Hand Printed Wallpaper

Long ago "hand blocking" was the only method used for the printing of wallpapers, a process by which an expert could turn out about 6 rolls per hour printed in 6 colors, though there are now machines which can turn out 600 rolls per hour printed in 12 colors. Hand printing is still in use for the better grade of papers. And its perfections are illustrated in an exhibit of beautiful printed papers, one of them, a peacock and rose design on a black ground, requiring 146 colors and 76 blocks. The process of hand blocking is demonstrated each day in the Wallpaper Department -- the ground work applied to the design printed by an expert from one of the great wallpaper manufacturers.

"When I originally dropped my price for bread from 11 cents a loaf to 10 cents, I did it for exactly the same reason I have put down the price of bread in the past. I found that under present conditions I could afford to sell bread at 10 cents instead of 11 cents, and I have kept my pledge to the public by reducing the price. There is no reason why other bakers should lower their price if they cannot afford to, and I had no intention of starting a "bread war." My policy is ONE PRICE TO ALL, and when I found I could sell bread at 10 cents a loaf, I GAVE EVERYBODY THE SAME PRICE. Just at present I am offering EVERYBODY IN TORONTO my "special, confidential lowest price"--8 cents a loaf, or 14 Tickets for One Dollar. My "confidential price" is the same to all, and is always published in the papers. It's a big chance to save money, for bread costs more than the present price to make it, but while the offer stands, friends, make the most of it-order your bread today.'

Farmers of Haldimand Dissatisfied With Dilatory Measures Taken.

That conditions berdering on public porism have been permitted to prevail in South Cayuga; that at Fisherville the people had to remove their wives and children to the woods and mount guard over them with arms in their hands; that the local administration of justice is as idle as a ed ship upon a painted ocean, painted ship upon a painted and that threats have been made to the effect that any individual looking for redress will find retaliation information representations made to stead, are representations made to attorney-General Lucas in behalf of some prominent residents of Haldi-County, whose names have a cousin-German, or alien, look.

These visitations and the suspicions they created caused a good deal of ill-feeling among neighbors, and rumors of this began to spread to Dunnville and beyond.

The Gross Case.

On the night of November 17, Gross, who is married and has two children, was sleeping the sleep of the just and loyal citizen in his house in Cayuga; the rooftree also covering his father, sister-in-law and brother, a schoolboy of twelve; and about half-past two in the morning he was awakened by a tumult outside. Half a hundred people were surrounding the house. Lists of names alleged to be those of the ringleaders in the attacks upon Gross, Beck, Rowe and others, have been furnished to the attorneygeneral, with names of witnesses of the various episodes, and representations of the strongest kind are made that the people of the district wish him, in the interest of peace and justice, to the machinery of the criminal law PRINCESS PAT AUXILIARY

The charges may be laid either before the local police magistrate or before any other justice of the peace in the county. Who will be the greatest individual drawing card in baseball when the sport is resumed in April? asks Roy Reeves in The Philadelphia Public Ledger. Will Ty Cobb, far-famed slugger of the Tigers, hold his eminence against the switt advance of Hank Gowdy, the first professional ball player to enlist in the army of the United States when the United States plunged into the war, or will Gowdy, soon to return from his conquests in France, teign supreme in the realm of the diamond? It is safe to predict, according to George Stallings, manager of the Braves, that Gowdy next season at least will equal Cobb as an individual attraction. Gowdy, furthermore, will not yield to the tempting inducements for him to go on the stage, but will continue in baseball because he

TWO-GOAL VICTORY FOR LOCAL OUTFIT

Canadiens Outplayed in Pro. Fixture - Noble Plays Sparkling Hockey.

The Canadiens, minus Geo, Kennedy, went down to defeat before the Arenas last night for the second time in eight days. The score was 6 to 4, and after a poor first period it blossomed out into a nice-looking fixture.

The visitors were very poor in the opening round. The red-shirted band went down the ice pretty enough, but passed poorly, and their shooting was away off at close quarters. The locals kept going the full journey. They did not team up as well as in the Ottawa fixture here, and clever work by Noble made them dangerous at all times.

Randall was a bright, shining light, He rushed well and collected three of the Toronto goals. Mummery took the eye of the fans. His blocking was up to par. Crawford was closely checked all night, Adams did some effective checking. As usual, Newsy Lalonde was the leader of the Montreal attack, He went in the pinches, passed well, and packed a wicked shof

Dempsey does not smoke, and all he drank yesterday before and after the articles were signed was a tall glass of lemonade. "I won't need more than eight or nine days' training before meeting willard," he said. "It doesn't make any difference to me whether the fight is a long or a short one, but I think the championship fight should be long. However, the longer it is, the better I'll like the championship fight should be long. However, the longer it is, the better I'll like the longer with the enthusiasm and candor of a schoolboy.

No announcement has been made from Toronto, other than that the University Athletic association would be ready to take up sports next autumn. That announcement was made following an effort of McGill to reaorganize the Hockey union.

Boer Rodel couldn't read or write, but he had a sweetheart back in London who sent him letters regularly, which Manager Jimmy Johnston would read to him. She was a stenographer and always wrote them on a typewriter.

Rodel was signed up to fight Gunboat Smith when the Gunner was in his prime. Rodel knew he was in for a licking.

But just before the fight Johnston framed up a cablegram which was delivered to Rodel at his hotel. "What does it say?" he asked a little Englishman sitting alongside him.

The latter read the message: "You must win for me tonight. Keep up your courage. Nellie."

"But," exclaimed the Englishman, "I think it's all bunk, this cablegram."

Jeff's Wicked Left Scores.

How a golden dream prevented Jim Corbett from winning back the world championship from Jim Jeffries after he had lost it to Bob Fitzsimmons, also is told by Johnston.

"I was at the ringside in Coney in 1900, when Jim fought Jeff for the title," says Johnston.

"Tor 22 rounds Corbett had made a monkey out of Jeffries, hitting him at will, and he was keeping it up in the twenty-third, with orly two more to go.

"But Tommy Ryan had coached Jeffries to keep using a wicked left hook from his crouch, and Jeff kept trying it round after round.

Farms Wanted Soldier Settlers

Powers are proposed to be granted at the approaching session of Parliament to The Soldier Settlement Board of Canada to purchase lands to be resold to qualified returned soldiers settling on land. In the case of undeveloped lands the Board will be granted powers of forced purchase at prices judicially

To enable soldiers to locate in any district in Ontario that they wish, the Advisory Board for the Province of Ontario desire to have filed with them a full description and lowest cash prices on a small number of select farms in each district of the Province, available for purchase.

The public are hereby informed that this land is for returned soldiers, and no tenders to sell are requested except for land of good quality and location, and reasonable value, making possible the success of the soldier as a farmer. The purchase price in all cases will be fixed by the Board after the land has been inspected and valued.

The information received will be treated as confidential. No commission will be charged or paid. No offer to sell will be binding on the person offering unless a sale is effected, and no obligation will be on the Board to accept any offer.

If application from a returned soldier be received for a farm listed with the Board, a valuation for such farm may be at once made by the Board and, if approved, negotiations may be entered into for the purchase and sale thereof. An approved list is desired for each district of Ontario.

BREAK IN STEAMSHIPS IN MONTREAL MARKET

Steels and Canada Car Are Among Stronger Features of List.

Montreal, Feb. 11.—A slight broadening in the demand for Canadian stocks found encouragement in a firmer market at New York today, and. with some irregularity, the trend of prices in the main was higher, A weaker exception was Canada Steam ship common, which sold off sharply to 42 in the early afternoon, against 45 at the close on Monday, on the an-nouncement of the declaration of an initial dividend at the rate of four per A slight rally followed break from 441/4 to 42 over the noon recess, closing price being 421/2. Some ctation that the dividend rate expectation that the dividend rate would be five rather than four per cent was evidently responsible for the decline in the afternoon, another possible factor for the decline being the retirement of two of the leading directors as a result of the decision to inaugurate a dividend. The preferred stock of the company held quiet and steady at 78 during the unsettlement in the common.

Stronger features of the list included helfs the steels, Canada Car common, and Shawingan and Dominwould be five rather than four per
