who would have taken from the treasury enough money to build two dreadnoughts and send them to England, who was willing to send money to build warships to fight against Germany? How were the Germans of Waterloo going to stand behind Mayor Welch, who would support a man who would take that stand in regard to the defence of the empire.

King's Challenge.

Mr. King seemed at the alleged alliance between the Nationalists and Conservatives, and challenged the Conservative leader to answer for the charges in Berlin, and until the Conservative leader did that, Mr. King thought he might stop talking patriotism.

Mr. Borden's meeting was noisy; there were many interruptions and much moving about. It was late before the Conservative leader took the stage. Before Mr. Borden took the platform Mayor Schmalz of Berlin read the civic address of welcome, which expressed the hope that "you will be prime minister after the 21st of September next."

Mr. Borden touched briefly upon the events in parliament preceding dissolution, and made it perfectly clear that the policy of the Conservative party had been to give the government every opportunity to bring in a reciprocity measure and have reciprocity dealt with in parliament by a fair and free representation. He enumerated various reasons why reciprocity should be adopted by Canada, and pointed to Berlin as a standing vindication of the benefits of the National Policy.

"These men are taking heart and timid in spirit who believe that we will not get along at the present without reciprocity with the United States."

Richard Reid, president of the North Waterloo Conservative Association, occupied the chair. In opening the meeting he said "We have come to a line in the history of Canada when party lines are breaking down, and people are looking upon great questions not from a party but from a national standpoint. Reciprocity is one of the worst questions that have been brought before the country since confederation," he remarked. "It leads to nothing but absorption by the United States." (Great cheer.)

To Cover Up Scandals.

Dr. H. G. Laker, provincial member, gave it as his opinion that Sir Wilfrid had brought reciprocity before the country to cover up the scandals with which his government was charged.

Mayor Welch went extensively into the reciprocity discussion, and read many extracts and affirmed with some show of oratory that Berlin and Waterloo owe their existence to the stimulating effect of the national policy.

The meeting itself was thoroughly satisfactory. The interruptions were concerned chiefly with local issues, but the main arguments of the Conservative leader were followed closely and his points applauded.

Hon. J. J. Foy concluded the meeting. Mr. King said he was authorized to

Continued on Page 7, Column 3.

AHEAD OF THE STRIDE.

Twenty-second of August and one week away from "the Fair." That means early fall is in sight, and that white ducks and straw hats have been shelved for nine months. The fall hat now and the Dineen Company, corner of Yonge and Temperance Streets, are pleased to be able to announce that twenty cases of new blouses in Silk Hats, Stiff Felt Derby, Fedoras, Crush, Opera, Hunting, Varsity, and College Caps arrived last week. The value of the stock is such that the big dock and railroad strike in England has tied up shipments for the next month and a half. You have a wide choice at Dineen's in new hats by Henry Heath, Melville and Christie of London, England, and by other great English makers. There is a complete assortment now on hand. If you require a new hat—and who does not?—visit Dineen's.

WILL BUY COCHRANE BONDS

Ontario Government Will Take \$21,000 Securities of Burned Northern Town.

To enable the Town of Cochrane to pay the interest and sinking fund of the debenture debt toward building a new jail, public school, etc., the provincial government has agreed to buy the bonds of the town for the sum of \$21,000.

Cochrane is taking up the work of erecting public buildings to replace those destroyed by the recent fire. The financial load entailed is a heavy one, and will seriously tax the energies of the people of that town.

In connection with this matter, a deputaion, composed of the mayor of Cochrane, two of the aldermen, the president of the Toronto Board of Trade, and Mr. Home Smith, recently waited upon the Ontario Government and asked it to help the town out with its financial arrangements.

How Scandal Grows.

A curious result of the visit of the Pioneer Volunteer Fire Brigade of Allentown, Pa., to the city yesterday, was the rumor that spread over the city that the steamer Cayuga had been on fire. The foundation of the story was that the Pioneers came over on the Cayuga at 10 in the morning. Many phone enquiries reached The World office.

SOUTH YORK REGISTRATION.

H. E. Irwin, clerk of the peace of the County of York, after considerable difficulty and much labor, has defined the boundary line between the various ridings of the city and South York. The lists for South York from the government printer are delayed, but booths for registration will be immediately opened up in West Toronto, Earlscourt, East Toronto, the Midway and other of the newly-annexed portions of the city.

Those desirous of registering who are residents of any of these districts should call at W. F. Maclean's committee rooms or at The Toronto World office, corner James and Richmond Streets.

HOTEL BURNED

Guests Had Narrow Escape—Summer Cottages Also Burned.

KINGSTON, Aug. 21.—(Special.)—A cigar stump carelessly thrown away by a smoker is believed to have been the cause of a serious fire at Mountain Grove on the Canadian Pacific Railway, a few miles west of Sharbot Lake, early this morning. Loy's Hotel and the summer cottages of Mrs. Summers and Mrs. York were destroyed. The guests in the hotel were in bed, and had a narrow escape, getting out in their night gowns. The total loss is placed at \$900. The buildings were frame ones. A bucket brigade was the only service available.

MACKENZIE KING NOMINATED.

WATERLOO, Ont., Aug. 21.—Hon. William Lyon Mackenzie King was nominated this afternoon by the Liberals of North Waterloo. At Galt Dr. Meyer was nominated by the Liberals of South Waterloo. Both accepted.

MINISTERS GO OUT OF TOWN.

Sir James Whitney and nearly all the provincial cabinet ministers were out of the city yesterday afternoon. Most of them will be back to-day.

HON. ADAM BECK RETURNS.

Hon. Adam Beck, who has been in London for the past week, is expected to be in Toronto again to-day.

A Lower Market for Farmers

Horses, Hogs, Sheep, Cattle, Poultry.

Sir Wilfrid Laurier and The Globe told the Canadian farmer that reciprocity would give him a wider market, and therefore a better price. On the contrary, it will widen nothing but the competition of the American farmer in Canada. The Canadian price for regular farm work horses is over one hundred dollars a pair more in Canada than the States. The prices of Ontario horses will under reciprocity drop over one hundred dollars a pair. American-bred horses will swamp our market. The market that we now have in western Canada for ten million dollars' worth of horses a year will be either lost or held by us at a loss of over \$100 a pair, or the Americans will fill the demand, and we will have all our horses left on our hands, both those that we intended to sell and all we propose to keep and all worth \$100 less per pair than before reciprocity. On thirty thousand teams now sold we will lose over three million dollars, and we will have the value of all the horses kept for working or breeding lessened in value by \$50 each.

There is no wider market for our horses; they all drop at least \$50. So much for horses.

Nor is there any wider market for our farmers' hogs, bacon, hams or fresh pork. It will all come down to the American level of at least one dollar per hundredweight. And so with poultry and eggs.

So with sheep; so with cattle. Even beans and barley will benefit little, if anything, by the wider market.

Ask Sir Wilfrid and The Globe to show the better price that will come to the farm products above dealt with. They cannot do it, and, in consequence, The Globe has started in to cure.

HAMILTON HAPPENINGS

JURY SAYS SPEED OF MOTOR WAS EXCESSIVE IN ACCIDENT WHICH CAUSED DEATH OF BOY

HAMILTON, Aug. 21.—(Special)—That the deceased came to his death by being struck by an automobile driven by W. J. Waters, and that the speed of the auto was excessive, was in effect the verdict of Coroner Anderson's jury, which to-night enquired into the death of William Boyce, who died in the City Hospital on Aug. 15, from injuries received the previous day in a motor accident at the corner of Main-street and Sanford-avenue.

W. J. Waters was sure that his car could not have been going faster than twenty miles an hour at the time of the accident. Altho Mr. Washington alleged that "any old plug could go ten miles an hour," he could not set his witness to admit that the speed of his car exceeded this rate. It was stopped within three car lengths, and Mr. Waters, from ten to fifteen miles an hour as Dr. Hillier's estimate of the speed.

The evidence tended to show that Waters was driving west on the north side of Main-st., and when approaching Sanford-ave., swerved to the south side of the street to avoid some other vehicle which was in front of the car, and in turning back to the north side of the street, struck Boyce, who was just crossing Main-st. on his way home from his work. The accident happened at 6:15 p.m., but Waters admitted that he was attempting to reach the T. H. & B. station in time to catch the 5:20 train.

John Kinsler, 230 Forest-avenue, lost two fingers in a machine at the E. T. Wright Co. factory, and was rushed to the City Hospital, where his wounds were dressed.

James B. Morgan, who for the last 45 years occupied the office at 111 James-st., died at his home at 452 Main-st. east, yesterday, at the age of 84 years. He is survived by one son and two daughters, Charles E. Morgan, Mrs. W. F. Robinson, and Mrs. William Daniels, all of this city. The funeral will be held Tuesday at 2 p.m.

John A. Clark, 50 years of age, and secretary-treasurer of the Chemists' Company of Canada, was found dead in his room at 385 East Main-st., at an early hour this morning. Death from heart disease had probably taken place early last night. The body was found and removed to the coroner's office, who viewed the body.

The parks board now has an opportunity to dispose of the Stewart property, which it recently purchased for park purposes at the price of \$86,000. The deal received some delay at the time it was made, and as a profit can now be made by disposing of the property, it will probably be sold. A large manufacturing concern, it is said, desires the land as a site for a factory.

An Independent Candidate. Saskatoon, Aug. 21.—E. N. Baumunk of Dundurn, Ont., this afternoon nominated by the farmers of the constituency of Saskatoon as an independent candidate at the forthcoming election. His advent into the contest means that it will be a most complicated one, the platform agreeing almost identically with that of Bore and the exception of the reciprocity plank.

NAVAL HERO OF TSUSHIMA PASSED THRU TORONTO

Admiral Prince Togo, the Japanese Nelson, Spent 15 Minutes in Toronto Last Night

Admiral Prince Togo, the hero of the battle of Tsushima, arrived at the Union Station at 10:15 last night, and left for the west by the C.P.R. at 10:30. He did not remain long enough to give the World his views on the reciprocity question. As soon as the train from Niagara arrived the admiral and his suite crossed to the westbound train and entered a private car.

Born in 1847, Admiral Togo went to England in the early seventies and acquired some training in the "Warrior," a ship anchored in the Thames, and was used as a school for boys preparing to enter the British mercantile marine. Subsequently he attended a course of naval instruction at Greenwich College, and then he returned to Japan.

VETERINARY SURGEONS VISIT TORONTO IN FORCE

Forty-eighth Annual Convention of American Association Opens This Morning

Veterinary surgeons will be congregated in this city to-day in large numbers from all manner of places for the 48th annual convention of the American Veterinary Medical Association, which commences in Convocation hall at ten o'clock this morning. In the neighborhood of one thousand veterinarians will be in attendance at the convention.

At eleven o'clock Sir James Whitney opens the convention by formally welcoming the delegates on behalf of the province. Mayor Geary welcomes them to the city of Toronto. Veranus A. Moore, Cornell University, will respond to the addresses.

At eleven o'clock Sir James Whitney opens the convention by formally welcoming the delegates on behalf of the province. Mayor Geary welcomes them to the city of Toronto. Veranus A. Moore, Cornell University, will respond to the addresses.

PUBLIC AMUSEMENTS

At the Royal Alexandra. Howe's Travel Festival. Loman H. Howe's Travel Festival is the introduction of a new feature to the Toronto public. It represents not only the most advanced methods of producing moving pictures, but a range of subjects covering all the reach of the earth and much that never was by sea or land.

Zillah's Dancing Specialties. Zillah does an Egyptian dance with her own show at the Star this week and it is a good dance. It is almost as much an exhibition of management as of control as a dancer and manager.

At the Grand. Vaughan Glaser in "The Prince Chap." No more flattering reception could be tendered an actor than that which is given Vaughan Glaser at the Grand. The Prince Chap is the forty-third season of the historic playhouse. So enthusiastic did the audience become at the conclusion of the second act that Mr. Glaser was obliged to make a curtain speech in which he thanked the Toronto theatre-goers for their kindly remembrance of himself and company.

Festival of Empire. While the coronation procession figures as the feature of this year's attractions at the Canadian National Exhibition, it is doubtful if it will prove more popular to the public than the Festival of Empire.

Excursion To Waterloo. Weston Prize Band will run an excursion to Waterloo Wednesday, Aug. 23rd. Special G. T. R. train leaves Toronto 8:30 a.m., returning 10:30 p.m.

At Shea's. A Wonderful Japanese. Kajiyama is a Japanese gentleman who is dexterous, ambidexterous, and then some. He is not only able to be able to use both hands simultaneously and independently, but seems also to have a curious mind, which allows of dual thought processes taking place at the same time.

Liquor & Tobacco Habits. A. McTaggart, M.D., C.M., 75 Yonge Street, Toronto. References as to Dr. McTaggart's professional standing and personal integrity permitted by Sir Geo. W. YORK COUNTY West Toronto North Toronto East Toronto

MAYOR TAKES STRONG GROUND RE ANNEXATION

Disposes of Telegram's Charges in Short Order—Board of Health Meets

Solicitor Spence, acting in the absence of Mr. Starr, the legal adviser of the township of York, does not like the way in which the contracts between that municipality and the Toronto Electric Light Company are drawn up as submitted yesterday to the members, claiming that they are wholly in the interest of the company as against the township, as for instance, in the case of failure of the lights to work that the township is to pay for the lights when not in use. "That's not what we want," said Mr. Spence, "we want light. There will be something done before the Toronto Electric Light set those conditions back. The township will be a little more fully safeguarded."

At yesterday's meeting of the York township council Reeve Watson presided, with deputies Syme, Bayliss, Griffin and Councilor Fred Miller all present. Council got a rude jolt in the bill presented by the Grand Trunk Railway on account of Toronto grade separation to May 31, 1911. The bill was for labor and material used in connection with grade separation work in York township from September, 1910, to May 31, expended to date, \$174,882.15, estimated cost \$402,124.04, of which York township's share to date is \$56,048.83.

A letter was received from the Toronto Electric Light Company re the contract entered into between the company and York township for the furnishing of electric energy for 500,000 watt tungsten lights on Lander-avenue, 17 on Lakeshore-avenue, 15 on Vaughan-avenue, 4 on Frederic-avenue, 3 on Wyckwood-avenue, 5 on Kendall-avenue, 3 on Bathurst-avenue and 15 on Don Mills-road, which the consumers agree to pay for monthly at the rate of \$12.00 per annum light.

The contract is to continue in force for five years, and in the event it is annexed to the city when in the part annexed the contract ceases at once.

H. McKnight Construction Co. wrote with reference to the opening of the pavement on Millbank-avenue and the dangerous condition of the roadway, stating that it was not due to any negligence on the part of the company.

W. H. Cross, secretary of the Runnymede Ratepayers' Association, wrote drawing attention to the damage being done to the sewer sidewalks.

A letter was received from the local firm stating that John K. George, the owner of part of block "A" and part of block "B," registered plan 1231, township of York, with reference to the slide with the town of North Toronto, which would enable them to continue their sewer thru his property.

Council will also consider the matter of damages done to Parkway-avenue, opposite to Mrs. Murphy's house until Mrs. Murphy's return to the city.

That the Hydro Electric Co. is ready to launch out into York township with respect to the lighting and polling arrangements was made manifest by a communication from K. A. Atkin desiring to know all the facts in connection therewith. Mr. Atkin also wanted to know about the 20-year agreement which the township has with the Toronto Electric Light Company.

A letter was received from Amelius Jarvis & Co. stating that as the debentures they had purchased to the amount of \$26,072.54 will be issued bearing interest from the 30th day of June last, i. e., the next debenture will mature 6th June, 1912, carrying a full year's interest, they will therefore pay the accrued interest at the rate of the bonds bear from that date to actual date of delivery.

NORTH TORONTO. AUG. 21.—(Special.)—Mayor Brown and the members of the town council are not enamored over the daily misstatements and garbled reports of The Evening Telegram with respect to the matter of annexation, and are growing weary of correcting the misleading articles which from time to time appear. Through the statements have been for the most part characterized by an utter absence of hard, concrete facts, but that of Saturday night was, in the minds of the average citizen, the farthest removed from the truth.

"The true facts of the case have from time to time, both editorially and from a news standpoint, been clearly and truthfully set out in The World," said Mayor Brown to-night, and there is nothing to add to what has been well said on behalf of the scheme.

"With respect to the sewerage debentures amounting to \$260,000, in the mind of the mayor, the fact that the Town of North Toronto would in the event of annexation be similarly with the city, involved in paying for the trunk sewers, which would be of no local benefit, would offset the present cost.

"We do not know what the pumping plant would cost," said his worship, "neither does the Telegram, but we certainly would require to be supplied with water from somewhere. The talk about the town needing 20 miles of new sidewalks, he regarded as absurd. "We have kept pace with the demand for sidewalks, and they are practically laid on every residential and business street.

"Then, too, the fact that about \$400,000 being required for new pavements, is absurd. There has been no petition for new roadways, nor is there likely to be for some time. As to the matter of franchise, we had nothing to do with that, and as far as the hydro-electric getting the electric light franchise, it is idle to say that the hydro-electric has it. That matter is not yet decided, and nobody knows who will get the franchise. Time only can tell. The other matters advanced by The Telegram have been met and answered time and again," said his worship.

WEST TORONTO

WEST TORONTO, Aug. 20.—(Special.)—An alarm rung in about 6 o'clock to-night brought the Keele-street and Carleton detachments to a fire in the frame planing-mill factory of Bendwin and Shultz at 779 Hook-avenue, near Woodville-avenue. The building was damaged to the extent of \$1800, all of which, however, was covered by insurance. It belonged to Mr. W. Shultz of 325 High Park-avenue. P. Benninghwaite of 898 Clarendon-avenue being the owner. The cause of the fire is not known.

Mr. George Robinson of Quebec-avenue, a member of the Ravina Bowling Club, was defeated in the finals of the Dominion bowling tournament this afternoon at Granite Rink.

Mr. James W. Thornborough of 783 Keele-street has left for an extended trip to the Pacific Coast. Mr. Greenhields of Law-street also left for the western provinces.

Inside work of the new C.P.R. station at Royal-avenue is now almost completed. The grounds have been filled in and the building and finishing touches are being given to the wood-work and decorating. It is expected that it will be ready to open for the exhibition traffic by the beginning of next week.

THAT TRIP TO WATERLOO

Won't Be a Corporal Guard Left in Town.

The one big excursion of the year out Weston way is that of the Weston town band and the bowling club, a joint affair to Waterloo on Wednesday next. A committee from Keel-avenue is joined by two or three trunks of Brampton enthusiasts, and up in Waterloo the excursionists will be in the hands of the hospitable fellows of the town. Indeed they go by special invitation, and everybody knows the open handed hospitality of the fellows up there. There will be special accommodation, both going and coming, and nothing will be left undone to make the guests of the honest Waterloo people. There will be a concert in the town on Wednesday evening.

TIZ--For Sore Feet

Tired, Aching, Swollen, Smelly, Sweaty Feet? Corns, Callouses or Blisters? Use TIZ. It's Quick and Certain.

You Will Enjoy using TIZ, the Most Pleasant and Sure Ever Tried and Moreover, It Works.

At last here is instant relief and a lasting permanent remedy for sore feet. No more tired feet. No more aching feet. No more swollen, bad smelling, sweaty feet. No more corns. No more blisters. No more callouses. No matter what ails your feet or what under the sun you've tried without getting relief, just use TIZ.

TIZ is totally unlike anything else for the purpose you ever heard of. It's the only foot remedy ever made which acts on the principle of drawing out all the poisonous exudations which cause sore feet. Powders and other remedies merely plug up the pores. TIZ cleanses them out and keeps them from coming back. You will feel better the very first time it's used. Use it a week and you can forget you ever had sore feet. There's nothing on earth that you can compare with it. TIZ is made only by Walter Lather, Duggan & Co. Windsor, Ont., and is for sale at all drug stores at 25 cents per box.

Walter Lather, Duggan & Co. Windsor, Ont., and is for sale at all drug stores at 25 cents per box.

CLARKSON, Well-Known Fruit Man is Kindly Remembered.

CLARKSON, Aug. 21.—(Special.)—Members of the Clarkson Fruit Growers' Association, in appreciation and thru the high esteem held by them of Mr. John Kay, gave a banquet in his honor, which was most heartily enjoyed by all present. Mr. Kay for several years past has represented the commission house of Messrs. Hart & Tuckwell of Montreal, in the buying of fruit at Clarkson station, where a considerable amount of which changes hands year after year. Miss E. M. Clarkson provided the banquet, which was held in her spacious ice cream parlour, and was most enjoyable and most creditable spread. A number of toasts were given by the president, J. P. Stephens, including one of the guests of the evening, the secretary, Mr. W. Shook, with a few appropriate remarks in the presenting to him of a beautiful solid gold ring. Mr. Kay, who was visibly touched by a feeling reply, thanking all and stating that he hoped to come back to Clarkson again, and expressing his respect kindly of Mr. Kay, and left no doubt that his dealings with the growers and people of Clarkson had been highly appreciated.

RICHMOND HILL. "Old Boys" Reunion Will Be Memorable Time in Old Town.

RICHMOND HILL, Aug. 21.—Everything is progressing favorably for the Richmond Hill Old Boys' reunion and picnic on Sept. 2. Strong committees have been appointed in the village, and the president of the Toronto Association, W. E. Wilson, was here Saturday, reporting good progress in the south. A large number of visitors is expected, and already favorable replies have been received from old boys in Winnipeg, London, Detroit, Brantford, Brussels and other places at a distance. Hundreds of old friends will be pleased to meet that day with W. J. Clifford, who recently distinguished himself and brought honor to his native land, at the great military review of Richmond Hill the greater part of his life.

UNIONVILLE, Conservative Meeting is on Thursday Afternoon.

UNIONVILLE, Aug. 21.—(Special.)—The organization meeting of the Conservative Club, in the interest of Capt. Tom Wallace, the candidate of the Conservative party in Centre York, will not be held on Wednesday, as announced in The World, but on Thursday, Aug. 24. A rousing meeting is looked for, and the friends of good government are invited to attend.

LEASIDE, St. Cuthbert's Church Had Splendid Time.

LEASIDE, Aug. 21.—(Special.)—The first garden party of the newly organized "Girls' Friendly Society of St. Cuthbert's Church" last Saturday afternoon, gave evidence as to the future success of the organization. Amongst the rising young ladies of the neighborhood, the sale of work of the girls during the summer added very much to the funds of the church, and the other attractions paid all the expenses of the affair. Amongst those present were the Rev. Canon of the local cathedral, the Dominion President of the general association of the Girls' Friendly Society.

WOODBRIDGE, Conservatives Are Enthusiastic and Anxious for the Fray.

WOODBRIDGE, Aug. 21.—(Special.)—Next Friday evening in the Orange Hall here, a rousing demonstration will be held in the interests of Capt. T. D. Wallace, Conservative candidate for Centre York. Hon. J. B. Lucas of the "Whitney" cabinet, will be the chief speaker, and he will be assisted by Forbes Godfrey and J. L. A. of West York, Capt. Wallace and others.

NORWAY, Wonderful Sight of New York City.

NORWAY, Aug. 21.—(Special.)—The promoters band concert under the auspices of St. John's Anglican Church, Norway, to be held at Orchard Park to-morrow (Tuesday) evening will be an event of more than ordinary interest. The splendid band of the 48th Highlanders will furnish music throughout the evening and all the other attractions which last year made this such an enjoyable affair will be in evidence this year. Orchard Park is conveniently situated at the junction of Queen-street and the Kingston-road.

MOTOR MAPS.

In countries like France, where roads are good and cross roads numerous, travelers by automobile have frequent occasion to consult road maps, because they go so fast and change direction so often that topographical information is, for them, a continual necessity. To meet this there has been invented an automatic chart that unrolls step with the advance of the carriage, so that the chauffeur has always before him a map of the route he is to pursue. Why the road is about to turn sharply an electric bell gives warning 200 metres in advance. Another attachment to the chart registers the distance traversed. The whole apparatus is moved by gearing connected with the wheels of the automobile.

EATON'S DAILY STORE NEWS

August Rug Sale is Making Giant Strides

The extraordinary quality as well as the enormous quantity of rugs for selection in this sale has attracted much buying attention for the last week. We have provided a wide range of German Axminster Squares—A limited number at \$15.50 to \$32.50. We made a large mill purchase of discontinued designs, which account for this low figure. Art Nouveau Effects, chivies, medallions and orientals, in a wide range of blendings of green, olive and brown. Patterns are exceptionally good and are really quite choice enough for regular stock, in 3 qualities: First quality, 9 ft. 10 in. x 13 ft. 1 in. August sale price... \$25.50 Second quality, 9 ft. 10 in. x 13 ft. 1 in. August sale price... \$22.50 Third quality, 9 ft. 10 in. x 13 ft. 1 in. August sale price... \$18.50 Seamed Brussels Squares, a heavy durable floor covering, woven without mitres or cross seams. Always a general favorite, easy to keep clean, ample selections for any room in your home: Size 3 1/2 x 2 yds. August sale price... 7.75 Size 3 x 3 3/4 yds. August sale price... 12.25 Size 3 x 4 yds. August sale price... 18.95 Tapestry Squares, in attractive patterns and colorings, a sturdy wearing floor covering, in green floral medallion and fawn floral chintz: Size 3 x 3 yds. August sale price... 8.45 Size 3 x 3 1/4 yds. August sale price... 9.45

Price Advantages Offered by the August Sale of Furs

It's later on in the season when the cold, biting winds and the freezing atmosphere make the wearing of furs an absolute necessity. And those who purchase during this sale will realize what great satisfaction there is in being prepared for the Canadian winter and that too at a saving of dollars, for there's not an article offered at sale prices that is marked at a figure that makes buying now well worth the investment, as these few items indicate: Persian Lamb Throw Ties, 60 in. long, graduating from centre to wide paddle ends, black satin lining, medium or large curl. August sale price... 9.75 Large Pillow Muffs, first quality Persian Lamb, in this season's most popular styles, black satin lining, down bed, either shoulder cord or wrist cord. August sale price... 25.00 Dark Stoles, for girls and misses, dark natural color, rounded back, two heads on front and two tails, brown satin lining. Sale price... 8.00 Hudson's Seal Coat, 50 in. long, shawl collar, almost to waist line, semi-fitting back, slash sides, satin lined, silk covered buttons. August sale price... 75.00 Handsome Persian Lamb Coat, straight front, slash sides and cuffs of self, black satin lining, large or medium curl, splendid gloss, this year's new goods. August sale price... 208.00

T. EATON CO. LIMITED

TO HEAD OFF FOREIGNERS

China to Convert Mongolia and Thibet into Provinces.

PEKIN, China, Aug. 21.—The transfer of Prince Su, chief of the naval department, to the board of dependencies is taken to mean that China will attempt to develop Mongolia and Thibet, as well as Manchuria, and convert them into provinces, with the object of saving them from ultimate foreign domination. The prince visited Mongolia in 1906 and made an investigation of its industrial and commercial conditions. China is planning to allow the office of Dalai Lama of Thibet to lapse, and not authorizing the reincarnation of a successor, and so to control Thibet without a religious intermediary, but the rapid and effective fulfilment of reports predict an outbreak at Canton, which will be the beginning of extensive revolutionary incidents in the south. An imperial edict commands the viceroys of Canton to ferret out the last plotter with the greatest secrecy.

CHALLENGES THE CITY

Operations Begun at Spadina and Bloor to Test Authority.

Work has been commenced by J. F. Schultz on the building touching the street line at the corner of Bloor and Spadina for which no permit has been given by the city—Action will in all probability be taken against him in a few days. William Johnston, city solicitor, wrote to the board of control on Saturday asking for instructions as to what should be done, and that communication will be dealt with at the meeting to-day. The work that has been commenced is not of a very serious nature, just enough to challenge the city to decide before the courts as to who is in the right.

JOHNSTONE BENEFIT

Strong Wind Prevented Most of Aviators From Flying.

CHICAGO, Aug. 21.—A wind that reached 50 miles an hour at times prevented all but a few aviators from trying to get into the air at the benefit performance for the widow of St. Croix Johnstone to-day. It had been announced that all the rules of the International Aviation Meet would be declared off and that the fliers would be at liberty to risk their necks in any aerial feats they chose, and as a consequence it was expected that the exhibition would be more spectacular than any during the meet. The wind proved too gusty and for several hours no one attempted to fly. Then Lincoln Beachey arose, checked the field, descended and declared the wind was too strong for safe flying. An hour later Bechoey, G. H. C. P. Rodgers and James Ward gave short exhibitions during the day. In spite of the two lives sacrificed last Tuesday, aviators said to-day that there has been done much toward putting aviation on the same basis as competitive events of other nature. The no-fly-no-pay rule served to keep the fliers in the air every possible moment. The speed events scheduled daily showed that the machines could be started, stopped and controlled with almost as much certainty as automobiles.

FOR BAPTIST STUDENTS

University to Be Built at Peterburg With Canadian Aid.

Rev. A. J. Vinling, for many years Baptist minister in London, Ont., moved to Toronto. Last year he gave up his charge to engage in the work of collecting funds for the building of a university in continental Europe for students of the Baptist persuasion. The proposed university will probably be built in St. Petersburg, Russia. Mr. Vinling's Toronto address will be at Dupont-st., where he will be pleased to meet and person who is in sympathy with the movement for the establishment of a great, continental Baptist university.

DENISE STEEL MERGERS

BETHLEHEM, Pa., Aug. 21.—Charles M. Schwab, president of the Bethlehem Steel Company, to-night denied the report that his company would be merged with the Lackawanna, Steel Company and the Republic Iron and Steel Company to form the United States Steel Corporation. He said there was no such step contemplated. "We are solely interested in the development of our own company," he said.

ORDER OF THE MOOSE

For the purpose of getting the social order of the Moose to hold their convention in Toronto next year a civic delegate will probably be sent from Toronto to St. Thomas, where this year's convention will be held from Aug. 21 to 25.

COOLNESS AND COMFORT for a Summer Day

Don't make a fire in the kitchen. A hot kitchen means a hot house and a hot temper. It doesn't promote domestic happiness nor does it encourage sweetness of disposition. Here's freedom from kitchen worry and work: Have a deep dish for each member of the family; place in each dish two

SHREDDED WHEAT BISCUITS

(whole or crushed) and cover with berries of any kind—raspberries, blackberries, huckleberries or other fresh fruit, then pour over them milk, adding a little cream and sugar to suit the taste. You will find it deliciously appetizing and nourishing, supplying all the strength needed for work or play. Shredded Wheat is ready-cooked and ready-to-serve. It is the whole wheat steam-cooked, shredded and baked—nothing added, nothing taken away. A food for the Summer days when the stomach is tired of heavy meats and soggy pastries.

MAKE YOUR "MEAT" SHREDDED WHEAT

Baseball Toronto 7 Baltimore 5 Pacing World's Record At Columbus The O.J.C. Stakes Entries

Note and Comment

At this point the Leafs would catch up in a week, providing they had sufficient double-headers, and the Hustlers stopped hitting. Not only would Toronto have taken the championship...

BILL O'HARA FEATURED IN THE LEAF VICTORY

Baltimore was Beaten Again by Score of 7-5—One of the Most Interesting Games of Season.

Leafs won another from the Orioles by 7-5 in an interesting game of ball as any person would wish to witness. The contest was full of brilliant fielding features, daring base-running and the most fastidious fan must have been satisfied with the 22 safe singles made by the two teams, in which were included four home runs, a triple and a double.

Baltimore used no less than three batters to reach Toronto with Tesreau and Bachman made a great effort to touch up rather freely. Bill O'Hara, besides furnishing the exciting feature of the entertainment...

Cy Seymour did the best batting for a home run, Tesreau popped to Parent and Shaw flew out over Corcoran's head. Delahanty singled to centre, and Tim Jordan hit to right field, scoring O'Hara and Delahanty. Spradley flew to Hied.

Baltimore tied up the game in the eighth when Corcoran beat out a bunt and went to second on Bradley's low throw. Parent popped to Smith and O'Hara then robbed Walsh of a home run.

Leafs made their final run of the game in the eighth. Smith drew a base on balls and was forced to bat. The latter stole second and went to third on Egan's low throw to the middle bag. Bachman fanned and Shaw walked. Fitzpatrick scored when O'Hara singled to left for his fourth hit of the game.

MUMBER REGATTA TO-MORROW

Aquatic Toronto will move out to the Humber to-morrow afternoon to the River Association, which, this year, will hold on the river in the vicinity of the old mill, instead of near the mouth of the river.

The regatta is billed to commence at 2 p.m., and the program of races will occupy the entire afternoon.

At Chicago—Chicago's losses fielding victory yesterday, 7 to 4. Scott pitched a good game, but Olmstead and McGraw were hit freely.

At Detroit—Gehner's single in the eleventh, followed by two fielders' choice plays and Gardner's error of Donovan's grounder gave Detroit a victory over New York, 5 to 3.

At Cleveland—Cleveland was played yesterday. Philadelphia at St. Louis, no game; two games to-day.

At St. Louis—St. Louis was played yesterday. Philadelphia at St. Louis, no game; two games to-day.

Porcupines Well Supported—Further Advances Recorded

Mining Markets Looking Up Tendency for Better Shown

Trading Still Heavy and Advances Are Made Throughout the List—Optimism Is More General—Cobalts Brighter.

World Office,
Monday Evening, Aug. 21.
The mining market was decidedly brighter to-day. Advances were recorded in several of the shares and the whole list was steady and the market had a better tendency than has been usual.

For some weeks past efforts seem to have been made after each rally to suppress prices again, and these efforts have been generally successful, but the rally made early to-day was held well, the market displaying good signs of strong support.

Brokers point out that although the mining market has seen a bad slump, the shares have held up well considering how the other markets have acted. Everywhere else stocks have been badly depressed, and with circumstances against them the mining shares have held their own much better than might have been expected.

With the exception of Hollinger, the market to-day was a good deal better than at the close of last week. Hollinger seems to be the victim of circumstances, and also with the general public asking themselves if the development of the property has warranted the high market reached, there is bound to be some depression. However, the insiders have every faith in the ultimate success of the property. They are proceeding as rapidly as possible toward the producing stage, and one of the big men of the Hollinger seems to have voiced the opinion of the management when he said that it made no difference to him what the market fluctuations were, he was quite certain that the stock would some day be worth far above the present value. Its fluctuations to-day extended from 99 to 100, with close at 97.

Dome Extension had a good day, opening at 67, it climbed to 71-3/4, closing at 71-1/2. This stock showed much better buying and after being the target for bears for a week past, it needed little persuading to send it up.

Preston East Dome's activity has not entirely died down; it made a half point on the day's trading, at one time touching 297-3/4.

Rest declined to 290, but rallied again, closing strong at 300. Vipond soared to 46-1/2. There was some demand for North Dome, 140 being bid. It is an untested stock.

Cobalts have looked up considerably lately. Beaver is in enquiry, the last sale being 48. Timiskaming, too, held the boards in the silver side. Rumors of a strike brought out a big demand, but there seemed to be plenty of supply, but at that the stock closed at 41.

The whole market was much steadier for some time, and the strength displayed at the end of the day looks very promising.

Timmins Townsite Sale on Labor Day

Lots in Coming Town of Porcupine Field to be Auctioned Off.

Labor Day, Sept. 4, has been chosen for the selling of the lots in the Timmins Townsite, and is situated in the Porcupine field.

A public auction will be conducted on the property that day, and it is confidently expected that the new town of Timmins will be given a deservedly good start. Being right in the centre of the busiest section of the goldfields, and endowed with a good natural situation, there should be no difficulty experienced in disposing of the lots.

The location of the townsite is high, affording excellent drainage. The soil is sandy and the ground fairly level. A station of the T. & N. O. will be placed on the property.

STODDARD CLAIMS SOLD. ONE WAS DROWNED

The Waters-Harris syndicate of New York has purchased 320 acres southwest of the Hollinger. The property is well governed and is situated between the Hollinger and Worthington, and about a mile from the Hollinger townsite. The claims were previously owned by the Stoddard syndicate, of whom W. R. Tucker, J. A. Smith, J. B. Marshall and J. H. Hallett of Toronto were interested members.

The boys were half way across the bridge when they saw the lights of a locomotive approaching. Losing his head completely, the younger brother plunged into the river and was drowned. The older one crowded himself against the rails at one side of the track and was struck by the passing train. Help soon arrived, and Dr. Rochette of Terrebonne, attended the wounds of the injured boy, who was reported this morning as likely to recover. The younger boy's body was found to-day.

PAINTED HIM RED.
CHATHAM, Ont., Aug. 21.—(Special.)—A well-known young man from Chatham was set upon recently by a number of farmers' sons while returning from visiting a country girl down the river. His clothes were stripped from him and he was painted from head to foot with red ochre, a paint used for coloring brick. No information has yet been laid against the men who attacked him, and an effort is being made to hush the affair up.

Made a Difference.
Mrs. Flint (severely)—Do you ever drink intoxicants?—(The doctor)—Before replyin', madden, permit me to ask if that is an invitation or merely an inquiry.—Puck.

Well-Known Citizen Dead.
NIAGARA FALLS, Ont., Aug. 21.—(Special.)—M. S. Brad, a well-known citizen, died at his home here to-day, aged 69. He leaves a son and a daughter. Henry Byrd died at the age of 71.

A Message to You From PORCUPINE

Is the purchase of Railroad Securities or Coppers surrounded by any great profit possibilities under present conditions?

No.

Our financial giants are advising their friends, their clients and the world at large to buy Gold Securities when first issued and when low, stating that, if sound judgment is used, great profits are inevitable, and quick.

PORCUPINE is the sensation of the mining world. We are advising all of our best friends and clients to buy the better Porcupines immediately, but we advise the use of care in selection.

We have been familiar with the Porcupine District from its discovery, and we are in close touch with the development now in progress. We will give you careful analysis, unbiased, unprejudiced opinion and advice.

We have a very intimate knowledge relative to one Porcupine Stock that, we believe, based upon the expressed opinions of eminent engineers and expert practical miners, if purchased without delay, is surrounded by wonderful profit possibilities.

Correspond with us at once, and we will gladly share with you the above referred to intimate knowledge.

Do not delay. Do it now.

WILL WAIT FOR HYDRO

GODERICH Finds Rates Much Better Than Private Power.

GODERICH, Aug. 21.—Hon. Adam Beck addressed the council Thursday, when he outlined a scheme by which power could be developed by the government from the Mattan River, and this, used in conjunction with the hydro-electric, to be sold for municipal industrial purposes at \$2 per horsepower, with rates adjustable each year and straight hydro-electric power from Niagara Falls at \$4 per horsepower on a minimum consumption of 900 horsepower.

This advantage in rates induced the council to withdraw a by-law which had been voted upon Saturday by which John Brodie of the Salt King Co. is offering power to the town for lighting and pumping purposes at a rate of \$34 per horsepower on a minimum consumption of 325 horsepower, any unused part of which could be resold by the town in quantities less than five horsepower, larger amounts to be sold by the Brodie Company to factories direct.

The franchise was to run for thirty years, with the rate adjustable to meet any other competition every ten years.

TOGO INTERESTED IN HYDRO.

NIAGARA FALLS, Ont., Aug. 21.—(Special.)—Togo left here aboard the private car "Canada" tonight, after spending two days within hearing of the mighty cataract. He said before leaving that he was much impressed with the beauty of the falls and the wonderful power development. He was much interested in the hydro-electric scheme. He leaves Toronto for the west on the Canadian Pacific transcontinental express at 10:30 tonight. He spent the entire day with Japanese-Consul-General to Canada Nakamura, who accompanied him to Toronto.

SOLD HIRED-HORSE AND RIG.

BROCKVILLE, Aug. 21.—(Special.)—Matthew Lawson hired a horse and buggy from a Smith's Falls hiveryman on Thursday last for a short drive. Proceeding to Westport, Lawson sold the outfit to W. C. Fredenburg for \$120 and came to Brockville. The local police effected his arrest this afternoon. Sixty-two dollars of Fredenburg's money was found on the prisoner.

Speeder Fined.

NIAGARA FALLS, Ont., Aug. 21.—(Special.)—John McNulty, American chauffeur, found to-day that it did not help to disregard speed limits in Queen Victoria Park. He was fined \$5 for exceeding the limit.

Gold Spot 12 1/2c To-Day

Our party has returned from the showings on Gold Spot. The stock advances to-day to 12 1/2 cents a share, at which price we offer a limited allotment for twelve days only. After that comes another advance and the Gold Spot is to-day the best speculative purchase of the Porcupine list, with 50 cents a share very probable. Wire orders.

COLDSTREAM GUARDS

Royal Band on Way to Toronto is Proceeded by Band Serg. Allen.

Band Sergeant Allen of the Coldstream Guards has arrived in Toronto and the band is now on the water coming across. Serg. Allen came early for the purpose of getting into touch with the other bands and making arrangements for the reception of the guards.

Lieut. McKenzie-Rogan, the leader of the band, will furnish the same music for the Festival of Empire at the exhibition that was used at the coronation. He himself arranged it. Lieut. McKenzie-Rogan will lead the massed bands at the exhibition.

The Coldstream Guards' Band during the past season, up till the time of their embarking for Canada, have been the royal band. They have officiated at all of the recent functions and receptions at Windsor Castle. Visitors at the exhibition will have an opportunity of hearing the same music played by the same band which not long ago depicted the King George, Queen Mary, the princess and princesses, the dukes and duchesses and many other royal personages in England.

CASH

I am prepared to loan any amount at ten to fifteen days on listed Cobalt and Porcupine stocks.

BIG POCKET OF SOLID GOLD FOUND IN CANADA.

Word of Sensational Discovery in Porcupine Comes Thru Stoneham's Office.

An accurate knowledge of the success being met with in the underground workings on a number of the Porcupine properties can be gleaned from the following private wires received last night in this city by the firm of Charles A. Stoneham & Co., 23 McInda-street. These telegrams come to this progressive brokerage house from their special representative in the camp, Edward S. Little, and can be seen at their offices at any time by those sufficiently interested. The news service maintained by Stoneham & Co. is of great benefit to the mining public, and in whose interests this department is conducted.

"Insiders in Big Dome mines have placed an order to buy up every outstanding share at any price whatever on the latest strike. Some excitement also has this same strike."

"Developments in this camp last week would set any other mining camp in the world on its feet. Old Goldie Klondike miners who are here say they never saw anywhere in a single week two such strikes as those made on the Dome and North Dome last week. I went thru the Jupiter on Friday, and it continues to be a whale. On developments an absolutely sure that latest strikes will cause big rush into camp. Requests for rooms already pouring in by the hundreds."

"Imperial struck another rich body of ore at the 100 foot level on Tuesday night. This strike is, away ahead of previous ones."

"This solid gold strike on the Dome, is now 19 inches long and from two to five inches wide. It is a world-beater and has set the camp wild."

"I have personally seen the new Big Dome, which runs right up to the Dome Extension lines. Nothing better ever seen in the Goldfields of Nevada."

Reviewed Weakness on Wall Street-- liquidation Responsible

Stocks Receiving No Support Distinct Heaviness in New York

Closing Not Conducive to Confidence at End of Day of Declines-- Uncertainty Keeping Public Out.

NEW YORK, Aug. 21.—The week in the stock market opened with a renewal in mild form of the downward movement which has played such havoc with prices of securities for almost a month. There was moderately heavy selling, which again concentrated upon the leaders, Union Pacific, Reading and U. S. Steel. In fact, dealings in these issues during the first three hours of the session constituted over 75 per cent. of the whole. The decline to-day was more suggestive of profit-taking by specialists than of liquidation. Week-end developments offered little incentive for activity on the bourse. Some hitch in the British arbitration proceedings was reported, even the undoubted improvement had set in. Another deterrent was the report which, however, found but little reflection on the continental bourse. Perhaps the most discouraging event was the announcement of the Harriman system of its intention to embark on a comprehensive policy of retrenchment because of unsatisfactory earnings and other adverse conditions. While no official statement was vouchsafed by local officials, it is understood that the proposed call on employees will affect several thousand employees in the clerical departments of the Union Pacific and Southern Pacific. It is believed that the Harriman system of its intention to embark on a comprehensive policy of retrenchment because of unsatisfactory earnings and other adverse conditions. While no official statement was vouchsafed by local officials, it is understood that the proposed call on employees will affect several thousand employees in the clerical departments of the Union Pacific and Southern Pacific.

THE DOMINION BANK

HEAD OFFICE—TORONTO
E. B. Osler, M.P., President. W. R. Matthews, Vice-President.
Capital \$2,000,000.
Reserve \$5,000,000.

CAN. LOCOMOTIVE CO.'S NEW GENERAL MANAGER

Kingston Concern Secures Services of Long Experienced Man—Appointed Yesterday.

A. W. Wheatley, manager of the Brooks Plant of the American Locomotive Company at Dunkirk, N.Y., and who is recognized as one of the greatest experts on locomotive building in America, has resigned his position to accept the appointment as general manager of the Canadian Locomotive Company, Limited, at Kingston. The directors of the Canadian Locomotive Company are jubilant over securing the services of Mr. Wheatley. The appointment was made at a meeting of the directors held yesterday. Mr. Wheatley is an Englishman born, and served his apprenticeship with the South Eastern Railway in England. He came to the United States in 1882 and worked as a machinist on the Northern Pacific Railway until 1884, when he was made foreman of their roundhouse at Staples, Minn. He was promoted again in 1900 to the position of general foreman of locomotives at Livingston, Mont., and in December, 1902, he was made master mechanic of the Yellowstone division of the Northern Pacific. He was made shop superintendent at Brainerd, Minn., in 1903, and a year later was appointed general master mechanic. A year later he went as shop superintendent to the Chicago, Rock Island and Pacific Railway, and one year later again he was secured by the Union Pacific. Chief Engineer at Staples, Minn., and in 1907, the Montreal Locomotive Works of Montreal secured his services as their manager for a short time, and in November, 1910, the American Locomotive Company secured his services and placed him in charge as manager of the Brooks Plant at Dunkirk, the second largest plant, which the company has.

An All-the-year-round Suit For Men, To-morrow, \$9.80

A well-known manufacturer had a small lot of new Suits to clear immediately. We hardly wanted to take them so early, but he made the price right, and the new cut and style of the suits decided us. They're made along the lines of the English sack, a trim, neat style, that will be followed by every good tailor during the coming season. Here are further details:

230 Suits, fine imported fancy worsted and English and Scotch tweeds, in grey and brown tones; also some plain navy blue clay worsteds; they are cut and tailored in the latest three-buttoned single-breasted sack style, which is practically the English sack improved; best of trimmings throughout; sizes 34 to 44. Regular \$15.00, \$16.50, \$18.00, \$20.00, \$22.00. Wednesday 9.80

Boys' English Tweed Russian Suits, in dark grey ground, with fancy colored stripes; also **Navy Blue English Mill-Finished Serge Sailor Blouse Suits**, made up with sailor collar; pants bloomer style; sizes 3 to 9 years. Regular \$3.50. Wednesday 2.39

Summer Underwear and Work Shirts at Low Prices

Light-weight Summer Underwear for Men, in white mesh knit; long sleeves and ankle-length drawers; a few with short sleeves and knee lengths, also white nainsook, athletic style, no sleeves and knee lengths; good range of sizes; always sold at 50c. Wednesday, per garment 25

Men's Work Shirts, in black drills, blue and white or black and white stripes, English Oxfords, etc.; also fancy stripe Flannel Shirts, in a well assorted range; all have collar attached; some reversible; sizes in the lot from 14 to 17. Regular prices 75c and \$1.00. Wednesday, each 59

Here is Your Opportunity

MEN'S SAMPLE BOOTS AT HALF PRICE.

170 pairs only Men's Goodyear Welt Boots, traveller's samples from the Brandon Shoe Company of Brantford; Blucher, lace and button styles; made from tan Russia calf, gunmetal calf, velours calf, fine vici kid and patent colt leathers on new 1911 fall and winter style lasts; sizes 7 and 7½; widths C, D and E. Regular value \$5.00. Wednesday 2.49

300 pairs Men's Boots, American styles, from Boston; made from tan calf, vici kid, gun metal and patent colt leathers, on new 1911 fall and winter style lasts; Blucher style; Goodyear welt soles, of double and single thickness; all sizes 5 to 10. Regular prices \$4.00 and \$5.00. Wednesday 2.49

MEN'S WHITE DUCK BOOTS AND OXFORDS, \$3.00 VALUE, AT 99c.

320 pairs Men's White Sea Island Duck Blucher Style Boots and Oxfords, Goodyear welt soles; straight and swing toe lasts; all sizes 5 to 11. Worth \$3.00. On sale Wednesday 99

Note.—The above line is being cleared at 99 cents on account of the advance season. Phone orders filled if received early.

Look at These Men's Items For the Last Day of the Hosiery Sale
